NOTICE—Neither the Masters nor Agent of vessels of the "Matson Line" will be responsible for any debts contracted by the crew. R. T. GUARD, Agent.

Hilo, April 16, 1901.

Mortgagee's Notice of Foreclosure.

In accordance with the provisions of a certain mortgage made by H. E. Soule Company, Limited, a corporation, at Hilo, Island and Territory of Hawaii, to W. A. Hardy and H. C. Austin, bearing date the 21st day of June, A. D. 1900, and recorded in the office of the Registrar of Conveyances at Honolulu, Territory of Hawaii, on the 31 day of July, A. D. 1900, in Volume 204 at pages 449, 441, 442 and 443 thereof.

Notice is hereby given that H. C. Austin, who is now the owner and holder of said mortgage, intends to foreclose said mortgage for a breach of the conditions thereof, to-wit:

Non payment of the payment due November 1st, A. D. 1901, and all payments coming due subsequent thereto.

Notice is hereby also given that on Thursday, the 25th day of September, A. D. 1902, at 10 o'clock a. m. of said day, on Waimanuea street, just mauka of Pitman street in the town of Hilo, Island and Territory of Hawaii, the following property covered by said mortgage, to-wit:

1 Tufts No. 100 soda machine, Titan double action pump and connections for same.
1 old bottling table and one new bottling table.
4 eight gallon tanks and one goose neck.

1 syrup pump,
150 (more or less) empty soda cases,
2 lengths filling hose,
275 (more or less) cases of bottles,
1 gray horse branded on right hip.

All extracts, syrups, tables, washing boxes, syrup jars, tools, shop fixtures, and all other appliances and articles formerly used by H. E. Soule Company, Limited, in the soda water business, will be sold at public auction to the highest bidder for cash, to satisfy said mortgage.

H. C. AUSTIN,
Mortgagee.

VOLCANO MORE ACTIVE.

Many Excursionists Saw the Lake of Fire Last Sunday.

The volcano has settled down to business. It is working regularly day and night. It performs to the delight of all who have visited it and promises to treat all the same way who may come in the near future.

Kilauea, a month ago was a great smoking pit, 2800 feet across at the top and from 1000 to 1200 feet in depth. Now its vast interior, is scarcely clouded with smoke and its bottom is in the neighborhood of 800 feet from the surface.

The great cauldron is filling. Molten lava is welling up from the bowels of the earth, by the hundreds of tons daily. Visitors this week, peering over the mighty abyss, have witnessed the greatest sight in the world—that of the fluid interior of the earth building for itself a pathway upward to the air and the sunlight. As the lava is slowly pushed upward by the interior forces it congeals at the edges and builds for itself an inner crater, within the vaster one that gives its access to the outer world. Patiently and toilsomely the toiling mass struggles upward, working like a myriad of anemones lifting their coral reef above the sea.

Last Monday, it was the judgment of men who are familiar with the dimensions of the big crater that this lake of fire is now 600 to 700 feet in diameter. The inner crater, which encloses this boiling mass may be compared to a cup of molasses in a gallon bucket.

Monday afternoon, the lava broke over this rim in three places. The largest crevasse in the rim appeared to be 60 feet in width and allowed a Niagara of yellow molten lava to pour 200 feet down into the moat about the new crater. This briefly is the process by which the big crater is filling up. When sufficient lava breaks over the inner rim, to fill the moat to the center level, the area of the fiery lake will be greatly extended.

This climbing of the lava is a performance wonderfully interesting and is attended by pyrotechnics that dazzle and awe the spectator. The kaleidoscopic changes on the surface of the lake of fire, the fretwork of cracks in the rapid cooling crust, the thousand fantastic shapes assumed by these crevices and the frequent violent commotion of the whole mass, is a bewildering and fascinating picture.

Thousands in Hawaii have seen Kilauea in action more than once, and to them a word describes the whole panorama. To those who have not seen a lake of lava in action, a proper conception of the magnificent sight cannot be conveyed in words. In the breaking up of the crust, which forms during quiescent intervals every form of lightning is portrayed, from the glaring zigzag thunderbolt to the thread like spray that sometimes spreads across a fleeing storm cloud.

From the maikai side Sunday night, a boiling churning spring of lava was visible at the lakes edge on the farther side. From this stray pieces would shoot out like rockets or fire balls from Roman candles.

The Volcano house was filled with visitors Sunday who took advantage of the excursion rates made by the Hilo Railroad Company and the Volcano Stables stage line. Manager Waldron acquitted himself well in caring for his guests. Saturday night was rainy and disagreeable and many of the visitors came unprepared for such inclement weather. Mr. Waldron furnished coats and slickers and old pantaloons until his supply was exhausted.

It should be said in passing that

IN GOING TO THE VOLCANO, VISITORS

should provide themselves with extra wraps. With the present

rush the manager of the hotel cannot provide clothing for every body.

In connection with the hotel, there is a drying room which will quickly render drenched clothing wearable. Wide fireplaces with cracking logs give heavenly comfort to the fagged sight seer on his return to the crater.

From Hilo, the trip is pleasantly made via the Hilo Railroad to Mountain View. First class stage facilities are furnished from this point by the Volcano Stables & Transportation Company. The stage ride through the tropical forests is considered by visitors, as one of the most gratifying features of the journey.

Confusion in the Message Received From Commander Nickels.

Caracas (Venezuela), August 15.—The report of the capture of Porto Cabello by the revolutionists is untrue.

Washington, August 15.—The Navy Department is in considerable doubt as to the exact status of affairs at Porto Cabello, Venezuela, as it developed today that there had been some confusion in the transmission of interpretation of the dispatch of yesterday relative to the revolutionists. In order to clear up the doubt a dispatch of inquiry was sent today to the American commander at that point. His answer had not been received up to the close of office hours today.

As originally deciphered, Commander Nickels' dispatch announced that there was no immediate danger of communication from this it was assumed that the revolutionists had obtained possession of the town. After studying the dispatch more closely today, in the light of previous reports, several Navy Department officials have come to the conclusion that the situation is practically as it has been, the Castro forces being in control of the city.

The only information from Venezuela received by the authorities here today was contained in a cablegram from Commander Rodgers of the Marietta, merely announcing his arrival at La Guayra. He reported yesterday from Port of Spain the results of his trip up the Orinoco river.

Minister Bowen, in a cablegram to the State Department yesterday, was solicitous for the presence of an American war ship at La Guayra. The arrival there of the Marietta probably will relieve his anxiety.

Ovations for Roosevelt.

Hartford (Conn.), August 22.—President Roosevelt's stop in Hartford on his New England tour was marked by great enthusiasm by the crowds, and he showed his pleasure at the reception he received. To President Roosevelt, the feature of the day was the presentation of a large floral piece by the workmen of Hartford. Hartford was in gala dress to welcome the President; the weather was perfect and there was not a hitch to mar the proceedings.

German Admiral Resigns.

Berlin, August 22.—Admiral von Diederichs has resigned his position as chief of staff of the navy. He has been succeeded by Vice-Admiral Buresel. Admiral von Diederichs is the officer who, as Vice-Admiral, was in command of the German squadron of five cruisers in Manila bay at the time Commodore (now Admiral) Dewey was operating against the Spaniards.

After Brady Now.

St. Paul, August 19.—Serious charges against Governor Brady of Alaska were made in the Trans-mississippi Congress tonight by Donald Fletcher of Seattle, who asserted that the Governor was the exponent of a policy of oppression and repression and the active agent of the great commercial companies in delaying self-government while they "gobbled up the best of a magnificent country."

BRITISH VIEW.

Writer Thinks Chinese Labor Necessary to Develop the Islands.

London, August 23.—The Times this morning publishes a special article dealing with the question of Chinese immigration into the Philippines. The writer of the article expresses the belief if the United States rigidly excludes Chinese from the archipelago such a course will prove a fatal error of judgment, because the instincts of Americans make it impossible for them to compel the lazy brown men to work as the Dutch compel the Malays to labor, and the Filipinos are not likely to work without compulsion. The development of the Philippines can only be effected by means of an ample and steady stream of coolie labor. The Americans will sooner or later discover, says the article, the utter hopelessness of transforming the character of the natives of the islands, and they must decide whether to suffer the Filipinos to go their own way and die out in peaceful indolence, if that be nature's decree, or persevere in a course foredoomed to failure.

Island of Torishima Overwhelmed by an Eruption.

