## Fish and Game Club Holds Special Meeting

MANY IMPORTANT DECISIONS ON LOCAL CONDITIONS ARE MADE

The Kauai Fish and Game Club held an important meeting at the home of Dr. Kuhns last Thursday evening. About 36 members of the club were present at the meeting, which was preceded by a buffet supper which was given by the members' wives under the direction of Mrs. Kuhns.

The principal object of the meeting was to hear a report from H. L. Kelly, executive officer for the Hawaii Fish and Game Commission, on the work that the commission is doing in regard to the game situation.

Mr. Kelly gave a short resume of the work that the commission is doing in stocking the fields with game birds and the streams with game fish. He then stated that all this work would be lost unless the sportsmen of the islands would cooperate with the commission in preventing game hogs from exterminating the birds and fish. This cooperation is to help the commission in the way of suggestion for laws to protect the game as well as an insistence that the law be enforced.

After Mr. Kelly's talk, there was considerable discussion on the matter of the trout that were planted in the streams at Kokee two years ago. Mr. Kelly reported that the fish were making excellent progress and the fish streams would be ready for fishing next summer. Mr. Kelly stated that the fish and game commission would like to have suggestions from the sportsmen of Kauai in regard to rules governing the fishing of trout in the Kauai streams. The club then asked for some suggestions from Mr. Kelly and he stated that in his opinion the season should not be open after July 15th owing to the fact the fish spawned early that spring would be big enough after that date to hook themselves on a fly as it was on these fish that the stocking of the streams the following year depended. It was necessary to have the season open early to protect them. He suggested that the season should not exceed six weeks and that the limit should be ten fish a day and 25 a week.

The club then discussed Mr. Kelly's suggestion at length and finally decided to have the season open from May 15th to June 15th, and that the limit be five fish a day regardless of weight and the limit for a week be fifteen.

The subject of the limit on pheasant and doves was then taken up and Mr. Kelly told of the situation in the Willamette Valley in Oregon where pheasant at one time were so plentiful that the limit was 200 a day and the season was open three months. As the birds began to get scarcer the limit was cut down and now the limit is two a day and the season is open two weeks.

With this thought in mind the club voted to suggest to the commission that laws for Kauai be changed so as to make the pheasant limit three a day and thirty a season. The club also suggested that the dove limit for Kauai be reduced to 15 a day.

Mr. Kelly then told how H. P. Faye had agreed to set aside a portion of Kekaha as a game preserve and that the commission hoped, if they could secure enough funds, to start a game farm there. The club voted to assist the commission in every way possible in their efforts to start the game farm and elected Mr. Faye member of the club for cooperation in protecting and propagating game on Kauai.

### LIHUE UNION CHURCH

Regular services will be resumed in this church next Sunday. Throughout the month of August these services will be conducted Sunday evenings at 7:30 o'clock.

RALPH W. BAYLESS, Minister.

## KAPAA NOTES

### CONCERT AND DANCE BY KAAHUMANU SOCIETY

A concert at the Hawaiian hall, followed by a dance at the Kapaa hall was given by the Kaahumanu Society, Saturday evening. A large crowd was in attendance at both places.

### BILL WOLTERS BACK

William Wolters, son of Manager H. Wolters of the Makee Sugar company, is back again at Kealia spending the remainder of his summer vacation. William has been attending the University of Hawaii.

### SPALDING PLEASSED WITH TEAM

James M. Spalding returned last week after a two months business trip to California. He was greatly pleased with the success of the Makee team since his departure, and was on hand Sunday to see his team nose out Lihue.

### EVERYBODY HAS HAT IN THE POLITICAL RING

The local political pot is just beginning to get hot and will probably reach the boiling point within the next few weeks. Announcement of prospective candidates for the house and senate will be made in the next two weeks.

### HAWAIIAN CANNERIES BREAKS RECORD; 11,000 CASES SHIPPED ON HELENE

All previous records for single shipments of canned pineapples were smashed by the Hawaiian Canneries company last week when the Inter-island S. S. Helene loaded 11,000 cases into her holds from Ahukini for Honolulu. The previous high mark was made in September 1921, when the same steamer took 9000 cases in one load to Honolulu from Kealia.

### THINGS ARE LOOKING UP AT THE HOMESTEADS

With the price of sugar showing slow but steady gains, optimism is returning to those who were inclined to be pessimists a few months ago. Interviews with the various homesteaders, both of the Waialua and Kapaa sections, indicate that with the price of sugar averaging above five cents for the remainder of the year, many of them will probably manage to break even, which is doing very well, taking into consideration the high wages paid in 1920 to plant the 1922 crop.

## PERSONALS

A. V. Gear, deputy auditor of the territory, arrived on the Claudine this morning on official business.

Mrs. Elizabeth Ferreira of Honolulu arrived last week and is visiting her daughter, Mrs. S. Kellinot at Kapaa homestead. She will spend six weeks on Kauai.

Judge D. H. Case, recently appointed to the Maui circuit bench, arrived on the Claudine this morning to visit his son, A. H. Case, of Grove Farm, Lihue.

Miss Helen Baggott, with the American Factors, Honolulu office, arrived this morning for a visit of two weeks with her brother, C. A. Baggott of Lihue.

J. H. Moragne, returned this morning from Honolulu where he accompanied his daughter, Miss Josephine, who is leaving tomorrow on the Maui for the mainland where she will enter Mills College in Oakland.

Rev. Ralph W. Bayless of Lihue, who with his family have been vacationing in Honolulu the past month, returned on the Kinau last Wednesday morning. Mrs. Bayless and children will remain in Honolulu a short time longer.

### WAILUA HOMESTEADERS TO CELEBRATE THE END OF HARVEST

The Waialua Harvesting Association was given permission by the board of supervisors to use the Oloheia school house for their celebration at the end of the harvesting season. This is the first harvest in this district and although most of the homesteaders suffered a loss, optimism prevails in the district owing to the advancing price of sugar.

## SUPERVISORS HOLD MONTHLY SESSION

The regular monthly business meeting of the Board of Supervisors of the County of Kauai was held on Wednesday, August 2, 1922, at 9:30 a. m.

Present: H. D. Wishard, chairman; T. Brandt, J. I. Silva, Fred Mendes, A. Menefoglio.

The minutes of the previous meeting were read and approved.

The several demands submitted and hereinbelow listed were approved:

Bids for furnishing material, etc., and for the construction of the Kauai High School shop were received and were as follows:

Allen & Robinson Ltd	\$2,370.00
C. B. Hofgaard & Co.	2,095.00
Kauai Railway Co. Ltd	1,897.00
Lewers & Cooke Ltd.	2,060.00
Lihue Store	2,210.00

### CONSTRUCTION—

Y. L. F. Akau \$820.00  
John Hansen 948.00  
S. Honjiyo 789.00  
J. Lyons 895.00

Later and upon the advice and recommendation of the county engineer the following bids were accepted:

KAUAI HIGH SCHOOL SHOP—	
Material: Kauai R.R. Co.	1,897.00
Construction: S. Honjiyo	789.00

A communication (P2041) from the Makee Sugar Co. requesting an increase of one hundred dollars (\$100) in the monthly allowance of the Kealia hospital was received and upon the motion of Mr. Mendes seconded by Mr. Silva, by unanimous vote, the county clerk was instructed to ask the Makee Sugar Co. to furnish the board with an itemized statement of the cost of treating the indigents at the Kealia hospital during a period of one year prior to this date.

The petition (P2039) of the Koloa citizens to set aside the vacant lot opposite the postoffice and the store of the Kauai Trading Co. for a public park was taken up for consideration. Upon the motion of Mr. Silva, seconded by Mr. Brandt, by unanimous vote, the petition was refused as the county is not in a position financially to acquire this property.

The petition (P2029) of property owners having homes at East Koloa beach, district of Koloa, which requested that the county install a water system to supply water to said homes was taken up. Mr. Knudsen was present and supplemented the petition for consideration by explaining the needs of this section. He requested that proper

### NEW COTTAGE TO BE BUILT AT THE HIGH SCHOOL

Among the new buildings decided upon at the last meeting of the supervisors was a cottage for the teacher who is to come to the high school to take charge of the manual training work. The new cottage will be built on the high school grounds.

This will remove the last obstacle in starting the manual training work at the high school, as difficulty was being experienced in finding a capable man to take charge of the work owing to the fact that no accommodations could be offered to a man with a family.

### KOLOA'S REQUEST FOR PARK LAND IS TURNED DOWN

A petition was presented by Koloa citizens last Wednesday to the board of supervisors requesting them to purchase the land being used as a baseball field in Koloa for a public park.

Owing to the fact that there are no funds available for this proposition the board was forced to refuse the request of the Koloa citizens.

Mrs. Leslie Wishard, who has been visiting Mr. and Mrs. H. D. Wishard, of Lihue, for the past two weeks, departed last Wednesday for her home in Kohala, Hawaii.

documents be drawn up so as to protect all parties. Upon the motion of Mr. Menefoglio, seconded by Mr. Mendes, by unanimous vote, the chairman was authorized to employ an attorney to draft the proper papers between the county owners and the property owners so that this water system may be installed.

