Mortgagee's Notice of Foreclosure.
In accordance with the provisions of a certain purchase money mortgage made by C. S. Shanklin of Chicago, State of Illinois, to A. Zimmerman of Olan, in the Island of Hawaii, Territory of Hawaii, bearing date the 25th day of January, A. D. 1899, and recorded in the office of the Registrar of Conveyances at Honolulu, in the Territory of Hawaii, on the 5th day of June, A. D. 1899, in liber 196, at pages 32, 33 and 34 thereof, notice is hereby given that the mortgagee intends to foreclose said mortgage for a breach of a condition thereof, to-wit: The non-payment of certain interest thereon, which became due and payable on May 16th, A. D. 1902.
Notice is also hereby given that on Tuesday, the 25th day of November, A. D. 1902, at 12 o'clock noon, at the front door of the Court House, in the town of Hilo, Island and Territory of Hawaii, that all and singular the lands, tenements and hereditaments covered by said mortgage will be sold at public auction to satisfy said debt, interest and expenses of sale.
The property described in said mortgage and which will be sold at said time and place is described as follows:
All of Olan lots No. 77 and 82, containing 99.67 acres and more fully described in Patent No. 4026 to A. Zimmerman and Annie Zimmerman, also all of Olan lots No. 88 and 89, containing 96.30 acres and more fully described in Patent No. 4027 to A. Zimmerman and Annie Zimmerman. All of said lands being situate in the District of Puna, Island and Territory of Hawaii.
Terms of sale, Cash U. S. Gold Coin.
A. ZIMMERMAN,
Mortgagee.

PARDEE ELECTED.
News of the Election From the State of California.
San Francisco, Nov. 7.—The Associated Press, which tabulated the returns on Governor, reports that while Pardee's majority over Lane may not be as large as his supporters expected, there is no doubt but that the vote will show that he has been elected Governor. Although the returns from ninety-one precincts received up to noon today showed only a gain of five votes for Pardee, making his total lead up to that hour 794, the full returns from Los Angeles county, having materially changed the aspect. Sixty-nine additional precincts from Los Angeles county, received afternoon, gave Pardee 5489, Lane 4431, a gain of 1055 for Pardee. The plurality for Pardee appears to be 1701. It is probable that fuller returns from Humboldt will increase it and bring the figure nearer to 2000. It is not likely to exceed that number.
Additional returns from twenty-three precincts in the First Congressional district gave Gillette (R) 1490 and Ford (D) 1351. This brings Gillette's total vote up to date, 12,341; Ford's total vote up to date, 11,120. Gillette may be expected to gain still more, as a large portion of the vote of Humboldt county, in which he is running ahead, remains to be heard from.
Additional precinct returns from the Second Congressional district bring the vote for Coombs up to 15,755; Bell, 16,439. As Bell's gains continue, there is now apparently no doubt but that he has defeated Coombs.
THE VOTE ON AMENDMENTS.
Complete returns on the vote for amendments have been received from four large counties, including San Francisco, Los Angeles, Sacramento and San Joaquin. They clearly show the drift and enable us to state that the fate of the amendments was as follows:
No. 1, authorizing a State tax for high schools and technical schools—carried.
No. 2, providing for the division of the State into fish and game districts—carried.
No. 3, exempting State, municipal and district bonds from taxation—carried.
No. 4, providing that charters may be ratified by a majority of electors voting thereon—carried.
No. 5, fixing an eight-hour day for labor on public works—carried.
No. 6, authorizing use of voting machines—carried.
No. 7, providing for the construction and maintenance of State highways—carried.
No. 8, relating to the creation of a State commission to take charge of transportation and other companies—overwhelmingly defeated.
No. 9, providing for the abolition of grand jury prosecutions—in doubt, but probably carried.

DOWN WITH BALFOUR.
Appeal for Funds to Irishmen of America.
Boston, Nov. 6.—An appeal to the Irish people of America, asking for money for a new fund to "destroy Balfour politically" has been issued by the National Committee of the United Irish League, which is located here. It is in part as follows:
The English Minister, in the plenitude of his power and the cruelty of his arrogance, has put an insult unparalleled even in the annals of Anglo-Irish relations upon Ireland. He must be hurled from political power as Parnell alternately hurled both Salisbury and Gladstone in 1885 and the succeeding year. Balfour has gone much farther in official brutality than any of his predecessors.
We can destroy politically if we unite against the English ruling classes as they have united against Ireland.
Therefore, we call upon every man and woman in America in whose veins courses a drop of Irish blood to give to the cause of Ireland according to the means which God has given to them. There is no time to lose.

ODELL ELECTED.
Decided Weakening in Democratic Threats of Contest.
New York, Nov. 6.—Corrected returns received from the State make Odell's plurality 11,262.
Chairman Frank Campbell of the Democratic State Committee, Secretary John A. Mason and Elliot Danforth were in conference today. Campbell afterward issued the following statement of the position of the State committee upon the results of the election:
"After having carefully examined the returns gathered by John A. Mason, secretary of the Democratic State Committee, as filed in the several clerks' offices in the different counties of the State, it appears on the face of the returns that Odell has a plurality of 9,122. These figures do not include in some of the counties the vote cast by the Greater New York Democracy ticket, which has on it the name of Bird S. Coler for Governor. This will materially reduce this apparent plurality.
"We have reliable information of thousands of defective ballots having been cast, and in certain districts, where the returns were strongly Republican, the ballots were burned by the inspectors immediately after they were counted, which is a direct violation of law, as they should be kept six months by the proper officials before being destroyed. These facts and all others will be thoroughly investigated by representatives of the party, who will appear before the canvassing boards in all the counties of the State on next Tuesday to see that an honest count is had, and until that time the actual results cannot be stated."
Campbell would add nothing to the above statement. The dismantling of the State headquarters followed soon after the issuance of the statement.

CABLE COMPANY TROUBLE.
Government Hears of Alleged Combination With British Trust.
Washington, November 6.—Attorney General Knox has so far had no intimation from the Pacific Commercial Cable Company as to its disposition to accept the terms offered by the President on August 9th as a prerequisite to permitting that corporation to lay a transpacific cable and land it at Hawaii, Guam, and the Philippines.
The President's stipulations required such guarantees on the part of the company as would insure preference to the United States in time of war, and would prevent the control of the line from passing to any foreign concern or association. The Administration has become aware that the officers of the company have wholly ignored the President's conditions and are going ahead apparently in combination with the British Cable Trust.
The Navy Department, whose elaborate surveys for the Pacific cable were donated to the Commercial Cable Company, has just learned that the British cable steamer Colonia, after finishing its work on the Vancouver-Australia line, left Hawaii ten days ago to survey a line via Midway and Guam to the coast of Luzon. This and other evidences of "community of interest" with the British line may be the subject of inquiry on the part of the Department of Justice.

