JAPAN SCARE AGAIN BEFORE SENATE

SUGAR MEN WILL USE RUSSIANS

Planters on Hawaii Willing to Accept Labor Rejected of Oahu Plantations.

Managers of sugar plantations throughout the islands do not all concur in the verdict of the Sugar Planters to the effect that Russians are not desirable as laborers on plantations. Secretary Kearns of the board of immigration has been corresponding with the managers of the various plantations. He found that the majority of those on Hawaii are willing to experiment with Russian laborers. The seventy Russians who arrived here recently to Hawaii in plantations and could have sent more, as plantation managers asked for Russians with large families, the less the better he said, because he had the women and children did excellent work in weeding and planting. So men among the Russians are good work with teams, but do not do good field laborers, according to the general verdict.

Of the plantations on Oahu, several managers stated that they had never used Russian labor and therefore could pass no opinion and the others said they would not use Russians. The same report covered Maui.

"I am convinced," said Secretary Kearns this morning, "that it was wrong to send the Russians to Oahu, the general opinion as to their worthlessness as plantation laborers would be reversed. We have not had any representatives of the Hawaiian class among the immigrants received here. For the most part they have been tradesmen, used to life in towns and cities and unfamiliar in work in the country.

ARMY EXPERTS ARRIVE TO PLAN OAHU DEFENCE

Strategy Board Named to Make Island Impregnable Begins Its Labors

FORTIFICATION SCHEME CALLS FOR MILLIONS

Officers Will Go Over Every Foot of Coast Line in Carrying on the Work

Two army officers who will help make history for Oahu, stepped off the liner Lurline this morning, and within half an hour of the time they landed, were "on the job" and had reported at department headquarters for the important duty to which they had been sent by rush orders of the War Department.

Lieutenant-Colonel John F. Morrison and Major George Blakely are the recent arrivals, who come to serve on a board of which Brigadier General Macomb is presiding officer, and Major Wm. P. Wood, district engineer, is the fourth member. This board is to study the broad general problem of Hawaii's fortifications and defenses, and to evolve a plan for "making Oahu impregnable." By War Department orders it is to convene today, but in all probability the initial session will be merely a matter of routine organization, to comply with the terms of the order.

Tang Shao Yi, Premier Of China, Coming Here

Forced to Abandon Post Because of Manchu Plots

Forced to abandon his position as premier of China under President Yuen Shi Kai, because of the machinations of the Manchus, Gen. Tang Shao Yi is on his way to the United States and is expected to reach Honolulu on the Manchuria, August 7. It is probable that he will spend a week or two here before proceeding to Washington on a secret mission.

With all his plans thwarted by the Manchu advisers who surround Yuen Shi Kai, and who hated the premier because he represented the Dr. Sun faction in the cabinet, Tang Shao Yi, several weeks ago, suddenly departed from Peking for the south of China, stating that it was useless for him to continue at his post as long as the Manchus were permitted to harass and annoy him.

When Yuen Shi Kai learned that the premier had left the capital he sent him peremptory orders to return. Tang Shao Yi refused, being of the opinion that his life would not be worth much if he did go back. Then Yuen Shi Kai sent an armed force to bring back his disgruntled premier, but Tang Shao Yi succeeded in evading the soldiery and made his escape for a treaty port. An attempt was made to assassinate him while he was travelling, a Manchu sympathizer firing a shot at the premier as he was boarding a train at a way station.

Just what the nature of the mission of Tang Shao Yi to the United States is not known, although it is believed that he plans to press for recognition of the Chinese Republic by the United States.

MAGDALENA BAY STORY REVIVED

Committee On Foreign Relations Ask Senate To Reaffirm Monroe Doctrine

WASHINGTON, D. C., July 31.—The committee on foreign relations of the Senate today asked the Senate vigorously to reaffirm the Monroe doctrine. This action came as a surprise, and the promise of a sensation behind the committee's request was redeemed when it was stated for the committee that its investigation into the story that a Japanese syndicate is negotiating for four million acres of land at Magdalena Bay, Lower California, has disclosed something in the story.

Tells of Sugar Trade War

SAN FRANCISCO, Cal., July 31.—Still another day in the sugar trade investigations was given over to the recital of attempts by the American Sugar Refining Company to crush the best sugar interests of the country. Robert Oxnard, of the American Beet Sugar Company, was again on the stand, and testified that Havemeyer had begun a relentless trade war in 1901, when the American Refining Company had reduced the price of refined sugar to Missouri River Valley customers to three and a half cents a pound in an effort to undercut the best sugar men and drive them out of the field.

Split on Wool Probable

WASHINGTON, D. C., July 31.—The Democrats of the Senate today held a caucus and decided to stand behind the La Follette wool bill, and a substitute for the House bill, thus making a split on the wool bill a certainty.

\$37,500 REAL ESTATE DEAL FALLS THROUGH; TOURIST LOSES

Last April one of the most interesting real estate deals in some time was announced, being the purchase by a tourist named Lewis J. Hodge from the Middle West, from Mrs. F. S. Lyman of a seaside residence site combining several parcels of land, adjoining James K. Hastie's place at Walkiki. The price was \$37,500.

Yesterday Mrs. Lyman made a "peaceable entry" upon the premises and formally resumed their possession for alleged failure of the purchaser to pay the money according to the agreement of sale.

Mr. Hodge at least paid \$500 down as stipulated and took possession. He also started the building of some cottages on the premises. Mr. Hodge was staying at the Mouna Hotel until recently, and at least one of his acquaintances met this afternoon was not aware that he had gone away, although he said he missed him at the hotel when there a few days ago. Possibly he may yet be heard from in a legal contest for repossession.

In a deposition filed for record at the Registry of Conveyances today, Mrs. F. S. Lyman declares that, on July 20, 1912, she, in presence of F. S. Lyman Jr. and R. B. Rietow, entered upon the premises situate at Kuliakohole, Walkiki, described in a certain agreement of sale made between herself and Hodge, recorded April 20 last, and that said entry was made by reason of a breach on the part of said Lewis J. Hodge of his undertakings and

DEFER ACTION ON WHARF PURCHASE

Whether the Territory will take over by purchase the Claudine wharf at Kahuiki will be determined in the near future. The board of harbor commissioners deferred action on the subject at its meeting this afternoon, although Chairman Marston Campbell, coming directly from a conference with the Governor, reported that the latter's desire that a decision be reached at the earliest possible date.

This decision is sought so that provision for the dock's purchase may be made in the apportionment of the loan fund, on which Governor Frear is at present engaged.

An instructive communication on the comparative value of this block as a paving material was read, coming from the secretary of the Hawaiian Development Company. A lengthy and interesting discussion of the characteristics of Honolulu Harbor, written by Captain J. R. Macsuley, one of the government pilots at this port, was received and copies ordered for perusal by the members and for publication.

THINKS CANAL LOCKS WERE MADE TOO SMALL

WASHINGTON, D. C., July 29.—Senator Tillman's resolution passed by the Senate, which calls for the construction of the greatest battleship possible to build, has called the attention of naval authorities here to the fact that the Panama canal will not be wide enough to accommodate the largest battleship that can be built. The biggest battleship that could pass through the canal would be one of about 49,000 tons. This is 23,500 tons in excess of the Oklahoma and the Nevada, as now contracted for.

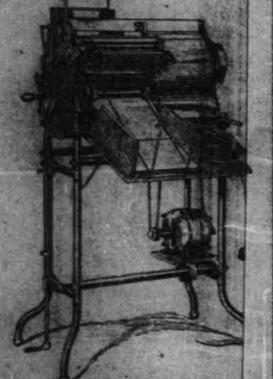

Giant Sword-fish Battles For Hour With Fishermen

Monster Only Conquered Men Stabbed by Daring Japanese Swimmer

Attacked by a giant swordfish, the crews of five Japanese fishing junks waged a desperate battle long three hours with the leviathan yesterday morning on the fishing grounds. The monster was only conquered when a daring fisherman shed quietly into the water and stabbed the big fish while it was engaged in attacking the other fishermen.

The big swordfish measured 20 feet in length from the tip of the sword to the tip of the tail, and weighed 25 pounds. The fish was brought to the city last night and placed in cold storage.

PRESIDENT TAFT WILL NOT PERMIT ELECTORS' COMPROMISE

All Posing as Republicans Must Declare for Whom They Will Vote

BY C. S. ALBERT

WASHINGTON, D. C., July 19.—President Taft has come out in a flatfooted manner regarding electors. He desires a square issue, with nothing to confuse the voters, and no sacrifices of Republican principles for his benefit or that of any other man. He has emphatically announced that he will not permit a compromise with the Roosevelt party people on electors in any State. All electors posing as Republicans must plainly indicate for whom they will vote of chosen. Unless they make a positive

declaration of this character necessary steps must be taken to replace them with tried Republicans of whose attitude there can be no doubt.

The matter of Presidential electors in Pennsylvania, Maryland, Kansas, South Dakota and other States continues to be a burning question. A serious proposition was made to place identical electors on both the Republican and Roosevelt tickets, the electors promising to vote for whichever received the highest number of votes in the State. It was concerning this suggestion that President Taft made his firm statement. He will not allow any compromise with the Roosevelt party people.

