# Honolulu Star-Bulletin

2:30 Edition

Hawaiian Star, Vol. XX, No. 6226. Evening Bulletin, Est. 1882, No. 5285. 14 PAGES.—HONOLULU, TERRITORY OF HAWAII, THURSDAY, JULY 11, 1912.—14 PAGES. PRICE FIVE CENTS

## PROGRESSIVES HERE TO ORGANIZE NOW

### MRS. WEISBARTH, DESPONDENT, SUICIDES BY POISON

#### CABLED ORDERS ARRIVE

Roosevelt Progressivism will be launched in Hawaii. Cabled permission and instructions to this effect, were received today by local Progressives. Ex-Gov. George R. Carter and A. L. C. Atkinson several days ago cabled to mainland leaders in the movement to find out what plans were on foot for Hawaii's representation in the convention to be held in August. The Associated Press dispatches received here were interpreted to mean that Hawaii was not to be given representation in the convention. This now proves not to be the case, for according to cablegrams received by the leaders in the proposed movement here, Hawaii is to go ahead and organize, presumably to send delegates to the national Progressive convention. A meeting for preliminary discussion and possibly preliminary organization will be held probably next Monday. Plans so far are not definite, but within the next few hours there will be a lot of work done toward launching the movement.

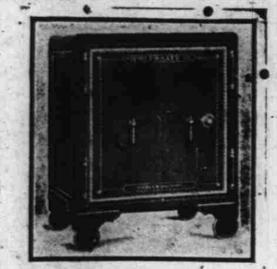

#### ENGINE HITS HANDCAR; 2 DIE

[Special Star-Bulletin Aerogram] HILO, T. H., July 11.—Two Japanese were instantly killed and four others narrowly escaped death in a horrible train early this morning when a train on the Hilo railroad came suddenly down upon a handcar occupied by the Orientals. Four jumped in time and escaped.

#### NAVY HEARS FUNDS AVAILABLE FOR JULY

Broad smiles round the naval station this morning, owing to a cable received by the commandant, stating that funds were available for July expenses, and that the threatened shortage of coin was averted for the time being, at any rate. Whether the money became available through the passage of an urgent necessity bill, or whether by joint resolution, as was the case with army finances recently, is not known. The cable referred to general orders issued July 6, which will not reach here for several days yet, and until they arrive the navy will be "at sea." In any case, pay and subsistence are assured.

If a man offers you a good thing, you have a right to wonder why he does not keep it himself. Give nearly any man a wife who really loves him, and believes in him and she'll "make" him. As a rule, the possession of money means industry, saving and old age. For every nice old gentleman there are two or three nice old ladies.

Special Sale of Safes H. E. HENDRICK, Ltd., Phone 2648 Merchant and Ala'ea

#### SHIPMENTS OF SUGAR TO JUNE 30 NEW MARK

Factors Co.'s Shipments Show Nineteen Thousand Tons Excess for Period

TOTAL HAWAIIAN CROP 587,951 TONS

Price Above 4.20 Cents Obtained for Sugar Already on the Market

Allen M. Nowell, secretary and manager of the Sugar Factors Co., Ltd., supplied the Star-Bulletin commercial reporter this morning with the figures of shipments this year to June 30. Up to that period the shipments of sugar amounted to 367,000 tons. This amount was made up of 202,000 tons by way of Tehautepec, 22,000 tons by sail around Cape Horn and 123,000 tons shipped to the Pacific Coast. Shipments for the time in question are greater by 19,000 tons than were made up to June 30 in any former year since the Sugar Factors Company has been shipping sugar. May Month's Record. For the month of May the shipments were the greatest, with the exception of May last year, of any one month since the beginning. They amounted to 69,000 tons, as compared with the record of 73,000 tons made in May, 1911.

It is expected that the company's total shipments for the season will amount to 488,000 tons, and, as the company handles about 83 per cent of the Hawaiian crop, this season's output of sugar for the Territory will be about 578,951 tons.

Of the 347,000 shipped 291,000 had reached market—168,000 by the Tehautepec route, 118,000 to the Pacific Coast and 5000 by the Cape Horn route. This left a balance afloat on June 30 of 56,000 tons.

Market Price Obtained. The amount reaching the market as above obtained a price above 4.20 cents. The balance of estimated shipments by the company, being nearly 29 per cent of the total, will come in for lower prices very likely to the end.

There is a steady increase of preferential sugars coming to the market. For instance Porto Rico's sugar makes a gain of 20,000 tons, and Cuba's of 50,000 tons this year. The estimated increase of the world's crop this year is 67,000 tons.

#### FIRE AUTO TRUCK SPEEDS UP PACIFIC HEIGHTS TO BLAZE

Burning underbrush on Pacific Heights this morning, gave the fire department an opportunity to demonstrate the ability of the new auto truck to sail up any kind of a hill around Honolulu without trouble.

Fire in a rubbish heap in front of the Wakefield residence on the Heights crept into the undergrowth with the result that a part of Honolulu for a time, held the belief that the Wakefield home was burning.

The fire department was notified and the big auto truck glided up to the summit within ten minutes after the alarm was received, experiencing no trouble either from the sharp turns or its engine.

Japanese laborers who had been called out to fight the flames were making but poor headway with a short length of garden hose when the auto truck arrived, it appearing that such a thing as fire extinguishers are not known on the Heights although this district has no fire house in its immediate vicinity.

#### ACTING CHIEF KELLETT CINCHES SNEAKTHIEF

A young man from the upper Nuuanu district recently reported the theft of his tuxedo, one business suit, a \$25 miner's cot, and a clock to the police. Within twelve hours Acting Chief Kellelt had the thief rounded up and obtained a full confession from him, whether by the water cure, third degree or suave, engaging manner the Acting Chief does not say. But the fact remains that the young man from the "wet belt" is rejoicing in the possession of his clothes, for had that business suit not "come back", he says, "the Ostermeyer for him" while the suit he wears was being pressed.

#### ENDS LIFE; TIRED OF LIVING

Mrs. W. J. Wiesbarth Takes Poison—"Despondency" Reason Given

Mrs. Mary Wiesbarth, daughter-in-law of Captain Weisbarth, the veteran South Sea trader, and wife of William P. Weisbarth, a well known local mariner, committed suicide at 6:30 this morning by taking poison. A note found tucked away in a window box of flowers in her bedroom gave "tired of life" as the reason for the deed.

Mrs. Wiesbarth, who was 27 years old, had not been well of late, and when she retired last night, complained of dizziness and expressed a desire that death would relieve her sufferings.

When the family awoke at six o'clock this morning, Weisbarth went out on the front steps to read the paper, while his wife went to the kitchen to prepare breakfast. She had not been in the kitchen long before Weisbarth heard his wife go to the bedroom and close the door behind her.

Hears Dying Scream. A scream of agony caused him to jump to his feet and rush into the bedroom where he found his wife on the floor and writhing in pain.

(Continued on Page 2)

#### BOY CYCLIST RUN DOWN BY AUTO; IS HURT

As the result of a collision between an automobile driven by Dr. A. C. Wall and a bicycle ridden by a Japanese boy, which occurred in front of the Moana Hotel annex yesterday afternoon shortly after five o'clock, Dr. Wall's automobile headlights were broken, the boy's bicycle smashed and the boy himself was lacerated so severely about the right hand and arm by broken glass as to render the injured member useless for some time to come.

According to Dr. Wall, he was driving from town towards the Moana Hotel at the time the accident happened. The boy was coming towards the city on his bicycle and owing to the number of automobiles in the road between the Outrigger Club and the Moana Annex, neither saw the other.

Boy Becomes Confused. An automobile was standing in the middle of the road directly in front of the Moana Hotel and to the right of the automobile in the road stood two men who were busily conversing. Consequently Dr. Wall was forced to turn to the left. As he did so, he came within a few feet of the boy who, becoming distracted, turned to the left, then to the right and back to the left again, running directly into the dentist's automobile.

Meanwhile Dr. Wall had managed to bring his car to nearly a stop and the impetuosity of the boy's own advance on his bicycle threw him into the front of the machine.

He stretched out his right arm, which went through the glass of the headlight, and the boy fell to the ground with the wreckage of his bicycle, which had crumpled like paper against the hood of the car.

When Dr. Wall reached his side, the youth was sitting in the middle of the road and extracting splinters of glass from his hand and arm, which was lacerated and bleeding profusely.

Takes Victim to Doctor. Aside from the broken headlight, Wall's machine was unhurt, so he placed the boy in the car and drove post-haste to the office of Dr. J. T. Wayston, where the victim's wounds were dressed.

This morning, the boy visited Dr. Wall in his office and the matter was settled to the satisfaction of both parties. Dr. Wall paid the boy the amount of his week's wages which he will miss on account of the injuries received in the collision.

#### Desha Elopes, Weds; Keeps Secret 2 Years

Jack Desha of Hawaii, Harvard's star baseball player, marries girl of his choice despite opposition of stern parent. Two ceremonies held, and he becomes proud father before his classmates learn the story that he has long left the ranks of single men.

#### Harvard Hears News When He Presents a Candidate for Class Baby

Jack Desha of Hilo and Harvard, famed as a football and baseball player, is a benedict. Further than this, he entered the ranks of married men two years ago by way of an elopement with the daughter of his landlord and was married on New Year's Day, 1910. It may also be stated that Jack Desha has been a proud father since December 11, 1910, when Evelyn C. M. Desha came into the world.

Friends of Jack Desha in the Hawaiian Islands need not feel disappointed or grieved at the fact that the young athlete failed to confide in them, for it appears that the members of his own class at Harvard, that of 1912, knew nothing about it until Desha presented little Miss Evelyn Desha as a candidate for the class baby, to which position she was at once elected by the class.

Married When Sophomore. It appears that while in the first term of his Sophomore year, young Desha, who was then the shortstop for the varsity team, fell desperately in love with Miss Agnes Reddy of Medford, Mass., at whose home he was staying. Miss Reddy reciprocated his affection, but her stern sire opposed the match in vigorous terms on the ground that his daughter was a Catholic, and he desired her to wed a man of the same religious affiliations.

The young people labored in vain to break down the parental opposition and failing, cut that Gordian knot by skipping out to Nashua, N. H., where an obliging official tied them with a matrimonial knot.

They returned to ask father's forgiveness and blessing. They didn't get it, not until they had promised to have the marriage rite performed over again in a Catholic church. Kept Close Secret.

This was done, but notwithstanding the fact of two marriages having been performed, the affair remained a secret until Desha chose to give the news of his marriage to his classmates at the conclusion of his last year at Harvard.

Desha is the son of the Rev. Stephen Desha of Hilo. He won fame in the islands as a football and baseball player, and in the latter game excelled to such an extent at Harvard that he had no difficulty in making a varsity team where he held down the position of shortstop for two years.

According to friends of Desha here, he will not visit Hawaii this year, but will remain on the mainland and enter Harvard Law School.

(Continued from Page 3)

#### AMERICANS AGAIN WIN THE HONORS

[Associated Press Cable] STOCKHOLM, Sweden, July 11.—American athletes again swept the majority of honors in the Olympic games today, winning enough finals to increase their already long lead. In the pole vault, Babcock, the Columbia University crack, vaulted over the bar at 3 meters 95 centimeters. In the shotput, total distance covered with puts from both right and left hands to count, Ralph Rose of California was first, with Pat McDonald of the Irish-American Athletic Club, New York, second, and Finland third. U. S. Sprinters Carry Off 200-Meter Race. In the 200-meter finals, Ralph C. Craig, the Michigan speed marvel, finished first, with Lippincott of the University of Pennsylvania second. Apple-garth of England was third. In the 400-meter swim, Australia carried off the honors with first and second places. Nine Americans have qualified for the semifinals of the 110-yard hurdles race.

#### Germs in Letter from Utah Start Scarlet Fever Epidemic

germs all the way from Utah to the Hawaiian Islands, a letter from relatives in that State is declared responsible for the renewed outbreak of the contagious disease at Laie, news of which was received by mail this morning by Dr. Pratt, president of the board of health. Dr. Pratt says he is convinced that the new case at Laie, which has been the scene of several cases of illness of this character in the last few months, is caused by germs contained in a letter that was received recently by the family affected, from relatives in an infected district in Utah. Sixty deaths of scarlet fever in Utah in the month of May are recorded in the health report of that State. Dr. Pratt says the previous cases at Laie had been cleaned up and due precaution against a renewed outbreak had been taken.

#### ONOMEA UP ON NEW DIVIDEND HAWAII TO HAVE FUSION TICKET

Onomea advanced between boards of the Stock Exchange 1.50 in sales of 100 and 20 shares at 54.75, which is a net gain of 1.25 since last week, when the closing price was 53.50. The asking price has gone to 55.50. This jump is due to an increase of the dividend ordered by the directors yesterday afternoon, from forty cents to sixty cents a share until further notice. President E. Faxon Bishop of C. Brewer & Co., Ltd., said this morning that the increased dividend would probably continue throughout the year. At today's selling price the new dividend amounts to a yield of more than 13 per cent per annum.

With the exception of bonds, the transactions recorded on today's sheet are smaller in volume than for any day in a fortnight past. Onomea's total sales are more than four times as great in number of shares than those of any other sugar stock.

Olaa Climbing. Olaa comes next with 20 shares on the board at 7.75, an advance of a quarter point, and \$ is now asked. Pioneer is unchanged with 15 shares at 34 reported.

Ewa shows an advance of half a point for 5 shares at 31 on the board. Hawaiian Commercial sold up three-eighths, 3 shares going at 43.25. Oahu gained an eighth in a sale of 14 shares at 27.375.

Other Advances. Oahu Railway holds at 140 in sales of 25 shares in recess and 25 at session. Pineapple advanced a point in a sale of 50 shares between boards at 43.50.

Sales of \$4000 and \$3000 Olaa 6s unchanged at 97.50, and of \$6000 and \$2000 Hilo Extension 6s unchanged at 94.50, are reported.

There are more buyers than sellers of sugar stocks at present, which accounts for the smallness of blocks changing hands. Every little mite offered is eagerly snatched up by brokers with orders to fill.

#### WM. McQUAID ASKS CHILDREN GO TO CONVENT

As an aftermath of the sensational William M. McQuaid divorce suit that occupied the attention of the Circuit Court about a year ago Judge Whitney this morning heard arguments on the motion of counsel for McQuaid, the husband and father, for a modification of the decree, to give him the privilege of sending the two minor children out of the jurisdiction of the court. He represents that the children's health requires a change of climate, and asks that he be given permission to send them to the Dominican convent, at San Rafael, Cal. Attorney E. C. Peters, counsel for the mother, testified he might consent to the granting of the motion if the children were examined by a physician appointed by the court and found in need of a change of environment and climate.

On this agreement the court announced that Dr. F. F. Hedemann will be selected to examine them. Later he will be placed on the witness stand and after his testimony is given direct argument on the motion will be heard.

on July 4, John O'Rourke has arranged a special meeting for Saturday between St. Avon, the star of the July 4 races, and Supervision, with gentlemen riders up, the jockeys being discarded for the time being. Perhaps you can't get just what you want by arbitration but it is cheaper than fighting. Most men are too cowardly; a few are not cowardly enough. The great facts of nature are not so mysterious to me as some of the unnatural things men do. Outside of a story book we never against an answer to the criticism that the horses were not "run on the level" in the big race meeting.

#### Kahanamoku Fund Starting Well

Idea of Substantial Gift for the Great Swimmer Is Indorsed

The first local contribution to the Duke Kahanamoku fund came early this morning, when the Clarion sent \$10 in gold to the Star-Bulletin to help along the movement launched yesterday for a substantial gift for the great Hawaiian athlete now winning honors in the Swedish Olympic games.

Suggested by two sportsmen of Hana, Maui, whose letter enclosing a check for \$15 reached the Star-Bulletin yesterday and was published yesterday afternoon, the fund has struck the popular note. As soon as its object is understood, it is freely predicted by the friends of the crack swimmer that the public response will be more than hearty.

(Continued from Page 3)

#### RACE AGAIN TO PROVE SQUARE

Hilo Railroad Train Runs Down Japanese Working Crew. Four Escape

[Special Star-Bulletin Aerogram] HILO, T. H., July 11.—As a protest against an answer to the criticism that the horses were not "run on the level" in the big race meeting.

# Shipping

## FIRE PROTECTION URGED FOR TERRITORIAL WHARVES

The system of wharves owned and controlled by the Territory of Hawaii are either totally without or woefully lacking in needful protection against fire, in the opinion of members of the Harbor Commission, who completed a tour of inspection along the waterfront this morning, in company with Harbormaster Foster.

Commissioners, Berndt, Wakefield and McStocker, spent some hours in visiting the several wharves. During the tour of the shipping district, the commissioners were present at a test made by George Paris, who represents a mainland gasoline force pump manufacturer.

The equipment has been installed at the city boat landing. The pump was operated for some little time and during the course of the trial a four inch stream of sea water was thrown for a distance of one hundred feet.

Harbormaster Foster has for months past urged a better fire protection for wharves. In one or two instances the wharves are but partially served through the city water mains.

It is freely predicted, however, that should a fire gain fair headway on any of the wharves, it would be impossible to save the structures, because of a shortage of water.

It is believed that were independent water pumping plants operated by gasoline, installed at the several wharf buildings the danger from a total destruction of the wharf would be reduced to the minimum.

Another point brought out at a gathering of the Harbor Commission was the fact that no insurance is carried by the Territory on the several wharf buildings.

The Commission also made an inspection of the two Interisland wharves to better determine the feasibility of widening these structures. It is proposed to condemn the old Kahu wharf, and remove the structure. Then would follow the widening of both the Mauna Kea and newly acquired Maunaloa wharves, in order that the coasting steamship company might better handle freight shipments.

**Four New White Star Liners.** The report that four White Star liners, each of from 18,000 to 20,000 tons, were to be built for the Australasian trade, is somewhat premature. Beyond the fact—as was announced some months ago—that one 18,000-ton vessel, intended for the Commonwealth service, was under construction for the "White Star" line, Dalgety and Co. have received no information from Liverpool, and are, therefore, unable to either affirm or deny the rumor current in Hobart that the "White Star" liners would probably call there regularly for general cargo, water, and coal when homeward bound. At present, during the fruit season, the "White Star" liners make a call at the Tasmanian port to ship apples for London. Instead of making this call at Hobart, as the mail liners do when coming from Sydney to Port Melbourne, the "White Star" vessels go to Hobart after leaving Melbourne. The reason for this is that if they took fruit on board at Hobart, before coming to Melbourne, to complete loading, their draught, when again leaving Melbourne, would be possibly too great for them to pass through Port Phillip Heads in safety.

Discussing the question of the navigation of Port Phillip Heads by the 18,000-ton lines now being built, Mr. Clements, shipping manager at Melbourne of Dalgety and Co., Limited, states that it would be impossible for such a vessel, when fully loaded, to navigate the "Rip," where a draught of only 29 ft. is regarded as the limit of safety. The draught of the new liner is 34 1/2 ft., so that she could only come into leave Melbourne when her holds were anything but full of cargo. It is interesting to note that with the improvements made by the dredge Triton in the eastern channel of Port Jackson the new liner would have no difficulty in navigating these waters. The new liner, which is being built at the Belfast yard of Harland and Wolff, is to be named Geranic.

**German Line Encourages Travel.** The North German Lloyd, Bremen, has forwarded an announcement of the extension and enlargement of its "travellers' cheques" system, which as a result of the plan now put into effect, will make Norddeutscher travellers' accommodation cheques worldwide in scope.

The adoption of the "Mandats de Voyage," the French issue, and the Circular Notes, the British issue, completes the cheque service. The company now issues the following: International Reiseschecks (Germany) for 50, 100 and 200 marks; Travellers' Cheques (United States) for \$10, \$20, \$50, \$100, and \$200; Mandats de Voyage (French) 50, 100 and 200 francs; Circular Notes (British) 5, 10 and 20 pounds sterling. The latter is for issue in all countries of the world.

The N. D. L. offices now number about 5,000, and travellers can go to few places on the globe without finding an office that will cash these cheques. New offices are being continually added.

### TIDES—SUN AND MOON

Date	High Tide	Low Tide	Sun	Moon
July 11	11:44 a.m.	5:32 p.m.	10:04	4:15
12	12:39 p.m.	6:18 p.m.	11:15	4:50
13	1:29 p.m.	7:02 p.m.	12:23	5:26
14	2:13 p.m.	7:44 p.m.	1:28	6:03
15	2:53 p.m.	8:24 p.m.	2:30	6:31
16	3:29 p.m.	9:02 p.m.	3:29	6:51
17	4:02 p.m.	9:38 p.m.	4:25	7:03
18	4:32 p.m.	10:13 p.m.	5:18	7:08
19	4:59 p.m.	10:37 p.m.	6:08	7:06
20	5:23 p.m.	11:10 p.m.	6:55	6:58
21	5:44 p.m.	11:41 p.m.	7:39	6:44
22	6:02 p.m.	12:10 p.m.	8:20	6:25
23	6:17 p.m.	12:37 p.m.	8:58	6:02
24	6:29 p.m.	1:03 p.m.	9:33	5:75

New moon July 14 at 2:42 a. m.