Yokohama, August 18.—The island of Torishima was overwhelmed by a volcanic eruption between August 13th and August 15th, and all the inhabitants, numbering 150 persons, were undoubtedly killed. The island is covered with volcanic debris and all the houses on it have disappeared.

The eruption is still proceeding and is accompanied by submarine tremors in the vicinity, which make it dangerous for vessels to approach the island.

Torishima is one of a chain of islands extending off the Bonin islands and Hondo, the biggest island of Japan.

PELEE AGAIN IN ERUPTION.

Five Miles Away Total Darkness Lasted Twenty Minutes.

Castries, (Island of St. Lucia) August 22.—Officers of the steamer Dahome, which arrived here today, report a severe eruption of Mount Pelee at noon yesterday. The eruption was followed by total darkness five miles away from the volcano. It was twenty minutes before it again became light.

Schwab Talks.

New York, August 19.—Charles M. Schwab, president of the United States Steel Corporation arrived here this evening. He was accompanied by his brother, Joseph Schwab, and his private secretary. He stepped briskly from the car, and as he did so he said to a number of newspaper men present:

"Now, gentlemen, I am going to tell you three things, and I don't want you to ask me further questions. In the first place, I don't look like a sick man. In the second place, I feel the necessity of a rest, and I am going to take it. In the third, I am not going to resign, and have no intention of retiring from the presidency of the United States Steel Corporation."

After Brady Now.

St. Paul, August 19.—Serious charges against Governor Brady of Alaska were made in the Trans-mississippi Congress tonight by Donald Fletcher of Seattle, who asserted that the Governor was the exponent of a policy of oppression and repression and the active agent of the great commercial companies in delaying self-government while they "gobbled up the best of a magnificent country."

KONA FARMING LANDS.

Are To be Opened for American Farmers.

Edward S. Boyd, Commissioner of Public Lands, returned to town in the steamer W. G. Hall this morning. He went to South Kona especially to inspect the Papa-alika lands, which are proposed to be opened up for settlement by American farmers expected soon to come out to the Islands.

Franz Buchholtz, who has made a success of miscellaneous farming in Kona, was the promoter of this immigration scheme from which great results are anticipated. There will be about half a dozen applicants for farms in the first instance.

Commissioner Boyd describes the land as pastoral at present. It is heavily forested in parts. No surface water appears, but Mr. Boyd is of opinion the essential element may be struck by prospecting, either in tunnels or bores, or both. There is a precipitation in the watershed of the lands which ought to ensure the existence of subterranean reservoirs. Part of the problem is to find the ancient streams that were buried by lava flows. So porous are the upper strata that water on falling sinks immediately into the ground.

The topography is of rolling character, gradually rising from the elevation of 900 to that of 2,100 feet. Oelomoana is the nearest village to the tract, while its most convenient seaboard landing is Hoopuloa.

There is an area of 8,000 acres in the Papa-alika tract. The method of its disposal in desirable sizes of farms to the prospective settlers is yet to be decided. Probably it will be right of purchase leases for twenty-one years. These make it feasible for the lessees to obtain fee simple titles at the end of three years if 25 per cent of the allotment in each case has been brought under cultivation.

NEW PERING LEGATION.

United States Will Send an Architect to Draw Plans.

Washington, August 15.—Complying with the request of the Secretary of State, the Treasury Department will detail an expert architect from the office of the Supervising Architect of the Treasury to go to Peking, China, to complete the plans and specifications for the new United States legation building there, and superintend the construction.

The French architect, who performed a like service for his government and who was engaged to plan and construct the buildings for the United States, has gone to France and will not return. As his plans were not altogether satisfactory, Minister Conger asked that a competent architect be sent from the United States.

AUGUST RAINFALL.

Record of Precipitation at Two Points on Waiakea Plantation.

The record of the August rainfall on the Waiakea plantation at an elevation of 50 feet is as follows:

WORLD'S BIGGEST CRATER.

What Ascent of Haleakala Seemed Like to a Tacoma Man.

The following is from an account of a visit to the summit of Haleakala appearing in the Tacoma Ledger:

Two thousand feet from the summit we came to a piece of galvanized iron. "Dat's a parta di roofa Messer Baldwin—he house on de top," said the guide. "He maka de fu' house, plenty strong. He maka one gran', solide house; maka de biga stona, de cementa. He worka diechi, twenty men, plenty men. He maka de place for water, de biga cistrino. He fixa de fine window, de stronga door. He maka de key, one big key. He clos him tight. Plenty mules, one gran' campo; he worka ten, twenty, maybe forty day. He puta on de splendid roofa, de gran' iron roofa. But he no fixa plenty. De win' come. He blow lik' any-ting. Pouff! one pieca de roofa go dat a-way! Pouff! one pieca de roofa go noder a-way. Messer Baldwin one dam-a foola!"

In a few minutes we were at the summit. I left camp duties to the guide and ran to the edge and looked down into another and different world. Here, indeed, was the battleground of the gods of war, the scene of elemental, primeval passions, the ruins of a phenomenon that in its display of power, gorgeous coloring, resistless motion, blinding light and universal thundering will never again be equaled until the final, abysmal plunge that shall end our little world's excursion.

The crater of Haleakala has nothing of the regularity of Kilauaea. Every inch of it speaks of action. Every foot of the rim is varied and jagged—torn in its upburst, crushed in its falling, seamed and worn by the successive lava flows that must have come from that tremendous cavity in floods of unimaginable volume and power for untold centuries. It is 2,500 feet to the bottom, six or seven miles as you look across to the southeastern gap and more than twenty miles around the rim. Away down to the left in the eastern gap, where the warmth and moisture of the trade winds have reached in for a hundred years and more of peaceful inaction, there is a growth of shrubs, ferns, grass and trees, but from the present point of view there is no sign of vegetable life save an occasional dwarfed fern, a bit of moss or lichen, or a hardy little edelweiss. They all seem dreadfully out of place, like an innocent maiden in a Black Hills mining camp. A few white clouds are floating, motionless, in the space below us, and lightly conceal the further confines of this wonderful amphitheater. Far beneath them we can distinguish some of the twenty-two or more red blowholes or cinder cones that cover the crater's bottom in a double line from about northeast to northwest—twenty-two volcanoes, from 400 to nearly 800 feet high, and here they are merely pebbles on the burnt sands of this old sea of lava!

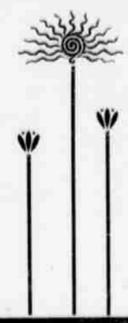

Between the east and southeast gaps the rim rises to the height of a distinct peak, cloud-capped, rugged, picturesque, inviting to the mountain climber, and almost enough so to make a beginner indiscreet.

But there is plenty to fill one's thoughts and occupy one's bodily and mental vigor without attempting to cross to that cloudland. We walked a mile or so to the south, and every step opened up new vistas, showed us new and undreamed-of effects of color, variety in lava formations and degrees in the superlative of roughness, wildness, desolation and awe. We ventured over the same path and found the panorama ever new. We went north nearly to the upper rim of the east gap—and as before it was always fascinating, always varied, always telling of a fearful past.

And still in the middle distance floated the soft innocence of summer sigh, and beyond the crater's ragged edges were endless folds of the great white robes. Cloudland was below us. As far as the eye

Agent for the Hawaiian Islands.

ORDERS FILLED AT SHORT NOTICE.

THE WORLD NEWS CO.

P. O. BOX 97

The Chinese of this city will publish a weekly paper called the WORLD NEWS. The object of the journal is to spread wisdom, practical knowledge and the news of the day among the Chinese people. In China there are few newspapers, which is largely the reason why the Chinese people are so far behind the times—compared with Europeans and Americans.

For this reason the leading Chinese merchants of the Hawaiian Islands have formed a company for the publication of a Chinese paper at Hilo.

Mr. H. Jackson, a gentleman of superior talents and education has been employed as editor. He has had seven years' editorial experience at Honolulu.

The offices of the newspaper are on Front Street, Bow Wong hall. Advertisers will communicate with either W. K. Akana or Hop Warn Co.

The officers of the new publishing company are W. K. Akana, president; H. Jackson, editor; Lau On, reporter; L. Ah Hip, Sam Fook, Young Got, Hop Warn, and Wo Hop Kee, directors.

From the Hop Fields

to the time it is delivered to you, the most careful care is taken in regard to the purity, wholesomeness and good flavor of

Rainier Beer

People who have a keen sense of discernment prefer it to any other beverage because it is better.

