Auditor.....R. T. Guard
Directors—W. H. Shipman, F. S. Lyman and John T. Moir.
W. T. BALDING,
Secretary. 14-16

DOLE WILL STEP DOWN.

Col. Sam Parker Stated as the Governor of Hawaii.

(From the Washington D. C. Post of Jan. 26.)

Another Territorial Governor under the Administration of President Roosevelt must go. Sanford B. Dole, Governor of Hawaii and President of the little republic in the mid-Pacific before the days of annexation, is to be removed, and Col. Sam Parker, the last Prime Minister of Queen Liliuokalani and probably the richest man in the islands, is to be his successor. That is the program arranged here during the last few days. The first formal step toward carrying it out was taken yesterday, when a letter, written by Secretary Hitchcock at President Roosevelt's suggestion, was started for Honolulu intimating to Governor Dole that his resignation was desired.

It will require a month or more to carry out the proposed change, but a radical digression from the present policy, which has been attended with much factional party strife in the last two or three years, is decided upon. The present Secretary of the Territory, Mr. Henry E. Cooper, in recent months the Acting Governor much of the time because of Gov. Dole's poor health, is also to be displaced. Mr. George R. Carter, a prominent young man of Honolulu, a graduate of Yale College, and son of the former Hawaiian Minister in this city, will succeed him. It is altogether probable that still other changes will be made and an entirely new regime inaugurated in the islands.

Mr. Harold Sewall of Maine, and also of Hawaii, where he was stationed as United States Minister for several years, likewise national committeeman for the Territory until a few weeks ago when he resigned in favor of Col. Parker, is understood to have had a hand in engineering the change. He has been here the past week, a guest at the New Willard, and accompanied by Col. Parker, who has been in town for some time on his honey moon trip, has been in consultation with Senator Hanna, as well as with President Roosevelt. Mr. Sewall was himself an aspirant for the Governorship at one time, but for some reason or other retired from the race. He had the earnest support of some Eastern Senators, but eventually gave way to Col. Parker. Both men are opposed to the political policy of Gov. Dole, and have for some time been striving to accomplish his undoing, although Col. Parker is a Republican, and was the unsuccessful candidate of that party for Delegate to Congress at the election nearly two years ago.

For some time President Roosevelt has been seeking a new adjustment of affairs in the Hawaiian Islands. The vigorous factional strife there was emphasized almost as soon as he had been installed in the White House by the case of Circuit Court Judge Humphreys, whom the lawyers of Honolulu were trying to get removed. Judge Humphreys won out in his fight, but it was largely on account of the fact, probably, that he had been the late President McKinley's personal appointment and for other reasons which made it inadvisable at the time to give one faction an advantage over the other. The Dole faction were opposed to Humphreys, and, since his return to the islands, have continued their warfare on him. Apparently reliable reports have it that his resignation will be sent to Washington before many weeks.

In the meantime the President has sought in his appointments to select men as little identified with

either faction as possible, and Col. Parker is regarded as such a man. In a sense he is of the old royalist party, and his prospective appointment will undoubtedly cause much rejoicing among the native Hawaiian element although it will strike consternation to the more extreme missionary element, of which Gov. Dole is the exemplar. There can be no doubt of his capacity for a business administration, for he has long had large business affairs of his own.

Cortelyou Talks.

Washington, January 29.—Secretary Cortelyou today made the following statement: "The statement that any man has been offered the Governorship of Hawaii is without any foundation whatever. The President has long been considering the Hawaiian situation, and is still considering it, but he has reached no conclusion as to whether he will retain the present officials or as to whom he will appoint if any changes are made."

DANGER TO SUGAR.

House Leaders Show Their Feelings on Cuban Question.

Washington, January 28.—The Cuban reciprocity hearings were resumed today before the Ways and Means Committee of the House with delegations representing the beet sugar industry of Colorado and a number of Cubans, representing the planters of the island, in attendance.

F. M. Carey of Colorado spoke of the development of the beet sugar industry of Colorado and its bright prospects, if not endangered by Cuban concessions, which he asserted, would redound to the great advantage of the American Sugar refining Company. The present movement, he said, was only another chapter in the inevitable conflict between the domestic sugar producers of this country and the refining company, the latter seeking to crush the former.

Representative Hopkins of Illinois said Carey's assertion of injury to the beet sugar was only an assumption, and he expressed the belief that a reduction could be made of a certain percentage without destroying the beet sugar industry.

Representative Dalzell and Representative Grosvenor took part in the discussion, stating that the injury to the domestic producers had been shown by Carey and other witnesses. Grosvenor remarked that any one could see this result who could put two and two together.

F. B. Machado, head of the delegation of Cuban planters, and a number of other islanders presented the cause of the Cubans, declaring that concessions were necessary to preserve the sugar industry.

Holland Would Mediate.

London, January 28.—The Government leader, A. J. Balfour, announced in the House of Commons today that no overtures for peace had been received from any one authorized to speak in behalf of the Boers. A communication was, however, received late Saturday last from the Dutch Government, which was now under consideration. Balfour hoped shortly to lay the communication and the reply to it before the house.

The Government of Holland has offered in the most friendly terms to help in bringing about peace in South Africa. In a communication to the British Government suggests that it might be permitted to act as a sort of diplomatic agent for the Boer delegates. The Government, however, expressly disavows any attempt at intervention, and does not mention any terms.

THE HILO DOCK.

Work Will be Begun in the Immediate Future.

Philip Peck returned by the Kinau from Honolulu, where he went to close arrangements with the Territorial Government regarding the construction of a wharf at this port. The matter was closed satisfactorily to Mr. Peck, and he speaks in highest commendation of the officials at Honolulu for their liberal attitude on all questions concerning the big improvement. The Governor and heads of departments complied in every way with the propositions made by the men behind the enterprise. Work will soon be begun on the dock. It will be 800 feet in length and 80 or 100 feet in width. The capital will be furnished by local business men for the construction of the dock. From the proceeds of the dock, the Government allows the dock company eight per cent per annum. Whatever is left after all expenses are paid will be applied in repaying the company for cash advanced. When the money is all repaid either from the profits or by legislative appropriations, the big dock will be turned over to the Government.

TRANSPORT SERVICE.

