PROGRESS.

The Life of the Land is Established in Righteousness

HONOLULU, JULY 18, 1894.

Political Juries.

The *Advertiser* is endeavoring to defend the clause in the constitution which makes it obligatory for a juror to take the oath to the republic. Reading between the lines, it is easy to see, though, that the semi-official organ is not altogether enthusiastic over Mr. Hatch's amendment. It hasn't worked well so far and we fear it will prove a stumbling to a friendly settlement of our political troubles.

The *Advertiser* does not believe in the jury system. Nor do we. But when the *Advertiser* says, that the country can boast of conscientious, impartial and upright judges, we beg to differ.

Human nature cannot be changed. It would certainly be impossible for political judges like Messrs. A. F. Judd and Cooper to relieve their minds of political sympathies and affiliations and simply look at the law and facts in a case before them.

In countries where there are no juries, the courts are composed of men who are wholly and absolutely out of politics. Men who for the sake of the honor and dignity of their high offices know nothing about political strife and fight, and who don't know or care to know anything about the opinions of the party or parties to be tried by them. If Hawaii could secure such men to serve as judges, perhaps the jury system could be abandoned with advantage. At present, we haven't got them.

And the objection which we have raised against the juror clause in the constitution is based on the very same reasons. At the present date, a man who takes the oath to the republic distinctly joins a political party, and we claim that it is unfair and dangerous to demand that a citizen shall be tried by his political enemies and virtually persecuted, because he happens to differ in his political opinions. Under the monarchy, no oath was ever required. Good citizens, were found to act as jurors, but their political opinions or views were never questioned. We don't presume that Mr. Hatch or the *Advertiser* will claim that the juries under the monarchy were corrupt, and yet, we find the names of many jurors who were distinctly disloyal to the government and who would neither take the oath of allegiance or any other oaths for that matter. Why did Mr. Hatch and his friends never raise any objection in those days? Why does it suddenly, become necessary to bring politics into the judiciary branch of the government and virtually make the juries subservient to the present administration? It is a step in the wrong direction, and as far as the foreigners are concerned will furnish excellent opportunities for consular interference and international complications.

The election will probably not take place before the end of October.

Not Too Fast.

The *Advertiser*, not content with a system of alleged government which subjugates the native Hawaiian to the greedy and despotic whines of the existing combination between Christ and Satan, as represented by the holy missionaries on the one hand, and the scum of humanity who have lately drifted ashore upon this beach, on the other, is now exerting its little influence to induce the passage by the present self-appointed "Congress" of this alleged republic, of a law to deprive the Hawaiian of the safe guards embodied in the present jury system.

The *Advertiser*, in common with the sages who are conducting the alleged government of Hawaii at the present time, seems to have become crazed with the idea that the highest aim of government is to get the greatest possible number of citizens into prison, and to keep them there. The entire course of alleged "legislation" pursued by the late deposed p. g., the spirit of that literary abortion labelled a "constitution," which Mr. Dole and his pals submitted for the approval and adoption of the late alleged "convention," the text of that precious document, as passed by the intellectual giants who "sat upon" it, and, finally, the disposition manifested by the existing "Congress" of political prodigies, all to the one governmental ambition, namely, to railroad those who differ from them in opinion into jail, by the shortest and most expeditious route. What, though these precious pretenders to republican ideas trample upon all re-publican precedent, and ignore the first, as well as the last, and all intermediate elements of republican liberty in the process of jailing their opponents? Is it not meet that any one base enough to oppose or criticize the combined forces of Heaven and Hell, (represented as aforesaid), shall be to suffer for such contumacy? What more important to the people, (and of course the little squad of holy missionaries are "the people,") than the safety of the "precious necks" of the little gang who are now carrying things with so high a hand? And how can they better preserve the "precious necks" aforesaid, than to provide a summary process for jailing their critics, as soon as the latter shall be located?

