Ads. and Courage Quickly Build Up Trade

Some men are satisfied to get a living out of their business. Others advertise and not merely make a living, but create a good-will value which can be sold on the open market for a fortune.

SICILIANS FLEE FROM ETNA SMOKE AND FLAMES FAMOUS VOLCANO IS IN ERUPTION

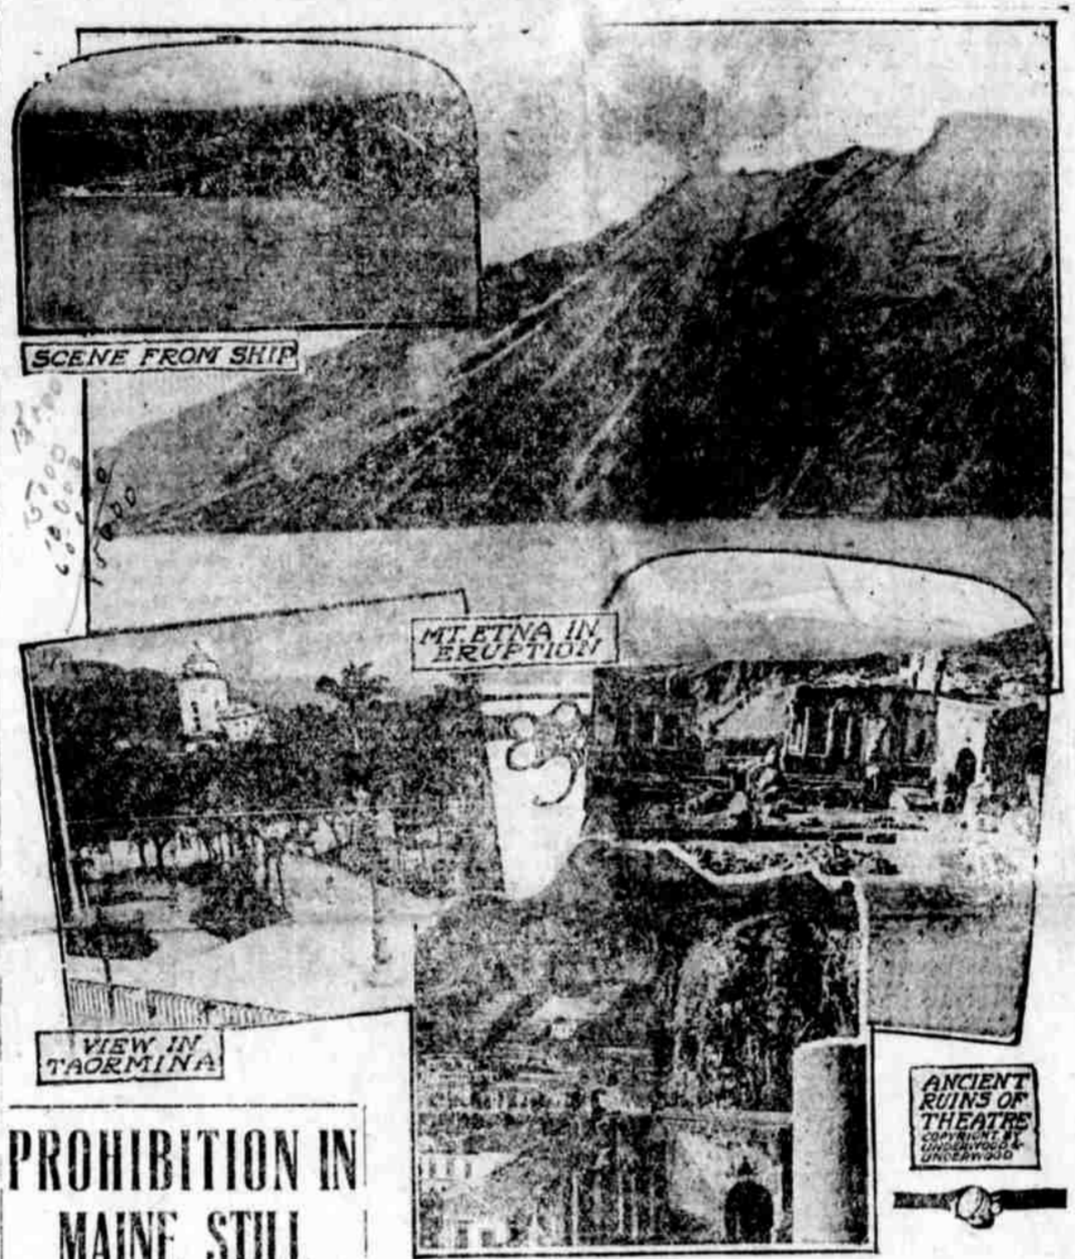

VOLCANO MAKES READY TO TAKE TOLL OF DEATH

CATANIA, Sicily, Sept. 12.—The activity of Mount Etna is increasing and the whole countryside is terror-stricken. The earthquake shocks come in rapid succession, while showers of ashes thrown up from the craters are falling. Lava flows are threatening the village of Linguaglossa.

HISTORY OF FAMOUS VOLCANO ONE OF DEATH

Mount Etna is the largest active cinal crater, and frequently lava has been issued out of the sides of the mountain, thus forming small cones and craters, about 299 of which are now distinctly marked. From the summit may be seen the whole of the island of Sicily, the Lipari Islands, Malta and from the waters on the east Etna rises some like to a height of about 10,875 feet; but on the south and west it seems formed of superimposed mountains, the terminal being surrounded by a number of cones, all of volcanic origin, about 100 of which are of considerable size. The circumference at the base is about 100 miles. In 1669 the lava spread over the country for forty days, and 10,000 persons perished. In 1693 there was an earthquake during the eruption, when over 60,000 lives were lost. One eruption was in 1755, the year of the Lisbon earthquake. Among more recent eruptions are those of 1852, 1865, 1874, 1879, 1886, 1892. An eruption is ordinarily preceded by preliminary symptoms of longer or shorter duration. In 1909 there was a slight eruption, and since then, up until a few hours ago, the "terrible mountain" had lain quiet.

Lease On P. M. Line Kapaa O. K. May Go To Morgan

Senator Fairchild gets his 750 acres of some land at Kapaa, the land he had given his approval to the lease this morning. As for the raton crop, he will have to take his chance about that, there being no special provision in the lease and it resting entirely on the shoulders of the board as to whether or not he gets any extension of lease. During the meeting, which was a short one, it was made clear by Commissioner Kinney that no excuse would be accepted from Mr. Fairchild for not carrying out the terms of the lease, as he had placed the matter entirely in the board's hands. "We will not take any excuse," said Mr. Kinney this morning, "that the plowing can not be done in the fall. He will have to stand by the terms of the agreement and fall in with the lease throughout." There was no discussion over the matter after the meeting had been called to order, and it took only a few minutes for the matter to be put through.

FIRST BIDS FOR SEWER SUPPLIES

Bids have been received and opened for the supplying of pipe and other material for the construction of the sewers under the new scheme. Superintendent of Public Works Marston Campbell hopes that he will be able to announce the results this afternoon. The figures put in by the various firms are as follows: Lewers & Cooke—For eight-inch vitrified sewer pipe, delivered on the job within a mile of the Postoffice, 25 1/4¢ per lineal foot, up to two miles, 29 3/4¢; to three miles, 29 1/2¢, and to three and a half miles, 29 1/4¢. For six-inch pipe of the same kind, delivered to one mile, 26¢; two miles, 29 1/4¢; three miles, 29 1/2¢, and three and a half miles, 29 3/4¢. For eight-inch specials Ys and Ts, within one mile, 85¢ Ys, 11.75¢ each; 88¢ Ts, 11.25¢ each; for two miles, 11.25¢ and for three and a half miles, 11.25¢. For six-inch specials, delivery one mile, 85¢ Ys, 75¢; 88¢ Ts, 75¢, and for six-inch bends, 62¢; two miles, 71¢, 71¢, 62¢; two and a half miles, 79¢, 79¢, 64¢; three miles, 79¢, 79¢, 64¢; and a half mile, 89¢, 89¢, 65¢. On lava brick they quote \$12 a thousand up to a mile and \$14 a thousand over that haulage. They will bid orders within thirty days.

