

THE HONOLULU REPUBLICAN.

VOLUME III. NO. 447.

HONOLULU, H. T., FRIDAY, NOVEMBER 15, 1901.

PRICE FIVE CENTS

SETH LOW ELECTED MAYOR OF AMERICA'S GREATEST CITY

Crushing Defeat for Tammany Hall and Its Corrupt Cohorts By Independent Voters.

Mayor Van Wyck as a Candidate for the Supreme Bench Ran Behind His Ticket—William Travers Jerome Elected District Attorney By a Large Majority.

SAN FRANCISCO, Nov. 7.—The elections held Tuesday were remarkable in two respects: Tammany was overthrown in Greater New York, Seth Low, fusion candidate for Mayor, being elected by 30,000 plurality, and Eugene Schmitz, the Union Labor candidate for Mayor of San Francisco, carrying that city by a plurality of 4,000. In New York the defeat of Tammany was complete, the entire fusion ticket being returned, and Van Wyck, now Mayor of the greater city, being defeated for the office of Justice of the Supreme Court, and running far behind his ticket. In Ohio, Governor Nash, Republican, has been returned by 70,000 plurality, and the Legislature is safely Republican, insuring the re-election of Senator Foraker. Massachusetts is Republican by about the same majority; the Republican ticket is chosen in Pennsylvania, though by reduced figures; Bryan has failed to carry his own State of Nebraska for his party, and New Jersey is Republican by 15,000. These are the salient results of the day, party lines not being disturbed in the States—such as Iowa, Virginia, Maryland, Kentucky—unless it be Colorado, where the Republicans claim to have recovered the State from the silver fusion forces.

NEW YORK, Nov. 5.—Following is a list of the candidates elected Judges of the Supreme Court in this State: First District—Morgan J. O'Brien (re-elected), Fusion and Democrat. James A. Blanchard, Fusion. John Proctor Clarke (re-elected), Fusion. Samuel Greenbaum, Fusion. Third District—A. V. Cochran, Republican. Fourth District—Edgar R. Spencer, Republican. Sixth District—Garrett A. Forbes (re-elected), Republican. Charles E. Parker (re-elected), Republican. Seventh District—Wm. H. Adams (re-elected), Republican.

NEW YORK, Nov. 5.—Seth Low, former President of Columbia University, and four years ago the Citizens' Union candidate for the first Mayor of Greater New York, was elected today the second Mayor of Greater New York by a plurality ranging anywhere from 30,000 to 40,000, defeating Edward M. Shepard of Brooklyn, the Democratic nominee. The campaign was an exciting one, and the vote, though somewhat less than in the Presidential election a year ago, was the largest ever polled in a municipal contest in this country. In addition to the canvass for Mayor, public interest largely centered in the nomination by the Fusionists of William Travers Jerome for District Attorney, and Mayor Robert A. Van Wyck by the Democrats for Justice of the Supreme Court, who were voted for only in the territory contained in New York county. Returns received up to 11 p. m. indicate that Jerome has been elected by a comfortable plurality and that Mayor Van Wyck has been defeated, the latter running behind his ticket from 15,000 to 20,000.

Complete Triumph of Fusion. Returns also indicate the complete triumph here of the Greater New York fusion ticket, Charles Vincent Forbes, nominee of the Citizens' Union and the Republicans for President of the Board of Aldermen, defeating George M. Van Hoesen, the Democratic nominee. E. M. Groat, for the past four years President of the Borough of Brooklyn, now the fusion nominee for Comptroller, has also defeated W. W. Ladd, Jr., Democrat.

Returns from the local borough and county tickets are incomplete. Complete returns received from Staten Island, however, show that Congressman Muller has been defeated in his canvass for president of the borough of Richmond by George Cromwell, fusionist. In the borough of Queens the election of Joseph Cassidy, Democrat, as president of the borough over Henry Doyt, Republican, and Robert B. Lawrence, Citizens' Union, is conceded.

In the boroughs of Brooklyn, Manhattan and the Bronx, additional and possibly official returns will be required to determine the results for borough president and other local officers.

Control the Legislature. Reports received from the various sections of New York State show that the Republicans will retain control of the lower house of the State Legislature, the number of Republican and Democratic Assemblymen not differing materially from the figures of preceding years.

In the various municipal contests reported from up the State, the most

SENATOR FORAKER WILL BE RETURNED Ohio Goes Republican By a Rousing Majority.

VERY CLOSE RESULT IN MARYLAND GORMAN WILL PROBABLY CONTROL THE NEW LEGISLATURE.

Despise Bryan's Activity in the Canvass the Republicans Carry Nebraska With an Old Time Majority—Result in Other States.

NEW YORK, Nov. 5.—Mr. Croker, Maurice Untermyer and Senator T. D. Sullivan were together at dinner tonight and it is said on good authority that a little later Mr. Croker said this was his last political fight. Mr. Croker asked Senator Sullivan whom he desired as leader. Senator Sullivan answered that John F. Carroll would be pleasing to him. Then and there, it is said, Richard Croker abdicated the leadership of Tammany Hall and turned it over to John F. Carroll.

There was some discussion as to the plans of a reorganization of Tammany in which Mr. Croker took no part, except to suggest that young blood be admitted to the inner councils of the wigwag. The party proceeded to Tammany Hall where John F. Carroll was waiting for him. He was apprised of the purpose of Mr. Croker, but said nothing. He accompanied Mr. Croker to the Democratic club and, going upstairs, remained closeted with him for nearly an hour. It was after this conference that Mr. Croker announced: "This is my last campaign."

It is now said that Daniel F. McMahon will call a meeting of the executive committee within a week, when Mr. Croker will tender his resignation, and on motion of Senator Timothy D. Sullivan, John F. Carroll will be elected the new leader of Tammany Hall.

LONDON, Nov. 7.—All of this morning's newspapers refer in their editorial columns to the victory for reform in New York. It is felt that Mr. Low has undertaken a big task which will call for every resource of his practical ability, says the London correspondent of the Tribune.

Wherever local issues were paramount, it is not believed that the result of the election, on account of local opinion, and at Cleveland, on account of Mayor Johnson's agitation of "taxation inequalities." Where no such conditions were confronted the Republicans made gains. They carried some Democratic counties that never before were represented by Republicans. The State was carried on national issues involved in the support of President Roosevelt and the endorsement of Senator Foraker for re-election.

REPUBLICAN PARTY WILL STAY IN POWER How the Politicians View the Results of the Recent Elections in the States.

NEW YORK, Nov. 6.—A special to the Brooklyn Eagle from Washington says: The general result of yesterday's election is regarded by political leaders here as meaning that the tide that set toward the Republican party and its policies seven years ago still flows in that direction, though with lessened force. They argue that as no sign of an ebbing of the tide is visible this year, none will be three years hence, and that therefore President Roosevelt's successor, whether himself or another, will be a Republican. Already they are attempting to forecast the effect of yesterday's results upon his fortunes and wondering whether it means that he will be the first Vice-President succeeding to the Presidency by the death of his chief to be nominated by his party as his own successor—a nomination that they assert will be equivalent to election.

A powerful factor in the situation is the evident inability of the Democratic party to find an issue upon which they can unite or a man who can unite them regardless of issues. Of course, if this condition continues in the Democratic party it will work to the advantage of whomsoever the Republicans may name.

The party leaders of both sides at this time, viewing the situation in the light of the late elections as they appear to them here at the national capital, assume, as practical politicians, that the conditions under which the next Presidential campaign will be contested, will be substantially those that now prevail, and that this being the case the Republicans will win.

Latest Sugar Quotations. NEW YORK, Nov. 7.—Sugar—Raw, quiet; fair refining, 3 1/4; centrifugal, 36 test, 3 3/4; molasses sugar, 2c. Refined 3 1/2; crushed, 5 5/8; powdered, 5 1/8; granulated, 5 0/8.

show the election of two Democratic and one Republican candidate in that county, but the Republicans still claim that the official count will give them the solid delegation. It also appears that Little, Democrat, is elected in the First Legislative district of Baltimore City, but this, too, is disputed by the Republicans. These changes, if they hold good, will give the Democrats control of both branches of the Legislature. In the Senate they have a majority of nine without question and the gain of the three members mentioned above will give them a majority of three in the lower house.

IOWA IS REPUBLICAN. Cummins Elected Governor by Overwhelming Majority.

DES MOINES, Ia., Nov. 5.—The result in Iowa is remarkable. With a marked falling in the vote throughout the State, the loss in some precincts being forty and fifty per cent in the total vote, and the average loss for the State being one-fifth of the total of two years ago, A. B. Cummins, the Republican candidate, was elected by a plurality of 90,000, the largest ever given a Governor of the State.

The entire Republican State ticket is elected by similar pluralities and some extraordinary gains have been made. Chairman Spence, of the Republican Central Committee, said at midnight: "We will carry the State by 90,000, and will make good gains in the Legislature." The Republicans claim that in the legislative contests they have gained two or three members to add to their majority in the Senate, while in the House their great majority will be increased by seven or eight. Mr. Cummins said: "The percentage of majority for the Republican party is as large as the party has ever had. It could not well be greater."

Nebraska Plurality Growing LINCOLN, (Nebr.), Nov. 6.—Complete and nearly complete returns from over a third of the counties in Nebraska serve to increase the pluralities for the Republican State ticket. If the ratio of gain is maintained Sedgwick (R.) for Supreme Judge will have a plurality of 12,000.

