### MUST BID AGAINST COAST CONTRACTORS

San Francisco Bidders May Be In Field For The Dam

Honolulu contractors may have the inside track in the race for the contract to complete the Nuuanu dam, but they are not to have it all their own way without outside competition. It is more than probable that there will be San Francisco bidders in the field, and it is not impossible that one of them may pass under the wire first.

Superintendent Campbell this morning forwarded a set of the plans and specifications to Marjodon Manson, one of the best known civil engineers of San Francisco. The plans and specifications are to be placed on exhibit in his office, where they may be seen and studied by such of the California contractors as may feel like taking a chance at the job.

Locally there are four contractors who have already obtained copies of the plans and specifications, with a view to making tenders. They are C. S. Holloway, L. M. Whitehouse, E. P. Chapin and E. J. Lord. It is probable that there will be others before the time comes for opening the bids.

### WOOD DOES GOOD PROMOTION WORK

Chairman F. L. Waldron of the Promotion Committee has received the following letter from Secretary Wood, showing that the strenuous Secretary is not only devoting his attention to pressing the Pearl Harbor measure, but is doing good promotion work as well:

Washington, D. C., Dec. 23, 1907.

Mr. Fred. L. Waldron, Chairman Hawaiian Promotion Committee, Honolulu, Hawaii.

Dear Mr. Waldron:—Subject to the approval of the Committee I have completed arrangements with the Union Railway and Steamship Advertising Company for the distribution of our folders throughout the city of Washington for the period of six months from Jan. 1st, 1908. The folder racks

### NOMINATIONS MADE FOR COMING YEAR

To Be Submitted At Meeting of Merchants' Association

The Merchants' Association will hold its annual meeting on the eighteenth of this month. As is provided in the by-laws of the organization President Geo. W. Smith some time ago appointed a nomination committee of three members to present names for election as a board of directors for the ensuing year. This committee has already handed in its report to Secretary Paris, submitting the following names:

Geo. W. Smith, E. A. McInerney, F. W. Macfarlane, G. Fred Bush, Robert Catton, James Wakefield, T. H. Petrie, F. L. Waldron, E. H. Paris, T. J. King, W. T. Lucas.

Prior to the annual meeting, on next Friday, the Board of Directors will hold a meeting to pass on the names so submitted, and to consider reports to be submitted at the annual meeting as well as to discuss suggestions and outline the policy to be followed during the coming year.

### DANCE AT THE SEASIDE

As the Buford did not stay in port, the management of the Seaside has concluded to give a dance tonight. A special dinner will be served, with Kaa's orchestra rendering selections. The officers of the local Army and Navy posts are especially invited, as also FRIENDS and patrons. Phone 834 and reserve your table for dinner.

C. H. McBryde, the Governor's private secretary, is very ill with pneumonia.

### LEGISLATION BY CONGRESS NEEDED

Judge Weaver In Report Says Work Of Land Court Is Delayed

Judge Weaver of the Court of Land Registration has made his annual report to the Chief Justice for the year ending December 31, 1907. The judge believes that additional legislation by Congress is needed to facilitate the work of the court. The report is in part as follows:

Court of Land Registration, Territory of Hawaii.

To Hon. A. S. Hartwell, Chief Justice.

Dear Sir:—I beg leave to make this my report for the year ending Dec. 31, 1907, with the accompanying statistical table.

The value of the lands over which the Court of Land Registration has jurisdiction and the assessed value when registered, amounts to \$1,266,510, the total value of the lands registered to date being \$982,935.

The total area of lands registered and pending registration is 14,022,982 acres, distributed among 134 claimants for registration.

The practice of the Court shows that it is necessary to establish the lines of streets in Honolulu by monuments in many places where they have been omitted. Without this reference street lines as boundaries are very uncertain and unreliable. The County has complied with the request for street monuments in some cases. More are needed.

The Court in decreeing a title free from encumbrance is repeatedly greatly delayed by the discovery of a government interest in the lands due to the fact that the commutation declared to be due from the owners of lands to the government by the Commissioners of Land Titles in their rules established in 1846 has never been paid. No interest is charged for the delay in payment by the awardee, and the assessment of the value of the interest is made as of the date of the award.—Min. of Interior v. Papekou Sugar Co., B. H., 125.

If interest were charged upon delayed payments after a given time and an act of Congress had by which the Government could proceed to obtain its interest in the premises, it would not only be a source of revenue to the Government, but would greatly facilitate the registration of titles, so many of which show this defect.

W. L. Howard, the Registrar of the Court, also files his report, which is statistical in character, showing the work done by the court during the year.

### SMALL FARMERS LAND PRIZES

Agricultural Exhibition Contains Varied Exhibits

The second annual Agricultural Exhibition of the Farmers' Institute of Hawaii, in cooperation with the Hawaiian Poultry Association's third annual exhibition was opened for inspection by the public at the drill shed this afternoon. The building was crowded by fowls and the produce of the islands. Several experts on fowls, fruits and vegetables were busy from early morn making arrangements for the show. Three long rows of poultry stands occupied the central portion of the building. The Waikiki side of the building is taken up by the Hawaiian Fertilizer Co., the Wallace Industrial school, the Hawaiian Experiment Station, the Hawaiian drug companies and the Japanese Yamao Soy Co. The glanders taken from horses and cattle are given conspicuous place on the Ewa side of the building. The mauka and makai sides are taken up by hens, roosters, and various other birds of extreme beauty and attractiveness. The judges, J. E. Higgins, G. Wilder and W. T. Brigham, in company with George R. Andrews, of Fresno, Cal., who arrived from San Francisco recently, were busy in their examination. The live stock consists of 3 geese, 376 roosters and hens, 5 turkeys, 7 ducks, 64 pigeons and other small birds. They are fine specimens of island fowls and are certainly a credit to the Territory.