In South Dakota the electors were nominated by a convention controlled by Roosevelt men, although the convention posed as a Republican body. These electors are known as Roosevelt men and will, it is believed, vote for Roosevelt if they carry the State. The Taft people are helpless, as matters stand. A committee of prominent regular Republicans went to the White House to confer with the President as to the situation. The committee, which is going from here to New York to consult with Chairman Hilges of the Republican national committee, consists of J. C. Simmons of Aberdeen, Chambers Keller of Leeds, George Jeffers of Dallas and J. T. Cash of Bonesteel. They were accompanied by Senator Gamble and Mr. Burke.

In South Dakota, as elsewhere, the suggestion has been made that the electors be placed on both the Republican and Roosevelt tickets, the men agreeing to vote for whoever receives the most votes. The President insists upon a clear-cut ticket of Republican electors, and it is to work out the details of this that the committee will go to New York.

McDUFFIE SHINES AT PORTLAND CONCLAVE

Chief Detective A. McDuffie was the cynosure of all eyes while at the Elks' convention at Portland some weeks ago. Arrived in a swell pongee silk suit and with a Panama hat having a band with the word Honolulu, Mac had no trouble to secure plenty of attention from all the Hello Bill delegates. He was the finest looking man in Portland, they said.

JAILER ASCH HOTLY DENIES ALLEN CHARGES

Jailer Asch in charge of the county prison makes indignant denial of the charges made by Henry Allen, a former prisoner to the effect that the jail is a "filthy sanitary, tubercular den." Asch says:

"Henry Allen's letter about conditions in the county jail is nothing but a pack of lies. Politics is no doubt back of it. After my record of 35 years in this country, I don't think the public will believe anything a confessed jail bird says about me. The jail has been inspected by grand jurors and visited by many people including Governor Frear's wife with two of her lady friends and nothing but praise has ever before been heard of the conditions and treatment of prisoners."

Special Officer Adler, Russian interpreter on the detective staff, has resigned that position.

As a result of his conference, Super has many new ideas in regard to a system of united charities which he intends to present to the Associated Charities for approval.

THAT "COLLEEN" OF POET AYRES STARTED FORT ST. PULLING HAIRS

Poetic License with the Muse in One Family Played the Deuce

It's a "colleen whose eyes are true blue," poetically brought before the garish gaze of a reading public through the editorial page in the morning paper, that caused the first round in the shattering of domestic tranquility in the H. M. Ayres family, resulting in a fast and furious encounter which drew hundreds of surprised spectators to the corner of Fort and King street at a time when no idle activity usually prevades that section of the down town district.

H. M. Ayres, poet and author, accompanied by Miss Julia Vince, appeared in the center of police court spot light this morning, as they sat in judgment before Magistrate Monsarrat to answer to the charge of assault and battery upon the person of Mrs. Ayres.

It was at the fair and demure Julia that the fiery darts of wrath were flashed from the eyes of Mrs. Ayres, as she mounted the stand and then and there unfolded a sensational tale of woe and domestic infelicity.

"That is the woman whom Ayres, my husband refers to in his poem, as "a dainty colleen and a worshipping queen," pointing a finger of scorn in the direction of Miss Vince, who sat beside the author of the offending ditty, and awaited the torrent of accusation.

Attorney Murphy handled the case for Mrs. Ayres. Upon a charge of assault and battery preferred by her husband and Miss Vince, Mrs. Ayres was assessed a fine of fifteen dollars and the trimmings.

Her attorney noted an appeal and announced later that he proposed to carry the case to the highest tribunal. They say the end is not yet.

The tables were then turned and Ayres was made defendant in a charge of assault and battery by his wife, in which Mrs. Ayres alleged that her husband had slapped her face repeatedly. The little eleven-year old daughter of the pair was called to the stand, and amid a copious flow of childish tears in a degree corroborated the testimony from the mother.

The evidence against Ayres was however held as insufficient by Judge Monsarrat and he was found not guilty. Ayres defended his own case, waving aside the proffered legal assistance of Deputy Prosecuting Attorney Milverton.

SMUGGLING PUT UP TO SCHWERIN

SAN FRANCISCO, Cal., July 21.—There will be no further proceedings in the Pacific Mail steamship smuggling cases until R. P. Schwerin, vice-president and general manager of the company, returns from Washington, where he is now temporarily located, in the interests of the Pacific Mail's efforts to win free tolls for railroad-owned steamships through the Panama Canal.

Announcement of this effect was made by United States District Attorney John L. McNab in moving for a continuance of the hearing of one of the Pacific Mail captains, Henry Zeeeder, yesterday before United States Commissioner Brown.

McNab used plain language in announcing the government's intention hereafter of fighting the smugglers with the aid of the chief executives of the big steamship companies.

Admiral Stanford, chief of the Bureau of Yards and Docks, accompanied by Civil Engineer Gaylor, made the trip to Pearl Harbor this morning.

SUGAR CONCESSIONS

Although the house has refused to accept the senate amendment to its sugar legislation, the amendment being in the form of a substitute bill, there is little doubt that if the house really means business it will have to make important concessions before action can be taken.

Up to date, only one move of the many made in Congress on sugar-tariff revision has come as a surprise or has differed from the advance prophecies. That was the adoption of a "free sugar" program by the Democratic house caucus and this has since proved to be merely a sudden political maneuver. Since that time the sugar measures have moved along steadily just as the forecasts of weeks before have indicated.

There is no reason now to believe that sugar legislation of any kind will be perfected at this session. Events of the past few days indicate that the tariff will be left hanging up for the Democratic campaigners of the fall to shoot at from the stump. Even in the event of a Democratic victory next fall, free sugar is by no means a certain result. If the investigation of the house and senate committees showed anything, it showed that the principal beneficiaries of free sugar will be the refiners, and that there is a direct connection between the trust and the tariff attacks. Surely there has been enough enlightenment among the voters, on the subject of the trust and the free-sugar howl, to create a sentiment in the beet-sugar states at least opposed to a disastrous slash in the tariff.

Witnesses at the present San Francisco inquiry are calling things by their real names, as Senator Lodge did in his speech last week. It will not take much of this lighting of the dark places to convince the American people there is no virtue and little sincerity in the house attitude.

HAWAII AND THE PARCELS POST

Hawaii will reap a direct and enormous benefit from the parcels post bill which has just been agreed upon in the senate.

The measure has passed the house and the senate committee on postoffices and post roads has reached an agreement on it. There is every prospect that when it is through the senate, a conference will advance it to final passage and signature.

Under the provisions of the bill, the country is divided into "zones" according to the distance from the starting-point that the parcels are to be carried. For instance, the first zone is fifty miles and under, while the eighth zone is 1800 miles and over. Within the first zone, the rate is five cents for the first pound and three for each additional pound. For the eighth zone, in which Hawaii will be situated with respect to the mainland, the charge will be twelve cents per pound straight, the maximum weight eleven pounds.

Hawaii's lack of rural free delivery will be some check on the full benefit of the parcels post in this territory, but ultimately that too will be overcome. When it is realized that eleven-pound packages can be handled in this safe, sure and speedy way for twenty-two cents, the people of the islands will become steady and extensive patrons of the service.

The "zone system" is the only scientific system the experts have suggested. It correlates the length of the haul and the hauling price. The measure is a progressive one and ought to pass before Congress adjourns.

COMING TO CANAL TERMS

Great Britain's protest in the Panama canal matter is a simple enough thing, but there is

much confusion as to just what is the basis for the controversy in which Congress is involved and over which some of our seventy-five-hundred-dollar statesmen seem to have become unnecessarily excited.

The Panama canal bill grants free tolls to American vessels passing through the waterway. Great Britain protests against this bill on the ground that it discriminates against British vessels, and therefore is in violation of the following clause of the Hay-Pauncefote treaty:

"The canal shall be free and open to the vessels of commerce and war of all nations observing these rules on terms of entire equality, so that there shall be no discrimination against any such nation, or its citizens, or subjects, in respect of the conditions or charges of traffic or otherwise."

Great Britain maintains that this clause includes literally "all nations", the United States as well as other countries, and that it forbids the United States discriminating in favor of itself. Congress, on the other hand, takes the position, and is supporting it violently, that the United States is entirely at liberty to grant free tolls to its vessels if it wishes to, and that it at least may pass its merchant ships through the waterway without charge.

An evasion of the direct point at issue has been proposed by several competent legal authorities in Congress, in a plan to return to vessel-owners the tolls paid by their ships into the treasury. This return of tolls would be considered a subsidy, and as most foreign nations are subsidizing their maritime interests, they could not with grace object to similar action on the part of the United States.

This is a late date at which to take the subject up, but there is little doubt that it will be amicably settled, as Uncle Sam has little maritime trade except in coastwise shipping, where foreign vessels are already barred from competition.

Comment is made in the morning paper that Henry Allen, whose story of jail conditions was told in yesterday's Star-Bulletin, is a "jail-bird with a grouch." Perhaps the morning paper will publish the name and present address of the man whose article, lauding the jail and its management, was recently printed anonymously. Perhaps it will also publish his record here, as an evidence that his statement is more trustworthy than that of the man who frankly admits his faults and is not afraid to say what he has to say over his own signature.

