PRICE FIVE CENTS.

CAMPAIGNERS OUT IN FORCE LAST EVENING

Two Democratic and One Republican Rally Held in the City—Rain Interferes With Their Progress and Attendance.

The Kakaako residents to the number of a couple of hundred, rallied before the Democratic headquarters last night and listened with varying degrees of enthusiasm to the Democratic spellbinders. A slight drizzling rain fell during the early part of the meeting, driving about half the audience away. There was the usual amount of repartee from different members of the crowd, but on the whole the rally may be considered a success, especially in view of the unfavorable weather.

The candidates who spoke were: Charles McCarthy, W. W. Thayer, Col. Iaukea, Charles Broad, M. A. Silva, Edward Ingham, Uluhi, Charles Rose, Moses Palau, F. W. Weed, Joseph Fern and Thomas Gandall. Albert Kauwe acted as chairman and F. W. Weed as interpreter for those who could not address the meeting in Hawaiian.

Charles McCarthy devoted much of his time to pointing out that the present distribution of districts was unfair to the residents of Kakaako. The platform of the Democrats contained a redistribution plank, which, if put into effect, would divide the county so that each district would elect only one member of the Legislature and do away with the anomaly of the people of Waikiki and Kakaako, with totally different requirements, voting on the same set of men.

W. W. Thayer received generous applause. He pointed to the records of Moore and Trent as earnest of what the Democrats could do if elected.

Curtis Iaukea was received with cheers. He stated that he had not sought the nomination for sheriff, but having accepted it, was going into the campaign to win. The sentiment of the public seemed to be that a change was needed in police matters, and if elected he would see that there was a change and a cleaning out. He was opposed to a police force paid for by the taxpayers being used as a political machine, and if he were put at the head of the department he would insist on the police doing their duty and letting politics alone while on duty. Now was the time for the people to get the needed reforms. Many Republicans are going to revolt from supporting the candidates of a packed convention.

Charles Broad, candidate for senator, and M. A. Silva, out for legislative honors, were the next speakers. Mr. Silva spoke in Portuguese, dealing at length with the Democratic promise to secure an immediate revision of the land laws if elected. Under the system they proposed there would not be any such abortive attempts at colonizing as in the recent Molokan matter.

E. Ingham remarked that the candidate which courted the enmity of the Advertiser as a help to election was also a candidate for the attentions of the fool-killer. For himself he admired the stand of the Advertiser in advocating the election of only fit men.

Among the other speakers, Charley Rose and Joseph Fern received a generous share of applause and cheers, the meeting breaking up at a late hour with cheers and a tiger for the Democratic party and its candidates.

REPUBLICANS AT PAUOA.

Two quintet clubs furnished the music that kept the crowd in good humor at the Republican meeting at Pauoa last night. It was not intended that there should be two clubs, but as they were there, they remained to bring pleasure to the audience. One of the clubs was composed of members of Company F, and their singing was delightful. The bit of rivalry among the musicians helped matters amazingly.

Charlie Booth, in whose precinct the meeting was held, was active in providing for the comfort of the people.

W. O. SMITH.

W. O. Smith was the first speaker. He was introduced by Mr. Booth who spoke in Hawaiian. Mr. Smith, who also

spoke in Hawaiian was well received. His introductory remarks were in the nature of a recommendation of Kuhio. He said it gave him pleasure to be present. He said he did not believe it was necessary to vote the straight ticket at all times, but he thought this is an occasion when the men had been endorsed in the primary and in the convention and they should now be voted for. He referred to the presence of so many women and children and then asked the voters to stand by Kuhio [sure, sure], the Senators and Representatives as well as the Supervisors. Thanking the audience for their kind attention, he retired.

CHAS. CHILLINGWORTH.

The next speaker, Charlie Chillingworth, was introduced as a son of the soil and was received with applause. Charlie said something in the beginning of his remarks that won the crowd and there were frequent maikais, as he continued. His first reference to McClanahan, however, was received in silence, probably because he is not generally known to the voters in this precinct. When he warmed up to his subject and made a second jab at the Democratic candidate for Delegate, the crowd was doing some in the matter of expressing itself in harmony with Chillingworth. His remarks were not translated and were consequently lost on the Portuguese present. He impressed the crowd with the fact that it was the Republican party that had sent Kuhio to Washington, and he had done right for the Hawaiians and the country and he should be sent to Washington again. He said, McClanahan is a good man, a stranger and it was poor judgment to select him to represent the people in Washington and to approve Kuhio, who has done so well.

LINK McCANDLESS.

Link McCandless was wise to the fact that Hawaiian is the language for political speeches at this season. He thanked the Republican Hawaiians for upholding the party that has proven the correctness of their action. Referring to the county act, he said there are weak spots in it that must be strengthened and if the Republican candidates are elected the act will be changed. He referred, also, to the bill prepared which provided for the payment of a dollar and a half a day to employes of the road department. The difficulty in that bill was that it fixed the wages in one part of the Territory at one figure and another somewhere else.

"The Supervisors," he said, "are the ones who fix pay after the Legislature adjourns, and it is for you to see that the right men are elected to the Board." He complimented the party for its selection from the different precincts the candidates for different places and called on the voters here to vote for Kaleo. Frequent reference to the improvement of Pauoa road brought forth cheers.

SHERIFF BROWN.

Sheriff Brown was then introduced and was well received.

He spoke of asking the support of the voters eighteen months ago to the position of Sheriff of Oahu and was here tonight for the same purpose. He spoke of his hard fight against Poepeo and Henry and of the hard fight he is now having against Curtis P. Iaukea, backed up by this same Civic Federation. You may say that this Federation is not in existence. I tell you, it is as strong in this fight today as it was then. If you do not believe it read the Advertiser which is now backing Curtis P. Iaukea.

He referred to the numerous changes in the political beliefs of Iaukea and prophesied that he would be a Democrat only as long as things went his way. "Hasn't C. P. Iaukea broken his pledge to the Home Rule party?" he asked. "Hasn't he broken his pledge to the Republican party? And I would ask you, how long it will be before he breaks faith with the Democrats."

(Continued on Page 3.)

TO LOCATE THE W. H. RY

Road Will Connect North and South Kona.

F. B. McStocker went to Kona, Hawaii, on the steamer Mauna Loa, accompanied by Mr. Spindle, who is locating the Koolau railroad on this island, to make a preliminary inspection of the location of the West Hawaii Railway Company's line. The company expects soon to extend its lines from North into South Kona, and eventually to the sea at some port to be selected.

The West Hawaii railway now has seven miles of tracks with cars and engines which formerly belonged to the Kona Sugar Company. This outfit will be made the nucleus of the extension between North and South Kona, the intention being that the road shall eventually cover the whole of North and South Kona and reach a port so as to be able to handle all the in and out freight of the two districts.

MANOA VALLEY WANTS A CHEMICAL ENGINE

The Manoa Improvement Club has issued a notice to all residents of that section to be present at a meeting to be held at the residence of Judge Henry E. Cooper, Manoa road, at 7:30 p. m., Friday evening, October 12, for the purpose of discussing the securing of a chemical fire engine for the protection of Manoa valley.

This agitation is due to the recent fire at Mr. Thompson's place. The Makiki fire apparatus responded, and after laying 700 feet of hose from the nearest fire plug to the burning structure, it was found there was no water in the mains. The structure burned to the ground.

The meeting will also discuss a proposed extension of the water system and will ask for better police protection. The necessity for more electric lights and other improvements to Manoa valley will be brought to the attention of the members.

DEATH OF MRS. HAMMER.

Mrs. Eva Hammer, wife of Emil Hammer, died yesterday afternoon at 3:15 o'clock at her rooms in the Elite building, death coming on the fifteenth anniversary of her wedding. Mrs. Hammer had been a resident of Honolulu for about seventeen years and she was 51 years of age. She was a native of Liverpool, England. The funeral will take place at 4 p. m. today from the undertaking parlors of Henry Williams, Fort street, and the interment will be in Nuanu cemetery.

The deceased was a sister of the late Mrs. Louis J. Levey. She had no children, but she had several nieces and nephews here—Maud, Ethel, Percy, Herbert, Sidney and Clarence Levey.

DEATH OF ROBERT FERN.

Robert Fern, a well known resident of Honolulu, died yesterday morning at his residence in Kalihi. The deceased was born in Maui, fifty-six years ago, and has resided in Honolulu the greater part of his life. He was a builder and his most recent work was at Ewa where he assisted in the construction of the present mill. He was three years engaged in work under Mr. Kenton when he was taken ill and did not fully recover from that attack. He leaves a widow and eight children, besides six brothers and four sisters. The funeral will take place this morning at 10 o'clock from the residence, interment being in the Kaunakapili cemetery.

FEARS FOR THE VENTURA.

Up until midnight last night the S. S. Ventura, due on Tuesday morning, had not been sighted. If the vessel is not reported before 6 o'clock this morning she will be forty-eight hours late. Naturally there has been some apprehension felt about her by the agents, and it is quite possible that the services of the U. S. R. C. Manning will be requested this afternoon to begin a search for the delayed liner unless she is reported in the meantime.

There are a large number here booked to sail on her for the Coast, and these are looking anxiously for her arrival. While here she will load some 800 tons of coal, an operation which will hold her in port for several hours.

FOR HARBOR DREDGING

Chamber of Commerce Considers New Plans.

Discussion of the report of the Committee on Harbor and Transportation, published elsewhere in this issue, was the principal feature of the meeting of the trustees of the Chamber of Commerce yesterday afternoon. The report presented an array of figures concerning necessary appropriations for the future improvement of Honolulu harbor beyond the present dredged sections, the same being based on the recommendations of Captain Slattery, U. S. A., engineer in charge of such improvements. The appropriations recommended are to dredge out new sections never before used for harbor purposes. If done, this will bring the harbor lines to the edge of property owned by the Dowsett Estate and the Oahu Railway. This portion proposed for dredging is a tidelands area of about six acres on which the Federal government has an option for \$1.

Argument was used at the meeting that an appropriation for dredging out this section would benefit private interests rather than the community at large. In support of the report it was stated that it was based entirely on Captain Slattery's recommendations, and that this new area was necessary for the greater harbor for future increase in shipping, and therefore was a development necessary for the general community.

WOULD SAVE \$100,000.

The report was read by Mr. Paxton, chairman of the committee. He also read a resolution to the effect that the dredging of this area, as well as the section on which the present lighthouse is located, was necessary, and it was important also that both contracts be made at the same time, which would involve a saving of perhaps \$100,000.

George W. Smith moved that the resolution be adopted. L. Tenney Peck wanted to know whether or not the excavations in this section would not leave private property abutting on the basin, rather than public property. Mr. Paxton replied that lands of the Dowsett Estate and the Oahu Railway would abut thereon. The intent of the greater harbor, however, was to increase the size of the basin of the harbor to give room for the large steamers to swing about.

Mr. Peck replied that he thought there would be no question as to the advisability of the Chamber of Commerce voting immediately to recommend the cutting away of the dangerous spit known as Lighthouse Point, but he was not so sure of the other area.

SPALDING WANTS TIME.

Mr. Spalding suggested it might be wise not to act hastily in such a matter. The members of the chamber should have a little time to consider the matter before committing itself to a vote. He suggested that the matter be deferred to the next meeting or to a special meeting and that it be made the special order of business. He asked whether it were not possible to enlarge the harbor in any other way than that recommended. "Of course, it will enhance the value of private interests and at the same time help the general interests," he added.

Mr. Smith stated that the area under discussion was under option of \$1 to the Federal government. The option will expire in practically a short time and after that it will be impossible to get that option again, and the area will cost Congress a tremendous amount of money to acquire. The committee, however, emphasized mainly the lighthouse section.

"The time to act," he said, "is to act promptly, as it may require two sessions of Congress to get these appropriations."

Mr. Smith added that the matter had been up before the Merchants' Association and was thoroughly understood by that body.

NO PRIVATE INTERESTS.

Mr. Paxton at this juncture arose to say that no private interests had been considered in the slightest degree. "I have not even thought of such interests," he said. "These private property interests would probably rather desire to see the option expire, basing that desire on the present value of lands in that locality. The recommendations are based entirely upon the views of Captain Slattery."

Mr. Galt was inclined to agree with Mr. Smith. He thought the committee had gone into the matter thoroughly and members must naturally base their ideas on such reports, especially where the recommendations originally came from the Federal authorities. Of his own knowledge he knew that the map of the proposed improvements was not

(Continued on Page 2.)

