Namorik	Namorik	Frame House	HA (Trained)	\$15.	649

No direct supervision over Health Aides in the Sub-dispensaries can be maintained. However, a thorough inspection is made by the Medical Officer on each field trip visit, which has been on an average of once every two months. No serious discrepancies have every been noticed. A new dispensary is to be established on the next field trip at Toka, Ebon Atoll. It will be staffed by an HA (Untrained). At Jan, Maloelap, an HA (Untrained) will be assigned for regular duty during the next field trip. Heretofore, the Jan population was serviced by the HA at Kaven.

During the quarter the following operations were performed:

Hemorrhoids, Excision of	1
Appendectomies	1
Varicocoelectomy	1
Hydrocelecetomy	1
Vaginal cyst, Excision of	1
Sebaceous Cyst, Excision of	1
Herniae, Repair of	2