 GEO. S. MCKENZIE, Manager

(Continued from page 2.)
 could see, its rolling hills and
 sleepy valleys, its peace and quiet,
 filled all space. Not a movement,
 not a change in perspective or color.
 And yet turn from the south to the
 north and turn back again, and lo!
 the weird ghostland was made over
 anew. Far to the southeast we
 looked for Hawaii and its great
 domes for a long time in vain—and
 then of a sudden, under our very
 eyes, the billowy mass of white
 seemed to shadow forth the long,
 graceful sweep of Mauna Loa and
 Mauna Kea, very dim at first until
 the rays of the setting sun touched
 them with their rich tints and dis-
 covered them as with the alchem-
 ist's magic wand to our admiring
 vision.
 We circled the horizon with our
 eager eyes—the mountain slope
 vanished into the white city; clouds
 that were miles deep, clouds that
 filled the universe with dream
 faces, specter ships, silvered cas-
 cades, palaces and pearl clouds that
 reflected clouds, duplicating and
 manifold each other until the
 eye wearied of its attempt to find
 either beginning or ending to any
 of the beautiful creations spread
 out before us.
 For a time the only color was
 white with silver and pearl gray
 tints. Then from a distance that
 seemed almost beyond the power of
 sight, a long riband of most deli-
 cate rose pink was passed through
 that diaphanous mass. A second
 and a third followed, and in a mo-
 ment, in that infinitesimal fraction
 of time that is measured by fleetest
 thought, our cloudland was glow-
 ing and pulsing with the glory of
 the sun. Our dream faces were
 alive and their godlike forms,
 clothed in lustrous robes, moved on
 in stately measure to the music of
 the spheres then just beginning to
 show in the turquoise sea above us.
 Our specier ships were manned,
 royal lanners flying, rich tapestries
 hanging from mast and rigging.
 Our palaces of pearl were peopled;
 opal and jasper, gold and ruby
 studded the walls; red and blue
 lotus flowers, hibiscus and oleander
 hedges and great masses of gor-
 geous unnamed blossoms waved to
 gentle breezes and spread broadcast
 their delicious fragrance. So beau-
 tiful it was the very sun did glow
 with pride and swell with admira-
 tion of the worlds he had created,
 and the whole sky was one mass of
 harmonious reds and golden tints;
 and yet by minute gradations no
 eye could follow, the tints changed
 to gray of pearl, to the dull beauty
 of amethyst, to the virginal sim-
 plicity of glaciers cold.
 The warmth of summer was
 freshened by the keen air of the
 north. The bright stars appeared
 in the deep blue above. Our ghost
 and spectres returned, but seem-
 ingly in even quieter mood, as if in
 keeping with with hour.
 We looked after the horses once
 more, sampled our provisions and
 then tried to find a soft spot in the
 cave where we had spread our
 blankets. Baldwin's house was so
 spacious that, being roofless, the
 cold night winds searched out every
 nook and corner in it and we found
 the camped quarters under the lee
 of a ledge of lava much more to
 our liking.
 However, sleep was impossible.
 In spite of blankets and wraps it
 was cold, a clear, keen, rarified air
 got in under all our covers and
 played havoc with our circulation.
 Then, too, lava does not compare
 with a hair mattress and downy
 quilts for comfort and ease. It
 may be pahoehoe when you lie
 down, but it feels like the roughest
 of aa after a few minutes. Besides,
 we could hear the horses stirring
 a little distance below. I presume
 they found the air chilly, and every
 few minutes we determined that
 they must be loose, and that fear
 kept us on the jump all night long.
 We realized it would be no mere
 holiday outing if we were left on
 that summit with our horses gone
 and our blankets and saddles, etc.,
 to pack for twenty miles over a
 rough trail.
 There was something to repay us
 for loss of sleep, however. And
 towards morning, when the full
 moon was high in the heavens and
 the bright stars studded the firm-

ament and threw out the crater's
 rough edges and strange lava masses
 in bold relief, we forgot all discom-
 forts and drank in the weird beauty
 of the scene. Not a cloud relieved
 the blackness of volcanic ash and
 warm lava ledges in the great hole
 below us. The cold, reflected
 light of moon and planet, and the
 brilliancy of stars, too far removed
 to bring us warmth, served only to
 sharpen the shadow and mystify
 our unfamiliar vision.
 Surely, this was no playground
 of elemental forces, so quiet, so
 calm. It was not here that earth's
 fiercest passions once exhibited
 themselves in seething floods, in
 furnaces of fire and lightning play
 that signaled back to farthest
 heaven in thunders that tore the
 universe apart and echoed from the
 pearly gates down to the very jaws
 of hell.
 Here all was peace, the peace of
 death, perhaps, but nothing but the
 mystery of our own imaginings
 could break that peace. The clouds
 still banked the horizon and hid
 the mountain slopes below us.
 Hawaii and the other islands, the
 picturesque peaks of Western Maui,
 the cane fields and other evidences
 of the presence of man, all land and
 sea were lost. Then the miracle
 happened of which we had read,
 which we had come to see—the sun
 rose! Just a suspicion of color at
 first, like a kiss upon lips cold in
 death. We could not feel its warmth
 We could scarcely credit its
 promises. But, as the native leg-
 end has it, the sun was already
 trapped, and through the masses of
 billowy white that had concealed
 King Maui's workers and must
 have fooled the lord of day as it
 did us, appeared their many colored
 ribands of beaten brass and gold,
 of lustrous and pearl-broidered silk,
 fibrous ropes and nets of sapphire,
 ruby, amethyst and indestructible
 gems. With gentle, persuasive,
 irresistible force they drew the sun
 from out of the hot South seas,
 fresh and glowing from his morn-
 ing bath, and brought him captive
 to make a golden crown for good
 King Maui and warm and vivify
 this beautiful but death-cold charnel
 house and make of it a veritable
 Haleakala, the house of the sun.

REPUBLICAN TICKET FOR DELEGATE TO CONGRESS

Jonah Kalanianole.

SUGAR. New York, August 22.—Raw steady. Fair refining, 27c; centrifugal, 56 test, 34c; Molasses Sugar, 23c. Refined steady.

TRUMPET CALL FROM HOLSTEIN.

An open letter to the Managers and Employers of Laborers, residing in the 2nd Election District, (West Hawaii), Island of Hawaii:

I want each of you to commence educating your Hawaiian laborers as to the disastrous results which will be harvested by Hawaiians in case Wilcox's Leper Bill is passed in Congress. How it will affect your sugar and how it will affect them as laborers. Teach them now. You must do it. Don't wait for one or two to do this work.

If you are anxious to see Wilcox defeated, get out and work among your laborers. They will listen to you if you will advise them as to what is proper. Prince Cupid is doing noble work among his people and you must do your share.

THE VOLCANO.

The volcano for more than a week has been a spectacle worth traveling miles to see. The fact that the crater of Kilauea is harmless when in action, will not be believed by the general public on the Mainland, so soon after the great disaster at Martinique.

The action of Kilauea has never been explosive. The reports from the volcano each day indicate that the lava is rising constantly and the scene down in the great crater is growing more interesting.

We cannot understand the logic of the Herald's reasoning when it singles out J. C. Ridgway of Hilo as responsible for the Rules under which he has been selected for Territorial Central Committeeman. With the exception of Charles Williams, none of the members, viz. McStocker, Walker, Williams and Ridgway, selected from this District for Committeemen were delegates to any convention.

THE Democratic party is renowned for its stubborn bullheadedness. It has done the wrong thing at the right time ever since Jefferson died. In Hawaii, it is living up to its Mainland record.

R. T. GUARD and Philip Peck kept Hilo to the front at the Territorial Convention.

PRINCE CUPID was the choice of the Convention. He will also be the choice of the people.

A VALUABLE article continuing the description of a Hamakua poultry ranch is published in this issue.

THE TRIBUNE gives its readers today the most concise yet complete story of the Republican Convention published in the Islands.

PRINCE CUPID started in the right direction when he left the Wilcox crowd. If the Hawaiians will follow him, they will do that which is best for their country, the material prosperity of the Islands and the happiness of their people.

THE country papers in the Islands are making sport of Hilo because, as they say, there is no hotel here. It is true we have no Palace hotel, but we have abundant first class accommodation for transient visitors.

POLITICS AT KAILUA.

