HONOLULU, JULY 9, 1894.

THE POLICY OF WILLIS.

A Misleading Report.

The United States Minister, Mr. A. S. Willis, has not acted in a very unpartial manner since his arrival here. We presume that he has obeyed his instructions, but if he has, he has certainly done so in a most peculiar manner.

The United States' administration seems anxious to sneak out of its obligations to the constitutional government of Hawaii at all hazards. Mr. Willis was ordered to communicate with the Queen and to present to her the conditions which the president imposed on her in his desire to restore her. Mr. Willis was also instructed to demand the surrender of the provisional government. How did he do it? In the first instance, he held an interview with the Queen, who was unattended and without counsel. He allowed her no time to consult her legal advisers or her friends. He put words into her mouth, examined and cross-examined her, and finally sat down and wrote to his government, that the Queen insisted in "beheading" the leaders of the rebellion.

When approaching the provisional government, he naturally made the demand on them which he was instructed to do. He did so in a most pleasant manner and *he gave them all the time they wanted to consult and to answer.*

Subsequent reports to his government, shows where the sympathies and inclinations of Mr. Willis are.

He has stated to Mr. Gresham, that the rebels were immaculate, and that the Royalists lacked standing, wealth, and intelligence. And that, in the face of the fact, of which he must have been aware, that the standing, the wealth and the intelligence of the community are distinctly to be found in the ranks of the supporters of the constitutional government.

We reprint now one of his latest despatches to Mr. Gresham in which he states that more than two-thirds of the registered voters attended at the election of delegates to the constitutional convention. If Willis had said more than two-thirds of the voters registered for that occasion, we would have no reason to object, but knowing that the term "registered voters" all along has been used as signifying the legal voters of Hawaii, i.e. about 14,000, the phrase used by Mr. Willis is distinctly misleading. His refusal to forward the protest of the 13,000 members of the Aloha Aina League is equally significant. If Mr. Willis "believes" that he represents President Cleveland all we can say, is that the chief of the Great Republic must be a most remarkable weather-cock. The following is Willis' despatch:

The President today sent to the Senate the following dispatch from Minister Willis:

(Mr. Willis to Mr. Gresham.)
Legation of the United States,
No. 45, Honolulu, H.I., May 10, '94.

Sir: The election of delegates

for the constitutional convention, held on the 2d inst., was quiet and orderly.

Of the eighteen delegates elected, five are native Hawaiians and two are Portuguese. Several others were born here, but of foreign parentage. The vote actually cast was somewhat over two-thirds of the registered vote.

I will give a more complete analysis of the vote when the official statements appear.

The convention will hold its first session on the 30th instant.

The condition of affairs here remains quiet.

On the 10th instant several representatives of the "Hawaiian Patriotic League," including Hon. John E. Bush and Hon. Joseph Nawahi, presented to me a letter, in which the "League" protests against the action of the provisional government in calling a constitutional convention, from which the native Hawaiians, except under a "restrictive and prohibitive oath," were excluded, claiming that this act was a "breach of courtesy to the United States government, and a violation of its provisional authority."

I explained to them that the Hawaiian question was now before Congress and that I could not receive or forward resolutions of political bodies, except as a part of current history. I do not, therefore, send you a copy of the letter. Very respectfully, etc.

ALBERT S. WILLIS.

FULLY RECOGNIZED,

INDEED?

The pg Advertiser is trying to keep up the failing vim of its followers by pretending to an oracular inspiration on International law:

"It is utterly fatuous to talk about a *de jure* government existing in this country which is not the actual government. From the standpoint of international law, there is but one government here, which is both *de facto* and *de jure*."

We once knew a man who, used to get off a Munchausen story so well and so often, that he thought he had a right to believe it himself. The political three-card scribes of the pg. are only "utterly fatuous" in their pretended belief, that they can instruct the people in their own way. The public which laughed at Carter lecturing Judge Coolie, can only be amused at the self-assertion of Hennery.

CHEAP HONORS.