Arizona Progressives have scored Taft for "irresolution" in handling the delicate Mexico situation. Taft's "irresolution" has made intervention unnecessary and left the United States with a clean conscience and hands free of the taint of forcing American corporation interests upon the Mexican government. The Progressives are simply seeking an issue on which to make an attack.

Divided! Well, one might say so. First the Republican party divided into Progressives and Conservatives. Then the Progressives subdivided into La Follette men and Roosevelt followers. Now, the bolters will divide into the Colonel and another fellow, and then—oh, what's the use!

Dr. Elliot's visit to Hawaii has left an effect for good that can hardly be estimated. His delightful personality and his advanced ideas on world-peace have been impressed upon Hawaii altogether out of proportion to the brevity of his stay.

The "Abraham Rief Parole Society" has been formed in San Francisco. There are always sentimental fools to clog the wheels of justice.

Strange that the two leading colonels of the country have not thought of exposing the corruptness of certain politicians until now.

President Taft is to be formally notified of his renomination tomorrow. Presumably he has already heard of it.

It's now in order for all hands and the cook to be thinking up grievances to present to Secretary Fisher.

"Tangled money" will soon be taking the place of "tainted money" as a popular phrase in Hawaii.

Evidently a house divided against itself can not stand pat on a no-battleship program.

PERSONALITIES

REV. W. S. SHORT, who has been assisting at St. Andrews Cathedral during July, will leave for Walluku next week to resume his usual charge.

C. F. LOOMIS will spend his honeymoon at College Hills at the residence of Rev. A. A. Ebersole and on September 1 will move into his own residence in Manoa Valley.

G. J. WALLER, who was booked at San Francisco for return by this morning's Larline, was compelled to delay his departure. He will arrive on the Korea tomorrow.

FRED HARVEY has resigned his membership on the Maui Loan Fund Commission, giving as his reason removal from that island. No successor to the place has been appointed.

INTERANAL REVENUE COLLECTOR COTTRILL expects to leave next Wednesday for Maui, where he will meet his wife. From that point they will go to Hilo to visit the volcano.

DR. ST. D. G. WALTERS of Honolulu, is stopping at the Bohemian Club in San Francisco. Recently he made an extended trip to his Nevada mining properties. He expects to return to Honolulu next month.

JOHN H. WILSON, the contractor, is on his way from the States, where he has been buying machinery for use in the big Koolau road work. He is in San Francisco at present and will probably return on the Wilhelmina in August.

ANDREW McCLELLAND, who arrived in the Larline from San Francisco, has encircled the globe several times as a student and traveler. He goes to New Zealand in a few weeks to study sociological and political conditions there.

W. M. MINTON of the Pinecater Sales Company is in San Francisco recuperating from a rheumatic affection. He was fortunate in not being at the time of the big fire there at Byron Springs, Cal., where he left the day before the conflagration which destroyed the entire premises.

W. F. POGUE, chairman of the Board of Supervisors on Maui and a member of the Maui Loan Fund Commission, paid Honolulu a brief visit this morning. He arrived on the early boat, called up Governor Frear by phone and arranged for an interview at 8:30 o'clock, and took the same boat back, leaving at 10 o'clock.

A. N. CAMPBELL will return on the Wilhelmina from San Francisco next week, having been successful in closing up the deal for the sale of the Spreckels property in Honolulu. He will be accompanied by Allan Herbert, the capitalist and delegate to the Baltimore convention, who has now fully recovered from a recent illness. Mr. Herbert had been at St. Helena Sanitarium, near Riverside and speaks highly of this institution.

HILLES, BROKE, IS AIDED BY "PAT"

Why White House Doorkeeper Paid for Luncheon Eaten by Barnes

WASHINGTON, D. C., July 10.—"Pat" McKenna, who guards the doors of the offices of President Taft and his secretary, C. D. Tamm, and who knows more prominent politicians and statesmen than most persons, unconsciously became the host at luncheon yesterday of William Barnes, Jr., and S. S. Keogh, president of the New York county committee. Hilles was the genial host in fact, but McKenna was the hammer of the feast, somewhat to the chagrin of his chief and much to the amusement of a few spectators who witnessed the deal.

Mr. Hilles, just chosen chairman of the republican national committee, Mr. Barnes and Mr. Keogh left the executive offices just as one of the president's big automobiles came to the door to await their orders. The New Yorkers stepped in, followed by Mr. Hilles, who began a perfunctory search through his trousers pockets before he sat down. As his hand buried more and more surprised and his face grew redder than a half week's vacation on Long Island had made it. When it finally dawned upon the president's secretary that he was "broke" he beckoned to a white house policeman and sent post haste for Pat.

"Pat," he whispered to the doorkeeper, in a stage whisper that every one heard, "let us have some money, I want to take these gentlemen to luncheon."

"Pat" juggled out a bundle of bills that would have done credit to the backer of a presidential campaign, peeled off a big one, handed it to Mr. Hilles, who tucked it away and the luncheon party whirled away.

"Don't you newspaper men print that," said Pat, as he entered the white house offices.

For news and the truth about it, all people buy the Star-Bulletin.

LETTERS ON TIMELY TOPICS

THE DAY OF THE DOG.

Editor Honolulu Star-Bulletin.

Sir:—At the request of a number of citizens and aliens who live and who have to travel up and down Nuuanu avenue, I submit the following to you for publication, hoping thereby to effect some good for the cause of Honolulu Beautiful and its sanitation.

On Monday afternoon, before 3 o'clock, an automobile killed a dog just maula of Coelho Lane, and that dog has lain there since—and it is to be hoped that it will not remain there until next campaign.

The Board of Health, by law, has full authority over nuisances affecting the health of the community, in this Territory. That authority was supreme until the Supreme Court limited it in the "yellow" banana question. Today, the Board of Health Inspector passed that dead and decaying dog, without noting its condition nor making effort to cause its removal.

The police have been up and down that road since Monday 4 p. m. till this Wednesday morning 7 o'clock, and not a word, nor attempt, to abate the nuisance—although they have been busy—very busy—rounding up un-tagged dogs.

The road department officials and employes likewise have been up and down, and for like reasons, they, too, have left that poor canine to the tender mercies of the wormy tribe. Now the only other authority left is the garbage department. But, how can that department be expected to come far up Nuuanu Valley to give poor doggie a decent disposal when it lacks the necessary equipment which the service demands.

Now, it seems to us of Nuuanu Valley, that if the Board of Health would only exert a little despotic power in the right direction, poor doggie would not have been so long left exposed to public view and be offensive and a menace to public health.

Don't you think so, Mr. Editor?

W. J. COELHO, Of Maui

Honolulu, July 31, 1912.

LITTLE INTERVIEWS

JOHN EFFINGER—Yes, it is pretty hot here today, but I returned from the Baltimore convention this morning and everything seems cool after that.

EDITOR BRIDGEWATER of Kauai—There's little talk on Kauai of Chas. Rice running for delegate. The talk now is for him to run for the senate in George Falechid's place.

A. A. EBERSOLE—I am going up on Tantalus to live for the month of August, although I shall come down town every week end to attend the inter-church federation meetings.

J. L. McCANDLESS—There was no loss of any land to me in Judge Whitney's decision relative to sixty-eight acres at Keauau, Waianae. It was not a question of title but one of location.

GEORGE W. PATY—It isn't so much numbers we want in the Anti-Saloon league as members who will work and really take an interest in what is being done. I would rather have twenty such than a hundred men who would not take an interest in what we are doing.

PAUL SUPER—I saw DeWolf Hopper in the Mirado in San Francisco, and although he had an all-star company, I don't think that the men that played the parts of Nanki Poo and Poo Ba did nearly as well as Jimmy Dougherty and David Anderson when we played it here.

DIDN'T SPRINKLE ALL KALAKAUA ROAD

Complaints made to the supervisors that since July 4 there has been no sprinkling of Kalakaua avenue by the city carts have met with the reply that the sprinkling of this street is up to the park commission, and that the park commission is paid \$700 a month for the maintenance of Kapiolani park. A Honolulu citizen, tired of the clouds of dust stirred up by every passing vehicle and blown into houses and shops along the road, made the complaint. The supervisors thought the park commission was having the street sprinkled, until informed that the cart sprinkles that part of the road within Kapiolani park but carefully avoids wetting down the road between the park and the street-car line. The board is going to request the powers behind the cart to sprinkle the rest of the road.

The czar and the Kaiser at their meeting sent instructions to their ministers to consider the best means for ending the Italo-Turkish war.

DR. GOODSPEED HERE TO PREACH

(Continued from Page 1)

music which is to be supplied by the
Central Union Church Male quartette
next Sunday and by a mixed quartette
thereafter.

This is Dr. Goodspeed's first visit to
Hawaii and as the Lurline entered the
harbor he expressed pleasure at the
sight of the hills back of the city.
With Dr. Goodspeed are Mrs. Good-
speed and her aunt, Mrs. H. C. Simp-
son.

While Dr. Goodspeed has come to
Honolulu for a change and a vacation,
he may look into social conditions
here.

Opposes Legalized Vice.