### WEATHER TODAY

Temperature—6 a. m., 75; 8 a. m., 80; 10 a. m., 81; 12 noon, 81. Minimum last night, 74.

Wind—6 a. m., velocity 3, direction East; 8 a. m., velocity 6, direction East; 10 a. m., velocity 10, direction Northeast; 12 noon, velocity 11, direction Northeast. Movement past 24 hours, 142 miles.

Barometer at 8 a. m., 30.02. Relative humidity, 8 a. m., 68. Absolute humidity, 8 a. m., 7.435. Dew-point at 8 a. m., 67. Total rainfall during past 24 hours, 0.

### VESSELS TO AND FROM THE ISLANDS

(Special Cable to Merchants' Exchange.)

**Thursday, July 11.**

**SAN FRANCISCO**—Sailed, July 10, 6 p. m., S. S. Honolulu, for Honolulu.

**SAN FRANCISCO**—Arrived, July 10, 8 p. m., U. S. A. T. Sherman, hence July 3.

**VICTORIA**—Sailed, July 10, S. S. Zealandia, for Honolulu.

**AEROPRANS.**

**S. S. NIPPON MARU**—Will arrive from San Francisco tomorrow (Friday) at 11 a. m., and will sail for Yokohama at 5 p. m.

**U. S. A. T. LOGAN**—Will arrive about noon tomorrow from San Francisco.

### Opium Fines of Two Skippers Refunded.

Collector of the Port, Frederick Stratton at San Francisco was notified from Washington by the secretary of the treasury that the fines posted by the steamship companies for Captain H. E. Morton of the Mongolia and Captain H. S. Smith of the Nippon Maru for having contraband opium on their vessels were refunded. The amounts of the fines in both cases had been reduced to nominal and were posted to allow the vessels to clear. The government can still proceed against the captains in civil suits to collect the amount of the fines.

### Busy Day at Alaka Wharf.

Alaka wharf will be a lively place tomorrow with the arrival of the United States Army transport from San Francisco and the Japanese liner Nippon Maru also from the California port. The Nippon Maru is expected to reach port along about 7 o'clock, followed some hours later by the Logan. The troopship will berth at the Ewa side of the structure. The Nippon Maru may be dispatched for the Orient at 5 o'clock while the Logan may be held here, until Saturday morning before sailing for Guam and Manila.

### Schooner Eric Nearing Port.

The American schooner Eric, laden with a full cargo of nitrates from Tonga, is due to arrive at the port daily. This vessel is bringing cargo consigned to the Pacific Guano and Fertilizer Company and upon arrival will be berthed at the railway wharf. The vessel is now forty days out from the nitrate port.

### Hyalades now at Hilo.

The Matson freighter Hyalades is at Hilo today taking on the last of a large shipment of sugar, destined for San Francisco refineries. The vessel also carries 825 tons molasses secured at the Maui ports.

### Japanese Buy a German Steamer.

The Hamburg-American Line has sold the steamer Hellas to Japanese buyers. She is of 2,438 tons gross and 1,479 tons net register, and was built at Stockton in 1894, with dimensions 290 ft. by 42 ft. by 17.4 ft.

### ENDS LIFE

(Continued from Page 1)

agnony. Weisbarth administered an emetic and summoned Dr. R. W. Benz, but Mrs. Weisbarth's struggles gradually subsided and she began to sink rapidly, so rapidly that when Dr. Benz arrived she was breathing her last.

In one hand she tightly clutched a bottle marked "Poison." There were no burrs on her lips. There were no bubbles in her mouth to indicate carbolic acid, and there was no odor about the bottle which would indicate the kind of poison, and Dr. Benz is unable to say just what kind of poison it was that caused the woman's death.

Search of the room disclosed a note, hastily scribbled with a pencil and thrust in among the flowers of a window-box which was in the room. The note was very brief and stated that the writer was seeking death as a means to end the monotony of life, and concluded by asking that the husband kiss the baby for his dead mother.

Deputy Sheriff Rose and Police Officer Simerson took the body from the family residence on Dowsett lane and King street to the government morgue, where the inquest will be held this evening.

### GERMANY ALARMED AT RACE SUICIDE

#### Heavy Decrease in Birth Rate in Prussia Is the Cause

BERLIN, Ger., June 29.—Prussia is going the way of France in the matter of a declining population, if the figures for the past year are any guide.

Though there were over 10,000 more marriages than in the year before, the births were 34,000 less than in 1910 and 57,000 less than in 1908. There were 57,000 more deaths in Prussia last year than usual, most of them being infants, owing to the abnormally hot summer, so the loss to the balance of population was really more than appears at first glance.

Race suicide is, therefore, again a theme for the animated debates of Prussian sociologists, who attribute the condition of affairs to the soaring cost of living. In Germany generally the same truth applies in varying degree, according to locality. Whereas the German birth rate in 1875 was 42.6 per 1000, the last figures for twelve months show barely 31 per 1000.

### SAYS THAW PROPOSED BOTH COMMIT SUICIDE

#### Wife of Stanford White's Slayer Resumes Stand to Testify Against Him

WHITE PLAINS, N. Y., June 20.—Evelyn Nesbit Thaw, wife of Harry K. Thaw, took the stand again this morning to testify against her husband in his action to obtain his release from the insane asylum.

Mrs. Thaw testified that her husband made a proposal in New York in 1904 that they both commit suicide. He had the details all planned, she said. They were to engage rooms at a hotel and take poison. He had even fixed the hour. She, of course, refused.

She testified further that Thaw had complained to her that the food given him while he was in the Tombs was poisoned. He also complained that he could not eat the potatoes they gave him at Mt. Auburn because "there were large lumps of salt-peter in them."

Evelyn Thaw's testimony was interrupted when it was learned that Mrs. Susan Merrill, who rented apartments in New York to Thaw, was in the building. She had been sought for days by the state.

The Great Register for the City and County of Honolulu contained 4360 names at the opening of business this morning. Clerk Kalaokalani reports registrations as coming in very slow.

At the office of City and County Clerk Kalaokalani a heavy registration of voters is reported from the Ninth and Eleventh Precincts of the Fifth District.

The people are rarely so guilty as the gossip about them would indicate. A little bad luck may cause a lot of "talk" about the best of us.

People frequently develop keenest interest in something which makes little, if any difference, to them.

### ODDS AND ENDS AT THE PORT

The schooner Muriel from San Francisco with general lines of cargo, is reported to have arrived at Hana, Maui, yesterday.

The British freighter Kalibia will proceed to North Pacific lumber ports upon the completion of the discharge of a cargo of Japanese coal at Honolulu.

The Japanese liner Nippon Maru from the coast and expected to arrive at this port tomorrow morning is bringing a later mail from the mainland.

It is expected that the Japanese steamer Nippon Maru will be dispatched for the coast of Asia at five o'clock tomorrow afternoon, taking a number of Chinese and Japanese steerage passengers.

The Shinyo Maru to arrive from the Orient on next Monday morning will carry the next mail intended for the mainland when dispatched for San Francisco.

The Interisland steamer W. G. Hall with a fair sized list of cabin and deck passengers and a general cargo will be dispatched for Kauai ports at five o'clock this evening.

A cable received at this port announces the arrival of the United States cruiser Colorado at Bremerton yesterday. The war vessel departed from Honolulu on July 2nd.

Taking general cargo and plantation supplies, the Interisland steamer Nihau has been placed on the berth for dispatch for Kilauea and Anahola at five o'clock this evening.

A big general cargo from the Mainland including freight from New York is aboard the American-Hawaiian steamer Alaskan now enroute to the islands, and due to arrive here on next Wednesday. The Alaskan sailed from Tacoma on Tuesday.

### SUEZ CANAL SHOWS PROFIT AND RATE IS TO FALL IN JANUARY

PARIS, France, June 20.—The affairs of the Suez Canal Company stand on a somewhat different footing to those of other companies, for not only is the British government the holder of a considerable amount of its shares but on its efficiency depends the convenience of the trade between the Mediterranean and the East. In these circumstances a general statement of its finances during the past year is a matter of interest in the world at large.

The total receipts for 1911 amounted to £138,938,224 (£5,521,529), an increase of £4,334,012 over the previous year. The total expenditure amounted to £33,171,192 (£1,326,848), an increase of £25,481 over 1910. The total cost of construction of the canal inclusive of the improvements carried out from year to year, is given as £662,033,560 (£26,481,842).

Together 4969 vessels of an aggregate tonnage of 18,324,794 passed through the canal during 1911, an increase of 436 vessels and 1,742,896 tons.

The Suez canal board have decided to reduce the canal tariff from 1.5 franc to 1.6 franc per ton, starting from Jan. 1, 1913.

### SOUTH AFRICA TAKES EDUCATION TEST TO KEEP ASIATICS OUT

CAPE TOWN, Cape Colony, June 20.—The policy of the Union government with regard to the vexed question of the immigration of Asiatics was outlined by General Smuts, the minister for the interior, moving the second reading of the immigration bill.

Though exceedingly anxious to foster white immigration, the government, he pointed out, was equally anxious to keep out Asiatics. After a great deal of consideration the government had decided to adopt the recommendation which had the support of the government of India, to apply to the Australian education test.

Educated professional Asiatics would be allowed to enter South Africa in limited numbers, but arrangements would be made with regard to other Asiatics which would prevent an influx of these people. With regard to Asiatics already domiciled in South Africa it was his intention at the instance of the imperial government to introduce an amendment dealing with their particular case.

### PASSENGERS DEPARTED

Per str. Claudine, special trip to Kauai ports, July 10.—Mrs. Abby Walei, Mrs. K. Kaahale, Mrs. P. Kaahale, Mrs. W. Kalua, Mrs. J. K. Kalua, J. N. Koomoa, Harriett Lelaoha, S. Morniya, Rev. T. ### TRANSPORT SERVICE

Logan, sailed from San Francisco for Honolulu July 5.

Sherman, from Honolulu for San Francisco, sailed July 3.

Sheridan from Honolulu for San Francisco, Arrived April 7.

Cook, at San Francisco.

Enford, stationed on Pacific Coast.

Warren, stationed at the Philippines.

Thomas, sailed from Honolulu for Manila, arrived July 2.

Supply, sailed from Honolulu for Seattle, June 15.

### Phosphate Rock from the South Seas

Phosphate rock from Makatea, to the amount of two thousand tons is expected to arrive at the port within a few days, as cargo in the Norwegian freighter Promethus. This vessel has sailed from south sea ports and should show up in the harbor not later than next Monday, according to the calculations of T. H. Davies & Company, the local agents for the steamer. The Promethus has made several trips between the phosphate islands and Honolulu. The vessel will be berthed at the railway wharf.

FORESTRY BOARD GIVEN \$48,000 FOR FISCAL YEAR

The sum of \$48,000 for general expenses for the fiscal year beginning July 1, 1912 is granted by the board of agriculture and forestry by the committee on allotments of the conservation fund, which met at the Governor's office this morning. Of this sum \$4000 comprises the remainder of the appropriation for the last year, which the board has not yet used.

In addition a special allotment of \$4000 is made for the construction of animal quarantine stations at Hilo and at Kahului, on Maui. The animal quarantine station at Honolulu, as extended by the \$1000 appropriation authorized by the committee two months ago, is considered sufficiently large to handle the work at this point for the next twelve months, at least.

The committee made a number of allotments on May 13 for the new fiscal year, but those were tentative, as it was impossible to obtain accurate information as to the amount of the tax receipts available. The taxes are in now and the board of agriculture and forestry has had time to investigate its requirements definitely and fully.

The only items modified by the committee were those relating to the board of agriculture and forestry, the two allotments previously made, \$42,000 and \$1000 being combined and \$1000 added, making a total new appropriation for general expenses of \$44,000.

The scope of the veterinary and entomological work is to be extended materially under the increased funds at hand. The need of this extension Governor Frear says, has been realized for some time, but the necessary allotments for it has been delayed until sufficient funds were assured. Those present with the Governor at this morning's meeting were J. R. Cooke, Marston Campbell, Dr. A. V. Wilcox of the federal experiment station and three members of the board of agriculture and forestry.

ARMORY FUNDS NOW IN SIGHT

Fourteen thousand dollars should soon be made available by the action to be taken on Saturday noon, at which time the city and county Board of Supervisors will meet and pass a second reading a special appropriation for an armory building.

Following the favorable report of the ways and means committee, the board took immediate action in regard to assisting the Territory in the erection of a suitable building for the Hawaii National Guard.

The appropriation will pass a final reading and be available by the latter part of the month.

The matter of selection of the lowest bidder for a complete set of brass band instruments will be determined following the recommendation of the ways and means committee. Two local firms entered the lists to furnish the members of the city and county band with a new equipment of instruments.

The meeting to be called for Saturday is expected to bring to the fore several bidders among local contractors, who will be in the market to furnish a curb for Kalakaua avenue, for which improvement the board has passed an appropriation of three thousand dollars. The award of the contract will be determined by the road committee.

Contractor John H. DeFries, who submitted the lowest bid for the construction of the Moanalua-Puuloa road, is expected to be awarded the contract for this strip of three miles of highway at the next meeting of the board. Labor claims and general expense bills which have been accumulating at the clerk's office will be passed, much to the joy of a large force of city and county employees.

SEVEN BOYS ARRESTED AS BICYCLE THIEVES

With the arrest of seven alleged bicycle thieves yesterday afternoon and this morning, Captain Kelleit thinks that he has put an end to the epidemic of bicycle thefts that has assailed Park for the past week. The alleged offenders are Japanese, Chinese and Hawaiian boys who have been making a practice of taking bicycles and "loaning" them to their friends.

The following were arrested and will be taken before Police Judge Monsarratt next Monday morning, Jas Kanui, three charges; Lee Muk, Chang Chong, three charges; I. Taa-mori, Ah Wood, O. Kamikani, and J. Yasunaga.

REAL ESTATE ITEMS

Dr. Hutchinson, sales manager of the Kaimuki Land Co., reports having sold this week four lots at Ocean View for \$2200 cash, or at the rate of \$550 a lot.

J. R. Galt has bought from J. L. Fleming his lately reported purchase of a large strip of land at Liliha and Wylie streets. The price was \$5000. It is probable that a fine residence will be erected on the land.

The army transport Logan will arrive here at noon tomorrow, according to a wireless received by the depot quartermaster this morning. She will leave for the Philippines Saturday morning.

The Logan carries only casuals this trip. Several officers are coming on her for station here.

Headless Skeletons Found; Frightened Laborers Flee

Grisly Relics Uncovered on the Site of New Palama Settlement House

Four skeletons, two of them headless, which were dug up yesterday afternoon by Japanese laborers employed upon the excavation for the new Palama Settlement house, caused some excitement for a few moments after their disinterment, and have since been the cause of much conjecture and comment as to their identity and presence in the locality.

No fragments of clothes or other effects were found along with the skeletons, which crumbled to small pieces shortly after their exposure to the air. The four skeletons lay side by side, and when the relics were uncovered, the laborers threw down their spades and fled.

After mingled threatenings and cajoleries, the Japanese were induced by their foreman to return to the scene once more, and finally plucked up enough courage to extract the teeth from the intact skulls.

The discovery was made shortly after 3 o'clock in the afternoon. Three laborers were working at the Ewa end

of the excavation when they made the discoveries which at first nearly frightened them out of their wits and later made them too proud to continue to do ordinary digging along with their fellows.

No theory as to the identity of the four skeletons has been arrived at, but it is thought by some that the skeletons are remains of bodies buried in the vicinity during a plague fifty years ago. Formerly, there was a cemetery two blocks west of the settlement, and it is said that at one time there was a graveyard in the immediate vicinity.

There is also a theory that perhaps the disinterred remains may be the solution of some forgotten murder mystery in which the perpetrators and victims' friends have been long forgotten. The fact that two of the skulls are missing indicates that two of the victims might have been decapitated before burial.

There were no personal effects of any kind such as rings or money found in the vicinity, and the conclusion has been arrived at that if the skeletons were those of persons who had met with foul play, the bodies had been robbed of every vestige of jewelry and clothing before being buried.

The skeletons were very large and well-proportioned.

RAINS BREAK LONG DROUGHT ON MAUI AND PROSPECTS BRIGHTEN

WAILUKU, July 9.—Tuesday night there were rains on various parts of Maui. The rain in Kula and at Ulupalakua was sufficient to break the drought of the last few months, and the ranchers feel much encouraged over the cattle prospects. The Kula pipe line has been the only thing that has prevented the dying of the cattle by the thousands. While the residents in Eastern Kula had to depend largely upon their cisterns, which did not entirely run dry in all parts during the drought, the water was turned to the further end of the pipe line, where there was absolutely no water to be had in the cisterns. Here the cattle got their regular supply of water in the big tanks.

At the Haleakala Ranch, however,

there was no shower on Tuesday night so it was reported, and the record of 101 days without rain was unbroken. Never has such a long period been known on this portion of Maui without at least some showers.

At Olinda there was rain above and heavy showers below, but at Olinda itself there was not a drop of rain.

On the cane fields in Makawao and Pala the rain did no end of good, while at Wailuku on Saturday the ditches were filled. On Tuesday afternoon every thing was overflowing because of the freshet. On Tuesday night the whole Wailuku region got a soaker. People as a result feel better and take heart once more over the prospects for the future. The situation had become really serious.

NEW SUGAR TRUST, TO OPERATE IN FAR EAST, IS NOW REPORTED

News has been received here of an alleged attempt to control the sugar industry in the Far East through means of a trust.

One Exchange says: "The proceedings of the European sugar conference raised many questions of the distribution of sugar. The possibility of the extension of the cultivation of sugar beets in various European countries has been much agitated but now eyes are more definitely turned towards the East, where conditions exist for the cultivation of the sugar cane, vast areas awaiting exploitation. "The shrewd financiers prefer to

participate in energies in an approved and tried sphere, rather than devote their capital to experimental schemes at home.

"A British group is taking a great part in the movement, and vast enterprises in British India, Burma, and other British centers in the East are to be developed and exploited. Other branches will extend operations to the Philippines, and even to China and Japan.

"The operations, it is reported, will be carried out on a most gigantic scale, and already plans are well forward for the erection of crushing mills and refining establishments in various centers."

GYMKHANA FOR AUTOS PLANNED

To launch a brand new automobile club, and boost the sport in general, a lot of motor enthusiasts are planning a gasoline gymkhana, to be given at Kapiolani Park some Saturday afternoon next month. The idea is to have a varied list of events, from tilting at the rings, and picking up potatoes in machines, to a sure-enough ten-mile race.

Sydney R. Jordan, of the Hawaii Promotion Committee, formerly secretary of the defunct Automobile Club of Hawaii, is promoter-in-chief. A committee composed of A. L. Castle, Fred Wichman and Ed. Ooutitt has taken over the arrangements, and the garages and supply houses of the city stand ready to donate special prizes. The main idea is to revive interest in organized motoring, and make the meet the first of a regular series.

SUFFRAGE BUCKET BRIGADE PREVENTS HEAVY FIRE LOSS

CORTE MADERA, July 2.—A dozen or so suffragists who had learned the value of teamwork during the campaign for their cause in this state proved to be the right women in the right place at a lively blaze here today. Forming a bucket brigade and brushing aside a group of loiterers and several of their more timid sisters, they confined the fire to two cottages belonging to Stanley Hilyard and J. Locksmith, and only gave way when volunteer firemen arrived from San Anselmo and Ross. Water was scarce, and the timely work of the suffragists is believed to have prevented a heavy fire loss.

Usually, when a married man is young, good-looking and smart, he makes his wife a great deal of trouble.

ASAHI'S LOSE OUT IN BASEBALL PROTEST

Unless the board of arbitration of the Oahu Senior League reverses the decision of President Charles Chillingworth, which is unlikely, the Asahi Baseball Club loses out in its protest of the thirteen-inning game that was lost to the J. A. C.s some weeks ago. In this event the J. A. C. and Star tie for first place in the first half of the league series stands, and must be played off.

The league managers met at noon today in President Chillingworth's office, and continued the hearing of testimony by the managers, captains and umpires.

Briefly stated, the Asahi's point was that when one of their batsmen was given first for the opposing catcher's interference, the Asahi runner attempting to steal home should have been allowed to score, instead of being sent back to third, as the ball was hit by the batsman.

President Chillingworth ruled against this protest, and Manager Abe of the Asahis noted an appeal to the arbitration committee of the league, consisting of A. L. Castle, John Wise and Charles Cottrell.

Arrangements for the tie play-off were continued, pending a decision, and as Manager Abe waived his right to the protested game, saying that he merely wanted the point decided for future reference.

The Stars and J. A. C.s will play a series of two out of three games for the championship of the first series, commencing next Sunday. As a curtain-raiser to the contest, the Portuguese will play the Hawaiis. The Asahis and P. A. C.s will meet in the first game of the following Sunday.

