### THE POLO GAME.

#### Description of Battle Between Kauai and Hilo Riders.

Honolulu, November 29.—Hard riding Kauaians scored a triumph over the team and improved Hilo Polo game yesterday afternoon at Kapiolani Park, by the score of 18 to 1½. This score was piled up by straight driving, the most fearless riding and consistent taking advantage of opportunities, there being represented in it seventeen goals and an extra count for safety drives and one foul. The game was not high class polo perhaps, but taking into account the lack of experience at the game of the men and animals, it was altogether a highly creditable exhibition.

The victory of Kauai makes the game which is to cap the tournament one of the utmost interest to all who enjoy the spectacle of eight men with their fast mounts contending over a white ball, on a field which offers opportunity for long drives and some speedy going. If Maui could beat Kauai almost two to one, and Kauai could beat Hilo by even a higher average score than did Oahu, the forecasters believe the men from the Valley Isle have a more than fair chance to best the local defenders of the championship title. But much in a polo game depends upon the defense of the weaker team, and just as Kauai did not make as fine a showing against the game with the Rainy City folk as against the Canary, it is safely argued also that Oahu will play a better and faster game against the winners of Tuesday's second contest.

Again Prouty was the bright particular star of the Hilo men, but he had better support, in that each man of his team seemed to be improved by the bucking against the faster Oahu players. Guard was more in evidence and Kennedy more frequently carried the ball down field, while Dr. Irwin rode better and more frequently stopped the rushes of the red men than when against the local force. But the percentage of misses was too high to give a fair chance of winning. Irwin frequently when at fair speed only failed of the stroke, and these misses almost always were costly.

Kauai was riding as fast and many thought as recklessly yesterday as on Tuesday, and, too, was just as dependent upon driving as then, for there was very little riding off. Peter Melina on more than one occasion did handle his men, but more frequently the attention of the players was given exclusively to the ball and then a miss meant turning the sphere over to the man who was following on. C. H. Rice divided the honors with his brother Arthur on sure hitting and riding off play. The brothers played with decision and their stroking was fairly true. To the Melina brothers belongs much of the spectacular portion of the game, for they rode fast and well, and they frequently made long and difficult strokes which won for them the plaudits of the crowd.

So much for the individual plays. The crowd which watched them was a record turnout for a polo game. The sides of the field were lined with carriages and the benches provided for those who came from the Rapid Transit and trams were comfortably filled. There were, too, many riding parties and the spectacle of all varieties of carriages, drags and coaches, filled and covered with brightly dressed ladies made the scene one which has seldom been equalled here. The crowd was augmented when the football devotees arrived and the length of the game, while it caused many to take their departure before the end of the contest, did not deter several hundred people from staying through the entire match.

The gameness of the Hawaiian team, in playing their hardest polo when they surely had little chance of success, won for them many friends, and several horses which are not to be played in the game of Saturday, were placed at their disposal by members of the Maui and local teams. Their own animals seemed to be in fine fettle too, and more than once managed to

run down the gameness of the Kauai horses, even the famous Gipsy failing to carry Rice away from Irwin and Prouty on some long dashes.

Kauai got into the game at the very start, C. Rice getting the sphere out of the scrimmage and within the first minute of play scoring the initial goal. When the ball was sent out of the scrimmage the second time Prouty got it and drove well, but missing, the Melinas drove down field and Solomon counted the second point. The third was harder, as Prouty stopped a goal when Melina had it all but won and Kennedy made a very clever back hand stop on the second try. A. Rice got the ball out and driving to Solomon Melina the third tally was counted handily. There was plenty of scrimmage in the next try and Irwin had to take a safety right in front of the goal to save it. Prouty drove hard from behind and Guard and Kennedy assisted to get the ball almost to the goal, but A. Rice centered and then followed on right down field through the goal for the fourth. Peter Melina made the short which counted next, a long and straight drive which Prouty failed to stop. The last count of the period was made when Rice got the ball from a scrimmage right in front of the posts and Melino drove it through. In the last mixup for cross riding Hawaii incurred a penalty of a half point and the score was 6½ to 0.

A. Rice got the ball down field out of the scrimmage to open the second period and when the sphere hit the post Melina pushed it through amid cheers. Kennedy showed fine riding form in the next mix and Prouty carried the ball the length of the field assisted by Irwin and Kennedy. On the drive out A. Rice got control and drove cleverly, S. Melina catching the ball for a splendid cross stroke which netted the eighth count. It took three strokes for C. H. Rice to get the next but the tenth was won only after some fine play on the part of the Hilo man, Prouty catching the ball and saving a clean goal. A. Rice got the ball however and carried it through. In the next scrimmage Kauai had to take a safety the first mark for Hilo. C. H. Rice got the next count with some of the best of riding and then Guard for Hilo secured the ball as soon as it was dropped and with a clear field drove straight through the posts, for the only goal which the pink and green was able to count.

The third period opened with Kauai again forcing the play and twice in rapid succession the ball was taken over the Hilo goal, the entire bunch moving together, the ball being well dribbled. Prouty drove down field and forced Melina to take a safety, which by the way completed the Hilo score, but a moment later the Rices forced the ball to the line and Irwin had to count a quarter point against himself, making the Kauaians even, the period ending a minute later when Arthur Rice got a goal out of a scrimmage at midfield.

