DISASTER SWEEPS HALIFAX; MUNITION SHIPS COLLIDE; EXPLOSION AND FIRE WREAK HAVOC, CITY IS IN DANGER

Court Holds Chinese Not Expatriated

Question of Loss of Citizenship By Foreign Residence Decided; Persons Naturalized Under Republic Bona Fide Citizens of America

The Republic of Hawaii in conferring citizenship upon those who had been made subjects of the Monarchy, did not make any distinction between those who were born in the islands and those who were not; and, in my opinion, all who were made citizens should be regarded as the same kind or class.

In the foregoing statement is contained one of several important points made by Federal Judge Horace W. Vaughan in a decision which he has handed down holding that Wong Hing Chow alias Wong Chee Fong, a well known local Chinese business man, has not expatriated himself by a lengthy residence in China, and that he is entitled to readmission to the territory.

In local legal circles it is believed that this is the first decision handed down here in recent years touching on the matter of the expatriation of Americans, whether natural born or naturalized.

When he returned from China recently, Wong Hing Chow, who has interests both here and in the Orient, was denied admission by Immigration Inspector R. L. Halsey on the ground that "the applicant expatriated himself." On appeal, the assistant secretary of labor sustained Mr. Halsey's view and ordered the deportation of the Chinese on the ground that he had ceased to become an American citizen.

By section 4 of the Organic Act, all those who were citizens of the Republic of Hawaii on August 12, 1898, are declared citizens of the United States.

Article 17, Section 1, of the constitution of the Republic of Hawaii, declared all those born or naturalized in the Hawaiian Islands, citizens of the republic.

Petitioner had been naturalized in the Hawaiian Islands and became a citizen of the Republic of Hawaii and also of the United States.

The second paragraph of the second section of the act of March 2, 1907, applies to those only who came to the United States from some foreign state and cannot by construction be extended to include those upon whom citizenship was conferred when the country of which they were citizens was annexed to the United States.

The sole ground upon which the petitioner was denied admission here was that he had failed to substantiate his claim for admission. According to the decision, the U. S. attorney, during the hearing, contended that petitioner never was a citizen of the United States. He argued that petitioner, being a naturalized citizen of the Republic of Hawaii, did not become a citizen of the United States upon the annexation of the Hawaiian Islands to the United States, and that by the transfer of sovereignty to the United States, the allegiance of native born citizens only was transferred.

Having been a citizen of the Republic of Hawaii on August 12, 1898, (Continued on page 10)

Percy Swift, T. M. Church J. T. Phillips Summoned

The three prominent Honolulu businessmen called today to active service with the army quartermaster's department: Left to right, top, Capt. P. A. Swift, manager of Henry May & Co.; Capt. James T. Phillips, auditor of disbursements of Oahu Railway Co., and lower, Capt. T. M. Church, manager merchandise department of Alexander & Baldwin.

TRIO ASSIGNED TO IMMEDIATE SERVICE HERE

Will Act as Aides to Department Quartermaster; Pre-sages Calling of Others

Orders received this morning at headquarters of the Hawaiian department call to active service in the quartermaster reserve corps three well known businessmen of Honolulu with rank of captain.

Percy A. Swift, manager of Henry May & Co.; Thomas M. Church, manager of the merchandise department of Alexander & Baldwin, and James T. Phillips, auditor of disbursements, Oahu Railway & Land Co., are summoned to duty as captains.

Today's order calls the three men to immediate duty, and instructions issued from department headquarters assign them to duty as assistants to the department quartermaster.

An important feature of the order from Washington is that it probably means the calling of more reserve corps men from the city's business element within a short time.

Capt. Church has been in Hawaii for eighteen years, all of which time has been spent with the firm of Alexander & Baldwin. This time was divided, with nine years on Maui and nine years in Honolulu. For several years he was a member of the territorial harbor board.

Capt. Swift has been in Hawaii a little more than 17 years, having come here from Santa Cruz, Cal. For eight years he has been with Henry May & Co.

Capt. Phillips came to the islands in March, 1916, to take charge of the disbursements and store department of the Oahu Railway Co. and install a complete disbursements accounting system. He had 15 years' experience in railroad work in both operating and accounting departments on the Rock Island, Burlington, Santa Fe and Southern Pacific companies.

"I am strongly of the opinion that it is the duty of every loyal American to support the government to the fullest extent of his power," said Capt. Phillips today, "and if the government is of the opinion that my services will be of any assistance to it in the conduct of this war I am ready and willing to make any sacrifice necessary and to give my full endeavors to the government's work. I consider it an honor to serve."

COL. BANISTER TAKES CHARGE DEPT. HOSPITAL

Colonel William Banister, Medical Corps, has been relieved from further duty at the post hospital, Schofield Barracks, and placed in command of the department hospital, taking the place of Colonel Frank R. Keefe, Medical Corps, relieved.

Colonel Banister has been more than 30 years in the army medical service and is well known in Hawaii and on the mainland.

Embargo On Imports Is Rescinded

Islands Exempted and Given Blanket License for Importation of Rice, Burlap, Etc.

Cabled instructions were received this morning by M. A. Franklin, collector of the Honolulu port, that a blanket license had been granted by the war trade board for the islands exempting them from the Presidential proclamation of Nov. 28 requiring a license for the importing of a long list of articles.

The cable follows a lengthy one received Tuesday explaining the extent and limitations of the presidential proclamation. Publication of the cable caused consternation in the Honolulu business district, as the order was such a general one it would almost entirely stop the importation of a number of necessities.

According to the wording of the proclamation a license had to be secured from Washington for the importation of rice, rubber, burlap and nearly 50 other articles.

As a result of the receipt of the order Raymond Brown, secretary of the Honolulu Chamber of Commerce, yesterday sent the following cable to Sydney Ballou, island representative in Washington:

"Merchants of Hawaii handicapped absence of blanks comply Presidential proclamation providing certain articles shall not be imported except under license granted by war trade board. Is it practicable extend date application to Hawaii? May local representative be appointed to issue license similar to course adopted for port San Francisco?"

This cablegram was not filed until late yesterday afternoon and it is hardly likely that Judge Ballou had an opportunity to act before the treasury department or war board decided to modify the application of the proclamation for the Hawaiian Islands.

The cablegram received by Collector Franklin this morning states in part that a blanket license is granted for "all imports into your district of articles mentioned in said proclamation, such license to remain in force until revoked."

MILITIA PROBE ENDS TONIGHT

Taking of testimony in the investigation being held by a special board of national guard officers on the recent encampment at Kawaiaoli will probably be finished tonight.

Several officers have been summoned to appear for tonight's meeting.

Meetings have been held each night this week at the armory and judging from the number of witnesses called and the length of time taken for their testimony a mass of evidence must now be in the hands of the investigating board.

Although the board may finish its taking of testimony tonight, it is not expected that the report will be finished for some time as all of the evidence gathered during these meetings will now have to be carefully weighed for the report which is to be made to Brig.-Gen. Samuel I. Johnson, adjutant general of the territory, who appointed the board.

JAPANESE BUDGET GIVES 722,500,000 YEN

(Special Cable to Nippon Jiji) TOKIO, Japan, Dec. 6.—The budget for 1918 was officially announced today by the Japanese government. The budget calls for the expenditure of 722,500,000 yen. This amount will be expended for defense, industrial and commercial development.

The fund will be raised by an increase in the income tax, and increase on wines, silk, cider, tobacco and postal. The tax on steamer and railroad fares will be eliminated as will also the tax on oil.

SIX CENT SUGAR IS NOW ASSURED

According to a cable message received late yesterday afternoon by E. D. Tenney, president of the Hawaiian Sugar Planters' Association, from the California-Hawaii Sugar Company, six cent sugar is practically promised to Hawaii. The cable stated that an agreement between the international and national sugar commissions and the commission sent over by the Cuban sugar planters had been about reached whereby the price for raw sugars would be in the neighborhood of six cents.

Digging for missing gold in the ruins of a burned home was the exciting pastime of several Japanese servants employed by J. L. Fleming, who lives at Liliha and Wylie streets. The servants' quarters and garages attached to the Fleming residence were destroyed by fire Saturday night, every bit of the buildings being razed.

When the Japanese saw that their quarters were destroyed they were frantic over the loss of their money. Two hundred dollars in gold was left in a bureau, and when this was destroyed, the gold evidently dropped into the debris. So the servants set to work, raking among the ashes for the missing money. So far they have recovered \$190, and the hunt for the missing \$10 still goes on.

BIG GERMAN AIR ATTACK FAILS IN BLOW AT LONDON

(Associated Press by U. S. Naval Wireless.) LONDON, Eng., Dec. 6.—Twenty-five enemy airplanes last night carried out a big raid on England. Only six of these succeeded in reaching London. Two of these were shot down and the crews of three captured.

GREAT BATTLES IMPEND ON CAMBRAI FRONT AND NEW LINE OF ITALIANS

(Associated Press by U. S. Naval Wireless.) WASHINGTON, Dec. 6.—In the absence of further engagements of magnitude yesterday indications are not wanting that on both the Italian front and in the Cambrai sector the titanic struggles of last week will be resumed with the Germans as the aggressors.

Taking advantage of the Russian breakdown and the progress made for an armistice between the forces of Russia and those of Germany and Austria, the Teutons have withdrawn forces from the fronts upon which they are not now needed and have hurried them to bolster up the shattered forces of Prince Rupprecht on the western front and to further reinforce the Austro-German armies on the northern Italian line with the purpose of there resuming their thrust, which look to be the opening up of the road to Venice across the Venetian plains. On the Cambrai front efforts are to be directed toward the destruction of General Byng's salient. A renewal of the terrific attacks that have proved so costly to the Teutons is expected at any time, and is clearly indicated by the increased intensity of the Teuton barrage.

GERMANS REFUSE REQUEST OF RUSSIANS NOT TO SEND TROOPS AGAINST ALLIES

(Associated Press by U. S. Naval Wireless.) LONDON, Dec. 6.—The expressed desire of the spokesmen for the provisional government of Russia that her former allies might be spared some part of the consequences of the Russian defection from the Entente and that one condition of the armistice between Russia and Germany be that no German forces from the east front be despatched for service on the west front has been flatly refused by Germany. Another of the Russian peace terms, the evacuation by the Germans of the islands in Moon sound, has likewise been refused consideration by the Germans.

A Russian communication dealing with the negotiations for an armistice now under way between the Huns and Slavs, the text of which has been received here, says that the enemy negotiators replied evasively to the two initial peace proposals from Petrograd, but promised to refer the proposals to Berlin for a reply. The reply is a denial of the proposals.

GAMBLING PROPRIETOR FINED \$100; OTHERS \$10

Twenty-four defendants were listed on the police court calendar this morning, charged with gambling. One man, Ah Lin, pleaded guilty to running the gambling game, and was fined \$100 and costs by Judge Harry Irwin. The other defendants were fined \$10 each and costs, or forfeited \$10 bail. The defendants were: Ah Lin, Ah Hoy, Ah Kim, Ah Shik, Ah Sing, Ah Po, Ah Cheong, Ah Oo, Ah Lee, Ah Poo, Ah Sin, Ah Quan, Ah Chee, Ah San, Chew Chock, Estel Lee, John Herman, Antonio Peter, Jim Baldwin, F. Lewis, John McKay, A. Jackson, Thomas Jones and Jack Antonio.

EVERY DENIES TENYO TO GO TO THE ATLANTIC

According to a report received from San Francisco the Tenyo Maru of the T. K. K. line will be commanded by the United States government and sent to the Atlantic. It is reported that the United States and Japan have reached an agreement whereby this steamer, and perhaps others, will be used for transports.

When seen today W. A. Avery, of the Asano interests said that this report was news to him, and would not venture to make any comment on the situation. It has been reported that R. Asano has denied that the Tenyo Maru would be taken over by the United States government. The Tenyo, said Mr. Avery, will sail from San Francisco for the Orient.

VESSEL LEAVING DOCK RAMMED BROADSIDE; EXPLOSION TERRIFIC

Scores Killed, Hundreds of Buildings Destroyed; 30-Mile District Damaged; Starvation Impends

(Associated Press by U. S. Naval Wireless.) AMHERST, Nova Scotia, Dec. 6.—The city of Halifax, rising above the great harbor, was rocked to its foundations and terrible death and widespread damage done today when a tremendous explosion resulted from the collision of vessels carrying munitions.

Meager news received at this town, nearly 100 miles away, indicates that scores have been killed, hundreds injured, and hundreds of buildings destroyed.

Communications of all kinds—telegraph, telephone and rail—have been so badly shattered that only brief facts are obtainable at this hour.

A telephone message brought the first information that several score people were dead, and that a great fire, breaking out immediately after the explosion, was destroying hundreds of buildings.

The explosion resulted from a collision of vessels with high explosives aboard, the message said.

The detonation was so terrific it destroyed the telegraph and telephone offices for 30 miles around Halifax.

The noise of the explosion was plainly heard at Truro, 61 miles from the harbor city. It is reported that a munitions steamer leaving the pier was rammed broadside. The warehouse on the docks was also filled with explosives. Instantly there was an explosion with a violent concussion, and the roof of the warehouse collapsed. North street depot was shattered and warehouses for a mile and a half along the waterfront were shaken down.

Along a stretch of nearly two miles freight cars were blown off the tracks.

Messages have been sent out by every available means, asking that fire engines be rushed to the scene and that supplies, doctors, nurses and general relief be hurried at once. Several of the towns outside Halifax have been appealed to for aid.

Special trains are already engaged in moving food to the stricken city, the supplies there having been so damaged that starvation endangers the people. Many warehouses full of food supplies have been destroyed and many shops burned down.

The wire damage is so complete that it is unlikely regular communications can be restored for days.

RODIEK-SCHROEDER PLEA IS GUILTY TO A TECHNICAL VIOLATION ONLY

Full Text of Statement in San Francisco Court Published Today—Reasons for Attitude Made Public—Preston Looks Into Case on Merits Before Acceptance of Plea

George Rodiek and H. A. Schroeder of Honolulu pleaded guilty only to technical violation of the United States neutrality law in the federal district court at San Francisco yesterday.

This, together with the statement in full which the defendants made to the court, was cabled to Honolulu last evening, and the Star-Bulletin today publishes their statement in full.

The gist of their explanation of connection with the "mystery ship" Maverick was printed in the late editions of the Star-Bulletin yesterday. Yesterday afternoon Matt I. Sullivan and Theodore Roche, the San Francisco attorneys acting for the two Honolulu defendants in the trial, cabled to the law firm of Thompson & Cathcart as follows:

"Rodiek and Schroeder both plead guilty to technical violation only of neutrality act. Reasons for plea and full particulars will follow this afternoon."

The cabled statement then followed. Some Recent History The Star-Bulletin learned this morning some of the recent history leading up to the filing of the defendants' statement and their plea of guilty to technical violation of the neutrality act. The firm of Thompson & Cathcart, while acting for Hackfeld & Co., has not at any time represented Rodiek or Schroeder in the San Francisco case, but when John W. Cathcart was recently in San Francisco he met District Attorney Preston, a personal acquaintance, and said to him that if all the cards were laid on the table he believed the government would find that Rodiek and Schroeder had not knowingly violated any law and that their connection with the Maverick business had been purely a commercial transaction.

Look Into Case on Merits The district attorney replied that if

place before him, everything in the way of evidence and any pertinent information he would look into the case (Continued on page Two)

STATUTE UNDER WHICH RODIEK WAS INDICTED CALLS FOR JAIL TERM

That Georg Rodiek and Heinrich A. Schroeder, who yesterday pleaded guilty in San Francisco to a charge of complicity in a plot to foment a rebellion in India, will each have to serve a term of imprisonment in spite of the fact that they may be used as witnesses for the government against the remaining defendants, is the opinion of local federal officials who have been watching the trial with interest.

The statute under which Rodiek and Schroeder were indicted provides a punishment of a fine of not more than \$5000 and imprisonment for not more than three years. The word "and" in the statute is the basis for the officials' prediction, as it means that persons convicted under the statute must be both fined and imprisoned.

