Notice of Intention to Foreclose and of Sale by Mortgagee.

Notice is hereby given that by virtue of a power of sale contained in that certain indenture of mortgage dated the 13th day of November, A. D. 1903, made by and between Holi, mortgagor, of Papaikou, Island of Hawaii, Territory of Hawaii, and M. R. Cadinha, mortgagee, of Honoum, Island and Territory aforesaid, which said mortgage was duly executed and delivered by the said Holi, on the date aforesaid, and which mortgage was recorded in the Register Office of Conveyances at Honolulu, Oahu, T. H., on the 14th day of December, A. D. 1903, in Liber 256 on pages 164 to 166, the description whereof is as follows: That certain five (5) acres of land situate at Kalaos, Island and Territory of Hawaii, being and lying between the Government road and the sea. Being more particularly described in a deed executed on the 6th day of June, A. D. 1888, from Keoho and Nalua to the said Holi, and recorded at Honolulu, in book 68, pages 232 and 233. The above five (5) acres being the remainder of the twelve and one-half (12 1/2) acres described in the aforesaid deed, five acres being sold to Holi, Jr., and two acres to Bila Waialea, which sales and deeds are duly recorded at Honolulu.

The aforesaid M. R. Cadinha, mortgagee, intends to foreclose said mortgage for breach of conditions therein contained, to-wit, non-payment of interest when due.

Notice is hereby also given that by virtue of a power of sale in the aforesaid mortgage as heretofore mentioned, the above-mentioned property, together with all the improvements and appurtenances thereon and thereto contained, will be sold at public auction at the main door of the Court House in Hilo, on the 23rd day of June, A. D. 1906, at 12 o'clock noon of the day, by A. S. LeBaron Gurney, auctioneer.

Terms Cash, United States Gold Coin. Deed at the expense of purchaser.
M. R. CADINHA, Mortgagee.
By J. S. FERRY.
Dated, Hilo, H. T., May 24th, 1906.
For further particulars apply to

HAWAIIAN REFUND BILL PASSED THE SENATE

Honolulu, May 24.—The following three cables were received in Honolulu yesterday afternoon:

Washington, D. C., May 23, 1906.
To W. O. Smith, Honolulu: (Signed) F. M. HATCH.
Funding bill passed Senate.
Washington, May 23, 1906, 5:36 p. m.

To Governor Atkinson, Honolulu:
Review (Refund) Bill passed Senate with minor amendments.
KUHIO.
Washington, May 23, 1906, 5:54 p. m.

To Atkinson, Honolulu:
Revenue Bill passed Senate. ALONZO STEWART.

The bill referred to is the bill to set aside 75 per cent. of the custom federal tax collections in Hawaii, as a fund for use in the Territory, for school buildings and other public purposes. The bill as originally drafted was for a period of twenty years. Stewart is an assistant doorkeeper of the Senate and has a number of friends here.

Free Alcohol Bill Passed.

Washington, D. C., May 25.—The Senate has passed the House free alcohol bill.

Cornell Defeats Harvard.

Boston, Mass., May 25.—The Cornell crew today defeated the Harvard crew by three lengths in the varsity race.

King Meets Bride-to-be.

Irun, May 25.—King Alfonso today greeted Princess Ena at the frontier and together they proceeded to Madrid.

Governor Again in Office.

Honolulu, May 25.—Governor Carter, according to information received here, will take the steamer Manchuria, sailing from San Francisco today, for Honolulu, and will be back in his office and ready to transact business on the first of June. Although his physician did not favor so early a date when he first went away, the effect of the trip to California has been so beneficial, there is no reason for the Governor to stay away longer.

Convicted of Murder.

Honolulu, May 25.—Murder in the first degree was the verdict rendered yesterday afternoon by the jury in the Kaliko Kaawaloa case. The jurors were out a little over four hours and came into court at 4:45, finding the defendant guilty as charged. Kaliko's crime was the killing of a woman named Virginia Moelubi, in Kakaako, December 2. Deputy Attorney General W. S. Fleming, assisted by Chester Doyle, prosecuted the case and A. H. Crook defended. The verdict means a sentence of death. Kaliko is a Hawaiian, quite young.

Pastor for Honolulu Church.

Palo Alto, Cal., May 25.—Reverend Walker Sylvester, of the Second Presbyterian Church of Albany, New York, sails for San Francisco on the Manchuria to assume the pastorate of the Central Union Church at Honolulu.

Dr. Sylvester has been for eight years pastor of the Second Presbyterian Church at Albany. The climate there has proven too severe for his strength, however, and he is now on his way around the world on a tour of rest. He will remain in Honolulu and supply the pulpit of Central Union for a month or more.

Adverse Winds for Yacht.

Honolulu, May 25.—Head winds and calms were the conditions which the Hawaiian cup defender met with during her long beat up to San Francisco, in which she covered in all 2862 miles. Added to this, the fact that the little vessel sprung a leak on the first evening out, necessitating the use of the pumps throughout the entire trip, shows the voyage to have been an eventful one and made in good time under the circumstances. All things considered the Hawaiian yacht made the run in good time and in a manner which demonstrates conclusively that there is no particular hardship to be expected nor no impossibilities to be overcome on the Honolulu to San Francisco sail.

Immigration Bill Passes.

Washington, May 24.—The Immigration Bill has passed the Senate.

Japanese Labor Opposed.

San Francisco, May 24.—The proposal to bring 1000 Japanese here to work in the ruins has been opposed.

Trans-Pacific Yacht Race.

San Francisco, May 24.—The transpacific race will start on June 11 from San Pedro. The race will start under the auspices of the South Coast Yacht Club. The trophies for the race were uninjured by the fire.

For Lighthouse Tender.

Washington, D. C., May 24.—The Senate committee has added an item to the House appropriation bill providing \$150,000 for the construction of a lighthouse tender to be used for the Territory of Hawaii.

Department Investigates Sake.

San Francisco, May 24.—Special Counsel Levett of the Treasury department is going to Honolulu to investigate the whole subject of sake, in view of the pending appeal to the United States Circuit Court of Appeals in the various sake cases.

Union of Churches.

Des Moines, Ia., May 24.—The Presbyterian Church and the Cumberland Presbyterian Church, after several years of efforts in that direction, have finally effected organic union.
The Presbyterian Church numbers about 1,500,000 communicants, and the Cumberland Presbyterians about 200,000. The Cumberland Presbyterian Church has been a separate organization for almost exactly one hundred years.

Three Paid Death Penalty.

Honolulu, May 23.—Three Korean murderers, two of whom died bravely, while the third, after a night of shrieking and blasphemy, was held helplessly with terror on the scaffold, were executed in Oahu prison this morning. In each case the execution was perfect. There was not a motion by any one of the three unfortunates after the trap was sprung. In each case the neck was broken immediately and there was no suffering or physical pain.

Wo Miung Sook did not spend the usual murderers' "quiet night" before execution. At about 2 o'clock this morning he roused Murderer Row in the jail by his cries, alternately of terror and bravado. He called for wine and wanted to try to enjoy himself. This man broke down at the last. He had to be supported on the scaffold and was speechless in the last awful moment before the drop. The man who stood beside him at that moment, Kang Yong Bok, spoke a few words, expressing his hope of mercy in the hereafter. The last murderer, who died alone, Shim Miung Ok, showed the bravest spirit of all. He spent all the morning in prayer and as he stood waiting for the noose he said he had committed a grievous sin and hoped that God would have mercy on his soul. He prayed at the last moment.

Aside from the physicians, guards and press representatives, there were only half a dozen persons present at the executions. All was managed very quietly and with the utmost discipline, High Sheriff Henry and Deputy Temple Bourke being personally in charge. The electric apparatus was fixed by W. L. Frazee. The springing of the trap was by pressing buttons. Three men pressed buttons at the giving of a signal and no one of them knew which was the button that connected the wires and sprung the trap.

The hanging of three men at one time is a very unusual thing and has seldom occurred in all America. The terrible strain of the responsibility for carrying out the law to such a conclusion was felt very deeply by all concerned, from Acting Governor Atkinson down. It was apparent among those gathered at the jail this morning, to complete the arrangements for taking the three lives.