LINCOLN, Neb., Nov. 7.—Complete returns from 48 out of 90 counties in the State give Sedgwick, Republican, 47,635; Hollen, Fusionist, 42,375. Nearly complete returns from nine other counties make Sedgwick's plurality 8,003. It is believed the total Republican plurality will reach 10,000 for Sedgwick, and 10,000 for Hollen (Lancaster) county, the Republicans made a clean sweep, gaining the offices of Treasurer and Register, of Deeds.

South Dakota Republican. SIOUX FALLS (S. D.), Nov. 6.—The result of the election for District Judge: Smith (R.), first district, 2000 majority; Jones (R.), second district, 3000; Bennett (R.), third district, 600; Frank B. Smith (R.), fourth district, 600; 700; Goffy (R.), fifth district, 600; 700; Goffy (R.), sixth district, no opposition; McGee (fus.), seventh district, probably elected by narrow margin; Woosbaugh (R.), eighth district, 800. Less than half the vote was polled.

Full Figures From Massachusetts. BOSTON, Nov. 5.—Revised and corrected returns from the entire State of Massachusetts show that Governor Crane has a plurality of 70,115. Revised returns from the Legislature will be as follows: Senate—35 Republicans, 7 Democrats, House—165 Republicans, 73 Democrats, 2 Social Democrats. This is a gain of two Republican Senators and a loss of fifteen Republican Representatives.

Result in Rhode Island. PROVIDENCE (R. I.), Nov. 6.—Complete returns from the 139 districts in the State give Gregory (R.), 19,853. Gregory's plurality is 839. Against McGee (fus.) in the Senate the Republicans have elected thirty-one members and the Democrats seven, and in the House the proportion is fifty-one Republicans to four Democrats.

Pennsylvania Republicans Win. PHILADELPHIA, Nov. 6.—Practically complete returns from the State give Harris (R.) for State Treasurer 52,360 plurality, and Pritzer (R.) for Supreme Court Judge 47,939 plurality. The indications are that the amendments were carried by a big majority although the aggregate vote on these fell far below that cast for the State candidates.

Result in Kentucky. LOUISVILLE (Ky.), Nov. 6.—Returns up to 12:30 o'clock indicate that the General Assembly in Kentucky, which will elect a United States Senator, will stand: Senate, 25 Democrats, 13 Republicans, House, 73 Democrats, 26 Republicans, 1 Independent Democrat.

Republican Triumph in New Jersey. TRENTON (N. J.), Nov. 6.—Revised returns give Franklin Murphy, Republican candidate for Governor, a plurality of 14,763 over James M. Seaman, Democrat. The Republicans have a majority of forty-one in the Legislature.

Utah Elects Republicans. SALT LAKE CITY (Utah), Nov. 6.—Complete returns show the election of the entire Republican city ticket in Salt Lake, with the exception of

Whittemore for Treasurer and four Councilmen by pluralities ranging from 800 to 7100. Municipal elections throughout the State were somewhat mixed, though as a rule favoring the Republicans. Logan went Republican for the first time in twenty years. William Gasman (R.), proprietor of the Ogden Standard, was elected Mayor of Ogden. The voting throughout the State was rather light.

WARRING PARTNERS IN COURT.

Business at a Standstill at the Wilcox Matinee. Pressure of business in the higher courts, brought the session of the District Court to a sudden termination yesterday morning. With a light docket, and but few cases taken up by the prosecution, the business brought before Judge Wilcox was quickly disposed of, although the grist at the justice mill was pretty small.

The Vida-Gray business differences were aired in court, and before the proceeding was passed along, Henry C. Vida, who was charged with assault and battery on his partner, Charles B. Gray, was fined \$25 and costs. The trouble started over a suit brought against Vida. When Gray visited the California Saloon, the joint property of the two men, high words ensued, and before silence had settled down over the locality Gray had been thrown out of the place. It is said that the end is not yet.

W. N. Dunn claimed he had struck the Chinese, Ah Kwal, in self defense, when arraigned upon the charge of assault and battery. He was granted an extension of time until this morning. Arita and Kima, charged with affray, acknowledged the affair, and each were given a fine of \$5 and costs. J. Lino Kamoku appeared in the Police Court on three charges of selling liquor without a license. Attorney Kaulukou appeared for the defendant, and at his request the case was postponed until today.

FOOTBALL PLAYERS MEET.

Plans Discussed at Last Night's meeting for Winter Games. The Honolulu Association Football Club held a meeting in the rooms of the Scottish Thistle Club yesterday evening and discussed plans for the approaching games to be played by the aggregation of footballists in the Association Football League.

A match committee, including Messrs. Goude, Harvie, Super, Fiddes and Kay were appointed to arrange for games throughout the season. M. Sevmour and Thomas Andrews were admitted to membership in the club. The committee also discussed the result in the club selecting red sweaters and white trousers as the club uniform. A color specified regarding stockings. In all probability the cloth for the costumes will be purchased in bulk, the suits made and the cost prorated among the membership of the club. This matter will be looked after by Messrs. Gay, Glass and Sevmour.

An attempt will be made to arrange a match game with one of the competing teams to be played a week from Saturday. The Wanderers will probably be drawn into the contest. Mr. M. Arroy will attend to the details of the matchmaking. Messrs. Harvie and Goude were instructed to confer with the officers of the Honolulu Athletic Club regarding the use of the club name.

MESSANGER RETURNS WITH LETTER FROM MISS STONE

Consul-General Dickinson Very Much Chagrined Because News of His Negotiation Was Made Public.

NEW YORK, Nov. 7.—The messenger sent by M. Bakhteff the Russian diplomatic agent to the brigands has returned bearing a letter from Miss Stone to a former pupil at Sofia, says the Sofia correspondent of the Journal and Advertiser. M. Bakhteff, having thus established communication has turned the letter and details over to Mr. Dickinson, the American consul, saying the latter has the ransom and upon him rests the responsibility.

The messenger was absent nine days. The letter is dated November 1st and is written in Bulgarian by Miss Stone, but controlled by the brigands. It consists of half a page saving Miss Stone and Mme. Tullka are well and that the latter expects a baby in three weeks. It expresses hope for speedy release.

M. Bakhteff's messenger also brought a letter to Mr. Dickinson from Miss Stone. The brigands decline to trust Mr. Dickinson's men and characterize his offer as paltry.

SOPIA, Nov. 7.—Consul-General Dickinson of Constantinople is frustrated because the fact that he had received a letter from Miss Stone leaked out. He says it is calculated to seriously affect it not completely undo the progress already attained. On two previous occasions negotiations with the brigands who abducted the American missionaries were abruptly broken off by the former owing to the premature disclosure of secrets, which the bandits regarded as being a breach of the understanding with them.

PUBLIC LANDS IN TERRITORY OF HAWAII

Commissioner Herman Treats of Them in His Report

GIVES OUTLINE OF LAND LAWS

RENEWS HIS RECOMMENDATION FOR APPOINTMENT OF A COMMISSION.

Thinks a Simple System of Land Laws Similar to Those in Force in the States is Most Desirable Here.

(From a Staff Correspondent.)

WASHINGTON, Nov. 1.—The annual report of Hon. Binger Hermann, Commissioner of the General Land Office, contains the following on Hawaii:

Prior to the year 1846 the lands in Hawaii belonged in legal contemplation to the King, and the chiefs and the people as tenants, by a system closely resembling the former feudal system of England. In that year, however, the King granted to his chiefs and people certain other portions of the land, to Government purposes certain other portions, and retained for himself the remainder, and this act was ratified by his Legislature on June 7, 1848. The lands thus passed to the King and his heirs were thence known as Crown lands.

In 1850, one-twentieth of all public lands were set apart for the support of schools, which the School Board was empowered to sell and lease. Under the homestead act of 1851 landless applicants were permitted to acquire title to two acres of taro, or wet lands, and not more than twenty acres of dry land.

In 1891 a part of the Crown lands was divided into small tracts, and the method of leasing them to homestead applicants on easy terms was instituted. In the year 1895, after the Republic of Hawaii had been established, the Legislature passed an act, designated as the "Land Act, 1895," which now remains in force, and which provides a comprehensive system for the care and disposition of the public domain. By this act, Crown lands are treated as having vested in the Republic, and they, together with the public lands before mentioned, now constitute the public lands of the Territory.

The absolute fee and ownership of all public lands, Government or Crown lands situated in Hawaii were absolutely ceded to, and became the property of the United States upon the annexation of the Hawaiian Islands.

Laws Relating to Disposal of Hawaiian Lands.

The Act of July 7, 1898 (30 Stat., 780), provided that: "The existing laws of the United States relative to public lands shall not apply to such lands in Hawaii, but the Congress of the United States shall enact special laws for their management and disposition; provided, that all revenue from the proceeds of the same, except as regards that part which may be used or occupied for civil, military or naval purposes of the United States, or may be assigned to the use of the local government, shall be used solely for the benefit of the inhabitants of the Hawaiian Islands for educational and other public purposes."