One federal official today declared he was not surprised when he heard that Rodiek and Schroeder had pleaded guilty. Another opinion is that their implication in the movements of the filibuster steamer Maverick formed the only charge against them. If imprisoned, both men would

# AUSTRIANS SAME AS GERMANS HERE IF WAR DECLARED

In the event that the United States declares war on Austria-Hungary, Turkey and Bulgaria, alien natives of those countries now residing in Hawaii will be subjected to the same regulations laid down to govern alien Germans, according to an announcement which has been made by the local U. S. attorney's office.

Data now in the hands of District Attorney S. C. Huber tend to show that there are far less alien Austrians, Hungarians, Turks and Bulgarians in Hawaii than there are alien Germans and, in view of this, the federal officials anticipate little difficulty in throwing the net of surveillance about them in case of a severance of diplomatic relations. The naturalization cases of several Austrians and Turks are now pending in federal court, and are to come up for final decision within a few days before Judge Fontaine. With diplomatic relations severed, all rules and regulations for national safety now applying to alien Germans will apply to the aliens of the other allies of the Central Powers. They will be required to immediately register their names, occupations and other necessary information with the United States marshal. This done, they will receive permits to reside and do business in the local restricted areas. They will be barred from leaving the territory, or from traveling among the islands, unless they have special permission from the president, as well as a special traveling permit issued by the marshal with the approval of the U. S. attorney. It is not known how many aliens of Austria and the other countries are now employed in local government work, but in the case of a diplomatic break or declaration of war, they will have to give up these jobs. It is presumed, in accordance with a proclamation issued recently by the president, in the opinion of federal officials, few, if any, alien Germans are now employed in government work, and if any are employed, it is being done by special authority from Washington.

# MANOAITES DENY AGREEING TO PAY RITCHIE \$17,000

That the road committee of the Mano Improvement Club did not agree to the partial payment of \$17,000 to F. R. Ritchie by the supervisors for construction work on the Mano road is the statement of members of the committee. "The payment was made over our protest and not by any agreement which we reached with the supervisors," one of the committee members declared this morning.

It is explained that the committee was willing the contractor be paid \$15,000 and the balance of the claim of approximately \$5000 be held up until complaints over the work had been adjusted.

A joint meeting of the Mano road committee and the supervisors is to be held Saturday at which the protest over the construction work is to be considered.

# SEEK INDORSEMENT OF BUSINESS MEN TO "DRY" PETITIONS TO CONGRESS

No effort is being made by the Anti-Saloon League of Hawaii, according to George P. Castle, to secure a large number of signatures to the petitions of congress asking for prohibition for this territory but the efforts of the canvassers for signatures is being directed along the line of securing the names of men prominent in local business, religious, educational and charitable circles.

"The task of getting the signatures of voters only would be entirely too large," said Mr. Castle this morning, "and so we are directing our canvassers to seek out only the prominent men in the four circles outlined as we believe that petitions signed by these men, representative of the best in the community, will have more weight in Washington." The canvass for signatures will probably close this week and the petitions will be forwarded to congress some time next week.

# RODIEK-SCHROEDER PLEA IS GUILTY TO A TECHNICAL VIOLATION ONLY

(Continued from page 1)

on its merits, without any disposition to "stick" the pair. Assured that Mr. Preston did not intend to press the case if he were convinced that no wrongdoing had been intended and that the violation of the act was not serious, plans were set afoot at once to place before Mr. Preston every scrap of evidence that could be secured by the defense.

It is stated that District Attorney Huber cooperated in Hawaii with what the San Francisco prosecutor was doing. Part of the work consisted in collecting all the books and papers here and in Hilo bearing on the dealings of Hackfeld & Co. with the Maverick and sending them to San Francisco.

**Klebahn Summoned as Witness**  
It was at this point that the government subpoenaed F. W. Klebahn, manager of the shipping department of Hackfeld & Co. as a government witness. His departure for San Francisco with the books and documents showing the Maverick transactions was part of the results of the effort to show Mr. Preston that neither the defendants nor Hackfeld & Co. had conspired at a violation of the neutrality law.

With these books and documents before him, it is stated that District Attorney Preston was able to confirm the statements made on behalf of the defendants. His acceptance of the plea of guilty to the technical violation of law followed.

**Fine May Be Imposed.**  
While nothing is known here as to what sentence will be meted out to the defendants, one report which received credence today is that they will be fined, but that no prison sentence is likely to be given.

The statement to the court was made through their attorneys, Sullivan & Roche. It is as follows in full: "While constrained under the existing extraordinary conditions to the entry of a plea of guilty in behalf of the defendants, George Rodiek and H. A. Schroeder, of a violation of one of the neutrality laws of the United States, it is but fair not only to the American citizens of the Hawaiian Islands, among whom they have lived and labored so long, but to themselves as well, that the circumstances which prompt such action on their part be stated.

"So far as these two defendants are concerned, the matters charged in the indictment occurred long prior to any state of actual or declared war between the United States and Germany, and during a time when a bitter and relentless war was being waged between Great Britain and Germany.

"The transactions, because of which these two defendants found themselves involved in this indictment, which consisted exclusively in arranging for the furnishing of provisions and money to the steamer 'Maverick' while at Hilo and the transmission to her master of sailing orders previously communicated to them, took place during the months of April and May, 1915, and were regarded by them as purely commercial in character, involving no breach of any obligation due from either of them to the government of the United States.

"Neither of these two defendants at the time these transactions occurred was cognizant of the fact that in participating therein he was violating any law of the United States.

"Twenty-seven years ago Mr.

George Rodiek went to the Hawaiian Islands and later became an American citizen, married an American and rose to prominence in commercial life in Honolulu.

"The residential head of Hackfeld & Company has always acted as the local German consul. When, in September, 1915, George Rodiek became the local managing director of Hackfeld & Company, he incidentally became the resident German consul at Honolulu, receiving his exequatur from the government of the United States. It is and has been customary for American citizens, native-born and naturalized, to act as consular representative with in the United States of foreign governments, and the incumbency of such office involves no surrender of the obligations resting upon them as American citizens.

"Immediately upon the outbreak of the European war, in August, 1914, Mr. Rodiek, becoming apprehensive that duties as consular representative of the German government might conflict with the duties of American citizenship, sought the advice of counsel, the most prominent American lawyers in Honolulu, and was by them informed that the retention of his office as German consul was not inconsistent with his duties as consular representative of a violation of the President's proclamation of neutrality.

"After receiving this advice, Mr. Rodiek continued to act as consular representative of Germany until diplomatic relations between Germany and the United States were severed. The office of consul is mainly a commercial agency and it was in the capacity of commercial representative alone that the defendants, Rodiek and Schroeder, gave attention to the matters mentioned. In any aspect these transactions could be regarded as violation of any of the neutrality laws of the United States; their participating herein was without guilty knowledge or intent.

"While pleading guilty to a violation of one of the neutrality laws of the country, and thus, as to himself, bringing this trial to a conclusion, the defendant, Rodiek, does not concede any disloyalty to this country or lack of devotion to its institutions.

"His patriotism and loyalty are evidenced by the purchase of Liberty Bonds to the extent of about three-quarters of a million dollars made by himself personally and by his firm, H. Hackfeld & Co., and its affiliated concerns, and by his personal, generous and continuous contributions to the American Red Cross, which facts are well known to the officials and citizens of Hawaii.

"No charge of any kind is made against either of these two defendants involving any transaction occurring subsequent to the declaration of war between the United States and Germany, or, in fact, subsequent to the month of June, 1915.

"While consenting, under the existing circumstances, to the entry of a plea of guilty, these two defendants are convinced that the testimony hereafter to be produced during the present trial will demonstrate that their participation in any of the transactions shown was without knowledge that such act would violate any law of the United States of America.

"Furthermore, they intend by their future conduct and future residence in their Hawaiian home to confirm the respect and confidence of their neighbors and their right to fellowship with American citizens."

# CHINESE OFFERS SERVICE TO U. S.

Charles Wyman Chun, a Hawaiian-born Chinese, now living in Yeung Kwan, China, has written a letter to the mayor of Honolulu, offering his services in any capacity in which he can best serve the United States while abroad. The letter, in part, reads:

"I enclose my registration card by which I offer to enroll in any branch of service for which I am acceptable, and which, in your opinion, will be of most help to our country during the period of the world's war. I shall be pleased to obtain your guidance as regards to what I can do for Hawaii, and how I can best serve our country."

Mayor Fern referred the letter to Captain F. J. Green, head of the draft board.

# CLUETT HOUSE WILL OPEN DOORS DEC. 10

The Cluett House, Emma Square which has been such a factor in the home life of so many self-supporting young women, will be thrown open to its friends and the general public on Monday, December 10, from 3 to 6 p. m. The young women will show their visitors the extensive improvements and alterations that have just been completed and which have been made possible by friends in these islands, about \$2000 having been expended for this purpose.

The reception committee will include Mrs. H. B. Restarick, Mrs. B. L. Marx, Mrs. H. M. von Holt, Miss Marie von Holt and Miss Evelyn Drummond.

The date for the housewarming has been set earlier than at first intended owing to the departure of Miss von Holt for the coast on Tuesday next. Miss von Holt having expressed the wish to assist Mrs. Perry's Korean work before leaving, Miss Drummond will have on exhibition on the veranda a few gifts sent from friends in the East in aid of the Korean mission.

# DR. HOB DY TO TALK FOOD SAVING TONIGHT

"Food Conservation" is the topic of four-minute addresses which will be delivered this evening at the Bijou and Liberty theaters. Dr. W. C.

# CHINESE CAN NOW ENTER ISLANDS

(Continued from page 1)  
petitioner is, therefore, entitled to be regarded as a citizen of the United States the same as all other citizens of the Republic of Hawaii, whether they were born in the islands or were not."

In conclusion, the decision says: "It appears that up to the 29th of May, 1913, petitioner was claiming American citizenship in such manner that no presumption could be indulged against him by reason of being in China. Certainly the time he was in China prior to May 29, 1913, should not be counted as a part of the five years' residence necessary to raise the presumption against him that he intended to expatriate himself.

"I do not believe the law authorizes the deprivation of an American citizen of his citizenship, even though he may fail to comply with the regulations of the state department, when it appears that when he was in a foreign country he was claiming to be an American citizen and had no intention of expatriating himself."

It is also held that the petitioner, as a "naturalized citizen," could not have come to the United States "from a foreign state" as he became a naturalized American when Hawaii was annexed to the United States.

# JAPANESE SECRETARY TALKS TO "Y" STAFF

Dr. K. Kato, national secretary for Japanese students who are being educated in the United States, talked to the staff of the Y. M. C. A. this morning. He said that he was interested in seeing that the young Japanese attending the various schools are given the best that is found in American home life.

Dr. Kato recently spent three months in Japan making a study of conditions in the schools there. He will leave Honolulu the last of the month for the mainland where he will visit all the universities and colleges where Japanese are in attendance.

Hobby under the auspices of the Four Minute Men of Hawaii, of which Royal D. Mead is chairman. The speaker last night was District Attorney S. C. Huber. Wallace R. Farrington speaks tomorrow evening.

# No Formal Charge Yet Made Against Shooting Suspect

Despite the fact that more than 100 hours have elapsed since he was first arrested by Motorcycle Office Sitemore "somewhere between the scene of the shooting and Fort Shafter," no formal charge has yet been placed against David C. Buick, held in connection with the shooting of W. O. Ito, late Saturday night. The territorial law on such cases, holding a man under investigation, originally provided that a prisoner could not be held over 48 hours before being brought before the magistrate on a specific charge, but the amendment to this law declares that he cannot be held more than 48 hours without being charged, "unless it is contrary to the cause of justice." This latter clause gives the police authorities a wide range to operate in, as they can hold a prisoner indefinitely without lodging a specific complaint against him.

When the chief of detectives was asked by a Star-Bulletin representative if he might see Buick, he refused to grant such permission.

No one but the attorney has been allowed to talk to the prisoner, and even notes from close friends have been turned back at the police desk. Buick is being held absolutely "incommunicado."

Friends caught a glimpse of Buick Tuesday when he was taken out in the detective bureau's machine for further investigation. He was accompanied by Chief Arthur McDuffie and Sergeant John Kellert. Buick did not appear haggard or under a severe strain as one might imagine after being locked up for so long. He smiled and nodded his head as he got into the machine and was whisked away.

The Queen's hospital reports this morning that the condition of Ito is the same. Although his condition is serious, it is possible that he may steadily improve. It is reported that his lower extremities are paralyzed. Attorney William Carden, who will represent Buick, stated that his case would be based on mistaken identity. Neither Attorney Carden or the police will say whether or not Buick has made a statement.

# TRUSTEES MEET DEC. 20 TO ACT ON RESIGNATION

Consideration of the resignation of Werner Roehl as superintendent of the Queen's hospital will be taken up at a regular meeting of the trustees of the corporation to be held December 20. It is reported that the resignation will be accepted as Mr. Roehl is said to have requested that his action be taken.

Thus far the trustees have taken no action regarding the appointment of Mr. Roehl's successor. Frederick Anderson, former superintendent of Leahi Home, and now superintendent of the Boys' Industrial School, and Dr. A. N. Sinclair, are said to be in line for the position.

# WAR INSURANCE BUREAU OPEN AT HEADQUARTERS

Lieutenant Archie W. Brown, 25th Infantry, and Lieutenant Edgar Anderson, 2d Infantry, both graduates of the recent training camp at Schofield Barracks, were today ordered to report at department headquarters for duty in connection with war insurance work. Lieutenant Brown will be in charge of the office and will be assisted by Lieutenant Anderson. The work will begin immediately.

# BY-PRODUCTS OF SUGAR DISCUSSED IN FINAL MEET

The thirty-seventh annual meeting of the Hawaiian Sugar Planters' Association closed yesterday afternoon; four reports being given consideration throughout the final session. The subjects were as follows: "Sugar Machinery," "Sugar Manufacture," "By-Products of Sugar," and "Labor Saving Devices."

The report on by-products of sugar brought forth the fact that Oloa plantation has given the subject of manufacturing paper from bagasse serious consideration and experimentation while the Maui Agricultural Company has been looking into the manufacture of alcohol from molasses. C. F. Eckart, manager of Oloa plantation, is now on his way home from Boston to report on the experiments conducted in the East on the manufacture of paper from bagasse.

Most of the plantation managers who attended the session will remain in the city until Saturday when they will return to their respective stations on the other islands.

# RUSS GOOD ENTERTAINERS BUT CAN'T BEAT HAWAII

In a letter to a local friend, F. J. Maguire, secretary to H. J. Dreher, manager of the Russian branches of the National City Bank of New York City, writes from Moscow that he has found the Russian people both genial and lovable. Mr. Maguire passed through Honolulu earlier in the year on his way to Russia with Mr. Dreher to establish branches of the National City Bank in Russia.

Two branches have been established, one in Petrograd and the other in Moscow. The reason for this move on the part of the National City Bank was on account of the fact that the New York institution had acquired the business of handling Russian securities in America. Five bankers belonging to the National City Bank which included Messrs. Dreher and Maguire were entertained by Honolulu friends during their short stay here on their way to Russia, and each has added a note to the letter from Maguire to the effect that though Russians are excellent entertainers they will never forget the "good time" given the party in Honolulu.

# 1.72 INCHES OF RAIN FALLS IN NUUANU VALLEY

Yesterday's rainfall, recorded at 5 p. m., showed 1.72 inches for Nuuanu Valley for the last 24 hours. Reservoir No. 4 has 22 feet of water this morning, with 17 feet, 3 inches of water in No. 1. Reservoir Nos. 2 and 3 are still empty. The refilling of No. 3 will begin tonight.

Sewer work on the Kaliai contract is progressing well. Superintendent Kirchhoff reports. Contract specifications call for completion of this work in March.

Nothing new in the way of sewer or water installation will be started before next year after the city budget for 1918 has been made up.

# ART EXHIBITION

There will be an exhibition of medals, medallions and photographs of sculpture by Roger Noble Burnham, and paintings by Juliet May Fraser, at the University Club, December 7 to 20, open to the public from 9 to 11 a. m., 2 to 4 p. m., and 7:30 to 10 p. m. Hotel street entrance.—Adv.

DR. PALMER SAYS ALL CALIFORNIA IS HOOVERIZING

Officers From Presidio Camp Fine Men, Thinks C. U. Minister

A. W. Palmer, who arrived Tuesday to take over the pastorate of Central Union church, says that within the last few weeks everybody in California has commenced to Hooverize.