CONGRESS SAFELY REPUBLICAN.
Protection Party Will Have a Majority of Nearly Thirty.
Washington, November 5.—The latest returns received up to 10:30 p. m. show that the Republicans (including in this description the fusionists elected in Pittsburgh-Allegheny districts in Pennsylvania) will control the next House by a vote of 204 Republicans to 179 Democrats, with one district, the Eighth Tennessee, and two California districts remaining so much in doubt that the official returns will be needed to decide the result. The totals given are believed to be correct, although there are a few districts, such as two in Colorado and one in Minnesota, where the Republican and Democratic managers do not concede defeat, but the general results could not be effected.

SPEAKERSHIP.
Republicans Likely to Choose Veteran Cannon.
New York, Nov. 6.—A special to the Tribune from Washington says: Republican politicians in Washington are already discussing the organization of the House of Representatives in the Fifty-eighth Congress, although, unless the President should call an extra session, it will be more than a year before the newly elected House is organized.
Not only must a new Speaker be elected, but there must be a general re-arrangement of the committee places as the result of changes in the membership of the House. For the Speakership the names under discussion are those of Representative Cannon of Illinois, Dalzell of Pennsylvania, Payne and Sherman of New York and Littlefield of Maine.
Kaiser Leaves for England.
Kiel, November 6.—Emperor William left here tonight at 10 o'clock on board the imperial yacht Hohenzollern for England, where he will visit King Edward. A fleet of British torpedo boats will meet the Hohenzollern in British waters and escort her to Sheerness. It is expected that the Emperor will remain at Sandringham as the guest of King Edward until November 16th, when he will go to Lowther Castle to visit Lord Lansdale.
Touch at Guam.
San Francisco, Nov. 1.—More than 200 army officers and civilians have been booked to depart on the transport Logan tomorrow, and in addition there will be seventy casualties in the steamer. The cargo of the Logan amounts to 3,000 tons and includes 1,500 tons of oats and a large quantity of farming implements. The Logan will touch at Guam.

BEEF SUGAR TRADE.

Brokers Say Eastern Shipments Will Not Reduce Prices.

New York, Oct. 22.—The report that the beet sugar refiners of California have begun sending granulated sugar to New York, with the idea of competing with the local refiners in the latter's own territory, is not generally regarded by the trade here as an important factor in the market conditions, nor is it believed that a decrease from present list prices will result from this situation.

As a matter of fact, there has always been a spirited rivalry between the Eastern sugar refiners and the beet sugar manufacturers for the possession of the interior markets, but until this year very little beet sugar has found its way as far east as the seaboard in competition with the cane product.

Most of the beet sugar produced in California and the Far West has heretofore found its way to Kansas City, and from there to St. Louis, and even as far East as Chicago.

This year, however, the Western crop has been unusually large, both as to area and yield, and after the product had been shipped to Kansas City and vicinity it was found that there would be quite a large surplus over the consumptive demand at that point. It is this surplus which is being utilized to find a sale in the New York market.

While only two shipments have thus far been arranged for, each of 1,000 tons, the first to come by steamship around the Horn and the second by the Southern Pacific Railroad to Galveston, and thence by steamship here, it is stated on good authority that this is only the beginning of a movement in this direction.

What proportions the movement may eventually assume can only be conjectured, but it is predicted by those in a position to know that the extent of the invasion will not be of sufficient importance to cause the combine to cut its local prices.

In speaking of the present situation a broker, who is well acquainted with all the existing facts, said:

"The American Sugar Refining Company is not using the Missouri River as a barrier against shipments of beet sugar east of that point, as has been stated.

"It simply takes the stand that it is entitled to a fair proportion of business in any markets in which the freight rates from its various refineries will allow it to participate.

"It is making a price of 4.50c per pound on Missouri River points and is shipping sugar there, not by lake and rail, but by slow routes. The interior of Missouri is being supplied with shipments from New York via Galveston.

"Mississippi River points from New Orleans to St. Paul are supplied from the refinery at New Orleans.

"It is true that the American Co. did have great difficulty last year in selling any sugars in the beet sugar territory, for the reason that the beet contracts guaranteed a lower price than any the American companies could possibly name. In fair competition they then retaliated by cutting prices to a point that would deprive the beet interests of any profits.

"Such a state of affairs, of course, caused a general demoralization of the interior markets, but it now appears that the rivalry will be more above board this year. As to affecting the local market it is out of the question."

A man closely identified with beet sugar interests, who was interviewed today concerning the proposed invasion of this section of the country, ridiculed the idea that the development in the present contest was in any way spectacular.

"It is simply a question of supply and demand," he said, "and we intend to market our product wherever we can get the best price."

"The beet sugar yield has been unusually large this year, and all beyond the consumption of the West and middle West will probably be shipped to New York. It is only fair competition and not the inauguration of a sugar war in any particular."

"It is an old established rule that beet sugar always sells at 10 points below the price of sugar manufactured from cane, and the fact that beet sugar sold in the West last year 10 points below the American Sugar Co.'s quotations on the day of delivery did not mark the inauguration of any new theory."

FIGHT IN SUGAR.

Shipment of Refined Beet Sugar to Atlantic Market Causes Cut.

New York, Nov. 6.—After years of mimic warfare for local stock market purposes, the sugar trust at last faces a real enemy in the person of Oxnard and his hosts of the beet sugar trust. Havemeyer, general for the old trust, today began active defensive operations by cutting the prices of granulated a further 10 cents a hundred pounds and discontinuing guarantees.

This is expected to demoralize the trade, so that when the shipments made to this port by the beet sugar trust arrive there will be no market except at a figure below the price of production. At the same time the Havemeyer trust has cut the price at the Missouri river, where the two sugars meet on equal terms. Willett & Gray, who are popularly supposed to represent the old sugar trust, will say today in their circular:

"None of the refined from California has yet arrived, and the action thus far of the refiners can only be considered as preparatory to the actual conflict when the sugars come in.

"It goes without saying that another cut in the price of refined at the seaboard is only a question of a few days, and one of the sharpest fights in the history of the sugar trade is undoubtedly near at hand.

A Unique Monument.

There are eighteen graveyards in the town of Windham, Me., and the strangest device of all to mark a burial spot is to be found in the old Smith graveyard, which is situated some fifty yards back from the highway. This is a comparatively large and handsome yard, says the Boston Transcript, containing several costly and imposing monuments, including that erected to John Anderson, soon after his death in 1853. In this yard Charles H. Hunnewell owns a good sized lot nearly in the center. In the middle of the lot he has set up on a brick base a large open fire place, with the long crane hanging in the upper part. This fireplace did duty in the old Hunnewell house, which is still occupied by Mr. Hunnewell and family. The old bricks in front of the fire place are the ones originally used in the house, as are the andirons which impart to this strange monument such a—if the word is permissible in this connection—hospitable look. The frame which is inserted in this great open fireplace contains a printed record of eight generations of Hunnewells, or from 1664 to November 1, 1901, a period of 247 years. In addition, the frame contains—surrounding the family record on all sides—pictures of the oxen, cows, hogs and poultry owned by Mr. Hunnewell, and which drew prizes at the fairs. There is also a large picture representing a farm scene in winter. The frame contains pictures of seven hens, two hogs, four cows, six oxen in single pictures and one group of various domestic animals.

