CUBAN STORY DENIED.
Tale that Gomez Was Bribed to Abandon Presidential Aspirations.
New Orleans, June 15.—A sensational story was printed here yesterday on the authority of Charles M. Dobson, former staff correspondent of the Associated Press of Havana, to the effect that General Maximo Gomez was paid \$25,000 by General Wood out of the funds of Cuba to induce him to abandon his claims to the Presidency of Cuba and to prevent threatened disturbances among his followers. It was alleged that the money was paid at the request of the Washington Government, which feared that trouble in the islands at that time would endanger the election of President McKinley.
Washington, June 15.—Regarding a story emanating from New Orleans yesterday to the effect that General Gomez received a \$25,000 bribe from the Administration to withdraw from the Cuban campaign, thereby permitting the election of President Palma, it was stated tonight by an official close to President Roosevelt that he had never before heard of it. Secretary Hay said that not until his attention was called to the story had he received the slightest intimation of from any source.
Secretary Root thought the story was undoubtedly an exaggeration of General Wood's action in granting a pension to General Gomez. The statement that General Wood had paid General Gomez money to withdraw from the Cuban campaign, Secretary Root said, was absurd on its face, as Gomez was one of President Palma's warmest friends.

TO FORCE FIGHTING.
Administration Senators to Crack the Party Whip Over Stalwarts.
Washington, June 14.—The present plans of the Senatorial supporters of Cuban reciprocity are to press the question to an issue next week. This was the result of the conferences held today and yesterday. The Republican members of the Committee on Cuban Relations will meet either Monday or Tuesday, and finally agree upon the exact terms of the bill to be reported as a substitute for the House bill. The measure thus agreed upon will be reported to a Republican caucus to be held Tuesday or Wednesday, and if the caucus indorses the measure it then will be brought before a meeting of the full Committee on Cuban Relations and reported to the Senate. The desire is to have all this done by the time the isthmian canal bill is disposed of on Thursday, so that the reciprocity bill may be given the first place in the order of business.
The reciprocity advocates still profess the utmost confidence in their ability to pass through the Senate any bill that may be recommended by the committee and caucus. They count largely upon the unwillingness of Republican members to align themselves strictly with the opposition against a bill that has been made a party measure by the President's message, and there are indications that at least in some instance this prognostication will prove sound.

PECK'S WORK.
Hilo's Banker Proves a Success in Gaining Attention at Washington
P. Peck, president of the First Bank of Hilo, is doing prodigious work at Washington in behalf of Hilo's material interests. He has worked incessantly in the committee rooms at the Capitol at Washington and has been accorded courtesies and consideration by the Senators and committee chairmen, which is flattering both to Mr. Peck and the flourishing city he represents. Had he gone to Washington two months earlier, there is little doubt that he would have secured appropriations for a Federal building at Hilo and for a breakwater in Hilo bay. As it now is he has succeeded in placing Hilo in the list of cities soon to be investigated by the committee on public buildings. He has succeeded also in getting Hilo slated with Yonkers, New York, for an investigation as to the postal situation, report to be made to next Congress.
The dispatches say that Senator Foraker has assured Mr. Peck that had he been on the ground two months earlier all that Hilo wants could have been easily secured. Mr. Peck's own belief is that upon proper representations early in the next session, Hilo's needs will be promptly and liberally dealt with.

FAVORS MONROE DOCTRINE
New Evidence of International Comity Comes from England.
London, June 14.—The speech of Sir Frederick Pollock, corps professor of jurisprudence University of Oxford, before the London Chamber of Commerce, Wednesday, commending the Monroe doctrine, has caused interesting and diverse expressions of opinion from the Spectator and the Saturday Review. The Spectator is delighted and urges the State Department at Washington to enunciate the doctrine clearly, as then Great Britain could record her acquiescence, expressing at the same time its maintenance of British interest, adding: "Such a course would certainly benefit the peace of the world as well as the security of Canada and our other possessions."
"The Kaiser now thinks he has only to build enough ships to make the United States see the advisability of dropping the doctrine so far as South America is concerned. That incentive to profligate waste of the national resources might be withdrawn if the action we suggest is taken. The Americans, having got our adhesion to the doctrine, might submit it to Germany and the other great powers. If their answers were favorable, a great source for future quarrels would be automatically eliminated."

TO ANNEX CUBA.
Washington, June 14.—Senator Elkins to-day introduced a joint resolution in the Senate providing for the annexation of Cuba and its admission as a state of the Union. The resolution grants the consent of Congress to the erection of the Republic of Cuba as a state of the Union, "to be called the State of Cuba, with a republican form of government, a constitution to be adopted by the people of said republic by deputies in convention assembled with the consent of the existing government."

X-RAYS AND DISEASE.
Important Announcement by Prominent Boston Surgeon.
New York, June 15.—A special to the Press from Boston says: The assertion has been made before the Massachusetts Medical Society by Dr. R. G. Southwick, Boston's leading surgeon, that the use of the X-rays promises great things in the treatment of malignant diseases which under the old methods of treatment unusually are impossible to cure. In a word, cancer, tumors, lupus and tuberculous glands henceforth can be cured in all cases where X-rays can be applied directly. Serious cases of tumor have been cured temporarily at least, and probably permanently, in the Booby Hospital under Dr. Southwick's treatment.
Dr. Southwick said it was too soon to say with scientific certainty that all the cases which had yielded to treatment were cured, but he added that the new cure was successful in all cases where the rays could exert their full power. He said the cure already had gone so far that it could be said most positively that in general cases X-rays were far superior to the surgeon's knife.