Government Will Continue to Operate Its Own Vessels.

Washington, January 29.—Senator Perkins said today that he had been assured that nothing would be done in the matter of turning the transport service over to private contractors for at least a year.

"Secretary Root has changed his attitude somewhat on this matter," said Senator Perkins. "He was very anxious to have authority from Congress to sell the Government vessels and make contracts for the transportation of troops and supplies, but in view of the showing made by Quartermaster-General Ludington and the officers of the Quartermaster-General's Department, Secretary Root is now loath to act. I am satisfied that nothing will be done for a year, if at all."

Representative Kahu said tonight that he had talked with Representative Hull, chairman of the House Committee on Military Affairs, and that Hull said he was much opposed to turning the transports over to private contract. "So far as the House is concerned," said Representative Kahu, "I think it is safe to say that nothing will be done this session looking toward disposing of the Government transport service or letting private contracts for the transportation of troops and supplies. The system appears to be satisfactory to the House, and will remain as it is."

CUBA WILL LOSE.

Poll of the Committee Shows a Majority Against Tariff Reduction.

Washington, January 29.—A member of the Ways and Means Committee said late tonight that a poll had been taken in the committee on the reduction of the Cuban tariff, and that it stood 7 for reduction and 10 against. "There is a little question as to one man," said this committeeman, "who is included in the count of 10 against. If he gets over to the other side it will make the committee stand 8 for and 9 against. You can positively say that there is a majority of the committee against a reduction of the tariff on Cuban sugar. I think the plan is beaten in the light of this vote."

Governor Murphy Scores.

Washington, January 29.—Governor N. O. Murphy of Arizona had a conference today with the President regarding the charges filed against him at the Interior Department by Eugene O. Ives. One of these charges was that Governor Murphy had misused the contingent fund of the Territory. The Governor called the President's attention to the fact that Secretary Hitchcock had investigated the charges and reported that they were not proved. The President later announced that no further action would be taken.

A Bad Skin

Boils. Pimples. Impure Blood.

Boils are simply very large pimples. The trouble is not in the skin, but down deep in the blood. You cannot have a good, smooth skin unless it is nourished by pure blood; and the only way to make your blood pure is to take a strong blood-purifying medicine.

Mr. F. Elliot, of 370 Race Street, North Fitzroy, Victoria, sends us this letter and his photograph:

"I had a most frightful attack of boils and pimples breaking out all over my body. I had heard so much about

AYER'S Sarsaparilla

"I thought I would give it a trial. It took only four bottles to drive all the impurities out of my system and make my blood rich. I have enjoyed the best of health ever since I took it."

If your tongue is coated, if your food distastes you, if you are constipated or bilious, take Ayer's Pills.

Prepared by Dr. J. C. Ayer Co., Lowell, Mass., U. S. A.

LIBRARY BENEFIT.

Dickens Scenes, Music and Dialogue Amuse Large Audience.

An evening with the spirit of Dickens through the mediumship of the Monday Reading Club was enjoyed by about two hundred of Hilo's residents on Friday last. The proceeds of the seance, amounting to \$70, have been turned over to the trustees of the Hilo Library, as up to the present time none of the people who contributed to the fund by depositing fifty cents at the door of Spreckels' Hall have demanded their money back. An elaborate programme covering about two hours was rendered under the supervision of Mesdames Guerny, Holmes and Marsh, a programme which proved so interesting that no snore was heard in the audience, and no one interrupted the entertainment by going to sleep and falling out of his chair. Inasmuch as the average Hiloite is accustomed to go to bed before sundown the above mentioned fact may be considered highly complimentary to the show. The programme was of a very varied nature, combining features both musical and dramatic, as well as others which could not properly be considered either. Even the intervals of scene shifting though somewhat long were rendered delightful by vocal and instrumental selections rendered by well known local amateurs, while the scene shifting itself furnished more or less entertainment owing to the rather extended hiatus between the ceiling and the top of the curtains.

The first number on the programme was a piano solo—Spinning Song from "Flying Dutchman"—rendered by Miss Potter. This was followed by the scene from Nicholas Nickleby in which a rather antique inmate of a lunatic asylum makes love to the widow Nickleby over the wall separating the asylum grounds from the Nickleby garden. The lover doesn't act any crazier than individuals who are supposed to be sane do under like circumstances, which renders the denouement still funnier when the keeper appears, drags him off and apologizes to Mrs. Nickleby. The four characters involved were taken as follows: The individual with wheels, Mr. Severance; Mrs. Nickleby, Miss Louise Deyo; Kate Nickleby, Mrs. Sedgwick; Keeper, Mr. McClusky. All were well rendered and loud and continued applause followed the fall of the curtain—although strictly speaking the curtain didn't fall, but "side stepped."

The Nickleby garden having been retired to the wings and the imitation stone wall removed, Mr. Paul Bartels delighted the audience with a violin solo—selection from "Somnambula," Mrs. J. T. Lewis accompanying.

The second scene from Dickens was a selection from "Old Curiosity

Shop" in which Mr. Hastings Howland took the part of Dick Swiveller the attorney's clerk, a young man of rather convivial habits afflicted with a wealthy but stony hearted aunt who refused, in the language of classic literature, to "cough up." The other character in the scene, the maid of all work of Samuel & Sally Brass, attorneys-at-law, was carried with much spirit and most excellently rendered by Mrs. Henry Hays.

The "Sword of Ferrara," a solo by Mr. Prouty, succeeded the scene from the "Old Curiosity Shop," and although the soloist was suffering from a slight affection of the throat which somewhat embarrassed him he received as usual a hearty encore.

In a domestic scene from "Martin Chuzzlewit" Miss Potter and Miss May Deyo entered fully into the spirit of Betsy Prig and Sarah Gamp, two typical Dickens' characters of the "seamy side," provoking unrestrained laughter from the audience throughout the scene. Numbers seven, eight and nine on the programme were respectively a piano solo by Mrs. Lewis, recitation by Mrs. Curtis, and a vocal duet by Messrs. Prouty and Howland, each of whom was received most cordially and applauded vigorously.

