PROHIBITION IS THE GREAT TOPIC

Kailua Convention of Hawaiian Evangelical Association Pass Resolutions.

MAKEKAU SOLE OPPONENT

He Says Senate Is Bound Hand and Foot to Liquor Men and Could Not Help.

RESOLUTION.

The Hawaiian Evangelical Association, assembled in celebration of the ninetieth anniversary of the landing of the pioneer missionaries at Kailua, Hawaii, reaffirms its past declarations in favor of the prohibition throughout this Territory of the manufacture, sale and importation of liquors of every kind;

It reasserts its condemnation of the saloon as the inveterate foe of the church and of all its agencies for the betterment of the community;

This association, moreover, pledges its members to the most earnest cooperation in promoting the cause of prohibition during the few weeks remaining before the special election of July 26;

It calls upon the men in all the churches represented in this association to cast their ballots in favor of instructing the next legislature to enact a prohibition law for Hawaii;

It appeals to all good citizens to unite in a supreme effort to outlaw the saloon in Hawaii;

It requests that these resolutions be read in the one hundred and one churches of this association, and that prayers for the downfall of the saloon in Hawaii, be offered continuously in every church and from every family altar in the land.

The above resolution, passed unanimously, brought to a close the annual meeting of the Hawaiian Evangelical Association, at Kailua from June 25 to June 30, the Honolulu delegation returning to the city by the Mauna Loa yesterday.

At the convention the prohibition question overshadowed everything else, notwithstanding the fact that this meeting was the ninetieth anniversary of the landing of the first Christian missionaries in these islands, and therefore it would naturally have been expected that the thought of commemoration would be the most prominent.

There was scarcely a session of the entire conference when the question did not come up in some form or other and at least half the sessions were given over entirely to it.

Realized the Crisis.

The delegates from the various churches throughout the islands, some six hundred in number, seemed to realize that they are facing a crisis. Better than anyone else, they realize that the present condition of things can not continue or else the Hawaiian race is doomed.

Intemperance is killing the Hawaiians off at an alarming rate and the feeling seems to be unanimous among their best men that prohibition is the only remedy adequate to the present desperate case.

The Keynote Sounded.

At the opening session of the conference on Saturday afternoon Secretary Olson sounded the keynote when he referred to the prayer of Olohehena, the first Hawaiian Christian, and the command of Rawahehema, I, uttered to his subjects on that very spot at Kailua in 1813, suggesting the two themes of the conference.

The Hawaiian chorales, as well as facing a lot of singing. To bring the gospel, as the hymns played, to all the people, and to put a stop to the devastation coming from the use of intoxicating liquors, the very thing the great Rawahehema, in his day, brought to the attention of the Hawaiians.

As would be seen, the latter address, being the more urgent, received by far the most attention.

Oahu Delegation Led.

Brewery Stock is Going Up.

BOB BURDETTE TALKS OF TRIP

Famous Humorist-Preacher Stops in Honolulu on His Way Home.

With all his old humorous traits and a willingness to talk and entertain, Robert J. Burdette, of Los Angeles and all the rest of the great American republic, arrived in Honolulu yesterday, on his way home after a tour of the Orient with Mrs. Burdette. Their present visit will last only one day, as they will resume their journey home at eleven o'clock this morning, when the T. K. K. Chiyu Maru sails for San Francisco.

LOCKS MAN IN, FIRES ON HIM AT WINDOW

Deliberate Attempt at Murder in Manoa Valley Fails from Poor Shooting.

A deliberate attempt to commit murder shortly after midnight yesterday morning miserably failed, and the Japanese (his) whose life was sought is, apparently, in a quagmire to know who might be his deadly enemy. Namura, the driver for Miss Harrison's dairy in the Manoa Valley, was the victim of the murderous intent, and he only escaped as a result of poor marksmanship and a previous misfortune which caused him to occupy a different room in the quarters occupied by the men who run the dairy.

About six weeks ago a prisoner who escaped from a gang that was working out in the valley entered his room and got away with his clothes and what money he had in his pockets. This occurrence induced him to share the adjoining room with Wakisaka, another Japanese employed on the Davison place.

Fired Through Glass.

Shortly after midnight yesterday evening a shot was fired through the window of the room Namura formerly occupied, and the noise of the discharge and the falling glass awoke the two Japanese who were asleep in the next room. The light was burning low in the room they were occupying, and when they opened the door and entered Namura's old room the midnight murderer fired on them through the hole in the window. The two frightened Japs then rushed for the door which led out into the open, and were dismayed to find that exit barred on the outside. The mysterious assailant continued firing through the hole in the window, and four thirty-two caliber bullets whizzed past, through the outer wall of the house, and lodged in the side of the building.

(Continued on Page Eight.)

JACK HAD SOME TROUBLE HIMSELF

Wanted to Kill Him in Harbin and Held Out His Letters—Had Many Hardships.

"Blood-curdling Thrills I Have Felt" would be a suitable title for a book that Jack Atkinson might write in future days of leisure. That gentleman returned yesterday from Harbin via Yokohama, where he took the Japanese liner Chiyu Maru for home, and his account of his experiences and observations in the czar's domain would be good material for a writer like London or Gorky.

Notwithstanding some harrowing experiences Mr. Atkinson is looking well physically, and scores of his friends greeted him yesterday afternoon and last night. It was rumored in Honolulu that a dangerously large number of boujiks, as the Russian peasants are called, might meet Mr. Atkinson when he arrived and try to disgrace him with clubs and knives and finger nails, and Chief of Detectives McDevitt, Deputy Sheriff Charles Rose and several policemen were there to quell any trouble that might break out but happily and fortunately nothing serious happened.

Evaporated Threats.

One Russian, a six-footer with a lean and hungry look and blood in his eyes, sighted the representative of the immigration bureau, and raised his hand like fist in a threatening manner, but Atkinson did not look frightened, and the belligerent shoved his implement of combat into his jeans and snatched off toward the old fishmarket shed.

(Continued on Page Four.)

COMPLETING PLANS FOR ENTERTAINMENT

The final arrangements for the entertainment of Secretary of War Dickinson are going on rapidly. Two meetings were held yesterday to discuss the matter, and the two committees that have been appointed to prepare things are hard at work. Honolulu will make the most of her opportunity to entertain a cabinet officer, and as the day comes on the national holiday, the entertainment will act the part of the patriotic program that the citizens have been so hot to prepare.

In Secretary Dickinson's party are Mrs. Dickinson, J. M. Dickinson Jr., General Charles R. Edwards, Mrs. Edwards, and Miss Edwards, Miss Bessie Edwards, Mr. and Mrs. Larr Anderson, Lincoln H. Clark, confidential clerk, and George Long, a messenger.

The party will proceed from here to Yokohama; thence to Nagasaki overland, and then to Manila, for a six weeks' stay. From the insular capital the party will proceed via the Trans-Siberian Railroad to Europe and home, leaving Cherbourg about October 8.

ANOTHER UNANIMOUS PROHIBITION VOTE

One of the most enthusiastic and well attended meetings that has yet been held by the prohibition campaigners took place last night at Vineyard Camp No. 2, so many being present that half the audience was standing for the hour or more during the lecture.

P. W. Rider and his lieutenants presented the usual stereopticon views, a powerful light being available which made the pictures show more clearly than usual on the screen.

The usual vote on prohibition was taken at the end of the lecture, which went unanimously for the abolition of the liquor traffic. Plans are now being made for the meetings to be held next week.

COMPLETE SUCCESS MARKS HAMAKUA DITCH OPENING

(Special Wireless to The Advertiser.)

KUKUIHAELE, July 1.—The water turned into the intake at Kawaihau, nine miles up the Waipio Valley along the new ditch, reached the main measuring weir of the ditch company this morning, on schedule time, demonstrating beyond question the accuracy of the engineering work in the ditch construction. The water, by nine o'clock, had reached the lower weirs at the various intakes of the plantation distribution ditches, and the first distribution of water, according to contracts, was begun. The Pacific Sugar Mill plantation, the Honokaa Plantation and the Pauhau Plantation are now being served. During the night a fifty-ton boulder fell from the face of the overhanging pali onto the flume in the Kawaihau branch of the system, carrying a portion of the flume away. This accident is not interfering with the distribution of water and is only partially interrupting the full flow of the lower ditch. The flume will be repaired at once.

Speeches at the Opening.

The water was turned into the Kawaihau intake at a quarter past nine, after which congratulatory speeches were made. W. G. Irwin, Fred Waldron, Manager Gibb, Frank Thompson, L. A. Thurston, J. T. McCrosson and Jorgen Jorgensen were the speakers.

Every speech was marked with the cheerfulness of the occasion and the promoters and officers of the ditch company received the hearty congratulations of their guests over the successful termination of a great work and the successful beginning of a new enterprise, that of supplying water to ensure

NORRIS GIVES AWAY HIS RANCH

180,000-Acre Property Presented Gratis to Chas. Gardner Macomber.

CONSIDERATION IS ONLY \$1

Colonel Has Contemplated the Munificent Gift for a Long Time.

Col. Sam Norris has given his 180,000 acres away to Charles Gardner Macomber, together with everything on it. The deed of transfer was filed at the bureau of conveyances yesterday, the consideration mentioned in return for the fine property being the sum of one dollar.

