PLANS OF SHIP COMBINE.

Formed on Same Lines as United States Steel Trust.

London, April 21.—The allotments of stock in the new shipping corporation were all taken up by British members of the syndicate at noon today. What proportion was given to Europe the Morgans decline to say, but evidently it was not nearly so large as desired by the British interests.

J. P. Morgan is now in Paris, but from other members of the firm it is learned that the corporation will be run almost exactly the same as the United States Steel Corporation, each branch retaining its individuality, but being subject to the control of the directing body. The statements intended for the stockholders of the new company, regarding earnings, management, etc., will be issued by a method similar to the one now employed by the steel corporation.

Regarding the defection of the Cunard, Allen, Anchor and French steamship lines, the Morgan firm views are as follows: "It remains to be seen whether they will come in. We think it is rather a good thing, in some respects, not to get everybody in at the beginning, the idea being that the present combine is quite big enough to start with, and it is better to get it down to a practical working basis before being too anxious to make a clean sweep."

DANISH ISLAND TREATY.

Discussion at Copenhagen Likely to be Terminated Today.

Copenhagen, April 22.—The Landsting today encountered in open session the treaty providing for the sale of the Danish West Indies to the United States. The Foreign Minister, Dr. Deuntzer, made a strong pro-sale speech, covering the various arguments of the opposition against the sale of the islands. He created a sensation by reading statements from the United States official publications showing that Estrup, the leader of the opposition, offered to sell the islands to the United States in 1892 when he was Minister of Finance.

Ex-President Redtz-Thott and the Ministerial leader, Madsen Mygdal, followed, praising the growth of Liberal institutions in the United States and declaring that the sale insured the prosperity of the islands. It is expected that the vote will be taken tomorrow.

Chinese Exclusion.

Washington, April 21.—The United States Supreme Court today upheld the validity of a certain portion of the Chinese exclusion laws that came in question through the case of Lee Yen Tai, a Chinese laborer who was captured on the New York border. He claimed to be a merchant and had no certificate. He was ordered deported, but a writ of habeas corpus was obtained, and he was ordered discharged. The Circuit Court admitted him to bail, pending an appeal. The case hinged on one question, whether section 12 of the act of 1882, as amended by the act of 1883, and continued by the act of 1892, was rendered void by the treaty of 1894. Section 12 required a Chinese entering the United States by land to produce a certificate showing right to enter.

American Stocks in Paris.

Paris, April 22.—The question of listing the stock of the United States Steel Corporation and other American securities on the Paris bourse has been broached by J. Pierpont Morgan, but there is little prospect that the idea will be carried out. The matter, it is expected, will be settled tomorrow.

LUMBER PRICES ADVANCE.

Rise of From Two to Four Dollars at Gray's Harbor.

Tacoma, (Wash.), April 21.—Six large lumber mills on Gray's Harbor decided Saturday to make a radical advance in the price of all kinds of lumber. The advance affects local business on Gray's harbor, together with the markets of San Francisco and the Hawaiian islands, to which a large portion of the output of the Gray's harbor mills is shipped. The increase in prices ranges from \$2 per thousand on rough grades to \$4 on finished and dressed stock.

Owners of mill say they have been selling lumber on Gray's harbor cheaper than at San Francisco and Southern California ports. Another reason is the fact that Gray's harbor loggers have been gradually advancing prices for several months. Very soon logs are likely to be lower, however, on account of a decision of the Weyerhaeuser Timber Company to immediately cut 150,000,000 feet of logs along Wishkah river, where worms have destroyed the timber.

The combination of mills to raise prices includes the West and Slade Mill Company, Wilson Brothers & Co., the American Mill Company, Anderson & Middleton Mill Company, the Aberdeen Lumber Company, and Bryden & Leitich.

Basis for Cane and Sugar Prices.

The circular letter issued by Williams, Dimond & Co. of San Francisco, April 22, says:

Sugar—No changes have since occurred in the local market or for export, prices established March 5th still being in force.

Basis—March 20th "to arrive" sale 200 tons at 3-7-16c, and on same date cost and freight sale 2000 tons at 3-5-1c, and again cost and freight 800 tons at 3-5-0c; 22nd and 24th no sales; 25th "to arrive" sale 1000 tons at 3-17-32c; 26th "to arrive" sale 2000 tons at 3-9-16c, and on same date cost and freight sale 2000 tons at 3-6-0c, and again "to arrive" sale 3200 tons at 3-5-0c; 27th, spot sale 800 tons at 3-5-0c; 28th and 29th holiday; 31st, no sales; April 1st, no sales; 2nd, spot sale 1500 tons at 3-5-0c; 3rd, "to arrive" sale 2000 tons at 3-5-0c, and on same date "to arrive" sale 1000 tons at 3-6-0c; 4th, no sales; 5th, "to arrive" sale 750 tons at 3-5-0c; 7th, "to arrive" sale 1000 tons at 3-5-0c; 8th, no sales; 9th, cost and freight sale 750 tons at 3-7-16c; 10th, "to arrive" sale 2000 tons at 3-5-0c, and on same date cost and freight sale 1600 tons at 3-37c, since which no sales, establishing basis for 96 deg. centrifugals in New York on 10th inst. 3-37-25c., San Francisco, 2-9-75c.

Jeffries Refuses the London Offer.

New York, April 22.—Bob Fitzsimmons received a telegram from Jeffries today, in which the latter practically refused the National Sporting Club's offer, but said that the prospect for bids looked bright in California. He said he would post \$2500, to be forfeited in case he refused to accept the best bid, and asked Fitzsimmons if his forfeit was posted in the same way.

Bulgarians and Turks Fight.

Constantinople, April 22.—A band of thirty Bulgarians recently crossed the frontier and penetrated to the villayet of Kossovo, Roumelia, after a fight with Turkish troops. Details of the affair are lacking.

Later it became known that the Turkish troops subsequently received the band of Bulgarian invaders.

MOROS ATTACK TROOPS.

Troops Will be Withdrawn from Mindano.

Manila, April 22.—Two engagements have been fought between the American troops and the Moros of the island of Mindano during the last twenty-four hours. Moore of the Twenty-seventh Infantry, while out with a small party hunting for water, was fired upon at long range. Colonel Frank Baldwin with a battalion of troops and a mountain gun went to the assistance of Moore's party and drove off the Moros, who lost seven men.

The Moros' Villages were flying red flags, meaning that they intended to fight to the uttermost.

Later Sultan Pualo and a force of natives attempted to reoccupy the ground gained by the Americans, but the Moros were forcibly dispersed.

Brigadier-General Davis, in command at Zamboanga, island of Mindanao, has acknowledged the receipt from Washington of instructions to withdraw his troops from Mindanao, but he urges that, owing to the present state of affairs, the withdrawal will result in the absolute loss of American prestige among the Moros in Mindanao. His orders, however, are explicit. Lieutenant Baldwin and his forces are beyond the reach of the telegraphic instructions from Washington.

Tells of Slaying of Goebel.

Knoxville (Tenn.), April 21.—Ira Gillespie, a prisoner in Sevier county jail, has confessed to the murder of Governor Goebel, and insists on the veracity of his confession.

Sheriff Shields and other officers believe that Gillespie's story is correct and will hold him until the matter is thoroughly investigated. Gillespie today stated that there were twenty-one men in the conspiracy to kill Goebel, whom they felt was a tyrant and usurper.

Three, including Gillespie, were selected to do the killing and stationed themselves in the garret of the State Capitol building and shot the Governor as he passed underneath. On the breach of the gun with which the shooting was done were the words, "Death to the Governor."

Gillespie declared he had been a fugitive since the shooting and had been "hunted like a mad dog" all through Georgia and Alabama, and was now determined to return and stand trial, hoping for a light sentence. He speaks several languages and is an intelligent man.

Frank Stockton Dead.

Washington, April 20.—Frank R. Stockton, the well-known novelist, died suddenly here this morning from paralysis immediately resulting from a hemorrhage of the brain. He was a guest at the banquet held Wednesday night of the National Academy of Sciences, when he was taken suddenly and mysteriously ill. The ailment did not at that time appear to be serious, and for a while the sufferer seemed to be improving, but a change for the worse came this morning and death occurred at 11 o'clock. By his bedside when the end came were his wife, who was a Miss Tuttle of Virginia, and her sister. He was 68 years of age. The body will be taken to Philadelphia for interment. No further funeral arrangements have been made as yet. Mr. Stockton had spent the past winter in New York and had done very little literary work. After a visit of nearly a month to Atlantic City he came to Washington, so that he might attend the banquet of the scientists, intending then to go to his beautiful home in Charleston, W. Va.

