

B. (Health and Sanitation)
6. (Summary)

30 Sept 1947

Palau District

The medical and sanitation programs are progressing satisfactory. The addition to our staff of a laboratory technician has proved of inestimable value. The following recommendations are considered in order:

- (1) On the basis of figures in paragraph 1 (c) it is recommended that a dental officer either Naval or Civilian, be assigned to this dispensary permanently.
- (2) That the 25 bed isolation ward requested in paragraph 4 be erected as soon as possible.
- (3) Provide water carried sewage disposal system for Naval facilities and dispensary.
