LARGE NEW BARKENTINES.

A duplicate of the new four-masted barkentine Koko Head, recently turned out by W. A. Boole & Son for Hind, Tolph & Co. is to be built for the same firm by Boole. The new vessel will have a length of 245 feet, breadth of 42 feet and depth of 18 feet, and will be able to carry 1,000,000 feet of lumber. Hind, Tolph & Co.'s new barkentine Makaweli now on the stocks, will be launched within thirty days. She has a capacity for 1,000,000 feet of lumber.

MANILA TRANSPORT SERVICE.

No More Troopships to Sail From New York.

Hereafter, in conformity with a decision of the Secretary of War, no government transport will sail from New York for Manila, via the Suez canal, and all troops ordered home from the archipelago will come by way of the Pacific to San Francisco. As the distance from New York to Manila is much longer than by way of the Pacific the transporting of troops by the former route has been very expensive to the government. The traffic between the United States and the Philippines is on the decrease.—Washington Star.

WHY?

A cable to the Herald from London says: William Waldorf Astor's Pall Mall Gazette publishes a letter from its New York correspondent which, in its way, is quite as entertaining as the paper is ordinarily uninteresting. It says: "The outcry against Whiteley Field officially representing this country at the coronation is so fierce that I would not be surprised to find the President eventually backing down on this point. Editors here suggest, and they ought to know, that there is no need of a gentleman in this country, and they are certainly interested to the public as a lot of embroiled, nameless fops, who have no necessary place in a land where every one is expected to work for a living. That is more or less true, for politics is closed to a man who will not seek votes in the Irish slums, and it is not easy to see why people of independent means remain here. America is intensely interesting, and as an industrial and inventive center its educational advancement is doubtless a necessity in the general improvement of the world. But why traveled people of independent means should remain more than a week in this country is not readily to be comprehended."

\$10,000 AND A DIVORCE.

One year ago Joseph P. Junk, son of a wealthy brewer of Chicago, was married to Miss Lottie Williams at the Majestic saloon, in Los Angeles. Miss Williams was once a soubrette and appeared on the stage under the name of Lottie Devereaux. The couple went to Chicago, and Mr. Junk's relatives refused positively to receive Mrs. Junk. She began divorce proceedings against her husband and he against her. The suit and counter suit were both settled by the payment to Mrs. Junk of \$10,000 in cash.

Overwork

and Worry bring on Nervous Prostration, Sleeplessness, and an endless train of Painful Disorders.

Dr. Miles' Nervine.

When the nerves and organs of the body are well and strong, and the worn-out tissues and waste products are quickly removed from the system, a tremendous amount of hard work can be done without serious injury. It is when the nerve tissues and brain cells are used up faster than they are replaced by new ones, when the fires of life consume faster than the fuel can be furnished, that brain, nerves and vital organs suffer—cry out with neuralgia, heart disease, rheumatism, nervous dyspepsia—and finally break down. Dr. Miles' Restorative Nervine is food for the worn-out brain and wasted tissues. It gives a healthy appetite; makes the weak stomach strong; increases the flow of digestive juices and puts the lazy liver to work. It is the greatest blood vitalizer and nerve remedy science has produced.

"I was suffering from sleeplessness and painful nervous sensations, brought on from overwork and anxiety, and although I tried a number of different remedies for this disorder I obtained little or no benefit from any of them. In fact some of the advertised remedies seemed to increase rather than diminish the difficulty, until one day I determined to give Dr. Miles' Nervine a trial. The first few doses convinced me that I had found a specific for my trouble and I continued its use with the most satisfactory results. It seemed to feed the nervous system, afford restful sleep without any of the after effects of an opiate or any artificial stimulant and can be discontinued at will. I deem it the best remedy for nervous people now on the market."

BRIGADE FIELD DAY

SET POSITIVELY FOR SATURDAY RAIN OR SHINE.

All Participants Confident of Some Events—Honolulu Athletic Club Withdraws Their Team.

There will be no more postponements of the Field Day from next Saturday. Present prospects look like fair weather but the Boys' Brigade committee have stated positively that the event will come off "rain or shine".
The track team of the Honolulu Athletic Club has withdrawn from the contest, the directors having decided that the team was too weak to be entrusted with the making of a representative showing for the club. There has been also general lack of enthusiasm among the club members, principally through the unavoidable postponements on account of the weather which led to the breaking of the team being forced to give up the idea of racing.

The Malle Illmas have been steadily strengthening their team for the contest and while the louder voiced enthusiasm lies with the participants of the two college teams, the track athletes will see through the roughness of the course and Punahou to follow. Nothing very much has been heard of the efforts of the Artillery team but the soldiers seem to feel confident of taking two or three of the longer distance events.

The fair weather of the last two or three days has done much to put the track into good condition again and the committee will see that as far as the ground is concerned, nothing will be in the way of breaking records. The events will start punctually at two o'clock and will be run off by the card.

THE NAME DID IT.

New Theory as to How Methuen Was Released.

It is a singular fact that the name Paul has been a favorite in the families of both Lord Methuen whose capture at the hands of Delarey was recently reported, and of President Kruger. The Methuens and the Krugers have both been Pauls in many generations, and this little link of nature—or grace—has been known before now to be set together in sympathy persons further apart than opposing leaders in time of war. A certain kindness for Mr. Kruger is attributed on this account to Lord Methuen and the sentiment is said to be reciprocated by Oom Paul himself.
General Delarey, who captured Lord Methuen, is a gray-bearded Boer, whose usual active service uniform is a suit of the rustiest black. Regarding him a correspondent writes: "He would pass for a broken-down local preacher. I remember a meeting two of my colleagues had with Delarey in the earlier part of the war. The representative of an Australian paper was mortally wounded. Two of his comrades entered the Boer lines in quest of him. They were blindfolded and taken before the general. When their eyes were unbandaged they beheld a venerable looking Boer in turn-of-shirt sleeves seated on the ground peeling potatoes. It was Delarey himself."
A story is now told about Lord Methuen, who at one time was a military attaché in Berlin. While in that city he one day saw a despondent man attempting to drown himself in a frozen canal of the Tiergarten. The suicide was prevented by Lord Methuen, who happened to be taking his afternoon walk. This was only a few days before he quitted his post and at a court function one evening the German emperor took the while and presented him—not with an "order" but with a medal—of the Prussian society "for Rettung aus Bisfah." This medal was worn also by Bismarck for having saved his groom from drowning and he printed it above all his many other decorations.—Chicago Record-Herald.

