THE PRESS ON ANNEXATION.

Extracts From the Press on the Suggested Hawaiian Grab--What Leading Journals Throughout the United States Think of the Scheme.

(From the S. F. Argonaut.)

The people of this city and State may have a false idea as to the reception of annexation by the people of the nation. The newspapers of San Francisco are so unanimous in favor of annexation that they may willfully mislead the people of California. Therefore, we have thought it well to print a few extracts from some of the leading journals of the country--some of them leading by reason of their influence, others by reason of their large circulation. These paragraphs are but a tithe of what we might print had we the space. It will give to Californians a faint idea of the way in which the country has received this astounding revolution in our foreign policy.

FROM PRESIDENT MCKINLEY'S INAUGURAL ADDRESS.

We have cherished the policy of non interference with the affairs of foreign governments wisely inaugurated by Washington, keeping ourselves free from entanglements either as allies or foes. We must avoid the temptation of territorial aggression.

FROM SECRETARY SHERMAN'S MEMOIRS.

The event of the future are beyond the vision of mankind, but I hope that our people will be content with internal growth and avoid the complications of foreign acquisition. Our family of States is already large enough to create embarrassment in the Senate, and a republic should not hold dependent provinces or possessions. Every new acquisition will create embarrassments. * * * The Union already embraces discordant elements enough without adding others. If my life is prolonged I will do all I can to add to the strength and prosperity of the United States, but nothing to extend its limits, or to add new dangers by acquisition of foreign territory.

A REVOLUTION IN OUR POLICY.

In negotiating with the Hawaiian Government a treaty of annexation Mr. McKinley has taken a step of the first importance, involving nothing less than a possible revolution in our foreign policy. Since Washington advised the country against entering upon entangling alliances with foreign powers, the prevailing sentiment of the American people has been opposed to the annexation of distant territory, and our one excursion in the business of colonization has not yet turned out a profitable investment in any respect. Filibusters and advocates of adventures and speculations in foreign lands have more than once encountered a hostile public sentiment, which has not only given them pause, but which has more than once wrung from them hasty protestations of innocence. Since John Quincy Adams' time we have heard of the value that Cuba would be as a territory of the United States, and General Grant set the precedent which Mr. McKinley is following by attempting to gain foreign possession through treaty. It is devoutly to be hoped, in the interest of the peaceful policy which has thus far governed this country, and which has done so much for the promotion of its prosperity, that this later effort will meet the fate of the former, and that the present Senate will be guided by impulses as patriotic as those which determined the action of the senators who followed Sumner. * * *

The question which is now before the Senate is, in essence, shall the United States enter upon a career of colonial expansion? And before

answering it in the affirmative, the Senate ought to be satisfied that the time has come for us to take our place among the nations that are constantly on the verge of war. If it be for our advantage to take Hawaii, how much more advantageous would it be for us to take all the Spanish possessions in the Caribbean Sea? If we need outlying posts and strategic points, we need them more in the Atlantic than in the Pacific, and if we are to take what we need without regard to the claims of European Powers, how can we consistently adhere to the Monroe doctrine, which denies to Europe the right to interfere in American affairs largely because the United States refrains from interfering in European affairs?

These are some of the serious questions which are at once suggested by Mr McKinley's treaty.—*Harp-er's Weekly.*

DEVELOP OUR OWN TERRITORY.

The annexation of Hawaii will benefit none but the sugar kings of that island, and their benefits will be bought and presented by the American people. Let Hawaii remain an independent republic. The United States should not begin the policy of reaching across the waves to grasp new territory. The work of developing the territory already within her borders is great enough to demand the entire efforts of her best statesmen.—*Omaha World Herald.*

WASHINGTON'S ADVICE DISREGARDED.

To annex Hawaii is to commence foreign complications, which General Washington was so earnest in counseling his countrymen to avoid, and it is to bring another State into the Union with a large colored and mongrel population. We shall see no end of trouble started by this event if we should actually annex the islands.—*Richmond Times.*

ASIATIC IGNORANCE.

What can we do with this mixture of races? If we make them into a territory, are the Portuguese to retain the ballot and out-vote the Americans? If we make them into a State, shall we consent to receive at Washington two Senators evolved from this mass of Asiatic ignorance?—*Baltimore Sun.*

THE DOLE FILIBUSTERS

Our government assumes that these Dole filibusters, who may be one in fifty of the inhabitants have a perfect right to give the islands away and hand its people over to be governed by foreigners, without asking them whether they wish to be disposed of.—*Chicago Chronicle.*

ANNEXATION INJURES SUGAR INDUSTRY.

