### BURNS AT HONOKAA.

**District Citizens Make Merry Celebrating Anniversary.**

Honokaa, Hawaii, Jan. 27.—The birthday of Robert Burns was celebrated in Honokaa in a style to delight the most exacting and loyal clansman. On the evening of January 25 all of the Scotch people of the vicinity, and from neighboring plantations, assembled at the residence of Joe Pritchard and enjoyed six hours of literary and social pleasures.

A. B. Lindsay was the genial and highly successful master of ceremonies. Thos. Gregg of Paauhan was the orator of the occasion, and delivered a very scholarly and entertaining address, which was received with much enthusiasm.

Mr. Forbes of Kukuihaele, in kilts, and wearing the insignia and plaid of his clan, represented the typical Scot of the olden time.

M. W. Innis of Honokaa awakened old time recollections—and everybody in the neighborhood—with the weird strains of the bagpipes which put life in the heels of Mr. Forbes who, assisted by several other lively young Scots, gave frequent exhibitions of the Highland fling as it was wont to be performed in the days of "auld lang syne."

The Scottish reels and other dances that interspersed the long literary and musical program were very much appreciated, and made old hearts young again, and young hearts gay. Nearly everyone present sang or recited or in some other special manner contributed to the entertainment and hilarity of the occasion. It is needless to say that a liberal supply of the favorite Scotch beverages was on hand with plenty of good things to eat and make glad the heart of the "canny Scot."

Among those present were: Mr and Mrs D Forbes of Kukuihaele; Mr and Mrs John Watt of Honokaa; J Gibb and brother of Paauhan; W Stewart, Mr and Mrs Riley, Mr and Mrs H Watt, Mr and Mrs T Murray of Paauhan; Mr and Mrs A B Lindsay, Miss Mabel Childs, H Stewart, Mr Bragg, W Innis, Mrs M V Holmes, Mr Payne, Mrs Dr Greenfield, Chas Meinicke, Dr Buffet, Joe Pritchard, C McKenzie of Honokaa; Dr J L McClelland and Miss Isabelle McClelland of California; Thos. Gregg and Mr Cruickshanks of Paauhan.

During the progress of the entertainment, it was whispered about that the birthday of John Watt, the popular manager of Honokaa plantation, was just beginning. The anniversary spirit having been thoroughly aroused, the crowd delayed until Mr. and Mrs. Watt had gone home, and then descended upon the plantation residence in force. Mrs. Watt being in the secret, had gotten the victim off safely to bed, so that the surprise was as complete as could have been desired, and the way Mr. Watt was roused from his first nap and toasted and roasted and otherwise disturbed for several hours was an incident he is likely to remember for many a birthday.

When the bagpipes began to scream, and the drum to beat in his parlor, accompanied by a variety of classic Scotch yells and patriotic howls, Mr. Watt seemed to have been impressed with a sense of impending trouble, and appeared in fighting costume; but on observing the mild, gentle and peaceful character of the ladies, he changed his mien, and seating himself at the piano, gave a highly artistic exhibition of his musical attainments, after which he retired and arrayed himself in the garb of peace.

Notwithstanding the lateness of

the hour, a most excellent collation was served, and the spirit of the old song was almost literally carried out—"We won't go home till morning, till broad day light."—Bulletin.

### FAVOR MACKAY CABLE.

**Will be as Thoroughly American as if It Were Owned by the Government.**

[Special to the Bulletin.]

Washington, Jan. 16.—It is nearly a settled fact that Congress will not pass a law at this session providing for a Government constructed cable in the Pacific. The hearings that have been had upon the question before the House and Senate Committees have come pretty near convincing a majority of the members of the respective committees that the best thing to be done in the case is to let the Commercial Cable Company, of which John W. Mackay is the head, go along and build its proposed cable without interference from the Government.

The statements made by the representatives of the Mackay company have been so convincing that they have come pretty near putting a stop to all talk about a Government cable. The company declared before the Senate committee this week that if the Government does not interfere with its plans it will have its cable between San Francisco and Honolulu laid and in working order by December of the present year, and perhaps the first messages may be sent over it in October or November. The cable is now actually being built at the rate of 136 miles a day at the Glasgow cable works, where all of the great deep-water cables of the world have been built. By the end of next month the cable will be going forward at the rate of 160 miles a month, and by the first of the summer it will be completed, placed in a cable ship and be ready for the trip around the Horn. The company also promises to have a completed cable in operation to the Philippines within two years from now—about half the time it would take the Government to do the same work.

The company also proposes that it will make the public rate between San Francisco and Manila just one-half of the present rate via Europe. It will give the United States Government a rate amounting to one-half of the public rate, making the rate on Government messages one-quarter of the present Manila-American rate. The company promises at any time after the cable has been completed to turn it over to the Government at the actual cost price, or if that be not satisfactory to sell it to the Government at any price agreed upon by arbitrators appointed for determining its value. The company says that its only purpose in wanting to go ahead is that it can build cables for 15 per cent less than any other company in the world, and in its business of operating cables and telegraph lines a cable across the Pacific, owned either by the Government or by itself, would be of great advantage to it, as it would to all other American telegraph companies.