Section 73 of the Act approved April 30, 1900 (31 Stat., 154), provides that: "The laws of Hawaii relating to public lands, the settlement of boundaries, and the issuance of patents on land-commission awards, except as changed by this Act, shall continue in force until Congress shall otherwise provide; that, subject to the approval of the President, all sales, grants, leases and other dispositions of the public domain, and all franchises granted by the Hawaiian Government in conformity with the laws of Hawaii, between the 7th day of July, 1898, and the 28th day of September, 1899, are hereby ratified and confirmed."

Since the Hawaiian "Land Act of 1895" embraces the laws thus continued in force, a brief synopsis thereof is here given, as follows: Under the land act of 1895, the lands were divided into (1) agricultural lands; (2) pastoral lands; (3) pastoral-agricultural lands; (4) forest lands; (5) waste lands.

Agricultural lands were classified (1) lands suitable for the cultivation of fruit, coffee, sugar, or other perennial crops with or without irrigation; (2) lands suitable for cultivation of annual crops only; (3) wet lands, such as kalo or rice lands. The pastoral lands were classified as (1) lands not in the description of agricultural lands, but capable of carrying live stock through the year; (2) lands capable of carrying live stock only a part of the year, or otherwise inferior to first-class pastoral lands.

(Continued on Third Page.)

THE run to the islands made by the bark Santiago from San Francisco hovered very near to the record breaking limits. The vessel arrived in port yesterday morning, making her trip from the coast in ten and a half days.

However, in making her fast voyage, the Santiago lost both her top sails and stay sails at a time when she was plumed in a terrific squall, and one in which the Ribbet also encountered her.

Captain Engalis felt quite elated upon having the honor thrust upon him of making the quickest trip of the season. The Santiago has been on the hills for some time. There being no business for the vessel from that quarter a load of 2000 tons of general merchandise was put aboard her, and she was sent down to Honolulu.

The skipper states that as soon as she cleared San Francisco the bark fell in with a strong northeast wind, which continued until the vessel met the tempest off Molokai.

The Santiago brought Captain J. F. James, formerly publisher of the City Front News of San Francisco, as a passenger. Captain James will remain in the islands indefinitely. A. The Santiago will discharge her cargo at Oceanic dock. She will probably not wait for a load of sugar, but will return to the Coast in ballast.

Lewers' Costly Ballast. Upon the arrival of the schooner Robert Lewers at Port Townsend November 5, her skipper, Captain Underwood, soon found himself up against the United States custom-house authorities.

When the Lewers left this port she took on scrap-iron ballast in place of the rock usually taken. At the time Captain Underwood claimed that the scrap-iron was much cheaper ballast, in that it could be disposed of at the Sound ports. The Robert Lewers consequently had 166 tons of old iron stowed in her hold in making the return trip to the Sound.

Collector Huelszt of the Puget Sound district, however, is reported as disputing the right to landing the scrap-iron without duty being paid upon the same. To avoid any possible clash with the custom officials, Captain Underwood presented an affidavit certifying to that made by another. Captain Underwood has filed a vigorous protest against the decision of Collector Huelszt, and the matter has been wired to the Treasury Department for adjustment. Meanwhile the Lewers is held at Port Townsend, Captain Underwood demurring to pay the duty on the scrap-iron by refusing permission for the vessel to enter until the duties demanded are paid. Transportation of scrap-iron as ballast has become an important factor in the handling of vessels which carry lumber from the Sound to Honolulu, as the vessels are forced to return light, and an adverse decision will have a demoralizing effect on the trade.

It will be remembered the Lewers was fined \$100 by the Collector of Customs at this port for having an unlicensed mate. The fine was afterwards reduced to \$15.

Waiialua Was Not Damaged. The little island schooner Waiialua was pulled from off a dangerous position on the edge of the reef, at the entrance of the harbor by the tug Fearless yesterday afternoon.

The Waiialua, recently purchased by E. G. Carrera, has been engaged in transporting mail in the Molokai trade. She left this port Tuesday with a full cargo for the leper settlement. Upon reaching the island it was found that the storm prevailing in that section at the time precluded any possibility of the little craft effecting a landing of her cargo. Seas were rolling at terrible height and with much force. After several ineffectual attempts to land at the settlement, the matter was given up, and the vessel returned to Honolulu.

In attempting to tack through the channel yesterday morning the little vessel through some miscalculation, found her nose buried in the sand pit on the Kwa side of the channel, about midway between the lighthouse and the buoy. Wind and waves rendered her position a rather dangerous one. The Fearless was sent out, and a line was soon fast to the vessel. It did not take the powerful tug very long to get the schooner off, and she was towed to the harbor and to her berth. The vessel suffered no damage whatever from her experience. The promptness with which she was released prevented any injury to the bottom of the vessel.

Claudian's Officers at Fault. SAN FRANCISCO, Nov. 4.—The United States Circuit Court of Appeals today affirmed the decision of the District Court of Hawaii in the case of the Wilder Steamship Company vs. J. S. Low and John Piltz. The suit was the result of a collision between the steamer Claudine, owned

by the plaintiff, and the barkentine William Carson, the property of Low & Piltz, on December 27, 1899, about twelve miles from Honolulu. The court said that the officer in charge of the steamer Claudine conspicuously failed to see what he ought to have seen and, consequently, to direct properly the steamer's course. The liability rests on the appellants, who are the plaintiffs. The question of the jurisdiction of the Court of Appeals in admiralty cases was decided by the court in favor of the appellants from the Hawaiian courts.—Chronicle.

Hambleton Commanded the Gaelic. Chief Officer A. E. S. Hambleton was found in charge of the Occidental & Oriental steamship Gaelic when that vessel arrived in port yesterday morning from San Francisco en route to the Orient. Captain William Finch, the Gaelic's master, having been granted a vacation of one trip in order that he might sufficiently recuperate his health.

The Gaelic brought five days' news and a big mail for Honolulu. She met with considerable stormy weather in coming down to the islands, the greatest severity of which was reached as the ship neared port. Had pleasant weather prevailed throughout the voyage, the vessel would in all probability have reached Honolulu Wednesday afternoon.

While the liner has a comparatively small cabin list, her steerage accommodations were crowded to the fullest capacity. There were over 400 Asiatics destined for the Orient aboard the vessel. Included amongst the steerage passengers was a colony of Filipinos—numbering eighty-five—who are returning to Manila after spending five months at the Pan-American exposition at Buffalo, N. Y. The party is composed of men, women and children, several of the little tots barely out of their swaddling clothes.

On the trip down the Gaelic sighted and spoke a four masted schooner, steering southwest. The schooner flew the name letters K. L. B. S. and was sighted on the 10th inst. in lat. 31 deg. 28 min. N. long. 139 deg. 34 min. W. The vessel proved to be from Alice Cooke, now twenty days from Port Gamble for this port.

The Gaelic left for the Orient at 8 o'clock last evening. She took from this port 79 Japanese and 37 Chinese as steerage passengers. About 450 tons of coal were put aboard the vessel before her departure.

Tons of Sweetmeats. Queer cargoes are numerous these days, but it is seldom that the opening of the hatches discloses a cargo that has changed its character in transit. Part of the cargo taken in by the British ship Charing Cross at Rosario, Argentine Republic, some time ago, consisted of 8,000 bags of sugar, and when about to be discharged on the dock in London it was found to have turned into taffy. The cost of discharging the 8,000 bags of sugar would ordinarily have been about \$175, but it cost \$3,350 to get the taffy out of the ship, and an extra large force of men had to be employed in the work. The sugar was moist when taken into the ship, and the proximity of the engine-room had resulted in the heating of the apartment to such an extent that the sugar was turned into hard taffy that was only removed by means of picks and shovels. It was sold to confectioners.—Chronicle.

Floating Dock Successful. NEW YORK, Nov. 4.—A special to the Sun from New Orleans says: The United States naval dock, the largest floating dock in the world, passed successfully through the jetties this afternoon, and will reach New Orleans early tomorrow, which event will be celebrated here. The towing of this immense dock from Sparrow's Point, near Baltimore, to New Orleans has been one of the greatest feats of towing ever performed, the dock making the marvelous speed of eight miles an hour in spite of much tempestuous weather it encountered, especially when near the mouth of the Mississippi. The dock will be received here tomorrow by the Mayor, Congressmen and other officials, and the day will be observed as a half holiday. The Navy Department has given notice that the Illinois will be sent here to be docked.

Transport Warren Disabled. Advice brought by the Gaelic yesterday preclude any possibility of the United States transport Warren stopping at this port. It was first believed that the vessel in leaving Yokohama would come by the southern route, and perhaps stop over in Honolulu for a short time. A dispatch from Manila confirms the news that the transport Warren had been disabled, and stating that the Sheridan, which had just arrived at Manila, had been coaled and dispatched to Kobe, Japan, where the Warren now is, to bring the Warren's passenger's to San Francisco. The Congressional party which has been visiting the Philippines was among the Warren's passengers.

Bark Senator Will Try Again. The bark Senator, which left Puget Sound for Liverpool with a cargo of lumber several months ago, and

Diamond Head, 10 p. m.—Weather clear. Wind fresh, north-east.

Finally brought up at Hilo in a disabled condition, soon afterwards returning to Victoria, B. C. for repairs, will make another start for her port of destination.