RICHARD CROKER BRINGS A SUIT FOR DAMAGES

Summons an English Periodical to Prove the Charge That He Used to Be a Tammany Graft.

(Associated Press Cablegrams.)

DUBLIN, October 11.—Richard Croker, formerly the chief of Tammany Hall, has sued the London Magazine for libel, that periodical having charged him with having profited by Tammany graft.

In the February, 1901, McClure's, Mr. William Allen White gives a striking account of Richard Croker, in line with the same writer's notable character sketch of Mark Hanna in November last. Mr. White has looked up the ancestry of the head of Tammany with interesting results.

"Richard Croker was born in Ireland, and popular belief has labeled him Irish. Yet the blood that governs Croker's character is English blood, not Irish, for the Croker family came to Ireland about six generations ago from England. The Crokers were people of quality, and in the family was a surveyor general, a poet and wit, a great editor and literary wrangler of parts, and such courtiers, barristers, soldiers and citizens as set the stage for the historical plays of the period. Until the last generation, each Croker lived like the 'Thane of Cawdor'—a prosperous gentleman. But the fighting devil seems to have been big in all of them; and Richard Croker's grandfather apparently was possessed of an especially active devil, for the grandfather named Croker's sire Eyre Coot, after Sir Eyre Coot, a dashing Limerick soldier, who fought England's battles all over the world, and whose bones now rest in Westminster, the wearer of them having grown black in the face with rage, and died of apoplexy in the heat of battle at the prospect of defeat. Whatever martial spirit there may have been in Eyre Coot Croker was spent in finding food and shelter for a large family, of which Richard Croker was the youngest member. When the family fell upon evil times, Eyre Coot Croker emigrated with his flock to America. They passed New York, and went to a place near Cincinnati. They remained there but a short time, returning to New York about 1850. The lad Richard picked up a meager education in the public schools, for the Crokers were Protestants. (Richard has since become a Catholic.) In the fifties, young Croker entered the machine shops of what is now the New York Central railroad. He was in his early teens when he began to learn the machinist's trade, but he was such a strapping youngster that there is today a Croker myth in the shops made of stories of his prowess. As a blacksmith he could swing a sledge in each hand.

A MASTER MECHANIC.

"They say—and there are those who

have nursed broken heads to remember Dick Croker—that as a young man his limbs and his chest were covered with swarthy black hair; also that he not only fought at the drop of the hat, but often jugged the hand which held the hat, being an impatient lad with no stomach for dalliance. He learned his trade thoroughly. They tell how he built a locomotive with his own hands, put it together, ran it out of the shops, and turned it over to the company after testing its speed on a trial trip. His hands were highly educated, if his head lacked a knowledge of the stuff of which text-books are made. He took his master's degree in the shops, and was graduated as master mechanic, having learned industry, handicraft and the simpler uses of physical courage. He left his alma mater with the welterweight championship of the institution as a wrestler, a boxer and a swimmer. He was admitted to full partnership, and soon thereafter to leadership, in a political concern engaged in picking up a more or less honest living, one way and another, known of men as the Fourth Avenue Tunnel Gang. In this institution Croker took post-graduate work in sociology, physics and political ethics. He availed himself of the rude appliances of the laboratory, which covered an area of ten squares. The assistant, who was managing the affairs for Boss Tweed in the vicinity of the Fourth Avenue tunnel, would not supply chemicals to Croker and his fellow students, and otherwise this assistant hindered the intellectual development of the gang. So the gang set out to find the Holy Grail in New York politics, and to show Mr. Tweed what a group of young men of high ideals and two nimble fists each may do toward attaining the Good, the True and the Beautiful. Croker being a husky boy was chosen to run for alderman in due time in the St. Georgian contest with the dragon Tweed. Croker won. Tweed went to Albany and legislated Croker out of office. That was in 1871. Croker ran again. Again he won. Tweed was overthrown. The young gentlemen of the Fourth Avenue Tunnel Gang triumphed. Croker took his Ph. D. in the study of mankind, and entered upon the active practice of his profession."

CROKER AND TWEED.

When Croker ran for Alderman in opposition to Boss Tweed's wishes, he was elected, and helped to pull down

SANITATION AND HEALTH

Reports of Different Officers for Some Months.

Reports from health officials were submitted in great volume at the meeting of the Board of Health yesterday. Some ran back for several months.

GENERAL SANITARY WORK.

Work of disinfecting buildings for two or three months to the end of September made this record: Buildings, 186; stores, 1814; rooms, 1079; out-houses, 452.

Sanitary inspections in Honolulu for six months show an average of 11,224 monthly. Room inspections were much more numerous, in the month of June being 92,563.

Hilo inspection and rat and mosquito campaigns show up well in the reports.

THE INSANE ASYLUM.

The Insane Asylum quarterly report to October 1 shows: Number of patients received, 17; died, 4; discharged, 11; making a net increase of two, and the number of patients remaining, 145 males and 49 females, 194.

PURE MILK CAMPAIGN.

Seventy-nine samples of milk were examined in August, of which two were below standard—names of dealers not given.

On December 31, 1904, President Pinkham recommended to the Legislature the passage of a specific law, "to regulate the production, keeping and distribution of milk," and suggested the means of financing the expense. No action was taken, referring to the board's action in September, when certain sickness was attributed to impure milk, the president says: "It is out of the question for eight inspectors to cover every item of conduct and condition that affects the public health," and after mentioning his proposed pure milk bill as above, adds: "We are looking after the milk producers as well as the means we have allow."

CITY SANITARY OFFICER.

Dr. J. S. B. Pratt, city sanitary officer, in separate reports for July, August and September, shows results of which the following is a summary: Thirty-four nuisances were reported and all abated, and one 48-hour notice had the desired effect.

There were 245 recommendations made for hotel, restaurant and lodging house licenses, with permission to accommodate 12,428 persons.

Inspections of graves were 116 in number. Six coffins were found exposed in the Catholic cemetery. One coffin in the same cemetery and one in Wai-kiki cemetery were buried in water.

In July 15 barrels of rotten salmon were condemned. In August 957 tins canned goods, 69 bags codfish, 45 tins oyster sauce and 4 1-2 barrels salmon were condemned, and in September 383 tins crabs and one tin salmon.

Three convictions for selling bad salmon were obtained in August, one fine of \$50 and two fines of \$10 each being imposed.

Twenty-one permits to keep swine and five to keep ducks were issued.

Dr. Pratt last month made one trip to Wailaie, in company with Food Commissioner Duncan, also trips to Nuuanu dam and Kailih Valley respectively, on sanitary business.

FREE DISPENSARY.

At the Free Dispensary in September 273 cases were treated, comprising 189 medical and 84 surgical. Prescriptions filled were 192 and eye cases treated 27. By nationalities the cases were Portuguese 84, Porto Rican 76, Hawaiian 62, German 11, American 10, Spanish 5, Colored 5, British 4, Chinese 3, Russian 3, French 2, Danish 2, Japanese 1, Korean 1, West Indian 1, Swedish 1, Polish 1, Hollander 1.

BUILDINGS AND PLUMBING.

Plumbing Inspector Keen's reports for August and September show the following aggregates: Plans of plumbing filed and permits issued, for same, 59; separate pieces of plumbing finished and accepted, 52; fixtures placed in above, 223; houses connected to sewer system, 27; building permits issued, 23. Inspections were made as follows in the two months: Building sites, 19; buildings under construction, 32; repairs of buildings, 21; sewer connections, 18; nuisances investigated, 15; plumbing work, 282. Total, 387.

COLLISION WITH A CAR.

A Lihua street rapid transit car collided yesterday afternoon with a rig being driven by Captain Parker of the police department, as a result of which one of the horses was killed, the other injured, and the occupants of the rig, Captain Parker and Officer Apana, forced to throw themselves out to avoid possible injury. The accident occurred shortly after 1 o'clock. Captain Parker having just driven out of Parker's lane onto Lihua street, not having heard the gong of a rapidly approaching car, southbound. Parker is positive that the gong was not sounded for some time before the accident and that he had no warning whatever of the danger. The motorman and the conductor of the car, however, assert that the gong was ringing and that a warning was shouted out to the driver of the team in time to prevent the accident if they had been heard.

Your grocer sells Poi Breakfast Food.

WILL CALL IN DOCTOR

Board of Health Takes Up the Subject of Tuberculosis.

It was decided yesterday by the Board of Health to call in various members of the medical faculty for the purpose of discussing tuberculosis.

President Pinkham, in submitting a letter he had written to Surgeon General Wyman, in Washington, in answer to a general letter of inquiry on the subject, referred to the Anti-Tuberculosis Congress that met in The Hague last month, at which thirteen nations were represented.

"The most important action of this Congress," the president said, "was relative to the compulsory registration of all cases of consumption and the establishment of sanatoriums. In these respects the Territory of Hawaii leads, for both objects recommended are and have been in force for some years."

He stated that the deaths in Honolulu from tubercular causes for the year ending June 30, 1906, numbered 134 and for the entire Territory 336.

The conference with physicians decided on is in conformity with the president's recommendation "that the Board should confer with the Hawaiian Medical Association and compile a set of advisory regulations as to the control of the disease and the means of protection from contagion of those exposed, and when agreed upon these regulations be adopted by the Board, and in so far as they are advisory so state, and where they come within the authority of the law so designate. These regulations should be printed in concise, convenient form and placed in the hands of those connected in any way with a case of tuberculosis."

In his letter to the Surgeon General, Mr. Pinkham refers to the necessity existing here of watching against contagious diseases from different shores of the Pacific, saying that "tuberculosis has not had the extreme attention the health authorities desire, nor have the necessary funds been appropriated by the Legislature."

Yet under a general law, with a maximum penalty of \$100, physicians and householders were required to report every case of "disease dangerous to public health," and among diseases in this category the Board of Health had designated tuberculosis.

Mr. Pinkham informs the Surgeon General of the Leahi home, four miles from the center of Honolulu, devoted to tubercular diseases and incurables, and then describes the district of Kona, Hawaii, with its "dry atmosphere from below tempered by freshened air from above." He says "we have reason to believe there are few places presenting the climatic advantages of this district."

At this meeting the Board adopted an amendment to the plumbing regulations, in the section referring to vent pipes, giving the inspector authority to order the installation of non-vented anti-siphon traps at his discretion.

E. R. Bath and E. W. Quinn, plumbers, were heard by the Board before the amendment was put to vote. Plumbing Inspector Keen appeared in its favor. Mr. Quinn exhibited a sample of the appliance in question. The discussion was technical.

On the favorable report of the Board of Medical Examiners, Drs. F. S. Morong and William Osmer were recommended to receive licenses to practice medicine and surgery.

President Pinkham promised a report later on some public matters that came under his observation on the Island of Hawaii. A few matters not specified in his message were deferred until the next meeting.

With the president were present Fred C. Smith, Dr. J. R. Judd, Dr. J. T. Wayson and Abraham Fernandez, members, with C. Charlock, secretary, and Miss Mae Weir, stenographer, in attendance.

FOR HARBOR DREDGING

Continued from page 1.

altogether new, having seen it some time before as prepared by the army engineer in charge of this work. He said he happened to know that the option on this property was taken by the Federal authorities on their own initiative and he did not believe there were any personal interests being considered that would be greatly benefited.

Mr. Spalding's motion prevailed, Mr. Smith consenting to the amendment. It is said that so far as the Dowsett Estate being benefited by the dredging out of this area is concerned, it is already benefited by the inner harbor being dredged to a depth of thirty feet up to the very edge of the tide lands in question, and that it could erect wharves there, deriving as much benefit now as it would in the future.

URGE NEW LIGHTS.

The following resolution covering the proposed lighthouse recommendations of the report was adopted: Whereas, The absence of lighthouses

YOU SHOULD NOT MISS THIS SPECIAL SALE!

A sale at Blom's is no ordinary sale, as the majority of women discovered long ago. But the sale this week borders on the extraordinary as you will see by noting the following prices:

LACE CURTAINS

Newest designs in bounteous assortment.
Regular \$1.00 pairs, 2 3/4 yards wide at \$.65
Regular 1.25 pairs, 3 yards wide at .90
Regular 1.50 pairs, 3 yards wide at 1.10
Regular 2.00 pairs, 3 1/2 yards wide at 1.50
Regular 2.75 pairs, 3 1/2 yards wide at 2.00

HOSIERY

A sample line of about 300 pairs in all desirable colors will be closed out at half prices.

are considered by connoisseurs to be superior to what is known to the trade as two stamp goods. The I. W. Harper whiskey stands at the head of this class of liquor and it is becoming the favorite of the men who know the best points in whiskey.