"It would be hard to find a residence without a food pledge card in the window," said Dr. Palmer. "The day before I left San Francisco I was passing along a street in Berkeley, in the residence section, and out of an unbroken row of twenty-five homes, twenty of them held a food pledge card. It is so all over the state. Mr. Hoover is a native of California, a former member of the board of directors for Stanford university, which alone would make his word go a long way, even if the people were not thoroughly aroused to the need of food conservation.

"The Middle West has still to wake up fully, I think," continued Dr. Palmer. "Reverend Merie Smith, pastor of the First M. E. Church of Pasadena who was associated with me in my Y. M. C. A. work for the army, has just returned from a trip to New York. He says after you get east of Chicago the portions served on the railroad diners are just one-third as large as they are west of Chicago, and cost just exactly one-third more. Sugar bowls are whisked off the tables of the diners before reaching Chicago from the west, and for the balance of the way to New York the passenger has his sugar placed before him in a Manila envelope, something like a church contribution envelope, and the amount of sugar served is less than the usual contribution that is found in such an envelope.

"California is said by all Easterners to be more awake than the Middle West. Certainly we are practicing conservation there in every form, and with foodstuffs more plentiful and cheaper in California than anywhere else in the world today."

Speaking of his work in the big training camp at the Presidio, Dr. Palmer said:

"They were a fine set of men, the 1600 student-officers who graduated November 23, fine morally, mentally and physically—and particularly physically. One could not help noting what a husky set of young men they were. Their average was 58, and 75 per cent of them were commissioned. They came from all walks of life—farmers, doctors, lawyers, teachers, one state normal principal, two preachers, and Jim Scott, a former pitcher for the White Sox. Jim got a commission—as did the preachers and the normal professor, and a good percentage of the others—and I think he will make just as good an officer for the United States as he did a pitcher for the White Sox."

When reference was made to the president's message, particularly that portion of it pertaining to America's adding Austria, Turkey and Bulgaria to her list of fighting foes, Dr. Palmer smiled. "Half the people, if not more, thought those countries were already at war against us. Certainly, we shall be in a fairer position toward our Allies, and will have our own course more clearly outlined by being actively at war with all Germany's allies. I fancy the entire country will be in accord with the president in that respect."

Dr. Palmer expressed himself as being very glad indeed to return to Honolulu, which, he says, is just as beautiful as ever.

LOCAL AND GENERAL

Regular meeting of Scottish Rite bodies this evening in Masonic Temple.

The Mothers' club will give a dance tomorrow evening in Liliuokalani school.

Miss Hedwig Holstein of 2562 Lemon road, Waikiki, was successfully operated on at the Queen's hospital Tuesday.

Raymundo Martin, charged with a theft on a government military reservation, has been sentenced in federal court to serve 15 days in Oahu prison.

The entertainment committee of the Commercial club has arranged a dinner dance in the main dining room for Saturday evening, Dec. 8, at 7 o'clock.

The regular monthly meeting of the Free Kindergarten and Children's Aid Association will be held at the Library of Hawaii tomorrow morning at 9:30.

The regular monthly meeting of the Free Kindergarten and Children's Aid Association, will be held at the Library of Hawaii, on Friday, December 7, at 9:30 o'clock.

A petition for adjudication in bankruptcy, showing liabilities in the sum of \$1744.18 and assets in the sum of \$10, has been filed in federal court by G. A. Smith.

Discontinuance has been filed in federal court of the libel brought by Richard Deming, owner of the tug Printer, against the gasoline ship James Makee.

President Wilson has accepted the resignation of Provisional Second Lieutenant Melford Sherman, one of the numerous appointees from the ranks made a few months ago from local regiments.

The Hawaiian Allied War Relief Auxiliary requests that any knitted garments that may be finished be turned in to the Beretania street rooms before the first of the week, as they wish to ship a box as soon as possible.

Promotion to a captaincy has come to 1st Lieut. Paul Withington, son of D. L. Withington of this city. Captain Withington is now a member of General Scott's staff at Camp Funston, Kansas. He is divisional athletic instructor of the 89th army division at that place.

Stanley Healan Ashford, eldest son of Circuit Judge C. W. Ashford, has joined an artillery battalion at Edmonton, Alberta. Ashford was a graduate of Punahou school and spent about three years at the United States Naval Academy, where he gained much experience as a gunner. He expects to leave for France soon, while his wife will enter the hospital service.

OUTDOOR CIRCLE AMENDS BYLAWS

A meeting of the 34 directors of the Outdoor Circle was held Tuesday afternoon to amend the by-laws of the Circle. Amendments adopted cover great expansion of the work, making constitutional activities already started, such as the big community Christmas tree, for which the ladies of the Outdoor Circle stand sponsor, and which, under the amended by-laws, will be a part of the Circle's authorized work.

Other features covered by the amendments is the increasing of the number of directors to take in any woman who is at the head of construction work that is being done, her term of directorship to last only during the period of such construction.

At the January election of officers the office of secretary-treasurer, which is now held by one woman, will be divided, and two officers, a secretary and a treasurer, will be elected. The work of this combined office has grown too heavy for one officer to handle alone. Two additional vice presidents will also be elected.

Outdoor Circle members approached individually all express themselves much interested in City and County Engineer Cantin's road letter. They recognize the fact that good roads are an essential to all civic improvement and those spoken to stand ready, individually, to do all they can to help along the work of the Good Roads movement.

"If Mr. Cantin will give the Outdoor Circle a concrete statement, showing just what is needed," said Mrs. Augustus E. Murphy, secretary-treasurer of the Circle, "so that we may have a statement on hand on time it will be presented at the meeting of the Circle next Tuesday, when a general expression from all the members can be had. Road work certainly interests all of us, and I believe the Circle, as a body, will be ready to act along any lines that will help to insure permanent good roads for Honolulu."

John M. Gesner, president of the Nyack National Bank, and for last 29 years treasurer of Nyack, is dead.

WALL-DOUGHERTY WILL BE OPEN

Saturday night, December 8, for the accommodation of Christmas shoppers.

Mark Twain said: "Habit is habit, and not to be flung out of the window by any man, but coaxed downstairs a step at a time." If people haven't the habit of dealing with you let the Star-Bulletin do some resultful coaxing for you.

UNION LINER BRINGS TOURISTS FROM THE NORTH

Nearly all of the 44 passengers who arrived in Honolulu today by a Union S. S. Co. liner are tourists who have come to Hawaii to evade the northern winter. Most prominent among them is W. Oothout, a wealthy Nevada mining engineer, who, with his wife and maid, is here for an indefinite stay.

"Everything is war in the states," he says, as he expresses the wish that he will find it the same in this American outpost.

Mr. Oothout says he is satisfying a longing of several years by coming to Hawaii at this time. He stopped here for a short time a number of years ago when he was returning from a trip to China and has always wanted to return for a longer period.

The Union liner officers say they have had no word regarding the missing steamer Natana, although it was reported in Vancouver that the ship was believed to be in the hands of the Seeadler crew.

A number of the through passengers on the Union steamer are officers of the British army who have been given a furlough, after two and three years spent in the trenches in France.

This steamer has a through cargo of over 4000 tons.

BIRD BLAMED BY SLADE SKIPPER FOR SINKINGS

SAN FRANCISCO, Nov. 26.—Here is an entirely new story of the Seeadler adventures in the South Pacific. Captain Haldor Smith of the R. C. Slade, skipper of the Seeadler, told it when he heard that the Union steamer Palooma, which is to bring the rest of his crew from Papeete, was delayed by engine trouble. He said:

"Leaving Sydney the first mate brought a parakeet on board. I am not superstitious, but that bird got my goat."

"Throw him overboard," I said. "He's a jinx."

"But the first mate would not lose that bird. Two days later we were caught and sunk by the Seeadler. Then on the Seeadler the German captain opened the cage to let the bird out. But my mate caught it and put it back. Then the Seeadler went ashore. "That parakeet kept squawking all the time. I was glad to be rid of it when I took the small boat to Apia. I'll bet the mate has still got that bird on the Palooma."

NEXT OCEANIC LINER WILL TAKE OUT 100

Due to the temporary withdrawal of the Matson steamers the offices of the Oceanic steamship company are being besieged by applicants for passage to the coast on the next vessel of that line to call here. Information has been received that the next Oceanic liner can take out 100 cabin passengers, but there is no knowledge here of how many she can accommodate in the second cabin and the stowage.

The providing of passage for the 100 cabin passengers will save all tourists from being delayed here more than a week, but many of the Spaniards and Filipinos, who want to leave here on account of the big sums they have received as bonus payments on the plantations, will likely have to wait for other steamers.

HARBOR NOTES

The new schooner Puck is now anchored at Pier 16. Some difficulty in getting her into the bay was experienced Tuesday night due to a southerly gale, but she was finally pulled to safety by tugs and the launch Elizabeth.

The Nippon Yusen Kaisha liner Hitachi Maru, one of the largest passenger steamers on the N. Y. K. line, has finally been given up by officials of the firm as lost, for no word has been received from her since her departure from Colombo for Delagoa Bay September 24 last.

Captain N. E. Cousins, master of the liner President, which has been chartered to the Matson company by the federal shipping board, is one of the best known skippers on the Pacific coast, having been in those waters constantly for the past 20 years. He was last in the Islands in 1885 as quartermaster of the old steamer Mariposa, which ran ashore on the Alaska coast some weeks ago.

PASSENGERS ARRIVED

By a Union Steamship Co. liner: Mr. and Mrs. T. Atkinson, Mrs. M. Meyer, Mr. and Mrs. M. Oothout, O. McBride, H. Pratt, Mrs. S. Lee, Mrs. E. Meyers, Miss M. Nume, J. Lithgow, Mr. and Mrs. P. Koop, Miss C. Hoggett, J. Bushby, J. Lawn, Mark Stretter, Mrs. E. Stretter, H. Nangle, Mr. and Mrs. Clarke and three children, Miss L. O'Brien, R. Rankin, Miss M. Frederick, Mr. and Mrs. Doesburg and two children, Mrs. J. Doesburg, Mrs. K. Myriols, J. Robbins, E. Sawyer, Miss R. Beck, Mrs. E. Morrison, Mrs. N. Harris, Miss E. Coles, Thos. May, J. Costello, J. Burns, J. Poole.

UNIVERSITY CLUB BURNHAM-FRASER EXHIBIT TO OPEN

Roger Noble Burnham, sculptor, and Miss Juliet May Fraser, painter, will open tonight an exhibition of their work at the University club.

Tonight there will be a private view of medallions, photographs of sculpture and other work by Mr. Burnham and the paintings by Miss Fraser. For this private view, which is from 8 to 10, invitations have been issued. Mr. Burnham will give an informal talk on the processes of sculpture, illustrated by modeling and casting in plaster.

The public exhibition will be held from December 7 to December 20, from 9 to 11 a. m., 2 to 4 and 7:30 to 10 p. m., daily.

Entrance to the exhibit room is from the Hotel street side.

22 SICK SOLDIERS ORDERED TO FRISCO

Twenty-two enlisted men of the army now sick in the department hospital have been ordered to report for treatment at the Letterman General Hospital in San Francisco. They are as follows:

- Privates Thomas Roby, Company C, Edgar De Wolfe, Company D, and Austin T. Powers, Company D, 3rd Engineers; and Bryan Pierce, Troop H, and George D. Wagner, Troop L, 4th Cavalry; Joseph Kearns, Battery F, 15th Field Artillery; Private, 1st Class Ralph E. Warner, Battery D, 9th Field Artillery; Pvt. Mervin L. Edwards, C. A. C., 1st Company, Oahu; Pvt. Victor Rouillot, C. A. C., 5th Company, Oahu; Pvt. Cornelius King, Company I, 1st Infantry; Pvt. Charles Peterson, Company D, and Cpl. Carl O. Evans, Company H, 2nd Infantry; Prts. Robert Morgan, Company A, John F. Price, Company D, James Davis, Company E, Charles Ingram, Company E, Joseph Brown, Company F, Elbert Thomas, Company H, and George Sanders, Company I, 25th Infantry; Cpl. Clyde B. Hooker, Company H, and Pvt. Charles D. Revenew, Company M, 32d Infantry.

CITY WATER GUARD LEAVES FOR VALLEY

Under Capt. W. G. Allen, commanding, the newly named company for duty in Nuuanu valley as guard over the city water supply, left the national guard armory yesterday morning. This company will relieve the men that have been on guard in the valley for the last several weeks under Capt. Edward Hopkins and Lieut. William E. Miles. Lieut. Philip Sing will be assistant to Captain Allen.

PVT. ARTHUR SHERMAN LISTED AS DESERTER

Pvt. Arthur Sherman, Battery E, 9th Field Artillery, has been posted as a deserter from the army, having left Schofield Barracks on Nov. 22. Descriptive cards state that Pvt. Sherman was accepted for enlistment at Buffalo, New York, and that his mother, Mrs. Flora Blaine, is now living on Church street, Forestville, of that state. He is 22 1/2 years of age, has brown eyes, black hair and fair complexion. He is five feet four and one-half inches in height.

TWO SOLDIERS WOUNDED AS GRENADES EXPLODE

Pvt. Merrit C. Creath, Troop C, 4th Cavalry, is said to have had both legs broken by the exploding of a bandolier of grenades which was dropped near him. Pvt. Gallard W. Cutting, Battery F, 9th Field Artillery, received a wound in the hand when a grenade which he was attempting to pick up exploded.

GRANDMOTHER'S BOTANIC MEDICINE

In every pioneer home the botanic recipes of our grandmothers for the treatment of disease were wonderfully dependable. Every fall she gathered her various herbs: thoroughwort, camomile, sage, pennyroyal, wormwood, rue, etc. It is interesting to note that Lydia E. Pinkham's Vegetable Compound, the most successful remedy for women's ills we have, was originally prepared for home use from one of these botanic recipes, and the demand for this famous medicine has grown until over 350,000 pounds of roots and herbs are used annually in its preparation. It will well repay any woman who suffers from female ills to give this famous medicine a trial.—Adv.

Price as Always

50 cts.—\$1.00 (two sizes)

Dr. Caldwell's SYRUP PEPSIN The Perfect Laxative

We believe the public will appreciate our sacrifice of profit in continuing the old price in spite of the tremendous increase in the cost of manufacture. You can buy Dr. Caldwell's Syrup Pepsin from your druggist for fifty cents or one dollar a bottle.

Y. W. C. A. DRIVE FOR \$45,000 TO BEGIN TUESDAY

To raise \$45,000 in four days is the task which the local Young Women's Christian Association will undertake on Tuesday, December 11, and to handle the campaign which will continue until Friday night, December 14.

Miss Martha Chickering of San Francisco headquarters of the Y. W. C. A., is here to assist the local executive committee consisting of Mrs. Walter Frear, Mrs. A. L. Andrews, Mrs. I. J. Shephard, Mrs. C. T. Fitts and Mrs. F. J. Lowrey. One hundred girls will be sent on a canvass throughout the city during the four days.

Of the sum to be raised \$20,000 is for the local budget of the Y. W. C. A.; \$15,000 for national work and \$10,000 for war work here. The \$15,000 for the national Y. W. C. A. war work is to be part of the \$4,000,000 being raised in a national campaign in the United States and its territories to be expended in giving service to girls who go to France as nurses and to take care of the girls who enter the industrial field in the United States with the departure of men to war.

It might be mentioned that while the national campaign to raise the \$4,000,000 will close on December 11, the day on which the local campaign opens, the national fund will include the \$15,000 quota for this island in its figures and it will be up to Honolulu citizens to make good.

Additional The \$10,000 for local war work will be split in half; \$5,000 being used to enlarge the Y. W. C. A. building because present facilities are inadequate and \$5,000 will be used in general service to enable girls to maintain their balance generally with the influx of soldiers from the conscript army, if such an influx occurs. The presence of soldiers near a city like Honolulu, Miss Chickering explained, complicates the situation of the Y. W. C. A. in their work among girls and requires extra funds in order to maintain an even balance.

The girls who will conduct the canvass are being organized into squads. The captains for these squads will be chosen shortly and their names announced within a few days.

