KONA RAILROAD PROMISES MUCH

VICE PRESIDENT J. COERPER MAKES LIBERAL OFFER TO INVESTORS.

FIRST COMERS TO GET BIG DIVIDENDS.

Those Locally Interested Expect Road To Start Within Sixty Days—South Kona Branch First.

The following display advertisement as it appeared in the San Francisco "Chronicle" gives golden promises of speedy and big dividends from shareholding in the Kona and Kauai R. R. Company, Limited. Ten per cent dividends on the first ten thousand shares sold are promised on December 1 as an inducement for intending purchasers to be paid from the profits from hauling freight in October of this year:

BETTER THAN A SAVINGS BANK.

Now is the time to invest in preferred stock of the Kona and Kauai R. R. Co., Limited, at the par value of \$10 per share. Franchise to the company from the Hawaiian Government granted. Surveys made. Rights of way from all private parties obtained. This railroad will open over two-thirds of the richest lands in the island of Hawaii, the largest in the group. Hawaii is 300 miles nearer to San Francisco than Honolulu. As soon as 10 miles of the railroad are completed shares will double in value.

A dividend of 10 per cent on the first 10,000 shares sold will be paid on the 31st day of December, 1902, accruing from freight contracts already made for hauling during October, 1902.

Blocks of stock sold from 25 shares up to 1000 shares. Stocks from Hawaiian railroads have advanced to \$190 per share on a par value of \$100 after being watered 100 per cent.

JOHNSON & RICHARDS, General Agents.

When shown to those locally interested in the railroad, the advertisement evidently came as a surprise. It had been expected that J. Coerper was in Chicago instead of San Francisco and the advertisement itself had not been noticed. It was stated by those locally interested this morning that the sense of the advertisement was all right, the dividend promise had been made by Mr. Coerper who was the vice president of the road and was no doubt acting advisedly.

"You can say that much of the equipment of rails and rolling stock is now on its way from New York and that the road will be started sixty days from now," said Gardner K. Wilder this morning. "There is no doubt as to the road going through. A considerable amount of the stock has been already floated. Twenty miles through the South Kona district will be completed first to take out the cane that will be ready for shipment. The whole 120 miles of the road will be completed before long."

There is not very much of the stock assumed by Honolulu investors generally, although a little group of business men and stock brokers were among the original promoters of the road.

GOOD FOR RHEUMATISM.

Last fall I was taken with a very severe attack of muscular rheumatism which caused me great pain and annoyance. After trying several prescriptions and rheumatic cures, I decided to use Chamberlain's Pain Balm, which I had seen advertised in the South Jerseyman. After two applications of this Remedy I was much better, and after using one bottle, was completely cured. —Salie Harris, Salem, N. J., U. S. A. HOME RULE POLITICS

PLANS TO REORGANIZE THE PARTY.

Executive Committee to be Smaller. Working on a City and County Government Act.

The Home Rule executive committee will hold an important meeting on Thursday evening, at which a general reorganization of the party will be discussed, also the election of a successor to the late J. K. Kauiua as chairman of the committee. It is proposed to make the committee smaller and to make arrangements for direct election of members by the voters of the various districts, and the Home Rulers are also considering a "non-partisan" movement which involves fusion with the Democrats and a general party policy based wholly on local issues.

Senator Kalaupokalani is said to be in line for the position of chairman, made vacant by the death of Kauiua. The Senator is not a member of the executive committee, but is an active party worker and as president of Kalai Aina, he was one of the founders of the Home Rule party, with the deceased president of Aloha Aina.

The Home Rulers are already at work on a county government act which they propose to press in the next legislature. They are also discussing candidates for the house and senate. The Home Rulers seem never to take any vacations from politics, and they are mapping out a programme by which they hope to carry out their pet scheme of making Honolulu a municipal corporation, and giving other communities local self government. The county government act which is now being discussed by members of the committee is based on the works of municipal leagues on the mainland. It is the latest in this time to have it all ready, far in advance of the meeting of the legislature. This was the intention last time, but it was not quite carried out, and the act was introduced in the house and senate was calculated to make things in New York and other places. The Home Rulers say they will avoid that kind of thing this time.

The scheme for party reorganization involves the change of the executive committee from a body of 60 men to one of 30, to be elected at the party primaries. It also involves a general bid for votes of all parties on local issues. Another thing said to be involved, is a heavy throwdown for some of the "statesmen" who made the party ridiculous in the last legislature. Representative Emmelhuth says that the party will declare for absolutely open primaries. This is a necessary feature of the non-partisan programme. "We don't care who votes in our primaries," said Emmelhuth, "as long as we get the votes of the electors generally for candidates. Republicans, Democrats and all others are welcome to take part in the Home Rule primaries without any pledges at all."

The Home Rulers propose to fix up the city and county government act, adopt it, and then have all their candidates pledged to work for it if elected to the legislature. In the discussion of candidates so far there has been a disposition to break away from the "bandwagons" of the last session, says those in the councils of the party, and the most who made the famous records of the first territorial legislature of Hawaii will probably be left in the cold.

ONE COURT IN FIRST CIRCUIT

JUDGES THINK THEY HAVE NOT THE RIGHT TO HOLD COURT SEPARATELY.

ACT PROVIDING FOR THREE JUDGES USELESS.

Smith Case Raises a Point That May Reduce the Circuit to Practically One Judge.

The judges of the First Circuit Court, as a result of questions raised in the Walter G. Smith case, have about come to the conclusion that they have the right to sit en banc, or separately one at a time, but have not the right to hold court any other way. It is likely, therefore, that Judge Robinson will be the only judge to sit in term matters during the May term beginning next week. Neither Judge Gear nor Humphreys have issued any venire for jurors, and it is understood that their present view is that they cannot sit if Judge Robinson sits, except with him, as one court.

The legislature provided that the First Circuit Court "shall consist of three judges," but there is nothing in the law to provide for the three sitting separately. In his argument before the Supreme Court, George A. Davis contended that the right to sit en banc was plain in the statute, but that what required an express provision was the right to sit separately. This was in answer to the contention that the proceedings in the Smith case were illegal because the three judges sat together. The question is now before the Supreme Court.

In his brief filed in the Smith case Davis sets forth the views that have resulted in the decision of the first and second judges to refrain from holding court while the third judge is sitting. The result reduces the First Circuit to only one judge, save as term matters are concerned. There is only one court, according to this view, and the three judges are no better than one judge. The act of the legislature on the subject is as follows:

"The circuit court of the First Circuit shall consist of three judges, who shall be styled first, second and third judges respectively of the circuit court of the First Circuit, either of whom may hold the court."

"The contention is that the words 'either of whom may hold the court' restricts the holding to one judge, and if more than one sit then any judgment delivered is void and of no effect. The utter fallacy of such an argument is apparent to anyone giving the matter a thought. One judge cannot have more power than three, the most powerful of the court is the whole court. The court shall consist of three judges. This is the language of the Act. If one may hold the court, it does not prohibit all from doing likewise. A part cannot be greater than the whole. HENCE AND HITHER.

The schr. H. C. Wright sailed from San Francisco for Mahukona, April 19. The schooner Mary E. Foster arrived at Port Gambie April 19 from Honolulu. The schooner King Cyrus arrived at Port Blakely from Honolulu April 19. The barkentine Anna sailed from Eureka for Honolulu April 19. The ship L. F. Chapman cleared from New York for Honolulu April 19. The French bark Anne de Bretagne was in port at Sharpness April 12 for Cardiff and Honolulu. The bark Kaulani and the barkentine Coronado sailed from San Francisco for Honolulu April 20.