The Advertiser states that Mr. A. F. Judd has received the honorary degree of L. L. D. from the Yale college. We have never taken much stock in the "prefixes" to a man's name when conferred by any American institution. In most European countries the use of such prefixes are simply forbidden if emanating from America. Every gospel sharp, tooth-puller, massager, organ-grinder, etc. etc. is a "doctor" in America, but of course, Yale has been heretofore considered above the common run. The conferring, though, of a degree of Doctor of Laws to Mr. Judd shows that Yale follows in the footsteps of the Philadelphia title factories. The university should state when and where the new L. L. D. ever proved himself a prominent jurist, a great lawyer, or an eminent judge.

It is whispered that there shortly will be another naval "engagement," in which the Philadelphia will carry away the bride. It is said, at least, that "Barkis is willing."

THE PROMISED BOOM.

The prophets of the oligarchy admit that the "boom" promised by the p. g. when the current of popular government was turned aside by foreign interference has not materialized, and we are charged with having retarded the arrival of the p.g. millennium. We did not think it possible—with a dead and buried monarchy, and the whole American nation—not forgetting the navy. With Cleveland having experienced a change of heart and Thurston as his confessor-in-chief, we can't see what could have delayed the "boom," unless it is the ghosts of Popcorns grandfathers; the prayers of Judd and Sereno, or the three cheers of jingoite Cochrane.

The fact is that there will be no "boom" here as long as the present crowd are in power. Before long numerous stores will be closed, numerous firms will be bankrupted, and numerous foreigners forced to leave the country where under the auspices of the government Asiatics take their place. The monthly pay-roll of the government amounts to, between \$60,000 and \$70,000. Under the "corrupt" monarchy that amount of money was spent in the country and freely circulated. It is not so now. The foreigners who support and serve the republic, spend no money here. Their living expenses are extremely small, and the balance is hoarded or sent out of the country. Few of them live here with any intention of making Hawaii their permanent home. They are all hoping and preparing to get back to their own homes. Their ambition may be very praiseworthy, but it is the ruin of the country. The finances of the country cannot stand the drain on its resources. A large amount of the proceeds of our industries are consumed abroad—and no adequate taxes paid to the government. The few wealthy missionaries living here spend no money. They live in the style of the bourgeoisie—in fact like paupers, misers. Their followers who hold the government offices, follow their cue, and the result is, that the money disappears from circulation which should enable our store-keepers and merchants to pay their taxes, their duties and import sufficient goods.

month, and that the \$110 over that amount goes out of circulation.

It doesn't take much of a financiering genius to figure out how long the country's finances can stand it. With 65 cents a day Japanese mechanics (1) in Honolulu, the Hawaiians, the Portuguese and the foreign mechanics and workingmen will be driven to the wall. With Chinese and Japanese competition, and with the treasury-sucking blight in the government employ the foreign store-keepers will have to give way. And then the "boom" will come, but it will be a "boom" for Mr. Castle's friend, the "brown" man and not for the men who helped to make a missionary oligarchy.

The Way They Rush.

The Advertiser is feeling happy because the "people" rush into the judge's office and take the oath to the new republic. So far the "swearing" has been very slim, especially among the Hawaiians. Only twenty two Hawaiians have taken the oath to date. They can be classified as follows:

- 2 lawyers (Barenaba & Achi).
- 1 salvation preacher.
- 1 father-in-law to a police captain.
- 1 Parson.
- 2 Non-descripts.
- 15 government officials.

Mr. Dole's republic seems to be established without blessing and without swearing.

Prof. Adelstein's Mandolin Musicale.

The programme of Prof. Adelstein's mandolin musicale given at the Opera House on Tuesday evening the 17th inst., will contain so many new numbers, and the names of the artistic talent who will assist him a great treat is in store for our musical people. The programme is replete with musical selections new to our musical people, Mrs. W. J. Wariner will sing a song accompanied by the lute, this will be one of the gems of the evening. Prof. Adelstein will perform several mandolin solo and will perform two lute solo, Schubert's Serenade and Musso's Elegia two beautiful selections. Miss Kate McGrew will sing the charming Aria—accompanied by Mr. John T. McGrew—Mou couer s'ourie a ton rois from Samson et Delilah by Massenet. Miss Nettie Burhans will perform selections from Weber and Mendelsohn, Mr. W. H. Hoogs will sing the tenor solo from Maritana "Let me like a soldier fall." Another exquisite selection will be an instrumental trio "Rose di Maggio" for mandolin, violin and piano. The concert will be without any question one of the finest ever given in Honolulu, and the Opera House will be crowded to the utmost.