FOR ARMY OFFICERS.

The Army appropriation bill contains a provision which will be of interest to retired officers. It authorizes the re-examination of any officer on the retired list of the Army who was retired for disability and who there is reason to believe is physically qualified for active service. It is said the retired list contains quite a number of Army officers who, in addition to drawing a retired officer's pay, are receiving salaries for civil service any officer who, upon re-examination, is found to be physically competent. The present appropriation bill carries \$1,643,391 for the pay of retired officers.

When before the House Committee on Military Affairs Secretary Root testified on this subject as follows: "I know one gentleman who is receiving retired pay on the ground of total disability and he is or was, receiving a salary of \$10,000 a year. I know another who was retired on total disability who is practicing his profession of medicine regularly, and another who was retired on total disability as a Lieutenant of Artillery, and who turned up in the Spanish war as a Captain of cavalry in the Volunteers."

RUDE TO GIRLS.

For baiting young women on the campus and starting a riot, one of the students of the Missouri University at Columbia, Mo., have been dismissed and the names of others are being secured with a view to similar punishment. The rudeness to the girls is the reason for the severity of the faculty.
The girls were on their way to a banquet in Academic Hall, given by the freshmen. The building was surrounded by a mob of uninvited students, bent on kidnapping as many of the male guests as possible. A number of the ladies disguised themselves as girls in order to pass through the lines. One young man thus attired was identified as he stepped into the light of the main entrance. The mob tore his silk dress to tatters and dragged him away. After this the besiegers were suspicious, and as the guests approached those who wore girls' dresses appeared to be harassed and examined.

PROMOTION FOR STRONG.

NEW YORK, March 21.—A special to the Sun from Washington says: Among the candidates for brevet commissions on account of service in the Spanish war whose nominations were sent to the Senate yesterday is Major Putnam Bradlee Strong, formerly assistant adjutant-general of volunteers. The brevet of Lieutenant-Colonel is recommended "for distinguished gallantry in action at Guiguinto bridge, Luzon, Philippine Islands, March 27, 1899, to rank from that date.
There's one good thing when they feel dry.
That business men cannot pass by.
For far and wide it's same you hear,
They stop to drink of "Rainier" beer
On draught or in bottle at Criterion.

NEED ATTENTION.

The subject of our losses, which Mr. Griffiths has been writing about from an expert point of view, is very exhaustively treated in his report. He finds the same fault which has been pointed out over and over again. The cattle have destroyed the forest more than anything else, but at the same time the carelessness and avidity of man has had its share. The denudation of the islands has gone on for years, commencing when the Hawaiian chiefs killed their groves which laid their golden eggs and destroyed their natural resources of sandal wood, which they cut down in practically the last tree.

It is painful even on this island to see how the mountains have been denuded. Any one who knew the Waianai mountains thirty years ago, and who visits them today will be fairly astonished at what has happened. The flanks which used to be covered with a dense forest, and later became a sort of park like country with lovely clumps of trees are now as bare as an Arizona canyon. The sandal wood work commenced it, and the cattle effectually followed, and now the result is patent to any student of forestry who has been properly trained, while it is borne in upon the untrained man who has kept his eyes open, and has watched natural events during a large portion of his life time.

The same story might be told of many other parts of the islands beside the Waianai range. It may be told of Waimea of Hawaii. Within memory of old citizens the forest used to extend to and around the village. There is no vestige of forest there now, and the bare and wind swept plain between Waimea and the descent into Hamakua, only presents a few giant tree trunks which have not yet succumbed, while the ground is cluttered with rotting boles of trees which have given up the struggle and gone to their rest.

Mr. Griffiths lays the ultimate cause of the Hamakua fires to the work of cattle, and of course adds aided by the foolishness of man. He also tells us that unless we take care we shall have other fires just as dangerous and as devastating. It is certainly true that when the next Legislature is elected we should have men in the House who will attend to our forests, and not waste their time in frivolous bickerings. This is what the voter has to consider. Our forests affect our water supply. Without good water supply our industries would come to a standstill. The result would be a general smash and abject poverty for the survivors.

WIRELESS.

The more one reads about Marconi's wireless telegraph system and its success elsewhere, the more inexplicable does the failure of the system between the islands seem to be. What is it that has brought the thing to a standstill? There is a talk of putting the old company on its legs, but why did it ever get off its legs, and even were it put on its legs again is there any reason to think that it will not topple over again and leave us in a hole as before.

A report has recently been published of an agreement concluded between Signor G. Marconi and the Government of the Dominion of Canada for the establishment of the Marconi process of transmitting messages between Canada and Great Britain. The details of the agreement need not necessarily be quoted, because any one interested in the matter can readily lay hands on the matter. Suffice it to say that the Canadian Government gives \$50,000 to assist in the erection of the plant, and contracts that all messages over government telegraph lines shall be carried at rates not higher than those charged to others for commercial messages.

We here see a strong and yet conservative government putting up money upon a proposition for wireless communication for about 3000 miles. If one reads through the agreement one can see how the Canadians can protect themselves should Marconi's instruments prove failures. But that is an immense distance. There is no reason why it should not be bridged, but it is not absolutely commercially certain that it can be bridged. Anyhow there is a government that is willing to put up \$50,000, with limitations as to success. Moreover this Canadian Government deals directly with Marconi.

Before the merchants who are talking of resuscitating or restoring the old wireless telegraph system between the islands act, it might be wise for them to thoroughly investigate what are the relations between the promoters of the inter-island wireless telegraphic company, which has been out of business for some months, and Marconi. As has been pointed out over and over again, this was an ideal chance to boom the invention, why that chance was not taken hold of by Marconi is still a mystery, but it will surely be explained some day.