To apply the foregoing doctrine to the case, in hand, it would seem that the partisans of the alleged government and its organs are seriously considering the desirability of so "fixing" the juries, by an alleged "law," as to make it a dead sure thing whenever a Hawaiian is accused of an offense, they will merely have to "go through the motions" of a trial, to secure his conviction by a jury of subservient and bigotted aliens. Is it possible that the loud-mouthed professors of personal and political piety who at present infest the government camp are thus ready to prostitute the forms of law to the consummation of an outrage upon the native people, in comparison with which all their preceding outrages pale into insignificance? We have always thought but meanly of the practices and good faith, as compared with the professions of the missionary gang, but are not yet ready to think

them capable of so gross an outrage as that proposed by the *Advertiser*. The Hawaiian worm may turn and sting. Not too fast.

THE "wonder" of Kilanea is said to have "paled its ineffectually fires" when the "great showman" presented himself on the brink and caved in. A wonderful event, which may be used in some forthcoming political speech to show the effect of mind over matter, and to be presented in a publication entitled, "My Intimacy With the Devil."

The *Bulletin* tackles "Breder" Jones on the authenticity of the location of the famous battle ground where General Warren fell. Hereafter "Breder" Jones' heroics on July 4th, will be taken *cum grano salis*, as errors in history cast grave doubts upon otherwise plausible asseverations.

Earthquake in Japan.

Many districts in Japan have again suffered from severe earthquakes which caused loss of much property and many lives. Tokyo and Yokohama have been the greatest sufferers. The latter city has been visited by great misfortune lately. A destructive fire laid part of the town in ashes. A serious water famine has been prominent and to fill the cup of misfortune the earthquake nearly destroyed the city. In regard to the origin of the late seismological convulsion *The Japan Mail* writes.

The origin of the earthquake is located by Professor Wada Ishiro at a point in the neighborhood of Shirane san and Asama-yama in Shinano. He considers that the phenomenon was volcanic, but upon what grounds this estimate of place and nature are based, we do not learn. It seems to be generally agreed that, so far as the severity of the shock was concerned, neither the great earthquake of Ansei, that laid Tokyo in ruin, nor the calamity of 1891 that wrought such havoc in Gifu and Owari, was of equal intensity. The earth movements on the present occasion were the most violent of all, but happily their comparatively short duration averted results of wholesale disaster. It is, indeed, difficult to understand how any buildings could withstand such twisting and heaving. A practical illustration is afforded by the experience of a Tokyo resident. His family happened to be divided into two parties at the moment of the shock, one below stairs, the other in a distant part of the second storey, a long way off. Being himself downstairs, he proceeded to ascend to the second storey after seeing the inmates of the lower storey escape into the garden. But so violent was the oscillation that he found himself obliged to cling to the banisters in order to ascend the stairs. How lofty houses and tall chimneys could survive such an ordeal, it is difficult to conceive.

A Challenge.

It is reported that a challenge has been issued Nevada to the owner of Johnny Hayward, for a trotting race. The proposition is to match the two trotters in a race 3 best out of 5, 1 mile dashes or 3 best out of 5 in 2 mile dashes or one 5 miles dash. The challenge will probably be accepted by Johnny Hayward's owner Mr. Cornwell who at present is out of town. Why not get up a match between Burt Lee and Fred Mac. at the same time? Isn't Dickey game?

HAWAIIAN HARDWARE COMP'Y

The *Advertiser* who catches a persons eye usually wins a customer. Many different styles of advertising have been adopted and with more or less success, by the believers in the use of printers ink. The manufacturers of Pears Soap, for instance, occasionally buy paintings that have been on exhibition in the Paris Salon and have lithographs made from them for the purpose of bringing their product before the people. In addition to such side issues, Pear spends hundreds thousands of dollars annually among the newspapers and magazines. Some years ago the Agents of certain article on sale in New York made a hit in advertising by having on Broadway during business hours two fatuously dressed Negroes wearing very high collars, on the backs of which was printed "Use Smiths Pills." The idea was novel and the public caught on. Rising Sun Stove Polish has been kept before the public for years through persistent, and sometimes expensive advertising. Twenty odd years ago the manufacturers of this polish started half a dozen men across the ornament to paint signs on rocks and fences. The Aermotor Co., of Chicago have increased its sales more than five hundred per cent in two years by the use of printers ink. We believe we have been instrumental in increasing the sales of the Aermotor by keeping everlastingly at it in Hawaii.

We do not wish to say that advertising will sell any manufactured article; there is no use spending money in advertising "cheap and nasty" goods because the people will not be hoodwinked. If Haviland China was not the superior article it is, all our advertising of it would not have sold the thousands of pieces that we have. We simply call the attention of the people to it and its superior quality is apparent to the customer directly a piece of it is examined.

