### DETECTIVES HUNT THIEF IN MASK

#### Burglar Terrorizing Residents of District in Which He Is Operating

Detectives are looking for a masked man with a black mustache, who has entered and robbed two houses within the past two weeks, has made several unsuccessful attempts to enter others, and has kept the residents on Emma street from Gondola Lane to Fern Place in a state of perturbation and terror for the past month.

Last week this man robbed two houses, was frightened away from a third and has been seen several times prowling around the neighborhood. He is described by those who have caught sight of him as being short, thick-set and with a black mustache. He wears a black mask which shields the upper part of his face and seems to make no attempt to carry off jewelry or other valuables, but confines his attentions to money.

His latest appearance was last Saturday evening. Mr. and Mrs. Fritz Gramberg of Gondola Lane, with their daughter, left the house open and attended the reception given to Pastor Foley at K. of P. hall, Willis Gramberg, the seventeen-year-old son, was left in charge of the house.

Willie fell asleep. During his nap the burglar entered by the front door and commenced operations.

Frightened by Street Car. It is believed that the noise of a street-car stopping in front of the house frightened him away, for he took to his heels after grabbing up a small leather pocket book which lay on the dining-room table and fled up the street, followed by a good part of the neighborhood who had seen the man enter the house.

With Mrs. Canario and Joseph Mackintosh still in pursuit, he fled

### PEARL HARBOR EXTENSION IS MEETING FAVOR

[Special Correspondence, Star-Bulletin.] WASHINGTON, June 27.—Delay in receiving reports from the secretaries of War and Navy prevented the House committee taking action on the delegate's bill granting the Pearl Harbor Tract Company right of way through the reservation until this week. These reports are in the main satisfactory to the company, it is understood, and will result in favorable action by the house committee.

L. Tenney Peck, who came on for the hearings, was the principal spokesman in favor of the measure. The Secretary of War's report approved the bill, but suggested several amendments regarding the operation of the line. The Secretary of War favored the building of the road up to the reservation line but insisted on the extension through the reservation should be constructed and owned by the government.

The delegate's bill provides for a right of way from the present terminus of the Honolulu line to the naval station and an extension along the channel to the location of the government's dock.

### HONOLULANS IN TROUBLE WITH CUSTOMS MEN

#### Importers of Laces from Portugal Charged with Undervaluing the Goods.

#### TIDWELL BACK OF CASE.

#### Persons Implicated Say Mistake Made Through Ignorance of Exporter

Through what is claimed to be misunderstanding instead of attempted fraud, Honolulu importers of laces have been involved in an alleged violation of the customs law and goods valued at close to a thousand dollars held at San Francisco.

Confiscation of the goods and prosecution of the consignees is demanded by the Treasury Agent in the case. F. R. Tranquada and Mrs. J. P. Mellis, of this city, are the parties involved, according to the San Francisco authorities. San Francisco customs people held the goods on the ground that they were undervalued. The recent undervaluation frauds revealed in New York are said to have stirred up the Pacific Coast action, together with Special Agent W. H. Tidwell of the Treasury Department, who has been roving around Hawaii on the lookout for offenders against the customs regulations.

Tranquada explains. "Tranquada this morning made a full and straightforward statement to the Star-Bulletin. In which he says that the undervaluation was made by his brother in Funchal, Portugal, who marked the valuation on the outside of the packages.

"The goods came by mail from Funchal," said Tranquada this morning, "and were held by the San Francisco customs authorities. When the packages were received in San Francisco, I was asked to send my invoice and did so, the invoice being the true

### GIRL DRAGGED FROM DEATH IN SURF BY SOLDIER

Attempted suicide or worse, created a sensation at Waikiki yesterday just before noon, when a young Hawaiian girl was dragged from the water, put into a hack by a soldier, who accompanied her, and taken downtown.

Eyewitnesses to the affair got no inkling as to the identity of the two people, and today it was stated at the hospital and by the police that no report of the trouble had been received.

Attention was attracted to the girl after she had gone into the water, and witnesses say that apparently she had flung herself into the sea while partly under the influence of liquor. The pair are said to have come from the city together.

There were reports that the girl had been thrown into the water, but these could not be confirmed. Several people who aided in getting the girl ashore and into the hack can say only that she was driven down town. The affair happened opposite the stone wall in front of the queen's place.

### HALT SLASH IN SALARIES OF CUSTOMS MEN

[Special Correspondence, Star-Bulletin.] WASHINGTON, D. C., June 27.—Secretary McClellan has recently been assured by the officials of the Treasury Department that no reduction in the salaries of sub-part collectors will be ordered until after full opportunity has been given for the Delegate to be heard on the matter. Information reaching Washington from Hawaii, to the effect that Inspector Tidwell's report would recommend reduction of the salaries at Kahului, Mahukona and Koloa caused the Secretary to make a visit to the Treasury Department, and the above assurances followed.

### WATER STARS OF WORLD MAY COMPETE HERE

#### International Meet Is Being Planned for Honolulu by Enthusiasts

#### AUSTRALIANS EXPECTED.

#### Logical Plan for Contest in View of Showing Made by Kahanamoku

An international swimming meet, second in importance only to that now in progress at Stockholm, is being planned for Honolulu, and within the next few months the fastest water men in the world are likely to be seen in action here.

The tentative plan, which has met with general favor among those who have discussed it, is to have the Australian swimming team new competitors in the Olympic, make a stop-over at Honolulu on the return trip, and swim against Duke Kahanamoku and others in local waters. A still more sweeping plan, that of making a Honolulu swimming carnival an international annual or biennial event, is behind the present project, for it is argued that Hawaii is the logical common meeting point for Australian and American swimmers, and that Honolulu's right to establish such a fixture has been won by the marvelous showing of Duke Kahanamoku.

The swimming project, which may put Honolulu in the forefront on international aquatic sport, grew out of a talk between W. T. Rawlins, the well known local sportsman, and J. N. Phillips, a former New Zealander, who is one of the keenest swimming men in the territory. Phillips, who knows several members of the Australian swimming team, personally suggested the possibility of holding them here for some exhibitions on the return trip, and Rawlins enlarged on the idea, and thought out the possibilities of making it a regular sport classic.

Scheme Extensive. "The scheme isn't fully worked out by any means," said Rawlins this morning, "but I believe that although a big one, it could be swung with the assistance of the community. We don't know for certain that the Australian swimmers are coming back this way, but the supposition is that they will make the circuit of the globe, returning by Canada and the Pacific. Mr. Phillips knows several members of the team, and thinks that they would be glad to race here, and meet Duke in his home waters. If he sees them over there, they have nothing to lose, and a whole lot to gain by swimming him in Hawaii, for should they be successful here, it would be a bigger feather in their caps than if they beat the Hawaiian champion in other waters.

"Of course such a meeting would have to be under A. A. U. sanction, and prizes would have to be cups or medals, not cash purses. I figure that once well established and advertised we could get entries from the Coast and possibly from the East, if Australia would send up a team in future years, and the event came to be recognized as a real championship. On the present Australian team are several ladies."

Henderson Favors Plan. Another swimming expert greatly in favor of the plan is Lew G. Henderson, who piloted Duke and Genoves on their Eastern trip.

"No place in the world has a better right to pull off swimming championships than Honolulu," said Henderson. "The showing that Duke has made in the States and abroad has made Hawaii the most talked of swimming center, and such a meeting would certainly be a fine thing for the sport here. I hope it goes through and I think everyone who can help should do so, for Duke and his performances have been about the best publicity that the territory has had for a long while. This good work could be kept up by scheduling an international meeting here."

The idea is to have the races in the harbor, both by daylight and night, building grandstands on one of the slips and charging a fair price for choice seats, to help defray expenses. The scheme is too big, however, to be swung without concerted action of the entire community.

The Hill interests are preparing to spend \$3,000,000 to build a terminal in Portland, Ore. The terminal will cover eleven city blocks. The Michigan Central will build a terminal at Detroit at a cost of \$1,000,000. Stephen A. Chase, treasurer of the Christian Science Church of America, died at his home at Fall River, Massachusetts, after a few days' illness.

### CELESTIALS FIGHT WITH FILIPINOS

#### Race War Waged on Decks and Knives Flash; Officers Quell Disorder

One man killed as a result of a bloody riot between warring Filipinos and Chinese, a crazed native of the Philippine islands, leaping overboard a suicide, and a Japanese dying from a lingering illness, are incidents which made the voyage of the Pacific Mail liner Korea from Manila, Hongkong and Japan ports to Honolulu one of some moment.

One hundred and eighty Filipinos destined for sugar estates in Hawaii were the prime movers in a riot which raged for hours on the main deck of the Korea as that vessel neared Kobe, Japan. The particular object of hatred of the Filipinos were one hundred and fifty Chinese, who are proceeding to San Francisco.

After much fighting in which the half dozen Filipinos and Chinese were badly slashed, the disturbance was quelled through the successful intervention of American officers. Teapot Starts Trouble. The melee began over the upsetting of a teapot. The Chinese storage messengers were occupying the after part of the ship. A group were sitting on deck and discussing an evening meal when several Filipinos wandered over into the section reserved for the Asiatics.

Without a word of warning the much dreaded riot call, was sounded by the assembled Chinese. Blows were rained upon the faces and bodies of the disturbing Filipinos. They managed to make their escape along the sport run way to the forward deck where were gathered their countrymen.

With reinforcement at hand, the Filipinos dashed to the after deck and then began one of the fiercest fights ever witnessed by the little band of terrified American officers. The natives from the Philippines were almost to a man armed with murderous looking knives known as the bolo. With these weapons they sailed into the body of Chinese and inflicted many cuts and bruises before finally driven back to their quarters, with the loss of one man killed by a knife thrust.

Suicide Follows Later. A crazed Filipino, Andreas Banaag, for Hawaii, who developed mental troubles shortly after the vessel sailed from Yokohama, was seen to leave his quarters in the hospital on the night of July 3rd, and before he could be stopped, had sprung to the rail of the steamer and leaped into the sea.

An aged Japanese business man proceeding to San Francisco, died at daylight this morning, his demise being attributed to pneumonia.

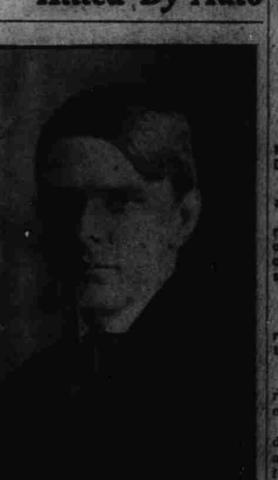

### ASSESSOR UPHELD IN TWO TAX APPEAL CASES

Two tax appeals were decided by the Oahu Board this morning, both accepting the figures of the Assessor as final and just. They were the appeals of F. M. Swanzky, the first, on lands at Kuaioa and Hakipuu being assessed at \$305. The owner's returned valuation was \$105. The second was on his land at Kaawa, Koolauloa, the assessed value of which was \$900 and the returned value \$350.

The Oahu Board probably will finish its work this afternoon or tomorrow, as only four cases remain. Two of these are by the Kuaioa Ranch and two are by Mrs. E. C. Judd.

### Youth Meets Death Near Spot Where Chum Was Drowned a Year Ago

Almost a year to the day from the time that his chum from boyhood, Eddie Schieber, was drowned in the surf waters of the harbor, Paul de Bretteville, one of the best known and most popular young men of the city, met death yesterday morning when he was run down by an auto driven by J. F. Dillon, 1513 Young street, a machinist at the Honolulu Iron Works. The accident occurred at 9:15 o'clock in front of the naval wireless station, on the Esplanade, and de Bretteville succumbed to his injuries in the Queen's Hospital two hours later.