A communication to Marconi would receive a ready answer, for he has already been met with statements that his system was a failure here. One may be think that there may be doubt of the system, but one would like to have an authoritative utterance on the

other side. Marconi on the other side of wireless in Hawaii would be interesting.

Every citizen that votes for Driscoll is an indication of his duty as a citizen.

There are still a couple of hours of voting time; every Republican who has not cast his ballot should hurry up and do so. The game is neither lost nor won till the last ballot is cast.

The Reception tendered to Bishop Nichols last evening was a most enthusiastic and hearty one. The Bishop has quickly impressed himself upon the Honolulu public, and both Episcopalians and those of other denominations vied with one another in doing him honor and wishing him a hearty welcome to our shores. The Bishop is laying the foundation of the Protestant Episcopal Church on a broad basis which will make it a great power for good in the community, and it is plain that he will have the heartiest co-operation in his work.

The Gamewell system of fire alarm and police call boxes has been accepted by the Superintendent of Public Works. The work is spoken of in the highest terms by experts who have seen similar installations in other cities. In course of time the system will have to be enlarged and the number of boxes increased, but an excellent beginning has been made. The introduction of the Gamewell system puts the city abreast of the most modern of cities. It will surprise many people who come to look at the frontier town, to find how far advanced it is in every particular.

The Home Rulers are forever talking of the great amounts that could be borrowed. One would like to know who would lend money to a Home Rule government. Capitalists want their money to go into safe, conservative hands. There is nothing so conservative as capital, nothing so sensitive. The course of the Home Rule leaders has not been such as to inspire confidence among capitalists on the mainland and here. If it were not for the confidence inspired by Governor Dole and his policy, when ever the question of a loan came up it would not be entertained a moment. Capitalists do not lend money to be made ducks and drakes of.

Thirteen bridges to put up in Hamakua and North Hilo is no light task and tells with what fearful force the torrents swept down their rocky beds. As these bridges are to be erected by the Public Works Department and not by the local road boards, they will probably be built upon principals which will be able to withstand heavy freshets. The Hamakua people derided Superintendent Boyd when he criticized their method of bridge building. The boat is on the other leg now. The criticized bridges have been swept into the Pacific ocean. There is nothing left of them except a solitary arch here and there, and a pile of lumber suitable for kindling wood. The criticizer has now his chance and Hamakua will have good bridges.

Consul Yang Wei Pin is reported as using methods towards the weak kneed of his countrymen which decidedly savor of the Flowery Kingdom, and not of the United States of America. It has long been evident that Yang is an intriguer, politically, and has used his official position as a lever against the progressive party of the Chinese, of whom the major portion of our Chinese population is made up. It is Yang who was charged with supplying the information about the Bow Wongs resident here, which led to their parents and relatives being thrown into prison in China. Yang is now getting by hook or by crook signatures to petition about the fire claims, and the Bow Wongs will not sign, while the stout consul hectors and threatens. One of these days Consul Yang will go a step too far, there is now a complaint to the Department of States which may be followed by a polite but firm request for his removal.

J. G. Pratt, who goes to Washington as the representative of the Chamber of Commerce in order to present before Congress the need of the Territory for a cable, as quickly as it can be laid down, and also to ask assistance in paying off the fire claims which arose out of our plague fight, is eminently a proper man for the position. Mr. Pratt is allied with the progressive interests of the Territory and is the thoroughly in touch with its commercial needs. He is active minded and thoroughly well posted. The more thoroughly our position is laid before the members of Congress, the more likely are we to obtain what we want. Our citizens begin to understand this. Heaven helps them that help themselves is the Christian version of Aesop's fable of Hercules and the wagoner. If we do not try to help ourselves, we shall be left behind the procession. Now there is no idea of progressive Hawaiians being left behind in any procession and in consequence we show our common sense by pushing forward our claims. If we do not push them no one else will.

Only one member of Henry Ward Beecher's first charge, at Lawrenceburg, now lives. He is Russell Hollister 74, who still lives in that town.

As a rule the man who possesses the largest stock of personal hard-luck stories is the man who possesses the least business energy.

SYDNEY THEATER DESTROYED. SYDNEY, March 24.—Early yesterday morning Her Majesty's Theatre was burnt out, and the celebrated play "Ben Hur" which began with a blaze of success ended with a blaze of disaster. Fortunately the outbreak occurred at a time when the great theatre was empty. The saddest feature of the fire is the death of a young woman, a domestic, employed in a building at the rear of the theatre, who was buried beneath a falling wall. Other features of the disaster are that three firemen were injured, that a loss of about \$25,000 has been sustained.

FIVE JEREMIAHS. The City Clerk of Cambridge, Mass., is in trouble. At a joint convention of Aldermen and Councilmen "Jeremiah Crowley" was elected overseer of the poor. There are five Jeremiah Crowleys in Cambridge, and each now claims the job. Alderman Bird, who nominated Crowley, and Councilman Cutting, who seconded his nomination, both admit they never saw the man nominated and do not know him. There is some reason to think a Jeremiah who works in Souire's pork packing establishment was the one intended, but the City Clerk has no evidence on this point. The other Jeremiahs include a coachman, a shoemaker, a laborer and an engine wiper. Each one of the five has made claim to the job.

PLAGUE IN INDIA. SIMLA (India), March 31.—The plague situation is growing worse in the Punjab, where 79,000 deaths are reported monthly. King Mensik is coming to the St. Louis World's Fair. This early announcement will give Harvard ample time to have an honorary degree ready. —Louisville Courier-Journal.

CUBA GETS CONCESSION

(Continued from page one.)

The Senator may defeat the bill. The Senate may defeat the bill. The Senator may defeat the bill.

The other side had its footing in the bill case against the schooner Frank W. Howe, yesterday afternoon and this morning. The captain, cook and mate of the vessel and Dr. Sinclair have taken the witness stand, the officers of the vessel telling very different stories from those of the libellans regarding the food supply which Dr. Sinclair testified that he was positive that neither of the men had seen.

