People Who Write

on typewriters marvel that busy business men still cling to the pen process. The business man using a typewriter would not voluntarily return to the old method, because he can turn off more work, of a better quality, and with less effort on his machine.

The Man Who Never Used a Typewriter

believes the task of learning to write a difficult and hopeless one. Try. Others have learned; you can. Your first attempt will probably reveal the fact that you do faster work with the pen. That's quite natural; you are just learning. Your next trial will surprise you. Your fingers go to the right keys instinctively. It becomes easier and you will then begin to realize the usefulness and benefit of a typewriter.

CHOICE OF A TYPEWRITER

will either make or mar your writing happiness. For the business man desiring a machine, that combines speed, durability, does perfect work, and lastly, has the easiest keyboard to learn, buy the

FOR THE LEPER BAND

Great Success of Captain Cochran's Entertainment.

More than six hundred people, it is estimated, were present at the drill shed on Saturday evening, to enjoy the stereopticon exhibition for the benefit of the leper music band of Molokai. Flags were beautifully draped in the interior, the work having been done by men of the U. S. cruiser Philadelphia under the direction of Mr. Hermann, chief signal quartermaster. An overture by the Philadelphia band finely played opened the entertainment.

Captain Cochran, U. S. M. C., precluded his descriptive lecture with very sympathetic remarks regarding the unfortunate denizens of Molokai. He thanked Brother Bertram in advance for providing the pictures he was going to show of the leper settlement. The first view thrown on the screen by Mr. Hedemann, who manipulated the lantern, was a beautiful scene in Japan, which Capt. Cochran said would serve as a drop curtain for the exhibition. Views of Coconut Island, Hilo, Rainbow Falls, Volcano Road, tropical vegetation, etc., were shown, then Honolulu harbor and shipping, preliminary to the trip to Molokai. Arrived at Molokai the lecturer corrected a wrong impression that had gone abroad, that the whole island was occupied by the leper settlement. The settlement occupies a comparatively small, triangular peninsula, on the rear barricaded by lofty precipices, and for the rest bounded by the Pacific Ocean. So well are the unfortunates cared for by the Government that very few attempts at escape were recorded. Fine views of Kalaupapa, the Bi-hop Home, the Catholic churches at Kalaupapa and Kalawao—the latter the late Father Damien's—the Damien monument, the lauhala tree under which the renowned priest used to rest after being stricken with the fell disease, and under which at his request he was buried, and a group of the annual official visitors were displayed. A loan at C. A. Brown's place, Waipio, Ewa, was shown with many familiar faces around the festive board. The night blooming cereus at Oahu College, old volunteer Engine Company No. 1, the Plains squad of the Citizen's Guard and Co. D, N. G. H., were other local sights beautifully presented, as was a hula dance at Kalakaua's coronation.

Taking his auditors abroad Captain Cochran showed them a steamer off the Golden Gate, the Seal Rocks, Cliff House, Mayor Suro and his dogs, Mare Island Navy Yard with the famous old ship Independence and the Charleston in dock, the Yosemite Valley, agricultural and hunting scenes in California, a glacier on the line of the Canadian Pacific Railway, a Mississippi stern wheel steamer, a water melon patch, and a hungry-looking alligator waiting for a lean little ducky. At the last mentioned picture the band played the "Alabama Coon."

The remainder of the exhibition comprised Scottish, Russian and Japanese views. There were marine and lake views of Scotland, also a scene on the Clyde; the Kremlin and the great bell of Moscow, and representations from paintings illustrating the coronation of the late Czar Alexander III. The coloring in church interiors and state apparel of dignitaries in the last-mentioned was superb. An illumination of a lofty church steeple, which was seen by the lecturer, was truly magnificent. An excellent view of the Eiffel tower, Paris, was thrown in for good measure.

Intermissions were agreeably occupied respectively by the Kamehameha Glee Club, which gave a Swiss warble song, and by a mandolin and guitar combination composed of Messrs. U. J. Ordway, Nulton, Afong, Marks, Reynolds, and Dr. Crandall. Both of these parties were loudly encored. It was great to hear the bluejackets cheering pictures of the "new navy," which it should have been said, were given in the course of the evening, including the famous spectacle of the departure of the squadrons of several nations from Hampton Roads, England, for the World's Fair demonstration. The Philadelphia led the United States squadron, in one line, and H. B. M. S. Blake the foreign ships, in the other.

Captain Cochran and his efficient aids are to be congratulated on the results of the entertainment, the proceeds of which amounted to between \$200 and \$300. Whatever the second lecture, next Saturday evening, may realize in excess of what is needed for the leper band's new instruments, will be devoted to some charitable object in which native Hawaiians will be the beneficiaries.