Rojestvensky Resigns.

St. Petersburg, May 24.—The Emperor has accepted the resignation of Admiral Rojestvensky, owing to the illness of the Russian naval commander. The illness is thought to be due to wounds received by Admiral Rojestvensky in the battle with the Japanese fleet in the sea of Japan last May.

Breaks Automobile Record.

Lexington, Kentucky, May 24.—Oldfield has broken the automobile record, making one hundred miles in one hour and thirteen minutes. The former record for this distance was one hour, eighteen minutes and twenty-four seconds, made by Fletcher at Ormond, Fla., in 1905, on a straightaway course in a free for all contest. Oldfield had, previous to making this new record, held the track record for from 1 to 4 miles and from 6 to 50 miles.

Anarchists Escaped.

Honolulu, May 24.—There are three Russians alleged anarchists in town, escapes from the transport Sherman, who are said to have been not allowed to land in America on account of their undesirable character. They had been carried all the way from the Orient to San Francisco, to Seattle and back here, the intention being to take them back to Japan where they had stowed away, but in some way or other, with the assistance of some outsider, they got away here.

That they were regarded as important prisoners is shown by the fact the officer responsible for them made a personal offer of a hundred dollars for their recapture, just before the transport sailed. It is also said that the national authorities on the mainland had information regarding them and that President Roosevelt was in part responsible for instructions that they be not allowed to land at San Francisco, but instead be returned to the Orient.

Administration Influence For Bill.

Honolulu, May 24.—Acting Governor Atkinson has received a letter from Delegate Kalaniana'ole indicating that President Roosevelt is taking unusual interest in the fight for Hawaii's refunding bill. The Chief Executive of the nation, judging by the delegate's letter, shows an increasing interest in the welfare of Hawaii and in view of the action of the Senate yesterday it is regarded here as quite likely that the bill will pass.

Kuhio's letter says that the President has "taken the matter up personally with the Speaker and with both Mr. Payne and Mr. Dalzell. Col. Hepburn and other House leaders are looking after the measure," continues the letter, "and it is absolutely necessary for the present that we leave the campaign to their judgment; if we were to attempt to hurry the issue on unduly it might defeat our best chances of success."
The bill as it passed the Senate is understood to be the one which the House committee reported favorably. This is the original bill setting aside 75 per cent. of Hawaii federal revenues for use in the Territory, with an amendment cutting the term from twenty to five years.

Electric Car Casualty.

Lafayette, Indiana, May 23.—In an electric car collision here today one person was killed and sixty injured.

Fire in Another Alaskan City.

Fairbanks, Alaska, May 23.—This city has almost been destroyed by fire. The loss is about a million dollars.

San Francisco Banks Reopen.

Oakland, May 23.—The banks in San Francisco generally resumed business today. There was no excitement attending the reopening of the various institutions.

Proposed New States.

Washington, D. C., May 23.—It is reported that a compromise has been reached on the statehood bill. Under the terms of this agreement, Oklahoma and Indian Territory are to be admitted as one state, and the people of Arizona and New Mexico are to vote on the question of the union of the two.

Democratic Judges for Bryan.

Lima, Ohio, May 22.—The Democratic Judicial Convention today endorsed William J. Bryan for the presidency of the United States.

The Hilo Tribune.

TUESDAY - MAY 29, 1906

Entered at the Postoffice at Hilo, Hawaii, as second-class matter PUBLISHED EVERY TUESDAY. J. WHEERLOCK MARSH - Editor D. W. MARSH - Business Manager.

THE refund bill has passed the senate, that body not having waited to receive it from the house. This looks well for the bill and removes it from the danger that it might be crowded out of consideration by the upper branch of congress in the rush of the closing days of the session, now approaching. The bill passed is understood to be identical with the one reported on favorably by the committee of the House to which it had been referred. Meanwhile the powerful influence of the administration is being exerted in the House in behalf of the bill and the chances for it becoming a law look bright indeed. With this bill passed Hawaii will be placed upon the high road to prosperity, upon which it is to be hoped it will progress with good speed. Being so full of promise of the success of this measure most important for Hawaii, the news is the most welcome that has been received by the Islands for many a day.

CANDIDATES for the legislature, regardless of party, in this and the other counties, should be pledged to work for county government. Our so-called county government is but a poor counterfeit of the genuine article, for it is in reality territorial. County boards of supervisors we have to be sure, but endowed with no authority—legislative, executive or judicial. Their duties and responsibilities are restricted to the care of the roads, existing, or that the territory may establish—work suggestive of the prison gang—and to paying bills contracted for the county's benefit by the territory. County government has proven itself a success so far as its limited character would allow, and demonstrated that all that is lacking to its complete success is that it be put into full effect.

TO PRESIDENT ROOSEVELT is due the sincere gratitude of the people of the Islands for the success of the efforts in the cause of justice toward the Islands embodied in the refund bill. Without the active aid of the administration, events have made it evident the measure would have had little show of even a hearing. Should the bill fail in the House, as it will not, the meed of praise and thanks of the people of the Hawaiian Islands will be none the less due to the President, in this case, as ever, the champion of the cause of justice.

Offer Not Renewed.

The county clerks' office has received a communication from Acting Governor Atkinson enclosing a letter addressed to him from the superintendent of Public Works in reference to an exchange of land with Mrs. Joe Vierra for property to be taken in the widening of Bridge street. The superintendent says: "I would say that it is impossible for me to make any arrangements whereby a land exchange could be effected between the government and Mrs. J. Vierra in as much as (?) payment of Mrs. Vierra's claims. As she has refused to accept settlement on this basis, it does not seem to me that any further action can be taken except by the legislature."

Married in Manila.

Miss Margaret Tutt of San Francisco, fiancée of Captain Armistead, 21st Infantry, U. S. A., is a passenger on the transport Sherman for Manila, where she is to be married to that officer. Mrs. Tutt accompanies her daughter to the Philippines. Miss Tutt met Capt. Armistead and her fate in Honolulu last year while a guest at the Hawaiian Hotel. The captain had preceded his regiment a week and remained here until the transport carrying the regiment came through from San Francisco. During this brief period the couple met, and on arrival of the captain at Manila he wrote to Miss Tutt offering to lead her to the altar. She gave yes for a reply and is now on the way to fulfill her promise. Miss Tutt is stopping at the Moana Hotel.—Advertiser.

Married.

Mr. William S. Ellis and Mrs. Amelia Nakapahi of Hilo were married yesterday at the home of Mr. and Mrs. Eugene Buffandeau, Alexander street. The bride is a niece of Mrs. Nawahi and was educated at the English Priory. Mrs. Ellis will accompany her husband to the mainland next week.—Advertiser.

HILO'S BIG DAY.

Best Horses Coming For Races.—Leading Base Ball Team.

The program for the Fourth of July races has been arranged. They cover two days. Good purses are offered and the result is the best horses in the islands will appear on the track on these days. There are now in training at the track, of the free-for-all, Bruner and Racine Murphy, from Honolulu; and from this island: Egyptian Princess, St. Josef, So So and Alpheus. Of the Hawaiian-breds, there are at the track: Easter-day; a Shannondor colt; two Mailard colts and Gracie R., from the Motaarrat ranch, and a mare from the Hind's ranch. Not every horse applying is admitted and a number have been refused, leaving only the best and fastest to make some good races.

The track is being repaired and the infield fenced to make base ball ground enclosure.

Hilo expects to have two good days of sport and a big crowd is looked for. The special Kinau trip will enable those from abroad to take in the races or make a visit to the Volcano, if preferred. The base ball game promises to be something of a feature, as the Honolulu Athletic Club's team, the best in the territory, will probably come. A boxing contest by some Honolulu experts is also talked of as a possibility on the side. Another attractive feature will be the spectacular war drama put on by the Elks and Co. D.

Married.

Baker-Austin—At the home of the bride's mother, Mrs. S. L. Austin, Honolulu, T. H., May 21, 1906, Rev. Albert Sberburne Baker, and Miss Harriet Austin; Rev. O. H. Gulick, uncle of the bride, and Dr. D. Doremus Scudder officiating.

