

KEEPING A SHARP EYE ON CHINA.

American Fully Alive to the Present Situation.

HAY POSTPONES THE PARTITION.

DIPLOMACY OF MCKINLEY ADMINISTRATION LEADS THE WORLD.

Great Movements in the Pacific in the Next Year - Cable to Hawaii Will be Hurried.

WASHINGTON, July 6.—The present trouble in China is not generally understood even in the United States. Most people here have the notion that the partition of China, to which they have looked forward during the last few years, is at hand, and that the present difficulties will end in that result.

Secretary of State Hay, beyond much question, is the man who has succeeded in staying off the real Chinese crisis. As soon as the Boxer uprising began, and as soon as the lives of foreigners in China were threatened, Mr. Hay saw that the fate of the Chinese empire was at stake, and that the settlement of its fate just now would engage the whole world in war.

But even with these assurances from the powers, there is still great danger in the Chinese situation. The danger lies in bringing the forces of so many nations together upon Chinese soil. An overt act by the commander of any one of these forces toward any other force might be the torch that would set off a general conflagration.

At this writing there is little that is new from China. We know here that the German Minister at Peking has been murdered by the Chinese, and that the German government is sending a fleet of naval vessels and an army of about 20,000 men to avenge his murder.

We have heard from China several times during the last few days that the American minister, Mr. Conger, and all of the other foreign ministers at Peking, have been murdered. At this moment these latter reports lack confirmation, but if they are not true it will surprise everyone.

But beyond all the present struggle comes the real Chinese question that must be solved in time. It is the question of the division of the empire among the powers. If President McKinley is re-elected next November—and there is no doubt that he will be—before his second term of four years has come to an end this question is likely to be settled.

When China is partitioned the American nation will have something to say about it, and if signs fail, not the American nation will extend its flag over some of the Chinese territory—enough,

at least, to give us a base for our navy and a harbor for American shipping. This country is not prepared yet to enter upon a matter of that kind. It cannot be settled without war between some of the nations. Russia is hungry for Chinese territory, and it will be the duty of somebody to dispute Russia in the attempt which she is now making to take over a vast area of land.

Within a week the correspondent of the Republican was in New York and found there a very large loan from the New York bankers. She is making arrangements to-day for still another loan in New York, and yet another in Paris will be floated before fall. These vast loans are made in spite of the fact that Russia has today probably more gold than any nation on the face of the earth.

TO FUMIGATE MOLOKAI MAIL.

SUCH THE INTENTION OF SPECIAL INSPECTOR FLINT.

Arrangements to be Made to Aford Settlement the Money Order System.

Among the visitors to the leper settlement at Molokai Saturday was Mr. M. H. Flint, special inspector for the postoffice department, who went over to investigate the mail conditions. Mr. Flint found a postoffice at Kalaupapa and another across the little peninsula two miles away at Kalawao. He believes it will be for the best interests of the people of the settlement to retain both offices. Asked last night as to what would likely be done by the department in regard to mail to and from the settlement Mr. Flint said: "I had believed in recommending to the non-leperous man at a good salary to conduct one office at the settlement and make him a sort of amanuensis for the people in so far as stamping and sealing their letters are concerned. I now believe it would be impossible to do this and I shall make other arrangements. The first thing to be done is to provide for the fumigation of all mail from the settlement. If I can do so I hope to make temporary arrangements with Dr. Carmichael for temporary use of the quarantine station for the purpose and also arrange with the authorities here to place a hot air fumigating in the new addition to the postoffice where all the mail, and the mail bag as well, will be subjected to a hot air treatment at a temperature of 250 to 300 degrees. This will kill all possible germs. Fumigation of letters from the settlement has been done away with but only stamped envelopes will be sold. The greatest need is the postoffice money order system and this I hope to establish very soon. Only silver and gold will be allowed to be sent or from the settlement, paper money being strictly taboo, and all gold or silver forwarded from the settlement will be boxed before being used anywhere else. With these necessary precautions there need be no fear of the bacillus of leprosy being conveyed to people outside the settlement."

Will E. Fisher's New Offices.

The new offices of Col. W. E. Fisher in the Magoon building, Merchant and Alakea streets, are among the handsomest in the city. Col. Fisher is in possession of the core, and his ground-floor offices are fitted up in the most modern style. No better office furniture is found anywhere, and yet the Colonel has saved ample room for his auction purposes, for he is a most accomplished auctioneer as well as an expert in real estate ventures. For many years Col. Fisher was recognized as one of the best-informed real estate men in California, and the experience he has had there will insure to the benefit of his clients in Hawaii.

Preparing for Ratification.

Henry Giles and Veda Thrum are making arrangements to have a big delegation of bicycle riders take part in the ratification parade. George King and Charles Hall have dug up a lot of old torches, and they will be renovated and generally fixed up. Will E. Fisher has been made a committee of one to design appropriate transparencies and some startling innovations are promised. The decorations at the wharf are unique and appropriate and will be designed by G. W. B. King.

THEY ARE AFTER THE GERMAN VOTE

That is the Object of Democrats in Naming Stevenson.

HOPE TO CARRY MIDDLE WEST.

NEW YORK CONCEDED TO BE LOST OWING TO THE SILVER PLANK.

Disputed Question as to Settlement of Debt Caused by Loss of a Bill—Shipping News.

SAN FRANCISCO, July 10.—Everybody knew that the Democrats could not lose William Jennings Bryan, but the selection of his running mate is something of a surprise. By the general public Adlai E. Stevenson was hardly considered a remote possibility among the host of favorite sons, but he was evidently programmed by the shrewd politicians of the party and kept in the background or under cover until the sentiment of the convention could be sounded.

Up to the time of the convention the most promising Vice-Presidential nominee was Towne, the choice of the Silver Republicans. But, you know, Democrats. They are too bullheaded to compromise on anything and would rather be defeated than admit they are Republicans in blood. So, quadrilaterally, they obstinately persist in digging with their own hands a grave for their moribund hopes.

David Bennett Hill, the idol of the New York and Atlantic coast Democracy, was turned down. He dabbled and coquetted with the Vice-Presidential nomination in order to have it forced upon him that he might put it aside in a Casseur-upon-the-Lupercal burst of eloquence but, alas, when he saw it was headed off and not coming his way at all he rushed around to get in front of it and announced that he did not want it; told it to his face. He would not have it. Without argument the convention accepted his statement as final.

There is no question but Hill is one of the shrewdest, brainiest men in the Democratic party. But that is the trouble; he is too blankly-blinded smart. There were delegates in that convention who loved Hill, but voted against him because they love their party more. They knew that Hill could not carry a school district in the West. Out beyond the Mississippi the rank and file of the party has acquired the impression that Hill traded Cleveland to secure his own election as Governor of New York. True, Democrats speak not of Cleveland if they can avoid it. There are things that men like to forget, but that impression sticks, they cling to the declaration of the old Virginia editor, who said:

"The candidate is one whom I would not invite to my home or introduce to my family; neither will I recognize him on the street, but as the nominee of my party I shall support him."