Captain Morrissey has arrived at the British Columbian port, and was to take charge of the Senator Nov. 5th. The Senator was hauled out at that place, but received no repairs other than having her upper works calked. She has been declared seaworthy, however, and was to make a new start November 12. Captain Morrissey was last at Victoria in the Radown, which was at Puget Sound, and the voyage from Yokohama for Portland when she arrived at Victoria there had been a murder on board, and one of the crew is still in jail at that place on that account. Captain Harrison, the discharged master, will leave Victoria for his home.

Pumps Keep Thomas Afloat. The ship J. B. Thomas, owned by the California Shipping Company, is leaking at the rate of forty inches an hour at Puget Sound, and the combined efforts of the ship's pumps and a steam pump are necessary to keep the vessel afloat. The Thomas returned to the Sound some weeks ago after having sailed for Honolulu. Twelve hundred tons of the cargo of 3,000 tons in the Thomas have been transferred to the ship William D. Smith. It is reported that fish six inches in length have been drawn up by the pumps, which indicates that the ship has holes of considerable size in the hull.

Shy at Honolulu Jobs. Collector of the Port Stratton has had difficulty in filling offices in Honolulu, says the Examiner. Some time ago he was requested to send a sampler to the islands. As the salary was only \$100 a month, he could get none of those engaged here to take the position. A few days ago there was a requisition from Washington for an examiner at a salary of \$1,500 a year. None of the examiners here would accept, and A. W. Adams, an inspector, was sent down. He gets an increase in salary of \$50 a month in his new position.

Sound Storm Signal. PORT TOWNSEND, Nov. 3.—Work will be commenced shortly on the new signal tower from which storm signals will be displayed. Flags will be used during the day and electric lights at night to communicate the storm warnings. Frank Plummer has been appointed displayman for the weather bureau to fill the vacancy caused by the resignation of Eugene Bondi.

The schooner Churchill with coal for Eleele left Newcastle October 24. The Mauna Loa was reported as discharging her cargo at Punaluu Monday.

The schooner Irene arrived at Fairbairn, Wash., from Honolulu November 6th.

The steamer Noeua is expected to leave Honolulu today for Kilauea to load cattle.

The schooner Henry Wilson arrived at Grays Harbor from Honolulu November 6th.

The barkentine Encore left Newcastle for Honolulu with a cargo of coal October 6th.

The schooner Novelty was reported as leaving Newcastle with coal for this port October 5th.

The schooner Ada, arriving yesterday morning, experienced a very rough trip from Kauai ports.

The bark Edward May left Oyster Harbor November 4th loaded with coal destined for Kahului.

The schooner Alice McDonald was reported as taking on a cargo of coal at Newcastle October 15th.

The schooner Robert Lewers was reported as reaching her destination in the Sound November 6th.

The schooner Maria E. Smith sailed out of the harbor yesterday morning bound for the Sound in ballast.

A boat belonging to the Waialeale was picked up on the beach at Kilauea by the crew of the Makee Wednesday.

The barkentine Archer sailed from San Francisco for Honolulu with a large cargo of merchandise November 3d.

The bark Kaulani was reported as clearing the port of San Francisco for Honolulu with a general cargo November 3d.

Purser Sharratt of the James Makee reported 4200 K. S. M., 600 V. K., 1450 W., 1500 G. & R., 1500 McBryde sugar left on Kauai.

Donald barkentine James Johnson, barkentine Omega, schooner Robert Seales, bark Sonoma, schooner Sissie M. Plummer.

Purser Kaee states that one of the Nilhau's boats in leaving the landing at Punaluu Monday with 50 bags of sugar encountered a big sea which ran in and wet all the sugar.

Vessels arriving at the Sound during the week up to and including November 6th all brought news of narrow escape from collisions with drift logs off Cape Flattery and in the straits.

Report comes from Seattle that the schooner Robert R. Hind, which recently left this port in ballast, passed in through the Straits in distress. The extent of the damage done the schooner is not stated.

The heavy rain prevailing at Punaluu at the time the Nilhau was at that port greatly delayed the discharging of her cargo. Upon arrival at Punaluu work of unloading was necessarily stopped because of the storm.

Incoming inter-island steamers report plenty of rain on Hamakua, Kauai and Kona coasts on Hawaii. Heavy northwest seas were running in the Hawaii channel and northeast seas prevailed in the Kaula channel.

A gang of carpenters and repairers were engaged yesterday in removing the tattered remains of the Pacific Mail wharf roof which was broken by the jibboom of the Benj. F. Packard some weeks ago. The portion damaged will be completely rebuilt.

The Makee found it too rough to work when she arrived off Anahola last Friday, and steamed on to Kilauea, and from that port to Hanalei where mail and passengers were landed. The storm prevented the vessel getting away until Monday, when an attempt was made to reach Anahola and land cargo. Again it was too stormy to get cargo ashore and the Makee was put back to Kilauea. A landing at Anahola was not effected until Wednesday evening.

ARRIVALS. Thursday, Nov. 14. O. & O. S. S. Gaelic, 6 days 20 hours from San Francisco.

Am. bk. Santiago, Engalis, 11 days from San Francisco.

Schr. Waiialua, from Molokai, at 3 p. m.

PUBLIC LANDS IN TERRITORY OF HAWAII

(Continued from First page.)

Pastoral-agricultural lands were classed as lands adapted in part to pasturage and in part to cultivation. Forest lands were lands producing forest trees, but unsuitable for cultivation, and waste lands were lands not included in either of the other classes.

This act provided the following methods for the disposal of the public lands of the Republic:

- 1. At public auction for cash in parcels of not over 1,000 acres, the consent of the executive council being required before any lands could be disposed of in this manner.
2. At public auction upon part credit, in parcels not exceeding 600 acres, with like consent required.
3. Without auction sale, in exchange for private lands, or by way of compromise.
4. By lease at public auction for not more than twenty-one years.
5. By homestead leases, under which each applicant might occupy eight acres of first-class agricultural lands, sixteen acres of second-class agricultural lands, one acre of taro land, thirty acres of first-class pastoral land, sixty acres of second-class pastoral land, or forty-five acres of pastoral-agricultural lands. Certain qualifications were prescribed for these homesteaders.

6. Right-of-purchase leases, under which a qualified applicant could occupy, with the privilege of purchasing at the end of three years, and upon the fulfillment of special conditions, either 100 acres of first-class agricultural lands, 200 acres of second-class agricultural lands, two acres of taro lands, 600 acres of first-class pastoral lands, 1,200 acres of second-class pastoral lands, or 400 acres of agricultural-pastoral lands.

7. Cash freeholds, under which qualified applicants could purchase at public auction the same areas which could be acquired under the right-of-purchase lease system above described.

Congressional Action.

During the last session of Congress there was introduced in the Senate, its Bill 5882—

"To extend the general land laws of the United States to the Territory of Hawaii, with rules and regulations for homestead entries by the Secretary of the Interior."

In reporting on this bill, this office said:

"The widely differing qualities and character of the lands existing in the Hawaiian Islands and their productive capacity have been recognized by the laws of the Island, but this department is not in possession of any information which would lead to determine, even approximately, the amount of each class of lands remaining yet unappropriated, and while it is believed that a less complicated system, and one which will result in permitting the citizens of Hawaii to acquire title in fee to these lands, under laws similar to those in force in the United States, is most desirable, no intelligent recommendation can be made on the subject until sufficient data has been collected through a commission authorized by Congress to enable this Department to determine the amount of the respective classes of land which should be awarded to each entryman."

This office is not informed that any definite or general system of land surveys existed in either Porto Rico or the Philippines under Spanish rule. From the most reliable sources of information at its command, it appears that no attempt was ever made to survey the public domain generally, and that surveys were not made, except when applications were presented for the purchase of particular tracts, when such tracts were surveyed and plotted.

Colonel Crowder, secretary to the Military Governor, urges the lack of proper surveys and the consequent inability to identify private holdings as one of the reasons why farm lands were formerly exempt from taxation in the Philippines.

The Taft commission recently called upon this office to furnish the Philippine engineer officers with information as to the system of surveys now in use in the United States, saying that the subject of surveying the Philippine lands was about to be taken up. This office made immediate and suitable response to that call, but it has not been advised of any action taken by the commission.

In Hawaii.

In Hawaii a better system of surveys appears to have been followed. From the data received at this office from Honolulu the following facts are gathered:

The original Crown tracts there were scattered, and varied in size from a quarter section to lands embracing several townships.

In the Island of Maui, points of triangulation have been established at intervals of a few miles and the Island divided into thirteen districts, irregularly shaped and unequal in extent, each having a name, such as Kula, and each having a sea front. These districts are divided into subdistricts, with native designations, the subdistricts each (in nearly every case) having also a sea front, and the boundary lines of which are mostly at right angles to the shore line. Subdistricts are mapped as "grants," "awards," "Government," "Crown," etc., side by side, throughout the Island. Portions of these districts are taken embracing fifteen or twenty subdistricts, such as is shown on a map of Nahiku coffee lands, and re-subdivision lines are run cutting up the lines into tracts averaging 200 acres each by lines at right angles to the sea, extending toward the interior as far as a highway road and the resulting lots cut into two lots, each averaging 100 acres, marked consecutively, the one fronting upon the sea, the other upon the road, so that each lot will have either a road or the sea as one of its boundary lines. The side lines in all these lottings follow the trend of the hills and embrace the full length of the streams in the sub-district divisions. For the purpose of disposals, such redivisions are

suitable and proper, and, in the absence of rectangles built upon meridional lines, serve to provide available tracts for coffee plantations or other purposes. They could, however, have been formed into rectangles, as in our own system, and the tracts made equally available.