While discussing the various prob-
lems which San Francisco and Oak-
land have to do battle with, the Pres-
byterian minister gave his views on
the solution of the Social Evil problem
and declared himself as being vigor-
ously against legalized vice and seg-
regation.

"I do not think that this is an erad-
icator of the evil," said Dr. Good-
speed. "It not only has a pernicious
effect upon the morals of the city but
also does not do what it is supposed
to accomplish; the eradication of dis-
ease."

"I can only give my views on the
problem in its general aspect as I
know nothing of local conditions here.
Every city has its own conditions and
certain remedies must be applied to
meet these conditions so it is impos-
sible for me to say what should be
done in the case of Honolulu when I
know nothing about conditions in this
city."

"But in its general aspect, looking
at the problem as a problem and not
taking the standpoint of one city or
locality, I do say that the primary
solution is the single code of morals
for both male and female and entire
abolition of the vice districts in cities
where legalized segregation is practi-
cal."

Must Wipe Out Traffic.

"We must wipe out the whole traf-
fic and carefully train ourselves, our
children, and our neighbors to a bet-
ter way of thinking, when we have
done this and when we have learned
to frown upon vice in a man as we do
that condition in a woman, we shall
have taken a big step towards the
solution of the social problem."

Dr. Goodspeed is well known
throughout the West as a preacher
and will preach here for the first time
at Central Union church next Sunday
morning. He is a graduate of Har-
vard, Class of 1890.

HAWAII STILL GETS SIX DEMS.

"There was no action taken by the
Democratic national committee at
their meeting in Chicago July 15 in
regard to decreasing the representa-
tion of Hawaii to the national conven-
tion. Hawaii's Democracy will still
have six delegates, as heretofore," said
John Effinger on his arrival home by
the Lurline today.

HONOLULU IS SPARED SOAPBOX ORATOR

There was some consternation
among the officers and passengers of
the Lurline when she sailed from San
Francisco last Wednesday. "Soapbox"
Barron was at the wharf and it was
feared he would be a passenger. He
now threatens to return on the Wil-
helmina next month. He is at present
selling oil stock.

HAWAIIAN MAHOGANY HEADQUARTERS

The Hawaiian Development Com-
pany is now installed in office and
show rooms in the Kerr building, Ala-
hea street, beside the Star-Bulletin
quarters. As an exhibit of its prod-
ucts a counter of ohia wood first
strikes the eye of the visitor. The top
is brown and some of the trimmings
of a lighter shade, the whole making
a handsome piece of furniture.

CHICAGO, July 8.—"The American
Aviators' Association," founded "to
save the lives of remaining American
fliers," was organized today at the
flying field of the Aero Club of Illinois.
Members pledge themselves not to
fly in an airplane they do not think
safe, regardless of fees or accusa-
tions of cowardice; they agree to seek
action against managers or employes
who seek to force aviators into un-
safe flights and they have arranged
for a mutual exchange of experiences.
"We do not yet know the air," said
Andrew Drew. "Every time a flyer
goes up he meets some new peculiar-
ity. If we put this knowledge to com-
mon use we shall learn something."

DOCTORS ADVISE OPERATIONS

cannot praise your Vegetable Compound
too highly. Every woman should take it
at that time. I recommend it to both old
and young for female troubles."—Mrs.
EMILY SUMMERSGILL, Swarthmore, Pa.

Baltimore, Md.—"My troubles began
with the loss of a child, and I had hem-
orrhages for four months. The doctors
said an operation was necessary, but I
creaked it and decided to try Lydia E.
Pinkham's Vegetable Compound. The
medicine has made me a well woman and
I feel strong and do my own work."—
Mrs. J. R. PICKING, 1260 Sargeant St.,
Baltimore, Md.

Since we guarantee that all testimo-
nials which we publish are genuine, it
is not fair to suppose that if Lydia E.
Pinkham's Vegetable Compound has the
virtue to help these women it will help
any other woman who is suffering in a like
manner?

If you want special advice write to
Lydia E. Pinkham Medicine Co. (confi-
dential) Lynn, Mass. Your letter will
be opened, read and answered by a
woman and held in strict confidence.

SUGAR MEN (Continued from Page 1) change in the popular view that Russians are unfit for plantation work. It is probable that Dr. Clark after concluding his investigations in Russia will go to Bulgaria and look into labor conditions there. The board of immigration has had several letters from persons in Bulgaria who wish to come to Hawaii, and arrangements are under way for bringing over a family of 20, relatives of a man now employed on one of the big plantations here. Ten monkeys for the U. S. bacteriological experiment station on Mokolai arrived on the Lurline this morning from San Francisco.

NEW POLLARD BILL FOR TOMORROW NIGHT

Following the half-week of delightful vaudeville at the Bijou the Pollard Juvenile Opera Company will present the "Golden Beadle" Thursday, Friday and Saturday evenings and Saturday matinee. The music is by Fred Fall of the Melbourne Opera House in two acts. This is one of the great musical successes produced recently in Australia and is replete with comedy and hitting music. In this production the Pollards are well rehearsed and the production promises to be far in advance of any musical comedy ever presented to a Honolulu audience. The advance sale is already large. Tonight will be the last night of vaudeville. Many of the musical successes of the Pollard's Lilliputians when here four years ago are being presented—all musical gems. Eva Pollard and Leslie Donaghey put on one of the musical duos of the old Lilliputian days and scored several encores. Donaghey also sings "We parted on the Shore." Queenie Williams is by far one of the greatest little character artists on the stage. Nellie McNamara's beautiful voice is heard to the best advantage in "The Roseary," while Teddy McNamara's Harry Lauder imitations almost excite Lauder himself. There are ballets, fancy dances, running for nearly three hours.

WOMANLY STRENGTH AND BEAUTY

The woman who is really beautiful like the woman who is well. The languid, nervous style of beauty once so popular with fiction writers is no longer in favor, either in books or in daily life. The beauty of today is healthy and sleeps well and trusts to nature to paint its roses in her cheeks. No medicine is better adapted to women's needs than Stearns' Wine of Cod Liver Extract.

It appeals at once to the palate and the eye, easing them by its taste and its tempting appearance. Its action is very simple and natural, since it builds up the bodily health by stimulating the appetite and digestion and restores and enriches the blood by introducing moronin. It can always be depended upon, for besides being the best of tonics it speedily breaks up hacking coughs and other bronchial troubles. Get Stearns' Wine of Cod Liver Extract at your druggists, and be sure you get the genuine. STEARNS'

Simple Beds

IT'S THE LOCK BEDS IT'S THE LOCK

ARE ABSOLUTELY SANITARY

Guaranteed 50 years.

The Simplex patented all-steel cordlock is so simple and plain in construction that it adds many times the sanitary features over the old method of bed construction. The Simplex is an all-steel childless bed, very simple in design and very substantial. It is to be had in all of the approved plain and combination color finishes. The castors are ball-bearing with pressed steel wheels. The all-steel corner lock, however, is our strong claim for you consideration, for it makes a stronger, better, lighter and more sanitary bed. It is such a strong claim to superiority that no patented imitation can equal it.

THE TRUTH ABOUT SPORT
IS NEVER A KNOCK

WHIFFS FROM THE OLD SPORT RIDE

BY
Redington

THERE SEEMS TO BE A DEARTH of good fight referees in Honolulu just at present. Or rather, a minus quantity of good ones who are willing to serve as third man in the ring for local bouts. There are half a dozen sporting men here who know the game thoroughly, and who are capable of giving an impartial verdict and of enforcing the Queensbury laws, but they are extremely shy, for some reason or other, and quickly sidestep any proposition to officiate.

This condition of affairs has been brought sharply before the fight fans in connection with the McCarthy-Madison mill, which is scheduled for next Saturday, August 3. Eight or ten names have been suggested, but the referee possibilities have dwindled down to about two men.

Of the experts who can but won't, there is Dick Sullivan, who shakes his head sadly, and announces that "a whole drove of wild horses wouldn't get me into the ring." Paddy Ryan, who says he's out of the game and doesn't have to pick up small change in that way, Mike Paton, who, on account of differences with the local promoter, isn't anxious to put himself out; Joe Cohen, who is very lukewarm over the suggestion of officiating; and one or two others who have loudly cried, "Nay, nay," when sounded on the subject.

This suits the available referee material down to Dr. Birch and Sergeant Spike Dougherty, the Schofield Barracks sporting man. The latter is a first class man, and should be able to give satisfaction to all parties.

RING FANS ARE LOOKING FORWARD to the McCarthy-Madison affair, and are hoping that they will see a clean-cut exhibition of the game which will take away the bad taste left by the last McCarthy-Gordell fracas. The majority of the boxing followers are willing to give McCarthy the benefit of the doubt, and concede that he had no part in the very questionable proceedings which forced Mike Paton to abandon all bets and stop the last fight, and they are ready to give the San Francisco lad the squarest kind of a deal on what will probably be his last appearance in the local ring for some time.

McCarthy is crazy to get back to that dear S. F., Cal., and he won't lose much in shaking the dust of Honolulu from his feet after his engagement is fulfilled. And that dust talk isn't a mere figure of speech either.