Unknown Buyer Gets Stock

For some time speculation has been rife as to the identity of the unknown buyer of Pacific Mail stock. During the last few months this unknown has picked up about 30,000 shares. It is now stated that the shares were bought for the account of the Morgan syndicate, which is negotiating with Judge Lovett for the block of stock that represents the Southern Pacific control of the steamship company. The 30,000 shares were bought at an average of about \$27.50. The S. P. paid in the neighborhood of \$5 for its Pacific Mail stock. The Pacific Mail is not in flourishing condition for the reason that its ships, particularly on the Panama run, have been operated more in the interest of the transcontinental railroads controlled by the Harriman interests than for the benefit of the minority stockholders.

Greyhounds for Pacific

Judge Lovett has made no secret of his desire to get out of the steamship business, and the only hitch in the proposed transfer is the matter of price. Negotiations are now in progress and the sale is said to be practically assured. The Southern Pacific will continue to operate its own ships between New York and New Orleans. The International Mercantile Marine, which is the most powerful factor in the transatlantic trade, is already planning, it is said, to place on the Pacific Ocean greyhounds of the same class that the Morgan syndicate operates on the Atlantic. Among the plans for the improvement of the present fleet of the Pacific Mail company is the conversion of all the ships into oil burners.

Steamship De Luxe

A contract is said to have been let for the construction of at least one big steamer for the trans-pacific passenger trade. This ship will burn oil and will have accommodations for 500 first-class passengers. One hundred of the staterooms will each have a bathroom attached, and the appointments throughout the ship will be of the de luxe order.

SHE PAID FOR HER 1,000 SINS

"I admitted to these people that I committed 1000 sins. And in order to have my sins forgiven, I paid them fifty dollars." Such was the statement which Mrs. Sam Hook made this morning in police court, while she was testifying on the stand. It was during the trial of Rebecca Hill and D. M. Kauihi that the witness made the above remark. The two defendants, it is charged, represented themselves to a large number of Hawaiians as leaders of a religious fraternity which can forgive the sins of those who become members of the organization. The name of the organization is not known to the members, and perhaps not known even to the leaders themselves. But they declare that they can forgive the sins of the sinful and can make them better men and women. Those who flocked into this new religious fraternity soon found themselves taxed for everything on which they sought advice. In this way the leaders, it is said, made a considerable fortune. But when Mrs. Sam Hook, an intelligent Hawaiian woman, was caught in a trap, after paying out \$50 for the forgiveness of her sins, she became angry and swore out a warrant for their arrest on a charge of gross cheat. However, after the court had heard the testimony in the case, the defendants were discharged. The evidence to prove gross cheat was not held strong enough.

DR. CLARK FIGURES 250,000 PEOPLE FOR HAWAII IN 1920

Figures prepared by Dr. Victor S. Clark of the Board of Immigration in Japan are likely to be a maximum for the Japanese population of Hawaii in 1920, and as the total population of the Territory may possibly approach 250,000 by that date, the proportion of Japanese in the whole number of inhabitants is not likely to increase.

JAPANESE BANKER SAYS "OPEN DOOR" IS WIDER THAN EVER NOW

The commerce of the United States is still welcomed by Japan; in fact, the "open door" is more widely open than ever, according to S. Masuda, a prominent Japanese banker who is in Honolulu today, going home on the Tenyo Maru. Mr. Masuda's home is in Osaka, though his financial dealings are extensive throughout the empire. He is accompanied by George F. Whitmet, a former San Francisco newspaper man and now a business associate of the banker. "That the opening of the Panama Canal will revolutionize business conditions in Japan is the opinion of the men of affairs of my country," said Masuda, "and we are so confident of the volume of business increasing as soon as the waterway is completed that we already have started to broaden our railroads and improve them to handle the business. "Rumors of war between my country and this are unwarranted; we want commerce with the United States, not bloodshed. Not only Japan, but China and Siberia offer many sources of trade for both this country and Japan."

CARGO MISSES RECORD PRICE

Some eight thousand five hundred tons of Hawaiian sugar missed by a few hours getting into the Eastern market under the present record-breaking price of 5.75 cents. Even as it was, the sugar got in at 5.61, and there are no klicks coming.

The sugar was part of the Virginian's cargo, the first half of it, and was a few hours too early for the highwater price. So far no sugar in any quantity has reached market at the record figure.

Four thousand tons reached San Francisco at 5.24¢ and one thousand tons reached New York at the same figure, according to the data of the Sugar Factors' Association.

SCHOOLS ABLE TO TAKE ALL

If Superintendent of Education William T. Pope can work out his plans as he expects, there will be accommodation for all the children who wish to go to the various schools this term. Last year there were about a thousand who could not attend, but matters have been so fixed now that this will not be the case. Most of the work is being carried out by teachers, where such a source is possible, doubling up on the work. One may take one lot of children in the morning and another during the afternoon. There are some more teachers yet to be obtained, but when this has been done all the schools will be in full working order. Referring to the case of the reported lack of school accommodation at Watertown, Mr. Pope said that he was going to look into the matter and expected to get down there either this afternoon or tomorrow. He had a letter from that district, but nothing was said of any shortage.

HUNDREDS ON TRANSPORT

The United States army transport Logan from San Francisco was passed by the Japanese liner Tenyo Maru on Monday, and according to wireless information, the transport should arrive off the port this afternoon. The Logan is en route to Manila by the way of Guam. The local quartermaster department received advice today that the transport took out a full list of cabin passengers, the Third Battalion of the Second Infantry, 600 recruits, 75 marines, 75 bluejackets and a number of casuals. The Logan is in command of C. F. Williams, formerly of the Buford, and most of the latter's crew were on the Logan. Chief Steward Hannigan was the only officer staying in his old berth. Captain William Stinson, senior commander in the transport service, and most of the Logan's former crew have been transferred to the Thomas, which will soon be in commission again after undergoing extensive repairs. Captain Stinson had the Logan for thirteen years.

Shipping ROUND-THE-WORLD TRIPPERS THROUGH TENYO MARU'S DECKS At Least One Hundred Globe Trotters Are Numbered Among Visitors to Honolulu Today—Makura to Remain Here Until a Late Hour—Inter-Island Steamers Taking Away Large General Cargoes.

Of the one hundred and ninety-two cabin passengers on the through list of the Toyo Kisen Kaisha liner Tenyo Maru, an arrival at the port shortly before ten o'clock this morning, at least one hundred are said to have provided themselves with round trip tickets before departing from San Francisco. The globe trotters reigned on Tenyo's decks on the voyage down from the coast. They made merry in the social hall and in the dining saloon. On the spacious decks, fanned by light and kindly breezes, were conducted a series of pleasurable dances under the auspices of the ever congenial Purser William H. Reid, acting under instructions from the popular Captain Ernest Bent. T. K. K. business has experienced a wonderful impetus as far as passenger and freight business is concerned since the "divorce" with the Japanese line parted company with her mate, the Pacific Mail. Twenty-five cabin passengers are to join the vessel at this port, and Purser Reid stated that he really did not know where he was going to place the later arrivals unless he turned his large and elegantly appointed office into a sleeping dormitory. But three cabin passengers left the vessel at this point. The liner has no very large cargo. Through passengers in other classes include 52 in the second class and 249 in the steerage.