Following the ceremony a large number of friends attended the reception. The grounds were prettily illuminated with Japanese lanterns and refreshments were served on the lawn beneath the trees.

The popularity of the couple was attested by a beautiful array of gifts from their large circle of friends. The bride is an island girl and has been much interested in the work of various societies of the Central Union Church as well as of the Y. W. C. A. The groom is a missionary of the Hawaiian Board of Missions, with headquarters in Kona, Hawaii, where he has served the past year and a half. He came here from the mainland about that time. Rev. and Mrs. Baker will reside at Kealahou, Hawaii.

Incorporation Papers Filed.

A meeting of the stockholders of the Hilo Pineapple Co. was held at the residence of the Judge Lyman Saturday afternoon. At this meeting articles of association and incorporation were duly signed by the following as incorporators: F. S. Lyman, Levi C. Lyman, H. E. Kelsey, D. E. Metzger, and Thos. Mutch, and have been sent to L. A. Andrews, also one of the incorporators, for his signature. Mr. Andrews will forward the same to Honolulu for approval. The officers of the company are: L. A. Andrews, vice president; Levi C. Lyman, Secretary; H. E. Kelsey, Treasurer; D. E. Metzger, Auditor.

The company have accepted the pineapple ranch of H. E. Kelsey at Kaiwika, 14.7 acres; 20 acres of land at Kaumana from L. C. Lyman, and 47.7 acres at Kaumana from Thos. Mutch, for stock issued; also 15,000 pineapple plants, of F. S. Lyman; 10,000, of L. A. Andrews, and a nursery of 8,000 stumps, of Wm. Kinney.

Close of Year at Boarding School

The year at the Hilo Boarding School closes on Tuesday, June 12. A class of eight graduate and the commencement exercises will occur on the evening of that day. On Thursday, the 14th, the graduating class will give the usual graduating class luau but the class this year will depart from the usual custom of planting a class tree with exercises, in connection with the dinner, and, instead, will erect a class monument out of columns of basalt, brought by the members of the class, with no little difficulty, from the vicinity of Rainbow Falls, where this formation of the lava rock is to be found very perfect. The exercises of this day will be the last before the students separate for the summer vacation. Of the teachers, Mr. Neff expects to return to Ohio to finish his studies at the University of Wooster. Mr. J. O. Warner, a this year's graduate of the University of Wooster, has been engaged to take the position that Mr. Neff vacates.

To Entertain Editors.

Some time this fall the Editorial Association of Southern California will visit Hawaii. The Promotion Committee of Honolulu recently called a meeting of editors to consider entertainment. The visitors are to be taken on trips about the Island of Oahu, and to be given a luau. A trip to the Volcano, Hawaii's leading attraction, may be provided for the visitors, if satisfactory arrangements can be made.

Wednesday being a legal holiday the postoffice will be closed all day excepting one hour in the morning, from 8 to 9 o'clock. In the afternoon on the arrival of the Kinau the office will be kept open as long as is necessary to deliver the mail.

A Valuable Work.

An interesting and valuable compilation of facts, reference tables and statistics, bearing on the conditions existing in the Territory of Hawaii for the fiscal period of eight years, ending June 30, 1905, was prepared from authoritative and official sources by A. B. Loebeustein, delegate from the chamber of commerce of the Island of Hawaii, for the consideration by the 59th Congress of House Bill No. 15014, the Refund Bill. Besides statistics, it contains many valuable articles on a number of subjects, prepared by specialists, and considerable information that is not to be found elsewhere. It is a valuable work that should be published and preserved.

Contract Let For Building.

The contract for building the Hilo high school has been awarded to J. Erickson, minus the furniture. The high school is to be a frame building under the new arrangement, with a concrete foundation. The bids were as follows: L. M. Whitehouse, building \$19,099, furniture \$1171, to be finished in 240 days; Concrete Construction Company, building \$19,820, furniture \$1695, to be finished in 250 days; J. Erickson, \$17,925, furniture \$2085, time 200 days; R. Wery, building \$18,320, furniture \$2037.50, time 200 days.

Flying Fish Story.

A school of flying fish attacked the steamer Claudine last Monday morning in the Hawaiian channel. The vessel was crossing in the early morning. She was throwing her search-light. The light evidently attracted and scared the fish, for suddenly a swarm of them rose out of the water and flew over the bow of the vessel.

It seemed as if a silver cloud was rising from the sea. One very large fish measuring twelve inches in length flew squarely against the search-light, broke the glass, and put the machine out of commission.

Alluring Offers.

Japanese carpenters and painters are being approached by white promoters with a view to engaging them to go to San Francisco. The promoters tell the Japanese that they can earn from \$10 to \$15 per day during the rebuilding of San Francisco. Many of the Japanese have stated their willingness to go. Others believe that the bait is too large and that the figures will shrink when it comes to handing out the coin. Then there are the labor unions to consider.—Advertiser.

Second Turn to the Left.

While Robert Louis Stevenson the novelist was paying his last visit to his native land a friend, whose recollection of geography was rather shaky, asked, "Where the deuce is Samoa, Stevenson?" "It's the second turn to the left after you leave San Francisco," said Robert Louis, whose memory of maps only ran to recollection that in going to Samoa from the Pacific coast one always stopped first at Honolulu.

A Record Breaker.

Last week the Hawaiian Commercial & Sugar Company's mill at Puunene ground over fourteen thousand tons of cane and manufactured two thousand one hundred tons of raw sugar. This was done in six days time, and is the record breaker of the world, and far in excess of anything thought possible a few years ago. It is an average of three hundred and fifty tons per day.—Maui News.

Do Not Neglect the Children.

At this season of the year the first unnatural looseness of a child's bowels should have immediate attention. The best thing that can be given is Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by castor oil as directed with each bottle of the remedy. This remedy can always be depended upon, and when reduced with water and sweetened is pleasant to take. Sold by Hilo Drug Co.

Subscribe for the TRIBUNE Subscription \$2.50 a year.

News Miscellaneous.

New York, May 16.—R. H. Harriman, President of the Southern Pacific Railway Company, is at work forming a company to loan \$100,000,000 for the purpose of enabling the reconstruction of San Francisco to be commenced.

Washington, D. C., May 16.—The Senate Committee voted in favor of a sea level canal for Panama.

Oakland, May 16.—Two hundred thousand yen for the San Francisco relief fund has been received from Japan.

Oakland, May 16.—It has been decided to rebuild Stanford University.

Oakland, May 17.—Soldiers are still guarding the sub-treasury in San Francisco. The Soldiers dispersed a large gang who had assembled for the purpose of looting last night. Thirty shots were fired at the marauders by the soldiers.

Victoria, B. C. May 17.—The Imperial garrison at Esquimalt has departed for England and has been replaced by Canadian troops.

Washington, May 17.—The House Committee on Commerce has agreed to an appropriation of \$60,000 for a lighthouse on Makapu Point, Island of Oahu, and \$40,000 for lights at Honolulu.

Oakland, May 18.—The yachts Lurline and Anemone are expected to arrive here soon and the yacht race from San Francisco to Honolulu begin.

Washington, D. C. May 18.—The railroad rate bill has passed the Senate. There were only three noes.

San Francisco, May 18.—A slight earthquake shock was felt here last night. There was no damage.

Oakland, May 18.—Barracks to accommodate 5000 homeless people have been erected in Golden Gate Park, San Francisco.

Washington, May 18.—The House has passed the Naval Appropriations Bill, carrying one hundred millions of dollars.

Tokio, May 19.—Jacob Schiff has sailed for Vancouver.

Peking, May 19.—Japanese will support the demand of Great Britain for an explanation of the recent changes in the customs service.

Marquette, Mich., May 19.—A hundred square miles have been swept by the forest fires. A number of small towns have been destroyed.

Manila, May 19.—The regular troops have been ordered to campaign against the Pulajanes in Samar.

Rome, May 16.—The new simple tunnel was opened today by the King.