That is Democracy—the party first. The nomination of Adlai E. Stevenson is but another step towards securing the German vote and is prima facie evidence that the Democrats have abandoned all hope of carrying New York. Illinois Democrats have nominated a German for Governor. This, with a strong pro-Bryan plank in the platform, is intended to catch the German vote, practically holding the balance of power in Wisconsin, Illinois and Ohio. It was thought the anti-British pronouncement would naturally hold the Irish vote.

Of course, the 16-to-1 plank was adopted; they could not well avoid it. If it was a good thing four years ago the natural sequence is that the principle is the same now and its omission would have been a tacit admission that the Republicans are right. A Democrat would rather die than do that. There was, however, a widely-advertised opposition to the plank, an opposition ostensibly from the South and East. It is reported that the Committee on Platform and Resolutions stood 23 against the plank to 25 for it. Thereupon Mr. Bryan was communicated the suggestion that it might be well to cushion the plank with a velvety reference to bimetallism in general. Mr. Bryan is quoted as saying: "If you want a dodging platform, get a dodger to run on it." Now the country has not yet decided whether all that loud and apparently formidable opposition was simply a grandstand play to demonstrate what a strong and determined man Mr. Bryan is, or was, as you prefer, or whether it was the real thing.

W. H. Cornwell was selected as national committeeman from Hawaii. Prince David was appointed one of the committee to notify Mr. Bryan of his nomination, and John H. Wise on the committee to call on Mr. Stevenson. By the way—the cards stuck and Hawaii voted for Hill for Vice-President. Too bad the party's first vote from the Territory had to be thrown away on an "also ran." Among others called on for speeches seconding Mr. Bryan's nomination was Prince David. He responded, saying some nice things and saying them very well. The convention cheered him to the echo.

Approve of the Hawaiian delegation and its trip East in the car with the Californians, a novel legal question has arisen and had not been settled on the receipt of the last advice. En route the delegates engaged in little games of draw. Prince David lost \$20 to Freeman of California and Keyes of this State won \$20 from Freeman. At the conclusion of the game Prince Da-

vid laid a \$20 bill before Freeman and he pushed it across to Keyes. Before the latter could grab it a gust of air carried it out of the window. Keyes now insists that he never received the money. Prince David says it is up to Freeman, as he paid him, and Freeman says that Keyes lost the money through his own negligence, so there you are.

The steamer Carica has been chartered to load here for Seattle and Tacoma and will not return to Honolulu for a month at least. The keel of a new steamer for the inter-island Steam Navigation Company has been laid at Hay & Wright's yards. The new steamer is to be 172 feet long, 36 feet beam and 14 feet deep. She will be much larger than the Kailani and will exceed in speed anything in the inter-island trade.

The schooner Robert Lewers has sailed for the Islands, but Captain Goodman went out as a passenger, and on his arrival at Honolulu will take command of another of the company's vessels. Captain Underwood, late of the barkentine Newsboy, went out as master of the Lewers. Captain Chipperfield is now in command of the Newsboy.

With a view to sending troops to China under hurry orders, the Government has been making inquiries as to the condition of the transport service with the following result: The summer can leave here on July 15 with 57 officers and 630 men; the Meade on August 1 with 60 officers and 1171 men; the Hancock on August 16 with 54 officers and 1022 men; the Warren on September 1 with 42 officers and 1242 men; the Thomas on September 15 with 69 officers and 1554 men; the Grant on October 1 with 68 officers and 1836 men. Without inconvenience to the present transport service, it is thought that about 8000 men and 350 officers can be landed at Hongkong within ten weeks. E. E. B.

ANNUAL VISIT OF BOARD OF HEALTH.

To the Leper Settlement on Molokai Island.

SHOWS MANY IMPROVEMENTS.

BENEFIT OF OFFERING PRIZES FOR BEST KEPT GROUNDS.

One Hundred Less People in the Settlement Now Than There Were Eighteen Months Ago.

There have been very great improvements at the leper settlement on Molokai since the annual visit of the Board of Health one year ago. The offer of five prizes of \$25, \$50, \$15, \$10 and \$5 for the most improvement shown in the appearance of premises in the settlement, which prizes were awarded in April last, had a good effect. Not only has great improvement been made in individual premises, but on the commons of the settlement, lava rock being removed and clear lawns taking the place of stony fields.

The four prizes for the grounds showing the best results in tree planting and gardening, which are to be awarded in October next, have had a good effect, many of the homes taking on a new appearance from the many improvements made.

It was a large crowd which left Honolulu Friday night on the Mikahala to visit the settlement, the trip being under the auspices of the Board of Health. The strict rules of past years, limiting the friends of lepers who accompanied the board to the smallest possible number were very much relaxed and as a result the deck passengers numbered 108. The members of the board and invited guests were: M. H. Flint, F. J. Lowrey, E. P. Dole, E. C. Winston, Dr. J. Lawrence, Dr. C. B. Wood, Dr. C. L. Garvin, Dr. W. Hoffmann, Dr. C. Camp, Dr. C. H. Douglass, Fred O'Brien, George A. Dietz, Frank Davey, George F. Henshall, E. S. Gill, Sam Johnson, John Effinger, W. O. Smith, J. L. Rockwell, Father Mathias, Mr. Fairweather, Dr. Samuel McCurdy, Rev. Massie, F. J. Testa, Stearns Buck, C. McGonagle, Fred Lyman, Mrs. Hendryx, Miss Ella Morrison, H. Avery, Chas. Wilcox, Chas. Jacox, Capt. H. Berger, Miss Morgan, Miss Anabel Lee, Mrs. F. R. Aldrich, Miss Carroll, Dr. Kerr, Dr. Cleveland, Miss Thompson, Mrs. Hoffman, Dr. Monsarrat, L. M. Kohn, Dr. Wolters, Mr. Fuller, Sister Renata, Sister Susanna, Maria Nunez.

A more perfect day for the trip over the settlement could not be imagined than yesterday proved to be. Horses were provided for the board and invited guests to go over the settlement. Nearly the entire party visited the valley of Waikola, south of Kalawao, where successful farming by the inhabitants of the settlement is being carried on. There are now over 100 acres under cultivation, most of it in taro, which is the chief staple of food. The experiments with dry taro are proving very successful and have pretty thoroughly demonstrated that a number of varieties that require no irrigation can be successfully grown in

(Continued on Page 5.)

LATEST NEWS FROM HILO AND VICINITY.

The Labor Question is Seriously Discussed.

DO AUTHORITIES CAUSE PILKIA.

SOME POLITICAL POINTERS GIVEN OUT ON SHORT NOTICE.

A. B. Loebenstein Announced as a Candidate for the Upper House of the Next Legislature.

There is little agitation in political circles. Associate Justice Galbraith of the Supreme Court returned to Hilo Wednesday and will remain over one steamer.

Judge Galbraith says that Chief Justice Frear does not consider the language used by Judge Little, in refusing Doyle permission to act as Japanese interpreter in his court was intended to be disparaging of him or of the Supreme Bench, and that Judge Little is generally sustained in his action.

