WEDNESDAY, JULY 25TH, THE DAY FOR HEARING WHY INJUNCTION SHOULD NOT BE ISSUED.

YESTERDAY WAS INJUNCTION DAY AT THE COURT HOUSE.

ANOTHER RESTRAINING ORDER WAS SERVED ON THE HAWAIIAN TRAMWAYS COMPANY, LIMITED.

AND IT'S ALL ABOUT THE MANAGER OF THE COMPANY, ITS AGENTS AND SERVANTS RESUMING THE LAYING OF A TRACK ON THE WATER SIDE OF THE PRESENT ROADBED OF THE COMPANY ON KING STREET.

WHY THE COMPANY SHOULD PERSEVERE IN PUTTING DOWN THE EXTRA TRACK HAD BETTER BE USED IN BUYING CORN, BRAN, HARLEY AND SHORTS, FOR DOESN'T OATS MAKE THE MARE GO, AND ISN'T THE LOCOMOTIVE POWER OF THE PRESENT CAR SYSTEM OF HONOLULU SADLY IN NEED OF PROPULSION; AYE, OF OATS? SUCH IS THE CONSENSUS OF PUBLIC OPINION, WHICH EXTENDS EVEN TO HILO AND THE TROPICAL JUNGLES OF THE FAR-OFF PHILIPPINES.

J. A. McCANDLESS, SUPERINTENDENT OF PUBLIC WORKS, IS THE PLAINTIFF IN THE ACTION BROUGHT AGAINST THE TRAMWAYS COMPANY.

THE PRAYER SETS FORTH THAT THE HAWAIIAN TRAMWAYS COMPANY, LIMITED, CLAIMS TO BE A FOREIGN CORPORATION EXISTING UNDER THE LAWS OF GREAT BRITAIN AND IRELAND, AND DOING BUSINESS UNDER THE LAWS OF THE TERRITORY OF HAWAII IN HONOLULU, ISLAND OF OAHU, IN MAINTAINING AND OPERATING A STREET RAILWAY ALONG AND UPON KING AND BERETANIA STREETS UNDER AND BY VIRTUE OF THE ACTS OF THE HAWAIIAN LEGISLATURE.

THE HONOLULU REPUBLICAN. Published Every Morning Except Monday by the Robt. Griese Publishing Company, Limited. EDWIN S. GILL, EDITOR. TELEPHONES: Business Office, 475; Editorial Rooms, 123. Query: Is the Civic Federation to be organized for the express purpose of defeating municipal organization? Evening Bulletin.

The announcement that Uncle Sam is building a total of seventy new ships for the navy is one to make the breast of every American swell with pride.

His patient and laborious work and the successful result of the war with Spain alone entitle President McKinley to re-election at the hands of the people.

The placing of seats in the public parks and concert grounds by the Superintendent of Public Works will receive the hearty indorsement of the people.

The proceedings of the Territorial Board of Education would lead one to believe that the royal road to matrimony lies through the Hawaiian school rooms.

Why is not greater progress being made in the numbering of the houses of the city? There can be no free delivery of mail until the houses are numbered.

Lower salaries for many of the over-paid officials of Hawaii and larger compensation for the school teachers is a reform that cannot be too quickly enacted for the good of the Territory.

The present attitude of the Chinese Dowager Empress is that of the man who "didn't know the gun was loaded." Her explanations will not satisfy the powers.

The Democratic Nashville American warns its party managers that it is useless for them to attempt to carry Ohio this year. The American has been investigating conditions in the Buckeye State.

The last native school was legislated out of existence by the Board of Education yesterday. The Hawaiian had to give way to the English. The Anglo-Saxon civilization is moving onward in its predestined path.

People along the water-front are fast learning that when they want shipping news in Honolulu they must buy The Republican. The consequence is that the only paper one finds along the wharves these days is The Republican.

Is it possible that the imaginative weavers of Oriental fairy tales for some of the local press will now begin to flood us with the deeds and misdeeds, the valor and the statesmanship, of Leung Chi-Tso? If so, the Board of Health should interfere.

There was more important legislation transacted during the last session of Congress than in any other similar period. At the next session two of the most important measures will be the Nicaragua canal construction bill and the restoration of American shipping.

Now that rural postal delivery in Hawaii is possible for the asking, it is to be hoped that it may not be cast away. The suburban and farming sections of the Territory should bestir themselves in this matter. They will find it a convenience beyond estimation.