ATHLETICS WILL BE FINE.
The arrangements for athletic events on the Fourth of July are proceeding admirably under the direction of J. T. Moir and his assistants. Those working with Mr. Moir are Jack Easton, Ed. Hapai, Jack Phillips, Geo. Wilson, Dave Butchart and Alex. Fraser. It is proposed to introduce a number of Scottish events and make athletics one of the features of the occasion. The committee meets tonight to finish the program and decide on purses.

MUSICAL SUCCESS.
The concert Tuesday evening at the Haili Church for the benefit of the Hilo Boarding School was an artistic success. The amount realized was about sixty dollars. The Hilo Boarding School chorus was encored repeatedly. Mrs. Lewis, Mr. and Mrs. Bartels, Mrs. Curtis and Mr. Prouty each contributed to the musical success of the season. While the house was well filled, the excellence of the entertainment deserved a large patronage.

DOLE'S NEW ORDER.
Hazy Batch of Words Emitted to Countermand a Mistake.
Each arrival of the Kinau brings notice of some new freak that has been perpetrated by Hawaii's distinguished governor. Last week it was an order for all Territorial officials to quit politics. This week the Governor writes to the boys saying that he had no intention of depriving them of their rights as citizens of the United States. He talks like he is sorry he does not know how to be an American. The letter is as follows:
Executive Chamber, Territory of Hawaii.
HONOLULU, June 23rd, 1902.
SIR:—In relation to the recent discussion in the Executive Meeting on the subject of the political activity of officials, my opinion is that while it is not expected that officials shall forego their civil rights as citizens in political affairs, they should not use their official authority for the purpose of dominating the political party with which they are connected, or of controlling the result of elections. A just sense of official propriety should be the best guide in a matter of this kind, which from its very nature does not admit of hard and fast definitions. I recommend that the above be substituted for the instructions on this subject previously issued.
Very respectfully,
SANFORD B. DOLE.

ANOTHER ATTRACTION.
S. Decker arrived in the city Wednesday with the two clever pugilists, Jack Weday and Joe Decker, whom he proposes to match here on the evening of July 3rd for a ten round scientific exhibition. Mr. Decker promises satisfaction to all who witness the bout, or a refund of money. Weday is the champion middle weight of the American Navy and the Pacific Coast and weighs 155 pounds. Decker is the champion light weight of the Hawaiian Islands and will enter the ring at 125 pounds. Both are ready to meet all comers in their class. The preliminaries will consist of a Japanese wrestling match and other attractions by Honolulu parties.

FRENCH-AMERICAN AMITY.

Unveiling of Rochambeau Statue Strengthens Bonds of Friendship.

The statue of Marshal Rochambeau, presented by the French nation to the United States, was unveiled at Washington last Saturday with fitting ceremonies, France being represented by a special embassy including descendants of the Rochambeau and Lafayette families, and the United States by President Roosevelt and members of the government. At the unveiling, President Roosevelt said: "I am sure that I have given utterance to the sentiments of every citizen of the United States, of every American to whom the honor and the glory of our republic in the past as in the present are dear, when I say that we prize this fresh proof of the friendship of the French people, not only because it is necessarily pleasing to us to have the friendship of a nation so mighty in war and so mighty in peace as France has ever shown herself to be, but because it is peculiarly pleasant to feel that, after a century and a quarter of independent existence as a nation, the French republic should feel that in that century and a quarter we have justified the sacrifices France made on our behalf."

The Baltimore Sun says that "The ceremonies are in commemoration of the most important event in American history after the declaration of independence. The opportune arrival of Rochambeau and his army, accompanied by the French fleet, made independence a reality. The colonists might possibly have continued the struggle in a languishing way year after year until their foes had been worn out, but that is mere speculation. The presence of Rochambeau and his army decided the issue. It was the greatest service ever rendered to this country by any nation—in fact, the only substantial favor of any magnitude ever bestowed by a foreign country." The Baltimore American notes especially "the remarkable modesty of the French people with regard to the important part played by their country in the war of the American revolution. While they have exhibited the liveliest gratitude for the honors extended to their countrymen by Americans—notably on the occasions of Lafayette's two visits—they have never vaunted the part played by France, but have seemed to retain throughout all vicissitudes the strong friendship for the United States so practically exhibited by their ancestors."

ON NAVAL STRATEGIC BOARD.

Kempff to Have Charge of Defence on Pacific Side of Continent.

Washington, June 10.—Admiral Kempff was today appointed a member of the Naval War Strategic Board to have charge of the Pacific Coast. The plan is to organize the naval force, Army coast defense, lighthouse service, life-saving service and naval militia so that perfect co-operation will be effected in time of war. The Navy Department hopes its plan will result so successfully that in case of war the department would have at its fingers' ends all the paraphernalia and organization necessary for perfect harmony in the various branches of the coastwise and naval service not only in actual operations, but in supplemental aids, such as signaling by lights and life-saving stations, etc.

PRAISE AMERICAN ALLIES.

Declare They Are Great Fighters—Poor Opinion of Germans.

Pretoria, June 10.—Boer commandoes arriving here bring reports of fresh instances of fraternizing between the Boers and the British troops. The surrender of a commando at Balmoral, Transvaal, was followed by a big "sing-song." The British soldiers stationed at the blockhouse between Balmoral and Pretoria in some instances held up the trains and proffered coffee and tobacco to their late enemies. The Boers generally hold unfavorable estimates of their foreign allies, except the Americans, whom they declare to be crafty and great fighters. A prominent commandant said: "All the Germans are fit for is to give horses sore backs."