Mr. Lydgate, sub land agent for Kauai, requested that the board take some action to tear down the old camp building and to clean up the grounds of the Waialua Park. Upon the motion of Mr. Brandt, seconded by Mr. Menefoglio, by unanimous vote an appropriation of \$200 be set aside for clearing the land and other bushes at the above mentioned park. The county engineer was instructed to proceed with the work of cleaning of this park and to make arrangements for the disposition of the old camp building.

Mr. Silva requested that steps be taken to improve the Kalaheo water works at an early date. The county engineer, by unanimous vote, was instructed to investigate this matter and report at the next meeting.

A petition (P.2042) from the Waialua Harvesting Assn. was received requesting permission to use the school house for celebration at the end of the harvesting for the first crop of sugar cane in this section and upon the motion of Mr. Mendes, seconded by Mr. Silva, by unanimous vote, was granted.

Mr. Silva moved that a new court house and tax office be constructed at Koloa and being seconded by Mr. Mendes, was carried. The county engineer was instructed to get together with the sheriff and estimate the cost of having this work done and report at the next meeting.

Mr. Silva moved that someone be appointed to take care of the trees and grounds of the Elele school during vacation time and being seconded by Mr. Mendes, was carried. The county engineer submitted a report on estimating the cost of grading the new site for the Anahola school which was referred to him at a previous meeting as follows: It would cost about one thousand five hundred dollars (\$1,500) to do this work. Upon the motion of Mr. Mendes, seconded by Mr. Silva, by unanimous vote, that the petition by the Anahola people be granted, and the chairman was authorized to negotiate with the proper parties for the acquisition of the said new lot.

(Continued on Page Eight)

### SUPERVISORS LET CONTRACT FOR NEW HIGH SCHOOL SHOP

The supervisors at their regular meeting last Wednesday awarded the contracts for the Kauai high school shop. The Kauai Railway company was the low bidder on the material with a bid of \$1,897 while the labor was let to S. Honjiyo for 789.

It is the intention of the authorities in charge of the course of study at the high school to build up a course in the manual arts in the school as well as their regular academic work and business courses. They believe that owing to the peculiar situation in the islands that the secondary schools should be prepared to develop students technically as there has been a tendency of the pupils to overcrowd in the direction of the business field. One good carpenter or plumber is worth considerably more to the community than several poor stenographers or bookkeepers.

### B. D. BALDWIN LEAVES FOR MAINLAND TRIP

B. D. Baldwin, manager of the Hawaiian Sugar company at Makaweli sailed for Honolulu on the Lurline last Sunday where he will take passage to San Francisco on the Maui, August 9th. He plans to spend about two months on the mainland.

L. D. Larsen, manager of Kilauea plantation, returned last Friday morning from a visit to Honolulu.

## U. S. Army Engineers Inspect Breakwater

PARTY OF ARMY ENGINEERS ARRIVE ON STEAMER KUKUI

A party of army officers belonging to the Engineers Corps were arrivals on the Kukui yesterday. They are on a tour of inspection and have been busy looking over the breakwater at Nawiliwili and various other engineering projects on Kauai. The party is made up of Major H. F. Cameron, Capt. H. P. Oram, Capt. E. H. Bowley, Capt. R. H. Stock, Lieut. A. G. Lovett and Lieut. F. O. Bowman.

Major Cameron reports having lately seen two former residents of Lihue, one being Charles Sweetser, who was county engineer in 1905-06, and Carl Brush who was construction engineer on the Hanamaulu trestle about the same time.

Mr. Sweetser is now in San Francisco with the federal government, while Mr. Brush is in New York City. Both men were with the Engineers during the world war and it was there that Major Cameron made their acquaintance. He states that they send their aloha to all their old friends on Kauai.

### KAUAI MASONIC CLUB INSTALLS NEW OFFICERS

The annual election and installation of officers of the Kauai Masonic Club was held Saturday night, Aug. 5th at the county building in Lihue. The following were elected for the ensuing term:

President—Frank Crawford.  
Vice President—H. D. Wishard.  
Secretary—C. L. Lane.  
Treasurer—A. Menefoglio.

Several new members were admitted to the roster.

Tentative plans were discussed for a regular old fashioned basket picnic dinner to be held on the beach at Hanalei, Sunday, Sept. 10. Dr. Patterson is chairman of the Hanalei contingent who are acting as hosts for the occasion.

Every Mason on Kauai should keep in touch with the secretary, as important matters are to be taken under final consideration at the next meeting.

The membership is rapidly nearing the one hundred mark.

Refreshments were served after the business meeting.

### KOLOA WATER WORKS TO BE EXTENDED TO BEACH HOMES

Plans are being formulated to increase the capacity of the Koloa water works so that the pipe line can be extended to include the homes at Koloa beach.

With the present water works there is not enough pressure and water to serve these homes, but the county is planning to lease from the Koloa Sugar company, and the Knudsen estate, water rights, so that the present system can be increased.

### KOLOA TO HAVE NEW COURT HOUSE

A new court house is to be constructed at Koloa and the old one removed according to the decision of the board of supervisors at their meeting last Wednesday morning.

Sheriff Rice and County Engineer Middleton were instructed by the board to consult as to the necessary details and bids will probably be called for within a short time.

### COUNTY OFFICIALS TO PLAY BUSINESS MEN AT NATIONAL GAME

The county building has issued a defi to the business men of Lihue to play a game of baseball on the Lihue diamond on Sunday, Aug. 20th.

The business men have accepted the challenge and the game will be put on. The Audit Co. of Hawaii has arranged to keep two of their expert accountants to keep the score.

The business men's team will tackle the Lihue club on Thursday afternoon at 5 o'clock for a practice game.

Col. Z. S. Spalding and James Spalding returned last Wednesday from a visit to Southern California.

## Princess Completes Work on Kauai

EIGHT WOMEN'S CLUBS IS THE RESULTS OF HER EFFORTS

Men, take off your hats to the women! They have shown their initiative and ability in organizing. All honor to the Hawaiian women who throughout the whole of last week worked under the guidance of their Princess for the formation of auxiliary clubs to the republican party.

Princess Elizabeth Kahanu Kalaniana'ole continued her good work during the week and scored success after success at the various precincts. Old hands in politics watched the organization with varied interest, and were surprised at the aptness displayed by the women. The Princess herself is an organizer of great ability, and she has the happy faculty of getting results out of chaos. A suggestion here and word at another place, and a club is formed and officers are elected. No fuss, no squabbling, no sparring for honors, no undercurrents to in any way mar the proceedings. And when she leaves any locality, the best of feeling prevails, and a determination to work as she had advised is prominent in the minds of all the women. The women have come forward to meet their responsibilities and if the ideals preached by their Princess are carried out, and there is no reason why they should not, politics on Kauai will be cleaner, issues will be more clarified, candidates who are fearless, honest and intelligent will have the better chances for nomination, and the best element in the community will not

(Continued on Page Seven)

### ANAHOLA SCHOOL TO BE MOVED TO NEW SITE

A site will be acquired by the county just as soon as negotiations can be made with the owners for the new Anahola school, the board of supervisors having voted to purchase the property and H. D. Wishard appointed to act for the board. The piece of land to be purchased is next to the church on the Kealia side of the bridge.

Just as soon as the property is purchased by the county a new school building will be built on the property. Some grading is necessary before any construction work can be done.

### OHIO PROFESSOR VISITS KAUAI

Among the passengers on the Kukui when she arrived yesterday morning at Nawiliwili was Prof. E. L. Mosely, who is a guest of Ralph Pinkham, lighthouse inspector for this district. Prof. Mosely is head of the science department of the state normal school at Bowling Green, Ohio.

He is a grandson of Hiram Bingham, one of the early missionaries in the Hawaiian Islands.

### TH. BRANDT OF WAIMEA GOES TO THE COAST

Thorvald Brandt, manager of the Bank of Bishop at Waimea and a member of the board of supervisors, from the Waimea district, was a departing passenger on the Lurline last Sunday. Mr. Brandt plans to take the Maui to the mainland tomorrow and will spend about two months away from the islands.

### CIVIL SERVICE EXAMS. WILL BE HELD THIS MONTH

A civil service examination will be held at the Kauai high school on August 26th for the position of clerk in the Lihue postoffice. The examination is open to American citizens only. The examination will be conducted by Mrs. G. T. Lomnes, district secretary of the civil service commission.

Further information in regard to the examination can be received from T. E. Longstreth, Lihue postmaster.

Thos. J. K. Evans, territorial surveyor, has established a camp at the mouth of Waialua river and will use this as headquarters during his work of surveying the Waialua lands.

## A TRIP THROUGH FORMOSA

By WILLIAM WATERHOUSE

The following letter was received from William Waterhouse concerning his trip to the island of Formosa. Mrs. Wm. Hyde Rice herewith offers it to the readers of the Garden Island:

"While at Taihoku, Formosa, on my trip with Mr. Paul M. Kanamori we called on the governor general of Taiwan (Formosa) to pay our respects and thank him for the free passes on the railroad which he had sent us on our arrival.

During our conversation with him the subject of savages or headhunters was brought up, and I expressed a desire to see some of them, and he said that he would see that my desires were gratified.