The finale was a representation of Mrs. Jarley and her wax works, based upon the character of this name in "Old Curiosity Shop." Mrs. Cruzan, who represented Mrs. Jarley, proved an excellent "spieler" of the merits of her show and the audience received a liberal amount of information relative to certain characters of history and romance, which while it may have varied in some respects from the commonly accepted versions was perhaps just as true and no less interesting. She was assisted by two brawny and grimy mechanics, Messrs. McClusky and J. Castle Ridgway, who diligently brushed, cleaned, oiled, wound up and packed around the "figgers" in an effective and artistic manner. The images themselves proved at times unruly, their wheels and main-springs being sometimes too weak and at others too strong and speedy. The "waxes" represented the originals so realistically that the spectators frequently could hardly believe that before them were imitations and not the real article. The following were the characters and those who represented them: "Maid of Athens," Miss Frankie Eaton; "One of Tennyson's Light Brigade," J. U. Smith; "Benjamin Harrison and Hat," W. J. Stone; "Prima Donna," Miss Check; "The Old Dancing Lady," Miss Souza; "Maid of Honor," Miss Emily Peck; "The Undecided Youth," W. H. Smith; "Cow Boy," T. C. Ridgway; "Ophelia," Miss Helen Severance; "Uncle Sam and Philippine Infant," Ted Guard; "The Giggler," Miss Mabel Peck.

SUPPORT FOR REDMOND.

The Irish Parliamentary Leader Has a Farm Bold.

London, Jan. 12.—The Dublin correspondent of the Sunday Observer declares that the national convention of the United Irish League, which opened in Dublin, January 8th, was a great success and that it was the first Irish gathering in that city since the death of Parnell really inspired by a spirit of unity.

"No one present," says the Sunday Observer, "could fail to note the firm hold that John Redmond had got on the country, and no question of an alternative chairman was ever thought of. He was undoubtedly more generally supported by the people than any one since Parnell, and the feeling prevails that the National party has opened a new and victorious chapter."

Mr. Wheeler Got Rid of His Rheumatism.

"During the winter of 1898 I was so lame in my joints, in fact all over my body, that I could hardly hobble around, when I bought a bottle of Chamberlain's Pain Balm. From the first application I began to get well, and was cured and have worked steadily all the year.—R. WHEELER, Northwood, N. V., U. S. A. For sale by Hilo Drug Co.

Accuracy and Dispatch

This is the motto of the Mail Order Department of California's largest store. Shopping by mail has become, through our splendid system, as easy and almost as satisfactory as by personal visit to the store. Twice a year we issue a very large and profusely illustrated General Catalogue called "The Emporium Economist," which describes the new fashions; gives the lowest retail prices for everything to eat, drink, wear or use; tells how to order goods; how to send money; gives accurate shopping information, etc. Send for a free copy of the Summer 1901-112-page edition of "The Economist" now ready.

Upon receiving your order no labor is spared to select from our immense stock the exact article wanted, and the goods are shipped to you the same day. An order is received, if possible. Our customers' interests we make our own. If not already familiar with our methods, a trial order will convince you that it pays to trade with "the big store."

HAMAKUA ROAD MATTERS.

Writers Seek a Paper That Affords Some Publicity.

Because the Herald has no circulation in the Hamakua district, the TRIBUNE has been requested to publish the letters below for the benefit of its numerous readers in that section. The article in full from last week's Herald follows:

Some weeks ago a letter signed "Hamakua," relative to Hamakua road board affairs appeared in these columns. The last mail brought the following replies which are cheerfully published:

Pauilo, Hamakua, Jan. 31.

Mr. Editor: In your issue of the 9th inst. I notice an article signed by "Hamakua" in which he attacks me as chairman of this road board. Will you kindly find space for the following in reply.

The undersigned was elected a member of the road board and not appointed. He is entitled to all the rights of an American subject, having become a naturalized Hawaiian in the year 1880.

The chairman in some districts may be the "whole cheese," but in Hamakua he is only one-third of the cheese, the other members having an equal voice in all road board matters.

The books of the board are open for public inspection at all times, the usual quarterly statements are made to the superintendent of public works and thus far have met with his approval.

The writer will not attempt to answer the balance of the charges made by "Hamakua," but will leave to the secretary of the board the task of stating the facts.

Yours truly,

A. LIDGATE.

Honokaa, Hamakua, Jan. 30.

Mr. Editor: In your issue of the 9th inst. you published a letter from "Hamakua" in which various charges are made against the road board and more especially against the chairman, Mr. A. Lidgate.

In the paragraph in which he charges the chairman with receiving a fee of ten dollars per trip when going to either end of the district on road board business, and suggests that the superintendent of public works look into the books of the Hamakua road board and ascertain if these items are being charged, he displays gross ignorance of all the rules governing road boards in these islands, which is not at all compatible with the role "Hamakua" masquerades in.

Having kept the books of the Hamakua road board since July, 1899, I am in a position to affirm that neither the chairman nor past or present members of the road board have been paid by the trip, by the day, or for transportation while inspecting roads or while engaged on any road board business whatsoever. Quarterly returns, accompanied by detailed vouchers, of all monies expended on the construction of new roads or the maintenance of and repairs to existing roads, have to be sent the superintendent of public works, so that he is fully informed of how all road business in the different districts is carried on.

During the year ending Dec. 31, 1900, \$33,617.00 was expended in this district (\$27,726.00 from appropriations and \$5,891.00 from road tax fund) in constructing the following roads: Kaaunahuu homestead road, Honokaa landing road, new Waimea road, and regrading parts of the main road (at Kukuihaele two miles, at Kawela one mile, and at Kukaiau one and a half miles) the balance being expended on the upkeep of about fifty-three miles of road.

During the year ending Dec. 31, 1901, \$15,000.00 was expended; from appropriation \$5,000.00 on the new Waipio beach trail, and from road tax \$5,000.00 in constructing one and a quarter miles of new main road at Honokaa and \$5,000.00 on the maintenance of fifty-five miles of roads in the district.

It has been and still is the policy of the road board to expend just as much money as will keep in fair repair the main and other roads

that were never located but have been worn down to their present condition from the old riding trails of earlier years. All the new roads that are being constructed in the district are part of a system of roads that will, when completed, show to all fairminded men that the roads have had an eye to the future as well as the present needs of the district and have constructed the roads on the best locations and on the best grades possible.