HUMANITARIANISM.

The Red Cross Battle With Malaria in Italy.

A Unique work of the Red Cross society is the care of malaria patients in the Roman plains. As a rule, the society confines its efforts to wars and unusual disasters, such as plagues, earthquake shocks, or famines, but the ravages of malaria in the great plains around Rome were considered great enough to merit its attention. It has erected in the Roman country six sanitary stations, which are in operation during the most dangerous period of the epidemic; that is to say, from July to the end of November. Each one is established on a farm, in the midst of the region assigned to its service, the personnel being composed of a medical officer, a nurse, and a coachman, who is also a guide. As a means of transports these stations possess a large ambulance of two or three horses which can carry eight persons seated or four lying down on the litters, cases of medicine, surgical instruments, eatables, wines, and liquors.

The physicians of the Red Cross not only care for the sick, but they distribute and compel the peasants to take quinine, applying it as a prophylactic measure even to those who have not the fever. They furnish also the feeble and the poor with meat, bouillon, etc., while by a continual propaganda by word of mouth and by publication they demonstrate to the peasants that their salvation lies in seeking to avoid the bites of the anophele. Physicians, nurses, and guides have the windows and doors of their bed-chambers protected against the gnats by wire netting, and during their excursions in the plain, after the setting and before the rising of the sun, they always have the face covered with a silk veil and the hands gloved. Up to the present time, during three seasons of experience, not one of the persons employed in this service has been attacked with the fever, solely because they defend themselves against the bites of the gnats, for they all live in the most dangerous parts of the country.

The noble humanitarianism of the Red Cross from day to day gains the confidence of the peasants, who now gather in constantly increasing numbers at the sanitary stations to consult the doctor; for they have seen that the worst fever can be quickly cured by taking quinine even in small quantities, but at the proper time. In 1900 the Red Cross cared for 4,513 persons, of which 3,733 were sick from malaria, 306 being transported to the hospital in Rome, either by ambulance or by the railroad. This year the prophylactic cure has obtained much greater extension, and one already counts by hundreds those who have voluntarily requested to be regularly given quinine; and not one of these has suffered from malaria.

How to Avoid Trouble.

Now is the time to provide yourself and family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over, and if procured now may save you a trip to town in the night or in your busiest season. It is everywhere admitted to be the most successful medicine in use for bowel complaints, both for children and adults. No family can afford to be without it. For sale by the Hilo Drug Co. *

Can't Eat

You certainly don't want to eat if you are not hungry. But you must eat, and you must digest your food, too. If not, you will become weak, pale, thin. Good food, good appetite, good digestion,—these are essential.

Mr. Robert Venns, of Launceston, Tasmania, sends us his photograph and says: "I suffered greatly from loss of appetite, indigestion, pains in the stomach, weakness, and nervousness. Several doctors tried in vain to give me relief. A friend then induced me to try Ayer's Sarsaparilla, for it had done him much good. The first bottle worked wonders for me. Soon my appetite came back, my indigestion was cured, and I was strong and hearty."

AYER'S Sarsaparilla

There are many imitations "Sarsaparillas." Be sure you get Ayer's.

Keep your bowels in good condition by using Ayer's Pills. They cure constipation, coated tongue, biliousness, sick headache.

NEAR CUBAN CRISIS.

Indications That Some of the Stalwarts Have Weakened.

Washington, June 10.—Senators Aldrich and Platt have agreed upon a plan of action in the Cuban business, according to information given to "insurgent" Senators. They have decided to report the bill from the Cuban Committee for a straight reduction of 20 per cent in the duties on Cuban products, and will ask the Republicans to hold a conference or caucus on the bill. If the stalwart Republicans refuse to go into conference or be bound by it, then Aldrich, Platt and their adherents will throw the blame for the failure of Cuban legislation on the stalwarts and adjourn Congress. They will leave it to the people.

Burrows said tonight that the programme did not frighten the stalwarts at all. He said the people of the country did not care for the Cuban business, which was purely an artificial matter, galvanized by the sugar trust. He declared that fifteen stalwarts stood ready to fight the reciprocity bill to the last ditch.

It was reported late tonight that a combination had at last been effected by Senator Aldrich and other leaders whereby a Republican majority has been secured in favor of a 20 per cent reduction in the tariff. Senator Elkins and three other stalwarts are reported to have gone over to the apertates tonight, with enough others weakening to practically insure fifty Republicans in the caucus soon to be held.

Two beet-sugar Senators tonight admitted defeat and said the hopes of the rigid protectionists depended now upon the stalwarts in the House.

"We hope still to defeat the measure," said one, "but with the defection of Senator Elkins and several others we are in a bad fix."

For Payment Hawaiian Claims.

Washington, June 9.—The Senate Committee on Pacific Islands and Porto Rico today authorized a favorable report on the proposition allowing pay for the destruction of property in Hawaii on the order of President McKinley on account of the plague. The committee decided to recommend that an amendment shall be made to the general deficiency appropriation bill providing for the payment by this Government of \$1,000,000, and authorizing the Territory of Hawaii to issue bonds for the payment of the remainder of the claim, aggregating \$500,000.

Anarchy Measure Passed the House

Washington June 9.—The House passed the bill to protect the President, Vice-President, members of the Cabinet and foreign Ministers and Ambassadors and to suppress the teaching of anarchy by a vote of 175 to 38. A motion to recommit the measure with instructions to strike out certain sections was defeated, 71 to 123.