The cook, P. L. Wood, said that he had been going to sea since back in the sixties, as a cook all the time, and had been all over the world. He joined the Howe at Boston and had charge of storing the provisions on the trip. He gave a list of what the men got, including beef, pork, mutton, curry, fresh and beans, cod fish, mackerel, fresh canned beef once a week, several kinds of vegetables, bread, biscuit and corn bread. In fact the cook described a good strong diet and insisted that the men had had plenty all the time. He had only been asked for "more" once or twice and had never on any occasion refused more to anyone who wanted it.

Captain Atkinson told of the sickness of Hall and Woods and what he tried to do for them. Dunne, who is a navigator himself, went into the question of the course of the vessel after February 5, when the sickness was discovered. The vessel was then 493 miles from Papeete, 1,307 miles from Apia and 2,797 miles from Honolulu. The captain was asked why he did not go to Papeete for medical assistance. He replied that he had gone to Tahiti and had encountered a heavy monsoon that made landing impossible. Apia was 800 miles beyond of his course, and he decided to make for Honolulu. His original intention on leaving Mauritius was to call at Pitcairn Island on the way to Port Townsend, but winds drove him out of this course.

Mate Burnett produced his log, showing the date of the beginning of the sickness of the two men, and the course of the vessel after that. Dr. Sinclair for the federal quarantine service directly opposed Dr. Humphreys' theory that the disease of either of the men was scurvy. He said that the conditions which Dunne described as present on the Howe might produce beriberi. From the history of that case, which Humphreys was certain was scurvy, Sinclair declared that the case could not be scurvy. The theory of scurvy was excluded by some of the earlier symptoms. Dr. Sinclair admitted that he did not believe the men's stories, and said that experience had led him to disbelieve forecast stories and rely upon what he could personally ascertain about a case.

At noon today Kinney closed the case for the defense. There will be rebuttal this afternoon and the case will, probably be argued and submitted to the court.

The Moana arrived this morning from Sydney, Brisbane and Suva after an uneventful trip. She left Sydney March 25, Brisbane March 27 and Suva, Fiji April 1.

On board the vessel is an unusually large number of passengers bound for England to attend the coronation. Among the passengers for Honolulu was F. J. Webster, who is one of the justices of the British court in London. He is accompanied by Dr. Hay. There was one other passenger for this port, John Dawson.

Among the through passengers is Joan Cook, the superintendent engineer of the Union Steamship Company, who is going to Dumbarton to superintend the construction of new steamers for his company.

Arthur Brett is also a through passenger, the son of the proprietor of the Auckland Star. Mr. Wilson and family of Wellington is also a passenger for Vancouver. He is one of the leading merchants of New Zealand.

Hemming is known as the King of Coconut Island. He is a wealthy copra producer of the Fiji Islands. Major C. Stuart Cansdell is the commander of some of the forces at New South Wales. He is going to attend the coronation.

Captain Fielding is the aide-de-campe of the governor of Australia. George Murray is the well known theatrical manager is going to the States to secure Madame Melba for an Australian concert tour.

N. M. Berger owner of the famous Panama patent, is returning from a business trip in the Colonies. Charles Arnold is a well known actor of Australia. He is returning to England after an extended absence. He is accompanied by his daughter. Lieutenant Irving B. Miles, R. N. is going home.

H. E. Pitcock is the King's counsel from Suva. Lady Douglas, wife of Sir Arthur Douglas, minister of marine, is going to London. Bishop Riley the Bishop of Perth of Western Australia is a passenger for London.

The plague was still raging when the Moana left Sydney. Up to March 23 there had been 76 cases in all, of which 21 had died, 12 had been discharged and 43 were still in the hospital. For the week ending March 23, there had been 15 cases, with 3 deaths. The plague was also in Brisbane and the Moana did not go there, but transferred passengers and freight by means of lighters. The vessel sails this afternoon at 3 o'clock for Victoria and Vancouver.

IF HE GETS THERE. St. Peter: "Well, sir, what have you heard about yourself?" The newcomer: "I regret to report—" St. Peter: "Why, it's Kitchener! Come right in, general."—Coast Seaman's Journal, San Francisco.

THE OTHER SIDE LOOKS MUCH LIKE HARRIS

(Continued from Page 1.)

Dr. Sinclair Opposes Dr. Humphreys in Saying That Sailor Hall Has Scurvy.

The neighborhood, entertained every few minutes by parties taking showers some of their number. These columns of verminous repulsive steam started on a political basis, and eventually became personal towards the end, the victor being, not necessarily the best politician, but the one who was the smartest at raising a laugh at his opponent's expense.

One old native, in all the glory of old fashioned broadcloth, mottled cuffs and collar, silk hat and ivory handed ambrosia was strenuous in his arguments for Home Italia.

"I was born in 1813," shouted he, in native, "and not until this minute did I ever hear anything about burning up people's bodies (meaning sanitation) or curing open their stomachs."

"Ah, well," replied the other, "my house is not mortgaged from top to bottom like your home is anyway."

The Republican voters showed up well in this district, fully coming up to the expectations of the latecomer. For the third district polling place, a remarkable landing at the foot of the terminus of the Pacific Highway railway, immediately opposite the Hobron residence was pressed into the service. Seventy-seven out of the three hundred and thirty-six voters belonging to this precinct had voted at 11:30, the bulk of the voters being expected during the noon hour.

In this precinct, which up to that hour had the best polling average, a slight Republican gain is reported, several of the natives having, it was believed, come over to the Republican side as far as their promises and reports of votes cast could be depended upon.

The voting and general average of polls cast was about the same as at the other precincts during the early forenoon. Wherever there was a convenient lounging place near the polls a few natives would gather and there would be more or less talking.

Practically the election was uneventful and quiet. At the 11:30 mark this forenoon a number of native voters gathered and wrangled with each other over the merits of the candidates and their own family affairs. Many words spelt the air, the most effective form of the Republican native voters and one which never failed to produce a torrent of recrimination and abuse seemed to be the question, "Why didn't you do something when you were in the legislature?"

