

B (Health and Sanitation)

31 Mar 47

Map District

2 (USN MGU Leprosaria, Insane Asylums and Orphanages:)

(a) There are no insane asylums and orphanages and no urgent need.

(b) The new Corpsman on the leper colony is the Father of two patients. He has shown interest and initiative in making improvements such as recementing the deck in the cistern.

(c) A wet-nurse has not been found as yet for the baby of the leperous woman. If this is not accomplished in the near future, the problem will be presented to all the native district chiefs. This case being a good example to impress them, and their people as a community, of their social responsibilities.
