JOHN H. BROWN, Agent Board of Health.

Health Department, Honolulu, April 30, 1881.

[Communicated.]

EDITOR SATURDAY PRESS:—In your paper of last week I read that the passage between New York and Queens-town was made by the *Britannic* in the unprecedented time of 6 days and 10 hours! In 1879 I happened to make the passage in the *Ari-sona* in 7 days, 8 hours and 11 minutes, which, at that time, was the quickest time ever made between those ports. The following were each day's run:

July 25, 28 hours.....	365 miles
" 24th, light wind a beam.....	328 "
" 25th, " " ahead.....	190 "
" 26th, " " fair, foggy.....	382 "
" 27th, " " clear.....	358 "
" 28th, " " ".....	364 "
" 29th, up to 10 p. m.....	418 "
	2,755 "

Unless upon good evidence, I must doubt whether this time has been beaten, and would thank you to publish if you have the data, each day's run, as above. Yours, E. O. HALL.

[The notice of the run made by the *White Star Line's Britannic* in 6 days, 10 hours, was quoted from the *Naval Architecture* article of *Iron* of Friday, March 11th, 1881, under the heading, "A Remarkable Passage." The knots run in each day are not given, but it states that the ship in question "sailed from Queens-town on Friday, Feb. 25th, at 4:30 P. M., and arrived at New York on Friday morning, Mar. 4th, at 2:30 A. M., having completed the passage in six days and ten hours." *Iron* is an old established paper and is looked upon as a good authority in all matters concerning "science, metals and manufacture in iron and steel." The notice of the new Cunard steamer *Scythia* which we published last week was from the same paper; if we remember right it was reported that this same *Britannic* made eleven passages across the Atlantic in one year, making an average of more than sixteen knots for the whole year's work.—Ed.]

[Communicated.]

HONOLULU, May 4th, 1881.

EDITOR SATURDAY PRESS:—Will you please publish the following article for the purpose of removing any false impressions that may have been created by an article which appeared in the *Advertiser*, unjustly reflecting on Capt. Whitney, and myself, who was officer of the deck at the time the *Hawaii* was wrecked. The writer conveys the

impression that there was no one on the lookout. In reply I say that one of the best and most reliable men belonging to the ship was on the lookout. He then says that the ship must have been running for some time along the outside edge of soundings before she was taken by the squall. When the ship struck she was heading S. E. Any intelligent persons acquainted with such matters will immediately see by referring to a chart of Tarawa, on a large scale, that she must have entered the white water or edge of soundings at right angles, thereby conclusively proving that she could not have been running along the edge of soundings at all. The distance from where she struck to the edge of soundings was about half a mile. The ship was going six knots; that would give her about five minutes to travel the distance from the time she entered soundings. It is a well known fact to those who are acquainted with those islands, and coral islands in general, that two ship-lengths from the edge of soundings you will find from sixty to a hundred fathoms of water, and the absurdity of throwing the lead in a heavy squall that had been brewing during the whole watch is apparent. If the best admiral in the English navy had had the deck at the time the result would have been the same.

Capt. Whitney is capable and able to speak for himself, but I will say this much; that he is a good ship master, an able navigator and a perfect gentleman, and would grace the quarter deck of any vessel whether government or otherwise.

CHAS. F. RUSSELL,
Late Chief Officer of bark *Hawaii*.

LATEST FOREIGN NEWS.

By the arrival of the barkentine *John A. Falkenburg* on Wednesday evening, bringing San Francisco papers to the 16th instant, we are enabled to give our readers the following late items of foreign news:

PANIS, April 10th.—Advices from Tripoli confirm the reports of the massacre of Colonel Flatters' expedition. Every Frenchman perished after a courageous resistance against overwhelming odds.

PANIS, April 12th.—A dispatch from the Governor of Algeria states that a portion only of Colonel Flatters' expedition were massacred, the remainder being prisoners in the hands of the Kadovis of Ouargla. It is believed that Colonel Flatters himself is a prisoner. The Kadovis intend to demand an exchange of prisoners, they surrendering Colonel Flatters and the other members of the expedition, provided the French surrender some of their women and children whom they hold.

BERLIN, April 12th.—It is reported that Narviksar, the most advanced fort on the road to Merv, has been taken by surprise and captured by the Turcomans, and the entire Russian garrison killed.

CONSTANTINOPLE, April 12th.—Earthquake shocks of considerable violence have been again in Seio. Barely twenty houses remain habitable in the whole island. Villages are destroyed, and the population in many localities have absolutely disappeared.

LONDON, April 13th.—Morning.—The *Times*'s Seio correspondent says: I have now visited or obtained information regarding nearly all the villages in the southern half of the island, and I believe the number of killed for all the villages in question does not much exceed 1000, and perhaps less.

NEW YORK, April 13th.—A special cablegram says that the whole of northern Albania is in insurrection, and that 15,000 men are marching against Dervish Pasha at Scutari.

