# Republicans rule 1991 polls

<u>Demapan wins over Reyes as Saipan senator</u>

by Rafael H. Arroyo

Prospects of a Republicandominated show in the Eighth Legislature of the Northern Marianas has become apparent after the GOP candidates won ten seats out of a total eighteen in the recent November 2, 1991 general elections last Saturday.

Unofficial results compiled early Sunday by the Board of

Elections showed that the Democrats won only six slots in the House of Representatives giving the Republicans the clear majority.

The composition of the winners also paved the way for the entry of independent Congressmen-elect Antonio M. Camacho and Jesus P. Mafnas into the lower chamber, the first time that independents ever won in a congressional elections.

Republican senatorial candidate Juan S. Demapan won the lone Saipan seat in the Senate, garnering 3,426 votes. This was 955 better than the Democrats' Juan S. Reyes, who managed only 2,471.

Post-election process of sort-

ing out and counting the ballots immediately started after all ballot boxes from all precincts were transported to the Convention Center in Capitol Hill, where the tallying of the votes were held.

On hand to compile the results of this year's elections was Board of Elections Executive Director Juan Diaz, who described this year's elections as generally peaceful and orderly according to plans.

Diaz indicated that voter turnout has been steady and high and this is indicative of the people's awareness of the importance of this year's elections.

Poll supervisors during the election day noted that early

voters came in droves as the polls opened at exactly 7:00 am as well as in the final hour before the 7:00 pm deadline for casting ballots.

Tension was never felt nor noticed between Democrats and the Republicans during the whole day, even when counting of the ballots and tallying of votes were being done. But at the onset, a trend showing the strength of the Republicans were noticeable.

The victory of the Republicans this year marked the first time in history that the party won a mid-term election, such that an alternating trend since 1978 has been broken up.

#### PBDC meet start today

by Rafael H. Arroyo

The governors of the nations comprising the Pacific Basin Development Council are now on island even as Typhoon Seth momentarily poised a threat to the holding of the annual PBDC Conference scheduled to start today at the Hyatt Regency Saipan's Gilligans.

Governors Joseph F. Ada of Guam, Peter T. Coleman of American Samoa, and Lorenzo I. DL. Guerrero of the CNMI were joined at past seven o'clock last night by Hawaii Governor John Waihee, whose flight onto Saipan had to be delayed on account of the super typhoon.

Guerrero is the current president of the council, which is composed by the CNMI, Hawaii, Guam and American Samoa. The CNMI, on account of Governor Guerrero's being head of the council, has been chosen as this year's venue for the meeting, which was twice called off this year due to the unavailability of some key participants in the meet.

Waihee was reportedly stranded in Guam where he was to take a connecting flight to Saipan. Seth's strong winds prompted aviation authorities in Saipan to cancel all flights to and from the island.

First to arrive among the three non-CNMI heads of government was Governor Ada who flew in November 2nd, followed by Governor Coleman who arrived late afternoon the next day.

# Seth hits Saipan, 75 families evacuated

by Terl M. Flores

Close to 75 families have sought shelter and countless other homes were temporarily left without power and waterservices as Super Typhoon Seth unleashed its fury on Saipan Sunday evening.

Typhoon Seth was lifted to Super Typhoon level at about 4 a.m. on Monday. At the time of its closest point of approach to Saipan, Seth was packing winds of 125 miles per hour with gusts of up to 150 mph.

As of seven o'clock Monday evening, Disaster Control officials plotted Seth to be moving away from the Commonwealth's area of responsibility and heading northwest towards Taiwan.

Disaster Control officer Felix Sasamoto said that based on the occular inspection which his crew conducted early Monday morning, typhoon Seth wrought more damage as compared to Mirielle, which hit Saipan mid-September.

A damage assessment report will probably be out by today pending a briefing with Governor Larry I. Deleon Guerrero, Sasamoto said.

A number of residents from the low-lying areas of Kagman, Tanapag and several areas from Capitol Hill were among the evacuees whosoughttemporary shelter innearby schools. Sixty-seven Dan-Dan residents were also among those who sought refuge at the Red Cross headquarters in San Vicente.

About 18 line crews and those in the other divisions of the Commonwealth Utilities Corporation have been out on the street as early as five o'clock Monday morning checking down broken lines before it can be re-energized.

and CUC Executive Director Ramon S. Guerrero said that major repairs have to be done in the system before power can be fully restored.

Guerrero could not give any specific time frame when power will be restored in most of

the homes however, as of Monday afternoon, CUC crews have already restored 45% of the power in the affected areas.

One of Guerrero's main priority was to repair Feeders 4 and 6 to enable the CUC to turn-on power for water distribution.

"Credibility did it," says John S. Rosario, campaign chairman for the Republican party, who also indicated that the victory belongs to the people of the Commonwealth.