The Hilo men showed their best form perhaps in riding, but missed more frequently, in the closing rally. Every member of the team got in some fine work, Irwin especially doing some back hand stops which were little short of superlative, but the Kauaians would not be denied and twice A. Rice got the ball over the goals. Prouty made a star drive out of the bunch and seemed to be straight on the goal, but missed it by inches. A. Rice then drove forward to P. Melina who shot the ball cleverly through, duplicating the feat a few minutes later when the Rices got through the Hilo and gave him the chance in front of the goal. The ball was in the center of the field when the game ended with the score of 18 to 1½.

**APPOINTMENTS TALKED ABOUT.**

**Governor Dole Said to Have Made Up His Mind.**  
 Honolulu, Nov. 29.—Much speculation is being indulged in just now as to the probable appointments to the offices of Auditor, Superintendent of Public Works and Treasurer. Of course, no action can be taken until the committee from the Senate have finished their investigations. This work is not at all easy and it is safe to say that the reports will not be made until some time next week. When asked yesterday by a Bulletin reporter as to the probable length of the special session of the Senate, President Crabbe said it would continue for at least ten days longer. It is reasonably certain that nothing will be done Saturday as it is the habit of the Senate to adjourn at noon on Saturdays and it is certain that when the matter of the appointments comes up, it will take more than the two hours from 10 to 12. Something should be ready for presentation on Monday. The anxiously awaiting public will therefore have to possess themselves in patience until such time as these reports shall be presented.

However, certain things have leaked out which would seem to show what the probable action of the Senate will be. In the first place, it must be understood that the policy of the present Senate, sitting in special session, will not be to antagonize the Governor to such an extent as to cause a deadlock. It is understood that the course taken will be one of compromise in which the Governor will gain certain points and the Senate certain points.

Here is the list of appointees that the Governor is said to have made up his mind to Treasurer, M. P. Robinson; Superintendent of Public Works, Henry E. Cooper; Auditor, Henry C. Meyers.

Now this sounds all very well but there are certain things that interfere. In the first place, Mr. Robinson has said all along that he was not out for the position of Treasurer and that he could not possibly accept it. On the other hand, it is understood there is a movement on to have E. P. Dole retire from the office of Attorney General and his election on a position just at this time makes the situation somewhat complicated. However, it is said that when it is a question between Henry E. Cooper for the office of Superintendent of Public Works and E. P. Dole for the office of Attorney General, the Executive would sacrifice his nephew.

It is understood that the Senators have partially conceded the office of Superintendent of Public Works to Henry E. Cooper but that there is a possibility that there will be something of a fight on the office of Attorney General.

The prevailing sentiment seems to be that A. J. Campbell will be the choice of the executive committee of the Republican party, the Senators of the Republican party and the Governor, now that Mark P. Robinson has decided finally not to accept the position. Mr. Campbell is a kamaaina of long standing, a man of sterling qualities and trustworthy to a degree in business matters.

So far as the office of Superintendent of Public works is concerned, it is understood that this has not been fully decided on and there may be different action from what is anticipated at the present time. E. C. Winston is a strong candidate for the office and his friends are working hard for him but it is not probable the Senators will antagonize the Governor's choice.

Thus it will be seen that the most diplomatic handling of the matters before the Senators will have to be indulged in to prevent any unnecessary clash. It will have to be a matter of give and take.

In the meantime, Herbert C. Austin, the suspended Auditor, is not idle. His attorneys and friends are working for him and the communication which he sent to the Senate the other day goes to show that he intends to make a hard fight. That he will be given a hearing by the committee investigating the office from which he has been suspended, goes without saying. The Senators mean to do the fair thing and they are out after every scrap of evidence they can secure. They will not condemn a man unless they have proved to their entire satisfaction that he has been guilty of serious misconduct in office.—Evening Bulletin.

**OMSTED WANTS HORSE.**

**Bankrupt Says Trustee Has Taken Wives Animal.**

Honolulu, Nov. 29.—Olaf Omsted and a gray horse he bought for his wife are likely to cause all sorts of trouble in the United States court. Olaf filed a petition in bankruptcy a number of months ago and was duly adjudged a bankrupt. He lived in Hilo at that time, and J. W. Mason was appointed trustee of the estate, to realize all he could and pay the debts which Omsted had contracted in his business career.

Mr. Mason gathered all the available assets and then looked for more. Among other things he saw Olaf driving a rather good looking horse, but when he attempted to take possession on behalf of the creditor, the bankrupt raised many objections. The horse he explained was the property of his wife; he had purchased the animal and presented it to Mrs. Omsted with his compliments. To have his gift taken away did not suit him a bit, and he resisted all efforts on the part of Mason to obtain possession of the gray.

The trustee was not to be so easily put off and he brought suit for recovery of the animal before Magistrate Hapai in Hilo, with the result that he was given judgment for the horse.