The farm price of wheat on December 1 in each year of President Cleveland's administration averaged 54.1 cents per bushel. Under the McKinley administration the average price has been 67.5 cents per bushel, an increase of 25 per cent over the Democratic price.

The best thing that can be done for the health of Honolulu is to push the completion of the sewer system and then absolutely prohibit the building of cesspools in any part of the city. Cesspools are a menace to public health that should be eradicated at the earliest possible date.

At the rate in which the Government at Washington is sending troops from the mainland and the Philippines the United States will soon have an army of 25,000 men in China. With the powerful naval squadron already in Chinese waters, the Republic will not hold a secondary place in the movement on Peking.

President McKinley has strenuously urged the fulfillment of every campaign promise made in the Republican platform of 1896. In this he has been supported by the representatives of his party in Congress, and the result has been much legislation of a valuable character, as well as faith kept with the people.

Judge Wilcox's suggestion that Officer Hanrahan be sworn to interpret in behalf of Nakatana's monkey, which figured in the Police Court yesterday,

was a pleasantry that would lead to serious consequences in some countries. Up to date, however, Officer Hanrahan has not been heard from, either in English, Celtic or monkey dialect, of which latter Judge Wilcox intimates the favorite officer of High Sheriff Brown is an expert.

The so-called ethics of the medical profession sometimes lead otherwise sensible men to act queerly, to say the least, when a matter concerning their profession is concerned. More common sense and less tomfoolery over ethics would place the profession in a better light in public estimation.

It is undoubtedly to be organized for that purpose, but it will fail of its object. The very objections that the opponents to the incorporation of Honolulu are now advancing are daily making converts for municipal organization. The very men behind a movement of that sort frequently defeat the end they have in view.

It would be a good thing for the health of Honolulu for the proper officials to instruct the police to compel a general cleaning up of back yards and driveways. There are a number of back yards in almost all parts of the city which are reeking with accumulated filth that is a menace to public health.

No wonder the police don't want any one to engage in the business of shipping master in Honolulu. When a police captain, whose regular salary is but \$75 a month, can secure an income of at least \$250 per month after making the usual Tanmany divvy with those above him, shipping sailors for vessels desiring them must be a pretty profitable business.

That excellent paper, the San Francisco Chronicle, is allowing itself to be imposed upon in its Honolulu correspondence and at the same time making itself ridiculous to its many readers here. What the Chronicle needs is to order out the fool killer in Honolulu, with instructions to begin duty upon the man who would send a paper such stuff as was contained in the Chronicle of July 10.

The Board of Health might well look into the manner of carting away garbage, particularly the carelessness shown in dumping it into the wagons by the men employed. It is no uncommon sight in many residence sections of the city to see garbage spilled over the entrance to alleys and private ways, while garbage cans and boxes reeking with polluted matter are standing along the alley entrances.

It is officially reported that Leung Chi-Tso, the alleged Chinese reformer, has gone to China to help arouse a million young Chinese who mean to revolutionize the Flowery Kingdom. Just as though China didn't have trouble enough already without this later affliction of Leung Chi-Tso. China's misfortune is Honolulu's gain, however. Leung Chi-Tso has gone. May he remain there forever, and peace now settle down upon this community and portions of its hysterical press. Goodness be praised for this deliverance.

As the friends of progress might expect the enemies of municipal government and all other advances for the up-building of Honolulu are beginning to show their hand. This is fortunate for friends of progress for they know now what they have to oppose and who is against them. Of half a dozen interviews published in a more or less esteemed morning contemporary, four of the interviews are given by gentlemen who are members of the same business firm. They represent an element of the community that has consistently opposed every advancement in the last twenty years. They have opposed proper taxation of the sugar lands, forcing the small merchants and tradesmen and laborers to bear an unjust proportion of the taxation. The only thing they have ever favored has been concentration of power and curtailment in every possible way of the people's rights. It is not a matter for surprise that these people oppose municipal government. They naturally oppose everything that gives all the people a voice in public affairs. Too bad they can't wear the malo now, instead of modern dress.