WE HAVE the celebrated Harper Premium A A A put up in imported amber bottles five to a gallon. And the equally famous Old Continental, hand-made sour mash, in full quart flint glass containers. Each bottle is covered with wire mesh.

We feel that we can recommend these goods as superior products, something you may offer to your friends. For bar trade it is the best whiskey and a trade bringer.

W. C. Peacock & Co., Ltd.

on certain coasts of these islands exposed in the pathway of the large number of steamers and other vessels calling at this port is a serious menace to navigation, as has recently been attested by the serious disaster to one of the largest of said steamers; and Whereas, The construction of a First Order Light on the northern coast of the Island of Kauai and also of the northern end of the Island of Molokai has already been recommended by the local engineer to the proper authorities at Washington; now therefore be it Resolved, That the Honouliuli Chamber of Commerce does hereby heartily endorse said recommendations and do earnestly petition the Congress of the United States to appropriate at the next session thereof a sufficient amount to cover the cost of erecting said lighthouse; and be it further

Resolved, That a copy of this resolution be furnished to the Congressional Delegate from this Territory and that he be requested to use his best endeavors to secure said appropriation to the end that the most needful and necessary lighthouses in this Territory may be erected at the very earliest possible date.

NEW MEMBERS ELECTED.

Yesterday's meeting was presided over by President Giffard, with A. Garvie acting secretary, in the absence of Secretary H. P. Wood. Others present were George W. Smith, L. Tenney Peck, J. F. Morgan, J. R. Galt, E. E. Paxton and W. A. Bowen. The following gentlemen were elected to membership: A. S. Wilcox of Lihue, Kauai; G. P. Castle, Honolulu; E. H. Wodehouse, Honolulu; G. N. Wilcox, Lihue, Kauai.

Letters from Mr. Hatch, Major Casey, Engineer Corps, U. S. A., Captain Slattery and G. B. McClellan relative to the proposed lighthouses on Makapuu Point and Molokai were read. It was shown that Captain Slattery recommends a light of the first-class located at the Molokai leper settlement.

NO RAISE FOR "MAC."

The Committee on Finance, to whom had been referred the question of a raise in George B. McClellan's salary from \$75 to \$100, reported adversely. The salary by vote of the chamber will remain \$75 per month, but \$100 per annum is allowed for traveling expenses to and from Honolulu.

num is allowed for traveling expenses to and from Honolulu.

RECOMMEND NO SITE.

Mr. Spalding brought up the matter of the Federal building site, and stated that, in view of the fact that a commissioner was coming here from Washington to investigate the various sites, it would be inadvisable for the chamber to make recommendation of any particular site. Mr. Smith agreed to this view of the matter and on his motion the chamber agreed to let the matter lie dormant.

Future meetings will be held at 3 p. m. instead of 2 o'clock as heretofore.

ORGANIZED
DEMOCRATS

Make a Better Front Than Ever Have Before.

"The Democratic party is better organized for this campaign than it has ever been before in Hawaii," said a Republican yesterday morning as Curtis Iaukea passed by. "It seems to have come to them that we have been busy for several years and that it is our complete organization that has won the victory. Willie Kinney has always been more or less active but it has rested mainly with him and the men elected by the Democrats were successful on account of the poor opposition put up against them. I am not going to say anything against the candidates this year, I mean those put up by them, but I will say, that if any of them are weak the improved organization of the party will help out tremendously. One of the backers said to me the other night, in answer to a question as to whether it was to be a Republican victory, that it would depend upon how many citizens were anti-Brown. He intimated that it was always a difficult matter to fight a corrupt machine that would use money and liquor to win the fight. He even went further and said he believed the police machine was using both."

JARRETT'S STILL HUNT.

Willie Jarrett is making the stillest kind of a campaign and will no doubt show that he is a better man than Vida. Jarrett is a great friend of the Hawaiians, while Vida is not. He is a business man with a good record which Vida is not and has not. All of the good points in the makeup of the Democratic candidate for the office are being analyzed by his Hawaiian friends and they are being used by them in his interest. In some quarters there is a feeling that if the Home Rulers had put up a candidate for Sheriff it would be better for Iaukea for the reason that there are so few members of that party on this island that it would be just so many votes from Brown while they will probably vote for the incumbent if they have no candidate of their own for the office.

But the Hawaiians, regardless of party, are getting wise to the way to do things and there is a feeling growing among them that it would be good sense to get hold of the Sheriff's office and by administering it well, keep it indefinitely, just as they are doing with the delegateship to Congress. Once they get an important office and show that they can run it faithfully, it would be impossible to dislodge them from it—and no reason to try. This sentiment is working powerfully among the native voters of all parties and Iaukea is getting votes by it day by day. It is not precisely a color line movement but a desire to prove that the Hawaiian is qualified to hold his share of the higher offices and is not to be kept down to manual labor jobs, clerks and other inferior positions. Harvey is not hopeful nor has he altogether lost hope of his election, but his friends say they do not expect to land against a machine candidate. "Harris is Brown all the way from nomination to polls," said one of them yesterday, "and it is hard to beat a machine as well-oiled as the one run by the Sheriff's office. Harris is a good man but there is that against him and so long as the Sheriff has in the Board of Supervisors enough members to vote him the nine or ten thousand dollars a month to pay for the hire of a lot of politicians called sleuths it will be hard to get a change."

A foreclosure of mortgage on Kona lands for a debt of \$33.15 was ordered by Judge Robinson in the suit of Henry Smith, trustee, vs. Henry Hall and wife. L. B. Lincoln was made commissioner of sale.

Judge Weaver, in the Court of Land Registration, was yesterday hearing the Lansing petition for a registered title to land in Waiahole. D. L. Withington represented the petitioner, and A. G. M. Robertson appeared for L. L. McCandless, a contestant. The Territory has intervened in the case to protect the right of way for a public road.

SPEAKS WELL
OF RUBBER

Dr. Olsen-Seffer Says Published Story Was Wrong.

A statement printed in the Hawaiian Star on Tuesday, purporting to be the opinion of Dr. Olsen-Seffer on the possibilities of rubber, coffee and fiber culture in Hawaii was a shock to the men of Honolulu who are putting their energy and money into at least two of the enterprises. From the printed article it would appear that rubber, sisal and coffee cannot thrive here but in the opinion of the doctor, who is an expert in the cultivation of rubber and sisal, the contrary is the case. He is connected with the Hidalgo Rubber Co., of Mexico, and his business here is merely incidental to his Mexico connections. He has been over a portion of Hawaii and, while not making a close inspection of the soil in the Olaa section, says it looks to him good for rubber up to an elevation of two thousand feet, or twenty miles from Hilo.

Dr. Seffer furnishes the Advertiser with the following:
"Perhaps I was misunderstood by the young gentleman who represented the Star. I was certainly misquoted, but it was unintentional, I am sure. The occurrence was peculiar in that I was, at the moment the paper was placed in the hands of the newsboys, in consultation with some gentlemen who are largely interested in the rubber plantations at Nahiku and the statement appearing in the Star was diametrically opposite to that I had made to them. What I wish to convey is that the area of Hawaii, in land suitable to the cultivation of rubber, and, I may add, available for the purpose, is not sufficient for the development of a very large industry. Of the trees I have seen I cannot speak too highly. At Nahiku landing I saw Ceara rubber trees which they told me were planted eight years ago, with a diameter of twenty-two inches. This is really remarkable."

"I consider the climatic conditions of that portion of Maui excellent for the cultivation of rubber. The average temperature is conducive to a good supply of sap. In my experience I find an average of 74 deg. high and a minimum of 62 deg. low to be excellent, lower than 62 deg. endangers the sap. Tropical trees are sensitive and a low temperature has its effect upon the trees."
"It looks to me as though the men who have started the rubber industry on Maui will do well but there is always the danger of promoting a boom which would not do here on account of varying condition in soil and climate. I found the Hevea trees making excellent progress and they will no doubt do well."
"I do not think this Territory is adapted to the cultivation of coffee but I will not say the same for fiber plants. I found the sisal an excellent quality but the progress is slow and I am inclined to believe the matter has not been gone carefully into. The land in the different sections I have visited seems suitable for the plants and they compare favorably with that grown in Yucatan. At Pahala I saw one field of plants that looked very well as do the plants on the line of the railway outside of Honolulu. But I am of the opinion that there is a scarcity of water at sisal and the soil, as viewed from the car window, looked a trifle shallow for the best results. There are other fiber plants than sisal that would do well anywhere in this Territory and the common century plant is one of them."

CAMPAIGNERS

Continued from page 1.

Brown made no promises, but stood by his record as Marshal of the Republic, High Sheriff of the Territory and Sheriff of the County. He would promise no more than that he would administer the office in the future as he had been in the past—nothing more, nothing less. If the voters were not satisfied let them vote for Iaukea and not for him. "In one case," he remarked, "the people were voting for one they knew, but in the other for an unknown quantity." He pledged his support for the whole ticket and said he was not working for himself more than for the others, but his light is the hardest.

He spoke of the fairness of the Republican party in nominating Kuhio, a son of the soil, while the Democrats had named an almost utter stranger. Retiring after calling upon the voters to stand by the ticket, he was liberally applauded.

W. W. HARRIS.

W. W. Harris quoted the adage that everything is fair in love and war, and added that politics should be included. His reference to McClanahan and the Cuban question brought down the rain. Mr. Harris ceased talking and the quintet club took refuge under a tree. When the rain slackened he explained why the Democrats urged the election of its candidate. He thought it better to send a Republican who would stand by the tariff on Cuban sugar. If Kuhio goes back and stands pat on the duty it does not make any difference if Cuba is annexed—our sugar will be protected. All of the Democratic planks have been ditched from the Republican platform. He said the Democrats were making extravagant promises as to wages. He said the Legislature had nothing to do with it—it is a matter that rests with the Board of Supervisors—and if a Republican board is elected the wages will be \$1.50 a day

and maybe more. References to the "Horseshoe" road brought a thank you from a Pauoa resident. He asked if they would vote for the party that does things or the party that made promises, and a man in the crowd assured him that he would "vote for anybody."

SAM DWIGHT.

Sam Dwight sent in an aloha nui that was well received. He said he is before the people as a candidate of the Republican party seeking votes. The shower was a disappointment. The first objection to his speaking was from the other side and the next was the rain from the heaven. His remarks were in the line of previous speakers and were cut short.

J. W. CATHCART.

John W. Cathcart apologized for the shortness of his speech, but said he hoped they would vote for him just the same as if he had spoken a couple of hours. He made a fervid plea for the straight Republican ticket and said he wanted to see Kuhio elected at the head of a straight ticket rather than have him go to Washington and say that his party had been divided. He called upon the young men to start right—they had done so, for the success of the Republican party was due to the votes of the Hawaiians and the Portuguese.

CHARLIE HUSTACE.

Charlie Hustace surprised his friends by rattling off in Hawaiian something about the Democrats being like a little boy pulling himself up by his pants. He called upon the boys and girls present to join with their parents in voting the straight Republican ticket. "Vote for Charlie Oponui," he said. "Keike Hawaii." He assured them that it would be 250 years before the Democrats would get recognition in the United States and said they have tails sticking out behind. Charlie won the crowd if continued laughter was an indication.

A. D. CASTRO.

A. D. Castro started off with a greeting "to the ladies whose smiles are the light of the evening, and the men, whose duty it is to vote the Republican ticket." He referred to the Republican party as the one that had done much to promote the welfare of the people. He asked for allegiance to that party at the polls in November. After speaking in English for some time Mr. Castro said a few words to his countrymen in Portuguese.

E. A. LONG.

E. A. Long said he had no doubt the Portuguese present understood English and for that reason he would address them in that language. He thought some of them had, in times gone by, been his classmates, and for that reason he would become a little personal. His remarks to the Portuguese were relative to the failure of Correa to receive the nomination. He called upon them to be good fellows and rally to the man who has the support of the gentleman who has the support of the successful candidate, A. D. Castro, and the entire Republican ticket.