London, May 19.—Four hundred women suffragists yesterday interviewed Campbell-Bannerman, and asked for the immediate extension of the right of suffrage to them. The Premier, while he expressed sympathy for the cause represented by the delegation, counseled patience.

Havana, May 20.—Senor Palma has been inaugurated as President of Cuba. The Liberals in Congress were absent from the ceremonies.

San Francisco, May 20.—Puter, wanted in connection with the Oregon land frauds, has been arrested.

New York, May 10.—Two deaths from heat were reported yesterday.

Milwaukee, Wis., May 20.—The forest fires are dying out. Four persons are known to be dead, and several are missing. An area of one hundred square miles was swept by the flames, four towns were completely destroyed, and a dozen partially burned. The property loss will amount to several millions of dollars.

Oakland, Cal., May 21.—The Reconstruction Committee of San Francisco has adopted the Burnham plan to be followed out in rebuilding the city. These plans were laid out by Architect Burnham some years ago and provide for a model city.

Washington, D. C., May 21.—The Federal Supreme Court has decided against Senator Burton in his appeal from the Kansas District Court.

Grand Rapids, Mich., May 19.—Two sharp shocks of earthquakes have been felt throughout Western Michigan.

St Petersburg, Russia, May 21.—It is rumored that a military court has condemned to death General Stoessel, who surrendered Port Arthur to the Japanese, and Admiral Nebogatoff, who surrendered his section of Rojstvensky's fleet to the Japanese.

BY AUTHORITY.

Boundary Notice.

The hearing of application to settle the boundaries of a portion of Kahua 2nd, Hilo, Hawaii, set for May 31st, is continued until Thursday, June 28th, 1906. F. S. LYMAN, Commissioner of Boundaries.

AT CHAMBERS—IN PROBATE.

In the matter of the Estate of BERNARD DA CAMARA, Sr., deceased.

ORDER OF NOTICE OF PETITION FOR ALLOWANCE OF FINAL ACCOUNTS AND DISCHARGE IN DECEASED ESTATES.

On reading and filing the petition and accounts of Jose da Camara, Administrator of the Estate of Bernard da Camara, Sr., deceased, wherein he asks to be allowed \$1,251.60, and he charges himself with \$1,251.60, and asks that the same may be examined and approved, and that a final order may be made of distribution of the property remaining in his hands to the persons thereto entitled, and discharging him and his sureties from all further responsibility as such Administrator.

IT IS ORDERED, that Tuesday, the 19th day of June, A. D. 1906, at ten o'clock a. m., before the Judge of said Court at the court room of the said Court at South Hilo, Island of Hawaii, be and the same hereby is appointed as the time and place for hearing said petition and accounts, and that all persons interested may then and there appear and show cause, if any they have, why the same should not be granted, and may present evidence as to who are entitled to the said property. And that notice of this order, in the English language, be published in the Hilo Tribune newspaper, printed and published in Hilo, for four successive weeks, the last publication to be not less than two weeks previous to the time therein appointed for said hearing. Dated at Hilo this 10th day of May, 1906. CHARLES F. PARSONS, Judge.

Attest: A. S. LE BARON GURNEY, Clerk of the Circuit Court of the Fourth Circuit.

REBUILDING PLAN ADOPTED.

San Francisco To Be Among World's Model Cities.

The reconstruction committee of San Francisco has adopted the Burnham plan of rebuilding the city.

Months ago, then, plotting only to make the best of the city that was, San Francisco commissioned Daniel H. Burnham of Chicago to plan its superficial future. Mr. Burnham is well known as "the builder of cities." He laid out the "White City" at Chicago. He was one of the four architects who devised the scheme of municipal adornment now being followed at Washington. In January, 1904, a band of earnest, ambitious Californians got together and formed an "association for the improvement and adornment of San Francisco." Ex-Mayor Phelan, a wealthy man, who made the "city beautiful" a good deal of a hobby during his term at the city hall, was made president. The association effected alliance with the outdoor art league and other local societies at work in the same field, got money concessions from the city government, and called for Mr. Burnham.

HOW FIRE AND EARTHQUAKE HELPED.

He contributed service of consultation. For his assistant, Mr. Bennett, and his draftsmen, a bungalow was built on the slopes of the Twin Peaks, where they could constantly look out over the panorama of city and bay and mountain. The plans were finished. They not been approved yet by the city, but it was felt that they would be, and that, bit by bit as the people could afford it, they would be woven into reality. The earthquake has left some serious obstacles—how serious cannot be told until San Francisco's worth in the eyes of capital as a place of big undertakings is determined. But it has moved others. Chinatown was one of them. It has been felt for years that somehow, sometime, Chinatown would have to go. But the Chinese have held fast to their huddle. Much of it was owned by them. Finally a stock company was formed for the building of a Chinese city at Hunter's point, on the bay shore south of San Francisco, and the conversion of the present Chinatown into a modern business district of wide streets and improved grades. It was a big job that this company undertook and little headway had been made. But presto! this not all malignant fire wipes Chinatown off the earth, and the mayor of San Francisco has announced that the Chinese will hereafter be segregated at this very Hunter's point spot to which they were theoretically consigned some time ago.

THE BURNHAM PLAN.

The nucleus of the Burnham plan is what he calls the "civic center." Washington's civic center is the capitol; San Francisco's is to be in the neighborhood of the now wrecked city hall. This is to be the hub of the town, from which great streets will radiate, with sub-centers—subordinate hubs—in various parts of the city. The boulevard system of Paris is to be taken as a general model. A great encircling boulevard, giving access to all centers of the city without the necessity of passing through the congested districts, is the main feature of the plan. San Francisco is built on a peninsula, with water on three sides. It is planned to make the encircling boulevard a broad, dignified and continuous driveway, skirting the water's edge. Within this ring it is planned to have a number of smaller concentric rings, separated by boulevards. The smallest of these rings, inclosing the civic center—that part of the city which plays the most important part in civic life—is located at or near the geographical center. The shape of the rings necessarily must be so made as to conform to the shape of the city.

A WHEEL OF FINE THOROUGHFARES

From the inner circuit boulevard diagonal arteries are to be run to every section of the city and to the surrounding country. They are to

traverse in succession the diminishing circuit boulevards and finally reach the center or group of centers, thus forming continuous streets reaching from one side of the city to the other. Once the western section of the city has been built up, the only opening for further development beyond the present boundaries will be toward the south. As far as land communication goes there are only three routes to the southern country and the circulation of supplies from the city to the suburbs and country beyond.

It is intended to make the proposed Mission boulevard and its continuation, the Camino Real, the backbone of the system. It has been proposed to build it on dimensions corresponding to its future importance. The civic center is intended to be one of administration, education, amusement and of education of the finer order. With the subcenters the distribution of groups of buildings will be as follows: The civic center is to contain the city hall, court of justice, custom house, appraisers' building, state building, government building and postoffice. Plans have been made for another group of buildings, public or private, of monumental character and of great civic interest relating to matters literary, musical, expository, professional and religious. Some of these probably will be the library, opera house, concert hall, municipal theater, academy of art, technical and industrial school, museum of art, museum of natural history, academy of music, exhibition hall and assembly hall.

It has been planned that these buildings, placed in economic relation, shall face on the avenue forming the perimeter of distribution, and on the radial arteries within, particularly on public places formed by their intersections. The plans include extensive settings on all sides, contributing to public rest and recreation, and adapted to fetes, celebrations etc. It has been considered that by being removed from the rush of business activity these buildings will gain in repose and strengthen the public's sensibility of the dignity and responsibility of citizenship. On the chief radial line to this place will be placed the union railway station, forming a vestibule to the heart of the city. It is intended that theaters and other places of amusement shall be grouped on some one large street near the center with plenty of room for vehicles coming and going.

TEN MILES OF WATER FRONT.

The docks, wharves and freight-houses naturally group on the water front. The originators of the plan intend that the water front district shall be so arranged as to admit of indefinite expansion and connected with a complete system of warehouses—served on one hand by railroad tracks or canals and on the other by broad roadways.

TRANSPORTATION UNDERGROUND.

