BRITAIN AND BIMETALLISM

The Bank of England Causes a Sensation in Financial Circles.

Offers to Hold a Fifth of Note Reserve in Silver—Action Denounced by Financiers and Newspapers.

London, September 16.—At the semi-annual meeting of the Bank of England today the governor, Hugh C. Smith, said: "You are probably aware of the proposals laid before the Government in the summer by the United States and France, whereby this country might increase its use of silver as a contribution to an international agreement, which, while not affecting our gold standard, might enable the mints of France and America to resume free coinage. Among the proposals was one asking the bank to hold the amount of silver permissible under the act of 1844 as against its notes."

The governor then read a letter dated July 26, addressed to the Chancellor of the Exchequer, Sir Michael Hicks-Beach. It was as follows: "Referring to our conversation we beg to say that the bank is prepared to carry out what is laid down as permissible in the bank charter, viz: To hold one-fifth of its note issue in silver, provided always that the French mint is again open to the free coinage of silver and that the price at which silver is procurable and saleable are satisfactory."

Replying to questions the governor said the bank had no negotiations with the United States monetary commissioners, adding: "We have bought no silver. All we have done is to agree under certain circumstances to carry out what is permissible under the act of 1844."

The letter caused surprisingly little comment in the city and did not affect silver stocks. Great satisfaction, however, is expressed at the headquarters of the Bimetallic League.

The secretary of the Bank of England, George F. Glennie, when asked if the action of the Bank of England depended upon the reopening of the India mints, replied: "That is a political question and does not concern us."

The bankers of the city are surprised and displeased. Manager Ross of Glynn, Mills, Curry & Co., ardent supporters of the Gold Standard Defense Association, voiced the opinion of the bankers. He said: "The letter with such qualifications does not pledge the bank to anything and its only effect will be to encourage the bimetallic agitation. If the plan were carried out it might raise the price of silver temporarily, which would be followed by a reopening of the American mines, overproducing and another fall in the price of silver."

The officials of the Foreign Office declined to comment on the letter, but a high official of the Treasury Department is quoted in an interview as deprecating the work of the United States Monetary Commission.

The Times and Standard strongly condemn the action of the Bank of England as a dangerous expedient.

Lord Farrar writes to the Times in part as follows: "I learn from the best accessible information that a proposal has been made to reopen the Indian mints to silver on the understanding that the United States and France do the same at a ratio of 15 to 1. The consideration offered is that it will insure India a permanent and steady exchange. Of course at that ratio this proposal appears to me to be in the highest degree objectionable. First, because it puts an end to an experiment which promises to be successful. Second, because it affords no substantial prospect of giving a steady permanent exchange, which

there is every prospect of attaining if the policy of 1892 is adhered to.

"Third, because if it did succeed in giving a permanent exchange at the ratio of 15 to 1, which is not improbable, it could only succeed by artificially increasing the gold value of silver throughout the world to the same extent, thus introducing without the consent of the British Parliament all the mischief of international bimetallicism at that ratio."

Berlin, September 16.—The National Zeitung, referring to the intimation in the Times of September 11th that the Bank of England was prepared to hold in silver one-fifth of the bullion held against its note issue, says:

The unfavorable reception the announcement has met with from the organs of British trade leaves no room for doubt as to the opinion of the British commercial bodies and as to the ultimate fate of the latest American attempt to secure for the silver mine-owners with the aid of Europe a rise in silver as a reward for their support of the McKinley tariff policy and to keep the silverites in good humor.

JUDICIARY NOTINGS.

Supreme Court Hearing Tax Appeals—Items of the Files.

The Supreme Court is on tax appeals again today. Thurston & Stanley and Kinney & Ballou being the legal gladiators.

Judge Carter has approved the annual account of Henry Smith, trustee of the estate of Richard Meek, deceased. Receipts \$886.75, payments \$759.55, cash in hand \$127.20.

Time for filing exceptions in Silva vs. Fernandes is extended to the 20th inst.

William A. Henshall for defendants files an answer of general denial to the complaint for trespass of Chung Yee against Chew Man and Chew Fan.

Wm. R. Castle has won his appeal to the Supreme Court against a taxation of stamp duties ruled by the Minister of Finance. Particulars were previously reported.

Senator Waterhouse's Yacht.

The new yacht ordered by Senator Henry Waterhouse on his recent visit to Japan will come in the steamer Belgic due October 12. She has been built by a Scotch firm in Yokohama, and is named Malolo, meaning Flying Fish. The Malolo is 18 feet on the water line and 7 feet beam, and will carry a big spread of canvas in main sheet, jib and spinnaker. Her draught is four feet and she has a fin keel. There is no cabin, only a cockpit. The Malolo was sailing about Yokohama harbor before the China left.

On the Tax Assessor.

"I don't believe that W. G. Irwin & Co., Theo. H. Davies & Co. and H. Hackfeld & Co. would ever have made a fight against their assessments, were it not for the gyrations of the Tax Assessor which made them not know where they were at."

This is one of several picturesque sentences uttered by Mr. Kinney before the Supreme Court this morning.

DAMAGE SUIT.

Brought by a Lady Against the Hawaiian Tramways Co.

Mrs. Mary E. Burgess, wife of Dr. B. F. Burgess, has instituted a suit for \$5000 damages against the Hawaiian Tramways Co., on account of personal injuries suffered by the falling of a cashbox, in one of the company's cars, upon her head. Kinney & Ballou are attorneys for the complainant.