The so-called homestead roads that "Hamakua" mentions are the division roads which run up and down the country and have any grade between six per cent. and twenty per cent., and it is impossible to get any reasonable grades on them. As the homesteads have not been laid out by public works department the road board cannot be charged with the deficiencies and impossibilities of their roads.

There has been a sum of \$30,000.00 appropriated by the Legislature for homestead roads, but so far no money has been placed at the disposal of the road board for this work.

Regarding the Waipio beach trail that has been constructed into Waipio valley: Four years ago the road board asked for an appropriation of \$25,000.00 to construct a road into Waipio valley, but only the sum of \$5,000.00 was appropriated for this work, a sum totally inadequate for a work of such magnitude. It was then decided to build a trail, to be constructed on the best location for a road, that, when completed, would best accommodate the needs of the Waipio valley. Several different routes were then surveyed by the former road engineer and after careful consideration the present beach route was chosen as being the best route for the road. A few of its advantages over any other possible routes are as follows:

Cost of construction much less; has much better grades; gives Waipio a direct road to their only landing; gives Kukuihaele village a graded landing road; gives the shortest and most direct road for produce going out of the valley to points east of Kukuihaele village; avoids ascending unnecessary ascents and consequent descents; will be the shortest and most direct road from Waipio to the projected railroad depot, and will give Kukuihaele village the shortest and most direct road to the projected railroad depot.

At present the trail is twelve feet wide and has been continually used ever since its completion in August, 1901. Arrangements are being made to have it completed to the finished grade and width.

There is a saying that "children and fools should not see things half done," in which "Hamakua" may possibly find a little consolation.

All meetings of the road board, to which the public have always been welcomed, have been advertised by written notices, and ALL road board business is transacted at these meetings. It would be better if "Hamakua" and other well-wishers of the district of his stamp would attend these meetings and keep themselves posted on road matters and so, if no other good would accrue from their attendance, save themselves their valuable time wasted in writing newspapers with false reports and accusations.

A. J. WILLIAMSON.

Honokaa, Hamakua, Jan. 29.
Mr. Editor: In your entertaining columns of the 9th inst. I note a "Kick from Hamakua" against the road board of this district, but more particularly directed towards the chairman of that honorable body.

Your correspondent is evidently in want of information and for his

JUDGEMENT WANTED.

The talk of the town this week has been a street incident in which a police officer found either just or improper occasion to use his club upon a citizen. The affair took the town by the ears and promptly divided it into two opposing camps of opinion.

It is said in behalf of the clubber that policemen's clubs were made to be used and that men's heads are the proper things to crack. Among other remarks a few expressions are heard on the subject of "caution" and "just provocation."

Whether it is Parker or Little who is to succeed Dole within the next ninety days, we submit that the TRIBUNE during the past few months, has been barking up the right tree.

uary showed how the Hilo Police force has gone into the liquor business. Sheriff Andrews when he read that report merely grinned and turned to his plans for a saloon on his own property.

FOR THE GOOD OF ALL.

The banquets held in Hilo lately, in honor of King Edward VII and in commemoration of the memory of Robert Burns, were occasions showing the potency of good fellowship to cement all differences growing out of diverse places of nativity.

PEOPLE who travel on the Volcano road are often heard to remark that the Road Board at this end should put on men to clear away the weeds and bushes that are encroaching upon either side.

Whether it is Parker or Little who is to succeed Dole within the next ninety days, we submit that the TRIBUNE during the past few months, has been barking up the right tree.

Auction Sale of Delinquent Stock in the Waipio Limalau, Ltd.

By order of the directors of the Waipio Limalau, Limited, on Saturday March 1st, 1902, at 12 o'clock noon, at my salesroom in Honokaa, Hamakua, Hawaii, I will sell at public auction the following certificates of stock in the Waipio Limalau, Ltd., unless the assessments due December 31st, 1901, now delinquent, with interest and advertising expenses is paid on or before the day and hour of sale at the office of the Treasurer of said company in Honokaa:

Table with 2 columns: Certificate No. and Shares. Lists certificates 5 through 111 and their corresponding share amounts.

CHARLES WILLIAMS, Auctioneer. Honokaa, February 11th, 1902.

BY AUTHORITY.

RULES AND REQUIREMENTS FOR Aerial Circuits for Electric Light, Power or Railway, Telephone or Telegraph Circuits on Public Roadways and Highways.

In the construction of aerial circuits for the above purposes, the following rules and requirements must be observed on and after this date:

- POLES. 1. Application must be made on proper blanks to the Superintendent of Public Works for permission to erect. 2. Use of poles is limited to the purpose for which they are erected. 3. Poles erected within town or city limits, other than those for electric railway purposes must not be less than forty feet in length and twelve inches in diameter at butt. 4. Space between poles must not exceed 100 feet. 5. Poles subjected to special strains must be properly guyed or braced. Guy lines are not to be secured to trees. 6. Poles must be stamped with owner's name and numbered. 7. Private signal lines must not be placed on poles for public service without permission. 8. Where curb lines are established, poles are to be placed inside of and tangent to the curb line. CROSS ARMS. 1. Must be chamfered.

- 2. For high potential lines should be dipped in oil. 3. When carrying more than two lines must be braced with galvanized iron braces. 4. Must be secured with galvanized iron bolts; not lag screws. 5. Where lines are dead-ended double cross-arms should be used.

WIRES.

- 1. Main conductors for electric light or power on roads and highways must not be less than No. 6, B. & S. 2. Service wires on roads and highways must not be less than No. 6, B. & S. in private grounds not less than No. 8, B. & S., and rubber covered. 3. Electric light and power lines must be kept clear of foliage. Supply companies are responsible for lines on roads and highways, and owners on private grounds. 4. The lower limit of wires on roads and highways is that of the electric railway trolley wire, twenty one foot above the level of the track. 5. Where wires for various purposes are run on the same poles, or lines cross, the following order will be kept, beginning with the highest: (a) Signal wires. (b) Telephone and telegraph. (c) High potential alternating current. (d) Arc light. (e) Low potential alternating current. (f) Direct current, constant potential. 6. Telephone and similar wires must be protected by dead insulated guard irons or wires from possibility of contact with other conducting wires. Must not be placed on same cross-arm with electric light or power wires, and when placed on the same poles with such wires the distance between the inside pins on each cross-arm must not be less than twenty-six inches. 7. Wires crossing flat roofs must clear same by at least seven feet. Wires crossing pitched roofs must clear ridge over which they pass, or to which they are attached by at least one foot. 8. Service wires must be run as nearly as possible in horizontal lines from poles to point of attachment to buildings. 9. All joints in all wires must be soldered.