Rapid underground transit and a traffic tunnel through Ashbury Heights are other features of the plan. It is proposed that the main diagonal arteries of the city shall be provided with underground transportation, and that underground loops shall be excavated under the centers. The financial center is to comprise banks, exchanges, insurance buildings and general office structures. It is planned to have it easily accessible from the wholesale and retail quarter and also from the administrative center. It may be a financial forum, from the center of which it may be practicable to exclude vehicles. In the form of a court or series of courts it probably will be fronted with the most frequented and important institutions. The new city has been so planned as to make it one of the easiest cities in the world to get around in.

Des Moines, Iowa, May 19—

A platform upon which were seated five hundred delegates to the Presbyterian assembly in session here, collapsed last night and five persons were slightly injured.

FRONT ST., OP. SPRECKEL'S BLOCK

AN ALIBI

(Original.)

It was a winter night. The wind was driving a tempest of snowflakes. The street lamps shone dim. Except for the storm there was not a sound. No footfall could be heard on the snow, and there was no one abroad.

I had reached the town of M. a few minutes before by train and, finding no conveyance at the station, had started to walk to my hotel.

Suddenly, midway between street lamps, where it was dark, I ran against a man. I stood stock still. The snow on either side of us was deep, and I waited for the man to divide the way with me. Instead of that he began to talk to himself incoherently, seeming to be unconscious of my presence.

"Horrible," he muttered, "horrible! Death—death that might be prevented by a little loose change he may have had in his pocket, and he wouldn't give it. He's a dog, a murderer. I hope I may see him burn with an everlasting fire."

"You seem in trouble," I said in a kindly tone.

"Trouble! Isn't it trouble that there's but one person in the world who can help and who won't help? I told him mother was dying; that I had been sent to the drug store for a prescription and hadn't a cent to pay. He told me to get out."

I remembered that all my change had been spent, and I had only a ten dollar bill. I would go with the young man to a drug store, pay for the medicine he required and give him something besides.

"Come," I said, "lead the way to a drug store."

"I only fear they are all closed," he said. "It's very late."

He led me to one drug store after another. We found every one closed and no one to answer a night bell. I had been with him nearly an hour. This I knew, for I had arrived at ten minutes after 11 and the town clock was now striking 12, and, having made a failure, I was obliged to let him go home without his medicine. As we were about to part I was fumbling in my trousers pocket with my keys and other articles, when I clasped a silver half dollar.

"Here," I said, "take this coin. It's a pocket piece of the year of my marriage, with my wife's and my initials scratched on it. Take it. You'll need it, and more."

He seized the piece eagerly, then turned and vanished in the darkness.

It was three months after this that I had occasion to go to M. again. I am a lawyer by profession and had a case to come off in court there. Having some time to spare at the courthouse before my case would be called, I strolled into the criminal court room.

A man was being tried for the murder of his uncle. It seemed to be a very plain case against the accused. He was very poor and his uncle was very rich, and the accused was sole heir at law. The prosecuting attorney proved conclusively that the young man had every inducement to kill his uncle from the fact that the old man was making arrangements to leave all his property to endow certain institutions. It did not appear to me that the defense had any case at all. Indeed, the last person known to have been with the murdered man, and that only an hour before his death, was the accused.

There were so many heads between me and the prisoner that I did not for some time get a good look at him. When I did, there was something about his face and figure that was familiar to me. The prosecuting attorney was summing up to the jury.

"We have proved," he said, "that the prisoner was with the murdered man as late as 11 o'clock; how much later we cannot prove, but no one saw him leave. At half past 11 a cry was heard; a maid entered the old man's bedroom and found him dying. There was a convenient door for the murderer's escape without being seen. At half past 12 the prisoner was arrested on the street muttering maledictions against his uncle."

The last words brought back a picture that had appeared to me on that stormy night three months before. I waited till the speaker had finished, then said to the judge:

"Your honor, I am an attorney. I believe I can throw some light on this case and request your permission to examine the prisoner."

After much wrangling permission was granted.

"Have you ever seen me before?" I asked.

"Not that I remember."

"Did I not meet you one night three months ago when you were going for medicine for your mother?"

"I met a man. If I could find him I could prove my innocence."

"What did you do with the coin he gave you?"

"I gave it to my mother. It is now in the hands of my attorney."

"On that coin," I said, turning to the jury, "are my initials and those of my wife. It is a half dollar coined in 1891. I met this young man on the night of Jan. 20 last a few minutes after 11 and remained with him till shortly after 12."

Amid a sensation the coin was produced and found to be as I had stated. The jury found a verdict of not guilty without leaving their seats.

About to be convicted, the killing found himself exonerated and heir to a fortune. I met him and his mother soon after the trial at their home and found her recovered from an illness that lasted till her son's acquittal. They have since been among my best friends.

CHARLES P. THURBER.

APPLICATIONS TOO "PREVIOUS"

Leases Have Some Time to Run, Pratt Says Watt.

Land Commissioner Pratt has decided not to receive the applications for the opening of various tracts of land in Hilo district, which have been pouring into the land office from several new settlement associations by the last two Hilo mails, says the Bulletin.

He takes this action after having conferred about the matter with the Acting Governor, who approves of this course. Pratt will write to the various settlement associations concerned to this effect, and will advise them of his reasons for standing them off.

"I am going to write to the settlement associations which applied for the opening of various tracts of government land in Hilo district, advising them that I will not receive their applications," said Land Commissioner Pratt today while discussing the matter. "Also that I do so with the approval of the Acting Governor. The reason why I will not receive these applications, is in the fact that the leases, under which the lands in question are at present being held, will not expire for periods ranging from fifteen months to four years. These associations evidently filed their applications at this time with the idea, that if they were received, their members would be in on the ground floor, and would have first choice of the land when it was finally opened. Now, it would manifestly be unfair that these people should in that manner be allowed the pick of these lands to the exclusion of all others, even citizens who might be as well qualified to take them up as they are. I am going to explain this in my letters to them, and also the fact that the refusal of their request must not in any way be interpreted as a refusal on my part to open the lands in question, when they revert to the government, upon the termination of the leases under which they are now held."

The settlement associations referred to are as follows: The Kaone Settlement Association, which wants the Kawaiui tract at Onomea, the lease of which expires on July 19, 1908; the Kaapoko Settlement Association, which applies for the 106-acre Kaapoko tract at Papaikou, the lease of which terminates March 16, 1907; the Antone de Souza Settlement Association, which seeks the 210-acre Kaupakua tract at Pepekeo, which is under a lease that has until June 17, 1907, to run; J. M. Kau Settlement Association, which is after the Kaieie tract, between Papaikou and Onomea, which is leased until July 1, 1910, and one more association.

Rubber Has Bright Prospects.
Messrs. R. A. Wadsworth and W. L. Decoto of the Koolau Rubber Company have returned from a personal inspection of the company's plantation at Nahiku and are highly pleased with the outlook of rubber on their plantation and the others in that vicinity. Mr. Wadsworth says the trees that were planted from seed last June are now as high as fifteen feet and are thriving beyond belief. The company has twenty-five acres planted or ten thousand trees all of which are doing well. Practically all of the lands are cleared and ready for planting and as soon as the seed and plants arrive, which will be soon, the work will go rapidly on.

The lands were practically all covered with a heavy growth of trees and brush and it has cost but six dollars per acre to clear the land while the digging of the holes for the planting has cost but one cent per hole. This is due principally to the fact that the soil is loose and free from stones and as it is free from grass it is an easy proposition.

It is confidently expected that the growing of rubber will be one of the most successful industries on the island and will make possible the utilization of many acres of land that are now useless.—Maui News.

All Hawaiians For Kuhio.

Col. Iaukea's advice that Hawaiians stand by Kuhio shows that the color line is being sharply drawn in the Congressional contest. Col. Iaukea is the Democrat who ran for Congress against Kuhio two years ago. Most Hawaiian politicians agree with Colonel Iaukea in this matter and the more potent ones in all three parties are expected to unite and push Kuhio to the front. His friends have no hesitation in saying that, if he is denied the Republican nomination, he will be supported by the great majority of native voters as an independent candidate. Hawaiians have come to regard the post of Delegate as their own race prize and are jealous of any attempt which may be made to get it, even temporarily, for a white man.—Advertiser.