"The credibility of the party as a whole in approaching our people for their vote of confidence has been of essence. What we offered the voters in terms of public services, and the fact that we were more organized in our campaigning may have been a factor," Rosario said in an interview two days after the elections.

Rosario, who is also Governor Guerrero's Special Assistant for In-

# State Funeral for Hofschneider planned

by Teri M. Flores

Tinian Gaming Commission Chairman John Untalan Hofschneider will be given a state funeral on Saturday on account of the numerous request from Tinian residents who were shocked by the untimely death of one of the island's more prominent sons.

Nightly rosaries are being said at the CHC Chapel and in his residence on Tinian. Hofschneider's body is scheduled to be repatriated to Tinian on Friday afternoon. A state funeral is scheduled to be held after a 2 p.m. mass is said at the San Jose Church on Saturday.

Hofschneider died at 4:48 p.m. Thursday at the Commonwealth Health Center (CHC) succumbing from a fatal stroke which had left him brain-dead. He was medivac-ed from Tinian and was immediately placed at the CHC's Intensive Care Unit ten minutes after he was wheeled into the hospital Emergency Room early Tuesday morning.

"Chairman Hofschneider was a tireless and dedicated public servant who was determined to make the casino industry on Tinian come about. His honesty and integrity served as an inspiration to us all," Tinian Casino Gaming Control Vice-Chairman Jose P. Cruz said in a press release.

Hofschneider is known among the leading proponents of the establishment of casino gaming

on Tinian. Before his death, he was scheduled to preside over a meeting that will allow the reopening of casino-license applications to attract more applicants from around the globe unaware of past application dates.

The meeting has temporarily been shelved until a someone has been tapped to replace Hofschneider. At the moment, Cruz is acting as the Acting Commissioner.

Hofschneider was once a Congressional representative who served in the first CNMI legislature and is also a successful insurance broker on Tinian. He is survived by his wife Board of Education member and Tinian Chamber of Commerce Executive Director Florine and his 12 year old son, John Valdomero.

Reelectionist Antonio O. Quitugua (R), who realized some 483 votes, edged out Vianney B. Hocog (D), who garnered only 398.

In the senatorial race in Tinian where 83% of registered voters voted, David M. Cing (D) won over Esteven M. King (R) 328-310, although the possibility of absentee ballots overturning the results may not be discounted.

Over at Rota where voter turnout was reported at 89%, incumbent Senator Paul A. Manglona received 745 votes although the number of votes hardly mattered as he was running unopposed.

For the non-partisan elections—the Municipal Council, David L. Igitol topped the race for Saipan with a total of 2,821 votes followed by Francisco Q. Guerrero who had 2,692.

Pedro T. Nakatsukasa, came in third with 2,666 to make the final composition of the Saipan Municipal Council.

For Tinian, Jose A. Hocog set

the pace with a 343; Joaquin G. Adriano 308; and Edward A. Villagomez 300.

Rota's municipal council will be composed of Vicente M. Atalig, who had 418; Isaac M. Calvo Jr., 321; and Lucas C. Mendiola with a 279.

The composition of the Board of Education has also been known, although not yet officially — Henry I. Sablan (2,785), and Maria T. Peter (2,534) to represent Saipan; and Fermin M. Atalig (493) to represent Rota.

The local initiative that was placed on the ballot for Rota to establish casino gaming in the island was also turned down by the electorate from the said senatorial district after 411 "no" votes were realized against 389 "yes" votes.

There were 10,021 registered voters this year with some 8,217 from Saipan, 1,014 from the island of Rota, and some 763 from the island of Tinian.

#### Stiffer penalties for overspeeding sought

The House of Representatives recently signified its intention to push for the imposition of more stringent penalties for drivers and motorists going beyond the prescribed speed limit especially within residential ar-

House Bill No. 7-257 was passed in its first and final reading by the House to amend 9 CMC Sections 1501 (a), 5251 (f), and 7104 apparently to reduce the incidence of speeding and thereby minimize vehicular accidents.

The measure proposes that whenever a person is convicted of a violation of any provision of the act relating to the speed of vehicles or of reckless driving, the court may suspend the license of that person for a period not to exceed 30 days upon a first conviction, six months upon a second conviction, and for a period not to exceed one year upon a third or subsequent con-

According to the measure, any person convicted of operating a vehicle in excess of ten miles per hour above the limited speeds designated pursuant to this section may be convicted of reckless

Such a person convicted of operating a vehicle in excess of ten miles per hour above the speed limits designated within a residential area pursuant to the bill shall also be convicted of reckless driving, the bill read.

"This bill may be a better alternative to road bumps. It will also help us take care of our people," said the bill's author, Rep. Diego T. Benavente in a recent session of the House. "We have to increase penalties to deter motorists from overspeeding in

certain marked areas." Every person who drives or operates any vehicle on a highway in willful or wanton disregard for the safety of persons or property is guilty of reckless driving which is a misdemeanor.