A TENNIS PLAYER, WHO, ALTHOUGH he may not be exactly in the first flight of players, has nevertheless figured in local tournaments, and who has seen and played in many of the big competitions in the East and in England, buttonholed the writer after one of the recent matches at Beretania with the following plaint:

"Why is it," he asked, "that it is practically impossible to get correct umpiring and lining in these tennis tournaments? I'm not kicking at the decisions, which are uniformly good, and besides, anyone is apt to make mistakes in calling service faults, especially where the light is as bad as at Beretania, but I mean about following the simplest etiquette of the game. Umpires here, when they open their mouths at all, usually say 'good,' thereby confusing the player, and as to the linesmen, they will never say a word unless cross questioned by the umpire."

It must be admitted that this arrangement is more or less to the point. It's a thankless job to officiate at a tennis match, as everyone will freely admit, but once a man is stuck for it, it's just as easy to do it the right way as the wrong way. While it seems foolish to state facts which should be well known, there is evidently some misunderstanding among officials here as to their duties.

In the first place, every ball is considered good until it is called out. Each service that does not land in court should be called "fault" by the umpire, distinctly, even if it goes into the net, or hits the backstop. It is absolutely unparliamentary for an umpire to call "good" on a service, for the player expects only to hear faults called, and is likely to be thrown off. In the same way linesmen should call every ball that goes beyond their line so that the audience, as well as the players, can hear them. The linesmen on the back lines should call foot faults, not the umpire, who can

MISSSES L. PHILLIPS AND E. PHILLIPS OF CHICAGO
LADIES' SINGLES EVENT FOR THE TENNIS CHAMPIONSHIP OF HAWAII BEGINS TODAY

TODAY'S MATCHES
4:00 p. m.—Mrs. Barton vs. Miss Richards; Mrs. Gregory vs. Miss L. Phillips.
4:45 p. m.—Miss V. Wilder vs. Miss E. Phillips; Miss Edna Smith vs. Miss Juliette Atherton.

After a day's lay-off the Beretania tennis courts will again present a scene of activity today, when the ladies' singles event of the Hawaiian Championship tournament is started. Four matches are scheduled as above, which will give the entire entry of eight a chance to show their ability on the opening day. No byes are necessary on account of the number of entries, so the tournament should be completed in three days.

Considerable interest attaches to this event, as there are several players in it who have not been seen in competition here. Mrs. Barton, Mrs. Gregory and Miss Wilder hail from Schofield Barracks, where they have had ample opportunity to work up a strong game. Tennis is the big sport at Lihouea, especially since the arrival of the First Infantry, which numbers many players among the officers and their wives. Miss L. Phillips and Miss E. Phillips are Chicago players, who have been in Honolulu but a short time. The former won the championship of the Aztec Club of that city a short time ago, and is generally considered to be a very strong player. The other three all hail from products of the local courts.

The championship tournament is slipping along in languorous style, and with only the men's singles completed, it will be at least two weeks before all the titles are settled. As there is no particular hurry, the committee is making no effort to rush matters, and "Nothin' to do 'till tomorrow" is the recognized motto. Under the circumstances, this is all right, but it would be interesting to know what some of the local racketeers, who have been known to throw up their hands at the mere suggestion of playing two matches in an afternoon, would do if they entered a real tournament, where play continued from 9 in the morning until 6 at night, and where players entered in several events often have to play five or six hard matches in a single day.

BASEBALL AS A SPECTACLE

The costly constructions at Fenway Park not only please the eye, they start reflection. Like the massive amphitheaters now built in Philadelphia, St. Louis, Cleveland, Chicago and New York; like those provided for Greater New York, Cincinnati and Detroit, this costly home of the Boston team has worked in brick, steel and cement a practical question: Will baseball last, or will it some day leave these great works as empty as the rinks from which the roller skating craze ebbed out?

What new games the future may start, no one, of course, can tell. Baseball itself was but lately in the future. Its initial dates are 1845 and 1870. And yet were able theorists to play commissioned to devise outright a game that were better suited for entertaining a crowd, large or small, and better adapted for clean management upon players' merit, the chances would be strongly against their success. For in remarkable degree baseball combines the three good points needed in a game that seeks to win and hold a people's favor.

To begin with, baseball, both in layout of the field and in number of players, has the right scale. It just fits a crowd big enough to stir the blood by mere assembling and still more by the applause or disappointment. In this particular baseball surpasses tennis and cricket altogether. On the other hand, the scale is small enough to let the crowd inclose and center in upon the game; herein baseball surpasses any well-tracked racing, and especially regattas. In point of time, also, the scale is right. A game comfortably fills the better part of an afternoon, and, unlike football, it involves no dull between time for the crowd to kill as best it may.

Further, with these good proportions, the game follows a singularly not be expected to look at the server's feet, and the spot the ball lands, at one and the same time. Also, the umpire should call the score after each point.

clear, open, yet varied plan. The men are not huddled one upon another; they are widespread upon the field that each has his own station, his own duties, his own chance for the play that brings the cheering crowd to its feet. Nor is the game pageant-like. It has one ever-shifting point of interest—the ball itself, continually in play, challenging no one knows which player next, yet simple in itself and easily kept in view. The constant shift of sides from field to bat brings every man, turn by turn in prearranged order, into contest with nine other men at once. The game is a kind of simplified drama; such to be sure as Euclid, nodding over diagrams, might have dreamed; but none the less a drama, in which tenely interacting players are staged well apart, except as here and there for a moment the chance of the game may bring them close.

And, finally, baseball suspends the crowd's interest until the very last play. Despite the open plan and the constant interchange of the teams at the home plate, the dramatic interest, as the game proceeds, increases like money at compound interest. The more one-sided the score grows, the keener grows the hope for sudden change of fortune or for sudden recovery of nerve and skill. Some of the most exciting games remembered by old devotees were won only "in the ninth." Baseball is a notoriously bad game to bet on; for just the same reason it is an extraordinarily good game to watch. And until some genius of formal play shall invent a game better than baseball in these three essentials of scale, plan and emotional suspense, the stadia may count their capital as snug and safe as if in real estate downtown.—Boston Herald.

CHANGING THE TENNIS SERVE ACROSS WATER

English Players Are Reverting to Style Which Prevailed Before American Influence Was Felt

The service at the moment in lawn tennis in England is undergoing a noteworthy evolution, to judge by a careful study of the British sporting papers that find their way to the Mid-Pacific. The influence of Brooks and of Americans like Holcombe Ward, so marked three or four years ago, is spending its force. A study of the Frenchmen, Decugis and Gobert, both of whom serve like the late, H. S. Mahony, is bringing about a change the feature of which is a preference for the deeply pitched service of varied and calculated direction.

Even Brooks himself, one of the pioneers of the new style, is reverting to the old style, and while retaining the American and reverse services now employs more speed and less break. The influence of contemporary champions on the game has always been powerful, and to the student of evolution this return to the methods of the old English school through an agency of French players, who learned their strokes at the hands of men like Doherty and Mahony, is at once interesting and suggestive.

Dixon Adaptable.

All this, however, does not mean that the "new" style will be entirely eliminated. Every phase through which lawn tennis passes must benefit the next stage. An illustration of this dependent development is forthcoming in the case of C. P. Dixon. At an age when most players have grooved their style beyond change Mr. Dixon has grafted on to his old game many of the strokes which America and the colonies have exploited with success. From this country he took back the break service and that desire to attack at closer range which, put into practice, has proved of incalculable value.

Mr. Dixon, however, in adding to his armory of weapons, has not discarded or forgotten how to use those basic line strokes which he learned in early life. Nor, in volleying, does he come as far forward as Brooks or the Americans. His position is that adopted by the Dohertys, Mahony and by Fin. It invited less fatigue than the right-in position, and has the virtue of protecting the head from a succession of loaves. Against orthodox English drivings, such as Mr. Ritchie and the Germans employ, Mr. Dixon has found as the Dohertys found that baseline excellence, combined with a cautious advance, will suffice.

French Players Aggressive.

The French players, trained in a most aggressive school, where the pace of the service requires the striker out to stand well behind the base line, come farther in, and it is here that Dixon, unlike Doherty (who retired before the Frenchmen asserted themselves) may find his difficulty. For, unless a man who makes volleying his forte can volley in games when he receives the service as well as in games when he delivers it, his chances of victory are materially weakened.

Deed Of Gift For International Polo Cup Now Drawn Up

The details of a deed of gift for the international polo cup have been framed. The document was framed after the suggestion of August Belmont after consultation with the Hurlingham club.

The original cup, won by Sir John Watson's team at Newport in 1876, was bought by a subscription among followers of the game and presented to the Westchester Polo club, to be perpetual international challenge trophy. The cup stayed in the possession of the Hurlingham club until 1909, when Harry Payne Whitney's Meadow Brook club team brought it back to this country. Special rules and conditions had to be framed whenever there has been a challenge for the cup since 1876.

Following Mr. Belmont's suggestions, the Westchester Polo club has normally handed over the cup to the Polo association, to be held in trust. Under the deed of gift, as accepted by the polo organizations of America and England, challenge for the cup must be made by Jan. 1 of the year in which the competition is to be held. The match, the best of three games must be played between June 1 and July 8, or as soon after as the weather permits. Also the cup may be played for only once in each year.