The action of the Board of Education yesterday in appointing a teacher of agriculture and decentralizing the night school, so that five night schools may be established in as many sections of Honolulu, demonstrates that the educational affairs of the Territory are in competent and progressive hands. Children cannot be taught too many of the practical things of life, and many a child that has no adaptability for books earnestly takes hold of agriculture, of field work in botany, geology and other specialties. Failures in class work are often retrieved in manual training schools, and the enlightened system of education is to give every pupil a chance according to his talent, to develop the natural trend of mind, whenever such a course is possible. This seems to be the purpose of the Territorial board. The bringing of those great adjuncts to the public school system, the night schools, closer to the homes of the people is another step in the right direction. It should have the result of largely increasing the attendance and that among a class that most needs such privileges. It is to be hoped that the enterprise and public spirit exhibited by the Board of Education will find a responsive chord in those for whom these annexes to the school system are specially created.

TO BE INVESTIGATED FOR KAHUKU MURDER. Japanese Arrested at Ewa Suspected of Killing a Countryman at Kahuku Last March. Animoto, a Japanese suspected of being the murderer of Horie, a countryman, at Kahuku on March 18, was lodged in the police station Wednesday afternoon by Tanaka, a Japanese policeman, who arrested him at Ewa. The murder was committed during a dispute over a gambling game. After the affray he and a friend, Mida, ran from the scene of the cutting. Mida was captured, but Animoto, though thought to be wounded, was not seen by the police until yesterday.

On Sunday two Japanese came to Officer Tanaka and told him they had seen the missing man at Ewa. Tanaka, who, before being a policeman, had known Animoto on a plantation, taking the tip from his informers, went to Ewa and captured Animoto. He has been looking for him ever since the murder. Every steamer for the Orient has been watched by Tanaka, who was out for the reward offered for the apprehension of Animoto. Mida, the accomplice of the murderer, was kept in jail a long time, awaiting the capture of Animoto, but was finally turned loose. He will be hunted up now and held as a witness. Animoto, when questioned, admitted that he was present at the time the stabbing was done, but claimed that Mida, his friend, had done it. When confronted with Mida at the police station he made the same accusation against him. Both men say the other one is the man who did the stabbing. Animoto states that he has been in hiding in the cane fields ever since the murder. The police think he has been provided with food and shelter by an association of Japanese, known to be banded together to aid one another in case of trouble of the kind into which Animoto has got himself. Tanaka is positive that he has caught the right man, and witnesses of the killing will be brought from Kahuku to-day to identify him, if possible.

AMUSEMENTS. The selection of Archibald Clavering Gunther's play, "Mr. Barnes of New York," was a good one for the closing engagement of the Neill company. It combines both comedy and tragedy in a manner to test the capabilities of the actors as no other play of recent years. Needless to say, Mr. Neill, as Barnes of New York, played the part well. While not a really great actor, Mr. Neill is a polished, all round artist. One who recalls the old stock days, when the stock star was cast for anything from "Hamlet" to "Hamlet," and was expected to, and did, render well each part. Miss Chapman showed herself even better in an emotional role like that of the Corsican woman than she has done in lighter characters essayed here. The company was well cast throughout, and it was a good performance all the way through. The house was, with the exception of the opening night, the largest of the engagement and was very enthusiastic. Mr. Neill and his company leave for the Coast this evening, taking with them the wishes of many admirers that it will not be long ere they return to Honolulu for another season of such high class as the one just closed.

Hawaii Shy of Extra Sessions. (From the San Francisco Call.) California has already made a deep impression upon the statesmen of our newly won Territory of Hawaii. The guiding political spirits of the Islands, learning a lesson from us, perhaps, have decided that they will order no extra session of their Legislature, as the experiment would be too expensive.

Naval Promotions. President McKinley has approved the following promotions in the navy: Commander M. E. S. McKensie, to be a captain. Lieutenant Commander George P. Colvocoresses, to be a commander. Lieutenant Commander Charles E. Colahan, to be a commander. Lieutenant James P. Parker, to be a lieutenant commander. Lieutenant Ben W. Hodges, to be a lieutenant commander. Earnest V. Sandstrom, to be a boat swain.