Horse races, rifle shooting, greased pig contest, foot races, wrestling and dancing were the principal events of the holiday given to the laborers at Ewa plantation last Saturday. Everything went off smoothly, and the National Band furnished the music. The Railroad assisted the affair in its usual accomodating manner.

- HAWAIIAN - HARDWARE COMP'Y

The Advertiser who catches a persons eye usually wins a customer. Many different styles of advertising have been adopted and with more or less success, by the believers in the use of printers ink. The manufacturers of Pears Soap, for instance, occasionally buy paintings that have been on exhibition in the Pari's Salon and have lithographs made from them for the purpose of bringing their product before the people. In addition to such side issues, Pear spends hundreds thousands of dollars annually among the newspapers and magazines. Some years ago the Agents of certain article on sale in New York made a hit in advertising by having on Broadway during business hours two fatuously dressed Negroes wearing very high collars, on the backs of which was printed "Use Smiths Pills." The idea was novel and the public caught on. Rising Sun Stove Polish has been kept before the public for years through persistent, and sometimes expensive advertising. Twenty odd years ago the manufacturers of this polish started half a dozen men across the orniment to paint signs on rocks and fences. The Aeromotor Co., of Chicago have increased its sales more than five hundred per cent in two years by the use of printers ink. We believe we have been instrumental in increasing the sales of the Aeromotor by keeping everlasting at it in Hawaii.

We do not wish to say that advertising will sell any manufactured article; there is no use spending money in advertising "cheap and nasty" goods because the people will not be hoodwinked. If Haviland China was not the superior article it is, all our advertising of it would not have sold the thousands of pieces that we have. We simply call the attention of the people to it and its superior quality is apparent to the customer directly a piece of it is examined.

Printers ink has helped the sale of the James Locked Fence but it would not have done so if it had been as flimsy as the ordinary wire fence. First; the economy there is in building it recommends it to the plantation manager and then its durability clinches the sale. If the stays and washers cost as much as an ordinary redwood post our sales of the material would not have reached such enormous proportions.

Our average sale of the Pansy Iron Stove is about two a day the year round. If it was not the best iron stove on the market we would not sell that many in six months. Advertising is the tip to the public the good points in the article sells it just as the good qualities of the Fischer Steel Range make it a desirable article for people who wish to economise in the use of fuel.

We buy only what has proven good after people in the United States or Europe have given it a trial; we profit by their experience if the articles are good we buy and sell them; if they are poor we steer clear of them. When we advertise an article it is to attract attention to it; the newspaper is the button we push, the salesman does the rest.

Persistent advertising coupled with the article being a superior one has sold thousands of the Frank Walcott Emory File. If it had been no better than an ordinary scythe stone we probably would not have sold twenty. When a man finds out that his table knives may be kept sharp at all times at an expence of fifty cents and a very little elbow grease he is quite willing to try the experiment.

The seats to Professor Adelstein's mandolin musicale on the 17th inst. are being rapidly taken at Levey's office.

The Sunday shooting at Makiki was in full blast yesterday. The residents in that vicinity are beginning to growl.

The new British representative who is to take the place of Minister Wodehouse is expected to arrive here on Saturday.

It is stated that a meeting will be held tonight for the purpose of re-organizing and reconstructing the old Liberal party.

Sans Souci and Long Branch were visited by a large number of people who enjoyed the exquisite bathing at these resorts.

A man on horseback entertained a number of people at the Kapiolani park yesterday by an impromptu circus. The horse got decidedly the best of it.