The poultry show will be open to the public for three days till 11 p.m.

In awarding prizes for the various produce, Secretary F. G. Krauss of the Farmer's Institute of Hawaii, gave out the following awards:

Oranges—C. W. Booth, first prize for Hawaiian seedling. Dr. Whitney, second. Mrs. Jno. Soper first prize for navel oranges. Mrs. Dominos, second. For mandarins, C. W. Booth, second prize, there being no first prize winner.

H. J. Rhodes was awarded the second prize on pomelos. There was no one to receive the first prize. A. W. Carter took the first prize on lemons, while the first prize on limes was given to A. F. Judd.

Mrs. Jno. Soper was given the first prize for papayas.

The best specimens of Bluefield and Chinese dwarf bananas were those of the Moanalua garden. C. W. Booth won the first prize on ice cream bananas.

For pineapples, Hawaiian Pineapple Co., won the first prize and Byron Clark the second.

For the best collection of vegetables the Aliiolani college received the first prize.

The best potatoes were produced by Jno. McLane, who received the first prize.

R. Saida of Kula, Maui, won the first prize for the best collection of dried beans. C. W. Booth received first prize on coffee berries, while C. Koelling was declared winner of the Cassava starch.

H. J. Rhodes received the first prize for potted palms, while Mrs. H. J. Rhodes received the first prize for carnations, with A. Okimoto as second.

The best roses were exhibited by T. Kunkliyo, who received the first prize.

C. W. Booth won the first prize on lilies (Baumontic grandiflora). Honorable mention was awarded to the following exhibitors by the judges: Wallace Industrial school, for general agricultural exhibition; Hawaiian Fertilizer Works, Pacific Guano and Fertilizer Co. and the Hawaiian Fiber Co., which produces the best sisal exhibits.

P. Wilder received special mention for his spineless cactus.

R. V. Woods of Kona Canning Co. of Kealahou, Hawaii, deserves credit for the collection of preserved jams and jellies. He exhibited some of the best specimens of vanilla beans.

The Hawaii Experiment Station was awarded a prize for a general exhibition of island produce. The poultry prizes have not yet

### GOOD WORK DONE BY LEAHI HOME BUT FUNDS NEEDED

The annual meeting of the members of the Leahi Home was held this afternoon at the office of Davies & Co. Treasurer A. W. T. Bottomley submitted a report showing that during the past year an average of 39 free patients a day had been cared for, being five more than in 1906, but the accounts showed a deficiency of \$2508.73 for the year, and an earnest appeal was made for subscriptions to enable the Home to carry on its good work in the future. It would be necessary, it stated, that the number of free patients be cut down to 32, the number which could be supported by the endowment fund and the Government subsidy, unless outside aid were secured.

One subscription had, however, been received of \$350 to care for one patient for one year. During the year electric lights had been installed through the gift of \$600 by G. N. Wilcox. An upper story for the main building will also be made shortly. It will cost \$400, the funds having been provided by one of the members.

A nine-pound potato, raised by H. C. Brown at Wahiawa, is on exhibition at the Promotion Committee rooms. An exhibition of new Hawaiian pictures, tastefully arranged by Miss Crewes, is also shown in the window of the committee-room.

The divorce court had quite a grist to grind this morning, there being three cases up for hearing in two courts, and two new libels filed.

Chung See, a Korean lady of uncertain age and very certain appearance, appeared before Judge Robinson and declared that she was cruelly treated by her husband, Chor Soon Kuen, who also neglected to provide for her support. On the showing made the judge allowed the divorce.

Lahapa Ernesberg charged her husband, Joseph Ernesberg, with being an habitual drunkard. The judge was of the opinion that the facts warranted his granting a divorce, and did so accordingly. The custody of the two minor children was awarded to the mother.

Annie A. Nahaalelua obtained a decree of divorce against her husband, Charles Kia Nahaalelua, on the ground of non-support. She was awarded the custody of the two minor children.

Liol Kellikui in her libel for divorce which was filed today, charges that Kellikui has deserted her without cause and left her to shift for herself.

Matsuji Arimitsu asks for a divorce from his wife, Fusa Oriutsu, on the ground of desertion.

These cases were heard and judgment has been awarded. This will be done some time late this afternoon.

### Thaw To Gain From Prosecution

NEW YORK, N. Y., Jan. 8.—The defense of Harry Thaw has summoned the experts used by the prosecution in the first trial.

New York, Dec. 29.—One week from tomorrow Harry K. Thaw will be called a second time before a jury to make his defense to the charge of having murdered Stanford White. There have been several postponements of the date of the second hearing of this noted case, but it is said now there will be no further delay.

Mrs. William Thaw, mother of the defendant, is expected in New York by next Saturday. Mrs. Thaw has been in poor health. It is said, but believed she will be able to come on to be with her son during the opening hours of his second fight for life and freedom.

Other members of the family circle, including Mrs. George L. Carnegie, Harry Thaw's sister, and Josiah and Edward Thaw, his brothers, are also expected to reach the city during the week and will remain throughout the trial. The countess of Yarmouth, the defendant's sister, is at present in England and is not expected to attend the second trial. Mrs. Evelyn Nesbit Thaw, who has been a daily visitor at the Tombs ever since the first Thaw jury disagreed, save recently, when she was ill for a few days, will of course be one of the first arrivals in the courtroom on Monday next.