E. W. QUINN.

Charlie Booth was kept busy throughout the evening introducing the speakers and apologizing for the rain. He introduced E. W. Quinn in a few fitting remarks in Hawaiian. John Sheldon interpreted for Mr. Quinn, as he had for the others, and said he had again come before them asking their votes that would elect him to the House of Representatives. He asked their support, not alone for himself, but for the entire ticket. He promised needed remedies to the county act if elected and promised reforms that would be good for the people, and particularly did he pledge himself to work for such measures as would be a benefit to Pauoa district.

W. T. RAWLINS.

W. T. Rawlins spoke for the whole ticket, after saying that the Chairman had requested him not to make his speech too lengthy. He told of his services to the government incidentally as he referred to his candidacy of three years ago. He did not spend valuable time asking the voters to support the whole ticket, others had done that, but he cautioned them to beware of the men who told them Kaleo is to be scratched from the ticket and assured them he would go in with the rest of the Republicans.

KALEO.

Mr. Kaleo got a glad hand from the few left in the audience. The rain was coming down and the crowd had dispersed before he reached the platform. Those who held back did so in the hope of hearing what Vida might have to say. He promised to vote for all classes if elected, for in the eyes of the Lord the rich and the poor were the same.

HENRY VIDA.

Henry Vida jumped the fence to the

Cool as the stream that flows from the snows of Mauna Kea is a limpid, refreshing glass of

Primo Beer

The Ideal Beverage for Allaying TROPIC THIRST.

C. R. COLLINS Est. 1889

Hand-made Harness and Saddlery. Full line of all Horse Goods. Repairs to Harness, Saddles, Trunks, Suit Cases and Bags. ALL WORK CALLED FOR AND DELIVERED. King Street, near Fort Tel. M. 427

platform at 10:35 and spoke in English. He said he was a candidate for Deputy Sheriff and in view of his candidacy he had been the subject of attacks and he wished to speak of himself prior to being appointed Assistant Sheriff, recounting his position as Deputy High Sheriff. He spoke of his trip to London for Kapea. His commission as Deputy High Sheriff and as a commissioner to London had been signed by Governor Carter, remarked Vida, and on his return to Hawaii he had been asked to be a candidate for Deputy High Sheriff. He declined and on account of that he had been attacked and written up in the newspapers. He had been charged with dishonesty, but he must have been capable, or he would not have been appointed to a position by Sheriff Henry or by the Attorney General when he went to London. There is a clique in town, represented by the Advertiser, that has no use for me and no use for Brown. Their policy and the policy of L. A. Thurston is to rule or ruin and when they can't rule they will ruin. You all know the tactics of L. A. Thurston. He was once a power, but he lost control. In the Advertiser this morning they printed the names of 17 or 18 unfortunate people who had been brought to the station for being drunk. They did not like the idea of those people being kept there all night. They claimed that it was a new thing and it had been done for votes, but I tell you, gentlemen, it has been done ever since we have been in office. Why should we take the unfortunate to the judge and have them fined five or six dollars? What about their wives and children, who have nothing in the house to eat, after their unfortunate husbands and fathers have been sent to jail because they had no money to pay their fines? If you think we have done wrong, don't vote for either of us. Vote the whole ticket. "I thank you all for those few remarks."

DEMOCRATS AT PUUNUI.

Drizzling rain in Puunui district, head of Liliha street, dampened the Democratic meeting scheduled for 7:30 last evening. The turnout of voters was small, but despite the continuous bursts of rain the gathering remained while the Democratic speakers talked up their ticket.

Mr. Kamahu presided at the meeting, and other speakers were Edward Like, Frank Harvey, W. W. Thayer, Chairman Mossman of the county committee, Col. McCarthy, Tom Gandall, Charles Rose and Joe Fern.

Mr. Mossman waxed humorous at the alleged campaign fund of the Republicans. He said that a few days ago a man in the road department told him that the reason the roadworkers cheered W. O. Smith and Charley Hustace was because Sam Johnson told them to cheer these candidates to the echo, so that the Republican committee could get some campaign funds from them. He said also that an evening paper reported that at the Kakaako meeting of the Republicans six hundred native Hawaiians cheered W. O. Smith to the echo. "Just imagine them cheering him," said Mossman. "Why, they were cheer-

ing the campaign fund." Mossman said he expected the voters to give the Democratic candidates a square deal. He said the party in power had not done right by the Hawaiians, in general. He added that he believed the Republicans were keeping their campaign fund close in hand, holding it off to the eleventh hour that they might go out and buy the election.

The chairman of the meeting said the Republican party was the party of the rich men and therefore was no place for the Hawaiian to stay. The Hawaiians were poor laboring men. The Democratic party was the laboring man's party.

Charles Rose instructed the voters how to mark their ballots. Tom Gandall said he was sorry to see the native Hawaiians working so hard day by day for the government at such small wages. If elected to the Legislature he would work for a higher wage for them.

Joe Fern asked the voters to give the Democrats a trial in office. The present Sheriff had been in office too long and it was time he made way for somebody else. "Give Iaukea a chance to give you a clean administration of affairs," he said.

Col. McCarthy gave some instruction as to the manner in which the representative American government was controlled and run. The people governed, in the first place, through the representatives elected by them. The machinery by which this was done in the first instance was through the election laws. That election machinery should be simple. The present law in Hawaii is of such a nature that many ballots of voters are thrown out so that those voters, after all, have no voice in the government. The Democratic party pledged its candidates, he said, to see that a simple election law is made, so that when a ballot is dropped into the box it will count and be counted.

He then went into details of the proposed redistricting of the Territory by Democrats in the Legislature, so that each district would have its own representative in the Legislature and the people of each district would vote for its own men.

During the meeting Henry Vida and his henchman, Charley Clark, drove by in Sheriff Brown's buggy to size up their opponents' doings.

THURSDAY

OCTOBER 11

WOMEN IN SALOONS.

One of the worst features of wide-open Honolulu is the presence of women in the low saloons. The story told last Monday morning of Joe Clark's place was full of incident which must have appalled the comfortable citizen who, safe on the right side of the town, does not know of the night life that is led on the other side of the white business district. One of the paragraphs of the Advertiser's story told about the young Kamehameha schoolgirl who sat in a Palama dive, waiting for a girl friend to come out of a locked room and resisting the advances of drunken men as best she might. Since that fact was published, we have learned from men who are prepared to testify before the grand jury, of the presence of very young girls in Clark's place dressed in long holokus so they would pass for women of age—mere children, just in their teens, whom protected scoundrels in the dive business are leading to the gates of hell.

Women in saloons are a greater lure than lights and comforts or even than free drinks. Women of the class that go to such places bring men around them like flies and they all get drunk together, making night hideous, while the police stand nonchalantly on the corners near by, oblivious to the statute which empowers them to arrest prostitutes in saloons. Not all the saloons in Palama are as bad as Clark's; but many are and they are getting such a lion's share of the business, that the rest of the drinking places thereabout will have to follow suit or close up. The saloon with the most women and the most cubby-holes sells the most drinks.

In ring-ridden cities the last straw that breaks the patience of reformers is usually the appearance of fallen women in saloons, plying their trade and luring to ruin not only young men but maidens. What of our own reformers? The Anti-Saloon League is sitting up and taking notice but the Civic Federation is yet to be heard from and the clarion note of the pulpit is wanting. It is time for all our moral and religious forces to get into line with good citizenship generally and prepare for the housecleaning which the administration of the law in Oahu county and in the Territory-at-large so clearly and importantly demands. We can have a decent liquor law if we want it, but the precedent condition is to get a good Legislature. What are the reformers doing towards picking the men they can depend on from the various tickets? We can have the good laws we make enforced by the police if we secure the election of Brown's opponent. That implies the duty of working, by every legitimate means, for the Democratic nominee for Sheriff. A good Legislature and a law-abiding Sheriff, would give Honolulu, to say nothing of Hawaii, high-license, local option and divelish thoroughfares; would bar women from saloons and interrupt, with the raised club of the police, the carnival of debauchery and disorder now going on. The police machine that is willing to let things stay as they are, for the sake of revenue and votes, is fully organized and if sustained at the election will let Honolulu become as bad as Aden—"east of Suez," where the ten commandments are out of vogue. Now, if ever, the churches and reform bodies need to get into the fight and settle the question of whether Honolulu is to again become safe and decent or descend to the level of those seaports which, by the openness of their promiscuity and the flagrancy of their misrule, attract and hold the criminal wayfarers of the world.

THE CONVICTION OF MOORE.

If there had been any lingering doubts in the minds of any that the charges made at the Democratic rally on Saturday night last, when it was stated that there was at least one known gambling house in Honolulu, such doubts were removed yesterday, when Charley Moore pleaded guilty to conducting a Black Jack and crap game in his Nuuanu street joint. Moore offered no defense at all to the charge, entering his plea and handing over \$100 fine money without protest or threat of appeal. There was an evident desire to get the matter over with as speedily as possible and with as little noise as was necessary.

It is unfortunate for the public that under the circumstances there could be no evidence taken. It would have been most interesting to have the complainant on the stand to learn when the police first heard of the game, whether the knowledge came to them through the Sherlock Holmes deductions of their detectives, or whether the Democratic speeches put them on the trail. The taking of the evidence of some of the frequenters of the joint might have unearthed other interesting points. Moore may have other holdouts, the location of which might have been stated, and such other details as the names of the cappers and the grips, signs and passwords necessary to secure admittance to the games.

It might also have been learned what has become of the layout. So far as the records of the case go and so far as the public knows, Moore is as well-fitted with gambling devices and accessories as he was before the arrest. Usually these things, cards, chips, dies and tables are seized and not given back to the convicted gambler. Was there any such seizure made in the Moore case? Nobody knows. Moore was arrested yesterday morning about an hour prior to the opening of the police court. He could not be found the night before and was therefore spared the necessity of passing a night in the cells or of going to the trouble of securing bail. It was nice of him, however, to allow himself to be apprehended just in time to go into court and hush up everything by pleading guilty and paying his fine.

There are some who insinuate that Moore has sacrificed his hundred and added to his record as a sort of a voluntary scapegoat, seeing that the advertising he was getting at public meetings was hurting his friends, who at this particular time have about all the burden they can stagger under. By allowing himself to be arrested and pleading as he did the police can reap all the credit of having secured the arrest and conviction of the bold gambler, a credit which might be helpful to them under the circumstances and time. As for an equivalent return for favors received, that may come later.

NO IMMINENT DANGER.

The annexation of Cuba is not going to be a question before the next Congress unless made so by continued disorder in the island or by a request of the Cuban people that their political independence be annulled. As to disorder there are no signs of it now, the rebels having laid down their arms; and as for a desire to lose national identity, no Cuban, so far as we have observed, has admitted such a want of patriotism. The proponents of the annexation cause are American capitalists.

When Congress meets in December it is by no means likely to have any other Cuban question before it than the time-limit of American occupation. We know of no annexationist party in Congress. The only eminent public man who has been reported as desiring to take Cuba in is the young and erratic Senator Beveridge. Wise old party leaders, with a critical campaign impending and the Presidential struggle not far off, are not going to inject a new and explosive issue into politics. As for the administration, it has some jingo proclivities; but it is trying so hard to get on good terms with South America and convince it that the United States is merely out for trade and is not hand-hungry, that it may be trusted to do all it can to settle the Cuban trouble on the basis of autonomy. In this effort the government will have the active support of immense business interests—vastly larger ones than those which are behind the annexation scheme.

So Hawaii need not worry just yet. It may prepare to fight if it wants to, but it is going to be a long time, we think, before it will hear the bugles sound the "Assembly."

If Dr. Olsen-Seffer thinks the Territory is not adapted to the cultivation of coffee, he should taste the product. Some of the finest coffee in the world has long been raised here. The only trouble is that inferior coffee from cheap labor countries like Mexico and Brazil comes in free of duty and makes the cultivation of Hawaiian coffee less profitable than some other forms of agricultural industry.

Pick out your public servants with the same care you would your private servants. Get the best men who offer themselves.

Mr. Ayres to Mr. Brown.—Perhaps you were right to dissemble your love but why did you keep my small change?

The lawless elements support Brown because Brown supports the lawless elements.

Your interests are at stake in the coming election, not those of any party.

RICHARD CROCKER

(Continued from Page 1.)

Tweed. "Tweed fell, not because he was a thief, but because he did not tell the truth to his fellow-thieves; they found they could not trust him, and Crocker learned in Tweed's downfall the one trick which has given Crocker power—he learned to tell those who trusted him the exact truth, and to make a lie the cardinal sin in his code."