The property thus freely given to Macomber consists of the following:

Kahuku Ranch, in Kau, as transferred to Colonel Norris many years ago by G. W. C. Jones;

All other lands acquired by Norris during his long residence in Kau;

All personal effects in Colonel Norris' home, furniture, carts, materials for building, buildings and other improvements;

All cattle, cows, calves and horses retained by Colonel Norris at the sale, about a year ago, of the ranch stock to Sam Kaulana.

The colonel excepts in his munificent gift only notes payable or moneys due. In the remarkable bill of sale Colonel Norris says:

"I finally hereby state that this bill of sale has had my most earnest consideration for some time past and I freely and voluntarily state that it is the outcome of my own free and good will toward the said grantee, Charles Gardner Macomber."

Colonel Norris is apparently in very feeble health, as he seems to have been unable to sign his name to the deed. His mark, which is extremely wobbly,

(Continued on Page Two.)

REBATING IS ADMITTED BY S. P.

Californian Line Pleads Guilty on Eighteen Counts in Indictment.

SMALL FINES ARE IMPOSED

One Thousand Dollars on Each Count Paid Without a Protest.

SAN FRANCISCO, July 2.—The Southern Pacific Railroad, through its legal representatives, yesterday entered pleas of guilty on eighteen of the counts against it in an indictment charging the granting of rebates to favored shippers and having discriminating rates in force.

The court imposed a fine of \$18,000, one thousand dollars on each count.

COTTON MILLS TO CURTAIL OUTPUT

As Consequence 100,000 Operators Are Thrown Out of Employment.

BOSTON, July 2.—Owing to the necessity for a curtailment in their production, many of the cotton mills closed down yesterday, announcing that they would reopen on July 11. One hundred thousand operatives are temporarily out of work as a result.

RESIGNS POSITION TO BE POLITICIAN

SAN FRANCISCO, July 2.—Alden Anderson yesterday tendered his resignation as State superintendent of banks to Governor Gillett. Political reasons are given to account for the resignation.

ECONOMY SHOWS SATISFACTORY GAINS

Federal Treasury Has Substantial Surplus to Report for the Year.

WASHINGTON, July 1.—The treasury department in an official statement made public today, announces a surplus of \$9,402,000 of ordinary receipts over expenditures.

This statement is significant as compared with the fact that last year there was a deficit of \$56,734,000.

The government's total deficit, including the Panama Canal obligations and the public debt, amounts to \$25,864,000, as against \$118,795,000 last year.

HEAT WAVE HAS TWENTY VICTIMS

NEW YORK, July 2.—The whole East is sweltering in a heat wave. Yesterday's reports from several of the eastern cities are to the effect that twenty deaths and scores of prostrations have resulted.

DANISH MINISTRY IS DISSOLVED

COPENHAGEN, July 2.—The Danish cabinet yesterday tendered its resignation and that of the members of his cabinet to the King.

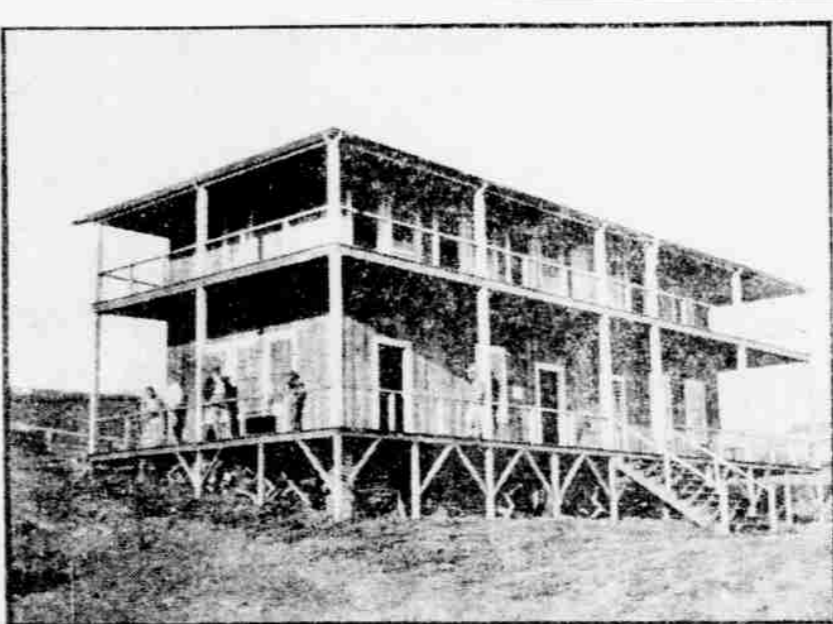

SCORNED ROOSEVELT.

ALBANY, July 1.—The senate has defeated the Gobb direct primary bill amendments, which were endorsed by Roosevelt.

JORGEN JORGENSEN, who laid out and superintended the construction of the ditch.

PROHIBITION IS THE GREAT TOPIC

(Continued from Page One.)

broke away from the usual order and made all their exercises bear upon the temperance question, singing temperance songs and reciting temperance verses and quotations.

In accordance with their usual custom the Hawaiians began each day's program with a sunrise prayer and testimony meeting. These are always largely attended and interest runs high. Even the hour of prayer was not counted as too sacred to devote to the burning question of the hour.

Spark to Tinder.

When Samuel K. Kaunipili, the leader for Monday morning, read from the scripture that drunkards shall not inherit the kingdom of Heaven, it acted like a spark to dry tinder. Two and three at a time were on their feet to speak. With one or two exceptions they were all outspoken against the use of liquor in any form; and yet undoubtedly there were many present in that large audience who do take an occasional drink. In fact one speaker tried to justify moderate drinking, but his declaration raised such a storm of protest that no one ventured to present the compromise view again.

Beckley's Speech.

Three of the evening sessions were set apart for prohibition rallies. On Monday evening, Fred Beckley and Rev. E. B. Turner were the principal speakers. Mr. Beckley, who is chairman of the league for the organization of prohibitions clubs among the Hawaiians, set forth in an eloquent address the significance of the present movement, showing that it had its origin in congress where a bill was introduced by Senator Johnson, who no doubt was influenced to do it by the appeals which came to him from the temperance people not only of Hawaii but of the entire country.

He paid a high tribute to Delegate Kahanamoku for securing to the Hawaiian people a chance to vote upon the question. He denied emphatically the objection raised by the anti-prohibitionists that Mr. Woodley was the instigator of the present movement. In conclusion, he urged them all to go home and work with might and main for the success of the vote on July 26.

"If we fail to handle this liquor problem ourselves we are sure to have government by commission," he declared. "We have the power to prevent it by carrying this election and by enacting a prohibitory law ourselves."

Reply to Opposition.

Rev. E. B. Turner had been asked to reply to some of the objections commonly raised against prohibition. He confined himself to three points, showing conclusively:

That drinking beer, even moderately has harmful effects physically, mentally and morally.

Men training for athletic teams are not permitted to use liquor in any form, because it effects their strength and power of endurance. Life insurance companies have statistics to show that the death average among drinkers is 1642 to every 61,000 and only 560 among abstainers.

By a recent test with linotypers (typesetters), men who were given only two glasses of beer a day lost 15 per cent on their speed.

In the State penitentiary of New York out of 1200 inmates, seventy-five per cent are committed for crimes due to drunkenness and intemperance.

That the Bible does not sanction the use of liquor.

Any attempt to make any text do so is to distort it from its original context, which is wholly unjustifiable if not rank hypocrisy.

That the statement that the loss of license revenue will increase taxation is misleading and untrue.

"Carroll, our greatest statistician," he said, "shows that for every \$1 of license revenue paid in it costs the government \$23 in the maintenance of jails, penitentiaries and workhouses, for the men who are led into crime through intemperance."

Senate Untrustworthy.

It came like a bombshell in a camp of war when on Tuesday forenoon,

after addresses by Rev. A. B. Dodge and Rev. W. K. Poat on "What we can do to promote the cause of Prohibition," Makela of Hamakua, former member of the territorial legislature, made a real hot speech against prohibition on the ground chiefly that even if the present movement should succeed and the plebiscite carry, the next legislature wouldn't pass a prohibition law. He named the senators, one by one and showed how either directly or indirectly nearly every last one was controlled by the liquor men. The thing to do, he said, was to get the right senators elected. There were some so unkind enough to intimate that he was doing some pre-campaign electioneering for Makela.

Promptly Sat On.

Be that as it may, his speech added fuel to the prohibition fire. And before the sessions closed he probably was sorry he spoke. The chief address on Tuesday night was by J. A. Magoon of Honolulu. He referred with great respect to the splendid manner in which this big conference was handled as sufficient evidence that the Hawaiian people were capable of caring for themselves and could not help but feel that the large attendance and the very great interest manifested was the most hopeful sign he had yet seen for the success of the election in July.

Telling Figures.

One of his most telling arguments was the statistics he produced to show how during those periods of Hawaii's past history when the sale of liquor was taken the arrests for crime, drunkenness and such were in every instance less than one-half of what they were during the periods when liquor was freely sold.

The Climax.