W. Manseroff and V. Yelicheff, two Russians who arrived on the China this morning, will go coffee-planting on Hawaii.

AKIYAMA COMMITS SUICIDE

Had Trouble in Connection with His Recent Mission to Hawaii.

Startling Report of Russia's Aggressive Aims—British Squadron Joins the Japanese in Maneuvers—Chinese Railway Loan.

The Japanese Advertiser of September 21 says: "Mr. Akiyama, Councillor to the Foreign Office, is reported to have committed suicide yesterday afternoon by committing seppuku at his residence. He is now lying mortally injured and is said to be refusing the aid of any doctor. Some trouble in connection with his recent mission to Hawaii is suggested as the cause."

And the Japan Herald of the same date gives the news of the tragic event in this form: "Mr. Akiyama, aged 32 years, a Councillor of the Foreign Office, living at No. 21, Fukidecho, Nishinokubo, Shiba in Tokyo, who was dispatched some time ago to Hawaii on emigration matters, committed harakiri at about 2 p. m. yesterday and is now under treatment. The cause of his intendant suicide is not known. He seems determined to die and refuses to take medicine."

Russia is undoubtedly making very rapid preparations to render her position in these waters sufficiently formidable to intimidate certain of her neighbors in compliance with her terms, or to enforce them; while Japan is daily becoming more alive to the gravity of the situation, and more determined to resist pressure the moment it is brought to bear. Stores, ammunition and troops are, we are informed on good authority, being massed at Vladivostok, or its vicinity; preparations are being made to keep the port open this winter, which may prelude preparations for an early spring attack upon Japan, or an immediate one before that Power can receive the magnificent additions to her navy now being constructed in English dock yards.

The Matsushima and Suma of the standing squadron arrived at Muroran from Hakodate on the 6th instant, the flagship Itsukushima, Fuso, Izumi and Chinen having preceded them. All the vessels of the standing squadron are now assembled at Muroran. The eight British men of war, viz., Narcissus, Pigny, Centurion, Daphne, Rattler, Redpole, Grafton and Immortalite left Hakodate on the 7th instant, for the same destination. Separate maneuvers have since been conducted by the two squadrons. Both squadrons went in largely for firing practise and boat exercises, the men of both nationalities being stimulated to do their best by the desire to appear to advantage in the eyes of their neighbors.—Japan Herald.

The standing squadron are shortly to proceed to the China Sea to meet the Fuji on her way from England. The new battleship will be thrown open to public inspection on her arrival at Yokosuka.

While the Nichi Nichi expects the appointment of Mr. Komura, Vice-Minister of the Foreign Office, it is reported by the Yomiuri that Mr. Masahisa Matsuda, a prominent member of the Jiyuto, has been definitely decided on as the successor to Mr. Hoshi at Washington. The latter will return home as soon as negotiations respecting the Japan-Chili treaty are completed.—Japan Advertiser.

The foreign community of Yokohama is just now considerably excited over the brutal murder of an English sailor by some unknown Japanese, which occurred

early in the morning of the 17th ult. The victim, named Thomas Kennedy, who was a sailor on the sailing ship Glenierich, had been "taking in" the native town with two companions and, while under the influence of liquor, raised a disturbance in a lemonade store. He was attacked by a mob outside and left dying of a fractured skull in the street.

A London dispatch of Sept. 26 says: The contract for the Chinese Railway Loan with the Hooley Jameson Syndicate has been signed, the issue price being ninety-four. The syndicate advances two millions for the Shanghai Nanking line, and engages to advance three millions at a future date for the extension through Honan.

MORTUARY REPORT.

Agent Reynolds Furnishes Statistics on the Deaths in September.

There were 53 deaths in Honolulu last month, as compared with 43 for the same month last year, 112 in 1895, 45 in 1894 and 64 in 1893. The 112 deaths in September, 1895, are accounted for by the cholera epidemic.

The causes of death are given as follows: Old age 10, inanition 6, bronchitis 4, convulsions 3, diarrhoea 3, accident 2, cholera infantum 2, consumption 2, fracture of skull 2, paralysis 2, pneumonia 2, unknown 2, and 1 each from the following: apoplexy, blood poisoning, beriberi, Bright's disease, congestion of brain, cancer, dropsy, fever, typhoid fever, heart disease, jaundice, pleurisy and suicide.

The annual death rate per 1000 for the month was 21.20. By nationalities, Hawaiians 30.30; Asiatics 12.00; all others 19.76. Twenty-two of the 53 deaths occurred without medical attendance.

THIS AFTERNOON'S BALL GAME.

St. Louis and Regiment Nines Will Determine the Championship.

This afternoon's ball game will determine the championship of this season, which now rests between the St. Louis and Regiment clubs. The percentage of the three clubs now is: Regiment 538, St. Louis 500 and Stars 461. If the Regiment wins this afternoon they will have won 8 out of 14 games played, making their percentage .571 against .461 for the St. Louis, which will thus be tied with the Stars for second place.

If on the other hand the St. Louis team should win they will have captured 7 out of 13 games played against 7 out of 14 by the Regiment. The percentage will then stand St. Louis .538, Regiment .500, Stars .461.

Whichever club wins today's game captures the pennant.

Christian Church Social.

