#### TERM SUMMONS.

Jacinta de Conceicao Fernandes vs. Manoel Pereira Fernandes.

THE TERRITORY OF HAWAII.  
To the High Sheriff of the Territory of Hawaii, or his Deputy:

You are commanded to summon Manoel Pereira Fernandes, defendant in case he shall file written answer within twenty days after service hereof, to be and appear before the said Circuit Court at the July 1902 Term thereof, to be holden at Honokaa, Island of Hawaii on Wednesday the 2nd day of July next, at 10 o'clock A. M., to show cause why the claim of Jacinta de Conceicao Fernandes, plaintiff should not be awarded to her pursuant to the tenor of her annexed Libel for Divorce.

And you have then there this writ with full return of your proceedings thereon.

Witness His. Gilbert F. Little, Judge of the Circuit Court of the Fourth Circuit, at Honokaa, Hawaii, this 17th day of March, 1902.

HENRY SMITH,  
Clerk Judiciary Department.

I certify the foregoing to be a true copy of true original summons in said cause, and that said court ordered publication of the same and continuance of said cause until the January Term next of this Court.

#### IN PROBATE—AT CHAMBERS.

In the matter of the Estate of MELE MALO (w.), of Kalaooa, Hilo, Hawaii, deceased.

F. S. Lyman, Administrator of the estate of Mele Malo, deceased, having filed on the 31 day of February, 1902, a petition for an order to sell the real estate of said deceased, and at the hearing of said petition on the 26th day of June, A. D. 1902, it appearing to the satisfaction of the Court that due publication was made, and that it is necessary that the real estate of the deceased be sold in order to pay the debts outstanding against the estate and the expenses of Administration, and no person appearing to show cause why said petition should not be granted, it was ordered by the Court that the said F. S. Lyman, Administrator be and is authorized to sell the real estate of said Mele Malo, deceased, by A. E. Sutton & Co., Auctioneers, at public auction, for cash, U. S. Gold Coin, the following property of said estate, namely: Five acres of land situate at Kalaooa, Hilo Hawaii, being an undivided portion of the land set forth in Royal Patent Grant Number 7139, Apana 1, to Kane; conveyed to said Mele Malo by deed of Kane and Kalino his wife, recorded in Liber 103, pages 156 and 157. Also one half interest in 25 3/4 acres of the land at Aleama, Hilo, Hawaii, described in Royal Patent Grant Number 1055, to Paete and Kamai.

Notice is hereby given that all the right, title and interest of said Mele Malo, deceased, in and to the above described lands and real estate together with the dwelling house, fences and improvements of said deceased upon said lands, will be sold at public auction, by A. E. Sutton & Co., Auctioneers, to the highest bidder, for cash, U. S. Gold Coin, at the rear door of the Sheriff's Office, in the town of Hilo, Island of Hawaii, on the 2nd day of August, A. D. 1902, at 12 o'clock noon. Deeds and expenses of transfer at cost of purchasers.

## AGUINALDO FREE.

Released at Manila in Accordance With the Proclamation of Amnesty.

Manila, July 6.—As a result of the proclamation of amnesty of July 5th the guard of American soldiers has been withdrawn from the house in which Aguinaldo lived in Manila, and Lieutenant Johnson, Aguinaldo's custodian, brought the Philippine today to see General Chaffee. It was the first meeting between the American general and the leader of the Philippine revolution. Lieutenant Wm. E. W. McKinley of the Ninth Cavalry acted as interpreter.

Aguinaldo was told that he was free to go anywhere he pleased, and General Chaffee asked him if he had any complaint to make of American discourtesy or harshness. Aguinaldo replied that he had no such complaint to make. He told General Chaffee that he was going to visit friends at his home in Cavite Viejo, in Cavite province, and inquired what protection the American authorities would afford him. He seemed to be afraid to venture out. General Chaffee replied that Aguinaldo would get the same protection as any other citizen.

The former Philippine leader then asked General Chaffee to prevent the courts from requiring him to testify in civil suits. General Chaffee replied that he had no authority to grant this request, and advised Aguinaldo to make a social call upon Acting Civil Governor Wright. This Aguinaldo said he would do, but that he would go at night, as he was timid about appearing on the street in daylight.

The release of the former Philippine leader has renewed speculation as to possible vengeance upon him by friends of General Luna, and his other enemies. Luna was a Philippine leader whom Aguinaldo caused to be killed in 1899.

### TIRED OF PUBLIC LIFE.

Lord Salisbury Anxious to Be Relieved of the Burdens of Office.

London, July 5.—At the earliest possible moment Lord Salisbury contemplates retiring from public life. But that severance from the affairs of the empire which he has so long administered is not likely to come until after the coronation, and it may possibly be still longer delayed by now unseen reasons of state or politics. During the last few months the Premier has more and more detached himself from the cares of office. With increasing age, his dislike of publicity and dread of details which high office involves have been strengthened into an antipathy so strong as to render even the Conservative leaders less important in their demands that he remain Premier. Those who have recently been brought into contact with the aged statesman privately comment on his absentmindedness, which is only overcome by great effort when it is absolutely necessary for him to deliver a public utterance on a question of importance. Peace in South Africa having been proclaimed, Lord Salisbury is said to consider the crowning of the King as the moment when his services to the nation may most fitly be ended.

### ON ROYAL YACHT.

By the End of the Month the King Will Be Fit to Be Moved.

London, July 6.—King Edward's progress tonight continues to be good. It is said that if his improvement proceeds at the present rate he will probably by the end of the month be well enough to be transferred to the royal yacht in Southampton waters.

## THE KNIFE AGAIN.

Removal of Vermiform Appendix Possible.

New York, July 7.—A cable to the Mail and Express from London says: Immediately after the coronation the King will undergo another operation, or, at least, a searching surgical examination. The primary cause of the ulcer yet remains undiscovered, and it is feared the removal of the vermiform appendix may be necessary.

London, July 7.—King Edward will be crowned between August 11th and August 15th. His recovery has been so rapid and satisfactory that the above decision was arrived at today. No official announcement of the fact has yet been made. The pageant through the streets and the ceremony at Westminster Abbey will be much curtailed from the original plan. Their majesties will drive from Buckingham Palace through the Mall to Whitehall and thence to the Abbey, the same route as taken at the opening of Parliament.

### KITCHENER PRAISES BURGHERS.

Soldierly Qualities and Fine Spirit of Boers Recognized.

Pretoria, July 7.—Lord Kitchener's valedictory to the troops, dated June 25th, after extolling the conduct of the British soldiers in the face of great hardships and difficulties and against dangerous and elusive antagonists, commends the kindly and humane spirit displayed in all ranks, and concludes as follows:

"This message would be incomplete were no reference made to the soldierly qualities displayed throughout the campaign by our quondam enemies and the admirable spirit displayed in carrying out the surrender. Many of those who contended until the end have expressed the hope that they may have, in the future, an opportunity to serve side by side with his majesty's forces."