KAHANAMOKU FUND

(Continued from Page 1)

games, on the night after the lad jumped into national fame by cracking a world's record in the local harbor, said this morning that the house and lot will make a splendid gift.

"It need not be very costly, and the house, of course, would be a modest one," said Mr. Rawlins. "I am thoroughly in sympathy with this idea. Duke's example is a splendid thing for clean amateur sport in Hawaii."

A. L. C. Atkinson suggested yesterday that when Duke comes home, the presentation of the gift be accompanied by a revival of the old-time "hokapu," such as used to greet the return of mighty men of the early days. "The idea of the permanent gift for Duke is a mighty good one," says Atkinson. "Honolulu and Hawaii as a whole can well afford to raise money for this purpose."

The fund now starts off with the following: Sportsmen ..... \$15 The Clarion ..... 10 \$25

The Star-Bulletin is receiving contributions in cash, by check, postoffice money order or draft. Acknowledgment of the contributions will be made from day to day in these columns, with the name of the donor where this is wished. Contributions are asked, when communicating by letter, to address letters to "Duke Kahanamoku Fund, Care Honolulu Star-Bulletin, Honolulu, T. H."

L. D. TIMMONS, former manager of the Hawaiian Star, was a departing passenger by the Korea. Mr. Timmons goes to the Coast on a short business trip and will probably return by an early steamer.

paring to lay, and not finding one with number of eggs in it, would collect them from other nests, fettable lay in, between her breast and bill. Her temper has always been rather peppery, but by speaking gently to her she will rise and let one take eggs from under her; but she has the wildness of the foreign breeds, and is not a pet and does not care to be handled. She has not averaged to cost us over six cents per week.

WHAT ONE COMMON HEN HAS DONE

Record of Black Spanish Fowl Given by an Interested Suburbanite

To those who boast of what their hens can do, their attention is called to the following, clipped from an exchange:

Almost eight years ago, when we bought a home in the suburbs, we began to keep hens, because that was one of our many reasons for becoming commuters, says a contributor to Suburban Life. We purchased a mixed lot, to give the business a tryout, and among them was a solitary black Spanish, more than a year old. She laid our first egg the morning after her arrival, and continued laying without a vacation until late in the fall, but is not a winter layer. She has been doing business at the same stand all these years; has always kept her brilliant black plumage when not in molt, and is just as clean limbed as any pullet we own. Up to her fourth year, she never offered to sit, when it suddenly seemed to occur to her that her duty in that direction had been neglected, so she took a nest, sat on it one day, and the next morning marched into the yard with an imaginary flock of chicks at her heels. She clucked and clucked, and for some days mothered the old hens, feeding them, etc. at the end of which she appeared to consider her brood fitly able to be self-sustaining and went on laying again. That was her first and last attempt at broodiness.

We carefully watched her output for the first three years, as she laid an egg unlike the rest of the flock (Rhode Island Reds), and she came nearly up to the two hundred mark per year, but her egg production has steadily decreased during the succeeding years, until the past season it fell to about 70 eggs. She is a very small eater, has skipped molting twice, but is as fit as ever, if not keener. An amusing peculiarity of hers was to look into all the nests, when pre-

Blue Serge Suits

There is no fabric more genteel, than the popular and much-wanted blue Serge. No gentlemen's wardrobe is complete without a suit of this fabric. They are suitable for all occasions, and always give a man the appearance of being well dressed. We show these serges in various wales, also fancy weaves.

You Can't Be Happy With a Headache

Probably more pleasure is spoiled because of headaches than from any other reason. When your head aches it not only makes you unhappy but it is very apt to interfere with the pleasure of everyone else around you. One can't be expected to be very cheerful and pleasant when one's head is simply splitting. And there is no need of suffering. Keep a box of

Stearns' Headache Wafers (Shac)

In the house when you are at home—carry it in your bag when you travel. That insures you against the annoyance of headaches—your own and other people's. Stearns' Headache Wafers are as pure as they look, and the snow-white wafers certainly indicate purity in the highest degree. One dose cures, and leaves your head "clear as a bell." It is so much better than any other kind that your own interest demands that you insist on STEARNS'—the genuine.

WEDNESDAY JULY 13, 1912

There is a personal nobleness and even sacredness in work. Were he ever so benighted, forgetful of his high calling, there is always hope in a man that actually and earnestly works.—Carlyle.

IDEAS WORTH KEEPING.

It's refreshing to talk with members of the Harbor Commission.

Not a man of the five but is brimming with ideas as to harbor and wharf improvements for the Territory. And these ideas are not only for the immediate present, but for the future.

The Commission is now looking ahead to the next two-year period. In its short existence it has amply justified the legislative action that created it. Its members have had their difference, and have fought them out, "got them out of their system," and are progressing fast.

The point of it is that the next Legislature will be called on to give continued support to this Commission. There is much work to be done for islands outside of Oahu. Honolulu and Hilo, and other ports in lesser degree, are getting ready for an influx of trade when the Panama Canal opens. The Commission should be given funds to carry out the ideas and experience of the past year, and the businessmen of the Territory should be giving consideration to the needs of the next two years.

THE CAUSE OF CLEAN SPORT.

Duke Kahanamoku's consistent success at the Olympic games and the manly way in which he has borne himself through a period of victory that might well upset the modesty of any athlete, are sources of pride to his friends here and reflect credit on the islands.

The suggestion that came from Maui yesterday and was reported in this paper, of a substantial gift for the young athlete when he returns from Sweden, is a timely and appropriate idea. Probably never before in the history of Hawaii has there been such an opportunity to reward worthy athletic effort and encourage clean sport. It is not for Duke alone; it is for every young man growing up in the islands. Before their eyes Hawaii should place the highest ideals of sportsmanship, of indomitable effort, of unbeatable spirit.

One after another, star athletes of the mainland have failed to live up to past performances in the heat of the Stockholm conflict. Horjine, the world's champion high jumper, got no better than third place the other day. American flyers lost yesterday in the 1500-meter race.

Duke not only set a new world's record in the trial heat of the 100-meter swimming race, but, in the face of the disappointment occasioned by the decision of the judges that the race should be swum over again, once more demonstrated his speed and nerve and left behind the fastest men the world could send against him.

It is perhaps too much to hope that he can keep up such a pace through all his races. Few winners can "repeat" day after day. He has already exhibited the highest qualities of athletic courage, and won signal honors at home and abroad.

Hawaii wants to encourage such physical and moral stamina. Let the Duke Kahanamoku fund go on! It was started by the people not for Duke alone, but for all the sturdy youngsters who will be Hawaii's men in another decade. The Star-Bulletin is glad to serve the

EVENING SMILES

"I should like to open an account at this bank, if you please." "We shall be glad to accommodate you madam. What amount do you wish to deposit?" "Oh, but I mean a charge account, such as I have at the big dry goods stores."

cause of clean sport by receiving contributions to this fund. In another column of this paper is published the news of the fund to date.

WHITHER, MR. ROOSEVELT?

If cable dispatches from Oyster Bay this morning read aright, Roosevelt is going far to encourage an indorsement of Woodrow Wilson at the convention of the Progressives next month.

The colonel's chief thunderbolt seems to be directed at the high cost of living, and it was precisely this that Governor Wilson took as his campaign "keynote" and drafted into the Baltimore platform. Moreover, both Roosevelt and Wilson are tying the high cost of living to the present protective tariff rates in the relation of effect and cause.

With their campaign thunder booming in the same key, and their declared ideals of citizenship duties as like as two peas in a pod, Roosevelt and Wilson have so much in common that Roosevelt after this latest pronouncement may well feel that they can indorse the New Jersey man. It is always to be remembered, moreover, that Roosevelt has again and again declared himself willing to stand aside and let another man take the Progressive nomination provided he could trust that man to carry out Progressive principles.

DON'T GIVE UP THE BUILDING.

It is deeply to be regretted that the commercial bodies can see no way clear to finance the proposed commercial building. It was the dream of the late James F. Morgan, and his activity, energy and practical enthusiasm revived the subject after it had been allowed to be forgotten. Now it is to be hoped that the businessmen of the city, though the project is not now feasible, will not altogether give up the idea, but will keep on the alert for a building site and when this is found, or when it develops in the natural development of the city, will renew the agitation for the structure with the zeal and purpose that Mr. Morgan always gave to his public work.

Wilson's ideas on the tariff, expressed in the Democratic platform published in this paper yesterday, are not particularly alarming. The difficulty will be to hold a Democratic House down to a sincere interpretation of Wilson's statement that tariff revision should not cripple legitimate industry.

Delegate Kuhio's luau for the yachtsmen was notable for hospitality and attention to every detail, and was an event that neither local nor visiting yachtsmen will forget. It furnished an emphasis to a successful race that Hawaii hopes will be an annual event.

Republican precinct club nominations are tomorrow night. The man who talks at length about reforming the county administration has his chance to begin by seeing that good men are put up for office.

Democrats and Home Rulers on Hawaii are working on a plan to divide the offices equally. This is the kind of a party split that should prove popular.

Carnegie is reported as preparing to finance another hunting trip for Roosevelt. Presumably in furtherance of the Ironmaster's work for international peace.

If Senator Cummins' committee to investigate Taft's victory really wants some first-hand testimony it should sit at Oyster Bay.

Roosevelt's campaign has already cost someone \$2,000,000., says a dispatch. Apparently there are other Contributing Editors.

The man who visited the police-station in pajamas yesterday morning was probably simply looking for a likely place to sleep.

When a cook's trouble delays the sailing of the Mauna Kea the servant problem is getting beyond reasonable bounds.

Reno is branching out in the divorce line with Roosevelt men launching there the break-away from the old party.

The nigger in the Chicago woodpile seems to have been the Southern delegate.

LITTLE INTERVIEWS

T. J. RYAN—The way Bryan kicked that Tammany tiger around at Baltimore was cruelly to animals.

B. VON DAMM—I plead not guilty to Manoa secessionism. I was not even present at the insurgent meeting.

A. C. ATKINSON—It is not will there be a third party. There is a third party. The Republican party is no more.

JAMES A. WILDER—The boys that went on the round-the-island like enjoyed every minute of the outing and have benefited both mentally and physically by it. There will be more hikes in the future.

SUPR. POPE—We are getting our annual reports ready now; one for the Supervisors and the other for the Governor. Both show our work accomplished for the past year and point out future requisites for caring for the increase in school attendance.

INSPECTOR GIBSON—Thirty more have enrolled their names as pupils in the summer school, which swells the total register to one hundred. There are many teachers in town now although the number is gradually decreasing as each steamer leaves for the coast.

A. E. LARIMER—At a meeting of the Y. M. C. A. membership committee held yesterday seventeen applications for membership were approved, which swells the roll to 1070. Ten of the new applications are for senior memberships; the other seven are boys.

JACOB COOPER—I heartily approve of the Star-Bulletin action in starting to raise by popular subscription, a fund to be given as a token of appreciation to Duke Kahanamoku. He deserves something worth while for the good promotion work he has done for Hawaii.

JUDGE P. L. WEAVER—Such films as that of Oliver Twist have a great educational value. Here is a drama performed by such famous actors as Nat Goodwin and company, which I could not have seen until it was brought on the Liberty theater screen. Another fine show was the production of the Odyssey at the same place.

THE PRESS and the PEOPLE

HARPER'S WEEKLY

Mr. Roosevelt could have beaten Mr. Taft but for the fact that he would let nobody else but himself have the nomination. On Wednesday night the President lacked a full dozen essential votes, which he never could have obtained as against either Hughes or Cummins or probably ever Hadley. Roosevelt's selfish candor gave them to him.

Mr. Roosevelt finally after much vacillation opposed Senator Root for temporary chairman—why? Because the most distinguished member of the Republican party would likely sacrifice his own reputation by making unfair rulings? Not at all. It was because the figures before Mr. Roosevelt showed that his only chance rested upon unfair rulings in his own favor. In other words, there had to be a presiding officer who would uphold a minority as against a majority of the national committee and bar from voting all delegates against whom contests had been trumped up for that distinct purpose, or he was up a tree. The bluff, of course, proved futile.

Governor Hadley will not bolt. Neither, presumably, will Senator Borah, nor, probably, Senator Cummins. When the bolters have been sifted, if it really comes to that, they will be, we suppose, a select and youthful company.

Some of the men who were lately out with Roosevelt learned at Chicago to see him somewhat as others see him, and to understand the basis of the iron determination of a great many respectable characters that he shall never be President again.

If Mr. Roosevelt himself could once thoroughly understand this feeling, it would be a great help to him in his business. His evident impression about himself is that he is a consecrated vessel, appointed to convey righteousness to the people. All those who would impede or jostle him and spill his righteousness—the people's treasure—he regards as enemies of God and man.

A considerable proportion of his adherents concur with him heartily and sincerely in these views. A good many of them are very good people, who are going to be serviceable again presently to all good causes. But they will not be of much use until they get their feet back on the earth, and stop sacrificing to their idol and learn to see him as he is. Neither will he be any good until his sense of sanctification, and his conviction that he is The Only One, has evaporated. As it is, he is the Jonah of the Progressives. So long as he stuck to his declaration of 1904 he was a powerful influence. After juring that, straightway he became an intoxicant and a menace.

BOARD MAY ABANDON RUSSIAN COLONIZATION

There will be a meeting of the Board of Immigration at three o'clock this afternoon at the offices of C. Brewer & Co., Ltd. The board consists of Richard Ivers, chairman, Ernest W. Wodehouse, J. J. Carden, A. L. C. Atkinson and F. L. Waldron. It is probable that action will be taken on the planters' ultimatum against taking any more Russian labor, and, if the board concedes the reasonableness of the grounds presented, there will be nothing left but to recall Dr. Victor S. Clark, commissioner of the department of Immigration, labor and statistics, from Anchuria.

LETTERS ON TIMELY TOPICS

Wahiawa, H., July 9, 1912. Editor Star-Bulletin; Sir:

I am a subscriber to the Star-Bulletin, and your article "Would Place Deserters of Wives in Jail" has touched me on a raw spot.

My wife has deserted me, why I do not know.

I have been informed I must support her and cannot get a divorce until she has deserted me for several years; must take her back whenever she feels inclined to come and cannot stop her leaving again. In other words, I must keep a kind of boarding house where she can come and go at her pleasure, for years, before I can get a divorce for desertion.

I am maintaining a good home for her, at considerable trouble and expense; and am afraid to go boarding, because I think she would then allege non-support and maybe get a substantial alimony.

For over three years I have lived in Oahu; have property here and though my life has been one of travel in many countries, this is the only one that has attracted me enough to make me settle down and stay in one place.

I want to do what is right; and do not want to leave the country; but it seems to me, the way the law now is, a man in my position is encouraged to leave for some other country.

If the next legislature approves the bill that is to be introduced through the effort of the Civic Federation, I may be thrown into jail for desertion of my wife. On the other hand if she deserts me I have to wait for years before being able to get a divorce for desertion.

If I am misinformed I wish United States District Attorney R. W. Breckons or somebody else would put me right on this subject.

What I would like to know is "Where does the man come in" in this case?"

KENNETH KRANE.

FOUNDATIONS READY FOR MARINE BARRACKS

Within the next few days the Spalding Construction Co. of Portland will commence actual work on the marine barracks at Pearl Harbor, for which it holds the contract. The foundation lines are laid and some of the excavations dug, and the company is about ready to start the big building.

Progress is also being made on the marine officers' quarters, building by the same company. There are three sets of quarters, to cost \$43,000, but as this number is inadequate to the command, the juniors will have to go under canvas. The total contract cost of the barracks is \$114,000.

WHIPPING POST FOR WHITE SLAVE DEALERS

Stringent Law To Be Passed by the House of Commons

LONDON, June 29.—The late W. T. Stead's propaganda in the cause of social purity is at last bearing fruit. The time is well within living memory when that champion of forlorn hopes and unpopular causes suffered imprisonment in consequence of campaigning for some of the principles now enshrined in the White Slave Traffic bill, which has just passed its second reading in the House of Commons by unanimous vote.

The measure is really aimed at the sinister monsters who fatten upon commercialized vice. "England," said Arthur Lee, who introduced the bill, "has become the clearing house, the depot and dispatch center of the white slave traffic, and the headquarters of foreign agents engaged in this business."

Its principal provision will make the men concerned in this infamous traffic liable to instant arrest. It empowers the authorities to fog them on a third conviction, and aims at penalizing landlords who permit their houses to be used for immoral purposes.

The general consensus of opinion in the country favors the measure, however, which is now being thoroughly debated by a special committee of the House of Commons, with a view to meeting such objections as may be considered unduly to threaten the liberty of the subject.

SUGAR TENDS DOWNWARD

New York Reports No Sugar Legislation Probable This Session

Alexander & Baldwin, Ltd., received the following cablegram today from its New York branch.

"Holders of raws are asking 3.86. Refiners are bidding 3.79. Favorable weather in Europe for growing crops. Ten shilling and half penny bid for October beets, new crop firm at this price. Private estimate of European beet crop 8,500,000 long tons. Old crop advance five due to manipulations, shorts covering.

"No Congressional legislation sugar expected."

The bid for October delivery of beets noted above is 1s 2 1/2d, below today's beet quotation to the planters.

OLD BOSTON TRAVELER SOLD TO THE HERALD

BOSTON, June 26.—The sale of the Boston Evening Traveler, one of the oldest newspapers in the State, to the Boston Herald, was announced this afternoon by J. W. Farley, publisher of the Herald. The announcement reads: "On and after July 1st the Traveler and the Evening Herald will be published together as a combined newspaper from the Herald plant." The Traveler was established in 1825 and for many years was published by Roland Worthington. Both the Traveler and the Herald are 1-cent newspapers.

# IN THE WOMAN'S WORLD

## PUBLIC-SPIRITED WOMEN HAVE DONE MUCH FOR SALVATION ARMY

Broad in its scope, broader in its charities, the Salvation Army stands high today in the organizations in the world and it has grown from a little beginning made in England by the Booth family. Honolulu had its first visit from a member of the army nearly twenty years ago but it was not to be permanent, for the red-jerseyed man who came to start the work turned out to be an independent representative who lacked certain necessary qualifications.

Shortly after, a squad came and installed themselves in headquarters and began the work of caring for the spiritual welfare of the men and women on the street, incidentally combining settlement work with that of religion. There have been no backsets since the beginning and while there may be no built-to-order citadels such as are pictured in the "War Cry" as being a part of the work in cities throughout the world, the Army in Honolulu has its hall at the corner of Nuanuan and King streets that will stand the storms.

**First Rescue Home.**

The first rescue home was the old McCully Homestead on King street, and was occupied for some time until a seemingly better location was found in another part of the city. It was not long, however, before the officers of the Army found that no place could be had for a moderate rental by the many applicants for home and protection. Then came the search for property on which to put up a suitable building. After a time a splendid piece of land was purchased in upper Manoa Valley, and Captain McAbee and Architect Kerr planned the comfortable and commodious building that now houses forty-six children and young girls that would otherwise be homeless. There are over eleven acres included in the property belonging to the Salvation Army and the children have large play grounds and there is ample room on which to build new cottages as they are needed.

It may be said that the occupants of the Home are divided into three groups, the children, the school girls and the older or rescue girls. Each of the different groups have separate apartments and although the two former mingle they see little or nothing of the third group. All of the housework is done by the girls. Each one has her own task and this must be accomplished in the early morning. All of the heavy work such as washing, cooking, and sewing is done by the older girls, who are in most instances very capable. Upon entering the home the girls are taught system, and everything in the place is marked in some way from the bedding to every bit of personal property, and there is a small room filled with tiny cupboards having corresponding numbers and as soon as the laundry is returned it is sorted and properly arranged. In this way all confusion in the linen closet is avoided. In another room Captain McAbee has other small cupboards bearing the names of each of the girls, where the little things that are dear to the childish heart are kept.

**House Well Planned.**

The house is so well planned that each of the groups of girls has a sitting room or study hall and as soon as they spend their leisure hours. The children have a large game hall apart from the main house, the school girls have a room on the first floor and the older girls are on the second floor, while the officers have still another smaller parlor. The girls occupy different sections of the large dining room and an officer is always present at the meals.

Some skeptics have questioned the advisability of having the young girls so closely associated with those who have been taken into the home for protection, but a visit to the home will quickly dispel doubts as to the capability of those in charge to handle and protect that may present itself. The older girls are kept busy working for the younger ones and there are no idle hands or minds about the place.

**Guardianship Held.**

The Salvation Army Home holds guardianship papers for most if not all of the children there and this gives the officers full charge of them and they are not allowed to leave the home whenever the "spirit moves them." Many of the young children are committed to Captain McAbee by Judge Whitney, while others are sent there by women interested in humane work who find them and find that they are in need of a good home, a protecting hand and moral and spiritual training. Many of the young women, however, enter the home of their own accord. At the present time there are only ten young women in the home and there is room for six more at the very least. Often when these women show an attitude and willingness to do the work they are employed by the Salvation Army.