But prohibition interest reached its climax on the last evening of the conference, when Rev. Stephen L. Desha and Rev. M. K. Nakuina both made most eloquent addresses, striking down with sledge hammer blows the arguments advanced by the opponents of prohibition, especially the argument advanced the day before by Makela.

Several times during the speeches Makela tried to interrupt, but neither the audience nor the speaker would countenance him.

On the question of government by commission, Mr. Desha showed how groundless is that fear. He referred to the case of Oklahoma Territory, which while a Territory voted for prohibition and not long after was made a State. The very fact that congress decided to confer the privilege of deciding this question upon us shows that it has confidence in us.

The last and in many respects the best speech of the conference was by Rev. M. K. Nakuina. He made a strong appeal to his people to stick to the main issue, and that is "Shall we continue the saloon?" The liquor men are trying to confuse them with all sorts of side issues, but if they will heed none of them, but present a united front at the polls on July 26 victory is assured.

At the closing session of the conference the resolution given above was unanimously adopted.

NORRIS GIVES AWAY HIS RANCH

(Continued from Page One.)

is witnessed by three persons, including a notary public.

Private Information.

The announcement that Col. Sam Norris has sold his ranch has been made at intervals during the past sixteen years.

John Jones, of the McNerny Shoe Store, received a letter from a friend in Kau yesterday containing the statement that Charlie Macomber, an old friend of Colonel Norris, entering the old gentleman's room the other day, found him unconscious on the floor. After he had regained consciousness he told Macomber he had fallen the night before and hadn't known anything since. Colonel Norris seemed to realize that his condition was serious and calling for pen and ink he signed the bill of sale. At the same time he gave to Walter Hayselden the sum of fifteen thousand dollars in cash as a token of his love and esteem for the young district magistrate at Waihi.

Lava and Love.

Kaunika Ranch was once the property of the late G. W. C. Jones, father of the young man who received notice of this last sale. At the time the Jones interests were sold to Norris there were four thousand head of fat cattle feeding on the range. Kahauna was

Saturday, July 2.

There is a demand for the blue serge summer suit because of the possible combinations one can construct. A coat, two vests of different patterns and a couple of pairs of trousers and any one can be a Berry Wall.

Our suits of Blue Serge are all to the good. Not a soon-to-be-purple one in the lot.

London serge and London dyes with a regular merchant tailor finish. Not a thread of cotton in the entire makeup of the two pieces. They are cut correctly. Full at the hips and never the sign of a bag in the knees will be seen in them.

Now for the man who has a blue and wants a grey.

Grey dominates in the matter of summer suits for men. There is a breeziness about our suits that is not noticeable in the others.

The coats are quarter lined to allow the air to slip through. Honolulu climate leads one to the light and airy in the selection of clothing and our cabinets on the second floor are the containers of very attractive pieces. No man of taste will leave here dissatisfied. Thirty-eight distinct patterns of summer clothing, including light greys, with white and dark stripes to select from. Lightweight and light shades of genuine all-wool homespun, cut as correct as style makers can direct. \$22.50 and more, gets one of them and no charge for the satisfaction that goes with the clothes.

considered a good buy for Norris, whatever he paid for it. If there was an objection to the place it was due to the fact that an occasional flow of red lava came down over the grass and made feeding scarce. In 1868 there was a gusher that nearly put Kahauna out of the running. Again in 1887 something attracted the lava toward its succulent grasses and another pile of a spread over the soil. These little disturbances had the effect of depressing the value of the place as a ranch and then a lawsuit bumped the colonel and depressed him.

It seems that in the long ago, the colonel became enamored of a French woman, or she of him, and an engagement was the result. Suddenly the swain in the case disappeared from his haunts and soon after California had a new resident. This was Colonel Norris. Years later the French woman found where he had located and brought suit for damages for a battered heart.

A Visible Streak.

Colonel Norris is a Dane with a streak of eccentricity that is visible at all times. Years and years ago, when John C. Fremont was appointed minister to Denmark, Norris called on him at his residence in Copenhagen. He tells the story of meeting Mrs. Fremont coming down the stairs and inquiring of her if she had seen Mr. Fremont.

"There is no such person," replied the wife of the pathfinder.

"Your pardon, madame, I should have said Colonel Fremont."

Won His Title.

He was directed to the office of the representative of the United States and there began a friendship that lasted for many years.

Just when Norris came to Hawaii is not of record. In 1848 he kept a coffee shop at the foot of King street near the river and in that same year he left for the mines in California. He made occasional trips between the Islands and the mainland, traveling often with Captain Fuller. Suddenly he was lost to sight of his friends and when heard of again he was with the Walker filibusters in San Joaquin in Central America and it was there he became a colonel in a regiment of soldiers of fortune.

Later he cropped up in Mexico and interested himself in a revolution against Diaz and was forced to flee the country between two days. Next he was heard of in California in the Sacramento Valley as the owner of a valuable ranch property. It was in New York he met the French woman who later brought suit for breach of

promise. Norris was afraid of the result and left the East. Shortly after taking up ranch life he was struck in the head and temporarily lost his memory. The court upon the application of someone put him under guardianship of two men who have since become prominent in business circles in San Francisco.

When Norris came back to a realization of events, he found that his property interests in the State had been transferred to his guardians and they were loth to give it up. Then he brought suit to recover and about the same time the breach of promise suit was brought against him. Norris, as plaintiff, carried his land suit through all of the courts in the State and finally to the highest tribunal in the land, the United States Supreme Court. He was defendant in the love suit and the woman got judgment for a large amount for her wounded feelings while old Sam got nothing. No record of the settlement of his land suit was filed in California until recently when, after twenty-three years, the State court was notified the decision was for defendants. To pay the judgment of the woman to whom, as a young man, Norris had made love, he was obliged to mortgage his property to a local banking house.

A Strange Man.

If Colonel Norris has been considered eccentric, not to say peculiar, during the passing years, there was a reason and the records of the court of California will furnish it. He did many strange things in the management of his property in Kau. When Jones sold out to him, young Arthur Jones was considered competent to manage the place and was employed by the colonel but at the end of six months he was told to move. Charlie Macomber was the next in line and he filled the place for the same length of time only to be told at the end that it was not right for a man to stay too long in one place. Macomber took up a place in the neighborhood and continued a warm friend of the old man. Changes were abrupt and frequent until finally there was no one left but a lone Chinese herder to look after the great property. It is in history that once he sent his men out to round up the cattle and brand the calves. They were put into corrals and one morning the old man came down and ordered them turned loose as he did not believe in keeping them locked up. There has been little attention paid to the management during recent years and other ranches have profited by the addition of mavericks that have strayed over to them.

A half-dozen times during the past fifteen years the property has been

And we have the best assorted stock of outing clothes in Honolulu. Trousers made of nut brown corduroy for the hills. Trousers in serge and flannel for the tennis courts and the links. No man can go wrong in a pair of them at \$6.00 or even \$6.50.

We are selling these trousers, white serge and flannel from \$6.00 upwards. You will not find better fitting clothing anywhere. More fetching patterns never left the loom. Some of them have contrasting stripes and other the silken self-shaded pattern.

Young Mens' Suits

Regular collegebred. Cut to style with full hips and tapering at the knee. The high roll at the bottom takes one's thoughts back to Broadway and the "Great White Way." These suits go to good dressers at prices ranging from \$15.00 to \$25.00.

We can fit you today.

virtually sold but before the deeds could be passed the colonel, for one reason or another, would balk at a settlement. One time he agreed to sell to the late J. O. Carter but when it came time for an inventory and transfer, something that was said led Norris to believe that Carter was merely the representative of someone else and he put the question squarely to him.

"Are you buying this for Charlie Cooke?" asked Norris.

Mr. Carter happened to be a truthful man and answered in the affirmative.

"Then you don't get it for I'll sell nothing of mine to any damn missionary."

There have been other and similar incidents, all of them apparently keeping the fact in mind that Colonel Norris was an eccentric individual. To the frequenters of Nolte's, Norris was a familiar object. Of medium height, stooped with age, his long curly white whiskers and hair always spick and span, he could be seen for hours delving into the literature banked on the table. The "Beaver" was his headquarters whenever he was in town during the life of Heinrich Nolte, and it was often said that all of his property would go to Nolte's daughter at Norris' death.

SPORTS

JEFF, IDOL OF THE SPORTS

Holds Levee at Which Many Well Known Men Gather to Wish Him Good Luck.

BENO, Nevada, July 2.—Jeffries held a levee at his training quarters here yesterday afternoon, shaking hands with two hundred sporting men, who filed past him, expressing their hopes for his victory on Monday. In the line were Tommy Burns, from whom Johnson won the championship in Australia; Lang, McIntosh, Battling Nelson, Sam Langford, Abe Attell and others well known in pugilistic circles. After the reception, Jeffries called Attell to one side and conferred with him regarding Johnson's methods in the ring. Attell was in Jack O'Brien's corner when the latter met Johnson in Philadelphia, less than a year ago.

Tommy Backs Jeff.

In an interview, after Burns had had a chance to size up the undefeated champion, Tommy Burns announced that Johnson did not have a chance with the big fellow.

Johnson Still at Work.

Johnson did some road work yesterday to taper off his training, going twelve miles at an easy pace. He continues to smile at all the reports from Jeffries' camp.