### WATER SUPPLY FAILING RAPIDLY

With the artesian water level lower than it has been in the last three years and no immediate prospect of heavy rainfall in the mountains, the department of public works still faces the crisis that developed nearly two months ago and is rapidly advancing toward the danger point.

Superintendent Marston Campbell says that the owners of irrigated lands in the suburbs continue to pay no heed to the department's demand for economy, and that the law is inadequate for prosecution of offenders.

An additional boiler, of 350 horsepower capacity is advertised for by the department today, to be installed as an auxiliary at the Beretania street station. The artesian water level this morning reached 27.70 feet above sea level, just one-fifth of a foot higher than the lowest mark ever recorded in the gauge, and Superintendent Campbell says it undoubtedly will drop below that level shortly unless heavy precipitation comes to relieve the situation.

"Pot- and rice-growers in the suburbs of Honolulu still ignore our requests for economical use of the irrigating waters," he said this morning, "and the law doesn't define the difference between waste and necessary use of water sufficiently to permit prosecution.

"If I could bring rain by climbing up to the Fall and firing cannon into the clouds I'd gladly do it, but you will remember that I tried that experiment some years ago and it proved a failure."

### JUDGES DECIDE AGAINST U.S.

[Associated Press Cable] STOCKHOLM, SWEDEN, July 8.—THE 100-METER SWIMMING RACE, WON BY DUKE KAHANAMOKU OF HONOLULU LAST SATURDAY, WILL BE SWUM OVER AGAIN.

In the 10,000-meter race, Finland's entry, Hans Kohlenstein, finished first and Finland also won third place. America won second place.

In the high jump, which was thought to be at the mercy of George Meines of Stanford, America carried off first place through the great effort of Richards of Brigham Young University, Utah. Richards cleared 113 centimeters, about six feet, three and one-third inches. Garvany won second place.

Americans won first, second and third in the 800 meter race.

STOCKHOLM, Sweden, July 8.—The American runners in the 400-meter relay race of the Olympic games were disqualified when the race was held today, because the judges ruled them guilty of over-running.

Just what the cablegram referring to the re-swimming of the 100-meter race means is not at all clear, nor why Duke's victory last Saturday was not conclusive.

The reference to "over-running" in the 400-meter relay race is also indefinite. The Americans may have over-run by getting off the mark too soon at the start, or one or more of the succeeding runners may have started before the man finishing got to mark and thus gained a fraction or so of a second.

### ITALIAN CAMORRISTS ARE GUILTY

[Special Star-Bulletin Cable] VITERBO, Italy, July 8.—After a trial extending over more than a year and which has aroused world-wide interest, a unanimous verdict of guilty was returned against the members of the Camorra on trial here for the murder of Giuseppe Ciancio and his wife. The members of the Camorra arrested on suspicion of being connected with the crime were found guilty of belonging to a criminal association.

The Camorra, long in many respects the most notable in the history of criminal law. The charge of murder was brought directly against Enrico Alfano, alleged head of the band of cut-throats, thieves and women of ill-repute that constituted the active Camorra, which has terrorized Naples, Sicily, Calabria and other places. The Camorra was protected by high government officials, and maintained a semi-political character. King Victor Emmanuel lent his personal efforts to bringing the criminals to justice. The trial has been marked by attempted violence and sensational threats in the courtroom.

### HAVEMEYER GOT \$10,000,000 FREE

[Associated Press Cable] TRENTON, N. J., July 8.—Vice-chancellor Stevenson, in an opinion handed down today, holds that ten million dollars' worth of stock in the National Sugar Refining Company was lost to Henry Havemeyer without consideration.

### JUDGE ARCHBALD IS IMPEACHED

[Associated Press Cable] WASHINGTON, D. C., July 8.—The House judiciary committee today presented articles of impeachment against Judge Robert W. Archbald of the commerce court, desiring his actions to have been "regrettable."

Judge Archbald is charged with having used his office to procure favors from the railroads. One of the specific allegations made against Judge Archbald is that he is interested in the proposed purchase of coal lands owned by a coal company and controlled by the Erie Railroad, and that Judge Archbald was to receive one-third of the profits from the sale of the coal.

The charges were first made last February, and President Taft ordered an investigation by the attorney-general.

## SONOMA RESUMES AUSTRALIAN SERVICE CARRYING BIG CARGO

With every foot of available cargo space utilized, the Oceanic liner Sonoma, enroute from San Francisco to Pago Pago and Sydney, initiating the newly planned direct day service from the west coast of the United States to the Australian commonwealth, is an arrival at the port of Honolulu today.

Bringing 41 cabin, and 2 steerage passengers for Honolulu and carrying in transit a half hundred travelers destined for Australian ports and Pago Pago, the liner was given a rousing welcome as she assumed her place at Oceanic dock shortly before seven thirty this morning.

Captain J. H. Trask reported a fine trip down from the California coast, Purser McNulty, and Dr. G. W. Clark, two popular steamship men with Honolulu traveling public, declared that among the Sonoma passengers are many tourists.

A quantity of lumber for which no room was found below was piled high on the afterdeck of the vessel. The liner brought 266 tons freight for Honolulu while the bulk will be discharged at Sydney. A large amount of naval stores and supplies destined for Pago Pago is being carried in transit.

July 4th, Independence Day, was a red-letter event on board the Oceanic liner. The genial staff of saloon officers did not overlook the slightest detail in carrying out a celebration that will long be remembered by the fortunate travelers. The weather at sea was ideal. A sumptuous spread was served in the evening, likewise a musical and literary program was given, followed by a dance.

The Sonoma brought a late mail for the islands numbering 335 sacks. A through mail to the amount of 932 sacks is enroute to Sydney.

The liner is to be dispatched at five o'clock this evening for Pago Pago and Sydney, taking six additional cabin passengers from this port.

F. S. Samuels, assistant to the president of the Oceanic Steamship Company, will make the round trip on the Sonoma for the purpose of assuring himself by personal observation that the arrangements made at the different ports of call for handling the company's business are working smoothly.

The passengers for Sydney include J. W. Bourdette and wife, A. P. Coffin, Miss Davis, Major Sam Harris and wife and Nell Nielsen. Harris is in charge of the Australian government bureau at Vancouver, B. C., and Nielsen is the Australian government's agent in San Francisco.

Other Sydney passengers are Mrs. Vassault and Miss Cullen, Mrs. G. Waltham and Miss Grace Waltham, Miss E. H. Caldwell and Miss Anna Keefe.

The restoration of this line brings Pago Pago in direct touch with the United States again. The passengers for the Samoan port on the Sonoma include Ensign Samuel Henderson, U. S. L. N., and wife, and Lieutenant G. H. Laird, U. S. N., wife and two children, Wilhelmina.

Many Island Steamers Make Port. Sunday proved a home-coming day for a number of inter-island steamers, several bringing large quantities of sugar, for transfer to waiting liners and freighters destined for the Coast.

The Mikahala from Maui, Molokai and Lanai ports, is an arrival with a miscellaneous cargo including 57 bales hides, 21 crates pigs, 14 crates chickens, 7 crates eggs, 133 packages sundries and a quantity of empty barrels and drums.

The Likelike from Papaiaoa brought 636 sacks of Laupahoehoe sugar.

The little steamer Noeau from windward Kanai ports, was an arrival with 3900 sacks sugar. This vessel also brought an auto and a quantity of empty gasoline drums.

From Kawahae, the steamer Iwani with 5130 sacks sugar arrived early Sunday morning.

Kanai sugar to the amount of 2150 sacks was received with the arrival of the steamer Kinau. The Kinau also brought hides, 25 head cattle and 138 packages sundries.

Need the Canal Trade. "The only benefit which these American-built vessels will have over their foreign competitors is the privilege which the American flag should give them, and that is the business of doing a coastwise or domestic business between New York and San Francisco, which business will be identical to their foreign business, it being intended that the line should primarily be maintained and operated for the transoceanic trade.

If the rider complained of becomes a law, it will make it absolutely impossible for the Pacific Mail after the opening of the canal to maintain a steamship service between New York and Hongkong via San Francisco. Under the reading of this rider the American steamer will not be permitted to pass through the canal in the course of a voyage between the Atlantic and Asiatic coasts with coastwise cargo on board unless for every ton of coastwise cargo it has a similar quantity of freight for foreign destinations. In other words one of

### Chinese Junk May Pass This Way.

A Chinese junk, bound for San Francisco, left Yokohama a few days ahead of the liner Tenyo Maru. It is a war junk and it is armed to the teeth. Its mission, however, is peaceful. It was purchased, commissioned, manned and dispatched for San Francisco by W. M. Milne, who arrived here on the Tenyo. Milne acted as agent for a moving picture syndicate and the junk will be used at the coast port as a part of the scenery in a series of moving pictures of Chinese pirate raids and other exciting incidents of life in the far east. It was Milne who brought the junk Whang Ho to the coast.

### Korea Due This Afternoon.

With over one thousand tons Oriental cargo and a large number of Asiatic steerage passengers, the Pacific Mail liner Korea from Hongkong by the way of Shanghai and the Japanese ports, is due to arrive at Honolulu at an early hour this afternoon. The Korea will berth at the Alakea wharf, and will be dispatched for San Francisco at ten o'clock tomorrow morning. There is room on board the liner for one hundred additional passengers.

### Wilhelmina Report.

The following wireless message has been received by the agents of the S. S. Wilhelmina, bound for Honolulu: S. S. Wilhelmina, 8:00 p. m., July 6, 1912, 856 miles from port; fine weather; all well. For Honolulu: 124 cabin passengers, 16 steerage passengers, 62 sacks mail; 13 W. F. X. cargo, 4 automobiles, 3090 tons cargo. For Hilo: 1225 tons cargo. Ship arrives Tuesday morning and docks at the Hackfeld wharf.

### Captain Johnson Still on Sick Leave.

Captain Peter Johnson, master of the Matson Navigation liner Wilhelmina, now nearing the port of Honolulu and due to arrive here early tomorrow morning, is still on sick leave according to report brought by officers in the Sonoma. The Wilhelmina is being brought down from the coast by Captain Charles Peterson, the well known young navigator who formerly commanded the Hilonian.

### Local Notice to Mariners.

Hawaiian Islands, Oahu Island, Honolulu Harbor, Channel Gas Buoy No. 9, reported extinguished July 5, will be relighted as soon as practicable. A white hand lantern will be exhibited from the buoy each night until it is relighted. By order of the Commissioner of Lighthouses: Leo Salm, Lieutenant, U. S. N.

### Columbian to Sail Tuesday.

Taking sugar destined for the isthmus of Tehantepec, the American-Hawaiian freighter Columbian will be dispatched for Salina Cruz via Kahului, Kaanapali and Hilo tomorrow evening. The Columbian will carry approximately twelve thousand tons sugar from the islands.

### Rain at Honokaa.

Reporting rain at Honokaa, the officers in the inter-island steamer Wallele state that the vessel met with a fine trip homeward. The Wallele returned with 8000 sacks sugar, 71 bales hides, crates of chickens, and 29 packages sundries.

### Tired of Play Boy Would Toil; Parent Fearful.

Over in the congested section of town back of the Palama Settlement house, lives a thirteen-year-old boy who is weary of being told to keep out of mischief, tired of being continually corrected, and is bored to death with having nothing to do. So he "wants a job"; some place to work where he can keep busy all day and in this way he hopes that he will no longer be accused of playing pranks of which he is entirely innocent.