In the case of the Island of Hawaii the plan seems to have been to take an arable tract wherever lands are called for and divide the same into lots of square or rectangular form of fifty acres each.

In the district or province of Puna, in this Island, a subdistrict or reservation named Oka was divided into such blocks, corresponding to our forty-acre tracts. There was first a broad highway laid out through the tract (in this case it was the road from Hilo to the volcano of Kilauea), and this road was crossed by other roads at right angles at certain intervals, so that it resulted in each lot having an outlet on a road. There were 400 lots in this subdivision, to which was added later 400 more on the same plan.

On the Island of Molokai subdivisions sometimes embrace several thousand acres (so divided for purposes of leasing), each tract having a sea front.

On the Island of Oahu the same conditions prevail as on Maui and other Islands.

The rectangular system primarily intended to be adopted for our extensive western domain is well adapted to all areas of land embracing more than 10,000 acres, but its applicability to the lands acquired from Spain would appear to depend upon information about the islands obtainable only as the result of patient and laborious investigation by competent and reliable experts. E. S. L.

'T WAS A DESPERATE BATTLE.

Further Details of the Attack on Benson's Column.

LONDON, Nov. 7.—Lord Kitchener, cabling from Pretoria, under yesterday's date, supplementary details of the recent fight near Brakenlaagte, Eastern Transvaal, says:

"The Boer loss was forty-four killed, including General Opperman and one hundred wounded. The Boers got nothing beyond the guns. The Boer attack was easily repulsed until the arrival of Louis Botha, with 600 men."

It appears that General Botha, who had been joined by another big commando aggregating 100 men, attacked Colonel Benson's rear guard, October 30th, on the march and captured two guns, but was unable to keep them. Colonel Benson fell mortally wounded early in the fight. Major Woods-Sampson took command, collected the convoy and took up a position for defense about 100 yards from the encampment prepared by the Boers. The captured guns were so situated that neither side could touch them.

The Boers made desperate efforts to overwhelm the whole British force, charging repeatedly right up to the British lines, and being driven back each time with heavy loss. The defense was stubbornly and successfully maintained through the whole of the following day and the next night until Colonel Barter, who had marched all night from Bushman's kopie, brought relief on the morning of November 1st. The Boers then retired.

NEW YORK, Nov. 7.—According to the London correspondent of the Tribune a Johannesburg financial house has just had a remarkable chat with ex-President Kruger about South African prospects. The ex-President's talk was all of arbitration, which he declared to be the only satisfactory way of ending the war. Asked what he would do if arbitration were offered the Boers, he replied that such a thing was impossible. It could not happen. "But assuming for the moment that it might," he added, "we should take up arms if arbitration went against us. We would never suffer the results of arbitration, if those results were unjust and wrong."

The Best Remedy for Diarrhoea.

"Some years ago while at Martinsburg, W. V. I was taken with cholera morbus, which was followed by diarrhoea. The doctor's medicine did me no good. I was advised to get a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I did, and it cured me sound and well.—G. A. MORRIS, Embreeville, Pa. U. S. A. BRIGHT OUTLOOK FOR REPUBLICANS.

The elections in the states last week show that the Republican party is so strongly entrenched in power that it will be many years before it will be overthrown.

Of the state elections the greatest interest centered in the result in Ohio. Besides the Governor and State offices the seat of Joseph B. Foraker in the United States Senate was at stake.

In Nebraska where there was only a Judge of the Supreme Court and a regent of the State University to be elected Mr. Bryan entered into the canvass, the Democrats and Populists having fused against the Republicans.

Kansas which strayed after the false gods of populism and democracy ten years ago has returned in full faith to the Republican fold, the Republican victory of last year being repeated this year in the county elections.

Iowa gives a majority almost as great as in a presidential year, while New Jersey which had been Democratic for years previous to 1894 now seems to be permanently in the Republican column.

In Maryland where the legislature and a seat in the United States Senate were at stake the Democrats won by a very narrow margin thus insuring the election of Arthur Pue Gorman to the Senate.

Virginia, Kentucky and Mississippi the only southern States in which elections were held gave Democratic majorities as was to be expected but the Western States of Utah and Colorado show by the results in the county elections that both have returned to the Republican fold.

The effect upon the result in the Presidential election in 1904 will be far reaching and demonstrates beyond any doubt that the next President will be either Theodore Roosevelt or whoever the Republican party nominates as its candidate.

BOSS RULE OVERTHROWN.

There is no doubt that more interest was taken in the country at large over the city election in Greater New York than ever before was shown in any municipal contest.

There is no doubt that more interest was taken in the country at large over the city election in Greater New York than ever before was shown in any municipal contest.

ministered by Mr. Jerome and the orders to the faithful were that he must be defeated at any cost. But all to no purpose. The people were fully aroused and determined to make a clean sweep and institute pure city government for the corrupt practices and blackmail of Tammany.

AMUSEMENTS.

James Neill and those delightful dramatic artists associated with him presented last evening at the Opera House before a large audience Louis N. Parker and Murray Carson's beautiful play of "Rosemary."

The honors of the performance last evening fell to Mr. Neill and Miss Dean, with John W. Burton well up in the front row of popularity for his breezy rendition of Captain Cruickshank.

The story opens in England in the year 1838, with the elopement of pretty Dorothy Cruickshank and William Eastwood. They come to grief on the start of their flight and are rescued from an uncomfortable situation by Sir Jasper Thorndyke, a kindly squire of 40 years, who houses them for the night.

POLITICIANS AMAZED

AT SCHMITZ' STRENGTH

SAN FRANCISCO, Nov. 6.—Eugene E. Schmitz, Labor Union candidate for Mayor, was elected today by 4000 plurality over Asa H. Wells, Republican, and Joseph S. Tobin, Democrat, after one of the hardest fought campaigns that this city has seen for years.

Labor Candidate Had Majorities in Districts Usually Democratic, and He Shows Under the Nominee of that Party.

SAN FRANCISCO, Nov. 6.—Eugene E. Schmitz, Labor Union candidate for Mayor, was elected today by 4000 plurality over Asa H. Wells, Republican, and Joseph S. Tobin, Democrat, after one of the hardest fought campaigns that this city has seen for years.

While the result was a great surprise to the old-time politicians, the enthusiasm for Schmitz, which was pronounced from the opening of the campaign, became so exceedingly strong during the closing days as to cause distinct apprehension in the ranks of his opponents' forces.

Schmitz's election was practically conceded at 8 o'clock, when the first returns posted on the bulletin boards showed that he was more than holding his own in the strong Republican precincts and piling up big pluralities in the precincts "south of the slot," generally depended upon to go Democratic.

Tobin was not in the fight after the polls opened, although he put up a great fight against the enormous odds. It was admitted from the first that most of Schmitz's votes would necessarily come from Democrats.

votes to him among the Republicans to offset those lost to Schmitz. That they totally underestimated the Schmitz vote as well as overestimated the ability of their candidate to capture Republican votes is shown by the returns.

The Schmitz landslide was a demoralizer to the managers of the old political parties, but, somewhat strange to say, the branches carried few of the Labor Union candidates.

Schmitz's large vote was due to all the labor unions voting solidly for their candidate and to the fact that many disgruntled members of the other parties also cast ballots for him.

Every man who works with his hands evidently got out and voted for Schmitz, and many old-time Democrats also voted for him in preference to Tobin, who is a rich bank director and attorney.

The result for the rest of the ticket shows that the Republicans elect Auditor, Sheriff, Tax Collector, Treasurer, County Clerk, Public Administrator and six Supervisors.

MANSLAUGHTER PRISONER IS GIVEN SIX MONTHS ON REEF

Kiki, the Man Who Kicked Bombay to Death in Prison Cell is Sentenced—Other Matters.

Judge Humphreys, court employe and a jury yesterday had an anxious wait for a verdict in the case of Kiki, charged with kicking or beating the life out of one, Bombay, in the city jail last May.

The case came on before Judge Humphreys Wednesday afternoon but was not finished. The final testimony of the defendant's side of the case was out in yesterday morning, argued in the afternoon and the jury retired about 11:30.

The jury was out all day and until 9:15 p. m. when a verdict of guilty of manslaughter in the third degree was returned. The jury recommended mercy.

Robert Coleman, an American, who is one of the physicians attending Li, told the correspondent that when he was called on to act with Dr. Velde of the German Legation, November 1st, he found the patient very weak from a severe hemorrhage due to ulceration of the stomach.

Earl Li's persistent refusal to refrain from attending to Government business has aggravated his malady, while the refusal of the family to permit certain measures customary in Western medical practice for relieving the stomach have contributed to bring his end near.

The school will be under the management of an educator of fourteen years' experience, who, besides being a college man, holds an Iowa State certificate. He will be assisted by able and experienced teachers, who will employ modern methods.

NIGHT SCHOOL REOPENING.

A thoroughly up-to-date night school will be opened in the basement of the Queen Emma hall, Beretania and Nuanuan streets, on Monday evening, November 18, at 7 o'clock.

Robert Wilcox and the Princess Theresa played their card at the meeting of the Home Rule last evening and it won. For days and weeks it had been in the wind that the name of the party would be changed back from "Home Rule Republican" to plain "Home Rule," and that was the principal matter to come before the meeting last night.