AMERICAN CONDENSATIONS. Interesting News Gathered From Mainland Exchanges. American cotton exports to China are at standstill. Associate Justice H. B. Brown, of the United States Supreme Court, is spending his vacation in California. Drinking on San Francisco's police force is absolutely prohibited. Penalty, first offense, \$100 fine; second, dismissal. The Seaboard Air Line has filed in the court at Savannah, Ga., a mortgage for \$75,000,000. It is to cover an issue of fifty-year 4 per cent gold bonds and is executed to the Continental Trust Company of Baltimore, Md. Captain Daniel Webster, well-known among sailors of both the Atlantic and Pacific Coasts, died in Alaska, June 18. He was an old whaler, but for 20 years he was in the employ of the Alaska Commercial Company. The annual meeting of the Grand Lodge of the Benevolent and Protective Order of Elks, held at Atlantic City, was largely attended. J. B. Stuber was elected grand exalted ruler, J. O. Ries of California was unanimously elected grand esteemed leading night and George A. Reynolds secretary.

HONOLULU'S GREAT ACTIVITY.

F. W. DOHRMANN OPTIMISTIC REGARDING THE OUTLOOK.

Scarcity of Capital to Carry Out Many Enterprises Which Are Now in Existence.

San Francisco Post publishes an interview with F. W. Dohrmann, president of the Merchants' Association, concerning his recent trip to this city. Mr. Dohrmann delivered a very instructive address before the merchants of Honolulu.

Speaking of the Hawaiian trade and the outlook for San Francisco in the commerce of the Territory of Hawaii, Mr. Dohrmann said: "The business conditions in Honolulu are improving steadily. There are a number of new business blocks in course of construction and others are projected, yet this construction is not in excess of the immediate demand for such buildings. Dwelling houses are scarce, and as a result of this scarcity very good rents are obtained for all classes of dwellings. Trade has been greatly stimulated by the certainty that there will be no interference with the marketing of the sugar crop, and the general feeling is that the population will increase very rapidly and that trade will expand correspondingly. I arrived in the Islands on the day preceding the inauguration of Governor Dole, consequently, I found at that time a very general feeling of security and confidence, since the inaugural ceremony marked the beginning of stable government."

"The harbor facilities in Honolulu right now are quite inadequate for the trade that comes to the harbor. Some of the ships lay in the harbor for weeks before they were able to get docking space to unload. "There seems to be a scarcity of capital to carry out the many enterprises which are now in existence, so that interest even on the best security is comparatively high and values of shares of many enterprises have dropped quite considerably; and this is due more to a lack of money to carry on these enterprises than to a want of confidence in the success of the enterprises or the prospect of good returns on the investment. Perhaps the uncertainty as to what the effect of the change would be on the labor market also had considerable to do with this decline, but with the exception of a few plantations seems to be no serious difficulty in the way of adjusting the labor question to the new conditions. Advances had to be given to satisfy the laborers, but from what I learned the profits of sugar raising are so great that these advances will not materially interfere with good returns on the season's crop. "Party politics are beginning to be discussed, but have not yet assumed distinct form. The question of making Honolulu a municipality under a charter is also discussed, but probably will not become a leading question until the Territorial Legislature meets in the fall. Honolulu is now governed under the territorial laws, just as the District of Columbia is. Before I left I had the honor of delivering an address upon municipal subjects, with particular reference to the need of a charter. It is probable that Honolulu will be made a municipality before long."

THE COOK WAS ATTORNEY.

Skipper and Steward Have Wordy War in Police Court.

Frank Paul, cook of the schooner H. D. Bendixsen, appeared for himself in the Police Court Wednesday. His legal ability was a surprise to the court and prosecuting officer, and the captain of the vessel was talked to by his cook in a manner that would have meant irons and the brig if it had happened on board ship.

Paul was accused of having stolen an alarm clock of the value of \$1.25. He admitted taking the timepiece, but said he had asked the captain to purchase it for him, which the captain acknowledged he had promised to do.

Thinking the clock was his, the cook left the vessel and took the alarm clock with him under the impression he had been charged with it. The captain had him arrested, and he cleared himself of the charge in the most matter of fact manner.

In his examination of Captain Peterson the cook made the skipper acknowledge that he was a good cook and that he had bought tomato catsup and spices with which to make the food tasty and had also bought several cooking implements and a machine to make sausage.

Prospectus Issued.

The prospectus of the Waikiki Land and Loan Association has just been issued. The company was organized for the purpose of putting on sale the McCully tract at Waikiki. The land is situated below the mouth of Manoa valley, on King street, commencing at the boundary line of the property of J. A. Cummins, and running along King street in an easterly direction for about one-third of a mile, to the boundary of the land owned by the Bishop estate, taking in all the property between the above-mentioned line on King street and the Waikiki side of the Kalia, or John Ena road, to Hopkins' switch.