His name is Ah Loo and when he announced this wish to his mother this morning, her heart congealed with superstitious fear, and fearing that a wicked loss had her boy in his clutches, she dragged him over to the Free Dispensary at Palama Settlement where spiritual and bodily medicines are distributed alike.

But James A. Rath diagnosed the case as simply "tired of vacation," and he telephoned the Star-Bulletin this morning asking for aid in finding a job for this Chinese boy who is tired of play and wants work.

Any offers of employment for Ah Loo will be thankfully received at Palama Settlement House, telephone number 1981.

With cargo from the Hawaiian islands, carried in transit, the Matson Navigation steamer Hilonian is reported to have sailed from San Francisco for Seattle and Tacoma on last Friday.

# JOHNSON PREDICTED SKIPPER FOR BIG NEW MATSON LINER

Is Captain Peter Johnson, now master of the Matson liner Wilhelmina the logical selection as commander of the proposed new and largest steamer in the Matson fleet, which is predicted will be ready for service within the next fifteen months?

Steamship men along the coast are at present indulging in much speculation regarding whose shoulders the mantle of authority will eventually fall.

In addition to Captain Peter Johnson, the names of Charles Peterson, the popular "Boy Skipper" of the Pacific, now temporarily in command of the Wilhelmina, and that veteran navigator, Henry Weeden, of the Laska, are prominently mentioned as eligibles.

Several Matson Navigation officers are predicted will soon be ordered to the East coast of the United States, there to represent the Matson interests at the Shipyard of the Newport News Shipbuilding and Drydock Company, which has secured the contract for the construction of the big new liner.

Although the commissioning of the liner just ordered is a long way off, it is generally conceded that Captain Johnson, being the senior skipper of the fleet at present, will get the new vessel and that Captain Weeden, now of the Lurline, will replace him on the Wilhelmina, while the other skipper moves up to larger and more important commands.

With the arrival of the Oceanic steamship Sonoma at this port today there arrived much additional detail concerning the new Matson liner. Captain Johnson is reported as saying that he was sorry his new ship would not be entitled to the brand "Made in San Francisco." Realizing that much of the material used in ship construction on this coast has to be brought out from the east, and that to this extent local shipyards are at a disadvantage when bidding against eastern concerns, Captain Matson offered to place the contract here, provided the local bid was not more than \$60,000 higher than the lowest

# CAPT. SAM OF MOI GEO. WARD FALLS WAHINE TO GET RELIEF FRACTURES SKULL

While working on the inter-island coal railway at Bishop wharf this morning, George Ward, superintendent of coal operations on the wharf, lost his balance and fell to the flooring thirty feet below, incurring injuries in his fall which may result in death.

The accident happened at 9 o'clock this morning. Ward was overseeing the unloading of a cargo of coal for the inter-island and was personally directing the movements of the cars as they carried their loads along the elevated railway. One of the cars jumped the track. Ward, in his anxiety to replace the derailed car as soon as possible, seized a heavy crowbar and made his way over to the car.

In using the bar as a lever, he leaned too far to one side, lost his balance, and fell to the wharf below, where he landed in a crumpled heap. Workmen who were the witnesses of the accident sent in a hurry-up call for the police patrol, which hurried him over to the Queen's Hospital, where it was learned that he had received a fractured skull and possible internal injuries in his fall.

Ward has been in the employ of the inter-island for many years, and prior to being superintendent of coal operations at Bishop wharf was head machinist at the inter-island Steam Navigation shops. He is responsible for the many innovations used at the wharf in handling coal.

### Korea Brings Many Filipinos.

One hundred and eighty Filipinos were included in the 273 Asiatic steerage passengers to arrive at Honolulu this afternoon in the Pacific Mail liner Korea. The Korea, with fine weather on the voyage from Manila, Hongkong and the Japanese ports.

Five cabin and 2 second class passengers also left the vessel at this port.

The through list includes 50 cabin, 56 second class and 159 Chinese steerage passengers.

The Korea is to be discharged of one thousand tons Oriental cargo and will be dispatched for San Francisco at ten o'clock tomorrow morning, taking nearly one hundred cabin passengers.

The through list of passengers numbers a delegation of United States naval officers enroute to the mainland, besides several missionaries and Philippine government employees.

Oriental cargo, and a number of Asiatic passengers destined for the islands, are due to arrive in the Japanese liner Shinyo Maru, which vessel is reported to have sailed from Yokohama on Saturday.

WOULD PLACE DESERTERS OF WIVES IN JAIL

Wife desertion, as at present practiced in the Islands, appears to be a very innocuous, harmless sort of diversion, said United States District Attorney R. W. Breckons this morning.

When Granberg and his wife returned home they made an investigation but found nothing missing except the purse, which contained some loose change.

According to Mrs. Gramberg, the attempt to rob her house is the latest of a series which began several weeks ago.

Last week, a house further along Gondaia lane was entered and five dollars and a bottle of whisky were stolen.

Norman B. Smith, arrested Saturday by the United States Marshal on a warrant issued by U. S. District Attorney Breckons charging "white slavery," is still detained in jail.

MGR. SAMUELS BREAKING SPEED MARK ON OCEAN

Bearing important documents and correspondence, mailed at London, Eng., on June 23, Vice-President and General Manager F. S. Samuels of the Oceanic Steamship Company proposes to deliver the same into the hands of the Australian Commonwealth officials at Sydney within twenty-nine days from the date that they left the British capital.

For the purpose of making a minute inspection of the working of the new San Francisco-Australian line, General Manager Samuels is an arrival today as a through passenger in the liner Sonoma.

It is Mr. Samuels' intention to assure himself by personal inspection that all arrangements for the handling of passengers, freight and mails at the different ports of call are satisfactory, and where defects exist he will take steps to remedy the matter.

The Oceanic Steamship official is also taking careful note of a host of details in the operation and management of the vessels now in the transpacific service. On the voyage from San Francisco to Honolulu, Mr. Samuels among other matters brought to his attention was an interested observer of the working of the newly-installed oil-burning apparatus in the Sonoma and Ventura.

Vice-President Samuels will make a hurried call at Pago Pago, as the Ventura is to remain at the Samoan port but five hours on this trip.

Captain Trask has instructions to push the Ventura to top speed after leaving Pago Pago, and it is expected that the Oceanic schedule to Sydney will be reduced at least twenty-four hours.

During his stay at Honolulu today General Manager Samuels gave his sanction to a plan originating with the local office, to the effect that a cable be sent from Sydney on the date of sailing, which will give a detail report of the cabins available for passengers from Honolulu to San Francisco.

The papers that Vice-President Samuels bears from London to Sydney will reach the New South Wales city in four days' less time in the Oceanic Sonoma than by any other means of transportation, if all goes well with the Ventura and no accident is encountered that will result in cutting down the speed.

The trial was conducted by a naval board at the head of which was Captain Charles A. Cove, U. S. N., commander of the naval training station at Yerba Buena; Lieutenant Commander G. S. Lincoln and Naval Constructor Henry M. Gleason, U. S. N.

The Sonoma was driven from the lights 30 miles out to sea and averaged 17 knots an hour. During the five-day stay of the Sonoma at Sydney, Mr. Samuels expects to meet with a large number of business men who are at the head of large commercial interests in the Colonies.

CORONER HOLDS SLAYER ON CHARGE OF MURDER

As a result of the coroner's verdict last Saturday night that Manuel Souza met his death by foul play on the night of July 1 and formally charging F. A. Mesquita with the murder, Mesquita appeared before Police Judge Monsarrat this morning and was bound over to the First Judicial Circuit Court.

DE BRETTEVILLE

(Continued from Page 1)

cer W. R. Chilton, young de Bretteville, on his way to the Healani boat club, of which he was a member, was riding his bicycle on the left-hand side of the street as he went up. Dillon was coming toward him on the same side, which was the right side for Dillon, but the wrong side for de Bretteville.

Expecting de Bretteville to turn to the left, Dillon says he turned out toward the seawall, but the man on the bicycle, after starting toward the left, wheeled back to the right, and the machine struck him heavily.

Among the witnesses to the accident were Mr. and Mrs. Robert Scott of 1576 Pensacola street and Ove Englebrecht of the Salvation Army Lodging House. All are more or less agreed as to the details of the accident, and the police decided from the testimony of these witnesses that de Bretteville must have been on the wrong side of the road.

Paul de Bretteville was the son of Antonio de Bretteville, chemist on the Panamaulu Sugar Plantation, Lihue, Kauai. His sister, Miss Maud de Bretteville, has but recently returned from Columbia University, and a family reunion had been planned, to which Paul was to have gone in a few days.

De Bretteville was a stenographer for C. M. Cooke, Ltd., and was prominent among sportsmen of the city. He excelled in aquatic pastimes and was an expert tennis and football player.

The Healani boat club half-masted its flag on the news of de Bretteville's death and suspended all sports for the day. The officers of the club sent a wireless to Mrs. de Bretteville. She replied that she would not be able to come here, and the body will be sent to Kauai on the first boat.

Until that time, members of the Healani club will keep watch beside the body of their comrade at Williams' undertaking rooms.

Intimate friends comment upon the coincidence of Paul de Bretteville's life and violent death, with that of another Kauai boy, Eddie Schieber, who was drowned upon a Sunday, only last year, just outside the harbor. Most of their lives were spent upon the same plantation on Kauai—their fathers' being fellow employes on the Lihue plantation—until they came to Honolulu to complete their education, and both were popular in the boat clubs.

Every Honolulu who has frequent reason to travel upon Kauai has learned of the affectionate interest the two fathers always manifested in the boys' welfare in Honolulu, the traveler having a certain opening to the fathers' regard if he had but the slightest acquaintance with the boys.

SAY POLICE SLOW IN CARING FOR MAN

Complaint was made to the Star-Bulletin today by several reputable Honolulu citizens that Paul de Bretteville, the young man killed in the auto-bicycle collision yesterday, was left lying on the road for twenty minutes while the police authorities were taking down names of witnesses and measuring distances along the road to establish the facts.

MONDAY JULY 8, 1912

So much happiness falls to every man as he possesses virtue and wisdom and also acts according to their dictates.—Aristotle.

NOT PAVING, BUT PROGRESS

Honolulu is not so much interested in the particular kind of paving to be used either by the Rapid Transit company or the city and county as in the necessity for paving.

There is no danger that the Rapid Transit company will foist an inferior paving off on the community. Business common sense dictates that its paving shall be durable, economical, and of a kind to stand the test.

The Supervisors believe in bitulithic, and it is proving useful here. The Rapid Transit company agrees to lay a paving which shall be "equally durable and satisfactory", and agrees also to comply with the law as to the amount of paving to be laid and the provisions for repairs.

The objection of the Rapid Transit company to placing itself at the mercy of a corporation holding patents on one kind of paving is sound legal and economic judgment.

The Rapid Transit company feels that the community will regard its position as reasonable. The community has no interest in paving of one kind or the other except insofar as the community is served. Serving public good in this case means a speedy settlement of the controversy, and immediate progress on paving construction.

A LAW TO BE LIVED UP TO

Ordinance No. 11, "regulating moving travel and traffic upon the streets and other public places of the city and county of Honolulu," became law in August, 1909.

Honolulu is not a lawless city, but this ordinance, is openly, persistently, wilfully violated night and day, week by week, year by year. Once in six months or so the police or the Supervisors start a spasmodic campaign against the speed-fiends or the drivers who neglect their lights.