The company places its plans upon such high ground that after the hearing before the Senate Committee, Senator Perkins of California, himself the author of a Government ownership Pacific cable bill, said that he would be obliged to renounce Government ownership in the face of an offer of this sort, and immediately he withdrew his own bill from consideration.

### Mysterious Boer Conclave.

Brussels, Jan. 19.—Dr. Leyds, the European representative of the

Transvaal, and the Boer delegates met again today at some mysterious rendezvous. Dr. Leyds now denies himself to everybody. It is asserted that Dr. Kuyper, the Dutch Premier, on his return to The Hague from London, had a conference with Mr. Wolmarans, one of the Boer delegates, who sent another delegate to consult with Mr. Krueger, and that another meeting will be held next Monday.

In spite of the Boer denials, a strong feeling exists here that some peace movement is afoot between Great Britain and the Boer delegates, but there is difficulty in arriving at any acceptable basis of terms, Mr. Krueger and Dr. Leyds being reluctant to commit themselves. It is declared in Boer circles here that a number of Englishmen, supposed to be officials of the British Government, arrived at The Hague under assumed names last Saturday and were later visited and entertained at dinner by the British Minister there.

London, Jan. 20.—The Times has received a telegram from Dr. Kuyper, the Dutch Premier, in which he declares he has held no conference with the Boer delegates, and that he could not induce them to draw up terms of peace, as he knew their credentials did not allow them to do so.

### ATTACH SIGNIFICANCE.

**Colonel Kitchener Inspected Pearl Harbor Lochs Tuesday.**

Considerable significance is attached to the visit which Colonel C. Kitchener, brother of Lord Herbert Kitchener, paid to the Ewa plantation last week. The first thing the Colonel did after the Gaelic arrived at Honolulu from San Francisco, was to inquire if there were some sugar plantations running. He expressed a desire to visit one. It was suggested that he go to the Ewa plantation, whereupon the officer took the first train to that place.

All of his time at Ewa was not occupied however with the inspection of the plantation mill. He is reported to have taken a boat and, accompanied by two strangers, been rowed about Pearl Harbor where he appeared to be taking soundings of the water. He also secured photographs of the sites for the new naval station. Whether the data and pictures were taken for his own use or for other purposes is unknown. A number of people are inclined to attribute his inspection of the harbor to some official orders, although it is hardly likely that he could have learned much of importance during his rather brief inspection.

### Its Fame Spreading.

A certain portion of Hilo Hawaiians have started an organization of a semi-political nature, with a view of branching out and organizing clubs in every district and precinct of the big island first, and ultimately throughout the group, providing they are successful in enlisting the sympathy of the elector.

Governor John T. Baker is its leading exponent, assisted by Senator Jno. T. Brown and others. It is called the Aloha Aina Society and its tenets are to inculcate economy in politics as well as in business and social life, and to pick out nothing but the best material among the Hawaiians for the bestowal of legislative honors and of political preferment, without any regard to whatever their politics may be. An initiation fee of \$2 is demanded of anyone wishing to join. Among its members, of whom there are now over thirty, are men prominent in nearly all walks of life in that town, and even including the offspring of the much hated missionaries.—Independent.

## A Life Saved

Sixteen Months of Awful Suffering  
Impure blood is always dangerous. Just as soon as you begin to feel weak and languid, nervous and depressed, you are in danger. Make your blood pure and your nerves strong at once.

Mr. Thomas H. Caldwell of Delapton, New South Wales, Australia, sends us this letter, with his photograph:

### AFTER JUDGE LITTLE.

Attorney-General and High Sheriff Don't Like His Way.

Judge Little was handed a Honolulu paper containing the item below, and asked by a TRIBUNE reporter what he had to say about it. The Judge took the paper and read:

"In all probability the attorney general's department will during the year institute proceedings to determine the right of Judge Little of the Fourth Circuit court, to exercise control over all characters of prisoners convicted before him.

"At the last term of that court eleven prisoners were convicted of felonies and sentenced to long terms in jail. Under the ruling of Judge Little all of those were ordered kept in the jail in his district. It is contended by the High Sheriff that the proper place for them is in the Territorial prison at Honolulu. Under the statutes, the High Sheriff is said to have jurisdiction over all prisoners convicted in the territory but, according to this ruling by Judge Little, the High Sheriff is not permitted to exercise that right.

"It is claimed that the long term people should both from a legal standpoint as well as for economical reasons be sent to the prison here. They could be maintained at far less expense and the High Sheriff considers that this is the proper place for them to be kept. The custom in the past has been to transfer the long term prisoners, those convicted for a year or more, to the Honolulu jail while shorter terms are served in the districts where the convictions were obtained."

"What do I think of that, is easy to say," replied the Judge. "There is no Territorial prison and no United States prison in this Territory. The statute refers to the Oahu jail, or prison as it does to the Hilo jail or prison.

"The Sheriff of the Island of Hawaii, has a baliwick which in area is 4200 square miles. This is 2200 square miles more than double the size of all the other islands together.