XMAS CARDS

Xmas cards from Shrieve & Co. and Thompson Smith & Co. of New York, as well as a fine assortment of holiday books for children and grown-ups, are to be seen at Wall, Nichols Co., Ltd. We keep open every evening until Xmas.—Adv.

## How To Save Your Eyes-- Doctor Tells How To Strengthen Eyesight 50% In One Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home.

LONDON.—Do your eyes give you trouble? Do you already wear eyeglasses or spectacles? Thousands of people wear these "windows," says Dr. Lewis, who might easily dispense with them. You may be one of these, and it is your duty to save your eyes before it is too late. The eyes are neglected more than any other organ of the entire body. After you finish your day's work you sit down and rest your muscles, but how about your eyes? Do you rest them. You know you do not. You read or do something else that keeps your eyes busy; you work your eyes until you go to bed. That is why so many have strained eyes and finally other eye troubles that threaten partial or total blindness. Eyeglasses are merely crutches; they never cure. This free prescription, which has benefited the eyes of so many, may work equal wonders for you. Would you like your eye troubles to disappear as if by magic? Try this prescription. Go to the nearest wide awake drug store and get a bottle of Optona tablets. Drop one tablet in ¼ glass of water and allow it to thoroughly dissolve. With this liquid bathe the eyes two to four times daily. Just note how quickly your eyes clear up and how soon the inflammation will disappear. Don't be afraid to use it; it is absolutely harmless. Many who are now blind might have saved their eyes had they started to care for them in time. This is simple treatment, but marvelously effective in multitudes of cases. One man says: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not hurt any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for 15 days everything seems clear. I can even read fine print without glasses." Now that you have been warned don't delay a day, but do what you can to save your eyes and you are likely to thank us as long as you live for publishing this prescription.

Note: Another prominent City Physician to whom the above article was submitted, said: "Optona is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. It can be obtained from any good druggist and is one of the very best preparations I feel should be kept on hand for regular use in almost every family."—Adv.

We know a young man who recently lost his position.

He was steady and competent—but an unforeseen combination of circumstances threw him out of a job. He had saved no money whatever—found himself without work, penniless, with a family to maintain.

Friends helped this young man. But he was two months idle and had to wait another full month before drawing any pay in the position he finally secured.

It will be a year at least before this young man pays what he owes—provided he observes the strictest economy. That he had friends was unusually fortunate.

What a different position he would have found himself in, if he had saved some money when he had it!

We pay 4% interest on time deposits

## REFINED SUGAR SCARCE IN EAST

(By NEVERS & CALLAGHAN.)  
NEW YORK, Nov. 9.—Throughout the past week, trading has been at a standstill. The International Sugar committee has been willing to pay the basis of 6.90 basis 96 deg. duty paid for all sugars due to arrive this month, but no sales have been reported. The International Sugar committee and the various sub-committees have been holding conferences daily. Under date of November 7, 1917, the International Sugar committee published the following announcement:

"It is the intention of the International Sugar committee to respect and not to disturb the channels through which purchases of sugar have hitherto been made either for the United States or for the European Allies and to continue the intermediary of brokers and of agencies as heretofore."

A committee appointed by President Menocal, to represent the Cuban planters, held a conference with the International committee on November 8, and discussed the price to be established on new crop Cubas. It is understood that the planters are anxious to have the price fixed at not lower than 4.75c basis 96 deg. f. o. b. Cuba, whereas it is the idea of the food administration that 4.50 basis 96 deg. f. o. b. Cuba would be a fair price to all. These committees will meet again early next week to continue their deliberations.

The negotiations for the purchase of 100,000 tons of Louisiana sugar at 6.35c basis 96 deg. delivered New Orleans by the American Sugar Refining Co. were concluded during the week but resulted in the sale of only about 26,000 tons. The recent severe freeze, which is estimated to have reduced the crop from 300,000 tons to 250,000 tons maximum, is partly responsible for the comparatively small quantity secured by the American Sugar Refining Co., but the principal explanation probably lies in the large differential between the price of raws and the prices of higher grades as fixed by the United States food administration. A recent ruling of the food administration fixed the maximum prices for Louisiana sugars on the following basis: 6.35c basis 96 deg. for raws, 7.25c less 2 per cent for clarified and 7.80c less 2 per cent for refined and plantation granulated. It is understood that some New Orleans refiners who still have on hand some small stocks of refined manufactured from higher priced raws, will be permitted to dispose of these small stocks at 8.35c less 2 per cent. It does not seem probable that any important quantity of Louisiana raws will be available for shipment to Northern refining points, as a majority of planters show a disposition to manufacture clarified and plantation granulated rather than raws, because of the more profitable prices obtainable for the former grades.

There has been no change made in refined prices by local refiners, who are still selling their tremendously reduced output at 8.35c less 2 per cent. The scarcity of refined in Eastern markets grows more acute daily. Domestic beet granulated is not being shipped into Eastern territory in any appreciable volume, partly because of a shortage of railroad cars available, and partly because the beet manufacturers are not disposed to absorb the freight charges entailed on such shipments. In many retail grocery stores in New York and Brooklyn raw sugars are being sold direct to consumer at 9c to 10c per lb., and are being advertised as "South American Sugars." Inasmuch as the International Sugar Committee has fixed the maximum wholesale price of raw sugars at 6.90c basis 96 deg. duty paid New York, and is willing to buy all nearby sugars for sale on this basis, it is evident that some importers are either not giving the International Sugar Committee the preference on their offerings or else are selling at more than 6.90c basis 96 deg.

The first time women in New York will have a chance to cast a ballot will probably be in Brooklyn in January, where a vacancy in Congress exists.

Are you tormented by Neuralgia, Lumbago, Sciatica or any of those aches that require a counter-irritant? Then let the soothing, warming application of Sloan's Liniment stop the pain by drawing the blood away from the congested part.

It is the pressure on the nerves by the blood rushing to the inflamed, muscle or joint that makes you ache. So when Sloan's Liniment relieves the swollen blood vessels by setting up a counter-irritant on the surface, the circulation is equalized, sympathetic nerves all soothed, and soreness or lameness disappears.

Physicians prescribe many counter-irritants. Sloan's Liniment is probably the counter-irritant most widely used to overcome painful inflammation in cases of neuralgia, sore muscles, wrenched joints, strains, bruises, gout. Rubbing is not required. This clear, clean liquid is easily applied as it does not stain the skin. Generous size bottles at your druggists. 25c, 50c, \$1.00.

## 400 RUSS FROM HAWAII WANT TO RETURN TO HOME

More than 400 Russian men, women and children want to return to their native country, according to W. W. Troutshold, Russian consul general, who is here for the purpose of repatriating his countrymen. Applications for the return of these Russians have been sent on to Petrograd and permission for their return to that big country is expected by every steamer from the Orient.

Although Consul Troutshold has not received any salary since last September or any direct advice, he expresses belief that there must be a government of some kind in Petrograd.

"I know no more about affairs in Russia than I read in the newspapers. But there is certain to be a government of some sort there. There always is," he says.

The repatriated Russians will not do and do not desire to return to the troubled country until the winter is over, he says.

## SHOES GOING UP IN PRICE, SURE

Shoes are not only going to be higher in price but they are going to be infinitely harder to get as the demands made by the war increase. Many things beside the cost of leather enter into the price of shoes. First of all, there is the additional cost of doing business of any sort. Then transportation, findings, lining, even thread have to be taken into consideration, and every single one of these things has gone up in price within the last year.

Also, there is the constantly growing demand for American shoes to be seen over seas. Last month contracts were awarded at Washington for 1,500,000 pairs of boots for the Russian army, at a total cost of \$7,500,000. The awards were made by the Russian purchasing commission, advised by the committee on supplies of the Council of National Defense, before the Russian army went to pieces.

The embargo which existed on sole leather was raised October 12 when the U. S. Government guaranteed payment on \$10,000,000 of sole leather for Russia and England. About the same time an order was placed in Boston by an Englishman for \$15,000,000 worth of leather, which just about cleaned up that market of its leather supply.

All this cannot fail to have a bullish effect upon the leather market, and retail merchants in Honolulu are expecting to pay considerably increased prices for the next shoe orders, which means that, unless he wants to wear sandals, the man of moderate means, and madame, his wife, would be wise to lay in a supply of shoes and boots now, before the present stock is exhausted.

**Art Exhibition and Sale**

This collection of Paintings, placed on exhibition by M. B. Mihan, is undoubtedly one of the best to be shown in Honolulu. It embodies works of such celebrated American artists as Wm. Keith, A. H. Wyant, Geo. Innes, R. A. Blakelock, also a few works of the old European masters such as David Tennier, Attilio Piambo and C. Van Den Broeck.

There are several beautiful water colors by English artists, notably G. Ramer, H. E. Walters, T. S. Stamm and Harry Carleton.

Harry Carleton is a celebrated painter of architectural subjects and in this collection has produced, in wonderful detail and color, the older cathedrals of Northern France and Belgium—most of these cathedrals now are in ruins. These canvasses are shown in our windows.

The public is cordially invited to visit and inspect this unusual exhibit.

**THEATRICAL OFFERINGS**

**REX BEACH FILM IS REAL PLAY**

Rex Beach's famous novel "The Barrier" has if anything gained force in its transposition to the silent drama, a fact to which a capacity house at the Bijou last night testified by unqualified indorsement. Dealing with the primeval characters of force and human passion that swayed the hearts and minds of men who sought fortune or refuge in the early gold rushes to the Klondike, it is filled with virile and sustained action. It gives voice to the tempestuous lives of men who faced the dangers and adventures of the frozen north and affords wide play to the emotions of men and women who constituted the advance guard of civilization to that frigid region where "neither law of God nor of man" was recognized unless backed up by a six-shooter.

The filming is excellent; there are beautiful scenes of wide expanse of river and dale, of meadow and forest, valley and snowclad peaks. The unfolding of the drama never palls, whether it be in the precipitate encounters of the passions of men or the amorous seeking of man for his mate. One strengthening feature of the film is the fact that there are at least six principal characters, each of whom enacts a difficult role in impressive fashion.

It is a tale of the survival of the fittest with right pitted against wrong, a story of a battle for the love of a beautiful girl between father and foster-father, between lover and villain, with delightful touches of human interest, interspersed to make it a most enjoyable picture, with "The Barrier" finally lifted by stalwart devotion.

**'HOUSE OF TEARS' ON HAWAII BILL**

How sin carries its full burden of consequences and how the transgressor is ultimately called upon to pay is shown in the tragic story told in "The House of Tears," which is the main attraction of the current program at the Hawaii theater.

The picture tells a story of life of the present day. "The House of Tears" is the wrecked home of a New York broker, made desolate by a faithless wife. Retribution is long in coming but at length it is dealt out by the little daughter of the broker, who grows to womanhood alone after her father's death, brought about when the wife departs with his false friend. The roles of wife and daughter are both played by Emily Stevens and the climax is reached when the man who has stolen the broker's wife deserts her, returns to New York and meets the daughter, who has become a newspaper reporter. He falls in love with the young woman and is about to marry her when the girl is saved in a remarkable manner.

In addition to the feature picture, the 5th chapter of the serial, "The Neglected Wife," in which Ruth Roland is starring, is given and the Mutual weekly news pictures are also shown.

**WINSOME STAR AT THE LIBERTY**

"At First Sight," a laughable comedy into which is woven a pleasingly novel love story, and the beginning of "Gloria's Romance," in which Billie Burke is the star, makes up the exceptionally strong bill which will be shown at the Liberty theater for the balance of the week.

"Gloria's Romance," as the title implies, is a love story. It is the joint work of Mr. and Mrs. Rupert Hughes and is a tale well suited to Miss Burke's vivacious style of acting.

Originality throughout marks the Famous Players' feature, "At First Sight," in which Mae Murray is the star. She is remembered here for parts played in "To Have and To Hold," "The Dream Girl" and other productions. It is the story of an absent minded young author and a sprightly American girl, Justine Gibbs, played by Miss Murray, rebels against a prearranged marriage and determines to win the interest of the young writer. Wholly absorbed in his work and unresponsive to the wiles of Justine, he remains blind to her charms until she devises a way to fit herself into the story he is writing. The climax is one full of charm.

The weekly Pathe news pictures form a part of the program.

**LAST OF YAW CONCERTS FRIDAY**

The world's greatest coloratura soprano, Ellen Beach Yaw, will be heard in the second of her concerts, jointly with Ernest Kaai and Frank Moss, tomorrow evening, in Mission Memorial hall, King street.

This trio, with their respective talents, charmed an appreciative audience until encore after encore brought each one back to the footlights time and again on Tuesday evening, when the great singer made her initial bow before local music lovers.

An entirely new program for this second concert has been arranged and is said to be equal in quality to the one rendered on Tuesday.

**THEATERS CHARGING EXCESS WAR TAXES TO BE REPORTED TO U. S.**

Instructions from the treasury department to report to Washington all show houses, moving picture houses or other similar places that are charging an increased rate of admission, which increase is in excess of the

war revenue tax, but which purports to be because of the tax, have been received by Acting Collector of Internal Revenue Ralph S. Johnston.

At the same time such names are referred to Washington, the local office is directed to give them to the press for publication.

Advises received state that there have been abuses of the law in the mainland, show houses charging an increase which is higher than the actual increase under the law, and stating that the charge is equivalent to the war tax.

**GLASS OF SALTS CLEANS KIDNEYS**

If Your Back Hurts or Bladder Bother You, Drink Lots of Water

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.—Adv.

Nearly all the drivers and stokers and other employees of the Rhodasia railways have given a week's notice in consequence of the refusal of their demand for a 25 per cent increase in wages. The Administration has offered to increase the men's war bonus.

STAR-BULLETIN 75 CENTS PER MONTH

# Honolulu Star-Bulletin

RILEY H. ALLEN

EDITOR

THURSDAY, DECEMBER 6, 1917.

## An Explanation and a Pledge

Their responsibility to the American community in which they reside has been recognized by the two Honoluluans on trial in San Francisco—George Rodiek and H. A. Schroeder. The statement which they made to the court yesterday is published in full by the Star-Bulletin today, having been cabled here at the instance of the two defendants.

The community has no wish to pre-judge them nor unduly to hold against them actions investigated by the district attorney at San Francisco and by him evidently believed to have extenuating circumstances. In fact, long after German consuls and consular offices elsewhere had been directly implicated in gross violations of neutrality; after the trail of intrigue, corruption and plotting had led directly up to the highest German office in the United States—that of the German ambassador—the disposition in Hawaii was to hope and perhaps in most cases to believe that the German consulate here had kept clear of any such pernicious activities. The two defendants, Mr. Rodiek particularly, had been valued members of the business community, with wide acquaintances and friendships. When, therefore, news was made public of their indictment for connection with the Hindu plot, the reaction of resentment was the more severe.

That the district attorney accepts a plea of guilty—emphasized as a plea of guilty to a technical violation of the neutrality law alone—and that this is accompanied by the statement published elsewhere today, is a development which will be viewed not only for its own importance, but in the light of the defendant's closing statement:

*"They intend by the future conduct and future residence in their Hawaiian home to confirm the respect and confidence of their neighbors and their right to fellowship with American citizens."*

Denying in detail any connection with the India conspiracy, and offering a lengthy written statement in defense of their actions, Messrs. George Rodiek and H. A. Schroeder have made explanation of dealings with the mystery ship *Maverick*. The explanation is that their relations with the *Maverick* were purely commercial transactions. There is one incident of more recent date which still awaits explanation. That is the disabling of the cruiser *Geier* and of German refugee vessels in the harbor of Honolulu.

In the records of the department of public works of this territory there is the stenographic report of a conversation of March 6, 1917, between Superintendent Forbes, J. F. C. Hagens and F. W. Klebahn, the latter being the manager of the shipping department of Hackfeld & Company. The conference was upon the proposed moving of German vessels lying at Honolulu docks, whose presence was felt to be a menace because they might be blown up or sunk at their moorings by the Germans.

Superintendent Forbes inquired the cause of the damage (then already done) to the ships *Pommern* and *Setos*. The following conversation then ensued, according to this stenographic report:

Mr. Klebahn (answering inquiry as to cause of damage): "I do not know. I simply know the damage is done and there will be no further damage to the vessels. I can only repeat this and give you the same assurance as I gave the governor over the telephone at 7 p. m. last Monday, that whatever damage there was to the vessels had been done and nothing further would happen to these vessels."