### Chamberlain Hurt.

London, July 7.—The Colonial Secretary, Joseph Chamberlain, was somewhat severely cut on the head as a result of a cab accident in Whitehall today. The Secretary's hansom was passing through the Canadian arch when the horses slipped and Chamberlain was precipitated forward with great violence. His head struck against the glass front of the cab. When extricated it was seen that Chamberlain's head was badly cut and bleeding profusely. He was taken to Charing Cross hospital where his injuries were dressed. Chamberlain was sufficiently injured to necessitate his remaining in the hospital all night. It is officially announced that he suffering from a scalp wound, which is of a severe but not dangerous character, rendering advisable his detention for the night. When picked up Chamberlain, in reply to a question, said he did not feel faint, but could not afford to lose much blood. The gash on his forehead required a number of stitches.

### Aggie Coming.

Boston, July 6.—Aguinaldo is coming to the United States and his departure from Manila for San Francisco is expected at any time. He will come direct to Boston to join his former secretary, Sixto Lopez, and will then start on a tour, delivering a series of lectures on the conditions existing in the islands as he sees them, and make a plea for the independence of his countrymen. In this campaign, as now planned, there will be no inflammatory speeches nor fiery eloquence.

## FREIGHT HANDLERS QUIT.

Nine Thousand Men at Chicago Go Out.

Chicago, July 7.—A strike of 9000 freight handlers in Chicago was called today and every freight house of the twenty-four railroads concerned is practically tied up. Business men fear that the strike will be the most serious which has affected their interests in years.

The strike was called by a committee appointed at a meeting of 1000 freight handlers held last night. The committee was instructed to call a strike within forty-eight hours unless the railroads should meet the demands of the men at once for an increase in wages, extra pay for overtime and holidays, and recognition of the union. Action was taken on those instructions sooner than was expected. The committee went first to the Illinois Central and Wisconsin Central freight houses on the lake front. The men walked out with cheers and marched across the viaduct on Union street with their union cards tucked in their hats.

### IMPERIAL DEFENSE.

Duke of Devonshire Says the Matter Calls for Immediate Action.

London, July 7.—Presiding at the annual meeting here today of the British Empire League, the Duke of Devonshire (Lord President of the Council of the leader of the Liberal-Unionists), discussing the conferences of the colonial premiers said the question of imperial defense was paramount. The question of imperial commercial relations would solve itself at no distant day in accordance with economic laws which will inevitably assert themselves, and which he did not think would present any obstacle to the consummation of that which they must all desire, namely free trade or the nearest approach to free trade within every portion of the empire. Imperial defense, however, could not wait. If they waited for it to solve itself they might wait until there was no British empire to defend.

### Canada and British Trade.

London, July 8.—The Daily Chronicle this morning, in an article on the conference of the colonial premiers, says it has good reason to declare that Canada will offer nothing further than it has already offered in the direction of preferential trade with Great Britain, and as the financial position of Canada and Australia will prevent them from giving Great Britain any substantial preference for some years to come, the conferences are not likely to have practical results.

### Boer Leaders to Come.

London, July 7.—The Daily Mail's Pietermaritzburg correspondent wire: Louis Botha, in the course of conversation, said that after their visit to Europe, he, De Wet and Delarey intended going to America. Their object was to collect funds for the relief of Boers ruined in the war. Botha is arranging for an official history of the war from the Boer side, written by himself, De Wet and other leaders.

### Buller Publishes Telegrams.

London, July 8.—General Buller, with the permission of the War Office, has sent to the press copies of his original dispatches from South Africa and of his famous heliogram. These copies differ only in trifling details from the version previously published, and do not serve, according to the general belief, to place his attitude regarding Ladysmith in any better light.

### TO LIONIZE KITCHENER.

Looking for a Substitute for the Coronation Procession.

London, June 28.—A week which has witnessed emotions of such conflicting and intense character as to be without a parallel in the nation's history is ending as it began—in rejoicing. In the brief space of five days the country has gone through the most acute stages of jubilation, fear, doubt and hope. Now, with today's bulletin, they are all talking of the festivities, many of which will occur as planned. The Crystal Palace, July 2d, will be the scene of the brilliant hospital ball, in which so many Americans are taking part. On July 4th the Indian Office will be transformed with Oriental decorations, plants and flowers for the Asiatic reception, when the Prince of Wales is expected to welcome the visitors, and London's poor are eagerly looking forward to their free coronation dinner.

Among the disappointed stand owners and other sections of the public there is a strong desire to have a war parade with Lord Kitchener as the central figure. Such an arrangement would doubtless attract many thousands to London. The metropolis and the country are quite ready to go wild over Kitchener, but he is likely to endeavor to dodge any public shows. Failing Kitchener, the stand proprietors have to rely upon the King's first public reappearance, which is likely to be a drive through the streets to the national thanksgiving service. That, however, must be some time, as a man in his sixty first year, in spite of his wonderfully quick recovery from the effects of the operation, would probably have to submit to a rather lengthy convalescence.

What at first sight was one of the most pathetic features of the postponement of the coronation, among all the serious financial embarrassments on every hand, was the utter demoralization of the street "fakers," who had been counting for months past on a rich harvest. Features of the Strand, Fleet street and the hotel entrances today were street urchins, mostly of tender years, apparently weeping over trays of cheap medals, pins and other out-of-date and inappropriate souvenirs. Their general wailing pleas were always aimed at well-dressed pedestrians. "Only a penny; stuck wif me medals; please buy something." These appeals frequently succeeded.

A noticeable fact, however, was that these "tears" and grief among the sharp street arabs only seem to have developed today. The symptoms spread rapidly. Among scores of clever little plagiarists in other walks of life the same keen disappointment was visible.

### THE SUGAR BEET.

Its Value as a Food Product and as a Commercial Factor.

Of the sugar consumed in the United States, about sixty-five pounds per capita per annum, three-quarters is provided by the sugar cane, the remainder being manufactured from beets.

In Germany, where sugar-beet cultivation and beet-sugar extraction has reached the highest stage of development, less than seven tons of beets are required to produce a ton of sugar. The first beet-sugar factory was established in this country in 1840 and was a failure; the number is now about fifty, the largest being at Salinas, California.

Beets should have a sugar content of at least twelve per cent and perhaps even thirteen or fourteen per cent, otherwise it will not probably pay to erect a factory. This is not because at present prices a factory using beets of twelve per cent sugar could not pay, but because in many parts of the country a considerably higher percentage is obtainable, and, in view of competition, the most favorable locations should be chosen. In the examination made by the department of agriculture of beets sent in during the years 1897, '98 and '99 from thirty-nine states and territories, it appeared that Arkansas was least suited for beet culture,

giving an average of a little over seven per cent of sugar. On the other hand, Nevada showed an average of eighteen per cent of sugar in the samples examined.