V. V. ASHFORD'S CASE

His Pardon Read but Not Presented—Under Police Surveillance.

Col. V. V. Ashford, whose transfer from Oahu Prison to the Queen's Hospital has been reported, is under police surveillance. A special officer stationed at the foot of the stairs leading to his room—a private one—in a detached building. No visitors are allowed to see the prisoner without an order from the Marshal.

As already reported, the Executive and Advisory Councils unanimously granted a full pardon—from both fine and imprisonment—to Col. Ashford on condition that he leave the country for ever. As the prisoner was in a very weak state from illness, he was removed to the hospital for treatment, and it was given out that he would leave by the steamer Australia, sailing last Saturday. Colonel Ashford, however, had expected that, upon receiving his pardon, he would have liberty to transact private business about town.

Two policemen were placed at Col. Ashford's door when he was first taken to the hospital. His vigorous protest against this was so influentially backed up that the officers were removed, and then only a guard was set at the foot of the stairs as stated.

On Saturday Deputy Marshal Brown waited upon Col. Ashford, and read the Government's pardon to him. He refused to give the prisoner either the original or a copy of the document, saying that it was the property of the Government. The paper purported to be a full pardon on the understanding that Col. Ashford should leave the country, and stated that if he returned after having left the sentence of the court-martial would be carried out both as to fine and imprisonment.

As Col. Ashford has not yet had his pardon placed in his hands, he cannot either accept or reject it. Long before the passing of the pardon, he was anxious to leave the country, under medical advice that his peculiar ailment could only be cured in another climate. He intended if he could get away to go to Aix la-Chapelle, Germany, for treatment.

Before his conviction Col. Ashford was allowed to have his own physicians, Drs. Brodie and Miner, attend him, but after being convicted he was compelled to submit to prison regulations, which do not admit of private medical attendance. The medicines prescribed by his own physicians were taken away, and he had to take the treatment of a physician who was not familiar with his case. From that moment he grew rapidly worse and it was only a question of time, if left in prison, when his end would come.

Colonel Ashford, according to the reports of friends who have visited him, considers it a strange sort of pardon that cannot be delivered into his hands, for either acceptance or rejection, and under which his hospital chamber is made a prison.

Conjugal Infelicity.

A strapping 200-pound wahine and her Chinese husband appeared in the District Court to-day. The wahine charged her Mongolian partner with assault and battery. After hearing the evidence, which was in effect that the husband had hit complainant twice and pulled her hair, the Judge held that a case of assault had been made out, and John was sentenced to pay a fine of \$20. He paid it.

NEWS AND NOTES.

All Sorts of Items From Lands Beyond the Seas.

Berkeley, Cal., is to have a daily paper.

John F. Cook, late British Vice-Consul at St. Louis, died lately at the age of 89. Up to a few weeks previous he never had a day's sickness.

Harbor Commissioner Colton of San Francisco will set experts to work investigating alleged shady work in connection with the new union ferry depot.

The contestants of the will of the late J. Hood Wright, New York, have thrown up the case. There is \$3,000,000 in the estate, and the contestants are scattered over the earth.

Under a compromise with contestants the executors of the Rye estate, San Francisco, have disposed of the property at the corner of Stockton and Market streets, James D. Phelan becoming the owner for \$501,900.

Superintendent Harris, of the California street railroad, San Francisco, and his roadmaster, Alfred Bowers, stopped operations of the workmen on Mayor Sutter's railroad a few days ago by holding pistols under their noses.

So many lawyers attended the hearing of one stage of the Fair will case in San Francisco the other day that there was not room for them all to sit in front of the clerk's desk. Only one or two of them had a chance to open his head and earn a dot.

A dispatch from Progresso, Yucatan, says a fishing boat reports that she met two unknown boats, heavily armed with cannon and apparently well equipped with the munitions of war. The boats made no reply when hailed, and the Mexican fishermen got out of the locality as fast as they could. It was thought the boats had something to do with the Cuban revolution. Cuba has many sympathizers in Mexico with her efforts to throw off the Spanish rule.

Walter Lambert, who was in Honolulu lately under the name of Walter Thomas, has been indicted for embezzlement by the grand jury of San Francisco. He was clerk of the police court, and it is charged that he embezzled court funds. Lambert left here by the S. S. Alameda week before last, thus saving the authorities the trouble of taking proceedings to fetch him back. It will be remembered that Lambert, in an interview in this paper, denied that there was anything wrong with him beyond his assumed name.