THE TRAMP PROBLEM. An attempt is being made to handle the tramp question in the West along scientific lines. Raymond Robbins, who has been appointed as superintendent of the Municipal Lodging House, in Chicago, believes he can solve the problem.

"The municipal lodging-house is to become a clearing-house for the indigent," said Mr. Robbins in explaining his work. "I believe that the indigent can and ought to be made to work with this purpose in view. I have mapped out a campaign by which I hope to rid Chicago of the tramp evil. Tramps and their ilk can be divided into classes. Some are the result of industrial conditions. Some are made tramps by drink, and others are degenerate from the conditions of their youth. The types must be handled along different lines, and my scheme is simple."

"When the men arrive their clothes will be thoroughly fumigated and each will be given a bath. In the morning a quarter of a loaf of bread and a cup of coffee will serve as breakfast, and the lodgers will be asked facts concerning themselves—age, health, early associations, etc. Doctors will examine them to determine whether they are physically fit for work. Their statements will be investigated, and if the men desire employment they will get it, as we have four firms that are ready to take them. They will be put on the streets if nothing better offers. We will give them lodging for four days, and then if they will not work they will be locked up as vagrants."

"We have the police stations closed to the tramp and we will try to close the barrel-houses. This will bring the tramps to us for treatment. We already have given work to 700 tramps. I intend to inform every Chief of Police in the country of what we are doing. Work is the cure for the tramp evil, and if other cities co-operate with us the tramp soon will cease to be."

Mr. Robbins lives at the Chicago Commons. He is a Kentuckian, but has studied the tramp question in San Francisco, New York and London.

SAUSALITO, March 23.—A return ticket from Sausalito to San Francisco, which was issued twenty years ago when the ferry line was first placed in operation, was taken by Captain Brooks, the ticket collector, at the ferry slip on Tuesday. The ticket had been punched for the trip over at the time of its issuance, and the holder did not make the return journey until this week. The postboard had the names of railroad officials now dead inscribed upon it and the name of this town had the old spelling, "Sausalito," on its face.

It is supposed by the officials of the road that the ticket had been mislaid all these years and just recently found. It is looked upon as quite a curiosity, and will be preserved as a memento, with the dates inscribed on it.

NEW ADVERTISEMENTS. CORPORATION NOTICE. Notice is hereby given, that at a special meeting of the shareholders of the Koloa Sugar Co., held on the 29th of March, 1920, at the office of H. Hackfeld & Co., Ltd., Honolulu, the following directors were elected for the ensuing year, viz:

That hard cough of yours - what are you doing for it? Look out, or it will blind you with all the strength of a powerful chain.

Ayer's Cherry Pectoral cures coughs and colds, even hard coughs and old colds. Mrs. A. White, of Fitzroy, Victoria, says: 'I had a very hard cough night and day. I tried many remedies, but without relief. I thought my lungs were nearly gone. I then tried Ayer's Cherry Pectoral. I began to improve at once, and only one and one-half bottles completely cured me.'

FOR "ALEXANDER" CUP

TENNIS TOURNAMENT STARTS THIS AFTERNOON. Play Commences at 5:30 on Pacific Club Courts at Union Square—Spectators Invited to Club House.

The tournament for the "Alexander" cup on the courts of the Pacific Tennis Club commences this afternoon at four o'clock. There are in all twelve sets of singles to be played, but there will be several defections in the first round. Both courts are to be used simultaneously and the remainder of the first round will be played tomorrow. The tournament will probably be discontinued on Saturday afternoon on account of the Field Day, but will be carried straight through next week until the finals are reached.

The grounds of the club are entirely open to the general public and are not private to members on the occasions of these tournaments. The committee is always anxious that the crowd, which inevitably gathers outside the fences, should understand that the hospitality is extended and feel welcome to view the games from a more convenient standpoint.

CUBAN CONSPIRACY.

The Cuban conspiracy dies hard. It may not, in fact, die at all. That is as it may happen. One thing is sure, and that is that it should be fought to the last ditch. The latest scheme of the conspirators is an attempt to corrupt California and other Congressmen by an offer to guarantee the final burial of the other reciprocity treaties if they will set on their best-guessing constituents and repudiate the principle of protection by "supporting" the Cuban inquiry. It is a most insidious proposition, being neither more nor less than an effort to break up the solidarity of the statesmen. Republicans by getting one vote to their credit in the present situation of the treaties, the "gold" which it is proposed to give for the "quo" is nothing more than a "gold brick" not decently colored. The treaties are dead now. If they are not, the losers have had such warnings that they will never dare to push them. The strength of the protectionists is in their union. When one interest, or one section, is bought off, human nature will demand revenge for the slaughtered. The only vitality in the Cuban proposition is that imparted by the refining trust. That it anticipates victory is shown by its recent annual statement, which shows but \$12,248,646 in raw sugar on hand against \$22,488,759 a year ago. It has already cut down its stock by \$10,240,113 in expectation of a larger profit on the sugar to come from Cuba. The plain question involved is whether Republican Congressmen will "lose squarely" to the pledges on which they were elected, or whether they will openly, wantonly and shamelessly repudiate them. That ought to be a question easily answered. California will expect its Congressmen to fight Cuban reciprocity fearlessly, bravely and unrelentingly, in committee and on the floor of Congress. An offer of "compromise" should be spurned with indignation. No compromise is possible without dishonor. If they are beaten we shall be sorry, but we will receive them on their return with the welcome due to honest gentlemen who keep their word when it is pledged. If the sugar trust wins let it be by Democratic votes.—San Francisco Chronicle.

ROCKEFELLER'S HARD LUCK. Loses All His Hair, Whiskers, Eyebrows and All.