Annexation would injure the sugar industry to a greater extent than mere reciprocity because of the stimulus it would give to the development of the islands. It should, therefore, be safe to count senators from sugar-producing States as opposed to annexation.—*New Orleans Picayune.*

ANNEXATION POLICY FULL OF PERIL.

Suppose we take Hawaii. We shall have to defend it. In case of war it would be easily open to attack. We are now practically invulnerable to attack by any foreign power or probable combination of foreign powers. We hope the people will protest against this annexation policy. It is full of peril. And it will not accomplish one good result.—*Indianapolis News.*

CHEAP ASIATIC LABOR.

It probably makes no difference to the annexationists that the Hawaiian sugar business is controlled by a very few persons, who employ cheap Asiatic labor—the cheapest in the world—and that the English and

WHERE ARE WE?

Says Mr. Dole's organ: "Nothing could be more pleasant than the advice received Tuesday by the Gaelic's mail." Indeed! The organ means that dividends are assured for the remainder of President McKinley's administration. But, how about the gun-carriers to whom Mr. Dole and his colleagues have been promising annexation, lo, these many moons? Mr. Armstrong says that the use of the Annexation Club did much to aid the Reciprocity Treaty through the Senate.

The same organ also says of the Annexation Treaty: "The news is most satisfactory in this behalf." We have thought all along that Mr. Dole's numerous commissioners were sent to Washington loaded for annexation, and they come back with dividends. Then all the money that has been dug up for annexation has been misapplied.

Mr. W. N. Armstrong says if the question: "Is the press of the United States in favor of annexation or is it unfavorable? the reply must be it is impossible to say." "Bide a wee," W. N. A., and it will be easy to say that it is not favorable.

W. N. A. also says "nearly two-thirds of the senators favor annexation." "Nearly" is good, but Frankie wrote that he had two-thirds on his list. Frankie has much to learn about senators.

TOPICS OF THE DAY.

"The result will probably be defeat," says the P. C. A.

The Star is childish. It prints a truism in big, bold, bad black type and therefrom endeavors to derive an absurdum.

The vote in favor of annexation by the San Francisco Chamber of Commerce is worthless. It was obtained by fraud and misrepresentation of facts and conditions.

The Government organs make a blow about the oligarchy paying its tradesmen's bill when only three months over due. We are informed that there are bills unpaid that have been overdue twelve months and over.

THE INDEPENDENT was not aware until so informed by the P. C. A. this morning that "Hon. R. W. Irwin" was "United States Consul to Japan." Thusly is history compiled in the days of the Hawaiian Oligarchy.

THE INDEPENDENT hopes that the Hawaiians fully appreciate the fact that when annexation comes they will be relegated to the social caste of the colored races, as in certain sections of the United States. Their presence in churches, theatres, rail-

roads and street cars will be deemed objectionable by many, and such complimentary terms as "niggers," and "black and tans" will be openly uttered instead of mincingly as at present.

There was a time when John Sherman was regarded as one of the leading American Statesmen. We note that the Star rates him as "the old politician." What a critical fall! What is Dole, please; a statesman or a politician?

The possible landing of a Russian-English army at Constantinople would certainly be amusing. The Sultan would probably feel as awkward as does Mr. Dole when he contemplates what he is to do with his own army in Honolulu after annexation takes place in June, 1898.

By all means, President Smith, admit the Osteopaths of California. They will act as counterweights to our Hawaiian Lomi-ists and the French masseuses. They will also be useful in setting the bones and healing the bruises of plantation lunas when Fitzgerald's white laborers take control.

In reply to very numerous enquiries THE INDEPENDENT will not, for the present, take charge of any petitions signed by foreign residents against annexation. It prefers that the Hawaiians themselves through their recognized leaders and societies should have full control of this branch of the battle. They are perfectly competent to attend to it, if they think it advisable to do so.

The Attorney-General has become the mouth-piece of Mr. Dole's Cabinet, and is allowed to talk about the controversy with Japan and other topics. Bless us, how it encourages one to feel that our public affairs are in the hands of so competent an administrator as the Attorney-General undoubtedly is. Abroad he has not impressed people with his ability; but, like some others of our great men, he shows to advantage on his native heath.

THE INDEPENDENT hopes that Dr. Alvarez will have a pleasant trip to Berlin and Bogota and will improve his "familiarity with leprosy." An extraordinarily clever man, such as the doctor must be, can learn in 70 days to overthrow the studies and researches of centuries. But why allow him only \$1600? Give him four times the amount and be generous. The United States will have to foot the bill—when annexation comes.