WILL SWING INDIAN CLUBS FOR EIGHTY HOURS AT A STRETCH

Tom Burrows, World's Champion Endurance Performer, Will Attempt to Smash His Own Record

To stand up and swing Indian clubs for 80 hours at a stretch, without sleep, without rest and, with very little food, is a feat that the uninitiated sounds almost incredible. But that is just what Tom Burrows, the champion endurance club swinger of the world, who blew in from Australia a few weeks ago, is going to attempt.

TOM BURROWS.

in Honolulu. His record is 80 hours, and he is going to try, and smash it, next week.

Burrows, who won the world's championship belt in London January, 1907 against all comers, is hard at his training and getting into splendid condition for his forthcoming attempt to beat the world's endurance and speed record of 80 hours, at the Empire next week. When one considers that this extraordinary performance occupies four days and four nights without stopping, it seems almost beyond comprehension, yet the conditions and rules are such that Burrows must swing not less than 50 complete revolutions each minute, and to break the record must average 90 each minute for the 80 hours.

A strong committee of press and well known citizens will be formed to supervise the record, to see that the performance is carried out in a genuine manner.

BRITISH LAUD OUR ATHLETES

That British athletes held their American Olympic rivals in high regard, and never expected to win the important events on the Stockholm program, is evidenced by articles in English papers which were published prior to the opening of the games. This is interesting, in that it gives the denial to highly colored stories printed in some of the papers, indicating that the Englishmen took their defeats with a very poor grace and would not concede the superiority of the Americans.

An article in the London Times, by a staff correspondent at Stockholm, reads as follows:

"The fact which stands out mostly in the great strength of the American team. It is generally recognized to be by far the strongest, not merely in point of numbers but also in all-round ability. When one learns that there are, among the American six men who can run the 400 meters under 49 seconds; six who can run the 800 meters under 1 minute 55 seconds; as well as ten first class hurdlers, one feels that they might be justified in their boast that they could send over three teams, any one of which would sweep the board in the stadium.

"A finer lot of men was probably never got together. The average height is nearly six feet and not even the Swedish gymnasts are more symmetrically built. The English athletes on the other hand, and especially the distance runners, are built on a small scale. One fears once again that we will have to recognize that a 'good big one' always beats a 'good little one.'"

"Whoever is to beat the Americans this year must not only be a great athlete, but must undergo a thorough and scientific course of training, and in this Americans are of course pre-eminent. Not even the Swedes, and they have an American trainer, have anything like the care lavished on them that has been spent on the Americans."

"Partly it is, of course, the result of the concentration on whatever may be the immediate thing in hand, whether in sports or in business. Partly, and by no means the least, it is a question of dollars. How many in

AMERICAN SWIMMERS NOT AS GOOD AS EUROPEANS AT THE DISTANCES

Even Hawaiian Experts Can't Keep Up Speed for the Longer Numbers — Famous Chicago Swimming Coacher Tells Why the Best Men Abroad Have It on American Exponents of the Aquatic Game

Swimming has always been a sport of national importance in Hawaii, and within the last few years the competitive element has come to the fore with a rush. Especially since Duke Kahanamoku cracked a couple of world's records here less than a year ago, and then won name and fame in continental United States and abroad, have island swimmers been studying strokes and form, and trying to perfect themselves in the racing game.

When Duke first went East it was remarked that for distances over 100 yards he was inferior to the best American sprint swimmers. Some critics gave it as their opinion that he never would be able to swim the 220 in record time, but under the careful coaching of George Klerier he improved wonderfully, and managed to beat out the best of them in the trials for the Olympic relay, over a 220-yard course.

But the fact remains that our swimmers are inferior to the European product over the long distances. William Bachrach, swimming instructor of the Illinois Athletic Club, in a recent interview printed in a Chicago paper, gives some reasons for this condition.

Knows the Game.

Bachrach is of German descent and comes from a family of swimmers, so has a clear idea of European swimming. Long years of competition and coaching in the United States also have given him a thorough insight into the situation.

"There are so many different causes for European supremacy in distance swimming that it would be impossible to point to any one thing and say that was the root of America's trouble," declared Bachrach. "European and American swimmers are entirely different, and there are scores of ways in which the competitors differ, but I can't go on to name them all as they are too numerous to list."

"I was asked for the greatest reason I would unhesitatingly say that it lay in the American 'crawl' stroke. When Harry J. Handy of the Illinois Athletic Club first came into prominence he was regarded as the most wonderful swimmer in the United States, and his style and methods immediately began to attract attention. Frank Sullivan had at that time just imported the Australian crawl stroke and taught it to Handy, who afterward improved upon it and introduced the famous American, or legless crawl, stroke. As soon as this began to be played up every swimmer in the United States thought he had to learn the crawl stroke. I was a touch at the time and remember I was enthusiastic over it for a while."

"The crawl stroke is absolutely the most exhausting stroke in the catalogue. There is not a swimmer in the United States who can use it for a full mile without exhausting himself. Handy was one man in a million and what he could do the younger men of today can not do. Handy is a vegetarian, takes absolute care of his physical condition and there is not a day in the year that he is not trained. Other men can not hold training that way. It is absolutely necessary for 999 men out of a thousand to lay off every once in a while or they would go stale. Handy is the only swimmer I ever met who could keep training from one end of the year to the other."

"Crawl" Stroke Faulty.

"The American youngsters adopted the 'crawl' and made some remarkable records in all distances up to 220 yards. You will find that American swimmers now can beat European distance men for the first 220 yards of a mile swim, and it is only after that mark is passed that the Europeans show their superiority. Every European swimmer uses the Trudgeon stroke for his distances. Many of them have adopted the crawl for the first hundred yards or so, but all of them use the Trudgeon for the greater part of the distance."

"In the United States swimmers work on their nervous energy, using an exhausting stroke to a point seemingly beyond endurance. This is sure to tell on them in the long run. The European swimmer relies upon 'form' more than speed. In every race in which I have seen Europeans swim the competitors are absolutely unmoved by the efforts of their opponents. They know their own ability and 'form' perfectly and they follow that form from start to finish. Where an American crawls out of the tank at the end of a race absolutely bankrupt in nervous energy, the European is unmoved."

"Another thing which shows the great difference between American and European swimmers is in the legs. In the United States the swimmer starts in competition when he is 16 or 17 years old and when he is 21 or 22 practically drops the game because it interferes with his business. He may continue a swimming 'fan,' but his days of competition are over. Just the aggregate United States will spend in bringing its athletes to the post we are not privileged to know. In any case, the contrast with the ineffectiveness of the British Olympic Council is almost ludicrous."

as he has learned to swim well he quits competition and four or five years of coaching have gone to waste.

"In Europe, on the other hand, the swimmer does not really get into competition until he is 25 or 30 years old and usually is good for about ten years of work, for swimming, more than any competitive sport in the world, is one in which the middle-aged man is on equal terms with the youngster. Europeans do little competitive work until they are 30 years old and then are only local instead of national figures as our men are. To acquire a really good swimming form requires years of work, and it is not until a man is about 25 that he is a first-class man. At this time the American is getting the same while the European is just starting it."

"Another thing is in the method of training. The best way I can illustrate it is by the dachshund. You find a dachshund digging a hole in the ground and pull him away and he will be right back on the job as soon as he can. He has the dogged perseverance that is so characteristic of European training. The American, naturally high strung and nervous, can not stand the monotonous grind which training for swimming entails. The European comes by it naturally. In a short race, say 100 yards, where the American can substitute the exertion of an enormous amount of energy for a long training grind, he shows himself the equal or superior of the European swimmer. In distance events in which the long training is an absolute necessity, he shows himself a rank inferior."

"Then there is no incentive for the American boy to take up distance swimming, rather than sprint swimming. The medals he gets for winning at 100 yards are just as noticeable as those he gets for swimming ten miles and setting the less mark. The American has never seen for 10 miles and there is not an American youngster who doesn't like to beat his name at the end of a long cheer."

"There are only two good distance races in the United States, the Chicago river ten-mile race given by the I. A. C. and the Mississippi river marathon, given by the Illinois Athletic Club. Both of these are good numbers, and I think if America is to make a better showing in the distance at its next Olympic it would be well to add a few more similar numbers."

HAD RECORD FOR BRAVERY BUT HE WOULDN'T UMPIRE

"I came in, in answer to your advertisement in last night's paper, you said you wanted to employ a man who was a total stranger to me."

"Are you a brave man?"

"I am, sir. I have given proof of my courage in many parts of the world."

"Yes?"

"I have faced bullets in Mexico and machetes in Cuba."

"Good!"

"I helped to defend the missionaries against the Boxers, and I was present at the siege of Port Arthur."

"Fine."

"I have fought the infuriated warus of Daffin Day and the maddened bull elephants of Central Africa, and I went through an Armenian massacre without losing my nerve."

"You seem to be the man I want. Would you be willing to go out on a field in front of 20,000 fair-minded, sport-loving Americans and umpire a baseball game honestly, siding against the home team when necessary?"

HIS VACATION—PART 2.
BY MISS HILDA WADDELL—CONTINUED FROM YESTERDAY

"I'll go down to the seashore, and just loaf around is what I planned. And, free from care, I'm sure I'll be a different man just wait and see."