The death of a well-known and well-liked young man of this city yesterday as the result of a collision between a bicycle on which he was riding, and a motor-car, leads emphasis to the need for continuous and sincere enforcement of Ordinance No. 11 and to the necessity for providing additional safeguards against such accidents. In the present case it fortunately does not appear that the man driving the auto was to blame. The coroner's jury will doubtless fix the responsibility.

This death does, however, call attention to the lawless driving that other men indulge in. Night after night cars whirl around corners on busy downtown streets, to the accompaniment of drunken laughter and maudlin song, and at the imminent peril of pedestrians. Night after night speed-limits are defied by drivers with or without lights.

Hardly a section of Ordinance No. 11—and there are forty-eight sections—but is repeatedly flouted, and the law-breakers are not the amateur drivers any more than, if as much as, the professional chauffeurs. The responsible chauffeurs are careful. But not until the police, backed up by the Supervisors, go at the enforcement of the law with the intention of really enforcing it will Honolulu be safe from reckless and dangerous driving.

The ordinance should be backed up also by an amendment or a new law requiring that the driver of any auto involved in an accident must at once report this accident to the police, and further than in case any driver shall leave the scene of the accident without reporting it, and

before adequate aid has arrived, such driver shall be subjected to heavy penalty.

Provisions like these have been drafted into the ordinances of most cities of the mainland, and have held against violent legal attacks. They bring the responsibility for accident right home to the driver of the car—usually the cause of the accident. They prevent the escape of speed-fiends who run down innocent men and women, and flee with guilt and fear in their hearts.

Honolulu is in a position to demand enforcement of Ordinance No. 11. That enforcement should be started today, and not in a spasmodic manner.

JAPAN'S DILEMMA

Japan's emigration policy just now is in the throes of complete readjustment, and statesmen the world over are watching the little island empire to see how it will conduct itself on what is a peculiarly vital matter to Dai Nippon.

It is with no suggestion of jingoism that a prophecy of reopening the emigration question with the United States may be indulged in. Today, as is generally known, Japan of her own volition,—though with the active indorsement of our own Government,—is restricting emigration to the United States to the point where it is negligible. Japan's population, now fifty millions, is growing so rapidly that its present rate of increase will bring it to seventy millions in twenty-five years and one hundred millions in fifty years. It is this rapid increase, an ever-growing internal pressure, a struggle for existence going on in the overcrowded empire, that call upon Japanese statesmanship and diplomacy to find some country for the surplus population.

The brilliant Marquis Komura held to a policy of concentrating emigrants in Manchuria and Korea, but this policy, never popular nor effective, died when Komura died. And Japanese emigration to the United States was accompanied by anything but flattering results. It brought vigorous protest from several sections, notably the Pacific Coast, and Japan respected the plain signs of the times and restricted the emigration to its present diminutive proportions.

Now it is announced that Japan is turning investigating eyes to South America as a continent where millions of surplus Nipponese may find comparative wealth and at least the foot-room they will be denied on their own soil. Meanwhile, Japan's government is being severely criticised for its failure to pave the way for this emigration by systematic education.

It is pointed out by thinking men of Japan that the government sees in emigration only a method of getting rid of foolish, ignorant and troublesome persons, not of extending the influence of the empire and of providing for colonial possibilities. Indeed, the Tokyo Mainichi editorially takes the government to task because it is not turning its attention to emigration of middle-class and high-class Japanese instead of the coolies, and declares that the present policy will nullify Japanese influence abroad and impair the credit of the people at home.

In the light of these facts, international interest will be centered on the emigration policy that Japan will work out in the next few months and the next few years. Hawaii has a particularly keen interest in the subject. The criticism against the lack of cooperated education and emigration may be just, and it remains to be seen whether Komura's impersonally relentless methods will be modified to conform to the new ideals of national influence and of obtaining respect abroad through the ability, industry and home-loving character of the people sent out to make their way in alien lands.

It is stated that the Rapid Transit company will make no more extensions until its franchise extension is secured from the Legislature. Does this mean that the company will not build the Pearl Harbor line? We should say, in view of the rapidity with which President Peck disappeared in the direction of Washington recently, that the Pearl Harbor line is going to be constructed if the necessary bill passes Congress.

Returning delegates from the Republican national convention say they had three good reasons for voting for McGovern, choice of the Roosevelt, for temporary chairman. In view of the proceedings there, those reasons were probably faith, hope and charity.

Apparently the quickest way to stop the Mexican "revolution" would be to keep the names of the generals out of the newspapers.

The annual crop of reports on deaths from mainland heat is now coming. Hawaii luckily can capitalize climate as well as sugar.

Next thing we know, somebody will want to star Duke Kahanamoku in vaudeville.

Little Interviews

LAWRENCE CUNHA (Haitian swimmer)—Duke will make the 100 meters in better time than 22-2-3 seconds. He can do it in a minute flat. ALEXANDER YOUNG—A crowd of 15,000 people at Kapiolani Park on the Fourth of July ought to warrant the establishment of an aviary there, to say nothing of a government zoo. ROBERT W. BRECKONS—Hawaii will be the playground of America some day. There is no doubt about it, in my mind.

A. D. COOPER—Friends of good government in the Republican party should not forget that the coming Friday is the night for election of precinct club officers. A. E. MOTT-SMITH—I feel like a boy escaping from school. The Governor is coming tomorrow to take the weight of the Territory's business off my shoulders.

A. L. C. ATKINSON—If the Progressive party is launched, Hawaii should not make the mistake of treating it lightly. It will be the right party and the winning party. A. Q. MARCALLINO—The Republican convention was an education in itself. And the Hawaii delegation was treated with consideration after the vote from McGovern.

PROF. M. M. SCOTT—It is remarkable how Oriental students who go from Hawaii to mainland colleges and universities make good in the writing of English. They have not been filled up with the commonplace and trite sayings and expressions. Their English is pungent and vigorous.

PROGRESSIVES HERE DO NOT UNDERSTAND IT

The cabled news last night that the Progressives plan a convention without representation of the Territories and possessions has caught the local Progressive sympathizers rather at a loss.

When former Governor Carter and A. L. C. Atkinson returned from the Chicago convention a few days ago, they believed that Hawaii would be asked to send a delegate or delegates to the Progressive conference. If one were held, now comes the news that Senator Dixon, the Roosevelt manager, has issued a call for a convention on August 5, and that the Territories are not to be represented. Mr. Atkinson said this morning that the cable news may have been misinterpreted, and that perhaps what is really meant is that the representation from the Territories is to be cut down, possibly to one-half. This would give Hawaii three delegates and Alaska one.

COL. FRENCH NOT DUE TILL AUGUST

Colonel French, who has been attached to the Second Infantry, will not join his regiment until the middle of August, according to advices received at department headquarters this morning. He was expected on the July boat, but has received orders to delay sailing until the transport leaving San Francisco August 5. In the meantime Colonel French remains on duty at the Army War College, at Washington.

Lieutenant George L. Morrison, Fifth Cavalry, who has been attending one of the mainland service schools, was prevented at the last moment from sailing on the transport Logan, due here the latter part of this week. He was taken ill, and is now in the military hospital at San Francisco.

Only two officers are booked for Honolulu on the Logan. Following is the list of commissioned officers due here on the army transport: For Honolulu—Capt. J. F. Jauda, 1st Infantry; Capt. L. J. Owen, M. C. For Manila—Col. R. H. R. Loughborough, 13th Infantry; Lieut. Col. D. H. Bough-ton, 8th Cavalry; Capt. Harry B. Jordan, O. D.; Capt. J. M. Love Jr., 15th Infantry; Captains C. L. Stone, H. M. Ross, E. Bennett, P. S. Capt. F. R. Curtis, Lieut. E. M. Watson, 24th Infantry; Lieut. F. H. Sparringer, M. R. C.; Lieut. C. G. Snow, M. C.; Lieut. T. P. Larned, 7th Cavalry; Lieut. A. J. Conroy, P. S.; Lieut. R. F. Midgalski, 8th Cavalry; Lieut. R. K. Fletcher, P. S.; three army nurses.

Miss Jennie Weiss, an eighteen year old German girl, who was to have been married soon, died in a New York hospital from an injury received when a seltzer bottle exploded in her hands as she was placing it in the refrigerator. A fragment of the glass cut her jugular vein.

EVENING SMILES

PERSONALITIES

A. F. COFFIN, a San Francisco share and bond broker, is making a round trip to Sydney as a passenger in the Oceanic liner Sonoma.

J. H. CONEY, who attended the Republican National Convention at Chicago, was numbered among the passengers to leave the Oceanic steamship Sonoma this morning.

MR. AND MRS. SIDNEY R. HARRIS of Pasadena, Cal., are among the tourists who are guests at the Moana Hotel. They are en route to the Orient for an extended visit.

WILLIAM LANGTON, proprietor of the Paradise of the Pacific, is back from a business and pleasure trip to the mainland. He was a passenger in the Oceanic steamship Sonoma.

MRS. F. MILLAR, a well-known society woman on the Coast, is numbered among the passengers to leave the Oceanic steamship Sonoma at this port. Mrs. Millar is accompanied by Miss Florence Goldman.

JUDGE J. W. BURDETTE, a prominent San Francisco jurist, is a through passenger in the Oceanic liner Sonoma, and, accompanied by Mrs. Burdette, will make a round trip to Australasian ports in the liner.

ENRIGN SAM HENDERSON, Mrs. Henderson, Lieut. G. H. Laird, Mrs. Laird and two children and Miss E. M. Searle are a party of United States naval people who will leave the Oceanic liner Sonoma at Pago Pago.

CHARLES A. COTTRELL, U. S. internal revenue collector at this port, returned this morning from Waikiki, where he and his family have been visiting since the Fourth.

WALTER A. SMITH, a graduate of Berkeley University, arrived at Haka-lau. His position will be that of plantation surveyor. We will find in his travels many a gulch easy to get into but hard to get out of.—Kohala Mid-gut.

FATHER CARROLL preached an English sermon at the 9 o'clock mass at the Catholic Cathedral yesterday. He is a brother of Miss Grace Carroll and Mrs. Carl du Roi and is here for a visit to the Islands and with his sister.

HON. NEIL NEILSEN, commissioner of lands in the Australian commonwealth, who has been conducting an investigation and campaign for immigration throughout the British Northwest, is returning to the southern continent as a passenger in the Oceanic liner Sonoma.

CAPT. J. R. PARKER, a well-known dredge owner and capitalist, returned to Honolulu this morning in the Oceanic liner Sonoma. Captain Parker has just recently acquired a beautiful villa and country establishment, situated near Santa Cruz and known as the Willows.

W. A. KINNEY was heard from in today's mail. He wrote under date of June 25 from his new estate in Nova Scotia. Mr. Kinney was still confined to bed but slowly recovering and expected to be up in about a week. The letter was to his law firm, Kinney, Prosser, Anderson & Marx, and his partners expect Mr. Kinney back in Honolulu in the fall.

F. S. SAMUELS, vice president and general manager of the Oceanic Steamship Company, with headquarters at San Francisco, is making a round trip to Sydney in the liner Sonoma. It is the purpose of Mr. Samuels to gather first-hand information concerning the several agencies established in the south seas. He is accompanied by Mrs. Samuels and son, Harold Samuels.

P. R. BRODZAIK, a prominent businessman at Sydney, N. S. W., and Mrs. Brodzak are through passengers in the Oceanic liner Sonoma, calling at Honolulu this morning en route to the Antipodes. Mr. and Mrs. Brodzak will leave the Sonoma at this port to transfer to the British steamer Zealandia, which vessel will convey the party to Fiji, where they expect to remain for some time.