The weather was fine all the way down from the coast. The Shinyo Maru was passed on Monday evening, and while the vessels were some miles apart, a series of siren shrieks greeted the advent of the latest addition to the T. K. K. fleet. Quite a little celebration followed. Rockets were sent up and other outward forms of demonstration were manifested. Among the through passengers are S. A. Pethbridge of the British navy, on his way to the China station, Mr. and Mrs. H. L. Lombard and Mr. and Mrs. F. W. Flint, Jr. of Los Angeles are among the holders of "round the world" tickets. They are taking with them an automobile in which they will make a tour of the Orient. Mr. and Mrs. J. B. Preston and Mr. and Mrs. S. S. Preston of Menlo Park will also circle the globe. Rev. and Mrs. Paul P. Faris and family, well known missionaries of North China are returning to station after a year's absence spent in the States. Other passengers are M. Quezon of the Philippine commission; J. M. Macedo, Peruvian consul at Hongkong, on his way back to his post, and Judge G. P. Trent, associate justice of the supreme court of the Philippines.

Mauna Kea Ready for Sea. Some quick work was done on the inter-island steamer Mauna Kea and that vessel was ready for sea and set sail for Hilo and way ports at ten o'clock this morning. A large number of tourists availed themselves of the opportunity of viewing the wonders of the volcano by taking passage in the liner. The Mauna Kea carried a large list of cabin and deck passengers in addition to an assortment of general cargo. Ikelike Away for Island Ports. Today's departures included the inter-island steamer Ikelike which sailed shortly after noon today for Mahukona and Kawahae. The vessel will return with shipments of sugar and a deck load of cattle. Waiilele Departs from Hawaii. The inter-island steamer Waiilele was dispatched for Honokaa and Kaula at noon today taking a general cargo including shipments of fertilizer and lumber. The Matson Navigation steamer Wilhelmina and the Oceanic steamer Sierra are booked for departure for San Francisco at ten o'clock tomorrow morning. The Wilhelmina is taking over one hundred cabin passengers and a goodly quantity of sugar, pineapples and other lines of Hawaii-

an products. The Sierra will leave the port "chuck-a-block" with freight according to reports from her agents. The Oceanic liner will depart with at least one hundred cabin and a number of steerage passengers. Arrangements have been made for the services of the Territorial band at the departure of both steamers, the band boys visiting the Matson wharf and Oceanic wharf between nine and ten o'clock, and devoting about one hour to an impromptu concert at each place. Persia Watched by Secret Service Sleuths. The Pacific Mail liner Persia which is due to arrive from San Francisco on a week from tomorrow, was watched by Pacific Coast secret service sleuths during the stay at San Francisco. John E. Wikke, head of the United States secret service, was an interested spectator when the customs force tackled the job of searching the baggage of the passengers who arrived from the Orient on the Persia. He was escorted to the wharf by Special Deputy Collector W. B. Hamilton, who also took him on board the ship and showed him what a lovely place an ocean liner is for the hiding of opium. The Persia was overhauled at Honolulu by Collector of the Port Stackable. Stackable's searchers found no opium, but that did not prevent the customs officials at San Francisco from giving the Persia the usual search. Wikke was on board the Persia only for a few minutes, but remained in the searching corral asking questions and watching operations for more than an hour. China has Room for Forty. The Pacific Mail liner China which has sailed from Yokohama en route to San Francisco by the way of Honolulu has room for forty additional passengers on arrival at this port. The vessel will discharge 350 tons Oriental cargo while here. The China goes to the Channel wharf and should arrive here on the afternoon of September 21st or early on the morning of the 22nd.

MILLION MAY LIE IDLE HERE Approximately a million dollars out of the million and a half of Territorial bond money that is coming on the transport Logan due this afternoon or tomorrow morning will lie idle in the Territorial vaults, say prominent financiers after looking over the local situation. No present need exists for anything like this amount of money and the banks, which alone can use the money under ordinary circumstances, do not want much of the two tons of gold that is coming. Even if they needed it, they would have to deposit certain classes of bonds as security. What is going to be done with all the gold that Treasurer Conkling is bringing with him on board the Logan is a deep, dark secret. Nobody seems to know anything about it and some of the Territorial officials do not seem to even know that there is any gold coming. While on board the transport Logan it is being guarded by a special guard of soldiers but what is going to happen after that vessel reaches here is the mystery. It is all up to Mr. Conkling and his is the brain that will have to work overtime devising some means whereby it can be taken up to the treasury without any of it spilling out on the way. The local police force may have the guarding of it and then again they may not. Nobody knows. All that has been given out officially is that it will be placed in the government vaults and that any of the banks about the city can have just as much of it as they want providing that they put up sufficient security. According to the bank managers, however, they do not want much of it and it is likely to lie there until it is all spent.

FIRST BIDS FOR SEWER SUPPLIES (Continued from Page 1) St. C. Hayes quotes as follows for six-inch vitrified pipe: Half a mile cartage, 21c per lineal foot; three-quarters to a mile and a half cartage, 21-2c; for three and a half miles, 21-2c; for eight-inch, half a mile cartage, 30c; up to a mile and a half, 31c; to three and a half miles, 32c; for eight-inch specials, Ys and Ts, to three and a half miles, \$86 Ys, \$120 each; \$88 Ts, \$120; six-inch specials, 82c; for six Ys and \$88 Ts, 82c, all distances, and for bends, 62c, all distances. Order delivered within thirty days. The von Hamm-Young Company, Limited, on standard cast-iron sewer manholes, covers and rims quotes \$10.68 each f. o. b. work, thirty days delivery, but it stipulates that after first delivery sufficient will be carried to make future delivery from stock. Honolulu Iron Works state that they must get the complete bid to be able to deliver and can not split it. For eight-inch pipe, all distances, 27c per lineal foot; for six-inch pipe, all distances, 18c. For eight-inch specials Ys and Ts, all distances: \$86 Ys, \$88 Ts, and \$88 Ts, \$118 each. For six-inch specials: 62 Ys, 62 Ts, and 62 Ts, all distances, 72c for the first two and 60c for the bends. For the sewer covers, rims, etc. they quote \$13 each. Delivery of all within forty days. Canton, Neill & Co. put in a bid for the manholes and fixings at \$15 each, delivery within thirty days. H. Backfield & Co., Ltd., quote for California red brick: Half to one and a half miles from postoffice, \$17.40 per thousand; to two miles, \$18.40, and to three and a half miles, \$18.90. The Hawaiian Iron Fence and Monument Works, Ltd., also bid for the job, but their bid was too high at \$18.00 and their check was returned them at their own request.