Timoteo Keahiti, an old Kanaika at Kalapuna, has realized the truth of the proverb: "He heareth up riches and knoweth not who shall gather them." The old gentleman is of that economical disposition known as miserly, and to a considerable amount of coin handed down to him by his father he has added accumulations in the way of cents and other sources of income, which he formerly secreted in his paternal ancestor's grave, but more recently in an old-fashioned iron safe in his house. He visited Hilo for the glorious Fourth, and on his way homeward was informed of the dire catastrophe. This was, however, about a week after the happening of the event, and all traces of the robbers, if there were any originally, had been obliterated at that time. The house had been broken open in several places and the mutilated bank wadded empty skyward, while the ancient miser's account book, showing a balance of \$4308.25 that should have been copiously present, but was not, lay neglected in the dust upon the floor. Keahiti now regrets that he failed to patronize the safe deposit vaults of the First Bank of Hilo.

Hawaii Chapter No. 1, Order of the Eastern Star gave its worthy Matron, Mrs. Nova Galbraith, a surprise party on last week Friday evening which has so far escaped notice in the local press. The occasion was the expected departure of Judge and Mrs. Galbraith for their new home in Honolulu in the near future. The event took the form of a sheet and pillow case party of the most ghostly variety, each member being arrayed in long white drapery, pillow case peaked cap and white mask and carrying a torch. Once arrayed, none could tell the identity of another and many amusing adventures resulted; the endeavors of Mrs. Galbraith to discover the character of her ghostly visitors were not among the least. After the unmasking, and the transformation from the supernatural to the natural, the evening was spent most pleasantly, as are all the social affairs of the Eastern Star. The party took possession of Mrs. Chas. Eilers' house, dainty refreshments were served and games indulged in until a late hour.

J. C. Carter of Bishop & Co's bank has been in Hilo during the week.

Dr. M. Waech returned Wednesday from his business trip to Hououka.

Capt. Fitzgerald and C. H. Brown returned to Hilo by Wednesday's Kinau.

Mrs. C. D. Pringle is the guest of Mr. and Mrs. Hime at Mountain View, Olaa.

Mrs. Tom May and family are visitors to Hilo and the Valsuola, arriving by the Kinau.

Miss Oma Little has returned from Kaunama and is feeling much improved in health.

W. H. C. Campbell and family came in from Puna for two or three days this week.

Colonel Little has gone from Honouka to Kona to hear several cases in equity at that place.

Mrs. A. B. Loebenstein has been confined to her room during the week with severe attack of grippe.

Labor trouble in Hanakula will prevent the Horners from being able to take any part in the races.

Arthur Meyers, convicted at the Honouka term of manslaughter in the second degree, has been sentenced to five years' imprisonment at hard labor.

AMERICAN SUGAR CO., WILL SUSPEND WORK.

Decision Arrived at Yesterday and All Bills Owing to Date Will be Paid. There was a stockholders' meeting of the American Sugar Company yesterday morning at C. Brewer & Co's office. The report of Mr. Lindgren regarding the water supply was read. It was substantially the same as that of Mr. O'Shaughnessy, which was made some time ago. Geo. H. Robertson, manager of C. Brewer & Co., speaks as follows regarding the course to be pursued with the plantation: "There is no doubt that a limited supply of good water is to be found along the coast line. There are three

important factors that stand in the way of going on with the business just now. The first is the uncertainty of the quantity of good water that the new wells will produce after continuous pumping. Secondly, the difficulty of raising sufficient capital to go on with, and thirdly the very doubtful state of the labor supply. "In view of these facts it has been decided to suspend further operations and dispose of all moveable machinery and material and liquidate all outstanding liabilities with a view of saving the ranch property.

ADOPTION OF MALAKA.

Judge Humphreys Heard the Case Yesterday Afternoon.

Pierre Marie Lucas, H. C. Adams, and George Clark have petitioned to become naturalized. Judge Humphreys has authorized W. O. Smith, trustee of Elizabeth Hart and children, to withdraw \$381.50 from the Postal Savings Bank and re-invest it in real estate.

Yesterday afternoon Judge Humphreys heard the petition of Thomas Murray and wife for the adoption of Malaka Moolan. Davies and Gear for petitioners. J. T. De Bolt for the father of the child. The matting in Judge Humphreys' courtroom was being torn up yesterday.

They Have Troubles.

The steamer companies here, and more the people of the Oceanic Line, catering so largely to passenger traffic, are having troublesome hours these days. Mr. Walter W. Giffard, in speaking yesterday of the Alameda's last visit here, said: "It seems that the regulations new to us here are some what difficult of adaption to a way station such as Honolulu has become under the changed order of things. It is against the regulations for exchange of visits between ship and shore people until the captain has entered the vessel and returned to it from the custom house. The custom house has its hours and the officials are simply extending favors when they do any business out of office hours. The Alameda did not make a stay here out of the ordinary for briefness. She has her mail engagements and is kept moving to meet trains. It is hoped that in time the nomination here and other port officers will have launches to meet steamers outside the harbor. This will at each arrival hasten communication between ship and shore. There are many new formalities that take time and do away with much of the former freedom. Happily, it is yet possible to permit the farewell parties to assemble on the decks at departures."

A RED BOAT CLUB MEETING.

WATERS OF DEBATE CHURNED UP BY OARSMEN.

Details for the Coming Regattas to be Held in September—Officers Elected.

The annual meeting of the Hawaiian Rowing Association Friday night was turbulent and tempestuous.

Arthur Wilder, the aggressive young oarsman, and George R. Carter of the ponderous stroke, churned up the waters of debate.

The following officers were elected for the ensuing year: President A. G. M. Robertson, Vice-President W. A. Wall, Secretary Arthur Wilder.

Details of the races between crews from the Healanis, Leilanis and Myrtles were discussed at length. The races will take place at Peahi Harbor on the second Saturday in September which is the 8th.

On Saturday September 15th will be regatta day. The crews will contest in the Honolulu harbor.

The Regatta Committee decided to give a banner to winning senior crew, and a cup to the juniors.

There is a strong probability that the Stock Exchange and the railroad company will add costly cups to the trophies to be contested for by the crews.

The following yearly committee was appointed: W. A. Wall Healanis; J. C. Lane Leilanis; A. G. M. Robertson Myrtles. This committee will have charge of the Peahi Harbor and Honolulu regattas. It will appoint judges of the races.

Republican Clubs to Meet.

The chairmen of the various precinct clubs of the Republican party are requested to call a meeting of their clubs for next Tuesday evening, to arrange to take part in the ratification meeting to take place on the arrival of the delegates by the steamer Rio on July 29th.

Married Last Night.

John Rocie, a machinist of Waimanalo, was yesterday married to Miss Rosa Oima Rasmussen, who was a teacher of the local school for two years. The wedding took place at three o'clock yesterday at the plantation, the Rev. G. L. Pearson officiating. Among those present were George Chalmers and family, manager of the plantation, A. G. Stoddard and wife and others.

Record of Arrests.