The showing of the defense will again be the same. Evelyn Nesbit Thaw will once more relate her story to the jury and an imposing array of expert alienists will again undertake to establish the theory that Thaw was insane at the time he killed Stanford White, but has so far recovered his mental balance since that time as to be no longer a menace to the community, and therefore entitled to his freedom.

In the coming trial, it is also declared, there will be no mention made of a higher, or unwritten law, but the defense will adhere strictly to a plea of legal sanity at the time the act was committed.

Martin W. Littleton of Brooklyn, who nominated Alton B. Parker for president at the last Democratic national convention, will act as leading counsel for the defense. He will have the assistance of Daniel O'Reilly and A. Russell Peabody, both of whom went through the first trial. The work of securing a jury will be more or less laborious and may occupy two or three weeks. The special venire summoned for the case number 300, it has been definitely decided that a jury will be locked up throughout the trial.

ROSENBERG FREED ON A TECHNICALITY Jacob Rosenberg, the junk dealer who was on trial before Judge Dole, was discharged yesterday at the order of the Judge because the Judge concluded that the indictment was faulty. The boys who were the chief witnesses against him had already testified to selling stolen property to Rosenberg, and Ben Duncan, one of the boys, had testified that on one occasion he told the junkman that the stuff he offered for sale was stolen.

WOOD DOES GOOD (Continued from Page 1) of the company are to be found in the Quartermaster's Depot and in all of the leading hotels and railway offices—33 or 34 places in all. I shall inspect each of these racks regularly every week while I am here, to see how they are being kept up and note if possible the demand for our folders.

The Southern Pacific Co.'s agent will move from his present offices to an excellent location on F street the first of the year and has promised window space for one of our large colored photographs. I have sent to Los Angeles for one and hope to have it here within a few days so as to take advantage of the offer.

I shall take advantage of the adjournment of Congress to Jan. 6th to run up to Atlantic City for a day or two in order to see how we can increase the effectiveness of our work there. I am just in receipt of a letter from the Director of the Atlantic City Bureau of Information saying that he had heard of my arrival in Washington and expressing the hope that I might visit his city. We have received a number of courtesies at the hands of Mr. Lenhardt and I shall be pleased to meet him.

During January, February and March I would also recommend that our agent at Los Angeles, Mr. Lloyd Childs, be authorized to pay the Hawaiian singing boys for their services at his lectures. This will enable Mr. Childs to give notice of special attractions at his lectures at least twice a week and thus draw a large crowd. The different railway agents in this city inform me that the California passenger traffic was decidedly better November of this year than November a year ago. A good California travel should mean a good travel to Hawaii. REPORT ON GIRLS' INDUSTRIAL SCHOOL The Industrial School for Girls report to Superintendent W. H. Babbit of the Board of Education by Mrs. Sarah Dexter, the matron of the institution, states as follows: On January 1, 1926, the girls in the school numbered thirty-seven. Their term were admitted during the year, ten were released and one died. December 31, 1925, showed thirty-nine inmates. During the year the sewing class of the school made, for the Boys' Industrial School at Wailalee, 264 denim trousers, 240 pajama shirts, 198 pillow cases and 128 sheets. For lace work, drawn work, other fancy work and mat, fan and hat weaving a total sum of \$275.15 was received. The net profits of this amount are deposited in the savings bank to the respective accounts of the girls who did the work, and the money is held for them until they are released from the institution. During the year the buildings were repaired and painted. In return for the suits which the girls have made for the boys of the Wailalee school, the boys provided them with meat and garden products.

MOTT-SMITH STUDIES BEES AND GIMETERIES Bees and cemeteries were the subjects of Acting Governor Mott-Smith's attention this morning. There was no connection between them, however. The rules and regulations of the Board of Agriculture and Forestry regarding the importation of bees had been passed up to the Acting Governor for his approval. After studying them carefully, he referred them to the Attorney General for an opinion as to their legality. The cemetery matter is one that comes up to Mott-Smith from the Board of Health. There is urgent need of another cemetery in Honolulu and diligent search has been made by those interested, in an attempt to find a suitable location. Wrestling is very popular at Cornell. Lee Talbot, the crack shot and hammer thrower, threw Oederkirk, substitute center on the football team, recently.

## TAKAHIRA IS APPOINTED

KOGORO TAKAHIRA  
Japanese Ambassador

TOKIO, Japan, Jan. 7.—It is unofficially reported that Kogoro Takahira has been named to succeed Aoki as Japanese Ambassador to the United States.

### CANADA AGAINST HAWAIIAN JAPANESE

OTTAWA, Ont., Jan. 7.—The Department of the Interior is considering the putting in force of an amendment to the immigration regulation which will allow of entry into Canada only of immigrants coming directly from their birth-place. The main object of the amendment is to put a stop to the migration of Japanese from Honolulu to Vancouver.

Ottawa, Ont., Dec. 26.—The point about which there is the most speculation in Ottawa is whether or not article 1 of the Japanese treaty with us sweeping permission to Japanese to enter Canada on the same footing as Canadians does not override the right of the Canadian Government to impose a condition regarding immigration. This view is held by conservatives and expressed by Mr. Monk lately in the house. "According to it," he says, "the Japanese have absolute control over the immigration situation; we cannot pass an alien labor law directed against Japan; we cannot stop undesirable Japanese to the same extent that we can keep undesirable British immigrants out."

The reply made by Duncan Ross that by international law every nation has the right to control immigration. The conservative rejoinder is that Canada, by the sweeping terms of article 1, signed away this right. This rejoinder is strengthened by the fact that the United States Government thought it necessary, when negotiating a similar treaty, to include a clause containing express reservation of rights over immigration. It is understood that T. Nosse, the Japanese Consul General, takes Monk's view. Recent dispatches from

Tokio seem to indicate that the Japanese Government not only takes the view that it controls the immigration situation, but also takes the view that its undertakings on the subject prior to the conclusion of the treaty are null and void.