A matter which is almost, if not quite, as important as the percentage of sugar is its purity, and in this respect Nevada was almost at the top of the list, the "coefficient of purity" being 83.8. The coefficient of purity means the percentage of sugar in the total solids dissolved in the juice. For example, if one hundred pounds of beets yield a juice containing fifteen pounds of solid matter dissolved in it, twelve pounds of which is sugar and the remaining three something else, the sugar content is said to be twelve per cent with a coefficient of purity 80. Impurity keeps part of the sugar from crystallizing and so prevents its recovery in the factory and hence a high coefficient of purity is exceedingly important.

A very important factor in the cultivation of beets is the temperature. A large part of the United States has too high temperature. Where the temperature is high beets grow luxuriantly, but they contain a small percentage of sugar. On the other hand where frosts come early in the autumn, the beets can not arrive at maturity. Other things being equal, the farther north the beets can grow to maturity, the greater will be the sugar content. The rainfall is a matter of importance. Warm rains in the early part of the season and dry weather during the period of maturing are best. In arid districts, irrigation may be restored to, and has the great advantage that the supply of moisture can be regulated.

The sugar is not the only valuable part of the beet. When the juice is extracted there is a pulpy residue from which the liquid is pressed out. This pulp is very valuable as food for stock. Some factories have dairies in connection with them. The experiments already made have been very satisfactory. The pulp is probably the cheapest food that can be used considering the amount of nutrition. The leaves are also valuable as food, but probably still more valuable as a fertilizer. Sugar takes nothing from the ground. It is made from the water vapor and carbon dioxide of the air. But the tissue of the beet contains considerable potash, magnesia, phosphoric acid, and nitrogen, and all these are removed to a greater extent by the leaves than by the roots. If then the leaves are left on the ground or are plowed under, the soil is much less exhausted than if they are taken away. For beet raising the cultivation of the soil must be very carefully attended to. This cultivation has a very beneficial effect on other crops grown in rotation with the beet, hence the advantages of beet-growing are indirect as well as direct. The cost of raising beets is considerable, but, on the other hand, the returns are large, and the profits may be estimated as on the average twenty dollars an acre.

### Chinese Indemnity.

Peking, July 1.—The Taotai of Shanghai has notified the Bankers' Commission that China refuses to pay the July installment of the indemnity except at the rate of exchange prevailing April 1, 1901. The foreign Ministers consider that the Taotai's declaration is the result of the announcement of the United States Minister, Mr. Conger, to the Chinese that the United States sustains China's intention and is willing to accept payment on the basis mentioned. But the Ministers are confident that China will accept the decision of the majority of the Ministers when she is convinced that the United States is her only supporter.

So Many People Are Exposed to rain, cold and storm, that it is necessary that they should have something to counteract the effects. A mixture of a teaspoonful of PAIN-KILLER in water sweetened, will stimulate the system and ward off any possibility of cold. It has been used for sixty years all over the world, and millions testify to its sterling worth. There is but one Pain-Killer, Perry Davis'. Price 25c. and 50c.

**CALIFORNIA CANNED FRUIT**

The most favored country in the United States in growing fruit, is California. Its valleys produce the most delicious varieties, and the choicest product of the most favored localities is gathered and packed for our store under our "Fidelity" and "Crema de Luxe" labels.

The Fidelity represents the highest standard or extra quality of medium size, perfect fruit, in heavy syrup. The Crema de Luxe covers the dessert grade of extra large fruit, particularly adapted for export, being firm fruit that will arrive whole in best condition.

Prices on both grades are quoted in our price list. We pay particular attention to uniformity and selecting the finest flavored fruit to be had, as there is a vast difference between the fruit of different localities. Our experience of twenty years in shipping to individual consumers is at your service.

**PUGILISTIC SENATORS.**

Indiana Man Refuses to Retract Criticisms and Texan Resorts to Force.

Washington, June 30.—Senator Bailey of Texas assaulted Senator Beveridge of Indiana tonight just after the Senate had adjourned from executive session. The Texas Senator was dragged away and separated from his opponent by some of those about the Senate. He was very angry, and threatened severe harm to the Indiana Senator. The episode was the result of a heated controversy which the two Senators had during the afternoon, when Senator Beveridge had said that Senator Bailey had made "an unwarranted attack on Solicitor Penfield of the State Department."

In executive session Senator Beveridge, like other Senators who smoke, lighted a cigar and took a seat on the Republican side. He was still sitting there when the Senate adjourned. Senator Bailey crossed the aisle and walked through the seats until he was facing Beveridge.

"Beveridge," he said, "I don't want to have any trouble with you, but I want you to withdraw those words which charge me with making an unwarranted attack upon Penfield."

"I did not intend to insult you," replied Senator Beveridge, "and there is nothing in my language that you could consider offensive."

"I don't allow any one to say that I libel a man, and that is what you do in making the charge. Now, if you won't withdraw the word's when I ask you I'm going to make you withdraw them."

Senator Bailey had been getting more and more angry and excited as he talked. He had been sitting down part of the time, leaning against the desk immediately in front of Senator Beveridge. The latter, in reply to Senator Bailey's last remark, still remaining in his chair, said: "I repeat that I did not intend to insult you, and that I have nothing to retract."

As the words were uttered Senator Bailey threw himself upon Senator Beveridge, who is a man hardly up to the average in physique, and seized him by the throat with both hands. The rush was so sudden and fierce that the chair in which Beveridge was sitting was pushed back against the desk and toppled over before the assault could go any further. Senators who had been sitting near had moved up between the desks. Senators Hansbrough of North Dakota seized Senator Bailey by one arm and Senator Spooner seized the other. The Texan Senator is a powerful man, and it was with great difficulty that the two Senators were able to drag him away from Senator Beveridge, and when they succeeded a part of the Indiana Senator's neckwear was ripped away in the vigorous grasp of Senator Bailey.

**Canal Inquiry.**

Washington, June 28.—A lively debate was precipitated in the Senate today over a resolution of Morgan of Alabama, authorizing the Committee on Inter-oceanic Canals to investigate the status of American stockholders of the Panama Canal Company with a view of protecting them in the French courts. Spooner, Hanna and Mitchell of Oregon antagonized the resolution, maintaining that it was a matter with which the United States had nothing to do. Morgan warmly advocated the proposition but it finally went to the calendar without action.

**Will Call Extra Session.**

Washington, June 28.—President Roosevelt has definitely decided to call a special session of the Senate for November 11th to consider a Cuban reciprocity treaty which was recently negotiated by Assistant Secretary of State Hill, representing this Government, and Senator Quesada, representing Cuba. The Republican leaders of the Senate who have been consulted by the President have all assented to the proposition of returning to Washington one month earlier than the opening of the regular session. By this means the President hopes to create the impression that Cuban reciprocity has not been abandoned.

