PROGRESS.

The Life of the Land is Established in Righteousness.

HONOLULU, JULY 16, 1894.

Good Republican Ideas.

At a very large and very enthusiastic meeting of sympathizers with the powerful American Railway Union, held at Metropolitan Temple, San Francisco, on July 6th, the following preamble and resolution, (well worthy the attention of lovers of peace and order in Hawaii) were presented:

WHEREAS, It has been the custom of the monopolists and plutocrats of all ages to control the implements of industry and commerce, especially money, banking and transportation, in such a manner as to accumulate the wealth of nations into the hands of the few by enslaving the masses to ceaseless toil and then when civil or foreign war arose to send their slaves as soldiers to defend and protect the property so taken by monopoly from labor; and

WHEREAS, Such military service should properly and logically be based upon the duty of sending first to war such persons as have the most property to defend, and at the peril of war, and such a system, in addition to being just, would soon put an end to war; therefore, be it

Resolved, That we demand that the military service of this State and nation be remodeled so as to provide for the classification of regiments in such manner that men who have the most property shall be drafted first into the militia and army, and that such regiments must first be ordered to the front in case of insurrections and civil and foreign war.

The report of the occurrence goes on to say:

No sooner were the last words out of the reader's mouth than a dozen voices moved the adoption of the resolutions. A thousand voices seconded the motion and on the vote nearly 3,000 thundered out "Aye."

TIT FOR TAT.

Dedicated to the W. C. T. U. and the Advertiser.

A Kansas editor who opposed woman suffrage in the Populist convention was met by a mob on his return home, led by women, and was forcibly dressed in a gown, shawl and bonnet and compelled to march through the streets.

These gentle arguments are impressive. But what will the ladies say when some Kansas community mobs Mrs. Lease man fashion—dresses her in trousers and makes her march to the tune of "Polly put the kettle on?"—The Wave.

Failure No. 1.

The information is obtained that the circuit term at Hamakua, Hawaii, under the Republic, is a dismal failure, only one solitary person being willing to take the prescribed oath to fit him for jury service. As a result all of the cases have been postponed to the Hilo term, sometime in October next.

COMMON SENSE

That Bush and Company did not Listen To.

In trying to talk sense to the people and advising them to act in a sensible manner, we have naturally brought down on our paper and on the head of the editor, a perfect cyclone of wrath. As a matter of course, we are denied on opinion of our own. As a matter of course, we are told how to write and how to talk and as a matter of course, the blather-skites who presume to parade under the titles of patriots and honest politicians demand that we (no cause for demand is given) shall obey with their decisions and obey their orders.

We beg to differ with the esteemed gentlemen who presume to run this sheet. We beg to accept their fearful threats of "what they are going to do." In fact we beg them to talk less—a great deal less—and act a little more—that is, if they desire to be recognized.

The HOLOMUA has fought the battle of constitutional government since the 17th of January, 1893. In spite of martial law, in spite of persecution, threats and boycott, this paper under its present editor has conducted the politics of the loyal citizens of Hawaii through breakers, through opposition and through the jealousy for which certain alleged Hawaiians, now on our side are famous. The policy of this paper has not been changed. The editor of this paper cannot be bought or sold. We have told the men who form an honest, a just and a righteous opposition to either fight or vote. And we have been told that therefore the paper is *kipi* and that the editor is bribed.

Now, let us ask you, you very patriotic, you most clever, and you devilish smart men, what are you going to do? What is your policy? What is your remedy? Are you still looking to Washington waiting for that mythical answer? or are you waiting for a miracle to happen? Or what in H—are you waiting for??

The *Ka Leo* always illuminated by the superior intelligence of Mr. Bush is supposed to control the Hawaiians, and it bitterly derides the HOLOMUA. Where gentlemen of 1889, was Mr. Bush when the trumpet sounded and called you forward to battle under the Wilcox banner? Hence, hence flee to mountains and his "fleas." Were there!

Where was the valiant Nawahi? where in fact were the 'big bugs' who were to back the few hordes of badly armed, badly equipped, and badly drilled patriots.

They were, where they are now. At home and ready to prepare and to sign a protest and oiling their tongues for any educationist feat. But in the fight. They weren't there.

A large number of sensible Hawaiians here as well as on Maui and Hawaii fully realize and approve of the position taken by our paper. Mr. Bush and Mr. Nawahi, who fear to lose their brief power over the Hawaiian masses object to our stand and oppose it. They will neither fight nor vote. Let them tell the people what to do! Wait and Pray?? Wait and Pray, have been the watchword of these men. Is it any use any longer to wait and pray?

Mr. Bush undoubtedly can

afford to "wait and pray." His sheet with its financial support goes along smoothly and he, at least, does not feel the wolf of starvation standing at his door.

But you, the other Hawaiians, are you equally well situated? Don't you, in your sentimental feelings towards your Alii, in your high strung feelings of patriotism and your earnest hopes for the prosperity of your land, become mislead, duped, and placed in a position where you will lose the golden—the only opportunity?

