

B (Health)  
2 (Leprosaria)

31 December 47

Ponape District

There are four lepers on Sapatik Island, Ponape Harbor, who are visited once a week but receiving no specific therapy. These four cases have all shown an increase in the extent of their lesions in the past ten months. There are three additional lepers isolated on Pingelap Atoll.

There is no insane asylum in Ponape District.