Heretofore the Rescue Home and the religious branch of the Army has been conducted by different officers, but Colonel Cox has been sent here recently to take charge of the work not only in Honolulu but in this group of islands and from this time on the two branches of the work will be combined. A visit to this well-organized home, a talk with Captain McAbee and a glance into the lives of those who have received so much benefit at the hands of this able woman and her assistant, Adjutant Long, has been an education to one who has only a vague idea of their work. These two women have been in Honolulu but a few years and they have made a large circle of friends and have endeared themselves not only to the children who have been in their charge but to the

general public, and their departure from the city is greatly regretted. A hearty welcome, however, is extended to Colonel Cox and Adjutant Duncan, who have been sent here to continue the good work.

## WOMEN SOLVE GOOD ROADS FOR MISSOURI

Young women in the neighborhood of Macon, Mo., have humanized the good-roads problem in a way to make editors stand bareheaded in admiration. The topic of good roads should be voted a gold medal for prominence as the world's dullest subject of editorial comment, but these young women have made it all in a flash alive. They issued an ultimatum: "No good roads, no more buggy rides!" A membership card in a good roads association must accompany every invitation. The muddy roads that lengthen the distance from farm to town are of truly vital importance to the women who are held prisoners in farmhouses whenever roads are bad. The good-roads issue is largely a woman's problem, and the Macon measure is not too severe.—*Collier's Weekly.*

## OLIVER TWIST FILMS ACME OF MODERN ART

No more impressive exhibition of the great advance in the moving-picture art has been seen here than at the Liberty Theater last night, when the famous Oliver Twist reels were put on before a large audience. Nat Goodwin's wonderful impersonation of Fagin lacked only the well-known Goodwin voice to make the depiction perfect.

The audience enjoyed the pictures thoroughly and the theater really deserves a nice little pat for going after the "big stuff" in films.

The pictures show the recent revival of the play with the noted cast of which Goodwin was the star. The many admirers of Nat here welcomed a chance to see him, even in the "movies," while those who knew him only by reputation increased their acquaintanceship.

## MRS. BLANEY LOSES VOICE IN CHICAGO

Last Heard Shouting for Roosevelt at Birth of Progressive Party

**CHICAGO, July 3.**—One well-trained contralto voice was lost during the Republican Convention in Chicago, either at the Coliseum, when the California delegation was shouting for Roosevelt or at Orchestra Hall at the birth of the new progressive party.

The lost voice belonged to Mrs. Isabel Blaney of Saratoga, Cal., one of the women sent as delegates to the Republican convention. Owing to the loss of Mrs. Blaney's voice, the women of Lake Forest and other north shore cities failed to hear a discourse on woman suffrage today.

Mrs. Blaney came to Chicago at the opening of the Republican convention, determined to fight for the cause of Roosevelt. During the convention Mr. Blaney cheered with the rest of the California delegation and was one of the leaders in the cheering at Orchestra Hall when the new party was launched.

The strain, combined with the damp lake winds, caused Mrs. Blaney to lose her voice until she was unable to speak above a whisper. Her husband, Charles D. Blaney, was taken to St. Luke's Hospital at the close of the convention suffering from an infection of one of his eyes.

## WILL SELL RELICS OF QUEEN VICTORIA

Some interesting personal relics of Queen Victoria are to be sold. There are ten lots altogether, and one of the most interesting is the late Queen's copy of Lett's diary of 1835, containing references to the monarch's own autograph to the letters she received. On the front cover is the inscription: "For Her Royal Highness, the Princess Victoria, St. Leonards."

The original drawing is in pencil by Queen Victoria, one depicting an Italian-Swiss scene, the other "Gris in the Character of Elvira." are also included, and both drawings are autographed by her.

More personal to the Queen is her first parasol, a creation of blue silk lined with white, with an ivory tip, and ivory terminals to the ribs. There is also the workbox she used when Princess Victoria, to which is attached a small silver disk engraved with the name "Princess Victoria," while it also encloses a letter certifying that the relics are genuine.

Being a good loser is all right enough if one doesn't make it a habit. Never get it into your noodle that all the dishonesty of politics is on one side.

## DR. MABIE TO BE IN HONOLULU SOON

Dr. Hamilton Wright Mabie, noted publicist and fellow-worker with Col. Roosevelt on the Outlook, will be in Honolulu within a short time on his way to Japan.

He will go to Japan for a six months' lecture tour in October, and speak in three imperial universities—Tokyo, Kyoto and Kyushu—and the Universities of Keio and Waseda, as well as before many chambers of commerce and other organizations.

The tour was arranged by Dr. Nicholas Murray Butler, of the Carnegie Foundation for International Peace, to return the recent lecture in this country of Dr. Inazo Nitobe.

It is the first of a series of exchanges of scholars, scientists and men of affairs between the two countries.

## JUNGCLAUS BOUGHT MUCH MACHINERY, ETC., FOR NEW PALM CAFE

Al Jungclaus, proprietor and manager of the Palm Cafe, returned Tuesday, by Wilhelmina, from a trip to the States, where he has been buying equipment for the Palm, which will be located in the new Brewer building after September 15. He left here with the Shriners and attended the conclave at Los Angeles, after which he went east, as far as New York, stopping enroute at Chicago.

"While I was away I bought entirely new equipment to install in the new cafe room in the Brewer building," said Mr. Jungclaus, in speaking of his trip this morning. "There will not be a single old piece of furniture in the new building. But what I consider the most important purchase, is the sanitary bread and candy making machinery which I bought. It will be possible in the new place to bake bread or make candy without the worker's hands once touching the material. Forty tons of freight will reach here on the Honolulu for the Palm, but this is only a portion of the machinery and fixtures that is to come as a result of my buying trip."

## PUPILS OF MISS SHORT ARE HEARD IN RECITAL

[Special Correspondence, Star-Bulletin.]

**WAILUKU, July 9.**—Miss Carrie Short gave a most delightful musicale at her home the last Saturday of June. The occasion was the recital before a few invited friends of her music pupils of the year. All the pupils took part most acceptably, and the guests greatly enjoyed seeing what a large amount of music the inspiring teacher could give in the short time she has had them.

The class consisted of Mrs. O. J. Whiteshead and her two daughters: Ruth and Sadie, Erlene Walsh, Alice and Annie Walker, Olava Hansen and some others, who have been pupils for a longer or shorter time.

## KERR ANNOUNCES FINAL SALE OF DRY GOODS

Announcement is made that the final sale of L. B. Kerr & Co., will be held from now until July 31st, when the building which they occupy must be vacated. It is imperative that all goods be sold according to the announcement, and in order to do so extremely attractive prices are being made on some high quality goods. Among the goods on sale are some that arrived here by the last Sonoma, which is the last shipment that will be received, before the company goes out of business. The store is now located in the Kapolianni building, Alakea street.

## FULL-DRESS BATHING SUITS UNPOPULAR

Los Angeles Bathers Object to Long Sleeves, High Necks and 14-Inch Skirts

**LOS ANGELES, June 25.**—The most radical and unpopular bathing reform that ever stirred this community was wrought by the Trustees of Venice last night. They passed in preliminary form an ordinance requiring skirts hanging fourteen inches below the waist line for bath men's and women's suits, sleeves to the wrist for women to the elbow for men, and necks cut not more than two inches low for either sex.

Damsels who have been wearing their bathing suits on the sand more than in the water appear more excited today over the new law than those who wear the garments for actual bathing, but there is a general uprising also, and the Trustees are hearing more than what the wild waves are saying. Men and women declare the regulation is ridiculous and that nobody can bathe at Venice without having a suit made to order or renting one of the freaks to be provided there. The former object to the skirts and the latter to long sleeves and high necks.

## BAND CONCERT.

The Hawaiian band will give a public concert this Thursday evening at Kakaako mission at 7:30 with the following selections:

March—Hun Nalu  
Overture—American Air  
Intermezzo—The Frivolous Cupid.  
Selection—Attila  
Verdi Vocal—Hawaiian Songs, by Berger  
Selection—American Melodies  
Conterno  
Waltz—Toreator  
Galop—Vivat  
The Star Spangled Banner.

**RECREATIONS**

**OLIVETTE TO BE AT OPERA HOUSE TONIGHT**

Probably the coolest place of entertainment in Honolulu last night was the opera house, where "Berta's Billions" was the attraction. The Juvenile Bostonians were more than ever in favor with the audience and the numerous songs were enthusiastically applauded. Dode Canfield must have missed the opportunity which the Liberty gave her to circulate with her group of Deutchers or Swissesses through the audience when it came time to sing "Run Run Tiddle," the architecture of the opera house not being arranged with due regard for such emergencies. There were many good songs and choruses and each won the audience.

Tonight Olivette is to have the boards and it should be as successful here as it was when presented by this company on the road in the United States and Canada for two seasons. Miss Hellen has a part exactly suited to her and Miss Patsie Henry will be heard in the familiar songs rendered by "Coqueleocot." Every chorus is as pat with the girls of the company as they ever were with older players and the audience tonight will be as well pleased with "Bob up Serenely" and the very familiar chorus: "In the North Sea lived a Whale" as they ever were when sung by older persons. There are so many pretty songs, sayings and situations in the operetta that it is bound to win instant favor with those who have never had an opportunity to hear it. Indeed when it was first put on, many years ago it bid fair to outrun Pinafore.

The artists in the Juvenile Bostonians Company are admirably fitted for the respective cast and there is no doubt of their success. When an actress is in love with the character she is expected to portray there should be no difficulty for her to reach her ideal in acting. It is said each of the Bostonians have done this so the play tonight should be satisfactory to the audience. The sale of seats for the performance is large.

**GREGG-WATSON NUPTIALS TAKE PLACE IN SEATTLE**

SEATTLE, Wash., June 23.—A quiet but very pretty home wedding was that of Miss Isabel Gregg, daughter of Mrs. Margaret Gregg, of Honolulu, and Mr. S. Mortimer Watson, which took place Wednesday evening, June 19, at the home of Col. C. W. Towlesy, 1409 Second avenue west, Rev. Sidney James officiating.

The home was a perfect hower of roses, the handsomest varieties being used in lavish quantities, everywhere pink, save the bridal canopy, which was of white roses, smilax and delphiniums.

The bride, who was given in marriage by her mother, was exquisitely gowned in crepe meteor, trimmed with new old lace, her veil caught with tiny white rosettes, and the shower bouquet being of Bride fogs and valley lilies. She was unattended.

Mrs. Gregg wore black crepe meteor trimmed with duchess lace, and Mrs. Towlesy, in whose home the event took place, wore blue silk, trimmed with lace. Miss Towlesy wore white marquisette. Mr. Watson is a capitalist of Chico.

Mr. and Mrs. Watson left for the East, where they will remain for a time, and then start a tour of the world, from which they will return in about a year, to make their home in Spokane.

**YOUNG GRANDMOTHERS.**

Although Filipino women do not usually marry early, grandmothers at thirty are not uncommon. Such as do not marry, and these are very few, generally retire from the world to the seclusion of a convent or beaterio in some capacity or another, and consequently the old maid of Europe and the United States is practically unknown.—*Rosary Magazine.*

For news and the truth about it, all people buy the Star-Bulletin.

**OPEN-AIR THEATER DEMANDED BY LEADING LONDON ACTRESS**

LONDON, Eng., June 29.—The open-air habit is growing in London to such an extent that before very long a permanent open-air theater is bound to be established in the metropolis during the summer months.

This, at any rate, is the opinion of Miss Liliah McCarthy, who came to this conclusion after she had appeared in "Iphigenia" in the open-air theater at Bradford College. She would like to see such a playhouse constructed on the banks of the River Thames, with cheap prices and Sunday performances.

The proposal is already being taken seriously, as it is seen to be but the logical outcome of a tendency that has been gaining in popular favor during the last two or three years. The revival of historic pageants opened the eyes of the people of this country to the pleasures and possibilities of the open-air drama. The success of these pageants brought the pastoral play once more to the front, a method of presentation that at present is confined to the provinces.

# SHERMAN OWES RETENTION TO ALBANY BOSS

BY C. S. ALBERT. [Special Star-Bulletin Correspondence] WASHINGTON, D. C., June 27.—The retention of James S. Sherman on the Republican ticket in second place did not create any surprise at the last moment. He owed his honor entirely to William Barnes, Jr., the Republican boss of New York, who at the last moment held the fate of President Taft in his hands. He could have prevented his nomination on the first ballot by refusing him the delegates from New York. He does not like the President, but is extremely friendly to Vice-President Sherman. For that reason he traded the New York delegation for second place and gave it to Mr. Sherman. This was right acceptable to Mr. Taft under the circumstances. It was far preferable to having Kenyon, Borah, Cummins, or some other radical Progressive tacked on as his running mate. In addition, he can feel assured of united support from the Republicans of New York. The original ambition of Mr. Sherman was to secure the gubernatorial nomination in New York, but it was considered better to leave him in his present status.

### AN OPEN SECRET.

Many ask the reason for the continued and increasing demand for Chamberlain's Colic, Cholera and Diarrhoea Remedy. The secret is that it never fails to give relief. The middle-aged men of today remember it as the remedy given them by their mothers for cramp colic and dysentery when they were children and its reputation as a positive cure for such ailments is still maintained. No remedy has ever been produced that is its equal for the prompt relief of pain. For sale by all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

The firm of C. W. Macfarlane & Co. has just secured a lease of the building now occupied by the City Action Company, 114 Bethel street, and will move there from its present location at No. 8 South Queen street.

## NEW - TODAY

### NOTICE.

Fifteenth Precinct, Fifth District, Republican Club.

There will be a meeting of the Republican Club of the Fifteenth Precinct of the Fifth District at the residence of Robert Holbron, Iwilei road, on Friday evening, July 12, 1912, at 7:30 o'clock, for the purpose of making nominations for the officers of the said precinct club, to be voted for on Friday evening, July 19, 1912, at 7:30 o'clock.

PATRICK GLEASON, Secretary, Fifteenth Precinct, Fifth District, Republican Club. Dated, Honolulu, July 11, 1912. 5285-2t

### NOTICE.

The Twelfth Precinct Republican Club, Fourth Representative District, will meet at Concordia Hall, Luso street, Honolulu, T. H., on Friday, July 12, 1912, at 7:30 p. m. for the purpose of nominating officers to serve during the ensuing two years, the said officers to be elected at a precinct election to be held at the same place on Friday, July 19, 1912, between the hours of 7:30 and 10 p. m.

A. W. NEELEY, Pres., 12th Prec. Club, 4th Dist. A. Q. MARCALLINO, Sec., 12th Prec. Club, 4th Dist. 5285-2t

### ELEVENTH PRECINCT, FIFTH DISTRICT, REPUBLICAN PARTY

## LOCAL AND GENERAL

For a hack ring up 2307. Curious from all over the world at the Anchor Saloon.

Ukuleles, Calabashes, etc., at factory 1719 Lihua. Prices reasonable. The Underwood Typewriter Visible—none better. Wall, Nichols Co., Ltd. Agents.

There will be a meeting of the Board of Health this afternoon at 3 o'clock.

Wanted—Two more passengers for around-the-island at \$6. Lewis Stables and Garage. Tel. 2141.

If you want a good job done on an auto or carriage take it to Hawaiian Carriage Mfg. Co., 427 Queen St.

Korea-passengers have City Transfer Co. handle your baggage. Personal attention given to sealing baggage. Bicycle Supplies and Repairing. Royal Navy Bicycles, \$45. Easy terms. Dowson Bros., Smith and Hotel Sts.

Heavy rains in the mountains Tuesday night did not raise the water in the city reservoirs to any appreciable extent.

Pineapple soda and Hire's Root Beer—excellent summer drinks—are bottled by the Consolidated Soda Works, Phone 2171.

The Zealandia is due to arrive here next Wednesday from Vancouver. The Honolulu is due from the coast on the same day.

For an auto call up Joe Santos at Young Automobile Stand, Phone 2511. Seven-seated Pope-Hartford, No. 929. Rates reasonable.

Bring 10 Green Stamps and one dollar and get a complete Boy Scout suit for vacation. Green Stamp Store, Beretania and Fort streets.

Messrs. Stanley and Chester Livingston of Kamehameha Schools, have received word by cable of the death of their mother in Huntington, Indiana.

S. D. Kane, and wife this morning filed a petition in Circuit Court, asking permission to legally adopt Hattie Laulla, a 2-year-old child. The petition will be heard Saturday, July 20.

Joe Clark with his Packard car has left the Auto Livery Garage and is now with the Oahu stand at Bishop and King Sts., and hopes for a continuance of patronage from his former friends. Rates Reasonable.

Chris J. Holt and Jim Holt, accused of assault, have waived examination, demanded trial by jury and been committed to the Circuit Court. Similar action has been taken in the case of Fred Wright, also accused of assault. Manager George Guild of the American-Hawaiian Paper and Supply Co. is presenting his patrons with a very handy calendar pad for reference and timely reminder. This is in keeping with the progressive activities of Manager Guild.

Richard Ivers of C. Brewer & Co. is quoted as saying that the lack of rainfall will considerably affect the growing 1913 crop of sugar, and, by dissuading the planters from planting in June and July, will materially reduce the planted area for the 1914 crop.

Specimens of a rare variety of alligator pear grown by S. I. Shaw at Kaimuki are shown in one of W. W. Diamond & Co.'s windows, King street. They are of oblong shape, nearly a foot in length. This variety has an unusually small seed, giving it a large proportion of meat.

An exhibition of portable gas engine pumps, which may be used as fire extinguishers or for flushing down the wharves, probably will be witnessed by the Board of Harbor Commissioners before the next meeting. A company manufacturing these is seeking to install them on the piers owned by the Territory.

The following appeals from the decision of the District Court were filed in Circuit Court this morning: Kamaka Pele, fined \$1 and sentenced to three months' imprisonment for assault; seventeen Japanese, fined \$5 and costs each on a gambling charge; Solomon Pih, fined \$15 for assault and battery; Gregorio Terado and Salome Mateo, fined \$30 and \$10 respectively on a misconduct charge.

Castle & Cooke, agents for the Matson Navigation Company, registered a hearty "kick" before the Board of Harbor Commissioners yesterday afternoon, complaining that the latter were too stringent as regards demurrage charges on Territorial wharves to permit the Matson concern to compete successfully with the American-Hawaiian line, which docks at the O. R. & L. Co.'s wharves. After a careful comparison the Commissioners decided that the Territorial wharf demurrage rates are practically the same as those of the Oahu Railway, with the exception of a day on the smaller cargoes, on which the Oahu Railway permits the longer time.

The old West Point hotel, a four-story brick structure owned by the government, was burned out at West Point, New York. Most of the contents were saved. The entire military force at the academy turned out and fought the flames and helped remove the furniture.

ELECTORS NAMED AT PRIMARIES NOW PROBLEM FOR TAFTERS

Puzzle as to Where Electoral Votes of Several States Will Go

BY C. S. ALBERT.

(Special Star-Bulletin Correspondent) WASHINGTON, June 27.—What should or can be done in those States that designated Roosevelt Presidential electors in their primaries? Will the tangle be untwisted?

These problems are worrying Mr. Taft and all his advisors. Several consultations have already been held and many more will be necessary to devise a method of evading the difficulty. Nine members of the Republican National Committee are industriously working on the problem. Representative McKinley, who managed the President's campaign for re-nomination, Senator Root, who engineered the steam roller, and others are sitting up nights seeking a solution. It is the most nerve-racking proposition those responsible for the future of the Republican party have yet encountered.

The Problem. In Pennsylvania, West Virginia, Maryland and several other States electors were chosen and instructed to vote for Theodore Roosevelt. They were chosen on regular Republican tickets. Threats have been made that if elected in November they will refuse to cast their votes for Mr. Taft. Such a course would undoubtedly prove fatal to Republican success and throw the Presidency to the Democrats. Unless other tickets are placed in the field those selected in the primaries will receive the votes cast in the National election.

It is believed that some course of adjustment will be reached. All efforts in this direction will be materially aided by the fact that in some States, notably Pennsylvania, those chosen as electors do not care to be placed in the attitude of bolting the regular Republican organization. This they must do by adhering to Col. Roosevelt and casting their votes in the Electoral College for him, when he is not the regular nominee of his party.

The committee that called on the President Monday, July 1, and notified him of his nomination at Chicago, discussed this question at length. A conclusion was reached that the tickets selected in the primaries must be withdrawn and electors pledged to Taft named in their places. It was admitted that this undertaking would prove serious in some of the ultra-Progressive States, where the Roosevelt sentiment is strongest.

McKinley Wouldn't Serve.

The matter of naming a campaign manager has been engrossing the attention of President Taft. He earnestly desired that Representative William B. McKinley, of Illinois, who pulled through his nomination, should take up the work, but Mr. McKinley kicked over the traces. Charles D. Hilles, private secretary to the President, seemed the next most available man, but the President balked at the idea of losing a good secretary. And so the question was permitted to hang fire for a few days in order that the best material might be sifted out and a choice made.