The Christian church social given at the residence of Mr. and Mrs. W. C. Weedon was a pleasant and profitable event to those attending. Rev. D. P. Birnie, pastor of the Central Union church, was a guest and made a fraternal speech. Rev. T. D. Garvin, of the entertaining body, had words of cheer for everyone. The central figure in the gathering, however, was Miss Harrison, who gave a most interesting talk relative to her missionary work in Japan. Music and refreshments were all right.

Combined Boat Club Ball.

It has been decided by the three boat clubs to give a joint dance at Independence park next Friday evening, October 8, and the following committees have been given charge of the affair:

Finance—Wm. H. McInerney, George Angus, Walter E. Wall.

Decorations—P. T. Phillips, F. W. McChesney, H. Giles.

Refreshments—J. L. Holt, A. G. M. Robertson, F. B. Oat.

Lady Fingers, Macaroons, etc., at 833 Fort street.

PLANS NOT YET MATURED

E. C. Macfarlane Talks About the Future of the Hawaiian Hotel.

And Tells of His Negotiations With the Government a Year Ago—Present Promises to be Renovated at Once.

E. C. Macfarlane, who yesterday became the owner of the Hawaiian hotel for \$45,000, was seen by a representative of this paper this morning concerning his future plans.

Answering questions put he said it was too early yet to give out anything definite as to the future of the hotel, except that the whole premises will be immediately renovated and put in thorough repair.

"As to building an addition," said Mr. Macfarlane, "I have several plans on foot but I cannot tell you now which will be adopted. It is a question of money and I consider that I paid a big figure for the property as it stands. I shall not attempt to make any addition to the hotel right away unless I can see my way clear to spending enough to make the hotel strictly up to date, and that will take a good deal of money. In two or three weeks I shall be in a position to make public my plans."

"If the government had accepted my offer a year ago we should have had a first-class hotel in Honolulu by this time. I then offered \$35,000 for the property with a guarantee that from \$60,000 to \$90,000 would be spent on improvements. I presented two plans with details, estimates, etc., of the improvements proposed, one involving an outlay of \$60,000 and the other of \$90,000, and they were both acceptable to the government. When I made that proposition I had a fund of \$110,000, subscribed mostly in San Francisco, to back me, but for some reason while at first favoring my offer the government finally declined it. Yes, I paid a big price for the hotel yesterday. Why, do you know when Lorria A. Thurston was Minister of the Interior he offered it for \$44,000 but could not get a purchaser?"

Meeting for Men.

A men's meeting will be held at the Young Men's Christian Association Sunday afternoon at 4 o'clock. This will be the first of these meetings for men only which will be held the remainder of this year. The topics for the month of October will be on "Life," that for tomorrow being, "Life, What is it?" Edwin Farmer will speak. Special music every Sunday. All men invited.

LACE BUTTERFLY.

A Dainty Design For Lacework Now Is Much In Vogue.

A butterfly in lacework is the subject of an illustrated description in the New York Tribune. As it affords a pretty idea in this popular style of needlework, it is here reproduced.

This butterfly is outlined with linen braid that is made for the lacework now so much in vogue, and the filling in stitches are of No. 60 or finer linen

BUTTERFLY IN LACEWORK.

thread, that comes in little balls at 4 or 5 cents each. One ball of thread will make many butterflies.

Draw the pattern on a piece of muslin—colored paper muslin is the best. Baste the braid over the pattern and fill in the wings with fancy stitches. Do not prick the needle through the muslin in any place excepting when making the body of the butterfly, which is to be worked solid in an "over and over" stitch. For the two feelers use fine cord covered with the over and over stitch.

When finished, rip out the basting threads and cut away the muslin from under the wings, trimming it close to the body, so that none of it may show. Starch and while damp iron the wings until dry, so that they will be uplifted. Place the butterfly on any piece of work you wish to decorate—the corner of a doily for the table, a pincushion top, etc.

The butterfly may also be worked directly on a piece of fine Persian lawn, buttonholing the braid down to the lawn and only cutting away under the wings. The "fly" will then lie flat on the work and is not nearly so effective as when appearing to be "on the wing."

Fashionable Hairdressing.

Nearly every well dressed woman nowadays completes her evening toilet by the addition of some ornament. Nothing is prettier or newer for the purpose than one of the upstanding bows and rosettes of silver spangled tulle, known abroad as rejanas. One of

NEWEST HAIR ORNAMENT.

the tulle rejanas forms a pretty finishing toilet to the waved coiffure. The knot of hair, set rather high at the back, is encircled with the twist of the tulle and fastened at one side with the bow and a diamond, or other gem ornament. All colors are represented in these tulle rejanas.

The Musical Tone.

You can always recognize the finished artist by the manner in which he emits the musical tone. A writer in The Etude says: Be it the singer, the violinist or pianist, he will strive to produce a tone that will be perfect in its beginning. With the singer the tone must come in flowingly, without any perceptible start—ushered in on the breath, as it were. The player of a string instrument must carefully avoid any scratchy noise apt to be mixed with the tone at the time the bow is set upon the string. To avoid this the bow must be in easy motion before touching the string, banking the tone slide in pure and free from any dryness. The pianist, excepting in places where forcible attack is required, should let down the hands easily, to avoid harsh percussion, and when a flowing series of sounds in chorus is to be played each chord should be gently joined to the next, so that no new attack is perceived, imitating in this respect the voice, as much as the imperfections of the instrument may permit.

A DELAYED LETTER.

Lydia Spencer had never seen it so hot or dreary at Canaan Corners before. The blistering July day was drawing to a close. She was postmistress and store clerk at the Corners. Day after day for years she had sorted over the stage mails, the county papers and the letters.