Robert Wilcox and the Princess Theresa played their card at the meeting of the Home Rule last evening and it won. For days and weeks it had been in the wind that the name of the party would be changed back from "Home Rule Republican" to plain "Home Rule," and that was the principal matter to come before the meeting last night.

LI HUNG CHANG DIES AT CITY OF PEKING

ONE OF THE GREATEST ORIENTALS ANSWERS THE CALL OF DEATH.

The Man Who More Than Partially Held the Destinies of Nearly Half the World in His Hand is Dead—His History.

A few weeks ago Mr. Squires, secretary of the United States Legation at Peking, passed through Honolulu and while here stated to the Republic that, although the report had been frequently circulated and had become to be recognized as a Chinese ruse, Li Hung Chang, the Gladstone, the Bismarck, the Blaine of China was really in a very bad physical condition and might succumb at any moment.

Li Hung Chang sprang from plebeian environment, but, like many Americans, proved himself equal to greater occasions and conditions. At his death he was unquestionably one of the wealthiest men in the world.

PEKING, Nov. 7.—Li Hung Chang died at 11 o'clock this morning. At midnight last night Li Hung Chang rallied slightly. His family had installed native doctors in charge of the patient, the regular physicians having refused to attend him unless the Chinese doctors were dismissed.

The Chinese officials are somewhat uneasy concerning the effect his death will have on the populace, and to guard against a possible anti-foreign demonstration the Chinese generals have disposed their troops about the city in such a way as to command the situation. Trouble, however, is extremely improbable.

HONOLULU, H. T., NOV. 15, 1901

BRIGHT OUTLOOK FOR REPUBLICANS.

The elections in the states last week show that the Republican party is so strongly entrenched in power that it will be many years before it will be overthrown.

Of the state elections the greatest interest centered in the result in Ohio. Besides the Governor and State offices the seat of Joseph B. Foraker in the United States Senate was at stake.

In Nebraska where there was only a judge of the Supreme Court and a regent of the State University to be elected Mr. Bryan entered into the canvass.

Kansas which strayed after the false gods of populism and democracy ten years ago has returned in full faith to the Republican fold.

Iowa gives a majority almost as great as in a presidential year, while New Jersey which had been Democratic for years previous to 1894 now seems to be permanently in the Republican column.

In Maryland where the legislature and a seat in the United States Senate were at stake the Democrats won by a very narrow margin thus insuring the election of Arthur Pue Gorman to the Senate.

Virginia, Kentucky and Mississippi the only southern States in which elections were held gave Democratic majorities as was to be expected by the Western States of Utah and Colorado show by the results in the county elections that both have returned to the Republican fold.

The effect upon the result in the Presidential election in 1904 will be far reaching and demonstrates beyond any doubt that the next President will be either Theodore Roosevelt or whoever the Republican party nominates as its candidate.

BOSS RULE OVERTHROWN.

There is no doubt that more interest was taken in the country at large over the city election in Greater New York than ever before was shown in any municipal contest.

ministered by Mr. Jerome and the orders to the faithful were that he must be defeated at any cost.

In San Francisco the election of Schmitz, the Union Labor candidate, was a surprise to the old politicians. A great fight had been made for Tobin, the Democratic candidate.

AMUSEMENTS.

James Neill and those delightful dramatic artists associated with him presented last evening at the Opera House before a large audience Louis St. Parker and Murray Carson's beautiful play of "Rosemary."

The honors of the performance last evening fell to Mr. Neill and Miss Dean, with John W. Burton well up in the front row of popularity for his breezy rendition of Captain Cruickshank.

The story opens in England in the year 1823, with the elopement of pretty Dorothy Cruickshank and William Eastwood.

TOBIN NEVER IN THE FIGHT FOR THE MAYORALTY OF SAN FRANCISCO.

POLITICIANS AMAZED AT SCHMITZ' STRENGTH

TOBIN NEVER IN THE FIGHT FOR THE MAYORALTY OF SAN FRANCISCO.

LABOR CANDIDATE HAD MAJORITIES IN DISTRICTS USUALLY DEMOCRATIC, AND HE SHOWS UNDER THE NOMINEE OF THAT PARTY.

SAN FRANCISCO, Nov. 8.—Eugene E. Schmitz, Union Labor candidate for Mayor, was elected today by 4090 plurality over Asa R. Wells, Republican.

LABOR CANDIDATE HAD MAJORITIES IN DISTRICTS USUALLY DEMOCRATIC, AND HE SHOWS UNDER THE NOMINEE OF THAT PARTY.

While the result was a great surprise to the old-time politicians, the enthusiasm for Schmitz, which was pronounced from the opening of the campaign, became so exceedingly strong during the closing days as to cause distinct apprehension in the ranks of his opponents' forces.

BOSS RULE OVERTHROWN.

There is no doubt that more interest was taken in the country at large over the city election in Greater New York than ever before was shown in any municipal contest.

votes to him among the Republicans to offset those lost to Schmitz. That they totally underestimated the Schmitz vote as well as overestimated the ability of their candidate to capture Republican votes is shown by the returns.

The Schmitz landslide was a demoralizer to the managers of the old political parties, but, somewhat strange to say, the avalanche carried few of the Labor Union candidates.

Wells, the Republican candidate, is an old office holder, who is the present Auditor. He is an honest man, but in this campaign he was badly handicapped by the fact that he was controlled by local bosses.

Every man who works with his hands evidently got out and voted for Schmitz, and many old-time Democrats also voted for him in preference to Tobin, who is a rich bank director and attorney.

PEKING, Nov. 7.—Li Hung Chang died at 11 o'clock this morning. At midnight last night Li Hung Chang rallied slightly.

MANSLAUGHTER PRISONER IS GIVEN SIX MONTHS ON REEF

Kiki, the Man Who Kicked Bombay to Death in Prison Cell is Sentenced—Other Matters.

Judge Humphreys, court employe and a jury yesterday had an anxious wait for a verdict in the case of Kiki, charged with kicking or beating the life out of one Bombay, in the city jail last May.

LI HUNG CHANG DIES AT CITY OF PEKING

ONE OF THE GREATEST ORIENTALS ANSWERS THE CALL OF DEATH.

The Man Who More Than Partially Held the Destinies of Nearly Half the World in His Hand is Dead—His History.

A few weeks ago Mr. Squires, secretary of the United States Legation at Peking, passed through Honolulu and while here stated to The Republican that, although the report had been frequently circulated and had become to be recognized as a Chinese ruse.

PEKING, Nov. 7.—Li Hung Chang died at 11 o'clock this morning. At midnight last night Li Hung Chang rallied slightly.

PEKING, Nov. 6.—At 9 o'clock this evening Earl Li was still breathing and displaying unexpected vitality.

The Chinese officials are somewhat uneasy concerning the effect his death will have on the populace, and to guard against a possible anti-foreign demonstration the Chinese generals have disposed their troops about the city in such a way as to command the situation. Trouble, however, is extremely improbable.

TOBIN NEVER IN THE FIGHT FOR THE MAYORALTY OF SAN FRANCISCO.

WILCOX FORCES MAKE COMPLETE WINNING IN MEETING LAST NIGHT—NEW MEMBERS INSTALLED.

Robert Wilcox and the Princess Theresa played their card at the meeting of the Home Rulers last evening and it won. For days and weeks it had been in the wind that the name of the party would be changed back from "Home Rule Republican" to plain "Home Rule."

WILCOX FORCES MAKE COMPLETE WINNING IN MEETING LAST NIGHT—NEW MEMBERS INSTALLED.

WILCOX FORCES MAKE COMPLETE WINNING IN MEETING LAST NIGHT—NEW MEMBERS INSTALLED.

HOME RULE REPUBLICAN PARTY WILL BE ITS NAME

WILCOX FORCES MAKE COMPLETE WINNING IN MEETING LAST NIGHT—NEW MEMBERS INSTALLED.

While the result was a great surprise to the old-time politicians, the enthusiasm for Schmitz, which was pronounced from the opening of the campaign, became so exceedingly strong during the closing days as to cause distinct apprehension in the ranks of his opponents' forces.

Supreme Court Today.

The Supreme Court will this morning take up the case of Nellie F. Cook vs. Hollister Drug Company, damages. This will be followed by the case of James F. Morgan vs. F. C. Betters, breach of contract.

McDonald Found Guilty.

Mate McDonald, whose case has occupied the attention of the Federal Court most of two days, was found guilty by the jury yesterday afternoon of assault and battery on the high seas. He will be sentenced at 10 a. m. Saturday.

PETERS' DEATH WAS DUE TO AN ACCIDENT

The coroner's jury in the case of the Portuguese boy, Manuel Peters, who was killed by an electric car on Tuesday afternoon, brought in a verdict last night, after only a few minutes' consideration, to the effect that "The said Manuel Peters came to his death, at Honolulu, Oahu, on the 12th day of November, 1901, from injuries received on said 12th day of November, by being accidentally run over by an electric car, the property of the Honolulu Rapid Transit and Land Company, Limited, on Liliha street, between Wyllie and Judd streets, in said Honolulu."