Should this prove to be the case a serious blow will be dealt to the position assumed by the liberal members from British Columbia, who assert that they were induced by the pretreaty assurances to acquiesce in the ratification of the convention. They will be in the position of having been tricked, and so, if their account of the attitude of the government be correct, will the government of Canada.

It is likely that when the house resumes after the Christmas vacation the government will be in the unpleasant position of having to attempt the defense of either a calculated misrepresentation or a deliberate breach of faith.

### SEND RUEF TO THE SHERIFF

SAN FRANCISCO, Cal., Jan. 7.—With the taking office of the newly elected municipal officers yesterday Judge Dunne announced that he has issued an order placing Abe Ruef in the custody of the Sheriff. The prosecution tried to avert the issuing of the order in fear that the detention of Ruef will disarrange their plans for the further prosecution of the grafters.

### LANAI PETITION POSTPONED.

The Bulletin in making reference to the Supreme Court in the Lanai case stated yesterday that the petition as regards Commissioner of Public Lands Pratt had been "denied." This is not technically correct as the court "postponed" its decision to give time for the parties to be heard. The court's decision in the case from the Supreme Court is probably postponed for perhaps a year hence.

WEDNESDAY JANUARY 8, 1908

Take in the poultry show. It is well worth while.

Boosters for Honolulu will not fail to give a good share to the Floral Parade.

Canada joins in the desire to keep the Japanese in Hawaii. This satisfies Hawaii.

Secretary Wood says the tourists moving west are increasing in number. He knows.

It is safe to say that the financial bill introduced by Senator Aldrich contains no section that will strengthen the central-bank idea.

It is pleasant to learn that the theatrical people have settled their differences. It is for Honolulu's interest that the few amusements it has shall succeed.

The Pearl Harbor appropriation and assistance to the American merchant marine will mean more to the prosperity of Hawaii than any other proposition now before Congress.

Count Okuma can plead guilty of being one of Japan's most prolific mouthpieces. His rash remarks followed by speedy repudiation suggest that he is being used to say things that will bring out comment.

The joy of being a despised Honolulu knocker appeals to the man without honor. The boosting campaign is what will make Honolulu and Hawaii take front rank in the next two years of record-breaking prosperity.

It may be that Delegate Kuhio's failure to make the Committee on Territories is due to the fact that Uncle Joe Cannon figured his Presidential boom would be more materially aided through the appointment of a Congressman who counts for more delegates in the National convention.

"The history of the world has not yet presented an example of an organization grown sleek and fat and conscienceless by the destruction of human freedom and the spoliation of mankind that has the virtue and honesty to make restitution and return to an exemplary life, nor will such a phenomenon ever be seen under the sun. Whether the organization be religious, political or social, that law is equally irreversible by which Ep- raim is joined to his idols." — Rid- path.

THE TIME TO BUY.

This is the time to buy. The doctrine of the East, which is being religiously preached by the financial newspapers of the mainland, is especially worthy of constant reiteration in the Territory of Hawaii.

Every business-man and every financial leader of the mainland is free to inform the people that, now the water has been squeezed out of many of the inflated stocks and others sent below their real value in sympathy with the panic feeling, no better opportunity could possibly offer for the person with a little money to make investments at bedrock prices.

If this be true on the mainland—and it is—how much more attractive must be the market of Hawaiian industrial stocks. This Territory has been affected only indirectly by the panic. Coin has been scarce and as a result the most valuable investments to be found in any market have gone to bed-rock.

The dividend capacity of Hawaii's industrial corporations has not been materially changed. The properties of the Islands were never in better condition to make profits.

The great problem of the price at which our sugar will be sold never promised to have a brighter solution. At a time of year when the pressure of early crop returns usually sends the market quotations down, we find the price for our chief product ruling high. Whether this be due to the short beet crop or the short Cuban crop or an exhaustion of "invisible supplies" is a matter of speculation.

The fact remains that the price is high and should hold to a high average.

Behind the immediate prospect of good returns on securities now at a low price is the historical fact that in all the lines of industrial stocks the world over none has in a long period of years made a better showing than the list offered in the Territory of Hawaii.

There is every reason why the people of Hawaii who have spare money should follow the mainland advice to buy.

The buyer of home securities in the Territory of Hawaii is bound to win.

EASTERN PRESS IS WAKING UP.

The campaign for the better protection of American interests in and bordering on the Pacific is going forward gradually. There is no doubt that if Delegate Kuhio's suggestion were taken up it would move more speedily.

The principal difficulty presented in obtaining the necessary appropriations is that the people don't know. They have decided that the country shall not surrender any of the islands in this part of the world that have come under the flag. Many have not stopped to realize exactly what this means, and, until they are reminded, they look upon expenditures for defense as quite improper and not in keeping with the traditional peace policies of the country.

The despatch of the battleship fleet has done much in an educational way. From this and other light that is being let in on the situation we find newspapers of the East, hith-

erto indifferent, admitting that ordinary rules of self-preservation must be followed as a natural sequence of the expansion policy already adopted. It is gratifying to note that a Newark, N. J., paper cordially endorses the stand of the President for liberal appropriations to complete necessary fortifications of the Pacific Coast and the Philippines.

"There is every reason for pushing these works," says the Journal. "We are weak in coast fortifications, especially in the Pacific, where the logic of the situation makes them most needed. Congress should not stint its appropriations for defensive works."