At the time that John Kelly rose to the boss' throne in Tammany, Crocker was district leader, and Kelly made him a sort of privy counselor, giving him the office and title of city chamberlain. Mr. White says Crocker conducted the various offices he held—coroner, city chamberlain and fire commissioner—decently and without scandal.

CROCKER BECOMES KING.

"When John Kelly died, the crown came to Crocker by natural selection. He was elected chairman of the finance committee of Tammany. That is his office today. The finance committee is composed of five district leaders out of the thirty-seven in New York. Under each leader are a score of precinct captains, each of whom is set over four or five hundred people; the people are divided into tribes of nationality and also subdivided into clans. This organization, which has nothing to do with political creeds or platforms, but coheres out of greed for public taxes and public privileges, is the most perfect voting-machine on earth. To the loyal head of this system Crocker came as a journeyman who had worked up from bound-boy. He was made king by grace of his strong right arm and a steel brain sharpened on a man-hunter's whetstone. Passionate—and by that token soft-hearted—simple as a child, acquisitive, shrewd, in a narrow groove, like a machine, sordid at the core, and ignorant of civilization as a Hun, Crocker came to his throne a troglodyte king over a race of cavemen."

HOW CROCKER MADE HIS MONEY.

"When he went into Wall street he was as ignorant of the methods there as the Mahdi. The men who played his hand for him needed a friend at the soul of things in New York City, and they knew where the soul of things was. They did not buy Crocker. He accepted no bribe. He is true to his friends, and his friends stand by him. He made real estate investments, and his advance knowledge of the proposed public improvements made his investments profitable. He bought stock in city industrial and his friends in office protected his investments, and the stock rose and Crocker skimmed off the cream. He frankly acknowledges that what street parance calls his political pull represents his capital. His life has been devoted to accumulating this influence, and he checks on it now as an old man would check on his life's savings, rather proudly than otherwise."

"PRINCE CHARMING" IS POPULAR.

"Prince Charming," as Prince Louis of Battenberg is called by the Irish, where he is on duty at the present time and the leader of all social functions in Dublin, says he had "a daisy time" in Boston and New York, where the girls outvied each other in their efforts to entertain him. He says a special postman had to be put on to carry his letters and he is never tired of telling the story of twenty-five young girls lining the ceiling and walls of his sitting-room with La France roses and then bringing a wagon load of flowers with which they proceeded to pelt him as he left the dinner table. There is no doubt that Louis of Battenberg is the most popular German prince who has made his home in England. He is now a British subject.

A SILLY SAYING.

"It is a common but silly opinion prevailing among a certain class of people that the worse a remedy tastes, smells or hurts, the more efficacious it is." So says a well-known English physician. He further adds: "For example, let us consider cod liver oil. As it is extracted from the fish this oil is so offensive to the taste and smell that many cannot use it at all, no matter how badly they need it. Yet cod liver oil is one of the most valuable drugs in the world and it is the greatest pity that we have not thus far been able to free it from those peculiarities which so seriously interfere with its usefulness." This was written years ago; the work of civilizing and redeeming it has since been triumphantly accomplished; and as a leading ingredient in the remedy called WAMPOLE'S PREPARATION the oil retains all its wonderful curative properties with no bad smell or taste whatever. It is palatable as honey and contains all the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and Extracts of Malt and Wild Cherry; creating a medicine of unequalled power for the diseases most prevalent and fatal among men, women and children. There is no other remedy to compare with it. It increases the digestive power of the stomach and in Blood Impurities, Throat and Lung Troubles, Nervous Dyspepsia and Scrofulous Affections it gives quick and certain relief and cure. Dr. G. C. Shannon, of Canada, says: "I shall continue its use with, I am sure, great advantage to my patients and satisfaction to myself." Has all the virtues of cod liver oil; none of its faults. You may trust it fully; it cannot disappoint you. At all chemists

UNCLE SAM OUR DEBTOR

Hawaii Has Paid All Expenses Since Annexation.

That Uncle Sam is clearly in debt to the Territory of Hawaii since annexation, from the standpoint of dollars and cents, is disclosed in the following elaborate report presented to the Chamber of Commerce trustees yesterday afternoon by Messrs. E. E. Paxton, chairman; W. A. Bowen and W. F. Pfothauer, committee on Harbors and Transportation:

Honolulu, T. H., October 10, 1906. To the Trustees of the Honolulu Chamber of Commerce.

The undersigned, constituting your Committee on Harbors and Transportation, beg to submit the following recommendations in regard to proposed improvements to the harbor of Honolulu and also for the erection of such lighthouses as are most urgently needed for the protection of the large number of vessels approaching the coasts of these islands.

In making these recommendations your committee has deemed it advisable, in fact essential, to be guided by the advice of Captain J. R. Slattery, U. S. A., the engineer in charge of all works of this kind within this territory. Under his able direction the deepening of Honolulu harbor has just been completed, and he has kindly furnished us a statement of the plans for further improvements with estimates, which have already been recommended to the proper authorities at Washington.

Honolulu Harbor. We would invite your attention to the accompanying map of Honolulu harbor. On the west side of the harbor the area enclosed by dotted lines indicates the entire project of the "Greater Honolulu Harbor," as planned, and which, when completed, will afford ample space for the future growth of commerce at this port, even after the completion of the Panama Canal. This work, however, is a heavy undertaking and would involve the removal of 1,174,165 cubic yards of material at an estimated cost of \$1,000,000, or \$1,174,165.00.

While it would be extremely desirable to have this entire work completed under one continuing contract, thereby greatly reducing the cost of same, we do not deem it advisable to ask for so large an appropriation at the present time. We would call your attention, however, to two sections of this work which have already been recommended by the local engineer and for which, we believe, an appropriation should be urgently insisted upon.

(1) Lighthouse Point. This point of coral, on which the present lighthouse is situated, juts out into the entrance to the harbor and affords a dangerous menace to vessels on entering and leaving the harbor, necessitating a sharp turn at that point. This, as shown, is a portion of the general plan above referred to, and to dredge the same down to full depth would involve the removal of 140,000 cubic yards at an estimated cost of \$210,000, provided an appropriation for only this much work is obtainable.

(2) Dredging to full depth that portion of the area comprised within the general plan now owned by the Oahu Railway & Land Company and the Dowsett Company, Limited. As will be seen by glancing at the map, the removal of this area will greatly enlarge the basin at the upper end of the harbor and will greatly facilitate the turning of vessels in the vicinity of the Railroad and Haekfeld wharves. On account of the large number of vessels docking in this portion of the harbor additional room for maneuvering is greatly needed. This area comprises 311,374 cubic yards, the removal of which is estimated to cost \$389,217.50, provided a contract is let for this work only.

If an appropriation for only one of these improvements can be secured it is hard to decide which is the most needed.

We would particularly call your attention, however, to the fact that if the work last above referred to is commenced within the next five years this land can be obtained by the United States government for one dollar, under the terms of an option which it holds from the present owners. Unless an appropriation is obtained for this work in the next Rivers and Harbors Bill there will be a danger of the option expiring before the appropriation is available for the work, as land in that vicinity is held at a very high value, and it will probably be impossible to secure a renewal of this option if it is permitted to expire.

We would also call your attention to the fact that if an appropriation covering the removal of Lighthouse Point and the dredging of the northwest corner of the harbor can be secured at one time, and the work let under one contract, it will be a saving to the United States government of not less than one hundred thousand dollars according to the estimates made by Captain Slattery.

From the standpoint of economy, as well as of utility, your committee urgently recommends that an appropriation be made by the next Congress covering both of these improvements, the estimated cost of which, if carried out concurrently, would be \$496,511.40.

In asking for an appropriation for the improvement of Honolulu harbor, as well as for any other improvements which may be recommended by this committee for the consideration of Con-

gress, we would respectfully call your attention to the increase of the external commerce of the Territory of Hawaii during the past nine and one-half years, from January 1st, 1896 to June 30th, 1905. The value of the total commerce of the territory for the calendar year 1896 was \$21,578,882. This had increased in 1905 to \$50,893,009, or 136 per cent. That the commerce of the Territory is still on a good healthy growing basis is attested by the fact that the total amount for the year 1904 was \$40,989,566, which shows an increase during the year 1905 of nearly 25 per cent over the preceding year.

We would also call your attention to the fact that since the annexation of these islands to the United States there has been collected in Customs and Internal Revenue up to June 30, 1906, \$7,629,576.51. As against this, appropriations have been made by Congress for payment of bonded debt, fire claims, harbor improvements, building sites, fortifications, leprosarium, expenses of maintaining the Federal government in the Territory aggregating for the same period, \$7,189,684.87. This shows we have not only squared our account with the national government but have a balance of nearly a half million in our favor.

As was very aptly stated by the chairman of the Hawaiian Committee on the Refunding Bill last February, it is not fair to charge the payment of \$4,000,000 debt to us, and it should be deducted, as it was a contractual payment specifically named in the Organic Act in return for the cession of lands, harbor and other Territorial property. As was also stated, Hawaii enjoys the unique position of being the only Territory of the Union that is not and has not been an expense and burden to the Federal government.

Pearl Harbor. We earnestly recommend that there be included in the Rivers and Harbors Bill at the next session of Congress an appropriation sufficient to cover the expense of surveying Pearl Harbor and preparing plans for its improvement. The estimated amount for this work is the moderate sum of two thousand dollars. Considering the fact that there has been expended in dredging the bar at the entrance of Pearl Harbor the sum of \$125,000, and the fact that the harbor is at present unavailable for shipping purposes until further improvements are made, it is exceedingly important that a survey be made and plans prepared for further improvements at the earliest possible date.

Lighthouses. The recent disaster to the fine steamship Manchuria has been an object lesson of the great danger to the many vessels calling at the several ports of these islands on account of the lack of necessary lighthouses. Steps have already been taken for the erection of a first order light at Makapuu Point; it is safe to say that the disaster above referred to would not have occurred had this light been in operation. On account of the close proximity of the island of Molokai to Oahu, however, the necessity is almost as great for a similar light on the north coast of that island as at Makapuu Point. The recommendation has already been made for a Fourth Order light at the Leper Settlement, at an estimated cost of forty thousand dollars. On the advice of Captain Slattery we would earnestly recommend that this recommendation be changed from a Fourth Order to a First Order light at that point.

The need of a First Order light on the north coast of Kauai is very great. There is at present no light at that point for shipping approaching these islands from China or Japan. This coast is a menace to all of the fine large steamers plying between the Orient and the Pacific Coast via this port, and the most urgent request should be made for an appropriation for establishing a light at some point on the north coast of Kauai where the greatest amount of protection would be afforded.

If the foregoing suggestions meet with your approval, your committee recommends the adoption of the following resolutions:

[See report of Chamber of Commerce meeting for resolutions adopted.]

(Signed) ELMER E. PAXTON, Chairman.
W. PFOTHAUER, W. A. BOWEN, Committee.

WORLD'S NEWS DAILY

MISSIONARY MOTHER RICE IS NINETY YEARS OF AGE

GRANDMA RICE AND HER GREAT GRANDCHILD.

Today is the ninetyeth anniversary of the birth of Mrs. Mary Sophia Hyde Rice, widow of the late William Harrison Rice, of Lihue, Kauai. "Grandma" Rice, as every one delights to call her, surrounded with her children and grandchildren to the fourth generation, enjoys comparatively good health and is still engaged, through her liberal gifts and her encouragement, in the labor of elevating the Hawaiian race.

This estimable lady was born in Seneca Village, N. Y., her father having been the Rev. Jabez Backus Hyde, who was a missionary among the Seneca Indians in Western New York. She is a descendant of William Hyde, who landed in America in 1633, and is also a descendant of Mary Winslow, niece of Governor Edward Winslow, of the Mayflower. We have been permitted to see a genealogy of Grandma Rice which contains a complete chain of ancestry to Alfred the Great, of England, A. D. 871, a most interesting and historic document.

Mrs. Rice was married, September 28, 1840, to Dr. William Harrison Rice, of Hannibal, N. Y. They decided to devote their lives to the education of Hawaiians, and sailed from Boston on November 14, 1840, on the ship Gloucester, which carried the ninth company of missionaries, consisting of Rev. Elias Bond and wife, Rev. Daniel Dole and wife, Rev. John D. Paris and Mr. and Mrs. Rice. The voyage was an exceedingly long one, of one hundred and eighty-eight days, making two stops, one at Rio de Janeiro, where they were entertained hospitably by the Rev. Mr. Spaulding, a Methodist minister, and again at Valparaiso. Of the tedious voyage they merely said that "the Captain, Estabrook, was kind and attentive." They arrived at Honolulu May 21, 1841, and were made welcome by the missionaries who had preceded them.