At New Laredo, Texas, lately there was a terrific fight between the African lion Parnell and an enormous grizzly bear of the American type. They fought desperately, amidst the wildest excitement of a large crowd, two rounds until completely exhausted. Parnell is owned by E. Daniel Boone, the lion tamer, and is the best that killed its keeper at the Midwinter Fair. The bear is somewhat larger and heavier than the lion, and was secured at New Orleans, where he killed two keepers. The fight took place in a circular steel cage, 20 feet in diameter and 15 feet in height. No more thrilling spectacle was ever witnessed than the spring made by the lion as he bounded into the cage with a magnificent leap and grappled with his antagonist.

LIQUORS FOR HAWAII

Increase of California Wines Consumed in the Islands.

Consul-General Ellis G. Mills at Honolulu has submitted a report to the State Department on the imports of spirits, wine and beer into the Hawaiian Islands. It has been reported that the imports into those islands of California wines had been falling off and their places taken by sake, made in Japan from rice, grain and grapes. Mr. Mills finds this untrue.

The quantity imported has been enormous, over 83,000 gallons being brought in 1892, as against only 3400 gallons in 1893. For the same years, however, the importations of California wines have increased from 103,000 to 125,000 gallons. Beer shows an increase of nearly 14,000 gallons, or about 35 percent, and spirits a general decrease of 5000 gallons.

The Income Tax.

Secretary Gresham has communicated to Minister Willis an answer to Mr. Jones' enquiry regarding the liability of American citizens residing abroad to the income tax. He says: "The case as stated raises no question as between this Government and that of Hawaii, and an opinion of the Secretary of State on the point presented could bind neither Mr. Jones nor the Secretary of the Treasury, who is charged with the execution of the provision in question."

"C. I. Hood & Co., Lowell, Mass.: "I feel it a duty to state what Hood's Sarsaparilla has done for me. I was almost blind, being compelled to stay in a darkened room on account of inflammation of the eyes. I also suffered with running sores on my body. I was in terrible condition. My mother tried every thing she knew about and I was attended by two doctors but without helping me. Finally Hood's Sarsaparilla was recommended and I had not taken two bottles before I began to get better. The inflammation left my eyes and the sores healed, and the result was that

I became stronger, and was restored to perfect health. At that time I was only twelve years old; now I am nineteen and I have not since been troubled

SKIN DISEASE CURED BY Ayer's Sarsaparilla

Mr. Geo. W. Hartner, Keezletown, Va., writes, as follows:

"Shortly after leaving college, I was troubled with a skin disease which showed itself first at the ankles. Physicians pronounced it eczema, and treated me for that complaint. The eruption crept slowly up my limbs, and on the body, until it enveloped the whole frame. It gave me infinite trouble with constant itching, casting off of dry scales, and a watery liquid which would

exude from under the scales. I treated it for over three years unsuccessfully, and was unable to check it, until I began using Ayer's Sarsaparilla. I used three bottles of this medicine and was completely cured—my skin becoming as smooth and clear as before."

CHARGED WITH SLANDER.

Claus Spreckels Sued by His Son, C. A. Spreckels, for Damages

Suit was commenced yesterday by C. A. Spreckels against Claus Spreckels for slander, says the San Francisco Call of April 5. The plaintiff, as vice president and general manager of the Sugar Refining Company, sues his father as the largest stockholder in the concern. The cause of action is an alleged statement made on March 23 by Claus Spreckels in presence of one Johnson, the statement purporting to reflect upon the plaintiff. This alleged statement was divided into four causes of action, the words complained of being:

"I gave that boy \$25,000 a year in Philadelphia and then he drew out \$250,000 of my money. I will tell the whole story one of these days, then the public will see these sons in their true light."

Referring to the son's suit against the Oceanic Steamship Company, the father is charged with saying:

"This is a piece of blackmailing, that is what it is. He and his younger brother are trying to beat me out of \$2,000,000."

Another "cause of action" was the reported statement by the defendant that the plaintiff would soon be bankrupt, and another that he had "wasted money." The estimated damage on the various causes of action aggregates over \$2,000,000, but the suit is only for \$300 and costs.

The case of Rudolph Spreckels against the Nevada Bank is being heard in San Francisco. It came up on the 5th inst. on a motion to dissolve a preliminary injunction issued at the instance of Rudolph Spreckels against the Nevada Bank to restrain it from transferring certain stock to a company in Hawaii. The bank desired to transfer the stock from Rudolph's name to the Hawaiian company in order to protect it as collateral, fearing that Rudolph's implication in the recent troubles in Hawaii might endanger the securities.