Also we find the Baltimore Sun in the ranks of the newspapers ready to arouse the nation to a full sense of its duty. In an editorial entitled "If We Insist On Being a World-Power We Must Spend Money" the Sun says, "It may be true that the Philippine Islands and the Hawaiian Islands are in no danger of attack; still it is not deemed good policy to leave them open as a temptation to aggressors. For this reason army estimates are greatly extended by requisitions for money to do work that should have been done long ago." "In case of war it would be much cheaper to have coast defenses to repel an attack than to surrender the islands and then engage in protracted campaigns to recover them, as national pride and spirit would compel." "Conspicuous among these non-military objects are the estimates for the deepening of channels leading into the principal seaports and for river and harbor improvement."

The feature that chafes Hawaii somewhat is its constant association with the Philippines, when, as a matter of fact, the necessities of the nation as represented in the defense of Hawaii and the Philippines are not by any means identical. To complete the defenses of this group of islands is to save money in the defenses of the Pacific Coast. The Philippines group is in a class by itself—a vulnerable point that should be dealt with independently.

What Hawaii needs to do is to follow up the President's message with a further educational campaign that will center public attention particularly on Pearl Harbor. This should be the perfectly-equipped station of the first line of defense.

KEKAUOHA SWATTED BY FIST OF JUSTICE

George Kekauoha, who was the central figure in the "Mormon case" in Judge Dole's court recently, got a swat from the fist of justice this morning that knocked him clear out of the ring.

George is now serving a four months' sentence for adultery with Amlia Lilli, one of the fair ones of the Mormon colony at Laie. He was also under indictment for having won the love of Keleheua, a married woman of the same community, and yesterday both George and the woman plead guilty. They came up before Judge Dole this morning for sentence, and George got his good and hard. Nine long months at hard labor was the package handed out by the Judge.

The story of George's offense, as briefly outlined by Judge Dole in passing sentence, is like the story from the Old Testament about King David and the method he adopted to get another man's wife. George didn't exactly send the man to the forefront of battle to be killed; but he did send him where he would be out of the way and unable to block the wiles of the erotic George. As Keleheua, the husband of the woman coveted by Kekauoha, was one of the latter's subordinates in the road department, George found it an easy matter to dispose of him.

When Kekauoha was asked by the Court whether or not he had anything to say why sentence should not be pronounced, he made a speech—he never misses an opportunity to do that—in which he stated that with great effort and by the sweat of his brow he had accumulated a considerable amount of property on the other side of the island which, if kept in jail until after April, he would lose, as he had pledged it to raise money for his defense. "When I married my wife," he said, "I was the best off of any of the Hawaiians on that side of the island. I ask the Court to be very lenient to me, and when I get out of jail, I promise that I will not commit the offense any more."

Keleheua had little to say for herself, merely asking that her sentence be as reasonable as possible.

"I am not disposed," said Judge Dole, "to be very lenient to you, Kekauoha, because of the very fact that you have amassed considerable property, and that you are evidently one of the most intelligent of the Hawaiians, a man of influence and good address. Yet, with all that, you have gone astray; you have seduced two women, and in this case have broken up a family—so far as I know a happy family—and destroyed the family life. I have seen the husband of Keleheua, who told me what I have

heard before, that he was a subordinate of yours in the road department and that in order to carry out your design you stationed him so far away that he could not easily return home.

"The sentence of the Court, considering that you are already in jail, is that you be imprisoned for nine months, running simultaneously with your present sentence. As you still have about three months to serve, this amounts to about six months' additional sentence.

"And, Keleheua, the law is always lenient to women in such cases. Yet you have sinned toward your family and allowed it to be broken up and have helped to break up the family of Kekauoha, or seriously disturbed his family life. The responsibility of the care of your own children should have been enough to deter you from giving way to the seductions of Kekauoha.

HUGHES HURT

Roadmaster Garrett Hughes of the Oahu Railway & Land Co., is lying at the Queen's Hospital with a badly dislocated shoulder and some superficial bruises. He was making one of his regular trips down the line on the motor when it left the track on one of the curves and threw him over against some rocks, rendering him unconscious. He was picked up a little later and brought to Honolulu on the train.

ANY remedy that benefits digestion strengthens the nerves.

The nerve centers require nutrition. If the digestion is impaired, the nerve centers become anemic, and indigestion is the result.

Peruna is not a nervous nor a stimulant. It benefits the nerves by benefiting digestion.

Peruna frees the stomach of enteral congestion and normal digestion is the result.

In other words, Peruna goes to the bottom of the whole difficulty, when the disagreeable symptoms disappear.

Mrs. J. C. Jamison, of Marchant street, Watsonville, Cal., writes: "I was troubled with my stomach for six years. I tried many kinds of medicine, also was treated by three doctors. They said that I had nervous dyspepsia. I was put on a liquid diet for three months.

"I improved under the treatment, but as soon as I stopped taking the medicine, I got bad again.

"I took the medicine for two years, then I got sick again and gave up all hopes of getting cured.

"I saw a testimonial of a man whose case was similar to mine being cured by Peruna, so I thought I would give it a trial.

"I procured a bottle at once and commenced taking it. I have taken several bottles and am entirely cured.

"I have gained in strength and feel like a different person. I believe Peruna is all that is claimed for it."

Nervines, such as coal tar preparations, are doing a great deal of harm. Sleep medicines and headache powders are all alike—heart depressants, and should not be used. The nerves would be all right, if the digestion were good. Peruna corrects the digestion.

The following wholesale drug—(BENSON, SMITH & CO., HONOLULU, HAWAII) will supply the retail trade (HONOLULU DRUG CO., HAWAII).