"When we arrived at Taiwan, we met Governor K. Yoshioka of Tainan province, an exceedingly pleasant gentleman, who has spent several years in England, and speaks English well. His fine auto was at our disposal during our stay at Tainan. He said that on my return from the southern part of the island he would have Mr. K. Sakakibara, the provincial government interpreter and two officers go with me to see some of the savages at Tapan village.

On my return from the south I was met at Tainan by the interpreter and the two officers, and a representative from the governor, and we proceeded to Kagi where we were to take the train for the mountains. This was Tuesday, the 17th of January. That afternoon we went to call on Mr. T. Nagayama, who is at the head of the Arisan Forestry Bureau, who is an exceedingly pleasant gentleman, has traveled and speaks English well.

Mr. Nagayama showed me thru the big saw mill, which is such as you find in British Columbia, and Oregon, and the huge logs that were being unloaded from the cars. From there I was taken to see the experimental station which is being conducted on a large scale, and is most interesting.

I find that many of the trees that grow on the islands of Hawaii are found growing here in Formosa, such as the papaya, tamarind, cocoa palm, banana, poinciana, banyan, hala, and many other varieties, and the climate in the southern part is very much like Hawaii. Sugar cane grows here and considerable sugar is manufactured, but the cane is very small and not to be compared with that grown in Hawaii.

Wednesday morning, the 18th, we were up early, and started for the Arisan railroad station where we met Mr. Nagayama and the rest of the party. The train left Kagi at 5:25. We rode in a box car open on either side so we could have a good view of the scenery as we ascended on our way to the great Arisan forest. One of the grandest trips I have ever taken anywhere, Mr. Nagayama certainly did all in his power to make me comfortable, and to give me a good time. It took us from 5:24 a. m. to 4 p. m. to make the first 41 miles. The construction of this wonderful road cost over four million yen, or two million dollars, and many lives. It was begun July, 1906, and was about finished December, 20, 1912. Forty-four bridges and 45 tunnels, one of which is 2,475 feet long. The

country that has to be traversed in the construction of the road was exceedingly rough, steep mountains, and deep ravines, had to be limbed and crossed.

The surveyors and laborers had to ascend by means of rope ladders, climbing rocks, holding on to the roots of trees or projecting stones, many of the laborers deserted for fear of losing their lives. It is a wonderful piece of engineering. At Shonoryo it circles a peak, three times, spiral fashion, and at another point switchbacks have to be resorted to. We passed thru the camphor gum forest, Formosa being noted for its production of camphor gum. This grows up to the 4,000 foot level; and from this point hemlock, cedar, taiwania pines, and nearer the top the spruce and fir. The scenery is just grand—mountains, valleys, lovely streams. From the 3900 to 4000 level the wild banana and tree ferns are in abundance, the trees in many places having lovely vines hanging from the branches, the bamboo which has a fern-like leaf here in the mountains, adding much to the beauty of the scenery. The tree ferns are the finest I have seen—finer than any I have seen in Hawaii.

We reached Nimondaira, which is 41 miles from Kagi, at about 4 p. m. Here stands the wonderful Sacred Tree, "Chamaecyparis" species, diameter 22 feet, height 135 feet, circumference 64 feet, 2000 years old.

From this point we had to walk quite a distance up the mountain to the lovely Japanese cottage where we were comfortably entertained by our friend, Mr. Nagayama. It is situated on a point where you can have a wonderful view of all the surrounding country; a huge tree stands near the house, on top of which is built a lookout which is reached by a ladder fastened to the trunk of the tree. The weather was comfortably cool. The house is fitted up with all modern convenience, which is quite unusual in Japanese houses. Dinner was served in true American style, Mr. Nagayama having brought with him many delicacies, and substantial things to eat. We enjoyed ourselves to the limit. Mr. Nagayama entertained me with a full account of the workings of the lumbering business, and of his trips to Mt. Morrison, Niitaka, which is 13,075 feet high. Mt. Fuji is 12,365 feet high.

After a good night's rest we started again on the train for a further trip of about ten miles to see the trees being cut, and the great logs hauled up from the valleys below, with cables and donkey engines and loaded on cars, a very interesting sight to one who has never seen such work carried on. The day was perfect, and it goes without saying I enjoyed the day immensely. Wherever the trees are cut down, the underbrush is cut away and new trees are planted. The forest extends over an area of about 27 thousand acres of land, and the majority of the trees measure from 3 to 6 feet in diameter, the (Taiwan-Hinoki) the kashi (Quercus) are mostly under three feet in diameter. Some, however, measure 8 feet and over.

(To be continued)

## The Man Who Never Stops

Although a successful business man, H. Bruning, of Van de Kamps Baking company, of Los Angeles, is a daily student of chemistry in the technical school of the Y. M. C. A.

Six years ago he was a stranger—today his firm is well known in Los Angeles. Then he baked cookies in a tiny alley bakery and his wife sold them—now he is vice president of the company.

"In May, 1916, in a back alley on Main street near Second, I found a small Dutch oven and a working space about 15 by 20 feet and started in to make Holland cookies. I made good cookies, nothing but good cookies and my wife sold them. In September of that year my associates and I opened our first unit on Spring street. Within two years we had 15,000 square feet of space devoted entirely to our products."

"I am puzzled to know," said the listener, "why you should want to study chemistry with the Y. M. C. A. with such a record of recent business success."

"I am sorry every day that I did not begin my studies earlier. I know the baking business from A to Z but in all these years I have never known how to analyze the ingredients."

"Is that really necessary?" "It is when there is competition and the margin of profit is small. For instance, I can buy a carload of a certain kind of flour for \$200 less than a certain other brand. I know exactly what the chemical analysis of each flour and its baking reaction, I know whether or not the saving can be made without reducing the quality of our products."

"I get up every morning at 5:00 o'clock and study until breakfast. It is a real joy to find the principles upon which the practice of many years was based. Last year one of our bakers took a Y. M. C. A. course. His specialty at that time was frying doughnuts. Today he is working for a San Francisco baking concern at \$275 a month. Anyone should be able to make a success in this day of opportunity."

A number of Kauai young men who have their eye on the future are taking advantage of the spare time study courses given by the United Y. M. C. A. correspondence schools. The list includes such well known men as Frank Cox, William Wright, C. J. Brenham, C. W. Scribner, C. L. Lane, M. Ogata, N. Miyake, H. Y. Kum. These, with others, are experiencing the real joy Mr. Bruning found in enlarging their circle of knowledge and usefulness. Information regarding any desired subject will be gladly furnished by the County Y. M. C. A. office.

### BROTHERS AND SISTERS CLUB TO PRESENT ROARING COMEDY

The Brothers and Sisters Club of Kapaa is to present, "Wanted a Maid," a four-act comedy of modern times at the Kapaa theater on Saturday evening, August 12.

The play is a continual laugh from the very start. A dance will follow the show with music furnished by Teves jazz band.

Don't fail to see it! Come one, come all! Tickets on sale at the Tip Top Cafe. Will also be sold at the door. Admission will be \$1; children 25 cents.—Adv.

### MRS. ELLEN BICKNELL, DAUGHTER OF PIONEER MISSIONARIES, DIES

Mrs. Ellen Mariner Bicknell, a first generation descendent of pioneer missionaries to Hawaii, died at 3 o'clock last Thursday morning at her home on Panahou street, Honolulu, after an illness of a week, says the Star-Bulletin. She would have been 81 years old next month.

Mrs. Bicknell was the daughter of Rev. and Mrs. Elias Bond, who arrived in Hawaii with the fifth party of missionaries in May, 1841. Other members of that party, brought to Hawaii by the Gloucester, were Rev. and Mrs. J. D. Dole, Rev. and Mrs. J. D. Paris and Mr. and Mrs. W. H. Rice. Mrs. Bicknell was born at Kohala, Hawaii, Sept. 29, 1841, a few months after the arrival of her parents.

The coral house in which she was born is still standing on the old home site in Kohala and is occupied by members of her family. Mrs. Bicknell was the eldest of nine children, the surviving brothers and sisters being William L. Bond, of Michigan, and Dr. R. D. Bond, Miss Caroline S. Bond and Miss Julia Bond, all of Kohala.

Mrs. Bicknell was the mother of nine children, those surviving her being James Bicknell, city and county auditor of Honolulu; Mrs. J. F. O'Brien of Honolulu, William B. Bicknell of Boston, Dr. Henry Bicknell, now visiting on the mainland; Joseph D. Bicknell of Muskegon, Mich., and Mrs. Annie Storey and Robert D. Bicknell of Honolulu, the latter in the city and county auditor's office. There are also seven grandchildren. Mrs. Bicknell had made her home in Honolulu for about 35 years.

### LATEST PINE FIGURES

The Association of Hawaiian Pine-apple canners predict a decrease of approximately 210,000 cases under last year, according to the Valley Island Chronicle. The estimate for the current pack is 5,262,000 cases, against an actual pack in 1921 of 5,242,000 cases. The industry's biggest year was 1920 when 5,986,982 cases were turned out.

The prices this year are more attractive than before, and almost the entire 1922 crop is already sold. Holdover stocks of jobbers are moving well and the unusual demand for the product is no doubt a direct result of the national advertising campaign recently conducted.

### THE PROBLEM OF THE LONG AND SHORT SKIRT SOLVED

Be it true that Paris is wearing the long skirt, but that is only a matter of taste of the designer in carrying out Dame Fashion.