A carpenter had worked that afternoon tearing away the old case and generally overhauling the postoffice end of the store. Lydia was between 40 and 50. "Nigh on to 45, being two year older," my boy Jerry," old Mrs. Davidge said to her friends when Lydia's age was discussed.

"But, law! she don't look it, an she don't act it. Them two headed girls never look ez old ez they really be." The carpenter stopped hammering and came to where the postmistress was fanning herself. He was shuffling awkwardly half a dozen letters, yellow with age and somewhat rat eaten.

"See here, Lyddy, are these any good?" asked he, holding out the letters. "I found 'em down behind the vainscotting. I s'pose they're just trash what got brushed aside an no account whatever."

The postmistress of Canaan Corners took the letters with but little show of interest. People were always running to her with trifles and asking her unnecessary questions.

Twenty five years! Yes, it had been just that long since she had seen John Butterworth—since he gave her a lover's look and then, cheerily assuring her that they would soon meet again, had gone to New York.

The red sun turned black. The Canaan Corners postoffice began spinning around and bobbing up and down. A hurricane seemed to catch her and dash her head against a distant cliff.

"There, there, Miss Lyddy," said the big carpenter, fanning her with his straw hat. "The heat's been too much for yo, I guess."

Trembling like a child, she once more looked at the letter—her own letter of acceptance—plighting her troth for better or for worse, through evil and good report.

It seemed to her as if her heart would burst in agony. She knew now why John Butterworth had never come back. She had appeared to him as unwilling to share his fortunes.

Lydia Spencer was a firm woman. In justice to herself she determined to make an effort to reach John Butterworth with the belated letter.

It had no postmark. Taking the marker, she removed the figures "99" and substituted "00."

Then, writing a note to the proprietor of the Bull's Head hotel, New York city, she told him to forward the letter to Chicago. Nervously she let it fall into the gaping mouth of the mill.

Two weeks later a gray haired man, one of Chicago's leading capitalists, was one morning opening his mail. He came to a yellowed envelope which had been forwarded from New York. It bore several rubber stamp marks, and a Chicago post-office clerk had written on it: "Try 361 Dearborn."

"Send Jack in," said John Butterworth to his head clerk. "Jack, my boy," said the father in a low voice and nervously, "read this old letter which has been 25 years in reaching me."

"Jack" continued the elder after his request had been complied with, "you will have to postpone your vacation. I'm going to take one at Canaan Corners, N. Y. I never expected to marry again after your dear mother's death, my boy, but if the writer of that letter is alive and willing you'll have a new mother inside of two weeks."

The Canaan Corners stage one evening a few days later carried a gray haired stranger. "Ye'll find Lyddy at the postoffice," said the driver. "She's postmistress, an every one knows Lyddy."

Everything was still in the postoffice when John Butterworth entered. Looking through the glass case, he saw a golden haired woman, her face close to the tulle. She was resting her averted face on her forearm and sobbing like a child.

"Lydia," said John Butterworth as he took her in his arms and raised her, "Lydia, sweetheart, I didn't get the letter till three days ago in Chicago. I'm so old and gray now I suppose you're sorry I got it at all, eh?"

She looked up quickly, smiling through her tears. Her blushing, radiant face didn't look as if she was sorry.—Exchange.

No Responder of Persons. When Admiral de Horsey at Port Royal was one night returning to his flagship alone, his way to the boat led across the barnack square. A black sentry of one of the West India regiments hailed him at the gate with, "Who goes dar?"

5th Evening Bulletin,

DANIEL LOGAN, Editor.

SATURDAY, OCT. 2, 1897.

After Japan had raised an "incident" with Hawaii and a "question" with the United States—about her emigrants in both cases—she just needed in her business a "case" with Great Britain. And it came in the arrest, conviction and punishment, by the Hakodate authorities, of some Chinese employed on British men-of-war. The British Minister to Japan was absent on leave at the time, which leading native papers regret as if otherwise the "case" would not have arisen. But the Japan Herald holds that the Minister's absence made no difference, because where a Minister has telegraphic communication with London any delicate matter is referred home. The British Government requested the release of the culprits, and the Japanese Government replied. Owing to incomplete files received the nature of the reply is unknown to us, but, anyhow, the British charge d'affairs protested against it. The prisoners were not released until their terms expired on the 15th ult. Apparently the question was solely one of jurisdiction, as it is on that point the Japan Herald supports the British position.

Japan is beginning to reap more than glory from her dashing assault on China, which by the way failed in its purported objects for the greater part. A paragraph in the Japan Herald reads thus:

Those ardent and unconscientious patriots who were so much in favor of Japan warring on China, are beginning to be rightly dealt with in the shape of increased taxation, under which they will soon be groaning, with more taxes still to be levied to fill the hole in the finances of the nation, and the continuous extra expenses which the war fever has entailed. 33,000,000 yen is the deficiency in the income of the ensuing year to pay current expenses, to meet which 10,000,000 is to be put on farming land, 2,000,000 on land in cities and towns, and some 12,000,000 yen on sake.

Comments on the efforts of foreign financiers to get concessions from China are quoted from the Consular Journal by a Yokohama paper. While mentioning the success of a single English corporation recently, the paper notes the failure of German and French agents, together with a fiasco to Belgian overtures, and concludes: "At present, there is only one Power which seems to be in strong favor with the Chinese, and that is Russia, who, on the whole, has played her cards remarkably well."

