RACING PROGRAM BEST IN HISTORY

LEGION OFFERS BIG PURSES; FINE RACES ARE IN STORES

The American Legion plans to hold its annual banq" program on Aug. 2 to feature the meeting of the new Kauai Chapter of the American Legion.

The Legion is planning to have a grand banquet on Saturday night at the Kauai Inn.

The program will include speeches by various members of the American Legion and other patriotic organizations.

The Legion is also planning to have a raffle, which will feature a large number of prizes.

The Legion is hoping to raise money to support the American Legion's programs and services.

The American Legion is an organization that was founded in 1919 to support veterans of World War I and their families.

The Legion has been active in many different areas, including patriotic events, veteran assistance, and community service.

The Kauai chapter of the American Legion has been active in the community for many years, and has been involved in many different projects.

The American Legion's programs and services are important to many veterans, and the organization is looking forward to a successful event.

The American Legion is looking forward to a successful event and hopes to raise a large amount of money to support its programs and services.
The regular monthly and business meeting of the Board of Supervisors of the County of Kauai was held at its office as usual, on Wednesdav, October 16, 1921, at 2 p.m.

Present—Mr. Ralph, chairman; Mr. Brandt, vice chairman; Mr. Menefoglio, secretary.

Mr. Menefoglio announced the receipt of a letter from Mr. Brandt, saying that the Kauai Roadside Reflector and Signal Company, while not having obtained a contract from the County Board of Supervisors to supply reflectors, had submitted a bid for the supply of a certain number of reflectors, and that the board wished to consider the bid and present it to the board for its consideration. The letter was read and approved.

A communication (P. P.) from the Board of Child Welfare Commissioners was read, asking for permission to spend a small sum of money for an outing not a month before the end of the year. The letter of the board received and the request granted was as follows:

"Bide for building building materials and for the construction of a frame new building for the Kauai Grammar School. The following materials were ordered and received for the same:

For work: $1,000.00
For tools and equipment: $500.00
Total: $1,500.00

The following regulations were approved by the Board of Education:

Vigorous High School, for recreation for library building.
Wide-awake Elementary Schools, for recreation for library building.

Supervisors held a regular monthly meeting to consider the matter with the manager of the Kauai Reflector Plant and to give the Board as it was proposed to:

An agreement in behalf of the Kauai Reflector Company for the sale of this company's officers' shares was approved by the following members: John Brandt, R. C. Moore, and for the sale of these shares to the Board as it was proposed to.

The Board of Education took the motion of Mr. Brandt, moved by Mr. Menefoglio, which was to approve the minutes of the last month's meeting and to adjourn. The minutes were approved and the meeting adjourned.

Upon the motion of Mr. Menefoglio, seconded by Mr. Brandt, the County School Superintendent was instructed to request each school to make five to ten a charge of a county work, which will be used for the purpose of乐器 for the schools of the district. The Board of Education ordered that the charge be made to the School Board and to the Board of Education.

For work, $1,000.00
For tools and equipment, $500.00
For materials, $1,500.00
Total: $2,500.00

The development of this country's business interests, the productivity of its farms, and the buying power of our homes depends upon the mental alertness, physical vigor and skill of the older boys and young men of the present generation.

The present and the future demand capable, safe, reliable, and accurate labor. No work has been done with greater purpose and character than to prepare the young man for this great and critical work.

There are many activities that make the improvement and development of our wonderful country a work of ceaseless striving.

The county department of the 'Y' M. C. A. has created a remarkable community work which is now open and to be utilized rapidly by all engaged in the work. All buildings and equipment are available to a community such as schools, halls, churches and homes are used meeting places.

The "youth" factor presiding at any big city is neglected. The "youth" factor is neglected. It is the work of the community through the boys and young men.

The "youth" factor is neglected. It is the work of the community through the boys and young men.

The "youth" factor is neglected. It is the work of the community through the boys and young men.
EMPLOYMENT SITUATION

According to the report of Secretary of Labor Davis, in comparing the present labor situation in the United States with that existing in 1914, there are now approximately 3,500,000 unemployed workers in the country, and his statement has been verified from official sources.

Mr. Davis' statement is not put forth without a basis, for the country is in a better condition than it was at the time when we were on the verge of a panic that was caused by the breaking out of the war. There were at that time 2,400,000 workers in the country, and the prospect was serious indeed.

It is estimated that there are now 12,000,000 workers in the country, and the number is increasing every day. In 1914 the case was directly opposite. Then there were 6,000,000 unemployed workers in the country, and the prospect was serious indeed.