Mr. Forbes: "Do you guarantee that?"

Mr. Klebahn: "That is my personal assurance."

Mr. Klebahn's statement that he could give his personal assurance that there would be no further damage to the vessels raises the question as to how he could give this assurance. From what sources did his information come that there would be no further damage? From what sources and by what medium were the orders for crippling the vessels transmitted to the German ship officers?

In his statement to the court at San Francisco yesterday, Mr. Rodiek declared that his patriotism, and affirmed that he expects to enjoy the confidence of his neighbors and the rights of fellowship with American citizens. He said also that the statement was made in fairness to themselves and to Americans in Hawaii.

Americans in Hawaii cannot help but feel that in fairness to the citizens here resident, there be explained the exact circumstances under which the officers of the German ships here received their orders to disable the vessels. That would clear the atmosphere of one cloud as the San Francisco trial is clearing it of another.

It will not do to be too optimistic of the future on the Italian front. The beating which Gen. Cadorna's army received on the Isonzo front has greatly disorganized the troops, and though they are making a gallant stand on the Piave-Brenta line, there is no assurance they can hold out against the terrific hammering to which they are subjected. If they could not defend the natural mountain barrier above the plain, their chance is none too good of standing fast on the plateau. America must be prepared for the worst that can happen to both France and Italy.

Berlin is now intriguing for a separate peace with Rumania. Whether or not the Rumanians will fall prey to the wiles and false promises of the kaiser's corruptions, the political maneuvers must be reckoned with, just as are the military maneuvers.

It is said that Congress will tackle nothing but war legislation this session. In the line of making the country safe for democracy, a prohibition amendment certainly has legitimate place. Congress ought to get to this, and probably will.

## The Four-Minute Men

The success of the Four Minute Men is assured here, and their opportunities for usefulness are not restricted to patriotic speeches in the motion-picture houses of the city. They have a far wider field where their utterances should be valuable.

A Four Minute speaker appears before the public as an authorized representative of the government. He adheres to the subjects and to the manner of approach of these subjects as outlined in the "Budget of Material." He selects from the budget that material which is backed by his strongest convictions; his presentation is all the more forceful. Extraneous comments, however, and personal viewpoints of speakers supplementary to those given, are not expressed on an occasion when the speaker is publicly announced as a government representative.

The attitude of the speaker toward his audience is that he is privileged, as one of the community, to present a message of national importance upon which the government deems it wise that the public should be informed. By their direct contact in Washington with all branches of the government the Four Minute Men are in a position to obtain correct information on war plans and policies which the public is entitled to know. The speakers volunteer to render a national service by conveying this information to the public.

The speaker has a right to assume that the people in his audience are eagerly interested in the message which he brings them, and are loyal Americans ready to respond to the needs of the nation so far as they may be able. He never takes the attitude that he is intruding upon an evening's pleasure at the theater and must beg their indulgence. He has a supreme right to be there and feels this to the utmost. Under the definite agreement with the motion-picture industry, that right expires in exactly four minutes.

The topics spoken upon by Four Minute Men are matters of national importance connected with the war plans of the government. They are assigned to the speakers by the director in Washington for a given period of time usually from one to four weeks. The topic to be used at any given time is determined by a consideration of what is uppermost at the time, and represents an agreement between the director of the Four Minute Men and the various government authorities who may be concerned.

At the beginning of each new topic a bulletin of instructions is issued and sent to the chairmen in quantities to cover the list of speakers. These bulletins are immediately distributed to the speakers in ample time to allow for thorough preparation. Accompanying the bulletin of instructions is a budget of material containing the facts necessary to the preparation of an effective speech upon the topic, and an outline of the essential points which the speaker is expected to establish in the minds of his audience.

## Y. W. C. A. In a War Year

In asking for a budget of \$45,000 to be raised by local campaign, the Y. W. C. A. of Honolulu directs public attention once again to the fact that the United States is on a war basis.

The Y. W. C. A., like every other American institution animated by a patriotic desire to serve, is also a war basis.

Last year the budget needed was much less—in fact, it was well under \$20,000. The hope of the association had been that it would not be necessary to ask for more this year than last.

The fact of a world at war—a war in which the United States has a signal part; and the further fact that the Y. W. C. A. has grown and is growing even faster than expected, make the hope futile. After weeks of cutting, pruning and revising, the association can get no lower on the budget than \$45,000.

By the middle of December, the Young Women's Christian Association will need four million dollars for special work among the women of Europe and the United States. The local Y. W. C. A. will contribute its share to that fund, and in addition must secure its own finances for next year.

During the next few days the association here will, through organized publicity, place its case in the hands of the public—explain the reasons for its appeal. The facts to be presented will be the best arguments that the need be promptly met.

The size of the budget is unexpectedly large, but so is the field which the Y. W. C. A. is now filling. Not a businessman but would say that if the Y. W. C. A. needs \$45,000 to continue its splendid work, the money should be promptly provided.

This is a year when generous contributions to public causes constitute one method of proving patriotism.

A system that removes the last possible excuse for failure to comply with the law regarding automobile headlights is a headlight-testing station it is proposed to establish in large cities of the mainland. Such a station will give every machine-owner an opportunity to ascertain if his lights are within the law, and if so, a certificate to that effect will be furnished him. If they are not, he can correct them. With such an institution here, there would be no excuse for glaring headlights to be flashed with impunity.

President Wilson is wiping out the memory of that phrase, "peace without victory." His war message to Congress means peace to be won through victory—complete victory for the Allies.

### ENGLISH AS SHE IS SPOKE

SESSUE HAYAKAWA, the Japanese film star who is now in Hawaii, made up his mind at one time in his life that the English and American languages were two different tongues. Hayakawa came here to appear in "Hidden Pearls," a Lasky production, which is to be screened entirely on Oahu and Hawaii.

When Sessue tells about his first puzzlement over the difference between the English and American speech, he does so with a sly grin, for whether at his own expense, or the English or American accent, he conceals. He recites his experience like this:

"It was very funny when I first came to America. I thought I understood English very well, because I had studied it very hard, and we have in our classes English teachers from England. But when I listened in America I understood nothing at all. 'I listen, and I say, 'I beg your pardon.' And I listen again, very carefully, and I say to myself, 'It is not English this one speaks. It is another language.' It was a joke on me. For a long time I did not understand anyone at all."

Around his Oriental eyes crinkles of amusement deepened.

"I was three years in this country before I understood words like your 'bucks.' Only last spring someone explained to me that when you play poker it is not dollars you lose but 'bucks.'"

"But I could read and write very well from the first. That was my reason for coming to America. I wanted to study the plays of Shakespeare here, so that I could translate them properly into Japanese, and take them back to my country."

Instead of studying Shakespeare, however, he went into the movies and became a star.

### SONG REVIVES MEMORIES

HERE were nine or ten of them lounging about the little station at Paawa Junction one afternoon waiting for an Aala Park street car. They were members of the corps of American engineers and they looked rather lonely. Impatiently they waited for the car to appear, passing technical opinions on its delay.

### LETTERS

#### TO RED CROSS SEAL WORKERS

Editor Honolulu Star-Bulletin. Sir: The executive committee of the Anti-Tuberculosis League of Hawaii has asked me to extend to you their thanks for your press notices in connection with the sale of the Red Cross Christmas seals on Nov. 24.

The committee also takes this opportunity to thank Mrs. G. P. Wilder and her able assistants, as well as the scoutmasters and scouts of Honolulu for the help given on that day.

The amount realized to date is \$4104.72, which is \$400 more than was received in 1914, which up to the present year was our "high water" mark in the sale of Red Cross Christmas seals. Of the amount received Leahi Home will get \$2000 and Pa Ola Day Camp \$1600. The balance will go toward paying the expenses of the campaign and remitting to the American Red Cross their share of the proceeds of the sale.

Personally thanking you for your kind assistance in this connection, I am, yours sincerely,

JAMES A. RATH, Secretary-Treasurer.

#### NO COERCION NEEDED

Honolulu, T. H., Dec. 6, 1917.

Editor Honolulu Star-Bulletin. Sir: In reply to the unprovoked attack of the editor of the Advertiser this morning upon the loyal women of the community in regard to the signing of food pledge cards, I desire to invite his attention to the principle which our forefathers fought for, to wit: "Millions for defense, but not a dollar for tribute."

President Wilson fully recognized and vigorously proclaimed that principle as the underlying principle of his administration when he declared that in the matter of the food conservation in the home there would be no threats and no coercion, but that by a campaign of education the people would be brought to see and assist in the efforts of his administration.

Unquestionably President Wilson meant what he said in his reaffirmation of that principle to the extent of even summarily removing from office any one who through ignorance or otherwise should attempt to threaten, intimidate or coerce the American housewives.

Our local food administrators and their local committees have not attempted any intimidation or coercion nor made any threat; that role has

Meanwhile one or two of the number looked about for diversion and then they located the slot-machine organ in the store at the junction. Unconcernedly one of them dropped a ten-cent piece into the yawning mouth of the machine and after considerable growling and burring the organ blared forth its tune.

And then what a change on the faces of these strangers in a strange town. The looks of loneliness disappeared like magic. Everyone of them smiled and then they broke into laughter and applauded the squeaking old organ. And it was not long before they were dancing about the platform and cheering like an Elks convention for out of the list of its tunes that organ could not have selected a more appropriate one. They played it and replaced it. They missed several cars listening to that delectable old music machine blare its tune. For that song took them home, lock to their desks and their instructions in the middle states. It was not the national anthem, it was not a love song; but a ribald song that once popular had passed from the ken of all but railroad men. And that song that stirred their hearts was none other than "Casey Jones mounted to his cabin, etc., etc."

#### WILLS AND WIFUL

HERE was a number of "the boys" of the various staffs of the city and county offices in the McIntyre building standing in the corridor at noon the other day discussing the question of which was the legal will of her late Majesty Queen Liliuokalani. Finally after everyone had had his little "say" about the wills and about the queen's personality and her authoritative presence, Eugene Buffenau, clerk to the board of supervisors, came brushing past the group on his way to his office. He just caught the last of the talk about the wills made by the late queen but the fact that he hadn't heard it all didn't stop him from "homing in" on the conversational meal with:

"Oh, yes! The queen was a very wifful woman. A very wifful woman," he remarked. (Clerk, please call the roll. E. B. has been missing since.)

been gratuitously assumed by the editor of the Advertiser.

There is an excellent reason why our local food administrators should have cards showing not only those who have signed, but those who do not sign. For with such data the commission will be able to correctly tabulate and report to Washington the percentage of saving which may be effected in this territory, while without such data a correct report would be impossible. Without such data a report would be at best a guess.

I am not connected with the food administration in this territory in any way, but I am thoroughly convinced that it is merely trying to carry out the directions of the Washington administration without thought or suggestion of any threat or coercion. It would surprise the writer in no way were he to learn that some one with authority had visited the editorial office and requested the discontinuance of editorials and articles tending to obstruct and hinder our local officials in carrying out their instructions from Washington.

Tours for strengthening the hands of the Washington administration.

Who has in his home a National Food Pledge Card.

#### LITTLE INTERVIEWS

—DAVID FORBES, manager of Waiakaa plantation, Hawaii: President E. D. Tenney's address Monday certainly hit the nail on the head. The planters are working today as one and we all realize that it is up to us to help the government in every way possible and when we leave this meeting our plans for the work will be along those lines.

—F. M. ANDERSON, manager Paauhau plantation: We've got to cut according to the cloth, and when I say that I mean everything must be on a war basis. The planters will cooperate with the government in every way, and all our future plans will be made with that end in view. And when they take the national guard away, which they will, though our labor problem will be more complicated than ever, we will have to maintain our production even if it is necessary to purchase more machinery and change about our systems of raising cane to meet the shortage of labor.

—GEORGE W. PATY: Many people have commented upon the Thanksgiving sermon delivered by Rev. L. L. Loofbourow at Central Union church last Thursday. Some people were very much surprised at the statements made, and I have been ques-

## HINTS FOR CHRISTMAS GIFTS

Some of the season's latest novelties are very easily made, and will prove most acceptable holiday gifts. These inspirations are new and practical. Take the illustration on the right for instance. This smart little scarf will fit in anywhere this season, is adaptable for wear morning, afternoon or evening. It is made of very fine white serge, and embroidered in different shades of worsted. The scarf is two and a half yards in length, and twelve inches wide. The edges are made quite distinctive by raveling out the material as a finish, the sides to a depth of half an inch, and the ends one and a half inches. The embroidery is done in Shetland wool, and four or five shades are used for contrast, and the diamond design is a substantial pattern that is easy to follow.

The picture on the left shows this same scarf worn as a surplice, a belt of the same material and design holding it in place. This is an original novelty.

Many of our "knitters" have little odds and ends of wool left from sweaters and caps. An entirely new use can be found for them in making dress and sweater trimmings. Vividly contrasting colors have been worn for several seasons, and proved very popular, but now these colors are used more as a trimming on solid color backgrounds. To present one's best girl friend with a set of knitted diamonds, blocks or oblong pieces, would endear her to the heart of the recipient, as the little trimming sets can be used on scarfs, hats, muffs, bags, sweater skirts and blouses. Hat fancies made of colored worsteds are chic, and if a bag or scarf is given for a gift, one could complete the outfit with one of these imitation tomahawk feathers of worsted embroidered upon the same materials used in making the other articles.

A book cover is always a "thoughtful" gift, and some of the newer ones are made of isabala mats and finished on the edge with colored worsteds. Card table covers of these mats are quite unusual, with the corners finished in the traditional card motifs. For patriotic and Red Cross bridge parties a novelty table cover of khaki embroidered in impossibly perfect little soldier girls and boys is the very newest wrinkle for prizes. The edges are rough and raveled ever so little, and the figures simply outlined. It looks very much as if Santa Claus himself is suggesting things that take very little time to make, that our shipments of sweaters and Red Cross dressings may continue in an unbroken

on line, in spite of all the holiday activities.

Another trifle that is quite novel is a photo-sachet. Scenes of Hawaii, palms and flowers, are used on the front, and soft sheet cotton with the sachet folded between is pasted to the back. A piece of tissue paper is placed on the cotton and picked with a pin to allow the fragrance to escape. This is just a little more than a Christmas card, and will fit in an average envelope.

To friends who enjoy fancy work gifts of stamped linens with floss or

## "TOG TALKS"

This article is number 20 of a series of papers on practical dressmaking and millinery subjects, with special hints on profitable buying for wear in Hawaii. This new department is being conducted by Janet Walker, who, with several years of experience in dressmaking and with a wide knowledge of materials, patterns and values, brings to the work an unusually thorough equipment. All materials described in these papers may be purchased at the Honolulu shops and the aim is to furnish hints in an attractive, readable form for the women and girls of the city whether they make their own clothes in whole or in part, or buy at the tailors, the milliners, the dressmakers or the shops.

## GAS IN THE STOMACH IS DANGEROUS

Physicians Recommend the Use of Magnesia for Quick Relief.

Sufferers from indigestion or dyspepsia should remember that the presence of gas or wind in the stomach invariably indicates that the stomach is troubled by excessive acidity.

This acid causes the food to ferment and the fermenting food in turn gives rise to noxious gases which distend the stomach, hamper the normal functions of vital internal organs, cause acute headaches, interfere with the action of the heart, and charge the blood stream with deadly poisons, which in time must ruin the health.

Physicians say that to quickly dispel a dangerous accumulation of wind in the stomach and to stop the food fermentation which creates the gas, the acid in the stomach must be neutralized and that for this purpose there is nothing quite so good as a teaspoonful of pure bisaturated magnesia taken in a little water immediately after meals. This instantly neutralizes the acid, thus stopping fermentation and the formation of gas, and enables the inflamed, distended stomach to proceed with its work under natural conditions. Bisaturated magnesia is obtainable in powder or tablet form from any druggist; but as there are many different forms of magnesia it is important that the bisaturated which the physicians prescribe should be distinctly asked for.—Adv.

Inserted in the stocking and the stitches made very loosely.