ALMY OUSTED; CUSTOMS TAKES OVER HIS OFFICE

Through an order received from Washington this morning by Collector of Customs Stackable, Harry N. Almy is ousted from his position as shipping commissioner at the port of Honolulu and the office is placed in the customs service.

The order received by the collector directed him to take charge of the office of the shipping commissioner at once and proceed to administer it as a part of the service in his charge, as done in several of the ports on the mainland. Collector Stackable acted upon his instructions and placed W. D. Wilder in charge with the title of deputy collector.

The change, it is stated, does not mean that the office of shipping commissioner has been abolished, but simply that it will be administered by the collector of customs in the future.

The betrothal is soon to be announced of Crown Prince Boris of Bulgaria and Princess Elizabeth of Romania. It is a love match; the prince having fallen in love with a photograph of the princess before meeting her.

value of the goods. In no case did I try to undervalue the goods.

"My brother in Funchal, who sends the goods both to myself and to Mrs. Melim, marked on the outside of the packages the various prices, and it seems that his markings were too low. Neither he nor myself was very familiar with the law. I never knew that his markings did not represent the true value.

Net Under Instructions. "I was convinced that every one of the packages was appraised on the mainland. My brother was not under my instructions, either. I do not make a business of importing goods, and am not a merchant, but my brother was in a position to get the goods and send them here, and I have been ordering through him for a year and a half.

"I have lived in Honolulu for twenty-five years and certainly would not be a party to any fraud. The first news I had of the action taken by the customs people was in a letter from my broker in San Francisco, who looks after the goods when they are examined by the customs authorities. He sent me a newspaper clipping, but I have not been informed officially.

Tranquada says the value of the goods is really about \$450, not \$1000, as has been represented. He says also that Mrs. Melim has been ordering goods through him, her goods coming separately but on a joint invoice, and that both have been involved in the case through misunderstanding of the customs law.

## LEPROSY SCARE WAS DENIED BY CARLSMITH

### Hilo Man Tells Mainland Newspaper Truth About Wild Rumors

Carl S. Carlsmith was captured and interviewed by a reporter on the Albuquerque, New Mexico, Herald, with the following results: That the professions in Honolulu are overcrowded and that immigration is not needed to develop the resources of the Hawaiian Islands was the statement made last evening by Carl S. Carlsmith of Hilo, Hawaii, chairman of a delegation of twelve, which passed through here from Hilo en route to the Republican national convention at Chicago. While the delegation is instructed for Tatt, conversation with some of the members elicited the fact that personally it consists mostly of Roosevelt men. Mr. Carlsmith talked interestingly of conditions in the islands, which he describes as meriting their name of "The Paradise of the Pacific," although the gentleman does not appear overly anxious for additional Americans to come in and permanently enjoy the blessings of the isle. "In Honolulu," said the delegate, "there are about 10,000 English speaking people as compared with a native population of 50,000 Polynesians. Nevertheless, the professions, medicine, law, dentistry and what not, are overcrowded and in my opinion the opportunities for newcomers are not great. As a tourist Moca, Honolulu is all that could be desired and a trip there does not cost much, steamer fare being \$130 and hotel rates about the same as on the mainland—\$2.50 to \$3.00 per-day. An unusually large percentage of the people, native born and American, are well educated, many of the Hawaiians having received complete technical and professional education in American universities. The natives are born politicians, shrewd and intelligent, and most of the local offices are held by them throughout the islands. The schools are up to date and conditions generally compare well with those in American mainland states." Mr. Carlsmith says that the sugar industry is the leading one in the islands and is conducted on a huge scale. Asked concerning the rumors of the increase of leprosy in the islands, Mr. Carlsmith said that no attention is paid to the matter there, there being not over 1,000 lepers in the islands with little danger of infection save in the districts of ill-repute. He said that Governor Frear appointed a commission which is now making a study of the social evil, which has become unusually grave, especially among the Japanese, Russians, Filipinos and Chinese. This commission will make recommendations after an exhaustive study of conditions. The Hawaiian delegation will make its headquarters while in Chicago at the Hotel La Salle, where quarters were engaged three months ago.

SAN FRANCISCO, Cal., June 27.—The asking price of Hawaiian Commercial and Sugar went up half a point yesterday as a result of news that the company had a bumper crop, but the bidding price declined one-eighth of a point. This is a commentary on the weakness of sugar stocks at this time and the general state of the market.

# IN THE WOMAN'S WORLD

## CATHOLIC LADIES AID SOCIETY SHORT OF FUNDS, WITH MUCH WORK

More than twenty-seven years ago a little group of Catholic women and girls banded themselves into a society to help the poor white women who were unable to help themselves, there being at that time very few Hawaiians who needed such aid as these women were able to give. There were times when some that were most in need of pecuniary assistance were so sensitive about their lack of funds that the ladies would call upon them and leave money in some odd corner so that the poor one might find it and yet not be compelled to give audible thanks; this was particularly the case with some old Hawaiian women.

From its very infancy the work of the Catholic Ladies' Aid Society has not only been to give help, but to teach others to help themselves. Today there are many women and girls who are holding positions that have been found for them by the society. There are also families who depend upon the organization for their entire support. And just here may be cited one case where, through illness, the father of the family is unable to work and the little children, too young to be left alone, during the day, demand the mother's presence in the home. These people are supported by the Catholic Ladies' Aid Society.

Another thing that may be said here is that the religion of one who is seeking never interferes with his securing that aid. Some times the society is compelled to turn the needy away because of the lack of funds in the treasury. The dues are exceedingly small, twenty-five cents a month and the membership of the organization is nearly seventy. At times when it seemed that the food supply would give out the society has been kept on its feet through the generosity of Mrs. William G. Irwin, who is one of its honorary members, and oftentimes the members have been asked to pledge a stated sum. Other funds have been raised by means of afternoon musicales and similar gatherings.

Mrs. Augustus E. Murphy, who is the president of the society, is a charter member of the organization and has watched its growth, and the readiness with which new arrivals join. Many of the Army and Navy ladies are members of it and are among its most active workers.

One often hears the following remark, and although it may be in some instances, it is not the case with this organization: "O, what's the use of giving them any money; they only turn it over to people who are too lazy to work and they spend it for liquor."

No money is given to the dependents of the Catholic Ladies' Aid Society. Each month Father Stephen gives each of the families orders for food, etc., and they in turn present

them to one of the local grocers. In this way the committee is able to keep track of the funds. At present there is in the treasury barely enough money to carry on the work of the organization through the month of September. After that time the well known cry "Donations, please," will be heard by its members.

The monthly meetings of the society are in the nature of an afternoon tea, a musical program is usually arranged and often ladies who are not members but who are interested are invited to be present.

Here in Honolulu most of the charitable work done among the Catholics is carried on by this organization, but on Hawaii it is done by the Franciscan Sisters. These women are untiring in their efforts not only to look after physical needs but also care for moral growth. Girls, who during the first term of the school are careless, unruly, and slovenly, are taught cleanliness and neatness. The girls are instructed in studies taken up in the grammar school, and are given a course in sewing. Most of the garments made at the school are given to the poorer children. The children are also given some lessons concerning the care of the home, and of children. A few of the graduates prepare to teach school and are successful in this work while others go into homes as children's nurses or as housemaids. The sisters who are in the Hilo convent have been there for the past eight or ten years and through their never-relaxing efforts the convent and the day school are kept clean, picturesque and beautiful.

### MRS. K. H. WITHROW RECOVERS FROM ILLNESS

SAN FRANCISCO, June 30.—The friends of Miss Marie and Miss Evelyn Withrow are rejoicing with them in the recovery of their mother, Mrs. K. H. Withrow, who has been seriously ill for some weeks in her home in Pine street. Mrs. Withrow will be confined to her room for some weeks to come, but her recuperation has been marked since her alarming relapse last Saturday. Mrs. Withrow and her daughter, Miss Evelyn, returned in the early spring from a visit to Honolulu, where they had passed six months.

The Withrows are well-known here, having visited the city some months ago. Miss Evelyn Withrow is a noted artist.

### Miss Evelyn Humphrys, English Sportswoman, Killer of Many Lions

SAN FRANCISCO, July 2.—Miss Evelyn Humphrys, daughter of Major Humphrys of the British army, who with her father, was a passenger on the liner Tenyo Maru, which arrived here yesterday, is noted in her home county in Ireland as a daring horsewoman. In India, where she accompanied her father, she won fame as a hunter of big game. She won the first prize in the 'pingpong tournament, which was one of the features of entertainment on board the Tenyo.

From shooting lions to playing pingpong seems a far stretch, but according to the young lady's fellow passengers, there is nothing in the way of sports at which she does not excel. She won the rifle shooting prize and she captured the winning base-ball team, although baseball was unknown to her until she boarded the Tenyo. She beat all comers at shuffleboard and won the blind driving race. In the latter contest the steed is a blindfolded man, and the course lies through a maze of empty bottles. She won the race and guided her steed with such skill that not a bottle was capsized. She won the high dive into the Tenyo's swimming tank, and at Honolulu had to buy an extra valise to hold her prizes.

Young, pretty and athletic, the British soldier's daughter is also lucky. She played the pools on the ship's run only once. The pool was the best on the trip and Miss Humphrys drew down the neat little sum of \$665.

### AN OPEN SECRET.

Many ask the reason for the continued and increasing demand for Chamberlain's Colic, Cholera and Diarrhoea Remedy. The secret is that it never fails to give relief. The middle-aged men of today remember it as the remedy given them by their mothers for cramp colic and dysentery when they were children and its reputation as a positive cure for such ailments is still maintained. No remedy has ever been produced that is its equal for the prompt relief of pain. For sale by all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

### S. A. RECEPTION.

Members of the Salvation Army will hold a reception to Colonel Bertha Cox and her assistant Adjutant Duncan at the Salvation Army home in Manoa Valley this afternoon. All persons having been cordially invited to attend this reception and meet the new workers who are recent additions to the local post.

## DROUGHT KILLS CATTLE ON MAUI

[Special Correspondence, Star-Bulletin.]

WAILUKU, Maui, July 7.—Eighty-five days and no rain on the Haleakala Ranch is the sad tale that the ranchers tell. The drought has been terrible, and cattle are dying in some of the Kula gulches. The conditions have been alleviated somewhat the last few days in Ulupalakua and on the Cornwell ranch, where there have been some showers. On the night before the Fourth 0.25 inches rain fell in Hamakua. This shower, with slight showers for two nights previous, has helped out the plantations but more rain is needed.

The anniversary dance of the Court Valley Island, A. O. F., was one of the big events in the social line this year. The visiting Foresters speak most enthusiastically of the lavish entertainment that Maui people gave them, and well they may. The luau at the Army given by the order was one of the best of this kind of entertainment for years. Peruvia J. Goodness looked after the whole affair, and it certainly was a success. J. Machado decolored the town hall for the dance that guests were present at that enjoyable affair.

### STRAIGHT PICTURE SHOW AT THE EMPIRE THEATER

Sometime ago it was announced that the Empire Theater was to be closed and rented to a mercantile establishment, but the new manager, Richard Kipling, has vetoed this and will continue the Empire, for the present at least, as a straight picture house. At times it will also be used for special performances, when big bills are playing at the Bijou. Two picture shows will be given nightly, special selection of films being made to please those who want to see only pictures. The prices of admission will be moderate.

### CHILD PRODIGY AT THE BIJOU THEATER

Lolita, "The Talking Girl" a child actor, and Nell Edmunds, a spectacular dancer in a Salome, are the new features for the week's beginning at the big Bijou Theater. The first is said to be somewhat of a child prodigy, while the dancer is popular wherever she appears. Two of the other acts that have been appearing as a single and a double, have been turned into a sketch trio, and will present a farce comedy entitled "Family Affairs." Wheeler, Cranberry and Neilson compose the trio. Cra-Via is a catchy operetta to be put on the Oliva Gypsy Trio. The playlets will be costumed and staged in a very picturesque manner and the singing will be of the very best.