Representative McKinley and the other Taft managers have all arisen en masse and denied the statement made by Col. Roosevelt that he could easily have obtained the nomination at Chicago through the defection of Southern delegates, but did not desire to have any taint on it. They declare this is untrue and there was no time at any stage of the proceedings when the Colonel could have seized the nomination, either with or without taint.

Baltimore Scrap Pleases Taft.

President Taft has derived much pleasure from the rumpus at Baltimore, where the Democratic convention opened with a fight between

the friends and foes of William J. Bryan. After the wrangle ended and Judge Alton B. Parker defeated Mr. Bryan for the temporary chairmanship by a vote of 579 to 510 the President succinctly remarked: "It seems that political turbulence is not confined to any one locality."

The overthrow of Mr. Bryan also caused general satisfaction in this city, especially being pleasing to Oscar W. Underwood, of Alabama, who has been bitterly quarreling with the Nebraskan for some months. At the same time it struck terror into the hearts of all the campaign managers among the Democrats. It indicated that with his 510 votes Mr. Bryan might be able to control the final selection of a candidate and thus destroy all the booms afloat before the convention assembled. The realization that three big bosses—Charles F. Murphy, Thomas T. Taggart and Roger Sullivan—were in a position by coalition to demand the selection of their man also proved most disquieting in the earlier stages of the big gathering. The votes of New York, Indiana and Illinois, if thrown to any one candidate would be sufficient to pull him through and that fact created a sensation.

Mrs. Taft, Miss Helen Taft, the boys and the White House domestic entourage in general left on July 3 for their summer home at Beverly, Mass. They will remain there until late in September or early October. The President accompanied his family to Beverly and saw them safely and comfortably settled in their vacation quarters. He returned here for the remainder of the Congressional session.

SUPREME COURT RULES IN FAVOR OF TERRITORY IN "PA PLELKANE" SUIT

Reversing the decision of the Court of Land Registration and granting a new trial, the Supreme Court yesterday ruled in favor of the Territory in its suit to confirm its title to lands in Lahaina, Maui, known as "Pa Pelekané." Justice Perry dissents in part and has filed a separate opinion. In its syllabus the Supreme Court asserts that the case partakes of the nature of a suit in equity and that "it is not correct practice in such a proceeding to dismiss the application at the close of the petitioner's case on the motion of respondent unless the respondent also rests."

It says further: "The title to land which was never awarded by the land commission nor granted by the government remains in the government. The Mahele of 1848 did not confer title on the chiefs to the lands therein set apart for them."

"The award of an ahupuaa by name only would not pass title to a piece of land which, though originally a portion of the ahupuaa, had, prior to the award, been permanently detached from and taken out of the ahupuaa."

"The former governments of the Hawaiian Islands are not to be regarded as foreign governments. The courts of this Territory take judicial notice of the laws of Hawaii which were enacted prior to the annexation of the Islands by the United States, as well as of the principal facts of Hawaiian history, and the public records of the Hawaiian government when called to the attention of the court."

By a deed filed in the bureau of conveyances yesterday C. C. Kennedy and wife convey to the trustees of Hilo Lodge No. 759, B. P. O. E., a lot having a forty-foot frontage on Kiny street, with a depth of ninety-two feet, located between Pitman and Bridge streets, Hilo. The consideration was \$7500. It is understood that the Elks of Hilo contemplate the erection of a fine clubhouse on this lot.

THREE PHILIPPINE ARMY POSTS DISMANTLED AND ABANDONED

The new plan of concentration of troops in larger posts in the Philippine Islands has resulted in the abandonment of three posts in the islands according to word received at local army headquarters.

The post at Camp Jossman had been Wilhelm, Tayabas; Camp Jossman, Guimaras and Camp Wallace, Union. The post at Camp Jossman has been occupied by the 24th infantry. This regiment has been sent to other posts, principally Camps McGrath and Stotsenburg, and Jossman is being dismantled. All of the buildings are being taken down and the material is to be sent to Manila with the exception of that part of which is deemed of no further practical value for any purpose. Such worthless material is to be destroyed. The same rule applies to Camps Wilhelm and Wallace.

Cost Much Money. At all of these posts much money has been spent by the military in the erection of pumping and ice plants. The machinery is for the most part in good order and is being taken down and sent to the depot quartermaster in Manila. It will be thoroughly overhauled and made ready for use in case it should be needed.

The order under which this reorganization is taking place lays particular stress on economy, and the result is that very little of the material of which the buildings in these three posts are constructed will be wasted.

In fact, the officers who are supervising the taking down of the buildings have been instructed that every stick shall be sent to Manila which is not absolutely unfit.

History of Posts. Camp Wilhelm was formerly an infantry post but of recent years has been occupied by Philippine Scouts. Camp Wallace, Union, was for many years a cavalry post and was occupied in turn by the 3rd cavalry during the early insurrectionary days, the 11th cavalry, the 2nd cavalry, the 8th cavalry and the cavalry, during the last year or so, the post has been garrisoned by Philippine Scouts. The reorganization of the troops in this division makes the number of organizations less, but the number of soldiers serving will be about the same, as the cavalry regiments have been ordered filled up to their quota of 100 men per troop and the infantry organizations to 150 men to a company.

Two Camps Retained. Some speculation was indulged in when the order first came as to the abandonment of Camps McGrath and Stotsenburg, but it is understood that Major General J. Franklin Bell has recommended that these two important stations be kept, at least for some time to come. The 8th cavalry, formerly at Camp McGrath, has been changed to Fort McKinley and the department of Mindanao, while the last cavalry regiment to be stationed at Stotsenburg, the 14th, has gone to the States.

FREE TO ASTHMA SUFFERERS

A New Home Cure That Anyone Can Use Without Discomfort or Loss of Time. We have a New Method that cures Asthma, and we want you to try it at our expense. No matter whether your case is of long-standing or recent development, whether it is present as occasional or chronic Asthma, our method is an absolute cure. No matter in what climate you live, no matter what your age or occupation, our method will certainly cure you right in your own home. We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, tinctures, "patent smokes," etc., have failed. We want to show everyone at our own expense that this new method will end all difficult breathing, all wheezing, and all those terrible paroxysms at once and for all time. This free offer is too important to neglect a single day. Write now and begin the cure at once. Send no money. Simply mail coupon below. Do It Today.

GIRL TAKES ACID AT CHURCH PULPIT

Jilted in Love Affair, Is Found by Clergyman and Sent to a Hospital

SYRACUSE, N. Y., June 14.—Catherine Marshall, 20, employed at the Syracuse Hospital for Women and Children, is at the point of death in St. Joseph's Hospital, to which she was taken today when the Rev. Richard Shanahan found her, unconscious,

leaning against the pulpit of St. John the Evangelist's church, formerly the cathedral. Her absence was not discovered until word was telephoned from St. Joseph's Hospital of her arrival there.

In passing from the vestry Father Shanahan saw her. She had knelt in prayer and drank carbolie acid. It was not until she reached the hospital and regained consciousness for a few moments that her identity was learned. The young woman said she had been jilted in a love affair.

The police questioned three young men, but none of them was held.

# BETTER REGISTER OR YOU'LL WAKE UP WITHOUT ANY VOTE

### Less Than Forty Per Cent of Voters Are Down in Big Book

Registration at the city hall is proceeding with a slowness that is astonishing to the clerk's office. Today the registrations number only 4632 and Clerk Kalaoukani asked the Star-Bulletin to stir up the voters.

"I don't know why there are so few registering," he said. "A lot of people are going to wake up and find out it's too late and then they will be cut out of a vote."

It takes only about a minute to get your name down in the great register. It's as simple as A. B. C. All you have to do is to step into the clerk's office, give a few statistics on your age and residence, sign your name, and then you're through. Only a little over 35 per cent of the otherwise qualified voters are registered to date.

## JOHN D. HAS NOW NINE HUNDRED MILLION

### Income in One Year Since Panic Was Nearly Two Hundred Millions.

The litigation that has brought about the examination of John D. Rockefeller as a witness to tell of the present relations between Standard Oil and its former subsidiary companies supposed to be disassociated from it under the judgment of the United States Supreme Court, has involved also a quiet inquiry into the stock holdings and other forms of wealth of Mr. Rockefeller.

From all the data available, and one of the associate counsel in this inquiry said yesterday the available data were fairly exhaustive, the conclusion has been reached that John D. Rockefeller is now worth (\$900,000,000) NINE HUNDRED MILLION DOLLARS.

This estimate, it is believed, comes within a few millions of being correct. It is a practical impossibility to arrive at an exact estimate, for the daily fluctuations of stocks may add or take away several millions from the Oil King's wealth on paper. Mr. Rockefeller does not speculate. He invests, and when the market is quite high he sells. When it has dropped to the low levels he buys back what he sold and reinvests the profit in more low priced stocks or bonds. The great bulk of his wealth is invested in oil, railroad, banking and industrial stocks.

The lawyers who have undertaken the task of calculating just what Mr. Rockefeller is worth have come to one conclusion that is noteworthy.

That since the "dissolution" of the Standard Oil Trust under the judgment of the United States Supreme Court, interpreting the Sherman Anti-Trust Act, the wealth of Mr. Rockefeller has grown by leaps and bounds. It is reckoned he is now worth fully \$100,000,000 more than before the Supreme Court judgment took effect. This is due to the enormous increase in market values of the stocks of many of the former subsidiaries of the Oil Octopus.

One year recently, since the panic of 1907, the income of Mr. Rockefeller reached the extraordinary total of \$137,500,000, it was learned yesterday from one of the investigators. This was his high water mark; in fact, more than double his ordinary income. From his holdings of Standard Oil stock alone Mr. Rockefeller derives an income of \$40,000,000 every year. His income from other sources varies, running as high as \$25,000,000 and as low as \$15,000,000, so that his yearly income varies between \$55,000,000 and \$65,000,000, with an occasional height beyond this mark.

For the purpose of an average the Rockefeller income may be estimated at \$60,000,000 a year, or \$5,000,000 a month, or \$1,583,846 a week, or \$164,781.31 a day, or \$6,863.97 an hour, or \$114.40 a minute, or \$1.90 2-3 a second. In 1865, as he has recorded in his autobiography, John D. Rockefeller achieved his first \$5,000. Ten years later he was worth \$5,000,000 and in 1890 he was reputed to be worth about \$100,000,000, which was just the value of the Standard Oil Company of New Jersey, created about that time.

The wildest guesses have been made at the amount of his fortune since 1900, when it was conservatively figured at about \$300,000,000. But even those who spoke of him as a billionaire have never dreamed he was so close to that title as his present store of wealth indicates. If the figures of the legal mathematicians who have taken the subject in hand are correct, Mr. Rockefeller has never ventured to say what he was worth. Several years ago he placed the figures at "somewhere between \$300,000,000 and \$400,000,000," but he confessed on the stand he could not tell "within \$10,000,000 or more" just what he was worth if he really sat down to figure it up.

He has given \$174,500,000 to various charitable, educational and scientific institutions, but this has not made any impression on the vast principal of his wealth, being merely gifts out of the income.

Mr. Rockefeller's personal wealth, aside from his real estate, is established by the City of New York, for taxation purposes, at \$5,000,000. He pays taxes on that amount.

## SMASH POSTOFFICES, SUFFRAGETTE CRY

LONDON, June 28.—A general campaign of destruction in the postoffices throughout the country was begun today by suffragettes. They smashed the windows of the Central Postoffice and of the Reform Club at Manchester. Some of the London branch offices and those at Hitchin and Letchworth were raided. Women arrested here announced that their action today was the beginning of a campaign to smash the windows of every postoffice in England.

## "SEE AMERICA FIRST" ORGANIZATION PERFECTED

CHICAGO, June 28.—Passenger officials of the railroads centering in Chicago and resident representatives of other lines held another meeting this afternoon for the purpose of perfecting further organization of "See America First" campaign.

Wide interest among passenger men throughout the country has been stirred up by the new publicity movement, as a result of which it is believed a great portion of the immense American travel now turning yearly toward Europe may be diverted to the scenic wonders of our own country.

## A DIAGNOSIS

By WILLIAM G. ERNST

In a mining camp in Colorado called Hindandy, there being no doctor, the people lived in a state of anxiety. When any one got sick those about the patient did not know what to do in the premises, and there was no one on whom to throw the responsibility. A committee was sent over to Hutton, where there were two doctors, with orders to try to persuade one of them to practice in Hindandy.

Dr. Farmecute was induced to take a new field, especially as Dr. Thorax, the other practitioner, bothered him by disputing his diagnosis and treatment in every case. If Farmecute said a man had typhoid fever Thorax declared he had the mumps. If Farmecute gave a sedative Thorax sneered and said that he needed a stimulant. Therefore Dr. Farmecute accepted the new field with the proviso that if his diagnosis or treatment were questioned by any one and he shot the subject he was not to be prosecuted. The committee accepted the condition, and the doctor hung out his shingle in Hindandy.

There had been but half a dozen cases of illness in the town in a year, though they had been worrying ones to those who took care of the patients. The hanging out of a doctor's sign seemed to have a peculiar effect on the inhabitants. While it had not occurred to them before that there was anything the matter with them, now every person who passed the doctor's office and read his sign felt compelled to consult him. But woe betide any one who ventured to disagree with him as to the disease from which the patient suffered or the treatment. One morning Tim Hickson was passing the doctor's office when Jim Ferguson came crashing through the door, forwarded by the toe of the doctor's boot.

"What's up, Jim?" asked Hickson. "Why, I consulted the doctor for a sore throat, and he told me the trouble was in the stomach. I said I could eat well enough if I could get anything down, but I couldn't swallow, whereupon he hustled me out."

"Served you right," said Hickson. "The doctor came here, with the stipulation that he was not to be disputed professionally."

"If that's so how am I to get even with him?"

"Well, if you want to get revenge you'd better tackle him on some other subject. If you insist on throat trouble when he says your stomach's wrong and he shoots you he's not to be punished."

Ferguson passed on, rubbing his bruises and trying to think of a way to get even with the doctor. It was evident that in a professional way Farmecute had the people of Hindandy with him. In any fracas in that line they would favor him, and the result would be to the discredit of his patient. Ferguson brooded over his treatment, but his throat got well of itself.

One day he went back to the doctor's office—this time he had his gun with him—and said:

"Doctor, I'm sick. I reckon I'm going to die."

"Where does the trouble lie?"

"Oh, I don't know. I'm no doctor. That's for you to find out."

"I didn't mean that I want you to tell me what's the matter with you. I want to know your symptoms."

"I haven't any symptoms."

"Then you haven't any disease?"

"Yes, I have."

"The doctor had turned away, and when he saw the patient again Ferguson was looking at him from behind the muzzle of a revolver. His own gun was in a drawer in his medicine case, but there was no opportunity to get it if Ferguson objected.

"I've got a frightful disease, and I want you to tell me what it is."

"How can I tell you without knowing your symptoms?"

"I told you my symptoms the last time I called on you professionally, and you fired me out for my pains."

"Well, I can't do anything for you."

Ferguson cocked his weapon. "If you don't diagnose my case before I count five," he said, "I'll make a case for an undertaker. One, two—"

"You are suffering from amnesia."

"What's that?"

"You're forgetting yourself."

"Three—"

"Let me see your tongue."

Ferguson put out his tongue.

"I must feel your pulse."

"Not much. You'll have to find out what's the matter with me in some other way."

"You will need a sedative. Excuse me a moment and I'll give you a hypodermic to quiet you."

A little syringe was lying on a table with other instruments. The doctor picked it up, filled it with a liquid and, advancing boldly toward his patient, suddenly raised it and squirted the contents in Ferguson's eyes. Jim dropped his revolver and clapped his hands to his eyes.

Tim Hickson happened to be passing the doctor's office again and saw Jim Ferguson coming out exactly the same way as before. Jim fell on his knees and, rising, croaked about wildly.

"What's up, Jim?"

"Been seeing the doctor again. We've settled it. The trouble's in the eyes. I've gone blind."

Ferguson's slight soon came back to him, but he concluded to let the doctor alone.

## A Skin of Beauty is a Joy Forever

### DR. L. FELIX GOURAUD'S ORIENTAL CREAM OR MAGICAL BEAUTIFIER

Removes Tan, Freckles, Pimples, Rash, and Skin Diseases and every blemish on beauty, and so on. It is the best of all. It is so harmless that it is safe to be used by the most delicate of women. It is so effective that it is the only one that will give you the beauty of youth. It is so simple that it is the only one that you can use every day. It is so cheap that it is the only one that you can afford to use. It is so good that it is the only one that you will want to use.

## NOTES OF NEWS REGARDING MAUI

[Special Correspondence, Star-Bulletin.]  
WAILUKU, July 9.—The visit of Rev. D. D. Wallace of Kealahou was very much appreciated by Maui people. Mr. Wallace preached on Sunday morning at the Church of the Good Shepherd of Wailuku to a very appreciative audience. Part of his visit on Maui was spent at the delightful home of Mr. and Mrs. J. N. S. Williams of Kahului.

Lowthian Williams, who has made a record for himself during his freshman year at Harvard, is now on vacation. He is spending the summer months at the home of his father in Kahului. Hibbert Case, who graduated this year from Staunton Military Academy, is on his vacation. He arrived on the last Lurline from the Coast. He is with his father and mother, D. H. Case and wife of Wailuku. Mr. Case Jr. contemplates making several interesting trips about the island this summer.

Mrs. R. B. Dodge spent several days at Lahainaluna this past week, visiting Mrs. C. A. MacDonald. She returned to Wailuku on Tuesday.

A large number of Maui delegates left on Friday, Saturday and Tuesday for Honolulu, en route to Lihue, Kauai, to attend the meeting of the Evangelical Association. They will return in ten days or two weeks.

The magazines and newspapers are now on file at the Wailuku Alexander House Gymnasium, much to the pleasure of the large membership of the gym.

The services at the Makawao and Wailuku Union churches will be omitted on Sunday, July 14. This action was taken by the standing committees of both churches in view of the fact that Rev. R. B. Dodge is attending the Kauai association meetings. The services of Sunday, the 21st, will be held as usual.

Arthur C. Alexander made a flying trip to Maui last week Friday. He arrived with a party of boys on Saturday morning, and by noon was at Olinda and got the boys nicely located in a camp on the mountainside. The young fellows are thoroughly satisfied with the prospects of their outing and are already greatly enjoying themselves. Even the ice-cold shower in the morning is part of their day's fun. Mr. Alexander returned on Tuesday's Claudine, after seeing several old friends.

Miss Charlotte Dodge of Honolulu with a party is camping near the Fleming homestead in Makawao.

Mrs. W. F. McConkey and family are to go to Kaupakalua for a few weeks' outing. Dr. McConkey will go back and forth part of each week, as his rush of work will allow him a little time off.

Rev. H. P. Judd and Mrs. Judd are visitors on Kauai for a few days after the convention is over. They expect to visit the other side of the island. It will be Mrs. Judd's first trip to the Garden Isle.

# STAR-BULLETIN SPORTS

Page Edited By  
L. REDINGTON

**THERE'S TO BE A GREAT** sporting popularity contest this month, with polo and tennis the contestants. Unfortunately, the interisland championships in both events will conflict for two days during the latter part of the month, and loyal followers of the two sports will have to miss one to see the other. It's likely that the tennis tournament will be the loser, for there will be more than a week of court work, but only three days of polo.

Both tournaments promise to be the greatest ever held in Hawaii, and followers of the two sports are working up a respectable amount of excitement in advance. It looks as though that old reliable third party, the General Public, would come out in force and forget its dignity long enough to cheer its favorites to victory.

Honolulu crowds are not exactly what one could call demonstrative. Witness, for instance, the recent military tournament at Kaplani Park, where nearly 15,000 people stood open-mouthed and saw the most sensational exhibition of horsemanship ever given in the Islands, without voicing a cheer or unlimbering a battery of applause.

But if the signs are read aright, the coming tournaments will "have 'em going." Already there's a lot of polo talk, and both Oahu and the Cavalry are sure of some loud-lunged supporters. Maui will be up against it for volume of sound, but it will have some strong supporters on the field at that, and in the Maui-Cavalry game there are sure to be a lot of unattached enthusiasts who will see that the soldiers don't make all the noise.

**THE NEW RULES REGARDING** the termination of periods will be in force for the first time in match play, and their working will be watched with interest. Heretofore, under the code of the Polo Association, play has stopped the instant the gong sounded, and this often led to dissatisfaction, especially when time was up just as the ball was threatening a goal. It made it hard for the timers, and heart-breaking for the players, to have the period over with the ball ten yards away from the posts and traveling between them.

Under the new rules, which were brought out here by the recently returned Army players, the ball continues in play after the bell sounds until it either goes over the end line, through the goal, or touches or passes over a sideboard. Excess time is deducted from the final period.

Under the English rules, the period did not end until the ball went out of bounds, and this often led to several minutes of excess time. The clause which mentions the ball hitting the boards, however, should make overtime less than a minute in most instances. The change is a boon to the timekeeper, who felt like a convicted criminal if he was forced to stop a goal with the bell. Players here like "the idea, and the last few games at Moanalua have seen it in force.