A Commission has left here for Washington. Every man on it stated that his honest belief was that it was fruitless and hopeless. No answer can be had from that committee, even if railroads are in running order, before five weeks have gone by. The answer will be adverse to the hope of the few who yet believe in American justice. When it arrives the time for taking part in the election will have passed. For six years, at least, the people will be left in the cold. For six years we are locked out. Are you ready to face that issue, Mr. Bush and Mr. Nawahi? Or do you believe that God will change the constitution?

It will be of interest to the "historians" of this country to read the special correspondence from Hawaii to the *Chronicle*. It is evident that Mr. Mike de Young does never abandon his declared principle of being a liar and a scoundrel, but in spite of his dyed hairs, yet hires unscrupulous tools abroad, to follow his pernicious course. What a contemptible little "frenchified" Jew!!!

The Lute.

A number of people have been enquiring what a Lute is. Prof. Adelstein will answer the question tomorrow evening when he performs on the instrument seen here for the first time. The Lute surpasses in sweetness of sound and in richness of tone all other string-instruments next to the Violin, and it resembles strongly the Violoncello. Mr. Adelstein's reputation as a virtuoso on the instrument needs no further mention. The concert tomorrow evening at the Opera House—will be a distinct success, and everybody who takes any interest in music should be there. A large number of tickets have been taken, but there are still good seats to be had by an early application to L. J. Levey. Now, let it be seen who love music and who don't!

New York, July 4. Richard Croker arrived to-day on the steamer *Majestic*. From the pier he was driven direct to Tammany Hall, where a Fourth of July celebration was in progress. His appearance was greeted by enthusiastic cheering.

London, July 4. J. J. Corbett has declared in Birmingham his willingness to match Billy Plimmer against anybody of the same weight. Corfield preferred, for £500 or upward, the fight to take place either in America or England.

St. Petersburg, July 3. The government has served a notice upon the government of Tokio that Russia will not permit Japan to occupy Corea.

HAWAIIAN

HARDWARE COMPY

The Advertiser who catches a persons eye usually wins a customer. Many different styles of advertising have been adopted and with more or less success, by the believers in the use of printers ink. The manufacturers of Pears Soap, for instance, occasionally buy paintings that have been on exhibition in the Paris Salon and have lithographs made from them for the purpose of bringing their product before the people. In addition to such side issues, Pear spends hundreds thousands of dollars annually among the newspapers and magazines. Some years ago the Agents of certain article on sale in New York made a hit in advertising by having on Broadway during business hours two fatly dressed Negroes wearing very high collars, on the backs of which was printed "Use Smiths Pills." The idea was novel and the public caught on. Rising Sun Stove Polish has been kept before the public for years through persistent, and sometimes expensive advertising. Twenty odd years ago the manufacturers of this polish started half a dozen men across the ornament to paint signs on rocks and fences. The Aermotor Co., of Chicago have increased its sales more than five hundred per cent in two years by the use of printers ink. We believe we have been instrumental in increasing the sales of the Aermotor by keeping everlastingly at it in Hawaii.

We do not wish to say that advertising will sell any manufactured article; there is no use spending money in advertising "cheap and nasty" goods because the people will not be hoodwinked. If Haviland China was not the superior article it is, all our advertising of it would not have sold the thousands of pieces that we have. We simply call the attention of the people to it and its superior quality is apparent to the customer directly a piece of it is examined.

Printers ink has helped the sale of the James Locked Fence but it would not have done so if it had been as flimsy as the ordinary wire fence. First, the economy there is in building it recommends it to the plantation manager and then its durability clinches the sale. If the stays and washers cost as much as an ordinary redwood post our sales of the material would not have reached such enormous proportions.

Our average sale of the Pansy Iron Stove is about two a day the year round. If was not the best iron stove on the market we would not sell that many in six months. Advertising is the tip to the public the good points in the article sells it just as the good qualities of the Fischer Steel Range make it a desirable article for people who wish to economise in the use of fuel.

We buy only what has proven good after people in the United States or Europe have given it a trial; we profit by their experience if the articles are good we buy and sell them; if they are poor we steer clear of them. When we advertise an article it is to attract attention to it; the newspaper is the button we push, the salesman does the rest.

Persistent advertising coupled with the article being a superior one has sold thousands of the Frank Walcott Emory File. If it had been no better than an ordinary scythe stone we probably would not have sold twenty. When a man finds out that his table knives may be kept sharp at all times at an expense of fifty cents and a very little elbow grease he is quite willing to try the experiment.

H. Roberts was the purchaser for \$300, of three acres of land situated near the Kamehameha school, sold under foreclosure, by J. F. Morgan today.

CORRESPONDENCE.

[We do not hold ourselves responsible for the opinions or the utterances of our correspondents.]

EDITOR HOLOMUA.

The *Star* reporter obtained his usual truthful report of the meeting of the People's Party. His guyascutusphone is an excellent recorder of proceedings. It failed, however, to catch one of the most interesting suggestions made at the meeting. We, now kindly furnish it. Mr. Wagner moved that in consideration of the *Star's* valuable service in advertising the People's Party, a collection be made for the purpose of assisting the *Star* editor to pay that \$10 whiskey Bill. Mr. A. J. Tippler (another unscrupulous foreigner) considered it rather presumptuous of a "low down" dispenser of "forked lightning" in being so brutal as to attract the attention of so mighty and influential a personage as the *Star* editor to an old standing saloon debt. Under the new government all such previous moral obligations should be "rubbed off the slate."