DEATH SUMMONS NOTED CATHOLIC

News was received here today of the death in Belgium yesterday of Pierre-Marcelin Bousquet, superior-general of the Congregation of the Sacred Hearts and superior head of the mission work of the congregation which embraces the Hawaiian islands. The noted Catholic clergy here, and a solemn requiem was celebrated in the Catholic Cathedral this morning. Pierre-Marcelin Bousquet was born at Camarans, France, April 25, 1828. After brilliant studies in the college of Esquillon, and in the seminary of St. Pierre of Rodez, he entered the novitiate of the Congregation of the Sacred Hearts at Graves, Oct. 2, 1847. Having terminated the novitiate he was admitted to the profession of the religious vows in the motherhouse of the Congregation at Paris, May 20, 1849. Immediately afterwards he began the study of philosophy, which he interrupted to obtain his degree as Bachelor of Literature, and having obtained it, he taught Latin in the College of Cahors till August, 1852. Meanwhile he was ordained priest June 5, 1852. Shortly afterwards he became professor of philosophy at the Great Seminary of Rouen; four years later taught dogma in the same seminary, and August 16, 1862 was appointed superior of that institution. He was elected Superior-General of the Congregation of the Sacred Hearts April 5, 1870; soon after his election he left Paris to visit the different houses of his order; and thus escaped the horrors of the Commune. A week after his departure the motherhouse at Paris was sacked; the principal Fathers were made prisoners and four of the fustigated. He died yesterday after a long sickness at the actual motherhouse of the Order at Braine-le-Comte, Belgium. A solemn mass of requiem was celebrated in the cathedral of Our Lady of Peace by Father Joseph, Provincial of the Catholic Mission assisted by Fathers Reginald and deacon, and Father Canisius, as sub-deacon.

JACKSON LAUDS PUBLICITY WORK Hawaii in getting some remarkably good advertising in Australia through the Hawaii Promotion Committee, says Louis Jackson, industrial commissioner of the Erie Railway, says many and a prominent railroader of the mainland, who is in Honolulu today on his way home from a trip that has included the Antipodes. "Everywhere you go in Australia and Australasia the people know about Hawaii and its attractions through your promotion committee," said Mr. Jackson this morning. "We saw signs everywhere, and were able to get the committee's literature at every hotel. There was a big demand for it, too. I never saw much advertising." Mr. Jackson says he went to the Antipodes because he had visited almost every other accessible spot in the world and was given three months vacation, so he had to go somewhere. He was the guest at luncheon today of Secretary Wood of the Promotion committee.

FRIENDS OF ROSE DIG UP AND PAY Joseph Rose, Spanish interpreter in police court, is congratulating himself today on an unexpected receipt of eleven dollars from his friends. Rose, who was fined by Judge Monsarrat for delivering a hypnotic blow to J. F. Durao, official mosquito catcher of the Board of Health a few days ago, paid his fine of ten dollars and one dollar court costs at the time he was tried. He pleaded guilty to the charge of assault and was fined and reprimanded by Judge Monsarrat. But later on, Rose's friends, who heard of the case, got together and decided to refund his fines by means of subscription. Eleven dollars was turned over to Rose today. Some of Rose's friends said today that had the court fined him one hundred dollars they would have paid that amount, too. Judge W. J. Robinson yesterday refused to issue a temporary injunction and to appoint a receiver in connection with the estate of the late Mrs. Elizabeth Sackwitz. Her husband, Fred Sackwitz, brought the suit on the grounds that he is the sole heir at law and that she had not the power to leave the money to her step-son. Sackwitz states that when they first came here they had no money but that by working at his trade as a carpenter he saved up some and bought houses which he made over into his wife's name.

SAY UGLY SIGNS MUST COME DOWN

Prominent business men of the city have launched an anti-billboard campaign and have already taken steps to prevent the advertising of Goodrich automobile tires on the large boards that have recently been put up in many spots around the city. The activities of the club, say the members, are not against any particular advertisement, but against all outdoor advertising that involves what they consider the use of ugly and defacing signs.

Among the club members are former Governor George R. Carter, J. P. Cooke, head of Alexander & Baldwin; John Waterhouse of the same firm, F. M. Swaney of T. H. Davies & Co., James A. Wilder, Gerrit P. Wilder, J. R. Galt of the Hawaiian Trust Company and George Sherman.

As an evidence of its serious intentions, several of the club members have sent letters to the Goodrich tire people stating that if the company continues to advertise on the big signboards used at present, none of the club members will use any more Goodrich tires.

The Goodrich tire is said to be used by local auto owners more than any other tire here. Every member of the club named above has an automobile and all have been using Goodrich tires, it is stated. However, the club will take up other advertisements on signboards and intends to make a thorough campaign of it.

One of the charter members of the club said this morning: "I am a great believer in advertising, but the billboard use here is growing to an abuse and should be moderated. Once before an effective campaign was made. Then it was against the ugly Heins signs, and the women of the city, by going to the agents and giving warning of stopping their patronage, soon got rid of these.

"Honolulu has hundreds of autos, the majority of them, I believe, equipped with Goodrich tires, but if the advertising continues on the billboards, their sales here will be greatly cut down."

Much encouragement has already been given the leaders in the movement, it is stated.

Charles R. Frazier, manager of the Pioneer Advertising Company, made the following statement this morning: "The last Legislature recognized billboards and gave them an official standing by licensing them. I have paid my license and am acting well within my rights in placing the Goodrich tire signs on property which I have leased for the purpose.

"In exercising these rights, however, I have shown a due regard for the scenic beauty of the island, which I love quite as much as anyone who

lives here. For instance, I might have selected bold, commanding locations on mountainsides for these signs and still be within my rights. On the contrary, I have selected locations which do not shut out any fine views and I can not see how anyone can be offended at the signs. The signs themselves are tastefully painted and not offensive to look at.

"Furthermore, Honolulu is particularly fortunate in the class of posters and signs which are displayed here, owing to the strict censorship which I maintain. Anyone who is familiar with the patent medicine posters and suggestive advertisements which are played in some cities in the States will appreciate how clean the outdoor advertising is in Honolulu.

"In regard to the signs along the roads in New York State which the law authorized anyone to pull down, this alludes to signs which are put up without permission on the public highways. This is quite right and I heartily approve of it. In Honolulu, since the passage of the License Act by the last Legislature, this class of advertising is prohibited. The Legislature could not prohibit the placing of signs on private property, but when offers of indiscriminate tacking of signs about the country are made to me I refuse them. In this respect Honolulu has gone New York one better through cooperation with the local billboard company. No signs have been tacked or posted in this city since the passage of that act, except on regular boards built for the purpose. Even those signs that were tacked prior to the act will soon be taken down and there are none to take their place.

"So far as the Goodrich signs are concerned, I know nothing more about the matter than what I saw in the morning paper. No one has seen me about them and no one has made any objection to me as to the location of the signs.

"Messrs. Carter and Galt, who are reputed by the Advertiser to be opposed to signboards, evidently see no harm in the signs of the Hawaiian Trust Company which they permit to be placed throughout the city, even on the Walkiki road and Pall road, which I voluntarily keep free from signboards.

"As to the Advertiser, it has more than one motive in knocking signboards, which will be obvious to anyone, so I expect them to make as much out of this matter as possible."

The report of W. W. Chamberlain, V. M. Harrison and W. P. Fennell, appraisers in the estate of the late Mary Kellest Fredenberg, filed their report yesterday, showing the value of the estate to be \$2,907. The principal item is a house and lot on Judd street worth \$1850.

SOUSA TELLS OF BAND'S LUCK

Neither sickness, accident or death marred the great tour of Sousa's musical organization which on arrival at Honolulu this morning from Australia has rounded out thirteen months of almost constant travel, covering thousands of miles and a visit to five continents.

Sixty-eight men left Philadelphia a year ago last August and a beginning of the present successful tour was at that time made according to a brief statement coming from John Philip Sousa, the famous band leader before he left the decks of the Canadian-Australian liner Makura this morning in company with his manager, H. L. Clarke and Will Adams, the local amusement promoter.

"We left the United States along the latter part of December of last year with sixty-eight members in the organization and we still hope to have this number with us on our arrival at Victoria."

