TOPICS OF THE DAY.

If the new issue of \$750,000 bonds can be made at three and one-half per cent, why cannot the old issues be refunded at the same rate? At almost anytime there are outstanding bonds that could be redeemed with ease, and by working the wrinkle referred to it would be well worth the while.

The bill-board nuisance is indeed pronounced, but the ladies who have decided to black-ball certain goods because they were advertised in that way will probably afford the sellers of those goods more benefit than harm. It will give the particular merchandise the best kind of advertising, and consequently, boost sales.

There is one thing for which the Kereans are to be commended. They are taking extraordinary interest in religious and educational. Probably no alien people have fallen so quickly and systematically into the ways of the country as have they; and eventually good citizenship is

promised of most of the colony from the Hermit Kingdom.

The closing of Waikiki Annex would be a misfortune, as it is the one hotel at the beach with handsome tropical foliage, and it has about the best surf there. A lot of money has been spent on the place and elaborate improvements have been made to it. It would be a good thing if it could be annexed to the Moana, and the murky stream between the two beautified.

In a divorce libel filed the other day a Portuguese woman alleged that her husband called her names so vile that they could not be expressed in the English language. Shades of Shakespeare and Robert Louis Stevenson! Has the English language come to that? Ah, we think not. The English language has as hard hitting cuss words in it as any other—and we'll prove it by George A Davis.

Kanealii won and lost yesterday, so decided the Supreme Court. In one, Judge Hardy will have to approve and pass upon the sufficiency of his bond, and the other, a writ of prohibition was denied, which sought to restrain the Judge from proceeding on quo warranto proceedings to oust Kanealii from sitting as a supervisor. How's that for you, dear Garden Island; didn't we tell you that your Judge was narrow minded, and entirely wrong, withal?

We learn that McBryde plantation, on Kauai, is inaugurating a system of giving to laborers small plots of land to be cultivated for their own use. This is a move that will settle the labor problem quicker than anything else. It is an inducement that will not greatly interest the floating single man; but it will draw to the plantation what is infinitely better—the married man and his family. That class of labor can be depended upon to stick and to work.

Before making a fool of itself by passing its proposed clothes spraying ordinance, the Board of Supervisors had better obtain some substantial legal opinion on the subject. A few years ago a law identical in its purport was passed by the Legislature, but the courts knocked it out on the ground that it was class legislation. The proposed ordinance referred to is in the same category, and is almost certain to meet a like fate. Before wasting more time upon it the supervisors should find out what they are doing.

The action of the Board of Supervisors in condemning the road supervisor and the next minute passing a tribute of recognition of his honesty and ability, remains unexplained. What does the Board mean anyhow? Either one or the other of these resolutions must be withdrawn or the public will be forced to suspect that certain of the supervisors were "seen" between the passage of the

first resolution and the introduction of the second. The supervisors owe it to themselves and the County of Oahu to clear the matter up.

We have a pretty direct report that the trouble aboard the cable ship Restorer yesterday was the result of ill treatment of the Hawaiian by the ship's officers. These officers, it appears, imagined that they had a lot of coolies aboard whom they could drive, as they had been in the habit of doing with Chinese, Japs and East Indians. But they ran up against a more self-respecting people. This angered the slave drivers and trouble followed, the Hawaiians finally leaving in a body. The Restorer readily obtained a crew of Japs who were willing to be treated like dogs.

Again the Associated Charities bobs up serenely and holds out an itching palm for public endorsement and good coin. If properly managed, the association could be made a great power for good. It occupies a position that should give it full, free and intelligent swing. But for some unknown reason it has not profited by its unusual opportunities. In fact so indifferent has it been in its work that a vast majority of the needy people of Honolulu know nothing of its existence. Thus far it has proved merely an expensive luxury.

Republican newspapers are just now praising President Roosevelt for his "bravery" in determining to visit the yellow fever stricken city of New Orleans. In place of being praised, he should be written up as a man of extremely shallow judgment. If the President could accomplish any good by risking his life in New Orleans there might be some excuse for his venture. But he can do no good and, on the other hand, will be immensely in the way. It is another grand-stand play—a play to impress a Democratic city with the "strangeness" of a Republican administration.

Is there not too much of Diamond Head in Hawaiian advertising anyway? To people who have travelled any at all the bald-headed and bare-ribbed promontory is not a curiosity at all. Its presence near the sea makes it conspicuous and for that reason it attracts some attention of tourists. Home returning people admire it as being the first land they clearly see. But outside of that there is no more to Diamond Head than to dozens of other hills. As an advertising feature Tantalus, Round Top, Kasis, Menoa valley and numerous other places would appeal more effectually to the stranger than Diamond Head.

Kauai people object strenuously to the loose way in which liquor licenses have been issued on their island. It appears that the Territorial Treasurer has been issuing licenses indiscriminately, oftentimes against the will of the citizens and tax-payers. This very reasonable

Bloodless Girls

Doctors have given the Greek name Anæmia, meaning "bloodlessness" to a disease which is much more prevalent among young women than is generally believed. In its early stages the disease is not marked by any decided symptoms and often makes considerable advance before its presence is noticed. An unusual feeling of fatigue after slight exercise, breathless and pallor are the first noticeable signs. In anæmia the blood becomes thin, the heart flabby, the skin pale and waxy. If the disease become chronic (persistent anæmia) it often results fatally. The one successful method of treating this disease is to build up the blood. The best blood builder in the world is

Dr. Williams' Pink Pills for Pale People

This remedy has cured more cases of anæmia than all others combined.

Miss Cordelia Moore, of Malone, N. Y., until recently, has been a life-long invalid from palpitation of the heart and weakness of the blood. In speaking of this experience she said: "I was in a terrible condition. I could not eat. My face was ghastly white, and my hands were almost transparent. I was so weak it was utterly impossible for me to go up stairs. I met a friend who spoke of Dr. Williams' Pink Pills for Pale People, and advised me to try them. Before the first box was used I began to regain my appetite and felt better generally. I bought six more boxes and took them. I grew strong, rosy and gained in flesh. I became better in every way. I never felt better in my life than now, and consider myself cured. I cannot say too much regarding Dr. Williams' Pink Pills for Pale People."—From the Gazette, Malone, N. Y.

No discovery of modern times has proved such a blessing to mankind as Dr. Williams' Pink Pills for Pale People. Acting directly on the blood and nerves, invigorating the body, regulating the functions, they restore the strength and health in the exhausted patient when every effort of the physician proves unavailing.

These pills are sold in boxes at 50 cents a box or six boxes for \$2.50, and may be had of all druggists, or direct by mail from Dr. Williams Medicine Co., Schenectady, N. Y.

protest brings again into the limelight the propriety and importance of allowing each county to determine upon and issue its own licenses. Of course such a scheme could not be worked under the present laws, but it is a good reform that the next Legislature would do well to deal with.