Captain Griffiths Dead.

San Francisco, Nov. 6.—Captain T. H. Griffiths, commodore commander in the service of Williams, Dimond & Co., is dead. Full of years and still in active service, he passed away on November 1, 400 miles off Cape Blanco on board the bark Kaiulani. The Kaiulani, which left Seattle two weeks ago for Honolulu, in command of Captain Griffiths, put in here yesterday to land for burial the body of the late skipper. He died quite suddenly and from causes unknown. He had been suffering from stomach trouble and it is thought that this contributed to his taking off. He was 70 years of age, a native of Wales and leaves a wife and daughter.

Rheumatism has been cured in a multitude of cases during the past sixty years by PAIN-KILLER. This potent remedy rubbed vigorously in and around the suffering parts, will relieve all stiffness, reduce the swelling, and kill all pain. The most stubborn cases yield to this treatment when persevered in. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. 25c. and 50c.

BEAMER'S Christmas Suggestions

Buy your husband a pocket knife
Buy your wife a pair of scissors

CONTINENTAL ROAD. COOPER IS INDICATED.

Plan for Railroad to Parallel Canadian Pacific.

Quebec, Nov. 6.—Upper Canada is to be tapped by a new railroad that will span the North American continent and discharge its traffic at either the Atlantic or Pacific seaboard.

The new line is called the Transcanada Railway and will be extended from Quebec on the east to Fort Simpson on the west.

The line from Quebec to Fort Simpson will be 284 miles shorter than from Quebec to Vancouver by the Canadian Pacific. From Quebec to Yokohama, via Port Simpson, the distance will be about 722 miles shorter than from Quebec to Yokohama via Vancouver.

The new road will be England's answer to Russia's Transsiberian Railway. It is said that England, using the new line, could put troops into Manchuria, for instance, four days sooner than Russia, by using the Transsiberian road, could place troops from Moscow in Vladivostok.

Work on the new road was begun on June 28, 1901. The projectors expect to have the road ready for business from one end to the other in 1907.

The road from Quebec to Port Simpson, a town in the west central part of British Columbia, on the Pacific ocean, will be 2,330 miles long and the estimated cost of construction will be \$96,750,000. The officers and directors of the road are all Englishmen and Canadians, with the exception of George Early Church, an American.

The line as projected will parallel the Canadian Pacific and will cross the continent almost on a straight line about 280 miles to the north of the latter road.

Fall Hunting.

Nearly every lover of the gun and rifle has a choice of the game he will pursue, says Country Life in America. This one is never so happy as when marking down a covey of quail. To another the prairie chicken, or, if he be Eastern bred the ruffed grouse, furnishes the keenest sport. In a third the flight of wild fowl alone has power to snap the chains of business and send him forth into the marshes. With others it is squirrel shooting, the pursuit of rabbit with beagles, riding to hounds in the chase of Sir Reynard, while the lover of the rifle and the eternal mystery of the deep woods finds no such pleasure as in the pursuit of big game—moose, bear and deer. Many there are to cry down the hunt as catering to barbaric and the least human of the instincts which are the endowment from our forefathers. Therein do they do grave injustice to a class wherein are found some of the truest gentlemen and noblest natures whom we delight to honor. They do gravely mistake the motive which sends the true sportsman afield when he hears the challenge of the quail. It is not the mere desire to kill; in truth, that were butchery. But, rather, it is the longing to match skill and slowly acquired knowledge of the ways and habits of the little brown birds against their swift wings and inherent cunning which for lack of a better term we call instinct. And beyond even this, it is for the pleasure of being afield, for the surroundings, the setting of the favorite sport, for the bracing air and for the knowledge of the great outdoor world which every tramp with dog and gun increases. So the true sportsman takes an honest pride in his skill, so be it his eye has been true and his hand steady while he gave his bird every chance of a fair flush. But, so be it that he misses, his chagrin is tempered with respect for and a certain satisfaction in the escape of the little wild life which has proved more than his match. And though his bag be light he will return home in the gloaming contented in mind and once more a simple child of nature.

London Crime.

Rarely does any official report contain such depressing matter as that on prisons just issued from the Home Office, says the London correspondent of the Baltimore Herald. It formally records that during last year the number of people in prison increased by between 17,000 and 18,000, as compared with the previous year. In London criminality had so largely increased that between 3000 and 4000 prisoners of both sexes have to be transferred to provincial jails for lack of adequate accommodation in the metropolis. Nor is this terrible growth of lawlessness of an abnormal character; it appears to have acquired normality, judging from the fact that the number of London commitments increased from 38,373 in 1891 to 53,591 in 1901.

The Gift of Carnegie.
London, Oct. 31.—The statue of John Bright, which has just been placed in the House of Commons, is the gift of Andrew Carnegie.

AN AFFIDAVIT STUDY.

Ex Governor Horace Boies of Iowa has an almost national reputation as "The man with a face like an Affidavit," so noble and sincere are his lineaments when expounding a political opinion. The affidavit below would make the ex-governor doubtful of the complimentary nature of such a cognomen.

The affidavit below will bear analysis, that is to say its analysis will yield stupendous amusement to the analyst.

Note the sworn statements of an Inspector of Election: "ballots were rejected which should have been counted," ballots for Senators, for trivial defects were discarded; "reasonable or liberal construction would have led to their retention;" "ballots for Desha were rejected to avoid complications;" "for the sake of expediency numerous ballots for Senators were thrown out;"—but read the affidavit. If it does not make out a case of self conviction of unfitness to discharge an office of public trust, then I am a discarded ballot yelling for the Right of Franchise. Read the affidavit:

"J. T. Stacker being first duly sworn deposes and says:

"I was one of the Inspectors of Election held on Tuesday, November 4th, 1902, in the Fourth precinct, First Representative District, Island and Territory of Hawaii. I was present immediately prior to and at the time of the opening of the polling place at Hilo Court House, Hilo in the Fourth Precinct aforesaid, and as one of the Inspectors of Election assisted in the conduct of said election held in the said Fourth Precinct on the date and at the place aforesaid; I was present at and assisted in the count of ballots for Senators at the close of the poles in the said election, and I am informed and do believe that a considerable number of ballots were rejected which should have been counted; ballots for Senators for trivial defects or informalities were discarded and rejected from the count, which a reasonable or liberal construction of the intention of the voter would have led to their retention; that a number of such ballots for Stephen L. Desha (Kiwini) were erroneously rejected from the count, to avoid any complications or objections which might arise afterwards; and for the sake of expediency numerous ballots for Senators were thrown out as doubtful, when a proper or reasonable discretion would have admitted them. I therefore firmly believe that candidate Stephen L. Desha (Kiwini) suffered in the count of ballots in the Fourth Precinct by reason of a too strict construction of the rule with reference to the rejection of ballots in his behalf; the rejection of said ballots, however, was entirely voluntary on the part of the Inspectors of Election and was not on account of any objection or protest of any Candidate or member of any political party.

"J. T. STACKER.
"Subscribed and sworn to before me this 13th day of November A. D. 1902.

"THOS. C. RIDGWAY,
"Notary Public."

Geo. Kaihinui made a similar affidavit with wording almost exact as above.

Wm. Vannatta, the third Judge of Election made no affidavit as to the matter.

PROCEED RIGHT.

The affidavit of Hilo's election inspectors is published in the TRIBUNE today, not for any effect it may have in the movement on foot to set aside irregularities or illegalities that may have been in the conduct of the election. Whatever was wrong should be straightened out. But in the business of counting in candidates who have already been counted out, the Republican party can afford to proceed only upon the most solid grounds. The TRIBUNE has little faith in a proceeding based upon an election official's sworn impeachment of his own work. The affidavit smacks too much of expediency and shows no evidence of an acquaintance with principle or good faith.

A FEARLESS JUSTICE.

The organ of the Dole oligarchy in this city takes it very much to heart that Justice Galbraith of our Supreme Court writes dissenting opinions, differing widely from the other two members of the Court. This criticism is not surprising since to Dole and his followers the Constitution and laws of the United States are very distasteful and the direct and unanswerable way in which Justice Galbraith discusses the law, causes the teeth of more than one individual in this Territory to chatter. Justice Galbraith is evidently of the opinion that if the plain language of statutes is to be departed from whenever the political ideas of the members of the Court or special modes of legal thinking require it, the criticisms in his dissenting opinions should be frank, vigorous and unmistakable. Judge Galbraith, who is by far the ablest member of our Supreme Bench, no doubt realizes that the value of a judicial opinion arises from the character of the court that delivers it. He has accordingly acted in all cases.

TOURIST ACCOMMODATIONS.

If Hilo wants tourists as a returned visitor says, the sooner she reopens the hotel the better. The Advertiser has heard of several people and presumes there are many more, who have been deterred from going to see the Volcano by the fear that lodgings at Hilo could not be had. Even the assurance of furnished rooms and a chance to go out to meals has not reconciled them. Tourists must have hotel accommodations in civilized lands or they will stay away; and the sooner Hilo appreciates that fact, the better for her revenues.—Advertiser.

On account of the refusal of the Honolulu owners of the Hilo hotel property to make certain business concessions to would-be lessees, the hostelry was closed three months ago. Notwithstanding this, Hilo is excellently equipped to care for tourists and transient visitors. All who come will find this to be true.

The Advertiser's remarks however, are sound. Hilo should have the finest hotel on the Islands.

AS TO VANNATTA.

Mr. Vannatta, one of the Hilo election inspectors, takes exceptions to remarks made last week by the TRIBUNE, regarding Hilo's election judges. That the remarks were timely is certainly proved by the affidavits of the two colleagues of Mr. Vannatta. That the TRIBUNE's remarks, at any time, have reflected upon Mr. Vannatta personally or officially is not true. At least it is true that no reflection in his direction was intended. So far as the record shows, Vannatta did his duty. So far as we know he has made no affidavit asserting that he did not do his duty. This is worthy of commendation. What Mr. Vannatta may think of the reflections upon himself, cast by the affidavits of his colleagues is a matter of concern only to the trio and the voting public.

THE ELECTION returns from the States show that if there is any tinkering with the tariff to be done, it will be done by the party of Protection and Prosperity.

A WIRELESS to the TRIBUNE yesterday states that the Grand Jury has found indictments against J. H. Boyd and B. H. Wright.

DELEGATE KUHIO will have a fine working majority on his side in Congress.

Notice to Creditors.

In the Circuit Court, of the Fourth Circuit Territory of Hawaii.

IN PROBATE.

In the matter of the Estate of JOSE GOMES JARDIM, deceased.

GRAND JURY INDICTS BOYD AND WRIGHT.

(Special to TRIBUNE by Wireless Telegraph.) J. H. Boyd and Ben Wright are indicted by the Grand Jury. The Nebraska of the Hawaiian-American line has arrived. The steamship Enterprise made the last trip to San Francisco in nine days. PRAISE SERVICE. Fine Musical Program at Church Next Sunday Evening. The music for the Special Praise Service at the First Foreign Church Sunday will be under the supervision of Mrs. Lewis. In the choir will be, sopranos, Mrs. Bartels, Mrs. Ross, Mrs. Westervelt, and Miss Deyo; altos, Misses Lilinoi, Hapai, Hattie Hapai, Helen Severance and Miss Huggins; tenors, Messrs. Lyman, Beers and Brown; bass, J. T. Lewis and O. E. English. The special music for the occasion will be as follows: Dressler Te Deum.....Choir "Springs Awakening,".....Dudley Buck Mrs. W. A. Madeira. "Lamb of God,".....Mrs. Bartels. Violin Duet—a) "Fregiera".....Schubert (b) "Andante".....Gluck Lieut. B. Pochhammer and Mr. Bartels, organ accompaniment Mrs. Lewis.

HILO BOARDING SCHOOL.

Thousands of Dollars Raised for New Buildings. The alleged dull times in Hawaii have not materially interfered with the successful prosecution of the plans of the Hilo Boarding School managers for new buildings. Superintendent Lyman said this week that only a few thousand dollars are now lacking to enable them to go ahead with the erection of a \$25,000 new hall. Over twenty thousand have been subscribed, three fourths of which was raised in Hilo and vicinity. The work will not be postponed more than three or four months at least. John A. Scott, George Ross, Wm. Pullar and Henry Deacon returned by the Claudine Wednesday night, having attended the planters' meeting at Honolulu. Geo. Ross, manager of Hakalau plantation, arrived by the Claudine from Scotland, where he has been with his family for a few months past. Mrs. Ross will remain in Honolulu until next week. The TRIBUNE is in receipt of David Starr Jordan's preliminary report on the "Fishes and Fisheries of the Hawaiian Islands." It is composed of advance sheets of the United States Fish Commission's report. Edmund P. Dole, Attorney-General of the Territory arrived by the Claudine to spend a part of his vacation on this island. He has a thirty days leave of absence which he will divide between Hawaii and Maui. Mince and Cranberry pies for Thanksgiving day, can be procured at the Hilo Bakery. A Richley has nearly completed the plans for the Hilo Railroad depot to be located up town on the track in the rear of the Post office. The building is to be an architectural gem and will be an ornament to the city. P. C. Beamer gave a delightful dance in Serrao's hall Tuesday night in honor of his birthday. There were twenty couples present. A Hawaiian orchestra furnished good music. Refreshments were served in the hall. Horses in training at the Park and elsewhere for the New Year races are Dixie Land, Frank S., Carter Harison, Way Boy, Acrobat, Time Center and Philip. Jockey Pickett arrived by the Claudine to train horses at the track. The Kinau Saloon has been removed to the point at the junction of Church with Front Street. This makes the third move Mr. Baddaky, the proprietor, has made during the past year and he figures that he is now in the main current. Sam Parker, Jr. was down from Humala Sheep Station this week to take charge of a fine shipment of rams that came by the Roderick Dhu. There were 52 head in all, half of them being Merino and half Cotswold. They will be shipped by the Claudine today. C. O. Ziegenfuss, who came to Honolulu as city editor of the Honolulu Republican and was lately managing editor of the Manila American, died at San Francisco November 6. He was discovered dead in his room at his hotel and is supposed to have committed suicide by turning on the gas. G. H. Paty of Olua was in the city Wednesday, showing no evil effects of his failure to come under the wire first in his race for the legislature. He is up to his neck in plans for raising everything that will grow in the tropics including chickens. He is starting incubators on a scale that will turn out one thousand the coming season and his chicks will be heard from later. It is a recognized fact all over the world that the Italian-Swiss Colony of Asti, California, produce the very best wines. You can satisfy yourself by comparing them with any other brands. These lines include all the varieties of dry, sweet and sparkling wines known, and you can only obtain them at the Hilo Wine & Liquor Co., Front Street, Sole Agents for this Island. The Japanese woman who was poisoned with Captain Andrews and who recovered was taken to the hospital a second time last week. She showed signs in her actions that poison was still in her system. It was surmised that a second attempt might have been made to remove the woman, as her testimony in the case of Mrs. Andrews will be important. She recovered fully in a few days and it is believed that a second effort was made to poison her. Alex. Lindsay Jr. was admitted before Chief Justice Frazar to practice in all the courts of the Territory. He was born at Inverkeithing, Scotland, October 29, 1871, and came to this country in 1881. Mr. Lindsay holds the degree of LL. B. from the University of Michigan and is an admitted law practitioner of that state. Henry Smith, George Lucas and J. L. Kaulukou sign his certificate of character.

THURSTON ON HAWAII.

Ex-United States Senator Gives His Impressions of the Islands. Washington, Nov. 1.—"Scarcity of labor and the low price of sugar have caused financial depression and interfered seriously with commercial operations in the Hawaiian Islands," said John M. Thurston, former United States Senator from Nebraska, who returned to Washington Saturday from a six weeks' visit in Honolulu and other cities in the Islands. "The price of sugar is improving slightly, and the Hawaiians hope to secure changes in their immigration laws which will make it possible to supply field laborers. "The United States must soon take steps to provide running expenses for the island government. This country now collects all the duties on imports, takes the postal receipts and internal revenue collections, and allows the Hawaiian government to get along as best it can. It is run chiefly on warrants, which have nothing behind them. The income of the Islands from duties amounted to something like \$2,000,000 a year. When the United States diverted this income into its treasury the Hawaiians were compelled to tax themselves to replace it. The result is excessive taxation and an insufficient income to meet expenses. "Many of the natives find fault with the present officials. There doubtless are many defects in the government which should be corrected. The natives will never be entirely reconciled to the administration of the missionary party, which overthrew Queen Liliuokalani. They were fond of the old empire. There was enough display about it to please them. They are fond of flowers and music and leisure and do not care to be led into a more active life. Any one who visits the Islands forms a strong attachment for the natives. They are the most hospitable people on earth and will do anything for visitors. Few people leave Honolulu without having chains of flowers thrown about their necks by the natives who line the wharves. Muddled by Wright. Medical Examiners are on an Unlawful Footing. Treasurer W. H. Wright made a muddle of the Board of Medical Examiners in consequence of which the licenses granted to the physicians since June 22, 1901, are null and void and require to be substituted with new ones. Such are the findings and ruling of Acting Treasurer Cooper. The law provides for the appointment of a Board of Medical Examiners to consist of three physicians, on whose favorable report the Board of Health recommends applicants to the Treasurer for a license. Drs. Andrews, Herbert and Cooper were the first appointees, their commissions being dated July 2, 1896, and renewed upon the corresponding date every year thereafter until 1899. It appears that the law now requires the medical examiners to be appointed for a term of two years. Yet Treasurer Wright on June 22, 1901, commissioned a board for three years, consisting of Drs. Andrews, Taylor and Wayson. Mr. Cooper rules that their appointment and holding of office are therefore illegal under such commissions. He says he will make a change in the board, but cannot as yet give the names of those he will appoint. Meantime all physicians licensed for about 17 months past are liable to trouble for practicing without licenses. There must be scores of them in this box. TEACHERS' READING CIRCLE. Large Audience Listens to an Interesting Program. The meeting of the Teachers' Reading Circle Tuesday night was well attended as usual. The program was up to the usual high standard steadily maintained by the teachers in their independent study of general subjects. Under the head of Current Events Miss Potter gave an account of the work now in hand by the British Parliament. Miss Lyman presented a budget of United States and island news. Judge Lyman gave an interesting account of the Pious Fund, which was the subject of international arbitration at The Hague last month. Miss Josephine Deyo continued the talk on Roman history devoting her attention to the Punic wars. Miss Louise Deyo read a paper describing the Coliseum. The water supply of Rome was discussed by Miss Carr. A paper on the Pantheon was read by Mrs. Marsh. Claudine Passenger List. November 19.—John A. Scott, George Ross, Wm Pullar, Henry Deacon, Dr J J Grace, E P Dole, A G Serrao, John Chalmers, August Humburg, E B Baldwin, E T Balding and wife, Geo Kelly, B J Higgins and wife, H A Colville and wife, E W Kamahiki and wife, B Sulce, F B Handy, George Jorgensen, E A Whitney, C A King, P A Schuman, D A Peacock, R B Kidd, Geo K Hooper, Miss Hawley. Outgoing Claudine List. The following passengers left by the Claudine today: W McKay and wife, H A Baldwin and wife, Howard Hitchcock and family, Robert Young, Geo K Hooper, F A Sommers, T J Kingston, Dr Archie Irwin, C N Prouty, Jr, F F Maurg, J M Coulson, R B Kidd, E F Patten, E A Whitney, F C Handy, Dr R H Reid, W A Richardson, Ted Guard, C R Kennedy, Mrs. Anthony and child, Mrs. Murphy and child, Mrs. Jesse Clement. First Foreign Church. Services at 11 a. m. and 7.30 p. m. Morning subject—"Divine Teaching." In the evening there will be a Thanksgiving Praise Service under the direction of Mrs. Lewis. Everybody welcome. F. L. NASH. The Roderick Dhu Captain Engalls, arrived in port Monday, 16 days from San Francisco with a cargo of general merchandise. Two passengers come, Miss Aitken of Hakalau and Mr. Maury. Captain Johnson, formerly of the Dhu, is now Captain of the dock at San Francisco. The Roscaans, of which Johnson is to be the master will be off the repair dock by March 1. The Ladies' Social circle under the auspices of which the Library Benefit Rummage Sale has been conducted are bringing their labors to a close. The sale has been a success over one hundred dollars having been realized. The ladies request that people save all cast off articles for a similar sale to be held within six months.

HILO WANTS TOURISTS.

Charles R. Frazier Fluds the Town Progressive. "The people of Hilo want tourists," says Charles R. Frazier at Honolulu last Saturday. "I found a very hearty co-operation of many of Hilo's prominent business men and besides saw many interesting things that should prove of great interest to tourists if properly presented. Most tourists start for the Volcano of Kilauea and return by the same steamer to Honolulu, but if they had any idea of what they were missing in the way of scenery in and about Hilo, they would quickly change their plans. In the first place, this quick trip is such a hardship on the average traveler that it takes away considerably from the enjoyment and does not give as favorable an impression as it should. A more interesting plan would be to spend a few days in Hilo either before or after proceeding to the Volcano, in which time the tourist could visit the celebrated Rainbow Falls and the great cave or blow-hole at Kaunama. This blow-hole extends for an unknown distance toward Hilo and an exploration of it is extremely interesting. "While in Hilo I accompanied a party over a mile down this cave and we turned back only for fear that the ladies we left at the mouth of the cave would think us lost. We had been walking continually for two hours with torches for light and each new step brought out something new of interest. "Hilo itself is supremely beautiful. It is a garden of the most beautiful flowers and foliage every day in the year. "The drive toward Onomea and the Onomea Arch is another feature about Hilo and then there is a trip down the railroad through beautiful scenery to Puna, where the tourist is shown the Green Lake, set like an emerald in the hollow of an extinct crater, and the Puna Warm Springs. After having seen these things the trip to the Volcano could take up the balance of the time, and there are so many points of interest about the Volcano House, besides the main feature, that they can not possibly be seen in one day. For instance, Kilauea Iki, the sulphur banks, the tree fern forest, etc. Mr. Logan will bring out these points in the tourists' guide and Hilo should certainly get her share of tourists. Those people in Hilo who gave support to this guide-book did so in a liberal and hearty manner and it required only a brief presentation of the proposition to find out whether they were willing to support it or not." WILL SEND J. G. PRATT. Honolulu Merchants Decide to Work With Congress. The joint committee of the Chamber of Commerce and the Merchants' Association met yesterday afternoon for the purpose of considering the matter of sending J. G. Pratt to Washington to work on the matter of the fire claims. During the past month or so the committee has been very busy around among the business people of the city trying to collect funds for the purpose. On almost every hand the committee met with the sentiment that Mr. Pratt should be again sent to Washington and the people seen were willing to subscribe to the fund for such purpose. The result was that when the committee came together yesterday afternoon there was a very favorable report and it was found that enough money for the purpose had been secured. It was therefore decided that Mr. Pratt should be sent forth at the very earliest opportunity and he will sail in the China due here in a few days.—Bulletin. Laundry Changes Hands. Geo. A. Mumby has purchased the Elite Laundry recently established by Messrs. Slyh & Cowl and will make extensive additions of up to date laundry machinery. Mr. Cowl has been retained by Mr. Mumby as manager. During the short time the laundry has been in existence it has grown in popular favor. With Mr. Mumby behind the guns and Mr. Cowl at the wheel it will continue to thrive. Hia Ahi. The natives in Puna have written to secure a place on the program of the New Year races for the almost lost art of producing fire by the friction of pieces of wood, known in native as Hia Ahi. The procedure is a highly interesting one and Mr. McKenzie will doubtless put up purses for an exhibition. BORN. LUDLOFF—In Hilo, Hawaii, November 15, to the wife of Herman Ludloff, a daughter.

Thin Blood

Thin blood always makes trouble. Your circulation is very poor, you have cold hands and feet. Your nerves are weak, you are despondent and discouraged. Your stomach is bad, you have indigestion and sick headache. Your muscles are weak and you can hardly drag about the house. But there is a prompt cure.

Mrs. M. Archer, of Hobart, Tasmania, sends her photograph and says: "My blood was so thin and my circulation was so poor that my fingers were cold and blue all the time. I lost all energy and was almost lifeless. But Ayer's Sarsaparilla soon restored vitality to my whole system. It purified my blood and made it rich and healthy. I believe it is the greatest medicine in the world for the blood."

AYER'S Sarsaparilla

There are many imitations "Sarsaparillas." Be sure you get Ayer's.

To get the best results from Ayer's Sarsaparilla your bowels must be in good condition. Ayer's Pills cure constipation.

SHIPPING COMBINE'S BIG MOVE.

Concern Intends to Reach Out for Trade of South Africa.

New York, Oct. 31.—The first great move of the new International Mercantile Marine Company, the transatlantic shipping combine, aside from changes in the schedule and rates in connection with the handling of its regular business—all of which must be regarded as important—will be to reach out after South African trade on a large scale. In furtherance of this step, the powers that rule the company have decided on the construction of five great ocean carriers which will be employed in this trade.

There are at present six lines plying between New York and South African ports, but the equipment of the International Mercantile Marine Company's South African service will be far superior to that of any other line, both in capacity and dispatch in transportation.

The officials of the company are not ready to discuss this plan for getting the South African trade, nor even to admit that its formation has advanced far, but there is no doubt that it is well in hand and will be carried out as quickly as the ships can be procured.

All nations recognize that during the next few years there is to be a wonderful development of the resources of the South African territory and that as a consequence there will be a remarkable growth in the volume of the South African trade. America has been counting on a large share of this trade, and the move on the part of the International Mercantile Marine Company will facilitate greatly the fulfillment of American hopes in this respect.

BOERS NEED HELP.

Botha Writes to Chicago That He is Coming to America.

Chicago, Nov. 2.—Peter Von Vlissingen of 172 Washington street, this city, who has been prominently identified with the Boer relief measures in this country has received the following letter from General Louis Botha, dated London, October 23:

"Dear Sir:—Your letter of the 23rd ultimo reached me a few days ago, and I must thank you for your kindly interest. I still intend visiting America, though it is impossible for me to do so just yet. Just when I do come I hope to meet you, or at least to come into communication with you.

"I wish to avail myself of this opportunity to express our gratitude for what you and your committees have hitherto done for us, and to tender you our hearty thanks. I can assure you that if during the year it was necessary to render us assistance, there are now much stronger reasons for doing so to help our people on their legs again, and I note with pleasure that we may count on you. Believe me, yours truly,

LOUIS BOTHA.."

Dole's Proclamation.

Honolulu, November 11.—Governor Dole yesterday issued a proclamation calling for the special session of the Senate that has been the talk of the streets for the past three or four days. Following is the call issued by the Governor, the date for the coming together of the Senate being set for the 20th inst.:

PROCLAMATION.

I, Sanford B. Dole, Governor of the Territory of Hawaii, by virtue of the authority in me vested by law, hereby convene the Senate in Special Session on Thursday, the twentieth day of November, A. D. Nineteen Hundred and Two, for the consideration of such public business as may be brought before it.

In testimony whereof, I have hereunto set my hand (Seal) and caused the seal of the Territory of Hawaii to be affixed.

Done at the Capitol in Honolulu this Tenth day of November, A. D. 1902.

SANFORD B. DOLE, By the Governor, HENRY E. COOPER, Secretary of the Territory.

DEATH OF OTTO ISENBERG.

Pioneer Planter Dies Suddenly at San Francisco.

San Francisco, Nov. 5.—Otto Isenberg, a well known pioneer planter of the Hawaiian Islands, died suddenly yesterday morning in his room at the Occidental Hotel. His death was due to an attack of heart failure and dropsy.

The deceased had been traveling through Europe for the last year with his wife and four children and arrived in this city on October 19, intending to sail on the steamship Alameda, which left last Saturday for Honolulu. Owing to his poor health he was compelled to postpone his trip, but sent two of his children ahead on the Alameda, his wife and two youngest children remaining here with him.

Otto Isenberg was born in the province of Hanover, Germany, in May, 1844. The father of the family was a clergyman, and wished his sons to study the classics, but the third son, whose death is just reported, would not give his attention to that sort of an education. He early showed a taste for mechanics and worked in a machine shop near his home in the acquiring of the practical side of his education. At the age of 18 years he left home and went to Australia, where he was engaged as a machinist. After ten years there he joined his brother, Paul Isenberg, at Lihue, the latter having become the manager of the small plantation at that place.

ZEIGLER'S NEW POLAR PARTY.

Millionaire Selects Two Men to Head the Expedition.

New York, Nov. 1.—A special to the Sun from Tonawanda, N. Y., says: Another expedition in search of the North Pole is being planned by William Zeigler, the New York millionaire. He has made an excellent offer to Oliver Lawson of this city and Leroy Pelletier of Buffalo to lead the proposed expedition. Lawson and Pelletier have had several years' experience in Alaska and the Arctic regions, and are confident that they can accomplish what Zeigler desires and what others have failed to do. They have about decided to accept.

Wilson Barrett's New Play.

London, Nov. 6.—Wilson Barrett produced a new play, "The Christian King," of which he is the author, at Bristol last night, with the greatest success. The play deals with the story of King Alfred and is cleverly constructed. It was well received by the London critics this morning. Barrett appeared in the title role.

Wilcox a Lawyer.

Robert W. Wilcox has been licensed by Judge Gear to practice law in the district courts of all the judicial circuits of the Territory and before the circuit judges at chambers on appeal, for two years from date. Mr. Wilcox has taken the oath.

HOARSENESS IN A CHILD that is subject to croup, is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough has appeared, it will prevent the attack. It always cures and cures quickly. The Hilo Drug Store sells it.

The only desirable means of reaching the Volcano. Connections at Mountain View with stages daily—morning trains going; afternoon trains returning. Fare from Hilo for the round trip \$8. This route is through Olaa plantation, the largest in Hawaii, virgin forests of koa and wild ferns, and through many coffee farms.

The natural wonders of Puna make that district the most interesting spot in Hawaii. One can spend a most delightful day exploring the underground caves, swimming in the famous Hot Springs and resting on the cool shores of Green Lake.

Excursion tickets between all points are sold on Saturdays and Sundays, good returning, until the following Monday noon.

Commutation tickets, good for twenty-five rides between any two points, and thousand mile tickets are sold at very low rates.

W. H. LAMBERT, R. R. ELGIN, Superintendent. G. P. & T. A.

WIRELESS ACROSS ATLANTIC.

Marconi in Communication With a Station in England.

Sydney (N. S.), November 6.—Signor Marconi tonight refused either to affirm or deny the report that wireless messages have been received on board the cruiser Carlo Alberto since she entered Sydney harbor. From other sources, however, full confirmation of the report was obtained. The officers of the ship saw the first message, one of congratulations, was received as the cruiser entered Sydney harbor, and that on Monday Marquis Solari, who came in from Table Head received several messages from Poldhu, England, on the Carlo Alberto as she lay in the harbor. At present it is impossible to have access to the message book of the cruiser, but Marconi promises to give out a statement in a few days.

Vice-Admiral Sir Archibald Douglas, who arrived in Sydney last night, accompanied by Lieut. Arnold Foster, visited the Marconi towers this morning. Both Admiral Douglas and Lieutenant Foster are here to watch the experiments in wireless telegraphy at Table Head. Foster is an electrical expert and has had considerable experience with wireless telegraphy. The British navy, both on the Mediterranean sea and at the maneuvers off Spithead, has been testing Marconi's system, and the naval officials are anxious to keep abreast with the latest developments.

Annual Output of Fiction.

From 8,000 to 10,000 novels yearly appear the world over. They are but a share of the earth's great stream of print, but they are the largest share. Japan contributes a round half-thousand—462 in 1895. There are a couple of hundred in India, letters in India still turning to verse in preference to prose, as in primitive Vedic days, writes Talcott Williams in the Review of Reviews. The Arab world has its scattering scores; in Egypt, three to five yearly; in Syria a few dozen. Strange works they are. The fiction of the East harks back to the plain spoken men who sit in the curving ring of listeners in the market place, telling tales as old as Hamu Rabbi and as new as the Arabian Nights in the hands of a child. Japanese fiction is passing from the intermediate Chinese romance to fiction modeled on the European novel. In Northwest India Moslem Lucknow, on the appointed day, fills the street where the monthly numbers of the last romance come fresh from the press. One, which had a prodigious vogue a dozen years ago carried a modern hero through prodigies of valor in the Russo-Turkish war. For a decade past in India vernacular fiction, as in Arabic, is taking the place of the tale modeled on old classic examples. The world of the novel, like all worlds, is coming to be alike the world over.