An American Remedy.

There is probably no medicine manufactured that can be found in more homes in the United States than Chamberlain's Colic, Cholera and Diarrhoea Remedy. It has been in general use for over thirty years and each successive epidemic of Diarrhoea and dysentery during this time has tested its merit and proved its superiority over all similar preparations. The reliability and prompt cures of this remedy have won for it the confidence of many physicians who often prescribe it in their practice. No case has ever yet been reported where its use has failed to give relief. This remedy is for sale in this city by Hilo Drug Co.

The meeting of the Catholic Ladies' Aid Society will be held at St. Joseph's school next Friday at 2:30 p. m.—S. de Mello, Secretary.

The new steamer Hilonian is expected to arrive in about two weeks and thereafter a Matson steamer may be expected to arrive from the Coast about every two weeks.

Sheriff Keolanui arrived home from Kailua Sunday, where he has been for the past month in attendance upon Circuit Court. He is glad to return to the cooler climate of Hilo.

If you wish your coffee to bring the highest market prices let the Hilo Coffee Mill clean, classify and place the same on the market for you. Liberal cash advances made on shipments.

Suit lengths at cut prices at Economic. Call and see them.

Demoisthenes Lycurgus is expected to arrive by the Manahua on June 1. Mr. Lycurgus has been absent a year visiting at Sparta, Greece, his old home. On his return will take charge of the Volcano House.

The bark Annie Johnson arrived Sunday, fourteen days from San Francisco. She brought a miscellaneous freight cargo and two passengers, Blanche Nilson the Captain's little daughter, and her friend Hattie James.

Captain Gove of the schooner W. H. Marston was married to Miss May Blossom in San Francisco May 10. They will enjoy the honeymoon on the vessel as she sails from San Francisco for Hilo.—Star.

Attention is called to the change in the Hilo Drug Co. ad.

Road Supervisor Lyman has had the prison gang employed for the past two or three weeks clearing up the roadside in Makaolu addition, and has made a great improvement in appearances in that locality. The past week the gang has been transferred to Front Street rebuilding the roadway beginning at the railroad track and working toward Hilo.

Some Extra Mails.

The Kinau Wednesday brought a big foreign mail to Hilo. Another foreign mail was landed at Laupahoehoe Friday by the Kaulani, and still another extra mail containing a small amount of foreign was received at the post office Saturday afternoon. These in addition to the big Alameda mail brought by the Claudine Sunday. The Enterprise, also, arrived from San Francisco Monday, but brought no mails.

For Safer Keeping.

Secretary Lydecker, of the Board of Archives, arrived from Honolulu by the last Kinau and has been engaged in making an inventory of, and boxing for shipment all the Territorial court records and Hawaiian government records at Hilo. Thirty-two boxes, large and small, are required to contain them. These records are to be taken to the new fire-proof archives building that will soon be completed in Honolulu.

Low Rate To Volcano.

The advertiser says: "Summer rates at the Volcano House will be put into effect for June, July and August on June 1. For the three months George Lycurgus will make a rate of \$45, leaving Honolulu any Tuesday by the Kinau and returning on the Saturday of the week following. This includes traveling expenses and hotel bills for the eleven days."

Enterprise Arrived.

The steamer Enterprise arrived from San Francisco at 1 p. m. Monday with a miscellaneous freight cargo and the following list of passengers: Miss Coudry, Miss Margaret Scott, Miss Clara Shipman, Miss Florence Shipman, Albert Horner, Jr., R. I. Lillie, Miss Erma Schutte, Mrs. Capt. Youngren and Herman Youngren. The Enterprise will go to Honolulu as usual.

Successful Church Social.

The entertainment given Friday evening by the young ladies of the First Foreign Church at the church parlors was one of the most successful in the history of Hilo church socials. A guessing game was played, after which vocal and instrumental solos were rendered. An excellent number, in which Miss Frank Potter read selections from "Hiawatha," accompanied upon the piano by her sister, Miss Caroline Potter, was well received. The literary program was brought to a close by the production of the tragedy-comedy entitled "An Interrupted Proposal" by some stars from the entertainment committee of the Order of the Eastern Star. The cast of characters was as follows: Mr. N. Peck, T. Stone, L. Severance; Mrs. Stone, Mrs. E. N. Holmes; Miss Stone, Mrs. D. A. Loebenstein; Mrs. Ramsey, an aunt, Mrs. D. W. Marsh; Mrs. Steve Howard, her nephew, E. E. Richards; Betty, a maid, Miss Mable Wise; Mr. Tracy, J. U. Smith. Delicious ice cream of various kinds was afterwards served.

Lieut. Lyman To Manila.

Second Lieutenant Clarence K. Lyman, 4th Cavalry, U. S. A., is a through passenger on the transport Sherman en route to the Philippines to join his regiment. Lieut. Lyman is Hawaii's first regular army officer, having been sent to West Point from here five years ago. This is his second visit home since his graduation. He was met at the dock by his father. Lieut. Lyman's younger brother is now at West Point, having been appointed by Delegate Kalaniana'ole. Young Lyman's home is at Hilo, Hawaii.—Advertiser.

Question of Public Policy.

The commissioner of Public Lands addresses a letter to the Board of Supervisors enclosing an application of Chas. Furneaux for 26 1/2 acres of land in the Volcano Road Forest Reserve. The commissioner writes: "I would respectfully request you to express your views," etc. "If Government disposes of this section, other sections will probably be applied for and the applicants will naturally expect to receive the same privileges granted in this case, therefore, the disposition of this application may be taken to define the policy of the government."

Kona Deal Closed.

The Kona lumber company, organized for the purpose of getting out lumber on the Bishop estate lands in Kau, is practically formed. O. T. Shipman signed the papers on Thursday and it is expected that the Bishop estate trustees will act upon them favorably at a meeting to be held soon. This deal was engineered by the Henry Waterhouse Trust Co., President Shingle looking after the details. Mr. Richey will probably return to Hilo this Kinau, and work will begin as soon as the necessary machinery can be installed. George Lycurgus will be one of the organizers.

Kinau Arrivals, May 23th.

J. A. Scott, J. Watt, J. T. Moir, Mrs. J. M. Ross, Mr. J. M. Ross, Miss S. Mahaila, Miss C. M. Erbeck, J. Manuia, T. Mullen, J. Robertson, A. Lindsay, O. E. McCarthy, R. C. Lydecker, Miss M. Creighton, Mrs. W. Elemenkule, Miss E. Elemenkule, G. Arioli & wife, Rev. S. L. Desha, R. A. Lucas, Miss Maria Mahoe, Mesk Matsumura & Infant, W. H. C. Campbell, F. L. Winter, W. Pullar, J. Webster, J. M. Kaula, Col. P. Robbins, W. C. Mikulich & wife.

The Kennel Club.

Considerable interest is apparently being taken by the local dog fanciers in the organization of the proposed Kennel Club. The rules and regulations of the national union of dog fanciers have been sent for to Honolulu, also an authorization to organize. On receipt of the latter the first meeting will be held—a sort of stockholders' meeting, the "stock" in this case being dogs. Announcement of the date of the first bench show, it is supposed, will follow organization shortly.

First House For New Village.

A house on Ponoahaw street, that had become the property of the government through the expiration of a lease to the land upon which it stood, was sold at auction by the Public Works department on Saturday. Being a house of very respectable dimensions, it was bought by G. P. Alfonso and Joao Soares for removal to Kaiwika Point, where it will be the first house in the proposed village of Andersonville, to be built by the Osorio association at that place.

Konigschofer-Loebenstein Wedding.

An Oakland exchange contains the following: Cupid has been as busy in Alameda as elsewhere during these extraordinary times. One of his pranks that will greatly interest the people here was marriage of Leon Konigschofer, one of the most prominent young business men, to Miss Rita May Loebenstein. The ceremony took place yesterday morning on the arrival of the steamer Ventura, on which the bride came from Honolulu.—Advertiser.