Barring one or two cases of slight illness, nothing has happened during the continuous traveling to interfere with the presentation of the concerts. Sousa among other things stated this morning that the band performed on an average of twice a day during the tour of the several continents. Upon departing from the States, the band played a nine weeks' engagement throughout Great Britain, and from there departed for South Africa, at Capetown, Johannesburg, Durban and other African ports, the band was listened to by large audiences. The organization remained on the continent for five weeks before setting sail for Australia. Twenty weeks were spent in the Colonies.

Sousa claims that owing to strict regulations in force throughout Australia his band was not permitted to give Sunday concerts provided an admittance fee was charged for the same. As the band is not exactly a charitable institution, the members had one day in the seven to themselves.

The band boys made a fine appearance as they left the ship this morning. They wore arranged in becoming and modest dark blue uniforms wearing a neat cap with the name "Sousa" in small gold letters over the visor.

Arrangements were concluded for two concerts today one for the afternoon and another this evening.

The steamer Makura will be held until a late hour this evening in order to permit a full program being presented at the evening concert.

Henry C. Hapel et al, through their attorney Lorrin Andrews have filed a joinder in demurrer in their case against May K. Brown et al.

MELODY ON MAKURA DECKS

The presence of seventy members of Sousa's musical organization had considerable to do with relieving the tedium of a voyage from Sydney and Auckland in the Canadian-Australian liner Makura. Despite the instructions sent by wireless to the ship's officers that Dr. W. P. Norris, an Australian quarantine official on board the vessel be permitted to pass upon passengers and crew and grant pratique, nothing was done along this line until an early hour this morning.

The result was that while the Makura came alongside Alakea wharf shortly before eight o'clock, passengers were not allowed to leave the decks of the vessel or friends permitted to gain the vessel for nearly an hour after this hour.

Hopeless confusion seemed to prevail among officers including the purser's staff and others. When the vessel reached the wharf, the regulation ponderous British breakfast was then ordered and all hands turned to and partook of this essential meal, when on a vessel like the Sierra or the Wilhelmina the breakfast would have been over and out of the way hours before.

No blame can be attached to the local staff of immigration or customs officers for the wearisome wait imposed upon hundreds of people this morning. It was purely the fault of the Makura's officers.

The British boat sailed from Sydney on August 28th, arrived at Auckland on Sept. 1st, leaving there the same day for Suva, arriving at the Fiji port on Sept. 4th. Fine weather is reported on the entire trip. In addition to several concerts given by Sousa's musical organization, a complete program of sports was also arranged.

The Makura is making a rather extended stay here in view of the fact that the famous band is to give two concerts the last to be given at in the evening.

During the stay of the Makura at the port shipments including 76 cases whisky, 101 cases jam, 32 bags grass seed, 917 bags dried blood, 173 cases wine, 1602 sacks sulphate of ammonia, 325 packages frozen meat, 83 boxes butter and 31 packages merchandise were discharged. The vessel is carrying 275 through passengers and is scheduled to sail at ten thirty this evening.

TUESDAY SEPTEMBER 12, 1911

It matters not how a man dies, but how he lives.—Samuel Johnson.

Spend a little money in entertaining the tourists. It's an investment that will bear fruit.

Perhaps the hypnotist has put his eye on the stock market. It has been sleeping long enough.

Civic center applies as well to the downtown district as it does to any other part of the town.

Final papers have been signed in the Kapaa land business. Time seems able to conquer all things.

Men of means should invest a part of their money in building homes for the increasing population of Honolulu.

Congressman Kahn is going up and down the country at a rate that suggests his vacation will be enjoyed when he can run and hide.

We get the cruisers and San Francisco gets the President. A fair exchange would be no robbery, but there is no use in San Francisco trying to take everything.

Maine was the last bulwark of Prohibition. It has been carried because the intelligent young men of the present day are for honesty in government as against barefaced hypocrisy.

Here's hoping that the bird man makes a successful flight over the Rocky Mountains but we doubt whether the accident insurance companies are chasing him as a preferred risk.

Perhaps our own band may not play as well as Sousa's but it is worth while remembering that Sousa might have much less success with the same number of men and the city anxious to save money.

Why was the last Legislature asked to appropriate a few thousands for the sewer system of the city when the immediate necessities of a healthful Honolulu demand at least a million dollars expended on sewers.

Perhaps Germany and France will not go to war but they are making angry faces and doing a lot of preparation that has not been equaled in a good many years. It is very certain that a fight will be easier to start than to preserve peace.

Don't forget that the mainspring of success for the tourist season is that the town shall be kept clean of all troubles that will start a port quarantine. And if we would have the people in the heat of tempers the mosquitoes should be reduced to a minimum.

The vote in Maine proves beyond any further question that the people of Hawaii acted wisely and well when they refused to apply the fifty-year-old scheme under which Maine has been laboring, to the present day conditions of Hawaii. Prohibition has seen its last days.

"Big men are not buying" is one of the feasible explanations of the situation in the financial district. That often results in a criticism of our own securities which causes the little fellow to send his money out of the country

EVENING SMILES

"You admit that you are not first in her affections, yet you seem cheerful."

"Oh, I can't expect to compete with the pug dog and the rubber plant."

She—It is when a man is in trouble that he realizes the value of a wife.

He—Yes, then he can put all his property in her name.

to be kept by a kind friend who promises him everything and returns nothing.

All the lowlands of the city will have to be filled in, if Honolulu is to be in proper sanitary condition by the time the Panama canal is opened. The only question is whether the people will try to save money by delaying improvements, and waste lives and millions of money as the price of such a hideous mistake.

So much to do and so little time in which to do it. And yet when the average citizen is told that Honolulu needs a Mayor as badly as San Francisco, during the Panama opening season, he will look at you in open-mouthed wonder that you should be so forward in trying to hurry "politics."

MAINE'S STRUGGLE TO BE FREE.

Early reports as published in the morning cablegrams state that Maine is "in danger" of going against Prohibition.

The expected will happen when all the returns from all the country districts are in, and Maine is found to have overthrown constitutional Prohibition and put itself in a position to handle the liquor problem rationally.

Thus will the old New England State prove that it has some progressive spirit, and recognizes that the laws adapted to fifty years ago, should not be forced upon the people of today.

Constitutional prohibition, in which Maine was a pioneer, was first adopted in 1851. For 17 years the prohibition law remained undisturbed of serious attack. In 1901 a bill for re-submission of the subject was before the legislature, but only 37 votes could be mustered in its favor. In 1905 a similar resolve was barely defeated.

In the State campaign last year re-submission was one of the chief issues, the Democrats taking a stand in favor of giving the voters another chance to pass upon the question, and the Republicans standing pat on prohibition, which had been the party's policy for 50 years. The election of a Democratic Governor and a Democratic Legislature settled the question of re-submission, and it remained only for the formal vote to be passed at the statehouse. A few Republicans voting with the Democrats, made the vote sure.

In the contest of yesterday the people merely voted for or against the constitutional provision that makes Prohibition a part of the organic law of the State. They have voted overwhelmingly against the old constitutional amendment adopted in the palmy days of Neal Dow, but the whole problem of what shall replace constitutional Prohibition has yet to be worked out by the Legislature that will be elected next year.

In the campaign just closed a non-partisan league was formed to secure the cooperation of Republicans who refused to work with the Democrats on general party matters but were with them on the Prohibition question. The great majority of the Republican leaders including more especially ex-Congressmen and ex-Gov-

NOTED DIVINE STOPS OFF HERE

Dr. J. Q. A. Henry, D. D., a noted American Baptist minister and evangelist, was a passenger on the Makoua today. He is on his way to the Coast, but will remain several days in Honolulu, which he thinks is one of the most delightful places in the world.