**CAPE HAYTIEN BOMBARDED.**

Foreign Residents at the Mercy of Lawless and Savage Combatants.

Cape Haytien (Hayti), June 29.—There has been much fighting here today and great excitement prevails. Admiral Killick, commander of the Haytien fleet, disembarked a further detachment of troops and a large quantity of ammunition at 4 o'clock this morning for the better protection of General Firmin, one of the candidates for the presidency of the republic.

Since 6 o'clock this morning there have been several lively engagements between the men from the fleet and the revolutionists from the north. Several machine guns were set up in a commanding position by General Firmin's force and an attempt was made to drive the men from the north from their positions. Notwithstanding the fire from the machine guns, detachments of the northern revolutionists made several attacks on General Firmin's followers, and the latter were eventually dislodged.

In the meantime the vessels under the command of Admiral Killick were bombarding Cape Haytien. This action was taken without previous notification to the foreign Consuls here. There has been a lively rain of shots down the streets of Cape Haytien all day long. The firing was particularly heavy between noon and 2 o'clock and between 4 and 5 o'clock this afternoon.

At the moment of filing this dispatch the foreign Consuls, under the protection of their various flags, are with General Firmin, and are about to embark on the Government gunboat Pierot. They are under a rather heavy fire and in much danger. The foreign residents of this port are at present exposed to the lawlessness and savagery of the combatants. Deep regret is expressed that no war ships of a foreign power are in the harbor to afford protection to foreign residents. Great excitement reigns here this afternoon and as this dispatch is being sent the firing in the streets continues.

**PRATT DID GOOD WORK.**

Easy Matter to Get Appropriation at Next Session of Congress.

Washington, D. C., June 28.—At this writing the General Deficiency Appropriation bill is in the hands of conferees, the House having rejected the Senate amendments to the bill, one of these amendments being the provision for paying Hawaiian fire claims. There is likely to be a spirited and extended controversy on this item as the House conferees, under the lead of Representative Cannon will fight against its adoption. Whatever the outcome may be too much credit and praise cannot be given Mr. Pratt for his efforts in behalf of these claims. He has accomplished wonders in getting the item through the Senate and if it should fail at this session through the opposition in the House, it will be in shape to get through with but little trouble at the next session of Congress. Mr. Pratt has been working almost unaided by Hawaiian citizens during the past week and if the matter is successfully enacted into law the honor and credit should be accorded him almost exclusively. Mr. Pratt appreciates exceedingly the support which has been given him by the press of Honolulu, and particularly by the Bulletin, which has unreservedly given encouragement and support to his mission.

OTHER SIDE VIEWS.

A TRIBUNE correspondent from the other side of the Island writes an interesting letter on railroad prospects and politics. The TRIBUNE hopes that the Kona railroad will go through without a hitch and with no exasperating delays. The prosperity of the other side of the Island of Hawaii is as greatly to be desired as the prosperity of the windward slopes. If there is to be a city on the other side that outrivals Hilo in beauty and commercial importance she will receive the glad hand from the Crescent city. Hilo is interested in the growth of the entire Island, and if the energetic people on the other side outstrip us, there is nothing to prevent an exodus even from Hilo to better pastures.

What our correspondent says of politics is timely. There is not a public spirited man in the Islands who does not feel that this territory should have better representation in Congress than it has had in the past. The Hawaiians themselves are becoming aware of the fact that for the protection of their vital interests, they need an advocate in Congress who knows how to do things and who will exert himself conscientiously in their behalf. If as the correspondent says, the Hawaiians will support a man like Judge Little, the leaders of the Republican party cannot afford to allow the suggestion to pass without full consideration.

HOLD IT HERE.

Two years ago it was tacitly understood that the Republican convention this year would be held in Hilo. The active Republican workers in Hilo and neighboring precincts are all in favor of holding the convention here and the TRIBUNE feels justified, in the light of expressions made in numerous interviews, in extending to the Republicans of Hawaii an informal but cordial invitation to meet in this city in convention next September. Out side of the active political workers, the merchants and citizens of Hilo, regardless of party are ready to extend the hospitable hand to the Republican clans. Hilo is amply able to care for the visitors who would come. The hospitality of Hilo can not be overtaxed and her gates are open to the politicians.

To hold the convention here would strengthen the Republican party on this island and without doubt cement all local chasms which even now are narrower than ever before. The TRIBUNE joins in the chorus of private letters, which have gone forward to the central committee at Honolulu urging that Hilo be officially designated as the next meeting place of the Territorial Republican convention.

AID THE COMMISSION.

The commission which the Senate authorized to visit Hawaii this summer is composed of able men. Among them are senators distinguished for their public services. If they perform their task in this Territory conscientiously, they will go through with a prodigious amount of labor. It is the first duty of every citizen in the Territory to lend every aid possible in their investigations. The commission will come for the purpose of securing facts. Some of the things they should know about will be religiously concealed from their gaze and an effort will be made to cover up tracks that were made in the "transition period" mud at Executive Council sittings.

If this commission will ascertain all that has been done in collusion behind closed doors at the Honolulu Capitol they will carry home to Congress a mixed tale of chicanery, favoritism and evasion of the spirit of American fairness.

OLAA PRECINCT.

In the judgement of the Republican Central Committee at Honolulu, Oloo is neither a precinct nor a voting place, notwithstanding the District committee has set it apart from the Hilo precinct and made apportionment for representation. The Honolulu opinion holds that until the Governor proclaims Oloo a separate precinct it remains in the precinct of Hilo.

The action of the District committee here in the matter was taken pursuant to the action by the Executive Council when it voted to grant the request of Oloo for a separate precinct.

THE formidable bolt of the younger element of the Home Rule party at Honolulu last week gives a new and reassuring phase to Hawaiian politics. The progressive and free minded young men at Honolulu have their counterpart on this Island in the Aloha Aina society which stands for good government by good capable men. The reformation of party lines augurs an interesting campaign.

REGARDLESS of what the Revised statutes say, concerning the qualifications of voters in Territories, the fact remains that the Organic Act of the Territory of Hawaii prescribes first, that a voter must be a male citizen of the United States. It is the duty of some one now to tell us whether a declaration of intention makes one an actual citizen.

AT the Honolulu Merchants' Fair which opens August 28, there will be good racing and a splendid general program of sports. The base ball tournament will not be as good as it should be owing to the absence of the Hilo sluggers, who were wanted very much by the athletic managers at Honolulu.

DURING Fair week at Honolulu, a Farmer's Institute will be conducted by J. G. Smith, director of the Experiment Station. Mr. Smith is desirous that as many agriculturists as possible may attend from all parts of the Islands.

BY AUTHORITY.

SALE OF GOVERNMENT LOT NO. 27, BLOCK "B," HILO, HAWAII.