## Eat One Banana A Day Is Slogan Of Nolte's Board

"Strategists" Figure That if Everybody Does So, Banana Problem is Solved

Eat a banana a day! Nolte's "strategy board" has evolved a scheme which if it materializes on a broad scale is believed will provide the solution for Hawaii's problem of providing a market for its banana crop. The "strategy board" has started the ball a-rolling with the decision to make every Thursday banana day at Nolte's. When the members of the board gather for luncheon that day they will eat bananas and then some more bananas, with a glass of milk and some corn bread on the side.

The idea was launched at yesterday's gathering and it appealed so forcibly that the "strategists" got their heads together and under the lead of J. M. Westgate figured out that if every person on the island were to eat one banana a day Hawaii's banana crop would be taken care of without worrying about ships to take it to other markets. Not only that, but it would be in line with the food conservation movement and give impetus to the movement to have the islands produce their own foodstuffs.

As a warning to any un-American merchants who might seize upon the patriotic spirit of the movement to boost prices it was decided to report for official investigation any dealer found artificially increasing the price of bananas.

Eat a banana a day, says the "strategy board," and accomplish three things:

Find a market for Hawaiian bananas.

Assist the food conservation movement.

Give impetus to the demand for island products.

## WAR DECLARED ON RATS BY U. S. GOV'T.

The government at Washington is preparing a campaign that should be effective in killing the rats that are so destructive both to lives and property. A conservative estimate places the loss of foodstuffs from rats at over two hundred million dollars annually, and in the present scarcity of food, this loss must be prevented. The most efficient way to "kill the Rat" is by the use of Stearns' Paste, and thousands of dollars worth have been bought by the government. Every housekeeper troubled with rats, mice, roaches or waterbugs should buy a small box of this reliable exterminator for thirty-five cents and stop further loss of food in her home.—Adv.

## Baby Should be Fed Naturally if Possible

No substitute can give such good results as Nature's method—nothing can take its place. At times, however, it is necessary in warm climates to use Condensed Milk, and the mother should know that there is no purer, richer product than Highlander Condensed Milk (full cream). Prepared from the milk of healthy carefully tested cows on the rich pastures of Southland, New Zealand, scrupulous care and cleanliness marks every step of the process of manufacture. Highlander is the finest, rich, pure milk, with part of the water removed by evaporation. When the time comes to wean baby, however, Highlander Condensed Milk is of special value. The famous infant specialist, Dr. Eric Pritchard, points out that the caseinogen—the indigestible element for young children in fresh milk—is altered by the process of condensing and is more digestible—almost like a peptonized milk. He believes that Condensed Milk is of special value in aiding over the change from breast to ordinary milk, and thinks that the child should be given an increasing proportion of fresh cows milk with condensed milk until gradual training of its powers of digestion enables it to take fresh milk entirely.

## Local Far East Section is Brimming With Wealth of Art Treasures Gathered from China and Japan for Honolulu Stores

Honolulu's own Chinatown is glowing with brighter and brighter colors as the Christmas season approaches. The tourist and the resident alike are finding here many an appropriate solution for the ever-recurring question, "What can I buy in the way of new and novel and original Christmas gifts?"

In the Chinese, Japanese and other Oriental shops of Honolulu treasures of Dai Nippon, the erstwhile Flowery Kingdom, now the great Oriental Republic; of India, the Philippines and Java and Burma and Ceylon are ready for the eager purchasers.

An excursion through Chinatown, provided one enters upon it with the proper spirit of adventure, is intensely interesting. The variety of gifts is surprising, when one knows how to shop.

No matter how much time one passes amid Oriental art treasures, one never becomes surfeited with them, for there is a certain air of mystery about the products of the Far East that keeps one's interest aflame. Perhaps it is because the art of the Chinese and Japanese is so unlike that of the Occident that

it holds its charm; or maybe the reason is to be found in the historical associations that the Oriental vases and paintings, bronzes and lacquerware bring with them overseas.

Chinatown has more objects of Oriental art concentrated in a comparatively small area than has almost any other city outside of San Francisco in the United States. If your interest lies in antiques, you will find them there, hundreds of years old; if in modern examples of Oriental craftsmanship, that line is just as varied and complete.

The Chinatown bazaars have

not taken advantage of the high cost of living to raise the prices of those goods imported before the rate advanced. They are still held at the old figure, but once sold, they cannot be replaced at the prices which now obtain. This situation has appealed strongly to connoisseurs, who are daily taking advantage of it.

One of the favorite gifts of occidental Christmas buyers is sandalwood. This comes in many forms.

Perhaps the sandalwood fan, which can be purchased at virtually every Chinese and Japanese store is the most popular of the smaller purchases. There are fans of various feathers, also. Some of the combinations of peacock feathers and sandalwood are extremely attractive and the price is moderate.

Various textures which cannot now be secured from the Orient are still on sale in local houses. Exports from India have been much restricted since the war broke out but large stocks were on hand in some of the Honolulu shops and offer inviting possibilities.

## MISS ALICE HOPPER AND EKLUND DEFEAT MISS VICARS AND CASTLE

Patriotic Mixed Doubles Honor Goes to Champions—Steady Play Through Out Match Brings Victory—Miss Hopper Stars in Hand Fought Match Which Goes to 36 Games—Eklund Shows Improvement—Miss Vicars and Castle Sensational

It is a well known fact that the patriotic mixed doubles honor has been won by Miss Alice Hopper and Eklund. The match was a hard fought one and the girls showed a great deal of improvement. Miss Hopper was the star of the match and her play was very good. Eklund also showed a great deal of improvement and his play was very good. Miss Vicars and Castle were the opponents and they played a very good match. The match was a very hard fought one and the girls showed a great deal of improvement.

Out of the play of the afternoon the work of Miss Hopper stood out. Her game was well played throughout the match and she showed a great deal of improvement. Eklund also showed a great deal of improvement and his play was very good. Miss Vicars and Castle were the opponents and they played a very good match. The match was a very hard fought one and the girls showed a great deal of improvement.

Eklund came into his own yesterday, playing the best tennis that he has exhibited in the recent tourney. In the first matches he fell down continually on his overhead shots, but yesterday he found himself, and his "foozles" were few and far between.

Miss Vicars early in the game was lobbing them to Eklund, but whereas this style of play had been successful in the past, failed to bring results yesterday.

Miss Hopper did not play sensational tennis at any time yesterday, but she did play her shots carefully, and it was noticed that she scored many points and outed on few occasions. Her service was not up to that of Miss Vicars throughout the game, but in all-around play she excelled. Her game of yesterday is enough to assure her a place as one of the real leaders in double play in Hawaii.

Castle's play yesterday was sensational at times, and his generalship was all that could have been asked, but he lost three points during the match which had much to do with his falling to losing. Miss Vicars also fell down on net play on several occasions when the points counted.

Improved Play  
One particularly good feature of the match was the fact that all four players have shown improvement over their play of last year. Castle is a much improved player. He is perhaps playing better tennis this year than ever before, and the same may be said of Eklund. The Ewa man has been handicapped by lack of practice, but he should be in shape to give Browne and Wayne a real fight in February.

One could not ask for better tennis than that which Miss Hopper exhibited yesterday, and her play showed a real improvement. In only one other match has she showed the all-around play that was exhibited in the final match.

Miss Vicars is showing a big improvement in her play. Her first service is deadly, when she can get it placed, and yesterday she scored two clean aces in one game. Her second service yesterday was not particularly hard to handle, and this fact robs her of an opportunity to score often.

More at Ease  
The young feminine star is beginning to get over the nervousness that was first exhibited, and at times yesterday she appeared as if she was playing a practise match, making her drives with an abandon that brought many points to her side.

Miss Vicars was handicapped yesterday in not being able to play the drives at her feet, and although she covered the court in wonderful style, did not appear to get away fast enough on close net shots.

Real Tennis  
The fact that there was but one love game out of the 36 shows that the match was a real contest. The first game went 8-6 and from then on the first set was a real thriller. Miss Hopper and Eklund saved the day when Miss Hopper returned a hard drive and Eklund made a beautiful passing shot after the game had gone to duce.

First Set

	Points	Games
Hopper-Eklund	6 4 4 2 1 1 4	72
Vicars-Castle	8 1 6 6 9 2	66

## COAST LEAGUE TO PLAY, SAYS P. C. L. LEADER

Ban Johnson's Prediction That All Minors Will Suspend is Flouted by Leader

In a statement issued recently Ban Johnson of the American League made the prediction that all minor leagues would be out of business next season, and that only the major leagues would be able to play their schedules. In his opinion the majors are due for big losses unless they get support from the government. War conditions and the spirit of thrift which has resulted from them, says Johnson, bring about this situation in the national game.

President Baum of the Coast League expressed the opinion that Johnson was taking a pessimistic view that is not at all justified. "I have just returned from the convention of the National Association of Minor Leagues at Louisville," said Baum, "and I found that the majority of the magnates of the minors are more hopeful than they were a year ago. Some of the leagues had a hard time of it during the 1917 season, notably the International League, the Texas League, however, enjoyed one of the most prosperous seasons in its history. So did the Southern Association. There is no reason for supposing that either of these leagues will be compelled to go out of business."

"Of course I don't know what other leagues may do, but this I can say positively: The Pacific Coast League will start its season as usual, and it will play out its schedule. There has never been any thought here of closing the gates of the parks. We are certain, too, that in spite of the war we shall be able to get plenty of players of class."

The Uruguay Chamber of Representatives has voted in favor of the despatch of a message to the Argentine Chamber as an expression of solidarity with the Argentine people and Government in regard to Germany.

## JOE FARRINGTON WRITES THAT THERE IS MORE FOOTBALL THAN EVER BEFORE

Honolulu Boy at University of Wisconsin Says That War Has Been Boon to Football and Has Furnished Material for Men Who Were Going "Over the Top"—Real Players Are Being Developed in the Colleges of the Middle West This Year

(By JOE FARRINGTON.)  
MADISON, Wis., Nov. 17.—That the great American intercollegiate game of football will not be obliterated by the greater national game of war in the Middle West, at least, is now assured by the success of the first war football season which is now rapidly coming to an end. Indeed the success of the season has been such that just today Walter Eckersall, the famous football expert of the Chicago Tribune, comes out with the statement that "the war has been a boon to football."

"The war has been a boon to football. Men who have been called to army service and who were eligible to represent their respective universities or colleges are clamoring for an opportunity to don the moleskins and go into action against any sort of team, whether the opponents be camp or college eleven."

"In order to furnish some sort of recreation those in charge of the camps are doing their utmost to help the men who have or could have won their spurs on the college gridiron. After being deprived of collegiate affiliations teams have been organized at the different camps with the result there is plenty of rivalry between them."

"The camp teams are represented by former stars, who, after the arduous training of military or naval life, have again got into the physical conditions of bygone days, to stand the wear and tear of a 60 minute struggle. They have been imbued with the spirit of former days, although some of their team mates or opponents are much younger, and have been taught principles of the new game never thought of in the days of the five yard, three down rule."

## BAND WILL PLAY AT BIG GAME AT MOILILI FIELD

There will be music at Moilili Field on Saturday afternoon when the Y. M. C. A. team meets the Coast Defense squad at 3 o'clock. Lieut. Tobin has made arrangements to bring in the Fort Kamehameha band, and in addition will have about 200 rooters.

Both teams are on edge for the big battle and it is expected that a real football game will be staged. The visitors will have a fleet bunch of backs, and the "Y" team is not expected to have an easy time with the members of the Fort Kamehameha squad.

"The fellow paused. Then he turned to me and said, 'Did you ever play football?' 'You bet I have!' I answered. 'Well,' he said, 'if you remember the sensation you had when you stood on the line waiting for the whistle to blow in the first big game of your life, then you know what I felt like just before I went over the top.'"

Wisconsin men, Chicago men, Illinois men, men of every team of the conference have been going "over the top" in a series of football games that are preparing them for the time when they will be called upon to go "over the top" in the greater game of war some time in the future. Harvard informal football does not prevail in the conference in the West, for the men engaged in the sport have an inkling, anyway, of the feeling that some day they will be called upon to charge across another field in very much the same way, and as it is now so it will be then, that the man that charges the hardest is going to win.

## NAVAL HOSPITAL TEAM WINS FROM GOOD YEAR STARS

Fort Kamehameha and Y. M. C. A. Ready for Big Battle This Week

The Naval Hospital basketball quintet took another game in the Y. M. C. A. Senior league last night, snowing the Goodyears under by a score of 33 to 17. The Goodyears had the lead on the hospital quintet the first quarter of the game, but the Navy showed ahead in the second quarter, the half ending with the score 16 to 10 in favor of the pill department. In the second half the Goodyears lacked the punch they showed in the first session and the Hospital ran away with a good lead. Thorum, Navy, had an awful eye for the baskets, snaring nine in the course of the evening.

The scores were:

Naval Hospital	Posit'n	G's	F's	thrs
Thorum	f	9	0	1
Schroeder	f	3	0	0
Rankin	c	3	0	0
Malone	g	2	1	0
Gossage	g	0	1	0
Goodyears				
Cowals	f	4	0	0
Bibee	f	1	1	0
Whitcomb	c	1	0	0
Morgan	g	0	0	0
Meinecke	g	2	0	0
Decker	f	0	0	0
Watt	c	0	0	0
Von Holt	g	0	0	0

The All-Intermediate team won their first game of the season when Captain Albrecht's Reds failed to muster a full quintet. The former champion Reds are slowing on the downward grade in the percentage table.

Cosacks are forming into separate governments, with the idea of organizing a confederation.

## Punahou Mermaids Will Enter Many Swimming Events

Much Interest Taken in Aquatics Under Direction of Miss Helen Jones; Meet Today

(Special Star-Bulletin Correspondence.)  
OAHU COLLEGE, Dec. 6.—The first girls' swimming meet of the year was begun in the Punahou tank Monday afternoon. The meet is the first of a series of four for the Thurston medals, donated annually by Mr. Louis A. Thurston, an old Punahou alumnus and exponent of athletics. The schedule of the meet is as follows: In order to increase the number of swimmers and the quality of swimming, it has been decided to have every contestant for the medals compete in four meets—three interclass meets and the Thurston meet proper; each contestant will compete in all of six events and will score in every event, no matter in what order she finishes. The events are: Fifty yard swim, 100 yard swim, 200 yard back stroke, plunge, plain and fancy diving. There is also an interclass relay. Each swimmer who makes a first, second or third place in any event will get an appropriate ribbon.

There are two classes of swimmers, novices and "championship." Novices are regarded as all who have never competed in a previous Thurston meet or its equivalent. Four medals are offered: one for novices, first place and second place; two for the open meet, first place and second place.

## NORMAN ROSS IS STARRING IN ROLE OF TOWEL SWINGER

When the war ends (no prediction), there will be one more "second" for the four-round "gal-lery gods," who attend the bouts to whistle at as he swings a towel. That second will be none other than Norman Ross, the "Julius Caesar" of the swimming world. Ross, according to a letter received by Sid Cavill of the Olympic club, is fanning the boys with a towel at American Lake, while Ritchie, who watches Ross doing the work of a second, says he is the making of a great "towel" swinger.

## BASKETBALL BOOMS AT OAHU COLLEGE

Until the beginning of the Thurston swimming meet yesterday, athletics for the Punahou girls during the past term has taken the form of gymnasium and interclass basketball. Both have been coached by Miss Arnold. The games have been interclass. There has been keen rivalry up to date. The games so far have resulted as follows: Juniors defeated the Freshmen 24-20; Sophomores defeated the Seniors 6-4; Sophomores defeated the Freshmen 30-0.

Yesterday afternoon the Sophomores met the Freshmen. The way the teams played made the onlookers wish that the Punahou girls might have an opportunity to meet the teams of other local schools. After a one-sided contest the Sophomores won by a score of 39-0.

## MIZUHO TEAM WINS

The Mizuho baseball team defeated the Alea team at Alea on Sunday, winning out by a score of 9 to 4. Mizuho was on the mound for the winners, and held the opposition to four hits. The lineup of the winners was as follows: Sakato, 1b.; Kato, ss.; Urutake, cf.; Fujiyama, 2b.; Miyagawa, p.; Yamasaka, rf.; Funah, c.; Sasaki, 3b.; Tsukamoto, lf.; Mito, Itasaki and Otaya, utility.