Mr. and Mrs. Rice were first stationed at Hana, Maui, far remote from any white population; in fact, in the midst of a purely Hawaiian settlement. Here they remained for three years, when they were called to take charge of Punahou in the summer of 1844. Let us quote somewhat from Grandma Rice's reminiscences:

"After one of those memorable schooner voyages (which, thank God, are things of the past), we reached our new home, weary and sad. In my arms a crying baby, who bore the name of Emily Dole, but she whose name she had, gifted intellectually, a friend in whom I rejoiced as one that helped me, whose society would have given grace and charm to our new duties, had just been carried from Punahou to the 'house appointed to all.' Many of her duties I was to assume. Was expected to be a mother to ten or twelve boys with limited wardrobes, which required two days of the week for repairs. I had also the care of their rooms. To these duties was added teaching. Punahou, the princely gift of Father Bingham, was not as now an inviting place. It was without flowers or trees and connected with Honolulu without a treeless plain. The adobe rooms were of the simplest construction, and an economy was necessary that forbade adornment within. Yet we had those beautiful mountains and the grand old sea to enjoy. Then we had a priceless spring, water from which was carried to Honolulu in demijohns. All the cooking for the family was done in an open fireplace with the help of a brick oven. The cook-house was separated from the dining-room. The path to it was without any shelter from the strong trade winds which often rushed into the house, carrying things hither and thither, and we ourselves at times seemed powerless to withstand the blast. Our table was never satisfactory; the price for board was small and no fresh vegeta-

bles could be had much of the year. Until the Chinese succeeded in their gardens it was thought impossible, except during the rainy season, to raise anything except taro, sweet potatoes and bananas. We were associated with the Rev. Daniel Dole, an Israelite indeed, and Miss Marcia M. Smith. I remember her as the kindest of associates, ever striving to carry the heavier part of the burden. Punahou was at that time a sort of missionary hotel, and we greatly enjoyed the visits of our missionary friends."

Speaking of the annual meetings, "whether the tribes go up, the tribes of the Lord," and the reunions of the missionaries at Honolulu, she says:

"Parents and children came from the different stations with household goods sufficient to make a home in the better native houses. Then we assembled in the adobe schoolhouse—fathers, mothers, children, the elder boys whittling on the back seats, mothers and daughters with their needles. There were many opportunities of social converse. Reports were read, matters of interest discussed. Devotional services were held together; we sat down at the table of our Lord. Was there ever more soul-stirring music than our grand old hymns, rolled out by the voice of Father Thurston, leading in Lennox?"

BECAME HOME MISSIONARIES.

"In 1852 there was a longer session than usual, for that year the change came. By one stroke of the pen in Boston we were changed from foreign missionaries to home missionaries, to get in part our own support, to hold property, and the property of the Board was to be divided—houses, lands and herds. Before this, or about the same time, King Kamehameha had expressed a wish that the mission families remain here, and had given to each family at a low price a small tract of land. Many of the missionaries had small patrimonies and paid for this land. From this has arisen much scandal to the mission and the taunt of rich missionaries. But a careful survey of the families of the mission will show that the majority are poor, and will convince one of the truth of the remark once made by His Excellency, R. C. Wyllie, that the mission had, on very small salaries, lived decently and raised their families creditably, not knowing the faculty of many of the mission mothers."

"In the spring of 1854 we left Punahou, poor and worn, feeling that our salary was of more value to the school than our services. Though it was often very hard at Punahou, with perplexing questions and conscious mistakes, as I review our life work I must be thankful for ten years' service at Punahou."

The Rices then settled at Lihue, Kauai, where they struggled for a living, while still having a supervision of the moral and religious welfare of the Hawaiian people. Gradually Mr. Rice's sugar fields enlarged until they were merged into the Lihue sugar plantation, of which he was manager. His health had begun to fail while at Punahou, and in fact was the prime cause of his leaving that institution. He died May 27, 1853, leaving his widow and a son, W. H. Rice, and daughters, Mrs. Paul Isenberg, Mrs. C. M. Cook and Mrs. George De LaVergne. Her daughter, Mrs. Isenberg, died, leaving a son, the Hon. D. P. R. Isenberg, and a daughter, the wife of Rev. Hans Isenberg.

Grandma Rice has lived to see her grandchildren and great grandchildren multiply around her, all of whom rise up to call her blessed. The Friend of December, 1902, says of Grandma Rice:

"Her life is a placid stream which beautifies all its banks. She is remembered as one of the early teachers of Punahou, and her gentle and persuasive methods reigned both in schoolroom and in her parlor classes, where, at certain times, she taught the clumsy fingers of small boys to sew and to braid. Mrs. Rice was to the manor born, her father being then a missionary among the Indians on the Buffalo reservation. Her first four years of labor here was at the Hana station, east end of Maui, and Mrs. Conde was

the only white lady within forty miles; then came nearly ten years at Punahou school, and then Mr. Rice, for his own health's sake, moved with his family to Kaula, and she now eats and gives away fruit from trees which he planted forty-eight years ago."

CHILDREN.

In buying a cough medicine for children never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it and relief is always sure to follow. It is especially valuable for colds, croup and whooping cough. For sale by Benson, Smith & Co., Ltd., agents for Hawaii.

THE LATE INSURRECTION IN CUBA.
An insurgent camp raided by Government Rural Guards.

B. M. AYRES GETS BACK AT SHERIFF BROWN

Editor Advertiser: I would like to say a few words regarding a statement by Sheriff Brown in yesterday's Star, in an article headed "Sheriff Explains Drunk Releases."

Brown's statement is in part as follows:
"As an illustration of this, I recall that some months ago, H. M. Ayers, a reporter for the Advertiser, went into Cunha's saloon under the influence of liquor and caused a disturbance. The police were sent for and an officer took Ayers into custody. He was locked in the police station and kept there during the night. In the morning he had sobered up sufficiently to admit of his release. He was not prosecuted."

All well and good.
That I was arrested, kept in the police station all night and released in the morning I admit. There is more to the story, however.

The affair occurred about July 1, 1905, shortly after I returned from China and before I had joined the Advertiser staff.
The Advertiser was bucking Brown at the time and I received a quiet tip that I was suspected of inspiring some of the articles and that the police were going to put up a job on me as soon as they got a chance.

On or about May 31 Chester Doyle accosted me in Cunha's alley and asked me where my wife was. I told him that she was returning from China by the next Korea. He said that I had deserted her and told me that if I would give him \$10 he would keep the story out of the papers.
I knocked Doyle down, also some of his friends who came to his rescue.
The next evening I went into Cunha's place and there was Doyle. I was not under the influence of liquor and called for a drink. Acting on a nod from "Detective" Doyle the bartender refused to serve me. This exasperated me and I threw down a \$10 gold piece on the counter to show that I had the necessary money to pay for what I ordered. I was still refused service and words followed.

Doyle told the bartender to ring for a policeman, and presently Officer Neilson put in an appearance and told me to go with him to the station. I said that it was an outrage and he started to pull me along with him. I resisted and was clubbed on the head and knocked down.
I was dragged toward the police station and when opposite the postoffice a special officer came along and helped to hustle me to the station. I was put in a cell and not released until the next morning, when I was fortunate enough to find some one to bail me out. My clothes, which were new, were torn to pieces, and I had to mend them before proceeding home.

On leaving Cunha's saloon I had a ten-dollar gold piece in my pocket, some silver dollars and a few cents. When released I asked for my money and was given a small sum, amounting to little over a dollar. Where the balance went I have never been able to ascertain.
The following morning my name appeared on the docket with a charge of drunkenness entered against it. I went to Brown and asked him to drop the matter, but he said that he could do nothing in the matter and that I must consult Prosecuting Attorney Douchitt. I did this and my case was stricken. I immediately wrote a letter to

Sheriff Brown telling how I had been robbed and ill-treated and asking for an investigation. He was good enough to reply that any loss or personal damage I might have sustained was my own fault.

I have heretofore refrained from giving publicity to the outrage to which I was subjected, but in view of Sheriff Brown's statement in the Star, feel justified in making the facts known. I trust in the near future to supply you with facts of similar assaults and robberies by members of the police department.
H. M. AYRES.

Keeping Promises

Honolulu Appreciates Always When Promises Are Kept.

Every time you read about Doan's Backache Kidney Pills you are told they cure every form of kidney ill, from backache to urinary disorders. How are our promises kept? Ask any citizen who has tried the treatment. Ask the following Honolulu man.

W. J. Maxwell of this town, Truant officer, writes thus: "I suffered with a horrible pain in the small of my back (an almost invariable symptom of kidney trouble) for a number of years. I was advised to take some of Doan's Backache Kidney Pills, and following the suggestion I went to the Hollister Drug Co's store, Fort street, and got some of these. Having taken them, they relieved me straight away, and are, I may say, the best and in fact the only cure for backache. I have mentioned the virtue of this wonderful remedy to several persons, among whom is my friend, Mr. Frank Metcalf, who found relief, and he is now a firm believer in Doan's Backache Kidney Pills."

Doan's Backache Kidney Pills are sold by all chemists and storekeepers at 50 cents per box, six boxes \$2.50, or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

GAVE CONGRESSMAN A TIP.

Warren F. Daniell, the wealthiest man in the vicinity of Franklin, N. H., is exceedingly democratic in manner. Some years ago he represented his district in Congress. One day as Congressman Daniell was standing in one of the corridors of the capitol a New York millionaire, thinking he was an attache of the building, asked in rather a brusque manner to be directed to the room of a well-known house leader. Congressman Daniell conducted him to the desired place and as he was leaving the New Yorker pressed a 25-cent piece into his hand. Mr. Daniell noticed that a newspaper man witnessed the transaction and sliding over toward him said: "Don't give this away; that is the first money I have earned since I have been in Congress." The next day the millionaire was in the visitors' gallery and saw Daniell occupying a seat in the house. After the session he hunted Mr. Daniell out and the two took supper together at the New York man's expense.

INFLAMMATORY RHEUMATISM.

Anyone who has ever experienced the excruciating and almost unbearable pains incident to inflammatory rheumatism, will be pleased to know that prompt relief may be had by applying Chamberlain's Pain Balm. Mr. D. Snyder, of Roseville, Ontario, Canada, says: "I have been troubled with inflammatory rheumatism for the past two years and unable to sleep at night. I have taken many remedies but must say Chamberlain's Pain Balm is the best I have ever tried." For sale by Benson, Smith & Co., Ltd., agents for Hawaii.

Porto Ricans' Complaint

Honolulu, T. H., October 10, 1906.
 Editor Advertiser: We, the undersigned, will consider an exceptional favor, if you please give publicity in your illustrated paper to the following:

There are not doubt that we Porto Ricans were and still are the objects of the hate and odious reprimand from the whole people of Hawaii, whose hostile attitude has kept against us for the long term of about six years.

It is so true that there comes with us several criminal whose bad sentiment and unmoral life, bring merely the fame and bad name they won.

But let us say only this time, that similar attitude of the thing, never will give, in justice, a right to Hawaii, to do what Hawaii do to a poor and unrepresented people as we are in this Territory.

Let us say that the criminals with us, coming to Hawaii, were the very few and that they are going away as they were always the same authors and re-authors of ones and an other causes.

Let us say that thousand of Porto Ricans coming to Hawaii, were and are honest and trustworthy workmen and that they are living at plantation and at some other places where they can win the daily bread as well honest as in plantations.

Let us to believe ourselves to have undisputedly a right to a little more of consideration and some more respect to our person's duty and so tell it to the Hawaii's people. We think to merely it, if not because we are poor

and some what stupid; for we are men or human at last.

It is to unkind for a people under the name of American to ill-treat and spid at the face of some other with the same right of human under the sun for the only reason that they think that the ill-treated and face's spiding are very poor intellectually as materially and for the late have't a representation of his own with some intelligence to defend them.

Many are the thing we have to say, many the charged we have to complain against both the government and inhabitant of the Territory.

When in the course of the time we think that our history in Hawaii have not a second, we heard the voice from somebody saying that it's true because our bad doing. But hereby we are to apologize that that very opinion is the one that gave and still give strong to our misfortune and is the one that became our disgraceful ejection in our prejudice.

Every-body have a right to insult us, to send the best man of us to jail in virtue of any falsehood, and any person, low or high to condemn us, is quite enough.