WOOD PARDONS REEVES.

Releases Man Whose Testimony Convinced Major Rathbone.

Havana, April 22.—Governor-General Wood issued an order today pardoning W. R. Reeves, who was recently sentenced to ten years' imprisonment and to pay a fine of \$35,516 for complicity in the Cuban postal frauds. Reeves was liberated at once. General Wood says he pardoned Reeves because he was a witness for the state. The order pardoning him did not come as a surprise, for it has been generally understood, ever since Estes G. Rathbone was first accused of connection with the postal frauds, that Reeves had been promised immunity by the military government. This had been denied, as well as the fact that the Government had been using Reeves as a witness for the state.

The matter was referred to by counsel for Rathbone in summing up their client's case. Rathbone's lawyers declared that this promise of immunity had influenced Reeves to make statements against Rathbone.

SOLDIERS ATTACKED BY PEOPLE.

Renewed Disorders Revive Apprehension of the Russian Officials.

St. Petersburg, April 20.—The news received here of the rioting at Helsingfors, Finland, April 18th, after a demonstration by recruits against the new army edict, adds materially to the existing uneasiness in official circles. After the first withdrawal of the Cossacks, who had charge of the people, four fresh companies of troops were called out to guard against disorders at the factory-closing hour. This precipitated fresh trouble. The populace resorted to window-fighting tactics, throwing firewood, vitriol, bottles, etc., on the heads of the soldiers. The Cossacks, on returning to the barracks, were stoned and compelled to fight their way home.

Hot Weather on East Coast.

New York, April 22.—The thermometer showed a temperature of 72 degrees in this city at 3 o'clock this afternoon. There was little breeze and the air was oppressive enough to cause at least one prostration.

Baltimore, April 22.—A maximum temperature of 89 degrees was registered by the thermometer of the Weather Bureau in this city at 4:25 p. m. today.

Pittsburg, April 22.—The heat record of the past ten years for April 22d was passed today when the thermometer registered 86 on the Government Weather Bureau instrument. No fatalities have been reported and but one prostration.

Beresford Wants Seat.

London, April 21.—Admiral Lord Charles Beresford has decided to contest the seat in the House of Commons representing Woolwich, made vacant by the retirement of Edwin Hughes, former Conservative agent for the city of London, Kent and Greenwich. Unusual interest is taken in the candidacy in consequence of the Admiral's recent strictures on the condition of the British navy, and the efforts of certain members of Parliament to induce the Admiralty to discipline him in the was that General Buller disciplined.

King Edward VII has conferred the Victorian Order upon Professor Vambery of Budapest. The letter accompanying the decoration says that the order is conferred in recognition of the fact that Professor Vambery has always proved a good and faithful friend to England, and is, at the same time, a token of the King's personal regard.

HIGH SHERIFF BROWN.

On Hawaiian Police and the Judge Little-Andrews Deadlock.

High Sheriff Brown who is on this Island, recuperating and at the same time inspecting the police in the different districts left Hilo Monday morning for the Hamakua district and will sail for Honolulu by the Kinau at Waimea this trip. Before leaving Hilo, the High Sheriff was seen by a TRIBUNE Representative. The High Sheriff in a general way is very well pleased with the working of the police force on this Island. He had not yet visited all the districts, but so far as he had gone, he had found few flaws.

"I have just returned from the Puna district," said the High Sheriff. "Down there I met Captain Eldarts who is the oldest officer in our department or any department. He is past eighty years of age but is as straight as an arrow and lithe as an Indian. He is as ready to tackle a rough house or a bad citizen as the younger men and is as fearless and cool as a metropolitan police sergeant. He has proved himself a most efficient officer. He understands the Hawaiian language thoroughly having lived on the Islands for thirty years and I consider him one of the most competent deputies in the Islands."

In the Kau district where there has been such a tangle in police matters for sometime past, the High Sheriff found matters running smoothly under the new deputy, Henry Martin, Jr. "Mr. Martin is a young man twenty-three years old," said the High Sheriff. "He is a graduate of Kamehameha schools and a son of Henry Martin, the former District Magistrate. He is a brother-in-law of Mr. Hewitt, manager of the Naalehu plantation. Already the new deputy has successfully prosecuted several cases and he promises to make an excellent officer. He has influential support, which with his own excellent character and industry will commend him to the confidence of the people."

"I have not yet visited Kohala or the Konas. At South Kohala I have an amusing knot to unravel. There, the Deputy Sheriff, Mr. Spencer, is under sentence of contempt by the District Magistrate, and bad feeling reigns in the Court. It seems that a slaughter house is situated close by the residence of the District Magistrate. He decided that it was a nuisance. He therefore issued an order directing the Deputy Sheriff to abate it forthwith. The Deputy Sheriff counselled with the officer of the Board of Health who pronounced the slaughter house sanitary in all respects and therefore not a nuisance. The Sheriff therefore refused to abate it. The District Magistrate followed by summoning the Deputy Sheriff to the bar of his Court. He imposed a fine of \$5 for contempt with confinement in jail until paid. The Deputy has so far refused to arrest himself, hence he is still at large."

"In my judgement the District Magistrate exceeded his authority in pronouncing the Deputy Sheriff guilty of contempt and his order is void."

This incident was a reminder of the similar state of affairs between Judge Little and Sheriff Andrews here in Hilo. When asked what he thought the outcome would be, the High Sheriff said:

"This is an unfortunate affair between Judge Little and Sheriff Andrews. How it will terminate no one now can say. The Attorney-General and myself claim that the whole matter is now out of the hands of Judge Little and solely in the jurisdiction of the Attorney-General. As the matter now stands, Sheriff Andrews is under a fine, which he will not pay and he is technically in the custody of the Judge Little's bailiff. If the fine is not paid, the order is that Sheriff Andrews be imprisoned until the fine is paid. There is one thing certain, Sheriff Andrews will not permit himself to be taken into custody. Judge Little may use force, but no—he cannot summon enough force to imprison the

Sheriff. It is to be hoped that the matter will not reach this phase, however.

"Anyhow, if Sheriff Andrews is taken into custody the only proper place to confine him is in the jail. By law Sheriff Andrews is the jailer, and fix it as you may after all he must be turned into his own custody. He would not very likely lock himself up for any lengthy term."

"In this matter Sheriff Andrews is acting under instructions from myself and the Attorney-General. We are proceeding under the old custom which in compliance with the Audit Act makes each Deputy Sheriff a public accountant. When Judge Little first made his order fining Andrews, we consulted with Auditor Austin who advised that the old system be continued."

"Judge Little contends that fines imposed by him, when paid to the Sheriff, are paid into his Court and that they should be disposed of according as he orders. He holds that the case is entirely in his own hands until the sentence imposed on Andrews is complied with."

"Hayseed" Watterson.

With regret we note that the New York Sun calls our old friend, Col. Henry Watterson, of Louisville, Ky., a "hayseed." Surely, the Sun might have bestowed a more dignified epithet on the erudite but erratic Colonel. Why—why didn't the Sun call him a liar? Then the valiant Colonel could have an opportunity to retaliate in kind; but now what is he to do? How he must feel! A "hayseed," with all the ignominy attached to it. Oh, Sun, please retract that. You have taken the Colonel unaware—you have smitten him in the back. Say something that he can expatiate upon—something dignified—something with tone to it. And yet—now to think of it—does the Sun know what Senator Depew had to say last week at the meeting of the New York State Association of Republican editors? The Senator said that Colonel Watterson is the "brainiest, most suggestive and original mind in the Democratic party." Possibly the Sun doesn't think that there is so much of a compliment in that, anyway.

But speaking of "hayseeds," John A. Sleicher, editor of Leslie's Weekly, had a word or two to say on the subject. In his remarks at the meeting of the Republican editors, aforementioned, Editor Sleicher said, "What would New York be without hayseeds? What notably strong man in this city was not a country boy or son of country parents? Senator Platt, Senator Depew, Governor Black, President Stern (of the association), and so I might go on to the end of the list." Not such a bad list in which to be included.—Newspaperdom.

Pearls of Thought.

True boldness never blusters.

The worst getting is that which hinders giving.

Most men may be known by the way they use money.

Fleeing from responsibility is hiding from reward.

Common sense is often but common sympathy with all.

Suffering fails when it does not teach us long-suffering.

To get accustomed to evil is to become assimilated to it.

Crystallized virtues are apt to be cutting rather than kind.