### ARGENTINE POLO TEAM MAY PLAY AT NEWPORT

Promise of real international polo at Narragansett Pier this year is contained in the invitation extended by the Point Judith Polo Club to the Argentine team, which has had a victorious career in the tournaments in England. It is anticipated that the South American team will accept and take part in the tourney, which includes the open championships between July 29 and August 24.

### JIM BARRY BEATS UP OFFICER OF ZEALANDIA

Jim Barry, the heavyweight pug, must have eaten something that disagreed with him when in Honolulu a couple of weeks ago. When the Zealandia left here on her run to Vancouver, Barry turned ugly, and did things that resulted in his arrest on landing.

The following story under Vancouver date line of June 26, tells the story:

"Jim Barry, the Chicago pugilist, who has lately been in Australia, was charged today with assault on Fourth Officer Webb of the steamship Zealandia, on which Barry reached port yesterday. It is alleged that Barry, enraged over losses at the card table, threw the cards into the face of a fellow passenger. On Webb asking the cause of the trouble Barry beat him.

### FUNERAL SERVICES HELD FOR GEORGE MEYER

Funeral services for George Meyer who succumbed to an attack of heart disease while swimming at Waikiki beach on the Fourth of July, were held at Williams Undertaking rooms yesterday under the auspices of the Loyal Order of Moose. The funeral sermon was preached by the Rev. Elmer Smith of the Methodist church. Interment was at Nuuanu cemetery.

### THE COFFEE MARKET

NEW YORK, N. Y., July 1.—Coffee futures opened barely steady at a decline of from 5 to 7 points. The close was steady 3 to 9 points lower. Sales, 31,250. ## RECREATIONS

### UNUSUAL PHOTO-PLAY ON LIBERTY PROGRAM

The feature of tonight's program at the Liberty theater will be a series of new moving pictures, which are claimed by the management to be the latest creation of the film manufacturer's art, in addition to being a collection of subjects new, and away from the usual run of photo-plays.

That the Liberty's pictures have been above the ordinary the past few programs there is no question, and with a promise of better pictures to-night some interesting views may be expected.

Emerson and Baldwin, the classy jugglers, will make their farewell appearance tonight, and as these boys have made a host of friends since their arrival, and, incidentally, become Honolulu land-owners, it is expected that they will be given a good "send-off" and will no doubt present their best act in consequence.

Budd and Clare, Dottie Harris and the Four Donnelllys will all present new acts, Budd and Clare offering a comedy sketch that is advertised as containing "a laugh a second," the bill appearing to be one well worth while.

### STRAIGHT PICTURE SHOW AT THE EMPIRE THEATER

Sometime ago it was announced that the Empire Theater was to be closed and rented to a mercantile establishment, but the new manager, Richard Kipling, has vetoed this and will continue the Empire, for the present at least, as a straight picture house. ### DIXIE WHITE—A STAR.

As the pagans look to the sun in addressing their prayers for all good things, so the average Honolulu who attends theatrical performances, particularly those which were recently given at the Liberty, look up to the stars and become star-worshippers and the particular one in that firmament to have the admiration, love and respect of the ladies of Honolulu was little Dixie White, the girl who made all kinds of his by her clever impersonation of boy characters and her songs: "Light Up Your Face With a Smile," one of the request songs on the night of the last appearance of the Juvenile Bostonians before leaving for the island tour, and another winner, "Take a Little Tip from Father." Dixie is new in the business of stagecraft and her success has been phenomenal.

The box plan of the opera house was put on view at the promotion committee rooms this morning and the response from the public was immediate. The audience for the opening performance tomorrow night promises to be very large if the advance sale is to be taken as an index of what is to come. The island tour was tremendously successful. In Paia, where two performances were given, residents of the district for miles around attended both and then went more. "The Dream Girl" will be the bill for Tuesday night and "Berta's Billions" will follow Wednesday night.

### CURED BY A NATIVE HERB

On board a vessel bound for India recently a man was bitten by a poisonous reptile; both the ship doctor and a famous surgeon failed to control the poison, fast spreading through his system.

In a day the vessel reached port. An Indian medicine man was sent for, who produced a native herb which quickly allayed the poison and the man's life was saved.

Roots and herbs are nature's cure for disease. That great remedy for female ills, Lydia E. Pinkham's Vegetable Compound, had its origin in the roots and herbs of the field, tons of which are now consumed yearly in making it.

## THE DOCTOR'S QUESTION

Much Sickness Due to Bowel Disorders.

A doctor's first question when consulted by a patient is, "Are your bowels regular?" He knows that 98 per cent of illness is attended with inactive bowels and torpid liver, and that this condition must be removed gently and thoroughly before health can be restored.

Reflux Orderlies are a positive, pleasant, and safe remedy for constipation and bowel disorders in general. We are so certain of their great curative value that we promise to return the purchaser's money in every case when they fail to produce entire satisfaction.

Reflux Orderlies are eaten like candy, they act quietly, and aid in producing a soothing, strengthening, healing influence on the entire intestinal tract. They do not purge, gripe, cause nausea, flatulence, excessive looseness, diarrhoea, or other annoying effect. They are especially good for children, weak persons, or old folks. Three sizes, 10c., 25c., and 50c. Sold only at our store—The Rexall Store, Benson, Smith & Co., Ltd., Fort and Hotel streets.

### JAPANESE CONTRACTORS GET TOGETHER

With a banquet held at the Shiranui tea house, River and Vineyard streets yesterday afternoon, the Japanese Contractor's Association was formally launched. Fifty prominent Japanese contractors representing every branch of the building trades, being present.

The chief purpose of the organization is to protect owners and those desiring to build from irresponsible contractors. It is stated that Honolulu has too many contractors and that the new association will keep down the number by including only those who are experienced and capable.

All applications for membership will be carefully scrutinized and if it does not appear that the applicant is eligible, he will be rejected, one blackball being sufficient for the purpose.

Another feature which will appear in the article of incorporation shortly to be asked for will be that of benefits and insurance for workmen employed by the members of the Association. Those injured while in the line of duty will be taken care of here unless permanently disabled, when they will be sent back to Japan at the expense of the association.

The temporary offices of the association will be at K. Sagawa's, in King street, opposite Smith street.

The following officers were elected yesterday: President, K. Sagawa; vice-president, M. Goto; secretaries, O. Yamaguchi and K. Tokida; treasurer, M. Akimoto; auditors, M. Ota and Y. Kukuya. These, with the following, will constitute the board of directors: George M. Yamada, H. Nakanishi, K. Aki, S. Nishi, and M. Ota.

### WIND FREAK.

Of the many freaks played by the wind, that of yesterday which lifted the nest of a sitting hen made in an empty cracker box and deposited it, hen and thirteen eggs, on the top of a rural mail delivery box, a quarter of a mile away, was the strangest, says the Greeley correspondence in the Denver "Republican." The hen is the property of Mrs. Ida Erickson, living three miles east of here, and her owner saw the wind take the nest from the ground, lift it thirty feet in the air and finally leave it on the mail box undisturbed. The hen has settled down to her new location and will be left to hatch.

### GOOD RECORD FOR MONDAY

Another fair Monday's record is shown in today's transactions on the Honolulu Stock and Bond Exchange. Many small lots of several sugar stocks were reported sold between boards, and the board transactions added a goodly amount of business. There is only one decline from Saturday's high, two lots of five shares each of Pioneer, being reported at 33.75 and 33.25 respectively, against 33.50 for 30 shares on Saturday, but also compared with 35 for 120 shares reported the same day. Hawaiian Sugar is unchanged at 45 for 10 shares; likewise Hawaiian Commercial at 43 for 15 and five shares. Oahu also holds its own at 27.25 for an aggregate of 130 shares in nine lots. McBryde maintained seven for 100 shares. Ewa advanced a quarter point in 115 shares in five lots at 30.50 between boards. Oahu went up a half point also, a block of 100 shares being reported at 7.875. Telephone shows a gain of 1.25 over last sale, bringing 21.75 for 25 shares. Pineapple lost half a point of the 1.50 gain on Saturday, two lots of 50 each selling at 43.

Bonds continue active, with an advance of .50 for Oahu, the sales being \$1000 Hilo Extension 68 at 94 1-2, \$1000 Oahu 68 at 103, \$1000 Oahu 68 at 97 1-2 and 2000 Gas 58 at 100.

**STANDARD OIL OF CALIFORNIA**

SAN FRANCISCO, Cal., July 1.—The proposition to increase the capital stock of the Standard Oil Company of California from 250,000 shares valued at \$25,000,000 to 500,000 shares valued at \$50,000,000 is the subject of the special meeting of the stockholders to be held at Point Richmond on July 30. The present stockholders will have the privilege of taking the new stock at par. If any stockholder does not care to purchase, he has the privilege of selling his rights on the market.

Of the \$25,000,000 to be raised on the new issue of stock, \$11,000,000 will be applied to the payment of a debt to the Standard Oil Company of New Jersey which loan was applied to the acquisition of property and the making of improvements. Additions and improvements yet to be made will consume about \$7,000,000 more. A portion of this latter sum will be used in the new refinery at El Segundo and a portion in the Richmond refinery, all of which improvements are said to be necessary to meet the growing demands of the business. It is proposed to utilize the current earnings as dividends.

During 1911 the net earnings amounted to \$3,141,625 or about 12.6 per cent. on the capital stock. The earnings this year are expected to exceed \$4,000,000, which will be about 8 per cent. on the increased capitalization. The plant was valued December 31, 1911, at \$29,234,425 and the inventories at \$14,535,255.

YACHTSMEN OFF ON INLAND VOYAGE

Visiting Tars the Guests of Local on Auto Trip Around Oahu Today

Piloted by members of the Hawaii Yacht Club, the visiting tars who came here in the... started on a dry-land voyage of Oahu at 9 o'clock this morning.

The trip will be made via Schofield Barracks and Haleiwa, with lunch at the latter place. Stops will be made at one of the plantations on the way, and the mysteries of dividends in the raw explained to the Coasters.

Although the regatta committee has had no official reply to the circular letter issued some days ago relative to the Hilo race, there now seems to be a good prospect that the contest will come off, with the Lurline, Hawaii and Mollifou certain starters, and the Seafarer a possibility.

Captain Lew Harris of the Lurline is very keen to make the trip, and he has communicated some of his enthusiasm to the others.

"So far as the regatta committee is concerned, it knows nothing of the race," said Arthur Armitage, secretary of the committee, and its only member now in Honolulu, this morning.

"It is quite likely that George Crozier will sail the Hawaii if she enters, but I know nothing officially. No one of the yachtsmen to whom I sent letters has seen fit to answer."

According to tentative plans, the race will start Wednesday, the day after Prince Cupid's luncheon. There will be no time allowances, and yachts racing on speed alone, and the first to cross the line being declared the winner.

SCHULTE AND COBB BARRED?

The matter of permitting previous winners of the Chalmers baseball trophy to compete in the future will be submitted to a vote of the Trophy Commissioners by Chairman Ren Mulford within the next few days.

Mulford has now had a general expression of opinion from all of the commissioners. The latest reports are from Tim Murnane, of Boston, and from C. B. Power, the commissioner from Pittsburg.

"I am of the opinion that we should pass the honor along, so that in time we may have a baseball hall of fame that will really mean something," says Murnane.