INSULATORS.

- 1. All insulators for high potential circuits must be of glass and triple petticoat. 2. Insulators for other electric light and power circuits must be glass and double petticoat. 3. Service wires for electric light or power, where secured to the outside of buildings, must be carried on double petticoat, glass insulators. The term "high potential" covers any current between 550 volts and 3,500 volts.

JAMES H. BOYD, Department of Public Works, Honolulu, February 10, 1902. 15-17

Honolulu Beer—The Union Saloon has just received a consignment of Honolulu PRIMO BEER and begin selling same tomorrow. 2 glasses for 25 cents.
Dr. R. H. Reid moves from his offices today in the Spreckels building to the office in the new Loebenstein building on the corner of Waiuanu and Pitman street.

OVEREND HITS HARD.

Man Who Calls Him a Liar is Put to Sleep in One Strike.
Deputy Sheriff Overend and Wm. Dixon had a collision on Waiuanu street last Saturday evening that startled the village of Hilo to its circumference. As nearly as can be found out, the episode is properly photographed in the following words: Mr. Overend was engaged in a colloquy with one Pollock, recently arrested for adultery. They were standing on the sidewalk near the Hilo Bakery. Dixon came along and mixed himself up in the conversation, declared to Overend that the police, when they made the raid which resulted in the arrest of Pollock, were in reality after his own scalp. Overend hooted at the idea. Dixon became aggressive with his tongue and asked Overend if he had his badge. Overend replied that he did not have his star. Dixon replied: "Then you are a liar." Instantly Overend struck Dixon on the head with his policeman's club. The club was broken with the force of the blow and Dixon was hors de combat. Dixon was taken to his home and medical aid summoned. Monday he was making around town, Tuesday he was ordered to keep his room by his physician and visitors were denied. Wednesday he was reported better.
The encounter was witnessed by Kanoho, a member of the police force. Monday morning Dixon called on Sheriff Andrews. The sheriff put him through an examination, which drew out the information that Dixon questioned Overend regarding his star, in order to make sure in his own mind whether Overend was on duty or not. His theory evidently was that if he established the fact that Overend was not on duty he could with impunity give him a piece of his mind which he had been saving for that purpose. The Sheriff assured Mr. Dixon that according to Dixon's own story, Overend had acted in the scrap, merely as a private citizen and therefore the matter did not properly come under his purview as Chief of Police on this island.
Mr. Overend insists that he was on duty and acted as he did because he was threatened and accosted in a way calculated to intimidate an officer.
To a representative of the TRIBUNE, Sheriff Andrews said: "In all cases of an officer using more force than is authorized by law I will not and do not propose to stand between them and prosecution. I do not propose to discharge men for petty offenses, unless repeated. I think if Mr. Overend had been a private citizen on the street he would have been exonerated for resenting, as he did, an open flagrant insult."
The Sheriff said that it was not his business to move in bringing any one to account for a breach of the peace, unless the man assaulted were incapacitated and therefore could not swear out a warrant for his assailant's arrest.

A SURPRISE PARTY.

Mr. and Mrs. C. H. Hitchcock Find Mountain Home in Peculiar Order.
C. H. Hitchcock and wife made a trip last Sunday to their place at 23 mile. They were greeted with a surprise party at their mountain home. Five Gallicians who are working on Volcano Road had taken up their abode in the Hitchcock house. They had the gasoline stove running at full blast and were lounging comfortably on the beds in the servants quarters. They had gathered what fruits they could find on the premises and were decidedly happy and snug in their mountain villa. Mr. and Mrs. Hitchcock were given an awkward but not inhospitable welcome. The squatters with inimitable consideration showed Mr. Hitchcock over the farm and commented on the outlook for good crops and talked entertainingly about the weather. When Mr. Hitchcock ventured to inquire how his genial hosts came by their attractive place of abode, they told him that Senator Russell had given them permission to use the residence while they were engaged in repairing the Volcano Road. Subsequent inquiries by Mr. Hitchcock led to the discovery that neither Senator Russell nor any body else had given the Gallicians the alleged permission.

LAKE IN THE TOLLS.

Able Talks in His Own Behalf Before Judge Hapai.
Captain Lake of the police department was called upon Wednesday to defend a complaint of assault and battery brought against him by one Kalamokai, a native of the soil, who claimed that said Lake had laid violent hands upon him without due course and had thereby ripped his garments and injured his feelings. Complaining witness alleged upon the stand that he was sitting quietly beneath the roof of a certain Kapahu, who resides in the alley which connects Waiuanu with Shipman street, committing no breaches upon the peace, and so far from being intoxicated that he was at that very moment suffering much thirst from a continued period of total abstinence which had covered the entire day. Upon him thus resting in innocuous desuetude burst in the midst of the law aforesaid and with much flowery language did seize upon him and violently pull, push and otherwise forcibly propel him into the aforementioned alley, which hath a proper or rather improper name not used in polite society and in soul stirring terms demanded that he "get 'ell out of that." Complainant was somewhat surprised and quite as frequently contradicted by diverse witnesses whom he had summoned to his assistance.
Captain Lake took the stand in his own behalf and being requested to give his version of the matters in question deposed as follows:
"Ver Riverence—Yer Honor I mane, on Monday evening the third of the present month I was diligently patrolling me bate, thinkin' of nothin' and manetime and the glorious dignity of me position and the glorious authority of me badge as applied to Pakes and the other havthen, when I noticed a tenderfoot lopin' in me direction with the speed of a frightened jackrabbit, or of Sam Parker in pursuit of the Governor's scalp. When the apparition come within hailin' distance he give the sign of distress peculiar to me lodge and cries 'Lake, ye fit' wheel of an ice wagon, there's a fight in the alley and if yez don't hurry ye won't get there in time to arrest the felly that get's laid out; so I quickens me pace to a walk, and presently I steps into a gang what is surely drunk and disorderly, much, and they shows it plain for they never says a word. I sees Johnny Kai across the way and I says to him 'Johnny what ar ye doin' here ye drunken lobster a standin' on both feet and committin' other breaches of the peace?' 'None o' yer business' says Johnny as bauld as Charley Hyde at the latter end of a hunt, so I knows right away there's a nigger in the wood pile, or at any rate a drunk in the house and sure enough when I enter I sees Kalamokai and him surely drunk as usual; besides, there's a kid on the bed, and him a bellerin' wit' grief and seein' things; likewise declorin that someone was a goin' to hit him sure, a most vivid presentiment of evil such as made me flesh creep and otherwise disturbed the pace of the Therriitory.
Me duthy was clear. I seizes on the rhyptile you sees before you and lunsles him quickly to the fort, and I says, 'Lave the eart' ye limb o' satan and do the double quickest to Puno where yer tree wives and seventeen small children awaits ye, I says, wad a club and other necessities of life.' This yer honor is the thrue and unblemished account of the transaction so help me Pathrick and his snakes. Oim not guilty, but if oi am oi'll appeal and prove an alibi."
Other witnesses for the defense were heard and the case submitted without argument on the part of defendant's counsel. Judge Hapai reserved his decision until Saturday.
John Brown for Territory, C. M. LeBlond for defendant.