The frivolity of fashion is the soil in which corruption flourishes.

When a man wears his success with pride it is often made of paste.

When prosperity falls on the evil heart it but nourishes its weeds.

Time will not make the great man, but he cannot be made without it.

You may know a man's principles by the things he has an interest in.

Not pain but right pleasures is the best cure for the love of wrong ones.

Put your stumbling block where it belongs and it will become a stepping stone.

When your kindness is only intended for coals of fire it will certainly burn your own fingers.—Ram's Horn.

HIGH SHERIFF BROWN.

On Hawaiian Police and the Judge Little-Andrews Deadlock.

High Sheriff Brown who is on this Island, recuperating and at the same time inspecting the police in the different districts left Hilo Monday morning for the Hamakua district and will sail for Honolulu by the Kinau at Waimea this trip. Before leaving Hilo, the High Sheriff was seen by a TRIBUNE Representative. The High Sheriff in a general way is very well pleased with the working of the police force on this Island. He had not yet visited all the districts, but so far as he had gone, he had found few flaws.

"I have just returned from the Puna district," said the High Sheriff. "Down there I met Captain Eldarts who is the oldest officer in our department or any department. He is past eighty years of age but is as straight as an arrow and lithe as an Indian. He is as ready to tackle a rough house or a bad citizen as the youngest men and is as fearless and cool as a metropolitan police sergeant. He has proved himself a most efficient officer. He understands the Hawaiian language thoroughly having lived on the Islands for thirty years and I consider him one of the most competent deputies in the Islands."

In the Kau district where there has been such a tangle in police matters for sometime past, the High Sheriff found matters running smoothly under the new deputy, Henry Martin, Jr. "Mr. Martin is a young man twenty-three years old," said the High Sheriff. "He is a graduate of Kamehameha schools and a son of Henry Martin, the former District Magistrate. He is a brother-in-law of Mr. Hewitt, manager of the Naalehu plantation. Already the new deputy has successfully prosecuted several cases and he promises to make an excellent officer. He has influential support, which with his own excellent character and industry will commend him to the confidence of the people."

"I have not yet visited Kohala or the Konas. At South Kohala I have an amusing knot to unravel. There, the Deputy Sheriff, Mr. Spencer, is under sentence of contempt by the District Magistrate, and bad feeling reigns in the Court. It seems that a slaughter house is situated close by the residence of the District Magistrate. He decided that it was a nuisance. He therefore issued an order directing the Deputy Sheriff to abate it forthwith. The Deputy Sheriff counselled with the officer of the Board of Health who pronounced the slaughter house sanitary in all respects and therefore not a nuisance. The Sheriff therefore refused to abate it. The District Magistrate followed by summoning the Deputy Sheriff to the bar of his Court. He imposed a fine of \$5 for contempt with confinement in jail until paid. The Deputy has so far refused to arrest himself, hence he is still at large."

"In my judgement the District Magistrate exceeded his authority in pronouncing the Deputy Sheriff guilty of contempt and his order is void."

This incident was a reminder of the similar state of affairs between Judge Little and Sheriff Andrews here in Hilo. When asked what he thought the outcome would be, the High Sheriff said:

"This is an unfortunate affair between Judge Little and Sheriff Andrews. How it will terminate no one now can say. The Attorney-General and myself claim that the whole matter is now out of the hands of Judge Little and solely in the jurisdiction of the Attorney-General. As the matter now stands, Sheriff Andrews is under a fine, which he will not pay and he is technically in the custody of the Judge Little's bailiff. If the fine is not paid, the order is that Sheriff Andrews be imprisoned until the fine is paid. There is one thing certain, Sheriff Andrews will not permit himself to be taken into custody. Judge Little may use force, but no—he cannot summon enough force to imprison the

Sheriff. It is to be hoped that the matter will not reach this phase, however.

"Anyhow, if Sheriff Andrews is taken into custody the only proper place to confine him is in the jail. By law Sheriff Andrews is the jailer, and fix it as you may after all he must be turned into his own custody. He would not very likely lock himself up for any lengthy term."

"In this matter Sheriff Andrews is acting under instructions from myself and the Attorney-General. We are proceeding under the old custom which in compliance with the Audit Act makes each Deputy Sheriff a public accountant. When Judge Little first made his order fining Andrews, we consulted with Auditor Austin who advised that the old system be continued."

"Judge Little contends that fines imposed by him, when paid to the Sheriff, are paid into his Court and that they should be disposed of according as he orders. He holds that the case is entirely in his own hands until the sentence imposed on Andrews is complied with."

"Hayseed" Watterson.

With regret we note that the New York Sun calls our old friend, Col. Henry Watterson, of Louisville, Ky., a "hayseed." Surely, the Sun might have bestowed a more dignified epithet on the erudite but erratic Colonel. Why—why didn't the Sun call him a liar? Then the valiant Colonel could have an opportunity to retaliate in kind; but now what is he to do? How he must feel! A "hayseed," with all the ignominy attached to it. Oh, Sun, please retract that. You have taken the Colonel unaware—you have smitten him in the back. Say something that he can expatiate upon—something dignified—something with tone to it. And yet—now to think of it—does the Sun know what Senator Depew had to say last week at the meeting of the New York State Association of Republican editors? The Senator said that Colonel Watterson is the "brainiest, most suggestive and original mind in the Democratic party." Possibly the Sun doesn't think that there is so much of a compliment in that, anyway. But speaking of "hayseeds," John A. Sleicher, editor of Leslie's Weekly, had a word or two to say on the subject. In his remarks at the meeting of the Republican editors, aforementioned, Editor Sleicher said, "What would New York be without hayseeds? What notably strong man in this city was not a country boy or son of country parents? Senator Platt, Senator Depew, Governor Black, President Stern (of the association), and so I might go on to the end of the list." Not such a bad list in which to be included.—Newspaperdom.

Pearls of Thought.

True boldness never blusters. The worst getting is that which hinders giving. Most men may be known by the way they use money. Fleeing from responsibility is hiding from reward. Common sense is often but common sympathy with all. Suffering fails when it does not teach us long-suffering. To get accustomed to evil is to become assimilated to it. Crystallized virtues are apt to be cutting rather than kind. The frivolity of fashion is the soil in which corruption flourishes. When a man wears his success with pride it is often made of paste. When prosperity falls on the evil heart it but nourishes its weeds. Time will not make the great man, but he cannot be made without it. You may know a man's principles by the things he has an interest in. Not pain but right pleasures is the best cure for the love of wrong ones. Put your stumbling block where it belongs and it will become a stepping stone. When your kindness is only intended for coals of fire it will certainly burn your own fingers.—Ram's Horn.

W. H. LAMBERT, Supt.

Entered at the Postoffice at Hilo, Hawaii, as second class matter

PUBLISHED EVERY FRIDAY.

L. W. HAWORTH - Editor.

WHO WAS ENDORSED?

Despite the sweeping endorsement given to the Dole administration by President Roosevelt, there is yet a wide leeway for THE TRIBUNE'S belief, that the First American obtained from the Grand Hawaiian Oligarchy a *quid pro quo* for the favor. Already, the dispatches say, that Roosevelt requested of Dole that he support municipal government in Hawaii. The dispatches also say that Mr. Dole explained his past antipathy to such a step and promised co-operation in the future.

Whether the dispatches are bona fide or not, THE TRIBUNE will continue to believe that Theodore Roosevelt, by no means endorsed Governor Dole's past; he merely gave him a chance, in the two year's more of crowning his life work by making the Territory of Hawaii an American territory in reality. If Dole promised to do so, as he naturally would; if he will endeavor to fulfill his promise, as his advisers will seek to prevent, THE TRIBUNE will render him every available assistance and co-operation.

THE TRIBUNE believes in Theodore Roosevelt, whether he be a cow-puncher in the desert, a Rough rider in Cuba, Chief Magistrate in the White House or a guesser at the 14-15 puzzle of Hawaii and the Philippines. Roosevelt would sooner pluck out an eye than endorse a grey beard in Hawaii if he knew such endorsement meant the continuance of paternal rule and favoritism in a distant province.

We do not believe that Roosevelt endorsed Doleism; we believe Dole endorsed Roosevelt and promised to faithfully execute his many ideas of government in this Territory. We are willing to wait and abide by this belief and faith. If it is not well founded, time will tell.

If time proves that the Americanism of Roosevelt is incapable of transmission to the Islands of the Pacific, it will also be proven that Roosevelt is an adventurer at home. If he is an enemy to Hawaii, he is an enemy to America and faithless to the Republican party which has honored him for his strenuous activities in its ranks.