Yesterday Omsted applied to Judge Estee to have the horse declared a part of the exempt assets of the estate. He filed a lengthy petition citing the facts above stated, and also that he had appealed from the judgment against him. Since then, however, Omsted declared, Judge Little has decided that there was no appeal to a circuit judge at chambers, and he consequently was powerless to prevent the horse from being taken from his wife. In an affidavit Omsted declares that he bought the animal from Albert Horner for \$90 a long time before he became bankrupt and presented it to his wife. He alleged that it was exempt from execution for his own debts, and asks the court to so declare it. His attorney files an affidavit also, in which it is set out that Judge Little is absent from Hilo and that an appeal to him would do no good. The matter will probably be heard by Judge Estee next week.

A SEA-FRONT PARK.

Within the past month a number of Hilo citizens have called at the TRIBUNE office to urge a movement with the purpose of reclaiming the Hilo water front for park purposes. The front now is occupied by laundries, lumber yards, Chinese and Japanese stores and vacant lots. Much of the land is under lease from the government for varying terms of years. Some of it is owned by local holders in fee. That a Sea-front Park, set to grass and ornamented with tropical trees and plants would make Hilo the prettiest spot on earth cannot be questioned. That such a park would indirectly add to the value of all Hilo property is most probable.

There is one thing certain, if the project is ever carried out, it cannot be done at less public cost than now. It would have cost less years ago. It will cost more in years to come.

The proposed widening of Front street to an 80-foot boulevard, which has been talked of and planned by the Department of Public Works during the past year, brings the Sea-front park to the fore as an immediate issue, if it ever is to be one. The TRIBUNE has it on good authority that the officials at Honolulu look with favor on the proposition of creating a Sea-front park in Hilo, and that they will bear the matter in mind when application for extension of water front leases come in.

Under our centralized system of government, this otherwise local matter is transferred to Honolulu for consideration and action. If there is a sentiment in Hilo supporting the proposition, it must be directed to the powers at the capital. It is fair to presume that they will do all in their power in behalf of any good cause that has the preponderance of Hilo opinion behind it.

The TRIBUNE invites communication from those who may be interested in the proposition.

CHRISTMAS shoppers should not fail to come to Hilo and look over the bargains to be found in all the stores. The stocks already exhibited are very fine and when the cargo of the Enterprise is discharged every Hilo mercantile establishment will look like a branch office of Santa Claus & Co.

IN squaring itself with Justice Galbraith, if the Herald intended to be witty it must do its own laughing; if it intended to be complimentary, the liking of Galbraith to Dole is sufficient to make everybody laugh.

THE Honolulu Grand Jury which had for its duties the overhauling of the conduct of Territorial officials wielded its brushes of tar and white-wash with equal vigor and effect.

IF Governor Dole was not already the recipient of so much advice concerning whom to appoint to office the TRIBUNE would hand him out a column or so.

THE wonder is if too many county and municipal government commissions will not make it necessary to leave the business to Congress.

THE Portuguese of Hilo do not easily forget the ancient day from which their liberation from Spanish oppression is dated.

THE Island of Hawaii will soon be belted by a government wagon road. This is infinitely better than no road at all.

THE Senate at Honolulu last Saturday endorsed Governor Dole's action in removing Auditor Austin from office.

WITH practice and a longer string of ponies Hilo's polo team will play a winning game a year hence.

It's alright about the polo; but none of them can beat Corp. Hering of Co. D, at 200 yards with the rifle.

If the Treasurership is still a begging it may come to Hilo yet.

APPROVES SUGAR CONVENTION.

London, Nov. 24.—After a lengthy debate, the House of Commons today passed a resolution approving the action of the British Government in signing the Brussels sugar convention, by 231 votes to 136. Party lines were not observed during the debate, several Unionist members supporting Sir William Harcourt's amendment to censure the Government for its action.

SUGAR ADVANCING.

New York, Nov. 20.—Another advance of 10 cents on a hundred pounds was announced by the local sugar refining interests today, bringing the list price for granulated sugar to 4.65 cents a pound. The American Sugar Refining Company also advanced the price of granulated sugar in the Missouri river district 25 cents on the hundred pounds, or to 4 1/2 cents a pound.

Russians Arouse Britons.

London, Nov. 22.—British interests in Persia are imperiled and the London advocates of an "understanding with Russia" are pointing to the new difficulty as further justification of their campaign.

Until recently it had been assumed that Russian enterprise in Persia would confine itself to the north, leaving to the British a trade monopoly of Southern Persia. The startling information has reached the British Foreign Office that the Russian Government has just established a consular agency at Ahwaz, a district where Russia has as yet no tangible interest, and where Britain has long enjoyed unchallenged supremacy.

Gun Maker Dead.

Birlin, Nov. 22.—Herr Krupp, the great gunmaker and the wealthiest man in Germany, died suddenly from apoplexy this afternoon at his villa at Huegel. Herr Krupp had been ill for several days, and a report of his condition was telegraphed daily to his wife, who has been several months in Jena under medical treatment. Concerned by the latest dispatch regarding her husband, Frau Krupp left Jena yesterday, accompanied by Professor Binzswanger of the medical faculty of the university there. She will reach Essen early Sunday morning.

The Freighter Californian.