A Medicine that Will Cure Chronic Diarrhoea.

Chamberlain's Colic Cholera and Diarrhoea Remedy is the most successful medicine in the world for bowel complaints, and is the only remedy that will cure chronic diarrhoea. Every bottle is warranted. For sale by Hilo Drug Co.

DECORATION DAY EXERCISES.

Services in Hall Church—Military Ceremonials at Cemetery.

Decoration Day will be observed Wednesday with services at the Hall church, beginning at 2:30 p. m. The services will be conducted by Rev. C. E. Shields and Rev. S. L. Desha. Carl S. Smith will deliver the address and there will be music by the Co. D double quartet, also a production entitled "Our Flag," rendered by the school children of the city under the direction of Miss Josephine Deyo. Co. D will attend as a company, also the Hilo Boarding School boys in company organization. After the services Co. D and the Boarding School company, as an escort to the grand army, will march to the cemetery where decoration ceremonies will be performed according to the army regulations. The band will also be present and play at the cemetery. Mrs. Terry has the decoration in charge and flowers for the purpose may be left with her. Mrs. Jarret T. Lewis has the direction of the music.

Performers are Enthusiastic.

If enthusiasm and attention to rehearsals count for anything, the war play "Santiago," to be given jointly by the Elks and Company D, is bound to be a splendid success. Every Wednesday and Saturday evening the Hilo Armory re-echoes with stage thunder and the rattle of musketry, which is being rehearsed to give realism to the war drama. The performers in the cast have been quick to respond to the stage directions under the supervision of Mrs. A. G. Curtis, and as the various scenes of the play have been quickly learned, the interest of those taking part increases.

Some heretofore undiscovered talent has been introduced into the cast, which will prove a surprise to the community and to those fortunate enough to witness this thrilling war drama. Neither pains nor expense are being spared to make "Santiago" a mammoth spectacular production, seldom seen outside of the legitimate stage on the mainland, and it promises to be the principal feature of the Fourth of July celebration.

Engagement Announced.

Major and Mrs. J. H. Morgan, 9th Cavalry at Fort Riley, Kansas, writes our Honolulu correspondent, invited in a number of their friends on the 10th inst. to announce the engagement of their daughter Mary to Lieut. Clarence K. Lyman of the 4th Cavalry. Miss Morgan is one of the prettiest and most popular of last year's debutantes. Young Lyman is different from most of the "cotton tails" who have been in Honolulu. Generally, as the transports approach the dock they are seen in their best bibs and tuckers looking among the crowd; but Lyman has never been known to appear on the streets in uniform. At the hotel dances he is always in citizen's clothes, and when he reached here last week he skipped ashore, a handsome chap, but with not a scrap of uniform.

First Foreign Church.

Sabbath, June 3, 11 a. m.—Annual Children's Day exercises of the Sabbath School. 7:30 p. m. Union meeting in the Hall church.

Notice.

Gouvea, the horse-shoer, has located a the corner of Front and King streets, makai. He is a first class mechanic in his line and guarantees the best work in Hilo. He respectfully solicits the patronage of all, old customers and new.

Notice.

Applications for sewer connections must be made at the office of the Hilo Water Works and Sewers.
W. VANNATTA,
Supt. of Sewers.
Hilo, May 22, 1906. 30-tmo

STOP FLIES

This Valuable Solution is a Most Necessary Article where there are

Horses and Cattle

Especially so in this Hawaiian climate where the stock are so annoyed at various seasons by so many pests, such as the dreaded HORN FLY, the HORSE FLY and the HOUSE FLY.

"Stop Flies" is an antiseptic and disinfectant solution and eliminates these pests from the stables, house and from the stock. Horn Flies, Horse Flies, etc., are kept away from the animals by spraying each morning. This insures comfort and ease for the tortured animals.

INTERESTING NEWS LETTER.

Politics, Business, Society—Advice to
Hilo.—Dillingham and the
Railroad.

(From the Tribune's Special Correspondent.)

Honolulu, May 22, 1906.

Honolulu has been singularly quiet during the past week. The only occurrence of any interest to the people of Hawaii are the commutation of the sentences of three of the Korean murderers in accordance with resolutions passed by the Science Club.

It seems that a review of the testimony did not develop half the harrowing details that were reported in the newspapers and the committee of the club after a careful investigation of the details and a sifting of the evidence declared for a pardon for one of the men and commutations for the others. A member of the club said to-day that any paid lawyer could obtain a new trial for all of them on the instructions given by the judge upon the request of the prosecution and to which the attorney for the defense made no objection. The matter in point was that part of the argument of prosecution relating to confessions. The attorney referred to said that the constitution gives every man the right to a fair trial and provides that a confession shall apply only to the individual making it and not to others. It seems that the prosecution took an opposite view and asked that the jury be so instructed. It is possible there will be further commutations before the time set for the hanging. It is believed that the governor will exercise his power and pardon one man who is not believed to have had any part in the murder.

Another item of interest is the announcement of the engagement of Mrs. Adele Berg, who is said to have once lived Hilo, to K. S. Gjerdrum, manager of the Honoukaa Sugar Co.

Still another is the marriage of Mrs. Amelia Nakapuahi to William Ellis, a singer of local repute and a member of the quartette club that will accompany the band to the States. His wife will go with him. Mr. and Mrs. Cunha, formerly Miss Beckley, will also go with the band. They were married on Sunday.

I heard a Hilo man make a suggestion today in the matter of labor that seems really worth while. Talking of labor and the scarcity of it here, he said the planters association is paying a price to get laborers here from Japan. They do not come as assisted emigrants, perhaps, but when they leave Japan they are what, under the law, would be assisted; reaching Hawaii they may be just plain immigrants, and he suggested that instead of spending the money to bring new ones here every month, and having them only a few months, it might be as well to add the cost to the wages of the men already here and have men familiar with the work. The idea seems to be a good one but it might not be as practicable as it sounded to uneducated ears.

The big mail boat Korean arrived this morning and will leave for the mainland on Wednesday. She had room here for but seventeen cabin passengers. It seems an unusual proceeding for a mail boat to wait so long for the main purpose of taking aboard as cargo 4,000 tons of sugar. The port, it seems, is so congested that it was absolutely necessary that some such arrangement be made.

Ollie Shipman is expected tomorrow on the Mauna Loa to close a deal for the cutting of timber on his lands in Kau. This is the Richley deal that has been under consideration for almost a year and which has missed fire several times in the interval.

Supervisor Woods has been here for a few days. He seems to have recovered from his cold and will go back to Hawaii by the Kinau. George Lycurgus will go up on the Mauna Loa next Friday. He was warmly greeted here by many of his old friends who seem always glad to have him come this way. The Republican County Committee met tonight for the purpose

of rescinding the resolutions passed the other night censuring the acting governor for dividing the precincts. It seems that he was blamed for something in which he did not have a hand. Jack has promised to be good and the committee swears eternal fealty.

Mr. Lydecker of the archives division of the government goes to Hilo today to delve into the records of that island.

A. G. M. Robertson is a possibility and Willie Harris is wanted by some but he will not be a candidate for the reason that the business interests want him in the local legislature to look after the finances of the county of Oahu in particular and of the Territory in particular. When the chaff is separated from the wheat you will find, probably, that Kuhio will be the choice of the convention and will be elected in November. The voters who howl about having to keep a man in Washington to look after the interests of the Territory are not those who contribute toward paying the salary of the assistant but men who like the frogs in Hilo do nothing from daylight to dark but croak.

Governor Carter is expected here in June and the success or failure of the Republican party will depend largely upon how deeply he gets into the game. There is no questioning the statement made last fall that his attitude and wobbly actions toward the party he was believed to represent elected Brown. Neither is there a doubt that Crabbe would have been nominated, and elected had Carter spoken the word when he had the opportunity. Carter abused Brown by word of mouth and through the newspapers until the people grew tired of it and took the sheriff as their friend. History may repeat itself with or without the assistance of the Governor.