**KING GUSTAF SEEMS TO HAVE** taken quite a fancy to Kahanamoku. Perhaps he will give him a patent of nobility before he leaves Stockholm. Duke de Crawstroke would be an appropriate title.

- ◆ Don't try to pitch without first getting control.
- ◆ Don't imitate—be natural.
- ◆ Don't try to beat the batters.
- ◆ Don't lose your nerve.
- ◆ Don't forget that there are eight others in the game.
- ◆ Don't think because you are young the other players are pulling against you.
- ◆ Don't fall to cover first base.
- ◆ Don't blame individual players if they lose a game.
- ◆ Don't try to strike out all the batters.

## BOY, UNDER WEIGHT, EATS, HIS WAY INTO THE NAVY

**MINNEAPOLIS, Minn., June 24.**—Carl Petermann, St. Louis, has bested all Minneapolis recruiting station records by passing the examination for entrance to the navy forty-eight hours after he had been refused. He gained seven and one-half pounds in weight in that time.

Petermann and Louis Alfred Adger, chums from Missouri, both 21 years old, arrived in Minneapolis and decided to join the navy. Adger passed. Petermann was two and one-half pounds under the normal standard at his height and was refused. He was sent to a hotel, however, at government expense, and after eating and sleeping two days was found to be five pounds above normal.

## UMPIRE TELLS OF ASAHI CLUB'S PROTEST

**Armstrong Gives the Straight of D'sputed Decision in 13-Inning Game**

Fans are indulging in a lot of speculation over the exact status of the Asahi club's protest against the recent thirteen-inning game with the J. A. Cs., which is to be decided one way or the other today by President Chas. Chillingworth of the Oahu Senior League. A ruling in favor of the Asahi means that the game will either be ordered played again or awarded to them, in which case the J. A. Cs. are not tied with the Stars for first place in the series.

Umpire Armstrong, the man who made the decision, and who is therefore best able to describe the play, made a statement to the sporting editor this morning.

"This is what happened," said Armstrong. "The pitcher delivered an undoubtedly fair ball just as the Asahi runner on third started to steal home. The catcher interfered with the batter, but the latter managed to hit the ball safely. I decided that the batter was entitled to first before he hit, owing to the catcher's interference, and therefore he was on first before he connected with the ball at all. On this play I sent the runner back to third."

"The morning paper had it that I called the batter out under Rule 51, for hindering the catcher in trying to field the ball. This is absolutely wrong and just the opposite from what my real decision was. The batter was given first and the runner sent back. That's what actually happened, and it's up to the league president to either sustain or reverse the decision."

## ALL ABOARD FOR MYRTLE SMOKER

All aboard for the Myrtle club's smoker tonight, given in honor of the visiting yachtsmen. And be careful not to rock the boat when you climb in—or out.

The time's tonight, the place the Myrtle boathouse, but the girl will have to be left to the imagination, for it's to be a stag affair. Boxing, wrestling and word-fighting are on the program.

Messrs. James Wilder, von Holt and Judge Lindsay will give political speeches, and it is said that one of these gentlemen will speak in Hawaiian.

The other speakers on the program are:

Mr. Bistard, a Dutch recitation.  
Mr. Porter, the famous East Londoner, will tell a Cockney story.  
Auerbach will tell why the "freshmen" lost their race to the Healanis in 1911.

Roller will tell an exciting story about how he nearly got a ducking by simply catching a "crab."

George Crozier will tell his experiences training "freshmen" crews, and also about his plans for "banqueting" these would-be oarsmen.

Podmore is going to tell why he did not take the trip in the yacht Hawaii. This is a sad, sad story.

Captain Bechert says he is not a public speaker, so will act as a settler of arguments and will see that the eligibles for the crews do not drink too much "citrus lemonade."

## DUSTLESS AUTO NEW INVENTION

**MANCHESTER, Eng., June 24.**—A Manchester engineer has patented an apparatus which, it is claimed, will prevent the clouds of dust raised in dry weather by automobiles and other vehicles.

The device, which is simple and inexpensive, collects the dust as it rises. The dust is drawn into conduits, which are funnel-shaped at the mouth and which run from the rear of the front wheels to the rear of the back wheels. These conduits are connected with a box into which the dust is driven by the pressure of air, or this end can also be accomplished by the aid of a centrifugal fan geared to the driving shaft of the automobile. The contents of the dust box can be discharged by pulling a lever at the front of the vehicle.

You are no longer of a tender age when a picnic becomes a punishment. An Indian's oratory consists mainly of grunts, regardless of what the Wild West writers say about it.

A henpecked man likes to tell how he fools his wife, and he should be given credit for it if he can furnish an affidavit.

People rather enjoy it when a big man makes a mistake. It sometimes happens that a sweet-faced girl has a sour disposition.

To err is human, but one shouldn't prove his humanity by that means exclusively.

## MAUI TEAM HAS THE ONLY WOMAN POLO COACH KNOWN

MRS. FRANK BALDWIN  
Head Coach of the Maui Polo Team

## MRS. FRANK BALDWIN IS GIVING VALLEY ISLE PLAYERS THE FINISHING TOUCHES

**WHILE** Miss Eleanor Sears is organizing her polo team in the East, and arguing with the sportswomen of England as to whether or not the fair sex can really play the game, this question is being settled in the affirmative right here in Hawaii. The Maui polo four that will come here the latter part of this month to battle for the interisland title, is being coached by Mrs. Frank Baldwin, and a mighty good job she is making of it, too.

Mrs. Baldwin has the distinction of being the only woman coach of a real polo team in the world. Herself a splendid horsewoman, and considerable of a player, she has shown a remarkable aptitude for the fine points of the game and has developed to a high degree that all-important quality for coaching, of being able to put her finger on the weak points of team play. Mrs. Baldwin can stand by the sideboards of the Makawao field, watch play closely for a period, and then deliver a little lecture on the sins of omission and commission that does her charges more good than a whole afternoon of practice. The Maui men have implicit confidence in her coach.

## OLD-TIMERS HAD TO FIGHT HARD FOR MEAGER RETURNS

**By HARRY GILMORE.**  
**JUST** the other day a fighter, young in the game, but with earmarks of a "comer," came to me and wanted to know what I thought about his chances in the fighting game. I had seen him in action before and was impressed by what he had done. He had appeared in a few bouts, unimportant so far as ring history goes, and there was one handicap which was evident in his work. That was lack of proper condition.

The young fellow of whom I speak probably never will get anywhere in the game, for the simple reason that he has not the ambition and is unwilling to train properly for fights. There has been many another youngster who has had the same weakness, but those fighters are the modern ones, not the ones who fought as we fought when I was young in the game.

**"Soft" for Modern Boxers.**  
Why, when you think of it, the fighters today have a "soft" time of it when compared to those who were milling about three decades ago, fellows like Jack McAuliffe, Jack Dempsey, George Folljames and a lot of others I might mention. That was when we battled with bare knuckles, and when a fellow landed it showed a furrow as evidence that it was "meant."

When we matched for a battle then it wasn't with those padded mitts, and it wasn't for a limited number of rounds, either. It was always to a finish, and a fighter knew that he had to be in condition to withstand the grueling that was sure to result.

"Training then wasn't any play, and any one who was anything in the game knew that it was work that had to be done. Now a fighter will work just so much and tell you he is in good enough shape to go at his top speed for six

and her word is law. If she makes a suggestion about a pony's gear, or, in fact, about any detail of the game, it is usually followed, and usually brings good results.

The first game of the interisland tournament is scheduled for the 20th of this month, when Maui and Oahu will come together. The Maui ponies are expected here in a few days, as they are to have a full week at Moanalua in which to get acclimated and to recover from the effects of their ocean trip. The four men who will carry the colors of the Valley Isle are Arthur Collins, Harold Rice, Frank Baldwin and David Fleming. With the exception of Collins, all are veterans of the game, and they, like the Oahu players, can be counted on to do their best in a tight match.

Practice for the locals and the Cavalry continues regularly at Moanalua, where the army squad is camped. Yesterday afternoon the Oahu Blues got together in better shape than they have for some days, and tore through the strongest opposition that could be put against them to the tune of 13 to 2. Men and moments showed a dash and snap that was very gratifying.

## GRIFFITHS PUTS GINGER INTO SENATORS

**Washington Has Never Before Played Such Ball as Is Being Shown Now**

**By TOMMY CLARK.**

Washington is the sensation of the American league this season. Do you understand? If so, you do something on the great majority of baseball followers, who always have been accustomed to look deep in the second division for the percentage of the Washingtonians. And the good folks in Washington are astonished simply wondering if it can be true. They fear it's a dream.

Clark Griffith has put new life into the Senatorial aggregation. He has put in his own savings into the club and has installed a new brand of ginger in his team, new at least for Washington. In other years the Washington team has gone on the field merely for the formality of playing the scheduled game, apparently convinced that it had only an outside chance to win. But Griffith's 1912 club is a cocky one that goes into the combat with the belief that a victory will result or the other fellow will have some battle on their hands. It is team spirit, the Washington baseball critics say.

Griffith has been fortunate in his pitching. Walter Johnson never has shown to better advantage than he has this season, and Groom has pitched great ball in the games he has entered.

"Chick" Gandil, whom Griffith recently purchased from Montreal, has made good. He has been putting up a grand game at the initial sack and hitting the ball hard. Clyde Milan, the Senators' star outfielder, is also playing a sensational fielding game, running the bases well and walloping the ball hard.

Foster at third is the sensation of the team and works in great style with George McBride, the shortstop and captain of the club. Foster's stick work also has done much in keeping the Washington team high in the race and "Germany" Schaefer looks better than ever before in his long and eventful baseball career. Schaefer has been hitting well, his long wallop being a potent factor in the Washington offense.

In looking at the high standing of Griffith's men and considering the low position Washington usually has held the question naturally arises: Will the club blow? Has the team the class to keep up the present pace? Washington is admiring—and wondering.

## PUGS TO TRAIN VIA AEROPLANE

**"Prizefighters of the future will do most of their training in aeroplanes."**

This remarkable and revolutionary statement was made recently by Kid McCoy, the pugilist, who formerly held the middleweight and welterweight championships.

"Indulgence in aviation is a splendid way of training," announced McCoy after he had navigated a five-mile course through the air in a borrowed aeroplane.

"It quickens every sense. The flier must be on the alert all the time. He must be strong, too. Every one can see the immense possibilities of getting pure, fresh air when one is about a mile up in the sky. No germs, no dust, no vitiated atmosphere, no nothing."

"Some fighters may never get any nearer heaven than the 10,000-foot altitude mark, but even that has its compensations. They would probably be lonesome anyhow."

McCoy has written to Champion Jack Johnson explaining the usefulness of the aeroplane, but the Ethiopian bruiser has not yet got beyond the automobile stage.

## THE ROYAL GERMAN GARAGE.

According to the Indianapolis "News" the German Imperial garage occupies a building that would shame many an American mansion. Vacuum cleaners are almost constantly in operation gathering up dirt. Twenty-five automobiles, the majority of which are limousines, occupy the first floor of the garage, while horses, coaches, grooms and chauffeurs manage to worry along with some fifty stalls on the upper floors. The official in charge is known as the "ober-stallmeister." He is assisted by five lead chauffeurs, seven chauffeurs, twelve assistant chauffeurs and a regiment, more or less, of assistants and sub-assistants.

## EXCEPTIONS. LACK OF STABILITY.

"Figures won't lie," said the ready-made philosopher.  
"No," replied the man who was counting up convention votes; "they won't lie. But they have a way of changing their minds frequently."

## HONOLULU YACHTSMAN WHO MADE GOOD ON OCEAN RACE

FRED FREDERICKS.

Fred Fredericks, who went to the Coast as second mate of the Hawaii, proved himself to be the right man for the job on both the voyage over and the racing return.

Fredericks was in the transpacific event for the second time, having come down two years ago with "Drydock" Smith on the Moillon. He is a crack sailor, and when the occasion demands can do his shoregoing togs and do the social act for the honor of Hawaii.

## SEVEN TEAMS TO FORM A NEW LEAGUE

A new ball league, to include seven of the best-known Oriental and Hawaiian teams now playing hereabouts, is in prospect, and next Sunday evening the officers of the various clubs are to meet and talk things over.

Sang Loy, the well-known Chinese baseball enthusiast, has offered a handsome challenge cup to be played for, and the meeting will be held in his office, Maunakea and King streets, at 6 o'clock.

Officers of the following teams are asked to be present:  
C. Y. A., Kukui A. C., Novelty A. C., Honolulu Cracker Co., Kauluwela, United Chinese Association, Hawaiian-Korean A. C.

## 400 CASES OF BEER WILL CHRISTEN STREETS

**WICHITA, Kan., June 24.**—Sheriff John F. Millhaub has set the date for the christening of the city sewers with two carloads of beer which formerly belonged to the John F. Hauck Brewing Company of Cincinnati, but for a year have been stored in the cellars of the county jail. Every bottle in the 400 cases must be uncorked and its contents carefully emptied that the bottles and the cases can be returned to the Cincinnati brewer.

"You will have to hire help, won't you?" Sheriff Millhaub was asked.  
"We would hardly have to hire help," he smiled. "We could get plenty of fellows to work free if we wanted them. Enough have volunteered already to fill a national convention hall. But my deputies and I are going to do the work."

## INSATIABLE YEARNINGS.

"So," said the Goddess of Fortune, "you are weary of steam yachts and special trains?"  
"Yes," replied her especial favorite. "And you have ceased to care for motorcars and aeroplanes?"  
"Entirely."

"Well, what do you desire now?"  
"I want to go into a convention with my private steam roller."

## BIG ENTERPRISE.

"Why don't you take a part in politics?"  
"I never take a part in anything," replied Mr. Dustin Stax. "My rule is all or nothing."

## BOOSTER BURGEE BROUGHT LUCK TO LURLINE

**Captain Harris Had Exciting Time Hoisting It and Getting Across Line**

Torn between civic pride and seamanship, Captain Lew Harris of the Lurline had an exciting fifteen minutes just at the start of the trans-Pacific yacht race, trying to decide whether he should be a booster at the expense of a possible sailing advantage. In the end he was not forced to choose between the two, which makes a sort of "Lady or the Tiger" problem of it.

It all happened about the big "San Diego, 1915" burgee, that the Lurline has flown at sea, and in port ever since she crossed the starting line. Less than an hour before the gun was sent the four-winged white racers on their long voyage across the Pacific, and when everyone aboard the San Diego yacht was on the qui vive of expectation, came a chugging motor launch with a telegram for Captain Harris. With visions of being ordered home at the last minute, Captain Harris was in two minds whether to chuck it overboard or read it, but duty finally overcame inclination, and he hesitatingly tore open the yellow envelope.

"San Diego flag coming by auto. Twelve by Twenty-five feet."

"Good Lord," ejaculated Captain Lew. "What am I going to do with?"  
Time was flying, so the skipper hurried a man ashore, in the waiting launch, with instructions to buy the heaviest flag halyards he could find in San Pedro. The messenger returned at the same time that another motorboat was streaking it across the harbor, toward the Lurline, which was even then tacking for the starting line. The new halyards were rove, and the bundle of bunting was tossed aboard at the same time. A few minutes of strenuous work, and the booster burgee broke out just as the Lurline crossed the line, the trick being prettily turned as though it had been rehearsed for the occasion.

"It was a close call, but we had to have the flag, after the expedition fellows had gone to all that trouble," said Captain Harris in telling of the incident. "It's a great piece of bunting, with a 12-foot hoist and a 25-foot fly, and it's pretty nearly as hard to raise as the mainsail. But we'll stick by it to the end, for it brought us luck."

## KING AND DUKE GET TOGETHER

**STOCKHOLM, Sweden, July 10.**—Duke Kahanamoku is by all odds the most popular Olympian in Stockholm. For several days the people have gone wild over him and today royalty itself unbent to welcome the Hawaiian swimmer into the royal box in the stadium, while the vast throng of more than ten thousand people cheered and yelled, and gave him an ovation that he will remember as long as he lives.

Duke was brought into the stadium to hear the announcement of the result of the swimming heats. The King, Gustavus V, the Queen and a throng of courtiers, diplomats, ambassadors and military and naval attaches, all in uniform, were in the box. The scene was a most brilliant one.

When the announcer made the official statement that Kahanamoku had won the heat in the time, hitherto unequalled, of one minute, two and two-fifths seconds, faster than any had ever gone through the water before, there was a tremendous roar from the crowds and it swelled and beat against the sides of the arena until it sounded like the rumble of thunder.  
**King Calls Duke.**  
As it reached its height Gustavus, who has taken great interest in the games and particularly the aquatic sports, leaned forward from his seat and beckoned to the Hawaiian lad, standing alone, slightly forward of the little clump of swimmers. Kahanamoku hesitated, and then as others called him, mounted to the box.

King Gustavus rose and clasped his hand, and congratulated him heartily, declaring it was a pleasure to meet the man who had lowered the pride of the world's best swimmers, with so little preliminary experience. He then introduced Kahanamoku to the Queen, who was sitting snuffing at the big, dark-faced lad, who accepted the ovation given him modestly, and without apparent embarrassment.

**Americans Speedy.**  
Kahanamoku is only one of the Americans here who have been winning against odds, and outclassing all who have gone against them.

## NIPPON BARBER PANIC STRICKEN

SAN FRANCISCO, June 27.—A new chapter is added to the romance of opium on almost every arrival of a steamer from the Orient, and yesterday's chapter began with the seizure on the steamship Nippon Maru of twenty-five 5-tael tins of smoking opium.

There was an element of the comic in the affair, the Japanese barber being the comedian, Customs inspectors P. O. Hucaker and H. S. Verney proceeded to search the barber shop, and the Japanese barber laughed at them, remarking: "You find no opium. I'm not a Chinese." After searching the drawers and the lockers they found an old valise on the top shelf of a locker and when they opened it and found the twenty-five tins, the barber, with a yell of dismay, ran from the room and went into hiding. The inspectors caused a search to be made for him, but he could not be found.

Some time ago Collector Stratton issued an order prohibiting the selling or peddling of dutiable goods on the steamers, as had been the custom for many years, and required that the duty should be paid on all such articles brought to this port.

Freight Clerk P. B. F. Baker of the Nippon Maru violated this rule, for a large collection of linens, laces, and silks were found in his room yesterday by Customs Inspector Charles Bonninger and H. S. Verney and were taken to the office of Deputy Customs Surveyor Charles H. Blinn. After communicating with the collector, Blinn was advised that under the ruling of United States District Judge de Haven no conviction for smuggling could be had so long as the articles were not taken off the vessel, but that the goods could be seized and confiscated, not having been entered on the ship's manifest. Baker was thereupon released, and the goods will be sold for the benefit of the Government.

## JAIL TERM FOR "NELLIE BLY"

NEW YORK, June 28.—Nellie Bly, in private life Mrs. Elizabeth C. Seaman, one time noted traveler and a newspaper woman and now owner of the banking property of the manufacturing company of Brooklyn, was sentenced by United States Judge Mayer for breaking a law to a term of 20 days in jail and a fine of \$500. A stay was granted to July 10.

Mrs. Seaman was found guilty of contempt of court in connection with a creditor's inquiry begun after her husband's death in Brooklyn declared bankrupt. Her attorneys for several creditors have sought to bring out that the American Steel Barrel company, another concern operated by Mrs. Seaman and said to be valued at \$2,000,000, was nothing less than a subsidiary of the Ironclad.

## FATHER KILLS EAGLE ABOUT TO CARRY OFF HIS CHILD

Bird Had Started Away with Her in His Claws but Dress Luckily Gave Way

SOUTH NORWALK, Conn., June 11.—The largest eagle ever seen or shot in these parts attacked Emma Trewald, an eight-year-old girl, in the rear of her home in Westport this afternoon. The bird, which measured seven feet from tip to tip of the wings, swooped down on the child as she was picking flowers. It grabbed her by the back of her gingham dress with its claws and started to fly away with her. The material gave way, however, and the child fell into the grass. The eagle was returning to the attack when the child's cries alarmed her father, who came with a shotgun and brought the bird to the ground. Even then the eagle put up a stubborn fight and clawed at Trewald viciously when he approached it.

The girl was lacerated somewhat by the eagle's claws and was bruised by her fall, but her injuries are not serious. It is against the law of the State to shoot an eagle, but in view of the fact that it was to preserve a human life, it is not thought that Trewald will be prosecuted.

## PERRET PROPHECIES AETNA ERUPTION

BOSTON, Mass., July 11.—Professor Frank Alford Perret of the department of geology at the Massachusetts Institute of Technology, predicts that Italy will soon be visited by another catastrophe. He foretold the eruption of Mount Aetna in 1910. After the eruption of 1908 the King of Italy associated him. Since then he has remained within the zone of volcanic activity, coming to Boston at rare intervals. "Having devoted my life," says Professor Perret, "to the study of earth disturbances, I have, through purely scientific means, been able to judge approximately the time of volcanic eruptions before they occur. I believe that we may look for another eruption of Mount Aetna within three or four years."