Suit Against Jeffries.

A moving picture suit was instituted against Jeffries yesterday, the attorney who drew up the agreement whereby the pugilist gave the moving picture rights to certain firms, stating that he had not received his fee of \$5000.

Harting for Clockholder.

George Harting has been chosen time-keeper for the fight.

TO PLAY FIRST GAME OF POLO THIS YEAR

The first real polo match of this season will be played this afternoon between the Fifth Cavalry team and the Oahu team out at Leleiaha. The Oahu polo players have had several weeks of practice and a goodly number of enthusiasts have turned out each time, so that there is abundant material to look to at any time when substitutes happen to be needed.

Lieutenant Rogers of Fort Shafter is new at the game this year, but he has progressed so well that he has been selected as one of the bench men to go out to the cavalry camp today to play if an extra man should be required.

The Fifth Cavalry team has been practicing regularly out at Schofield Barracks, and with these preliminary matches the two teams on this island expect to run the Maui team, which holds the inter-island championship, a hard rub for this year's honors.

MILITARY GAMES TODAY WILL CHANGE STANDING

If the Marines defeat the Fort Rogers in the first military league match this afternoon they will move up to number one in the teams' standing, but the Fifth Cavalry has to be reckoned with. The Marines have won eight and lost five while the cavalry has won seven and lost four, so if each of these teams win their next matches they will tie for first place.

The Marines will play the artillery beginning at half past one o'clock this afternoon at the league grounds and the hospital corps will play the park team from the empires Cleveland and Chattanooga, starting about three-thirty.

BOTH BUSY.

"We were sweethearts once, I have always intended to marry that girl." "And why haven't you?" "Well, so far, we have never happened to be unmarried simultaneously."

WASEDA BASEBALL INVADERS FROM JAPAN INTRENCHED ON ATHLETIC PARK DIAMOND

Crack Team of Mikado's Empire, Who Will Play American National Game With the Oahu League Nines Beginning Tomorrow at Athletic Park.

E—Yah, E—Yah, E—Yah Yah, Waseda University, Rah, Rah, Rah.

With this yell the varsity baseball team of the Waseda University, champions of the Mikado's empire, were "welcomed to our city" yesterday afternoon by a hundred students of the Japanese High School here, while a host of Honolulu citizens and oriental residents headed by Mayor Fern and a deputation of local dignitaries were on the wharf to greet the invaders who made their way in automobile procession to the Athletic ball grounds and intrenched themselves at once.

At half past four o'clock yesterday afternoon they were on the diamond in battle array and looked a worthy foe to meet the Oahu league and dispose of them in detachments as the latter advance for the fray. At all events they are here to stay and the big leaguers can not dislodge them until the end of the summer's campaign, when they will hasten back to Japan to defend their honor against the baseball players of the Chicago University, who have accepted their challenge to combat for far eastern pennants in the great American national game.

Had Smooth Voyage.

After a very pleasant and peaceful voyage of ten days the student-battlers in command of Professor Abe, fit, young, marched down the gang plank from the steamer Chiyu Maru and entered three large touring cars for a whirl about town. After a bird's-eye view of their new paradise home, they wended their way out to Athletic Park and donned their white ball togs for their first practice work on the diamond where they are to contest for international honors. A great throng of admirers trailed in their wake and crowded into the grandstand to see this real Japanese baseball team in action.

The men looked very natty in their new all white suits and brought on several rounds of vigorous applause at their batting and fielding which showed up strong. They are not little brown men as many suppose, but big husky athletes, such as are seen in the States. Barney Joy celebrated as pitcher and he hurled the sphere at them while the grandstand called balls, but Barney never questioned the decisions as he twirled in the curves, while the Japanese batters hit him all over the field. After an hour or so of practice the visitors returned to their autos and were conveyed to the Asama Club on School street, which was packed and open for their reception.

Two dramatic beds in one room and four in another gawmed invitingly for them to repose while Professor Abe was provided with the star chamber in front.

Abe Baseball Veteran.

Professor Abe is a graduate of the Hartford University of Hartford, Connecticut, and has been instructor in social problems at the Waseda University for a number of years. He went to the baseball exposition in the States

with his university team five years ago. They played twenty six games with the American college teams, covering a route from Los Angeles as far north as Seattle. Baseball was comparatively new to the Japanese then, and the Wasedas were only victors in seven of the matches.

They have been working hard to master the details and strengthen the team play ever since, and the professor said yesterday that he had a fine bunch of ball players now, who could hold their own most anywhere in the American game.

Catcher Going to New York.

Nishio, the manager of the nine, and Yamawaki, the catcher, are the only graduates with the team, and both finished their courses this year. Yamawaki is going to continue on to New York after a month's stay here and join a relative who is at the head of a large Japanese firm in the eastern metropolis. He will be the power behind the bat, however, during his stay with the team.

Yamawaki is the only one of the visitors who played on the Waseda team five years ago when they went to the coast. He has always been in the position of catcher, and Professor Abe says he is one of the best in Japan. When this old standby leaves, Matsuda, who is one of three pitchers in the bunch, will take his place as backstop.

Three Pitchers on Team.

Matsuda has played on the team three years and will graduate from the institution next year. He is said to be a good all-around man, especially capable of first base and as an outfielder. Or is another one of the pitchers, but he hurt his arm last year, and this impediment of nature to the young batters is somewhat weak yet, so that Or can not go the full nine innings in a tie box. He is a Japanese giant, a powerful and sure hitter, and will lead off in the batting for the first game against the All Oahu league team tomorrow afternoon. Oama, the third pitcher, has excellent control of the ball and pitched the only winning game against the Wisconsin University team, which played a series of matches in Japan last year. The American college team beat the Wasedas two out of three. Oama will be half the pitching in the fourth of July game against the Chinese team, alternating with Matsuda. He is a specialty player, and will not occupy any other position than pitcher.

Tobita, who is captain, is one of the best batters on the team. His regular position is at first base, but he is a good outfielder and Professor Abe said that he would take the field while Or stood at first.

Best All Around Player.

Hara, the second baseman, is Professor Abe's favorite. He is the best all around player on the team, the professor says, is very quick in his movements, a strong batter and plays a fine game of ball. Isoda, the regular third baseman, is the heaviest hitter on the team and will be the third man in the batting order. Fukuhara, who will substitute, is better in the field than Isoda but not so good at the bat. Nunomura will head off the hot ones in the position of shortstop in the first game tomorrow. He had a severe illness about a month ago and has not fully recovered his strength. His batting is a little weak yet, but he hopes to be able to make a good showing in the first game.

Mikami, the left fielder, was awarded his position on the team upon taken of appreciation of his brilliant play as a student. Professor Abe said he was one of the best players in the university. He anchors playing on the team and the professor says he works hard and does the best he can on the diamond.

Grandstand Player.

The center fielder, Ogawa, is one of the best, if not the best, in Japan, the professor declared. "He is almost perfect player," Abe says, "and all ways makes a big hit with the grandstand. He develops remarkable speed

running backward to get under a fly and if he recovers from sickness, which has upset him some, he will be the attraction for the fans to keep their eyes on."

Captain Tobita will play at right field when he is not at first base. When right field is open Hayakawa will substitute in this position and Yamaguchi, another bench man, will relieve the catcher when necessary.

Bunted Balls Into Sea.

During the voyage the Wasedas undertook to practise hunting on the deck of the Chiyu Maru, but after they had passed six balls to the fishes they found

BACK HARRY HEARST AND MAJOR COLLIER

Runner and Harness Horse Favorites With Horners From Hilo Ranch.

WAILUKU, Maui, July 1.—Horses are still arriving for the big race meet to be held at Spreckels Park Monday. New stables have been built at the track and bleachers have been erected to accommodate the large crowd which is swelling with each steamship arrival for the fourth of July events. A large delegation of Hilo turfmen is now on the grounds, including English. The Horners are bringing a big commission to back Harry Hearst and Major Collier. The horses entered for the blue ribbon event for the \$500 purse class up about even favorites. They are all in good condition and there is very little choice between them.

John O'Rourke's horse, Webber, was worked down to a twenty-two pace today under a strong pull. Flavigny, the new mare from the Coast, in charge of Cal Leonard, has not had time to be properly conditioned. If she had two weeks more she would win the big race. Decote's horse, Major Collier, is ready to run now. Two-fourteen or faster time will take the stakes for the mile and a quarter even.

Louis Warren's horse, Warning, from Oahu, has not been worked hard on account of a bad leg. His trainer is depending on his class to pull him through.

H. M. AYRES.

COMPUTES HANDICAPS FOR YACHTS IN RACE

Four Crafts Will Get Away Today in First Contest for the Maui Perpetual Challenge Cup.

Charley Danahase touched the button that set his mathematical mechanism to going through a complicated process of computation yesterday afternoon, and he arrived at the various handicaps to be accorded the yachts which are to start off at two o'clock this afternoon in the first of the perpetual series of races from Honolulu to Kahului.

The Kamehameha is the scratch boat. She will have to allow the Charlotte C. fifty-three minutes and nineteen seconds. The Gladys will get one hour, forty-one minutes and fifty seconds, and the Helene two hours, thirty-seven minutes and seven seconds.