## POPULAR STEAMER ALAMEDA LEAVES

The good old stand-by, the Oceanic steamship Alameda, departed this morning at 10 o'clock from Honolulu for San Francisco. While the Alameda carried a very small passenger list, she had on board the largest shipment of the products of Hawaii that has gone out of this port in a long time. By some it is claimed to be the largest shipment of bananas alone on any one boat.  
Ten thousand bunches of bananas alone go a good ways to make up a pretty big item, and, besides these, there was any amount of pineapples, rice, sugar and other representative products of Hawaii.  
The usual "Alameda crowd" was down at the Oceanic wharf this morning to see the popular steamer off on her 2100-mile journey. Prof. Berger and his Royal Hawaiian band played stirring marches and dreamy serenades until the boat drew slowly out into the stream, when they played "Aloha Oe" and "The Star-Spangled Banner."

## Ayer's Hair Vigor

A gentleman residing at Dunedin, N.Z., writes under date Jan. 7, 1907:  
"It is with gratitude I write you that I have now a splendid head of hair, both thick and very soft, all owing to my having used your wonderful Hair Vigor. I was almost bald headed before I used the Hair Vigor. I still use it once a day, rubbing it well into the roots of the hair. I used to wear a skull-cap, and I am very grateful to Ayer's Hair Vigor for the improvement it has made in my locks."

## STOWAWAYS BOARD TRANSPORT BUFORD

When the United States transport Buford pulled away from the navy dock at 10 o'clock this morning she carried more than her ordinary crew, passengers, and complement of officers. On board there were at least a dozen men who had not signed for the voyage, nor were they reaching down in their jeans and paying out passage money. In other words they were just common ordinary "stowaways". Strict quarantine was supposed to have been observed, and orders were given to the guards at the gateway of the dock that if any of the crew or others of the passengers than the first or second class should go outside the gate that they should not be allowed to again board the ship.  
About ten minutes before the boat was due to leave, men could be seen crawling around the edge of the dock, or trying to sneak by the soldiers on guard that they might slip on board the big transport. But for a while the watchful eyes of the officers were too much for them, and they were forced to retreat ignominiously. At last, however, when the officer had called his guards to the ship, and the throng outside the gate was allowed to near the ship, the would-be stowaways had their opportunity. One man, who must have had friends on board, was thrown a rope from the bow, out of sight of the officers, and, hanging on, he was pulled hand over hand up on the deck. Another, frantic lest he should be left behind, made a flying leap for an open port and disappeared head first into the inner blackness. There was quite a number of men got on the ship in this manner.  
There are approximately 150 soldiers and 75 navy men on the Buford, and the majority of them are on their way home to be discharged. They are what is known as short-term men, and their time will have expired on the 15th of this month, probably before they arrive on the Coast. Nearly all of the navy men on the Buford have already completed their term of enlistment, and are but waiting for official confirmation of their discharge. The most of the army men will be discharged immediately on their arrival, but some of them will go to Angu's Island to get their papers.

## BAD FOR MORMON LEADER

George Kekauoha and Keleheua yesterday pleaded guilty before Judge Dole to adultery, sentence being set for today. George is now serving a term in jail for a similar offense with Asia Lilihi. Their plea of guilty looks bad for Harmon, head of the Mormon church, of which they, together with nearly everybody else at Lale, are members. Harmon is under indictment for subornation of perjury, and the plea of guilty on the part of Kekauoha and Keleheua looks as if they were to be used by the prosecution as witnesses against Harmon.

## HOUSEHOLD HINTS

### SUGGESTIONS FOR THE HOUSEWIFE

Wilted vegetables should be soaked in cold water for an hour or two before they are cooked.

To avoid washing the mending board lay over it a sheet of heavy glazed wrapping paper. If well floured, doughs are less apt to stick to it than to the board.

As soon as a salt ham or tongue is cooked remove it from the boiling water to pan of cold water for a few seconds. This will loosen the skin, which may be easily peeled off.

If your pie run over either the plates are not deep enough to hold the juice or else there is not sufficient space for the steam to escape. Use a deep grate plate and make a good opening in the upper crust.

Never wash tea or coffee pots with water in which there is soap. When they become badly discolored fill with cold water in which is dissolved a tablespoon of powdered borax and heat slowly until the water boils. Rinse thoroughly with hot water and dry. Always dry on back of range.

A washing fluid much recommended by experts consists of half a pound of potash, two quarts of boiling water and a quarter of a teaspoonful each of salts of tartar and spirits of ammonia. A breakfast cupful of this to be placed in the boiler after the clothes are washed and before they are rinsed will make them beautifully white.

The outside of a saucepan should be as clean as the inside. To prevent the smoke from sticking rub the outside of a new saucepan with fat before placing it on the stove. Wash with hot water and soda. If a saucepan brush be used the saucepans may be kept well scoured without damage to the hands. A proper brush, little and a very useful one, can be made by firmly binding together some heather twigs with string.

Scrubbing kitchen tables, cleaning saucepans and many other things takes half the time if the article to be cleaned is first damped and then

sprinkled over with a compound made by mixing together one part of pumice and three parts of soap powder. Put this cleaning powder in an old flour dredger, or make a dredger for yourself of an empty cocoa tin. All that is needed for transformation is a perforated lid, and that you can easily manage by hammering a big nail through the lid several times.

A maid in a large hotel taught one woman how to wrinkle the pillows on the bed without a plume showing in the slip. The hotel maid's way was to take the pillow by two corners, the long way, and shake the feathers down well. Then, still retaining hold of the ends, she laid the pillow on the bed, the edge coming to where the pillow would lie. Then she turned it right back in place. This left all the extra fullness in the slip beneath the pillow and out of sight, while the pillow itself presented a smooth, unbroken surface.

