## MOTHER F. SCHOFF AMONG MORMONS.

Denver, Sept 19—Mrs Frederick Schoff of Philadelphia, president of the National Mothers' Congress, was in Denver today on her way East from Portland and Salt Lake City. In the latter place she devoted some time to a study of Mormonism. Mrs Schoff today made some sensational statements regarding the Mormons and their methods. She said: "Ex Senator Frank J Cannon of Utah is a hero and may prove to be a martyr. He came of the Mormons. His father, a Mormon apostle, has disowned and disinherited him because the noble man is fighting for his State against the hierarchy and the awful teachings of that church. Senator Cannon has been condemned to die by the Mormons. His secretary has been quietly told by friends not to be seen in his employer's company too much, for fear that he, also, be assassinated. When I said good-by to the Senator I had a feeling I should never see him again alive.

"Society is not society in Utah. Young men who go to a dancing party there are not able to know whether they are dancing with married women, for so many girls are married secretly. The records are in the temple and no one outside knows.

"The number of illegitimate children in Salt Lake City and the whole State is appalling.

"The poorer women, who are wives of polygamists, sometimes work in pairs in the homes of rich families to support their husband and offspring.

"I know whereof I speak when I say that the Mormons are trying to secure control of the United States Government. They absolutely control politics in Idaho, Utah, Montana, New Mexico and Nevada. They are becoming very strong in Oregon. In all these States, except the latter, they hold the balance of power. The Republican party bows to their demands. The American Beet Sugar Company, the trust capitalized at \$20,000,000, is a Mormon trust and it contributes to the Republican national campaign fund generously.

"The hierarchy, which consists of twenty-six men, must be called to account to obey the law of this land. If the American nation does not force these twenty-six men to obey, it can never expect to stamp out polygamy. They have an income of \$1,500,000 annually, for which they have to give no account. This is over and above all church expenses.

"The National League of Women's organizations, which has been formed by the Mothers' Congress, numbers 1,500,000 women. We are arranging meetings for the autumn in Eastern cities, which will be addressed by Senator Cannon, if he is alive. That will stir things."

While Mrs Schoff was in Utah investigating the Mormons she was under the surveillance and protection of friends from the time she entered the State until she left, as

she is well known in Salt Lake to the officials of the Mormon church. Not a newspaper in the city mentioned her visit, though all the people knew she was there and knew the purpose of her visit. She talked with hundreds of Gentiles and Mormons in obtaining information.

### Labor Favors Exclusion.

Washington, Sept 19—A resolution was adopted at today's meeting of the executive council of the American Federation of Labor expressive of the sentiment of the workmen to thwart any effort of those interested in any change of the existing law excluding Chinese laborers and coolies from the United States and its possessions.

Secretary Morrison submitted a financial report for the past eleven months which showed a balance on September 1 of \$106,323. The report of the American Federation of Labor shows 26,000 local trade unions and a membership approximately of 2,000,000.

PRATT—In this city, Oct 11, 1905, to the wife of J W Pratt, a son.

ESPINDA—In this city, Oct 11, 1905, to the wife of Akana Espinda, a son.

TOPICS OF THE DAY.

Hadn't the Advertiser better charge up the Panama canal scandal to Sheriff Brown?

The Advertiser announces that it is ready to place before the court all the evidence in regard to gambling to which it has laid claim. That is satisfactory, and a greatly interested public will await the testimony. It is the Advertiser's next move.

Robert Law, a teacher in the Royal school, has written to Washington protesting against Japanese drilling in the Hawaiian Islands. It will be a singular thing if the war department answers the letter at all. Most probably it will look up data relating to insane asylums out here.

There is a great deal of merit in Prof Berger's effort to get a bandstand in Alaia park. At present there are no such conveniences at all. With a bandstand and benches there the original park idea would be carried out. As the place now is

only hoodlums and baseball players really get anything out of it.

Why is the investigation of the New York Life Insurance Company's business here conducted in secret? There are hundreds of risks held by the company in this Territory and thousands of people are directly interested in the concern. In view of this fact the greatest publicity should be given to the investigation.

Having errow-fished out of the gambling muss which it started, the yellow morning paper is now trying to stop blasting in the harbor made necessary by the dredging of Alaska street slip. At first when heavy blasts were used near the surface there was some annoyance, but since the smaller charges of power there has been no complaint and nothing to complain about.

The appeal of the Governor of Guam for a steamship line between the Coast and that island should interest the people who are figuring on an independent line from San Francisco to Honolulu. A regular service to take in Honolulu, Guam and Manila should prove a good thing for any company, and if put on by Honolulu business concerns it would be a gold mine.

The case of E G Ferreira, who is reported to have loaned money to W W Boyd, a fireman, at the enormous rate of ten per cent a month, calls for the immediate investigation of the Grand Jury. If the deal was as stated, the usurer should be given a full dose of the law. If the charge is untrue, Mr Ferreira should be the first to court a Grand Jury investigation and vindication.

We cannot emphasize too strongly the importance of a general and lively interest in Arbor Day. Tree planting is as important here as in the nude plains of the middle west, and the inculcation of a love for forestry is as equally desirable here as there. The good effects of the project will not be perceptible this year nor the next but the children who plant the trees will live to see the results of their labors.

