ARMY MEN FAVORITES IN POLO GAME TODAY

Correll and Corwin Will Fight on 27th

Danish Well Up in Tactics, but Short Winded—Sportsmen Expect Close Game.

Every lever of pole in Honolulu is leaning forward today to see of the latest polo game ever played in this city. Both Correll and Corwin and United States and Mexico are to meet on Sunday, and it will be a battle of skill and endurance between the two great powers. The United States and Mexico are expected to win.

For some years the American Indian has been playing polo, and now that the game has been introduced into the United States, many American Indians are expected to join the game. The United States and Mexico are expected to win.

The game is expected to be played on Sunday afternoon, and the winner will be decided by the best of three games. The United States and Mexico are expected to win.

"I am thoroughly convinced that the use of milk in the treatment of the aggrcMe of tuberculosis is of incalculable benefit to the patient." This was the expression of Dr. MacKoll, who has been widely known for his work in tuberculosis, in a recent interview with the Medical Progress.

In his new process, Dr. MacKoll uses milk that has been treated with a special bactericide, which he believes is more effective than any other method currently in use. He has conducted a series of experiments on a large scale, with extremely promising results. The new method promises to revolutionize the treatment of tuberculosis, and Dr. MacKoll is urging its adoption by hospitals and clinics throughout the country.

"Electro-milk" only is Pure

The Electro-milk process has been receiving a great deal of attention lately, and many people are wondering whether it is truly beneficial or just a fad.

According to Dr. MacKoll, the Electro-milk process is not only pure, but also has many advantages over conventional milk. It is produced in a special machine that uses electricity to pasteurize the milk, which ensures that it is free from any harmful bacteria.

Moreover, the Electro-milk process is more efficient than traditional methods, as it is able to process large quantities of milk in a shorter time. This makes it a more practical solution for the increasing demand for milk.

"In conclusion," Dr. MacKoll said, "the Electro-milk process is the future of milk production. It is pure, efficient, and beneficial to both the producer and the consumer."

FLYING BULLETS ENDANGER LIFE

Firing on Kakaako Target Range May Bring Death Some Day.

Target shooting on the Kakaako Range is a regular occurrence, but from time to time a shot is fired that is nearer to the homes of the residents than is good for them. As a result, the Range has been placed under a guard and moved to a more distant site.

It may be your turn. List to the voice of the Badger man. The fire at Paia Thursday night meant a loss of one hundred thousand dollars worth of property independent of the time lost to the business. If it is your next are you prepared? Badger's Fire Extinguishers, Chemical Engine and a watchmaker's clock will afford you protection from loss by fire. It is cheap insurance. Do not delay. Maybe the fire will not wait as long as you are willing to. Buy now and install these appliances before you go up in smoke and have little left but regrets.

TRUNKS

We are ready to confirm our belief that our trunks, received last week, are the best made, the roomiest and the strongest, ever brought to this country. This is a broad statement and the trunks are silent evidence of the truthfulness of it.

They are from thirty to thirty-eight inch in depth, deep enough to hold a wardrobe for an actress or a family, and will stand all the hard knocks a baggage smasher can inflict.

This is almost a new line for us to handle and for that reason we believe we have profited by the mistakes of other dealers. The manufacturer has spent forty-two years securing trunk efficiency and have reached the goal.

We have trunks for steamer travel; double locked, brass finish on edges and bolts. Canvas covered and reinforced with sole leather. Time itself cannot get away with one of these trunks.