Remember that long skirts are not becoming to all women. There is a certain length that is particularly adaptable to each individual, and it's this length we are always looking for.

A few words about the skirt: If women realized just what an extremely short skirt does to the figure surely fewer women would have adopted this style for which we have been so severely criticized.

Now girls, do watch for becomingness. When you approach your dressmaker, consult her and ask her and ask yourself: "Is this length becoming to me?"

MADAME RENTE.

## You'll Want More Maile Butter Because

Maile butter comes from the heart of New Zealand's famous dairy country and its rich color, pleasing taste and moderate price are points you don't want to overlook. Give plenty of butter to the children. It helps them grow and keeps them healthy. Eat plenty of it yourself for it contains a great deal of food value. Order Maile butter from your grocer.

## Your Widow's Best Friend

In planning the final disposition of your estate do not overlook the position in which your widow will be placed. Lacking your experience, it would be an injustice to expect her to shoulder the burdens of executor and trusteeship in the hour of her bereavement.

Give her the guidance and assistance of an experienced Trust Company such as this. As your Executor and Trustee we will manage your estate efficiently and economically and relieve your widow of the intricate detail of trust accounting.

## Makees Nose Out Lihue In Last Half of Ninth, After a Great Battle

TEVES REPLACES CUMMINGS WHEN JONAH GETS WILD

Playing on their home grounds, Makee took Lihue into camp by the score of 7 to 6 in a close battle, not very well played, but certainly exciting in more ways than one.

Lihue, with Charles Fern at the helm and with the veteran members of the team back in the fold, were forced to play an uphill game after the first and nearly succeeded in throwing the champs for a fall, but just fell short of the necessary run.

The game was stopped for about 15 minutes in the last half of the ninth to argue a decision on Rodriguez by base umpire, Wong at third. Rodriguez had reached first and Morita sacrificed. Furtado fumbled the grounder and Morita was safe. Rodriguez raced for third and Lydgate's throw apparently beat him. Wong called the runner safe, but Lihue objected strenuously, citing section 3 of Rule 56 to prove their contention that Umpire Wong should have left the decision to Prioste, who was the umpire-in-chief.

Prioste and Wong, however, had agreed before the start of the game that the base umpire should make all decisions on second and first and until the runner arrived at third. Prioste therefore made no attempt to give a decision when Rodriguez slid into third, leaving it up to Wong who called the play safe. When asked by Lihue's manager what he thought of the decision, Prioste said that he would have called the runner out, but of course could not, under the rules, reverse the decision of his associate, unless it was contrary to the rules. It was this opinion of Prioste that caused the argument, but as nothing could be gained by delaying the game, the decision had to stand. Reversing, criticizing or interfering with any decision of an associate, unless based strictly on a point of rules, is absolutely forbidden by the playing code, and Prioste was right in standing by his decision to abide by the decision of his associate, unless the latter asked him to give his opinion, which opinion was not asked for.

Lihue started out with Furtado and Makee with Cummings. The latter was continually in hot water and his wildness was responsible for nearly all of the runs scored off him. Four of his six passes resulted in runs. Okuda scored one of Lihue's runs after getting on thru a wild heave by Yoshida, and Fugi was the only Lihue player who scored for Lihue after getting a hit. Teves relieved Cummings in the seventh and held Lihue to a row of zeroes for the remainder of the game. Furtado for Lihue got better as the game progressed, all of the eight hits he allowed coming in the first five innings.

Lihue was the first to dent the rubber his first run coming in the second. Roke walked, stole second, and advanced to third on a wild peg to second by Cummings, from where he scored on Okuda's double to right. Okuda was out at third, however on a relay from Morita. Hajime died Yoshida to Rodriguez and Masaru fanned.

Not to be outdone, Makee came right back in the same inning and tallied three. Soong and Doi were put away by Roke and Perreira but Burgess booted Rodriguez' easy grounder. Rodriguez stole second and then advanced, scoring on Morita's single to right center. Cummings, who seemed to have his batting eye focused correctly on the ball lately cracked Furtado's first pitch to him for a terrific liner to left center, enabling him to score the only home run of his baseball career, Morita coming in ahead of him.

Two more for the Makees in the third, and a blank for Lihue, making it five to one. Yoshida singled and advanced to second on a balk. Furtado, after balking put on additional steam and fanned King and Tsunehiro. Makee's two heaviest batters, but it seemed that he expended too much energy in the effort, as Soong connected with a hot drive just inside the left field foul line, the ball rolling under the line of machines for a home run. Doi

Makee 7—Lihue 6.	
McBryde 6—Koloa 0.	

followed with a single, but was out stealing.

There was nothing doing in the fourth but Lihue crept up closer in the fifth by scoring three times. Masaru walked and stole second, reaching third on a passed ball. Furtado also walked, both runners scoring on Fugi's single to center, on which Doi made an unsuccessful attempt to make a shoestring catch, the ball going thru him, allowing Fugi to reach third. Burgess walked and stole second. Perreira died pitcher to first, but Fugi scored on Lydgate's roller to Yoshida, and Roke fled to short.

Makee added another in their half of this inning. Fugitani fanned and Yoshida died Furtado to Lydgate, but Tsunehiro cracked a single thru third and advanced on a passed ball, scoring when King cracked out a long double to left field. Lihue knotted up the count in the sixth. Yoshida heaved Okuda's grounder over Rodriguez, the runner going to second and then stealing third. Hajime walked and Masaru was safe on Yoshida's wide throw to first, which pulled Rodriguez off the bag filling the bases with none down. Furtado hit a clean bingle to right but Masaru was forced at second, Morita to Tsunehiro, thus robbing Furtado of a hit. Okuda scored on the play, Hajime going to third. Fugi grounded to short forcing Furtado, but the runners did not advance. Burgess singled after Fugi had stolen second, Hajime scoring the last run for Lihue, as Perreira died, Cummings to Rodriguez.

For the next two innings, nothing happened that could be termed interesting, and Lihue also could not come within scoring distance in the ninth. In the last half of the ninth however, Furtado wavered and passed to Rodriguez, first batter up. Morita laid down a perfect bunt along the first base line and Furtado fumbled the ball, Rodriguez going to third on the play which caused all the argument. When play was resumed, Teves bunted out, Burgess to Lydgate, but Furtado heaved a low one to Fugitani, the ball hitting the plate and bouncing over Perreira's head, the wild wild pitch scoring Rodriguez from third with the winning run.

The following is the box score:

#### LIHUE

#### SUMMARY

Earned runs: Makee 4, Lihue 4.

Left on bases: Lihue 6; Makee 4.

Runs batted in: by Okuda, Fugi 2, Furtado, Burgess, Lydgate, Cummings 2, Soong 2, Morita, King, Home runs: Cummings and Soong. 2-base hits: King, Okuda. Sacrifice hits: Morita.

Stolen bases: Fugi 2, Burgess 2, Roke 1, Okuda 1, Hajime 1, Masaru 1, Tsunehiro 1, Doi 1, Rodriguez 3, Morita 1. Double plays: Soong to Yoshida. Bases on balls: off Cummings 6, Teves 1; off Furtado 2.

Struck out: by Cummings 2, Teves 3; by Furtado 7. Wild pitches: Furtado. Passed balls: Soong 2. Time of game: 2:15. Umpire: Prioste and Wong. Scorer: Teraoka.

## Tilly Blanks Koloa, Lets Them Down With Three Bingles

CELLAR CHAMPS ARE HELPLESS BEFORE VETERANS' SPEED

McBryde took the tailenders into camp at Ekele, Tilly heaving great ball for the Scots. For six innings he pitched no-hit baseball and although he was touched up for a hit in the seventh and two in the ninth he turned the Koloa team back from the plate and held them scoreless.

Miller pitched creditable ball for Koloa, but with Tilly twirling such an airtight brand he had little chance to win.

The Scots went right after Miller in the first, gathering one run off him when with one away Ishimura singled and went to second while Spalding was going out Miller to Jardine and scored on Tilly's single to left.

They grabbed another in the second. N. Ohama was safe on Jardine's error. He stole second and went to third on Moura's single and scored when Sally Watase squeezed him home.

Three in the fourth was their total. Ohama and Moura both singled and scored on Watase's homer. They collected their last run in the sixth. Ohama was safe on Bush's boot, Moura singled thru the pitcher's box, and Ohama was out trying to go to third on the play. Moura going to second. He scored when Bush booted Watase's grounder.

Koloa threatened in the ninth Miller beat out an infield hit to short. Kondo singled over third and Miller went to second. Hajime forced Kondo at second, Miller going to third. Bush fanned and Caesar ended the agony by going out Ishimura to Perreira.

The following will show the results of the game:

McBRYDE						
Po.	ab	r	h	po	a	e
T. Ohama	c	4	0	0	7	3
Ishimura	ss	4	1	1	2	2
Spalding	2b	4	0	0	3	2
Tilly	p	4	0	2	2	3
A. Perreira	1b	4	0	0	9	0

Koloa	0	0	0	0	0	0	0	0	—0
Base hits	0	0	0	0	0	1	0	2	—3

#### SUMMARY

Left on bases: McBryde 2, Koloa 4.