"The Oahu jail is no more secure than the Hilo jail as is evidenced by the escape of two murderers, sentenced from the Fourth Circuit and sent to Oahu for safe keeping.

"The custom of working convicts on the public road and on the repair of bridges, etc., which obtains in this island, is much better subserved by keeping the convicts on Hawaii than by sending them to Oahu, where for fifty years the oligarchy that has controlled the government have used the public treasury for funds and the Courts for labor to build up and beautify the few acres which compose the Island of Oahu.

"The day for decisions of expediency from our courts are past

and neither the courts nor the Attorney General's department are invested with Legislative powers.

### HAWAIIANS AT WASHINGTON.

Parker Plans for Big Water Right and the Delegateship.

George A. Davis, who is in Washington, D. C., with the Sam Parker-Prince David party stated to a press correspondent in the Capital City that he was not there upon any political errand. He is there primarily to appear in the celebrated case of the Territory of Hawaii vs. Osaki Mankichi. This is the case appealed to the United States Supreme Court by Attorney-General E. P. Dole and involves all local decisions upon the question of whether the Constitution followed the flag to Hawaii or not. The reports say that Solicitor-General Richards is showing many courtesies in the matter and hopes to have the case advanced for an early decision.

"I am on no political errand whatever," persisted Judge Davis, when politics were mentioned to him. "You can say to the people of Hawaii, if you care to, that the only political matter I am concerned in is the election of Col. Parker to the National Congress as a delegate from Hawaii. I was his chief lieutenant in the last Congressional campaign, and I expect to perform a like office for him in the campaign this coming summer."

The same despatches report that the Kohala water scheme has appeared in Congress. G. T. McCrosson, who has charge of the matter for Col. Sam Parker, is at Washington. Parker in speaking of the matter said: "We are going to get the bill introduced as soon as possible." Mr. McCrosson said: "We shall try to get the bill ready to be introduced in a week or two. We planned, of course, to have Delegate Wilcox introduce it, but he is so ill now that we cannot tell when he will be out again. We propose to incorporate in the bill a provision to have the land laws of the United States extended to the Territory of Hawaii, so far as they apply to telephones, telegraph, building of railroads and construction of ditches. These general land laws of the United States provide that such companies have right to proceed with their operations by filing copies of their maps, their surveys, and the like, and specifying what they intend to accomplish."

The Hawaiian party is stopping at the Raleigh Hotel. They were conspicuous figures at the White House receptions.

### Agree to Arbitration.

Washington, Jan. 18.—Secretary Hay has received a telegram from William I. Buchanan, president of the United States delegation at the Pan-American Congress, fully confirming the press reports that a complete understanding has been reached on the question of arbitration before the congress. This subject was the only one promising serious difficulty in adjustment and the officials are now satisfied that the congress will be a success. It is expected that, with this last obstacle removed, such rapid progress will be made in fixing the final protocol and of securing the signatures of the delegates that the congress will be able to adjourn within the present month.

## BRICQUETTES.

Pressed Coal Dust for Fuel an Item of Local Import.

Part of the European cargo which the German ship Agnes brought to Honolulu is a large consignment of coal-dust briquettes which are intended for the Koloa Plantation, of which Hackfeld & Co. are the agents. The briquettes are not of the shape of building bricks, but are about four inches thick, four inches wide and six inches long, the corners being rounded. They are intended as a fuel and are largely used throughout Europe. The method of manufacturing them is by collecting the coal dust and placing it in moulds. The pressing is done by hydraulic process with heat applied, which burnishes the exterior of the bricks. They are light, compact and easily transported. In being discharged from the Agnes they are handled carefully, as if dropped they break easily, and leave a huge pile of coal dust. The bricks are very cheap, and are brought here much cheaper than coal in bulk can be landed from ports that are nearer than Bremen. The bricks are being discharged in boxes and are taken directly to a small schooner in which they will be conveyed to Koloa Plantation.—Advertiser.

## HUSTACE, ET AL LOSE.

Sensation is Sprung by Judge Humphreys in the Kamalo Case.

The celebrated Kamalo case produced another sensation in Judge Humphreys court at Honolulu last week. The case was practically closed, and the attorneys on both sides had announced that all evidence was in, when the court handed to the defendants' attorney a copy of the articles of incorporation, and called their attention to a discrepancy in dates which he stated as indication of fraud. The papers were sworn to on May 4th, and the date in the articles was given as April 20th. The typewritten copy showed that the word "May" had been erased and "April" substituted in ink, the number not having been changed, as the blank had not been filled. The point made by the court is of extreme importance, for the testimony during the trial has been that the company was incorporated April 20th, and that no assessments had been received before this incorporation. Consequently, if the testimony of defendants was true and the erasure in the articles proven, it would leave them in a very peculiar position, as showing that the assessments had been paid to the three defendants personally and as trustees, and not to the Kamalo Sugar Company.

Mr. McClanahan disclaimed any knowledge of the erasure, as did the remaining attorneys for the respondent, Messrs. Hankey and Robertson.

In his decision, Judge Humphreys reaffirmed his former decree ordering defendants Frank Hustace, J. J. Egan and Frank Foster to return the sum of \$35,000 cash, and \$120,000 paid up stock of the Kamalo Sugar Company.