Attorney Delmas for the defendant opened with a review of the circumstances leading up to the suit. He said that about a year ago certain transactions between Claus Spreckels and C. A. Spreckels had led to the transfer of certain property from father to son, and in security of repayment C. A. Spreckels had pledged certain stock to his father. Rudolph Spreckels, as part surety for his brother, had pledged to his father 5000 shares in Paauhau Plantation Company in Hawaii. This transaction was consummated last year, being evidenced in a formal written agreement or contract. Among the securities for the repayment were the 5000 shares of Rudolph, now worth \$500,000, which were transferred to the Nevada Bank. Subsequently, about the first of the year, C. A. Spreckels paid the first installment of his debt and was given back half his security, including 2500 shares of the Paauhau Plantation stock. Later the bank heard that Rudolph Spreckels had become implicated in the Hawaiian revolution, and to protect itself proposed to send the remaining 2500 Paauhau shares to the Hawaiian Islands to transfer them to the company there and thus complete the pledge. Now Rudolf claimed he stood in danger of irreparable injury by the transfer.

Mr. Delmas referred to the allegation of Rudolph Spreckels that a parole agreement had been made qualifying the written agreement as improbable. He said it was vouched for by the plaintiff alone, while it was denied by Claus Spreckels, J. D. Spreckels (attorney-in-fact for his father) and by the Nevada Bank. It was contrary to law and common sense that men dealing in hundreds of thousands of dollars should reduce an understanding to a solemn written agreement and then qualify or annihilate it by an oral agreement.

Attorney Cole, for Rudolf Spreckels, then gave his version of the affair. He said that on January 4, 1894, Claus Spreckels had made over property of great value to his son, C. A. Spreckels, to be paid for in two years. Rudolf Spreckels possessed 5000 shares of Paauhau stock, which stood in the name of Claus Spreckels in the books of the company. Rudolf claimed that he had put up this stock as security for his brother on condition that his father transfer the shares to him and they be retransferred to his father in blank on the understanding that they should not be transferred out of Rudolf's name until after the maturity of the debt of C. A. Spreckels. This agreement was collateral to the written contract. The security was assigned to the Nevada Bank in December, 1894. Of the debt \$351,750 had been paid and as much remained due in 1896, being fully secured. But in the meantime the bank threatened to send this stock, part of the security, to Hawaii for the purpose, Mr. Cole said, of preventing Rudolf from voting

the same and put him to expense. This proposed move would also deprive him of the right to redeem his indebtedness at any time as the contract allowed.

Delmas denied that there was any intention to prevent Rudolf from voting the stock, and said a proxy was at his service if he desired it.

Then testimony was called as to the alleged parole agreement. Charles S. Wheeler, one of the attorneys for C. A. Spreckels, and W. S. Goodfellow, attorney for the bank, thought that such an agreement might have been understood after the execution of the contract. But John F. Bigelow, vice president, and I. W. Hillman, president, of the Nevada Bank, John D. Spreckels, A. B. Spreckels and Samuel M. Shortridge, all of whom were called, were equally positive that no such agreement had been made, or that if it had been made, it was with the express qualification that it was dependent on expediency. "There should be no further transfers unless it should prove necessary," was the understanding.

Then attorney Cole argued on the law of the subject, and the case went over until next morning.

MONDAY, APRIL 15, 1895.

Spain has now got into trouble with Great Britain as well as the United States. A Spanish gunboat fired on and stopped the British steamer Ethelred bound from Boston to Jamaica.

Mr. Damon is to be congratulated on his accession to the head of the famous old banking house of Bishop & Co. In his hands the bank will have a renewal of the confidence of the business community.

Chinese have been always leniently dealt with here in the matter of their national customs. They have been permitted to keep up a din and flare of fireworks a whole week at Chinese New Year's, by a suspension in their favor of the law in such cases made and provided, and in other matters have been treated with a consideration in striking contrast with the treatment accorded to aliens in China. But when it comes to the barbarous practice of binding girl's feet up to prevent their natural growth, it is about time to call a halt upon our proverbial complacency.

A London dispatch of April 4 says:

Sir Thomas Esmonde, anti-Parnellite M. P. for the west division of Kerry, will ask the Government Monday whether Liliuokalani, the deposed Queen of Hawaii, is a prisoner in the barracks at Honolulu, and if so, whether the Government will not request the Hawaiian authorities to let her reside in the Palace, under a guard.

Sir Thomas and John Dillon, M. P., his fellow-patriot, were here about five years ago and were presented to King Kalakaua. Probably the answer Sir Thomas has got to his question will have satisfied him that his kindly desire had been fulfilled from the first.

There may be something valuable for owners of arid lands in Hawaii in the information given to a Bakersfield, Cal., paper by the superintendent of a "Culture" station in that locality. It is that the cultivation of such plants as thrive on alkali lands is the best plan for the reclamation of such lands. Among the most profitable kinds of crops for such lands he recommends are artichokes. They should be planted and cultivated the same as the potato, in hills four feet apart. It is well known among farmers generally that no feed fattens swine more economically than the artichoke. The Country Gentleman says that the yield ranges from 800 to 1000 bushels an acre. After the frost—which fortunately we have not got here—has killed the stalks the hogs are turned into a field where enough has been fenced off to fatten them, and allowed to do their own harvesting. There are always enough tubers left in the ground to seed it for the new crop.