The yachts will get away from the old buoy in Honolulu Harbor promptly at two o'clock, and expect to reach Kahului on Monday, the fourth of July. The launch Kulanani II. will be off at six o'clock this morning, with Commodore James Jaeger and Harry Ryecraft on board, expecting to make the run to Kahului during the day. They will be on hand for the Maui horse races at Spreckels Park and to judge the winner of the yacht race when the boats pass the American Girl buoy in

MANILA LIKES REPORTED PILIKIA.

The Manila Times says, "I told you so," in commenting on the report that there are Filipino laborers in Hawaii...

Seriously, the above is what might have been expected. Those who have had to do with Filipino labor can understand the situation thoroughly.

The street railway of Manila was constructed at a cost for labor that was less than the estimates and natives alone were employed on the work.

As a rule the greatest difficulties experienced have been found to develop in attempts to employ labor in numbers at points removed where the men have had to be transported into a strange region.

We have never or felt any sympathy for the recruiting agents of the Hawaiian Planters' Association in their efforts to obtain Filipinos for work on the plantations in these islands.

But even though we were surfeited with labor there still would be little disposition on our part to favor Hawaii by encouraging the surplus to go there.

It now appears that some of the Filipinos who were induced to go to Hawaii by the fair prospects of comparatively high wages, have become dissatisfied and want to return home.

In the meantime their patriotic brethren in Manila, in mass meeting assembled, lifted up their hands to Heaven and solemnly swore to extend them succor, which means providing them with steerage passage back to the old sod.

THE KANELA CASE.

In this issue appears a letter of explanation in regard to the Sam Kanela outrage, written, as it states, "in justice to the county attorney's office."

The attorneys retained to assist in the prosecution now state that a conviction under existing law was impossible!

Is this a joke, or are the laws so bungled in framing or interpretation that it is not possible to punish a man who will deliberately leave a wounded man to die in the street, a man wounded by himself, either accidentally or through criminal carelessness?

It is said in excuse of lynching parties that law nowadays carries with it few of the elements of justice. That there is truth in the accusations against the law appears in the communication from Kinney, Ballou, Prosser and Anderson.

It is interesting to know how very little protection the unfortunates of the law gives us and how successfully legislatures, courts and lawyers have been able to divorce law from justice.

INGERSOLL AND PROHIBITION.

Bob Ingersoll was avowed fearless in the expression of his opinion, a man who knew men, their feelings, their desires and their hopes.

I am aware that there is a prejudice against any who are engaged in the manufacture of alcohol. I believe from the time it comes from the cooled and poisoned worm in the distillery until it enters into the bowl of death and sin.

And when you think of the jails, of the almshouses, of the asylums, of the prisons, of the scabbled upon either bank, I do not wonder that every thoughtful man is prejudiced against the damned stuff called alcohol.

NEW YORK PRIMARY DEFEAT.

The defeat of the direct primary measure in the New York State legislature in special session to take the matter up is of more than local importance.

The defeat of the vote is, therefore, the turning down of Governor Hughes in the last reform measure he will urge and the turning down of Roosevelt in his last State in the first measure he has urged since becoming President.

It is nice to be told that the city attorney reports "satisfied" with the territorial grand jury, even though he complies his expressions of report with a request that he did not follow indication when he "felt like slapping the little man's face."

SELF CONGRATULATORY.

The Advertiser seldom blows its own horn, but at this particular time we believe we have reasons for a great deal of self-congratulation.

Nearly a year ago we began a campaign against the sale of imitation, compounded and rectified liquors. The campaign was met with strong opposition on the part of the wholesale liquor dealers' association.

That such is the case is a victory and a long step gained for the good of the community.

Coaling at Moji--And Suffrage

Robert Burdette in Los Angeles Times.

MOJI, Japan.

One evening the ship was lying at anchor in the wondrously picturesque harbor of Nagasaki, so landlocked that the ocean may be a thousand miles away, and we loitering in a fairy lake among the inland mountains.

Then at once the coal began to flow in an unbroken stream up the platform staircases, passing from hand to hand so swiftly that the eye could not follow one basket all the way from the barge to the port where it disappeared.

All day long, and never a basket falls. There is never a balk. The line of passers down in the barge changes position now and then, for some positions are harder than others, without missing hands or losing step.

At one of the large grays two women are working at the port positions. Each of these mothers have their babies swung at their backs, Japanese fashion, one of the little ones stands it as long as he can, and then cries lustily.

"That is the ideal social condition," and then, having made a positive and unadmitted statement with the most dignified assurance, he added: "Isn't it?"

I didn't say that it was. I am very old and feeble, but I have seen so many phases of social and political conditions that I can give you a very good opinion on the first voyage after having exceeded the average speed and won the big bonus on the trial run.

I didn't have to wait long. For it was expected that we would at Moji. The day we reached Moji was a dull day. The clouds gathered over the bay, and before the evening had come the wind came changing from the north to the south.

It is when I see things like this in my travels that my blood throbs at 112 deg. Fahrenheit when I hear some empty-headed tourist saying he is ashamed of his country, when he is abroad, and I thank God that I am not American.

JACK HAS SOME TROUBLES HIMSELF

(Continued from Page One)

Ever since the Russian laborers came—and made trouble—a good many people have been wondering why Atkinson did not let himself be heard from.

Couldn't Stop at Once.

"We wanted 600 families," said Mr. Atkinson in an interview last night. "and I had sent on a good many when I received word to stop sending Russians to Honolulu."

"When orders came to hold them I proceeded at once to do so. The period of detention was from four to six weeks. I sent six hundred back to the interior, and the rest came on to Hawaii at proper intervals.

Filth and Sickness.

"One of the greatest sources of trouble was epidemics. The filth among some of these people was awful. We had to hire some of them cleaned up and got into decent condition, and then they were given physical examinations there at home before they were permitted to start."

"Hundreds of those people sold their little homes—when they had homes—and the rest broke away from their old surroundings with the expectation of leaving at once for Hawaii."

Wanted to Kill Him.

"One day a thousand of them surrounded my hotel and said they were going to get me. I applied to the American consul at Harbin, but he could not help me. He had nothing to help me with. I had to bluff the mob as best I could."

Anarchy in Harbin.

"There is really no government in Harbin. The British and Americans have nothing to do with the Russian authorities and can expect little from them. The truth is, every man is a law unto himself, and everybody carries a big sixshooter and a knife openly as a means of self-protection."

Some Temperature.

"Ordinarily a person can't imagine how fearful are the conditions in much of that country. Conveniences in the rural districts are practically nil. The heaviest of clothes were indispensable, as the temperature during a good deal of the time was forty below zero."

Mails Tampered With?

"While at Harbin I received cablegrams from the immigration board referring to letters they had mailed to me, but I could not answer intelligently, because I had not received the letters. Also, I wrote letters which evidently did not reach the board of immigration. I am sure the Russian government was as anxious as I and the board were interested; so that may account for the failure of the letters to reach their destination."

"I did not risk many vouchers in the mails, for I knew the trouble that might result from their being lost. One letter containing vouchers was lost, but I believe I have learned where it is and how to get it."

Should Wait.

"I do not know anything about what has happened here, except the information contained in the brief messages received while in the Orient. I have no more right to criticize the people here than they have to criticize me, for neither knew what the other had for material with, nor does either know yet."

"In spite of all that has happened in connection with our efforts to establish the Russian laborers on the sugar plantations I am still confident that we can succeed in the work of developing people here in the Territory. Every time we get a permanent resident we add that much to the welfare of the Islands."

TALK OF ANOTHER CANAL.

NEW ORLEANS, June 19.—Much sign of haste is attached to the proposed route of the Japanese battleship fleet to Mexico, according to dispatches received here from Central America.

rumors of special envoys being sent at the same time to carry on negotiations with the Central American republics.

It is also claimed that Japan will take advantage of this visit to bring about a treaty relative to a canal in Nicaragua, for which England will furnish the money.

FIVE-ACRE FARM TO DROP FROM THE SKY

ST. LOUIS, June 16.—A five-acre farm will be dropped from the sky when the aeroplane flight across from St. Louis to Kansas City is held in July.

The Missouri State board of immigration announced today that before the acroplanists leave St. Louis they will be provided with cards, one of which will entitle the flier to five acres of Missouri land.

The cards are to be given in the flight. The land to be dropped away is located in Washington county, forty miles from St. Louis.

POINTED PARAGRAPHS.

Even a short man may have his long suit.

It's better to be correct than it is to be corrected.

How far can you get from home before you become a stranger?

Whisky and love never affect two men in exactly the same way.

A woman has less faith in her ideal after marrying one of them.

At this stage of the game the hog pen is mightier than the sword.

It doesn't mend matters to fix the responsibility of a railroad wreck.

The doctor who speaks but one language may understand many tongues.

Lot's wife may have looked back—and then again she may have talked back.

And sometimes a girl thinks she has lost her heart when it is only her appetite.

After a man gets on the shady side of forty he decides 'hat he'd rather be rich than handsome.

A man can always find an excuse for doing things he wants to do that he knows he shouldn't do.