Discovery has been made at Port Townsend of a big conspiracy for the unlawful admission of Chinese into the United States. The Chinese interpreter of the port collector was undergoing examination at last accounts, and it had developed that hundreds of Chinese had been admitted for coin paid to him. Letters in the case implicated the collector himself. There was any amount of San Francisco money behind the scheme. Such instances of corruption may fairly be charged to the spoils system.

If the Bank of England magnates did not know what they were doing in their action on silver it's a queer thing. Their critics seem to have chiefly international prejudice to plead. The holding of one-fifth of the note reserve in silver, which is authorized by a law 53 years old, would appear to be a fair and moderate concession to the white metal, and not at all a hoisting of the double standard.

Mr. Akiyama was an accomplished and pleasant gentleman, and his sad ending—imminent at last accounts—will cause the deepest regret mingled with horror in the breasts of many friends he made in Honolulu. At the local press banquet to the Japanese newspaper men, Mr. Akiyama sat on the right of the chairman and made a speech full of friendly cordiality. His thirst for information on Hawaiian matters was so keenly and persistently evinced as to cause a degree of amusement to all with whom he came in contact. Those who were on the Board of Health's semi-annual visit to Molokai this year will never forget the good nature Mr. Akiyama displayed when the rather fractious horse he rode made him unenviably conspicuous.

If Russia gain the footing for supremacy in the Pacific she seems to be after on its western shores, the position in which Hawaii will be found at the time is one for deep thought on the part of its inhabitants now. Unless under the full protection of the American flag these islands would only make a small dish of pickles to be gulped by the great Bear one morning before breakfast.

According to a highly sensational report copied elsewhere from an oriental paper received by the steamer China, Russia bids fair to keep Japan so fully diverted on the other side, for a while, as to make Japanese claims on this side of the Pacific not worth following up.

Everybody knows the merits of the AERMOTOR WINDMILLS and everybody knows the AERMOTOR is the best mill ever put out of doors. It has been proved so over and over again.

We have recently added to our stock of these popular windmills and can now supply them in all sizes: 8, 10, 12 and 16 feet, geared or pumping. These mills will pump water, saw wood, grind corn and chop feed, cut cane tops or run a turning lathe.

In connection with these mills we have just introduced the Aermotor galvanized corrugated iron stock troughs, the best thing ever invented for watering stock and have already sold a dozen of them for the Honolulu and Kahuku ranches. They cannot leak and consequently there are no mud holes around them.

We have also in stock the Aermotor Syphon Suction and Force pumps in different sizes. These throw a big stream of water, are exceedingly strong and heavy and sell at a very low figure.

We also carry a line of Gould's and Krogh triple action pumps in all sizes.

THE FREE KINDERGARTENS

Proceedings of Annual Meeting of Association Held Yesterday Morning.

Goodly Balance in Hand After a Large Outlay—Benefits from Skilled Superintendence—Individual Benevolence.

The Free Kindergarten and Children's Aid Association held its annual meeting yesterday. Mrs. W. F. Allen presided in the absence of Mrs. C. M. Hyde, president.

Mrs. F. M. Swanzy presented the treasurer's report, showing that \$6049.15 had been expended during the year, of which \$4663 was paid for the salaries of teachers. Receipts had been \$7337.29, and there is a balance on hand of \$683.14.

Mrs. H. C. Coleman, financial agent, presented her report, an interesting one to be published later. It made special mention of a variety of gifts, from a piano to a pincushion—at least there was a piano in it. Free advertising in the newspapers and free legal services were gratefully acknowledged. The report referred to the rapid and assured growth of the kindergarten enterprise in the five and a half years since its start in Honolulu.

A most interesting report was received from Mrs. M. W. Castle on the state of the schools. Five hundred children had been enrolled in the free kindergartens the past year, but, owing to various causes, only half of them had kept up attendance. Very great improvement was noted in appearance and personal cleanliness of the pupils. The Palama school, started as an experiment, will reach the end of its set period in November, but perhaps it will be continued next year. The foreign kindergarten, removed from Queen Emma Hall to the Child Garden in Beretania street, is in very good condition. Great praise is given the Ewa kindergarten, with thanks to Manager Lowrie, for the success of that initial experiment in plantation kindergartens. J. B. Atherton receives special mention for his beneficence to the Portuguese school. Under the superintendency of Miss Lawrence, the year has been one of great profit to the teachers. A touching tribute was paid to the memory of the late Mrs. Henry Waterhouse.

Miss Lawrence read a very interesting paper on improvement of the work, mentioning the attention paid to eyesight, sewing, etc. Mothers' meetings were recommended.

All the officers were re-elected, and some changes in bylaws adopted.

Addresses were delivered to the Association by Rev. D. P. Birnie, Rev. O. H. Gulick, Rev. F. W. Damon and A. B. Wood. Mr. Birnie paid a high tribute to Mrs. Hyde for her guidance of affairs as president. Mr. Damon advocated the Association's taking up the case of Chinese girl slavery.

Mothers Speak Highly

OF CUMMIN'S TASTELESS CASTOR OIL for use where a cathartic or laxative is required. When a preparation has merit it soon becomes popular and such has proved the case with CUMMIN'S TASTELESS CASTOR OIL. The demand is daily increasing and everyone who uses it speaks well of its action.