Prince Cupid and Party Held a Great Meeting.

Monday, August 25 was a gala day at Kailua. Being steamer day the usual crowd of business men and pleasure seekers had congregated around the wharf and along the beach, but it was quite evident that some extra attraction had drawn many men to town who are seldom seen there.

Throughout the Kona the news had spread that Prince Kalanianole had come to delight the hearts of the people of Kona with his well-timed oratory, and the excitement grew still greater when it was known that he would be accompanied by three of the best speakers of the land.

He laid great stress on the fact that the deplorable failure of the last legislature was due to its being composed of so few men of principles and so many without, that a man without principle could not be a gentleman and was unfit to represent the people.

The steamer having departed the great bell tolled and the masses wended their way to the church where they were received and shown to their seats by ushers in full dress.

J. K. Nahale, the Deputy Sheriff for North Kona, who, by the way, seems to have quitted the Republican party, was elected to the chair and introduced the first speaker, Prince Kalanianole.

After stating in a few well chosen words why he appeared here before the people he turned in his gentlemanly way to the few foreigners present and gave them in English a concise synopsis of his intended speech.

The speaker was listened to by all his hearers with intense interest and was frequently applauded. His earnest and manly manner left no room for doubt that his words came straight from a big heart, and they surely found their way to responsive hearts, words that cannot fail to bear fruit in due season.

He told his hearers that he came not as a candidate soliciting their votes, or as an office seeker, nor to tell them for whom to vote, but that he came to them as an educator in this new era of politics which he had studied closely for that purpose.

He explained the county system with its duties and privileges, its educational value in preparing the Territory for statehood, machine politics and party systems on the mainland by which the minority could control the majority, and the proper use of the remaining public lands.

The next speaker was Mahaulu who enlarged upon the Prince's speech and whose pleasant manner and graceful posture captivated even those whose education in Hawaiian had been neglected.

The third and last speaker was Makekani, a home rule member of the last legislature. He began in rather a dry way giving a short history of the political changes in recent years since the downfall of the monarchy.

HAWAII FELIX.

Ready for Excursions.

When seen yesterday regarding the statement in the Herald to the effect that the Volcano Stables is responsible for no excursions to the Volcano officer than once a week, Mr. Wright said: "The Stables are ready to take care of excursions every day if the people want them. If there are no excursions it will not be our fault."

BY AUTHORITY.

Public Lands Notice.

On and after the 13th day of September, 1902, at the office of E. D. Baldwin, Hilo, Hawaii, may be applied for under terms and conditions of the Land Act of 1895, for Right of Purchase leases, and more particularly set forth under Part VII of said Land Act.

Also on and after the above date, may be applied for under above conditions all untaken lots in Opihikao and Kamalii tracts, Puna District, Hawaii.

EDWARD S. BOYD, Commissioner of Public Lands, Public Land Office, August 11th, 1902.

Notice to Creditors.

In the Circuit Court, Fourth Circuit, Territory of Hawaii.

IN PROBATE—AT CHAMBERS. In the matter of the Estate of ELIZABETH LUJAN, of Peleau, Hilo, Island and Territory of Hawaii, deceased.

Notice is hereby given that the undersigned has been appointed Administrator of the Estate of said deceased.

All creditors of said estate are hereby notified to present their claims, duly verified and with proper vouchers, if any, to the undersigned at Peleau, Hilo, Hawaii, within six months from the date of this notice, otherwise such claims, if any, will be forever barred.

LUCAS LUJAN, Administrator.

F. S. LYMAN, Attorney for Estate, Hilo, Hawaii, September 3, 1902. 44-4

LEGAL NOTICES.

In the Circuit Court of the Fourth Circuit, Territory of Hawaii.

AT CHAMBERS—IN PROBATE. In the matter of the Estate of CHARLES EDWARD HAPAI, late of Hilo, Hawaii, deceased intestate.

Petition having been filed by G. W. A. Hapai, father of said intestate, praying that Letters of Administration upon said estate be issued to your petitioner.

Notice is hereby given that Monday, the 29th day of September, A. D. 1902, at 9 o'clock a. m., at Chambers, in the Court House at South Hilo, Hawaii, be and the same hereby is appointed as the time and place for hearing said petition and accounts, and that all persons interested may then and there appear and show cause, if any they have, why the same should not be granted.

Hilo, Hawaii, August 29, 1902. By the Court: DANIEL PORTER, Clerk. 44-3

In the Circuit Court of the Fourth Circuit, Island and Territory of Hawaii.

IN PROBATE. In the matter of the Estate of JACINTHO FARIAS, deceased.

Petition having been filed by Manuel Ignacio, praying that letters of Administration upon said estate be issued to J. E. Ray.

Notice is hereby given that Monday, the 29th day of September, A. D. 1902, at 9:30 o'clock, a. m., be and hereby is appointed for hearing said petition in the Court room of this Court, at Hilo, Hawaii, at which time and place all persons concerned may appear and show cause, if any they have, why said petition should not be granted.

Hilo, Hawaii, August 28, 1902. By the Court: DANIEL PORTER, Clerk. RIDGWAY & RIDGWAY, Attorneys for petitioner. 44-3

In the Circuit Court, of the Fourth Circuit, Territory of Hawaii.

IN PROBATE—AT CHAMBERS. In re the Estate of T. J. HIGGINS, deceased. Order granting motion to allow sale.

The motion of Margaret G. Higgins, one of the Executors of the above named estate, that the administrators of the estate of C. E. Richardson be allowed to sell certain shares of stock of the Hilo Mercantile Co., Ltd., held by the estate of said C. E. Richardson as security for a debt owing the said estate by the estate of the said T. J. Higgins, deceased, and for the payment of certain other debts and expenses of said estate, having been filed in this Court, and the Court being fully advised in the premises.

It is hereby ordered that said motion be granted and that notice of the sale of said stock be given by publication in the Hilo Tribune for the period of three successive weeks prior to such sale. That the said stock be sold at public auction, in blocks of ten shares each; for cash in gold coin of the United States of America; and that the proceeds of such sale be applied first to the payment of the debt aforesaid and costs of sale, and that the residue, if any, be paid into this Court for the said estate of the said T. J. Higgins, deceased.

That the administrators of the estate of C. E. Richardson, deceased, make an immediate return to this Court of all their proceedings under this order. (Signed) GILBERT F. LITTLE, Judge.

Said stock will be sold at auction at the front door of the Court House, Hilo, at 12 o'clock, noon, Saturday the 20th day of September, 1902. A. E. SUTTON & CO., Auctioneers.

The Way to Win.

The call of Chairman H. J. Holstein published in this issue should not be read, laid aside and forgotten. It should be remembered and heeded. Work is all that is required to send Prince Cupid to Washington with a big majority. His nomination was received with approval by all classes in Hilo and when the importance of his election is properly presented to the voters all over the island his following will be enormous.

Good printing—Tribune. FOR RENT—New modern cottage in Paea; address A. S. Wall, Hilo Market. Mrs. R. H. Reid returned by the Claudi...

The regular fall term of the Hilo Boarding School will open next Monday. Last Tuesday, a son was born to Mrs. T. E. Cooke. Mother and child are doing well.

W. G. Taylor, auditor for R. F. Dillingham & Co., was a volcano visitor Sunday. L. K. Penrose has taken the Nawali cottage on School street and has moved in with his family.

M. M. Springer of Honolulu has accepted a position as stenographer in the office of Wise & Ross. A shave for 15 cents is now obtainable in Hilo at the shop on Shipman street opposite the Fish Market.

A large crowd of Hiloites spent Labor day at Coccaut Island. There were several family basket dinners. Geo. P. Curtis, representing L. B. Kerr & Co., of Honolulu was in the city this week. He reports business satisfactory.

The Claudine left Honolulu at 3 p. m. Tuesday instead of noon, causing her to arrive at 10:30 p. m. Wednesday night. FREE—Given away, with a purchase of two dozen A. B. C. Beer, AN ART PICTURE of some famous painting. W. C. Peacock & Co., Hilo.

We still have our big run on "ACME RYE". Send your orders early so as to be sure and get your share.—W. C. PEACOCK & CO., Ltd. The parlors and hall of the Elks' lodge will be open this evening to the ladies. Ping pong and other games with music will afford entertainment.