WORLD'S NEWS DAILY

Sports

WANT CANOERS TO REPORT FOR TRAINING

A call was issued yesterday for all those who expect to enter for the Outrigger Club canoe races on the afternoon of the Fourth of July to report this afternoon and tomorrow for training.

The regatta and the surfing contest for the two remaining Clark cups will take place in front of the big band of the club where several hundred chairs will be in position for members' use.

The regular Outrigger, or triangular, course will be followed, and it is doubtful which of the six-paddle races will prove most exciting, that of the seniors, or that of the senior crews for the Frank Spengler cup—then there is the juniors six-paddle race to say nothing of the minor events.

The company to appear at the Outrigger Theater Monday night is now complete, and Charles Royal declares that it will be a big show, the following well-known singers and dancers being in the minstrel end of the program:

A. H. Myhre, Wm. Kerr, Will McTigue, Joe Forrest, Charles E. Royal, Melnette Sisters, A. Vaughn, Edythe Elliott, Outrigger Quartet, T. Carter, Jack Cleary, Carlos Caeros, Eva Alva, William Hooper, Nada Moret, Chatterbox Quartet, Glee Club Sextet, John Alfricias, Missel Oliver, Peter Almeida, George Pereira and Baby Elliott.

There will be a big vaudeville part and a one-act play. Berger's band will play at the Monna, and the dance room there will be open only to Outrigger guests holding entertainment tickets. The tickets admit to the big band during the afternoon regatta and at night to the theatrical show, as well as to the dance.

GOLF TOURNAMENT AT COUNTRY CLUB MONDAY

The more sedate sports of the community will soak the ball at leisure in a golf tournament to celebrate the glorious Fourth at the Oahu Country Club. It will be a team play affair and the leaders hope to have at least eighteen players at the links so as to make up six teams.

A bus will run from the end of the Nuuanu avenue car line as usual, starting at nine o'clock in the morning to convey the players out to the clubhouse. Each member of the winning team will receive a stein as an award of golf merit.

WASEDA BASEBALL INVADERS FROM JAPAN

(Continued from Page Three.)

Their ammunition getting rather low and abandoned this work. With the balls they had left they played catch every day and let it go at that. On the third day out from Yokohama the students received a wireless aloha from Tokyo, and the third day before their arrival here, wireless greetings were flashed to them from Honolulu, so that they were in touch both ways with the world and did not feel altogether at sea.

Tug-of-War With Big Men. Athletes were indulged in during the ten-day passage with American and English heavyweights, and the Wasedas held their own pretty well against the larger men. Thirteen of the students pulled against as many of the Yankees and Brits in a tug-of-war for the best two out of three. The Wasedas won the first pull, Professor Abe said, and lost out twice. Then the passengers got up blindfolded fights and the Japanese defeated all comers in this department of sports. They also took the first prize for the sack race which was run off on deck.

An invitation had been sent to the Chicago University offering to pay all the expenses of a team to visit Japan for a series of baseball games, the professor said, and a reply, accepting the offer, was received the day before the Wasedas sailed for Honolulu. The Chicago men will probably reach Yokohama about the fifteenth of September and the matches would start on the twentieth or twenty-first, so that the Japanese university will have very little time after they finish their series here to get back home and make ready for these games.

To Have National League.

"Japan is going to have a professional baseball league very soon," declared Professor Abe, "and when this is accomplished we will have some real international matches between the big leagues of the United States and the national league teams of Japan."

When the T. K. K. liner Chiyo Maru arrived off port yesterday morning she raised the yellow flag indicating that she had sickness aboard and the vessel was delayed several hours before she could come up to her dock at the foot of Alakea street. The committee to receive the Wasedas made up of Messrs. W. W. Harris, Yasumori, Ed. Townsend, Ekedra, Onodera, Kawamura and H. Soyeda, went out in the launch to board the vessel as she was entering the harbor, but the yellow flag prevented them from the ship.

Mayor Greets Team.

While the Chiyo Maru came up to her dock a deputation composed of Mayor Fern, Captain Ramsey, of the Marine Corps; George Mudeira, Sergeant Davis, captain of the Marine baseball team; S. K. Macquinn, J. K. Naylor, Lau Tang and A. Marcellino met the visitors on the wharf while the Japanese High School boys sang Waseda college songs and the Hawaiians played popular airs.

It is expected that Athletic Park will be filled to its capacity tomorrow at the opening game of the international series and the ball grounds will be opened and chairs placed around the

FIVE JOIN HEALANIS.

The Hawaiian Yacht and Boat Club held a meeting Thursday night and voted to five new members. This influx the old members attribute to the snooker which was given last week. They are going to try a dance next to see how that will fill up their ranks.

FOURTH OF JULY GOLF AT HALEIWA

The Haleiwa Golf Club will hold an open stroke competition on Fourth of July, club handicaps to govern. The entries may be made at Haleiwa Hotel up to two in the afternoon, when the drawing will take place.

As this tournament is open, any amateur golfer may enter, and it should attract many of the town golfers, as Haleiwa is a popular link. The club is putting up three prizes, a value of seven, five and two dollars each, for the best net scores.

One is always assured of a good time at Haleiwa, and the hotel will have a splendid holiday luncheon, with roast smoking pig, passed in the place, for the piece de resistance.

COMPUTES HANDICAPS.

(Continued from Page Three.)

Kahului Harbor on the Fourth of July in the contest for the Maui challenge cup, Charles Bunkhouse was inclined to think that he would join the party and make the interesting voyage in the launch, but he backed out yesterday on account of pressing business, he said.

CURES REMOVE DOUBT ABOUT ECZEMA CURE

Read What Your Druggist Says About Oil of Wintergreen Compound.

The Honolulu Drug Co. submits the following to the readers of The Advertiser:

For several years we have announced, with our recommendation, that we had found a positive cure for eczema; a simple skin wash, oil of wintergreen compounded with other healing ingredients.

Yet we know there are people right in this town who have eczema, and still have never tried this remedy.

We have, therefore, arranged with the D. D. D. Laboratories of Chicago for a special offer of a trial bottle at 25 cents instead of the \$1.00 bottle as regularly sold.

We offer this trial bottle with our recommendation and assurance that just as soon as the patient washes his itching skin, this mild liquid will take the itch away instantly.

The price of automobile tires and inner tubes has increased twenty per cent during the week all over the world, Honolulu being especially affected by the rise. Yesterday several purchasers of tires and tubes were surprised to find their bills twenty per cent higher than usual. The reason for this advance in the price of tires and inner tubes is the advancing cost of the raw material. Factories have advanced their prices, necessitating the retail dealers to advance theirs also. Several automobile owners could have saved considerably if they had known that the advance was coming.

The Schuman garage has had a record week, selling four cars during the week. Mr. Emory bought a Mitchell, and is pleased with his bargain; Captain Timmerhals of Fort Ruger purchased a Studebaker-Flanders, and Mr. Gouglon of the Mutual Telephone Company purchased a Ford. Another purchased a Mitchell.

The Schuman garage received three Fords and one Locomobile on the Sierra. They expect four Mitchells on the Lulline this week. Two Fords were sold to parties in Hilo, but the names of the purchasers are withheld. The latter cars have been shipped already.

Captain Foster, president of the Western Hotel Company of Sacramento, is visiting Honolulu. He has his fifty-horsepower Studebaker with him, and goes to Hilo on Tuesday. He will visit the volcano and tour Hawaii. He might also visit the other Islands, and will remain on the Islands until August.

The Associated garage has had a busy week. A Chalmers forty tonneau was sold to a Maui purchaser. It expects five Hudsons on the Siberia and five 1911 Chalmers are on the way. All the 1910 Chalmers have been sold and three of the new model that have arrived have also been sold. The Chalmers for 1911 are thirty and forty h.p. They are different from the 1910 cars in that they are more refined and that a few improvements have been made in the engines.

The other day a prospective buyer who had studied cars asked Manager Hall of the Associated garage what car he thought could be run the cheapest. Mr. Hall named the Chalmers as the best car for the money and the cheapest in upkeep. To back his statement, he offered to work out the average upkeep of two Chalmers that are in the garage every day. One car was on the books for seventeen months and the other for six months. Their accounts were for gasoline, oil, storage, tires, repairs and for occasional cleaning and polishing. He then asked the opinion of several owners as to the average, and got answers for \$40 to \$50. He was very surprised to find that both cars came within fifty cents of each other, and that the average was \$41.

The von Hamm-Young Company's garage and repair shop has had a very busy week. The large staff of expert mechanics has been kept very busy repairing and overhauling a number of private cars. The electrical expert is being much appreciated and already a number of electric cars and a lot of batteries have been turned over to him for attention.

Automobiles have supplanted the horse and buggy, and the railroad for the use of salesmen, doctors, real estate dealers and the representatives of large industries and public service corporations. These men find it necessary to cover a large mileage daily, visiting many different points. A number of motor car makers in New York report heavy sales to this type of users.

No less than fifty to sixty per cent of the people who are buying moderate pleasure cars are doing so because it saves them money in the course of a year's time, to say nothing of the incentive it gives to keep out in the open air and save doctor's bills. A doctor has said that he believed the motor car had cut down his revenue in many families because they had spent more time in the open air and less in the use of their car. However, he said that he more than made it back by using a car himself, since he was able to make about thirty per cent more calls in a day than previously.