The ministers of the Hawaiian Evangelical Association are here doing things. Lately they have been discussing the local option side of the temperance question and, as usual, slopped over. The community will stand for high license and fewer saloons but they draw the line at prohibition, a point that the divines are unconsciously approaching, and they talk a bit at local option. An editorial in the Advertiser on Tuesday rather warmed up the parsons and various views are expressed in and out of the papers as a result. But the editorial stands for what is best for the town.

The political situation here is rather complex at this time and it seems as though it will take a few caucuses before the convention to straighten things out. It is generally understood there will be three parties in the field, Charlie Notley says there will be four, and none has a cinch.

Interest here centers on the local candidates for the county offices. Trent, The democratic civic-fed treasure will give the boys a hard run for their money though some representative men have been mentioned to go up against him. But Trent is known to be in there for honest government and the "muck rakers" cannot touch him. The men talked of as candidates against him on the Republican side are Thielen, Shingle and Waterhouse. Shingle is said to be the only one who really wants the place and he does so solely because some of the leading business men have asked him to stand for the nomination. Just how he will make a canvass and how he will attend to the duties of the office is a question. He is one of the busiest men in the county and he will not allow the interests of the Henry Waterhouse Trust Co. to take second place. Shingle is a good mixer and he has a host of friends who would sit up nights to work for him.

There will be no second choice in the candidates for sheriff of this county if the plantation managers, or the agents of the companies, ask to name the delegate to Washington. The republican leaders here are willing to let the plantations have that privilege, and in return must keep their hands off the

shrevalty in Oahu. Brown will probably get the nomination on the first ballot. Clarence Crabbe seemingly has a hold on the people for the nomination and it is said he will be strong up to the time of the opening of the convention and then the party workers will lose him.

There is no doubt he would make a good sheriff, they will tell you, but there are reasons why he should not be a candidate and his friends, for those reasons, are trying to persuade him to withdraw when the time comes. There is a bunch of people thought of for the delegateship and some of them may not get beyond the thought. John Hughes, of the civic fed's would like to have Atkinson for a candidate but there are two reasons why he could not go. Perhaps the first would be because he could hardly expect the support of his party in the event of his accepting a nomination from any other than the regular blown-in-the bottle Republican organization. The second reason might be that he does not aspire to any such honor when his law practice is so promising.

The earthquake will undoubtedly have its effect on the tourist business of the islands and the falling off is already noticed here. What the promotion committee has done for Honolulu is not realized by the people of the other islands for there are thousands who come this far who do not go out of the city. The absence of promotion literature relating to the island of Hawaii is noted by many persons. All that is published is that furnished by the committee here. What the people of Hilo, should do is to get in a lick or two on its own account and make good. The disposition of the promoters here seems to be to wipe the volcano off the map; it will never be an attraction for the Californian but as the big island is loaded with interesting places there is a necessity for bringing them to the notice of the public.

The banking institutions here are keeping a tight hold on the purse strings and very little money is loaned, nor will it be noticeably larger until the exact financial status of San Francisco banks and insurance companies is learned. A tourist passing through from the Orient the other day found it impossible to draw more than a hundred dollars on a letter of credit until he approached a hotel man who had a surplus in his safe. It looks today as though it would be a case of husbanding resources for several months. The introduction of capital into California by Harriman will undoubtedly help matters.

It is rumored here that B. F. Dillingham would have been successful in raising money in San Francisco but for the disturbance over there. But this may be only a rumor based on the fact that he has never undertaken any big enterprise but it has been interfered with by some kind of a disturbance.

During the monarchy he was a sort of human barometer in the way of preparing the public for something out of the usual. When he started to raise funds for the Oahu Railway scheme a revolution broke out and surprised him in London. There was something else in '89 and again in 1893 he undertook to do something real good for the people and down went the throne. Two years later he made a fresh start and so did the revolutionists. Since annexation and the other troubles that came along with it financing has not been prolific of good results in this country, even in the matter of railways but it has not interfered with the stick-to-it-iveness of B. F. He is said to be over in the States negotiating for the capital for the Kohala-Hilo, and it would not surprise his admirers if, in spite of the earthquake and the fire, he would make a success of it.

Down here among the business men Hilo has friends who do not believe the town will go to the demitition bow wows. On the contrary they express the opinion that it will grow in solidity with or without a railway. The enterprise of the people is shown by the proposed construction of a big Masonic Temple in spite of the wails of

certain people there that there is no money and no business.

Reference to the commercial reports convinces any one that the business of Honolulu is not retrograding; in several instances the year to date shows an encouraging increase over the business of the previous years. That does not apply to all lines; nor does it apply to every dealer, but to enough to indicate the direction of the wind and to convince the skeptics that there are worse places than Hilo for almost anything. Work for the breakwater, and the railroad will follow without the efforts of any individual, directly the work of filling in begins. Down here Hilo is looked upon as a community of knockers and of kickers. If the residents of the pretty little place would only make an effort through its Board of Trade, the Young Men's Republican Club, or the Catholic Ladies Aid society, or any other old body of workers to convince the world that this allegation on the part of the people of the capital city is prompted by jealousy it would do that which would redound to its credit. I mean the credit of the town and the body that would bring about such a state of affairs.

George H. Robertson, so pleasantly known in your district is at the coast undergoing treatment for gout. He left San Francisco three days before the quake and the Sanitarium at which he was stopping was destroyed by fire after being knocked to pieces by the quake. When Mr. Robertson left here his condition was serious but he is rapidly recovering and will return in June.

Hawaiian band was tendered an ovation at the concert at Hawaiian Hotel last night, being the farewell before the departure of the organization for the mainland. The place was crowded and the applause most generous. Pa. Berger was in a delightful frame of mind and acknowledge the plaudits by frequent bows. There are troubles in the band, however, and there is a danger that Mr. Alapai will not be among those to go into quarantine on Saturday in preparation for the journey. The trouble is that Mrs. Alapai feels that her age she should have a protector and asks that her husband be given a salary as such. The lady has been to the mainland before and never thought of such an adjunct. Her salary as a vocalist in Honolulu is forty per month; she gets sixty and expenses while on tour and she wants a hundred and expenses for her liege. Joe Cohen says his bill for excess baggage will be too large without considering the old man so it is not thought that either will go. And Nannie does not know what to do or think. Miss Brown, a recent acquisition to the band, who sings as Lei Lehua, has a sweet voice and gives great satisfaction to the audiences.

Prosperity in Our Products.

In 1905 the United States imported rubber from Brazil to the value of \$28,500,000. Ten years hence not less than \$6,000,000 worth ought to come from Hawaii. The adaptability of certain sections of this Territory to the growth of rubber is as great as that of any part of South America and it will be an economic mistake if every acre of soil not needed for products of equal or better value is not utilized for that purpose. Possessing sugar, tobacco and rubber, Hawaii has the wherewithal, present and latent to achieve such a prosperity as it never has known in the past.

An Old Maxim Applied to a Modern Remedy.

"Everyone speaks of the feast as he finds it," is a maxim of the Portuguese. Judging by the letters received from people all over the country, praising Chamberlain's Colic, Cholera and Diarrhoea Remedy, it is evident this remedy has been found satisfactory. It is the best known remedy for diarrhoea, and no case has yet been reported where it has failed to give relief, and it has been in general use for more than a quarter of a century. For sale by Hilo Drug Co.

Almost immediately
after taking Ayer's
Sarsaparilla you begin
to feel its cleansing,
strengthening, and purifying
power.

You feel that your depression is passing away; your brain clears up; things look brighter; sleep is refreshing; the nerves act better; and new life and vigor begin to take possession of your whole system. Your digestion improves; you get more benefit from your food; your appetite returns. Your friends begin to notice a marked change in your general appearance. The old color comes back to the lips; the eyes look brighter; the step becomes more elastic; and every dose of

Ayer's Sarsaparilla

promotes the return of good health. Those who suffer from the debilitating effects of a warm climate will find in Ayer's Sarsaparilla just what they need to bring back the old force, vim, and energy.

There are many imitation Sarsaparillas.

Be sure you get "AYER'S."

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U. S. A.