CUMMIN'S

It is free from narcotics and will not affect the stomach and produce nausea. Children will take it joyfully. The taste resembles honey and the dose is just the same as ordinary Castor Oil. It is not a patent medicine in any sense, it being simply a fine quality of Castor Oil rendered tasteless by the addition of flavoring agents.

HAS NO

It will take the place of Castoria and many other preparations which are injurious to a greater or less degree by constant use. The price is 25 cents a bottle. Don't be deceived and induced to take any other preparation of a similar nature. Ask for CUMMIN'S TASTELESS CASTOR OIL and insist upon getting it.

EQUAL.

It never fails to produce a good effect and will prove a most valuable acquisition to your household remedies. Once used, always used.

Rattlesnakes, Butterflies, and ...?

Washington Irving said, he supposed a certain hill was called "Rattlesnake Hill" because it abounded in—butterflies. The "rule of contrary" governs other names. Some bottles are, supposedly, labeled "Sarsaparilla" because they are full of . . . well, we don't know what they are full of, but we know it's not sarsaparilla; except, perhaps, enough for a flavor. There's only one make of sarsaparilla that can be relied on to be all it claims. It's Ayer's. It has no secret to keep. Its formula is open to all physicians. This formula was examined by the Medical Committee at the World's Fair with the result that while every other make of sarsaparilla was excluded from the Fair, Ayer's Sarsaparilla was admitted and honored by awards. It was admitted because it was the best sarsaparilla. It received the medal as the best. No other sarsaparilla has been so tested or so honored. Good motto for the family as well as the Fair: Admit the best, exclude the rest.

Any doubt about it? Send for the "Curebook." It kills doubts and cures doubters. Address: J. C. Ayer Co., Lowell, Mass.

BULLETIN, 75c. PER MONTH

FRUIT CANNING.

A Few Hints That the Housewife Will Do Well to Remember.

In canning fruit remember that it is hard and disagreeable work at best, and unless you can come within sight of its highest possibilities "the game is not worth the candle." Whether it is good, bad or indifferent depends upon your own knowledge and skill. Excluding the air to prevent fermentation is only the A B C of success. Fruit must look as well as taste delicious, and in order to do this it must retain its natural flavor and appearance and be sweetened with granulated sugar. Fruit for canning must be freshly picked and a little under rather than over ripe. The pits of peaches and the cores of pears improve the flavor of their respective fruits. If removed, distribute a few peach pits in every jar and put a little muslin bag filled with cores in the center of pear jars.

The skins of green gage plums should be left on and pierced with a fork before they are cooked. The skins of all other common varieties should be removed. If plums and peaches are immersed in boiling water to loosen the skins, only a few should be treated at once, and these should first be put in a wire basket or sieve. After remaining two minutes or so dip in cold water and gently rub off the skins. A silver knife should be used to shred pineapple and to pare pears and quinces.

Peaches should be put in sirup as soon as pared, and pears and quinces into cold water, to prevent discoloration. Peaches are firmer and richer if allowed to remain overnight in the sirup before they are cooked. Five or six pits should be distributed through each quart jar.

The most delicate and natural flavor is obtained by cooking the fruit in the jars. This method also does away with the breakage from handling and adds greatly to its appearance. Pears and quinces are no exception to this rule, but as both are more quickly cooked tender in clear water it is more convenient to do so before they are put in sirup.

All old jars should be thoroughly cleansed with soda and boiling water, and the airtightness of every jar should be tested with water before it is filled with the fruit, which should be placed in the jar as fast as it is prepared, and the jar filled to the neck with sirup.

A flat bottomed kettle or an ordinary clothes boiler is convenient for cooking, and a board fitted to the bottom loosely and closely filled with inch auger holes obviates all danger of breakage. Put the rubber and cover in position, leaving the latter loose. Fill the boiler with warm water to the neck of the jars and boil gently until the fruit can be easily pierced with a fork. No definite rule for cooking can be given. Ten minutes is usually long enough for berries, while the time required for larger and more solid fruits depends upon their ripeness. Experience soon makes one expert. Take each jar out on to a hot plate, fill to overflowing with boiling water and screw down the top. Tighten as it cooks and invert to be sure that it is airtight.

The jars should be wrapped in paper to exclude the light, which is more injurious than one is apt to think, and kept in a cool, dry place. The flavor of fruit is much improved if the oxygen is restored by removing the cover an hour or two before it is needed.

If rich fruit is desired, the following quantities of sugar for each pint jar will be satisfactory, but as sugar is not the "keeping power" much less or even none may be used: Raspberries, four ounces; whortleberries, four ounces; peaches, five ounces; Bartlett pears, six ounces; sour pears, eight ounces; plums, eight ounces; quinces, eight ounces. These hints are from the New York Times.

Jelly Making Convenience. Rural New Yorker recently illustrated an aid to the housewife when making jelly. It is both hard and un-

HOMEMADE JELLY SQUEEZER.

comfortable work to extract the juice from a jelly bag filled with hot, cooked fruit by hand power. The contrivance, which is homemade, extracts the juice from the jelly bag without touching it with the hands. Hang up the bag and insert it between the curved faces of the blocks, and the handles will apply sufficient strength. As the bag grows thinner turn up the nut to bring the handles nearer together.

A Reed Organ.