Mililani street is to be extended, under a decision recently made by A. V. Gear, J. L. Kaulakou and George Ashley, Commissioners.

ESTABLISHMENT OF RURAL FREE DELIVERY.

Information on the Subject by Post-office Inspector Flint—What Should be Done.

Postoffice Inspector M. H. Flint has compiled the following information for the guidance of those communities that desire to establish rural delivery:

"The question of the establishment of the rural free delivery at any point throughout the Territory of Hawaii will not be considered by the Postoffice Department in Washington unless the following instructions are complied with:

"Prepare a petition addressed to the First Assistant Postmaster General, Washington, D. C., requesting the establishment of the service, have the petition signed by all the proposed patrons of the route and then secure the favorable endorsement of Governor Dole.

"This will be necessary until a delegate to Congress is elected in the Territory.

"The route should not be less than 25 miles in length, and the roads must be in good condition.

"A rough map should be furnished of the country to be traversed, accompanied by a general statement as to the number and avocations of the people to be served.

"The intention of the service is to give a delivery of mail once daily to farming and rural communities, but there must not less than 100 families served by each carrier."

SUFFERED MENTAL ANGUISH.

Nakatani Caused His Monkey to Suffer and was Fined.

Nakatani and his monkey were in court again yesterday. The man was charged with cruelty to animals. He had used the monkey as a moving target at which rubber balls were thrown at five shots for five cents. A basket tied to the monkey's back was the target. If the thrower got a ball in the basket he got a prize. The monkey got to be very adept at dodging when he saw things coming his way, and the testimony was to the effect that the monkey was seldom, if ever, hit and when he was it did not hurt him. To prove that the poor little animal was in great fear the prosecuting officer made a motion to throw something at it. Quick as a flash it dodged around the corner of the prisoners' dock. Again, when Officer Hanrahan in calling down some amused spectators, threw out his chest the monkey almost had a spasm.

The Judge thought the monkey was caused great mental suffering and anguish of mind by his treatment and fined his owner \$20 and costs, advising him to get a small Japanese boy and put him in the monkey's place. Humane officer Miller was the prosecuting witness in the case.

Last Battle Near Tien-Tsin Showed
the Chinese to be Brave

LONDON, Friday, July 7.—This dispatch from its special correspondent is published by the Daily Mail:
"Shanghai, Thursday.—I have no hesitation in stating that crimes, including, I believe, the murder of all the European Ministers and officials, have been committed in Peking, at which, when the facts are known, the whole civilized world will stand aghast.
"Official information, when it comes, may even include the awful story of outraged English women and tortured children, and public executions in the streets of Peking of even women and children—a story of frightful atrocity which will shock Europe. In fact, it may be almost taken for granted that the whole foreign quarter of Peking has been completely wiped out.
"There are whisperings and startling and sensational rumors which are floating around without apparent reliable sources in the native quarters, but it must not be forgotten that the imperial telegraphs, over which alone news can come from Peking, are solely in the hands of the Chinese, and that the whisperings and rumors in the native quarters are at least likely to have some solid basis of fact.
"I would hesitate to send this, since the last reliable news from Peking that the Europeans have had came, as I called yesterday, from Sir Robert Hart by a carrier, dispatched on June 25, were it not that I find some Chinese officials here, who show friendliness to Europeans, who have had to my knowledge advice from Peking, via Pao-Ting-Fu, within the last twenty-four hours and are most anxious we should understand that the Government of China has been entirely superseded by the Boxers. Of my own knowledge, I know for a truth that most of the Manchu Princes, with their adherents, generals and troops, are members of the Boxer society and are busily engaged in recruiting for the cause.
"This duplicity leads those with a knowledge of things Chinese to the belief that the native officials here, who are unquestionably suppressing the

news, are endeavoring to prepare the way, with the least harm to themselves, for the reception of the news of the greatest crime of the century."
In a note on the above dispatch, the Daily Mail says that its special correspondent at Shanghai is a gentleman of distinction with unequalled sources of information, and adds: "It is obvious from the message that the correspondent has the best of reasons for believing that news of the greatest importance is being suppressed by the native authorities. There is, we fear, only too much reason for the correspondent's suggestion that the greatest tragedy of the century has been consummated."