Kinai Passenger List.

The following passengers arrived by the Kinai this week: L. A. Thurston, G. W. McFarlane, T. Lilienthal wife and daughter, Mrs. B. Lilienthal, Miss Gerstle, A. L. Langness, G. E. Extry, G. Snow, P. B. Dankey, H. C. Voss, M. Mallon, D. Lycurgus, Perry Pearce, J. Matudoyashi and wife, H. Cannon, Mr. J. W. Keller, W. R. Campbell, R. A. G. Miller, Fred Angus, H. T. Cook, Dr. T. Fuki and servant, J. M. Weed, Mrs. H. M. Weed, Mrs. M. Kuffman, H. J. Day, Judge G. F. Little, Geo. Ross, Dr. R. H. Reed, John Utterson, O. Peterson, P. Peck, Miss H. J. Brieley, Mrs. J. Dover and daughter, H. W. Holling.

Hoffschlaeger Co., Ltd., are offering the public the best Wines and Liquors on the market at prices which come within the reach of everybody.

By ordering your Liquors from them you will save money. Give them a trial and be convinced. Tel. No. 23.
The amateur disciples of the Terpsichorean art have been given semi weekly soirees at the home of Mrs. R. H. Reid. The evenings have been pleasant socially and some who could tread the mazes only with faltering step have become qualified to lead the german. Mr. Frank L. Winter has been officiating as dancing master.
"Wehikulan!" the home of Mr. and Mrs. P. Peck and family in Puno is a tough built sometime ago, has never yet been formally dedicated with the customary "house warming." While Mr. and Mrs. Sam Peck of Honolulu are visiting at the home of their parents, this pleasant event will be take place. Cards have been issued by Mr. and Mrs. Peck for an "At Home," Tuesday evening February 18.

Company "D" Passes Resolutions.

At a meeting of the members of Company D, last week, the following resolutions were adopted:
WHEREAS, The Hon. Gilbert F. Little, Judge of the Fourth Circuit of the Territory of Hawaii, with patriotic impulse and a generous feeling toward the members of Company "D," N. G. H., has presented us with a stand of the national colors of the United States of America, be it
Resolved, That we, the members of Company "D," N. G. H., with kindred impulse and reciprocated feeling, express our deep appreciation of the gift of the beautiful flag.
That we are deeply sensible of the loyalty in the donor's heart which prompted the act and that we shall endeavor to display the same devotion to the principles represented by the flag, whether we follow it through the holiday maneuvers of peace or through the smoke and carnage of battle.
That we, as a company, tender our sincere thanks for the colors, without which no military organization is complete.
That these resolutions are hereby ordered spread upon the minutes of this meeting and a copy ordered engrossed and presented to Judge Gilbert F. Little, be it

Coast Capitalist Calls.

P. N. Lilienthal, a San Francisco banker, with his family and a party of Honolulu gentlemen arrived in Hilo by the Kinai this week. In the party were L. A. Thurston and Col. G. W. Macfarlane. In order that Mr. Lilienthal might have more time in which to look over Hilo and environs the Kinai is held one day, not sailing until tomorrow. The party left early Thursday morning for Oahu and put in the day looking over that plantation. Today they are at the Volcano.
Mr. Lilienthal is a heavy investor in Hawaiian securities and is on the islands combining business with pleasure. He expresses himself as highly pleased with the showing of material wealth in the islands. He says that there is no reason for gloomy forebodings regarding the business future of the Islands.

Will Sue for Damage.

T. C. Howell, who has been travelling over this island for the past two months, leaves today by the Kinai for Honolulu. Upon his arrival there, he will at once institute suit against the Department of Public Works and the Territory of Hawaii, for \$10,000 damages. He will allege that he sustained damages to this amount by running into a barricade, left without danger signals by a road working gang. Mr. Howell's team was going at a lively gait at the time and in the darkness ran into the barrier and over it into a six foot cut.
On the Island of Hawaii Mr. Howell says that he has found numerous places where the roads were left in a dangerous and unguarded condition.

In Honor of Washington.

At a meeting held Tuesday night, at Demosthenes Cafe it was decided by the Americans of Hilo to celebrate Washington's birthday with a banquet. Carl Smith presided at the meeting. An executive committee of seven to make arrangements was appointed. An innovation in the matter of banquets was adopted on motion of Rev. J. A. Cruzan. Ladies are to be present. This brought up a second question, viz, whether wines shall be served. This vexatious question was referred to the Executive committee. The place and the price per plate to be charged are also to be settled by this committee.

Hawaiian Departs.

The big steamer Hawaiian steamed out of Hilo harbor last Tuesday weighed down to the guards with a cargo of sugar. At this port, she took on 8000 bags from the Waikae plantation and the same amount from Papeete. The steamer trip around the Horn will probably be made within seventy days. Her destination will be either New York or Philadelphia as ordered. Before leaving the officers had a little difficulty with two of the crew who wanted to forego the pleasures of the long trip. The Hawaiian carries 8000 tons of sugar.