ST. PETERSBURG, April 14th.—A number of Nihilists to-night attacked the troops guarding the prison in which the condemned Nihilists are detained. Twenty Nihilists were captured, with bombs in their possession.

PANIS, April 15th.—Kotshchild's house here have given notice to the Italian Government of its inability to issue a loan for the resumption of specie payments as long as the difficulties between France and Italy are not entirely smoothed away.

ST. PETERSBURG, April 15th.—All the Nihilists, except the woman Helman, condemned to death for connection with the Czar's assassination, viz., Russakoff, Michaeloff, Kibalschitsch, Jellaboff, and Sophie Piefoffsky, were hanged at 10 o'clock this morning. Michaeloff's rope broke twice. Order was not disturbed. There was an immense concourse of spectators.

LONDON, April 15th.—The doctors and sailors from American ships particularly distinguished themselves in tending the wounded at Seio.

WASHINGTON, April 13th.—The Government responded nobly to the appeal on behalf of the Dakota sufferers with food, medicine, and the means for transporting the sick and helpless.

President Garfield will deliver the address at the Yocktown centennial.

Over 16,000 men are at work on the Sullivan-Palmer Railroad in Mexico and Texas. It is reported that Laredo will be reached in June, and Monterey by December 31st.

The number of immigrants that arrived in the United States during March was 44,121, of whom 19,000 were from Germany and 2000 from Spain. The number arriving during nine months ended March 31st was 321,422. Of these, 102,000 were from Germany, 87,000 from Canada and 33,000 from Ireland.

DENVER, April 13th.—The *News* has an interview with a prominent citizen just returned from the Uncompaghe Agency. He says all the indications point to a Ute outbreak at an early day. The settlers have their cabins loopholed and sleep on their arms, in anticipation of trouble. There are about 70 families in Uncompaghe valley, and only 100 soldiers at the cantonment, while the Utes can muster 700 warriors. The settlers have petitioned the Governor for protection.

YANKTON, April 14th.—The river is stationary. Those drowned out are flocking hither and getting Government rations and aid. Two thousand five hundred need aid here, and 5000 below Vermillion. The flood on the Dakota side covers 227,000 acres, the whole region being thickly settled. Yankton is damaged only on the levee, where there has been a great deal of destruction of steamboats and warehouses. Captains Lavender and Noble have returned from a four days' cruise over the bottoms, having saved 410 people.

OTTAWA, Ont., April 14th.—A terrible disease has broken out among the Chinamen employed on the Canada Pacific Railroad works in British Columbia. The case of a Chinese cook at a place known as Big Tunnel will serve to illustrate the phase of the malady. He sat down, apparently well, to eat his dinner. His feet began to swell, and the swelling extended up his legs and body, reaching a vital part in ten minutes, and he tumbled down dead, in less than fifteen minutes. In this way people are dying in dozens, and already more than one hundred have been carried off.

NEW YORK, April 15th.—Reports of incoming craft show that the storms now prevailing are even worse than those of midwinter, and have been unusual in duration and in rage. Vessels from the South American Coast and the Bermudas have

been caught in gales almost without exception, some being partially wrecked and others suffering terrible hardships. Several vessels are ashore on the Jersey coast.

NEW YORK, April 15th.—The *Tribune* says: The first public exhibition of Edison's electric light in this city was given last evening at the headquarters of the Edison Electric Lighting Company, on Fifth avenue. From the outside the houses appeared to be brilliantly illuminated with gas, the blending rays naturally expected from the electric lamps being wanting. Several rooms on the different floors were supplied with the electric lamps, from which a soft white light was emitted. Edison and several of his assistants were present. When Edison was asked if a single light could be turned off, he went to a single lamp in the hall and turned the light out with a thumb-screw. By a reversing movement he turned it on again. Preparations are making for putting in the company's lamps in that quarter of the city extending from Spruce and Wall streets and included between Nassau street and the East River. It will compete with the gas companies. Wires have already been put into forty houses.

EMIL FRIESE'S HAMBURG TEA.

IT IS IMPOSSIBLE TO SAY TOO MUCH IN praise of this good old standard Family Medicine. It cannot be too highly recommended, as it is truly a *Marvel of the Age*, and no household should be without it. It prevents as well as cures *Skin Diseases, Gout, Rheumatism, Gravel* and all *Kidney Diseases, Affected Liver, Headache, Nausea, Bile, Wind, Indigestion, Constipation, Fever, and Ague, Sleeplessness, Lamentable, Foul Breath*, and every disease brought on or aggravated by a disordered stomach.

It purifies the Blood, Cleanses the Stomach and Bowels, and gives the whole system a Healthy and Delightful Tone. There never was a medicine for the Nursery equal to it, and being composed of Herbs only, it can be given safely to infants. It is a triumph in medicine—harmless, yet efficacious. Invaluable in the family, on the road, at sea, and everywhere.

For sale by all Druggists, and at whole-sale by