Mechanics' Home, corner Hotel and Nuuanu streets, lodging by day, week or month. Terms: 25 and 50 cents per night; \$1 and \$1.25 per week.

Timely Topics

April 13, 1895.

The same old cry of "No Water" is again heard in tone of voice as loud and as fierce as ever. But with the new pumping station almost completed the complaints against the Water Works Department will soon be a thing in forgotten history. It looks just now as though the government is doing everything in its power to alleviate the misery and reduce the annoyance which naturally ensues through lack of sufficient water with which to make a cocktail.

Here are some figures over which you may ponder if you are interested in wire fences: The European wire which we carry in stock has been tested at the Iron Works and shows a tensile strength of 2760 pounds. The galvanizing passed through all the tests it is possible to put it and shows that it is as near perfect as it is possible to make it. The American wire we received a week or more ago, (and it is the best to be obtained in the States), was tested at the Iron Works and shows a tensile strength of about 700 pounds. These figures show which is the best wire, and which you should use in building the Jones Locked Fence—the best fence in the world.

The growing desire on the part of the people to save money accounts in a measure for the demand that has been made upon us for the Dietz Oil Stove. The people who have been using them here during the past six months are so well pleased with them that they recommend them to their friends. The fact that they cannot explode is a point in their favor; economy of fuel is another, and the wish of people to have a stove they can cook with and not get "all bet up" is another. Every one who uses a Dietz Stove will tell you that it is the best they ever had.

The time is here and house owners should begin painting up their dwellings. In the selection of material the fact that Hendry's Ready Mixed is better than any other should be considered. This mixture is made of pure white lead and oxide of zinc and the best quality of colors obtainable. The paints are made especially for us and are guaranteed to be first-class in every respect. They are good spreaders and retain their glossy appearance longer than any mixed paint sold elsewhere or even that which is mixed to order. We have them in quarts, half gallon and gallon containers and in all the shades desirable for either inside or outside work.

In localities where water is necessary for either irrigation or household purposes and where nature has left an aching void by its absence, or at least where the fluid is so far below the surface as to be invisible, we would suggest the digging of surface or artesian wells and to the owners or lessees of the land that they erect Aermotors. If we could write up the profits which have accrued among people on these Islands who use Aermotors it would surprise some folks who don't use them.

SEQUAH

WHEREAS, MR. L. BEICKE of 54 Mercant Street, and well-known in Honolulu, did complain, before a large audience on Monday night last in the old Armory, on the corner of Boretania and Punchbowl Streets, that Rheumatism had been torturing him for the past 30 years, Mr. Beicke stated that he had tried everything he knew of to obtain relief but all ended in failure, SEQUAH upon being applied to, immediately suggested that the Rheumatism had been in possession quite long enough, and proceeded to give it notice to quit by applying the SEQUAH OIL to the parts afflicted and in the presence of a number of gentlemen from the audience relieved the sufferer from his torture; and,

WHEREAS, the said Mr. Beicke, previous to the treatment, could not walk without the aid of a stout stick, is now to be seen about town as lively as a kitten, feeling as pleased as a dog with two tails. Others besides the above have received the same wonderful relief—and SEQUAH'S fame is spreading far and near.

Cripples with Rheumatism are now pouring into the old Armory every evening, where SEQUAH lectures at 7:30. All invited. Seats provided. National Band in attendance. Admission free.

SEQUAH attends at the old Armory each day at 3 o'clock for sale of his Remedies and to receive persons who wish to undergo his treatment.

Most women feel the need of something that will tone up the system and put new life into a tired body—stop that constant headache and feeling of nervousness. In almost every case the doctor will prescribe iron in some form, but iron is hard to take, discolors the teeth (no woman likes that) and induces constipation and other ill-effects. However, there is one iron medicine—only one—known as

Brown's Iron Bitters

which is easy to take, palatable and pleasant. It is harmless and the most reliable iron medicine known. A bottle of this famous remedy will work wonders. It will fill out those thin cheeks, put energy into you, give you a new lease of life and won't stain the teeth. Thousands of testimonials prove these statements. The dose is small and the benefit great. Its good for all the family. Try it.

HOME RAISED OYSTERS.

John F. Colburn Solves the Problem and Starts a New Industry.