Your system needs bracing and building up for the Spring and Summer months; nothing will help you more than our Palast Best Tonic, which is all its name implies. W. C. Peacock & Co.

The liveliest sailor port that has graced the annals of this port occurred in the region of the Waikae saloon last Sunday night. The pugilistic display was a rough and tumble affair. Leading figures were the mates of the Hawaiian the Hawaii and the Martha Davis. A sailor from the Annie Johnson got the worst of the deal by a large majority.

It was reported from Oloa the first of the week that three police spies approached the Chinese Laborers on that plantation, with promises of immunity from arrest during Chinese New Year festivities if they would pungle up appropriately. The report further alleges that after duly considering the proposal, the Oloa Chinese proceeded to throw the interlopers out. One of the sure thing boys, it was said, was beaten beautifully.

Inquiry at the Sheriff's office elicited the tale that the thrifty spy was none other than Ah Nee, a Chinaman who has been vainly wanted by the police here for the past two years. Whether he was wanted badly enough to warrant placing real spies upon his trail was not made known.

(Continued from page 3.)

benefit I may say that all business meetings of the road board are advertised and citizens as well as taxpayers cordially invited to attend. At such meetings all bills tendered, and paid, are examined and discussed in public.

The chairman of this abused road board is accused with the "unpardonable sin" of being a British subject and consequently unfit to occupy the cherished position of roadmaker to the tender feet of "Hamakua". No doubt this allegation can be rescinded by Mr. Lidgate, if he considers it worth while wasting ink on his accuser. Again the chairman is charged with collecting \$10.00 per trip while on road board duty. Having closely attended road board meeting for several years I am in a position to assure your correspondent to the contrary. The only recompense there seems to be for honest and conscientious unpaid public servants, who do their duty with a moral sense of responsibility, is the contempt and abuse of our local demagogues, who seemingly are possessed of more leisure than sense of justice and during recent years have become professional in originating petitions for the removal of public servants who do their duty honestly and regardless of criticism. If your correspondent has a grain of that quality called "manliness" left him, and if his convictions are honest, why tender his complaint over the endorsement of a nom de plume? Rather let him come forward and present his grievances, if he has any, when I feel confident, as heretofore, if within the power of the road board, due consideration will be his as well as the sympathy of all right-minded taxpayers.

AUDI ALTERAM.

CIVIL SERVICE EXAMINATION.

**Chances for Ambitious People to
Enter Employ of United States.**

A series of examinations will be held in Hilo under the supervision of the local Board of U. S. Civil Service examiners on Tuesday, April 22nd, and Saturday, April 26th. All persons of full age, who are citizens of the United States and not physically disqualified are privileged to any one or more of the examinations for the following positions, on the dates named: Tuesday, April 22d, 1902—Clerk, Departmental; electrotype finisher, electrotype moulder, press feeder, promotion to clerk, railway mail clerk, letter carrier, customs inspector (day), customs inspector (night), customs boatman, inspector-internal revenue, stenographer stenographer and typewriter, typewriter.

Philippine service—stenographer, typewriter, stenographer-typewriter, stenographer-typewriter-junior translator (Spanish), translator (Spanish).

Saturday, April 26th, 1902—aid, coast and geodetic survey; assistant examiner, patent office; assistant topographer, civil and electrical engineer, copyist-topographic draftsman, inspector and assistant inspector (meat).

Special attention is called to the examinations for the Philippine service. Examinations for positions in the classified service within the United States are entirely distinct and separate from those for the Philippine service, although the same examination is given for positions in both services. Persons that desire to become eligible, however, in both services must file separate and must indicate in their applications the service for which they desire to be examined. No person under 18 or over 40 years of age will be admitted to an examination for the Philippine service, and all applicants are required to furnish proper medical certificate to determine whether physically capable of performing service in the Philippine Islands.

Appointments to federal positions in Hawaii in the Post Office, Custom House and Internal Revenue Service, will be made from the list of eligibles who qualify by taking the prescribed examination. There is a demand for eligibles for appointment as clerk-carriers in the

local Post Office service in Hawaii.

Persons seeking information or application blanks for any of the above positions should apply to the Secretary, Civil Service Board of Examiners, Honolulu, or to H. Moses, Hilo Post Office, or J. Castle Ridgway, Hilo, Hawaii.

FRANCE HAS DEFICIT TO FACE.

**Receipts Fall Thirty-six Million
Dollars Below the Estimates.**

New York, January 13. A cable to the Tribune from Paris says: An official statement of the Ministry of Finance shows a still further decrease in the national revenue, the receipts for December being \$1,654,368 below the estimates and \$4,021,000 below the receipts for December, 1900. This makes for 1901 a deficit of \$23,930,000 in regard to estimates and \$34,530,440 below the actual receipts of the year 1900, but the real situation is even worse, because, besides this falling off in revenue, there is also increased expenditure, so far known to be \$12,300,000, not included in the budget, to be accounted for; so that, taking this latter sum into consideration, the actual deficit below the estimates for the year 1901 amounts to the enormous sum of \$36,130,000.

Three items which indicate the most marked decrease in the revenues are the customs receipts, which fell off \$6,200,000, mainly owing to diminished wine imports, consequently upon plentiful vintage; the new liquor law, which is responsible for a shortage of \$13,000,000 in excise revenue, and the new sugar law, which caused a decline in the receipts of \$8,200,000. This total shortage of \$31,130,000 from estimates is the largest deficit ever yet recorded for any one year in France during a period of peace.

Peculiar Customs.

One of the unique customs in Hilo, which has so far withstood the encroachments of progress is the aversion shown by professional men for office rooms on the second floor. In Honolulu, lawyers have given up bungalow first floor offices and have availed themselves of modern suites in the lofty sky scrapers which sprung up like mushrooms in the tide of prosperity that followed annexation. Physicians in the capitol city still manage to avoid climbing a flight of steps, although a few will be found on the upper floors of some of the new blocks.

In Hilo there is not a lawyer whose clients are required to overcome more than a very small degree of the force of gravity in order to obtain an audience. This is also true of physicians and professional men of all kinds.