There was a rush of business at the police station last night. Not for a long time has the patrol wagon had such a lot of calls to answer. Ten cases of "drunk" were locked up. One man was held for investigation for forgery and two Chinese were locked up for smoking opium. Akakaaki joint, kept by Fisher, was raided and about a dozen bottles of beer were captured.

THE LOUNGER HAD SERIOUS THOUGHTS.

A Botanical Question—Do Trees Really Think.

NEW IDEA SUGGESTED BY HILO.

WHAT HAPPENED TO A VERY, VERY DERELICT PROOF-READER.

How the Cockroach Furnishes an Industrial Example to the People of Sporting Hilo.

"Do trees think?" Such was the startling question propounded to me by a friend. I was compelled to acknowledge that I didn't know.

"Well," said he, "I am thoroughly convinced that they do. Why? I will tell you. Out at my place on Liliha street, near Kuakini I recently cut off some branches from an algeroba tree. I took the temperature of the tree before the limbs were severed from the trunk and after the amputation occurred. The temperature of tree was three degrees higher after my butchering than it was prior.

"In another case of tree mutilation inflammation set in and the trunk had a high fever.

"You place a bucket of compost in the ground within twenty feet of a growing tree, and I don't care how much rock and seemingly impervious soil may intervene, the roots of that tree will reach that compost within a month, at least in this climate. "Don't that show thought?"

"I made an excavation and placed rich fertilization of guano and chicken manure in it, covering with a top light dressing of dirt. When this was done I planted a Florida pear in the hole. At the same time I set out a papaya tree some twenty feet away.

"Three months elapsed and I noticed that the pear tree was in a bad way. It didn't look thrifty. The leaves were drooping and the tree was stunted. I pulled up the pear tree, or rather, dug it up, and what do you suppose I found? Don't know? Well, the roots of the tree were throttled by tendrils, or shoots, from the papaya. They had worked their way through a seemingly impassable wall of native stone nearly five feet thick in their greed to reach the guano and chicken manure.

"I dug up the papaya tree and found no roots but those running or extending to the pear tree. Doesn't this show thought? Well, I guess, yes.

"Now, I have a flowering red tree in my yard. The wind blows from the north. I cut a limb from the trunk on that side. Judge of my surprise when the tree turned about until the wound caused by severing the limb appeared due south. How do I account for it? The tree wanted to protect its laceration from the inclemency of the north wind."

"Trees think! Certainly they do."

The cockroach lays on the average of 40 eggs a month. There is a movement on foot in Hilo to cross the cockroach with the hen.

The Republican has labored under the great disadvantage during the past week of having a reckless proofreader. I have killed him. It was a case of justifiable homicide. The trifling incident reads a fund of reminiscences. Once when I was running a paper at a water tank out in Nevada they incorporated a bank. I wrote it up, heading it: "A New and Thriving Industry." Judge of my surprise and consternation when the paper appeared to read: "A New and Thieving Industry."

The affair terminated in my abruptly leaving town.

Horace Greeley once wrote, quoting from the immortal bard: " 'Tis true, 'tis pity, and pity 'tis true." It appeared in the Tribune: "'Tis two, 'tis fifty, no, 'tis fifty-two."

Greeley's penmanship was awful; mine, like copperplate, thus showing that all geniuses don't write alike, however similar their thoughts may be.

Is the Anglo-Saxon Christian civilized world to overrun the globe like a flight of grasshoppers in Kansas, or will it succumb to Oriental invasion, the religion of Confucius and the great Hindu sage, Buddha? It is a problem that perplexes my mind and keeps me from slumber. Do you know that Buddhism is acquiring many devout adherents in Honolulu? No? Well, it is. Rev. Y. Imamura was the first to bring the teachings of Buddha to these islands, or rather to promulgate them. The seed fell on fertile soil and the harvest bears the returns from some of the sugar plantations. Imamura has recently secured an assistant in H. Matsumoto. The services of the Buddhists are crowded with white worshippers. This afternoon at 2 o'clock, at the Temple on Fort-street lane, services will be held in honor of the formation of the Young Men's Buddhist Association. Addresses will be delivered in both the Japanese and English languages.

The Young Men's Buddhist Association, I understand, in order to make the organization popular, will shortly establish a gymnasium and introduce them aly art of self-defense with five-ounce gloves.

THE HONOLULU REPUBLICAN. Published Every Morning Except Monday by the Robt. Grieve Publishing Company, Limited. EDWIN S. GILL, EDITOR. TELEPHONES: Business Office, 475; Editorial Rooms, 123. Entered at the Post Office at Honolulu, H. I., as second-class mail. SUBSCRIPTION RATES: Per Month, by Carrier, \$ 75; One Year, by Mail, 8 00; Six Months, by Mail, 4 00; Three Months, by Mail or Carrier, 2 25. HONOLULU, H. T., JULY 22, 1900.

The administration at Washington is patiently waiting to hear the click of the Sultan's cash register. It looks as though cable connection with the mainland would be assured to Hawaii by the next Congress.

Labor Day will be properly observed in September in Hawaii. The hope of Hawaii is in the character of its labor.

All things can be overcome; there are some people in Hawaii, even, who, we fear, are in danger of paralyzing their political pull.

Let every Republican get ready for the demonstration incident to the welcoming home of the delegates to the Philadelphia convention.

The whole country will be glad to see Dewey once more settle down to the Admiral's business. There he shines, while in politics he is an unpleasing spectacle.

Unless the Porte pungles up that hundred thousand dollars sooner, he will hear from Uncle Sam when this little trouble with the Chinese Boxers is settled.

Lookout for the Republican, or the pretended Republican, that will find an occasion for creating factional strife in welcoming home the delegates to the Republican National Convention.

There is one thing to be said for General William R. Shafter—he allows the other fellows to do all the talking. He, meantime, continues to saw wood and to draw down a major-general's salary.

Over in Pennsylvania the other day an elephant fell off a moving train and dislocated its hip. This cannot be construed into a bad omen politically; the G. O. P. will march on to victory just the same.

Judge Estee's court will probably be open next week, and he will have a great run of naturalization business. Quite certain the judge will not demand petitions nor will he recognize Hawaiian stamps.

Give property owners their house numbers and give local mechanics an opportunity to paint and put up the same on transoms, doors or posts. There is every reason why this work should not be done by the government.

While the missionaries have, of necessity, temporarily ceased to overturn the religious beliefs of the Chinese in their own country, they might find a promising field in the large cities of this country to work on domestic heathen.

Senator Hanna failed to vote to seat Senator Quay from Pennsylvania. That's why Teddy Roosevelt of New York, instead of Secretary of the Navy Long of Massachusetts is Mr. McKinley's running mate. Political debts are sometimes paid.

The Young Women's Christian Association's club rooms, recently opened in the Elitje building, on Hotel street, will be a godsend to many young ladies who live in rooms or boarding houses. No test of membership is required; all women are welcome.

Harry Lee, who has held the decks with Leung Chi-Tso for a month past, has left for the mainland. To say that he "skipped" doesn't seem to be philologically correct; the gay and festive Harry was "pushed off." He never possessed sufficient energy to "skip."