Dr. Henry is returning to the homeland after an absence of a year and a half in New Zealand and Australia, where he has been engaged in evangelistic work. His missions in the Colonies have been remarkably successful in many ways. Thousands of people have heard his powerful messages.

He is returning to the States to resume his evangelistic work, and will hold his first campaign in Woodland, Cal.

Dr. Henry is a gifted preacher, an earnest and indefatigable worker, and one of the most amiable of men. He has conducted campaigns in all parts of the United States, and in England and other parts of Europe.

The teachers of the McKinley High school will be present at the building next Friday morning, September 15th, to examine those pupils in any branch of study in which they were found deficient at the ending of the summer term, that they may be able to go on with their classes in regular standing.

errors have been outspoken in their support of the cause of Prohibition.

What Maine is likely to do, after having voted Prohibition out of the constitution, is to return a Republican Legislature next Fall to enact the laws for the control of the liquor traffic.

Maine is not naturally Democratic though the people found they had to vote with the Democrats to secure action on Prohibition. Having placed themselves on record as regards this farce, they will very probably swing back into line and vote for the men who will pass strict license laws, laws adapted to the conditions in each community.

The vote means a return to rational government, and a declaration against governmental hypocrisy.

NOT GUILTY, IS JURY'S VERDICT

Juan B. Garcia, who was accused of manslaughter and whose case was commenced yesterday before Judge Henry E. Cooper in the criminal court, was this morning acquitted, the jury bringing in a verdict of not guilty after a short retirement.

City and County Attorney John W. Cathcart took up his cross-examination of Garcia this morning when the case opened, but could elicit nothing further than was material to the Territory's case.

The address and address in reply were given, and Judge Cooper summed up to the jury. It retired at twenty minutes past nine and returned again a few minutes past 10 o'clock.

Garcia killed Alvarez, another Spanish immigrant. He pleaded self-defense.

FEDERAL GRAND JURY ACTIVE.

United States district court subpoenas have been issued for William Lishman, manager of the Seaside Hotel, and for some of the Japanese boys from there in connection with a case that is to be brought up before the Federal grand jury which meets early in October.

Several opium cases are also to come up before the jury although there is more or less of a lull in the opium business just at the present time owing to the fact that the last prosecutions have made the "runners" a little scared. Stamped opium at the present time is quoted around \$60 to \$65 a tin. No price is available for the unstamped.

DIAMOND TIRES LURED KOMEYA

Japanese Traveled Five Thousand Miles to Study Tire Repair Work.

There are several large establishments in Honolulu at which S. Komeya might have learned how to repair automobile tires.

But Komeya, who owns a small tire store in Honolulu, wanted to get down to bed rock. So he traveled to Akron, Ohio, a distance of 5000 miles, and is now working in the repair department of the Diamond tire factories. Before he's through Komeya intends to know all there is to learn about automobile tires.

He started at Honolulu in the bicycle tire business, which wasn't so difficult. But when automobile tires came to his shop Komeya found a proposition too difficult to master unaided. "The people wanted me to repair Diamond tires, I didn't know I come here to learn business," is the way Komeya puts it.

Komeya expects to finish in the hard rubber department of the Diamond factories where he will learn how to put rubber on steering wheels. Diamond tires are advertised exclusively in the Evening Bulletin.

HAVE NO OLD LEATHER STOCKINGS

Anybody of a mind that there are not a great variety of stockings should just take a glance at Jordan's window. And after you have taken the glance you will stop and gaze with wonder. Jordan's seems to have every variety, size, color and priced stocking. The only variety not carried are "Old Leather Stockings."

The stockings are certainly snags for stocking bargain hunters. This stocking bargain will be on all day tomorrow.

Thursday and Friday Jordan's promises and equal cash-saving chance on muslin underwear, gowns, princess slips, etc.

There is a silk sale date drawing near at this emporium and it will be well to keep it in mind and in the mean time take a look at the windows of this store for the next few days.

STOCKS REACT ON THE MARKET

Sales on the stock market yesterday afternoon and this morning showed a reaction from the rapid rise of the past few weeks and at the suggestion of the exchange this morning Wabuna, whose rise has been one of the most spectacular, sold down to \$128.56. Wabuna stocks and bonds made up all the activity of the session.

Ewa and Oahu were both active between boards, their prices being stable at 32.87 1/2 and 33.25. Haiku sold at 175, a number of blocks changing hands. The last sale was several weeks ago, at 155.

The Wabuna reaction is partly ascribed to the natural shakening following the payment of the extra dividend, some holders waiting until after the dividend was paid before disposing of the stock. Little is in sight at the reduced price, however.

MORAN TALKS AT LAYMAN LUNCH

Painting a picture of the time when, with the opening of the Panama Canal, Honolulu will be the center of a ring of cities strung around the Pacific, not made up of various kinds of civilization, but all the same, and when the great nation of China will have been educated up to take its place among the Christian nations of the world and so leave behind it all the times of plague and corruption which it has at the present time, Hugh Moran, general secretary of the Hankow Chinese Y. M. C. A., spoke to a meeting of the Layman's Missionary Association at a lunch given him at the University Club today.

He traced the history of the big Christian nations and stated that their power lay in their being Christian nations and that although at the present time they might not be perfect, there was a gradual coming towards the ideal. To the fact that China is not a Christian nation he lays the blame of the disastrous famines and floods which sweep through the country.

The younger generation, much against the wish of the old, is taking hold of the new idea and the Gospel is being spread throughout the big country very rapidly. He cited instances of the good work that is being done by the various Y. M. C. A. and also the interest which the young Chinese are taking in it. He quoted an instance of one institution for which twenty-four thousand dollars had been raised for running expenses for the year and which had a membership of sixteen hundred.

BRIDEGROOM OF A WEEK LOSES JOB FOR AWHILE

J. J. C. Haynes, who attracted considerable attention during last week by marrying Miss Warren Mills, a guest at the Moana Hotel has been suspended by the cable company, according to a report this morning. The cable company has a rule which makes it compulsory for any of their members to notify the manager and to obtain the leave of a board of directors before they can "tie the knot."

Haynes it appears did not do this and as a consequence finds himself without a position for the time being at least. The manager of the cable company refused to discuss the matter at all. "It is entirely a question of discipline with the company," he said, "and I cannot make anything public."

Grand Hula
 At Independent Theater HOTEL STREET

Best Hula Dancers on the Islands will participate.
 Fancy Steps from South Sea Islands given.
MAKURA PASSENGERS! TAKE THIS IN
 PRICES..... 25 Cents and 50 Cents
 Don't forget the place—the Independent Theater.

GRAND HULA AT INDEPENDENT

For the benefit of those who failed to see the grand hula dance that was brought off in this city some weeks ago there has been arranged a grand hula to be danced at the Independent theater tonight, tomorrow night and Thursday night. This will also be the chance for the passengers from the Makura to see the Hawaiian hula and compare it with the similar dances of the South Sea Islands.

The best hula dancers of these islands have been engaged for this performance and at the close of the engagement they are going on a tour of this island and on return from this tour they will sail for the Orient. This will certainly be the best exhibition of the hula that has been seen for some time. The prices of admission are twenty-five and fifty cents.

The dance is under the management of De Fries & Bros.

SOUSA CONCERTS AT 3 AND 8 O'CLOCK

Sousa and his wonderful band are here and will give the two promised concerts as advertised. Many have heard of Sousa and from the way the tickets have been handed out during the last few hours there are many who are going to hear him.