NEW YORK, March 21.—John D. Rockefeller, the richest man in the world, is as bald as a billiard ball. His hair, mustache and eyebrows have vanished within a comparatively short period. "Alopecia," a rare disease, about which medical men know but little, is responsible for the affliction, which is supposed to be the result of nervous dyspepsia. Rockefeller's hair has been abundant except on the top of his head. Not long ago it began to fall out in patches and nothing seemed to stop the loss. Then his eyebrows and his mustache were sacrificed. The change in his appearance is startling, and many of his best friends fail to recognize him when they meet. Most of Rockefeller's time is now spent in Lakewood, as it is supposed the pine country will be beneficial to him. His menu consists principally of milk and crackers. He takes a great deal of light exercise.

A VANDERBILT'S FALL. Mrs. Jack Willmerding Adrift in New York Tenderloin.

NEW YORK, March 21.—Mrs. Jack Willmerding, aged 29, a few years ago a pet of New York society, and known as the most beautiful of all the Vanderbilts, is adrift on Gotham's dead sea, "the tenderloin." She is absolutely penniless, and has become a habitue of Chinese restaurants and places that scoff at society and snuff at family ties. After her release from Bloomingdale some months ago, Mrs. Willmerding appeared in vaudeville. Then she drifted again for a time and finally appealed to Mr. Brady for one more chance to earn her own living honestly. She was given a small part in "Under Southern Skies," recently produced at

the Theater Baudois, and did well for three weeks, when her craving for absolute overcame her and she lost her position. Since then she has drifted downward rapidly. Her laugh is soundly as any as ever, and her only regret, she says, is that Willmerding will not give her a divorce and let her be absolutely free. Her millionaire relatives are quite endeavoring to have the woman committed to Bloomingdale as a criminal insane.

THE REVOLUTIONISTS

PANAMA, March 27.—Great excitement was aroused this evening by the arrival of the Government gunboat Chucuito towing a schooner filled with men wearing red bands on their hats, the insignia of the revolutionists. The schooner met and captured the schooner of Capira. She is laden with salt and ammunition for the revolutionary General Lago, who is operating in the vicinity of Capira. Among the prisoners on board the schooner were two officers who were captured at Agua Dulce. Both officers were wounded. The correspondence captured with the schooner is said to be of much value to the Government. The revolutionary General Herrera and his staff are reported to be on their way to Chiriqui on board the gunboat Padilla. The Government gunboat Boyaca is on the lookout for other revolutionary vessels. It is reported here that the Government soldiers wounded during the recent fighting at David and Agua Dulce have not received proper medical attention.

NEW POSTAL ORDERS

WASHINGTON, March 27.—The Postoffice Department today announced the completion of important arrangements for the extension of the money order business of the Government. An agreement has been reached with the kingdom of Greece, whereby money orders will be exchanged between the two countries. In addition the postal agent of the United States at Shanghai, China, has been authorized to issue domestic money orders payable at any of the postal offices in the United States, Canada, Cuba and the Philippines, and at any money order office in the United States money orders may be procured, drawn on the postal agency at Shanghai, China, which thus is substantially made a money order office of the United States. The postal agency at Shanghai has been conducted for many years but heretofore it has not been practicable to establish a money order service there.

ARCHBISHOP OF MANILA.

The Pope has offered the nomination of the Archbishop of Manila to the Right Rev. Sebastian Gebhard Messner Bishop of Green Bay, Wis., and is waiting for formal acceptance by that prelate before making his choice known. The Spanish Archbishop of Manila, Mgr. Noelsch, has resigned the see and will retire to Spain. Bishop Messner is a well-known German-American leader in the Catholic church. He is 52 years old and was professor of canon law in Seton Hall College and Seminary when, in March 1892, he was made Bishop of Green Bay, Wis. to succeed Most Rev. Frederick Xavier Katzner, who was promoted to the Archbishopric of Milwaukee. He has since been recognized as one of the most progressive and conservative of Catholic bishops representing the German element in the church. His most recent prominence was in association with Bishop McPaul of Trenton, N. J., in successfully organizing a federation of Catholic societies. This, it was said at the time, was accomplished in spite of the opposition of Cardinal Gibbons and Archbishop Ireland. This German element in the Catholic church has been specially antagonistic to Archbishop Ireland's ideas and school of thought. Archbishop Ireland's candidate for the Manila see was Bishop Thomas O'Gorman of Sioux Falls, S. D.

TO BISHOP NICHOLS

MANY PEOPLE MEET AND CHEER HIM.

Splendid Reception Very Largely Attended at the Hawaiian Hotel Last Night—Effective Demonstrations.

The reception to Bishop Nichols and Miss Nichols tendered by the Woman's Guild of St. Andrew's and St. Clement's at the Hawaiian Hotel last evening was a most successful and enjoyable affair. Fully 200 people were present during the evening and they paid their respects to the distinguished visitor and his charming daughter.

The arrangements for the affair were superb. The several committees of the two guilds had been indefatigable in their work and Manager H. W. Lake of the Hawaiian Hotel placed the entire facilities of the hotel at the service of the ladies, and gave his personal assistance in carrying out all the arrangements. Chef A. L. Wyman of the hotel assisted the ladies of the committee on refreshments, putting his forces at their disposal and personally superintending it.

The decorations in honor of the event were profuse and attractive. Flags, potted palms and decorative foliage and greenery were liberally employed. Combined with the electric lights and Chinese and Japanese lanterns liberally supplied by Manager Lake, the whole was very striking and effective. The decorations were the work of a committee consisting of Mrs. W. M. Giffard, Mrs. Herbert Misi, Mrs. George E. Smithies and Mrs. Dr. Herbert.

The reception of callers and presentation to the guests of honor was in the main drawing room. The receiving party consisted of Mrs. S. S. Robertson, Mrs. Alexander Mackintosh, Mrs. John Osborne, Bishop Nichols, Mrs. Nichols, Mrs. John H. Soper and Mrs. Charles S. Crane. The presentations were made by Mrs. Mackintosh and Mrs. Osborne and Arthur Mackintosh.

From the drawing room the guests passed to the banquet which were soon filled with an animated and sociable gathering.

Throughout the evening Captain Berger and the Territorial Band rendered an appropriate program from the band stand in front of the hotel. The music, the brilliantly lighted hotel, lanterns and grounds, the large company and the life and movement made the scene one of the great animation and vivacity.