2-base hit: Bush. 3-base hit: N. Ohama. Home run, Watase. Sacrifice hits: Kondo, Watase. Stolen bases: N. Ohama. Double play: Spalding to Perreira. Struck out: by Tilly 9, by Miller 5. Base on balls, off Tilly 1. Hit by pitcher: Bush. Umpires: Ward and Carvalho. Scorer Akana.

#### GAMES NEXT SUNDAY

Makee travels to Koloa next Sunday and according to the Makee fans, one more win can be added to the Makee total. Koloa may have a different idea of the matter, but according to all the dope Makee should win. However the only ones who would mourn if Koloa should slip one over are the Makee fans.

Makaweli will take on Lihue on the Lihue diamond and it is hard to figure who will capture this one. Makaweli handed Lihue a drubbing at their last meeting as they had one of their good days. The following Sunday they looked like a lot of sandlottery against Makee. It all depends—so next Sunday's game depends on whether they are having a good day or a bad day.

Lihue has been nosed out in their last two games and are now out for blood. A couple of surprises are

## TENNIS

McBRYDE AND KILAEUA TO MEET AT TENNIS NEXT SUNDAY MORNING

The McBryde Tennis Club is holding an invitation tennis tourney next Sunday morning having as their guests Kilanea Tennis Club.

The tournament will consist of four sets men's doubles, each club being represented by four teams of doubles.

After the tourney, lunch will be served at the McBryde beach house which will be followed by a swim.

REPAIR WORK ON LIHUE COURTS NEARS COMPLETION

The repair work on the Lihue tennis courts is rapidly nearing completion, the workmen are now repairing the surfacing of the courts. Work on the backstops is completed. The tournament will be a handicap, the handicap committee is now busily engaged in arranging the different handicaps.

Tuxedo Balthis is holding out for a tennis handicap equal to his golf handicap.

## GOLF

HANDICAPS RELEASED FOR WAILUA GOLF CLUB'S FIRST TOURNAMENT

The handicap committee of the Wailua Golf Club has decided the handicaps for the tournament next Sunday morning. Dan Arcia, who holds the course record, will play low man with a handicap of nine strokes.

The tournament will start at 9 o'clock and the drawings for opponents will take place at the first tee. The entry fee will be 25 cents and the golf balls will be given to the winner as a prize.

Owing to the fact that there is an invitation tournament at the McBryde tennis courts, there will be another handicap tournament the following Sunday to allow the members from the west side to take part. The same rules will govern this tournament as well. The handicaps are as follows:

Arcia 9.	Spalding 12.
Corstorphine 17	Miller 17.
Fern 23.	Rice 24.
Hagood 20	Hopper 17.
Englehard 27	Longstreth 20.
Hogg 27	Takata 27.
Crawford 27.	Stoggett 27.
Lane 25.	Balthis 25.
Kuhlman 20.	Kahlbaum 23.
Brenham 27.	Todd 27.
Caleb Burns 27	W. F. Horner 25.
Morgan 27.	

#### LIHUE—MAKEE NOTES

The best bit of fielding in the game was done by Jimmy Burgess in the ninth when he out-

figured the Makee players and dashed in and picked up Teves' hunt and threw him out without allowing Rodriguez to score.

Both of the home runs that were scored by the Makees would have been no more than doubles in the Lihue park as they both rolled under the cars. Jonah's was hit to left center while Soong's was down the left field foul line.

Lihue's side of the argument in the ninth was that according to the rules Wong could not call the play at third. The rule very plainly covers this case and it is hard to see how an umpire can make an agreement to get around it. If Prioste had given the decision he would not have been reversing Wong for the simple reason that Wong had no grounds to call the play.

If the umpires are going to make any changes in the rules it is very plain that they must consult with the managers before doing so. No such consultation was held, therefore any agreement that they did make would have no standing. The rules plainly state that with a man on first base and a fair hit ball that the umpire in chief shall give the decision at third base in case a play comes up.

said to be in store in changes in the Lihue lineup. Lihue has shown flashes of good baseball in their last two starts and if they can once get going they will be hard to stop.

The Oliver Disc Plover

## And Now—Profit in Farming Without the Drudgery

FORDSON power makes more productive seed beds and the tractor does its work so rapidly that farm drudgery is passing. Expenses are reduced. Better crops are grown.

For the job of plowing tough or sticky soils, Fordson farmers use the OLIVER DISC PLOW and do the work easily and well. The thoroughness of its work has made this plow standard equipment with the Fordson.

Penetration in the toughest soils is assured by the design of the plow which throws its weight to the cutting edge of the discs where they enter the ground. This penetration is easily varied for different soils. By simply turning a crank screw, the penetrating power is increased or decreased.

Improved scrapers give a mouldboard effect. They leave a well pulverized seed bed and cover all trash.

To farm the new way means to make an investment that it is within easy reach of every farmer. Come in and see the Fordson and the OLIVER SPECIAL DISC GANG for the Fordson, and you, too, will decide to be a Fordson farmer.

## COUNTY WORK AND ALIEN LABOR

Reports are being circulated that the reason one contractor on Kauai has been able to secure most of the contracts that have been let by the supervisors recently, is that he has been employing alien laborers and paying them considerably less, than the standard wage that is demanded by citizen artisans and laborers.

If this condition is true, it should be corrected at once, for it certainly is not fair to contractors who use citizen labor, and who pay standard wages, or to our citizen labor and at the same time is not in keeping with the law.

## NATIONAL ESSAY CONTEST

The American Legion national essay contest will close at midnight of October 6th, 1922, and not on September 22, the original date.

This contest is open to all boys and girls between the ages of 12 and 18 inclusive and consists of an essay on the subject: "How The American Legion Can Best Benefit the Nation."

The prizes of the contest are:

First—\$750.

Second—\$500.

Third—\$250.

These prizes will be used only towards scholarships in colleges designated by the winners.

## RULES

All girls and boys between the ages of 12 and 18 inclusive are eligible to enter this contest.

Only one essay to a person.

Essays will not be over 500 words in length.

Essays should be written in an affirmative and constructive way.

Only one side of the paper to be used. A margin of one inch must be allowed on either side of the paper.

After essay is completed, paper should be neatly folded, not rolled.

Spelling, penmanship and neatness will be considered in judging the winner.

Age will also be given full consideration.

Manuscripts should be sent to Vaughan MacCaughy, Department of Public Instruction, Honolulu, Hawaii.

## LIFE'S SPAN

The report of the census bureau reveals some interesting facts concerning the life of man. It shows us that the average has been increased and that it will undoubtedly continue to increase as people live closer to hygienic rules. It reveals the fact that men and women are living to an older average, but that the span of life has not increased.

This conclusion may be surprising to many, but it is based upon the statistics gathered from the last three censuses. The most of us have taken it for granted that the span of life was lengthening and that the man of the future would have a longer lease of life than those of the past, and while that may be the result of modern sanitary living it has not made a perceptible difference in the age allotted to man. Individuals are living longer. That is; more men and women are nearing the age limit; but the limit has remained stationary. It shows that the race is improving physically and that while more will approach the limit and that many, as heretofore, will exceed it by many years, that the design of the Creator was not or is not that mankind shall live to a greater age, such as the scriptures tell us was lived by some great progenitors of the children of Israel. The grand terminus stands where it has stood for many thousand years, at "three score years and ten."

If the life of man is to be extended and a greater age limit fixed it will be necessary to reduce human existence to the scientific principle of "the survival of the fittest," for if by increasing the average of life the world becomes more crowded there will be a necessity of reducing the population to save the lives of the races; for if the world should be populated beyond its ability to feed, reduction will be an absolute necessity.

The time is coming when the question of population will be a serious one; when only the most perfect will be permitted to live, and this, hard and cruel as it may seem, in the interest of the whole. There will be no escaping of this problem. Wars and pestilence may check the increase, but based upon the statistics of the world's increase the time is not so very far distant when it will become necessary to scientifically cull or perish together.

## WHY IS HAWAII LEFT OUT?

Huge sums of money have been appropriated by the government for use in the promotion of extension and vocational education. Another bill is before Congress—the Towner-Sterling bill—which proposes other appropriations for Americanization, for removal of illiteracy and other educational needs.

Hawaii is not included in these appropriations in spite of the fact that this territory pays more in taxes, from which these appropriations are drawn, than several of the states.

Whether this was an intentional oversight or not is not known, but the fact remains that Hawaii will not benefit by these appropriations unless the local members of the National Education Association, now in session in Boston, can wield enough influence to have the bill changed.