Mr. C. H. Lindholm of Spreckelsville passed through Waikuku on Wednesday.—Maui News. Two or three people passed through Hilo last Tuesday. Drop into the bank, there's money in it. Drop into our store, that's where you get something for your money.—W. C. PEACOCK & CO., Bridge street Hilo.

The Steamer W. G. Hall, brought a number of sightseers to the Volcano her last trip. Among them were Misses Stinson and Wolpert nurses at Queen's Hospital. If the Enterprise arrives in time, Rev. Mr. Nash who is on board, will hold services in the First Foreign Church Sunday morning. A large turnout should greet the new minister.

CHAMBERLAIN'S COUGH REMEDY is a cure for severe colds, persistent coughs and a preventative of pneumonia. It is the mothers' favorite for whooping cough. It always cures and cures quickly. Hilo Drug Store sells it. Mr. and Mrs. H. L. Ross, Jr. and Mrs. Fred Braymer, Mrs. A. R. Hancock, A. G. Kulberg, Mrs. Ridgway, Miss Ridgway, J. C. and T. C. Ridgway, Mr. Mellor and Mr. and Mrs. Geer, were among the visitors at the Volcano over Sunday.

A team on one of the Volcano Stables wagonettes, became scared at the steam roller at the foot of Waianuene street last Wednesday and became unmanageable. They plunged into the corner of Turner Co.'s store smashing a plate glass window. The match shoot between Hilo and Honokaa teams resulted in a victory for the former with a score of 194 to 163. The Hilo team was made up of Messrs. Hering, Easton, Fetter, Ludloff and Meine; Honokaa, Williamson, Muir, Watt, Imes, Fowler.

Work of Registration.

The Board of Registration sat at Mountain View last Monday and Tuesday recording 74 votes. Wednesday and Thursday they kept open house for voters at Fireman's hall. Today they are holding forth at Waiakea in the Church. Tomorrow they will have registration books at the Waiakea plantation offices. Monday the board will sit at Papakou, Tuesday at Pepee, and Wednesday at Honouliuli. Thursday, Friday and Saturday of next week they will be in Puna and the week after they will cover the Hamakua District. The Board consists of E. E. Richards, chairman, M. V. Holmes and S. L. Oesha.

Central Committee Elects New Officers.

(Special Wireless to Tribune.) At the meeting of the central committee after the Convention the following new officers were elected: Chairman, C. L. Crabbe. Vice-Chairman, J. H. Fisher. Secretary, A. L. C. Atkinson. Assistant Secretary, J. D. Avery. Treasurer, George R. Carter.

LABOR DAY EXCURSION.

Many People Go on the Band Bene-Hi Trip. The Hilo band and two hundred and fifty people from this city were the guests of the Hilo Railroad in an excursion to Pana on Labor Day. The excursion was a benefit for the band and the returns from the generosity of the railway management went in their entirety to swell the band's exchequer. The amount realized was \$180.

The company put on a fine train of four coaches. These were officered by courteous conductors, brakemen and porters who shared the holiday spirit of the excursionists. All the way the people were regaled with fine music by the Hawaiian quartette. Upon arrival at Pana the crowd was conducted to the fine lawn at the home of Henry Lyman. The band played several pieces of music after which they went to the warm springs and took a plunge. The crowds scattered in all directions going in groups to the many points of interest in the locality, not forgetting the plant and caves of the Volcano Water Company. In the afternoon the people again gathered at the Lyman lawn and dinner baskets were explored to the satisfaction of the entire company. The band played more music and were served with a delightful luncheon by Mrs. R. A. Lyman. A two step was played and there were many dances on the lawn.

One of the diversions of the day was a game of base ball between a Hilo nine and a nine composed of employees of the railroad. P. C. Beamer acted as umpire. His decision gave the game to the railroad boys by default. The excursion train returned to Hilo in the evening arriving at 9:30.

JAPANESE CASE OVER.

Two Are Held For Murder, Three For Conspiracy. The preliminary examination of the Japanese implicated in the alleged murder of Motohara was concluded Tuesday with the discharge of Hayashi one of the six who were charged with being accessories but against whom the charge was changed to conspiracy. Two against whom the charge of conspiracy was laid were released, a noble pros., being entered by the prosecution. Three were bound over to the grand jury on the charge of conspiracy, and are in jail in default of bond which was fixed at \$3000. The two alleged murderers Funaoshi and Watanabe were the first tried and they await in jail the action of the Grand Jury on the charge of murder in the first degree.

This case has been perhaps the most stubbornly fought cause ever tried in the Hilo District Court. The Sheriff's department walked into the business of arresting Japanese after Motohara was found dead, which left no doubt as to their intention to leave no stone unturned to have it murder and punish the murderers. The prosecution has used every possible implement at their disposal in the trial. Smith & Parsons for the prosecution have waged a determined battle. On the other side were Wise & Ross and LeBlond & Smith. They have contested every step made by the prosecution with ball dog pertinacity.

WILL MACADAMIZE KING.

Also One Block of Bridge Street to be Improved. King street from the hotel grounds to Front street, and Bridge street between Waianuene and King are to be leveled to grade and macadamized at once. The road board has received notice from the Superintendent of Public Works that an authorization has been made for these improvements. Mr. Gere, the local representative of the Public Works Department states that this work will begin as soon as the Kukua and Pukihae Crossing bridges are completed. These will be finished, if the weather is fair, in a very short time, and it is probable that the improvement of King street will begin within three weeks.

FIVE LEGGED FROG.

Monstrosity Captured by a Chinese Boy in Hilo Pond. Ah Kim, the well known young Chinese interpreter, captured a freak frog last Tuesday in the ponds near Front street which is attracting much attention in the show windows of the Hilo Drug store. The frog has five legs, three kickers and the two normal front legs. The third hind leg joins the body at the abdomen and is about as useless as a fifth wheel in a wagon. This freak frog has also a double pair of eyes one of which is but partially developed and needs the attention of an oculist. The croaker is in size a typical Hilo specimen, weighing perhaps a half pound.

Claudine Passenger List.

The following arrived by the Claudine this week: Geo. P. Curtis, Frank Turner, Miss Egan, G. W. Paty, Miss A. Ward, Miss M. Hanson, Mrs. R. H. Reid and child, Miss Smith, Miss Cohen, T. Miller, W. F. Blasco, Master Cofer, John McTearnt, Miss Renwick, W. M. Taten, C. Capilos, J. W. Brown, Miss Carr, Sister Ephreie, Miss A. B. Blasco, Robert A. Young, Mrs. J. Kalamole, W. G. Taylor, Paul Barrett, Captain Cameron and wife, A. Herthy, Mrs. W. A. Clarke and daughter.

PRINCE CUPID IS THE STANDARD BEARER

(Special to Hilo Tribune.) Honolulu, Sept. 2.—The Republican Territorial Convention ended its work at 12:15 p. m. today. Prince Jonah Kalamanoie was nominated as the Republican party's delegate to Congress. A new Territorial Committee was appointed, an exceedingly strong platform was adopted and the Convention was thoroughly successful from start to finish.

Representatives from the Island of Hawaii had no cause for complaint at the attention shown them in the convention. First came the honor to delegate H. L. Holstein of being elected temporary chairman of the convention. Later he was appointed permanent chairman, Mr. Philip Peck retiring in Holstein's favor. Selected for duty upon the important committee of platforms were R. T. Guard and Chas. Williams of the First district, while W. G. Walker represented Hawaii on the committee on rules.

HARMONY DISTURBED. The harmony that ruled during the session of Monday morning was somewhat rudely disturbed at the afternoon session upon consideration of a report of the platform committee. The fourth plank demanded the establishment of municipal and county government, the concluding sentence authorizing a referendum to the people after the passage of such an act by the Legislature. It was right here that the anti-Dole sentiment in the convention popped out. Curtis Laukea protested against this postponement, claiming that the Executive was opposed to city and county government and had told him so. He did not believe that Gov. Dole would call a special election of the people to approve any such bill. He became impassioned in his remarks, stating that the plank, as prepared, was simply meant as an evasion of the issue at the instigation of the Executive. Senator George R. Carter jumped to his feet and declared that, within two days, he had had told him that he was in favor of city and county government. This was a contradiction of what Mr. Dole had said to Laukea, placing the Governor in the unenviable light of making directly contrary statements upon the same subject, an impression that was not removed during the remainder of the convention and which no one seemed desirous of wishing to remove.