At the inquest several witnesses were examined, the testimony of all being to the same effect. Dr. McDonald's report of the post-mortem examination was read, and the motorman, C. H. Cooke, and the conductor, Edward Dean, testified in accordance with the testimony of Peters' two companions, who were riding with him when the horse took fright and backed on the track in front of the car. There was no evidence to show any carelessness on the part of the motorman, and on the contrary, it was shown that Cooke did everything possible to prevent the accident, stopping the car within less than the distance of a car length. Manager Salter was present at the inquest.

The names of the jurymen in the case are: Fred Smith, Albert Lucas, Bert Bower, E. E. Mossman, E. K. Duvauchelle and Charles Toblin.

Chapel Dedication.

Following is the program for the dedication of the St. Augustin's Chapel at Waikiki, which will take place Sunday afternoon:

Galop, "Good Bye" ...Hartman St. Louis College Orchestra.

DIED.

SMITH--At Hford, Essex, England, Oct. 21, 1901, the widow of the late Judge Smith, mother of Mrs. William C. Roe, of Honolulu.

Jumped on a Ten-Penny Nail.

The little daughter of J. N. Nowell jumped on an inverted rake made of ten-penny nails and thrust one nail entirely through her foot and a second one half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with absolutely no discomfort. Mr. Powell is a well known merchant of Frankfort, Va. U. S. A. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment. For sale by all druggists and dealers. Benson, Smith & Co., agents for Hawaii.

Subscribers to The Republican not receiving their papers promptly will confer a favor by notifying the Business office. Telephone Main 218.

Accuracy! Accuracy! Accuracy!

OUR CONSTANT ADVERTISING AIM.

We've all heard of the dog which both growled and wagged his tail, to the bewilderment of the bystander, who knew not which end to believe.

A like uncertainty often exists in the case of an advertiser, whose promises have been known to belie performance. The question naturally arises: "Is he entitled to credence now?"

No doubt we've made many misstatements in these ads, of odds--occasional errors will creep in like boys under a circus tent. But by this time we flatter ourselves the people of Honolulu know us too well to confound casual blunders with wilful misrepresentation.

Would you do us a favor? Tell us our faults.

FRENCH LAND TROOPS ON TURKISH SOIL

THEY TAKE POSSESSION OF THE CUSTOMS HOUSE AT MIDILLI.

Satisfactory Replies Received By French Government To its Note to Other Nations Notifying Them of Proposed Action Against Porte.

PARIS, Nov. 7, 5:40 p. m.—A dispatch from Admiral Caillard has just been received announcing that he landed marines on the island of Mitylene this morning and occupied the customs house at Midilli without resistance.

The French Government has received satisfactory replies without exception to its note explaining the measures against Turkey. An excellent impression has been created in official circles by the tone of the response of the United States, which is couched in most friendly terms.

CONSTANTINOPLE, Nov. 7.—The Porte has yielded still further to the French demands and has notified M. Bapete, councillor of the French Embassy, that authority is granted France to rebuild or repair sixteen churches, convents and other institutions situated in different viayets.

ST. PETERSBURG, Nov. 7.—The newspapers here anticipate that, following the lead of France, other powers will discover claims against Turkey. The Russian newspapers generally welcome the French naval demonstration in Turkish waters, as a setback to what the Russians term "German pretensions in Turkey."

Fear Situation Will Be Serious. LONDON, Nov. 6.—The sittings of the British Cabinet yesterday and today caused much conjecture. Mr Chamberlain's organ, the Birmingham Post, avers that one of the principal subjects discussed was the threatening relations between France and Turkey, which may be a prelude to grave international complications.

United States and Austria-Hungary to obtain the settlement of private claims. If the Ministers take the same view, it is remarkable that they have been in session for two successive days, although it is barely possible that they are holding prolonged consultations over the legislative program and are paying little attention to Admiral Caillard's cruise with 2000 troops.

There may however be more serious complications. There is no probability that the British Government considers itself liable, under Lord Beaconsfield's Cyprus convention to defend the Ottoman empire against a French seizure of the revenues of Mitylene. It is, however, an open question whether the foreign office may not be embarrassed by some secret arrangements with Germany respecting the Far East. The German Emperor has been steadily developing the commercial interests of his empire in Asia Minor, and strengthening his own influence in the Sultan's capital. It has been suspected for a long time by students of current diplomacy that Germany's neutrality in South Africa was the result of a secret understanding with England respecting the Near East. If these suspicions are well founded the activity of the despatch bearers flying between Lord Lansdowne's and Lord Salisbury's houses is a natural bit of by-play and the end of the protracted cabinet conference is not an affair of minor importance.

LONDON TIED UP BY FOG.

Many People in Their Confusion Walked Into the River. LONDON, Nov. 7.—The heavy fog which shut down upon London and half the country Tuesday and which was partially dispersed yesterday, returned during the night and the southern and eastern coasts were enveloped in a denser mantle than before.

The Dutch mail boat Koenigen Regentes collided with the British third-class cruiser Prosperine off Sheerness at midnight. The passengers and mails were transferred to the Prosperine and the mail boat was beached. The mortality in London has seriously risen since the city has been enveloped in fog. There are numerous bodies at the mortuaries awaiting identification. Sixteen laborers are missing from the docks. It is supposed they walked into the water. In addition a number of bodies have already been recovered from the river.

A Violent Attack of Croup Cured.

"Last winter an infant child of mine had croup in a violent form," says Elder John W. Rogers, a Christian Evangelist, of Ellet, Mo., U. S. A. "I gave her a few doses of Chamberlain's Cough Remedy and in a short time all danger was past and the child recovered." This remedy not only cures croup, but when given as soon as the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by all druggists and dealers. Benson, Smith & Co., agents for Hawaii. Telephone Main 218.

WILL CEASE BUYING SUGAR IN EUROPE

TRADE OF THE UNITED STATES WILL GO TO ITS DEPENDENCIES.

Consul-General Mason, at Berlin, Makes an Interesting Report to State Department Upon the Situation—Germany Fearful of Cuba.

WASHINGTON, Nov. 3.—The obvious and sustained friendliness of the United States Government to Cuba, the impending increase of sugar production in Porto Rico, Hawaii and the Philippines, added to the steady and rapid development of the beet sugar industry throughout a large area of the United States, all point to an inevitable and definite decline in European sugar exports to our country.

This statement appears in an interesting report from Consul-General Mason at Berlin to the State Department, dated October 21st, showing the damage which the sugar production of Cuba in particular is dealing to the sugar exporters of Europe. It is generally recognized, says Mr. Mason, that the beet sugar industry of Central Europe is approaching a critical juncture. Germany, Austria-Hungary, France and Russia, it is stated, are now gathering a beet crop which will yield an output of sugar far surpassing in quantity that of any previous year. Unfortunately for Germany, this overwhelming production comes at a time when industrial depression and a short wheat and rye crop have seriously reduced the purchasing capacity of the poorer classes. A high commercial authority, says Mr. Mason, estimates the decline in sugar consumption in Germany during the fiscal year at 75,000 tons.

"To complete and still further darken the shadow," says the Consul-General, "Cuba has reappeared as a vigorous and threatening competitor in the United States, which during the past year has taken an average of 287,000 metric tons of German sugar, valued at \$12,614,000 per annum." These conditions, it is stated, have sent the price of sugar in the market at Magdeburg down to the lowest point reached during the critical year 1894-95.

Great interest has been awakened in Germany by the recent visit to Washington of Governor-General Wood of Cuba, and the conviction is growing that, notwithstanding all doubts and suspicions, Cuba is really about to begin the career of an independent state under the generous and sympathetic protection of the United States, and under conditions which will favor the development of the sugar industry of the island to a point beyond the highest productiveness of former years.

★ Grand Opening. Saturday, Nov. 16th. "THE FOUNTAIN" ICE CREAM SODA AND CANDY DEPARTMENT OF Wall, Nichols Co., Ltd.

THE AMERICAN MONTHLY REVIEW OF REVIEWS THE AMERICAN MONTHLY REVIEW OF REVIEWS is commended by Statesmen, Professional men and thousands of others prominent in the world's activities, for its fine discrimination in sifting the actual news from conflicting report and the presentation of current events in their just proportion. They comment on its freedom from daily-paper sensationalism. All men and women who want to know what the world is doing find it an intellectual necessity, to judge from the letters received from hundreds. Its editorials are comprehensive, and labor saving to the busy man or woman. Its timely contributions on important topics are by the best-informed writers. Its reviews of other magazines give the best of their best work. It is profusely illustrated. These letters will enable all thoughtful men and women to judge of its value to them.

Soft Silky Hair

Is a matter of choice. Any man or woman can have it, if he or she takes the trouble. Most people have a goodly supply of hair, but in many instances it is dry, brittle, lusterless and never looks well, no matter how carefully and becomingly dressed. Any head of hair can easily be restored and preserved in the perfect form of its natural beauty by an occasional application of

Pacheco's Dandruff Killer

which will prevent the hair from losing its natural color and original beauty --keeps the scalp and hair roots perfectly clean and healthy--kills the germ that works in them, thus stopping and preventing hair from falling out, and making a complete and positive preventive and cure for dandruff. It stimulates the growth of hair, and forces faded hair to return again to its natural color and perfect luster.

PACHECO'S DANDRUFF KILLER

Sold by all Druggists and at the Union Barber Shop.

ADMIRAL JAMES AND GENERALISSIMO SMITH

The Former Filibuster Visits Honolulu Once More.