Beside that every ignorant of Hawaii believe himself five hundred time great and noble than a Porto Rican, there is our country occupying a low concept and a disgraceful name in the brain of each inhabitant of this country, and there come the vile insult not yet from the common people solely, but for some other—in our opinion—only imminences for Hawaii and into Hawaii.

We wish that this Territory would make a good interpretation from this letter. We like to make public that we are not indifferent at all with the hostility of this country against ourselves and the name of our country. When some months ago some one made an asquerous opinion of our name in general, the people and press of P. Rico was acknowledged about it and pretty soon Hawaii will know that our Commissioner in Washington, D. C. will do what in right is due to defend his people and his honor.

In the meantime it is not enough how well does Hawaii her do fulfilling up the long list where the world shall read the prolonged inquiry for no other name it has—with which Hawaii has had obsequed to the Porto Ricans.

The honest, the trustworthy and impartial Americans, can read some of them here:

One buglar robbed somewhere; it is a Porto Rican all other nationalities are quite innocent, and then, there came immediately after six, four or two legal arrest in some of our honest countrymen whom, before see a Judge or get an illegal liberty, of course, receive some insult sometime practically, from a policeman may be from a low birst and bad antecedent than the poors arrested.

If there came one Porto Rican from the country, every spy or secret policeman who call himself a captain into us, order him to get out of town in half an hour.

Our interpreter in Territorys Court, are detactors, officer who arrest, witness and every thing.

If a Porto Rican is without job two or three days during which is going around looking for it; many policemen will win a reward giving him to send him to jail for six months—as a vagrant!

Every American or English negger any native mix with the negro race or any person not pure a haole; it is a Porto Rican. Watch him, don't you speak him, arrest him, he is a Porto Rican!

Every individuality of the other races believe themselves with a right to call without respect nor consideration all the insulting word and bad nick-names of the English languages an Hawaiian dialect to ourselves, and many more, if we answer or will pay with the same thing; the first policeman scene at the street is called and it is sure we became fined or imprisoned.

Everybody know that Porto Rico is a permanent possession of the U. S. and, perhaps the doctos of this Territory knows that the Supreme Court of the Grand Republic North American; in March 1902 A. D. declared the Porto Ricans with the same right as any American to work and get job at any public work under the American flag. Hawaii is a Territory of U. S. and so we believe to have the same right as a Hawaiian, and an American, and many more than a Portuguese, or Germanian, or Gallican now naturalized or Americanized.

With the members of the Twenty-first Infantry on board, returning from eighteen months' active service in the Philippines, the army transport Logan reached port yesterday morning, sailing again in the afternoon. The voyage from the Orient had been made in good time and without any accidents or casualties among the 200 persons aboard. Among these is the youngest stowaway ever carried by any of the transport fleet, being the three-year-old son of a negro soldier, having been taken aboard with the idea that there need be no formalities connected with his transportation, but which the rules required to be listed as a stowaway and subject to the dire penalties of the offense. There were no irons observable, however, when the pickaninny was on deck during the stay in port.

The 21st Infantry earned an enviable name for itself while on service in the Far East, having been stationed on the Island of Samar and recently having supplied some companies for Leyte, where active service against the Pulajanes was seen. In one engagement, in which Company E was engaged, the Pulajane chief Daguhob was captured and 100 of his men killed, effectually breaking up the band.

At the present time there are few of the regulars doing the kind of patrol duty at first assigned to the 21st, this work being given over to the constabulary, recruited from the natives, and which is, in the words of one of the officers of the regiment, "very useful except when there is something to do."

One of the exciting experiences of the regiment in Samar consisted in going through a typhoon last fall, which swept the island, killing 300 people and destroying an immense amount of property. The barracks of the 21st was torn away by the wind and one member of the regiment lost his life among the falling timbers.

The orders received for the regiment in Manila were to go to Fort Logan, in Colorado, but it is expected that other orders separating the companies will be received on their arrival at San Francisco, due to the shifting around of the mainland regiments incidental to the Cuban trouble.

While at Manila the Logan was the first vessel to tie up at the new government dock there. From this point she took all the freight disembarked from the transport Sheridan.

She sailed for the Coast at four o'clock, taking mail, it being decided that owing to the delay of the S. S. Ventura she would be the first vessel to arrive at San Francisco.

of Europe. Mr. Bonine also secured, while here, several hundred plates from which he proposes making a representative collection of lantern slides, which will be placed on the market at a low figure, thus affording the many lecturers throughout the country an opportunity to secure an up-to-date collection of slides of island scenery. In bringing about the visit of Mr. Bonine the Promotion Committee feels that it has scored a distinct success in the way of advertising Hawaii.

One of the most effective circular letters sent out during the past quarter was the lithograph copy of a communication from Mr. T. G. Lyster, a Colorado banker, who spent a portion of last winter in Honolulu. With this we enclosed a short note, receiving an unusual number of most satisfactory answers from bankers throughout the territory covered.

Through the courtesy of the Los Angeles Chamber of Commerce our folders are now being distributed from their headquarters at Atlantic City, where we also have an exhibition some very attractive enlarged photographs of island scenery.

After considerable correspondence the Promotion Committee has induced several of the leading railroads to include maps of the Hawaiian Islands in all of their wall maps. Some of the roads already have such maps and will make certain corrections suggested by us in their next editions.

In order to bring the leading hotels of Australia, New Zealand, China, Japan and India more closely in touch with Hawaii, we are now sending regularly to some fifty such hotels the Weekly Bulletin and Paradise of the Pacific. We also include in this mailing list certain hotels on the Pacific coast.

We have now in our rooms quite a library of city directories, to which additions are constantly being made.

Our special chart of the Pacific has been completed and we hope to have the same ready for distribution shortly. Arrangements have been made for an exhibit of Hawaiian photographs at the coming New Zealand Exposition. Our folders will also be there for distribution.

One of the most satisfactory pieces of work undertaken by the Promotion Committee was the bringing to Hawaii of the Southern California Editorial Association, the members of which have but just left us. As a result of this trip we are going to receive many hundreds of columns of interesting write-ups, not only throughout Southern California, but all over the United States, just at the time of the year, too, when winter trips are being planned.

I am pleased to state further that the prospects are excellent for additional excursions to the islands during the coming season, including one of Los Angeles business men, another from Berkeley and Alameda, conducted by Mrs. Weathered, as well as a Portland Commercial Club excursion. We also have reason to expect delegations of newspaper men from Kansas, Colorado, Wyoming and Washington. Respectfully submitted, H. P. WOOD, Secretary.

BY AUTHORITY.

NOTICE TO NUUANU WATER CONSUMERS.

Again the supply of water is proving inadequate to meet the demands of consumers on the Nuuanu or high pressure system. At least until we have rains, it will be necessary, in order to avoid exhausting the present supply, to restrict the use of water for purposes of irrigation to two hours each day, namely, from 6 to 8 o'clock in the morning.

Consumers that are found irrigating outside of these hours will be subject to immediate shut-off without further notice.

J. H. HOWLAND,
 Superintendent of Honolulu Water Works,
 Department of Public Works, October 8, 1906. 7541

LAND DEPARTMENT, TERRITORY OF HAWAII.

NOTICE OF SALE OF LANDS AT PUBLIC AUCTION.

At 12 o'clock noon, Thursday, October 11, 1906, at front entrance to Judiciary Building, Honolulu, there will be sold at public auction, under the provisions of Part IV, Section 17, Land Act, 1895 (Section 276 Revised Laws of Hawaii), the following lots of choice land, located on Makiki Slopes, Kona, Oahu:

Lot No.	Area.	Upset Price
589	95,200 sq. ft.	\$4,750.00
590	134,570 "	5,750.00
591A	67,475 "	2,500.00
591B	77,300 "	3,750.00
592	42,676 "	2,750.00

Terms: Cash, U. S. gold coin.

For plans and further particulars apply at Land Department, Judiciary Building, Honolulu.

JAS. W. PRATT,
 Commissioner of Public Lands.
 Honolulu, T. H., September 11, 1906.
 7518—Sept. 12, 15, 22, 29; Oct. 6, 11.

Notice to Candidates for Election to the Legislature.

Notice is hereby given that, whereas it is required by law that candidates for election to the Legislature on the Island of Oahu shall deposit their nominations with the Secretary of the Territory not less than ten days before the day of a general election, it will be necessary that such nominations be filed in this office not later than twelve o'clock midnight on Friday, the 26th day of October, 1906.

In order to be eligible to election as a Senator a person shall be a male citizen of the United States; have attained the age of thirty years; have resided in the Territory of Hawaii not less than three years and be qualified to vote for Senators in the district from which he is elected.

In order to be eligible to election as a member of the House of Representatives a person shall, at the time of election, have attained the age of twenty-five years; be a male citizen of the United States; have resided in the Territory of Hawaii not less than three years; and shall be qualified to vote for Representatives in the district from which he is elected.

Each nomination must be accompanied by a deposit of twenty-five dollars in cash, and be signed by not less than twenty-five duly qualified electors of the district for which such election is to be held.

The name or names of the candidate or candidates shall be printed with the Hawaiian or English equivalent, if such, there be. If the candidate shall so request the Secretary of the Territory in writing at the time his nomination is filed.

A. L. C. ATKINSON,
 Secretary of Hawaii.
 197—Oct. 7, 11, 14, 18, 21, 26.

TUMORS CONQUERED

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in the Case of Mrs. Fannie D. Fox.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

The growth of a tumor is so slow that frequently its presence is not suspected until it is far advanced.

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by profuse monthly periods, accompanied by unusual pain, from the abdomen through the groin and thighs.

If you have mysterious pains, if there are indications of inflammation or displacement, secure a bottle of Lydia E. Pinkham's Vegetable Compound right away and begin its use.

Mrs. Pinkham, of Lynn, Mass., will give you her advice if you will write her about yourself. She is the daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge.

Dear Mrs. Pinkham:—

"I take the liberty to congratulate you on the success I have had with your wonderful medicine. Eighteen months ago my periods stopped. Shortly after I felt so badly that I submitted to a thorough examination by a physician and was told that I had a tumor and would have to undergo an operation.

"Soon after I read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After taking five bottles as directed the tumor is entirely gone. I have been examined by a physician and he says I have no signs of a tumor now. It has also brought my periods around once more, and I am entirely well."—Fannie D. Fox, 7 Chestnut Street, Bradford, Pa.

SELF CURE NO FICTION!

MARVEL UPON MARVEL! NO SUFFERER NEED NOW DESPAIR, but without running a doctor's bill or falling into the deep ditch of quackery, may safely, speedily, and economically cure himself without the knowledge of a second party. By the introduction of the New French Remedy, THERAPION, a complete revolution has been wrought in this department of medical science, whilst thousands have been restored to health and happiness who for years previously had been merely dragging out a miserable existence.

THERAPION No. 1 is a remarkably short time, often a few days only, effects a cure, superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2, for impurity of the blood, scurvy, pimples, spots, blotches, pains and swellings of the joints, gout, rheumatism, French Roudy, etc. This preparation purifies the whole system through the blood, and thoroughly eliminates all poisonous matter from the body.

THERAPION No. 3, for nervous exhaustion, impaired vitality, sleeplessness, and all the distressing consequences of dissipation, worry, overwork, etc. It possesses surprising power in restoring strength and vigor to the debilitated.

THERAPION

chapters should see that the word "Therapion" appears on British Government Stamp (it is sold by the principal Chemists throughout the world. Price in England, 2/6 and 4/6. Pure white letters on a red ground) affixed to every package by order of His Majesty's Hon. Com. missioners, and without which it is a forgery.

SELF CURE NO FICTION!

MARVEL UPON MARVEL! NO SUFFERER NEED NOW DESPAIR, but without running a doctor's bill or falling into the deep ditch of quackery, may safely, speedily, and economically cure himself without the knowledge of a second party. By the introduction of the New French Remedy, THERAPION, a complete revolution has been wrought in this department of medical science, whilst thousands have been restored to health and happiness who for years previously had been merely dragging out a miserable existence.

THERAPION No. 1 is a remarkably short time, often a few days only, effects a cure, superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2, for impurity of the blood, scurvy, pimples, spots, blotches, pains and swellings of the joints, gout, rheumatism, French Roudy, etc. This preparation purifies the whole system through the blood, and thoroughly eliminates all poisonous matter from the body.

THERAPION No. 3, for nervous exhaustion, impaired vitality, sleeplessness, and all the distressing consequences of dissipation, worry, overwork, etc. It possesses surprising power in restoring strength and vigor to the debilitated.