LOBE EXHIBITION GAME.

Play at the Request of the King and Queen.

London, June 10.—Large crowds visited Ranelagh this afternoon to see King Edward, Queen Alexandra and the American polo players. It was a sort of exhibition game, and was won by the British by the score of 6 goals to 5. The game was to have begun at 5 p. m., but the King and Queen were forty minutes late. The members of the royal party showed keen interest in the game. Besides their majesties, Prince Victoria and Prince and Princess Charles of Denmark were present.

After the game Henry White, first secretary of the United States Embassy, introduced the Americans separately to the King, who shook hands with each player and conversed with Foxhall Keene.

America was represented by the same team as yesterday at Hurlingham, with the exception of M. Waterbury, who played instead of Agassiz. The Ranelagh Club was represented by what was considered to be a very moderate team, consisting of Captain Jenner, A. Rawlinson, F. A. Gill and Scott Robson. The score at the end of the third period was 3 goals to 2 in favor of the English. At the end of the fourth period it stood 4 to 4, the British finally winning by a score of 6 to 5.

Interpolating an exhibition between the cup matches was very hard on the American players and their ponies, but the King had expressed a wish to witness a game today, and the team gladly acquiesced.

SUGAR TRUST ENTERS DENIAL.

Declares That Combine Does Not Control Beet Sugar Industry.

New York, June 10.—Henry E. Havemeyer, resident of the American Sugar Refining Company, denied today a report that his company had obtained a preponderating interest in the beet sugar industry in this country. The report had it that Havemeyer had purchased the controlling interest in several beet sugar factories in the West and Northwest. When this was called to his attention he said: "It is not my intention to tell the public, or the newspapers, the business affairs of the company. That report about buying beet sugar interests was only printed in the hope of urging an avowal from me. All I will say is that any statement to the effect that the American Sugar Refining Company has a preponderating interest in the beet sugar industry is utterly untrue."

"It is stated that you have purchased a controlling interest in five beet sugar factories in the West?" "That is entirely untrue, too," Havemeyer said.

Panama Route not Feasible.

Washington, June 9.—An interesting discussion of the isthmian canal project was made in the Senate today by Harris of Kansas, a member of the Committee on Inter-Oceanic Canals, who is also an engineer of recognized ability. His discussion of the technical details of canal construction was listened to with profound attention. He strongly advocated the selection of the Nicaraguan route. He maintained that it was entirely feasible and practicable from an engineering standpoint, and said that some of the difficulties presented by the Panama route were insuperable, notably the construction of the Bohio dam.

A BLUNDER.

One of the first tangible results of the order of Governor Dole, directing all Territorial employees to abstain from participation in active politics is the withdrawal from the Republican organization here of a squad of the best Republican hustlers in the district. The District committee, has commenced to fall to pieces and the remnant left has held two meetings in the endeavor to fill vacancies and keep the organization going.

Chairman T. C. Ridgway of the District Committee said to a TRIBUNE reporter "The Republican party here will lose more by this foolish order of Governor Dole's than by any one thing that has happened. Our best fighters are dropping out of the harness. In Laupahoehoe, the order has simply extinguished our organization."

Another leading republican said, "It's Dole's old fashioned habit; always being good at just the wrong time."

The seriousness of the situation cannot be exaggerated in the minds of the genuine conscientious supporters of Governor Dole here. They figure now that in the coming legislature Mr. Dole will not only be confronted with a hostile legislature but it will be a degistature strong enough in opposition to override all vetoes made.

The deductions which are to be made from these conditions are not flattering to the sense of Governor Dole nor to the judgement of President Roosevelt in endorsing the Governor for the balance of his term. To all outward appearances the President wanted to produce in Hawaii political harmony. His course bids fair to succeed, but only by the total obliteration of the Republican party.

FINANCIAL RELIEF.

The favorable report by the committee on Pacific Islands, on the request of this Territory for Federal aid in paying the plague fire losses, is one of the most hopeful signs that has appeared in the sky of dull times for a long time. The committee recommends that Congress appropriate \$1,000,000 and in addition give the Territory authority to issue \$500,000 in bonds. The disbursement of such a sum in Honolulu and this Territory would go far toward changing the monetary situation from one of stringency to one of plenty.

ACCORDING to Dole's latest order all officials may follow the dictates of their own consciences regarding their participation in politics. His first order said they must not defile their hands with politics. His second order gives them free rein to make speeches and write letters but not to serve as Committeemen or Delegates to Conventions.

PEACE in South Africa will make the coronation of Edward VII all the more joyful to his majesty, the king, as well as to the throngs of subjects and visitors who participate in the ceremonies.

AND Biting was pardoned also: the ostrich in the Governor's chair thus hid its head in the sand.

Automobiles.

A. James, who has been on an extensive trip East looking into an automobile proposition for Hilo and this Island returned by the Enterprise. As a result of his investigations, Mr. James has abandoned the idea of putting on a line of Automobiles between Hilo and the Volcano house. He found that the machines he had been figuring on were impracticable for that route.

Mr. James however has not abandoned the automobile business. He brought home a White Automobile, a vehicle, manufactured by the White Sewing Machine Company. It is propelled by steam, generated by gasoline. The machine is built to accommodate two passengers and in Mr. James' opinion will be the popular auto of America. The company is making a heavier machine which will be on the market in a few weeks.