These were my thoughts I started out. That they'd come true I had no doubt. What happened got me quite perplexed. When I—(continued in our next)

JUDD and ALFRED W. CARTER, Trustees under the Will and of the Estate of Bernice Pauahi Bishop, deceased; JOHN DOE, MARY ROE, JANE BLUE and JOHN BLACK, unknown owners and claimants, defendants and respondents, in case they shall file written answer within twenty days after service hereof, to be and appear before the said Circuit Court at the term thereof pending immediately after the expiration of twenty days after service hereof; provided, however, if no term be pending at such time, then to be and appear before the said Circuit Court at the next succeeding term thereof, to wit, the January, 1912, Term thereof, to be held at the City and County of Honolulu on Monday, the 12th day of January next, at 10 o'clock a. m. to show cause why the claim of the Territory of Hawaii, plaintiff, should not be awarded to it pursuant to the tenor of its annexed Petition. And have you then there this Writ, with full return of your proceedings thereon.

WITNESS the Honorable Presiding Judge of the Circuit Court of the First Circuit, at Honolulu, at the 18th day of February, 1912.

(Seal) J. A. DOMINIS, Clerk.

Territory of Hawaii, City and County of Honolulu. I, J. A. DOMINIS, Clerk of the Circuit Court of the First Judicial Circuit, Territory of Hawaii, do hereby certify that the foregoing is a full, true and correct copy of the original summons in the case of Territory of Hawaii, by Marston Campbell, Superintendent of Public Works, vs. Goo Wan Hoy et al., as the same appears of record and on file in the office of the Clerk of said Court.

I further certify that the petition prays the condemnation for use as a public highway of the following-described land, situate in the City and County of Honolulu, Territory of Hawaii, to wit:

Beginning at a point in the southwest property line of Kuakini Street, which point is Azimuth 318° 46' 67.20 feet from the line between the Government Street Survey Monument on Liliha Street at the northeast corner of School Street and the monument above Kuakini Street, opposite Kunaui Lane, which survey line is seven-foot (7) feet from the new southwest property line of Liliha Street, thence running by true azimuth and distance as follows:

- 1. 47° 10' 54.2 feet in a straight line to a point, thence, in a curved line to the left having a radius of 829.0 feet;
2. 32° 29' 144.53 feet direct bearing and distance; thence
3. 23° 09' 120.02 feet in a straight line to a point thence: In a curved line to the right, having a radius of 875.0 feet
4. 44° 29' 192.04 feet direct bearing and distance; thence
5. 50° 49' 131.47 feet to a point in the northeast property line of School Street, which point is azimuth 322° 29' 763.5 feet from the government street survey line on Liliha Street; thence
6. 329° 46' 50.0 feet along the northeast property line of School Street and across Frog Lane to a point; thence
7. 230° 48' 153.0 feet in a straight line to a point; thence in a curved line to the left, having a radius of 925.0 feet;
8. 224° 29' 204.07 feet direct bearing and distance; thence
9. 218° 09' 120.02 feet in a straight line to a point; thence in a curved line to the right having a radius of 870.0 feet;
10. 222° 39' 136.77 feet direct bearing and distance; thence
11. 227° 10' 542.9 feet in a straight line to a point in the southwest property line of Kuakini Street; thence
12. 138° 45' 50.0 feet along the southwest property line of Kuakini Street to the point of beginning. Containing an area of 56,787.6 square feet.

All persons having an interest in the land sought to be condemned are hereby warned that unless they appear at said Court on or before August 5, 1912, they will be forever barred from contesting said petition or any judgment entered thereon.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of said Circuit Court, this 11th day of April, 1912.

(Seal) J. A. DOMINIS, Clerk of the Circuit Court of the First Circuit. Alexander Lindsay, Jr., Attorney General, and E. W. Sutton, Deputy Attorney General, attorneys for petitioner. 5279—July 3 to 31

GUANO SUPPLY OF FRENCH SOMALILAND. Jibuti, the port of French Somaliland, has commenced the export of guano on a small scale. The direct shipments have been made, one to Antwerp and another to Suez, Egypt, says the Consular and Trade report. According to the exporter, an Armenian, \$34 a ton was received for the Belgian shipment. There are thousands of small islands along the coast of French and Italian possessions in the Red Sea rich in guano, and it is now proposed to turn them to account. Some Arab dhows already are engaged in the trade, and as thousands of tons of this article are in sight it is probable that a profitable business will result.

BAND CONCERT. The Hawaiian band will give a public concert this evening at Aala Park at half-past seven o'clock. The program: March—Our Director; Bigelow Overture—Autumn Queen; Biggie Intermezzo—The Moonbeams; Selection—The Runaway Girl; Monckton Vocal—Hawaiian songs, ar. by Berger; Selection—Spring Mail; Reinhardt Waltz—Love's Old Sweet Song; Buzaloss Finale—Up the Street; Morse The Star Spangled Banner.

HAWAIIAN WILD RUBBER. Samples of latex from the wild rubber tree forest on Hawaii will be sent to the International Rubber Exposition in New York. Upon reports by experts there will depend whether the material is worth gathering for either its chicle gum or its rubber. The rubber from these trees is lacking in elasticity, but has value for belting and other things where that quality is not essential. There is an area of 6000 acres of the trees fully grown, being public land under lease to Hind, Rolph & Co.

Cable News CONVENTIONS ENDORSE TEDDY

NEW YORK, July 30.—Roosevelt for President. Such was the slogan adopted by several progressive conventions held throughout the country today. In Kansas City, the Colonel's name was received with cheers. The convention in New Haven, Connecticut, endorsed him, and named twenty-eight delegates to the "Moose" convention to be held in Chicago August 5, and instructed them to vote for Roosevelt.

In Kansas City the Progressives endorsed woman's suffrage, the recall of judicial decisions, the referendum, the initiative, and the other Roosevelt planks. The convention, also, without a protest, endorsed Mr. Roosevelt's stand, and instructed the delegates to the coming national convention to vote for him for the nomination for President.

In Nebraska the Roosevelters were strong enough to capture the regular Republican convention and nominate their ticket. The result was that the Tafters bolted the convention and, going elsewhere, held a convention of their own and nominated a full ticket.

In Phoenix, Arizona, the Progressive convention scored President Taft for what it called his "irresolution" in dealing with the state of affairs in Mexico.

In Minnesota Taft received another blow. The presidential electors, selected by the regular Republican convention, resigned in a body, with the exception of one, and announced their intention of working and fighting for Roosevelt for President. They will doubtless be nominated by the Bull Moose convention.

ROBBERS HOLD UP AUTO STAGE COACH. WILLIAMS, Ariz., July 30.—Modernity failed to save the automobile stagecoach which runs out of this town, from the attack of the masked bandits of former days. The stage was held up in approved wild west fashion this afternoon. In the mountains near here, the rebels are broken open and looted. The passengers were also robbed of their money, jewelry and valuables. A posse under the leadership of the sheriff of Cochise county is in pursuit of the robbers.

SHERIFF POSSE IS CHASING BANDITS TO FAMOUS HOLE-IN-THE-WALL. CRAIG, Colorado, July 30.—One hundred men headed by the sheriff of the county are now in pursuit of a band of desperate criminals who recently broke jail here and started for the mountains. It is believed that their objective point is the famous Hole-in-the-Wall, and once the resort of many similar bands.

DEMOCRATS BACK UP TWO-BATTLESHIP PROGRAM. WASHINGTON, July 30.—Twenty-one members of the house today pledged their support to the program calling for two additional battleships this year. The move produced a marked effect among the foes of the program, and may cause a complete change of front among those who have been fighting for a reduction of the naval program.

"TANGLED MONEY" CONDITION REVEALED BY H. GOODING FIELD

Municipal Expert Finds Hawaii County Finances in Very Chaotic Condition

[Special Star-Bulletin Correspondence] HILLO, July 29.—Lax methods of all kinds are revealed in a supplementary report made to the Hilo Board of Trade by Expert H. Gooding Field, of which the substance was published by wireless in the Star-Bulletin.

Mr. Field declares that the system of accounting has been so loose that it will require a regular audit that will keep auditors employed a number of months to determine where the county stands financially. His report says in part:

The county treasurer took office in January, 1911, and about that time consulted with the county auditor, and later with the chairman of the finance committee regarding the fact that he was not advised of the outstanding warrants, and also that he (the county treasurer) had no knowledge of the balances of either the general or special appropriation funds kept by the county auditor, in consequence of which the county treasurer was unable, at any time, to ascertain the financial status of the county of Hawaii. This state of affairs has not since been remedied.

No Audits. The general and special appropriation accounts kept by the county auditor have never been audited, and the balances as reported to the board of supervisors from time to time have never been verified, although the same have been accepted as true balances.

On March 30, 1912, the balances appearing in the under-mentioned general appropriation accounts were rescinded without resolution of the board of supervisors and the accounts referred to were, to all intents and purposes, closed as of the above date.

On January 4th, 1912, a statement of balances appearing in the auditor's books was handed to the county clerk, and referred, without verification, to the finance committee. This committee reported the same to the board of supervisors and a necessary deficiency appropriation was passed by them.