The oligarchical Government prefer new and untried men for Government positions since they gain another "armed" man, and a vote for annexation. "We don't blame them for "americanizing" our civil service on the principle of "to the victors belong the spoils." THE INDEPENDENT'S party will have all the more places to "give away" when annexation comes and the people vote, and it is a bad rule that will not work both ways.

We ought all to be happy and the best of boon companions here in Hawaii, for evidently both sides are the winners in the annexation fight, at least one would imagine so by reading both sides in our local press. The Annexation side is jolly because annexation is "coming," and we are jubilant because we know it has "gone." THE INDEPENDENT has saved your reciprocity clause but it won't do any more for you except to fill your offices by the people's votes when you are ready to vacate.

The Missionaries' organ is very unkind to its pet, Professor Brigham. In speaking of his curatorship of the Bishop Museum, it says; "but as he has conducted the institution on a 'one-man' principle, he has not added to its popularity as a place of interest to either tourists or scientific men. Unfortunately for him, Professor Brigham dislike for the Hawaiian race carried him to a point where he received the

condemnation of many of the people of that race." We must remind the Advertiser of that truism of "a house divided against itself."

It seems extraordinary that the Board Health cannot compel Chinese restaurant men to keep their drains in order. In spite of several formal complaints one of the restaurants referred to is as bad as ever. If a public and popular resort is permitted to remain so unhealthy, what must be the condition of private buildings hidden from the public's nostrils. It must be remembered that a certain class of Chinese rather appreciate a class of odors that white men abominate.

We thought, as we suggested the other day, that there was something somewhat queer about that \$4,000,000 indebtedness which the oligarchs wish the United States to assume, and now the Advertiser "lets the cat out of the bag." Speaking in advocacy of the Income Tax, it says: "If honestly carried out, it will result in a considerable gain to the public exchequer,—perhaps sufficient to enable the Republic of Hawaii to reduce its national debt to \$4,000,000—the amount to which the treaty of annexation limits the liability of the United States Government, in the transfer of sovereignty, in case of ratification by the Senate." A ministerial explanation is in order.

Ah! Me!! What is in the air? Methinks, it is tainted with a dire and diabolical odor of a deed of bloodshed and rapine! "If the Government of Hawaii should make some provision for removing her from the field it would be well." So writes the late King's ex-barber and all-around-the-world lackey and valet in regard to Queen Liliuokalani. Thus "the villain," in our modern comedy "still pursues" our hapless Queen. "W. N. A.," the editor of the Advertiser, never intended that his *locum tenens* should publish this private advice to the Oligarchical

Cabinet. Although Kaneohe, the Provost-Marshal or something of that sort, and Thurston, the showman, are at the Mormons' headquarters we scarcely think the Queen's health is in danger from such inuendos. "Have I no friend in my Kingdom to remove that pestiferous blot?" is played out in these days, W. N. A.

THE INDEPENDENT is continually compelled to call attention to the utterly unreliable reports of the local interviewer. Here is an instance taken from the Advertiser's "interview" with Mr. Goo Kim Fui, Chinese Commercial Agent: "There are now about 8000 contract Chinese laborers here—not more than enough to meet the demand. Some of these people will want to return to their homes when their contracts expire, and under the present laws of the United States they could not return." It is a grievous error which may lead to diplomatic comment, to impute such a statement to the Chinese Commercial Agent. The interviewer must have mixed up (to say the least) his own home with China in his notes, for even a schoolboy would know that while there might be imposed a restriction upon a Chinaman desirous of coming to Hawaii, there could scarcely be one on his returning to China, his home. We presume the interviewer omitted the words "to Hawaii" after his final "return."

CHINA IN POSSESSION.

A Crazy Celestial Makes Things Lively at the Palace.

Shortly after 10 o'clock this morning the telephone was ringing at the Police Station in a most violent manner.

The clerk answering the call was informed by a trembling voice that police were needed at once at the Executive Building to protect the officials and the army of what Judd calls the Hawaiian oligarchy.

Officers were immediately dispatched to the scene of the trouble. When Oponui arrived he found Pandemonium reigning, and a crazy Chinaman armed with a huge rasp in possession of the Interior Department.