The dinner at Demosthenes Cafe tonight, given by the resident British subjects in honor of the coronation of King Edward promises to be a brilliant affair. Preparations are being made for thirty or more guests.

If reports brought from Honolulu this week by visiting turf men are true, sporting circles in that city promise to be shaken by a race track scandal of larger proportions than the Weller poisoning story assumed one year ago.

Mr. and Mrs. Robert Hawkshurst returned to this city from Kona last Monday, where Mr. Hawkshurst has been for the past few months superintending the construction of the plantation railroad for the Kona Sugar Company.

Wm. McKay and Mrs. McKay, parents of Mr. McKay, local manager of the Wilder S. S. Co., arrived on the Enterprise from London, England, to make this their permanent home. They are at present stopping at the McKay home in Paouu.

A face that will be missed at the races is that of Peter Lee, who leaves tomorrow for the Coast. Mr. Lee used to own the famous hurdle racer Van Wagner, whose many duels with John Moir's Dixie Land here and at Honolulu will not soon be forgotten.

In Honolulu yesterday there was a general suspension of business in honor of the King's coronation. The principal events of the day were a reception in the morning by British commissioner Hoare and Miss Hoare at the Hoare residence, a cricket match and garden fete at Punahou and a grand ball at the Hawaiian Hotel in the evening.

The judges at the races this year will be Sam Parker, Edgar Halstead and Albert Horner. W. H. C. Campbell will be judge and starter in the trotting events. John O. Rourke will have charge of the saddling padlock. Dr. W. H. Jones and his red coat will officiate as clerk of the course. The time keepers are J. D. Kennedy, Webb and A. Hamburg.

Retalhuleu, Guatemala, the city in which F. Souza and family resided for fourteen years was destroyed by an earthquake early in June. Mr. Souza, who came to Hilo a few years ago has many relatives and friends in the destroyed city about whose welfare and safety he is greatly concerned. The city had a population of 8000 and the loss of life is reported as being very great.

WILL BE GREAT RACES.

Indications are Good for Successful Meeting.

As the time for the Fourth of July races draws nearer, the activity on the track at Hoolulu Park is very marked. Hilo never had brighter prospects of having a good time than at present. All signs point to a large crowd, and some of the finest races that have ever been held on the Hawaiian track.

The horses that came up by the last Kinau were General Cronje, Rejected, Socialist, Del Vista, Time Center, Nullah, Mollie Connors and Piggot, one of the jockeys who raced here last year arrived last week, and together with Buck Burns are working out McKenzie's string. Several more jockeys are expected by the next boat.

The race that is exciting the most comment of all is the match race between Weller and Del Vista. Two weeks ago the horses ran a dead heat in record time, going over the Kaula course in 2:42 2/5. This beats Vioris old record of 1:45 which has stood for so long. Considering the slowness of the track the time is phenomenal when compared with the world's record of 1:38 1/4.

What the outcome of the race will be no one can tell. Last year in a false breakaway, McAuliffe sent Weller off the distance in 1:42 3/5 without touching a whip or spurt to the horse. Twenty minutes later Weller made the same distance in 1:45. Del Vista carries ten pounds less than her opponent, and so has that much advantage. At all events, if the start is at all fair the race will be one that shall be remembered many days.

A new acquisition to the local track, is Wayboy, Billy Cunningham's sorrel pacer. The horse, which has a record of 2:17 1/2 is now owned by Geo. McKenzie. Last year Wayboy failed to make 2:28 on the local track, but properly driven, the pacer should throw up the dust in front of every horse in the Territory with the exception of Waldo J.

The Kukaiau string should be here in the near future.

A horse that is liable to surprise the wise ones is Frank Carter's Defender. The horse has been rusticated up in Waimea for the past year, but is now in much better shape than when he last raced here. Defender has been known to go to the quarter pole in .24 1/2 with 140 pounds up. A race between Frank S. Mollie Connors, Del Vista and Defender would furnish rare sport for the touts.

Mr. and Mrs. C. C. Kennedy Entertain

Mr. and Mrs. C. C. Kennedy entertained a party of friends at their home at Waiakea last Friday evening. The affair was a sort of goodbye reception to a number of the friends of the family who leave by this Enterprise for the Coast. There were seven tables running at six handed euchre. The competition was lively for first honors, which were won by Mr. G. N. Day. His reward was a fine fountain pen. Mrs. Gibb won the first ladies prize which was a photograph case. Mr. C. N. Prouty and Mrs. E. N. Holmes won consolation prizes a reading glass and a bottle of smelling salts respectively.

A delicious collation was served the guests departing at a late hour.

The Post Office.

Radical changes will be made at the Post Office July 1. Inspector Madden who is here has instructions to overhaul the office. All people owning boxes must deliver their keys and receive new ones, and every effort will be made to return to each patron a box bearing the old number, although this is impossible in all cases.

The new boxes will all face on Front street. The delivery windows will all be on the Waiakea end of the building and the mailing boxes will be on the Front street corner. The installation of the new Postmaster will therefore of necessity be attended by more or less confusion.

Porto Ricans Fight.

A Porto Rican dance at Honomu last Saturday night broke up in a row that came near resulting fatally to two of the participants. The belle of the ball, in the midst of the dance, called on the musicians to hush and refused to proceed. Her partner an eloquent Porto Rican, defied the men present to take the part of his recalcitrant partner whom he began to denounce in the choicest language. Cane knives were at once flashed on all sides and a general mix up followed. The ring leaders with gashed heads and carved faces were brought to Hilo to account for their chivalric conduct.