In October, 1893, one of a party of guests of John F. Colburn, at his Pearl Harbor residence, expressed the opinion that the water of his spacious fish pond there was just about what would be agreeable to oysters. Mr. Colburn was very prompt in considering the suggestion, for in the following month an order for oysters to plant in his pond went forward to San Francisco through the Oceanic Steamship Company. The first lot consisted of 1500 California grown oysters. It appears that none of this lot lived. Later, through the agency of M. B. Moraghan, the "oyster king of California," Mr. Colburn procured 800 transplanted Eastern oysters. These proved to take more kindly to the pearly waters, for at least 400 of them have lived and thrived. They have in many cases also yielded spawn, of which there is ocular evidence in the beds. The old oysters have grown and fattened in a way to gratify the enterprising culturist, so that some of them may now be pronounced giants. A BULLETIN representative, who was treated to one of them, can testify that the flavor is equal to that of the best Eastern oysters when taken fresh from the water. It is well known that long contact with ice robs both fish and flesh of a great part of its natural flavor. The younger oysters in Mr. Colburn's preserves, say of a year's growth since coming from San Francisco, are also of a remarkably toothsome flavor.

For some time past Mr. Colburn has been adding to the dumb denizens of his pond by every trip of the steamer Australia, until now he has about 20,000 oysters planted. He has discovered that the limu moss that abounds in our shoal and brackish water is a food that the oysters feed on with avidity. At low water they can be seen with open mouths absorbing the nourishment from this delicate marine growth. If you pick one up it immediately closes its trap. Mr. Colburn has been constantly studying the habits of the bivalve since he has gone into its culture, so that the proportion of losses in those imported will doubtlessly show a steady diminution. There is also every reason to expect that in time the spaw from the colony will largely if not altogether obviate the necessity of importing oysters for either fattening or breeding.

Mr. Colburn's enterprise has progressed so far that he intends to begin supplying the local market next month. While he will have some growing and fattening all the while, the oysters as he receives them from the Coast are of good marketable size. Mr. Colburn has already by special favor supplied his Pearl City friends with oysters for particular occasions, and the recipients have unqualifiedly pronounced the quality to be equal to the very best that can be obtained at the most favored home of the oyster abroad. When he is ready to send the oysters to market he will have an agency in town to receive and fill orders, of which due notice will be given.

For the success that now seems to be assured in this undertaking, Mr. Colburn gives a goodly share of credit to the care with which his orders have been attended to by Mr. Moraghan, previously referred to, as well as the technical advice given to him by that gentleman. In an illustrated account of Mr. Moraghan and his oyster fishery and dining-place, the San Francisco Wasp has the following: "The oyster beds do not grow of their own volition. They are as carefully cultivated as so many wheat fields, orchards or vineyards. Mr. Moraghan delights in extending open-handed hospitality to his hosts of friends, and when the merry summer breezes blow auspiciously, schooner loads of excursionists are wafted by invitation and free of expense to his regal possessions up the bay, where they feast like lords on the choicest selections from the oyster preserves."

This characteristic of "the oyster king of California," that of being given to hospitality, belongs also to the man who has earned the title of the "oyster pioneer of Hawaii." Mr. Colburn, in his semi annual sojourns at his Pearl City residence, is most profuse in hospitality to his friends. From his hunting and fishing preserves, to which now are added oyster beds, he spreads a board that would make a gourmand cross the ocean to enjoy its delicacies, not least of which are chowders of the luscious clams indigenous to Pearl Harbor.

Lastly, as newspaper readers will recall, some thousands of oysters were planted under the auspices of the Government in Pearl harbor. They were thrown into comparatively deep water, without regard to the nature of the bottom, and if they thrive without any more attention, then those waters will certainly be entitled to be declared a natural

home of the oyster, as the ancient deposits of shells on the bank would seem to indicate as once having been the case. Mr. Colburn has millions of mullet in his fish ponds, but, a large proportion of the stock being young, he is not fishing for market at present. He is also cultivating carp with expectations of good returns in the future. The ponds are most carefully attended to, the walls being kept in thorough repair and new ones built as required, and the growth of grass and weeds rigorously repressed.

DEMENTED OLD NATIVE.

He Annoys an Adopted Daughter and is Arrested.

An elderly native named Alale paraded the streets this morning dressed in a long black coat, high beaver hat and white trousers. He was decorated with leis about a week old. The man apparently was not in his right mind and children steered clear of him. Alale entered a native woman's house uptown and accused her of trying to pray him to death. His attitude was so threatening that a mounted patrolman was called and Alale was handed over. The woman is an adopted child of the old man.

This is not the first time Alale has been imprisoned for using threatening language. Some time ago he chased children about the streets with a cane. Dr. Cooper made an examination of his condition this afternoon and it is likely he will be committed to the Insane Asylum for safe keeping.

The dredger began work deepening the harbor near the Oceanic wharf this morning.

An Ex-Soldier Detained from Going by the Australia.