Mr Bryan announces in the latest issue of his paper, The Commonwealth, that he will print letters concerning every country visited by him on his present world tour. His impressions of Honolulu will be awaited with interest, particularly that part relating to labor and immigration. While here Mr Bryan expressed himself as in favor of European scum for the cane-fields but will probably modify his views before he gets around the world.

President Roosevelt has offered to former President Cleveland the high office of representing the United States in the second peace conference at the Hague. This is a splendid tribute to the great Democrat. Except for the Venezuela affair Mr Cleveland, during his eight years as President, stood for peace. Al-

though the American navy of today is the child of his administration, he was a steadfast advocate of the plea of arbitrating national difficulties.

Scandals seems to hover over the Panama canal project anyway. France had her turn with it, the De Lesseps scandals still being well remembered. Now the United States is taking a turn and there are scandals all the way from the boss' office to the official bakery. The whole trouble is politics. If the canal had been kept out of politics there would have been no frietionor scandal. But when politics began to sway contracts and labor the storm broke, as may have been expected.

Iwilei is an unpleasant subject to discuss but last night certainly illustrated its importance. More than 500 soldiers were turned loose in the city at once to go where they willed and do much as they pleased. They headed for Iwilei by the dozens and scores. In a short time the whole district was filled with them and continued to be most of the night. If Iwilei had not been in existence where would these men have gone? What may they have done during the night in more respectable communities? It is well betimes to look circumstances squarely in the face, however odious the approaches to them may be—and this Iwilei proposition is a case in point.

One improvement Honolulu could get if she went about it in the right way is a new postoffice building. In cities on the mainland the size of Honolulu are postoffice buildings large enough to hide the Honolulu postoffice in one corner. They are built of stone, finely equipped and even the surrounding streets are beautifully paved. Why not here? This is a first class postoffice town, and yet the business of the department is carried on in an antiquated, barn-like structure. We feel certain that the authorities at Washington have never been correctly informed as to postoffice conditions here or the arrangements would be very different.

The beet sugar growers of the mainland are raising their weak voice in protest against the Taft policy of admitting Philippine sugar free of duty. But it will not count for much. There is the strongest kind of sentiment in the United States back of the Taft policy, and when the whole thing is threshed out Mr Taft's idea will be at the top of the heap. And it is but simple justice that it should be so. The Philippines were forcibly taken by the United States and are, in consequence, entitled to commercial and every other kind of protection. That free trade with the Philippines will hurt Hawaii is to be admitted; but the people who shouted for annexation will have themselves to thank for any harm that may come to them.

Do Your Joints Pain You?

A slight indefinite pain in the joints is the first sign of Rheumatism. Then come the aching pains and tenderness, the agonizing cramps, the fever and restlessness that characterize this disease.

When you feel the first slight pain, begin to take Dr. Williams' Pink Pills for Pale People, and the progress of the disease will be arrested. Neglect this and you will regret it.

Dr. Williams' Pink Pills for Pale People are a Positive and Permanent Cure for Rheumatism.

This remedy expels impurities from the blood, and supplies the material for rapidly rebuilding wasted nerve tissues. It has performed hundreds of almost miraculous cures in severe cases of Rheumatism, many times after doctors had given up hope. Read this sworn statement:

"In 1901 I was taken with rheumatism, which began in my hips and gradually spread throughout my body. For two years and a half I was confined to my bed, employed none of the best physicians in Albany, and two specialists from New York city. They all declared my case hopeless, and finally told me that I had but six weeks to live. I told them to take their medicine away; that if I were to die I should take no more of the stuff."

My niece, who through her friends knew of the good results attending the use of Dr. Williams' Pink Pills for Pale People, strongly recommended them. She procured the pills and by the time I had used the first box I felt hungry. Having had no appetite for a long time, I began to eat, and the pills were doing me good. I continued their use, and after taking several boxes was able to leave my bed and go about with the use of crutches. I weighed but 100 pounds. As my normal weight is about 200 pounds, you can see how run down I had become during my sickness. After taking thirteen boxes of the pills I was weighed again, and although less than a year had passed I weighed 167 pounds. I continued the use of the pills and finally was able to abandon the crutches altogether, and am now as well as ever. MRS. T. J. LAWRENCE, 231 Hamilton St., Albany, N. Y.

Sworn to and subscribed before me this 17th day of September, 1905. NELLIE F. TOWNSEND, Notary Public, Albany Co., N. Y.

The genuine Dr. Williams' Pink Pills for Pale People are sold only in packages, the wrapper always bearing the full name. At all druggists, or direct from the Dr. Williams Medicine Co., Schenectady, N. Y. 50c. per box.

Campaign Contributions Must Be  
Accounted For.

Saranac Lake, N Y, Sept 19—It is practically certain that Julius Mayer, State Attorney General, will begin an action to compel restitution by the officers of the New York Life Insurance Company who caused the expenditure of \$150,000 of the company's funds as campaign contributions, and also to determine whether or not the donations constitute official misconduct on the part of the managers of the trust fund. This was the substance of a statement made by one very close to the Attorney-General and well qualified to speak with full authority.

Mr Mayer left here last night for New York, returning to Albany tomorrow morning. No small part of his time in New York will be spent in interviews with members of the Armstrong committee and their counsel, Messrs Hughes and McKee.

With his characteristic conservatism, the Attorney-General was loath to enter into a discussion regarding the recent phases of the insurance inquiry, but from a few hints dropped it is almost certain action will be brought for restitution of the money.