Roumania, one of the old countries of the world, is apparently the most illiterate in Europe. The last census shows that in a population of nearly six millions, about four millions neither read nor write and only about a million of the inhabitants have any education at all.

Let the woodsman spare the ax in Honolulu and throughout Hawaii. The felling of a tree is the labor of an hour—often the result of a thoughtless whim; its development into all its beauty was the work of ages. Spare the tree; stand for the beautifying of the island.

The eagle which originally decorated the stern of the famous schooner yacht America—which first won what is now known as the America Cup—is now the sign of the Royal Eagle Hotel, Isle of Wight, overlooking the scene of the vessel's triumph over her English competitors in 1851, a token of the amicable feeling that animates the rivalry between the two great marine nations of the world.

Some idea of the miseries of the poor creatures who have been shut up in Mafeking can be gleaned from the following extract from a letter received in London, and written by the mother of four little girls, and published in the Sydney (Australia) News: "When shall we be relieved? Surely England cannot have deserted us. Hottis and

Nelle lie in the cemetery, baby lies in her cot a little skeleton, and as I write my tears fall on the pallid face of Winnie. She is dying. Nothing could be more pathetic.

With any number of competent painters in town, why should the authorities interest themselves in securing numbers for houses? It is the business of the survey department to give every property owner the number, or numbers, of his lot and house and to see that he displays the same, but the government has neither the right nor the power to make property owners accept lettering furnished by the department. That's running paternalism into the ground.

Dr. A. Mouritz is making a loud call on High Sheriff Brown. In a note to the Evening Bulletin of yesterday Dr. Mouritz uses the following stern language: "What has become of Sheriff Brown's investigation into my professional conduct? Is Brown afraid of me or that Molokai kahuna woman? Possibly Brown has got 'the staggers.' Such calamity was a certainty when he relied on information furnished by the 'Bethel Street Ananias.' And then Dr. Mouritz adds: 'I challenge Brown to verify his case.' It seems to be up against the High Sheriff.

The Republican's special correspondence from Washington this morning is unusually interesting. It sheds a new light on the Chinese situation, demonstrating the wise and statesman-like diplomacy of President McKinley and Secretary of State Hay. Our correspondent, who is an excellent authority, is inclined to regard Russia as the Mephistopheles of the plotting and counter-plotting in the Orient. If this view should be found to be the true one, then the troubles in China have but just begun, and the Anglo-Saxon alliance is destined to play an important part in it. Meantime, while the nations are sowing dragons' teeth in China, there is promise of a substantial harvest of desirable things for Hawaii. It brings the California-Hawaii cable within nearer reach and under the circumstances the fortifying of Honolulu and Hilo harbors and the enlargement of the naval station at Pearl Harbor become an absolute and immediate necessity.

Number the houses by all means, but let every property owner exercise his discretion as to the sort of numbering he will have. Do not let us have any "job" in house numbering. The Postmaster-General of New South Wales appears to be inclined to ignore the improved mail service offered the Colonies by the Oceanic Company. The authorities of New South Wales will probably discover that the people of the Colonies cannot well do without this mail service, and Mr. Crick's dictum may have to be recalled under the new order of conditions in Australasia. One thing is certain, the Oceanic Company will be able to do without the subsidy if Australasia can do without its mail.

HERE'S an agricultural lesson enforced by the experience of a man that tried it on a small holding on the Island of Hawaii: "Fred. H. Hayselden, the energetic manager of Maunaloa plantation on Lanai, has successfully raised and is now marketing in Honolulu 'garden stuff' which offers a good reason to induce others to follow. potatoes, white turnips, carrots, cauliflower, peas, lime beans, okra, onions and summer squash are included in his first consignment, and the sale has netted a satisfactory return. Local fruit and vegetable dealers call for 'more.' That's the sort of farming that will help out Hawaii.

God bless the employees of the Honolulu Iron Works. They were fellow workmen of Emil Ulbrecht and they have raised \$1,100 for his widow and his children, who were left penniless by the untimely taking off of the unfortunate man. The desire is to raise \$1,800, and L. H. Dee heads a coterie of philanthropists who have the ambition to establish Mrs. Ulbrecht in a small, down-town business, where she will be able to make a living for herself and babies. This is a proposition that should commend itself to all persons that are philanthropically inclined.

Japanese Laborer Killed. A Japanese laborer was killed at Ewa mill on Friday. He was employed in the work of constructing the roof of the new mill, and was crushed by a heavy piece of timber falling on him.

The American Girl. One of the deck hands on the Mauna Loa is called American Girl. He is a very good-natured Hawaiian youth, who has spent a good deal of his time on the Barbary Coast in San Francisco. He was dubbed "American Girl" because after a residence of several years on the Coast he returned to his native land chock full of stories of the life and ways of the big city, and to all inquiries as to where he got his information, he would answer, "one American girl, she speaks me about it."

The New Gathman Gun. The U. S. Army 18-inch gun which the Bethlehem Steel Company of South Bethlehem, Pa., is manufacturing for the War Department to be used in firing the Gathman torpedo is nearing completion. It will weigh without its carriage 596 tons, and will be proved by firing ten rounds of solid shot, each weighing 2,000 pounds, and each requiring 450 pounds of powder to secure the necessary velocity. This test will be extremely interesting, and will take place some time in July at the Bethlehem Company's proving grounds, which are located at Reddington, Pa.—Army and Navy Register.

TO REORGANIZE THE ARMY.

Secretary Root Preparing a Bill to Present to Congress. WASHINGTON, D. C., July 9.—Secretary Root is preparing a bill for the reorganization of the regular army even more radical in its nature than the one submitted in the last session. In order to obviate all antagonism from members of the staff of the regular service, the Secretary has sent a circular letter to all chiefs of bureaus, calling for their opinions relative to reorganization of the staff as applied to their individual departments.

The Secretary said to-day he had decided to have the new bill provide for the complete reorganization of the artillery along the same lines proposed in the old measure. It is also intended by the Secretary to ask for relief for the cavalry. It seems to be his opinion that the cavalry should be increased from ten to twelve regiments, in order not only to give a larger mounted force, but to make promotions faster among officers.

An official in close touch with the Secretary says it is the intention of the Department to ask Congress for a standing army of not less than 75,000 men. An army of this size, it is estimated, will be needed to successfully cope with the situation in the Philippines.

H. B. GEHR WILL SETTLE CONTRACTS IN THE EAST.

Herbert B. Gehr of the Kohala-Hilo Railroad came to town by the Kinau yesterday. He is on his way to the east to confer with the principal stockholders in the corporation and to make arrangements for letting contracts. Mr. Gehr brought with him a map of the survey, made under the direction of Chief Engineer Carhill, of the division of the road from Hilo to Lanipaho. It is claimed that these maps, which will be filed in the office of the Superintendent of Public Works, is the only set of railroad maps in the territory. Mr. Gehr leaves on the City of Peking on July 27th.

NEW SUGAR CONTRACTS AND DESTINATIONS.

The contracts between the sugar plantations and the refiners, which will expire on the 1st of October next, have been renewed for three years under the same terms as the expiring contracts. Under the arrangement the bulk of the crop of the islands has been provided for. Fifteen thousand tons will go to the Coast, the balance will go to New York by way of the Horn, excepting 120,000 tons, which will be shipped overland to the East.