A man named Puthoff, who at one time belonged to the National Guards, was to have left on the S. S. Australia on Saturday afternoon for San Francisco, but at the last moment changed his mind. About one o'clock that afternoon Puthoff took his baggage to the wharf. Half an hour later he was placed under arrest for investigation by Officer Kaapa. Man and baggage were brought to the Police Station. Puthoff was under suspicion of being the man who entered the house of E. L. Moore at Kakako and robbed it of \$325 the other night.

After Puthoff had been placed below, Mrs. Moore was sent for to identify him. She said that the build and size of the prisoner was the same as that of the man who was in her house that night, but she could not identify the features, as the man wore a mask. Puthoff's baggage was opened and only two dollars were found therein. He was promptly released. The baggage was returned to the wharf, but it appears that Puthoff had a misunderstanding with a friend and he did not go on the Australia.

HOLOMUA OFFICE SEIZED.

Aburd Report of Arms—Attached Under Mortgage.

Police Officer McGurn went to the Holomua office on Saturday afternoon for the purpose of taking an inventory of the stock. As the door could not be opened the assistance of Muller the locksmith was called in. Before forcing the door open the officer blew his whistle and two officers responded. As only one officer was wanted the other was sent away. The whistle attracted a number of natives and it was not long after an entrance was effected, when a report was started that three hundred rifles had been located in the upstairs portion of the office. There was no truth in the report. The office was guarded by an officer on Sunday, who said it was seized under Mr. Wisemann's mortgage.

Common Sense

Should be used in attempting to cure that very disagreeable disease, catarrh. As catarrh originates in impurities in the blood, local applications can do no permanent good. The common sense method of treatment is to purify the blood, and for this purpose there is no preparation superior to Hood's Sarsaparilla.

Hood's Pills cure constipation by restoring peristaltic action of the alimentary canal.

Baseball Match.

The baseball game between the Philadelphia and Unknown club on Saturday afternoon was witnessed by a fairly large crowd. There were only seven innings played, at the termination of which the game stood 6 to 3 in favor of the Unknowns. "Dat dar" pitcher Woods of the Unknowns pitched practice ball. The Philadelphia boys have materially improved and if they keep at steady practice will be able to put up good ball.

Bilious Colic.

Persons who are subject to attacks of bilious colic will be pleased to know that prompt relief may be had by taking Chamberlain's Colic, Cholera and Diarrhoea Remedy. It acts quickly and can always be depended upon. In many cases the attack may be prevented by taking this remedy as soon as the first indication of the disease appears. 25 and 50 cent bottles, for sale by all dealers. Benson, Smith & Co., agents for the Hawaiian Islands.

Now that the war of the revolution is over, it is the duty of every man to support the existing form of government. Although things may not move with that cordiality that would ensure an everlasting peace, still they may be allowed to subside into that indifference without animosity that would allow either party to work out their best interests. All things considered it may be for the best, but time, the only arbitrator in such cases, must alone decide that James T. Stewart is a Plumber and will do your work in good shape and at figures that will give you satisfaction.

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

Mr. John A. Scott, Manager of the Hilo Sugar Company, gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop just harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 125 hours grinding with an output of 3000 tons. This is fully 10 percent more than the best work of former years.

"The three roller mill being 26 in. by 54 in. and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company.

"And by its use the extraction has been increased from 3 percent to 5 percent on all kinds of cane, and in some cases 80 percent has been reached; the average being 75 to 78 percent, according to quality.

"I continue to find the megass from shredded cane better fuel than from whole cane.

"The shredder has been working day and night for seven months and has given me entire satisfaction, having shredded during that time about seventy thousand tons of cane, and a large part of it being hard ratoons.

"The shredder and engine require very little care or attention."

Plans and specifications of these Shredders may be seen at the office of

United States Elections.

The triumphant election of the Governor of Rhode Island by the Republicans has been already recorded in this paper. Chicago's municipal election resulted in an overwhelming Republican victory. George B. Swift, Republican, who was defeated by Mayor Hopkins in 1893 by 1280 votes, was elected Mayor by 28 520 majority and carried with him the entire Republican ticket. The Republican tickets in the west, north and south towns were also carried by good majorities. In the Chicago City Council thirty-two of thirty-four Republican candidates are elected. The City Treasurer, attorney and clerk were also elected by the Republicans. Reform seems to have been the spirit of the election, and the election was the most orderly ever held in the city.

In Arkansas there was practically no contest, the Democrats having a walk-over. Important Republican gains are noted in many parts of Colorado. The Populists claim to have carried Leadville by moderate majorities. In Denver the Republican Mayor is elected. At Pueblo the Citizens People's candidate for Mayor succeeded.