The difference between the two conditions is striking, and it is clear that the country is better off now than it was in 1914.

The railroad is an important part of the economy, and the railroad workers are essential to the nation's well-being. The railroad workers are essential to the nation's well-being.

The railroad workers are essential to the nation's well-being.

In conclusion, the railroad workers are essential to the nation's well-being.

For more information on the railroad workers, please visit the National Railroad Museum at www.nrm.org.

Educational and Vocational Training Defined

There are many different types of educational and vocational training programs available, ranging from formal classroom instruction to hands-on, practical training in a specific trade or industry. These programs can be found at a variety of institutions, including schools, universities, community colleges, vocational-technical schools, and even some employers.

Some programs are designed to provide the skills and knowledge necessary for entry-level employment, while others offer advanced training for individuals seeking to advance in their current field or transition to a new one. In some cases, these programs may be credited towards a degree or certificate.

Vocational and Industrial Education

In the early days, a good education was considered essential for success in life. However, as society became more complex, it became clear that different types of skills and knowledge were needed for different careers.

Vocational education was created to provide training in specific trades and industries. This type of education allows students to gain practical experience and develop the skills necessary for success in a particular field.

In many cases, vocational education is designed to prepare students for entry-level jobs in a specific industry. This can include training in areas such as automotive repair, welding, carpentry, and electrical work.

Vocational education can also be a useful way for individuals to retrain after losing a job or changing careers. Many vocational programs offer courses that can be completed in a relatively short amount of time, allowing students to gain new skills and enter a new field quickly.

In summary, vocational education is an important part of the education system that provides students with the skills and knowledge they need to succeed in a specific trade or industry. It is an essential component of education that helps prepare individuals for the workforce and meet the needs of a rapidly changing economy.

INTEREST IN Y.M.C.A.
CLUB WORK SHOWN

Postmortem meetings for the indication of club work under the supervision of the county Y. M. C. A. have been held at Kilauea, Waimea, Lihue and Lihue, and enthusiastic response has been given by the members of the clubs. All work under the supervision of the county program has been presented by the various club leaders, and the possibilities of the varied activities for the all round development of those who participate. Work is as

"Columns weighs approximately 16 inches of solid paper per square foot of the new company. This makes it all the lighter than heavier but it is not an effort to write on or a toll of layers. It is of sufficient strength throughout. In this respect Colomex is compared to all other building boards are built up of layers of paper cemented or glued together, while our product is one homogeneous piece. It is filled with layers of fibers. In addition to the excellence of the cells of the fiber, it is a fibrous mass. It is this that makes our board so light in weight and so valuable in building and it can be handled just like ordinary lumber and used to all dimensions desired." "Our Colomex is waterproof, buoyant in J. K. Thaux, vice president of the new company. In the presence of customers and manufacturers the boards is shown with chromatic so as to make the color of the new product, permanently waterproof. Therefore our product is so made that it will stand all kinds of weather and a test built of it will hold water indefinitely."

Will Stand Age "According to the officers of the new Colomex Co., the future of Colomex is its security against fire. The board flammable in actual routine and in so many respects that it is dry. When placed in the normal heat the temperature drops to high temperature. The fire may become as hot as the steel and the steel and will remain the color of the Egyptians, that have been heated by us through the ordinary lumber and used to all dimensions desired."

"The use of this material on a house will practically convert it to a steam heat. It will cool and in which it will be warm. The use of Colomex for the construction of one of its many buildings has been specifically made, say its producers, and so other material as well as for the construction of buildings, besides, phonograph records and other phases calling for silence sound sound and thurmatic qualities."

HAWAIIAN PRESS DELEGATES ARE DELIGHTED WITH HOLIDAYS

Wednesday night was a big night for me.

It must have been a big night for my father too, for he decided to take me to see the Ford exhibit within the scene of the Central City so that he might see the motor cars that are the pride of the Ford, the Harris car, for the automobile that was the greatest in the world.

The Ford exhibits were one of the high points of the holiday and the Ford factory was the place where I had a chance to see the cars.

Another Exceptional Picture

Nawamulil, Garage Ltd.

The first Boy Club to be organized on the island of Kauai held its initial meeting last Wednesday in the popular local restaurant of Mr. H. M. Lilliehouse in Hilo. A short speech, was delivered by Dr. H. J. Mudge, the first president of the club, and Dr. R. B. McNulty, the second president, was elected.

The club is a movement of Hawaiian sports among the boys of high school age. It was organized as an end to create institutional maintenance and continue throughout the school year with the help of the Boy Scouts organization in Washington.