**JOHN RUSSELL YOUNG
ON CHINA'S IMMENSITY.**
Attacking the Chinese Nation,
Wrote Former Minister, Is Like
Macerating the Waves.
NEW YORK, July 8.—The late John Russell Young, who accompanied General Grant in his trip around the world and who was Minister to China during Grant's administration, in a letter to the New York Herald, September 7, 1894, wrote the following, which, in the light of recent events, reads like a prophecy:
"Remember that the Chinese are not an 'enthusiastic people.' Their hearts are not 'easily fired.' They are not prone to outbreaks of public emotion. China moves as the glacier rather than as the volcano or cyclone. But she moves. You may defeat her to-day, you may defeat her to-morrow, you may bombard her Taku forts; you may even land an army and, marching over the low, alluvial, fertile lands of China, spring upon Peking. What then? You have no more gained the country than by the capture of Boston you would gain the United States. It is like macerating the waves. You may cut and splash and stab. The billows will swirl up and roll. It is war upon an impalpable enemy as if assailing the air of the clouds."

**CHINESE SWELL THE
ALLIED FORCES**
Lively Work for Tien-Tsin Garrison—The Fire of Celestial
Gunners Effective.
LONDON, July 10.—The allies at Tientsin are having an exceedingly unpleasant time. The last engagement of which news has come through occurred on July 6. The Chinese artillery opened at dawn. Their fire was more accurate and their ammunition better, the shells exploding with precision and setting fire to several buildings. Her Majesty's steamship Terrible's guns again quieted the Chinese, who, shifting their artillery, reopened the attack in the afternoon, but a thunderstorm breaking, the Chinese suddenly quit. The allies immediately attacked and drove the Chinese from their works, but lost thirty killed or wounded in so doing. The non-combatants are leaving Tientsin, and the opinion of a minority favors the military leaving also.
Other dispatches record severe fighting, notably on July 2 and 3, when the Chinese developed great strength and

did considerable damage with artillery. At the bridge near the French settlement there was hard fighting at close quarters, the Russians with a gatling finally compelling the Chinese to retire, though they suffered heavily. The operations, however, were in no way decisive, later messages showing the Chinese were still full of fight. About 500 men have been wounded in the fighting at Tientsin.
**FRIGHTFUL HORRORS
ARE YET TO BE TOLD.**
WASHINGTON, July 8.—Mr. W. W. Rockhill, director of the Bureau of American Republics, who served in China as secretary of legation when the late John Russell Young was there as Minister, and who is a recognized authority in Chinese matters, spoke feelingly to-night of the indignities which foreigners in Peking are reported to have suffered after capture.
"This is something new in the history of China," he said. "Foreigners have never before been publicly executed, and we can only by analogy imagine what has happened to foreign women and children in Peking. We know that in the civil wars of China the greatest barbarity was practiced, and it has been the knowledge of what might be expected which has given rise to the conquered party putting to death its women and children before surrendering.
"No doubt the dispatch tells but a small portion of the horrors of the spectacle in Peking. It was only a matter of time, any way, and what followed was the common practice of barbaric and half civilized nations. Had they been merely imprisoned their condition would have been pitiable enough. Anyone who has read of the capture of and the tortures imposed on Lord Loch and Sir Harry Parkes, in 1890, and who knows the Chinese prisons, have not been improved in the last forty years, can appreciate in part the sufferings which foreign residents in Peking must have endured in the last month.
"There is little use in trying to portray what indignities were heaped upon the victims before death released them. Without question they were horrible beyond the imagination of civilized man. Their captors add to the cruelty of the American Indian the demonic ingenuity of a race that is almost civilized, a race which appropriates the arts of white men without appreciating them. The tale which comes from Peking when entrance is gained by foreign troops will be one unequalled in shudder forcing qualities since the days of the Sepoy rebellion."

Holding Back Missionaries.
NEW YORK, June 28.—At the close of the meeting of the Board of Foreign Missions of the Presbyterian Church, the ten young missionaries who have been appointed to North China were called into a private room, where they met Rev. William Richards, chairman of the China committee of the board, who informed them that the board had decided that they should not go at present, but advised them to hold themselves in readiness after September 1. If the disturbances are still on at that date the missionaries will be sent to some safe Chinese port, there to begin the study of the language under the protection of the foreign power.