The tone and action of the reed organ are entirely unlike those of the pipe organ. The Etude explains that the kinds of music which sound best on each are entirely unlike, although each style can be played on each instrument. Neither is the right kind of reed organ music at all like piano music. Here is right where the great mass of teachers on this instrument utterly fail. The reed organ is a reed organ, not a pipe organ, nor yet a piano. A good piano player learns the pipe organ easier than a reed organ player of the same grade as a general thing. The pedals of a pipe organ are from 2 to 2 1/2 octaves of keys, corresponding to the black and white keys of the keyboard for the hands. The organist plays the bass notes of a composition upon them. "Banks" of keys are better called manuals. A three manual organ has three sets of keys or keyboards, for the hands.

Pure Milk Shakes.

The frequent call for cool drink at the Palama Grocery has induced us to set apart a window for the sale of cold drinks. CANNON, PALAMA GROCERY, opposite Railway Depot, King street.

BY POLICE AT CALLAO.

Inquiry here confirms the story coming from Lima to the effect that the State Department has lodged a demand with the United States charge of legation at Lima for the release of the mate of the American bark "Uncle John." He was ashore on December 19 last at Callao, and was arrested because of his constant demand for "Rainier Beer." On tap or in bottles at the Criterion Saloon.

When you have a portrait enlarged see that you get your money's worth. King Bros. have reduced prices to \$5.00, \$6.50, \$7.50 and \$10.00 for work that they guarantee to be first class. They invite comparison.

If you contemplate ordering a portrait enlargement we invite your attention to the superior work we offer and would ask a comparison of prices and workmanship before placing your order. King Bros., Hotel street.

Don't be persuaded to accept what is not really good in enlarged portraits, just because you have given an order for one. King Bros. will give you something infinitely better and cheaper than you can get anywhere else in town.

The Oliver Typewriter is pronounced by experts, the best machine in the world. It has many valuable features, which have to be seen in order to be appreciated. The Oliver can be seen at the office of A. V. Gear, No. 210 King street.

It's one thing to take an order for a portrait and quite another to fill it satisfactorily. King Bros' portraits have always been known to give satisfaction and now that they have reduced their prices so low, an extra inducement is offered. See what they have before you invest.

We don't expect you to give us the preference if what we have to sell is inferior or our prices higher than our rivals, but when we offer a superior article for less money, you do yourself a wrong by not looking into the matter. Call and see our samples of portrait work. King Bros., 110 Hotel street.

Our work is better and our prices are lower for enlarged portrait work than anyone else's. We are not making much at it, but don't let that worry you. If you have anything in this line to be done see our samples first, and you won't regret it. King Bros., 110 Hotel street.

For more than fifty years has PERRY DAVIS' PAIN KILLER stood the test against all remedies prepared to eradicate pain, and today stands at the head of the list among the medicines that are so essential to keep at hand in the home.

It is not a new fangle remedy nor do the proprietors lay claim to any wonderful revelation of the ingredients that enter into the manufacture of this ever popular remedy.

It is perfectly harmless, you need have no fear of becoming habitually inclined to its use.

For Colic, Cramps, Dysentery, Colds, and all painful affections, a few doses will certainly give relief. You cannot afford to be without a bottle in the house.

Your forefathers used it and found it beneficial.

Why experiment with some remedy that is new and its effect on the system unknown?

It has many rivals but no equal.

HOW TO SERVE FRUIT.

Ice Cold and Refreshing on Delicate China.

Fruits are delicious when joined with either claret or white wine into a drink for hot weather luncheon or dinner—the more fruits the better. Pineapple lemonade is delicious also. To slice a pineapple is to offend the gods. Get the peel off and then shred the fruit with a stout silver fork. Granulated sugar is an abomination on fruit; use powdered sugar and sift it before sending it to the table. A fruit dish that will tempt the appetite of an invalid—and, of course, of anybody else—is peach foam. Put a cupful of fine peaches (cut into small bits after peeling) in a bowl with half a cup of powdered sugar and the white of one egg. Beat with a silver fork until you have a creamy, velvety mass, which will take about half an hour. Chill in the refrigerator and serve. Whipped cream should always be served with sliced peaches to hide the discolorations that cannot be prevented.

Grapes should be dipped in ice water two or three times and drained quite dry before serving. It is better to wash them over night if designed for breakfast.

All fruit looks nicer on delicate, light china. A few leaves in the fruit dish add wonderfully to the effect upon the eyes, and the eyes coax the appetite when nothing else will.

Melons suit our end of the century palates best when they are chilled. Watermelons should never be sliced, but should be scooped out in an appetizing pink mass after having been on the ice for some hours. The best way to serve a large one is to divide it into quarters and send a quarter to the table on a large platter. By scooping the melon in serving there is no risk to be given to the guest to flop and flounder about on his plate.

Cantaloupes should be served in halves. Therefore select the small ones. Half the people who serve them send partially green ones to the table. The ripe, butter yellow ones have the nicest flavor, and they usually have a very dark outer skin. Scrape the seeds out and drain each half and serve with a couple of spoonfuls of cracked ice in the hollow left when the seeds disappear.

How Acids Affect the Teeth.

All acid foods are very injurious to the teeth. If a tooth is put in cider, vinegar, lemon juice or tartaric acid, in a few hours the enamel will be completely destroyed so that it can be removed by the finger nail as if it were chalk. Most people have experienced what is commonly called teeth set on edge. The explanation is, the acid of the fruit that has been eaten has so far softened the enamel of the tooth that the least pressure is felt by the exceedingly small nerves which pervade the thin membrane which connects the enamel and the bony part of the tooth.

How to Renew Mirrors and Frames.