### FOR A PHOTOGRAPH

Wear the sort of dress you usually do. You can't make a bigger mistake than to don some sort of get-up that you're totally unaccustomed to. If you're in the habit of wearing a stiff collar don't go and get photographed in a flimsy.

If you are an outdoor girl be photographed out of doors.

Avoid violent contrasts in color or light and shade in your attire. Plain colors are best for gowns, and draperies usually come out much better than frills and flourishes.

If you have a good figure take care to preserve a clear outline. If not, never be taken full length.

Furs usually look well, but unless care is taken of the way they are disposed they are apt to be rather overwhelming. Subtle in particular comes out very nicely; but ermine is apt to be hard and is, perhaps, better avoided.

Much jewelry is a mistake, but one or two really good things look well. A fine string of pearls is always safe to wear.

### HOME-MADE SOAP

Put one can of lye or potash in one quart of cold water. When cool add six pounds of clean grease, stirring continually for ten to fifteen minutes, when pour into a box or pan to cool. When the soap becomes a little stiff, cut into bars. The next day, remove it from the box or pan and place it on the shelf to dry. This soap is so white and pure that it is used often for toilet purposes.

Madrid from the south and achieved considerable popularity socially, but his stay was not long. One night at a club he accused Rodrigo of cheating at cards. They fought, and the mark left on Rodrigo's body where his opponent's sword entered it was the shape of a scimitar. Rodrigo died of the wound, and the Moor left Madrid before he could be arrested.

After the duel an item appeared in a Madrid newspaper mentioning the marks left on the body of Count Barillon, on that of Nunez and on Rodrigo, the writer claiming that in each case the unknown victor was one and the same person. This he proceeded to prove from the character of the wounds and the fact that the mysterious person always contrived to be the insulted party and invariably chose swords for the fight.

One night Felipe was smoking in his library when a man whose face indicated that he was about forty years old entered at the door leading from the veranda.

"What do you wish, signor?" asked Felipe, half rising and looking anxiously at the stranger, who had thus entered unannounced.

"Have you heard of an unknown man who killed the Count Barillon in a duel?"

"I have."

"He left his mark in the wound." Felipe stared at the stranger without reply.

"Then there was M. Gautier, who also left a mark on our mutual friend, Nunez."

"I remember," said Felipe, almost in a whisper.

"And the Moor?"

"Felippo sat with terror stricken eyes fixed on the stranger.

"And now comes myself. Having left my card with your three friends, I have called to leave one with you."

"I do not know you, signor. I have never seen you before."

"You are mistaken. I was once betrothed to your sister."

At the moment the door opened and the Countess de Barillon stood on the threshold.

"Miguel!"

The man had half drawn his sword. He stood looking at the woman of whom he had been robbed fifteen years before. The cloud of sorrow on his face had deepened into fierce hate, but at sight of her and at the sound of her voice the coming tempest was stilled.

"Anita," he said, permitting his sword to slide back into its scabbard, "you have deprived me of the power to punish my vengeance. One by one those who repared us have paid the penalty of their sin, but now this last arch conspirator, who deserves a worse fate than the rest, is saved for your sweet sake."

Turning, he left the room. And that was the last seen of the mysterious stranger and his deadly visiting cards.

# Alabastine,

A Fire-Proof Cement

Alabastine is not only the best inside coating in the world for churches, opera houses, club houses, office buildings and dwellings, but is used everywhere for factories, cotton mills, army posts, plantation buildings, hospitals, asylums, etc., largely on account of its fire-proof properties. Alabastine is perfectly fireproof in its nature, is a cement that can be mixed thick and used in filling cracks, and sets very hard over night. Is cheaper than and superior to paint.

## THE SCHOOLS

Sanitarians say that the closely packed school room with the large surface of wall exposure demands careful attention; otherwise is a breeding ground for disease germs and a fruitful source of disease. They recommend Alabastine only. Write for particulars.

## THE HOME

Here life is spent. The little ones are born and reared, and are entitled to all the safeguards that the intelligent housewife can surround them with.

Alabastine is not expensive, promotes health, renders home beautiful and is durable. Alabastine is not a kalsominic.

Examine package and refuse if not labeled Alabastine. DON'T forget that Alabastine being durable is worth many times its price as compared with other wall-coating materials, which are dear at any price, and remember there is Only One ALABASTINE.

ALABASTINE is a powder put up in 5-pound packages. We carry it in stock in White and in a large number of beautiful tints. Anyone can mix it with water and apply it, no skill required.

It can be used with splendid results right over old wall paper and the beautiful finish will surprise you.

Let us send you a color card of ALABASTINE.

## AUTO ENDURANCE RACE HELD SOON

### Rules and Regulations of Auto Club of Hawaii

The Automobile Club of Hawaii (members of the American Automobile Association) present the rules and regulations governing the second round Oahu Endurance Contest, for the cup offered by the von Hamm-Young Co., Ltd.

This event is a free-for-all open to all comers under the following conditions only.

Entries in this event will be accepted only on the following conditions. Machines that are disqualified for any cause will give complete right-of-way to other contestants.

No racing will be tolerated under any circumstances.

Entrants who break either of these rules will be barred from any future events of the Automobile Club.

#### Rules and Regulations.

1. Each entrant will appoint an observer who will be placed on another car. This observer will keep a full record of the run.

2. Cars will leave Honolulu at the time set by the committee and must complete the run to Kahuku in not more than 3 1/2 hours and in not less than 2 1/2 hours. At Kahuku a stop of half an hour will be made. Cars can refill their gasoline and water tanks. This must be done in the presence of the observer. From Kahuku to Haleiwa cars must complete their run in not less than 1 hour and not more than 1 1/2 hours. A stop of not less than one hour will be made at Haleiwa for lunch. From Haleiwa to Honolulu cars must make the run in not less than 1 1/2 hours and not more than 2 1/4 hours.