HONOLULU Library & Reading Room ASSOCIATION

SOCIETY

Society is putting on her summer dress, and flying away to other climes and conquests. The summer girl, so distinctive a type in the States, is always with us. We see her flying about the hotel verandas, and we watch her with awe and admiration.

There will soon be quite a Honolulu contingency in Maui, judging by the present outlook. Mrs. Castle is enjoying her summer home, and writes most enthusiastically of the cool days and delightful rest.

Mr. Miki Saito, His Imperial Majesty's Japanese Consul, gave a dinner at the Hawaiian Hotel Annex last Thursday, in honor of Dr. John D. Jones. Covers were laid for ten.

Miss Amy MacKinnon, sister of Mrs. Edward Damon, left last week for her home in England. She made a host of friends during her visit here, and her departure will be much regretted in social circles, where she was a great favorite.

Dr. and Mrs. Walter Maxwell have leased their house on the corner of Pensacola and Hassinger streets to Mr. Rothwell of Peacock & Co., and will take the Von Holt cottage at Wai-kiiki for the time remaining prior to their departure for Australia.

Mr. Addison Misner, brother of Mrs. Horace Blanchard Chase, who it will be remembered, with Mrs. Montford Wilson, was visiting Mrs. Harold Sewall last winter, has recently come to Honolulu to establish himself as an architect.

Mrs. William Montrose Graham gave a delightful children's party for her son, Evan, Monday afternoon. The little guests were made thoroughly happy by the tact and kindness of their hostess.

Dr. and Mrs. Clifford Wood have rented their beautiful home to Mr. Bruce Cartwright for a few months. The Cartwrights at present are living with Mr. Haywood. The Woods expect to build a cottage on the beach in the near future.

Mrs. Parke, accompanied by Mr. William Parke and Miss Jennie Parke, will leave about August 1 for an extensive tour, their objective point being Banff. They will be joined by Mrs. Walbridge and Miss Annie Parke.

Theater parties are getting to be very popular, and Saturday is the favorite night. Last Saturday night there were three or four, the largest being that of Mrs. E. D. Tenny. After the theater a supper was served at Mrs. Tenny's handsome residence on Pensacola street.

Mr. and Mrs. Joseph Cooke were occupying one of the loaves. Their guests were Mr. and Mrs. Joseph Gilman, Miss Alice Russell and Miss Sadie Carter.

Mr. and Mrs. F. M. Hatch were in the Irwin box. Their guests were Mr. and

Mrs. S. M. Damon, Mr. and Mrs. Sidney Ballou. Mrs. S. G. Wilder had her usual box, and with her were Mr. and Mrs. Horace Croft and Miss Johnson.

Thursday night "Mr. Barnes of New York" held us spellbound from beginning to end. Miss Chapman is a talented young woman, and the company, on the whole, an excellent one.

The wedding of Miss Cora Henneghan and Mr. W. Walter Jones took place at the home of Mr. and Mrs. W. C. Wilder on Pensacola street.

Miss Belle Walker was most effective in pink moire silk, trimmed with pink and green applique.

Mrs. W. C. Wilder was handsomely gowned in gray satin and beautiful old lace. Her ornaments were diamonds.

Mrs. Dole was very distinguished in gray silk and white lace.

Mrs. S. M. Damon had on a very pretty gown of pink satin. Her ornaments were diamonds.

Mrs. Walter Maxwell was much admired in black velvet and rare old lace.

Mrs. F. M. Hatch wore a French creation of pink and black crepe de chine.

Mrs. A. G. Hawes, Jr., wore a pretty gown of blue and black mousseline de soie.

Mrs. Henry E. Cooper was prettily gowned in white.

Mr. and Mrs. L. A. Thurston gave a small dinner Tuesday evening.

Mrs. Edward Damon entertained a few friends at luncheon on Wednesday.

Miss Harriet Hatch has sent out invitations for a birthday party next week.

Mrs. J. S. Walker gave a reception Friday afternoon.

CHIFFON.

LONG LOST PICTURE FOUND.

An Interesting Souvenir of Napoleon Found in Pennsylvania.

OIL CITY, July 11.—A picture was recently found in Butler county and taken to this city, for which two hemispheres were searched in vain. It is a sketchy illustration, pen and ink sketch of Emperor Napoleon, drawn by a soldier named Paul Dovar, a few hours before the battle of Austerlitz.

The night before the famous battle, Napoleon, unaccompanied, made a tour of the French camp. When he reached a small stream running toward the Russian camp, tolling bells attracted his attention. He stood on the bank of the stream, intently listening and peering into the gloom.

Good Medicine for Children. If you have a baby in the house you will wish to know the best way to check any unusual looseness of the bowels, or diarrhoea so common to small children.

Smith & Co., general agents, Hawaiian Territory.

THE "PARTITION" OF CHINA.

AMEROS BIERCE SHOWS THE FALLACY OF THAT IDEA. Opinion That All the Nations Combined Cannot Conquer a Military Impossibility.

NEW YORK, July 19.—Ambrose Bierce contributes the following to the Morning Journal: The "Partition of China" is a matter for serious consideration—whenever it shall be decided that all foreigners are not to be driven out of China. But let us understand what is meant by partition of China.

Our people—even those of them self-charged with the duty of leading public opinion in the way that it should go—have the vaguest possible conception of the stupendous factors involved in this problem of conquering China by any other sense than capturing Peking and "dictating terms of peace" to offending rulers of whose existence the real China is hardly aware.

From Shanghai to Kashgar the Chinese Empire has a length of 2500 miles, from Tonquin to the Siberian border a breadth of 2000. This immense territory is virtually without railways and telegraphs—most of it without practicable military roads.

There are two great rivers in China, navigable well up into the heart of the empire. Their valleys, naturally, are the most densely populated parts of the country.

To subdue and occupy China the invaders must do what Kitchener did when invading the Sudan; they must build railways as fast as they advance. But Kitchener's advance was across level deserts, where engineering difficulties cut but a small figure.

There is a fact—that the great southern viceroys are giving a slack allegiance, if any, to whomsoever may be in authority at Peking, in the probability, that is to say, of China being parted among the Chinese.

The legations are gone. Of all our people in Peking not a man, woman or child is living. For this hideous crime China must answer, and every consideration of patriotism, self-respect and expediency requires that we make common cause with the other powers in exacting full retributions.

ALONG THE WATER FRONT.

New South Wales Refuses to Pay the Mail Subsidy.

SHIP PHELPS SAILED YESTERDAY.

HOW THE IRISHMAN NOT USED TO PRAYING SAID A PRAYER.

How "American Girl" Got His Title - A Tramp That Made Money - Kinau Arrives From Maui and Hawaii.

Postmaster-General Crick of New South Wales has decided not to pay a subsidy of \$150,000 a year, jointly with New Zealand, to the Oceanic Steamship Company for carrying the mails.