AFRAID OF STOWAGE.

SA FRANCISCO, April 25.—Much of the anxiety felt for the German ship H. F. Glade, homeward bound from this port with grain and on the overdue list at 50 per cent, is occasioned by the fact that her cargo was stowed during the late strike and that green hands were employed at the work. She took away a great deal of barley, and at the best this is a most difficult thing to put in a ship in proper shape.

FROM ISLAND PORTS.

The bark Annie Johnson arrived in San Francisco April 20 from Hilo; the bark Gerard C. Tobey and the barkentine Archer from Honolulu April 21, and the ship Emily F. Whitney from Makaweli April 21.

The schooner W. H. Marston, Curtis, sailed from San Francisco for Honolulu April 22. The steamer Hawaiian arrived in Philadelphia April 21, from Honolulu.

LOOKING FOR CONSIGNEE.

The schooner Transit arrived this morning from Newcastle after an uneventful passage lasting 55 days. Captain Paulsen is unable to locate his consignees. He has 300 tons of coal but he was given no information regarding the identity of the people to whom the coal was consigned, and thus far, no one has put in an appearance to claim the cargo. The vessel hauled in to the coal slip this morning.

ALAMEDA FOR SAN FRANCISCO.

The Alameda will sail at 4 p. m. today for San Francisco. She will have a very large list of passengers departing on her.

CHINA AHEAD OF TIME.

The China arrived yesterday afternoon about 4 o'clock from San Francisco, considerably ahead of time. In fact, it was the first time that she had arrived here so early from San Francisco for a long time. She had an unusually small list of passengers, but for Honolulu as well as Oriental ports. Among those for Honolulu was John Barrett, the St. Louis World's Fair

commissioner, who is to visit the Orient and Australia, in the interests of the Louisiana Purchase Exposition. Mrs. W. F. Herrin and family also came to Honolulu. She is the wife of W. F. Herrin, the head of the law department of the Southern Pacific railroad. G. P. Wilder returned to Honolulu after an extended absence. The China sailed at 2 p. m. today for the Orient.

PYRENEES AGAIN AFLOAT.
SAN FRANCISCO, April 20.—The ship Pyrenees, which went ashore over a year ago at Manga Rova, while on a voyage from Tacoma to London with grain has been successfully floated and on April 1 was towed into Papeete harbor, where she will be placed in commission for a voyage to this port. The wreck was bought at auction by Captain I. E. Thayer of this city and it has been under his direction that she was repaired and hauled by a derrick into deep water. She will be brought here as quickly as possible and given a thorough overhauling.

THE MARY E. FOSTER.
The schooner Mary E. Foster loads lumber at Gambie for Honolulu, chartered prior to arrival.

THE ALERT.
SAN DIEGO, April 19.—The United States steamer Alert arrived this evening from a cruise down the coast. She will probably remain here for a fortnight and then go north.

ALONG THE WATER FRONT.
The tug Leslie Baldwin, was on the Marine Railway yesterday. The Wheeling will have target practice after leaving this port.

The saluting guns at the Naval Reservation, which were formerly located on Naval Wharf No. 2, have been moved inside the reservation, Waikiki of Admiral Merry's office.

There are three or four vacancies in the crew of the Wheeling and an opening is accordingly offered some able bodied Hawaiian youths to enlist.

The bark Hayden Brown made a very long passage from Newcastle, arriving yesterday afternoon in 82 days.

KAWAILANI IN COMMISSION.
The schooner Kawailani will resume her regular trips to Koolau ports this afternoon. She has been given a thorough overhauling by Captain Moses and will be able to make faster trips than usual. She sails at 4 p. m.

CHOLERA IN PHILIPPINES.
MANILA, April 21.—The cholera total to date is: Manila 411 cases and 319 deaths; provinces, 888 cases and 629 deaths.

The United States Transport Buford, which sailed from here yesterday for San Francisco, after having been detained in quarantine for five days, put back to this port with a suspicious case of sickness on board. Should it prove to be cholera the transport will be held.

PEKING WATER WORKS.
VICTORIA (B. C.), April 22.—Dr. Denby, an American, has been commissioned by Prince Ching to build water works at Peking and Denby will turn over the work to Wood & Co. of Philadelphia.

UP AND LOADING.
SAN FRANCISCO, April 25.—Vessels up and loading for Hawaiian ports are: For Honolulu, S. G. Wilder; Olympic; Irigard; Rosamond; Mohican and W. H. Dimond; For Hilo, St. Katherine, Annie Johnson and Roderick Dhu.

WILL USE OIL ON COUNTY ROADS.
NAPA, April 21.—The Supervisors of this county today awarded a contract for sprinkling the main roads in the county with oil. The contract calls for the use of 6000 barrels, the work to be begun within fifteen days. The experiments which were made last year proved so universally satisfactory that the Supervisors decided to replace water with oil.

That bustle men cannot pass by,
For far and wide it's same you hear,
They stop to drink of "Rainier" beer
On draught or in bottle at Criterion.

SENATORS AND BEEF TRUST. WASHINGTON, April 19.—An advance in the price of roast beef sandwiches in the Senate restaurant has given rise to indignation and vigorous opposition to the beef trust in the Senate. Senators who have been in the habit of making their midday luncheon on a sandwich with a glass of milk have been used to paying 10 cents for the sandwich.

FUNSTON STILL TALKING. DENVER, April 19.—General Frederick Funston was the principal speaker at the banquet of the Colorado Society Sons of the Revolution. His reference to the Philippine war was on the lines of his previous speeches. The prolongation of the war, he declared, was due more to outside influences than to the desire of the Filipinos for independence.

A CANNIBAL STORY. NATIVES OF TANNA HAVE A HORRIBLE FEAST.

Steamship Moana Finds Natives Roasted and Eating Prisoners Caught in a Raid.

VICTORIA, B. C., April 16.—The steamer Moana, which reached port today from Sydney via the South Sea ports of mail, brought details of tribal wars, cannibalism, earthquakes, tidal waves, plague and other affairs in the South Seas. The steamer Mambare had just returned to Sydney, from the New Hebrides, just prior to the departure of the Moana, and according to the report furnished by her purser, the steamer's company found on their arrival at Tanna that a big cannibalistic feast was being held by the natives.

The natives had secured a number of prisoners in a raid on the villages of their enemies and when the steamer reached port, some distance from the native village, they were eating some of the unfortunates who had been captured or killed in the tribal engagement.

Some of the prisoners were brought to the fire alive, and after they had been some of their unfortunate fellow beings roasted for the feast they were slaughtered before the assembled company. During the feast one of the natives who had been buried alive, and had been beneath the ground for twelve days was exhumed and cooked and eaten with the rest. The passengers and officers of the inter-island steamer did not go to the scene of the cannibal feast which was still in progress when they left.

CIRCUIT COURT BUSINESS. Judge Gear yesterday morning granted a petition to appoint a commission to take the testimony of J. H. Reinsteiner and W. P. Johnston, witnesses to the will of the late A. L. Lousson, in San Francisco.

Mrs. Elise S. V. Neumann has filed an answer to the bill of revivor filed in the matter of W. F. C. Hanson vs. Paul Neumann. She pleads the statute in bar and asks that the bill be dismissed.

David Dayton has been appointed administrator of the estate of the late A. B. Scrimgeour, under bonds of \$3,500.

An exception and notice of appeal has been filed in the case of Albert Nawahi vs. Hakalau plantation.

In the divorce action brought by Emma Wanaa Vida vs. Henry Cornwall Vida, stipulation has been filed in the Circuit Court in which the Hbeles is given five days from and after April 25 in which to answer, demur or otherwise plead to the libel for divorce now on file.

Makenui Aseu of Waiuku, Maui, aged 24 years, has petitioned the Circuit Court that letters of administration be issued to Albert F. Judd of Honolulu, administrator of the estate of her brother, D. H. Labialah, deceased, who died on February 3. The property is alleged to be a deposit of money in bank of Bishop & Co., and some shares in sugar corporations, the value of which is unknown to her.

Holmes & Stanley, attorneys for the Enterprise Mill Company, Ltd. in its suit against Lee Kim, defendant, and Kuneva, garnishee, filed a motion yesterday for an order declaring the defendant in default, asking the court to authorize one of the clerks of the court to assess the amount of plaintiffs' claim, and enter judgment therefor. Judge Gear signed an order to that effect.

SENATORS AND BEEF TRUST. WASHINGTON, April 19.—An advance in the price of roast beef sandwiches in the Senate restaurant has given rise to indignation and vigorous opposition to the beef trust in the Senate. Senators who have been in the habit of making their midday luncheon on a sandwich with a glass of milk have been used to paying 10 cents for the sandwich.

Today the bill of fare in the Senate cafe shows the price of the same quality of beef sandwiches has been advanced up to 15 cents. Among the principal patrons of the beef sandwich diet are Senators Dewey of New York, Hanna of Ohio, Keam of New Jersey, McMillan of Michigan, Clark of Montana and other Senators who are included in the millionaire class.

The indignities of the beef trust being thus brought home to the Senators, there is a disposition to fight against the trust to the bitter end. Senator Dewey has declared his independence of the beef trust by boycotting the Senate cafe for the present and going home to his luncheon. Other Senators in sympathy with him who find it inconvenient to jump on a street car and go home at midday have "cut out" the beef sandwich from their menu and taken to pie at 10 cents, a cup of custard at 15 cents and other articles on the bill of fare not under the influence of the beef trust.

OLD MINES RE-DISCOVERED. Particulars have reached Phoenix, Arizona of the discovery near Yuma, in the Altar District, Sonora, of a wonderful group of ancient silver mines, presumably Toltec.

A party of American prospectors in charge of Con O'Keefe, expert mineral engineer, several days ago, came upon a mine dump of great size covered over and hidden by a dense growth of timber. Not far away they discovered a trace to the mines, sealed with a great stone. Breaking through they found thousands of feet of underground workings, all in rich silver ore. Near one entrance was piled a heap of silver ingots and stone tools and scores of skeletons of very large size. The tools correspond with those found in old Toltec ruins in Arizona and New Mexico.

THE GOVERNOR.

The more one hears from Washington the more the anti-Dole faction is getting it in the neck, to use a vulgarism or may say, a better word would be a colloquialism. The Governor who was going to be fired out by a triumphant majority of House Rules because his brain had given way, and he was incapable of carrying on the affairs of the Territory. All this nonsense has been swept away by the appearance of Governor Dole in Washington. To those who had believed his traducers it was a revelation, to the traducers it was a catastrophe.

A man of pure life, such as Governor Dole is, a man who is kindly and yet can be determined, is a man who will carry his point in the end. Governor Dole's personal enemies are not nor ever have been his equals. He has had a high ideal, his foes have had a low ideal. Hence the fight against Governor Dole, and hence his success in Washington.

The Governor will come back with his policy strengthened and the knowledge that he has the undoubted support of the executive of the United States. To have that support is one of the highest tributes that a man can have. It is a far greater tribute than the Star of the Legion of Honor, the Garter, the Black Eagle and so forth. It is the approbation of the representative of a people, a free people, who say what they will and whose opinion is worth the highest estimation of the world.

THE EXCLUSION BILL.

The Chinese exclusion has had and is still having a hard fight. Representative Kahn has striven to make it his record, but it is doubtful whether he will make a complete success of his effort. At one time it looked as if he were going to wreck his political career completely, but more sense came to him and he began to give and take, a matter which must always be considered in politics, and he now has some chance of going back to his district with some kind of a bill, even if it is so unlike the original bill that its own father would not know it.

There have been many points detached during the passage of this bill but none more earnestly than the question of indefinite prohibition. The Kahn contingent believe or says it believes in indefinite prohibition. That is prohibition of Chinese for all time. The conservative contingent has an idea that prohibition of Chinese should be limited to the length of time that the present treaty lasts, say a couple of years or so.

Of course upon a question of this kind there can and must be a strong difference of opinion, altogether apart from party principles. The active politician who is looking for scattering votes and who wants a war cry sees one side of the shield. His object is to make his supporters think that he has shut out the Chinese competition for ever. The student of history and the thinker sees the matter in a different light. He knows that "for ever" is not a word known in history, or in the life of the finite world, and presumably of the finite universe.

It seems impossible for two such opposing forces to come to any agreement, but by a little giving and taking they will. What we are interested in are the so-called "insular laws," and these should be thoroughly understood, because though aimed at Philippines it may have important legal effect here. It is true there is a proviso in the proposed amendment which leaves out Hawaii, but with the skill of our lawyers and our circuit judges any proviso might easily be overridden in the future as it has been in the past which ever way it suited them for law and justice are not synonymous terms.

The compromise bill which will probably be passed contains the following insular provisions according to the newspaper report:

"Said laws shall apply to all immigration of Chinese laborers, not citizens of the United States, from the island and to the mainland territory of the United States, whether such were in the island territory at the time of cessation or not, or from one portion of the island territory of the United States to another portion of said territory."

"Section 5 and 6 of the Senate bill the first reading relating to certificates of Chinese residents in the insular territory of the United States, and the second pertaining to judicial proceedings, were stricken out by the conference and the following substituted for the two sections:

"That it shall be the duty of every Chinese laborer, other than a citizen, rightfully in and entitled to remain in any of the insular territory of the United States (Hawaii excepted) at the time of the passage of this act, to obtain in one year after the passage of this act a certificate of residence in the insular territory wherein he resides, which certificate shall entitle him to residence therein, and upon failure to obtain such certificate as herein provided he shall be deported from such insular territory, and the Philippine Commission is authorized and required to make all regulations and provisions necessary for the enforcement of this section in the Philippine Islands, including the form and substance of the certificate of residence, so that the same shall clearly and sufficiently identify the holder thereof and enable officials to prevent fraud in the transfer

of the same; provided, however, that if said Philippine Commission shall find it is impossible to complete the registration herein provided for within one year from the passage of this act, said Commission is hereby authorized and empowered to extend the time for such registration for a further period not exceeding one year."

The original Senate provision vested this power here given to the Philippine Commission in the United States Courts and the corresponding insular courts.

THE AMERICAN MARK TAPLEY.

In a recent interview the reduction of 50 millions in exports and an increase of 70 millions in imports does not seem to discourage the Chief of the Bureau of Statistics with reference to the condition of the foreign commerce of the United States.

"I do not see that there is the slightest cause for anxiety," said Mr. Austin. "It is true that the value of our exports in the nine months ending with March is 29 millions less than in the corresponding months of last year. Yet the causes of the reduction in the export figures are so clearly due to abnormal and temporary conditions that the falling off does not indicate a decrease in the popularity of American products abroad or a reduction in the demand for them. On the contrary, I think we may consider ourselves very fortunate that our export figures held up as well as they did."

"The chief reduction in our exports," continued Mr. Austin, "can be traced to the destruction of our corn crop by the drought of last year. Corn has become so important a factor in our export trade, both in its natural state and in the condensed form of beer and pork, that a loss of one-fourth or one-third of the enormous crop means a great reduction in the surplus. In the present fiscal year it will not amount to one-fifth of that quantity. In the nine months ending with March, 1902, the exportation of corn amounted to only 24 million bushels, against 140 million bushels in the corresponding month of last year. These are the preliminary figures, but they do not differ much from the completed figures which we shall have a fortnight hence. The value of the corn and corn meal exported in the past nine months was but 15 million dollars, against 85 millions in the corresponding months of the preceding year.

"But that is not all of the effect of the loss of the corn crop. The shortage of corn at home has compelled many farmers to use a larger share of oats in the feed of their live stock, and as a result the value of the exportation of oats and oat meal in the 9 months just ended was but 4 1/2 millions, against 2 1/2 millions in the same months of last year. In these two items of corn and oats, in which the reduction is wholly due to the drought of last year, the exportations have fallen 57 million dollars, while the total reduction in the value of all exports is but 59 millions.

"Another item which shows a material reduction in value of exports is cotton, yet this is wholly due to a fall in price abroad and not to a reduction in the quantity exported. On the contrary, exports have increased materially in quantity, although the value has fallen. The total exportation of cotton in the 9 months ending with March was 4,674,588.421 pounds, against 2,740,568,167 pounds in the same months of last year. This is an increase of 334 million pounds; yet, owing to the reduction in price, the value is actually 17 million dollars less than in the same months of last year, the figures for the 9 months just ended being 251 million dollars, against 264 millions in the same months of last year.

"Thus, in corn and oats, in which the reduction is wholly due to the drought of last year, and in cotton, in which the reduction is due to a fall in prices abroad and not to a reduction in quantity exported, the reduction in value of exports amounts to 70 million dollars, while the grand total of exports shows a reduction of but 59 millions.

"Regarding the large increase of importations, I see no cause for anxiety, but rather the reverse. We have not received the details of the March import figures; but judging from those of the preceding months, the increase is chiefly in manufacturers' raw materials. In the 8 months ending with February the increase in manufacturers' materials imported was 57 million dollars, while the total increase of imports was but 71 million dollars, and it is probable that the details of the March figures when received will not materially change this condition in our import trade.

"At the risk of being considered a statistical Mary Tapley," concluded Mr. Austin, "I venture the assertion that there is nothing discouraging about the conditions on either side of our foreign commerce account. So long as the increase in importations is chiefly in articles which we cannot produce at home and indicates a growth in manufacturing, the increase will be welcomed by all; and so long as the reduction in exportations is due wholly to abnormal conditions, which may be looked upon as only temporary, we need feel no serious anxiety on that score, especially as we are still to have, even in this apparently adverse year, a favorable balance of trade, of between 400 and 500 millions of dollars."

The decrease of the pressure in the natural gas belt in Indiana continues, the companies insist that the supply will be soon exhausted unless they are permitted to put in meters and charge 25 cents a thousand to all consumers.

ONE COURT IN FIRST CIRCUIT

(Continued from page one.)

view that either of them may hold the court does not render it obligatory that but one of them should hold it. In fact the only true construction of the Act is that three or a less number of Judges may hold the court, but if it is being held by any one of said Judges, no other can at the same time hold another session of the court. The Act in question never was intended to allow the practice which has grown up of more than one session of the court being held at the same time. It would have been easy for the legislature or constitution to have provided if it was deemed necessary. There is only one court, the court of the First Circuit, and in order to allow different sessions to be held at the same time legislation was and is necessary. Look at the States where a court has different sessions or departments and a provision will always be found for the holding of them.

KILL 150 SOLDIERS. NEW YORK, April 25.—A dispatch to the Herald from Managua, Nicaragua says: Some members of the Conservative party caused an explosion in the military barracks here on Wednesday night.

Nearly 150 lives were lost in the explosion and the barracks were destroyed. There has been considerable bitterness shown by the Conservatives against the Liberal party, which is in power and of which President Zelaya is the leader.

What You Ought to Know

Casara easily ranks first as a laxative medicine, the only objection to it has been a disagreeable taste. Used first by the Indians of California, it has been in constant use for hundreds of years, and with uniformly good results. Now that modern pharmacy has succeeded in eliminating the disagreeable bitter portion from this sovereign laxative bark without in any way impairing its value as a laxative it has been strongly advocated by the leading members of the medical profession throughout the world. Casara an elixir manufactured from this bark, is made from bark at least three years old, which has been properly cured in order that all the activity of the bark might be developed. This bark combined with vegetable aromatics and stimulants produces the wonderful remedy known as Casara a positive cure for constipation, torpid liver, weak bowels or deranged stomach, and will give immediate relief in all troubles due to these causes, such as headache, sick headache, prickly heat, vertigo, etc.

This is not a cathartic of the old style which leaves the user in worse condition than before, it is a true tonic laxative, which not only removes the cause of the trouble, but tones up the bowels and liver, giving new life and vigor to the whole system.

Be sure that you get Casara notice the spelling of the word Casara there are thousands of preparations of Casara, but only one genuine Casara the best laxative medicine known. Price 50c. Samples free.

IT MAY BE DEFEATED

THE DIFFERENTIAL ON REFINED SUGAR MAY BE THE STUMBLING BLOCK BETWEEN THE TWO HOUSES.

WASHINGTON, April 22.—The situation in Congress relative to Cuban relief is full of perplexities to the Republican majority. The bill which will have to be done to avoid dragging the whole question of tariff revision into the agitation. There are two classes of Republicans among those who voted with the Democrats to administer the recent humiliating rebuke to the Liberal party. One class honestly desires tariff reduction and voted for removing the differential on refined sugar because it was a step in that direction. The other class wants no tariff tinkering, and voted to impose an obnoxious amendment on the Cuban relief bill in order to defeat the whole project. Now the question comes up in the Senate. Shall the amendment removing the differential on refined sugar be dropped off, and the Cuban relief measure be passed?

The immediate result of the House's action is believed by more than one well-informed Senator on the Republican side, will be disappointment to the Cubans. The House cannot well recede from its position as to the differential on refined sugar and the Senate is not likely to agree to such action. If the House put on the differential amendment in order to prevent the Senate from increasing the reduction of the tariff in favor of Cuba it was a shrewd and probably successful ruse. But if it was expected that the Senate would agree to take off the protection to the sugar trust it is liable to be disappointed. The result is that Cuba will go without the plan that seemed within her grasp.

COFFEE. Williams, Dimond & Co., report the coffee market as follows: Stock of Hawaiian in first hands 1639 bags. The coffee markets of the world are generally lower and still tend downward; this is caused by the enormous stock on hand and continued heavy output in Brazil. We quote for good current 84 to 94c; fancy washed, 124 to 14c; prime washed 104 to 12c; good washed 94 to 104c; good to prime heavy 9 to 11 1/2c.

VOLCANO MARSHALL. MANILA, April 22.—The editor of the Volcano was sentenced today to one day's imprisonment and to pay a fine of \$100 for demanding the removal of the Judge who recently tried Senor Valdez, editor of the Mian, who was fined for being Filipino members of the United States Commission, which was trying the editor of Freedom under the sedition law.

THE ORPHEUM. The patrons of the drama are certainly getting a treat at the Orpheum. The performances now being given by the popular Elford company are truly of the high class standard of any stock house in the metropolis.

GOES TO HIS ISLAND. CAPTAIN ROSEHILL OFF FOR MARCUS. Is to Depart Today on Alameda to Attend to Preparing Expedition to the Guano Land.

Captain A. A. Rosehill, the "King" of Marcus Island, is on the Alameda this afternoon, to take possession of this new realm. Captain Rosehill is to superintend outfitting the expedition at either San Francisco or on Puget Sound. W. C. Peacock who is the financial backer of the proposition, will also accompany Captain Rosehill and remain with him assisting in outfitting the expedition. Mr. Peacock will not however, go to Marcus Island.

Captain Rosehill and Mr. Peacock have not yet determined exactly where they will secure the vessel. They will be governed principally by the cost of securing the boat. It is expected that a good sized schooner can be chartered in San Francisco, at a reasonable figure and the cost of outfitting the expedition will not be very great. The expedition will have to start to Marcus Island without any unnecessary delay, as the island can be approached only between May and September 15. During the balance of the year, the weather is very boisterous and a vessel can not venture near the islands. The only safe anchorage ground is to the westward of the island.

The work of gathering guano will also be accomplished under considerable difficulty. There are no cars on which to convey it to the boats and the laborers will have to work very fast to accomplish any thing during the guano season. If the guano deposits prove all that is expected, the place will be crowded in proper style. The expedition will probably call at Honolulu on the return voyage and perhaps on the way over.

ST. PETERSBURG, April 19.—Severe earthquake shocks occurred at Shmakka, Trans-Caucasia, during the night of April 17, causing a panic among the inhabitants who escaped the recent visitations. Earthquake shocks were also felt in the district of Pergiana, Turkistan, early yesterday morning.

HAWAII AT ST. LOUIS

COMMISSIONER BARRETT HAS CHOSSEN OUR EXHIBIT.

Will Look to Business Men for Chief Support—Outlines Its Imperative Interest to Community.

John Barrett, World's Fair Commissioner General to Asia, Australia, the Philippines and Hawaii, was a passenger on the China yesterday and is at present a guest of the Hawaiian Hotel. Mr. Barrett will make but a brief stay in this territory, leaving for the further Orient on May 8. In the short time that he is here he will talk with the men most interested in public progress and explain facilities for the best participation of an Hawaiian exhibit in the St. Louis Exposition of 1904, or as it looks at present, 1903.

The visit to Hawaii and a stay here was not at first included in the mission of Mr. Barrett which is purely of a diplomatic nature and largely of a confirmatory nature with regard to the invitations issued to the countries of the Pacific ocean by the United States. It is at the special request of President Roosevelt and President Francis of the exposition that the stop over in Hawaii is made.

"It is principally to the business men and their efforts that I look," said Mr. Barrett this morning. "Of course it is expected that the legislature will do something and after conversation with the President, the territorial committee and many senators and congressmen on the subject, I am empowered to say that whatever the legislature of Hawaii proposes to do with regard to local exploitation at the Exposition will be cordially endorsed by the government. It is the business community however that is taking the grip in this matter in many other of the states and augmenting the State appropriations."

This is as it should be. All political parties are eliminated and the wishes of the business community, putting the affair on a practical basis, showing up the best resources and keeping out undesirable exhibits, secured. For instance with Hawaii, the progress of the American populace to the Hawaiian Islands is a place producing a race of hula-hula dangers can be rectified.

"If for example the business community of Hawaii contributed say \$50,000 and the legislature only \$15,000 or \$20,000 perhaps the end would be served. There is no question but that a comprehensive exhibit of Hawaiian progress and Hawaiian resources would be of incalculable benefit to these islands. You cannot afford to be left out with Cuba, Porto Rico and the Philippines all coming in. Each of these exhibits will have a special building, of first class architecture costing \$150,000. The Philippines have raised their first appropriation to half a million dollars of their own accord and from their own resources, they will appoint their own commission and have established the outline of their exhibit on a plan that promises a showing the like as they guarantee to furnish America and the visiting world. Hawaii, while it is a territory, is an outlying possession and is classed in the general mind with Porto Rico the Philippines and Cuba.

"The time is coming soon when the commerce of the Pacific will equal and more than equal that of the Atlantic. Senators and Congressmen are always willing now to listen with interest to news of Hawaii although they possess but sparse information at present. The publicity that will be given to Hawaii even before her exhibit, in the literature that is disseminated from the bureau of the fair will reach every paper large and small in the country will alone be a great advertisement. If no exhibit is made the feeling of the legislators from the Western Central States will infallibly be lessened in their interest of Hawaiian affairs by the lack of enterprise and competitive energy shown which will tell in the legislature when they are asked for Hawaiian appropriations."

James Gordon Spencer, secretary of the Chamber of Commerce called upon Commissioner Barrett this morning. The call will be returned tomorrow morning after which Mr. Barrett will meet with Mr. Spencer the representative meet of the city. A special meeting of the Chamber will probably be convened which will take the shape of a discussion. Mr. Barrett visited Governor Cooper this morning at ten thirty holding conversation with him on exposition affairs.

SUSTAINING OF GOVERNOR DOLE. The friends of peace, progress and prosperity in Hawaii, the best of all American insular possessions, rejoice over the President's announcement that Governor Dole is to remain at the head of the territory with the full endorsement and hearty support of the administration. That declaration of policy ought to have immediate effect in Hawaii for the betterment of conditions. It should quiet the clamor of the carpet-bag game hunters and the disappointed royalist natives of the spoils-seeking legislature who have been hounding Mr. Dole for many months; it should subject to those spiteful factions that the government at Washington is now acquainted with their character and motives, and that their machinations for the disamputation of respected officials are futile. It should further warn certain judges of the territory what they have been named for their office or higher purposes than the fermenting of trouble in Hawaii and the upsetting of legal, political and business conditions, and that the weapon they have aimed at Governor Dole may prove to be a boomerang.

Governor Dole's visit to Washington was happily conceived. It brought into close contact two men who stand as to Hawaii, for proximity the same proposition, the working out of the problems of government against difficulties for which neither is today responsible. The greater part of the friction which has developed in Hawaii during the past few years may be traced to the mistake of admitting the natives to unlimited suffrage, on a broader basis than that which prevailed under the provisional government of the Hawaiian republic, against which that government protested and which was committed before President Roosevelt entered office. It is the belief of the men at the head of the territory today that if the insular administration is stanchly supported for a few years by the federal administration Hawaii can work out its own destiny over against the handicap of the unwisely liberal franchise. The islands may mark time for a few seasons while the natives are learning their lesson and the governor and his assist-

ants are restraining them from crippling the islands with foolish legislation. But that is far better than the reprehensible error to follow an endorsement or encouragement of the position, any elements which have been covered by Dole and tried to cast him and his party from office.

The President has now assured the governor that he will be sustained in his course. That means that no further attention will be paid to the irreconcilable, the mass-reading typhoid who seek to subvert the executive and agitate the insular administration. It removes the most contentious of the causes which have contributed to Hawaii's unrest for many months, the assumption of the anti-Dole elements that they represented the Washington authorities. On this capital they have been conducting their campaign against the insular administration.

The President's decision means that Hawaii's future will grow steadily brighter. Had it been adverse to the Dole administration it would have participated a period of carpet-bagging, class hunting, exploitation, and intrigue, retarding Hawaiian progress and prosperity for many years.—Washington Star.

MRS. STANFORD DEPARTING. Mrs. Jane L. Stanford, who has been visiting in Honolulu for some weeks, left on the China this afternoon for Yokohama. She will visit Japan and the return trip of the China when she will return to San Francisco. She was bidden aloha by a large number of friends at the wharf.

COONER'S VERDICT. The coroner's jury empaneled to look into the death of F. B. Auerbach, rendered a verdict yesterday afternoon of death from a gunshot wound, self-inflicted, with suicidal intent. The membership of the jury was composed of W. H. Gault, H. E. Walty, J. A. M. Johnson, C. Ransay, A. C. Moore and F. E. Richardson. The funeral will take place on Sunday.

There is this peculiar thing about our Hair Vigor. It's a hair food, not a dye. It doesn't turn your hair suddenly black and make it look dead and lifeless. But gradually the old color comes back, all the rich color it used to have. And it also stops falling of the hair.
Even if your hair isn't coming out, but turning gray, isn't too short, yet you certainly want a fine dressing for it, and here it is.

Ayer's Hair Vigor

It keeps the scalp clean and healthy, removes all dandruff, makes the hair grow rapidly, prevents it from falling out, and does not allow a single gray hair to appear.
Do not be deceived by cheap imitations which will only disappoint you. Make sure that you get the genuine Ayer's Hair Vigor.

WAR TAXES STOPPED

REFUGEE ACT PASSED BY CONGRESS.

A Law That Will Considerably Reduce the Amount Collected Chamberlain Sends to Washington.

Internal Revenue Collector Chamberlain has received from the Treasury Department a circular of instructions under the new law just passed by Congress and approved by the President, repealing war revenue taxes. The repeal goes into effect on July 1 next. Its operation will reduce by several hundred dollars a month the amount of revenue the United States will take away from Hawaii in the form of internal revenue taxes. The circular contains the following information as to taxes repealed:

"The following changes are made in the law now in force: Taxes repealed on and after July 1, 1932: Special Tax on Bankers, Brokers, Dealers in Grain, Securities, Stocks and Bonds, Act March 2, 1923; (brokers class 2); Pawn Brokers, Custom House Brokers, Proprietors Theaters, Proprietors Circuses, Proprietors of Public Exhibitions, and all shows for money, Proprietors of Bowling Alleys or Billiard Rooms, Dealers in Leaf Tobacco, Dealers in Opium, Manufacturing of Tobacco, Manufacturing of Cigars, Stamp Taxes on Instruments, Papers or Documents; Deeds, or Transfers of Stock and Sale and Agreements of Sale or Agreements to Sell Stocks, Products or Merchandise (Schedule A); Wines (Schedule B); Seals in Parlor or Palace Cars and Berths in Sleeping Cars; Taxes on Licenses and Distributive Shares of Personal Property; Excise Taxes on Persons, Firms, Companies and Corporations engaged in Refining Petroleum or Sugar.

"Taxes reduced: Fermented Liquors reduced to \$1.00 per barrel, Snuff and Tobacco reduced to 6 cents per pound; Cigarettes weighing more than three pounds to the thousand, \$3.00 per thousand.
"A drawback or rebate is allowed on all original and unbroken factory packages of smoking and manufactured tobacco and snuff, held by manufacturers or dealers on July 1, 1932, to the amount of difference between the higher rate paid and the tax imposed by this act. No discount is allowed on sales of stamps for fermented liquors or for tobacco or snuff.
"The provisions of the present law relative to mixed flour remain unchanged except a slight change made in the definition of mixed flour.
"Rights accrued or liabilities incurred prior to the repeal are not affected.
"The estates of all persons dying prior to July 1, 1932, will be subject to the legacy tax even if the distribution is not made until after that date.
"J. W. YERKES, Commissioner."

SUGAR.

Williams, Diamond & Co., under date of San Francisco, April 22, reviewing the sugar market for the period beginning March 29, say:
No changes have since occurred in the local market or for export, prices established March 29 still being in force.

Sugar telegram just at hand dated New York April 22, 1932, reads: "Sales 'to arrive' 600 tons Cuba Centrifugals 96" test at 3 5c. Granulated unchanged, consequently basis for 96 centrifugals in New York on that date is 3.53c San Francisco 3c.
London, cable, April 17th quotes Java No. 15 D. S. 8 shillings, 8 pence. Fair refining 7 shillings 2 pence, same date last year 11 shillings 6 pence and 10 shillings 6 pence respectively.
Stock, Whittet & Gray report April 19th, U. S. four ports in all hands estimated April 29th, 109,644 tons against 107,537 tons same date last year. Six principal ports of Cuba estimated April 29th, 24,000 tons against 23,828 tons corresponding year last year. Total stock in all principal countries by cubic April 19th at latest uneven dates, 2,296,415 tons against 2,612,533 tons; increase over last year 767,790 tons. Sugar crops of the world estimated April 19th grand total cane and beet sugar 10,762,750 tons against 9,425,451 tons corresponding period last year; estimated increase in the world's production 1,337,300 tons.
Eastern and Foreign markets: Throughout the earlier portion of the period under review steadiness and strength were observable in the raw sugar market, while prices were well maintained. These features however were shortly dissipated under the influence of less favorable conditions and a return to the depressed prices touched for a period in January and in March, was occasioned largely doubtless by the complete withdrawal from the market of the principal buyer coupled with a disinclination of other refiners to swell stocks ample for immediate requirements. The reaction has set in however, the policy of buyers having naturally evoked resistance on the part of holders who prefer to store rather than accept current prices, and late mail advices from New York under date of 17th inst., while revealing a quiet but firm tone to the market, indicate the probabilities of an improvement in the near future. Beet sugar prices advanced for a time, but lately have steadily declined and the depression is doubtless accentuated by the absence of buyers for U. K. account in consequence of the fact that in the British Budget introduced 14th inst. no change was made in the English duty on sugar, thereby rendering quite unnecessary the accumulation of supplies in anticipation of Legislative action contrary to the above. Refined sugar was in excellent demand prior to the date of the introduction of revised sell-

ing terms but buyers now show less interest and new business is light.
Cuba crop estimate: The yield of the canes is disappointing, receipts are falling off and estimates of the output of the crop are being reduced to 800,000 tons.
Legislation: The Cuban Reciprocity Bill under the provisions of which a twenty per cent reduction in the duty on Cuban sugar is allowed, after a vigorous debate finally passed the House of Representatives by a large majority 15th inst., and will now be given consideration in the Senate. One important amendment removing the refined sugar differential was added thereto through a combination of Democrats and Republicans favoring the best sugar interests. It is held in some quarters that the divergence of opinion likely to develop between the Senate and the House over the advisability of this amendment may endanger the ultimate passage of the Cuban Reciprocity bill.
The rigid Chinese Exclusion bill passed previously by the House met defeat in the Senate 16th inst., while in its place was substituted a measure offered by Senator Platt extending the provisions of the present exclusion law and also applying that exclusion to all Insular Territory under the jurisdiction of the United States. The bill now goes to conference.

BRITISH HORSE CORRAL.

WASHINGTON, April 29.—Colonel E. H. Crowder of the Army, who has been investigating the charges that the British Government was maintaining a supply station in Louisiana for horses for the use of the British in the fight with the Boers, saw Acting Secretary Sanger at the War Department today, to whom he outlined the nature of the investigation he had made, and submitted a report. Mr Sanger declined to talk concerning the report. To-night Colonel Crowder and Mr Sanger saw the President, and the latter was informed of the nature of the report Colonel would make.

Notice to Hunters.

A handsome litter of puppies, whelped April 25th, part pointer and part setter. From personal experience I have found that this cross makes the best hunting dog for this country. They are strong and make good retrievers on land or water. They have the advantage over the setter, in having short hair, so they need not be clipped when working on pheasants. I, myself, have hunted over this breed of dogs, for the last six years and would have no other. In color, they are solid liver. Have four dogs left, three having been sold. Price, \$15.00 per dog. On the Polo Grounds, High Balls Made Harmless.

SOCIETY HAS TAKEN TO POLO AND BECOME ENTHUSIASTIC OVER ITS ATTRACTIONS IN A WAY NOT PREVIOUSLY KNOWN IN THE ANNALS OF OUTDOOR RECREATIONS. THIS SCOTTISH GAME HAS BROUGHT WITH IT A KNOWLEDGE OF THE HIGH-BALL AND ITS PROPER USE AT THE CLUB HOUSE AFTER THE FATIGUES OF THE GAME.

PHYSICIANS MAY DIFFER AS TO THE BENEFIT OF ALCOHOL WHETHER IT BE A FOOD OR STIMULANT, BUT HOWEVER MUCH THEY MAY DIFFER IN THIS, THEY ARE ALL AGREED THAT IF LIQUOR MUST BE TAKEN, IT IS ROBBED OF HARMFUL EFFECTS IF DILUTED WITH WHITE ROCK OR IN THE FORM OF A "HIGH-BALL," AS IT IS CALLED. TO BE PERFECT A HIGH-BALL SHOULD ALWAYS BE MADE WITH—

MAY DAY FESTIVAL

300 PUPILS REHEARSE THE PROGRAM.

Tomorrow Night's Entertainment Promises To Be Most Interesting and Successful—Features of the Program.

The full rehearsal of the May-day entertainment in aid of the McKinley Memorial Fund proved highly satisfactory yesterday afternoon. Everything went off smoothly with the promise of a highly entertaining evening tomorrow. The May-day dance will undoubtedly be the feature of the program, the girls from St. Andrew's priory proving to be not only well drilled but possessed of no small amount of grace. The May-pole will be decorated by the ladies of the Y. W. C. A. and, with the light dresses of the dancers, the gay ribbons and the woodland background will present a very charming picture.

Governor Cooper and several of the officials visited the rehearsal later in the afternoon and expressed their pleasure by vigorous applause. The choruses all showed careful training of naturally good voices. The Old Kentucky Home is going to be one of the hits with the pianissimo sitting around picking cotton as they sing by the side of the old bayou and the cantata handled by Miss Cartwright proved wonderfully effective, local ideas being skilfully introduced. The cantata contains a great deal of clever patterning with waltzing and some effective marching. The ward drill by the Aala school boys will be rehearsed this morning and Mrs. Gunn's dainty dancers are already perfect. The scenery generally has been arranged to furnish woodland backgrounds setting off the costumes of the performers and falling in with the character of the songs.

Some idea of the scope of the program may be gathered by the announcement that there will be three hundred and sixty children taking part in the program. The entire gallery has been reserved for their use and of course the performers will not be required to pay for their seats. The pupils will all be kept in their places by their teachers until their call comes and will then quietly march to the back of the stage in readiness to carry out their share of the program without wasting a moment. Professional assistance behind the scenes ensures the program going through without hitches or waits and a really delightful evening awaits the audience.

The tickets sold already promise a filled house which should realize nearly \$500 for the McKinley fund. The seats are on sale and exchange at Wall, Nichols & Co.

WARDE'S "VIRGINIUS."

At the late Edwin Booth was to "Hamlet," as Joseph Jefferson is to "Hip Van Winkle" so is Frederick Warde to the great play of "Virginius." Warde in the American stage, by nature, temperament, training and environment, the part has become peculiarly his own, and as if that were not sufficient, by heredity also, for as Forrest inherited the part from the original representative of this country, Thomas Abthorpe Cooper, so John McCallough succeeded to it from Forrest, and in the line of direct succession Frederick Warde inherits the role from his distinguished master, McCullough. Gifted by nature with a superb physique, a voice of great volume and power, under perfect command, a mind well stored in the science and study, Mr. Warde in the prime of his manhood, stands before the world as one of the foremost figures on the American stage, not alone for what he has achieved, and we are indebted to him for much that is grand and noble in his career as an actor, but for the possibilities of the future. Next to lecturing and ignoring the temptations so freely offered him to acquire wealth by presenting plays of a worthless and sensational character, he has been true to his ideals, ever upholding the best and noblest form of the drama, and presenting it to the public with a liberality and accuracy that has won for him the admiration and esteem of the entire world of art and letters. Mr. Warde and his talented company, including Misses May Warde, Antoinette Ashton, Virginia Drew Trescott, Messrs. Charles D. Herman, Barry Johnstone and others will present this grand play here on Thursday, May 8, at the regular seats of the opera at Wall, Nichols & Co. tomorrow morning, and it is announced that on account of the large advance demand it would be advisable to get in line early.

PRESIDENT INSTALLED.

NEW YORK, April 19.—Professor Nicholas Murray Butler was installed as president of Columbia University with imposing ceremonies today. These ceremonies were attended by the President of the United States and the heads of the principal institutions of learning in the country.

STORY TELLER DEAD.

WASHINGTON, April 20.—Frank R. Stockton, the well-known novelist, died suddenly here this morning from paralysis immediately resulting from a hemorrhage of the brain. He was a guest at the banquet held Wednesday night of the National Academy of Sciences, when he was taken suddenly and mysteriously ill. The ailment did not at that time appear to be serious, and for a while the sufferer seemed to be improving, but a change for the worse came this morning and death occurred at 11 o'clock. By his bedside when the end came were his wife, who was a Miss Tuttle of Virginia, and her sister. He was 88 years of age. The body will be taken to Philadelphia for interment. No further funeral arrangements have been made as yet. Mr. Stockton had spent the past winter in New York and had done very little literary work. After a visit of nearly a month at Atlantic City he came to Washington so that he might attend the banquet of the scientists, intending then to go to his beautiful home in Charleston, W. Va.

DISCOVERED A COMET.

GENEVA (N. Y.), April 18.—Dr. William R. Brooks, director of Smith Observatory and professor of astronomy at Hobart College, announces the discovery of a new comet. It is in constellation Pegasus, and an observation secured today made its position right ascension 23 hours, 28 minutes and 10 seconds, declination north 27 degrees, 25 minutes. This comet has a daily motion of about three degrees southeasterly and toward the sun. This is the twenty-third comet discovered by Dr. Brooks.

TUG-OF-WAR TOURNAMENT.

There was fair attendance at the tug and was well rewarded by witnessing and was well rewarded by witnessing

two excellent contests. The Portuguese was easily defeated by the plucky and determined crew in which they gained their first test of rope from the All-American team. The boats were considerably heavier and possessed one or two good men. They were no match for the plucky little Portuguese however who put every ounce they had into the tug.

The Pacific Works team, remnant of the famous Wells Ka Hoo, walked away with the lumbermen to the call of their old war cry. Tomorrow night the Longshoremen and Lumbermen will pull, also the Kaula Ke Au against the Pacific Hardware boys. Kaula Ke Au, for the benefit of the harbor, may be explained, means that the team will pull like a swift current, irresistible, perhaps to be arrested for the while but in the end overcoming all obstacles.