3. While on the road between Honolulu and around the island to Honolulu every stop for any purpose whatsoever must be noted by the observer and the duration of the stop.

4. Any stop to repair tires will not be counted against the car provided the engine is kept running. If the engine is stopped while tires are being repaired 2 points will be counted against the car for every minute or fraction of a minute consumed. Any stop for any cause will be counted against the car as 2 points for every minute or fraction of a minute. These stops do not include stops to avoid danger at railroad crossing or on account of blocking of the road, etc.

5. Every entrant must display on his car the following: "Honolulu Round the Island Endurance Run, von Hamm-Young cup." These will be supplied by the committee.

6. Cars will be identified and record kept under the Territorial license number of car.

7. No record of any previous performance or sign or other indication of makers on other than name plate usually attached to the vehicle as sold to private owners will be allowed to be displayed upon any car at any time during the run.

8. The entrant having the lowest penalization will have one leg on the cup offered by the von Hamm-Young Co. All cars having a perfect score will have one leg on the cup.

9. The start will be made from the main entrance of the Capitol grounds. The first car to leave at 11 a. m. and succeeding cars at intervals of three minutes each.

10. Entrants will not be allowed extra time for troubles on the road and cars not arriving at the three points of control within the time limit will be disqualified.

11. Entrants must be at starting point with dead engines and one minute only is allowed cars to get under way from the signal to start. Every thirty seconds or fraction after which time will be penalized at 5 points per 30 seconds or fraction thereof.

12. Owners can strip their machines but every seat must carry its seating capacity.

13. Entries must be in the hands of members of the committee not later than Friday, January 17.

14. Observers must check time of arrival and start from all points of control.

15. Observers must have their cars checked in by the official recorder at all points of control before stopping their engines. Failure to observe this rule will be disqualification.

16. The route will be via Nuuanu valley over Nuuanu Pali to Haleiwa and return to Honolulu over regular route and back to Capitol grounds.

17. The points of control will be Kahuku, Haleiwa and Honolulu. Check in before you stop your engines.

18. At points of control no removals or tampering with any parts of the machine will be allowed under any consideration.

19. All protests must be in hands of the committee in writing within three hours after close of contest and the Board of Governors of the Club will make all decisions, and their decisions will be final.

20. Chains can be put on in case of necessity without penalization provided the engine is kept running.

21. Engines can be used for brakes but no cranking will be allowed.

22. The committee in charge of this event is J. D. Kennedy, S. R. Jordan and Dr. Brinckerhoff.

Board of Governors of the Automobile Club of Hawaii—Geo. P. Denison, W. E. Brown, W. N. Patten, W. H. Baird, S. R. Jordan, H. P. Wood.

SPARS AND MAST

COME AT LAST

Almost all of the needed fixtures for the little racer Hawaii are here now that the mast, and spars have arrived. They came in on the bark S. C. Allen, a lumber-carrying vessel, from Gray's Harbor and Willapa Harbor, the land of good straight trees that are the only things for fitting up a yacht. Of course, the spars are still in the rough, that is they will have to go through the mill and be turned to perfection yet, but it is a good deal of a consolation, or rather, pleasure to know that things are coming along so swimmingly.

Because the spars are now here, there is little doubt but that the yacht will be fully completed sooner than was at first expected. There was some fear entertained lest they should not arrive here in due time, and they take considerable time and work to shape. Along with the spars, though on a different boat, came a generous donation for the yacht from the Pacific Mail Steamship company through their manager in San Francisco. It is certainly gratifying to the yacht committee to see how gladly all these big concerns are subscribing, and what an interest they are all taking in the welfare of the yacht. But it is not only the interest of these big bugs that is appreciated; the yacht committee finds just as much pleasure in thanking a man for a kind word spoken as they do for a material expression of feeling. Of course, if one can give something toward making the yacht typically representative of Hawaii—so much the better, and so much more to that one's credit.

FOOTBALL SATURDAY

SPORTIVE SPLURGES

"Peanuts" is happy. Not the ordinary kind of peanuts that you crack between your fingers, but an extraordinary kind—a little Hawaiian lad, old and clever beyond his size, who became so enamored of Jack Bliss, the big baseball catcher on the Coast team, that he could hardly bear to have him leave. And the reason for "Peanuts'" jubilation is nothing more or less than a big fat loving letter from Jack Bliss.

There are two things that are badly needed on board that yacht.

These two things are a ship's bell and a binnacle. Now we have heard so much about the generosity and good-feeling of the people of Honolulu, etc.—so isn't this little suggestion sufficient?

Now that our friend Cooley has gone back to the Orpheum, someone has ventured the suggestion that the great American play "Checkers," which is making such a hit in the States, should be the next bill here. It's your move, Cooley.

Sunday afternoon that promised baseball game between the Chinese A. C. and the Kaalas will be played at the park. There is no doubt but that it will be a fast contest, and remember, it is for the benefit of the yacht.

Capt. Whittington of the Harvard swimming team is back at his studies this month. He's the Crimson's mainstay.

Princeton's swimming team has booked meets with Yale, Harvard, Pennsy, Columbia and the College of the City of New York.

The Argonauts, senior champions of Canada and the United States, will compete at the International Regatta at the Olympic Games. Toms and Jacques, their crack pair, will go it in the doubles.

The Princeton basketball team has been suspended by the A. A. U. However, the Tigers may play college fives under collegiate rules.