## Funeral of W. C. Little.

The funeral of Col. W. C. Little, father of W. H. Little of this city was held from his home in Oakland about two weeks ago by the Order of Elks, of which the decedent was

an honored member. "There has seldom been funeral services in Oakland so largely attended," says a correspondent. "The Elks were there in a body, and there were representations from the Union League of San Francisco, the Athenian Club of Oakland, the National Guard of California, the Republican Alliance, the Old Oakland Guard, the Oakland Light Cavalry, city officials and prominent citizens of Oakland and San Francisco.

The simple but impressive ritual of the Order of Elks was read by Exalted Ruler Henry A. Melvin and the responses were made by Esteemed Leading Knight G. R. Lukens, Esteemed Loyal Knight W. H. Halsey and Esteemed Lecturing Knight L. E. Mason. The eulogy, which was brief, was delivered by the Rev. Dr. J. K. McLean, a lifelong friend of the decedent. Dr. McLean paid a high tribute to the sterling worth of the decedent, saying that he enjoyed the respect, the confidence and the friendship of all who knew him.

The music was furnished by the Elks' Quartet, composed of C. L. Learn, Frank H. Ayers, A. G. Cliff and J. C. Hart. They sang "Jesus, Lover of My Soul," "Lead, Kindly Light," and, by request of the family, "Good Night."

There were many beautiful floral offerings, which covered the casket and pulpit of the church."

## TO ENCOURAGE SHIPPERS.

Matson Line Will Make Low Cold Storage Rates on Enterprise.

The cold storage schedule on perishable goods made out by the Matson Navigation Company for the new steamer Enterprise are reduced to a point that it is hoped will fill the ninety-ton space set aside in that vessel for cold storage freight. The schedule is as follows: Eggs, 5c. per dozen; butter, fish and fruit 3c. per pound; fresh meat 2½c. per pound. In large shipments even better rates than these will probably be made. The company has spent over \$75,000 in adding the cold storage and passenger facilities to the equipment of the Enterprise.

In certain seasons of the year these rates will make eggs a staple instead of a luxury and the price of steaks will also be materially affected.

## Morgan Against Panama.

Washington, Jan. 24.—Senator Morgan, chairman of the Committee on Inter-oceanic canals, has prepared a report which he has sent to each member of the committee relative to the canal situation since the offer of the Panama Company to sell its property for \$40,000,000 was made. The report takes the ground that the Panama company cannot give the United States a good and sufficient title, and also criticizes the whole matter as a movement intended to delay canal legislation. The report will be considered at the meeting next Monday.

ERRICKSON'S WEIGHER AND CANE LOADER

ISAAC ERRICKSON, a Hilo Carpenter, has recently completed a working model of a machine for weighing and loading sugar cane on to cars. The machine is built of wood and iron and weighs about 1600 pounds. The beam is so constructed that it will swing in a half or full circle. On the left hand end are two weights with an aggregate weight of 300 pounds. These facilitate raising or

lowering the hook in handling the cane. The hook is lowered to the ground level and raises the cane to a height of sixteen feet. There are broad wheels under the heaviest part of the machine, and it can be run on the ground or on tracks. The lift capacity is 1600 pounds, and at a recent test at Waiakea cars were loaded in two minutes. The mechanism is very simple. Mr. Errickson has a

patent sling that will follow each machine. It is constructed of wood and iron, with a four foot opening. These are the inventions of Mr. Errickson and patents have been applied for. Three men are required to work the loader. The machine sells at \$225 to \$275 and will save the labor of four men. Mr. Errickson is now ready to take orders.

PUBLISHED EVERY FRIDAY. L. W. HAWORTH - Editor.

THE CORPSE OF DeLESSEPS.

The Isthmian canal commission, with one dissenting vote, has switched from the conclusion backed by a several hundred page report in favor of the Nicaragua route, and now urges Congress to dig an inter-oceanic ditch at Panama, paying the French Company the sum of \$40,000,000, for the ruins of the great De Lesseps canal.

This sudden change of front in a \$200,000,000 enterprise, like everything else, is open to two plausible interpretations. It is either square, or it is as rotten as things were in Denmark in Hamlet's time.

Either the Commission has been able to bluff the French into making reasonable terms, or the French have been used as a willing instrument to befuddle the Canal Commission and divide public opinion in America into two factions, which, when at war will result in inaction.

What has prevented, thus far, any actual progress in the digging of an isthmian canal?

The railroads of America The transcontinental routes, the Canadian Pacific, Great Northern, Northern Pacific, Union Pacific, Southern Pacific, Santa Fe, North-western, "Q," Missouri Pacific, Michigan Central, Baltimore and Ohio, New York Central and Illinois Central—these are the forces that have defeated the surgical operation which will sever the continental backbone of the Western Hemisphere at Panama or Nicaragua. It is railroad gold that has resuscitated the Panama corpse, and makes it appear like the ghost of Banquo, in the halls of the present Congress. Who, besides the men interested in the railroads would exult in the tangle of public opinion and official opinion, that will result from this switch from Nicaragua to Panama by the Walker Commission? It was railroad influence, not English influence, that held the bogie man of the Clayton-Bulwer treaty before the public for a number of years and retarded progress in the canal enterprise. The statesmanship of Pauncetote and Hay removed the treaty obstacles. The Walker Commission, by its learned reports, had concentrated public opinion upon the Nicaragua route. The President had capped it all with a vigorous paragraph in his message which made the world believe that Uncle Sam would soon cut the isthmus with a spade.