The show presented was ludicrous and unique. Captain Hassinger had sought safety in the yard, and was watching the subject of China's Emperor from a point of strategy and safety. The colonels and majors, sergeants and privates belonging to the officers on the first floor of the Executive Building were all bent for home to get their uniforms. Upstairs the Minister-of-War assisted by his officers were wondering whether Lord Brock was looking for the "rajah," or what in thunder the noise meant. The Attorney-General called a hasty prayer meeting and kept on telephoning to the Philadelphia, the police and the Pantheon for succor.

The Chinaman, in the mean time, had full swing. In a rasping voice he yelled that Nawahi had sent him to clear out the "haoles," and rasp in hand he obeyed the instructions of the late gentleman who died last September, 1896. The army, in the mean time, stood in the basement, laughing immoderately but declining with thanks, to interfere with the "civil" affairs of the government and with crazy Chinese.

At last succor came in the shape of a policeman. The dangerous pake who weighs about 80lbs. was disarmed and taken to the Police Station. He looked happy because he had fulfilled the bidding of Nawahi.

The incident will be used by our Annexation Commissioners. The success of a single, solitary, eighty pound Chinaman in taking possession of the Executive Building in spite of majors and guns needs more than a passing notice from McKinley & Co.

That Baseball Muddle.

ED. THE INDEPENDENT:—

Yes, it is a muddle, and such a muddle that Hawaiians got the worst of the deal. As in politics, so it is in baseball and other matters, Hawaiians good-naturedly are always sat upon by white babies and sycophantic schemers.

As to the course adopted by the St. Louis team in withdrawing from the League, I heartily endorse and approve it as being the only course open to them, unless they wish to be used as stool-pigeons for the Star babies.

The Bulletin last evening stated that it had been authorized to announce that the Star and Regiment teams would play the season out. So far so good. But will the two teams constitute the League? I think not. I remember some few years back when the League comprised the Honolulu, Benedict and Hawaii teams, the latter team withdrew on account of an adverse decision by the League which it took as being unjust, no more baseball games were indulged in by teams under the League, for the simple reason that all interest was lost. And I believe, it will be so in the present instance. The two *haoles* teams with Hawaiian sprinkling can never keep it up. It will be a *fake* from beginning to end. Better end the travesty now and be done with it.

What is the Association going to do about it? I think it affects its interest and it is for that corporation to right matters with the League.

Yours respectfully,

HAWAII.

The clipper bark Brenhilda, in the Theo. H. Davies & Company line, arrived a few days ago 177 days from Liverpool, with her cargo in splendid condition. Among the lot is a large shipment of crockery for us.

This time it is the beautiful "Cleveland shape Trilby" the design that has pleased everyone. We have it in three shades; blue, green and brown. This quality of crockery has become popular in Honolulu, because we make it easy for people to buy.

If you do not want a whole set you may select whatever number of pieces you wish at set prices and in any size and design. You may select your own set and get whatever pieces you wish and when one gets broken it can be replaced from our large stock.

TWO REASONS

Why people come long distances to buy at the

Palama Grocery

REASON 1—Because one customer tells another how much they have saved by dealing at this live and let live establishment.

REASON 2—Because the saving from their grocery bill helps them to pay the house rent.

If you don't believe what our customer say just give us a call and be convinced.

Camping Season is Coming

WHEN YOU GET OUT INTO THE MOUNTAIN

We can be with you. The memory of a well stocked larder in your camp will help the enjoyment of the scenery—picturesque or majestic, as it appeals to the eye. The climate—genial, bracing, rejuvenating—will be aided by good groceries. Whatever you do rusticate, hunting, fishing, riding, boating, wheeling, mountain climbing or in valdey reposing, our goods are the best and necessary accompaniments. The reason for this sort of thought and action is upon us. All the world takes an outing once a year—if it doesn't, it ought to. While making up your mind where you will go, put these places before your mind's eye:

ON MAUI—Haleakala, Lahaina, Waikapu, Makawao, Hana, Kula, Kahului, Haiku, Makana.

ON KAUAI—Hanalei, Hanapepe, Lihue, Koloa, Waimea, Nawiliwili and Kawaihau.

ON HAWAII—Kilauea and Halemau-mant, the rainy city, Kapapala, Kealahou, Kapaemahu, Dr. Lindley's Sanitarium, Waipio, Kohala, Puna, Kona, Laupahoehoe and Hamakua.

ON OAHU—Waikiki, Tantalus, Puowaina, Olympus or Leahi, Makapuu and Mokapu, Waianae, Pearl Harbor, Remond Grove, Moanalua and Manoa.

The Islands of Lanai, Molokai, Kahoolawe and Nihoa.