THERAPION

chapters should see that the word "Therapion" appears on British Government Stamp (it is sold by the principal Chemists throughout the world. Price in England, 2/6 and 4/6. Pure white letters on a red ground) affixed to every package by order of His Majesty's Hon. Com. missioners, and without which it is a forgery.

PROMOTION WORK

PUSHED BY WOOD

The quarterly report of Secretary H. P. Wood of the Hawaii Promotion Committee presented to the Chamber of Commerce yesterday was as follows:

Honolulu, October 1, 1906.
 Mr. W. H. Giffard, President, Honolulu Chamber of Commerce, Honolulu, Hawaii.

Sir: Since my last quarterly report as Secretary of the Hawaii Promotion Committee, our office force has been very busy in getting out special circular letters to the leading medical men throughout the West and Northwest, with which we enclosed our little folder on climate, calling special attention to Dr. L. E. Cofer's statements therein contained. We have also reached with our postal folder many hundreds of people in the above-mentioned area who have residence telephones. At the present time we are sending out special circulars to several thousand carefully-selected addresses and will follow up this line of work until the end of December, by which time we shall expect to note an increase of travel this way, and though much has happened within the past few months tending to check ocean travel to Hawaii, yet the members of the Promotion Committee feel quite confident that a good season is ahead of us.

Mr. R. K. Bonine, who sailed for San Francisco August 14, after having spent several weeks in the islands securing an extended series of moving pictures for the Edison Company, writes that his company is already placing the films on the market and that it will only be a matter of a very short time before interesting Hawaiian scenes will be on view in every vaudeville theater throughout the United States and Canada, as well as in the principal cities

SHIPPING NOTES.

The following sugar on Kanaui is reported: V. K., 1300 bags; W., 800; M. A. K., 22,299; G. & R., 1408.

The ensign of the transport Sheridan was at halfmast yesterday, following the order issued at the Naval Station in honor of the memory of the late Rear Admiral Train.

Yesterday the lines securing the hulk Melancthon to the transport Sheridan were cast off, the list in the transport having been overcome and there being no further danger of her turtling.

The steamer Mikahala arrived yesterday morning from Nawiliwili with 522 bags of sugar, 100 bags of taro and a large amount of sundries. Captain Thompson reports good weather throughout the trip.

A. E. MURPHY, C. of R.

OLD MAN'S NEXT FRIEND

Henry Vieira's Deed of His Property Is Attacked.

Judge De Bolt granted the petition of Caesar Vieira for leave, as next friend of Henry Vieira, to bring a suit for the latter against Rosa Rodrigues and many others to cancel a deed. Five pieces of land are specified as located in Honolulu and Lahaina and owned by Henry Vieira about August 24, 1906, their assessed valuations making a total of \$13,340.

On the date just mentioned a deed was executed for the property described, for the expressed consideration of ten dollars and love and affection, purporting to convey it to Rosa Rodrigues, Maggie A. Gonsalves, Laura Silva, Caesar Vieira, Anastasius K. Vieira, Adelaide V. Correa, Fanny Chapman, William A. Vieira, Belina Arnand and Joseph O. Vieira, but the deed was never delivered to any of the grantees except Rosa Rodrigues, Maggie A. Gonsalves and Adelaide V. Correa, the wives respectively of Jose P. Rodrigues, M. A. Gonsalves and Antonio G. Correa, all of these being named among the respondents.

It is further alleged that Henry Vieira was, at the time, over 78 years of age, illiterate, uneducated, unable to read or write, infirm both physically and mentally, and dangerously sick in mind and body to the extent that he was incapable and incompetent to transact any business or to manage or control his property and affairs.

Also, it is declared that, about three weeks prior to the making of the deed, Adelaide V. Correa went to the house of the complainant "under pretense of desiring to care for him in his old age, weakness and infirmity, and lived with him until the said instrument was made, executed and delivered to her," when she immediately abandoned him. While she lived at his house, it is averred, "she constantly importuned and urged complainant to make a conveyance of his property to his children under restriction, such that said children should provide and care for him during the remainder of his natural life."

Undue influence is particularly charged against Mrs. Correa, also Mr. and Mrs. Gonsalves and Mr. Correa, the last named as an attorney "trusted by the complainant with implicit faith," and it is said that the complainant was, during a large part of the time, confined to bed with infirmity and sickness, so that he was too weak to exercise any power of will against "the importunities, instructions, directions and compulsion" of these particular respondents.

Another statement is that, by the deed, complainant conveyed away all of his property except certain land incumbered by mortgages for more than its present value in favor of E. H. F. Wolter, trustee.

Caesar Vieira and his wife Emma desire to have the conveyance set aside and to take no advantage thereof, and to make no claim thereunder adversely to the complainant's interests.

The prayers of the complaint are that the deed be canceled and the property of complainant described therein be placed in charge of a trustee or trustees.

Thompson & Clemons are attorneys for petitioner.

SIX YEARS FOR WAINEE

Kingsbury Explains His Remarks--Trial for Embezzlement.

George Wainee was sentenced by Judge De Bolt yesterday to imprisonment at hard labor for six years, on the jury's verdict of manslaughter in the second degree, with a recommendation to mercy.

S. B. Kingsbury, leading attorney for the defense, in asking for the minimum sentence—five years, the maximum being ten—disclaimed having had any intention of discrediting the Hawaiian judiciary or executive in his closing address to the jury. It was only what he now called the bureaucracy, that he said existed here, with which he had meant to find fault.

Every lawyer of experience knew that the appointed judges in the Territories were better than the elected judges in the States. He had expressed his appreciation of the abilities and character of Governor Carter. In conclusion he argued that the recommendation to mercy was part of the verdict and said that if the defense had spoken the last word the defendant would have been acquitted.

Deputy Attorney General M. F. Prosser ironically thanked Mr. Kingsbury for renouncing the intent to attack the administration of justice, adding: "There have been too many cases of wife-beating here. I came here with a view to seeing what sentence the court would impose upon a man who beats his wife to death. The mitigating circumstance in this murder case appears to be that only a woman was killed. The evidence would have warranted a verdict of murder in the first or second degree. I am only sorry that the court cannot impose a sentence higher than the highest."

Judge De Bolt praised counsel for their conduct of the case, making special reference to the volunteering of Mr. Rawlins to assist the defense on account of long acquaintance with the defendant, and said there should be a law fixing a fee for attorneys representing defendants unable to pay. Though he could hardly agree with the Deputy Attorney General's view of what the verdict might have been, he scarcely agreed with the jury, either. It was his opinion that Wainee should have at least five years in jail, therefore he sentenced him for six years. So Wainee will have to serve five with all his credits deducted.

EMBEZZLEMENT CASE.
C. A. Schmiedt's trial for embezzlement from the City Feed Store, a branch of the California Feed Company, was begun before Judge Lindsay yesterday. Deputy Attorney General W. S. Fleming appeared for the prosecution, and C. W. Ashford for the defendant. The trial is still on. Walter Starbird, T. W. Chase, Chas. Spencer, Solomon D. Koki, D. G. Jaeger, G. M. Lovsted, J. W. McDonald, W. O. Barnhardt, Walter K. Waiaman, Manuel Costa, S. W. Spencer and Henry M. Rodgers constitute the jury.

ADMIRALTY LIBEL.
Judge Dole continued the hearing of Thomas J. Ford's libel for \$5000 damages against the Oceanic Steamship Company for false arrest on board the steamship Ventura, in his chambers, throughout yesterday. The Grand Jury was holding its session in the courtroom. There were many legal combats over the admission of evidence.

JURY WAIVED CASES.
Jury waived cases on the present calendar will be in order for trial before Judge De Bolt at 10 a. m. on the days below mentioned:
B. T. White vs. M. R. Da Sa, Tung Yau vs. Liliuokalani, October 29.
Davis vs. Davis vs. See Lin and others, October 30.
Chang Kim vs. C. Lai Young, October 31.
Holt, Assessor, vs. Isaac Noar, Rubinstein & Co. vs. Chin Loo, November 1.
Amelia G. Silva vs. Augusta Bell, November 2.
Hee Fat vs. Hee Chang Sam, November 5.
Wong You et al. vs. E. C. Holstein, K. Nakamura vs. I. Mizata et al., November 6.
H. B. & Matting Co. vs. Duvauchelle et al., November 7.
J. C. Searle vs. A. Humburg, J. F. Bowler vs. Louis Marks, November 8.
J. E. Colburn vs. Lin Yiek Co., November 9.

MISUSE OF MATCHES.

A match is a piece of wood about two inches long with one end containing a coating of sulphur and phosphorus. One match doesn't amount to much, but Robinson Crusoe wanted one awfully bad. While matches are useful, one solitary match can do more damage in a few minutes than a baseball bat can in a year. If you think not, better ask someone who has had his home burned. Insure your home and furniture and matches can not cause you loss.

ENLISTED MEN HERE
GET NO EXTRA PAY

The Judge Advocate General of the Army has recently decided that the enlisted men stationed at the Hawaiian Islands are not entitled to extra duty pay. This decision is based on the regulation which provides that soldiers receiving the 20 per cent. increase for foreign service are not entitled to extra duty pay and that, as the Hawaiian Islands are considered foreign as far as military service is concerned, the soldiers serving thereon are not entitled to the privileges of extra duty pay. This ruling also applies to the Philippines.

GEN. SMITH ON TRADE RELATIONS

Governor General J. F. Smith, of the Philippines, was given a royal welcome at Manila upon his arrival there on the transport Logan from Honolulu. Previous to landing he was interviewed by a Manila Times representative and had something to say concerning affairs in Hawaii and the Manchuria.

Getting down to a discussion of sugar interests, General Smith said: "One of the great arguments advanced by our opponents was that the importation of sugar from the Philippines would destroy the beet sugar industry in the United States. They seem to lose sight of the fact that the beet sugar industry in the United States and the cane sugar industry combined, fall to supply the demand for sugar in the United States by 1,700,000 tons, despite the fact that the trade relations with Cuba, Porto Rico and the Hawaiian Islands are as liberal as possible in this particular direction."

"The wealth of the Hawaiian Islands in almost its entirety is traceable to the sugar industry and to the very free importation of Hawaiian sugar into the United States. One of the chief values of Cuba, a foreign country in every sense of the word, is the sugar industry. The same is true with regard to Porto Rico. These three places have the freest possible relations with the United States, three countries that do not absolutely need the building up that is required in the Philippines, and yet these islands, that the United States has taken up, with these people, whom the United States has adopted as its wards and has promised to care for and build into a prosperous nation, are left out of all consideration and treated in the most distant manner on the same plane as the most foreign of foreign countries. We do not even have the advantages enjoyed by some of the absolutely foreign governments in trade relations with the United States. But we will get it. Mark my words, it is coming, and when the people of the United States are thoroughly familiar with the situation here, and they are learning more in a week now than they learned in a year before, the people will force the adoption of proper measures toward us."

"We had a most enjoyable trip across the Pacific. The water was smooth all the way. None of us were much frightened when the Manchuria struck at Rabbit Island. In fact the passengers were about as cool as I ever saw. There was no panic or confusion. When I came on deck at daylight everybody was dressed and waiting coolly to leave the ship, if necessary, to stay on, if the damage proved small. Our skipper, Captain Saunders, was placed in a very unfortunate position. The headlands were obscured by a squall just as he was about to take his sight for the course, as I understand it. The ship was slowed down and was just moving through the water. When the squall lifted we were right on the reef. The engines were reversed at full speed and every effort was made to prevent our striking."

"Captain Saunders had been at sea forty-five years and had never had a casualty. He lost everything he possessed in the San Francisco earthquake and fire, and now, under the rule of the company, he will lose his ship. "Mrs. Smith and I did not leave the ship until twelve hours after she struck the reef. The Captain put everybody ashore when he found he could not get off. We were taken fifteen miles overland and finally landed in Honolulu. We have had an excellent trip from Honolulu."

"All the passengers on the Manchuria sympathized with the Captain and are not disposed to put any of the blame for the accident on him. I am glad to hear that the Manchuria will be saved. When we left she had not leaked a drop, the outer bottom being the only part of the ship that was damaged. There is a space of six feet between the two bottoms, I am told, and the ship rests on the reef on her outer bottom only. "I am glad to get back to the Philippines and the Philippine people. It seems like getting home once more. We have had a pleasant vacation, and now to work."