The Sydney Evening News for July 2 makes the following editorial comments on the same subject: "The Postmaster-General has decided not to subsidize the San Francisco mail service after the expiration of the present contract."

A NAUTICAL MEDICAL ESTABLISHMENT.

The German government has decided to establish at Hamburg, Germany, a special school for the study of nautical diseases, to which doctors as well as masters of vessels will be admitted.

A MONEY-EARNING TRAMP.

In contrast with the old days of the sailing ship is the remarkable series of

voyages made in a year by the British steamer Farrington, which was in this port for Rotterdam several months ago, says the Philadelphia Times.

FRENCHMAN'S YARN.

The British bark Baltimore, which arrived in New York a few days ago from Tehio, New Caledonia, with a cargo of nickel ore mined by the convicts of the French penal colony in that far-off island, had aboard George Lascelles Latroune, a sturdy Frenchman who had worked his passage to the New World.

Pletts, Captain Ahlborn, wife, four children and maid; Miss Massey, Charles Buchanan, Miss Lelaloa Haumea, Miss Helen Kaina, Miss M. E. May, Miss J. Barnard, E. E. Olding, H. H. Allen, Rev. J. Endman, Mrs. E. Buchanan, Mrs. Holstein and son, Miss N. K. Kay, Mrs. Kong Get Gin and two children, and 35 deck passengers.

WATER-FRONT STORY.

One of the habits of the water-front is somewhat of a wit in his way. He is a man who has seen life on many sides in many countries. He has formed opinions that are backed up by his experience, and in his way is a philosopher of no mean ability.

OCEAN TEMPERATURE.

The deepest ocean temperatures which have been recorded were taken by the United States steamer Nero, which is sounding for the cable between Guam and the Midway Islands.

a temperature of 35.3 deg. Fahr., and at 8,600 feet it was 26 deg. Fahr.

PHELPS SAILS.

The Erskine M. Phelps got away for San Francisco yesterday with one of the largest cargoes of sugar ever taken in a sailing vessel. Early in the morning the second mate refused to go if the mate was taken along.

THE KINAU, FROM HAWAII AND MAUI PORTS.

The Kinau, from Hawaii and Maui ports, arrived yesterday afternoon about 3 o'clock. She brought a big cabin crowd, but comparatively few on deck.

THE W. G. HALL AND KEAHOHU, FROM KAUI, AND THE CLAUDINE, FROM MAUI, WILL BE IN THIS MORNING.

The schooner Golden Gate got away last evening for Kaunakakai, and the Eclipse sailed on time for Kauai.

THE W. F. WIEZEMAN SAILS THIS MORNING FOR THE SOUND IN BALLAST.

The schooner W. H. Smith is in the berth occupied by the Wietzemann at the railroad wharf.

CAPTAIN TOWNSEND OF THE SURPRISE TOOK THE ECLIPSE TO KAUI YESTERDAY.

The schooner Alice Kimball and the steamer James Makee are on the marine railway.

CAPTAIN HARRY SWINTON, AN OLD TIMER ON THE INTER-ISLAND VESSELS, HAS BEEN MADE ASSISTANT HARBOR MASTER.

The crew of the wharfinger's office ranks as follows: Captain A. Fuller, Mate Frits, Second Mate Swinton, Cabin Boy Bobby Bicknell.

THE SCHOONER SURPRISE SAILS FOR LAHAINA, MAKENA AND KONA PORTS ON TUESDAY AT 10 A. M.

THE SCHOONER ALICE KIMBALL AND THE STEAMER JAMES MAKEE ARE ON THE MARINE RAILWAY.

Captain Harry Swinton, an old timer on the inter-island vessels, has been made assistant harbor master.

FLINT'S AFFIDAVIT FILED IN WIFE'S CASE.

Judge Humphreys Has Split Flint's Salary in Two.

THE ORDER OF COURT IN MATTER.

CLAIMS AS SET FORTH BY LIBELLEE IN THE ACTION.

Flint, It is Alleged, Is a Captain of Police and Receives Only Eighty Dollars per Month.

Mrs. Nina I. Flint had an inning before Judge Humphreys yesterday morning. She battled a hit-out in the left garden and made the circuit of the bases.

Judge Humphreys wasn't pleased with her appearance as she circled the diamond, but Nina was weak and accompanied by a child, a little girl by a former marriage. The Court decided, after hearing the evidence, that the libellee should pay \$40 a month to the libellant; \$10 costs, to be augmented at the discretion of the Judge, and \$50 attorney's fees, to be paid by September 15th.

The hearing was in the temporary prayer for alimony. J. Alfred Magooil and L. M. Long for libellant, William A. Henshall for libellee.

Counter affidavit in the Flint case, as filed by William A. Henshall, attorney for libellee, is as follows:

"That he is the libellee in the above entitled cause and that he has been served with a copy of summons and libel for divorce on file herein.

"That before the time prescribed by law in which to answer said libel he intends to and will file a sworn answer denying specifically each and every allegation in said libel contained which charges this affiant with cruelty and failure to provide or which in any manner charges this affiant with improper conduct towards libellant.

"And this affiant denies that on the 22 day of July, 1900, he departed from the home of libellant and libellee in said Honolulu and left libellant there sick and destitute without providing for her suitable maintenance and has neglected and refused to do and still neglects and refuses to provide for her suitable or any maintenance or support, though often requested so to do, but on the contrary this affiant avers that by reason of the great misconduct of the libellant for the three months last past, rendering the conjugal state unbearable to affiant, such as her drinking to excess, staying out at night until very late, associating with persons of unsavory reputation and totally and entirely neglecting the duties of a good and faithful wife, this affiant was compelled to leave their said home, but that he left the same with the rent paid in advance and furnished at the time informed libellant by letter and orally that he had deposited with his attorney, William A. Henshall, the sum of \$25 for her maintenance and support, which would be paid to libellant whenever she called for the same; that libellant has never called for said \$25 either in person or by attorney.

"That libellant is able to maintain and support herself during the pendency of this suit, just as she has done since July 3 last, and that libellant does not need \$50 per month for her temporary maintenance and support.

"And this affiant further denies that he holds a lucrative position in Honolulu, that of harbor police, for which together with other services, he receives a large monthly compensation of over \$250, but on the contrary, affiant avers that he is employed as Captain of the harbor police and receives a salary of \$80 a month and no more, and that his total earnings monthly do not exceed \$80, and that affiant has no money in bank or property of any kind and no income whatsoever other than said \$4 per month."

A. M. Brown, High Sheriff of the Territory, in an affidavit, says that he knows libellee; that he is employed by affiant as captain of harbor police of Honolulu at a monthly salary of \$80.

Booze Scarce.

There is a beer draught in Honolulu. Most of the wholesale houses have almost exhausted their supply of the bottled beverage. There are several hundred barrels on the way here, but the immediate supply is getting very slim and a long thirst is liable to result, unless several vessels now on the way arrive before next Saturday.

A LIBERAL COMPANY.

The PROVIDENT SAVINGS LIFE ASSURANCE COMPANY of New York, furnishes maximum insurance at a minimum cost. The company is as liberal in its dealings with policy holders as conservative and economical management will allow.