The Peacock building, a modern up-to-date, fire proof structure devotes a second floor entirely to offices. The finish is rich and the building is equipped with every convenience. Because of the prevailing prejudice to stairways, the coolest office rooms in the city may be had at a ridiculously low rate.

Scheepers Shot.

New York, January 22.—It has just been discovered that through a cable error an Associated Press dispatch announced that the death sentence upon Commandant Scheepers of the Boer army had been confirmed by General Kitchener and that he would be executed next Saturday. The fact is that he was executed on last Saturday, January 18th.

COFFEE AND DAIRYING.

**Director Smith Tells What Ought
to be Done in Both Lines.**

The subjects of dairying and coffee growing in Hawaii were treated in Director Jared Smith's annual report to Washington as follows:

Dairying and cattle feeding is now being carried on on a small scale with some measure of success, but the supply of milk and butter is insufficient to meet the demands of the home trade. Island butter retails for 60 cents per pound, milk for 12 cents a quart, and Hawaiian-made cheese is almost unknown in the Hawaiian markets. A few of the dairies are managed on a scientific basis.

There is, however, widespread ignorance of the best combinations of feeds and too great dependence on one-sided rations both in feeding dairy cattle and in fattening animals for the shambles. The use and necessity of leguminous forage plants is not recognized. Enough by-products of the sugar plantations are burned every year to feed all the beef, pork and mutton consumed in the islands.

Experiments should be conducted in the utilization of the waste cane tops in the form of silage for feeding dairy cattle and beef steers, and with the waste molasses for fattening sheep, cattle and hogs. On some plantations the work horses and mules are fed cane tops and molasses to good advantage. The practice can with profit be extended to other branches of animal husbandry. But it is of even greater importance that extensive experiments be carried on with forage plants rich in protein, the clovers and beans, to supplement and fully utilize all of the heat and fat-making energy of the cane-top and sorghum rations generally used. The Hawaiian Islands can grow and fatten more than enough animals to supply the home demand. At present considerable importations of cattle, beef, mutton, hogs, and pork are made from the Mainland, Australia and New Zealand. On the contrary because of the location of the group, Hawaii ought to be able to command a superior market for all her surplus dairy and meat products in the Orient.

Plans are being made for experiments in horticulture, including both fruits and vegetables, and coffee culture. These will include experiments with reference to the methods and times of pruning, methods of cultivation, picking and marketing, as well as tests of varieties. To show the importance of such investigations, Mr. Smith makes the following statements:

The Hawaiian Islands market depends largely on supplies of fruits from the Mainland at all seasons of the year. Not only can enough fruit in sufficient variety be grown to supply the local markets, but both fruit and vegetables might be grown for export. The Honolulu market is usually well supplied with fruits and vegetables, though not always of the best quality nor in large variety, but the plantations, farms and ranches depend largely on canned products. Work to show the practicability of the growing of a wide range of fruits and vegetables for the home table at a distance from well-filled markets will be profitable and desirable.

It is hoped that experiments in coffee culture and the growing of various spices and drugs may also be undertaken at an early day. On this subject Mr. Smith reports as follows:

Probably \$10,000,000 has been sunk in unprofitable coffee cultivation in these islands during the last ten years. An intelligent investigation of all phases of the coffee industry will well repay. Coffee is a white man's crop. It is grown at elevations unsuited to cane and where the climate is admirably adapted to a comfortable and healthful existence.

The coffee lands of Hawaii can be made as productive as any in the world. Experiments in the selection and crossing of varieties to produce more prolific or hardier trees, and especially an investigation of the methods of curing coffee, should be made in an effort to save this

industry. Hawaiian coffee has already made for itself an enviable reputation for quality and flavor of berry. If it could be sold on its merits instead of in competition with the low-grade coffees of Brazil and Central America, it would in time prove an immensely profitable crop. An effort should be made to save this industry from total extinction. It is a crop especially suited to the small investor—the man who can build up a home and care for his crop himself. The establishment of the coffee industry on a successful basis would make the Hawaiian Islands a land of small farmers more quickly than the transformation could be accomplished in any other way or through the medium of any other crop or industry. Besides coffee, various spices and drugs could be grown, such as pepper, allspice, ginger, cardamon, cloves, various tannins, and oils. But with all of these the experiment station must lead the way and show the possibility of profitable culture before the farmers are advised to undertake the cultivation.

PAHALA ITEMS.

Batch of Spicy News From the Leeward Side of the Island.

Last Wednesday, a Japanese, Sukamoto, was killed by being struck by a falling mast used in handling large machinery at the mill of the Hawaiian Agricultural Company. The unfortunate laborer was almost literally severed in twain. In the evening a jury was impanelled by Deputy Sheriff Eaton. After listening to the testimony to eye witnesses of the accident, a verdict was given of accidental death. Engineer John Sherman is in charge of the mill and this is his first accident within 35 years.

Active operations will begin about April 1, in the construction of the mill for the Hawaiian Agricultural Company. It is fully expected that the crop taken off this year will be the largest in the history of the property.

Rumors are rife relative to a proposition shortly to be made to the Hilo Railroad Company by the plantations and property owners of the Kau district, whereby they will take sufficient of the Hilo Railroad six per cent bonds to justify that company in extending their road from the Puna terminus to the Hutchinson plantation. By the most feasible route the distance will be approximately thirty-five miles.

It is to be regretted that the \$40,000 appropriation made by the last legislature to complete the wagon road from the Volcano to Pahala, is not available. The road board in the Kau district is working on that end and doing what it can.

The Mauna Loa was unable to land freight at Punaluu last trip owing to the heavy running seas. In consequence, a large consignment of machinery and supplies for the Hawaiian Agricultural Company were returned to Honolulu.

One of the strongest winds that ever visited the Kau district prevailed the greater part of last week.

Recently, Surveyor Wall and his assistants visited the Kona district on business connected with the Kona and Kau railroad. Much speculation is afloat as to the final outcome of the plans for this road. Mr. Woldemar Muller, an old resident of Kona and strong advocate for the construction of the above road, has been disposing of considerable stock in the proposition.

Something That Will Do You Good.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. C., U. S. A.) Messenger. Sold by Hilo Drug Co.