THE TRIBUNE does not believe that there is in the make up Roosevelt, the faintest modicum of policy or taint of the self seeking politician. To all appearances he may have pleaded guilty to all the charges of imperialism ever preferred against the Republican party. But the end will show that Roosevelt's imperialism is the imperialism of equal rights to all men under the American flag. Roosevelt's imperialism must mean that even the officials of Hawaii, the Governor, Judges, the Attorney-General, the High Sheriff, the sheriffs and their deputies, are the servants and not the lords of the people—otherwise Roosevelt will come to be an iridescent dream, a fleeting memory.

Is a reason wanted? Then it is this. There is no state of semi-martial law in Hawaii, as in the Philippines to warrant rigorous or arbitrary official action. By solemn enactment of Congress, the Hawaiian and every citizen of the Republic of Hawaii, who could read and write the English language, have been granted the inalienable rights vouchsafed by the American constitution.

If Dole, Governor, if Dole Attorney General, if High Sheriff Brown or Sheriff Andrews or the commonest police subordinate continue as in the past, to interpret their commission of office to mean the bestowal of the mace of kingship; the badge entitling them to choose their favorites, they must listen to a verdict greater than the voice of Roosevelt. That verdict is the expression of the American people on a question of fair play.

HILO DISTRICT PROSPECTS.

A general review of the weather and crop conditions in the district of Hilo finds that the past winter has been wet and cold, telling very much against the crops for 1902 and 1903. During the winter three very severe storms occurred, one in November another about Christmas and the last in March. In March alone the rainfall was 55 inches at a very conservative average for the entire area of the District.

The growth of cane has been greatly retarded by these conditions. Even in this month of May, when warm growing weather is expected, the weather still is cold. Hilo weather conditions have undergone a great change. Instead of having rain every day as in former years, there comes rain for a week or two, followed by days of drouth. Dust in the streets and roads has become as much the rule as mud and water used to be.

The mills in the district are all grinding and rushing all they can with the amount of labor at hand. This is the busy season with the planters. While the sugar mills are grinding the matured crop, cane planting and the cultivation of the ground is going on in the fields. Caledonia and Bamboo seed cane is now being extensively planted on the older plantations but on the newer lands, Lahaina is still the standby.

More sugar has been shipped from the Hilo district so far this year than in any other year previous. It is calculated that the output of the district will beat all former years by at least 25,000 tons. The tonnage from the district this year will probably reach a total of 82,000 tons, but the returns will be disappointing unless the price of sugar raises pretty quick. Last year the sugar of this district netted about \$65.00 per ton. To date this year, the returns have been only in the neighborhood of \$53. This loss of \$12 per ton, upon an output of 82,000 tons means a loss to the district of \$984,000. Just how near this will come to making some of the plantations unprofitable is a question that many are asking. The planters are already wide awake to the fact that depressed prices calls for greater diligence in the economies of management. As the sugar indirectly affects all lines of business, there is a general disposition to conservatism and economy in business circles.

Hawaiian sugar has not been selling at so low a price since the McKinley bounty law cut the price to \$49 a ton. During the next month or so large sums of money will be paid by the mills to small cane growers in this district. Last year the amount of money paid in Hilo to the small cane growers was over \$300,000. These payments will be readily felt in business circles in the city and through the district. In many cases the small planter will feel the depression in the price of sugar more forcibly than anyone. The basis of figuring the price paid for cane is the sugar quotations at New York.

THE IMMINENT CRISIS.

The interview with High Sheriff Brown, published in another column, shows that Hilo may legitimately expect some excitement when Judge Little returns. Sheriff Andrews is under sentence to pay a fine for contempt. The High Sheriff, who upholds Andrews says Andrews will never pay it and that he will not allow himself to be taken into custody.

It requires no extensive stretch of the imagination to see Judge Little at the head of an army of bailiffs descending upon Sheriff Andrews, supported by the entire police force of the Island. If Andrews wont give up and if the Judge wont give up and if all the deputies do their duty, there must, of necessity, be two vacancies in office here in the very near future. When the Little forces have either captured or killed Andrews and the Andrews forces have either captured or killed Judge Little, both Roosevelt and Dole can use their appointing power to thin the ranks of aspirants for office.

JOIN THE SHOW.

COMMISSIONER BARRETT, who is in Honolulu seeking to enlist this Territory's interest in the St. Louis World's Fair, should not fail to come to Hawaii, the biggest and most fertile Island in the group. He would find here the very products that will enable Uncle Sam's baby Territory to show something besides hulas and sugar cane. The Island of Hawaii can't be discounted on either sugar cane or hulas, but we have the goods in other lines. We have the only live volcano; we have coffee plantations; we have living springs of mineral water at Puna with medicinal qualities that rival the waters of Carlsbad.

We have untilled acres, clothed in virgin forest which await the hand of the husbandman. We have railway routes without the railways; we have banana farms without the bananas; we have tobacco plantations without the tobacco; we have wonderful sights without tourists to see; we have much to gain from an exhibit at St. Louis.

Bro. Barrett, come over and stir us up.

THERE should be little difficulty in putting baseball on its feet in Hilo. The old league has balls and bats and masks and suits galore unless they have been eaten by the cockroaches. The equipment is in the hands of the captains of the old teams and all that is needed is men who will practice the game and play ball.

THE Honolulu Evening Bulletin and the readers of the HILO TRIBUNE will please accept the editor's apology for printing the Bulletin editorial last week, entitled "Roosevelt's Endorsement," without credit. There was no intent to plagiarize; it was purely an inadvertent omission to give credit.

Hilo merchants and business men could help the Hilo band a great deal, by giving musicians the preference among applicants for positions. A place in the Hilo band does not pay a life sustaining salary. And even musicians can't stay in Hilo unless employed.

When the Tax Assessor catches the new arrival for poll tax, who landed in Hawaii at 9:30 a. m., January 1, 1902, it speaks well for the fine-comb process now in vogue and double discounts Zaccheus and the unregenerated St. Matthew of old.

THE Island of Hawaii has enjoyed visits from most of the heads of Departments. If we could have the acting Governor, Wray Taylor and the Auditor for a week or two, we would be satisfied for a while.

THE TRIBUNE next week will tell of what "The Prince of the Air" sees from his vantage point on a trapeze bar, 3000 feet above the level of Waiakea mill tomorrow.

The rehabilitation of the Mutual Reserve Association is a fact that makes Frank L. Winter exuberant in the presence of his enemies.

REPUBLICANS in Hilo and on this Island should do their best to have the next Republican Convention in this city. Hilo has her reputation yet to make as a convention city and should commence the job at once.

SIDE LIGHTS for this month will contain an interesting article on the "Valley of Iao and the Crater of Haleokala." Sheriff Andrews will contribute an article on the early history of Maui, which with the other literary features will make the publication very desirable.

THE band gave a delightful and excellent concert at the Hilo hotel last evening. Manager Scott of the hotel wishes the public to feel free to occupy the hotel lanais at these concerts. Chairs are at the disposal of callers.

DENVER ED. SMITH has established training quarters on the beach near the mouth of the Waiuku river. His punching bag and other apparatus have been installed in a room adjoining the Union saloon.

LOCAL ITEMS.