San Francisco, Nov. 24.—The American-Hawaiian Steamship Company's steamer Californian, now 40 days out from New York for this port, arrived at Coronel to coal last Wednesday. The new steamer J. L. Luckenbach of the opposition line left New York six days ago for this port, and is to be followed soon by the new steamer Lewis Luckenbach. The two last named steamers are over 3,000 tons net register, but are not such great carriers as the American-Hawaiian vessels.

BY AUTHORITY.

SEALED TENDERS.

**TEACHERS MEET.**

**Discourses are Made on Mosquitoes and Emerson's Essays.**  
The Teachers meeting at the Union School last Tuesday night attracted the biggest turnout of spectators that has attended these meetings this year. The program was of exceptional merit and interest.  
The local and foreign current events were treated by Miss Ellen Lyman and Mr. Severance.  
Prof. Henshaw gave a scientific lecture on the mosquito which abounded with practical ideas. He stated that Hawaii had nothing to fear from the malaria carrying mosquito as that species is not to be found here. He warned people to look out for the day mosquito, which is a disseminator of yellow fever when that contagion breaks out. Until the Panama canal is opened residents of Hawaii need have no fear but the Professor suggested that a campaign of extermination of the day mosquito could be commenced now with profit.  
The most interesting paper of the evening was read by Carl S. Smith on Emerson, dealing particularly with his essays. Emerson was compared with McCauley and copious quotations taken from both writers.  
The next meeting will be held Tuesday evening, December 16.

The Department of Public Works has finished plans for the building of the extension of the road between South Kohala and North Kona. This connecting link is about five miles in length and when completed the Island of Hawaii will be girdled by a wagon road.

IT WILL NOT DO to fool with a bad cold. No one can tell what the end will be. Pneumonia, catarrh, chronic bronchitis and consumption invariably result from a neglected cold. As a medicine for the cure of colds, cough and influenza, nothing can compare with Chamberlain's Cough Remedy. It always cures and cures quickly. The Hilo Drug Store sells it.

Major Alfred Harris of the Salvation Army addressed the congregation in the First Foreign Church last Sunday. He spoke at length of the work being done by the Army. At the close Rev. Mr. Nash made appropriate remarks suggesting that it was unusual to omit taking a collection at an army service and proposed that it be done. As a result a sum of \$28.00 was raised at once.

In his shooting he made sixteen bullseyes in succession, giving him eighty points without an effort. The seventeenth bullet struck just in the edge of the circle, counting four. The next three shots rang the bell as did the first sixteen. The score was made at 200 yards without a rest.  
The members of Company D will shoot for regimental medals on the 7th and 14th inst.

**Celebrate by Dancing.**

The celebrating of the 262nd anniversary of the restoration of the Independence of Portugal culminated Tuesday evening in a dance and musical concert at Serrao's hall. There were more than one hundred ladies and gentlemen in attendance. The Hilo band played the National Hymn of Portugal and other selections. After the music, speeches were made by J. A. M. Osorio and G. F. Afonso, the former speaking in Portuguese and the latter in English.  
The dancing was conducted by Mr. and Mrs. Carson. Excellent music was furnished by Carvalho's orchestra.  
The committee in charge of affairs consisted of M. J. de Gouvea, M. F. Spinola, J. E. Rocha, G. F. Afonso, M. S. Pachico, J. E. Garcia and H. T. Monix.

**The New Kinau.**

The Kinau arrived in port Wednesday afternoon early, disembarking her passengers before 4 o'clock. A heavy rain-storm was on but this did not prevent the assembling of a large crowd to greet Beckley's flagship. The Admiral greeted his friends with even broader smiles than he wore when he heard Prince Cupid was elected. He was proud of his new ship and her performance on her first trip on her regular run after her overhauling. She averaged 12 1/2 miles an hour during her trip and the passengers are more than pleased with her behavior. The popularity of the Kinau is henceforth assured.

**Cotillion Thanksgiving Dance.**

The Thanksgiving dance given at the Hilo Hotel last Saturday by the Cotillion club was a brilliant social success. Richardson. The music was furnished by an Hawaiian quintette and the dancing proceeded merrily until midnight. **HILO'S NEW DEPOT.**

**Architect Richley has Completed Plans for Fine Structure.**  
Architect A. Richley has completed the plans for the uptown depot of the Hilo Railroad Company and will forward them to Honolulu this week for the approval of the general officers. If the design of the architect is approved Hilo will possess the finest railroad depot in the Islands, and superior to the depots of any city of Hilo's size in the United States. It will cost in the neighborhood of \$20,000, and will occupy a conspicuous place on Hilo's water front. The site of the depot is the grounds on which the Post Office now stands. The railroad company has secured all the land in the triangular tract bounded by the Waiannu street, Front street and the sea. This area will be covered with depot, warehouse and train sheds. If the company can arrange with the Post Office Department, the space now occupied by the Post Office will be filled by a new structure 80 feet long on Front street. This they will offer to the Department until a new Federal building is erected by the Government. The dimensions of the tract owned by the railroad is 238 feet on Front street by 206 on Waiannu street. The depot building designed by Mr. Richley will be 156 feet long if the Post Office Department will come in on the scheme, and but 76 feet if the Department prefers to remain in the old shed now in use.  
The plans for the various buildings leaves a way on the makai side for the entrance of the Hilo-Kohala road should it be built.  
The main depot building is to be two stories, of imitation stone construction. The roofing will be of ornamental tile shingles. The Waiannu street end will be surmounted by a tower 22x22 feet and 105 feet in height. Midway on the Front street side will be another tower 12x12 by 36 feet in height. The interior of the building is designed to be finished in natural wood, northwest pine and oak. The ceiling will be of ornamental steel. The lower floor is designed for general waiting rooms, baggage and ticket offices, with two passage ways from the street to the train sheds. These train sheds will be makai of the depot and will be 144 feet in length. North of the depot will be a warehouse 60 feet in length. The general railway offices will be in the second story.