On Thursday, August 14th, 1902, at 12 o'clock, noon, at the front entrance of the Executive Building, will be sold at Public Auction the lease of Government lot No. 27, Block B, Hilo, Hawaii.

Term—30 years.

Upset Rental—\$240.00 per annum, payable quarterly in advance.

This sale is upon the conditions provided for in Section 2 and 4, of Act 7, of the Laws of 1896, viz:

Section 2. Every such lease shall contain a covenant on the part of the lessee that he shall during the first four years of the term of the lease, cause to be erected upon the leased property a fire proof building of brick, stone or metal, in a workmanlike manner, satisfactory to the Superintendent of Public Works at not less than a stated cost, and shall keep the same suitably insured at not less than two-thirds of its value, for the benefit of the lessor; and shall keep such building in good repair during the remainder of the term of the lease, reasonable use and wear thereof only excepted, and in case of damage or destruction of such building by fire shall make good such loss or damage by the necessary repairs or reconstruction, or else surrender the insurance to the lessor.

Section 4. Every such lease shall also contain a covenant on the part of the lessor that upon the request in writing of the lessee or his representatives, before the expiration of the term thereof, the premises, with the improvements shall, if all the conditions to be performed by the lessee have been satisfactorily performed, be put up at auction for a lease for a term of not over twenty years, unless said premises shall be required for public uses, of which the lessee shall receive at least one year's notice. Such auction sale shall be held not more than six months nor less than one month before the expiration of such term.

The cost of the building to be erected in accordance with Section 2, aforementioned, to cost not less than \$2,000.00.

The material to be used for the erection of said building to be of brick, stone or metal.

Maps of this lot can be seen at the office of E. E. Richards, Hilo, Hawaii, and at the office of the Superintendent of Public Works.

KONA RAILROAD.

Gardner K. Wilder Says Money is in Sight and Work Will Soon Begin

Gardner K. Wilder, second vice president of the Kona Railway, has been in the city for a week. Mr. Wilder reports the railroad prospect as very flattering. Mr. J. L. Coeper, who has been an indefatigable worker for this road, has succeeded in securing enough capital in the East to guarantee the beginning of work of construction within sixty or ninety days. All that remains to be done is to submit maps and drawings to Governor Dole for his approval.

The plans of the Kona railroad people are very comprehensive. They propose to establish steamboat connection between Honolulu and their railway terminus at Kealahou bay, that will revolutionize passenger and freight business between the two islands. Already they have figured out a schedule of three steamers weekly. Leaving Honolulu at 6 p. m., passengers will be landed on the leeward side of Hawaii at 6 a. m. next morning. Taking a Kona railway car they will be whirled across the Kona, through Kau to a connection with the Hilo railroad, which will bring them through Puna and Oloa to Hilo in time for luncheon.

The Kona road terminal will be at the beach, not more than 100 feet from Cook's monument. In a distance of nine miles, the road will reach an elevation of 1400 feet at McGuire's ranch. The entire length of the road will be about 120 miles connecting with the Hilo Railroad at some point from which a spur can be built to the Volcano. No terminal arrangements have yet been made, but Mr. Wilder is of the opinion that the roads will work in harmony.

The rights of way have been practically all secured over the entire route, and unless unforeseen obstacles arise, Mr. Wilder says the road will be completed within sixteen or eighteen months.

The greatest problem in connection with the building of the road is of course labor. The railroad people do not intend to attract labor from the plantations. It will be their purpose to put the road through without disturbing local labor conditions.

BEST MOTOR CARRIAGE.

A. James is Agent for the White in the Islands.

Mr. A. James, with his smooth running White Steam Carriage or Automobile, is winning a good reputation as a chauffeur or autoneer. He speeds his machine along smooth roads at a gait of thirty to 40 miles an hour and jogs over stony places with a comfortable swing that makes horses and cyclists tired. He climbs the gulch hills out Hakalau way with the ease of a greyhound and can turn his carriage around in the narrowest place on the road.

The White Steam Carriage is an interesting vehicle in which to take a spin. It is impossible to describe in a few words the marvelous mechanism, which encased beneath the cushioned seat, drives and manipulates the carriage with the precision of the human will. It runs by steam power, generated by a gasoline burner. The automatic device of boiler and burner is such that when the steam pressure is abnormally high, the fire is shut off and as the temperature drops, automatic devices turn on the fire again at the proper time. The same automatic perfection regulates the water supply so that it is impossible to burn out the boiler.

In taking a steep hill the machine exhibits the intelligence of a man. It handles itself. The operator has nothing to do but guide the way. Last Saturday Mr. James made the trip to the Volcano and back, the up journey being made in three hours.

Road Improvements.

The Puna road board is receiving commendation for the work they have done in repairing and making passable the road from Oloa to the 13th mile on the Puna road. If the good work is continued between the 18th and 20th mile the board will come in for further praise.

Road construction has been commenced on the Kaolo-Kalou road for which the last legislature appropriated \$12,000. There are twenty men now at work. The job will be done by day labor, which is considered much preferable to the old system of Japanese subletting.

The road work on the connecting link between North Kona and Waimea is being pushed forward rapidly. The section which is under the supervision of Eben Low promises to be one of the finest as well as the cheapest piece of road building to be seen on the Island.

It is proposed to construct a new landing and wharf at Kawaihae. The old landing being practically shoaled until heavily freighted boats can hardly land.

It is the intention of the Public Works Department to get full and definite information necessary for the opening up of new roads in the Island to enable accurate estimates to be placed before the next Legislature.

Hilo Boy Wins Honors.

The Valedictory for the class of 1902 at Kamehameha school at Honolulu was delivered by a Hilo boy, J. A. C. Hattie. THE TRIBUNE gladly gives space in its columns for this well written composition. The author is one of Hilo's most earnest boys. He is nineteen years of age and his school work at Honolulu reflects great credit on his application and industry.

Enterprise Not Overdue.

The S. S. Enterprise on her last trip up, sailed from Hilo Saturday, June 28, at 5 o'clock p. m. This would make her due at San Francisco Tuesday night, July 8, or Wednesday morning, July 9. The China sailed from San Francisco at 1 p. m., July 8, hence the alleged news she brought to the effect that the Enterprise was overdue, was without foundation.

A heavy dray team belonging to Hamada the Japanese merchant ran away last Wednesday in Puna and but for the prompt and brave action of officer John Kina, would have caused a lot of damage. He jumped in and cleverly brought the animals to a standstill. As a token of appreciation Hamada presented the officer with a small purse.

SPECIAL CORRESPONDENCE.

A Tribune Man in South Kona Writes of Business and Politics.