Power is in favor of the plan to eliminate previous winners. "I heartily approve of the suggestion made by Mr. Parker. I think that one-time winners certainly should be eliminated," says the Pittsburg Commissioner.

The consensus of opinion among the commissioners seems to be that all ball players, qualified under the original rules of the Chalmers Trophy award shall be allowed to compete, however. A number of the commissioners have asked for opinions from leading baseball fans, from the players themselves, and from some students of the game.

Most of these opinions seem to favor retaining previous winners in future competitors. Favor Retention. It will remain for the official vote of the commissioners to decide just what action will be taken. At the present time, it looks as though Cobb and Schulte would be declared eligible for competition this year, the same as last year. As one leading authority has said:

"As long as a man can be a re-entrant, he deserves the credit of his performance. In the case of the Chalmers Trophy, so many things contribute to a man's standing that it does not seem likely a man can win the title of the best all-round player in his league more than one year, unless he stands out head and shoulders above the other players. If any player is so good that he deserves the title of the best all-round player for two, three or four successive years, it would certainly be unfair to give him only the title and make the major award to a player known to be secondary. Then, too, it should be considered that the man who wins this year may drop out of the competition for one or two seasons and then come back strong the next year. It certainly would seem unfair not to give full credit to a man who was able to make such a come-back."

One of the speediest wheelmen in Honolulu, in either the junior or senior ranks, is Alan O'Brien, who came to the front last month by winning the long junior grind from the Haleiwa Hotel to the Waikiki Inn. He rode a fast race and finished strong. MAY SUTTON NOW CLAY COURT CHAMP

PITTSBURG, Pa., July 1.—Finals in the men's singles, women's singles and mixed doubles, as well as the challenge match for the championship, were played here today, concluding the tournament for the clay-court championship of the United States. R. Norris Williams of Philadelphia, former State champion, defeated Walter T. Hayes of Chicago for the championship of the United States in straight sets. Williams in the morning won the right to challenge Hayes by defeating G. F. Touchard of New York, 6-3, 9-7 and 6-2.

Miss May Sutton of Los Angeles won the women's championship, defeating Miss Mary Browne, also of Los Angeles, the former champion, in two sets, 6-4 and 6-2.

In the mixed doubles Miss Sutton and Frank H. Harris, the Dartmouth College champion, won the national title from Miss Mary Browne and Norris Williams. The match required three sets. The score was 6-3, 2-6 and 6-2.

TENNIS COMMITTEE NAMED - DAVIS CUP DATES SET

The committee that will have charge of the Hawaiian tennis championship tournament, which opens the 22nd of this month, has been selected, as follows: W. Thompson, Manoa; Guy Buttolph, Pacific; L. M. Judd, Neighborhood; A. L. Castle, Beretania; C. G. Boekus, at large.

The Davis international cup tennis match in New Zealand this year will probably be played in November instead of December or January, as heretofore. This is at the suggestion of the Australasian Lawn Tennis Association. The British and French teams are to meet in the preliminary games in London early in July. Whichever wins will come to this country for the matches with the Americans the first of September. The winning nation will go to Melbourne and have three weeks' preparatory practice before the challenge matches.

Four teams of the Junior League made four errors apiece yesterday afternoon in the double-header that was played at Athletic Park in the presence of some 1000 spectators. It was in-and-out ball all the way through, but there was enough action to give the fans a run for their money, and to furnish a good afternoon's sport in the absence of any scheduled games of the Senior League.

The first game went to the Asahi Juniors, who took the long end of a 10 to 5 score from the Whites, after the latter team seemed to have the contest wrapped up and ready to take home. Pitching wildness was largely responsible for the result.

The closer, between the Athletics and J. A. C. Juniors, was a much better exhibition of the national game, although there was some loose play at times. The former won by a batting rally in the seventh and eighth, climbing out of the cellar and sending their opponents down.

HOW THEY STAND

The champion Athletics seem to be coming into their own again. In the great race that is being run in the American, Connie Mack's crowd have fought their way into second place, and are threatening Boston. Chicago is third, while Washington, the sensation of the circuit, tails the first division.

The Pirates are second in the National. It's nothing but a walkaway for New York, and real interest now centers in the race for second place.

Vernon is pulling farther ahead in the Coast League, with the Oaks just keeping a nose in front of Los Angeles. The Northwestern League teams are spreading out, with Joe Cohen's Indians in the lead. A week ago a blanket would have covered the four leaders, but now the interval is greater.

man's face and body in the clinches. In the nineteenth round Carpentier's manager, believing that Klaus had struck the Frenchman a foul blow on the chin with his elbow, jumped into the ring and threw up the sponge. Polo Teams Hard At It

INTERESTED SPECTATORS.

Lieutenant Hanson (left) and Captain Forsythe watching their respective rivals in action. Note the smile that won't come off, due to the fact that the Oahu Blues didn't seem to be quite up to form Saturday.

OAHU BLUES HAVE AN OFF DAY BUT BEAT THE REDS HANDILY

SATURDAY'S polo game between Oahu's first team and the fastest combination that could be drawn from the ranks of the other regular players was a rather disappointing exhibition, and did not show the Blues at their best by any manner or means. The result, 5-2 to 0, tells little about the play, for both sides missed many chances to score which, on anything but an "off day," would have resulted in sure goals. Both teams seemed demoralized, and at no time did either side get off on the right foot for a continued run of clean polo. There was a lot of bunching on the ball, and while there was some brilliant individual hitting to redeem the day, team work was conspicuous by its absence.

However, no matter how the Oahu team plays in practice, it is capable of putting up a very fine exhibition when its best efforts are called on in the coming tournament, which is only two weeks off.

"If the team was playing in top form now, I would be more worried than I am over this apparent slump," said Captain Walter Dillingham after Saturday's game, and at that he seems to have hit the nail on the head. There is plenty of time for the players to get together again, and if the team strikes twelve at tournament time, it will be better than if the maximum was reached now, with the consequent strain of keeping up the pressure.

The Oahu team this year is composed of veteran polo players, who are all most likely to play their best in hard matches. Sam Baldwin, Harold Castle, Walter Dillingham and Arthur Rice have all played the game for years and the first named three have played together in their respective positions for a long time. They know what to do and how to do it, even if they don't at all times practise what they preach, and the first match against the Maui invaders should see Oahu playing fast polo.

NEW YORKERS LIKE PALZER

New York fight fans made a lot of capital out of the Palzer-Weils event, and there are some in Gotham who believe that Palzer is capable of giving Jack Johnson a real fight.

Following is the story of the recent mill, as published in the Coast papers of June 28, under New York date line: Palzer sent the big beefy Bombardier to sleep in the third round of their go at Madison Square Garden tonight. Now the Western farmer is due to relieve Lili Arthur Johnson of the bother of taking round the heavyweight championship.

The outcome of the fight was not wholly unexpected by the huge crowd. Notwithstanding box seats brought \$10 each, a series of new boxes had to be built to satisfy the fans. The galleries were all filled and people stood in the aisles. It is estimated that the receipts were in the neighborhood of \$35,000, of which Palzer and Weils will divide 50 per cent. There was very little betting on the bout, with Palzer favorite at about 7 to 5.

BROOKLYN OWNER IS SELF-MADE MAGNATE

C. H. Ebbets of the Brooklyn Club is a self-made baseball magnate. When the Brooklyn, owned by Byrne, Doyle and Abell, played at old Washington Park twenty-five years ago, Ebbets was a ticket seller and a schedule maker. He made up his mind even then to become the owner of the club some day and he never stopped trying. When the Brooklyn were consolidated with the rival Players' League team at Eastern Park, Ebbets was made secretary, and when C. H. Byrne died, he was elected president.

This quality of putting up the best article when it is most needed was shown in the matches with the Cavalry two months ago, when the Oahu four got together and played real polo from bell to bell. The team plays better against strong opposition than against playing their own game and walking right through a weaker force, the players seem to be put off by their opponents' mistakes, and to get right out of their stride when the men playing against them fail to do the obvious. The Blues are strong against strength, but their play against weakness could improve a lot.

At that, the Reds that lined up against the first four Saturday are by no means to be belittled. They proved a weak combination, but not a combination of weak players, and their failure to score was largely due to the fact that six players were cutting in and out, and that no sooner would one combination get going in some sort of form than it was broken up to make way for another. There was some fine hitting, and some showy runs, but far too much hanging on the ball for scoring purposes.

The Cavalry squad, consisting of Captain Forsythe, captain, and Lieutenants Sheridan, Hanson, Doak and Millikin, is camped at Moanalua and is practising hard for the coming matches. The Yellows aren't overlooking any points in preparatory work, and their showing in the championships is sure to be creditable, win or lose. They are hard at it every afternoon and seem to be hitting the ball harder than ever.

Following was the line-up of Saturday's practice game: Blues—S. Baldwin, H. Castle, W. Dillingham and A. Rice. Reds—D. Baldwin, Lieutenant Andrews, Arthur Jones, H. Dillingham, R. W. Shingle and Henry Damon.

EVANS AND GREIG TIE AT GOLF

John Evans and J. I. B. Greig tied for first place in the novelty golf tournament, played over the Country Club course yesterday morning. The event was a flag competition, in which each player used up a certain number of strokes, and then planted a banner bearing his name at the spot where the ball rested after his final stroke.

Evans and Greig, both holed out on the 18th green in their last shot, tying for first place. They tossed for the prize, and Evans won. W. R. Grace was third, his ball coming to rest two feet from the 18th cup. That three players should finish so closely bunched in a competition of the kind, is quite remarkable.

Twenty-four drove off, but about half of this number picked up their balls before the finish. It was exceptionally hot on the links, and some of the players, when hopelessly out of it, found the shade of the "nineteenth hole" more to their liking.

He held that office after the Brooklyn-Baltimore deal was consummated fourteen years ago, and gradually he bought up the stock until today he controls 90 per cent. of the club. Somebody asked Ebbets recently if he would sell the Brooklyn Club and he replied: "If I did what would I do to pass the time? Baseball is a life study with me and I would be lost without it."

Col. Stanhope E. Blunt, U. S. A., of the ordnance department has been retired from the army on his own application. Colonel Blunt is a native of Massachusetts, where he was born in 1850, and is now in charge of the Springfield armory, Massachusetts.

THE SPORTING EDITOR SAYS, SEZ-ZE, ABOUT AS FOLLOWS:

BY LAURENCE REDINGTON.

Well, Duke Kahanamoku has done it. Of course we all knew that he would, but just the same, it's great to have the figures in black and white, and to let the whole world in on our three-star special.

There is much speculation over a press cable which arrived last night, which reads as follows:

"Owing to a misunderstanding regarding the semifinals in the hundred-meter swimming races, America may lose what she has already won through the efforts of Duke Kahanamoku, the wonderful swimmer from Honolulu. The misunderstanding appears to have arisen over the date of the semi-finals. Efforts are being made to straighten matters out and it is possible that they will be successful."

The cabled accounts of Duke's record-breaking performance Saturday did not say that it was a preliminary heat of the 100 meter race that the Hawaiian speed marvel won, but such was taken for granted to be the case, owing to the fact that there would be too large an entry list to swim a single race. What the misunderstanding referred to in the above Stockholm dispatch could possibly be no one can even guess. The whole thing sounds fishy, and reads as though only a part of the truth had been sent over the wires. It seems probable that Duke will have to swim the distance once or twice again before the colors of the winning nation are run, up, but there is little doubt that the Stars and Stripes will be the flag that flutters, and that Duke will be the man to send it aloft. If he can set a world's record on his first attempt, there is little cause to worry over the final outcome.