The Republicans were successful in most Kansas towns. Prohibition candidates are believed to have carried Sterling, Blue Rapids, Abilene, Independence and Hutchinson.

Previous reports of Republican successes in Michigan are confirmed.

Republican victories have been won throughout the State of Missouri. In St. Louis the average majority is placed at 13,000. Outside of St. Louis, however, the Democrats have about held their own in town elections. St. Joseph was carried strongly by the Republicans.

The Republicans won in Nebraska wherever party lines were drawn.

A lively campaign in Oklahoma ended in a Republican triumph. At El Reno, Hensley, the Citizen's candidate and president of the Press Association, invaded the Democrat office with a gun and bodyguard to whip Hensley for traducing his family, but Hensley got the drop on him and Perry backed out.

Most of the charter elections in Texas were of a non-partisan character.

The Republicans were successful in a majority of the cities of Wisconsin.

W. H. Carlson was re-elected at San Diego, Cal., in opposition to an American Protective Association candidate for Mayor.

Out of eight Councilmen elected at Tacoma, Wash., only one was a Democrat.

Woman's Temperance Union.

The California Woman's Christian Temperance Union has elected the following delegates to represent California in the World's Convention of the Woman's Christian Temperance Union, to meet in London, England, in June next: Mrs. B. Sturtevant-Peel, San Jose; Mrs. E. C. Langenour, Woodland; Mrs. Anna K. Bidwell, Chico; Mrs. Dorcas J. Spencer, San Francisco. Alternates: Mrs. Rose M. French, San Francisco; Mrs. S. J. Churchhill, San Jose, and Mrs. Grace M. Kimball, Oakland.—*San Francisco Chronicle.*

Mrs. Spencer is the mother of C. K. Spencer, foreman of the BULLETIN office.

The Chronicle on Samoa.

W. L. Chambers, United States Land Commissioner to Samoa, has filed his report, and its contents have been made public. There is not much in it, except that it shows plainly that this country was deceived by the Berlin treaty, and that Germany and Great Britain got all the cream of Samoa and left us the skim-milk. It would have been better if we had let Samoa alone altogether and permitted Germany and England to fight over it if they wanted it.—*San Francisco Chronicle.*

G. R. Harrison, practical piano and organ maker and tuner, can furnish best factory references. Orders left at Hawaiian News Co. will receive prompt attention. All work guaranteed to be the same as done in factory.

FITS CURED

(From U. S. Journal of Medicine.) Prof. W. H. Pecke, who makes a specialty of Epilepsy, has without doubt treated and cured more cases than any living Physician; his success is astonishing. We have heard of cases of 20 years' standing cured by him. He publishes valuable work on the disease which he sends with a large bottle of his absolute cure, free to any sufferer who may send their P. O. and Express address. We advise anyone wishing a cure to address, Prof. W. H. PECKE, P. D., 4 Cedar St., New York.

Pure Milk.

The business of the country is settling into its former groove. Our gentlemanly driver has returned from his vacation, the cows in the pasture switch flies instead of bullets with their tails and the cream is richer in consequence. We believe we have satisfied every one of our customers who have taken milk from us and we are in a position to supply a great many more. The people who from choice or necessity visited Waialae during the past two weeks have had an opportunity to see just what sort of diet our stock feeds upon, and no longer wonder at the richness of the milk from our dairy.

Our facilities for delivery are the best. With the exception of a day or two early in the late unpleasantness our drivers have always been on time at our customers' residences. We take this opportunity to thank those who have been patient with us and to solicit a continuance of their patronage. We will be pleased to fill all orders telephoned to us and guarantee all milk to be pure and free from adulteration.

INDURINE

A COLD WATER PAINT

A SUBSTITUTE FOR OIL PAINT AND WHITEWASH.

AN EXCELLENT FIRE RETARDANT AND DISINFECTANT.

Especially Designed For INSIDE Work on Factories and Public Buildings

It is a dry powder which can be prepared for use by simply stirring in COLD WATER and can be applied by anyone and will always produce good work.

It is VERY WHITE, extremely reflective and hardens on a wall like stone and will take any tint.

It will last for years, and is unaffected by gases.

One coat covers better than two coats of oil paint or whitewash.

It can be used on any surface and for all classes of work, even for the finest decorating.

It will not rub, scale or crack, nor will it soften with age or discolor.

It can be used to good advantage over old whitewash without scraping.

It is supplied in barrels from 300 to 400 lbs., also in boxes of 100, 50 and 25 pounds.

Outside Indurine!

This is for OUTSIDE Work

Such as Fences, Outbuildings and Laborer's Quarters. It is a thick paste to be diluted with cold water; stands rain and exposure as well as oil paint, and costs but a fraction as much.

It is supplied in colors.