SOUTH KONA, July 11. EDITOR HILO TRIBUNE:--In accordance with your request I send you a few lines for the Tribune. About all the news we hear now is concerning the railroad and politics. Judge Wilder is now at Waimea or Hilo and you may learn more of his railroad prospects if you see him. But it seems to be a settled fact that the road will be built, and from present indications it will run from the Coast to John McGuire's place, then along the mountain side, at such elevation as will open up the most new country, to or near Puna. From this place it will probably circle to the south shore until it intersects the Hilo Railroad near the Volcano House. Our people here have great faith in the road and are very anxious to see the work begin. It will open up to profitable pursuits a part of the country which cannot be reached for years without a railroad. What we need in this section is diversified industries. We want all the cane cultivated that is possible, but we want attention paid to the cultivation of other products above the elevation at which cane growing is not a success.

With the completion of this railroad, we hope to have one city or town on this side of the island as large as Hilo which will be the county seat when we secure county government.

In politics the people over here manifest most interest in the delegate and senatorial situation. The members of the lower house will not have much of a contest. Of the men named for senator from your side, Rev. Desha seems to be the most popular, and if nominated will get a large vote on this side. Senator John Brown is popular, but as he is a hold over, not so much interest is taken.

In the delegate matter, some of the natives still cling to Wilcox, but a majority of them, I believe, have enough of him and would like to rally around a new standard bearer. Col. Little is spoken of favorably. So far as I have talked, it is generally recognized that Little is a fearless champion of the rights of the Hawaiians as citizens. Governor Dole's recent utterances in favor of limiting the franchise has put the natives in a thinking frame of mind. They feel that they need in Washington a white man who will be loyal to their interests and no one seems to possess their confidence in such degree as Little. It is generally believed that if he should receive the nomination at the hands of the Republican convention that he would receive their strong support, more than any other white man that could be secured, for the reason that he is honest and fair.

One of the native Home Rule leaders said to me this week that if Col. Little nominated the natives would vote for him in preference to Wilcox and that no other haole could develop so much strength among them. Outside of the Hawaiians Col. Little would have generous support among all classes.

The last Mauna Loa brought us news of the Home Rule convention. The committee leaders of Hilo and Hawaii should consult the signs of the times and act accordingly.

IMPORTANT DECISION.

Territorial Courts Have No Jurisdiction in Bankruptcy Matters.

Judge Little rendered an important decision last Monday involving the question of the jurisdiction of the Territorial Courts in bankruptcy matters. The case was that of Wade Warren Thayer, trustee in bankruptcy of C. T. Amama vs. A. Lidgate. The Courts decision is as follows:

Had Congress intended the jurisdiction of territorial courts to have been extended so as to include the bankruptcy act of 1898, it could easily have done so; but inasmuch as it did not do so, this Court does not feel disposed to engage in judicial legislation for that purpose. It did, however, repeal our local bankrupt act and did not extend to territorial courts jurisdiction in bankruptcy cases, but Congress did, in the Organic Act, create a federal court within whose jurisdiction the subject-matter of this suit is located and gave to it all the jurisdiction and powers of district and circuit courts of the United States anywhere. I feel that it is the better practice to permit the United States Court to have absolute control of this or other cases of like character, since the trustee in bankruptcy is a creature of the United States Court and proceedings have to be first instituted in the United States Court and jurisdiction and proceedings taken and had in said court before the office of trustee in any proper case is created or before a trustee of a bankrupt estate is elected or appointed, and when the federal court once assumes jurisdiction it ought to be permitted to hear and finally determine the issues involved in the controversy. The most that is claimed for this bankruptcy law is that state courts under it have concurrent jurisdiction only, but we must not lose sight of the fact that we are only a federal territory, that Congress has absolute control over us in the matters of legislation, that the federal court was established by Congress within this federal territory to hear and determine all matters, both civil and criminal, maritime, or in bankruptcy, arising under the United States statutes, and that the act establishing this court was passed and approved subsequent to the bankrupt act of 1898.

Congress by the Organic Act did not see fit to confer bankruptcy jurisdiction on our territorial courts, but did repeal our territorial bankruptcy law, and inasmuch as proceedings in bankruptcy are first instituted in our United States Court, it is but proper courtesy that they should be permitted to retain jurisdiction as above indicated and in charge of the issues until the case is finally determined. This Court, having a discretion in the premises, declines to take jurisdiction of the case at bar, and the bill is dismissed at plaintiff's cost, and the case remanded to the exclusive jurisdiction of the federal court.

Having arrived at this conclusion, this Court need not discuss the other points raised by the defendant's demurrer.

Lopez Caught.

John Kelly succeeded last Saturday night in capturing Francisco Lopez, the escaped Porto Rican convict for whom Sheriff Andrews had offered a reward of \$100. The capture was made at Camp 4, Waiakea. After forty-three days of liberty, the fugitive showed a reluctance to return to captivity and required the persuasion of a six shooter to make him acquiesce.

HONOKAA NEWS.

Weekly Budget of Interesting Items From a Busy Community.

Warm weather and occasional showers. Mr. Devereaux of Honolulu is a guest of Mr. E. Hall.

J. B. Rickard has taken the place of Mr. Potter at the Honokaa landing.

Wm. Horner, deputy tax assessor and collector for Hamakua was in town on official business this week.

Mr. H. Watt, assistant head luna of Paauhau moved into his new residence built by the plantation.

C. B. Fisher, the noted collector and bookkeeper received a call from Humu-uta Shepp Station to straighten out their books.

Jim Clements, an old time resident of Hawaii, died suddenly in Waimea on the 13th inst. Old age was the probable cause of death.

Sam Parker Sr., wife and party passed through Honokaa last week on their way to Mana, the beautiful mountain home of the Parkers.

L. E. Schellberg and wife drove from their home to Keanakolu Saturday night a distance of 25 miles. The road from Robt. Horner's to Keanakolu is but little better than the ordinary cattle trail of the mountain, yet they reached their destination safely and returned the following day.

A new section of road extending from the Paauhau gulch to the Lyman gulch is now open to traffic. It is a much needed improvement as it takes the place of one of the roughest sections of the old road.

Preparations are made to bring Mr. Clinton down to Honokaa from his home at Keanakolu in order to receive medical treatment. He has been confined to his bed for the past three or four weeks caused by a severe attack of rheumatism.

A party consisting of M. V. Holmes, A. B. Linsley, J. Birkinshaw, J. Pritchard, Wm. Russell and A. J. Williamson drove to Waimea Saturday night where they enjoyed a well prepared dinner at Akona's hotel. There must have been something extra good in the dinner as not all of the party were able to return the following day.

Louison Bros. are proprietors of one of the finest coffee plantations on the Islands. It is a treat to visit their plantation and see their extensive fields of thrifty trees covered with the finest kind of coffee. Their plantation affords employment to numerous pickers consisting of men, women and children of various nationalities, while the cultivation and work in the dry house is done largely by Japanese. They have modern up-to-date machinery for preparing their coffee for shipment to San Francisco.

The new directory, published in the TRIBUNE of Honokaa and other points in Hamakua and Kohala is a novel and creditable affair. It points out many of the progressive business men of this fertile region. It informs travelers of the respective distances between different places and where to find accommodations while traveling overland between Kohala and Hilo.