Dr. Geo. Herbert formerly of Wailuku arrived here yesterday and will make his residence in Honolulu. The doctor will be a valuable addition to the medical fraternity as well as to the society of Honolulu.

Professor Berger has composed a new march called the "Republic of Hawaii" which will be played to-night at the Emma Square concert. If the Professor had composed a better republic the country would have been grateful to him.

The match-race between the Philadelphia crew and the native boys will probably take place in a few weeks. Duty on-board prevents the blue-jackets from issuing their challenge at present.

Why doesn't Mr. Hatch's "exclusive" organ publish the "recognition" from Messrs. Wodehouse, Verlaine, Fujii and Canavarro? Don't they suit the little man and his Star?

Mysterious Disappearance.

A Portuguese who used to live at Pauoa valley, and who for some time has been in very ill health has disappeared, and there is no clue to his whereabouts. The man was subject to epilepsy and it is feared that he has wandered away and succumbed to an attack. Enquiries are now being made in regard to his fate.

Billy Cunningham barely escaped a serious injury last Saturday. He and some friends were practising at the shooting gallery. While Cunningham was shooting, making a bull's eye, the bullet rebounded, striking him in the face right under the eye. Besides a small scratch the "Anchorite" doesn't feel any effect of the accident.

At a subsequent examination of the Nobles certain changes were made, to which we have set our names this ninth day of November in the year of our Lord one thousand eight hundred and forty, at Lahaina, Maui.

HAWAII'S "BLUE" LAWS

CONSTITUTION and LAWS

Framed by the Missionaries.

LAWS of the HAWAIIAN ISLANDS.

21. OF THE APPLICATION OF THE LAWS.

During the ensuing six months, the governors and landlords shall settle the difficulties in relation to residuum lands, and other difficulties also, first let the difficulties on the manner of doing business be settled; establish your men on your lands, that they may be well off; seek a reward for the laboring class according to the amount of labor performed; and all officers shall be rewarded according to their correctness in transacting business. After six months from this time, chiefs, landlords and people shall be punished for all violations of this law, according to the within requirements.

22. RESPECTING THE COUNCILS OF THE NOBLES.

In the fore part of April the Nobles shall meet in council to consult on the welfare of all who reside in the kingdom. By such a course the Nobles may perpetuate their rank above the people, in subservience to all the laws of the kingdom to which you give your assent.

But for a man to engage in only one kind of business is the surest way to enrich the nation; thus, one engage in agriculture, another in the fisheries, another in canoe building, another in trade; each important business of the nation having a separate class of laborers, in accordance with the opinion of the skilful.

All taxes assessed previous to the enactment of this law, shall be paid, and all labor previously given out shall be performed in full, after which the old system shall end.

This law was enacted on the 7th of June, in the year of our Lord one thousand eight hundred and thirty nine.

At a subsequent examination of the Nobles certain changes were made, to which we have set our names this ninth day of November in the year of our Lord one thousand eight hundred and forty, at Lahaina, Maui.

(Signed) KAMEHAMEHA III

KEKAULUOHL

CHAPTER IV.

OF LAWS WHICH ARE NOT OF UNIVERSAL APPLICATION.

In the constitution, it is stated what laws are applicable to the kingdom at large. A single Noble cannot make a law, not even his Majesty the King, but the Nobles must assemble according to the requirements of the constitution. Wherefore if a single Governor pursue an incorrect course, the fault is his own; it does not attach to the kingdom, until the King and Premier approve the act; then the kingdom is involved.

There are many little evils existing in villages, which the general laws of the nation cannot correct, for the circumstances of one village are unlike the circumstances of another village, wherefore, the following edicts have been agreed to:

1. If the people of any village, township, district, or state, consider themselves afflicted by any particular evils in consequence of there being no law which is applicable, it shall be lawful for them to go to a tax officer, judge, or any chief, and he shall give notice to all the people of the place, who may assemble at the place mentioned by the officer. Then they may devise a law which will remedy their difficulties. If they shall agree to any rule, then that rule shall become a law for that place, but for no other. It shall not however be in their power to make any law which is at variance with any law of the kingdom, nor on a subject of universal importance.