**Olaa News Notes.**

Mrs. A. G. Curtis entertained about forty children from the Twelve Mile School on Friday last, in honor of Thanksgiving. The little ones had the run of the large grounds and many spirited games were indulged in. After the feast, which was served from a tent on the lawn and consisted of sandwiches, ice cream cakes, and other goodies dear to childhood in every clime, the little guests sang several Hawaiian songs. Mrs. Curtis was assisted by Miss Hansen.  
The Olaa Literary met on Wednesday last at the home of Mrs. Wm. McQuaid, with good attendance. The reading of the minutes of the previous meeting, by Miss Ward was in her usual happy style. The members answered roll call by current events and stories. Mrs. Williams gave the best biography of Bret Harte which we have yet read. Mrs. Ward read an unpublished poem of Bret Harte's, his last. Mrs. Carpenter gave a Thanksgiving poem. There was a piano duette by Miss Ward and little Edna Curtis, and a sweet song by Mrs. McQuaid. Delicious refreshments were served, and the club adjourned to meet in two weeks at the home of Mrs. Geo. Paty at which time a reading of Dickens' Christmas Carol will be enjoyed.  
Preparations are being made for a bazaar to be held on Saturday afternoon and evening, December 13th, at the Olaa school building at 9 miles. The object is to raise funds to buy an organ for use in the Twelve Mile School.

**Portuguese Independence.**

The Portuguese Americans of Hilo observed the anniversary of the Independence of Portugal last Monday in fitting style. Refreshments were served and speeches made.

## Cools the Blood

Hot weather takes the life out of everybody. You become languid, debilitated, nervous, depressed. You lose your appetite and you have indigestion. Your blood becomes impure, your head aches, your nerves are weak, and you are tired all the time. You want something to purify your blood and make it cool and healthy.

Mr. Giovanni D'Nest, of Parkside, South Australia, tells you how this may be done. He sends his photograph also.

"In this warm and debilitating climate I believe nearly every one needs a good tonic. For a number of years I have relied on Ayer's Sarsaparilla. I can strongly testify to its curative power in cooling the blood in hot weather and in toning up the whole system. It is a wonderful medicine."

## PHILOSOPHY OF GREAT POETS.

Can a Man Be a Great Poet Without Being a Great Philosopher?

In an address delivered before the Edinburgh philosophical institution, Mr. Alfred Austin took issue with Professor Dowdeen's assertion that a man may be a great poet without being a philosopher. The English laureate endorsed the counter assertion of Coleridge that "no man was ever yet a great poet without being at the same time a profound philosopher." He considered what the poets from Homer to himself have had to say concerning life, wisdom, happiness, individual and social well-being, quoting passages from Virgil, Dante, Shakespeare, Spenser, Milton, Shelley, Tennyson, Wordsworth, and even Byron, to prove that on these subjects the poets gave wiser counsel than their contemporary metaphysical philosophers. "Philosophies perish. Great poetry remains. Metaphysics that are the boast of one generation are the butt and mock of the next; for, one and all, they rest on an arbitrarily postulated foundation that requires to rest on another foundation again, which in turn demands a further foundation still, equally illusory; a foundation which either does not exist or forever evades the researches of the mind." Coming down to our own day, Mr. Austin asks, "Is it exaggeration to say that at the present moment and for some little time past the objects deemed the most to be desired and the most deserving of strenuous effort and final attainment are wealth, rank, luxury, power, popularity, social success, and political eminence? Now what do the poets say about these things?" He does not tell us what the other poets say, but for his single self makes this answer: "I shall never be able to persuade myself that wealth, luxury, frivolity, rank, title, and the satisfaction of an ambitious materialism, if it is ever to be satisfied, are the great things of life, or that they are the noblest pursuit and sustenance of the human race."

In regard to the claim that one may be a great poet without being a philosopher, Mr. Austin says: "To be a lovely, attractive, lyrical poet is no small thing, but to be that and that only is not to be the greatest thing, and is compatible with not being wise, indeed, with being conspicuously foolish. Wordsworth defines poetry as 'reason in its most exalted mood.' One could not desire a more perfect definition of the very essence of the higher poetry, and if you will bear that definition in mind, the definition of poetry by one of the greater poets, and give to it a complete and operative assent, you will never go far wrong in estimating the relative rank of poets and the merits of poems."