Right to Vote.

Thos. C. Ridgway, President of the Hilo Republican Club, has received numerous inquiries as to the right to vote on the part of persons who have not become naturalized citizens. He finds in the U. S. Revised Statutes of 1878, that every male citizen above the age of 21, including persons who have legally declared their intention to become citizens in any Territory and who are actual residents of such Territory at the time of the organization thereof shall be entitled to vote and hold office at the first election. Neither the Organic Act nor the Hawaiian Legislature have made any restrictions altering the above. It is therefore, according to Mr. Ridgway, the right of all men above the age of 21 years, who have resided in this Territory one year or more and who have legally declared their intention to become citizens, to vote at the coming election.

## VALEDICTORY.

Honorable Position is Taken by a Steadfast Hilo Boy.

The hour has arrived when the class of 1902 has completed the last round of its course at Kamehameha. This is an eventful moment, for we stand on the threshold of a new life. We hope in the eagerness of young manhood for the best success, for the training we have received from these schools should enable us to overcome all obstacles. The past years here at Kamehameha have been a great blessing to us. Just as the good we do in life lives after us, so the good we have received here, lives in us today and we hope will direct our future course.

Honorable Board of Trustees: To you we tender our thanks for the many encouragements you have given us, procuring for us kind and efficient instructors and pleasant surroundings. Although men have risen to distinction under the most adverse conditions, education is the one gift which ensures good and noble citizenship. We recognize your zeal and fidelity in carrying out the will of our beloved benefactress.

Principal and teachers, who have so faithfully labored with us, although we may never again be placed in relation of teacher and pupil, time will fall to erase you from our memory. We have often been heedless in our work regardless of your feelings and of our own best interests; yet at all times we have found in you true friends and mentors. To you we feel indebted for much that we are or may become. We came to you without aims or without strength to meet the future. We leave you prepared for a life of usefulness. Therefore we depart carrying with us a heartfelt gratitude for all we have received from your hands.

Fellow students who follow us: We leave you here to so maintain the honor of the school that you may depart from it with its blessings. We have been companions for many years. Years of social fellowship and pleasant recreation. Years of earnest application to study. Years of faithful work to fit us for some useful calling in practical life. What will be the result when the class of 1902 has withdrawn. How can the little boys get along without the firm controlling hand of 1902. Who will throw the hammer, manage athletics, edit the Blue and White without 1902. What will become of the table manners and the conduct of the dining hall when it shall be abandoned by 1902. How can the young ladies of the K. G. S. survive the blank which their parties will be without 1902. Modesty prevents our dwelling longer upon the loss you will suffer through our withdrawal, and after all, we have reason to hope the best from the new senior class. Make your mark high and aim for it, and although you may never be able to pronounce the victory complete, others will gain by your noble purpose.

Classmates of 1902: Tonight our school fellowship is broken, but these school friendships are too sacred to be lightly sundered, so in our final farewells, let us renew the ties which our companionship at Kamehameha has woven. And as we go forth into our new field of action let us go determined to use our knowledge and training for noble purposes. The hour of parting draws nigh. In spite of hope and faith of the future there is a tinge of sadness present. But after all there is joy. Joy because we have attained that toward which for six years we have been striving. At times discouragement has assailed us, but as a good cause makes a stout heart, we have pushed on and in the future we will hold in grateful remembrance the yesterdays of our school years which have been our preparation for life's great battle. We members of the class of 1902, go forth with our diplomas which the world looks upon as the keys which will open the doors to prosperity and usefulness.

What fortune has fate in reserve for us? I see through imagination

this class scattered. Some I see engaged as lawyers and law makers, judges, business and professional men. Some will be engaged in the peaceful pursuits of agriculture and trade. Some will be embarked on the rough sea of political life. All I hope will hold high and responsible positions, reaping honor and bestowing benefits upon their fellow men.

Honorable Board of Trustees, principal and teachers, fellow students and friends of Kamehameha, as we part from you tonight, we bid you all an affectionate farewell, and wish you all our future success. And as we go out into the world we shall endeavor above all things to prove worthy of our beloved Alii, whose great love left to her people this noble inheritance.

## PHILIPPINE RULE.

Archipelago Will be Placed Under Civil Authorities.

Washington, June 28.—It was stated at the War Department this afternoon that the entire Philippine archipelago will be placed under control of the civil authorities as represented by the civil Governor and the Philippine Commission on the Fourth of July, and that General Chaffee's functions as military Governor of the provinces now under military control will terminate on that date, General Chaffee, however, will remain in command of the military department of the Philippines and will assist the civil authorities in the preservation of peace and good order whenever called on to do so.

The effect of this policy will be the complete establishment of civil government throughout the entire Philippine archipelago on America's Independence day. The military will be everywhere subordinated to the civil authorities, just as it is in the United States. As one of the officials put it, "General Chaffee's functions in command of the troops of the Philippines will be just the same as the functions of General Brooke, commanding the Department of the East in the United States; that is to say, the troops will be employed to enforce the mandates of the civil government only when the constabulary and the other civil forces are unable to cope with the situation."

It was further stated that the Moros would be allowed to continue their tribal relations for the time being, and will be governed under practically the same conditions as the American Indians until it is demonstrated that civil government may be advantageously established throughout the province of Mindanao.

## A Cure for Summer Complaint.

Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of ye scribe. This is not intended as a free puff for the company, who do not advertise with us, but do benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer-time. Lansing, Iowa, U. S. A., Journal. For sale by Hilo Drug Co. \*

### CORONATION IN SEPTEMBER.

King Continues to Show Improvement and Pain is Over.

London, June 29.—London has put aside her sorrow and disappointment and turned with a light heart to await the coming of September, in the latter part of which month, it is now believed, the coronation of King Edward will take place. This expectation is based upon an interesting and suggestive telegram printed in the Daily Mail as coming from its correspondent at Copenhagen. This dispatch, which is dated Sunday is as follows:

"The latest intelligence received from London tonight describes the King's condition as still favorable. The Queen has invited a deputation of the Danish Hussar Regiment who called at Buckingham Palace to return to London at the end of September for the coronation."

The reaction from the depression of last week was noticeable everywhere today. The continued improvement in the condition of King Edward's health and the bright prospect for the carrying out within a few months of the coronation plans upon which the nation has lavished such enthusiasm and treasure were reflected in the countenances of the church-goers and everyone else on the streets. Smiles chased away the anxious looks which have been so common of late and an air of hopefulness pervaded all.

Last night passed with less incident at Buckingham Palace than any other night since the operation was performed on King Edward. There were fewer watchers outside the palace, the public apparently having accepted the announcement that the King has passed the point of immediate danger.

The following bulletin was issued at 9 o'clock this morning: "The King feels stronger, in spite of some discomfort from the wound. Nothing has occurred to disturb the satisfactory progress of his majesty."