The Hawaii delegates, of which Miss Elsie Wilcox is the Kauai member, is working hard on this matter and have presented the following resolution to the convention:

Whereas, the Territory of Hawaii is and for nearly twenty-five years has been an integral political, economic and industrial part of the United States of America, and

Whereas, the people of Hawaii for many years have been grappling with problems of education which are unique owing to the distance of Hawaii from continental United States, and to its relatively large proportion of residents of origins not distinctly American and to its peculiarities of industrial organization due to reasons of climate, soil and local history, and

Whereas, Hawaii contributes to the general revenues of the United States, greater sums of taxation money, both absolutely and relatively in proportion to the respective populations than several of the states; and

Whereas, the Smith-Lever law and the Smith-Hughes law appropriates from these same revenues large sums of money to promote extension education and vocational education in the various states, the need for which forms of education are greater in Hawaii than in other parts of the United States; and

Whereas, the Towner-Sterling bill proposes from these same revenues further large general appropriations for Americanization, for removal of illiteracy, and for other educational needs that exist in Hawaii to an extent equalled in no other part of the United States; and

Whereas, Hawaii is deliberately excluded from the benefits accorded the various states under the Smith-Lever act, the Smith-Hughes law and the Towner-Sterling bill; and this exclusion is an unfair discrimination, an injustice and unnecessary hardship to which the people of Hawaii ought not to be subjected;

Be it resolved, that the National Education Association hereby instruct its Legislative Commission to urge appropriate legislation by Congress to include the Territory of Hawaii in all federal appropriations in aid of education on the same basis as the states.

If you mean to make a success in this life keep your eye constantly on the course. Turn neither to the right nor the left; but keep in the middle of the road, rugged as it may be, and press onward and upward to the height of your ambition.

Some men seem to think that a friend is always the fellow who cusses the same men they do.

Our advice to the woman who wants a new silk dress is to start hollering for a piano, or an automobile.

Another reason it is hard to get the average man to church is that he doesn't care what the other men are wearing.

## Where Leads the Pathway to Success

THE Pathway to financial success leads thru the doorway of investment. You will be surprised to find how willingly money goes to work if you give it the right kind of job. It is the business of the stocks and bonds department of the Trent Trust company to find jobs for idle money. Small investments receive exactly the same consideration from this office as those involving larger amounts.

**TIP TOP-ICS**

**"BACK PAY" AT TIP TOP**  
 "Back Pay" Cosmopolitan's latest feature for Paramount distribution, to be shown at the Tip Top Theater tomorrow night, is a heart interest drama with a punch. Fannie Hurst gripping story made a very good play but transferred to the screen it makes even a better motion picture. The limitations of the stage prevented the smother version from scoring with all its abundant highlights. On the silver sheet its vital ingredients are splendidly emphasized. It is the story of a country girl who confessed that she had a "crepe de chine soul" and who refused marriage with her boyhood lover because it meant all the ugly, drab things that culminate when wedlock and poverty go hand in hand. And when she finally acquires the lovely, luxurious things of life, she takes them, clear-eyed, realizing fully what she is doing.

These touches were well established by Fannie Hurst, and Frank Borzage, who directed her "Humoresque," has brought them forth in brilliant manner. The picture is worthy of commendation because of this delicate treatment, though there are many other excellent things about it. It is a restful moment to discover a heroine of the screen who adopts the life of "lily of the field" without being tricked or deceived. The heroine, Hester Devins, is a regular girl and real flesh and blood—one that will be recognized as possessing the virtues and virtues of a human being and not a hand-painted Dresden China doll. The characters are not many and Frances Marion, who wrote the continuity, has established them clearly. There are no farious plottings and counter-plottings for the sake of adding the w. k. picture touch. Miss Marion and Mr. Borzage have seen to it that there is no excess of footage.

Seena Owen makes Hester a lovable figure—one at times pathetic and tragic. Consequently she always plays on the heart strings. And the way in which the girl finally wins redemption and, in her little hall bedroom, faces the spirit of her dead lover with a smile, unafraid because her conscience is easy—such a touch makes a character vital and vivid. J. Barney Sherry as the broker deserves honorable mention. The figure as drawn is also human. Matt Moore is an excellent selection as the awkward country youth. A suggestion creeps in now and then of heavy sentimentality, but Borzage comes forth at the opportune time and save the human note.

**"THE HOLE IN THE WALL"**

A vivid story of the weir world which revolves around a clairvoyant's profession—that eerie world which has been exposed as a means of reaching prosperity thru using the gullibility of those in search of spiritual communion—that is, "The Hole in the Wall," which comes to the Tip Top theater next Sunday with Alice Lake as the star. This is a story by Fred Jackson the well known author and playwright and it gives the star ample opportunity to flash her talent and personality.

It happens that Jean Oliver is revengeful toward a wealthy dowager and when circumstances permit her to square the account she takes up the profession of a clairvoyant. A newspaper man gifted in running down crime is determined to expose the spiritualists imposing on the gullible people endeavoring to get into communication with departed friends and relatives. The girl, Jean, is caught in the trap, but she shows real psychic powers and in the end realizes that her scheme of revenge is entirely wrong. The story is dramatically told and acted with power and persuasion. June Mathis, who adapted the "Four Horsemen" is responsible for the adaptation.

**"TRAVELIN' ON" AT TIP TOP**

Bill Hart bobs up here in a story of his own composition. Appearing in the role of his famous good-bad man, he has given his following a picture which, while of obvious design is still novel enough in certain ideas to pass as something quite different. He is still the well known western "stranger," with a desperate past hinted at—but we don't recall having seen him before when he was sentimentally interested in the other man's wife and scheming all sorts of more or less vicious plans to entrap her. "Travelin' On" which will be shown at the Tip Top theater next Saturday night, may be recorded as a typical Hart production, which acted by another masquerading in chaps and toting a gun or two, would pass as something quite ordinary. There is nothing unusual in

plot or action. However, the Hart fans are sure to enjoy it. The backgrounds are effective and the titles release some rather good comedy. Bill is excellent in the role of the stranger who confesses that he takes what he wants. He arrives in town and covets the patient long-suffering wife of the local parson, a reformed crook. He rescues her from the dance hall proprietor and when her parson-husband holds up the stage coach to get money to finish building his church, is caught and about to be hanged—well, you don't have to guess that the stranger shoulders the guilt and travels on. The storm scene is a splendidly done, although unnecessarily prolonged. Ethel Grey Terry does good work as the parson's wife.

**BIG POWER for SMALL CARS**

"Red Crown" enables your car to develop the maximum of power and per-gallon mileage that its makers designed it to give.

It vaporizes rapidly and uniformly in the carburetor—that means quick starting. It is consumed completely in the cylinders—that means a steady stream of power and more mileage at less cost.

Run your car with "Red Crown" and nothing else, and you won't have to bother with carburetor adjustments.

Fill at the Red Crown sign—at Service Stations, at garages, and at other dealers.

## The University Extension Letter

### HORN FLY REPELLENT

A Mississippi dairyman urges the use of the following home-made mixture for driving horn flies from cattle:

- 1 pound common laundry soap;
- 4 gallons warm water;
- 1 gallon crude petroleum;
- 7 ounces powdered naphthalin.

Cut the soap into shavings and thoroughly dissolve it in warm water. Then put the naphthalin powder into the petroleum and stir until dissolved and pour this into the soapy water. This must be violently churned for several minutes to thoroughly mix the ingredients. Apply the solution with a brush over portions of the cow's body attacked by the flies.

A number of commercial preparations are on the market here, such as Sherwin-Williams "Fly Spray," and others.

### HAWAIIAN CLAYS

The so-called clays of Hawaii and other tropical soils which are derived largely from the disintegration of basaltic lavas are generally not composed of aluminum silicate and are not true clays, though they may and do contain particles of true clay size. The Hawaiian clays, according to Kelley (Hawaiian Experiment Station Bulletin No. 40) are composed mainly of iron and aluminum and the silica content is low. For this reason Hawaiian clays do not react the same as do normal and true clays. This accounts in part at least for the unusual behavior and the great problem that our "adobe" soils present.—L. A. Henke.

### DRINK MORE MILK

Fresh, pure milk is one of the most nutritious and easily digestible foods known. It is absolutely essential for the best development of growing children. Milk is nature's own provision for the nourishment of the young.

Dr. McCollum of John Hopkins University, who has done remarkable work in the science of correct food for growth, strength and health, says that milk is one of the richest vitamin foods known, almost a complete food in itself, although it would not suffice for adults because of the large amount of liquid it contains. He maintains that under-nourishment, bad teeth and weak eyes are largely due to deficient diets. He does not believe in commercial preparations advertised as supplying vitamins in condensed form. He would modify our national diet by including two salads, either vegetable or fruit, and a quart of milk or its equivalent in a dairy product, every day. This, he maintains, will provide all the vitamins you need, and you can eat anything else you like. He further says that the diet just suggested would remove 75 per cent of the teeth troubles and signs of under-development everywhere evident, in the course of two generations.

What are the facts regarding milk consumption? In the United States the average for 1921 was 0.8 pints per day. In Hawaii on the basis of the 1920 census figures, the average consumption of fresh milk for the year 1919 was 0.15 per person per day. To this should be added 0.11 pint (the fresh milk equivalent) consumed in the form of condensed milk, making our average total consumption 0.26 pint per person per day. This is about one-third of the average in the mainland and only about one-eighth of the amount Dr. McCollum suggests.

Milk consumption by the Oriental part of Hawaii's population is undoubtedly low, and this greatly lowers the average. The Oriental diet however, is rich in leafy vegetables which somewhat compensates for the lack of milk.

A glass of milk is palatable. Too expensive, some will say. Yes, rather, but as cheap as present conditions in Hawaii will permit. And, after all, when we compare the nutriment we buy in a pint of milk for ten cents and the nutrients contained in a bottle of soda water or ginger ale costing about the same or more, milk seems very cheap.—L. A. Henke.