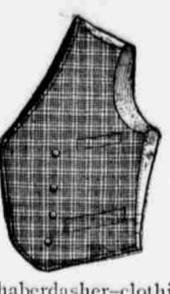

CONVENTION CALLED TO ORDER. The Convention was called to order by A. G. M. Robertson. Senator Achi placed H. L. Holstein of Kohala in nomination for temporary chairman, J. T. Kaulukou seconding. In thanking the Convention for the honor conferred upon him Mr. Holstein said: "The Republican party in these islands is young, strong, conscious of its power, united, popular and growing. In my best judgment the grand old party here was never in a better state nor more determined to win than at the present time. The battle cry is now for an intelligent, economical and businesslike legislature. This can only be effected through the medium of the Republican party. Wilcox has been a failure throughout. He has failed to accomplish anything at Washington because he failed to belong to either one of the great parties in Congress. He failed also, I fear, in ability, but perhaps his complete failure consisted in his resemblance to Napoleon. The time has come now for a change and we are going to have it. Since arriving in Honolulu I have heard from Home Kules themselves that there will be a perfect landslide in favor of the Republican party. The people are tired of failures and they want to accomplish something. We will send a man to Congress that is in sympathy with the majority in Congress. We do not want a man there who will merely try to look wise and draft milk bills. Think of this. Congress appropriated one thousand million dollars and yet there was not a dollar, not a red cent, not even a bean secured for Hawaii, unless it came out here in the packages of vegetable seeds that Wilcox got free and was able to distribute in this Territory for nothing."

COMMITTEE ON CREDENTIALS. J. D. Avery being chosen temporary secretary, the chair appointed George H. Renton, A. C. McKiney, J. K. Nahale, J. N. K. Keola, Joe Luahiwa and W. H. Rice as the committee on credentials. All the delegates were present with the exception of seven who were represented by proxies.

PERMANENT CHAIRMAN. The nomination of H. L. Holstein for permanent chairman of the Convention brought H. P. Baldwin to his feet, stating that he understood that Mr. Peck, of Hilo, was to be chosen for that honor, and he therefore placed his name before the Convention. Mr. Peck, however, at once withdrew, believing there should be no division of a district. A contest for permanent secretary resulted in fifty-four votes for Avery and twenty-six votes for G. P. Theilan.

COMMITTEES SELECTED. The following delegates were selected as the committee on platforms, the chairman being an ex officio member: First district, R. T. Guard and Charles Williams; second, J. D. Paris and Samuel Parker; third, H. P. Baldwin and Dr. J. H. Raymond; fourth, A. V. Gear and Col. J. H. Fisher; fifth, Geo. R. Carter and W. G. Ashley; sixth, Francis Gay and W. H. Rice.

COMMITTEE ON RULES. Lorrin Andrews, W. G. Walker, S. Lazaro, Edgar Morton, C. P. Laukea and William Warner. UNITED STATES SENATORS. United States Senator Burton, of Kansas, and former Senator Thurston, of Nebraska, having entered the hall, Mr. H. P. Baldwin suggested that they be asked to address the convention. Senator Burton said: "I did not come here to talk. I came here to hear you talk. I want to learn how we can help the islands in the way of national legislation, and having learned what you ought to have and want, to use my best endeavors to get it for you. Already I have been captivated by your splendid climate. Five thousand miles from here, in my Kansas home, the thermometer is over a hundred degrees in the shade, here it is eighty. I was ignorant of the high-class of citizenship that I should find in Hawaii and of the high standard to which your people had attained. But what has captivated me most are your beautiful women. Never,

REPUBLICAN PLATFORM.

Epitome of Principles Enunciated at Convention Last Monday. The platform adopted by the Territorial Convention at Honolulu last Monday, declares allegiance to the principles of the Republican party contained in the national platform adopted at Philadelphia in 1900. It endorses President Roosevelt's masterly administration. It opposes any restriction or limitation of the suffrage as provided by the Organic Act. It demands of the next legislature a county and municipal government law for Hawaii. It urges Congress to pay the fire claims. It favors liberality in the care of lepers. It favors efforts to secure statehood. It demands of the National Congress more speedy improvement of our harbors. It favors citizen labor on all Public Works and demands an eight hour day. It favors a permanent settlement upon ex-Queen Liliuokalani. It asks Congress to protect our diversified industries from foreign competition. It objects to the Territory conducting the liquor traffic. It demands a revision of our present system of taxation. It favors the use of both the Hawaiian and English languages in legislative proceedings. It opposes trusts. It demands better school houses. It demands better roads.

ST. ANDREWS PRIORY

Honolulu will reopen September 8, '02. The new force of teachers arrived with Bishop Restarick to take up the work which the Sisters have carried on so many years. The School will be conducted on the same principles as heretofore and the Sisters will continue to reside at the Priory. Girls wishing to attend the Normal School will have home comforts and supervision. All communications regarding the admission of pupils should be addressed to Miss Charlotte Leggart St. Andrew's Priory, Honolulu

MR. GEORGE OSBORN,

Kukuaia, Paunilo, Hawaii. HAWAII RE-COMMISSIONED. Oldest District Magistrate in Hawaii Appointed for Another Term.

At the opening of the District Court Tuesday morning Judge Hapai announced to the members of the bar and those present that he had lately received his commission as District Magistrate for two years more. The case at bar was the same that was being tried when Court adjourned Saturday. "I was working under my old commission last Saturday," said the Judge, "I proceed with it today under my new commission." Mr. LeBlond arose and in a few fitting remarks congratulated Judge Hapai upon his appointment. Judge Hapai is the oldest District Magistrate in Hawaii in point of service. He has doled out practical justice from the District bench in Hilo for—years. He has proved a careful and considerate magistrate. The Tribune joins his numerous friends in congratulations.

Can't Eat

You certainly don't want to eat if you are not hungry. But you must eat, and you must digest your food, too. If not, you will become weak, pale, thin. Good food, good appetite, good digestion,—these are essential.

Mr. Robert Venus, of Llanneeston, Tasmania, sends us his photograph and says: "I suffered greatly from loss of appetite, indigestion, pains in the stomach, weakness, and nervousness. Several doctors tried in vain to give me relief. A friend then induced me to try Ayer's Sarsaparilla, for it had done him much good. The first bottle worked wonders for me. Soon my appetite came back, my indigestion was cured, and I was strong and hearty."

There are many imitations "Sarsaparillas." Be sure you get Ayer's.

Keep your bowels in good condition by using Ayer's Pills. They cure constipation, coated tongue, biliousness, sick headache.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

CHINA COLLECTING COIN.

Decree Sent State Department by Minister Conger.

Washington, August 15.—Minister Conger, at Peking, has transmitted to the State Department the imperial decree concerning the raising of funds in the several provinces for the payment of indemnity exacted by the powers, as a result of the Boxer uprising. The decree directs that there shall be no extortion, and that the people must not be irritated. The Viceroy is commanded to do away with what will cause friction and needless severity. The decree declares that if any "are found out in their old tricks" and "filling their own pockets," they will be severely dealt with.

Minister Conger also sends a proclamation of the Viceroy of Chi-li, in which the people are warned against carrying arms. Reference is made to the Boxer troubles, and the Viceroy says old scores must not be raked up. "The people and the Christians must not retaliate against each other," concludes the proclamation, "but forever be at peace with each other, tremble and obey."

WILL DONATE TREES.

To Ornament McKinley Park If Established.

Hilo, August 29, 1902.

MR. EDITOR:—Your article, "A McKinley Memorial," which appeared on the above date, in your valuable paper, attracted my attention, and I agree to make a better and more lasting subscription. I will subscribe 100 ornamental trees and set them out, replace all that do not grow, until the hundred are complete and in good growing condition. But I am not in favor of taking over Hoolulu park for that purpose. Hoolulu park cannot be spared for that. Hilo would be a dull old place on Independence and New Year's days should the race track be closed. A race track and a racing association is a great benefit to a progressive and thriving community. There is a better reason than the above, for not taking over the race track. Hoolulu is on low ground and in my opinion a public park in Hilo should be on High ground so that a view of the ocean and bay may be had from all parts of the park without the use of a tower. However, my offer goes, no matter where the park may be situated.

Respectfully submitted,
JIM MORRIS.
P. O. Box 343, Hilo, T. H.

Tax Office Clerks Arrested.