Money to loan—Wise.
 Olan Store No 1 has a new manager.
 For Rent—Office, corner King and Pitt streets.—Wise.
 J. C. Carter was a passenger by the Martha Davis for San Francisco.
 Some new stylish shirt waists just received at L. Turner & Co's. store.
 Sam Johnson, one of the ablest officers on the board of Health is in the city.
 "Reciprocity" and "What do you think?" will be Mr. Crahan's subjects Sunday.
 Mrs. Crahan, accompanied by her son Don, is a guest at the mountain home of Rev. Mr. Hill.
 Clarence Robinson gave a private dinner to a few friends at the Hilo Hotel last Tuesday evening.
 A. W. Dow gave a dinner at Demosthenes Cafe last Tuesday evening to a number of his friends.
 William McKnight, formerly with the Hilo Tribune, sailed on the Martha Davis yesterday for San Francisco.
 E. W. Barnard lost a mule in an accident on the road near Okala last week. The team went over an embankment.
 The Hilo band will go to Pana Sunday. Captain Elderts the popular deputy of that district will give the boys a fine luncheon.
 Wm. McKnight was remembered by his friends last Tuesday evening with a farewell dinner, served at Demosthenes Cafe.
 The Falls of Clyde will sail for San Francisco today or early tomorrow. She is loaded with sugar and carries a number of passengers.
 Work has been commenced on the harbor extension of the Hilo Railroad. It is the intention of Mr. Lambert to push construction as rapidly as possible.
 The Hackfeld plaining mill on Front street is being repaired all traces of damage to the lumber yard caused by the flood last November have been wiped out.
 Mrs. F. C. Leffland, Miss Schollhorn, Dr. Thompson, C. R. Sedgwick and wife, E. Wery wife and two children were passengers to the Coast on the Falls of Clyde.
 The steamship Alaskan of the Hawaiian-American line arrived in the harbor yesterday morning. She will load at once with sugar from Waikaka Pepeekeo and Olan.
 Look over your sideboard and see if you have any Acme Rye, among your stock of wet goods. If not, then we will be pleased to supply you.—W. C. PRACOCK & Co.
 Dr. Holland who was in the hospital for a week with threatened appendicitis, went home Thursday. He is to be congratulated in having missed an attack of the real thing.
 It is our aim to please all. We have a varied assortment, and are always glad to show customers the same. Pommeroy Champagne still leads in the race.—W. C. PRACOCK & Co.
 The Sunday School Excursion train leaves for Pana tomorrow morning promptly at 8:30 o'clock. The excursionists will be brought home in the afternoon arriving here at 4:30.
 Visit Hoolulu Park tomorrow afternoon and see the Prince of the Air do a stunt in the clouds. He will make a 3000 foot parachute leap. The sight is one that does not come to Hilo very often.
 As Summer is coming on soon, it is necessary, that your system be braced up. Don't forget, that Pabst Best Tonic is the best, and that we have it, as well as the Drug stores.—W. C. PRACOCK & Co.
 In honor of the Independence of Cuba, the Cuban flag will be hoisted over the house of A. D. Minivelle at Olan, May 20. Mr. Minivelle also says that Cuban colors will be displayed at the Porto Rican camp the same day.
 The Martha Davis, Captain McAnulan sailed yesterday for San Francisco. She carried 10,000 bags of sugar from Honouliuli, 9750 from Olan and 3000 from Olan. She carried two passengers, J. C. Carter and Wm. McKnight.
 Porto Ricans tolled the Olan saloon last Friday night. They were not out for money so much as for liquor. They helped themselves to such an extent that they were not able to cover up their tracks and were therefore caught next day.
 Mr. W. G. Taylor, the auditor for Alexander & Baldwin and Dillingham & Co., leaves on the Kinau this morning. Mr. Taylor has been at work on the books of the Hilo Railroad, and the Pana and Olan Plantations. He is going to Maui.

DEATH OF CHARLES NOTLEY.

Prominent Citizen of this Island Dies at Honolulu.
 Charles Notley, aged 75, one of the best known and most highly respected citizens of the Island of Hawaii, died at the home of H. G. Danford, Kinau street, at 10:20 o'clock p. m., at Honolulu last Friday.
 Deceased was an Englishman by birth, having been born in Norfolk county in 1826. At the age of sixteen he left his home and went to Australia in a merchant vessel. Forty-three years later, he returned home for his first visit as a wealthy sugar planter from Hawaii.
 Deceased remained in Australia until 1853, when in New Zealand, he was in the first war with the Maoris. In 1853 he started out in a whaling ship for Tahiti but he was not landed there, the promise having been made to get him aboard. The ship was short of men and Mr. Notley was forced to spend a nine month's cruise in the Arctic, after which he came to these Islands on the vessel.
 Mr. Notley met Robert Robertson who was engaged in the work of sawing lumber on the Island of Hawaii. He and others went with Robinson and for eighteen months worked at sawing wood for shipment to Honolulu. After that he took charge of a flock of sheep for John B. Parker, grandfather of Hon. Samuel Parker, in the district of Waimea.
 During the following five years Mr. Notley accumulated a capital of \$1100. He married a Hawaiian lady, invested his savings in a tannery and worked untiringly both night and day for the purpose of saving money to educate his children. The bark of the tannery he cut and hauled from the mountains and ground with his own hands.
 Deceased was elected a noble in 1887. It was ten years previous to this that he began planting cane and from this he secured the bulk of his fortune. He was a large owner in Hamakua plantation.
 In 1894 Mr. Notley was elected to the Constitutional Convention and sat throughout the sessions that framed the constitution promulgated July 4, 1894. In the same year he was elected senator from Hawaii.
 Deceased leaves a widow and four children. The latter are William, Charles and David Notley, and Mrs. Thomas Huges.

PUNA EXCURSION.

Annual Outing of Foreign Church Sunday School.
 Tomorrow the older folks of the Sunday School will have their annual reward for faithfulness in good works. They go to Pana on a picnic excursion. There will be baskets of good things to eat. There will be plenty of good wholesome sport. The indefatigable superintendent will be with the crowd but she says the children shall have a good time. She will take no strings along.
 The party will expect a lot of people to join at Olan. It leaves Hilo at half past eight o'clock and will bring the folks home before six o'clock. The superintendent and the teachers expect to bring back the balloon and parachute of "Leonard, the Prince of the Air", as excess baggage.

Interesting Tax Case.

An interesting case was tried before Judge Hapai last week involving a new point in the matter of personal taxes. W. Ross Campbell who arrived in this Territory at 9:30 a. m. on the first day of January was asked by Deputy Tax Collector George Williams, to pay his poll tax. Campbell claimed that his residence in the Territory had been too short to be required to pay the levy. Williams garnished for the tax and the case was handled in the District Court by Williams and Campbell themselves. The tax collector argued that any one otherwise liable to a poll tax could not escape it by setting forth that he was not in the Territory absolutely on the first of January. It was sufficient if he was here on the first day. Judge Hapai held with the tax collector.

Hakalau Wins Tennis.

The tennis tournament between Hakalau and Hilo at the Reid Court last Saturday was an exciting contest and resulted in an easy victory for the Hakalau team. Harry Grey and J. Grey beat E. C. Mellor and C. K. Hyde 7-5, 6-2. In the ladies game, Mrs. Ross and Mrs. Patton beat Mrs. Elliot and Mrs. Bartels 6-2, 6-4. A return game at Hakalau will be played next week.

Don't forget that the Hilo band will play their prettiest music on Sunday on the way to and from Pana. Train leaves Hilo Railroad station at 9 o'clock a. m. Returning leaves Pana at 3:25 p. m. Fare for the round trip \$1.50 and \$1.30 on Sundays. On Thursdays the fare is \$1.90 and \$1.70.

Chang Chow a prosperous Honolulu Cigar Dealer and Poon Kwai Leung an attaché of the Chinese Consulate at Honolulu are in the city on a vacation. They report that the Fire Claims Commission has finished its labors, the last award having been made last Monday. This claims allowed aggregate \$1,500,000.

If you feel languid and out of sorts a trip to Mountain View will do you good. The air there is cool, bracing and full of ozone. Trains of the Hilo Railroad make two round trips daily. Fare is \$1.40 and \$1.10; on Sundays, \$1.20 and \$1.00. See schedule of trains elsewhere in this issue.

HEAVYWEIGHTS HERE.

Hilo Will See a Boxing Match Between Two Famous Pugilists.
 Hilo is to have a boxing match between heavyweights, Denver Ed. Smith and I. D. Brown, the Kawiki giant, have agreed to have a six round go. Smith has a world wide reputation and was champion of everything west of Chicago until Corbet sprang up. Brown is a giant in size and strength. He is six feet two inches in height, weighs 217 lbs. and has lifted eleven hundred lbs. at one time. His whole life has been spent in mining and prize fighting around the mines. He fought a draw with Mexican Pete and also with Bill Baker, who was then colored heavyweight champion of Colorado; knocked out Jack Smith of Salt Lake in eight rounds; Albee Huenan, the Chicago stockyard giant, in six rounds and Dummy Roe also in six rounds, besides others of lesser fame.
 In 1893 John L. Sullivan offered a prize for any one who could stand before him for four rounds. Brown stayed the limit and won the money. Genial Bob Jones, with one or two others, are boxing with him and doing what they can to help him along. Kaime, the pride of the police department, and Brown had a little go Tuesday.
 Smith is in Hilo and the match will probably be pulled off the latter part of next week. The men will probably box six rounds the winner taking 60 per cent and the loser 40 per cent of the gate receipts. The Chinese theater seems to be the most available place to have the affair and it will probably take place there.

Kohala Capitalists Organize a Corporation to do Many Things.