This bulletin was not expected until 10 o'clock, consequently the few persons who were passing in the neighborhood of the palace were the only ones attracted to the announcement. When the footmen had posted the notice, however, the crowds soon increased, early church-goers stopping to read the latest news and passing on with expressions of thankfulness.

A bulletin posted at the palace at 4 o'clock this afternoon said the King's progress was in every way satisfactory and that the local discomfort had decreased.

King Edward's physicians announced at 9:40 o'clock tonight that the royal patient's condition was entirely satisfactory. No further bulletins will be issued tonight.

Sunday has again been a day of intercessional service throughout the kingdom for the recovery of King Edward. In the morning a vast crowd of the general public gathered at St. Paul's Cathedral. There was also present a representative gathering of Government and colonial officials and uniformed colonial officers. The Duke and Duchess of Connaught and their children and Lord and Lady Lansdowne sat under the dome. An impressive service was conducted by the Bishop of Stepney, Right Rev. Cosmo Gordon Lang, and at its conclusion the whole audience sang "God Save the King."

Queen Alexandra, the Prince of Wales and all the other members of the royal family now in London attended a similar morning service in the Marlborough House chapel, while there was a large gathering of peeresses and peers at a service held at noon in the chapel royal at St. James' Palace.

Throughout the United Kingdom all religious denominations made a similar intercession for the sovereign's recovery.

**Judgement for Jones.** Judge Little rendered a decision Monday in the case of B. L. Jones vs. J. K. Peterson in favor of plaintiff; Wise & Ross for plaintiff; Smith & Parsons for defendant. The action was brought in equity to compel the specific performance of a contract by which plaintiff agreed to sell to defendant certain lots in Olaa.

**CECIL BROWN ON HILO.**  
Visits the Puna Mineral Springs and is Pleased.  
Cecil Brown, who with Mrs. Brown has been in the city for the past ten days on business and pleasure has good words for Hilo. He is pleased with the evidences of thrift and prosperity on every hand. Mr. Brown as one of the owners in the Volcano Mineral Water Company is in a fine humor over the showing the company has made under the management of H. L. Williams. He visited the springs in Puna the first of the week and inspected the new bottling plant and buildings. He made the descent under ground to the place where the healing waters bubble up in the darkness through porous beds of lava. Mr. Brown says the underground trip is a very interesting one but he does not care to repeat it.  
The bottling plant at Puna is the biggest one on the Islands, having a capacity of 24,000 bottles per day. It is run by a twelve horse power gasoline engine and gives employment to eight men. A residence for Mr. Williams, the manager, has been completed and the premises around this new industry have an inviting appearance.

The management of the water company has secured the services of H. Hackfeld & Co., to act as its distributing agents. With the new plant in full force, the firm is prepared to fill all orders both for export use and domestic consumption.  
**Tribute to Chas. E. Richardson.**  
Charles E. Richardson, who passed away on Saturday, July 5, was a type of the true kamaaina. He belonged to a style of man of whom very few are now left among us. He was one of the true pioneers of Hawaii and did much towards developing the resources wherever he was located. Scrupulously honorable in his dealings, he gathered together a goodly fortune, which was not so large as it might have been had his heart been less tender and his charities the fewer.

To think of Charles E. Richardson is to think of men like Sheriff Coney, the Spencers, Julius and Ira Richardson, and G. W. C. Jones, formerly of Kahuku Ranch, who still survives. How different were the conditions on the Islands then to what they are now. What tales could "Old Charlie" tell of long rides from Kau to Hilo, in the days when there was only a trail and the traveler was apt to get lost in the forest, or in the Kau sand desert. What accounts he could give of great feasts of old, when the chiefs gave forth profuse hospitality. Nothing could be more interesting than Mr. Richardson's reminiscences.

But if Mr. Richardson was a lover of Hawaii, and kamaaina to his finger tips, yet no man was a stronger American. He never forgot his allegiance to the Stars and Stripes. No man took a greater interest in the politics of the old country, and no one followed them more closely. He was a Democrat, but he could see and criticize the faults of his own party and see where the Republicans made good points. In politics, local and national, he was fair minded, though one could not say he was impartial.  
Mr. Richardson married an Hawaiian lady and brought up two daughters, one of whom is married. His house was a center of home life and was well regulated. Besides his own children, there were ever nephews and nieces who made the household bright with merry laughter, for though ailing for many years, he dearly loved the presence of the young.  
The world moves and its inhabitants move and age with it. It is sad to see the men who have done so much for the Islands, and the Hawaiian race, dropping off. But their work is finished and must go into other hands. Of the older generation none did his duty better, none was more kindly hearted, and none fulfilled a worthier life than the writer's old friend, Charles E. Richardson.—Hawaiian Star.

The schooner Charles L. Woodbury, Captain Harris, sailed Monday for Honolulu with a cargo of firewood and beer.

**COMMISSION TO HAWAII.**  
Will Investigate Conditions in the Various Departments.  
Washington, June 28.—Senator Mitchell today succeeded in passing through the Senate his resolution providing for a junket to Hawaii by the Committee on Pacific Islands and Porto Rico.

The trip will be made during the summer, and the committee is expected to report the condition of Hawaii at the next session. The expenses are to be paid out of that elastic fund known as the "contingent expenses of the Senate."  
Washington, July 1.—Acting in accordance with a resolution recently adopted by the Senate, Mr. Foraker, chairman of the Senate Committee on Porto Rico and the Pacific Islands, today appointed a sub-committee to visit Hawaii during the recess of Congress for the purpose of making an inquiry concerning conditions in that Territory. The sub-committee consists of Messrs. Mitchell and Foster of Washington, Burton, Cockrell and Blackburn.

**SUGAR CAPITALISTS.**  
**Federal Sugar Refining Company Makes Increase in Stock.**  
New York, July 2.—The Federal Sugar Refining Company, incorporated in New Jersey a short time ago with a capital stock of \$100,000, filed a certificate today in Trenton increasing the capital to \$50,000,000. The amended charter provides for \$25,000,000 6 per cent cumulative preferred stock and a similar amount of common stock. The incorporators are: Everett Jackson, who has been president of the company; Pierce J. Smith, Morristown, N. J., secretary, and Charles T. Bingham, Brooklyn, C. A. Spreckels, son of Claus Spreckels, the Pacific Coast sugar magnate, is one of the chief men interested. The Federal Sugar Refining Company has about completed a plant in Yonkers which will have a capacity of 1000 barrels of sugar a day. The sugar is to be refined by a new process. Pierce J. Smith, named as an incorporator, is a member of the sugar brokerage firm of Smith & Schipper, with offices which connect with the Federal Sugar Refining Company.

**The Same Old Story.**  
J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and re-told by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C., U. S. A. For sale by Hilo Drug Co.