The railroads of the United States came to the front at the last moment with an ace up their sleeve. Their ace is the corpse of De Lesseps. They bluffed the Walker Commission. The "second thought" recommendation of the Walker Commission, bids fair to bluff Congress and dismay the American people. In the mix up, it is not improbable that the railroad octopus will sweep the stakes and that canal prospects will go glimmering for another decade. We were as near to a canal during Cleveland's administration as we are now. The Clayton-Bulwer treaty, at that time frightened everybody except the ironclad statesman now in retirement at Buzzard's Bay. The railroads played the high card then; they are playing the high card now.

President Roosevelt can do his country no better service than to settle this canal puzzle himself. He should leave diplomacy to Hay; finance to Shaw; diversified farming in Hawaii to Wilson; the army to Root; the navy to Long and political appointments to his private secretary, Mr. Cortelyou. The country wants to hear from Roosevelt on the canal question and it will be ill at ease until he speaks.

The importance to Hawaii of an inter-oceanic canal at the isthmus, is exceeded only by its importance

to the millions who toil in the corn and cotton fields of the Mississippi Valley. Hawaii wants a short route to New York, New Orleans, St. Louis, Omaha and Cairo, Illinois. The railroads can well afford to resuscitate the dead French cat at Panama for the purpose of causing a condition of legislative lock-jaw.

MOVE THE LAND OFFICE.

Before leaving for Washington, E. S. Boyd, Commissioner of Public lands, left orders with his subordinates to publish certain official notices regarding lands on this island, in Honolulu papers only. He desired it especially understood with the boys in the employ of his office that "said advertisement be given only to the Honolulu papers and to no other."

The people of this island are entitled to the fullest publicity concerning the disposal of the public domain on this island. The Hilo papers go into practically every home on the big Island and a notice to be made public on this island has only been constructively published when given to a Honolulu newspaper. The incident only goes to show the readiness of a public official to forget the rights of people who happen to reside elsewhere than on Oahu. It also serves as another reason why the land laws of the Territory should be reconstructed and the general land office removed to Hilo.

NOT DOWNING ANYONE.

"The new ice plant in Kau may cool the ardor of some of the residents there who are doing their best to down Sheriff Andrews."

In response to the above from the Hawaii Herald, the people of Kau want it distinctly understood that they are not trying to down Sheriff Andrews. What they insist upon is that the head of the department, be it Sheriff Andrews or High Sheriff Brown, shall look into the late murder cases, and use the evidence that can be had to convict the murderers. Is it true that the Herald does the printing for the Sheriff's office? If so we can understand. NAALEHU.

—Evening Bulletin.

Yes, Naalehu, he gives his printing to the Herald.

BUSINESS ETHICS.

Two days before Judge Humphrey's first decision in the Kamalo sugar case, a representative of one of the leading business houses in Honolulu said to a gentleman from the Coast, who was insisting that the plain terms of a written contract should be observed: "O you will find that you are not doing business on the Coast." The plain inference was that a lower plane of business ethics was satisfactory in Hawaiian Courts, which on the Coast would not stand the lime light of justice.

After the thunderbolt from the bench by Judge Humphreys, the Honolulu firm readily agreed to pay a few thousand dollars for the privilege of tearing up the contract and the Coast man went home thanking Judge Humphreys for the effects of his decision. Whether the Coast man was right or wrong in locating the cause of the sudden elevation of the plane of business ethics in Hawaii, it is unquestionably true that Judge Humphreys, since his accession to the bench has done much toward the purification of business ethics as well as improving the tone of Territorial justice.

With a Hawaiian Legislature at home, and a Hawaiian Delegate in Congress it is not even a remote probability that President Roosevelt will appoint a Hawaiian as Governor of this Territory. Those who are loudest in their support of Sam Parker for this office by bearing this fact in mind will protect themselves from disappointment. Such a lop sided distribution of official power would not be along the traditional American lines, which the President has said he hopes to see flourish in Hawaii.

Million Insurance Paid.

New York, Jan. 20.—The following dispatch has been received here

and published in the morning papers: "St. Paul, January 19.—A check amounting to \$1,000,000 has been received here for payment of the policy on the life of Frank H. Peavey, the late Minneapolis millionaire. It is said to be the largest check ever drawn in the payment of a life insurance risk."

Write Often.

A kind subscriber writes that a certain item of news, which originated in Louisiana and was published a few weeks ago in the TRIBUNE, was about ten years out of date. The letter follows:

Hilo, January, 1902.

EDITOR TRIBUNE:—The information from the Experimental Station in Louisiana published in your paper of the 17th inst. appeared a little too late. Cane tops have been used for planting in these Islands for many years with success. I dare say, cane tops have been used for planting in Hawaiian Islands since before the first issue of the HILO TRIBUNE.