Articles of association have been filed under the name of The Kohala Investment and Commercial Company, Limited, with a capital of one thousand dollars, divided into shares of the par value of \$10 each, and privilege of increasing it to three million dollars. The term is for fifty years and the principal office shall be in Kohala, though the corporation may establish offices elsewhere within the territory as its business may from time to time require.
 The objects as summarized from the articles are to engage in agricultural work, buy and sell agricultural products and convert these into manufactured products; to deal in merchandise, main-stores, etc., to acquire, maintain and operate water rights, pumping plants, etc., to deal in lands, privileges or franchises in the Territory of Hawaii, but principally in the Island of Hawaii; to acquire, build, charter, lease or own steamships, vessels, docks, and operate shipping between ports of the Hawaiian Islands and the ports of the Hawaiian Islands and other ports; to deal in the shares of other corporations, and to do and transact any act or business, agricultural, mercantile, mechanical or otherwise which may be necessary, useful or convenient to the business of the corporation or to any portion of said business.
 The officers are: Jno. Hind, president; Robt. Hall, vice-president; T. S. Kay, treasurer; Howard R. Bryant, secretary; W. P. McDougall, auditor. Each of the officers have subscribed for ten shares of the stock, also each of the following named: H. L. Holstein, Jas. Sakai, G. P. Tulloch, James Renton and H. H. Renton.

S. S. Children Picnic.

The primary classes of the Sunday School of the First Foreign church enjoyed a delightful day outing last Saturday at the pretty home of Mr. and Mrs. J. A. Scott at Reels Bay. The children were given the freedom of the grounds and mansion and when the home going hour arrived, they were not half ready to quit their fun. The Superintendent of the Sunday School, Mrs. Terry, was in general charge of the happy crowd. She was assisted by the various Sunday School teachers. It was a day that will not soon be forgotten by the little folks.

Nichols a Bankrupt.

Albert E. Nichols of Honolulu has gone into voluntary bankruptcy, with liabilities aggregating \$20,250.32 and assets footing \$1,460.50. Among his holdings is a block of 750 shares in the Wahiawa Sugar Company, par value \$75,000, but actual value unknown. A list of fifty-one creditors is published in the Honolulu papers. Nichols was interested in the Olan plantation in the earlier stages of its promotion and it was said made a neat stake. In Wahiawa, however, it seems he found his Waterloo.

Off for Europe.

E. Wery and family leave on the Falls of Clyde for a six months trip in Europe. They proceed at once to Brussels, the old home of Mr. Wery, where his father is still living. They will be home by November. Mr. Wery has been in the Islands for twenty-four years and has prospered in business. He has not seen his birth place for twenty-nine years.

Kinau Passenger List.

The following passengers arrived by the Kinau this week: Sam Johnson, Mrs. Jackson and 3 children, Chang Chow, Ku Kwong Yung, F. Smith and wife, K. Wada, L. C. Lyman, J. F. Robson, L. M. Whitehouse, Geo. Wilson, Mary Ailau, Mrs. Geo. Ruttman and 2 children, Rev. Desha and daughter, A. Dent, A. J. Tait.

VOLCANO WAKING UP.

Visitors Report the Cloud of Smoke Heavy and Portentous.
 During the past week the volcano has become unusually active. On Tuesday and Wednesday so much action was noted in the crater, that all signs point to an early outbreak.
 On Wednesday the cliffs and floor of the volcano were a mass of steam. The clouds were so dense that Uwekahima, the Government surveying station situated on the high bluff about a mile from the hotel, was invisible. People who were present at the lava flows of 1881 and 1883 report that they never have seen steam on the Kilauca Iki side of the crater, while at present the considerable smoke is visible on that side.
 Manager Walliron went down into the crater on Wednesday and made a careful examination of Haleannuan. Twice during the day, when the wind blew the steam to one side, he was able to see fire at the bottom of the pit. The idea that it was a burning sulphur bank was removed by the lack of fumes. Had it been burning sulphur the smell would have been evidence of the fact.
 The old native guide, who is probably the best authority on Pele's actions, having been at the Volcano for more than thirty years, says that the volcano is acting just as it always does before it breaks out. He expects an eruption in the near future.

CHARTER VOID.

Dirigo Came From China for Sugar But Arrived Late.
 The Dirigo, Captain George W. Goolwin, of the Sewall line, arrived at Hilo last Monday morning from Hong Kong. She came under a charter to carry sugar around the Horn. Owing to delays caused by unfavorable weather the vessel did not reach this port until her charter time had expired. The Captain was therefore notified before he dropped anchor that he could expect no cargo from the charterers.
 The Captain therefore reconnoitered awhile for a cargo, but found the presence of the big steamer Alaskan too strong a competitor for round the Horn freight. He therefore sailed Wednesday for Honolulu. The trip from the Orient according to the story of the ship's log was one that will not soon be forgotten by the crew.

Best Milling Record.

The Olan Mill did a record smashing business last week in grinding 1312½ tons of sugar in five days of 19½ hours each. The run is said to be the best ever made by any mill in the Hawaiian Islands. The Ewa plantation people make some sort of an explanation in the effort to hold the belt on Olan. The Olan people celebrated the famous run with a meeting at the mill last Saturday night. There were over thirty of the employees present and they had a jolly good time. Speeches were indulged in and the supremacy of Olan was fittingly toasted.

No Loss of Time.

I have sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for years, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to threshers that could go no further, and they are at work again this morning—H. R. PHILIPS, Plymouth, Okla., U. S. A. As will be seen by the above the threshers were able to keep on with their work without losing a single day's time. You should keep a bottle of this Remedy in your home. For sale by the Hilo Drug Co.

CORN TAX ADOPTED.

Proposition Carried by Seventy-six Votes After Hot Debate.

London, April 22.—In the course of a debate on the grain tax in the House of Commons this evening the Chancellor of the Exchequer, Sir Michael Hicks-Beach, announced that "offal," or coarse meal for stock feeding, would only pay three pence per hundredweight instead of 5 pence. He added that in the case of flour and fine meals the farmers had been greatly disturbed by the fear that a heavy tax on "offal" would offset any protective advantages which they could gain by the grain duty. The Chancellor also expressed his belief that the advance in the price of bread, which had been a half pence to one pence a loaf higher throughout the United Kingdom since the budget announcement, would recede as soon as the trade had adjusted itself to the new conditions.

The whole evening was occupied with a heated debate of the corn duties. At midnight Balfour, the Government leader, applied the closure, and the corn duties resolution was adopted by 273 votes to 197.

SIX NEW WARSHIPS.

New Battleships Will Exceed in Size Any in American Fleet.

Washington, April 22.—The House Committee on Naval Affairs today completed the naval appropriation bill. The most important item as to new ships was left until the last, and as finally determined upon was as follows:

Two battle-ships of about 16,000 tons displacement, to cost, exclusive of armor and armament, \$4,212,000 each; two armored cruisers of about 14,500 tons displacement each, to cost, exclusive of armor and armament, \$4,659,000 each; two gunboats of 1000 tons each, to cost \$382,000 each.

The following provision is made: "That the Secretary of the Navy may, in his discretion and so far as in his judgement is practicable, direct that any or all of the vessels herein authorized be built in such navy yards as he may designate."

The Sultan's Spies.

In no country and at no time of the world's history has the spy system been developed to the point it has attained in Turkey today. It is a most elaborate organization and costs an immense amount of money. The are spies and counter-spies to the fourth or fifth degree. Their number is legion, and they are to be found in all classes of society, from the highest to the lowest. Besides the minister of police, almost every high dignitary has his own service of spies. These are all rival organizations, and spend most of their time in spying and denouncing each other. All prominent persons are closely watched, and followed even while shopping, and should they meet another person of note and exchange a few words, the fact is carefully noted. Turks no longer dare assemble in parties of five or six for the purpose of spending their evenings together. It is impossible for three or four of them to sit down at a table in a coffee house without having a spy at the next. On such occasions they always speak very loud, so that everybody might hear them. Should a European converse with a Turk in the street, a spy will follow them and try to find out what they are saying. The result of all this is that the Turks avoid one another's company as much as possible, and when they do come together the conversation is on the most futile subjects, and quite childish. The Turkish nation is growing more and more demoralized under the present spy system.

—London Chronicle.

Pain-Killer, the old and well-known remedy has acquired a world-wide renown for the cure of sudden colds, coughs, etc., weak stomach, indigestion, cramp or pain in the stomach, bowel complaint, diarrhoea and dysentery. It has lost none of its good name by repeated trials, but continues to occupy a prominent position in every family medicine chest. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. Price 25c. and 50c.

BALLOONIST INTERVIEWED.