Alexander D. Thompson, former chief deputy in the tax collector's office, and Joseph Woodward, one of the clerks under him, were arraigned before Judge Gear at Honolulu Wednesday on five indictments for embezzlement, covering in all twelve different charges of having appropriated to their own use money that belonged to the Territory.

Two of the indictments contain three counts each, alleging that the defendants, took \$5 in each case, money which they had collected as employees of the Territory, for taxes. Another indictment declares that they appropriated to their own use \$5 on two occasions and \$12.10 on another occasion. In a fourth indictment they are alleged of having stolen \$5.50 on two occasions and the other charge is also an accusation of having stolen \$5.50. The sum total of the peculations set forth is therefore \$68.60.

The money alleged to have been taken by the defendants was personal tax money. It is the theory of the prosecution that the two men stood together in their dishonesty and divided the proceeds, and they are mentioned jointly in all the indictments, which are very lengthy, setting forth the facts as to the employment of Thompson and Woodward by the Territory. In the defense, it is stated, the defendants will accuse each other.

Plague Raging in India.

London, August 21.—The Exchange Telegram Company today published a dispatch from Simla, British India, saying that the plague mortality is increasing at the rate of 1000 weekly.

DEFENCE BY SCHOEN.

Atlantic City, N. J., August 10.—For the first time since the encounter of last Wednesday night, in which Attorney General Knox figured so prominently at one of the hotels, Charles T. Schoen of Philadelphia has consented to make a detailed statement of the affair. He says:

"In order that the public may fully understand just what did occur, I will detail at length the events of the evening in question.

"Mr. Cramp, Mr. Stephenson and I had been playing pool at the Brighton. We had a few drinks but certainly our conduct there could not have been construed as otherwise than gentlemanly. Later that night we went to the Garden Hotel, entering the cafe annex and taking seat at a small table. I noticed that at a table near by there were several persons. I naturally made no note as to who they were.

"Well, ours was a jolly party. We had something more to drink, laughed and chatted freely, just as men are wont to do under such circumstances. So far as I am concerned I have no recollection of using language that should give any grave offense to anyone. Mr. Cramp, too, I am sure, never dreamed of indulging in what Mr. Knox has branded as profane and indecent language. I thought Mr. Knox adopted an unwarranted course when he sent a waiter to inform us that our conduct was offensive to him. But at that time I deemed it the better part of wisdom to send back an apology and ignore his rather pompous and peremptory request.

"But if I was amazed then at his conduct my astonishment was certainly great when Mr. Knox, a member of the President's Cabinet offered us the greatest possible insult. As he was leaving the cafe with his friends he leaned over our table and said, "You are a lot of dirty curs."

"A minute later he came back and rushing up to our table began to abuse us. "You are blackguards," he exclaimed. At that Mr. Stephenson jumped up and made a short-arm punch at him and then there was a great scuffle.

"For my part, I never moved out of my chair. I was too much shocked at the apparent lack of dignity on the part of a man of Mr. Knox's capacity. Nor did Mr. Cramp mix up in the affair of fists, for he felt just as I did about it.

"Mr. Knox simply went out of the way to find trouble and accomplished his mission. I desire to remark that I observed no sign of cambric tea or tea caps on the table where Mr. Knox and his friends were dining. In my opinion, he could not have been entirely himself, else he would not have offered our party an most undignified affront and then have returned to start a fight. And that must have been his intention; if not, why did he return?"

What Is Pain Balm?

Chamberlain's Pain Balm is a liniment and, while adapted to all ordinary uses of a liniment, has qualities which distinguish it from other remedies of this class. Pain Balm is especially beneficial for rheumatism. Thousands of cases can be cited in which it has effected a cure when the sufferer had previously the best medical service without receiving relief. Pain Balm is positively guaranteed to give relief in the most severe cases of chronic or acute rheumatism.

Pain Balm heals bruises, burns and scalds in less time than any other treatment. It is "antiseptic" that is, it prevents putrefaction and by so doing generally prevents an unsightly scar remaining after the injury is healed. For lame back, lumbago and neuralgia, Pain Balm has no equal. It has the quality of "getting to the right spot." No sufferer from these distressing affections should defer a trial of this remedy. One application give relief. Try it. Hilo Drug Store sells it.

There is this peculiar thing about our Hair Vigor: it's a hair-food, not a dye. It doesn't turn your hair suddenly black and make it look dead and lifeless. But gradually the old color comes back, all the rich color is used to have. And it also stops falling of the hair.

Even if your hair isn't coming out, isn't turning gray, isn't too short, yet you certainly want a fine dressing for it, and here it is.

Ayer's Hair Vigor

It keeps the scalp clean and healthy, removes all dandruff, makes the hair grow rapidly, prevents it from falling out, and does not allow a single gray hair to appear.

Do not be deceived by cheap imitations which will only disappoint you. Make sure that you get the genuine Ayer's Hair Vigor.

The only desirable means of reaching the Volcano. Connections at Mountain View with stages daily—morning trains going; afternoon trains returning. Fare from Hilo for the round trip \$5. This route is through Olua plantation, the largest in Hawaii, virgin forests of koa and wild ferns, and through many coffee farms.

The natural wonders of Puna make that district the most interesting spot in Hawaii. One can spend a most delightful day exploring the underground caves, swimming in the famous Hot Springs and resting on the cool shores of Green Lake.

Excursion tickets between all points are sold on Saturdays and Sundays, good returning, until the following Monday noon.

Commutation tickets, good for twenty-five rides between any two points, and thousand mile tickets are sold at very low rates.

DIVERSIFIED INDUSTRY.

As Brought to Perfection on Horner's Ranch in Hamakua.

Our first business after lunch was to visit the duck pen more than a mile from the house. Mr. Horner showed me first his stock which he has kept for breeding purposes, fifty pure white Pekin ducks, many of them nearly as large as a goose. In a pen adjoining he has about 300 fine ducks for sale. All of these ducks average at least two pounds heavier than the ordinary duck. It was a beautiful sight, 300 pure white ducks and all of them perfect beauties.

In a smaller pen there were young ducks from a few days old to six or eight weeks. All the water these ducks have is just what they need to drink. All of these ducks were hatched in incubators and raised by brooders. The first year, Mr. Horner started with two ducks and one drake and raised eighty ducks.

Next we visited the turkey department. Here were, large and small, about 400 turkeys. To one not used to so large a flock it seemed as if there must be at least a thousand. They were very tame and came all around us. It did seem as if Hawaii at least could be sure of turkeys enough for thanksgiving and Christmas.

The entire fifty acres is fenced with poultry fence wire, one inch mesh. At the bottom it is buried one foot under ground to keep the mongoose out. These turkeys make their own nests anywhere in the enclosure and raise their young with very little trouble.

Before leaving the poultry department I would like to state that the market price for ducks, turkeys or chickens is 25 cents per pound, delivered in Hilo. It sounds rather high, but it is as cheap as they can be bought anywhere. A four-pound chicken will bring \$1 in Hilo or vicinity any day.

Next we visited the hog department. About ten or fifteen acres are enclosed with hog wire fencing. Here Mr. Horner showed me some very fine young pigs, weighing about 150 pounds each, just imported. These pigs were of the Berkshire breed, with short nose and slim well shaped legs. These pigs cost from \$30 to \$40 each in Los Angeles, so you see good stock comes high. The ranch always has some pigs for sale. I visited one other pen. Here were some large imported boars and a few breeding sows. The bulk of the hogs were in another field which I did not have time to visit.

While we were waiting for a herd of Herford cattle to be driven into the corral, Mr. Horner showed me his dogs. He has four as pretty collies or sheep dogs as any one would wish to see. Two of them just imported from Oregon. Then we saw the fox hounds, which were imported to get the wild cattle from the thick forest land. They are very keen of scent and never leave the trail of an animal after they start until it is found. He also has some beautiful bird dogs, retrievers I believe. They are more delicate in build than the hounds, and have intelligent expression and bright eyes that make friends with you at once. Six of these retrievers are in a large kennel, and next to them are the six fox hounds. The collies went with us around the place. They were all so eager to get out for a run it was quite exciting. He also showed me two wild dogs which had been caught on the mountain while they were pups. They were large dogs and resembled the mastiff breed more than any other. Just as we had finished looking at the dogs the cattle began to arrive.