Printers ink has helped the sale of the James Locked Fence but it would not have done so if it had been as flimsy as the ordinary wire fence. First; the economy there is in building it recommends it to the plantation manager and then its durability clinches the sale. If the stays and washers cost as much as an ordinary redwood post our sales of the material would not have reached such enormous proportions.

Our average sale of the Pansy Iron Stove is about two a day the year round. If was not the best iron stove on the market we would not sell that many in six months. Advertising is the tip to the public the good points in the article sells it just as the good qualities of the Fischer Steel Range make it a desirable article for people who wish to economise in the use of fuel.

We buy only what has proven good after people in the United States or Europe have given it a trial; we profit by their experience if the articles are good we buy and sell them; if they are poor we steer clear of them. When we advertise an article it is to attract attention to it; the newspaper is the button we push, the salesman does the rest.

Persistent advertising coupled with the article being a superior one has sold thousands of the Frank Walcott Emory File. If it had been no better than an ordinary scythe stone we probably would not have sold twenty. When a man finds out that his table knives may be kept sharp at all times at an expense of fifty cents and a very little elbow grease he is quite willing to try the experiment.

Professor Adelstein's Concert.

A large and fashionable audience were present at the Mandoline musicale at the Opera House last evening. The expectations of the public were fully justified and the performance was excellent, and greatly appreciated. Mr. Adelstein proved himself an artistic player both on the Mandolin and on the Lute. He was ably assisted by Miss McGrew, Miss Burhans, Mrs. Warriner, Miss Paty and Messrs Heitman and Paris. A severe cold prevented Mr. W. Hoogs from appearing. Altogether the musicale was a great success, and Prof. Adelstein is to be complimented on his enterprise, and on his talent as a player.

What's Up?

Brewer & Co. are calling in rifles and arms from other islands. A case marked *pu, malama pono*, and addressed to Mr. P. C. Jones' firm was landed from the Hall this morning. Is the worthy gentleman getting ready for another "Banker" Hill.

Mr. Ralph B. Foster who presented himself to public notice, as the prosecutor in a late suit against Capt. H. M. Hayward intends to leave shortly for the Coast.

All who are interested in the Iolani School are invited to be present at the closing exercises tomorrow at 2 p.m. After the exercises in the school room an exhibition of athletic sports will be given.

A large number of people is taking in the closing exercises of the pupils of St. Andrews Priory this afternoon.

Senator Morgan reports everything lovely on Hawaii — except the roads. The great statesman was obliged to ride several miles on a p. g. mustang over a p. g. road. He now prefers a "standing" vote and looks suspicious at anybody talking "fundamental" law to him.

HAWAII'S "BLUE" LAWS

CONSTITUTION and LAWS

Framed by the Missionaries.

LAWS of the HAWAIIAN ISLANDS.

"It is illegal for one man to have two wives.

"It is illegal for one woman to have two husbands.

"A man cannot cast off his wife at his pleasure.

"A woman cannot cast off her husband at her pleasure.

"If a man and woman are agreed to live together as man and wife, and there is nothing in the way to render it illegal, then let them marry in accordance with the word of God.

"But these persons who are united according to the former customs of this country, and are still living together, one man and one woman, and there is nothing to render their union illegal, their union is hereby confirmed anew in the same manner as those who are married.

"But from the present time all persons are prohibited from uniting together according to the former customs, it is proper to marry."

Here also are some further explanations.

If two persons wish to marry, it is not proper to act hastily, but proceed cautiously, in order that one may become acquainted with the character of the other, lest difficulties arise after marriage.

Furthermore, it is improper for an old woman to marry a boy, and also for an old man to marry a girl, but it is peculiarly proper that their ages be near alike.

Wherefore it shall be the duty of school teachers and also of those priests who solemnize marriages to instruct men and women in these particulars.

THE FOLLOWING PERSONS ARE PROHIBITED FROM MARRIAGE.

I. A boy who has not arrived to fourteen years of age.

II. A girl who has not arrived to twelve years of age.

III. A man who has a wife living, and has not obtained a written divorce together with the consent of the Governor for him to marry again, he shall not marry.