Boil some onions, barely covered with water, till quite soft. Pour off the water and wash the frames with it. Then cover them with a newspaper to keep the dust from them until they are quite dry. This makes them bright and clean and is a most inexpensive process. After having cleaned the frames the mirrors will want attention. To remove fly marks put some ball blue on a slightly damp cloth and rub the glass hard. This will efface the stain and brighten the glass. It can afterward be polished with newspaper. The ugly marks which appear on a dilapidated looking glass mean that the silvering at the back has worn off in places. To renew this take half an ounce of tin, 3 ounces of bismuth and half an ounce of lead, melt them together and when slightly cool add three ounces of mercury. With a hare's foot paint the back of the glass with this mixture.

Only a Ham.

"I've just worked up a good story about our star being kidnaped by bandits in Italy," said the press agent, "and the villain being caught and sentenced to prison for life."
"Won't do," said the manager. "Some fellow will be sure to say something about the severity of the sentence being out of all proportion to the crime of stealing a ham."
—Indianapolis Journal.

Anxious to Please.

He fell upon one knee as he took her soft hand in his and pleaded with her.
"Mabel! Darling!" he cried. "Say that you will return my love!"
"I will do better than that," she answered as she tried to intimate by one or two quick jerks that she considered her hand her own. "I won't take it in the first place, so there will be nothing to return."

Hawaiian Liner China Stops for a New Register.

Steamer Kilanea Hou Out—Schooner Mowahine on the Berth for Paauilo—Kaena From Puuiki.

The steamer Upolu left for Honolulu yesterday afternoon. Captain Campbell who is vacationing on Kauai will not return until next week.

The schooner Mowahine goes to Paauilo next Monday morning at 10 o'clock.

The steamship Baracouta is expected in a week or so from the Coast as an applicant for Hawaiian registry through her flag owner George W. Macfarlane.

The liner China with 270 tons of merchandise from Hongkong via Yokohama is at Pacific Mail wharf and leaves for San Francisco this evening. The Gaelic from this port passed the China a few days ago and signaled the news that the Hawaiian register was awaiting her. The China brings in the steerage 19 Chinese, 7 Japanese and two Russians. The Russians are going into the coffee business.

THE JAPANESE QUESTION.

Views of Japan Native Press on Minister Cooper's Position.

A paragraph in the Japan Herald says that the reply of the Hawaiian Government to Japan's conditional acceptance of arbitration "was to the effect that only the legal dispute shall be submitted to the arbitration of a third Power after all the facts have been disposed of by the two principals concerned, and that the third Power shall be selected after such settlement."

The Herald adds: "It is stated by vernacular papers that the Hawaiian Minister to Washington has acquired great influence owing to his success in the annexation affair, and that the Hawaiian Minister of Foreign Affairs tries to regain his popularity, now on the wane, by means of him. The latter advised the Government to convene the House of Nobles in order to submit to them the annexation treaty with a view to gaining over the native Hawaiians. The President approved the suggestion and issued a proclamation announcing that an extraordinary meeting of the House of Nobles would be convened on the 5th instant for the above named purpose."

In Honolulu it has been the impression that Minister Hatch came home from Washington to urge the ratification of the annexation treaty which has been done by the Senate.

THE BOARD OF EDUCATION.

Special Committee Advises Against the Hotel Property Being Used for Schools.

At the meeting of the Board of Education Thursday afternoon the following appointments were made on the recommendation of the Teachers' Committee, viz: Mr. Clive Gibson to the Reform School; Miss McLain to the Night School in place of Mrs. Davis; Mr. Burnette to the Night School in place of Mr. Edgar Wood.

Commissioner Smith reported that the Chinese and Japanese pupils of the Night School made themselves a nuisance to the neighborhood by making loud noises and using objectionable language on their way to and from school. The Deputy Inspector was instructed to attend to the matter.

Mrs. Moore was appointed substitute for Miss Austin at Ainake, North Kohala, during the latter's illness.

The special committee appointed to investigate the hotel property as to its suitability for a school site reported against the proposition for the following reasons:

"1. On account of its extreme unsanitary condition.
"2. The plan of the building would give not more than four proper rooms for school purposes without a very considerable expense.
"3. The grounds are altogether too limited in extent for a school site.

Commissioners Smith and von Holt made a few remarks in support of the report, during which the former said he understood that the Kawaihau Seminary would soon be vacated. He thought that would be an ideal site for the Normal school and that it would be worth looking out for.

Miss May Logan of Makapala was given six months' leave of absence on account of ill-health.

Miss Zoe Atkinson asked the Board to reconsider its action in refusing her a life diploma after 10 years teaching. Referred to the Teachers' Committee.

Short Funeral.

A funeral passed out King street at noon consisting of a hearse, driven by a white man with a Chinese boy beside him on the seat, and one hack behind containing a solitary Chinaman. Perhaps the supposed occupant of the plain deal coffin is very much alive outside of it somewhere with his name changed from what is written on a six months' residence permit. It will be remembered that such things happened before.

If you contemplate ordering a portrait enlargement we invite your attention to the superior work we offer and would ask a comparison of prices and workmanship before placing your order. King Bros., Hotel street.

Papa Pays The Bills

The whole family wear shoes. There may be half a dozen pairs all going along on the wide road to destruction at once—half a dozen pairs of feet helping to pile up the figures on the expense side of Papa's ledger.

Papa is the one who knows what it is worth to save a quarter on the price of every pair of shoes he buys. Hence Papa buys here.