If convicted, first-time violators will be fined not less than \$100 nor more than \$1,000 or by imprisonment of not more than six months, or both.

Upon a second or any subsequent conviction for violating this section, within a period of five years of the date of the commission of the first offense by imprisonment of not less than ten days nor more than six months and by a fine of not less than \$500 nor more than \$2,000.

Whenever the reckless driving of a vehicle proximately causes bodily injury to any person, the person so driving the vehicle shall, upon conviction be punished by a fine of not less than \$500 nor more than \$2,000 and by imprisonment of not less than 30 days nor more than six

The bill, which was introduced by Rep. Benavente last month, also calls for the director of Public Safety to designate by regulation, residential and other certain areas as "limited speed areas" and mark these portions with appropriate warning signs.

#### **Korean Chamber asked** to change name

by Rafael H. Arroyo

The Senate of the Northern Marianas recently adopted a resolution that seeks to have the newly formed Korean Chamber of Commerce of Saipan change its organizational name in order to eliminate any confusion regarding its affiliation with the Saipan Chamber of Commerce, the United States Chamber of Commerce or any of its affili-

Senate Resolution No. 7-31 was recently passed by the Senate apparently to pressure the said organization to refrain from using its name since this allegedly suggests an affiliation with the US Chamber of Commerce.

According to the measure introduced by Senator Herman R. Guerrero, the US Chamber of

Commerce and its associate members, including Saipan Chamber of Commerce have named their respective groups by simply placing a locality or a geographical name preceding the words "Chamber of Commerce" and have yet to describe, characterize or include in the name of a chamber of commerce, a creed, nationality or race.

The US Chamber and its associate members have a long standing international reputation for the promotion of integrity, helpfulness, civic involvement, and a philosophy of non-emphasis of race, culture, or creed.

It was argued that the continued use of the organizational name of the Korean Chamber or any similar name using the words "chamber of commerce" tends to suggest that the group is affiliated with the US Chamber and its associate members including the Saipan Chamber.

Such suggestion of affiliation unfairly represents the non-affiliated status with the US Chamber and is seen as confusing and misleading to the average person who might, in the absence of any information, assume an affiliation with the US and Saipan Chambers of Commerce.

The resolution likewise pointed out that such possible confusion between the Korean and the Saipan Chambers might lead the average person to believe that the civic and general business promotional philosophies of the two organizations are generally similar.

Saipan Chamber of Commerce is a non-political, independent, private and non-profit organization, founded in Saipan in 1959 with the goal of promoting and developing trade, commerce, and industry between the US and the tire civic and general community.

"The Saipan Chamber shares an overall philosophy as the US Chamber, encouraging all Saipan businesses, regardless of culture, race, or creed, to become members of the Saipan Chamber," said the resolution.

The Korean Chamber was apparently seen not to espouse the same philosophy, nor does it specifically encourage the promotion and development of trade and industry with the US, thus the resolution.

November 4, 1991

To All Our People:

On behalf of the Officers, Precinct Captains and Candidates of the Commonwealth Republican Party, we take the distinct honor and privilege to thank each and everyone of you for all your efforts and support to make Election Year 1991 one of Grand Success.

The victory which you gave the Commonwealth Republican Party resides nowhere else but in you (the electorate) who gave it to the GOP in the first instance. Indeed, your vote of confidence is so humbling and in no way will we ever fail your subscription to the GOP leadership and all that it stands for.

In short, you have spoken and have given us the responsibility to carry on with the mandate of making these many islands "another promise land". And for all your untiring efforts, we simply cannot find words larger than those we use in everyday life to thank you with adequacy for your support.

Be that as it may, dangkulo na Si Yuus Maase to one and all for all your hard work.

Some 75 families were evacuated to American Red Cross Headquarters along Airport Road during the height of super typhoon Seth's fury early Monday morning.

Text and photos by Raffy Arroyo

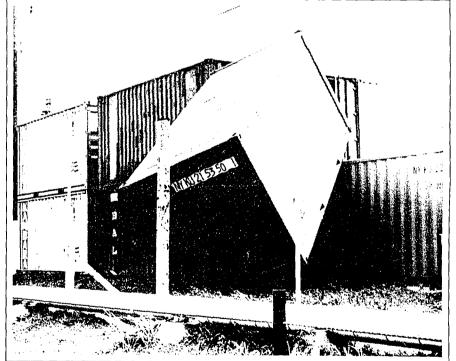

A wooden electric post lies inclined to electric cables after Seth's strong winds forced it down somewhere along Dan Dan Road in San Vicente.

A wooden fence that used to close out on a construction project in Garapan lie in shamble after Seth tore it down and into pieces.

Low-lying areas such as this area near Garapan Annex II was not spared from the floods caused by Seth's non-stop rains.

A container was blew off from it's being stacked in the container port of Charlie Dock, indicative of the typhoon's strength.