They are immense, some of them weighing nearly two thousand pounds. When dressed as beef they weigh about twice as much as the common Hawaiian cattle. They were nearly all of one uniform color, brick red with white faces and legs. I am not much of a cattle man, but it does not take an expert to see and understand that this is indeed a superior breed of beef cattle. They were all in perfect condition. Fat enough for the butcher any one of them. These cattle were imported from Michigan

and cost \$400 each there. It costs no more to raise good stock than poor stock. They eat no more and grow to twice the size.

This ranch is certainly an ideal spot for carrying on of diversified industries. Besides what has already been mentioned there are quite a number of other cattle raised. Mr. Horner says he can not get sale for all of his fresh butter, but has to salt some of it down. One would naturally suppose this first class butter would take the place of the imported article, which certainly is no better or cheaper.

On the return trip I stopped with Mr. Blacow, who is also in the chicken business and making quite a success of it and has many young chicks and ducks, also a few tons of honey.

In closing this article I wish to thank Mr. Horner for his hospitality and kindness in showing me about the place.

A SUBSCRIBER.

Some Kauai Failures.

News comes from Kauai that, within a very short space of time, three Oriental firms have failed there and have been closed up. The largest of these is Tan Wo of Hanapepe, who has been living on Kauai and conducting a dry goods business for the past fifteen years. He is a very well known Chinaman, is interested in the rice planting business on the Garden Isle and, until recently, was supposed to be in excellent circumstances financially.

A short time ago Tan Wo was sued by a Portuguese for the recovery of certain money alleged to be due him and a judgment of \$300 was rendered in favor of the plaintiff.

This was the beginning of his fall and on Friday last Tan Wo was closed up. On investigating the affairs of the store, it was found that the liabilities were about \$4000 and the assets \$1000 so that some of the wholesale houses in the city are in for losses.

Kong Kee of Elele has also failed. His liabilities are about \$1000 while his assets amount to about \$150.

Murata of Kekaha is the only Japanese failure reported. The total amount of liabilities has not yet been learned although it is known to be very large.—Bulletin.

Pain-Killer, so justly celebrated was introduced to the public about sixty years ago, and now enjoys a popularity unequalled by any other medicine. For the cure of dysentery, cholera morbus, rheumatism, coughs and colds, scalds, burns, etc., it is without an equal. Sold by all druggists. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. Price 25c. and 50c.

MAJOR ON FILIPINOS.
People Are Thirsting After Enlightenment and Are Moral.
Among the passengers in the transport Buford is Major Gardener, 13th U. S. Infantry, whose report on the "water cure" has created such a stir in military and other circles on the Mainland. Major Gardener is on his way to San Francisco where he has been ordered to report on duty at the adjutant general's department. He does not know if any further action will be taken with regard to the report.
Major Gardener when seen by a Bulletin reporter this morning was reticent with regard to the report but spoke about the Philippines in an exceedingly pleasant and courteous manner.
"I do not wish to express myself with regard to the report," he said, "as I believe that this would be a very inopportune time for me to refer to it. I was ordered to write a report about the Philippines. I was then civil governor of the Province of Tayapas, in Luzon, and in writing my report I gave my views and spoke of the people as I saw and knew them. Other people may have only did my duty in giving mine."
"I arrived in the Philippines about three years ago, coming through here in September. I have served in the Philippines in both military and civil capacities. As civil governor I had no military duties whatever and came in very close touch with the Filipinos. I think that these people have many good traits and consider that the civil government will be highly successful. Now the war is over and things are quieting down, we are able to get a better and broader view of these people. In war time, it is the general custom to decry the enemy. Now we are able to see that he has many good points. "The Filipinos are highly moral and the observance of what western civilization has done for Japan and other Oriental countries has made them fairly thirst for education. This, of course refers to the people in the cities who are of greater intelligence than those in the country. In the cities the Filipinos come up in intelligence to the ordinary standard of Latin races, and with their thirst for education, which has so long been denied them, they are bound to make rapid progress. A number of young Filipinos are at present going to the United States to get college educations, the majority of them going to Ann Arbor where there is quite a colony of them."
The civil government in the Philippines seems to be on the road to success. While it is as yet undecided what the ultimate future of that country will be still things are progressing favorably.
"While I was civil governor I followed closely the policy of the United States, such as I heard outlined by the utterances of President McKinley and President Roosevelt. When the policy of the Government is definitely outlined the progress of the country will undoubtedly be rapid."
Major Gardener spoke enthusiastically of Honolulu and the progress made by this city since his last stay here three years ago. The major has several friends here and speaks of his stay as a great pleasure.—Evening Bulletin.
OLAA'S CANE SHOWING.
Estate Will Produce More Than Estimated Crop and Outlook is Highly Satisfactory.
Olaa plantation is in excellent condition, according to the reports brought down by recent visitors and the condition of the cane and the physical shape of the estate are such as to excite the most favorable comment. Messrs. M. P. Robinson, A. J. Campbell and Elmer Paxton made a special trip over the plantation, returning to the city this week, and their statements concerning the estate are the most rosy.
The cane is good, the prospects for a fine crop and the ratoons are making such growth as to promise even better returns to the plantation than has come from the plant cane. Mr. Paxton, who is the treasurer of the company, said concerning his trip yesterday:
"The grinding of the first crop of the Olaa Sugar Company, Ltd., will be finished in about three weeks. Up to August 20, there were 17,329 tons manufactured—about 1250 tons being ground at Waiakea. There is estimated to be about 1200 tons yet to take off, which gives a total of 19,729;

in addition to this 500 tons or more was cut for seed.
"This is nearly up to the estimate made at the beginning of the year for the first crop, and considering the fact that a very small amount of fertilizing was done, and also the fact that the soil is virgin forest land exposed for the first time in ages to the action of the sun we consider the results very satisfactory."
"Another fact that has been demonstrated is that the quality of the cane is about the same at all elevations of the plantations, and if any difference the mauka lands show the best results. We are planting Lahaia cane to an elevation of about 1000 feet, and above that Caledonia and bamboo canes.
"While it is too early to make even an approximate estimate on the yield of the crop for 1903, I might say that the area will be about 4250 acres; added to this will be the crop from Puna—about 1000 acres—or a total of 5250 acres. The cane in general is looking well and the fields are in good condition.
"The experiment of other plantations, especially with soils similar to that of Olaa, has shown a marked increase of yield with cultivation and fertilization. Even on Ewa plantation, the average yield in 1894 was 6.96 tons against their present enormous yields.
"The decline in the value of the stock owing to the assessments being called under the general depressed conditions has probably given rise to rumors adverse to the financial condition of the company. While we do not consider it our duty, as agents, to run down street rumors, we are always glad to give information at hand to interested parties who may apply for same.
"The Olaa Sugar Company, Limited, will begin on its second crop with a balance to its credit of say from \$100,000 to \$150,000, and all improvements and floating indebtedness paid. There will be no heavy expenditures for permanent improvements during the coming year, outside of the railroad line below the mill costing say \$40,000, for the purpose of taking off the cane which cannot be reached by flumes.
"The mill has worked almost without a hitch since it was turned over to the company in January, and we think the result of the first years' grinding will compare favorably with any mill in the island.
"The area of the third crop will be about 5000 acres, exclusive of Puna Sugar Company and outsiders, which will be about 1800 acres. The planting is nearly finished and the prospects for an increased yield per acre are very good."—Advertiser.
THEN AND NOW.
Progress in One Line Should be Accompanied by Others.
The hat your father wore Is not fashionable today.
In this strenuous age of Wilder steamships and the Marconi wireless system the customs and usages which satisfied our fathers won't do. It required from five to six months time for our pioneer fathers to cross the American continent in an ox cart, while today a "Pullman" is hardly good enough and fifty miles an hour is slow time. Our ancient Hilo "nabob" voyaged to Honolulu in his "waa" propelled by the muscle of his brawny retainer. Today we sail in the palatial Claudine—and she is none too good. Today the man who makes two bushels of taro grow where only one grew before is a public benefactor. Inversely, a man who makes a saddle which will cause no corns to grow where two grew before is a genius who should be honored in this as he is in his own country. The man who sells it should be patronized if for no reason but consideration for your own comfort, safety and satisfaction.
Such a saddle is manufactured by the Geo. Lawrence Co. of Portland, Oregon, sold by L. K. Pearson of Hilo, Hawaii, and guaranteed by both.
For further particulars call and see the real thing itself. I have other good things in saddlery. Have a large assortment of harness on hand and more coming. The work and material are guaranteed and the prices—well the prices can't be beat.
L. K. PEARSON,
Next to the Bank.