**Mark Robinson Declines.**  
Honolulu, Nov. 25.—Mark P. Robinson who has been prominently mentioned for the Treasurership will not accept the nomination on the plea of health and already overcrowding business interests. "I have not been actually offered the office," said Mr. Robinson this morning. "I have been sounded on the matter, but it absolutely impossible for me to think of an acceptance. There are many reasons why I must decline. I have too many irons in the fire and my business affairs are already overcrowding me. My health too is beginning to break up and I do not feel that this is the time for me to set aside my own interests and health and take up cares of office which I might be unable to carry out through failing health."

Mr. Robinson was mentioned as a probable candidate for the office of Treasurer some weeks ago, the selection being brought forward as a reciprocity measure and an endeavor to appoint an Hawaiian of undoubted ability and responsibility. Mr. Robinson, however, declined positively as soon as approached upon the subject. It is stated that he was positively offered the position in writing and declined in similar fashion, but it appears that he has merely been sounded upon the subject. In any event he is not of the list of possibilities.

## A Cheap Municipality.

Hoopeston, Ill., probably pays less for its city government than any town in this country, if not in the world. The Mayor received 50 cents a year, or \$1 for his term of two years. The eight Aldermen each received 25 cents a year, or 50 cents for their term of office. Hoopeston has 4500 inhabitants, and the duties of its mayor and Aldermen are quite as large as those of any other town of its size. The custom of allowing almost the smallest salaries possible to the Mayor and Aldermen without rendering them invalid under the statutes of the State was established by Jacob S. McFerren, Hoopeston's first Mayor, who was elected on the temperance ticket in April, 1877, immediately following the incorporation of the town.—St. Paul Dispatch.

## A Rare Powder Horn.

Rev. Anson Phelps Stokes Jr., secretary of the Yale Corporation, has just come into possession of an old powder horn, says a New Haven dispatch, giving a picture of the "New Haven" green in 1759. South Middle and Connecticut halls—the latter on the present site of Osborn Hall—the Center Church and some houses bordering on the green are shown. This horn was carved by Francis Meldrum of the Forty-second Royal Highlanders on November 17, 1759. It also contains pictures of the troop of Highlanders, map of the Hudson river and Lake Champlain, a copy of the Royal News and several other designs.

## HAWAIIAN INDEPENDENCE.

France and England Compact Not  
to Grab.

Friday, November 28 marked  
the fifty-ninth anniversary of the  
independence of Hawaii, and it is a  
day of special importance to the  
Hawaiians. The day commemor-  
ates the compact of England and  
France on November 28, 1843, "to  
consider the Sandwich Islands as  
an independent state; and never to  
take possession, neither directly or  
under the title of a protectorate, or  
under any other form, of any part  
of the territory of which they are  
composed."

The story of Hawaii's independ-  
ence is interesting. Prof. Alexan-  
der states that matters leading  
up to the recognition of independ-  
ence began to shape themselves  
sometime previous to 1843. In  
February, 1842, Sir George Simp-  
son and Dr. McLaughlin, officials  
in the service of the Hudson Bay  
Company, arrived at Honolulu on  
business, and became interested in  
the native people and their govern-  
ment. After an investigation of  
the various troubles between their  
own country and Hawaii they be-  
came convinced that the latter was  
unjustly dealt with. Sir George  
offered to loan the king £10,000  
sterling in cash, and advised him to  
send commissioners to the United  
States and Europe with full powers  
to negotiate new treaties, and to  
obtain a guarantee of the independ-  
ence of the kingdom. Sir George  
Simpson, Haalilo, the king's secre-  
tary, and Mr. Richards were ap-  
pointed joint ministers plenipoten-  
tiary to the three powers on April  
8, 1842. The commissioners went  
by different routes. The British  
consul, Charlton, followed the em-  
bassy to defeat its object. He started  
for London suddenly on September  
26, 1842, sending back a threaten-  
ing letter to the king, and appoint-  
ing Alexander Simpson as acting  
consul. Simpson advocated the  
annexation of Hawaii to Great  
Britain, and is said to have insulted  
the governor of Oahu, whereupon  
the king declined to recognize him  
as such officer. The latter's griev-  
ance were laid before Sir George  
Paulet, commanding the British  
frigate Carysfort, then at Mazatlan,  
Mexico. Simpson said life and  
property were in danger in Hono-  
lulu, and Rear Admiral Thomas  
was induced upon these representa-  
tions to send the Carysfort here.

On December 19, 1842, the  
United States recognized Hawaii  
as an independent state through  
the medium of Messrs. Richards  
and Haalilo, Daniel Webster then  
being Secretary of State.  
Sir George Simpson arrived in  
London ahead of the embassy and  
had an interview with the Secretary  
of State for Foreign Affairs on  
February 22, 1843. Lord Aber-  
deen, the Secretary, at first refused  
to receive the embassy as ministers  
from an independent state or to  
negotiate a treaty, alleging that the  
king did not govern, but that he  
was "exclusively under the influ-  
ence of Americans to the detri-  
ment of British interests," and  
would not admit that the United  
States had yet fully recognized the  
independence of the Islands. The  
embassy went to Brussels and an  
interview was had with Leopold I,  
who promised to use his influence  
to obtain recognition of Hawaiian  
independence. Encouraged, the  
envoys proceeded to Paris, where,  
on March 17, 1842, M. Guizot,  
Minister of Foreign Affairs, received  
them kindly and engaged on be-  
half of France to recognize Hawa-  
ian independence. He made a  
similar statement to Lord Cowley,  
the British ambassador. A second  
interview with Lord Aberdeen  
gained from him the promise to re-  
move Mr. Charlton. On April 1  
Lord Aberdeen formally replied to  
the Hawaiian commissioners, stat-  
ing that "Her Majesty's govern-  
ment is willing and has determined  
to recognize the independence of  
the Sandwich Islands under their  
present sovereign," but insisting  
on perfect equality of all foreigners  
in the islands before the law.