An interesting bit of news received during the week is the fact that a Pope-Hartford, which started together with seventy other cars on the Atlanta to New York 1190-mile road tour, was one out of seven cars which finished with a perfect score.

The Atlanta-New York road 7343 miles came to a close Monday afternoon. At just 4:30 o'clock the first car made its appearance in Herald Square and one by one fifty-seven of the seventy cars to start made their way into the final check-in. Seven cars finished with perfect scores. The Pope-Hartford appeared two strings and was one of the seven cars that finished with a perfect score. Pope-Hartford enthusiasts will be pleased to hear that the 1911 announce-

ment of the Pope-Hartford will be out. This line will include both four and six-cylinder cars. The new line will have a larger bore and developing much greater power; timing gears will be three in number which does away with a great deal of the noise in the front; there will be an improved clutch mechanism and a steering mechanism which is remarkably complete and fine looking which will have less speeds instead of three, the direct gear being on the fourth. There will be improved brakes, and an improved frame, arched at the rear wheels, and padding will be not only much finer but better constructed, but it will set a little lower to the ground, being at the same time, however, plenty of clearance for the flywheel. The chassis will be increased to 124 inches and the wheels will be 36x4 1/2 with 4 and rear. In addition to the new line many refinements will be observed all over the car.

The Royal Hawaiian Garage has just received two Fiber gears. They are placed on machines with noisy gears, as they are as near as has been achieved to silent gears. They are made of bronze and fiber. The cars in the garage for hire have been busy on trips around the island while the gear in the shop have been busy with repair work.

THE DAY'S DOINGS ON THE STOCK EXCHANGE

The sale of several blocks of Hawaiian Pineapple at an advanced price on stock exchange yesterday morning attracted attention to the agricultural list. Total of fifty shares changed hands on board at 32, having jumped two dollars from the last quoted price. While stock is in great demand it is very hard to get, the greater majority of it being gobbled up in San Francisco. Trading closed at 32 with nothing to do.

The favorite in the trading was Hilo Railway, which was being bought and sold on and off board at a steady quotation of 12 flat. Oahu Sugar also figured in the trading at a steady quotation. Hawaiian advanced one point on a session sale, ten shares changing hands at 133 of board and nine at 134 during the session.

The last block of Hilo Railway common to be transferred on the board was shipped an eighth, predicting a stock market of questions have been asked; because words, sentences and paragraphs have been violently snatched from their setting. Scripture made to teach near-ness to the market quotation to which it rose a few days ago.

Dividends were announced by Paia, (\$1 a share); Haiku, (\$1 a share), and Pioneer, (\$2 a share). The sales for the day were: Oahu Sugar—49 @ 32.75; 15 @ 32.75; 10 @ 32.75. Hilo Railway, com.—65 @ 12; 25 @ 12; 10 @ 12; 5 @ 12; 5 @ 12; 10 @ 12; 5 @ 11.875. Hawaiian Pine Co.—25 @ 32; 25 @ 32. Waiaina—10 @ 133; 9 @ 134.

SPRECKELS BANK IS BANK OF HONOLULU

The Claus Spreckels Company Bank yesterday went out of existence, its business, monies and interest passing into the hands of the Bank of Honolulu, another corporation.

The transfer does not imply any change in control, William G. Irwin being the principal stockholder of the new corporation as well as its president. The new bank is capitalized at \$600,000.

There will be no change in the force and few in the personnel of the officers. Edward L. Spalding, the cashier of the Claus Spreckels bank becomes the vice president of the Bank of Honolulu, D. C. Potter becomes cashier and Irwin Spalding assistant cashier.

Outwardly there will be no difference in the bank with the exception of the wording on the windows. It will occupy the same offices and do practically the same business as was carried on by its defunct predecessor.

Both the Hawaiian Sugar Company and the Kahuku Sugar Company completed the issuance of the new certificates that increase their capitalizations, yesterday. The former has increased its \$2,000,000 capitalization to \$3,000,000, and the Kahuku has issued stock under a capitalization of \$1,000,000, thus doubling the old figure. The Hawaiian Sugar Company expects to derive 23,000 tons of sugar and over from its 1910 crops, that of 1909 being a record breaker, the increase in capitalization being therefore backed by substantial prosperity. On May 17, the capital stock of the Kahuku company was increased to \$1,000,000 by utilization of surplus, the balance of the surplus amount on December 31 of last year being \$24,903.43. During the past year it expended over \$11,000 in permanent improvements, \$7000 in improving sanitary conditions, and more than \$1000 in repairs and improvements on buildings. The crop for this year is estimated to yield slightly under 600 tons of sugar.

2, 1856.

TURSDAY, JULY 2, 1910.

THE COURT OUT OF LANE CASE

Trial Will Be Conducted by Attorney-General Lindsay.

Edward C. Lane, the man who was arrested Thursday by the territorial jury on a charge of most disgusting conduct with a little girl, was arraigned before Judge Cooper yesterday morning. The case is worthy of note that the attention was not represented by City Attorney Cathcart or either of his deputies but by Attorney-General Lindsay. Lane case has been completely taken out of the hands of the city attorney's department and the trial will be conducted by the attorney-general's office.

but he was represented by Attorney General Straus. Plea was deferred until today, July 18. This is rather a long delay between arraignment and plea, but as this is the holiday season and the courts are not working any more they have to and no trial can be held, anyway, for the present, it is no difference.

Part of the defense to be interposed will consist, of course, of a challenge of the validity of the grand jury that indicted Lane. It is probable all the members of the grand jury will be called as witnesses to answer in question based on that challenge.

TRACT TO HAUL GOVERNMENT COAL

A contract has just been drawn up between Hustace, Peck & Co. and the United States government by which the latter will haul all the coal to and from the government vessels that may be here and the government coal piles. The contract also gives the company the general care of the piles, including the piling and other work that be necessary.

HIDDEN DANGERS

Nature Gives Timely Warnings That No Honolulu Citizen Can Afford to Ignore.

DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. We kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here is the best of proof:

Zed Rosendorf, merchant, Main St., Independence, Ore., says: "For ten years I was troubled by attacks of kidney complaint and finally became so bad off that I was forced to walk in a stooped position. My kidneys were disordered and on account of too frequent passages of the secretions, I was obliged to arise during the night. Often I had to sit up, being unable to lie comfortably in any position. My limbs became swollen and there was a puffiness beneath my eyes. I doctored and tried everything that was brought to my notice, but received no relief until I began using Doan's Backache Kidney Pills. They helped me from the first and I am today free from kidney complaint. I believe there is nothing as effective as Doan's Backache Kidney Pills in curing this trouble."

Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes \$2.50) or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, whole sale agents for the Hawaiian Islands. Remember the name, Doan's, and take no substitute.

SEND ONE AWAY.

One of the most beautiful of the annual attractions in Honolulu is the floral parade on February 22. This year the cars and floats were decorated with such exquisite taste that they were praised by many hundred tourists who were in the city and who viewed the procession. Official photographers made pictures of all, the best of which were selected by the committee in charge and published in pamphlet form by the Hawaiian Gazette Co., Ltd. These are on sale at the Advertiser office, on King street between Fort and Bethel, at twenty-five cents each. The postage on a copy is three cents to any part of the world.

DAY'S DOINGS ON THE STOCK EXCHANGE

The sale of several blocks of Hawaiian Pineapple at an advanced price on stock exchange yesterday morning attracted attention to the agricultural list. Total of fifty shares changed hands at 32, having jumped two dollars from the last quoted price. While stock is in great demand it is very hard to get, the greater majority of it being gobbled up in San Francisco. Trading closed at 32 with nothing to do.

The favorite in the trading was Hilo today common, numerous blocks changing hands on and off board at a steady quotation of 12 flat. Oahu also figured in the trading at a steady quotation.

Maui advanced one point on a session sale, ten shares changing hands at 133 off board and nine at 134 during a session.

The last block of Hilo Railway company to be transferred on the board happened an eighth, predicting a sharp rise. Questions have been ignored; because words, sentences and paragraphs have been violently snatched from their setting. Scripture has been made to teach many impossible things.

Because Pharaoh, Abraham and the Old Testament patriarchs held slaves, the people of the southern States, forty-five years ago, argued that the white man ought to stand protector of the ignorant and weak negro and hold him in bondage.

Because Solomon had a thousand wives, our Mormon friends urge that they have Scriptural authority to support their practise of polygamy, thus disregarding the clear command of monogamy that runs all through the Bible, especially in the New Testament.

Because the Jewish kings, Saul, David and Solomon, were absolute in their rule, in many countries the divine right of kings has been established, and the Bible is cited to prove the righteousness of such a decree.

Paul once had occasion to write to some of his converts that it was advisable for their women to keep silent in the churches. There are many who would make this local rule or advice universal, and apply it at all times and in all places. How great would be the world's loss if our women, who are more spiritually minded than the men, were not allowed a voice in the church and prayer meeting!

In discussing the question of "The Bible on the Drink Evil," we must remember that the evils of the drink traffic are infinitely greater today than they were in Christ's time. If Christ and his fore-runner, John the Baptist, were living today their message of "Repent" would certainly strike deep at the roots of the liquor evil--as deep as it struck at the typewriting of the Pharaohs.