How It Looks and Feels to Navigate the Air.

Balloonist Leonard says he will penetrate the skies above Hilo tomorrow a distance of 3000 feet. On a clear day this distance makes the exhibition more spectacular than even a loftier flight. In the tropics Mr. Leonard explains, it is much easier to gain a height of 3000 feet than in higher latitudes. The air here is both denser and warmer, which gives the balloon more buoyancy and the warm upper stratas do not condense the heated air in the balloon like the breezes from the Alaskan glaciers. Therefore tomorrow Mr. Leonard expects to pierce the empyrean like a rocket. Coming down by the parachute route, he will take it more leisurely.

Leonard shows a fine bunch of press notices, having ballooned in all parts of the world. Concerning his profession in general Mr. Leonard says:

"Seventeen years is a long time you think to follow such a perilous profession. When they tell you it is hazardous they don't know much about it. Very few balloonists who learn the business with gas balloons ever die at their work; it is most always the novices. The boy who grows up in the business riding in the car of a hydrogen balloon at first, generally dies from answering questions pertaining to aerostatics. He studies it as he grows older, becomes accustomed to think and act at once; he likes the business because he doesn't have to work every day. The dreamy drifting of the gay balloon through the silence of the upper air it such an anodyne, the easy oscillations of the graceful parachute are such a philtre that eventually they rock all other ambitions to sleep and the boy has become an aeronaut.

"Of course there are accidents now and then; the one I had last fall. I fell a distance that would have killed a carpenter, but I alighted right side up. When I tell you that my father rode for forty years and never even sprained an ankle, you cannot think it very perilous.

"Views? Some, yes; the sights one sees tend to keep him in the business; about the time the roar of voices of the great crowd dies away as you ascend, one begins to get a view that is reserved for those who tempt life in the upper air. You can easily imagine yourself drifting away with a little world of your own, and hanging there from the feather edge of nowhere, with one glance you see a grand and sublime panorama."

Mr. Leonard has made over 250 ascensions during his life and has not tired of his calling. He thinks some of retiring from actual work for awhile to experiment with a flying machine.

In speaking of the fatal ascension made at Honolulu some time ago by Van Tassel, Mr. Leonard said: "I can't understand how poor Van Tassel made his mistake and landed among the sharks outside the reef at Honolulu. I made the ascension at Honolulu over about the same course taken by Van Tassel and felt the same air currents. I saw where I was going, however, and steered to land on terra firma.

"I hope we have a fine day in Hilo tomorrow."

A Patented Comb.

They cure dandruff, hair falling, headache, etc., yet cost the same as an ordinary comb. Dr. White's Electric Comb. The only patented Comb in the world. NEW CHARTER.

Mutual Reserve Fund Life—Association Reorganized.

New York, April 17.—Yesterday afternoon at Albany the Mutual Reserve Fund Life Association of New York received its charter as an old-line company. Under its new title, Mutual Reserve Life Insurance Company, the organization now is a purely mutual life insurance institution, incorporated under the legal reserve statute of New York.

The examination by the New York Insurance Department, preliminary to granting the right of reincorporation, has occupied three months. The condition of the company was determined from the standpoint of its ability to comply with the requirements of the statutes governing mutual reserve companies. The result of a most careful and thorough examination undertaken by the department shows that the company possesses a surplus in excess of all liabilities, including the full statutory reserve, of about \$500,000. The insurance department increases the value of the real estate holdings beyond the estimate of the company. At the beginning of the examination the management asked of the department the utmost strictness of inquiry into its affairs, and this course was rigidly adhered to. Superintendent Hendricks is satisfied that the company is amply able to comply with all the requirements of the law for reincorporation as a legal reserve or old-line mutual insurance company.

On this showing the charter was granted yesterday afternoon, and now the Mutual Reserve Life Insurance Company takes its place as the third largest purely mutual life insurance company of New York. President Frederick A. Burnham has thus fulfilled his pledge to the policy-holders of any part of their ownership in the institution.

The Mutual Reserve Life Insurance Company begins its new career prosperously. Founded in 1881, it has within a period of twenty-one years paid in death claims to its members \$50,000,000. It has thousands of members in practically every state of the Union, and its interests in Europe are important.

Alameda to Use Oil.

It is regarded as very probable that the Alameda will be converted into an oil burning craft. The recent successful experiment with the S. S. Enterprise on the Hilo route, has caused the Spreckels people to take a very favorable view of oil, as a fuel for ocean going steamers.

The Mariposa has just been converted into an oil burning boat, and according to reports in San Francisco before the Alameda left, the Alameda was to be taken off the Honolulu run and put out of commission, so that she could be fitted with oil tanks. The Mariposa was expected to be put on the local run in the Alameda's place, but according to a San Francisco paper, the Mariposa was to be put on the Tahiti run.

Oil as fuel, will mean a great saving to the steamer people. It can be secured at a much cheaper figure than coal, and, in addition, it means a material saving in the way of wages to men in the fire room. There will be no more coal passers or stokers necessary and this will cut down the force at least sixteen men. In other parts in the engineer department, a further reduction can be made.

The utmost care has, of course, to be taken in the use of the oil. No lamps or torches can be taken into the tank rooms. Only carefully guarded electric lights are permitted. The tanks containing the oil, are not made a part of the hull of the vessel, but have to be built inside the vessel, in order to be independent of the hull. There have to be a number of tanks. The oil can not be put into one large tank but it has to be kept in several smaller ones. The system of firing the fuel is simple, a faucet being simply turned on, and the oil flows into the furnaces. The services of very few men will be required for this labor.—Star.

GUATAMALA SCAS DAL.

American Diplomat Ostracized in Social Circles.

New York, April 22.—A special to the Sun from New Orleans says: William Godfrey Hunter of Kentucky, United States Minister to Guatemala, arrived in New Orleans last night on the fruit steamer Anselm from that country. A. B. Jekyll, a railroad conductor, and General John Drummond, of Central American revolutionary fame, were also passengers. Jekyll and Drummond will present, in the name of the American colony in Guatemala, charges against Hunter and ask for his removal.

They bring a sensational story, which they will relate to the State Department. The story reflects seriously on the Minister's son, whom, they declare, has been expelled from Guatemala. They also allege a critical condition of affairs existing in diplomatic circles in Guatemala City. Hunter, it is said, is socially ostracized, and on Washington's birthday, when Minister Hunter gave a reception, not an American was present.

"Young Hunter is about 24 years of age," Jekyll said. "He became entangled with the wife of an American, which finally ended in the suicide of the woman in San Francisco. The second trouble occurred a few weeks ago, when an insult was offered to a New Orleans lady while she was a guest of the Hunter family and while they had gone to attend a concert in a public park. The lady fainted, and the affair caused a sensation throughout Guatemala, with the result that Hunter fled from the country to escape punishment by the woman's relatives."

Says Max O'Rell.

Departing from his favorite subject, "Woman," Max O'Rell, the famous French writer, discusses in a recent number of a Chicago paper, "The Power of the Press." The article is good and furnishes a trend of thought that must please newspaper men in general. The celebrated Frenchman says:

"The press of the twentieth century is the greatest power of the earth. Is it going to be such a power for good or for evil? The duty of the press is to enlighten and teach, besides giving the news of the day. People who do not travel have seen nothing and know nothing. They are entirely at the mercy of the press for information and guidance. Let those who have seen and know teach and enlighten those who have not seen and do not know. Since the press has replaced diplomacy, let the journalist serve his apprenticeship, as the diplomatist has to do. Let him travel, see and learn. Let him go and reside in England, in France, everywhere. Let no journalist of any paper in the world write on a nation whom he does not know. When every important paper of the world understands this and acts on this suggestion I guarantee that, before twenty years, the peace of the world will be assured, the peoples will seek, study, respect and love one another. Let the journalist understand that his is not only a profession, but a mission, and one which may be the holiest of missions."

Admiral Coghlan.

Washington, April 21.—Captain Joseph B. Coghlan was today appointed Rear-Admiral by President Roosevelt.

Manila, April 21.—The cholera total to date is: Manila, 411 cases and 319 deaths; provinces, 888 cases and 626 deaths.

Seattle Rheumatism Cured After Fourteen Years of Suffering.

"I have been afflicted with sciatic rheumatism for fourteen years," says Josh Edgar, of Germantown, Cal., U. S. A. "I was able to be around but constantly suffered. I tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did and was immediately relieved and in a short time cured, and I am happy to say it has not since returned." Why not use this liniment and get well? It is for sale by the Hilo Drug Co.