Promptly at three o'clock this afternoon Sousa will wield his baton in the Bijou Theatre, at the matinee concert, and promptly at eight o'clock he will open the first piece at the second concert.

Three o'clock and eight o'clock are the exact times when the concerts open, for Sousa is a military disciplinarian. It will be well for the audience to begin to get their seats shortly after two o'clock and after seven this evening, for if there is a rush at the opening of the first piece ushers will hold the late arrivals until the conclusion of the first number.

EMPIRE HAS IMPROVED BILL FOR THIS WEEK

The Empire Theater's offering for the first half of this week is the best in some time at this playhouse. Coffman & Carroll, the blackface pair, have moved over from the Bijou and get by with some fair work. Louise Bright is as charming as ever in her songs, and would be still more charming were there a little more singing and a little less dependence upon pulchritudinousness, while Fox & Claire, the sharpshooters, are hanging away with the same expert skill they have shown throughout their engagement. In fact, this program should fill the house this week. The disappearance of the O'Haganis is a positive relief. The moving pictures are bright and instructive as well as amusing.

FATHER WANTS SON IN HYPNOTIC SLEEP WAKED

Kawan, father of S. W. Mosis, who at the present time lies asleep in J. Hopp & Co.'s window, is frightened of the effects that the long sleep may have on his son and asked this morning that Barnett should wake him up. Barnett argued the point with him, however, and refused to do anything of the kind stating that the boy was all right and that no harm would come to him. The father went away very dissatisfied with the whole business and Mosis will sleep on until tomorrow night when he will be brought back to life at the Savoy.

BLIND MUSICIAN DIES WHILE ON ISLAND TOUR

Captain Parker received sad news by wireless this morning from Hawaii, stating that Walpa, the blind musician, who was well known to local people, had died on Hawaii. He leaves two brothers and a sister.

Walpa went to Hawaii two months ago with a music club which toured the island, there being five members besides himself. They played in all the small towns. The message did not state the cause of his death.

Walpa had for a long time made his living by instrumental playing, in spite of his blindness.

BIJOU BILL IS ALL-STAR ONE

There are three head-line turns at the Bijou this week, at least there were when the week opened last night, but one of them, Allen Doone and Edna Keeley in the inimitable Irish sketches, last night made their farewell bow before the biggest house and the most vociferous applause that has yet greeted them. Doone and his fair partner have probably set a new record for the Bijou, and they were given many curtain calls and flowers last night. The "Toast to Erin," with which Doone closes the sketch, stirred the house to tumultuous applause. As the Sousa concert will occupy the house tonight and Doone and Miss Keeley leave tomorrow afternoon for the colonies, their local season is over, to the deep and genuine regret of their many friends and admirers here.

However, there are two first-class acts at the Bijou still. Vivian & Allen, comedy acrobats, made their debut last night and made good without any qualification. They are funny, unusually good acrobats, and keep the audience in a gale of laughter. Their work is cleanest and fast. There is something doing every minute this pair is on the stage.

The other act is the Kunz & Kunz duo in instrumental and vocal work. The feminine Kunz last night sang the "Jewel Song" from Faust. She did it so well that she was not appreciated. Her singing is easily the best that has been heard on the vaudeville stage in Honolulu for months. She has a good mezzo-soprano voice, one that is carefully trained, and she sings with the air of intelligent musical training that cannot be mistaken. Her performance was marred last night by rowdies who should have been thrown out of the house by the management. Patrons of the house who delight in such work as her's deserve consideration.

The motion pictures are high class and altogether the Bijou is offering a star bill.

MOUNT ETNA IN ERUPTION

(Associated Press Cable.)
CATANIA, Sicily, September 11.—Mount Etna is again in eruption and three new craters have been formed, from which heavy showers of ashes are being thrown, covering the surrounding country.

Earthquake shocks are constant and the inhabitants of the many villages in this district are panic-stricken and are abandoning their homes by hundreds.

Religious Processions.
In many places the people are forming processions and carrying the pictures and statues of saints toward the volcano with prayers that the eruptions shall cease.

The latest reports from the district most affected is that lava flows are threatening Linguessa and other villages in that vicinity.

Heavy Damages.
The damage to the crops and to vineyards from ashes and lava will be great and much distress is already felt by the fugitive from the abandoned villages, few of whom have saved any of their belongings.

The authorities are taking steps to send relief to those places where there is the most need, but so far no reports have been received of loss of life.

CHINGTU MARKETS CLOSED—MUCH SUFFERING

CHINGTU, China, September 11.—A strike of workmen is in progress in this district and the markets of the city are closed. Much suffering among the poor is resulting.

Cruisers to Rescue Fugitives.
WASHINGTON, September 11.—The cruisers Saratoga, New Orleans and Helena have sailed from Shanghai for Nanking, on the Yangtze-Kiang, to receive the American and other foreign missionaries ejected from Chingtu.

It is reported that a score of rioters and a number of soldiers have been killed in fights in Chingtu. The American women and children of the city have left under escort.

MACHINISTS UNION WILL NOT AGREE

DAVENPORT, Iowa, September 11.—At a conference held here today the officers of the International Machinists' Union refused to sanction the proposed strike of machinists affiliated with the federation of shop employees on the Illinois Central Railroad.

It is announced that in consequence of this decision it is probable that the federation will reorganize, with a possibility that the machinists will not be taken in.

FRANCE WILL STAND PAT.

PARIS, September 11.—It was officially indicated here today from the ministry of foreign affairs that France will today reject the proposals made by Germany for a settlement of the Moroccan controversy.

Playing War Game.

NEU BRANDENBURG, Mecklenberg-Strelitz, September 11.—With 110,000 troops mobilized at this point they played at the game of war under the eye of the Emperor. During the day aeroplanes were in use.

PROHIBITION MAY LOSE OUT IN MAINE

PORTLAND, Maine, September 11.—Returns from the election indicate that prohibition is defeated in this State, after fifty years, during which the manufacture and sale of liquor has been illegal. The question to be decided is whether prohibition shall be continued or the liquor traffic regulated.

CONGRESSMAN LATTA IS DEAD FROM OPERATION

ROCHESTER, Minnesota, September 11.—Congressman James P. Latta of Nebraska, Third district, died here today as the result of an operation.

ITCHING ECZEMA CURED

You don't need to suffer another day with that awful itch. A few drops of that wonderful compound known as the D. D. D. Prescription will take away the itch instantly, yes, the moment the first drops are applied to the inflamed skin, the itching is stopped! Many Eczema sufferers have failed so utterly with salves and other "discoveries" that even the assurance of the best physician or druggist cannot induce them to invest another cent in any remedy.

It is to just those discouraged sufferers that we now offer a bottle of the genuine D. D. D. Prescription, a simple wash of Oil of Wintergreen, Thymol and a few other ingredients, so compounded that they reach the very worst cases of Eczema and all other skin diseases.

Besides, there is nothing so good as D. D. D. for a household skin remedy, for it washes away pimples over night, and cleanses the skin of all forms of skin impurities.

Get a \$1 bottle today on our recommendation.

Hotel St. Francis

Union Square, San Francisco
Under the Management of JAMES WOODS

FACING the beautiful park in the heart of the city, which is the theatre of the principal events of the famous festivals of San Francisco, this hotel, in environment and atmosphere, expresses most pleasantly the comfortable spirit of old California.

The royalty and nobility of the Old World and the Far East and the men of high achievement in America who assemble here contribute to the cosmopolitan atmosphere of an institution which represents the hospitality and individuality of San Francisco to the traveler.