Photo-Engraving of highest grade can be secured from the Star-Bulletin Photo-Engraving Plant.

# MANCHUS BACK PLOT TO WRECK NEW REPUBLIC

Canton in a Ferment and Some Wholesale Executions Are Reported

HONGKONG, June 26.—British here to guard the frontier, where they will remain for an indefinite period. The city of Canton is in a ferment and all trains coming from Canton to Hongkong have been delayed, owing to troubles on the railway. Several of the locomotives have been tampered with.  
 The leaders of the Manchus movement are known to be resident in the Portuguese dependency of Macao, and in the city of Hongkong. Quantities of money are coming into the southern provinces and arms and ammunition have been smuggled extensively into the province of Kwan Tung, while secret meetings have been held to organize an uprising in Wu Chow and Canton.  
 The policy of the government officials is very unpopular. Executions are occurring daily. The Major of Maritime Town and the city of Pakhoi on the gulf of Tonking, boasts that 5000 people have been killed there alone. The authorities at Hongkong are keeping a watchful eye on the foreign settlement in Canton and on the British railway. Many Chinese are fleeing.  
 "OF NO PRACTICAL BENEFIT." "You don't seem to regret the fact that a number of people speak unkindly of you."  
 "No," replied Senator Sorghum; "the only kind words that ever secure unanimous indorsement are those that compose an epitaph."

## HAWAII A. D. 1912 TERM.

### IN THE CIRCUIT COURT OF THE FIRST CIRCUIT, TERRITORY OF THE TERRITORY OF HAWAII,

Marston Campbell, Superintendent of Public Works, Plaintiff and Petitioner vs. PALOLO LAND AND IMPROVEMENT COMPANY, LIMITED, a corporation; JOHN DOE, MARY DOE, and RICHARD ROE, unknown owners and claimants. Defendants and Respondents.

### THE TERRITORY OF HAWAII: TO THE HIGH SHERIFF OF THE Territory of Hawaii, or his Deputy; the Sheriff of the City and County of Honolulu, or his Deputy:

YOU ARE COMMANDED to summon Palolo Land and Improvement Company, Limited, a corporation; John Doe, Mary Doe, and Richard Roe, unknown owners and claimants, defendants, in case they shall file written answer within twenty days after service hereof to be and appear before the said Circuit Court at the term thereof pending immediately after the expiration of twenty days after service hereof; provided, however, if no term be pending at such time, then to be and appear before the said Circuit Court at the next succeeding term thereof, to wit, the A. D. 1912 Term thereof, to be held at Honolulu, City and County of Honolulu, on Monday, the 8th day of January next, at 10 o'clock a. m. to show cause why the claim of the Territory of Hawaii, petitioner, should not be awarded to it pursuant to the tenor of its annexed petition, praying for the condemnation for use as a portion of the water supply system of Honolulu of the following described and mentioned land, waileas and water rights in Palolo, Island of Oahu, to wit:  
 That certain crater situate at the head of Palolo Valley, City and County of Honolulu, Territory of Hawaii, containing an area of one hundred acres, more or less, together with those certain forest lands surrounding said crater of an area of two hundred and eighty-seven acres, more or less, more particularly described as follows, to wit:  
 Commencing at a point on ridge between Palolo and Manoa Valleys and running:  
 1. N. 41° 2' E. true 336.0 feet up center of ridge between Palolo and Manoa Valleys to junction with the Koolau Range of Mountains;  
 2. N. 85° 3' E. true 412.0 feet along center of Koolau Range along Kalia;  
 3. S. 79° 55' E. true 981.0 feet along center of ridge along Kalia;  
 4. S. 62° 2' E. true 2265.0 feet along center of ridge along Kalia to peak called Palikea;  
 5. N. 31° 42' W. true 4740.0 feet down center of ridge along Waiomao and Kekio to point in center of ridge;  
 6. N. 28° 20' W. true 4100 feet across valley to initial point.  
 Containing an area of 387.0 acres, more or less; and being a portion of Kekio, L. C. A. 5821, Ap. 4, to Pehu and L. C. A. 8559B of Kekio, a lele of Kapaehulu, to W. C. Lunallilo, in the left hand or Northwest valley of Palolo Valley at its head.  
 Also all the water rights and water ways owned by said Palolo Land and Improvement Company in said Palolo Valley whether in and appurtenant to and connected with the lands hereinabove described or not; that said water rights and water ways are, so far as your petitioner has been able, after careful investigation, to determine, the water rights and water ways belonging to the following named lands and to which the same are entitled, to wit:  
 1. R. P. 5667, L. C. A. 5931 to Pehu for Keekapu, being Apana 1 of the Ahupuaa of Kekio, comprising 283 acres excepting the following named lands therein: R. P. 2548, L. C. A. 1781, Aps. 1, 2 and 3 to Umama, area .801 acre; L. C. A. 1882, Ap. 1, to Paalea, area 2.100 acres; L. C. A. 1656 to Upepe, area 2.760 acres; L. C. A. 1770 to Mano, area 3.741 acres—total area excepted, 8.902 acres, leaving a net area in Apana 1 of Kekio of 272.098 acres more or less.  
 2. R. P. 5667, L. C. A. 5931 to Pehu for Keekapu, being Apana 4 of the Ahupuaa of Kekio, containing an area of 679.500 acres more or less.  
 3. L. C. A. 8559B, Apana 22 to W. C. Lunallilo, being the land of "Kaea" a lele of the ill aina of Kapaehulu, area 110.5 acres more or less.  
 4. L. C. A. 8559B to Lunallilo, known as Section 3 of said L. C. A., area 3.64 acres more or less; also known as Apana 3 of Kapaehulu, or as L. C. A. 8559B, Ap. 32, Section 3.  
 5. L. C. A. 1646, R. P. 1266, Aps. 1 and 2 to Luahilua, area 1.476 acres more or less, at Palolo.  
 6. L. C. A. 1882, R. P. 1268, Apana 2 to Paalea, area 1.47 acres more or less—land at Kekio, Palolo.

ANNUAL MEETING.

Notice of Annual Meeting of the Stockholders of The First American Savings and Trust Company of Hawaii, Limited.

Notice is hereby given that the Annual Meeting of the Stockholders of The First American Savings and Trust Company of Hawaii, Limited, for the election of officers and Directors, and for the transaction of such other business as may be brought before the Stockholders, will be held at its place of business on Fort Street, in the City of Honolulu, on Monday, the 15th day of July, 1912, at 2 p. m.

M. P. ROBINSON, Vice President and Acting Cashier and Secretary.

NOTICE.

Election of Officers.

At a meeting of the incorporators of the Territorial Realty Co., Limited, held Saturday, July 6, 1912, the following officers were elected for the ensuing year:

At a meeting of the stockholders of Hawaiian Fertilizer Company, Limited, will be held at the office of C. Brewer & Company, Limited, at 2 p. m. on Monday, July 15, 1912.

J. WATERHOUSE, Secretary, Hawaiian Fertilizer Company, Limited.

NOTICE.

McCabe, Hamilton & Renney Co., Ltd.

The annual meeting of the stockholders of McCabe, Hamilton & Renney Co., Ltd., will be held at the office of the company, No. 20 Queen street, Honolulu, Wednesday, July 17, 1912, at 3 p. m.

NOTICE TO SHIPPERS.

Freight for Hilo per S. S. Mauna Kea will be received on Mondays and Tuesdays, also on Wednesdays up to 9 a. m., on Fridays and on Saturdays up to 12 m.

INTER-ISLAND STEAM NAVIGATION CO., LTD.

POLITICAL NOTICES.

NOTICE.

Fourth Precinct, Fourth District, Republican Club.

A meeting of the Republican Club of the Fourth Precinct of the Fourth District will be held on Friday evening, July 12, 1912, at 7:30 o'clock, at Punahou Park, corner of Punahou street and Wilder avenue, for the purpose of making nominations for officers of the said precinct club, to be voted for on Friday evening, July 19, 1912, at 7:30 o'clock.

J. A. THOMPSON, Secretary, Fourth Precinct, Fourth District Republican Club.

NOTICE.

Eighth Precinct, Fourth District, Republican Club.

A meeting of the Republican Club of the Eighth Precinct of the Fourth District will be held on Friday evening, July 12, 1912, at 7:30 o'clock, at San Antonio Hall, Vineyard street, for the purpose of making nominations for officers of the said precinct club, to be voted for on Friday evening, July 19, 1912, at 7:30 o'clock.

JAS. T. CAREY, Secretary, Eighth Precinct, Fourth District Republican Club.

TENTH PRECINCT, FIFTH DISTRICT.

There will be a meeting of the Tenth Precinct, Fifth District, Republican Club at Hopkins residence, corner of King street and Kalihii road, at 7:30 to 8 p. m., July 12, 1912, for the purpose of nominating officers for the ensuing two years. To be elected on Friday, July 19.

ED. HOPKINS, Secretary.

MEETING NOTICE.

There will be a meeting of the Republican Club of the Tenth Precinct, Fourth District, at Bates and Nuanuu streets, on Friday evening, July 12, 1912, at 7:30 o'clock, for the purpose of making nominations for the officers of the said precinct club, to be voted for on Friday evening, July 19, 1912, at 7:30 o'clock.

LEGAL NOTICES.

IN THE CIRCUIT COURT OF THE FIRST JUDICIAL CIRCUIT, TERRITORY OF HAWAII, HOLDING TERMS IN THE CITY AND COUNTY OF HONOLULU.

TERRITORY OF HAWAII, by Marston Campbell, Superintendent of Public Works, Plaintiff and Petitioner, vs. GOO WAN HOY ET AL., Defendants and Respondents.—Eminent Domain.

TERM SUMMONS. THE TERRITORY OF HAWAII: To the HIGH SHERIFF OF THE TERRITORY OF HAWAII, or his Deputy; the SHERIFF OF THE CITY AND COUNTY OF HONOLULU, or his Deputy.

YOU ARE COMMANDED to summon GOO WAN HOY; ENOCH JOHNSON; KAMAKA STILLMAN; ROSE McINERNEY, wife of E. A. McInerney; E. A. McINERNEY; CARL ONTAL; GEORGE D. ROBINSON; GEORGE T. ROBINSON; J. A. MAGOON; LI-LIKALANI; THOMAS LALAKEA; ROSE K. AIAU; LUM CHAN; CHIN-KWAI KHI; WONG LEONG; HARRY DOE JOE; JAPANESE BENEVOLENT SOCIETY, a corporation; W. O. SMITH; S. M. DAMON; E. FAXON BISHOP; ALBERT F. JUDD and ALFRED W. CARTER, Trustees under the Will and of the Estate of Bernice Pauahi Bishop, deceased; JOHN DOB, MARY ROE, JANE BLUE and JOHN BLACK, unknown owners and claimants; defendants and respondents, in case they shall file written answer within twenty days after service hereof, to be and appear before the said Circuit Court at the term thereof pending immediately after the expiration of twenty days after service hereof; provided, however, if no term be pending at such time, then to be and appear before the said Circuit Court at the next succeeding term thereof, to wit, the January, 1913, Term thereof, to be held at the City and County of Honolulu on Monday, the 13th day of January next, at 10 o'clock a. m. to show cause why the claim of the Territory of Hawaii, plaintiff, should not be awarded to it pursuant to the tenor of its annexed Petition. And have you then there this writ, with full return of your proceedings thereon.

Witness the Honorable Presiding Judge of the Circuit Court of the First Circuit, at Honolulu aforesaid, this 16th day of February, 1912.

WITNESS the Honorable Presiding Judge of the Circuit Court of the First Circuit, at Honolulu aforesaid, this 16th day of February, 1912.

J. A. DOMINIS, Clerk.

Territory of Hawaii, City and County of ss. Honolulu, )

I, J. A. DOMINIS, Clerk of the Circuit Court of the First Judicial Circuit, Territory of Hawaii, do hereby certify that the foregoing is a full, true and correct copy of the original summons in the case of Territory of Hawaii, by Marston Campbell, Superintendent of Public Works, vs. Goo Wan Hoy et al., as the same appears of record and on file in the office of the Clerk or said Court.

I further certify that the petition prays the condemnation for use as a public highway of the following-described land, situate in the City and County of Honolulu, Territory of Hawaii, to wit:

Beginning at a point in the southwest property line of Kuakini Street, which point is Azimuth 218° 46' 67.20 feet from the line between the Government Street Survey Monument on Liliha Street at the northeast corner of School Street and the monument above Kuakini Street, opposite Kuna-wai Lane, which survey line is seven-teen feet (17) offset from the new southeast property line of Liliha Street, thence running by true azimuth and distances as follows:

- 1. 47° 10' 54.42 feet in a straight line to a point, thence, in a curved line to the left, having a radius of 920.0 feet;
2. 42° 39' 144.63 feet direct bearing and distance; thence
3. 38° 09' 120.02 feet in a straight line to a point thence: In a curved line to the right, having a radius of 875.0 feet;
4. 44° 29' 193.04 feet direct bearing and distance; thence
5. 50° 49' 131.47 feet to a point in the northeast property line of School Street, which point is azimuth 222° 29' 768.5 feet from the government street survey line on Liliha Street; thence
6. 322° 45' 50.0 feet along the northeast corner property line of School Street and across Frog Lane to a point; thence
7. 230° 49' 133.0 feet in a straight line to a point; thence in a curved line to the left, having a radius of 925.0 feet;
8. 224° 29' 204.07 feet direct bearing and distance; thence
9. 218° 09' 120.02 feet in a straight line to a point; thence in a curved line to the right having a radius of 870.0 feet;
10. 222° 39' 126.77 feet direct bearing and distance; thence
11. 227° 10' 54.29 feet in a straight line to a point in the southwest property line of Kuakini Street; thence
12. 138° 45' 50.0 feet along the southwest property line of Kuakini Street to the point of beginning. Containing an area of 58,787.6 square feet.

All persons having an interest in the land sought to be condemned are hereby warned that unless they appear at said Court on or before August 5, 1912, they will be forever barred from contesting said petition or any judgment entered thereon.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of said Circuit Court, this 11th day of April, 1912.

J. A. DOMINIS, Clerk of the Circuit Court of the First Circuit.

Everything in the printing line at Star-Bulletin, Alakea street; branch, Merchant street.

BY AUTHORITY.

NOTICE OF SALE OF PUBLIC LANDS.

The following lands situated on School street, Honolulu, and at Oloa, Puna, Hawaii, will be offered for sale at public auction at the following upset prices, at 12 o'clock noon, Saturday, August 10, 1912, at the front door to the Capitol Building, Honolulu:

- (1) Remnant at School street, containing an area of 1,550 square feet, more or less. Upset price, \$125.
(2) Remnant on makai line of School street, containing an area of 11,000 square feet. Upset price, \$550.
(3) Lots 4B and 7B, Block "A," Oloa, Puna, Hawaii, containing an area of 4.84 acres. Upset price, \$145.20. The same being sold as a railroad right-of-way and not for residence purposes. Terms of sale: Cash. Purchaser to pay cost of patent and stamp.

For maps and further particulars, apply at the office of the Commissioner of Public Lands, Capitol Building, Honolulu.

JOSHUA D. TUCKER, Commissioner of Public Lands. Dated at Honolulu, June 6, 1912. 6257-June 6, 13, 20, 27; July 5, 11, 18, 25; Aug. 1, 9

NOTICE TO CONTRACTORS.

Sealed proposals will be received at the office of the Hawaii Loan Fund Commission, Room 6, Bank Building, Hilo, Hawaii, until 1 o'clock in the afternoon of August 1, 1912, for the improvement of the following sections of the Belt Road in the County of Hawaii.

Contract No. 2.—Hakalau Gulch eto Pohakupuka Gulch, length 5.58 miles, District of North Hilo.

Contract No. 3.—Kaawali Gulch to Kealakekua Gulch, length 4.65 miles, District of North Hilo and Hamakua.

Contract No. 5.—Kahuku Lava Flow, length 2.11 miles, District of Kau.

Proposals shall be on forms furnished by the Commission. Each proposal shall specify the gross sum for which the work will be performed according to the plans and specifications, together with a unit price for each of the separate items as called for.

Proposals shall be in a sealed envelope, addressed to Albert Horner, Chairman, Hawaii Loan Fund Commission, County of Hawaii, and plainly endorsed as required in the specifications under "Notice to Contractors," page 1.

All proposals shall be accompanied by a certified check as provided for in the specifications for a sum equal to 5 per cent. of the amount of the proposal.

The Commission reserves the right to reject any and all bids and waive any defects.

Plans may be seen and specifications and proposal forms can be obtained on application to the Engineers' Office, Room 6, Bank Building, Hilo, Hawaii, on and after July 13, 1912.

ALBERT HORNER, Chairman, Hawaii Loan Fund Commission. 5283-107

SEALED TENDERS.

Sealed Tenders will be received by the Superintendent of Public Works up until 12 noon of Monday, July 15, 1912, for furnishing and installing a 260 h. p. boiler for the Honolulu Water Works, Honolulu.

Plans, specifications and blank forms for proposal are on file in the office of the Superintendent of Public Works, Capitol Building.

The Superintendent of Public Works reserves the right to reject any or all tenders.

MARSTON CAMPBELL, Superintendent of Public Works, Honolulu, July 8, 1912. 5282-107

SEALED TENDERS.

Sealed Tenders will be received by the Superintendent of Public Works up until 12 noon of Monday, July 15, 1912, for the construction of a Reinforced Concrete Septic Tank and a Five-inch Cast Iron Sewer for the Girls' Industrial School, Mollili, Oahu.

Plans, specifications and blank forms of tender are on file in the office of the Superintendent of Public Works, Capitol Building.

The Superintendent of Public Works reserves the right to reject any or all tenders.

MARSTON CAMPBELL, Superintendent of Public Works, Honolulu, July 3, 1912. 5279-107

CORPORATION NOTICES.

NOTICE OF SPECIAL MEETING OF STOCKHOLDERS OF PIONEER MILL COMPANY, LIMITED.

A special meeting of the stockholders of the Pioneer Mill Company, Limited, will be held at the office of H. Hackfeld & Company, Limited, Honolulu, on Wednesday, July 17, 1912, at the hour of ten o'clock a. m., for the purpose of considering and acting upon the following propositions: (1) The re-issuance of the present bonded indebtedness of the company; (2) The issuance of new bonds of the company, secured by its property and assets in such amount as the stockholders may direct; and also to consider any and all other questions necessary or proper to effectuate the said propositions or either of them or which may be incident thereto.

MELVIN VANIMAN'S SPECTACULAR DEATH FROM DIRIGIBLE

Story of Inventor's Death in Sight of Wife and Children

ATLANTIC CITY, (N. J.) July 2.—Sailing out over the Atlantic ocean under perfect control with thousands watching, the great dirigible balloon Akron, in command of Melvin Vaniman, with a crew of four men, exploded while 1000 feet in the air early today and shot down into the water a tangled mass, carrying to death the daring aviator and his companions.

In all the tragic history of disaster to airships and aeroplanes, probably none has been as sensational as that which brought to an end the greatest and most costly air craft ever constructed on the western hemisphere. Built to withstand the storms of the Atlantic, and to carry at least a dozen men across the ocean to Europe, the Akron went to her doom in calm weather.

Two Brothers Perish. Those who went down with the big dirigible besides the intrepid Vaniman, who previously had one thrilling experience in an airship on the ocean, were:

Calvin Vaniman, his younger brother. Fred Elmer. George Bourillon of Philadelphia. Walter G. Gest, a friend of Vaniman's financial backer.

Up to sundown two bodies, those of Calvin Vaniman and Bourillon, had been recovered from the wreckage, which lies submerged in about eighteen feet of water off Brigantine beach.

The Akron, which had been inflated last February with gas manufactured by Vaniman in the big hangar, was taken out shortly after 6 a. m. for a test flight. One flight already had been made about a month ago and defects discovered at that time were remedied. Today's trial was to have been among the last prior to the attempt to cross the Atlantic. Mrs. Vaniman bid her husband good-by at their little cottage near the hangar at 2 a. m. and waited for daybreak to see her husband sail away.

The city authorities had been notified of the intended flight and a hundred policemen, firemen and other willing helpers assisted in floating the great gas bag out of the hangar. A large crowd had gathered. The launching of the air craft was accomplished without difficulty, and she sailed gracefully away. Over the waters of Absecon inlet Vaniman maneuvered and then after a few other movements she shaped the ship's course out to sea.

When a half mile off Brigantine beach the thousands of spectators who had been watching the ship saw a burst of flame. For perhaps ten seconds the half million dollar dirigible was invisible, while the air about the spot where she had been hovering seemed to be all fire. Then the ship, outlined sharply against the sunrise, was seen to fall like a plummet. First the car in which were penned the unfortunate men broke away from the envelope and up-ended, the bow turning first in a slow arc. Then it reversed suddenly and plunged downward. Directly above, twisting in a long spiral, was the bag, a smoking mass of rubber and silk with flames shooting out from a dozen sections as it collapsed. It flattered a moment and then dropped after the car.