At that, Duke's performance is not quite up to the prediction made by his coaches just before he left the States, and even better things can be expected. George Kistler, who has been coaching Duke, and James Sterrett, another close student of the Hawaiian's form, stated a few weeks ago that in their opinion he was capable of doing the 100 meters in 1 minute flat, which is 2 2/5 seconds faster than his performance Saturday. These men have watched his steady improvement and have held the watch on him time and again over all sorts of distances, so considerable weight attaches to their opinion. Duke isn't through yet by any means, and we'll here more good news from abroad before the American athletes tie themselves homeward.

Henderson Deserves Credit. There is one man right here in Honolulu who deserves a lot of the credit for Duke's victory, and who should be remembered when the latter's success is being discussed. I refer to Lew G. Henderson, who piloted the swimming expedition East last Spring, and who engineered all the preliminary arrangements for the champions stay and training between the time of the A. A. U. national championships and the date of the American team's sailing for Stockholm.

Henderson pulled off two big things on that trip, that undoubtedly had a strong bearing on Duke's rapid development and ultimate success. In the first place, he got George Kistler, the veteran swimming coach of the University of Pennsylvania, interested in the Hawaiian, and in the second place he took Duke to his own home in Philadelphia, and arranged for him to stay there during the period which might have been one of the loneliest in the local lad's life. With the best of coaching, and kindly home life, Kahanamoku began to improve. Weighy handled, and unhappily situated, his natural style might have been hopelessly spoiled, and the heart entirely taken out of him. It is to Henderson then, that Duke in particular, and Honolulu in general, owes success.

More Records May Go. The splendid showing made by the other American athletes in the first day of the Olympic events, leads to the belief that the best is still to come and that when Hornline, Gardner and some others get their final records, they will begin to go by the board. This has been a season of athletic surprises, and no one who has followed the sport of track and field since to say that the end is now. Discussing the epidemic of record breaking recently, James E. Sullivan of the American Olympic committee said: "I am ready to throw up my hands so far as the future is concerned. There never has been such a season for all around athletic success as the present one. We all expect a record to go here and there each year, but when they begin to fall in bunches, why, you can't blame the old timers if we just sit back and wait. As to the reason for this athletic condition, I think it can be divided into three classifications—first, better and more scientific training methods; second, the general growth of athletics in all parts of the nation and, third, the unusual amount of interest and training created by the fact that this is an Olympic game year."

U. S. MARKSMEN McLOUGHLIN IS BEST AT THE COAST CHAMPION OLYMPIAD

STOCKHOLM, Sweden, July 1.—The United States added today another line of victories by winning the clay-bird shoot competition. The Americans took first prize and gold medal, with a score of 532 out of a possible 600. Great Britain won the second prize and silver medal with a score of 511, while Germany was third with 510.

The best individual scores of the victorious American team were: J. R. Graham, Chicago Athletic Association, 94; Charles W. Billings, captain, 92; R. L. Spotts, Larchmont Y. C., 90; J. H. Rendrixson, Bergen Beach G. C., 89; Frank Hall, New York Athletic Club, 86.

The individual army-rifle shooting competitions were started today. The competitors fire first at 300 meters and then at 600 meters. At the first range each competitor fires ten shots at a bullseye target, four prone, four kneeling and two standing. At the second range each man fires ten shots at a figure target, five prone and five kneeling. The time limit for each series is three minutes.

Procop, a Hungarian, led at the 300-meter range, with a score of 97. Lieutenant Carl T. Osburn of the United States Navy tied for second place with Norwegian and Greek riflemen with a score of 95. Sergeant Fulton of the British Army was fifth with a score of 87. In the shoot-off of the tie for second place, Lieutenant Osburn secured second prize with a score of 98. This score beats the total made by the winner, Procop.

Skogen, the Norwegian rifleman, was placed third, with a score of 91, and the Greek was placed fourth.

A. P. Lane, representing the United States, in the individual competition for revolver or pistol at a distance of 50 meters made a score of 499 in his sixty shots. The highest possible was 600.

These, of course, apply to the particular and present epoch of record breaking. I am and have been for years a firm believer in the ability of the American athlete to lead the world in this line of sport. Some years ago during an athletic discussion by the Chicago A. A. Clubhouse, I. K. Baxter and Myer Phinsett, both Olympic honor men, asked me if I believed that a pole vaulter would ever clear thirteen feet and a broad jumper twenty-five feet. I answered yes. The pole vaulter has arrived in Gardner and I expect to see a twenty-five foot jump at Stockholm next month. Furthermore, the 9 2/5 seconds sprinter will arrive one of these days in the person of some big powerful athlete with the nervous temperament necessary for such a feat. He will be a high powered human mechanism, capable of hurrying himself the full 100 yards at top speed from the second he leaves the starting point."

# DUKE IS NOW SOCIAL LION

[Associated Press Cable] STOCKHOLM, Sweden, July 7.—Owing to a misunderstanding regarding the semifinals in the 100-meter swimming races, America may lose what she has already won through the efforts of Duke Kahanamoku, the wonderful swimmer from Honolulu. The misunderstanding appears to have arisen over the dates of the semifinals. Efforts are being made to straighten matters out, and it is possible that they will be successful. Duke himself has carried the city and its thousands of visitors by storm. He is easily the most popular of the swarms of athletes here from all over the world. His work in the water is appreciated here most thoroughly and he is being asked out as if he were a social lion. The president of the British Life Saving Society today visited him at his quarters on the Finland, and offered him an extremely handsome gold cup if he succeeds in covering the 100-meter swim in a minute flat. Kahanamoku may take up the offer later. The Hawaiian is not the only American who has covered himself with glory in the great Olympiad. Craig, the sprinter, who was picked to win the 200-meter race, won the 100-meter sprint in the wonderfully fast time of 10 4-5 seconds. His race was a thing of beauty to watch, and he finished going strong. Meyer was second and Lippincott of Philadelphia was third, all three places thus going to America. This was the third unrivaled American victory since the opening of the games. Thorpe, the game little American Indian runner and all-round athlete, won the difficult pentathlon. Kolemalm, an entry from Finland, who defeated the great Englishman Scott in a whirlwind finish in the distance run, brought the thousands of people that packed the stadium to their feet yelling like Indians.

# SARAH PLATT DECKER DIES IN HOSPITAL

SAN FRANCISCO, Cal., July 7.—Mrs. Sarah Platt Decker, former president of the General Federation of Women's Clubs of America, died here today after an operation for stomach trouble. She came here from her home in Denver, Colo., to attend the sessions of the annual gathering of women's clubs and was taken ill while here. An operation was performed, but so serious was her case from the very first that little hope was entertained for her recovery. Mrs. Decker has for several years been one of the most prominent club workers in the country. Always interested in the furthering of the cause of woman suffrage in her own State, Mrs. Decker has been an ardent worker in the cause and has urged the adoption of it in other States. She has always been ardently enthusiastic in reform work of all kinds and has gone much in the advancement of reforms in laws in her own State and city. As president of the Woman's Club she did much toward having the civil service system inaugurated in many branches of the city government, including the police department. No arrangements have as yet been made for the funeral, but the body will be sent to Denver.

# CALL FOR NEW PARTY IS OUT.

NEW YORK, N. Y., July 7.—The formal call for the convention of the third party, to be known as the Progressive Republican Party, has been issued by Senator Dixon, who managed Theodore Roosevelt's campaign for the nomination on the regular Republican ticket. The call was sent out tonight, and Mr. Dixon declares that forty States have already signified their intention of having delegates at the convention of the new party, which will meet in Chicago on August 5.

The call reads "to all sympathizers in the national progressive movement," and asks support from all classes of citizens.

According to a statement made last night by Senator Dixon, the Territories, the Philippines, Hawaii, Alaska and Porto Rico will not be represented in the progressive convention. The representation will be cut down to half that of previous conventions.

The chief work of the delegates will be the framing of a platform, said Mr. Roosevelt's manager. This will take up most of the time and may, he admitted, cause more or less trouble in the new party ranks.

Mr. Roosevelt will insist upon such planks as the recall of judicial decisions, or even the recall of judges, should his own ideas be turned down by the delegates; the direct election of Senators; the abolition of the protective tariff; and governmental sanction for trade combinations that are not injurious to the public welfare, and the initiative and referendum.

**Desert Roosevelt.**  
NEW YORK, N. Y., July 7.—Like a bolt out of the blue came the announcement last night that the Progressive Republicans in Michigan have flatly refused to follow Roosevelt in the third party movement and have instead endorsed the candidacy of Woodrow Wilson. The move was an entirely unexpected one, and it is believed it will hit the plans of the colonel between wind and water, as it is thought that other sections of the country will follow the example set by Michigan.

Teddy's Policy.  
Colonel Roosevelt earlier in the day issued the first definite statement he has made since he left Chicago. In it he in a measure outlined the plan of his campaign. He said that "the pro-

Are You Thin? Pale? All run down, easily tired, nervous? And do not know what to take? Then go direct to your doctor. Ask his opinion of Ayer's Sarsaparilla. It contains no alcohol, no stimulation, and is a blood purifier, a nerve tonic, a strong alterative, an aid to digestion. Ask your doctor about Ayer's non-alcoholic Sarsaparilla as a strong tonic for the weak.

progressive movement and all that it stands for in this nation will be the keystone upon which I expect to build. My campaign means putting into effect every one of the principles of equal justice and decency for which I have stood."

The colonel's statement is regarded as being an indication that he intends to make an uncompromising fight all along the line.

# California Democrats Shout.

Theodore Bell of California and one of the Clark leaders upon the floor of the Democratic convention in Baltimore, called upon Governor Wilson yesterday and pledged his support and that of the California democracy to the head of the party. After his interview with Mr. Wilson, Bell said that he is satisfied with the way things have gone and expects to see a Democratic President in the White House next term. He declared that Wilson has "an excellent chance of getting the solid electoral vote of the entire Pacific Coast."

It was learned yesterday that Governor Wilson intends to take as the keynote of his campaign the higher cost of living, assuming that the protective tariff is the cause of it.

# BATTLESHIP AND STEAMER COLLIDE

NEWPORT, R. I., July 7.—The Sound steamer Commonwealth rammed the battleship New Hampshire in the harbor here tonight. The collision was due to a dense fog, which prevented the lookout of either vessel from seeing the other. Both steamers were considerably damaged by the crash, but no one was injured.

# QUAKES IN ALASKA.

FAIRBANKS, Alaska, July 7.—A violent earthquake here today rocked the entire district and threw all the citizens into confusion for some minutes, but so far as known no persons were killed. The quake lasted for several seconds. Buildings rocked and several persons are reported to have been injured. Residents in their homes at the time the shock came hastened out into the street yelling and for a time it was feared that its result might have been serious with many fatalities. Several small buildings are reported to have been entirely demolished when the sudden shock came.

# MEXICAN REBELS SHY ON AMMUNITION

JUAREZ, Mex., July 7.—Under the leadership of Orozco a band of rebels is now reported to be struggling desperately to reach Guaymas, where they hope to be able to import a sufficient quantity of ammunition to carry on the insurrection. The appeal of the federal authorities for peace and the offer of an amnesty to all engaged in the war except some of the leaders has been refused, according to the last reports.

# PLAGUE IN CUBA.

HAVANA, Cuba, July 7.—The health authorities here have reported that bubonic plague has claimed four victims in this city. Every effort is being made to stamp out the disease before it gathers further headway, and the officials are confident that they have stayed its inroads. A strict quarantine of the localities in which the cases were found has been declared and is being maintained.