Meanwhile, thrilling events had  
occurred in the Islands. On Febru-  
ary 10, 1843, the Carysfort arrived  
at Honolulu and withheld the usual  
formal salutes. The United States

Sloop of War Boston arrived on the  
13th. The king, who had been  
sent for by Lord Paulet, arrived  
from Lahaina on the 16th. The  
Englishman refused to treat with  
the king through Dr. Judd, and on  
the evening of the 17th sent a pe-  
remptory, letter, enclosing six de-  
mands, with the threat that if they  
were not complied with by 4 p. m.  
the next day "immediate coercive  
steps would be taken."

On the morning of the 18th the  
frigate was cleared for action and  
her battery brought to bear on the  
town. Some English families went  
aboard the brig Julia, while Ameri-  
cans placed their valuables aboard  
the United States sloop Boston.  
The first impulse of the Hawaiians  
was to resist, but a letter was sent  
aboard saying ambassadors had  
been sent to England to settle the  
difficulties. At 2 p. m. salutes  
were interchanged. On February  
20 the king visited the Carysfort.  
Unjust demands were pressed upon  
the king, and a mushroom debt of  
\$80,000 had grown up in a few  
hours. Dr. Judd advised a tempo-  
rary cession to Lord Paulet of the  
Islands pending an appeal to the  
British government. On February  
25, 1843, at 3 p. m., the Hawaiian  
flag was lowered and the British  
flag hoisted. All Hawaiian flags  
found were destroyed. There was  
much trouble during this "tempo-  
rary government" of Lord Paulet.  
The advent of Admiral Thomas in  
the British flag ship Dublin restored  
peace to the Islands and the govern-  
ment to the king.

On July 31, 1843, in an open  
space which is now called Thomas  
Square, the British flag was hauled  
down and the Hawaiian flag hoisted  
and the king was restored to his  
rights. On November 28, France  
and England united in a joint de-  
claration of recognition of the in-  
dependence of Hawaii, and thus the  
final act by which the Hawaiian  
kingdom was admitted within the  
pale of civilized nations, was con-  
summated.

### What is a Cough?

A spasmodic effort to expel the  
mucus from the bronchial tubes.  
A cold causes a more abundant se-  
cretion of mucus, and when the  
lungs and bronchial tubes are in-  
flamed, they are extremely sensitive  
to the irritation. Unless care is  
taken, the cold may result in pneu-  
monia, which is swift and deadly.  
If the cold is a lingering one, the  
more leisurely but equally fatal  
consumption may set it. Do not  
neglect a cold of cough. Take  
Chamberlain's Cough Remedy. It  
always cures and cures quickly.  
The Hilo Drug Store sells it.

The best place in Hawaii to  
select a Christmas Present

**J. D. KENNEDY, = HILO**

**CHRISTMAS ANNOUNCEMENT**

The favorable news in regard to Sugar, the corresponding rise in all Sugar Stocks, and the general results of the late election, warrant the assumption that this year's Christmas trade will be fully up to the average. For this we have prepared in a more than unusually thorough manner.

In Japanese Ware we have a few of the far famed Satsuma Vases, every piece a work of art; each figure, tiny though it may be, standing out clear and distinct.

Cloisonne Ware with delicate silver thread imbedded in the metal, forming wonderful designs, possible only to a people for whom time has little value. "Imari" bowls and plates, "Kutani," "Awata" and "Kochi" vases, bowls and platters, each make with its own peculiarities, and each with a beauty of its own. Egg shell Japanese ware in Tea Sets, Coffee Sets, Single Cups and Saucers, and a few Bowls, all nearly transparent and in designs quaint and beautifully worked out.

Then too we have the famous Japanese Drawn Work and Embroidery on Grass Linen, an assortment which our agents in Japan have been working up for several months past. Among them are Doyleys, Napkins, Squares, in various sizes. Table Cloths, Table Scarfs, flouncings, etc. and a small but choice lot of Gauze Table Cloths, all perfect in design and finish.

We must not forget the Panels, Silk Embroidered Covers, Photo Screens, Cabinets, etc., all of which are worthy of special mention.

In the "Pina" or Pineapple Fibre Cloth we have a number of beautiful shades. A dress length of this would be a very welcome present to friends abroad, as it is seldom found in American stores.

We have not forgotten the American and European markets, however. From them we have procured a few specialties direct from acknowledged headquarters. In fans, for instance, we have perhaps the best line ever brought into the country. Prices from \$1.00 to \$25 each. Real Shell Combs, Barrettes and Pins, Aigrettes Spangled Butterflies, etc., direct from the makers. No middleman's profit. Some cushion covers in beautiful designs, and pillows for them. Ladies' Silk Umbrellas with pearl and silver mounted handles and many other novelties that cannot be mentioned for lack of space.

