SATURDAY, SEPT. 9, 1905.

TOPICS OF THE DAY.

The man from Hawaii with \$18,000 who went broke in New York, is, of course a fakir. More than likely he is some dead-beat who has visited the Islands and worked as a "detective" on the police force.

Dan Benear, Honolulu's prize swimmer, was easily defeated by a New Yorker named Daniels at Philadelphia. The trouble with men who come here from the mainland and cut a wide swath for a while, is, they play out and go back only to be cuffed around like dummies. Joe Millett and Dave Barry were two in the prize ring, and now Benear follows suit in the water.

We commend our readers to the Commoner's editorial on the first page of this issue respecting reports of conditions in the Philippines. We have the statements of Mr Bryan confirmed by those of Mr Townsend in this morning's Advertiser. Mr Bryan charges that favorable reports sent out from the Philippines invariably come from interested sources. Mr Townsend

is an interested "source;" hence his way of looking at things.

A mainland inquirer of the Promotion Committee wants 1000 acres of corn land for the manufacture of whiskey in the Islands. On the very face of it the proposition is a fake one: If the man wanted land for such a purpose he would take it up from the vast areas on the mainland, where miles of land are to be had for a song; and not seek over-valued lands out here where only "nubbins" can be matured.

The question of the right of supervisors to appoint policemen over the head of the sheriff is to be submitted by Hawaii county to the Supreme Court. Hawaii has been wrangling over this matter for weeks and it is good news that the highest Territorial court is to be resorted to for a decision. The law seems very clear on the point at issue but it seems too dense for the Hawaii supervisors.

We do not intimate that there was anything fishy in the escape of a prisoner named King Sun from Oahu prison on Thursday night. But why did this remarkable escape occur at a time when the High Sheriff was being questioned in regard to replacing certain guards, and had it in mind to change others? Surely an investigation by the Grand Jury is needed to clear up this peculiar matter.

For the first time in the history of the fight for the extermination of mosquitoes and rats, a practical warfare is being carried on. Five days in the week are given over to gathering up tin cans and chemically treating places where water is allowed to stand. On Saturday of each week rat poison is set out and on Monday the dead rodents are gathered in and burned. A wise and practical plan of this kind is bound to have its good results.

Hilo is slow to wrath, but mighty in her indignation when she is stirred to raise her voice.—Hilo Tribune. We were aware that Madam Pele was something like that in the years long gone, but was unmindful of this new terror. As a friend of Hilo we would humbly request the Tribune to forewarn us as to when the fair city will start out with her death weapons, so that we may have at least a square show of sprinting it as far as the woods.

The talk of Vice-Minister Yoon, of Korea, to his countrymen last night abounded in good sense. He admonished them to behave properly and to work faithfully and well, assuring them that if they did so they would succeed here. With few exceptions the Koreans have given no trouble here. That they are lazy is generally admitted; but they have the redeeming quality of not carrying the pistol of the negro nor the dirk of the Porto Rican. Besides that they take an active interest in church and school work, which is

another important point in their favor.

German residents of Honolulu are certainly to be commended for the enthusiasm with which they have entered upon their reception to the men of the Condor. They readily raised over \$1000 for the purpose, although only a couple of hundred men were to be looked after. In 1898 not over that amount was raised for whole regiments of 1200. The Germans, at the head of whom are the houses of Hackfeld & Co and Schaefer & Co, have certainly done themselves proud.

The Advertiser has discovered that large trees can be removed from one place to another and made to grow just as well in the new home. The information will not startle or even surprise anyone, for the reason that the practice of removing large trees from place to place has been in vogue for years. One man in particular is engaged regularly in the business. The reason the removal of trees from lots where new buildings were going in, is and has been the matter of expense.

Treasurer Trent has held up another blanket warrant, made out similar to the discarded garbage department warrant. This time the amount is \$141 and for the pay of men working for Koolsupoko road board. But in place of being made out to the men in separate warrants, it is a blanket warrant in favor of one Andrew Adams, for the whole amount. The honesty of Mr Adams in the premises is not to be questioned. The men would undoubtedly get their money. But the principle is wrong, as we have repeatedly pointed out.

The deaf mute arrested for larceny, who cannot read, write nor make himself understood to the authorities by means of sign language, but what should that restraint be? He certainly cannot be tried and sent to prison, for there is no way of giving him a fair trial, eliciting from him the defenses to which he is unquestionably entitled. What, then, can be done? The best scheme would probably be the providing of some special arrangements in the Reformatory school for the young man.