Italy and Spain, between them, issue for 500 to 600 novels in a year, the larger country the larger portion. France, the world's schoolmaster in fiction, prints 600 volumes in a year; Scandinavian Europe as many more, centering for publication at Copenhagen. Russia supplies on an average, year by year, from 800 to 1000. Its vast millions are unlettered, but the appetite of its small educated classes, social conditions, and the absence of libraries and newspapers stimulate reading. When the copyright on Pushkin's poems expired, the first twelve months saw 183 editions and a circulation of 2,000,000 copies. What English poet is likely to have this compliment? Each lesser tongue in Europe has its hundred or two of novels, but the editions are small. A sale of 8000 to 10,000 copies is the limit of success for a new Hungarian novel.

Boers Ready to Aid Britons.

Johannesburg, Oct. 31.—A number of former Boer commandants and British officers have offered their services and those of 1000 men, half of whom are British and half Boer soldiers, for service in Somaliland.

JAIL TRUST MEMBERS.

Newspaper Editor Says Interstate Commission Will Take Matter Up.

New York, Oct. 31.—Before the Interstate Commerce Commission to be convened in special session tomorrow morning in the Federal building, William Randolph Hearst, through his attorney, will present an amended complaint calling upon that body to proceed in the civil and criminal courts against the presidents of the great railroads constituting the coal trust for violations of the Interstate Commerce law.

These presidents, Baer, Truesdale, Olyphant and the others who are the head and front of the coal trust, if found guilty, can be punished by a fine of \$5,000 each or by two years' imprisonment in the penitentiary.

The expeditious action of the Interstate Commerce Commission, a non-partisan body, is in striking contrast with delays granted to benefit the trust by Governor Odell, acting through his attorney-general. Attorney General Davies has now had the petition of Mr. Hearst to proceed against the coal trust fifty-one days and no definite action has been taken.

Every effort has been made to postpone until after election the ordeal the trust must face when its officers are forced to answer upon the stand Mr. Hearst's charges of conspiracy.

The Interstate Commerce Commission received Mr. Hearst's petition only yesterday and today will take the first step in one of the most important investigations in its history.

All the members of the Interstate Commerce Commission will be present tomorrow, for Mr. Hearst submits to it an amended petition based upon facts secured by the "American."

ASTOR DONATES PATENTS.

New Idea in the Construction of Marine Turbines.

New York, November 6.—Colonel John Jacob Astor has given to the world his patents on marine turbines. Although he might have enjoyed a monopoly of them for 17 years he has formerly turned over the invention for public use. He makes the announcement in the current issue of the Scientific American in the form of a letter to the editor of that publication, in which he says: "All my patents on marine turbines having been granted, I hereby dedicate them to the public in the hope that the development of the ideal turbine may be hastened hereby."

As yet no engine has been built to utilize Astor's patents, but engineers and critics have expressed themselves as sharing the Colonel's belief that the theories will work out practically. The invention contemplates twin screws set tandem, instead of side by side, and revolving in opposite directions. In view of Astor's references to the possible use of the turbine for dynamo purposes, one man pointed out that Astor's gift of the patents to the public would make it possible for rapid transit company engineers to use the Colonel's ideas for a turbine at the central power station of the underground road.

CHAMBERLAIN'S COUGH REMEDY is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for its cures of these diseases over a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous results. It is especially prized by mothers because it contains nothing injurious and there is not the least danger in giving it, even to babies. It always cures and cures quickly. The Hilo Drug Store sells it.

WINDWARD HAWAII.

Directory of the Prominent and Progressive business men in the richest country in the Islands. If you have anything to dispose of it doesn't cost much to advertise it in this department. Write for rates.

HONOKAA.

HONOKAA is the most thriving community outside of Hilo on the windward coast of the Island of Hawaii. It is situated 50 miles from Hilo at an elevation of 1500 feet which renders the climate salubrious. Above the cane lands are numerous homesteads on which coffee, cane and vegetables are extensively cultivated. Regular stage lines connect with all outlying districts. The 4th Circuit Court meets at Honokaa annually in July. Regular steamers call to discharge and receive freight.

PUBLIC LANDS TO BE OPENED.

Six Families From Dakota to Settle in Kona. Surveys to be Made.

Land Commissioner E. S. Boyd left November 11th for Hawaii where he will look into several important land matters. Among the most interesting is making surveys for the expected settlers from Dakota. A surveyor from Dakota, J. Geddings, is expected by the next steamer from San Francisco and he will go to Kona and meet the Land Commissioner for the coming settlers.

Of those who took up the proposition of migrating from Dakota to Hawaii, six families have decided to make the trip. They will take up homesteads of about 500 acres and will go into the dairy business. The others, numbering thirty or forty families, may come later. "I have heard," said Commissioner Boyd, "that they are waiting to hear the results of our election. There are plenty of families who would like to come and more may follow the six families later."

Boyd will also go to Kau, where he will look into the matter of the forest boundary of Kahuku, and will prepare for the opening of three or four thousand acres of public lands. The lands to be opened are mostly pastoral, with some mixed agricultural and pastoral lands. They are fine lands of their kind, and there is much demand for them.—Star.

Diplomats Oversight.

Washington, November 6.—By a queer oversight, an extradition treaty between the United States and Guatemala, made twelve years ago, has remained unproclaimed and so inoperative up to the present time. Arrangements for its mutual proclamation at an early day have been made.

Emperor's Hunting Record.

Berlin, Nov. 1.—The Royal Gamekeepers' Bureau has kept a record of Emperor William's hunting. During thirty years he has killed 47,443 pieces of game, including 2,988 deer, elk or chamois; 2,823 wild boars, 19,508 hares or rabbits and 18,891 pheasants.

SHOULD HAVE CHINESE.

Senator Thurston Believes Congress Should Aid the Islands.

Washington, Oct. 28.—Former Senator Thurston, who has returned from an extended visit to the Hawaiian Islands, says prosperous conditions can never become general in those islands until the Chinese exclusive act is amended so as to permit the entrance of Chinese. "There is scarcity of labor which has caused general financial depression in the islands," said Mr. Thurston. "The labor the Hawaiians could get is excluded from the islands by our immigration laws. Chinese furnish the only labor that can be depended upon. They are a success in the sugar cane field, but they are now excluded from Hawaii and the result is that sugar plantations are not half cultivated."

Mr. Thurston thinks that if the sugar industry is to develop in the islands Congress will have to pass a law removing restriction against the Chinese so far as plantation labor is concerned, but at the same time prohibiting them from doing any other work which might come into competition with native workmen.

FOOD IN PHILIPPINES.

Governor Taft Suggests Sending of Supplies From San Francisco.

Washington, Nov. 6.—On October 29th a cable message was received at the War Department from Governor Taft saying the food situation in the Philippines was serious and would be so for a few months on account of the loss of crops, and that relief was necessary.

The Governor suggested the possibility of sending a shipload of supplies from San Francisco or Portland, to be purchased by the Insular Government. He asked for prices of flour and they were sent him at once. He has made no further request and as the press dispatches announce that he has made large purchases of rice, it is assumed at the War Department that he has found it advantageous not to make the purchases in this country.