Refreshments were served throughout the evening by the following young ladies: Miss Juliet King, Miss Sarah Robertson, Miss Jennie Giffard, Miss Marion Green, the Misses Rycroft, the Misses Jordan, Miss Alice Luce, Miss Spaulding, Miss Soper, Miss Osborn, Miss Deyverill, Miss Reynolds, Miss Annie Whitney, the Misses Schaefer, Miss Mary Carlton, Miss Emily Taylor, Miss Center, Miss Gertrude Tucker, the Misses Ward, Miss Bailey, the Misses Smith, Miss Nalani Jones, Miss Creighton.

The refreshments were served from the Ewa lani being in charge of the following committee: Mrs. E. W. Jordan, Mrs. E. I. Spaulding, Mrs. F. A. Schaefer, Mrs. C. L. Rhodes, Mrs. C. W. Booth, Mrs. Charles Day, Mrs. Thomas Osborn and Mrs. C. L. Crabbe. The ushers were: Messrs. Anderson, Coburn, Mackintosh, Ross, Soper, Irvine, Lanedale, McGraw, Frank Fernandez, Miranda, Graham, Young, Osborne, Spaulding and Blackman. The ladies in charge of the reception wish to express their appreciation of the thoughtfulness and great assistance given them by Col. George W. Macfarlane in tendering the use of the Hotel and to Manager Lake in the arrangements for the affair and assistance in carrying it out.

MISS CLARK LEAVING. Miss Gusale Clark the handsome stenographer of the district court will be a passenger on the Alameda for San Francisco today. Her departure will cause great regret as she is a great favorite. Her many friends will be at the Oceanic wharf to bid her adieu this afternoon. She intends to take a six months business course in one of the San Francisco colleges, after which she will return to Honolulu to reside permanently.

RUBE KNOCKED OUT. Al Neill knocked out Rube Ferns in the twelfth round of their fight at Woodward's Pavilion, San Francisco, March 21, before a crowded house.

3000 HOMESEEKERS. KALISPEL (Mont.), March 23.—Five sections of the westbound passenger train on the Great Northern Railroad went through Kalispel this morning, carrying 3000 people who are seeking homes in the West. Over 100 stopped off in Kalispel and will look over the valley with a view of settling here.

MAHER KNOCKED OUT. PHILADELPHIA, March 21.—Gus Ruhl and Peter Maher met at the In-

ternational Athletic Club tonight for a sparring bout and in the latter part of the second round Maher went down and out on his back left to the low. Ruhl had the better of the fight as he won it, respectively routing Maher to the canvas.

STAGE STORY IN REAL LIFE

The plot of "A Man of Mystery" which has been presented at the Orpheum by the Elletts has its almost exact counterpart in real life in a story told by the newspaper dispatches as follows:

CHICAGO, March 21.—As a result of what seemed a common shooting yesterday the police have become exceedingly active today and are bending their energies to connect Hopkins, the injured man, with the \$5,000 jewelry robbery of last summer. Joseph Hopkins was shot by Dan Kipley, a nephew of former chief of police Kipley, and himself a former detective, yesterday in a flat occupied by Lillie Arington, otherwise known as "Diamond Lil." Kipley, who with the woman in last arrest, pleaded self-defense. At St. Luke's Hospital today Hopkins condition was said to be critical.

Following the shooting it developed that Hopkins had been leading a Jekyll-Hyde existence. He was identified, according to the police, as a bank robber and burglar of national notoriety, but in Palos Park, where he had a little cozy home, it was found that he had a reputation as a dispenser of charities, a giver to the church and a man of standing in society. His wife's standing also was of the best, but when she was brought to the police station, policeman claim to have recognized her as a woman they had known as "Blonde Marie."

Kipley, while in his cell, told a friend that Hopkins was a man for whom the police had been searching in connection with the Postoffice robbery. Hopkins in an electrician, and the holes drilled in the bottom of the safe were made by some electrical device. Postoffice Inspector Stuart searched Hopkins' house at Palos Park today. The search brought to light a kit of burglar's tools, but nothing was discovered showing that Hopkins had anything to do with the postoffice robbery. Papers giving directions for blowing safes and some dynamite and nitro-glycerine were also found on the premises. Hopkins claims the explosives were used in clearing land.

APPEALS FROM DICKEY. Appeal has been taken to the Circuit Court from a decision of Judge Dickey, giving judgment for plaintiff for \$3,35 in the case of T. H. Davies & Co., Ltd. vs. Nakabayashi.

An appeal has been taken also in the case of Ching Heong Moy vs. Hee Cho, wherein Judge Dickey found for defendant. Plaintiff sued to recover \$225, which he claims he paid to defendant for certain shares in the firm of Leong Nick Chan, and which defendant failed to deliver. The company claims to have repaid the money to plaintiff.

In the case of Kong Trading Co. vs. Mrs. Meleana Davis an appeal is noted from a judgment in favor of defendant. The suit is for \$210.96 for goods alleged to have been purchased by defendant, but which she denies. The case of Kahalaeha vs. Pereira for admeasurement of dower was concluded before Judge Robinson yesterday afternoon, and submitted on the evidence, the attorneys to file briefs within ten days.

DIED. COWAN.—In Honolulu, April 8, 1902, of tuberculosis, Elizabeth Fitzhugh Cowan, wife of Charles A. Cowan, aged 25 years. The funeral was held at 1 o'clock this afternoon from the undertaking parlors of H. H. Williams. Interment at Pearl City Cemetery.

A VALUABLE MEDICINE.
For Coughs and Cold in Small Children.
"I have not the slightest hesitancy in recommending Chamberlain's Cough Remedy to all who are suffering from coughs or colds," says Charles M. Cramer, Esq., a well known watch maker, of Colorado, Clayton. "It has been some two years since the City Dispensary first called my attention to this valuable medicine and I have repeatedly used it and it has always been beneficial. It has cured me quickly of all chest colds. It is especially effective for children and seldom takes more than one bottle to cure them of hoarseness. I have persuaded many to try this valuable medicine, and they are all as well pleased as myself over the results."