The process of distillation was discovered in the year 700 A. D. This means that the ancient Jews knew nothing of whisky. In fact, they did not know how to make ale or beer. There is no word for beer or ale or their equivalents in the English Bible. Even if they had had beer they could not have preserved it, for Palestine is and was a hot country, and the early Hebrews never dreamed of such a thing as iceboxes. It is true that Scripture makes mention of "strong drink," but it is likely that the juices of fermented fruits are referred to. The Jews knew no chemistry; therefore they had no adulterated drinks. They had no equivalent of the Hawaiian "lago rod."

The Hebrew race is, and always has been, noted for its sobriety. Again, the Jewish peasant could not afford wine. He worked for one cent a day, and according to Dr. W. J. Beecher, enough

FROM THE PEOPLE

CAT

to the fish to eat to hold in Smith's or dismissed, reason, the, in, but, we did not on the against, it that Ed Smith indie, ap, gring, cross ing, rapping, more, acci, A, would, pros, pref, At, tely, utives of, The at the take, pt to at, tacent, he, were office, con, L, Le, and, M, inter, but, the limit, r, are, be, its, to, make, ends, Pa, the, by, Noth, shall, Some, jury, can, that, liquor, will, The, cert, by, lenge,

to make a man drunk would represent a half-month's wages. The liquor interests of Christ's day were wholly unorganized. They had not yet learned to corrupt municipalities and buy legislatures. They had no political influence.

These things must be remembered when we wonder why the Bible does not say more about the drink evil. It certainly says enough to convince every open-minded man, that it is an unmitigated source of trouble. The Bible recognizes that there were two kinds of wine--one harmful and one harmless--one fermented, the other unfermented. The former is referred to when the wise man says: "At last it biteth like a serpent and stingeth like an adder"; and "Woe unto him who giveth his neighbor drink."

When Christ performed the miracle in Cana, He changed the water into unfermented wine. And what is more refreshing than the pure fresh juice of the grape! God never intended man to leave His delicious fruits to sour and to ferment in order to kill men and not save them. It is the unfermented wine the Psalmist refers to when he speaks of the "wine that maketh glad the heart of man."

If any man wants to take the time to study the Bible and its teachings on this question, he will find a sad story. He will first note the picture of drunken Noah exposing his nakedness to his sons. In Genesis 19 we read of Lot's daughters making their father drink wine and thus inciting him to incest. Jacob was able to deceive Isaac, not because he was old and blind, but because he first brought him fermented wine, which the old man drank and thus his judgment was clouded. He would have known his son's voice if he did not recognize his person, had he not been drunk. God's first command to abstain from strong drink was given to Aaron and his sons, the priests. The first temperance pledge was the Nazirite's, taken by Samson: "He shall separate himself from wine and strong drink."

Nabal (meaning "Fool") was drunk when he nearly lost his life through his childish treatment of David's men, and was saved only by the intercession of his wife, Abigail.

Before David committed his great crime, he made Uriah drunk. Absalom's command to his followers was: "When Amnon's heart is merry with wine, then kill him." Amasa's drink himself drunk before he deposed his noble wife Yashai. Haman was wise enough to make the King drunk before he proposed his wicked plot to destroy all the Jews.

The New Testament is just as strong in its teaching on this vital subject. But the New Testament is a book of principles--not minute rules. Therefore it says: "Ye who are strong ought to bear the burdens of the weak." When Paul wrote to his young friend Timothy: "Take a little wine for thy stomach's sake," he was addressing a life-long total abstainer and he was prescribing a tonic. If Timothy had been a drinking man, no amount of wine as a tonic could have done them any good. Paul's advice in this case was by no means general. He was addressing an individual.

The Apostle Paul's whole attitude on this vital subject was this: "If meat make my brother to offend, I eat, no, to stumble, I will eat no flesh with the world standeth."

In the light of what the Bible really teaches on the subject of liquor drinking, it is impossible for any Christian to pay further heed to the cheap arguments of the drink advocates.

The Christians of this Territory have the plebiscite in their own hands. If they stand together they will carry the election, by a large majority. If they refuse to unite, they will have only themselves to blame. Remember that THE SALOON WOULD ABOLISH THE CHURCH IF IT COULD.

THE CHURCH COULD ABOLISH THE SALOON IF IT WOULD.
E. B. TURNER.

TERRITORY CLAIMS ESTATE BY ESCHEAT

The Territory is claiming in the circuit court, by escheat, the estate of Frank Antone, deceased. Attorney-General Lindsay appeared before the court yesterday to press the claim of the Territory.

Frank Antone, a native of the Cape Verde islands, died here in 1888, leaving, so far as is known, no heirs. Under the law, when a man dies leaving no heirs or legatees, his estate escheats to the Territory.

Antone's estate consists of \$900 cash and a piece of property. It is rumored that an attempt is being made to find heirs in his native country.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY.

When you fail to provide your family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy at this season of the year, you are neglecting them, as bowel complaint is sure to be prevalent, and it is too dangerous a malady to be trifled with. This is especially true if there are children in the family. A dose or two of this remedy will place the trouble within control and perhaps save a life, or at least a doctor's bill. It has never been known to fail even in the most severe and dangerous cases, and its cost is not beyond the means of any one. For sale by all druggists. Benson, Smith & Co., Ltd., agents for Hawaii.

EXACTLY.

MAX SCHLEMMER
AGAIN INDICTED

**Is Charged With Bringing Aliens
Unlawfully Into the
Country.**

Among the six indictments returned by the federal grand jury last Wednesday when the inquisitors filed their final report were two more against Max Schlemmer, both charging him with unlawfully bringing aliens into the country. Schlemmer went to the marshal's office yesterday and surrendered himself and was released on bond for \$1000.

Three other indictments had previously been brought against Schlemmer. Two of them, for perjury, were dismissed on account of "insufficient evidence." A denouner in the third was sustained but has been carried up on appeal by the government.

PLAIN FACTS ABOUT THE HAIR

It is the duty of every one who is interested in hair preservation to learn enough about the subject to tell whether an advertisement for a hair remedy is reasonable or unreasonable. In this connection, the United States Postoffice Department has begun a much needed campaign against false and misleading statements in advertisements in general. While this work is highly commendable and should be greatly extended, still at the same time it tends to paternalism rather than to personal self-reliance. If YOU know that the claims for a hair remedy are unreasonable and untrue, that knowledge will save you money and prevent disappointment.

The trouble lies in the fact that certain ever ambitious proprietors employ advertising writers who do not know the composition of the remedies they write about, and even if they did, they are not expected to know the therapeutic action of the various ingredients. Two very familiar and oft repeated statements are, that the hair must be watered and fed just like a plant, and that the color of the hair, once destroyed, can be restored, by natural process. While both of these statements are false in every particular, it requires some little knowledge of the hair follicle to understand why the statements are false.

The hair follicle is a pear-shaped sack in the scalp that holds the hair root. At the bottom of the hair follicle and extending up into it for a short distance, is a nipple-shaped projection that remains in the scalp when a hair root is forcibly pulled out. This projection is the hair papilla from which the hair "root" grows. The continuous addition to the bottom of the hair root, forces the hair proper out through the scalp.

The hair papilla is surrounded by the hair root, which thus takes a bulbous form. Above the hair root or bulb—which occupies about three-fourths of the entire follicle—is the neck of the hair follicle, below which the most penetrating fluids known to Medical Science can not penetrate. Therefore, the story of

feeding the starved and impoverished hair roots with an external application is all a myth. The short portion of the hair follicle above the neck opens somewhat like a funnel and is filled with the outer scalp skin. Opening into this outer portion are the highly important oil or sebaceous glands which, from their location, are most exposed to disease. When these oil glands become infected with a certain microbe growth (the cause of dandruff) there is hair disease and finally hair death. Fortunately this outer portion of the hair follicle can be treated by carefully rubbing into the scalp a suitable remedy. What remedy should be used? Manifestly one that will destroy the growth that causes dandruff, itching scalp, and falling hair.

Newbro's Herculide is the first remedy that was prepared for the particular purpose of destroying this invisible vegetable growth. In fact, it is called the "ORIGINAL" remedy that kills the dandruff germ. Newbro's Herculide was not made until after Prof. Unna, of Hamburg, Germany (ask your Doctor about him), discovered that dandruff is a highly contagious disease caused by a microbe. The almost marvelous success of Newbro's Herculide has caused advertising writers to claim germicidal properties for other hair remedies, many of which were on the market years before Prof. Unna's discovery. Do you think that this new claim for old remedies is a reasonable one? Remember, that the hair gets its life, color, and strength direct from the blood, and that good blood, deep breathing, and sunlight, favor hair development. Out-door exercise, to insure free circulation in the scalp, also scalp massaging for the same purpose, are very helpful. Worry, indigestion and sedentary habits oppose hair growth, while the dandruff germ will actually destroy the hair, unless it is eradicated and kept out of the scalp with Newbro's Herculide.

Herculide is delightfully cooling and refreshing to the scalp, and almost marvelous results sometimes follow its continued use. It stops itching of the scalp almost instantly.