Spanish War Soldiers.

The soldiers of the Spanish war met Saturday night at the Singer Sewing Machine rooms and unanimously accepted the proposition of the Fourth of July Committee to participate in the parade. The Committee on decorations and conveyance is Jim Morris and D. S. Bowman. Another meeting will be held Saturday evening June 28 at the same place. All soldiers of the late war are invited to be present. Those at the last meeting were Jim Morris, D. S. Bowman, J. H. Morage, Alex Raymond, Thomas Bievins, Charles H. Cooke, John Kelley, R. J. Ellis, P. C. Dorlan and Mr. Stanley.

Reception.

The following are hereby appointed members of the Reception Committee of the city of Hilo:

Celebration Committee—Mrs. R. H. Reid, Mrs. J. T. Lewis, Mrs. E. D. Baldwin, Mr. Robert Scott, Demosthenes Lycurgus, Thos. C. Ridgway, Mr. Austin.

They will meet at the Hilo Hotel parlors at 8 p. m. Saturday, June 28th, to arrange for the reception of guests from without the city of Hilo.

J. U. SMITH, Ch. Ex. Com.

Hilo, June 21, 1902.

T. C. Ridgway has been appointed Customs Collector for this port to act at such times as J. C. Ridgway may be absent from the city as Territorial Bank Examiner.

Mrs. W. B. Maling, wife of the Clerk of the Federal Court at Honolulu, accompanied by the Misses Osborne, visited the Volcano the first of the week and are now stopping at the Hilo hotel.

W. A. Johnstone Chief Engineer of the Wilder S. S. Co., leaves for the Coast on the steamer Enterprise. At San Francisco he will superintend the overhauling of the Kinau which will be sent up about August 1. Mr. Johnstone will also study the oil fuel equipment of the Enterprise and upon his decision will rest the matter of the adoption of the system by the Wilder Company. While the Kinau is at San Francisco the Claudine will take her run and the Maui will take the place of the Claudine.

HILO BOARDING SCHOOL.

Closing Exercises of the Year Were Held Wednesday.

The Hilo Boarding School closed the work of the year last Wednesday afternoon with an exhibition of a very high order. A number of songs were heartily enjoyed and the various songs were heartily enjoyed. The most interesting feature of the afternoon was the court scene from the Merchant of Venice, acted by eleven boys of the higher classes. The costumes were of bright stuffs and the staging was elaborate enough to give effect. The principal character, that of Shylock was well acted by Charles Kalainai. The character was well sustained. The part of Portia and Antonio were also meritorious.

The entire cast was as follows:

Shylock.....Chas. Kalainai
Antonio.....Ela Akana
Bassanio.....George Marr
Gratiano.....Joe Akan
The Duke.....Jeremiah Joshua
Portia.....David Keavahano

New Harness Store.

L. K. Pearson, a harness man of life long experience has opened up a harness store in the rooms adjoining the First Bank of Hilo in the Peacock block. A full line of harness and leather goods came by the Enterprise which Mr. Pearson has been installing this week. Mr. Pearson has been for the last year and a half in Honolulu. Previous to his island experience he was connected in various capacities with the Geo. Lawrence Company of Portland Oregon. Mrs. Pearson and a son came with Mr. Pearson to make Hilo their permanent home.

Whooping Cough.

My little son had an attack of whooping cough and was threatened with pneumonia; but for Chamberlain's Cough Remedy we would have had a serious time of it. It also saved him from several severe attacks of croup.—H. J. STRICKFADEN, editor World-Herald, Fair Haven, Wash., U. S. A. For sale by the Hilo Drug Co.

There is this peculiar thing about our Hair Vigor: it's a hair-food, not a dye. It doesn't turn your hair suddenly black and make it look dead and lifeless. But gradually the old color comes back, all the rich color it used to have. And it also stops falling of the hair. Even if your hair isn't coming out, isn't turning gray, isn't too short, yet you certainly want a fine dressing for it, and here it is.

Ayer's Hair Vigor

It keeps the scalp clean and healthy, removes all dandruff, makes the hair grow rapidly, prevents it from falling out, and does not allow a single gray hair to appear.

Do not be deceived by cheap imitations which will only disappoint you. Make sure that you get the genuine Ayer's Hair Vigor.

Germany's Beet Sugar Men Say We Are Ruining Them.

"PERILS THE GREATEST EVER THREATENED."

Overwhelming Advantages in Favor of the Cane Sugar Industry of Cuba, Puerto Rico, Hawaii, and the Philippines Are Reviewed. Concerns Unite in Memorial to the Imperial German Government.

Washington, May 25.—Observance of the convention signed at Brussels by the nations of Europe, with the exception of Russia, abolishing export premiums on sugar, will cause the ruin of the beet sugar industry in Germany, France and Austria.

This is the conclusion of the beet sugar concerns of Germany, which have united in a memorial to the Imperial government which closes with this declaration:

"The Brussels convention is absolutely unacceptable. The government cannot and dare not leave us in extremities. Above all else, it is necessary that the German sugar producers shall sink all minor differences and disagreements, and unite to combat, resolutely and unitedly, the greatest peril that has ever threatened them."

EFFECTS OF NEW CONDITIONS.

The effect of the new conditions upon the beet sugar industry are thus described:

"(a) Reduction of the home internal price of sugar to the present price in the general foreign market.

"(b) Wholesale and general shrinkage of beet sugar production in Germany, France and Austria to one-half of its present dimensions—in brief, the ruin of that industry.