Fantasia—Autumn Leaves...
Grand Selection—Luzerne Borgia.

Part II.
Selection—The Lombardians...
Carolina—Parisina...
Fantasia—Tambourin...
Overture—Murmuring Forest...
The Star Spangled Banner.

A Minister's Good Work.

"I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Power, of Emporia, Kan.

"My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible flux, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said, 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured. I think it the best medicine I have ever tried." For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Territory.

Gasoline Schooners.

Surprise sails from Honolulu every ten days to Lahaina and Makena, Maui, and all the Kona ports of Hawaii.

Eclipse sails from Honolulu as soon as possible after arrival for Kamae ports, Koloa, Elea, Hanapepe, Makaweli, Waimea and Kekaha.

The vessels carry freight and passengers and insure quick dispatch.

LADIES' MUSLIN UNDERWEAR

We have just received direct from the makers an assortment of

Ladies' Muslin Underwear

which, we believe, in

Variety of Styles, Completeness of Assortment and General Attractiveness,

has never been surpassed in Honolulu.

The line is too large to enumerate the different garments, so we have made a display of a few of them in our

Large Central Window,

which will give one a partial idea of what they are, and the variety of styles we have.

This Stock is Worthy of Inspection

In the same department will be found Ladies and Misses SHIRT WAISTS, Ladies' Waists in

Silk and Cotton White, Black and

colored, a large variety of styles, but few of a kind.

Ladies' over skirts for dress, traveling, walking or riding, of silk, wool, linen, cotton pique, in white, black and colors. There need be no delay in one's supplying one's self with a skirt at short notice suitable for almost any occasion.

Ladies in want of a cape of any description, would do well if, before purchasing elsewhere, they inspect our stock of capes. Capes for the opera, for dress, for traveling, for walking, riding, golf, etc., in white, black and colors.

ROBT. GRIEVE PUBLISHING CO.

DISGUSTED WITH THE PLANK.

Warner of Ohio Declares That It Insures Defeat.

KANSAS CITY, July 21.—General A. J. Warner of Ohio, one of the founders of the Bimetallic League, was vigorously opposed to the action of the committee on resolutions inserting a 16 to 1 plank in the platform. "The idea of announcing that the free and unlimited coinage of silver at the ratio of 16 to 1 is a 'great moral principle' is all nonsense," said he. "The ratio is a thing to be determined by Congress. Here we have the spectacle of Oklahoma and Indian Territory and some of the smaller Western States dictating to such State as Ohio, Indiana, New York and Pennsylvania. It is absurd, Bryan is honest and earnest, but he is surrounded by a lot of people who evidently control his views. It would be simply impossible to carry Ohio or Indiana on any such platform. The general public will vote against us."

"Why do you know," he continued, "in a rather excited manner, 'that we carried the conservative proposition by five votes one time, and then they gave us the cry that Bryan would not accept and then carried it by two votes. Think of it, two votes! Probably Hawaii and Oklahoma, two territories that can't give us an electoral vote, defeated the will of the East and the entire Democracy. It's appalling. The strongest silver men are with us. Even Jones is with us and has so declared, but he is dominated by Bryan. Just the same as I am opposed to imperialism in a nation, so I am opposed to it in an individual. This is imperialism of the worst sort."

Driver Fined for Soliciting.

Mannuel Philips, a hack driver was fined \$100 and deprived of his license yesterday by Judge Wilcox for soliciting for a fallen woman. Williams a witness in the case was sent to jail for contempt of court. In leaving the courtroom he caught hold of one of the female witnesses and threatened her. Judge Wilcox saw the man's action and called him up to explain. He failed to do so and was sent to jail for twenty-four hours.

Today's Concert.

The following program has been arranged for the Makee Island concert this afternoon:

MEETING NOTICE.

There will be a special meeting of the stockholders of the Inter-Island Steam Navigation Co., Ltd., at their office, Queen street, on

Tuesday, July 17, 1900,

at 10 o'clock a. m., for the purpose of accepting the Amended Charter of Incorporation, and to transact such other business as may be brought up before the meeting.

C. H. CLAPP,
Secretary.
Honolulu, July 9th, 1900.

A Minister's Good Work.

"I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Power, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said, 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured. I think it the best medicine I have ever tried." For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Territory.

(Continued from Page 1.)

the valley. These varieties are the Noha, a dark stem taro and a good producer; the Pala-i, the Pii-Alii, or pink-poi taro, the kind formerly taboo to the chiefs and kings; the Ha-okea and the Ka-i, the last-named being a very good, hard, blue taro. Part of the land is being cultivated by hands on salary, the average pay being about 50 cents a day and part of it is being cultivated on the profit-sharing plan, the income for the cultivators being about the same as for those working on wages. All the taro is used in the settlement, and it is hoped that eventually enough may be raised to supply the settlement's demands.

The water supply, which comes from a small stream in the same valley higher up the mountains is in good condition. The eight-inch supply pipe, laying of which was begun eighteen months ago, has all been laid and the supply is now ahead of the present demand.

There are now at the settlement 988 inmates, being a decrease of 102 since December 31, 1898, while about forty more are awaiting transfer to the settlement at the receiving station at Kalahehi. Of the 988 inmates 394 are females and 594 males. But twenty-one are full-blooded white people, being distributed as to races as follows: Americans, 5; British, 4; German, 5; Norwegian, 1; Portuguese, 6.

The entire party visited the Bishop Home for Girls and the Baldwin Home for Boys, being shown every attention by the sisters and brothers in charge.

A girl baby 6 months old, born of leprosy parents, was carefully examined by the board, and, being pronounced clean, was brought back to the city, where she will be placed in the keeping of the sisters at the Kapiolani Home. There are twin girls, 10 months old, at the Bishop Home, their mother having been sent to the settlement a little over a year ago. The husband and father visited them yesterday, and as the children show no taint of the disease, he will be ordered to find a place for them outside the settlement as soon as possible, falling which the board will commit them to the care of the Kapiolani Home.

There were many affecting scenes, both upon the arrival of the boat and upon her departure, in the parting of friends. The return trip was begun shortly after 4 o'clock, the boat reaching her dock at 10:40 last night with a tired and weary lot of passengers on board.

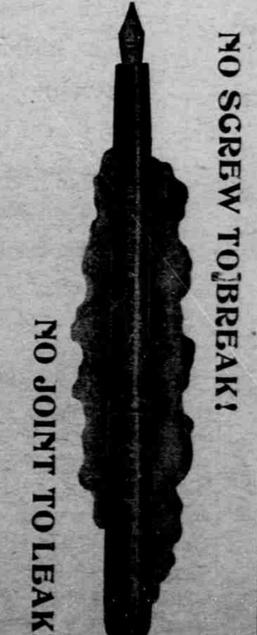

Just arrived on the Mary E. Foster, a large shipment of horses, mules, choice milk cows and chickens of special varieties. Honolulu Stockyard Co., limited.

A lame shoulder is usually caused by rheumatism of the muscles, and may be cured by a few applications of Chamberlain's Pain Balm. For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Territory.