# Boy Scouts of Hawaii in Action

## A NEW SCOUT SONG COMPOSED BY COMMISSIONER

In us you see the Boy Scouts, the Boy Scouts of Honolulu; We're out to serve the people in whatever we find to do. We're loyal, brave, we're trustworthy, we're cheerful, kind, and all true blue. Our motto, "Be Prepared—You'll see it through."

## TROOP VIII TAKES EVENING DIP

A week ago Wednesday evening found Troop VIII enjoying a swim at Beach Walk. The scouts met at the residence of Mr. Milton, the troop's scout master, where the scouts got into their bathing suits. Thirteen scouts were present.

At the last monthly meeting when the four-hand-carry competition took place Troop VIII and Troop XVIII were close to a tie for second place. But it was not definitely known which came second; Troop XVIII claimed the honor, but if any one really did come second, Troop VIII says it did.

Troop VIII has for a long time had no scout master, but at present they are starting to prosper with three patrols and just a few more boys and the troop will have four patrols. Mr. Milton of the Trent Trust company has taken up the scoutmastership of the troop.

## TROOP III

The scouts of Troop III had a three-day camp last week during Friday, Saturday and Sunday. The greater part of the troop turned out. Scout Master Ness and Assistant Scout Master Fanness were in charge. Many scouting sports and tests were practiced and it is hoped that there will be a number of boys who will pass the tests for the rank of second class.

This troop is now getting up to the high standard of scouting and it has

a good chance to obtain the "Duncan cup" at the next rally.

The scouts broke camp Sunday afternoon about 3 o'clock and liked up to the car line. Having a truck to transport their equipment made it easier to do the two miles or so of walking that took them to the car line. Those boys who possessed wheels rode to the troop's headquarters, where they waited for the truck to arrive with the equipment.

The scout's belongings were then sorted and then each scout went to his respective home.

## TROOP VIII

The meeting of Troop VIII found nearly all present, with one official.

A new red marking system has been introduced and various scouts have been credited. On the wall was hung a red mark chart where all the scouts have their names and the number of red marks that have been credited to them.

After a short business meeting the scouts were taken out of doors and drilled by patrols. A signaling team, first aid team and pacing team have been organized under the leadership of Guy Gitt, Herbert Taylor and Richard Pedro. These teams ought to progress well under these scouts.

Last week the troop went moonlight swimming at Scoutmaster Milton's residence, where the garage was turned into a bath house for the boys. All the scouts present enjoyed themselves.

A regular business meeting will be held next Friday evening at 7:30. All scouts make an effort to be present.

## TROOP XI TO BE REREGISTERED

We had a meeting on Wednesday and the boys had a discussion about having the troop reregistered. We unanimously voted Mr. C. W. Baldwin, our former scoutmaster, to be our

**NOTICE.**  
Boys that are not members of Troop V are forbidden to wear the yellow neckerchief with their uniform. And boys that are seen wearing it will be punished by the Local Council.

TYAU, Troop Scribe.

leader. Our regular meeting will be held on Wednesday at 7:15 p. m.

## SCOUTS DO RUSHING BUSINESS ON MAINLAND

It has always been a boy's privilege after the ice cream was served to scrounge out the freezer. Perhaps the treasury department and the national council of the Boy Scouts of America had this in mind when they kept the scouts out of the Liberty Loan campaign until the last week. The scouts astonished the nation by scooping out more cream than anybody thought there was in the freezer.

The American people have discovered The Boy. They used to discuss him apologetically or in a humorous vein. They did not know that he could organize and systematize and nationalize and do big things in a big way.

Even dad didn't know what was in the boy until he came out in khaki, started a garden in the backyard and sold Liberty Bonds all over town. Message Carried "Over There"

The success of the Boy Scouts of America in the second Liberty Loan campaign was even greater than had been anticipated. Certainly the Boy Scouts of America have helped materially in saying to our boys "over there" as well as to our enemy "over there" that we "over here" as a nation are back of our government and our national leaders to make this war a success.

Through organized boyhood, under the leadership of the Boy Scouts of America, a distinct service has been rendered to our country.

J. A. WILDER ENCOURAGES SEA SCOUTING FOR HAWAII.

Area, he tells R. N. Burnham to try to get a sea scout troop for the islands. He suggested that if a troop should be formed that it be called "Troop I, Sea Scouts of America." As he is now sea scout commissioner at New York, and being former commissioner for the islands, he is greatly interested in having a troop of that nature in Hawaii.

A special meeting of the local executive council has been called to consider the matter. The local scout executive has gotten in touch with several persons in town who are interested in sea scouting.

In his letter he asked if Troop V took part in the funeral of Queen Liliuokalani.

At the "court of honor" meeting held last Tuesday, there were five scouts present to pass several examinations for the rank of second class, three scouts from Troop III and one from Troop I and one from Troop V.

## TROOP V WANTS TO RAISE MONEY

Troop V, the Queen's Own, held a business meeting last Friday evening. The meeting was called to order at 7:30 and adjourned at 9:15. It was a poor attendance with 20 scouts and two officials present. The first subject brought up by Senior Leader Carl was debt. The troop is very much in debt and the boys are thinking some good suggestion in order to raise some money. Assistant Scoutmaster Thompson told the boys about the camping with Troop XX at Waialua on Christmas vacation. The majority of the boys did not want this because it is war time and the expenses are too high.

New regulations were made and the boys were instructed to follow them. The next regular meeting will commence at 7:30 to 9:30 o'clock.

After dismissal of the troop a light meeting was held on football and William Holt was elected captain.

## THE SCOUT MOVEMENT.

The Boy Scout movement has, for

the past three years been developing itself into one of the largest of boys' organizations, if not the only universal organization for boys. It is one of the best ways to bring boys from all walks of life together under the organization called the Boy Scouts of America. But there are many mothers, right here in this city who protest against their boys joining the best organization in Uncle Sam's country.

All boys who are taken into the scouting movement have to pass an examination and have to have a fairly good character in order to become one of those who can claim that they are rightfully a Boy Scout. There are many people who, today do not even respect the uniform of the boy who tries to make for himself a character that is more honorable than "bumming around," learning probably, some of the worst habits that boys, during their young stages of life, form.

When Sir Baden-Powell started the Boy Scout movement in England he did not for one minute think or expect it to turn out to be an organization of a bunch of "bums"—that is why the 12 points composing the scout law were made so that the Boy Scouts would not be any "riffraff" bunch.

Many people seem to think that this is just what the scouts are, and they do not hesitate to paint them all with the same brush, and some people even go as far as to practically condemn the scouts, but the truest motto is, "Do unto others as you would have them do unto you," and I think that alludes strongly to this situation.

Does one think for one minute, that if the scouts were a bunch of "bums" that the President of the United States would undertake to hold the office in the Boy Scouts of America as their Honorary President, or William H. Taft as the Honorary Vice-President? There are men, throughout the United States, who give their valuable time and devotion to boys. If there is any one who thinks that the BOY SCOUTS OF AMERICA is not a good enough organization for his or her boy, they better change their minds.

## TROOP I ENJOYS CAMP.

Twelve scouts started out on Friday morning for a three days' camp at Ahulmanu. Ten of these rode over on their bicycles, the other two went over in the stage. Those that went over on bicycles enjoyed it very much, though the road was very muddy and it rained most of the time.

It did not rain at all during our stay at camp and there was much to do. There were tramps into the valleys and many games such as football and baseball. There was also much swimming in ice cold mountain water.

Only eight scouts took the ride back on bicycles, the others coming back on the stage on account of punctures. The next meeting will be on Saturday afternoon next at the scout-house at 2:30 p. m.

WALTER H. SAMSON, Troop Scribe.

## A FIGHT FOR LIFE

It has been fight or die for many of us in the past and the lucky people are those who have suffered, but who are now well because they heeded nature's warning signal in time to correct their trouble with that wonderful new discovery of Dr. Pierce's called "An-uric." You should promptly heed these warnings, some of which are dizzy spells, headache, irregularity of the urine or the painful twinges of rheumatism, sciatica or lumbago. To delay may make possible the dangerous forms of kidney disease, such as Bright's disease, diabetes or stone in the bladder.

To overcome these distressing conditions take plenty of exercise in the open air, avoid a heavy meat diet, drink freely of water and at each meal take Dr. Pierce's Anuric Tablets (double strength). You will, in a short time, find that you are one of the firm endorsers of Anuric, as are thousands of neighbors.

Step into the drug store and ask for Anuric, or send Dr. V. M. Pierce, Buffalo, N. Y., 10c for trial pkg. Anuric, many times more potent than lithia, eliminates uric acid as hot water melts sugar.—Adv.

Step into the drug store and ask for Anuric, or send Dr. V. M. Pierce, Buffalo, N. Y., 10c for trial pkg. Anuric, many times more potent than lithia, eliminates uric acid as hot water melts sugar.—Adv.

RUSSIAN IN PAY OF HUNS EXPOSES TRAITOR LENINE

If there has ever been any doubt in the minds of thinking people that Lenine is at the present time in the pay of the German government this is banished by statements recently appearing in Bez Linsk Slov (without superfluous words), a new Russian weekly edited by Gregory Alexinsky. The first of these is a letter sent Kerensky by General Denekin announcing the capture of one Yermolenko, and the second is Yermolenko's own statement involving Lenine and Yoltubovski.

While Yermolenko was a prisoner of war in Germany he was found to possess certain Ukrainian literature that had been addressed to him by mistake. Assuming him to be a representative of a whole political party, the German authorities proposed sending him to Russia as though he had escaped from prison. He accepted the proposal, and on reaching Russia made the following statement: (1) I was sent to Russia by the German government with the same task as was entrusted to Lenine and Yoltubovski, who came from Berlin on April 11, 1917.

(2) Lenine was instructed to agitate for peace and to try by every method to undermine the confidence of the nation in the provisional government, and to remove by every means in his power the minister of war (Guckov) and the minister of foreign affairs (Miljukov), who were an obstacle to German aims for the conclusion of peace. He was also to secure the removal of any of their successors who might follow the same policy.

(3) Yoltubovski had the following commission: He was to arouse in the Ukraine the idea of the separation of the Ukraine from Russia and the idea of propaganda for an immediate peace. He was also to try and get those ministers removed who were opposed to the conclusion of peace. (4) Unlimited funds were given to carry out this propaganda. Money from the German government was received in the following way: In Stockholm at the German embassy there was a certain Svendsen, through whom Lenine and Yoltubovski received checks on Russian banks. (5) All reports were to be handed to Svendsen, who would forward them. (6) In Berlin there were two meetings of Socialists in which Lenine and Yoltubovski took part. Lenine always kept by Yoltubovski. I learnt of this from Shiditki and Lubers, who were on the general staff in Berlin, and also from the inspector of the Ukrainian regiment, Captain Kadak, and from others.

(7) Captain Shiditki said that in case Yoltubovski were arrested, Potok would be appointed president of the Union for the Liberation of the Ukraine and that an announcement would be made to this effect in one of the Ukrainian papers in Kiev, to which I was to refer for instructions and money.

(8) When I left Germany I was given 1500 roubles for expenses.

ECLIPSE OF MOON IS SCHEDULED FOR DEC. 27 The second eclipse of the moon during the year 1917 will occur on December 27. This will be a total eclipse visible to people in the Hawaiian islands. The moon will enter the earth's shadow at 9:35 o'clock on the evening of the 27th, sinking lower and lower until it will remain entirely underneath the earth's shadow for 17 minutes. At 12:57 o'clock on the morning of December 28, the moon will emerge from the shadow and the total eclipse will be over.

PORTUGUESE ORDER FILES ITS ANSWER An answer to the injunction suit brought against it by the Associao Protectors Uniao Madeirense, has been filed in circuit court by the officers of the local branch of the organization which, according to the complaint, has been dissolved by the mother society in California. The answer alleges that the mother society has no power to suspend the local branch without first preferring charges and granting the branch an opportunity to be heard.

Additional large shell and munition orders have been placed by the Government.

ADDITIONAL TELEGRAPH NEWS

GASPARI DENIES PEACE PROPAGANDA RESPONSIBLE FOR ITALIAN REVERSES

(Associated Press by U. S. Naval Wireless.) LONDON, Eng., Dec. 5.—Answering the accusations that the vatican was largely instrumental in bringing about the disasters which came to the arms of Italy and caused her forces to fall back from Austria into the mountain passes of Italy before the armies could be reorganized, Cardinal Gaspari, archbishop of Westminster, last evening communicated to the Morning Post a statement from Cardinal Gaspari, replying to the charges which that paper had published. This statement, together with its own editorial reply, the Post publishes this morning. Cardinal Gaspari denied emphatically that the vatican was in anywise implicated in the spreading of any disruptive propaganda in Italy. He declares that such an accusation is an "atrocious calumny." Relative to the peace proposals he reiterates that they were issued with the beneficent purpose of speedily bringing about an end of bloodshed and denies that they were intended to influence or disaffect with the Italian government the masses of that country. He further denies the accusation that members of the Catholic clergy have been personally urging a movement against the war and the part of Italy in it among the common people at home. He reaffirms the neutrality of the Holy See and its desire to see the war ended.

Answering this statement editorially the Post virtually reiterates its original accusations, says that proofs as to the fact that the vatican has not been offered and then cites incidents which it considers evidence and proof of the truth of its assertions to which the vatican takes exception.

MOVE TO COMMANDEER LOUISIANA SUGAR

WASHINGTON, D. C., Dec. 5.—With the purpose in view of speedily ending the sugar shortage which has prevailed over sections of the country for weeks past, Representative Emerson of Ohio introduced a resolution yesterday which calls upon the food administrator to secure and immediately distribute the millions of pounds of sugar which are reported to be awaiting shipment in Louisiana sugar factories, the distribution to be made in the sections of the country where the sugar shortage is found to be most acute. Reports say that a large part of the Louisiana crop is being held back because of a misunderstanding or an unwillingness on the part of planters to sell at the prices offered.

SLAVS FIGHTING ON MESOPOTAMIA FRONT

LONDON, Eng., Dec. 6.—First mention of fighting on the part of Russian troops since the movement for an armistice gained an impetus is contained in a report which was last night received from the Mesopotamia front, and which indicates that, whatever may be in progress elsewhere, the Russians in that theater of war are fighting on. British troops, acting in conjunction with an efficient force of Russians, tried out a successful operation, this report said.

BOLSHEVIKIS WIN IN HARBIN STREET FIGHT

(Special Cable to Hawaii Shiping) TOKYO, Japan, Dec. 5.—Reports received here from Harbin state that street fighting on a large scale has been going on in that city between the supporters of the Duma and the radicals in sympathy with the Bolsheviki faction. The fighting has favored the radicals and Governor General Holtz, the official of the Kerensky faction, has fled for safety to Choshun, in Manchuria, where he is under the protection of the Japanese.

AUSTRIAN BUDGET SHOWS HEAVY NEEDS

AMSTERDAM, Netherlands, Dec. 6.—In discussing the budget in the Austrian reicherath Foreign Minister Caernin yesterday said that monetary cost of the war to Austria had been 48,000,000,000 crowns. He estimated that the budget for 1917-1918 would require an additional 20,000,000,000 crowns, is reported in a despatch from Vienna.

GERMANY'S BOYS MAY SOON BE CALLED TO COLORS

(Associated Press by U. S. Naval Wireless.) AMSTERDAM, Netherlands, Dec. 6.—Weakening of the man power of Germany is clearly indicated by intimations that the government is planning to call out boys of 16 and 17 years of age and to force them into the army for active military service. Intimation that the call to arms for the boys of the German empire is approaching is to be found in an appeal which was published yesterday in the Essen General Anzeiger. It suggests that all the boys of the country shall immediately join the "juvenile corps." Continuing, and explaining the necessity of this action the article says: "This great struggle must be won for the preservation of our fatherland. It is a titanic struggle which we have before us and one which will necessitate the calling out of our boys of 16 and 17 years of age at no very remote date. "We must fight on. The tide is turning in our favor in Russia and in Italy, but we must not conceive that the victory is yet won. To win it we shall need the youth of the country and they can be counted upon to be worthy of their fathers."

GEN. WEGAND SUCCEEDS FOCH IN WAR COUNCIL

PARIS, France, Dec. 6.—General Foch is no longer a member of Inter-Allied Supreme War Council. General Wegand succeeds him. In explanation of the change Premier Clemenceau said that General Foch was needed for other duties which would not permit of his continuance in the council.