"(c) Increase of sugar production in all beet growing countries which are not bound by the Brussels convention and in all cane sugar growing countries, including the United States.

"(d) A probable slight reduction of the consumer's tax and consequently a small increase of sugar consumption in Germany, Austria and France, which will not in any important measure serve to balance the loss to those countries of their sugar exports."

ADVANTAGES TO CANE SUGAR.

The overwhelming advantages which the cane sugar industry will gain and derive from the enforcement of the Brussels convention are prefigured as follows:

"1. The annual production of 2½ to 3 tons of cane sugar per morgen (to about one acre) against a maximum of 1 ton per morgen of beet sugar, with a net cost of 6 marks per centner (\$29.40 per metric ton) for beet sugar—that is an advantage of 2.50 marks per centner (\$10 per metric ton) in favor of cane sugar.

"2. A mark per centner higher price for cane sugar by reason of its superior flavor.

"3. Direct and indirect premiums, including freight rebates, import bounties and other government favors granted to native sugars at least by England and the United States—say as an average, 1 mark (24.8 cents) per centner. There will be therefore a total advantage of 2.50-2-1-1 marks, equaling 5.50 marks (\$1.30) advantage in favor of cane sugar over beet sugar from the countries bound by Brussels convention."

DEMANDS MADE OF GERMANY.

The memorial then enters into a discussion of what the German government ought to do for its beet sugar interest to replace and compensate for, in some degree, the advantages which it will inevitably lose under the terms of convention. These demands are formulated as follows:

"1. Reduction of the tax (Ueberzoll) not below 6 marks (\$1.43) per centner (110 pounds) of sugar.

"2. Fixing of the amount to be raised from the consumer's tax on sugar at a maximum of 75,000,000 marks (\$17,850,000) per annum, in order that, with an increasing home

consumption, the percentage of tax, and therewith the retail price, shall decline.

"3. The putting of inland and export sugar on an exact equality, so far as railway freights are concerned.

"4. Abolition of the manufacturers tax (Betreibs Steuer).

"5. Free reimportation of sugars of proven German origin from foreign countries and the free port of Hamburg.

"6. Prohibition of saccharine in pharmacies."

The document further demands the repeal of all direct and indirect favors now granted to foreign countries in respect to sugar traffic.

CONFESSIONS HIGHLY IMPORTANT.

Because of its bearing upon the legislation pending in the Senate making the United States a market for Cuban sugar, the confessions of the German sugar interests are of great importance.

Consul General Mason, at Berlin, who transmitted the memorial to the State Department, says it states that a centner (110 pounds avoirdupois) of raw sugar costs to produce in Germany 8.50 marks (\$2.02). This includes cost of 7½ centners (825 pounds) of beets at 70 pfennigs 16.6 cents per centner, cost of manufacture, packing, freight to seaport, interest, office expenses, etc.

The Brussels convention will bring this minimum cost of \$2.02 into conflict with the cost of cane sugar in Cuba, Porto Rico, Hawaii, the Philippines and other tropical countries, which is stated at 6.2 marks (\$1.47) per centner, with the result of inevitable ruin to the former.

He then proceeds to show by an elaborate statistical table that the aggregate beet sugar production of Germany, Austria and France, estimated at 4,815,000 tons during the present campaign of 1901-2, will decline by ten per cent per annum under the new conditions from September 1903, and will reach in ten years (1910-11) a total of only 1,866,431 tons, while the cane and beet sugar product of North America, which includes the West Indies and the Pacific Islands of the United States, will increase during the same period from 5,530,000 tons in 1902 to 8,323,55 tons in 1910-11.

FAVORABLE LEGISLATION ASKED.

Consul General Mason says the German sugar interests will employ their efforts to save, through favoring legislation by their home government, something in compensation for the long-enjoyed advantages which they must yield under the provisions of the convention from and after September 1, 1903. How far the government will go toward complying with these demands the future only can reveal.

The propositions which the Reichstag has now under discussion includes the repeal of certain chapters of the sugar taxation law, fixing the revenue tax on sugar at 16 marks (\$3.80) per 100 kilograms; providing that sugar, which before the date of enforcement of this law had been admitted to a bonded warehouse, and after the said date shall be released for traffic or transferred to a factory, shall be subject to repayment of the export bonification allowed thereon, and contemplating that the amended law shall take effect simultaneously with the convention entered into at Brussels March 5, 1902.

According to Mr. Mason the announcement that the Brussels Convention had, after so many previ-

ous failures, really agreed upon a plan to abolish export bounties came to the enemies of that measure with the shock of an unexpected surprise. The whole proceeding was recognized as a decisive victory for cane as against beet sugar—a conquest for the Indies, Hawaii, the Philippines and Louisiana over Continental Europe.

IRREPARABLE BLOW TO GERMANY.

The Zucker-Industrie, the leading organ of the German sugar producing interests, hastened to say that if the convention were carried into effect the result would be a blow to the sugar industry of Germany from which it would never recover. It said:

"In the world's markets our products will be overwhelmed by colonial sugars, which enjoy important and decisive advantages. Germany will be flooded with foreign sugars because our import duty is so small; the cartel will be rendered forever impossible; the price of beets must be reduced by at least 30 pfennigs (7.14 cents) per 100 pounds; beet cultivation, and with it agricultural prosperity, must inevitably decline."