I recommend that you investigate on some plantation of this group; you may be able to open the eyes of some Louisiana planters.

A SUBSCRIBER.

The TRIBUNE likes to receive such communications. It would like to receive more. The above letter says there may be many things, in the methods of cane cultivation and sugarmaking in Hawaii that would open the eyes of the planters on the main land. This paper welcomes contributions upon any phase of the sugar question, from a discussion of the late slump in price to economies in the manufacture.

 By reason of his horse and buggy falling over an embankment a few days ago, F. B. McStocker, manager of Olaa Plantation is performing his duties in spite of bruise pains and other results of the shake up. Mr. McStocker went over with the buggy which was smashed beyond recognition.

**Hawaiian Arrives.**  
 The Steamship Hawaiian, Captain Nichols arrived in Hilo Tuesday afternoon from Honolulu. She will lay here till Monday taking on additional sugar cargo and discharging merchandise. She takes 500 tons from the Waiakea mill and 500 tons from Pepeekeo. When she lifts anchor for her 70 days voyage around the Horn, she will have 8000 tons of Hawaiian sugar aboard besides 13000 cases of merchandise taken at San Francisco, and destined for New York.  
 While in the harbor, the big freighter was visited by a number of Hilo people. Captain Nichols and Chief Engineer Perkins were good hosts and showed the guests through the mysteries of the hull's interior.  
 Through the solicitation of C. C. Kennedy the business men of Hilo have subscribed liberally to a fund for the maintenance of the Hilo band. The sum so far raised, amounts to nearly \$600. The work the band has been doing recently has been appreciated by the public much more than the musicians may think.  
 There will be an entertainment tonight at Spreckels' Hall for the benefit of the Hilo Free Library Association. The program tell of a pleasant evening for all who may be present. Many tickets have already been sold and those who participate will have an audience that will inspire them to their best efforts.  
 The freight arriving at Hilo by the steamer Hawaiian showed that the stevedores at New York knew a good thing when it was in sight. Several cases of shoes arrived at Hackfeld's minus, several pairs, which are supposed now to encase the feet of wharf rats or stevedores in the Metropolis. The same gentry carried off a lot of copper wire.  
 February 12th, 1902, will be the ninety-fourth anniversary of Abraham Lincoln's birth. A suggestion has come from the mainland that on Sunday next, February 9th, in all pulpits in America sermons be preached in his memory. In compliance with this suggestion, on Sunday evening Mr. Cruzan will speak on "Abraham Lincoln, a Plain Poor Man Who Succeeded." Subject of the morning sermon, "Jesus and the Enigma of Life."  
 J. K. Dillon of Pepeekeo was assaulted by a Pookan last week. The assailant brandished a huge butcher knife, but when he came close enough, the edge was seen to be saw toothed with nicks and the point was broken. Dillon laughed his antagonist out of countenance and turned him over to the police. In Hapa's court the penalty was a \$10 fine.  
 Philip Peck leaves for Honolulu by the Kinau today to make final arrangements with the government officials regarding the Hilo dock. While in Honolulu, Mr. Peck will also confer with members of the Honolulu Chamber of Commerce about the merits of the Morris proposition to advertise the Hawaiian Islands throughout America. Upon his return he may have recommendations to make upon the subject.  
 "Gossip" is the name of a new publication in Honolulu which has leaped into favor in this city quite suddenly. The editor has shown phenomenal skill in locating society leaks in both cities and seems to have big eared reporters at every avenue through which gossip may escape. The glittering style of the "Gossip" staff entitles them to an early promotion to desks in the office of the "Smart Set" in New York City.  
 Under the aggressive management of Alex. Raymond, the business of the Singer Sewing Machine Company in this city has reached such proportions that new enlarged quarters were necessary. ## CENTRAL COMMITTEE BUSINESS.

Important Meeting Held at Honolulu Last Monday Night.

[Special Report for the HILO TRIBUNE.]

At a meeting of the Territorial committee of the Republican party in headquarters Monday night, three things of importance were done, viz:

1. The committee declared in favor of county and municipal government, reiterating the plank in the party platform pertaining thereto.

2. The committee declared itself unanimously against Hartwell's work in Washington looking toward the disfranchisement of the native Hawaiians.

3. The committee decided to put a candidate in the field for legislative honors in the Fourth District, a special election for which will soon be called by Governor Dole.

Chairman Kennedy presided, besides whom the following were present or represented by proxy: Messrs McStocker and Walker, by J. H. Fisher; Messrs Waipulani and M. McCann, by L. L. McCandless; Kahaulelio; Reuter by J. P. Cooke; Jones, Fisher, Wilcox, Cooke, Wright, Coelho, Cox, Lane; Palmer and Bradt by B. H. Wright; Estep by Stewart; Stewart, Huddy. Others present were: C. B. Wilson, Senator Clarence Crabbe and C. F. Reynolds.

### McCandless "Excused"

L. L. McCandless suggested that as the resolution prescribing the limitation of the use of proxies referred to "members" only, he as a non-member should be allowed to vote for all the four proxies which he held. He was answered by J. P. Cooke, who asked that he be excused by the chairman from taking any part in the meeting, which was done.