### EXTENSION SERVICE BY RADIO

On Monday evening, July 24, the university began a new form of extension service, broadcasting educational talks throughout the territory by radio. This service was offered by the university to both of Honolulu's radio broadcasting stations. The Star-Bulletin is now including in their regular programs one educational talk each week, given on Monday evenings at 7 o'clock by the University of Hawaii through its extension service. The first talk was by the extension service director, Prof. D. L. Crawford, explaining the aims and purposes of the university in establishing its extension service department. The

second radio talk was by Prof. Romanzo Adams on the subject of life insurance. On the next Monday evening, Dr. K. C. Leebriek will give an instructive talk probably on some phase of the local political situation.

### DAIRY FEEDS IN HAWAII

Replying to a statement in Extension Letter No. 16, that "the expense of running a dairy is greater in Hawaii than on the mainland, because so much of the feed has to be imported," J. B. O'Brien of Maui has given us the following facts which we are glad to publish for their value to the local dairy industry.

The Haleakala (Maui) demonstration farm has shown during the past year that several valuable feed crops can be grown on the higher elevations—2000 feet and higher—cheaper than the corresponding feeds can be imported. Mr. O'Brien states that he has produced on the demonstration farm:

"Emmer, which in feeding value is equal to the very best wheat from 2000 to 4000 pounds of grain per acre, according to fertilization and care.

"Rozen rye, 2000 pounds of grain per acre, as compared with 1000 pounds of common rye.

"Barley and wheat equal to any that can be raised in California.

"Purple vetch for green feed, yielding 20 tons per acre in two cuttings, the first cutting about 100 days after planting. The second cutting can be made into hay and will provide the finest fodder all summer, as will also Emmer straw, which is very fattening.

"Field peas, yielding four tons per acre."

### BOYS' AND GIRLS' CLUB IN HAWAII

We are very glad to note that the Hawaii experiment station is to foster the boys' and girls' club work in these islands. J. M. Lydgate, director, has secured Olen C. Markwell to devote his entire time to this project. Mr. Markwell graduated from the University of Illinois in 1920, having specialized in animal husbandry and agronomy. He spent last year at Kauai high school teaching agriculture and now is engaged in laying plans for this new work. He will organize pig clubs, calf clubs and poultry clubs among the boys and girls of the rural schools throughout the territory and with the help of Mrs. Russell of the U. S. station staff, will organize girls' cooking clubs. This project is one of very great importance and Mr. Markwell's work should result in great good for the territory.

**DO YOU GROW VEGETABLES?**  
We have a very carefully prepared

ed pamphlet on vegetable growing in Hawaii. Prof. Krauss recently prepared this, giving a full list of the kinds and varieties of vegetables that are suitable for growing here and careful directions as to planting and caring for them. This is based on his many years of experience on Maui and Oahu and extensive observations throughout the territory. Detailed information on the preparation of a garden is also given in this pamphlet. This was one of the lessons in our correspondence in Elementary Principles of Agriculture. If you did not take the course, you ought to have this information from Prof. Krauss. It is a type-written pamphlet of 30 pages which we will be glad to send you for 25 cents (the bare cost of preparing it). Send stamps or coin, addressing Extension Department, University of Hawaii.

### TENDER FOR LABOR

The Board of Supervisors of the County of Kauai will receive bids up to 10 o'clock of August 19th, for furnishing all tools and labor necessary for the construction and full completion of a teachers' standard cottage on the Kauai High School grounds.

Prospective bidders may obtain plans and specifications upon application to the undersigned.

Each bid to be accompanied by certified check for 5 per cent of amount bid.

The Board of Supervisors reserves the right to reject any or all bids or waive all defects.

(S.) R. F. MIDDLETON.  
(Aug. 8-15)

### TENDER FOR MATERIAL

The Board of Supervisors of the County of Kauai will receive bids up to 10 o'clock of August 19th, for furnishing all material necessary for the construction of a teachers' cottage on the Kauai High School grounds.

A full list of material in bid form may be obtained from the undersigned.

The Board of Supervisors reserves the right to reject any or all bids and to waive all defects.

(S.) R. F. MIDDLETON.  
(Aug. 8-15)

### TENDER FOR TRUCK

The Board of Supervisors of the County of Kauai will receive bids up to 10 o'clock of August 19th, for furnishing the County with a one-ton Ford truck, complete with steel dump body, cab, tire carrier and two spare rims and tires, f. o. b. Lihue.

The Board of Supervisors reserves the right to reject any or all bids and to waive all defects.

(S.) R. F. MIDDLETON.  
(Aug. 8-15)

### TENDER FOR ROAD CONSTRUCTION

The Board of Supervisors of the County of Kauai will receive bids up to 10 o'clock of August 12, 1922, for furnishing all material necessary for the construction of 1.6 miles of Pukapele road, beginning at top of cane field.

Plans and specifications may be obtained from the undersigned.

The Board of Supervisors reserves the right to reject any or all bids and waive all defects.

(S.) R. F. MIDDLETON.

## SOCIAL NOTES

### MISS IMOGENE BENTON HAS SWIMMING PARTY

Miss Imogene Benton entertained about 20 of her young friends at a very delightful swimming party on Tuesday afternoon at their beach house. While the young people were swimming, Mrs. Menefoglio entertained the parents at bridge. Mrs. Larson won the prize for high score. Later in the afternoon punch and cake were served. Everybody went home, voting the afternoon one of the most pleasant of the season.

### MOONLIGHT PARTY UP THE WAILUA RIVER

One of the most pleasant affairs of the past week was the moonlight picnic up the Wailua river last Saturday evening given by Mr. and Mrs. H. T. Barclay of Kealia, in honor of Miss Blanche Wishard and her guest, Miss Florence Gibb. The evening was ideal for such an outing and the barge ride on the river with the delicious luncheon at the picnic grounds was greatly enjoyed by all.

Mr. and Mrs. Philip Rice entertained at a week end party last Saturday and Sunday, having as their guests several of their nephews and nieces as well as a few of their friends. Swimming was the main amusement during the week end.

Mrs. Sam Carter and Mrs. Rufus Hagood Jr. with her three children returned from Kokee last Saturday after spending a week among the mountains.

Dr. and Mrs. Dunn and their children are among the local people who are vacationing at Kokee.

Mrs. J. S. B. Pratt Jr., accompanied by her son J. S. B. Pratt III, departed on the Lurline last Sunday for a two months' stay on the mainland. She was accompanied as far as Honolulu by her husband.

The many friends of Mrs. Ray Allen of Koloa will regret to hear that she is confined to her home with a broken ankle.

### MR. AND MRS. MIDDLETON ENTERTAIN

Mr. and Mrs. Robert Middleton entertained a few friends at dinner last Monday evening, the occasion being the first anniversary of their marriage. Those who enjoyed the hospitality of Mr. and Mrs. Middleton were Mr. and Mrs. Sam Carter, Mr. and Mrs. Charles Fern and Dr. and Mrs. T. L. Morgan.

### McBRYDE SOCIAL CLUB HOLDS REGULAR MEETING

The McBryde Social Club held its regular moonlight party at the McBryde beach house last Saturday evening. Dancing and swimming furnished the entertainment for the evening.

Miss Marge Foster of East Orange, New York, Miss LaRue of Canada, and Miss Florence Gibb, of Aiea, Oahu, are the house guests of Miss Blanche Wishard, of Lihue. The young ladies are delighted with the beauties of Kauai.

Mr. and Mrs. S. W. Wilcox and Mr. and Mrs. H. D. Sloggett and Richard Sloggett will leave Kauai next Saturday for Honolulu where they will sail on the Matsonia on August 15th for the mainland for a short vacation. Richard will remain on the coast and attend school.

### AMBITIOUS STUDENTS WANT WORK

Several boys and girls from the outlying communities of the island are anxious to enter Kauai Union High school this fall and are willing to accept any kind of profitable work that will help them to make their way. Some jobs for yard boys, chauffeurs and other kinds of employment have been secured but there are a number still on the anxious list who would be glad to do anything that will help furnish the required wherewithal to continue their education.

Anyone having or knowing work that could be done by one of these young people during the winter, can notify the county Y secretary, Neil Locke, who will make the necessary connections between job, jobber and jobee.

## Princess Completes Work on Kauai

(Continued from Page One) hesitate to come forward to do their share of civic duties.

Another result of this visit of the Princess is a revival of the feeling that there is nothing to be achieved by apathy, that any thing for the good of the race could be accomplished. The Princess has emphasized the fact that the Hawaiian must show themselves worthy of respect before they can demand that respect of others. How like her worthy husband. She has preached unity and love as the motto of her organization, and right nobly have her people responded to her plea. At Waimea, Kapaa, Kilauea, Anahola, Lihue, Koloa, Hanapepe and Kekaha, every Hawaiian woman who could go to the place of meeting turned out to hear the Princess talk.

The thoughtful among the women folk are beginning to realize that in these clubs of women there is a potential power with which to reckon. But they also realize that the Princess is earnest in her endeavors to have the women work for high ideals, and therefore they are hopeful that the women will work for cleaner politics at all times.