Body Seen Plunging Down. In the descent something which appeared to be the body of a man shot out to the left of the wreckage and hit the water before the rest of the descending mass. It was reported that this was the body of Calvin Vaniman.

Firemen and yachtsmen who were out in the little boats watching the ship immediately started to the rescue. Powerboats and every other kind of craft in the resort were brought into use, and soon a hundred boats were beating their way out over the rough waters of the inlet bay.

When the first boats reached the wreck the rescuers found only the collapsed gas bag. After a search a submerged body was recovered. It proved to be that of the younger Vaniman. Among the first on the scene were the Federal life-savers stationed in Atlantic City. Divers went down to the wreck, but there was little that could be done until low tide, when Gest's body was disentangled from the wreckage and brought ashore.

Four Wives See Disaster. Mrs. Vaniman saw the collapse of the balloon, and its drop into the ocean, carrying with it her husband and brother-in-law. She fell in a faint, and was unconscious for some time. Friends who were with her sent for physicians, and when she recovered consciousness she talked of her husband's bravery. The wives of Bourillon, Gest and Elmer, who lived near by, also saw the disaster from their homes. Neighbors tenderly cared for them, and later they went over to the Vaniman cottage, where a most distressing scene followed. Men tried away as the four widows wept in each other's arms.

Mrs. Vaniman, although she fainted on the porch of her little dwelling when she saw her husband dropping to his death, stood the strain better than the others after she finally became conscious and was upon her feet. Mrs. Bourillon and Mrs. Elmer cried on Mrs. Vaniman's shoulder. Despite the intensity of the moment Mrs. Vaniman talked of her husband.

"He was so very brave," she said, "that I believe he never knew what I fear was, I never presumed to urge him not to go up, for I knew it would not influence him. It would be more exact to say that he would not even hear what I said. He was devoted to his work, and flight in the air, however dangerous, was to him merely an incident. It was a step in his pleasurable science of air navigation,

which he studied when he was awake and dreamed of when he slept. "I shall never forget the feeling in my heart when he left me at 2 o'clock this morning. I had a forewarning of trouble. I believe it now as truly as I can believe anything and I am not a superstitious woman, either.

Witnessed Fatal Plunge. "Yes, I saw them fall. I saw one man jump. Something tells me that it was my husband. I saw him spread out in the air flat, as he fell, and then—oh! I can scarcely speak of it—all grew dark before me. They were so high in the air—it must have been a thousand feet.

"Before I fainted, I now remember that the car turned with one end downward and it fell towards the sea like a cloth, all in a string. I can recall that picture all the rest of my days; it is photographed on my mind.

"All these years of my husband's struggle, and I have been as one. I planned with him, shared his troubles and did what I could to encourage him. Praises Financial Backer. "At times, in Europe, things were very depressing. But Mr. Ziberling of Akron, his financial backer, has been a splendid friend. We have never heard from him one word except in praise.

"This Akron he was using for experiment only in a field that he believed already past in the science of aeronautics. His particular reason for going up today was to try out a contrivance he had for estimating the speed an aeroplane travels, an invention of his own, based upon measurements on ground glass of an inverted camera showing the earth or sea moving down below.

After the first excitement and shock had passed, Mrs. Vaniman again collapsed and later in the day was under the care of a physician. She is suffering frequent fainting spells and her condition is serious. Speculation on Cause. There are many theories as to the cause of the disaster. One is that air got into the gas bag. Another that the rays of the morning sun expanded the gas and caused the great envelope to burst. A third was that flames reached the gasoline and a fourth theory advanced was that a stray rope caught in one of the pulleys, that it was whipped around and striking the gas bag tore a hole in it, letting out the gas.

The flight was the second that the airship had taken this year. After tinkering all winter on the ship Vaniman took the Akron out for a short flight Saturday morning, June 1. At that time the balloon was nearly wrecked by some of the mechanism going wrong, but it was landed without serious mishap.

The longest flight the balloon made was last fall, when it spent the greater part of the day in the air in the vicinity of this city. At that time the gas in the bag was not sufficient to keep the big ship constantly in the air and it had to make several landings. During the winter Vaniman improved the ship through lessons learned in that flight.

Looked Like the "America". In general appearance the Akron was not unlike the America, in which Walter Wellman and Vaniman attempted to cross the Atlantic ocean in October, 1910, but there were many differences in the construction. The gas bag was thirty feet longer than that of the America, but was smaller in diameter. The dimensions were: Length of bag, 258 feet; diameter, 47 feet. The bag was made of a composition of rubber and was constructed in Ohio.

Beneath was the car, similar in shape to the America's, but longer—perhaps 150 feet long. The bottom of the car was composed of a round steel tank two feet in diameter and about 100 feet long. In this tank was stored the gasoline. The car was connected to the gas bag by steel tubing of light construction. On top of the tank was a platform of two-inch boards and on this rested one 100-horsepower motor, two of 80-horsepower, one 17-horsepower motor and a small dynamo.

To a reporter recently Vaniman expressed the fullest confidence in the Akron to "make good." He was constantly aware of the dangerous nature of the gas used for inflating the bag, but he felt that it was safe from explosion, as no flame could reach it. Gov. Wilson Wires Sympathy. SEAGIRT, N. J., July 2.—Governor Woodrow Wilson expressed his sympathy to Mrs. Melvin Vaniman over the death of her husband in a telegram addressed to her at Atlantic City tonight. The message read as follows:

"May I not extend to you my heartfelt sympathy for your tragic loss?" (Signed) WOODROW WILSON.

NO HATS IN CHINA TO TOSS INTO RING

The demand for straw hats in China is immense at present; for the people can find no head-coverings for summer for their former costumes, factories now existing in the interior of China, and several more which might possibly be established there in the near future, will hardly be competent to affect materially the shipment of foreign makes. The future market of this item is made particularly promising by the fact that straw hats are used in the Chinese army during summer time.

The Asiatic Jih Pao states that it fears was, I never presumed to urge him not to go up, for I knew it would not influence him. It would be more exact to say that he would not even hear what I said. He was devoted to his work, and flight in the air, however dangerous, was to him merely an incident. It was a step in his pleasurable science of air navigation,

MAY By GEORGE FITCH

The month of May is a long stretch of joy enclosed between two of our saddest holidays. On the first of May millions of sorrowful Americans bid good-bye to the old homesteads which have sheltered them for the past twelve months, and move into other flats with warmer hot water. On the thirty-first of May we mourn the noble dead who fought for their country and left widows to fight for a pension against the stern and unswerving descendants of the men who stayed at home.

Otherwise, however, May is our happiest month. It arrives with the last coal bill, and departs before the first fly. In May, Spring becomes entirely convalescent, and for the first time man can shed his coat and go forth to view the budding world with our slowest starters, and often finishes entirely before it begins.

The month of May is bounded on one side by chest protectors, angora hats, and stump speeches, and on the other side by soda fountains, mosquito netting and vacation folders. It is the happiest month of the year for college students, who steal away to remote campus corners and get engaged in vast droves. It is the busiest month for dressmakers, about as it does on June, and it is a brief season of bliss and rest for politicians who have either just been elected during April, or have been laid quietly away in the peaceful discard to await another year.

May, however, is a sorrowful month for the automobilist, who generally discovers while shaking the motoballs out of his last year's car that \$150 worth of automobile tires have become limp and dead and excessively no good during the long, cruel winter.

May is generally a prosperous month, because in May most people complete the accumulation of cash necessary to take them away on their June vacations. It is a fine month in which to look over prospectuses of summer hotels and ocean voyages, if only the looker has strength of mind enough to compromise on a new hammock later on. Of late May has also become a favorite month in which to become owner of a next year's model 50 H. P. roadster, with the gasoline tank arranged in a more swagger position, and to drive the same thunderously down the street, filling the owners of 7,000 out of date cars with horror and despair.

May has thirty-one days and is one of the very few months which could stand an extra 31 days without causing general complaint.

RENTALS IN JOINT BUILDING TOO HEAVY, SAY COMMERCIAL BODIES

So far as upkeep from rentals from the owning bodies are concerned, the commercial building proposition may be deemed a dead issue. For the most opulent of them all, the Chamber of Commerce, has decided that it cannot afford to pay the annual amount required. At the meeting of directors of the Chamber yesterday afternoon, the letter of the joint committee on building, consisting of F. H. Paris, F. W. Macfarlane, F. L. Waldron and W. F. Dillingham, was read together with President Spalding's reply and the latter was unfavorable to action.

The joint committee said that the plans contemplated a four-story building to cost approximately \$150,000 and the purchase of the Spreckels lot on the southeast corner of Merchant and Bishop streets, 15,000 square feet, at a cost of \$100,000. This would require a gross rental aggregating about \$25,000 annually. The rentals needed would be \$1 a square foot on the ground floor and 40 cents on the fourth floor.

Mr. Spalding's letter in reply stated that the present rental paid by the Chamber was \$50 a month, while the income was limited and pledged largely to various important matters of public interest. "I doubt if the Chamber," wrote the president, "until its membership and resources are largely increased, could safely undertake a pay a higher rental than \$100 per month. The other commercial organizations are probably in the same position and it would seem necessary that mercantile tenants should be secured to realize the very large rental required."

When the communications had been read there ensued conversational discussions on the side, the president obtaining figures of revenue and expenditure from the secretary, and when formal proceedings were resumed President Spalding said: "It is certainly a very large project, while it would be a very desirable consummation. The scheme was initiated by the late president, James F. Morgan, but it is a very large contract and should be considered only with the greatest deliberation."

Mr. Tenney asked what was the Chamber's income, and Secretary Wood answered about \$350 a month, or \$4200 a year, not including the shippers' warf tax.

The president stated that the regular expenses, including the secretary's salary, were \$230 a month. The Merchants' Association was now paying \$25 a month rent, and it was understood would not pay more than \$50.

Mr. Klamp remarked: "If you increase the uses you will have more revenue," to which the president replied: "That brings us to another matter—the increasing of our membership. In view of what the Chamber has accomplished and the influence it wields at home and abroad, it would be well to start a canvass for members."

Mr. Tenney then moved that the communication of the president be ratified and approved, which, being seconded, was carried unanimously. Jaggard Asks Aid.

Professor Jaggard's appeal for aid in volcanic research to the extent of \$2000 a year additional having been read, it transpired in the ensuing conversation that the contributors to the \$5000 now sustaining the station included the C. M. Cooke Estate, the Inter-Island Company, the Hilo Railroad and the Volcano House Company.

Mr. Tenney promised \$500 for his firm, saying the work was of no particular benefit to us, but was of scientific value. It was also good advertising, which might increase the number of tourists.

Mr. Cooke, treasurer of the Research Association, observed that it was Professor Jaggard wanted was the

most important thing in the world, and that it was the duty of the Research Association to support him in his work.

Mr. Tenney then moved that the communication of the president be ratified and approved, which, being seconded, was carried unanimously.

Mr. Tenney then moved that the communication of the president be ratified and approved, which, being seconded, was carried unanimously.

Mr. Tenney then moved that the communication of the president be ratified and approved, which, being seconded, was carried unanimously.

Mr. Tenney then moved that the communication of the president be ratified and approved, which, being seconded, was carried unanimously.

# Oh, How I Itched!

What long nerve-racking days of constant torture—what sleepless nights of terrible agony—itch—itch—itch, constant itch, until it seemed that I must tear off my very skin—then—  
Instant relief—my skin cooled, soothed and healed.  
The very first drops of D.D.D. Prescription for Eczema stopped that awful itch instantly—yes, the very moment D.D.D. touched the burning skin the torture ceased. A 25c bottle proves it.  
D.D.D. has been known for years as the only absolutely reliable eczema

remedy, for it washes away the disease germs and leaves the skin as clear and healthy as that of a child.  
All other druggists have D.D.D. Prescription—go to them if you can't come to us—but don't accept some big profit substitute.  
But if you come to our store, we are so certain of what D.D.D. will do for you that we offer you a full size bottle on this guarantee—If you do not find that it takes away the itch AT ONCE, it costs you, not a cent.

## Hang Week's Wash in a Few Minutes on a Hill Clothes Dryer

Clean Compact Capacious Convenient

Why continue to fuss with unsightly, ungainly clothes lines and poles when you can get this neat, compact, convenient Hill Dryer.

Instead of being spread all over the yard and supported by numerous poles, every inch of every line on the Hill Dryer is within easy reach—so you can hang the whole wash without moving a step, without having to drag the heavy basket up and down the yard through snow or damp grass.

Set up a Hill Dryer in a convenient spot near the house and see how many steps, how much time, work and bother it saves. Once used it and no one could ever coax you back to the old-fashioned clothesline method.

Hill Dryers are made in several sizes and styles for lawn, balcony and roof. Hold 100 to 150 feet of line—revolve so line comes to you—taken apart, folded up and put away, keeping your lawn entirely clear of obstructions.

Let us put one up in your yard ready for next wash-day. Or call and see it.

## MARKET SCARE ON SUGAR STOCK STRIKES EUROPE

Willett & Gray's Journal for June 27 reviews the raw sugar market in part as follows:

The week under review may be classed as a European market scare, pure and simple, due to the improved outlook for world's supplies, and the effect on this side has been the checking of the beginning of an improvement here by the payment of 1-22c per lb. advance on one day, which has been entirely lost and values returned to the previous 2 1-2c. c. & f. basis, with a movement to a lower level.

The special weak movement in Europe began from the quotation of last week when beet sugar was 11s. 9-3-4d. The first day's decline was 1 1-2d. to 11s. 8-1-4d. The second day saw 2 1-4d. decline to 11s. 6d. The next gave 1 1-2d. more to 11s. 4-1-2d. on Monday, 2 1-4d. more on Tuesday, 3d. more Wednesday to 10s. 11-1-4d.

Today the quotation is 10s. 9-3-4d. showing a full shilling decline for week (22c. per lb.) and bringing beets at Hamburg to parity of 4.28c. per lb. for centrifugals at New York against nominal values here of 3.83c. per lb.

The decline in Europe during the past four weeks has amounted to 1s. 5-1-4d. on prompt beet and 10-1-2d. on October-December beet.

### Cane Javass Sympathetic.

Cane Javass also show a sympathetic movement of 6d. decline to 11s. 9d., which is equal to 2.47c. net c. f. & l. to Liverpool, against Cubas at 2.52c. c. f. & l. to Liverpool, bringing Javass below the parity of value of centrifugals in Cuba for shipment to the U. K., thus leaving remaining supplies from the Cuba crop at the disposal of the U. S. refiners, and new crop Javass sugars available for the U. K. in place of Cubas.

Javass for the U. S. are approaching closer to the parity of Cubas and may enter into competition a little later on, but not now, 10s. 9d. being asked for July shipment (September arrival), equal to 4.08c. landed.

The Cuba crop continues to make progress toward a bumper crop of 1,850,000 tons or more, notwithstanding the rainy season and local insurrections.

European beet crops show favorable progress in all directions and, no doubt, has much to do with the weakness of prices abroad.

The outcome of sugar legislation is so uncertain that it affects the value, particularly of the large stock of Philippine island sugars still unshipped. Sellers are anxious to realize and buyers do not respond. Offerings of sugars at 4.10c. per lb., basis 88 degrees, for shipment not meeting business, bids of 3c. per lb. are solicited. Buyers, however, limit their possible buying to nearby cargoes on account of tariff uncertainty.

Many refiners in Germany and Austria are unable to operate for want of raw material pending the harvesting of the new crops. There is a stock of Hungarian raws at Flume, but being declared for export, can not be used at home, and of the 61,000 tons beet at Hamburg there are 12,500 tons German sugars which German refiners are seeking permission to reimport.

Such apparent deficiencies in supplies cause the premium on prompt deliveries, which will disappear when new crop sugars are available.

It is well to note that new crop beet quoted at 9s. 9d. is the parity of 4.04c. for centrifugals, and if we should be compelled to import full duty sugars, in quantity later on our market should rise closely to that parity. But if we can get along with privileged sugars the limit of decline here should be to about 34c. less or to 3.70c. for 96-degree test, with Europe remaining firm. There is a possibility, however, that we will need a few Javass this year, perhaps not enough to bring the two markets together.

### RELIEVE YOUR STOMACH

We Will Help You Do It—Read Our Guarantee

Dyspepsia may be completely eradicated if properly treated. We sell a remedy that we positively guarantee will completely relieve indigestion or dyspepsia, or the medicine used during the trial will cost the user nothing.

This remedy has been named Rexall Dyspepsia Tablets. Certainly no offer could be more fair, and our offer should be proof positive that Rexall Dyspepsia Tablets are a dependable remedy.

Inasmuch as the medicine will cost you nothing if it does not benefit you, we urge you who are suffering with indigestion or dyspepsia to try Rexall Dyspepsia Tablets. A 25-cent box contains enough medicine for fifteen days' treatment. For chronic cases we have two larger sizes, 50 cents and \$1.00. Remember, you can obtain Rexall Remedies only at our store—The Rexall Store, Benson, Smith & Co., Ltd., Fort and Hotel streets.

### KAISER ON WAY TO MEET CZAR

BERLIN, July 1.—The German emperor, accompanied by his third son, Prince Adalbert, started tonight, by way of Danzig, for Baltic port, a seaport of Russia near the entrance of the gulf of Finland, where they will meet the Russian emperor. The two emperors met last in August, 1909. The imperial chancellor, Dr. von Bethmann-Hollweg, was one of the emperor's party. Kaiser Wilhelm was in excellent spirits and looked forward with pleasure to the repetition of the royal meeting.

## MRS. WILKES' BLESSING

Her Dearest Hopes Realized—Health, Happiness and Baby.

Plattsburg, Miss.—"Lydia E. Pinkham's Vegetable Compound has proved very beneficial to me, for how I am well and have a sweet, healthy baby, and our home is happy.

"I was an invalid from nervous prostration, indigestion and female troubles.

"I think I suffered every pain a woman could before I began taking Lydia E. Pinkham's Vegetable Compound, and I think it saved this baby's life, as I lost my first one.

"My health has been very good ever since, and I praise your medicine to all my friends."—Mrs. VERA WILKES, R. F. D. No. 1, Plattsburg, Miss.

The darkest days of husband and wife are when they come to look forward to a childless and lonely old age.

Many a wife has found herself incapable of motherhood owing to some derangement of the feminine system, often curable by the proper remedies.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## PYTHIAN BANQUET OPENS ADDITION TO MAUI HOTEL

WAILUKU, Maui, July 9.—One of the pleasant social functions of the year was the opening of the addition to the Maui Hotel of which popular "Billy" Field is proprietor. The opening occurred on Saturday night, June 29, and the occasion was the elaborate supper prepared for the Knights of Pythias Lodge. Every member of the fraternity who could possibly get to Wailuku was there. The dinner was delicious and the speeches were of the usual high order enjoyed by that lodge. The tables were very well laid out, and the brothers sat in a large open square—a method of arrangement very popular in the States just at present.

The electric lights were turned on at the hotel for the first time that evening, and all were most enthusiastic over the future possibilities of the addition for such social functions.

Manager Field has certainly spared no money or pains in making the new portion of the hotel up to date in every particular. The screened section will be especially pleasing, and the new garden in front of the dining hall will make the place one of the beauty spots of Wailuku.

## SIREN LURES HIM INTO SEA

SAN FRANCISCO.—A. W. Geiger, a Boston mining engineer, who arrived here yesterday on the liner Tenyo Maru, risked his life in Yokohama harbor to say goodby to a fair young Australian heiress. He ruined a suit of clothes and swallowed a few gallons of salt water. He proved himself a poor jumper, but a gallant suitor.

The young woman that inspired the leap was a Miss Gregory, who, accompanied by a chaperon, was making a tour of the Orient. She boarded the Tenyo at Hongkong for Yokohama. Geiger was very attentive to the young woman during the trip and promised to show her and her escort the sights of Yokohama if they would permit him to be their escort.

Notice was given that pending an investigation of the suspicious case, only those passengers who were leaving the ship at Yokohama would be allowed to go ashore. As the launch bearing Miss Gregory and her chaperon left the ship's side Miss Gregory shook a dainty finger at the disconsolate Geiger.

"You promised to be our escort," she said, "and you told me that men from Boston never broke a promise."

"What could poor Geiger do? He couldn't swim, and he was arrayed as the escort of a pretty girl should be. He looked at the moving launch. He glanced at his patent leather shoes and carefully pressed his tweeds.

"I'm coming. Look out!"

As he yelled, he jumped. The launch was not there, and as the little brown men on a nearby sampan fished him out of the tide, he heard Miss Gregory remark to her chaperon:

"Oh, aunty, doesn't he look funny."

### CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY.

Few, if any, medical preparations have met with the uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The remarkable cures of colic and diarrhoea which it has effected in almost every neighborhood have given it a wide reputation. For sale by all dealers: Benson, Smith & Co., Ltd., agents for Hawaii.

Two hundred shipwrights and caulkers have struck for higher wages in San Francisco. They all work at the Hunter's Point drydock.