The suggestion of the Bulletin that baseball clubs of the frozen north could be induced to come here for practice during the winter months is good. In the past these teams have been in the habit of going South, playing games in the Carolinas, Georgia, Florida and the Gulf States. As they have yellow fever down there this year, the campaign in that direction will almost surely be abandoned. Honolulu would be an ideal place for the teams to practice, and if their attention was properly called to the fact three or four teams might be gotten out here this winter. It would not only be a great

Rheumatism

is a disease of the blood. Local applications may furnish temporary relief, but to CURE the disease it is necessary to treat it through the blood.

Locomotor Ataxia

is a disease of the nerves. The one successful method of treatment is by a remedy that will restore nutrition to the nerves. Such a remedy is

Dr. Williams' Pink Pills for Pale People

These pills are a specific in cases of Rheumatism, Locomotor Ataxia, Paralysis, and other diseases of the blood and nerves, because they supply the necessary elements to build up the blood and strengthen the nerves. It is in this way that the pills effect so many cures in diseases of apparently widely different character.

Frank Long, who lives near Lenon, Mich., says: "I was first taken with a pain in my back. The physician pronounced my case muscular rheumatism, accompanied by lumbago. My disease gradually became worse until I thought death would be welcome release. I was finally induced to try Dr. Williams' Pink Pills for Pale People. Before the first box was used I could get about the house, and after using five boxes was entirely cured. Since that time I have felt no return of the rheumatic pains. Am confident that Dr. Williams' Pink Pills saved my life."
 Sworn to before me at Venice, Mich., this 10th day of April, 1898.
 G. B. GOLDSMITH, Justice of the Peace.

Edwin R. Tripp, Postmaster of Middlefield Centre, N. Y., said: "I was attacked by what I learned was locomotor ataxia. Two skillful doctors did everything they could for me. I became worse, could not move even about the room. I did not expect to live very long. The turning point was a newspaper article. It told how a man, who had suffered as I had been cured by Dr. Williams' Pink Pills for Pale People. I took two boxes of the pills; then four more boxes. My pain was steady; my return to health was a source of daily gratification. In all I took eighteen boxes of the pills before I was entirely well. I owe my cure entirely to Dr. Williams' Pink Pills for Pale People."
 Subscribed and sworn to before me, HOMER HANNA, Notary Public.

The full name is on each package. Sold by all druggists, or sent postpaid by Dr. Williams Medicine Co., Schenectady, N. Y. Price 50c. per box; 6 boxes, \$2.50.

advertisement, too, but would give Honolulu a chance to see some real baseball by the big fellows.

Mrs Harry has apologized to the Department of Education for her part in the oaterwauling in the Wailuku school, and her apology has been accepted. While hoping for the best, however, the public cannot but help feeling nervous about the outcome. Mrs Harry is undoubtedly a good teacher, one the Department can ill afford to lose. At the same time Mr Copeland is an instructor of more than ordinary ability and has the endorsement of the people of Wailuku. However valuable both teachers are it will certainly not do to have them spitting in the school room; and for that reason THE INDEPENDENT felt—and still feels—that they should occupy positions in separate schools.

The Condor Reception.

Everything is in shipshape for the entertainment of the Condor's officers and men at the Waikiki Annex tonight. For two days a committee headed by Mrs. Berndt and Mrs. H. Klemme, assisted by a number of young ladies, have been preparing the salads, pies, etc., while Captain Carl Klemme's committee has looked after the meats, bread and other solids. The first chapter of the good time will begin at 7:30 tonight.

Special cars have been engaged by the committees to take the sailors to the scene.

More Laborers Coming.

Although F. M. Swanzy took no active interest in immigration matters while in Japan, he states that the prospects are in favor of a large immigration to Hawaii when peace is finally concluded. There are a million soldiers in the field who will shortly be mustered out. Many of these will stop in Korea, in Formosa and in Saghalien, but there will be an immense overflow, seeking new fields. Mr. Swanzy feels that this element will naturally turn their eyes toward Hawaii.

Three Steamers Arrive.

Three of the Inter-Island steamers arrived this morning. The Likelike, from Molokai, and Helene, from Hamakua, arrived and the Kinau reached her dock about 10:30.