The surprise of the season is Kapaa, the Fighting Eighth. Last Tuesday afternoon the Princess was pleasantly impressed with the reception given her. About 70 Hawaiian women were gathered in the Hawaiian Hall to welcome her. These women had, two days previous, appointed a committee to arrange a luau and everything was in readiness when the Princess and her party arrived. A sumptuous luau was served after she had received her people's homage. A large number of men were also present, and so the occasion was more of a reception by the whole Hawaiian community. After the luau however, things took on a different aspect. The Princess gave a short talk, and outlined what she wished done. It was then the women showed the caliber of which they were made. They proceeded with the organization and the election of officers like veterans in the political game.

Mrs. Kellinui was elected president, Mrs. C. L. Kelekoma, vice president, Mrs. I. K. Kauuwal, secretary, Mrs. Lily Cummings, assistant secre-

tary, Mrs. John Hano, treasurer and Mrs. Meahou Koahii, Mrs. N. K. Hoopii and Mrs. Sarah Cummings, executive committee. The unity with these women showed in getting up the luau and all the work connected with it, and the smoothness with which the organization was accomplished were the things which set the old politicians amongst the folk a wondering.

A club was organized at Kilauea with Mrs. Amalu as president; another was organized at Anahola with Mrs. Werner as its president and a bunch of live wires for other officers. Mrs. Henry Blake heads the club at Koloa, while Mrs. W. O. Crowell presides over the Waimea women.

Last Friday afternoon, the Hawaiian women of Lihue gathered at the Lihue Hawaiian church and organized an auxiliary club. Mrs. Emma K. Wilcox was elected president, Mrs. Mileka Kahele, vice president, Mrs. Kalei Montgomery, secretary, Mrs. C. H. Keahi, assistant secretary, Mrs. Wm. Kaiawe, treasurer; and Mrs. E. Lovell Sr., Mrs. Hala-kala I. and Mrs. W. N. Stewart, executive committee. A luau was served after the organization and this was partaken of by the members of the club as well as by many friends who wished it success.

Last Tuesday evening the Princess was serenaded at Kiloana by a number of the Kapaa and Lihue singers. She showed preference to Hawaiian melodies, and so the evening was spent in reviving some of the old airs of long ago. She will be given another serenade this evening before she leaves for Honolulu tomorrow night.

Throughout the whole island there prevails a feeling of appreciation of what the Princess is doing in the effort to hold her people together and to make them work for the best ideals at all times. Her emphasis of the fact that we must have a respect for ourselves before we can expect respect from others has appealed to the Hawaiian and he is out with a stronger determination to attain this end. Some good will come out of this sacrifice being made by the Princess, and it is hoped that these benefits may be lasting. Anyway she is leaving with the heartfelt aloha of her people. They will eagerly look forward to the time when she will again visit Kauai to keep fanning the flames, so that the motto of her clubs, "Aloha and Unity" may burn all the brighter.

Throughout the whole island there prevails a feeling of appreciation of what the Princess is doing in the effort to hold her people together and to make them work for the best ideals at all times. Her emphasis of the fact that we must have a respect for ourselves before we can expect respect from others has appealed to the Hawaiian and he is out with a stronger determination to attain this end. **KAPAA CLUB IS TO PRESENT FARCE COMEDY**

The Sisters and Brothers Club of Kapaa will present a four-act farce comedy next Saturday evening at the Kapaa Theater. The play is said to be one of the funniest that has been presented on Kauai for some time. The situations are very amusing and a capable cast of players has been chosen for the parts.

The title of the farce comedy is "Wanted—A Maid," in four acts. The cast is as follows: Mrs. Goodwill—Georgia Aguiar. Mrs. Arouser—Mary Aguiar. Fanny Arouser, her daughter—Juliet Aguiar.

Jessie Arouser, her sister—Violet Victorino. Mrs. Shark—Adelaide Victorino. Biddy—Hannah Cummings. Bertha—Mary Cummings. Mrs. Muggins, a hotel keeper—Angeline Rodrigues. Mrs. Hardwork—Juliet Rodrigues. A washerwoman—Anthony Aguiar. Act I—A Laundry. Act II—Same as act one. Act III—Mrs. Muggins' Hotel. Act IV—Same as act three.

Stage direction under supervision of Mme. Rente. Tickets can be secured at the Tip Top Cafe in Lihue or from members of the club.

**Supervisors Hold Monthly Session**

(Continued from Page One)

The communication (P.2043) from Mr. Dollinger, principal of Lihue High School, requesting for quarters to be provided for the manual training teacher lately assigned to Kauai High School was received and upon the motion of Mr. Menefoglio, seconded by Mr. Mendes, by unanimous vote, the county engineer was authorized to call for bids for furnishing material and for the construction of a standard teachers' cottage for the Kauai High School, and the chairman was authorized to open said bids when submitted.

The sheriff submitted a report (P.2044) on certain claims made by Dr. E. N. Young, in which he stated that certain items had been paid,

and others not paid, were refused certification by him because of excessive charges. The report was accepted and order filed. Upon the motion of Mr. Menefoglio, seconded by Mr. Silva, and by vote, the clerk was instructed to notify Dr. E. N. Young of the board's action as follows: Items 3, 4, 5, 6, 7, 8, and 9 were paid and warrants cashed by Dr. Young, same being warrants No. 3497 and No. 3545; Item 2, the officer denied being treated by Dr. Young; Item 1, being excessive, the board allowed twenty-five dollars (\$25) on the same when a proper bill was submitted.

A communication (P.2043) from Frank S. Pugh, industrial supervisor, Kauai schools, requesting for the building of a new teachers' double cottage at Kauai High School for the new teacher and himself was received and ordered placed on file. A communication (P.2045) from Mr. Martin Dreier, clerk for the county engineer, for an increase in salary, was received and referred to the county engineer with full power to act.

A request (P.2043) from Mrs. H. Wedemeyer for some minor repairs to be given to cottage at Lihue grammar school was received and upon the motion of Mr. Brandt, seconded by Mr. Menefoglio, the same was granted.

A request (P.2043) from Mr. Santos, principal of Oloheua school for improvement of the school building for extra desks for said school was received and the same was referred to the county engineer with full authority to act in the premises.

A request (P.2043) from Mrs. Cook, Hanalei school for minor repairs to be given to the cottage and the school house at Hanalei was received and was referred to the county engineer with full power to act.

The following school requisitions were received by the board and were referred to the county engineer with full power to act in the premises.

Huleia school, (P.2043) repairs and supplies. Koolau school, (P.2043) repairs and supplies.

Kilauea school (P.2043) supplies. Lihue school (P.2043) supplies.

A communication (P.2043) from Miss Hundley, supervising principal of Kauai schools, to the county

clerk and enclosing list of furniture needed for the schools and cottages for the next six months was received, and upon the motion of Mr. Menefoglio, seconded by Mr. Silva, by unanimous vote, the same was referred to the county engineer.

A request (P.2046) from the trustees of the Lihue church property for asphaltting the top of the macadam road in the Lihue Union and Hawaiian church yard was received, also the opinion of the county attorney on the matter which advised the board to refuse the request, and upon the motion of Mr. Mendes, seconded by Mr. Silva, by unanimous vote, the request was refused.

An application (P.2047) from Mr. Hurley for the position of road overseer on the new road construction work in the district of Waimea was received and placed on file.

The bonds of R. F. Middleton, county engineer, and A. J. Caldeira, road overseer and superintendent of water works at Koloa, were received and upon the motion of Mr. Brandt, seconded by Mr. Menefoglio, by unanimous vote, the bonds were approved and ordered filed with the treasurer.

The following financial reports (P. 230) for July, 1922, were received: Auditors report; treasurer's; treasurer-auditor; and the joint report and were referred to Mr. Brandt for report. The following reports were approved upon the advice of Mr. Brandt: Treasurer's report for March, April, May and June; Auditor's report March, April, May and June; Treasurer-auditor report for March, April, May and June and joint reports for March, April, May and June.

The report of the county engineer for the month of July was received and placed on file.

Upon the motion of Mr. Menefoglio, seconded by Mr. Mendes, by unanimous vote, the chairman was authorized to countersign a demand to reimburse John Hansen for money advanced by him for work at Kilauea school, when the said demand is presented in the proper form.

Upon the motion of Mr. Menefoglio, seconded by Mr. Mendes, by unanimous vote, the chairman was authorized on behalf of the board, to sign the documents between the Territory of Hawaii and the County of

Kauai for work to be done on the Oloheua road when the same are ready for signature.

The bond of John Hansen for the construction of the Kilauea school was cancelled.

Upon the motion of Mr. Menefoglio, seconded by Mr. Mendes, by unanimous vote, the county engineer was authorized to call for bids for a Ford truck for the county, and the chairman was authorized to open said bid was submitted.

Mr. Brandt requested the board for a leave of absence for two months and upon the motion of Mr. Silva, seconded by Mr. Mendes, the request was granted.

Upon the motion of Mr. Menefoglio, seconded by Mr. Mendes, by unanimous vote, the sum of three hundred and thirty-two dollars and seventy cents (\$332.70) to be paid out of the available moneys in the journal fund and the sum of two thousand four hundred and forty dollars and sixty-nine cents (\$2,440.69) to be paid out of the Permanent Improvement Fund in the treasury, were appropriated as additional appropriations to be used for the following purposes:
