POETRY.

LIFE IS NOT AN IDLE PLAY.

Our life is not an idle play, And various as the wind, We laugh and sport our hours away, Nor think of woe behind.

A QUIET REVOLUTION.—While so many countries of the globe have been undergoing changes, either brought about or accompanied by violence, the kingdom of Sweden has lately passed through a peaceful revolution of the most surprising character.

THE SALT OF TEA.—A plucky old fellow had a son who was a student at one of the New England colleges, and one day he thought he would visit the institution.

THE SHORTER PASSAGE ON RECORD FROM AMOY TO NEW YORK.—The clipper ship Surprise, says the Boston Herald, Capt. C. A. Ranlett, Jr., made her last passage from Amoy (China) to New York, in 82 days, said to be not only the shortest passage from Amoy, but from any port in China.

BULK OF THE GOLD IN THE WORLD.—A correspondent of the New York Evening Post writes: According to the estimates given in the Evening Post three weeks ago, the whole amount of gold in the world is the present amount of about \$5,250,000,000.

As English clergyman has been brought before a magistrate and compelled to pay costs of 25 shillings for "keeping an illegal lottery," the offense consisting in a raffle for fancy articles, which was one of the incidents of a fair to obtain funds for enlarging his church.

THE MADISON ARGUS told a newly married editorial friend that he would find a difference between the matrimonial and editorial experience. In the one case the editorial cries for copy, and in the other the copy cries like the devil.

BROMIDE OF POTASSA A REMEDY FOR BLOOD POISONS.—The account published in the newspapers recently of the cure of an Indian case of hydrophobia by the use of bromide of potassa, has elicited the following letter from Dr. Benjamin Woodward of Galesburg, Illinois, to the Register of that place:

THE case is one of great interest to all, but especially to myself, as I was the first to point out the value of this remedy in what are known as "blood poisons."

While I was in charge of the gangrene hospital known as "No. 7," at Murfreesboro, after the battle of Stone River, many gentlemen of the profession came there to watch the treatment, and among them Professor Frank Hamilton, Professor Gunn, of Ann Arbor; Professor Post, of New York; and Professor Brinton, of Washington.

Since that time I have used the remedy in more than 200 cases, and not one has died in which the remedy was used early and faithfully. I have labored to get it into use here; but, with a few exceptions, it has not been noticed. Some men who have never even seen it tried, say they have no confidence in it; but the united testimony of hundreds who have used it, is that we have no remedy of equal value.

FRENCH ORATORS.—The France tells some anecdotes of the principal orators in the French Chamber, which, if not true, are at least amusing. One day, it says, while M. Jules Favre was speaking, M. Rouher fell asleep.

AMONG the "perquisites" of a Prime Minister in England, on his retirement from office, are a certain number of seats in the House of Peers; and the Earl of Derby, from his sick bedroom, has transplanted four baronets and one clergyman to the chamber in which they will hereafter legislate by divine right.

NEW BROOMS SWEEP CLEAN. So do new brooms. The recently appointed Bishop of London, among other things, has been making a long and a short of the apostolic zeal and activity. He was asked the other day to open a new church in Staffordshire, England. The church had been erected for the spiritual benefit of the poor colliers. On entering the church the bishop found that the admission was by ticket. The iron structure was crowded with the well-dressed people, the poor and the ragged.

A FIRST IMPRESSION.—The subject of impression at first sight was being talked over at the supper table, when the lady whose duty it was to preside "over the cups and loaves," said she always formed an opinion of a person at first sight, and generally found it to be correct.

THE MADISON ARGUS told a newly married editorial friend that he would find a difference between the matrimonial and editorial experience. In the one case the editorial cries for copy, and in the other the copy cries like the devil.

ENGLISH SPORTS.—Every little village has its cricket ground; but there are permanent centres, or societies, for the instruction and organization of this game, that give the law to the kingdom.

THE education commission by whom Mr. Fraser was appointed to visit the United States, and who engaged several other gentlemen to pursue similar investigations in England and on the European continent, have at last returned their report, and the English journals discuss at considerable length the important recommendations it contains.

A MONTREAL paper tells a good story of the Catholic archbishop of that see. A military hall was to be given, and two officers appeared before the archbishop to ask him to remove for one night, in their favor, the existing interdiction against the polka. Their petition was heard and politely refused.
