McCLELLAN IS VERY POPULAR.

The Irish American has the following to say of Mayor George B. McClellan, who seems not unlikely to be the Democratic candidate for President of the United States:

Mayor McClellan has, once more, proved himself to be what the conditions or his election indicated that his constituents intended he should be,—the chosen Chief Magistrate of the people of New York,—in contradistinction to too many of his predecessors in office, who, after their election, showed themselves only too ready to act as the representatives and obedient servants of the classes, who may happen to be more favored, in the distribution of this world's goods than the majority of their fellow-citizens. A number of the owners of fast trotting horses, in the district of the Bronx, in which Pelham Bay Park is located, had long had their eyes on the Park, as an eligible site for the laying out of a trotting-track, on which they could display their skill as drivers, and the qualities of their fast nags. As the Park, however, had been laid out for the citizens and their families, and also as a special parade ground for military and other similar displays, they did not venture openly to broach the project of diverting it from its original purpose,—a move which they knew Mayor McClellan would strenuously oppose. Taking advantage, however, of the Mayor's absence from the city, on his much-needed vacation, the local Park Commissioner, Henry Schrader, set a gang of Park laborers to work, and, in short order, had the rich green velvet turf torn up, and a half-mile oval trotting track laid out, in such fashion that it twice intersected Baychester avenue, which is the main thoroughfare taken by residents of the section in going to and from the railroad station. Park labor was employed, so that the Commissioner was relieved of the necessity of obtaining an appropriation from the Board of Estimate, which he knew he would not get. It was estimated that \$6000 would be expended in the work,—about half of which was completed,—the sod being torn up and the outline of the track defined, without grading or finishing. Then, Mayor McClellan returned from his holiday vacation; and his first act was to put a stop to the desecration of the public recreation ground, and to order the over-ready and too-complaisant Commissioner to restore the Park to its former condition,—an injunction which he gave in the emphatic manner in which his illustrious father was wont to bid the enemies of the Union to skedaddle. There may be some further legal proceedings in connection with this barefaced attempt to appropriate a most valuable piece of public property to private purposes; but the course who are invariably at the back of such schemes will know, hence-forward, that they have, in our worthy Chief Magistrate, to deal with a guardian of the people's rights, who will not

suffer those rights to be trifled with, or fleeced from those to whom they properly belong.

W N Armstrong Dead.

Cable advices were received last night of the death in Washington of William Nevins Armstrong, brother of General Armstrong and at divers times editor of the Advertiser. Of late years Mr Armstrong has owned valuable oyster interests in Chesapeake bay. When King Kalakaua went around the world he accompanied him as secretary.

Killed By a Train.

Puunuku, a Hawaiian, was run over by a train on the Oahu railroad Saturday night and so badly injured that he died at the Queen's hospital about 4 o'clock yesterday afternoon.

With grab bags and dances to raise money, the churches may be said to be getting very near to craps and the hula.

If Roosevelt's Catholic mission to Japan does not turn out any better than McKinley's papal delegation to the Spanish army at Manila in 1898 the thing might as well be called off at the start.

The proposal of the Hawaiian Electric Co to string its house lighting wires on Government street poles in Kalihi is one worthy of consideration.

A series of baseball games between all Maui and one of the Honolulu nines would draw big crowds. In all bouts with Honolulu, Maui's athletes have proved true sports and they are always welcome here.

The action of the Hawaii Board of Supervisors in turning down the application of G. H. Gere to be appointed road engineer means that that county wishes again to draw upon Oahu for an important part of its work.

Peace between Japan and Russia is only temporary. The people of either country remain dissatisfied by the peace terms, and the whole world knows what that leads to.

The Hawaii Shindo, a Japanese newspaper, congratulates its people on the fact that there are very few Japanese cases on the Federal calendar of this court term.

Judge Kepoikai's charge to the grand jury at Lahaina was eloquent and sound in that it lacked oratory and expressed nothing. The practice of judges nowadays is to get off a lot of gush which makes the juror suspect that he is "it" and wins the plaudits of the potticoated fraternity in the rear seats.

the jury to work Judge Kepoikai established a precedent that may well be followed in Honolulu.

Of course the supervisors of Hawaii county may turn down appointments made by the sheriff, but in so doing they only hurt themselves. They impair in the first place, the value of an officer elected by the people in that his duties are hampered; his judgment made secondary.

The editor of the Army and Navy Journal has "made good" as a result of his recent visit to Honolulu and has come out in strong advocacy of adequate defenses for Hawaii. This enterprise may seem a large one for the United States to undertake, but it is a matter of simple justice to the Islands.

The story from Portland of a swift turbine steamer line to Honolulu may be taken with a big grain of salt. Portland and Seattle have always been great for pipe-dreams in this line, but San Francisco or Honolulu has ever had to deliver the goods.

The Garden Island, Kauai's lively little newspaper, still insists that its county should retain its own income tax. That is all right. Oahu certainly should have no kick.

There is no two ways about the advantages to be gained from a locally owned ocean steamship line. The surprising part of it is that the shipping committee of the Merchants' Association does not organize itself into a special promotion committee.

We do not know who is to blame, but it is almost criminal to make the public pay large sums monthly to foreign companies for freight tariffs when the money might just as well be reserved here in Honolulu.

Nervous Debility

is often one of the most distressing after-effects of the Grip. It may also be caused by overwork, worry, mental strain or excesses of almost any nature.

The best nerve food, and the most valuable tonic (because it both builds up the blood and strengthens the nerves) is Dr. Williams' Pink Pills for Pale People.

Among the well-known men of the newspaper profession is F. J. Lawrence, of 435 Fourth Avenue, Detroit, Mich., who for the past eleven years has been at his desk every day. He says: "At one time I was in such a condition that my physician said I would have nervous prostration if I persisted in doing it."

AS TO HAWAII'S SHERIFF.

Judge Patton's decision that the Sheriff of Hawaii can appoint police officers only with the approval of the supervisors may be right in law but it outlines a situation that bristles with bad points. A county sheriff is elected by the people and by them is held responsible for the proper conduct of his office and department.

Periodically there appears in the papers this, that and the other about what the United States intends to do for Hawaiian forests; but nothing ever comes of it. Experts have followed experts on the scene. Reports have followed reports. But after the expenditure of so much time and money the Islands have not been really benefitted two bits worth.
