

A (Rehabilitation) 16 Jan 1949
3 (Land Titles Investigating Commission)

Saipan

The commission is at present working on a plan for remodelling the village of Susupe. Permission has been obtained from land owners in the area of Susupe village to use their land for the project in exchange for a piece of government land elsewhere.

The homestead plan has been translated into the Chamorro language. The land use requests and homestead agreements are now being completed for the land on Tinian.