Our regular line of Dry Goods, too, is unusually complete, and our stock of trimmings will compare favorably with any in the country. We have silks in Peau de Soie, Crape de Chien, and Taffetas in black and colors, and a few single lengths of Flowered Taffetas and Foulards. Leghorn Hats we trim to order, and have an excellent line of flowers and feathers to select from.

For the gentlemen we have Neckties, in every shape and color, Collars in all the new cuts, Negligee shirts of the well known Monarch brand (which is a sufficient guarantee of fit and style). Initial Silk Handkerchiefs, Pajama Suits, including a few silk ones from Japan.

We are headquarters for Stetson and Panama Hats, and we are making a specialty of a Felt hat in all styles and colors at \$3.00 each. We have a line of suitings that will compare favorably with any Honolulu establishment, and these in single suit lengths. In fact, in this department as in others, our aim has been to make it as complete as possible.

Our Grocery Department as ever is full of carefully selected goods. We carry the celebrated Curtice Blue Label line, Heinz's well known products, C. & B. Jams and Pickles, Spices, etc. and in Meats, Soups and Fish we have the best products of the best factories.

White Label Olives speak for themselves in size and quality and the Olive Oils, and the various condiments are put up in so attractive a manner as to create an appetite if none previously existed. Cranberries, Plum Puddings, and all other good things for the Christmas dinner can here be found and we guarantee their freshness and excellence.

Whitman's Chocolates and confections make a fitting finish.

We have only space to mention a few of the headings, hundreds of other articles of equal importance are in stock and it is always a pleasure to show goods and quote prices.

We have just received the sole agency for Horner's Butter, so well and favorably known in this district. This we are selling at 80 cents a roll, full size, about as cheap as cooking butter.

Our motto in our Grocery Department has always been: "Not how Cheap but how Good."

**ICE MAN KING.**

Immense Quantities of Ice Consumed at Honolulu.

Honolulu, Nov. 29.—Honolulu is a warm town, judging by the amount of ice that is annually consumed by its residents. The balmy, dreamy, tropical isles of the Pacific, over which poets rave and paragraphers use much printers' ink, are, however, prone to the use of artificial icebergs in miniature to cool off the atmosphere. The poets never make mention of the earth-ware water coolers, of the cheap Yankee tin icewater container, or of the everyday refrigerator with which the house is equipped. Nevertheless, no house is complete without one of these developments of civilization and modern science, and the ice men who supply the frozen water to fill them are busy every day in the year looking out for the comfort of thirsty consumers.

Honolulu consumes about 100,000 pounds of ice per day the year round. Of course, in the summer time, when the mercury is striving to push off the top of the thermometer glass, the demand for ice keeps the telephones in the ice houses pretty hot, but when winter comes, if winter it can really be termed in Hawaii, the demand falls off slightly, but the average throughout the year is about 100,000 pounds per day, or 36,500,000 pounds per year. This is a big lot of ice. When one considers that it takes this great weight of material just to cool off the drinking water which comes through the mains from the reservoirs, or to sharpen sparkling bottles of champagne and other liquid beverages, and to keep the housekeepers' mutton and veal chops, vegetables and milk cool he sees that Honolulu means to keep cool at any price.

According to Uncle Sam's census, taken in 1900, Honolulu has a population of 36,306. These figures have been largely increased in the last two years, but taking 40,000 as a basis, each resident would receive over 912½ pounds per year, or less than half a ton, or equivalent to about 2½ pounds per day.

**YOUNG AUTHOR NORRIS.**

Sketch of Short Career of Gifted Californian.

The death of Frank Norris, the novelist, occurred at San Francisco, October 25. Mr. Norris was a Harvard graduate who had settled in San Francisco and devoted himself to literature. He was only thirty-two years old, but had gained a high reputation as a writer. Before going to Harvard he received his early education at the San Francisco high school and the University of California. He studied art in Paris in 1887. Mr. Norris gained his first laurels in journalism. He acted as a correspondent in South Africa for the San Francisco Chronicle in 1895 and 1896, and was sent to Cuba during the Spanish-American war for McClure's Magazine. He had also been editor of the San Francisco Wave. The novel that brought him the greatest fame was "The Octopus," a story of the struggle between the wheat growers of California and the railroads. Both this story and his earlier works, "McTeague" and "Blix," have been warmly commended for their sincere realism.

The ball to be given at Spreckels Hall this evening by the members of Company D promises to be one of the social events of the season. The boys are leaving nothing undone in the way of preparations.

TO PREVENT CROUP, begin in time. The first symptom is hoarseness; this is soon followed by a peculiar rough cough, which is easily recognized and will never be forgotten by one who has heard it. The time to act is when the child first becomes hoarse. If Chamberlain's Cough Remedy is freely given, all tendency to croup will soon disappear. Even after the croupy cough has developed, it will prevent the attack. There is no danger in giving this remedy as it contains nothing injurious. It always cures and cures quickly. The Hilo Drug Store sells it.