For sale by all dealers, Benson, Smith & Company general agents.

Waikiki Inn

For a quiet rest and a pleasant Sunday the attractions at the Inn are unsurpassed. Finest surf bathing and canoeing on the Island.

Haven't You a Room or Two Ready for Papering

That satisfied feeling that goes with a clean, newly papered house, is worth twice its cost. You never before had such an opportunity to buy wall paper as at the present time. The patterns and colorings are magnificent and the prices low, while our stock is far larger than any we have yet handled. The papers are all ready for inspection and we will be pleased to show them.

NEWS IN A NUTSHELL

Paragraphs That Give Condensed News of the Day.

A witness is wanted. See classified ad column.

H. H. Berg has resigned from M. B. DeMorgan & Co.

The annual meeting of the Chamber of Commerce will be held at 2 o'clock this afternoon.

T. F. O'Brien, president of the Master Builders' Association is out of his home on Wilder avenue.

Mrs. John Bath Singer has filed action for divorce against her husband on the grounds of failure to provide.

Mrs. B. P. Dillingham and Mr. Walter E. Pease have bound cards for a home tomorrow afternoon from 7 to 8 at Woodlawn.

The marriage of Miss Belle Walker to F. W. Klobahn will take place this evening at the residence of the bride's mother, Mrs. Jane Walker 232 Nuuanu avenue.

A large and well selected stock of grass linen cloths and heavy pongee silks has just been received by the oriental banar corner King and Maunaloa streets.

Mahilani, charged with entering the house of Mrs. Kahoi at Waikiki yesterday, was committed to the district court today by Judge Wilson to answer to the charge of burglary.

Bertman M. Levy leaves by the Alameda today to attend the marriage of his sister Meriam who visited Honolulu three years ago with her father, Mr. Levy does not expect to return to the Islands.

There will be a meeting at 1 o'clock tomorrow afternoon of the Builders' Exchange to elect temporary officers and take such steps as may be deemed advisable to fully organize the exchange on its own basis.

Mr. and Mrs. William G. Irwin entertained at dinner Thursday evening March 21 at their San Francisco home in honor of Mrs. Edward Moore Robinson. Those invited to meet Mrs. Robinson were: Mr. and Mrs. Mountford S. Wilson, Mr. and Mrs. Joseph B. Crocker, Mr. and Mrs. Robert Oxward, Mrs. Horace Blanchard Chase and Lanning Miner.

WORKS' PAINTINGS

A private view of a collection of paintings by Theodore Woros will be given at the Art rooms of the Pacific Hardware Company tomorrow, from 9 a. m. to 5 p. m. The public exhibit will open on Friday and will continue for two weeks. The collection embraces Mr. Woros' latest Samoan work as well as scenes and representations of life in Hawaii, Japan, Europe and the United States.

DEATH IN A MINE,

CHATTANOOGA, (Tenn.), March 31.—At 1:45 o'clock this afternoon an explosion of gas in the Nelson mine of the Dayton Coal and Iron Company at Dayton, Tenn., ignited the dry coal dust in the mine and caused a terrible explosion. Twenty-two men are known to be dead. Ten bodies have been recovered. Twelve bodies are still in the mine.

BOERS IN EUROPE

HOLD A PEACE MEETING AT UTRECHT.

Communication with President Steyn and General De Wet is cut off—Application for Permit to Kitchener.

THE HAGUE, March 31.—President Kruger, Dr. Leyds and the Boer delegates are expected to hold an important meeting at Utrecht, April 2nd, to consider the situation in view of setting President Shalk Burger's peace movement. Well-informed people here say General Shalk Burger was evidently influenced by the receipt of the news of the result of the Dutch note to Great Britain on the subject of peace in South Africa and other dispatches sent him from here. It is not known that his communication with President Steyn and General De Wet, which have heretofore been easily carried on, were interrupted by the recent British military movements, and as it was necessary to communicate with Steyn and General De Wet before any peace proposition could be formulated, General Schalk Burger had to apply to Lord Kitchener for a safe conductor.

Considerable surprise is expressed here at Schalk Burger's delay in getting in touch with De Wet, and it is thought that something unusual must be behind it. But even if the Orange Free State and Transvaal officials agreed to peace terms, it would be necessary for both republics to call a general meeting of the committee and submit the proposals to the burghers before they could be submitted to Lord Kitchener. In any case unconditional surrender, it is declared, is out of the question.

INTO A BOILING VAT

What may prove to be a fatal accident, occurred on Sheridan street last evening about 5 o'clock, at the place of a Chinese, named Lun Sing. He gathers garbage from the various houses about the city and boils the stuff, using it as food for hogs.

Yesterday afternoon, a little boy and girl of the Chinese were playing near the boiling vat, and both tumbled into the hot fluid. Their shrieks of pain attracted the attention of Lun and his wife, who soon rescued their unfortunate children. The little girl about 4 years of age, was the worst burned, her body and legs and arms being injured in a painful way. Her brother escaped with comparatively slight injury. Dr. Howard attended the children. He thinks that there is a chance for the girl to recover.

MARK RESIGNS.

Captain Marx, assistant harbor master, has resigned rather than pay damages of a little over a hundred dollars which was caused to Cotton Iron, dredger by the bark Andrew Welch, while the latter was being moved in the harbor. The bark ran into the dredger. After an investigation it was decided that Marx was to blame and he was ordered to pay the bill sent in to the department of public works by Cotton Iron. He sent in his resignation instead.

**Infant
Foods**

It is unwise to change the diet of infants when a food is found to agree with them. We therefore aim to keep a full supply of all the leading prepared foods:

TAROENA
HORLICK'S MALTED MILK
HORLICK'S FOOD
MELLIN'S FOOD
NESTLE'S FOOD
IMPERIAL GRANUM
RIDGE'S FOOD
LACTATED FOOD
CEREAL MILK

We sell more Taroenia than all the others combined which shows how well established Taroenia has become. The public are severe critics and we have always found them to appreciate any article with real merit—and Taroenia possesses all claimed for it.