THE MAY GERMAN.
Cotillion Club Makes Its Usual Hit in Honor of Month of May.
The May German given by the Cotillion Club at Spreckels' Hall last Friday night was in keeping with the season and was up to the reputation of Hilo's leading social organization. The program contained all the interesting diversions usually expected at a Hilo German without any endeavor on the part of the managers to produce startling effects.
The May-pole which had been located in the center of the dance hall, with all the ribands and decorations of a May-day festival recalled the lines of Dryden.
"For thee, sweet North, the groves green (if not the first, the fairest of the year; For thee, the graces had the dancing hours, And Nature's ready pencil paints the flowers."
The North was not here with its fairest green but the South, the limpid, wimpling, winsome South, with its breath of sweetness, and spirit of everlasting green, welcomed all with a
"Hail, bounteous May that doth inspire Mirth and youth and warm desire."
Everybody desired to be happy. All were happy.
The dance had been arranged for by competent and artistic hands. The hall was decorated, perhaps, not so elaborately as before, but with more aptness and timely taste. The walls bore legends of May, and beautiful Ridgway posters of drowsy milkmaids and lonesome farmer's daughters adorned the four sides of the hall.
The dance was conducted by Frank L. Winter. He called the changes and directed the elaborate figures of the German. There were a few complex knots for Mr. Winter to untie, but nobody cared. Everybody had a good time and left Winter to do the worrying.
Mrs. Tracy presided with her usual grace at the piano. The dance was started with a waltz so entrancing that each and everyone, including the spectators, involuntarily uttered the words of Darwin: "Sweet May! Thy radiant form unfold. Enclose thy blue voluptuous eye, And wave thy shadowy locks of gold."
The affairs of the Cotillion Club demand poetry in their description, and if the TRIBUNE artist fails to enlist local talent, the reader must expect him to fall back on the old masters.
The favors for the evening were all of floral design. To Mrs. Gurney, with a corps of assistants, the credit of this success is due. The favors were of flowers.
The refreshments were prepared by a master hand.
The exciting incident of the evening was the selection of the May Queen and her six maids of honor. The system hit upon resulted in the acceptable choice of Miss Franc Eaton as the May Queen. The result was greeted with applause from the guests and the dancers. The maids of honor were none the less fittingly chosen. They were Mrs. McG. Deacon, Mrs. F. B. McStocker, Mrs. Rice, Misses Check, Liluoe Hapai and Melinda Canario. When the Queen entered the room properly crowned, accompanied by her train of maids, the applause was flattering both to the honored ladies and to the people who planned the brilliant social success.
The May-pole dance then came. It was beautifully done and the participants may properly flatter themselves.
The guests of the evening were: Misses Arrot, Lyman, Sutton, McClelland, Potter (2), McKenzie, Aiken.
Mesdames Crazan, Curtis, McG. Deacon, Elliott, Furneaux, Gere, Hapai, C. C. Kennedy, Ridgway, Jules Richardson, Reid, Severance, Canario, A. M. Brown, McKay, Richards.

UNDER THE BEHRING STRAITS.
Plan to Join Alaska and Siberia by Railway.
Tacoma (Wash.), April 22.—Captain John J. Healy, formerly general manager of the North American Trading and Transportation Company announced today that John Abbott of Manchester, England, is now in England to finance a company which intends building a railroad from Valdes to Eagle City. Healy thinks that the work will be started this year. He desires to see the route taken by Klondike and other Yukon trade transferred to American soil. As the Tanana valley develops he believes the railroad in question will be extended westward down the Yukon river to Nome and thence to Behring strait, with an eventual connection with the Transsian Railway in Siberia.
Captain Healy is in close touch with Captain Delobel of the French army, who has formed a French Company to extend the Valdes-Eagle Railroad across Behring strait and through Northern Siberia. Delobel's company is negotiating with the Russian Government for a right of way across Siberia. Captain Healy says that boats cannot be depended upon for transit across Behring strait, and Delobel therefore intends tunneling under the strait, a distance of nearly twenty miles. Soundings show the greatest depth of the strait to be 180 feet.
GUATEMALAN TOWNS DAMAGED.
Large Proportion of Hundreds of Victims Were Women.
Guatemala City, Monday, April 21.—The details which are being received here of the result of the earthquake shocks which were general throughout Guatemala Friday, Saturday and Sunday show that Solola, Nahuala, Amatitlan, Santa Lucia and San Juan were badly damaged, and that Quezaltenango was partly obliterated and fire added to the horrors at the last-named place. Two hundred persons were killed, mostly women, and many people were injured.
At the capital three churches were slightly damaged. The Government is relieving the sufferers.
Kentucky Contempt.
Washington, April 21.—The House today entered upon consideration of the military academy bill. In addition to the regular items, it contains provision for the extensive improvement of the grounds and buildings at West Point. These improvements are to cost \$6,500,000 is appropriated in the bill.
Gilbert of Kentucky took occasion to reply to some remarks recently made by Gillett of Massachusetts, Bromwell of Ohio and General Funston, which he thought reflected upon his State. In the course of his remarks Gilbert said that in Kentucky, and in fact in all the South, they looked with supreme contempt upon the social equality of the races. The most ignorant white girl in his State, he said, would infinitely prefer to marry the lowest, meanest, most ignorant white man in the world to the most cultivated negro in America.
Manila Editor Fined.
Manila, April 22.—The editor of the Volcano was sentenced today to one day's imprisonment and to pay a fine of \$100 for demanding the removal of the Judge who recently tried Senor Valdez, editor of the Miat, who was fined for libeling Filipino members of the United States Commission, which was trying the editor of Freedom under the sedition law.
General Mercier Stoned.
Paris, April 21.—As General Mercier, formerly Minister of War, was leaving a political meeting at La Ferre-Bernard, in the department of Sarthe, at which he had presided, he was stoned, and sustained a wound in the head.
Kangaroos Have the Plague.
Sydney (N. S. W.), April 21.—Bubonic plague has appeared among the wallaby (smaller kangaroos) in the zoological gardens here, which have been closed to the public.

ROOSEVELT FAVORS ROAD.
Urges an Appropriation for an Investigation of the Matter.
Washington, April 22.—The President today transmitted to the Senate a report made by the Secretary of State concerning the action of the Pan-American Congress recently held in the City of Mexico on the subject of the suggested pan-American railway connecting the American continents. The Secretary calls attention to the request of the conference that the United States appoint a commission to investigate the question at issue, and urges that two commissions accordingly be appointed. The President indorses the suggestion and says: "I recommend an appropriation by Congress of the sum of \$200,000 or as much thereof as may be necessary to enable the President to appoint the commissioners to visit Central and South America to carry the purpose of the resolution into effect and to investigate and report upon the means of extending the commerce of the United States with those regions."
TO AMEND EXCLUSION BILL.
Californians at Work on Conference Committee.
Washington, April 21.—Representatives Kahn and Ccombs called upon the President today and discussed the Chinese exclusion bill with him. They told the President they believed the bill as it passed the Senate should be amended, and submitted the draft of an amendment they had drawn up. Their principal contention was that the exclusion laws should be passed without limitation as to time, and that the act of September 13, 1888, commonly called the Scott act, should be re-enacted by express reference to sections. The President said that he concurred in the belief that the exclusion laws should be extended without limitation and without reference to the life of the present treaty.
Might Have Been King.
Lord Munster, who was accidentally killed near Kroorstad, only succeeded to the earldom last April. He was the grandson of William IV. and Mrs. Jordan, and bore the royal arms. The first Earl was Colonel George Fitz-Clarence, who had a distinguished career in the army, being with Wellington in the Peninsular war and subsequently in India. After his retirement he was made a peer in 1831 and died 11 years later. But for the passing of the royal marriage act assuming King William's marriage to the Earl of Munster would have been King of England.—The London Tattler.
Palma Talks of His Plans.
Havana, April 21.—President-elect Palma and his party left Gibara this afternoon for Holguin. In an interview Senor Palma said he would combine Cuban postal and telegraph services under one head and make General Fernando Figuered director of the united department. He has decided to appoint Juan Rios Rivera chief of the Cuban customs; Carlos Zaldo Secretary of State and Senor Yero secretary of Instruction. The President-elect said he regarded the Spanish element in Cuba as an indispensable factor in the happiness of the future republic.
Kaiser Accepts Rhodes' Gift.
Berlin, April 21.—It is announced that Emperor William has notified the executors of the will of Cecil Rhodes of his country's acceptance of the trust relative to the German scholarships at Oxford.