The building, which marks the farthest advance of science in service, has now the largest capacity of any hotel structure in the West, and upon completion of the Post street annex will be the largest caravansary in the world. WHILE THE SERVICE IS UNUSUAL, THE PRICES ARE NOT.

BIGGEST WORK YET ATTEMPTED

Ala Moana Plan Up For Discussion Yesterday—Not Enough Money.

The Ala Moana filling-in plan, for which \$75,000 is now available, was brought up before Acting-Governor E. A. Mott-Smith, ex-Governor George R. Carter, chairman of the military commission; President Pratt of the Board of Health and Superintendent of Public Works Marston Campbell at a meeting held in the Senate chamber yesterday afternoon.

"The \$75,000 which is available out of the \$150,000 appropriated from the loan fund is entirely inadequate for the work in hand," said the secretary, "and care must be exercised to make the best application of what little we have on hand. As a matter of fact, over \$1,000,000 is needed to carry out the work. The sewers came up for discussion mostly and the matter of relieving the present overcrowded situation and the gradual extension of the whole system was taken up."

"We considered the capacity of the people to look after their own cess-pools and to have them pumped out. In some cases, however, many of them are too poor to have this done, and in others it is impossible to sink a cess-pool owing to the low-lying nature of the soil."

"If we had enough money we could go ahead and make an ideal job of it, but under the present circumstances all that we can do is to carry out just as much as we can. It will be the most ambitious scheme that has ever been attempted yet, and the corner which was under discussion is the most difficult of the lot, because of the crowded condition and also of the many ownerships which have to be considered. The other end of the scheme will be much more simple, as the land is held by the big estates and it is only sparsely populated. Altogether we calculate that it will take 100,000 cubic yards to complete the job."

FIREMEN'S BRIGADE MAKE A "RAINBOW CHASE"

The firemen's brigade at the central station on Beretania street, had a "rainbow chase" last night, when a false alarm was turned in from the police station, that the Schuman Carriage Company's building was on fire. Assistant Deering and his men dashed down the streets and on arriving they found they were not needed, there being no fire.

The trouble originated from the fact that a pupule man reported to the central fire station that he was receiving Clerk Stewart of the police station. He said there was a fire at the Schuman Carriage Company's building, and Deering, believing it to be straight "dope" ordered his men out.

LOSES 2 YEARS BY BEING UNDER THE REQUIRED AGE

Owing to his being three weeks under age when he filed his first naturalization papers and this fact not coming out until two years afterwards, George M. Chrones, a native of Sparta, Greece, yesterday filed his second lot of papers, having thus wasted two years. Since his first filing the law has been changed and the age is now eighteen.

Emile Louis Piedvache of Honolulu has filed his papers for naturalization, putting them in at the United States District Court yesterday.

Strike guards have a right to carry arms, according to a decision in a Cleveland common pleas court.

DEDICATION IS NOW ON OCT. 8

Y. M. C. A. Week's Program Will Start Then and Go Through to Sunday.

The statement published in the Bulletin yesterday afternoon that October 8 had been fixed by the Y. M. C. A. as the commencing point for dedication week was confirmed at the meeting of the directors held last night when the final arrangements were made.

Apart from the program published some little time ago nothing new has been planned. On Sunday, October 8 the old building will be formally locked up by W. R. Castle, Monday afternoon a director's meeting will be held at five o'clock and will be followed by the dinner to the press and the pulpit.

Tuesday will be for the members and subscribers to the new building. Wednesday will be dedication day when the various speeches appropriate to the occasion will be made. Thursday is for visitors and the building will be thrown wide open for everyone.

Friday will be for the various teachers and educators in town and Saturday night will see a try-out of all the various athletic appliances and also games.

According to the estimates the sum of \$4,500 will be received annually from the rental of rooms in the new building.

Japanese Y. M. C. A.

Gayden N. Fisher wrote to the effect that Mr. Masezawa, the man who is to take over the secretaryship of the local Japanese Y. M. C. A. should arrive in Honolulu about December 1. The secretary is a graduate of an American College and son of a prominent Japanese official in Tokio, where he holds from. He is at present engaged in Y. M. C. A. work at Dally, where he will leave to come to Honolulu.

George Johnson has been engaged as building superintendent and head janitor and F. H. Emmons as office secretary and bookkeeper. The latter is a man who was trained at the Y. M. C. A.

HILO SUPERVISORS REPLY TO GOVERNOR ON ARMORY

The Hilo supervisors are not satisfied with the reply that they received from the Governor in connection with the removal of the armory. He told them that they had delayed their complaint too long and wrote intimating this. They got together, however, and have now drafted out the following resolution for presentation to him.

"Your committee has considered the communication from W. F. Frear, Governor of the Territory of Hawaii, relating to the armory site in the city of Hilo, and your committee recommends that the county clerk be instructed to notify the Hon. W. F. Frear that inasmuch as the resolution was unanimously passed by the board of supervisors, it represents the wishes of the majority of the citizens of Hilo, that the armory site be retained for public purposes, as it is the only desirable spot for public gatherings of any kind, and it is still the wish of the majority to have the site remain for public purposes. Therefore, your committee further recommends that the Hon. W. F. Frear be respectfully requested to heed the wishes of the Hilo people and have said lot withdrawn from public sale."

PERJURY, SAYS JUDGE COOPER

Judge Henry E. Cooper refused to allow any mitigation of the sentence imposed on a Japanese named Kanai by the District Court, when the matter came up on appeal before him yesterday. He intimated that owing to the direct contradiction of the evidence someone had committed perjury, and also that he was not impressed with the testimony for the defense. Deputy City Attorney A. M. Brown appeared for the prosecution and Attorney Chas. Chillingworth for the defense.

The trouble arose on the steamer Waiilele, and over a job which the two Japanese were sent to clean up and which they thought the Chinese cook was responsible for. A war of words started, and then the prosecution alleges that the Japanese hit the Chinese cook over the head with a soda water bottle. The defendants state, on the other hand, that the bottle was only used in self-defense, and after the cook had taken Kanai by the throat and tried to choke him.

MILLIONS OF FOLKS USE ONLY CASCARETS

They never have Headache, Biliousness, Sluggish Liver or Bowels or a Sick, Sour Stomach.

No odds how had your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish intestines—you always get the desired results with Cascarets and quickly too.

Don't let your stomach, liver and bowels make you miserable another moment; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the poison and effete matter which is producing the misery.

Take a Cascaret now; don't wait until bedtime. In all the world there is no remedy like this. A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All druggists sell Cascarets. Don't forget the children—their little insides need a good, gentle cleansing, too.

KEELER READINGS END.

Charles Keeler, the poet of Berkeley, gave the second of his readings last night at the Young Hotel before an unusually appreciative audience, to whom he read many of his poems. Mr. Keeler will continue his trip around the world.

\$375,000,000 Is Now Being Spent In Panama

Does anyone think this tremendous development will not increase the price of Panama lands?

Until recently it has not been possible for other than a Panamanian to acquire Government lands, but now they are open to all on equal terms.

Arrangements can be made, too, whereby lands can be cultivated on shares, so that all an investor need do is to purchase raw land from the Government and the development work can be paid from the crop itself, and the land put on an income paying basis.

Millions of People Own Their Plantations. Why Not You?

Price \$6.00 per acre; \$1.00 per acre on application; \$3.00 per acre in 4 years, without interest or taxes. The time to buy is NOW. Even if uncultivated these lands are likely to be worth \$20.00 an acre by the time the Canal is opened. Write today.