THE LATTER WAS HERE ALREADY

THEY WANTED TO ESTABLISH THE REPUBLIC OF LOWER CALIFORNIA.

Famous Scheme of Walter G. Smith
Recalled by Captain John F. James, Who Was to Have Captured Mexican Man-of-War.

Scarcely had the good bark Santiago from San Francisco made fast at the Oceanic wharf yesterday when Captain John F. James, former Admiral of the mighty fleet of the "Republic of Lower California," (which was to have been, but didn't) marched down the gangplank, looking around him as one in a dream and, after the manner of the inhabitant of some other world, suddenly dropped to earth, proceeded to feel his way up town.

The Admiral is a man of rather striking appearance and did not fail to attract considerable attention during his progress from the waterfront to the heart of the city. A man of medium height, ruddy complexion, bright, observing, piercing eyes, twinkling with fun and ever alert, wearing a bristling mustache, slightly tinged with grey; bearing upon his head a large black slouch hat; walking with a stride and bearing himself with the air of a man who is as much at home on the deck of a windjammer or a man-of-war as he is at the editorial desk of a waterfront newspaper.

At the corner of Fort and Merchant streets the Admiral halted and signalled a pedestrian that he desired to hold converse with him. The pedestrian approached with him. "What is it, Captain?" he said, for anyone with half an eye could see that he was a man of the sea.

"Can you get me headed for the headquarters of Generalissimo Smith?" asked the Admiral, with a yearning look in his weather eye.

"Generalissimo Smith?" repeated the Honolulu man. "Speak plain, United States, can't you, that's the official language down here."

"To be sure," said the Admiral, remembering. "I mean Mr. Smith, Mr. Walter G. Smith; he and I used to be comrades in arms; I fought and bled by his side, almost. Where is he?"

"The Admiral was deeply grieved to learn that his General was in Hilo for the present. He proceeded up town and stood for a moment on the corner of Fort and King streets. It was here that a Republican reporter, who covered him and sought an interview with the Admiral, said:

"When were you last in Honolulu, Admiral?"

country, believing that it should belong to the United States.

"I mustn't go too far back, however, or I will lose myself in history which is altogether too ancient. Let us confine ourselves to the great scheme of 1890.

"I was in Washington at the time that General Smith conceived the idea of conquering Lower California. I knew nothing of Smith at the time. I was planning a scheme of my own. I was recruiting men for a little army of my own, with the intention of falling upon Lower California unawares, inciting the people to rebellion against the Mexican government and winning great reward and glory for myself when Lower California should become a part of the United States by annexation.

"The meeting held by the future government of the Republic of Lower California, as I said before, laid before me a great scheme. I thought I might as well go in with General Smith as work by myself. I took to him at once and I am sure that he had confidence in my ability as soon as he set eyes on me.

"I'm your man, General," I said. "Sink or swim, I'm with the scheme from beginning to end." Well, it was arranged that I, as Admiral of the Navy, was to go to San Francisco from San Diego, and for my twelve hundred men, capture the Mexican man-of-war Democrita, then living at San Francisco, put my men aboard and hurry the entire navy to Ensenada.

"Ensenada is just over the line from San Diego. It was arranged that I, as Admiral of the Navy, was to go to San Francisco from San Diego, and for my twelve hundred men, capture the Mexican man-of-war Democrita, then living at San Francisco, put my men aboard and hurry the entire navy to Ensenada.

"It was a daring adventure and our brave General was enthusiastic over the affair. With General Smith in charge of the land forces and your humble servant, Admiral James, commanding the fleet of port, what could the poor folks do but lay down their arms."

"With the bursting of the glorious morning the flag of the Republic of Lower California was to fly to the breeze, announcing to the world that a glorious and a mighty victory had been attained and that President Walter Giffard Smith would assume the reins of government until such a time as the United States might please to annex the new Republic. The flag was all arranged, too. It was a beautiful red and blue and green affair, sporting a double-headed rattlesnake. But it never flew outside of the office of the San Diego Sun, and I guess there was wind enough in that office to keep it fluttering.

"I went to San Francisco and was prepared to capture the Mexican man-of-war, but the scheme fell through before I took command of the fleet. Treasurer of the Republic of Lower California B. A. Stevens gave the whole thing away just when it was time to strike and sever Lower California from Mexico forever. Stevens, I think, counted on being the Treasurer of a real treasury with real money in it. The money, if there was any, was withdrawn from the treasury for some reason or other, and Stevens having no more money to be treasurer of, became possessed of the idea that there wasn't any fun in the scheme for him, so he published the whole story in the Los Angeles Times.

"Pshaw! What a rook. Say, the papers were full of Generalissimos and Admirals and Lieutenant-Generals and Presidents and Treasurers and Secretaries and sold and blood and plots and desperate doings and complete exposures for days and days. Say, I think now that General Smith was advertising the San Diego Sun. Don't tell him I said so, though; he's a sensitive fellow. I want to capture Lower California, he made a splendid bluff at it. That man was out for a military career. He has missed his calling. He was born to lead armies. He was born to conquer peoples and annex territories. He has the bearing of a general. Oh, I'm anxious to meet my General.

"Nothing would have pleased me better than to have seen our scheme succeed. It would have tickled me to death to have walked the bridge of the Democrita off Ensenada and ordered the great guns loaded with blank cartridges and pointed over the fort, while General Smith mounted on a hired charger, flashing his sword in air, leading his gallant men to victory, removed his chapeau as he bowed the flag of the Republic of Lower California hoisted over the citadel. Would that this thing had been. I would now be Secretary of the Navy, or something. Every man who enlisted in General Smith's army was going to be made a captain or a major or a tax collector, or something.

COOPER DECLARES THAT ORIENTAL LABOR IS BADLY NEEDED IN THIS TERRITORY

WASHINGTON, Nov. 2.—Authority for the conversion of all Hawaiian silver coins into corresponding coins of the United States, and for the immigration of a limited number of Chinese laborers, conditioned upon their engaging in agricultural pursuits only during their residence in the Territory, and their return to their own country upon ceasing to be farmers, are the recommendations of H. E. Cooper, Acting Governor of Hawaii, in his annual report.

Other recommendations are for the maintenance of an expert forestry in the islands, to investigate and report on forest conditions and forestry extension; the detail of a special agent of the Fish Commission at Honolulu, and the adoption of restrictive measures to prevent wanton destruction of the food fishes of the Territory; the granting of licenses to divers from lands where it is of no avail, to arid sections that owners are adapting to agricultural pursuits; the erection of a Federal building at Honolulu for the accommodation of the Federal Court, Postoffice, Custom House, and Federal officials; the retention from the customs receipts of a sufficient sum to pay judgments of the Commission of Fire Claims; the gathering of statistics to show the shipments between the mainland and the islands, and the appointment of a Deputy Secretary to act during the disability of the Secretary of the Treasury for Territorial purposes only.

The prosperity of the islands, according to the Acting Governor, depends upon the successful and economical production of sugar. "The employment of Chinese and Japanese by the planters," he says, "never has interfered and never will interfere with either American skilled or unskilled labor; but it is an ample supply of desirable labor can be obtained it means millions of dollars spent for machinery, buildings, tools, steel and iron and other supplies of American make."

"Since the annexation the immigration of unskilled laborers has practically ceased, while many of the Chinese and Japanese have returned to their native countries. Between June 14, 1900, and August 31, 1901, 4,079 Japanese have left the Territory, while only 589 have arrived. All sugar plantation stocks, consequently, have fallen far below their former value, and this has had the effect of producing a stringency in the money market, from which many have suffered loss.

"If no relief is forthcoming, the most disastrous results surely will follow. It is a physical impossibility for the Anglo-Saxon race to satisfactorily perform the severe labor required in the sugar fields, Hawaii, therefore, is entitled to legislation favorable to its greatest prosperity."

FISH COMMISSION GOING NEXT MONTH

THE STEAMER ALBATROSS WILL BRING THE PARTY HERE.

Dr. Charles H. Gilbert of Stanford University Will Have Charge of the Work—Commissioner Bowers' Great Work.

(From a Staff Correspondent.) WASHINGTON, Nov. 1.—In four weeks from now, or about December 1, there will start from the Pacific coast to Hawaii an expedition to find out all about the fisheries of the Hawaiian Islands. The United States Fish Commission is going to look into this question in great shape, and today Commissioner Bowers went up to the White House to tell the President what is going to be done.

The law establishing a government for Hawaii provided that the commissioner of fisheries should examine into the entire subject of fisheries and the laws relating to fishing in Hawaii for report to the President, and that recommendations should be made of changes in the laws as were thought necessary. In complying with this act Mr. Bowers sent an expedition to the Hawaiian Islands last May. It was under the immediate direction of Dr. David Starr Jordan, president of the Leland Stanford University, and Dr. B. W. Evermann, ichthyologist of the fish commission. They were accompanied by assistants, among whom were two artists, Capt. C. B. Hanson and A. H. Baldwin, who painted in colors from life many of the important and interesting species of fishes.

Apollinaris

("THE QUEEN OF TABLE WATERS")

Served at state dinners at the White House. Used by Royalty and the reigning Princes throughout the world.

A beverage fit for "the gods" and within the reach of mortals.

BEWARE OF SUBSTITUTIONS.