Mr. Per Simmons who claims to be the original inventor of the guyascutusphone proposed that the collection be postponed until we had fingered some of the "bcodle" which the *Star* states, we are seeking. That Mr. Wagner's motion was perfectly proper, and Mr. A. J. Tippler's remarks was out of order; that, as we all know, sugar is low. That the sugar planter stockholders of the *Star* company were possibly negligent in the matter of financial "digging," and a little aid from us would possibly come in handy in enabling the *Star* editor to resent the HOLOMUA insult by liquidating the debt. The motion as amended was carried, almost unanimously, there being, but one dissenter, who proved to be "Alabama" Mitchell. Mitchell gave as his reason for dissenting that he was sorely disappointed in the *Star*. He had expected a cut and writing up similar to that which the *Advertiser* gave Leo. etc. Harden. That time would probably heal his wound, but in the meanwhile, he would advise the *Star* reporter even to steer clear of him, as he (Mitchell) would not be responsible for the result.

HENRY VON WERTHEN,
Secty. People's Party.

Cunningham—"Shut up both you are served."

"Dr." Rodgers has obtained another Board of Registration job, at an unknown salary; not from merit but "by authority." "Better to be lucky than handsome."

It is reported that Mr. Hugh Center has resigned his position as manager of the Hawaiian Sugar and Commercial Company, and will return to California for good.

The proposed "strictly temperance hotel" Queen on Nuuanu street has not yet been opened for business. It is naturally supposed to be a water-house establishment.

It is a pleasure to see that Colonel James Sherwood, the genial manager of the Long Branch, is around once more and perfectly able to take care of himself and his customers. His "gout" is like the Republic. Not permanent.

HAWAII'S "BLUE" LAWS

CONSTITUTION and LAWS Framed by the Missionaries.

LAWS of the HAWAIIAN ISLANDS.

18. Furthermore, it shall not be proper for the general school agent to give the teacher's certificate to ignorant persons, nor to persons known to be vicious or immoral. If a man can read, write and understands geography and arithmetic, and is a quiet and moral man, and desires a teacher's certificate, it shall be the duty of the school agent to give him one, and not refuse.

19. Furthermore, all the tax officers are required to listen to the commands of the general school agents, when they give orders for the payment of the teacher or teachers, in accordance with the requirements of this law, or when they give orders for rebuilding school houses. The tax officers shall obey the requirements of this law. But they shall notify the Premier of all the property which they pay over to the school agents or teachers.

20. By this law, the statutes enacted in relation to schools, on the 15th of October, 1840, are repealed. When this law is published, on the day that it takes effects, then that law shall not be no longer regarded. But school committees regularly appointed shall hold their office through the year, when if the people choose they may appoint new ones. Furthermore, all lands regularly given to the teachers in accordance with the regulations of that law, are confirmed to the teachers by this new law, in the same manner as lands newly given out by the general school agents.

The day on which this law shall take effect shall be as follows: Should it be proclaimed in any village or township, then the day on which it is proclaimed shall be the day of its taking effect in that place. But if it is not proclaimed, then it shall take effect on the first day of September next, in all places in the Hawaiian Islands.

All the requirements of this law having been agreed to by the Nobles and by the Representatives, we have set our names to the same, this twenty-first day of May, in the year of our Lord, one thousand eight hundred and forty-one, at Lahaina, Maui.

(Signed) KAMEHAMEHA III.
KEKAULUOHI.

CHAPTER VIII.

LAW RESPECTING THE MAKING OF ROADS.

If any Governor wish a road made, he shall appoint three surveyors who shall lay out the road. And the people also may do the same. If they wish a road made they may proceed according to the directions in Chapter IV. But this law is enacted for the further regulation of the subject.

1. If it be desired to make a new road, it shall be done as follows. There shall be three men appointed who shall estimate the amount of property sacrificed by means of the road. Those interested in the road shall make the appointment, if the Nobles, then they shall appoint, or if the people, then they shall appoint.

2. If any man's house stand in the contemplated road, the committee of three shall estimate the amount which said man ought to receive for the damage he sustains in the loss of his house. And he shall be paid according to their estimate. The same also in case a taro pond or other property be damaged by the road. The owner shall be paid according to the estimate of the three men.

3. If the road cut the various plantations alike or nearly so, and does not cut them so as to occasion much damage, but in such a manner that the loss and gain too are mutual, then there shall be no damages paid for the loss of land by the roads. No man can refuse to give up his land for a road. The decision shall rest entirely with the committee.

4. If the chiefs are the persons who direct respecting the road, then they shall pay the damages sustained by the road. If the road is made at the direction of the people, then they shall pay the damages sustained.

This law was enacted on the eleventh day of November, in the year of our Lord 1840, at Lahaina, Maui.

(Signed) KAMEHAMEHA III.