21 BRITISH VESSELS SUNK BY SUBMARINE

of the admiralty on submarine losses was made public last night covering the week ending with Saturday. There were sixteen of the larger type of vessels, one smaller merchantman, under 1600 tons, and four fishing craft. Rome reports losses for the week of one vessel of more than 1500 tons burden and three small sailing vessels.

EXPLOSION CAUSES QUARTER MILLION LOSS

PITTSBURG, Pa., Dec. 6.—No explanation of the cause of the explosion in the T. N. T. plant of the Aetna Chemical Co. has yet been found. It is estimated that the property loss is a quarter of a million dollars. Latest revision of the list of casualties places them at eight killed, two missing and twenty-five injured.

TWO AMERICANS DIE FIGHTING ON WEST FRONT

WASHINGTON, D. C., Dec. 6.—In a report to the war department yesterday General Pershing said that two American soldiers were killed, seven severely wounded and four slightly wounded between Nov. 12 and Nov. 17. Those killed, the report said, were Pvt. Winnebrenner of Marion, Ind., and Pvt. Peter Wojtalawiks of Chicago.

HUN CRUISER HITS MINE, LOST, IS REPORT

COPENHAGEN, Denmark, Dec. 6.—The German cruiser Bothnia was lost as the result of an explosion following contact with a German mine off Amagor island, according to reports received here yesterday. What loss of life there was is not reported.

Experience is the only teacher—either your own experience or that of others. But the experience of others should teach you that advertising is the greatest conservator of merchandising energy known to the business world.

ECONOMICAL WAY OF SERVING MEALS NOW ADVOCATED

(By Associated Press) KOKOMO, Ind.—A movement which, it is hoped here will become nation-wide, to break down some of the rules of table etiquette in the interest of food conservation has been started by the women of Kokomo, who are interested in helping Herbert Hoover, national food administrator, reduce the size of the garbage pail. The plan has the indorsement of Mrs. John E. Moore, President of the Indiana Federation of Women's Clubs, and Mrs. Casper Butler, president of the Kokomo Franchise League and prominent in club circles. It is hoped to obtain the indorsement of hundreds of society women throughout the United States. "I most heartily favor a return to the old-fashioned ways of serving in these war times," said Mrs. Moore, "as a great saving of food. I believe we should conserve in every way possible, even to the stirring of the sugar in our cups to save an additional spoonful. Let us return to the simple meals and the old economical ways of serving them." Here are some of the points over which Kokomo women have been pondering: First, the campaign for a "clean plate" would be, according to rules of polite society, a breach of table good form, for society has always taught that something should be left on the plate for "manner's sake." The remedy for this is a return to the old ways of serving, the customs of our great grandmothers when they used to place the steaming dishes of vegetables and meat on the table and each member of the family was allowed to help himself in proportion to his capacity or liking for the dish. Society has followed the rule that one should not stir the sugar in his coffee cup and has added an extra spoonful or two of sugar. Uncle Sam wants that extra sugar now to help feed the Allies. Society also has a rule that it is not polite to a dinner to refuse any one of the chief dishes, that very small helpings must be made from every course. The diners usually leave considerable portions to be thrown into the garbage can which Mr. Hoover is trying to keep empty.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and No-body Will Know The use of Sage and Sulphur for restoring faded, gray hair to its natural color, dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effects. But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair. A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

IN THE CIRCUIT COURT OF THE FIRST CIRCUIT, TERRITORY OF HAWAII—At Chambers—in Probate.

In the matter of the Estate of William C. Parke, deceased.—P. 5325.

Notice of Hearing Petition for Administration.

The petition of Jane S. Parke, Annie H. Parke and Bernice P. Walbridge of Honolulu, T. H., alleging that William C. Parke of Honolulu, died intestate at Honolulu, on the 17th day of November, A. D. 1917, leaving property within the jurisdiction of this Court necessary to be administered upon, and praying that Letters of Administration issue to Hawaiian Trust Company, Limited, having this day been filed:

It is ordered, that Friday, the 28th day of December, A. D. 1917, at 2 o'clock p. m., be and is hereby appointed for hearing said Petition in the Court Room of this Court in the Judiciary Building in Honolulu, City and County of Honolulu, at which time and place all persons concerned may appear and show cause, if any they have, why said petition should not be granted.

Dated Honolulu, Nov. 22, 1917. By the Court: H. A. WILDER, Clerk.

FREAR, PROSSER, ANDERSON & MARK, For Petitioner. 6950—Nov. 22, 28, Dec. 6, 13.

## HONOLULANS WASTE GAS DECLARES MANAGER IN REPLY TO H. C. L. KICK

### Cannon Says Housewives Can Cut Bills by Common Sense Cooking

Gas consumers in Honolulu noticed that their bill for December 1 showed an increase in the cost of gas. For instance, the small consumer, who always kept his gas within the minimum, found that his bill was \$2 instead of \$1.75, and the larger consumer found that he was being charged at the rate of \$1.75 a thousand for the first 2,000 cubic feet and \$1.50 a thousand for the rest instead of the old charge of \$1.50 a thousand for the first 2,000 and \$1.25 for all gas in excess of 2,000 feet.

since beginning of the war. Pipe costs us 400 per cent more now than we had to pay for it before the war, and we use lots of piping." Mr. Cannon holds, however, that even with the increased cost of gas the housewife, if she uses care, can save on her gas bills. "It is just another example of practicing conservation," said Mr. Cannon. "Common sense ought to tell anyone that when soup, vegetables or anything else has reached the boiling point that it will cook just as fast, and taste better if it is allowed merely to boil. The gas should be turned just high enough to keep up the boiling. Any higher simply produces evaporation. The same thing is true of baking. Cooks should be taught to regulate their gas just so it will produce the amount of heat required to cook, not to 'dry out' the food. "Everybody in Honolulu who uses gas now wastes it. This should be stopped. We had one customer who made a complaint about his bill a few months ago. He used an enormous amount of gas, and had an enormous bill. We told him he wasted gas. He said he didn't, but we got his permission to put a gas man on his premises a week who was allowed to turn off the gas or the hot water every time he saw it was being wasted. That one week of watchfulness saved the consumer \$80 on his gas bill. Saving on gas bills simply means using common sense in the use of gas. "We want our customers to save. We may have a shortage in oil later that will make it impossible to manufacture the amount of gas we've been making. It is time now for the consumer to practice conserving his gas, which means conserving the oil. We stand ready to assist our customers in every way possible to save on their gas bills."

## BAKERS NOT INCLINED TO IDEA OF REDUCING PRICE OF BREAD

### Young and Love's, However, Expect to Produce Regulation Size Loaves

Bakers in Honolulu are not inclined to the opinion that they will be able to reduce the price of bread any at all after December 10, or at any time within the near future. "We've got it now just as low as we can get it," said the proprietor of the Home Bakery, a Japanese. "We sell our 16 ounce loaves at ten cents; we sell our 24 ounce loaves at 15 cents a loaf, or two loaves for 25 cents. If we sold any cheaper, with what we pay for flour, we would lose money." "We use no sugar at all in making our bread," said Walter V. Mayo, manager of the Alexander Young cafe and bakery. "In making our graham and brown bread we use molasses to give a suggestion of sweetening. We waste nothing. We use no more shortening than is absolutely necessary to make good bread. "We have the very latest thing in Hooverized bread," added Mr. Mayo, producing a delicious looking loaf of brown-crust bread. "It's 'Mama's Bread.' It's made of cornmeal, with just enough white flour added to hold the mixture firm. The ingredients are used in these proportions: 2-3 white cornmeal, 1-3 white flour, mixed with water to which is added 1-2 Fleisch-

man's yeast and 1-2 potato yeast, and salt to taste. There is not a bit of shortening in it, not a grain of sugar nor a drop of molasses. It's true Hoover bread, and it's the best bread I ever ate. We make it hot every day, or we're going to. You're looking at a loaf from our first ovenful." Neither the Young nor Love's expects to reduce the price of bread. They do expect, however, to produce the regulation size loaf. Young's bread is now sold in only the ten cent and the fifty cent size loaves. The ten cent loaf of white, graham, raisin and "Mama's Cornbread" weighs exactly 16 ounces. The 50 cent loaf of sandwich bread weighs 46 ounces. Their rolls are sold at 25 cents a dozen rolls, which weigh 28 ounces. Love's bread in the ten cent loaves runs from 15 1/2 to 16 1/2 ounces of white and graham. Rye bread is more expensive. Love's sell a 46 ounce loaf of sandwich bread for 30 cents. The Sweet Shop sells very little bread over the counter, but makes a 15 cent loaf weighing nearly 25 ounces.

### MILLS SCHOOL TO HOLD DECLAMATION CONTEST

(Special Star-Bulletin Correspondence) MILLS SCHOOL, Dec. 5.—The finals in the annual declamation contest for the Wall & Dougherty Cup will be held at 7:30 Saturday evening at Wilcox hall, Mills School.

At the preliminaries held two weeks ago, from more than 25 contestants, the following qualified for the finals: Kiyochi Doi, Colbert N. Kurokawa, Ah Chong Chun, Yuji Miyamoto, Paul Ng, Edward Ha, Park Tai Sool, and Miss Young Kin Lee Wong. Of the four girls who entered the preliminary contests only one qualified.

At these preliminaries each contestant was to recite two selections given out by the committee, one of which was a poem and the other reading prose. This year the selections were from Kipling's "If" for the poem, and Jordan's "Advice to Young Men" for the prose number.

In the finals the eight eligibles are to make their own selections, although it must be first approved by the committee in charge of the contests. Many have already made their selections, some of which are from Woodrow Wilson, Ellhu Root, Kerensky, and Longfellow.

This competition was started seven years ago and the improvement shown by the members who take part in it is wonderful. The judges will decide on the boys' pronunciation, enunciation and presentation.

### SEEKS FOR GROWERS OF MEDICINAL HERBS

C. Clifton Lewis of Wilmington, Del., has written to Food Administrator J. F. Child to ascertain whether owners of large estates here would be interested in growing medicinal herbs in their greenhouses instead of flowers and fruits. He points out that a nationwide movement for the growth of these herbs has been begun owing to the shortage of valuable drugs which were imported from Germany and Austria before the war.

German subjects throughout Mexico celebrated the overthrow of the Russian premier, Kerensky, and the news of a separate peace.

## COLLEGE STUDENTS TO GIVE PLAY AGAIN, PROCEEDS TO RED CROSS

(Special Star-Bulletin Correspondence) COLLEGE OF HAWAII, Dec. 6.—The students of the College of Hawaii who, on last Friday and Saturday evenings, so successfully presented "The Glory of Their Years," have decided to give a final performance at the Lanai theater next Monday evening. On this occasion the proceeds are to be given to the Red Cross Society. The young players are anxious to turn over a substantial sum to the cause in which all loyal Americans feel a vital interest. The two earlier performances were so successful, and the audiences so well pleased with their entertainment that no difficulty is anticipated in filling the Lanai theater Monday evening.

### CHURCHILL'S CAPTAIN ARRESTED IN FRISCO

Captain Charles Granzow, skipper of the ill-fated schooner Churchill, which went aground off the French Frigate shoals, and concerning which rumors of a proffered plot were rife, has been arrested in San Francisco by the federal authorities. Captain Granzow and his two sons were ordered arrested at the instance of the Honolulu naval officials who are investigating the Churchill wreck.

### A Sensitive Society Subject

Toilet and hygienic cleanliness is a subject of much interest to the scientific, social and busy world. It deserves all the attention it is receiving, and a great deal more, because upon a better understanding of its value rests the comfort and longevity of the human race. The way to obtain and retain it is, of course, to keep clean, and to do this from a toilet and hygienic standpoint there is nothing more suitable than Tyree's Antiseptic Powder. The nature of the composition of this article makes it an almost indispensable adjunct to the toilet of every careful woman who appreciates the value and comfort of hygienic cleanliness. Tyree's Antiseptic Powder has a large and growing number of friends in the scientific, social and busy world. In solution when used for diseases of the mucous membrane and for prurient heat, poison oak, tender feet, offensive perspiration, etc., and in many other ways peculiar to woman's requirements, it is unequalled. Tyree's Powder does not stain, possesses no odor, and its use is accompanied by a most delightful sensation. Being inexpensive, its employment is not opposed by patients of moderate means. It is sold in original packages only at twenty-five cents and one dollar each, by the manufacturer, J. S. Tyree, Chemist, Inc., Washington, D. C.

new, who is always "afraid;" Della Wicker, whose "memory lifts the curtain;" Sabina Rogers, who is strong on "doing all the doings," and shares with Amelia Miller a propensity for everlasting finding fault; Lady Rudolph, with "a weak stomach;" and Miss Barbara Gawson, with curia and a predilection for fiction; are delightfully impersonated by Lillian Dahl, Grace Morgan, Kathryn Blake, Eileen Putnam, and Rhoda Ballantyne. The stage setting is made realistic by old fashioned furniture from New England, and by costumes designed in the dressmaking laboratory of the College of Hawaii. When an audience sits with close and responsive attention until 11 o'clock and stays seated for a certain call there seems little question that the solution of the perplexities of a New England old ladies' home has much interest to a Honolulu audience.

Tickets for the Monday night performance, to the seating capacity of the theater, are on sale at one dollar each, at Lanai, the desk at the Red Cross Rooms, and the College of Hawaii.

Charles J. McCarthy, territorial treasurer, and Manley G. K. Hopkins, auditor, left yesterday for Hilo to attend the meeting of the delinquent tax commission of that county which is to be held today. Before returning to Honolulu the officials will attend a similar meeting on Maui.

was placed under arrest. He will be held in San Francisco until it is determined under whose jurisdiction he comes, that of the San Francisco officials or the Honolulu authorities.

### WAR BREAD FOR DAISY? ELEPHANT TO HOOVERIZE IF BEN CAN'T WORK IT

Daisy is going to help Hooverize if Ben Hollinger can get hold of the war bread that is being made for animals in zoos on the mainland, particularly in Milwaukee. The receipt for this animal war bread utilizes the shell waste which comes in the manufacture of wheat into flour, which is mixed with waste molasses, boiled unpolished rice and other ingredients that, before the war, were consigned to the waste heap, and all of which contain food values needed by vegetarian animals.

"Daisy would just love that bread," said Supervisor Hollinger. "She shall have it if I can get it for her."

Zoo keepers who have tried this animal war bread find it a great saving over the old practice of feeding the vegetarian animals stale bread, which, even in peace times, cost 3 1/2 cents a pound. This animal war bread can be made now for 2 cents a pound, and it uses nothing that could be sent to our Allies.

It is reported in Christiania that Baron Ramel, the Swedish Minister there, is going to Stockholm to act in the Foreign Office. His close relations with the representatives of the Central Powers in Norway are commented upon.

How Women are Restored to Health  
Spartanburg, S. C.—"For nine years I suffered from backache, weakness, and irregularities so I could hardly do my work. I tried many remedies but found no permanent relief. After taking Lydia E. Pinkham's Vegetable Compound I felt a great change for the better and am now well and strong so I have no trouble in doing my work. I hope every user of Lydia E. Pinkham's Vegetable Compound will get as great relief as I did from its use."—Mrs. S. D. McCaskey, 122 Dewey Ave., Spartanburg, S. C.  
Chicago, Ill.—"For about two years I suffered from a female trouble so I was unable to walk or do any of my own work. I read about Lydia E. Pinkham's Vegetable Compound in the newspapers and determined to try it. It brought almost immediate relief. My weakness has entirely disappeared and I never had better health. I weigh 105 pounds and am as strong as a man. I think money is well spent which purchases Lydia E. Pinkham's Vegetable Compound."—Mrs. J. O'Bryan, 1705 Newport Ave., Chicago, Ill.  
**YOU CAN RELY UPON LYDIA E. PINKHAM'S VEGETABLE COMPOUND**

**Christmas Happiness for that boy or girl means finding a BROWNIE CAMERA**  
waiting for his first snapshot. Come in and we will show you all the Brownie Family. They work like their larger cousins, the Kodaks.  
**Camera Supplies of all Kinds**  
**Honolulu Photo Supply Co.**  
"Everything Photographic" 1059 Fort St.