Six days after the signing of the convention at Brussels a mass meeting of representatives of the beet growing and sugar making industries was held in Berlin, at which much impassioned oratory was heard, but the general impression left by the conference was that of a merely general but vaguely defined opposition to any change in the present system, which in effect taxes sugar consumers in Germany to pay the cost of supplying Great Britain and the United States with German sugar at about half the price which, under the ministrations of the cartel, it costs at home.

In the resolution which summarized the action of that meeting it was stated that it was too early to estimate closely and accurately the full effect of the convention, but that as it had yet to receive the approval of the Reichstag and Bundesrath, as well as the imperial signature, there still remained opportunity for resistance, and to this the meeting pledged its loyal and united efforts.

ENDS FINANCIAL NIGHTMARE.

It is recognized, however, that the agreement signed at Brussels will bring to European statesmen the end of a long financial nightmare; that it will give relief to sugar consumers everywhere, and will require the governments of France, Germany, Austria, Belgium and Holland to set the beet sugar industry back upon its own feet, to stand or fall by its own merit and in accordance with the measure of skill and foresight that may be embodied in the new legislation which will replace the present system.

This legislation will presumably be shaped to accomplish one or more of three principal results—First, to sustain sugar production by promoting its consumption at home; second, by enhancing through commercial treaties sugar exports to countries which, like Great Britain and the United States, are more or less dependent upon imported supplies; and, third, by restricting beet planting and overproduction of sugar.

Germany has heretofore exported, roughly speaking, two-thirds of her sugar product, and the problem presented to the statesmen of this country by the new conditions which are to obtain after autumn of next year is complicated and serious. Beyond the readily assumed fact that the convention will be loyally carried out, nothing in the way of new legislation has been decided upon.

Appeals have been made to the beet sugar planters of Germany to restrict the area of beet planting. The production, however, is going on unabated.

From later telegraphic and mail advices it has been learned that Germany has accepted the terms of the Brussels convention in spite of the intense opposition described above.

HOUSE BEGINS CABLE DEBATE.
Corliss Argues in Favor of Government Line in Pacific Ocean.

Washington, June 10.—The House today defeated the bill to transfer certain forest reserves to the Agricultural Department and to authorize the President to establish game and fish preserves. Its death was accomplished by striking out the enactment clause. The motion was made by Cannon and was carried by 100 to 70. He claimed that the bill would greatly increase the cost of administering forest reserves and declared that the estimated receipts of the next fiscal year were already exceeded by the appropriations up to the present time by over \$51,000,000.

The House then adopted a special order for the consideration of the Corliss Pacific cable bill by a vote of 108 to 73, and for the remainder of the afternoon listened to the author of the measure argue in favor of its passage. The House, without preliminary business, resumed consideration of the bill to transfer certain forest reserves to the Agricultural Department and to authorize the President to create game and fish preserves in such reserves. Cannon, chairman of the Appropriations Committee, moved to strike out the enactment clause of the bill. By unanimous consent Mr. Cannon, in connection with his motion, made a statement as to the status of revenues and expenditures.

The bugler will give to bugle call to mount at 9:45 a. m., and parade will march promptly at 10 o'clock without fail, and it is expected that all Divisions will be ready to march. By order of A. RICHLEY, Grand Marshal.

Read It in His Newspaper
George Schaub, a well known German citizen of New Lebanon, O., U. S. A., is a constant reader of the Dayton Volkszeitung. He knows that this paper aims to advertise only the best in its columns, and when he saw Chamberlain's Pain Balm advertised therein for lame back, he did not hesitate in buying a bottle of it for his wife, who for eight weeks had suffered with the most terrible pains in her back and could get no relief. He says: "After using the Pain Balm for a few days my wife said to me, 'I feel as though born anew,' and before using the entire contents of the bottle the unbearable pains had entirely vanished and she could again take up her household duties." He is very thankful and hopes that all suffering likewise will hear of her wonderful recovery. This valuable liniment is for sale by the Hilo Drug Co.

KING EDWARD ILL.
Confined to His Room by an Attack of Lumbago and Chills.

London, June 15.—King Edward is suffering from a chill, which prevented him from attending today's church parade of the Aldershot garrison. The chill came as a result of the King's prolonged stay outdoors last night on the occasion of the torchlight tattoo at Aldershot. The chill is a slight one, accompanied by symptoms of lumbago.

The weather last night was extremely cold, and it rained at intervals before their majesties left the brigade recreation ground. King Edward returned to his apartments chilled from the unwonted exposure.

To Give Alaska a Delegate.
Washington, June 14.—Senator Beveridge today reported from the Committee on Territories a bill giving Alaska a Delegate in Congress. He also introduced a bill providing for a Delegate from Indian Territory.

\$4 FOUR PUBLICATIONS ONE YEAR \$4
\$4 TO NEW SUBSCRIBERS FOR \$4
\$4 FOUR DOLLARS \$4

Old subscribers by paying for the TRIBUNE one year in advance and Two Dollars additional will receive the other three publications one year.

The Woman's Home Companion is now the greatest of the magazines intended for the home—for father, for mother, for the children. It has seventy-five to one hundred beautiful illustrations in each issue, three to eight complete stories by famous writers, magnificent reproductions of great paintings, a special department for children, departments for different matters of the home-life, and many pages especially for women. It is a beautiful magazine—interesting, entertaining, helpful. Three hundred and fifty thousand homes receive it every month.

The Cosmopolitan is without a peer among the magazines of general subject matter. It has more enterprise than any other; it secures and prints more new and original articles. It has a splendid fiction department. It is finely illustrated. Like the Woman's Home Companion, it finds a place in nearly four hundred thousand homes.