The nominations for a secretary followed. J. P. Cooke nominating Col. J. H. Fisher and Kahaulelio nominating W. J. Coelho. When a motion was made to close the nominations, an attempt was made for a motion to rescind the action of the last meeting that the secretary be a member of the committee and naming J. D. Avery as secretary.

### J. H. Fisher, Secretary.

This joint motion was the subject of much discussion and fell through when it was put to vote with a vote of 6 to 11 against it. A plain motion was then made to reconsider the action of the previous meeting. This motion fell through with a vote of 6 to 12. Nominations were then closed. Coelho asked to have his name withdrawn as there was more work for him to do outside than inside, and asked that the secretary be instructed to cast a unanimous vote for Col. Fisher, which was agreed to.

### J. D. Avery, Assistant.

A motion creating the position of assistant secretary was carried and the secretary was instructed to cast a unanimous vote for Avery for this position.

### No Guaranteed Salary.

A motion was made that the assistant secretary be given a salary of \$500 per annum with additional salary during campaign months, but this fell through as there was a sentiment that the salary would be sufficiently assured even if it was not guaranteed.

The matter of the vacancy in the First District caused by the resignation of Jas. Gibb, was next taken up. J. Castle Ridgway was elected to fill the vacancy as it was found that he was recommended for the vacancy by Committeeman McStocker, Estep endorsing the nomination. A letter from Committeeman W. G. Smith of Kauai, in which he tendered his resignation, was the next matter to be acted upon. The resignation was accepted and J. H. Coney appointed to fill the vacancy.

Committeeman Palmer's absence for a long stay away from these Islands caused some discussion, but it was finally found to be inadvisable to declare his seat vacant. The vacancy on the committee on rules was filled by B. H. Wright, the chairman.

### Senate Apportionment.

The reading of the report of the

special committee on the drafting of a bill which is to be urged for passage by Congress, fixing the terms of certain members, followed. It reads as follows:

Honolulu, Hawaii, Feb. 3, 1902.  
To the Territorial Republican Central Committee:

Mr. Chairman and Gentlemen:—Annexed hereto is a draft of a bill for the apportionment of Senators, prepared by us pursuant to our appointment.

In our opinion this bill, if passed by Congress, will be just and fair to the electorate of our Territory.

Very respectfully,

CICIL BROWN

A. G. M. ROBERTSON,  
T. M. STEWART.

An Act to apportion the term of office of seven Senators elected at the first general election of the Territory of Hawaii.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled:

Section 1.—The several Senators elected in the First, Second, Third and Fourth Senatorial Districts, at the first general election held in the Territory of Hawaii, who received the lowest number of votes, shall each hold office for the term of two years from the date of such election.

Section 2.—That for the First Senatorial District, J. D. Paris and N. Russel having received the lowest number of ballots cast, shall each hold office as a Senator for for such Districts, for the term of two years.

That for the Second Senatorial District, William White having received the lowest number of ballots cast, shall hold office as a Senator for such District for the term of two years.

That for the Third Senatorial District D. Kanuha, George R. Carter and D. Kalauokalani, having respectively received the lowest number of ballots cast, shall each hold office as a Senator for such District for the term of two years.

That for the Fourth Senatorial District, E. H. Kabilia having received the lowest number of ballots cast, shall hold office as a Senator for such District for the term of two years.

After some discussion on the matter of what the outcome would be, if no action was taken by Congress and no extra session was called, which in the opinion of some members would result in the election of fifteen new Senators next fall, it was decided to send duplicates of the bill to Delegate Wilcox and National Committeeman Parker in order to have it introduced and passed.

### Schley to President.

Washington, January 21.—Admiral and Mrs. Schley returned to Washington today. Isidor Rayner and M. A. Teague, counsel for Rear Admiral Schley, reached Washington this forenoon with the Rear Admiral's appeal to the President. After a conference lasting several hours with his counsel Admiral Schley approved the appeal from the findings of the court of inquiry, and it was delivered to the President late this afternoon by Teague. The appeal sets out the grounds of error upon points of law and fact alleged by Admiral Schley, and concludes with a lengthy argument in support of his contention that he has been unfairly dealt with. Admiral Schley and his counsel refused to make the appeal public. They say it must be given out at the White House.

The best cough drops are drops of Ayer's Cherry Pectoral. The next time you take cold, dose yourself with a lot of home remedies and dilly-dally along until your cough is deep-seated and you are threatened with pneumonia or consumption. That's one way, to be sure.

## Ayer's Cherry Pectoral

at bedtime and be all right the next morning. Isn't this the better way? Then continue the Cherry Pectoral a few days until your throat and lungs have completely healed and all danger of future trouble is past.

Another grand thing about Ayer's Cherry Pectoral is that it cures hard coughs, the hardest kind of old coughs, even after all other remedies have failed.

Put up in large and small bottles. When it hurts your lungs to cough, then apply one of Ayer's Cherry Pectoral Plasters directly over the painful lung. It will quiet the pain, remove all congestion, and greatly strengthen.