Can't Check Warrants. Under the present accounting system, the county treasurer has no means of checking the correctness of any of the warrants drawn by the county auditor, but is compelled to accept the same upon presentation by the bank or banks for its face value and subject to the genuineness of the signature of the county auditor on the warrant.

System Is Lax. To say the least, the present municipal accounting system of the county of Hawaii is not constructed on sound principles of public accounting, and so long as such irregularities are permitted there is every opportunity for them to ripen into actual abuses. The extent of such technical and fundamental errors cannot be ascertained by testing the accuracy of the bulk of the postings by aggregates which appear in the subsidiary books and ledgers which are represented in the controlling accounts.

Considering, therefore, the fact that no audit has been made at any time of either the general or special appropriation accounts kept by the county auditor, and in view also of the known differences, however small, which exist between the actual and the reported balances of the controlling accounts, it is impossible to state, with any degree of accuracy whether the accounts of the county of Hawaii fully and fairly disclose the position of its affairs, or in what respect they fail to do so. A mere skimming of the financial affairs of the county will not suffice.

Complete Audit Recommended. It is recommended that a complete and detailed audit of the county books, from the commencement of county government on July 1st, 1905, to date, should be undertaken at once by one

thoroughly conversant with the methods of municipal accounting. Such an audit would take from four to six months, the cost of which should not exceed from \$2500 to \$3500.

The accounts of the secretary of the board of liquor license commissioners have never been audited, although sums of money aggregating \$19,395 have been paid over to the county treasurer by that official from receipts for liquor licenses. The license certificates for the sale of liquor are issued by the secretary of the board, as above.

The last audit of the fines and costs of the police magistrate of South Hilo by the county auditor was made up to and including December 31st, 1910, although it will be seen on page 2 of this report that the sum of \$234.25, account of incidentals, was transferred back to the general fund on March 30th, 1912, as a true balance.

It was found from the available memoranda on hand with the road overseer for South Hilo that of the amount of \$1798.09 collected for the sale of crushed rock, feed, etc., in his district, the sum of \$1716.50 had been turned over to the county treasurer to date, leaving an unpaid balance of \$71.59.

AVOID HARSH DRUGS

Many Cathartics Tend to Cause Injury to the Bowels.

If you are subject to constipation, you should avoid strong drugs and cathartics. They only give temporary relief and their reaction is harmful and sometimes more annoying than constipation. They is no way effect a cure and their tendency is to weaken the already weak organs with which they come in contact.

We honestly believe that we have the best constipation treatment ever devised. Our faith in it is so strong that we sell it on the positive guarantee that it shall not cost the user a cent if it does not give entire satisfaction and completely remedy constipation. This preparation is called Rexall Orderlies. These are prompt, soothing, and most effective in action.

They are made of a recent chemical discovery. Their principal ingredient is odorless, tasteless, and colorless. Combined with other well-known ingredients, long established for their usefulness in the treatment of constipation, it forms a tablet which is eaten just like candy. They may be taken at any time, either day or night, without fear of their causing any inconvenience whatever. They do not grip, purge, nor cause nausea. They act without causing any pain or excessive looseness of the bowels. They are ideal for children, weak, delicate persons, and aged people, as well as for the most hearty person.

They come in three size packages, 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Remember you can obtain them only at our store—The Rexall Store, Benson, Smith & Co., Ltd., Fort and Hotel Sts.

CHICAGO RICH IN GEMS

CHICAGO, Ill., July 8.—More than \$2,000,000 worth of jewels were imported to Chicago in 1911, it was learned today following the report of the Treasury Department.

According to one diamond importer, there are now from \$35,000,000 to \$50,000,000 worth of jewels owned by Chicago society women, many of whom are noted for their magnificent gems.

Mrs. Samuel Insull, wife of the president of the Commonwealth Edison Company, probably possesses the rarest and most valuable collection of gems in Chicago. Most of them are pearls and diamonds. Mrs. Potter Palmer and Mrs. George M. Pullman possess famous collections of diamonds, and Mrs. Marshall Field's pearls are considered among the finest in America.

SEES MUCH IN FISHER'S VISIT

Eastern Newspaper Thinks the Secretary Will Investigate Many Problems Here

Secretary Fisher's visit to Hawaii is giving some concern to the Christian Science Monitor, which discusses with some sympathy the racial problems of this territory. The Monitor says:

Mr. Taft, before he became President, used to be commissioned by his friend and executive chief, Mr. Roosevelt, to execute those delicate commissions of investigation that could not be entrusted to officials lower in rank than cabinet officers. The same sort of duty now is being delegated by President Taft to Secretary of the Interior Fisher, who first had to straighten out the controversy over Secretary Ballinger by first-hand study of the northwestern conservation situation and later was sent to Alaska. Now he is off for Hawaii, where economic, racial and military problems need keen scrutiny, thought and sound judgment.

The moneyed planters with their large and extremely profitable estates and the workers do not see eye to eye, whether it be on matters of wages or of local or American continental fiscal policy; and it is charged formally by Hawaii's delegate to Congress that the present Governor of the islands is far too considerate of the interests of the rich.

The racial complex of the islands is equalled under the American flag only by some of the textile manufacturing cities of New England; and of course it outranks them in the number of Asiatics. School, church and recreational activities are busy with the Americanizing and fusing process on lines of amalgamation far broader than are encouraged on the mainland. Honolulu is a laboratory for deliberate, synthetic processes in race fusion such as exists nowhere else with anything like the same amount of wealth and education dedicated to and fostering the process. But there is by no means agreement as to the immediate or ultimate results of this race blend, and the situation is one about which Washington needs to be authoritatively informed.

Hawaii enters strategically into the naval policy of the United States in the Pacific, and when fitted out with the armament and garrison authorized by Congress the nation will have in Honolulu one of its most important cities. With the coming of the military element into that already complex society, a new era will open.

RICHEST WOMAN, 78, BAPTIZED

Hetty Green Prepares for Confirmation as an Episcopalian

NEW YORK, N. Y., July 15. — Mrs. Hetty Green, who is in her 78th year, was baptized last Saturday afternoon in the Episcopal faith, in order to prepare for confirmation as a member of the church.

The ceremony was performed in Jersey City by Rev. Augustine Elmendorf, rector of Holy Cross Episcopal church, in the presence of Col. Edward Howland Robinson Green, on whose shoulders have fallen much of his mother's great business responsibilities. Elmendorf is distantly related to Mrs. Green and for five or six years he has been endeavoring to induce her to think less of things earthly.

The baptismal ceremony was conducted in the church. Owing to the advanced age of Mrs. Green, sponsors were not required, according to the church laws, and Col. Green merely acted as a witness. The Greens returned to New York after the ceremony.

Mrs. Green will now prepare herself for the confirmation service, which will be conducted by Bishop D. Lines, of the Newark diocese.

ROGUES AT WORK

How Banks and Bankers are Swindled of Large Sums

William J. Burns talked to the bankers of Texas not long ago about the crooks and swindlers who prey on the banks. Not the men who dynamite safes, for Burns does not believe that they are the most dangerous. The check raisers and black mailers are the worst.

"We were called on the other day," he said, "to investigate the robbery of the Bank of New Berlin, N. Y., but it was found that the cashier of the bank had been blackmailed out of \$500,000, or, at least, a great part of it. This particular man was found to be gambling in stocks. Probably the crooked broker tipped to his crooked friend that this banker was dealing in stocks and unquestionably using the bank's money. Then the blackmailer got busy and urged the cashier to lend him money, that he might plunge, and this continued until \$500,000 had been squandered."

That is one way. Another sort of crook gets money through this device: He sends a check, apparently by mistake, to a big commercial institution, and when sufficient time has passed for the check to be banked, the crook writes a letter to say that the check was mislaid and asks for his money back. A check for the amount on the firm's check blank is received. Then the crook gets busy at changing the figures on the check. Even tinted paper and perforations do not daunt the cleverest of the sharpers.

Burns told about the ruse employed by a forger in New York:

"Along about 5 o'clock in the afternoon a young man called on a large brokerage concern and said that he understood that there was some complaint about the paper of the checks fading. The bookkeeper had gone home, and the office boy, who was alone, suggested that he call the following day. He asked the boy if he could not show him the canceled checks. The checks being accessible to the boy, he showed them—the visitor abstracted a check. Then he succeeded in getting some checks exactly like that from the same printer who had been printing for this particular concern."

The next time you are tempted to swear at the man at the cashier's window when he won't cash a check because he doesn't know you, just remember that the very solvency of the bank rests on his caution.

MAD HORSE BREAKS INTO HAYWARD BANK

HAYWARD, Cal., July 18.—A valuable horse, owned by Bert Lawrence of San Lorenzo, suddenly became delirious early this morning in a veterinary stable and, breaking loose, ran into the street and attempted to get into the Bank of Hayward building. In doing so the frenzied animal broke down the door and completely wrecked it. It then dropped dead in its tracks. It was so jammed in the doorway that a butcher had to be employed to cut it up before the remains could be removed. The horse had been suffering from acute pneumonia. Several days ago it developed symptoms of insanity, according to the veterinary surgeon.