STANFORD DEBATE.

STANFORD UNIVERSITY, April 19.—The fourth annual freshman-sophomore debate, held in the chapel last night, was won by the second-year men in a contest that surpassed in interest all previous interclass debates at Stanford. The question was "Resolved, That the United States should resist, by force if need be, any further colonization of South America by Europe." The negative was upheld by Howard M. Lewis of Great Falls, Mont., and Augustine Jones of College Park for the sophomores, and the affirmative by the freshman trio, Alexander Smith of San Jose, Arthur Dibble of Portland and Benjamin Day of Portland. The judges were Professors R. L. Green, Max Farrand and C. B. Whittier.

BISHOP BRENT.

New Philippine Bishop a School Mate of A. C. Lovekin.

The Rt. Rev. Charles H. Brent, the new Protestant Episcopal Bishop of the missionary diocese of the Philippines was a school mate, when a boy, of A. C. Lovekin of Honolulu. He was born in Newcastle, Ontario, not quite forty years ago. His father was Canon Brent. The present bishop graduated from Oxford University, and for the past ten years has been rector of St. Stephen's church, Boston. He is now in San Francisco where he will be for about two weeks when he will go to New York and sail from there to the Philippines with Governor Taft.

REAGAN DYING.

The report comes from Palestine, Tex., that John H. Reagan is rapidly nearing the end of his life at his home near Palestine. Mr. Reagan is the last survivor of Jefferson Davis' cabinet. He was postmaster-general of the confederacy for four years, and was for a time acting as secretary of the treasury of the confederacy. Mr. Reagan is now 84 years old and is said to be poor. He was congressman from Texas from 1857 to 1861 and from 1875 to 1887. He was afterward a state senator, and is now chairman of the railroad commission.

LEO'S SUCCESSOR.

ROME, April 19.—Cardinal Giuseppe Sarrio, Patriarch of Venice, is regarded as Pope Leo's personal choice for succession to the chair of St. Peter. His name has already been mentioned in connection with the names of Rampolla, Vannutelli and Gotti as the Cardinals most apt to win the high place. Rampolla and Vannutelli are bitterly hostile to each other and lead the principal factions in the Sacred College, but Sarrio is not known as an adherent of either faction, and his personal stoutness for the struggle, combined with the self-sacrificing way in which he has spent his life as a parish priest in the north of Italy, give him the sympathy of large numbers of the onlookers at the contest.

Pope Leo's choice of Cardinal Sarrio was freely made known by him in a remark to a near relative, Lorenzo Perosi, the Italian composer. After asking for news of his friend, Cardinal Sarrio, the Pope said to Father Perosi: "Hold him very dear, Perosi, as in future he will be able to do much for you. We firmly believe he will be our successor." Cardinal Sarrio was born in 1825, and made Patriarch in 1891, being proclaimed Cardinal two years later. He is a great preacher, and well known as a writer, and he has the reputation of accomplishing all the works that he has undertaken. The recent weakness of Leo has only served to accentuate the bitterness of the rivalry between Rampolla and Vannutelli. Rampolla would prefer Gotti to Vannutelli, but there is no other member of the Sacred College whom he would not prefer to Gotti. Rampolla is 58, and the other two are ten years older. There is no chance whatever that the next Pope will be other than an Italian.

LEE'S SECRETARY.

BALTIMORE, Md., April 20.—Colonel Charles Marshall, military secretary to General Robert E. Lee during the Civil War and for many years one of the leaders of the Baltimore bar, died of apoplexy at his home here late last night. He was the only member of Lee's staff who accompanied him at the surrender of Appomattox and the terms of the surrender were drafted by him.

STOLE COPPER BOLTS.

Native Boys Sell Railroad Connections Cheaply.

Four native lads were brought into police headquarters yesterday by David Kaapa and locked up pending investigation into their case. The boys are charged with pilfering valuable copper connections belonging to the Hawaiian Transit Company. The theft amounting to the value of nearly one hundred dollars. The stolen property was taken from the warehouse of the trolley company on Alaia street and consists of a hundred or more copper bolts and joinings used in securing perfect connection between adjoining trolley cars. They are perfectly new and unused and cost at manufacturers' rates 44 cents apiece. The boys are said to have sold those to a scrap metal concern on Alaia street receiving six cents a pound as an equivalent. The boys do not seem to appreciate that they have seriously transgressed the law.

The Mothers' and Teachers' Club will hold its regular monthly meeting in Punahou Preparatory School Friday at 3 p. m. The subject, "Value and Use of Money," will be presented by Mrs. Charles Bartlett Dyke. All are cordially invited to attend.

SETTLERS FOR THE NORTHWEST.

Carefully prepared estimates show that 44,000 settlers have gone into the State of Washington alone this spring. Accurate figures as to the settlement in North Minnesota, North Dakota and Montana are not yet available, but it is thought that the statistics will show at least 20 per cent more immigration than

WANTS GOVERNMENT AID. WASHINGTON, April 22.—Larin A. Thurston, ex-Minister from Hawaii, who is here with Governor Dole, continues to urge that Congress should afford the islands some relief to offset the expenses incurred in the suppression of the plague at Honolulu, while the Government was in a transition state. Of the \$2,000,000 thus expended \$1,000,000 has been paid by Hawaii and now it asks that Congress pay the rest out of the customs receipts of the islands. Thurston says that the withdrawal of customs receipts from the insular treasury has left it very short of funds and that the \$100,000 remitted each month to Washington constitutes a heavy drain on the finances of Hawaii.

This money had, he claimed, been entrusted by him to a Chinese living down by the railway depot. It had been earned by working at the rate of \$3 a week, for a native man who was now in jail. The case was continued in order to enable the authorities to locate the Chinese and ascertain whether the Porto Rican was really a vagrant or a capitalist.

ONE DAY COLD CURE.

Probably there are few remedies that give better satisfaction than our well-known Anti-Grippe Tablets. In cases of colds, when you feel that you "have it all over your body," these tablets take right hold and expel the cold germs, and nip at the start an illness that might be long protracted. People would not send 5000 miles for Anti-Grippe Tablets unless they had found them better than anything else they had used. But this is just what they do. Here's the proof. 1716 N. Penn St., Indianapolis, Indiana, October 12. Hobron Drug Co. Dear Sirs: While in Honolulu last February I purchased a bottle of your Anti-Grippe Tablets and find them the very best thing I ever tried for a cold and grippe. Would like you to send me two bottles for which I enclose stamps (60c) and greatly oblige, MRS. H. F. WOOD.

If you are subject to colds you cannot afford to be without them. They cure a cold in one day. Insist on having our's because "just the same" isn't Anti-Grippe Tablets. PRICE 25c. HOBRON DRUG CO.

The Globe-Wernicke Elastic Book Case is a system of Units. It is always complete but never fatigues—small enough for ten or large enough for ten thousand books—never too large or too small, but always just right. It can be enlarged or reduced, moved and rearranged to suit an almost endless variety of books, spines, tastes and conditions.

Each Unit has a dust-proof glass door, edged with felt. In operation it swings upwards and returns into a space over the books where it is out of the way. These doors act on roller bearings, and contain our celebrated non-binding and noiseless cushion closing features, making a door simple and easy to operate. It is the only one that does not weaken the Unit or encroach upon the book space. A strong and most desirable point of advantage to be considered by purchasers is the ease with which the door can be removed and replaced for the purpose of cleaning, without requiring delicate and intricate mechanical readjustments or necessitating the use of tools.