## MATSON ON WHARFAGE TAX.

Head of the Matson Line tells what he thinks of Hawaiian Officials.

Captain Wm. Matson of San Francisco, in the due course of business, was notified of the levy of 10 cents per ton on all freight coming into Hilo harbor. His reply to a letter written him by R. T. Guard of this city is as follows:

San Francisco, Cal.,

January 21, 1902.

R. T. GUARD, ESQ., Hilo, Hawaii, H. T.

Dear Sir:—In reference to the letter that you sent me some time ago, wherein you stated that the government of the Territory of Hawaii levies a tax of 10 cents per ton on goods brought into Hilo bay, it is an injustice and I refuse payment, and furthermore, they cannot collect it, as there is no law in Hawaii that gives the government the right to collect wharfage, except on their own property, and we are not on their property. It is our own as long as we pay rent for it. If we were landing on a government wharf, I would have no objection to paying the regular toll, but as we are on our own property, and the plantations which take freight from the ships also use their own water front, the government has no right to levy any such tax. If the legislators who make the laws for Hawaii have a right to make a Territory toll on all freights coming into Hawaii, whether it is landed on their property or not, then it becomes the duty of the United States to intervene, and see whether they are making any laws that conflict with the laws of the United States, and you can tell Mr. Boyd for me that I will never pay that tax until he can show me his authority to collect same. He has none whatever. I have done everything that I could do for Hilo in regard to shipping, and the government in Honolulu has always tried to stop prosperity from going ahead in Hilo, but I now think they are going a little too far and they are liable to be rounded up by a sudden turn.

While the Territory has a right to make laws through which they can collect tolls on goods coming from one state into another, they cannot make any laws that would compel anybody to pay toll on goods landed on their own property.

I am willing to use a government wharf, if they would build one large enough for our ships to use, and I shall do all I can to support them, but until they do so I do not see any reason why they should try to collect unjust dues from the public, for if the Legislature of Hawaii make laws whereby they would charge 10 cents per ton for all goods coming into Hawaii, it would have to be paid by the public and every small shipper, which would be an injustice, as long as we do not use a government wharf upon which to land our goods.

If permitted by the Hawaiian Government, I would erect a wharf at my own expense and have it so situated that it would be convenient for all ships to be brought alongside.

You may also state that I have let a contract for a new tow boat. It will be about 90 feet long, 10 foot hold and 20 feet beam.

Very truly yours,

WM. MATSON.

## PRISON GUARD ASSAULTED.

Kan Kau Attacks Him From Behind With a Hatchet.

Kan Kau, a Chinaman serving time in the Hilo jail for attempting to hammer the life out of his wife last July, tried to take the life of Guard Kaiama Amina last Monday morning at breakfast. The guard went to the kitchen early Monday morning as usual to get a cup of coffee. Seated at the table, Kan Kau attacked him from behind with a hatchet. The first blow struck the guard in the back of the neck. As he arose to resist the attack, he received another blow on the head. He then grappled the hatchet wielder and dragged him to the door calling for help. The guard was taken to the hospital and the murderous Chinaman

locked behind bars. Kan Kau is under a sentence for a term of five years for assaulting his wife with a hammer last July.

## The Hawkeye State.

The man from Iowa is in the front. He has been here some time, but never more prominently than now. He fills the eye of the people completely, and he is canned meat for the newspapers. While sighting the guns in the Senate and doling out the ammunition in the House, he is to be absolutely at the front in the Cabinet. With Gov. Shaw and James Wilson among the confidential advisers of the dashing and youthful President, the Hawkeye State has an eyrie in the Roosevelt administration equally as lofty as that held by the Empire State in the eight years of Grover Cleveland's Presidency. There is far more sunshine now than there was eight years ago. The Cleveland administration was obliged to sell bonds in time of peace to avoid national bankruptcy; the present administration is buying bonds in the face of war in the Philippines, backed by a treasury richer than any known in the history of the country. This is the time for the man from Iowa to come to the front. With an available cash balance of \$75,000,000, to say nothing of \$150,000,000 set aside as a gold reserve, it is more than satisfactory to have an Iowa man to the front. The satisfaction, however, becomes profound when you add to the reserve \$71,000,000 in gold coin and bullion and \$43,000,000 in gold certificates. It becomes magnificently astounding when aside from this, you reflect that the books show \$317,000,000 in gold coin pledged to the redemption of outstanding gold certificates, making a grand total of \$581,000,000 gold in the Treasury. It reaches the sublimity of gorgeousness when you think that it is all in the hands of the man from Iowa at a salary of \$8,000 a year.—Washington Post.

## Reception at Baldings.

A pleasant afternoon tea was given by Mrs. W. T. Balding at Wainaku last Saturday in honor of her mother Mrs. Clark, who came to Hilo by the last Kinau for a visit of several weeks with her two daughters, Mrs. Balding and Mrs. Sedgwick. The guests numbered over fifty and all had a delightful two hours.

In serving refreshments Mrs. Balding was assisted by Mrs. Severance and Misses Severance, Ivy and Elvira Richardson.

## Something That Will Do You Good.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S.
