Talk about the Society planning to work in close cooperation with other social groups on the outside districts on this job and along with its contemplated increase in its activities, the Society might prepare itself well and be prepared for the meeting to be called by Senator Abe's idea of the organization task of such a significant and patriotic move as sponsoring and urging the admission of the U.S. national defense forces into the Japanese community on the Island of Hawaii. A campaign of this nature will effectively realize the all-occupant spirit of the residents of the county and at the same time will be an important step in the Society's march into other fields of activity.

For a representative group such as the Society of Americans of Japanese Ancestry, it is important to prepare for a national emergency or keeping the home front burning hot, American citizens of Japanese descent will have to shoulder the responsibility. A systematic and comprehensive plan for this purpose is necessary. The island of Hawaii is particularly well fitted, in that its members are on the whole close-knit and well-organized.
