BOARD OF HEALTH HEARS MANY REPORTS

Twenty-four Subjects Submitted

Waging War Against Impure Foods--Wilder Company Wants to Carry Paiai. Sympathy for Dr. Pratt.

When the Board of Health arranged with the owners of a small sailing schooner to transport paia from Maui producers to the leper settlement some months ago, they failed to count upon an objection that might be raised by the Wilder Steamship Company, which claims that they possess a contract, signed and entered into with the Board of Health, for transporting all supplies and persons destined for the settlements on Molo-kai.

The contention was raised by President Sloggett, at the regular meeting of the Board of Health yesterday afternoon, that the contract held by the Wilder Steamship Company did not apply to the transportation of paia grown and shipped from Maui ports. It was with this understanding of the situation that an arrangement was entered into with Correa, owner of the schooner, which has at indifferent periods been taking small cargoes of the food supply to the leper settlement.

The matter was brought to the attention of the board by the receipt of the following letter from Manager Wight, of the Wilder Steamship Co.:

Honolulu, Jan. 15, 1902.

Dear Sir:—We are advised that paia is being carried from accessible parts on the island of Molo-kai to Kaula-papa by vessels other than those belonging to this company. Under tender made for transportation for the Leper Settlement this service was included. We presume that we have not been given this business through an oversight, but we would respectfully request that we have an expression from the Board of Health in reference to this matter.

Yours truly,
WILDER STEAMSHIP CO.,
C. S. Wight, President.

Gasoline Launches to the Rescue.

The original copy of the Wilder contract was secured and carefully examined. The board arrived at the conclusion that there was no provision in the document which covered the Maui paia, consequently a committee consisting of Dr. Sloggett and Messrs. Mott-Smith and Fred Smith was appointed to make satisfactory arrangements for transporting a fair supply of paia to the leper settlement.

Incidentally Dr. Sloggett called upon Mr. Young, the owner of the gasoline launches now plying in and about the harbor. Mr. Young stated he was prepared to transport the paia at the same amount that it was costing the Board in employing the schooner. He stood ready to take up the work immediately. The report of the special committee will be considered before action is taken in the matter.

Dr. Reed Has His Troubles.

In a letter to the Board of Health from Dr. R. H. Reed, of Hilo, he states, among other things: "Under another cover I send you my reports for the month of December. After I received my appointment to the Oiaa district, I telephoned to Dr. Nicholas Russel and asked him where I could find the registration books, also what drugs were required. Dr. Russel told me that he had the registration books but declined to turn them over or receive a portion of the salary which went to me, claiming that the Board of Health had no business to appoint me while Dr. Blake held a commission for the district. I have taken regular trips to Oiaa and have taken my drugs from Hilo. I find the district very easy to handle owing to the numerous telephones throughout. You will find my report for the balance of the month of December very incomplete, not having been in the district long enough to answer many of the questions."

Kahunas Are Barred.

The reading of Dr. Reid's letter

SHOREMEN'S UNION FORMED

BIG MEETING AT THE DRILL SHED

LARGE AUDIENCE PRESENT AND LABORERS NEW LABOR ORGANIZATION ROLL.

Enthusiastic Union of All Nationalities to Fight Asiatic Laborers—Permanent Organization is Formed—Herbert Mossman Makes a Very Telling Address.

The Longshoremen's Labor Union was launched last night at an enthusiastic meeting of laborers held at the Drill Shed for the purpose of perfecting organization and electing officers.

Over two hundred men were present and 135 names were signed to the rolls.

Owing to several companies having business meetings or drill, the meeting was not called to order until 9 o'clock. In the meantime the leaders of the movement constituted themselves into individual committees of one each, and were kept busy explaining to the natives the privileges to be derived from the organization.

Against Asiatic Labor.

The opinion of the audience seemed to be unanimous against the employment of Asiatics on the wharves of Honolulu. Here and there small groups of Japanese, Portuguese and Americans were earnestly discussing the situation and many strong opinions were expressed on the subject.

D. K. Kaoo called the meeting to order and Fred Kauahi acted as secretary. The chairman, D. K. Kaoo, immediately announced that nominations for president of the Longshoremen's Labor Union were in order, and H. Mossman and D. K. Kaoo were nominated. A ballot was taken and resulted in a tie vote. There were 130 voters and both candidates received 65 votes each.

Officers Elected.

When the result of the election was announced, Herbert Mossman advanced to the platform and withdrew his name in favor of D. K. Kaoo. The other nominations were made unanimously and the officers elected are as follows:

President, D. K. Kaoo; vice president, William Allpau; secretary, Fred Kauahi; assistant secretary, John Wise; treasurer, M. Nika.

Jack McVeigh and H. Mossman were nominated for treasurer but both declined the honor. Jack McVeigh was not eligible as he had not signed the roll. Mossman pleaded that he be allowed to decline on the ground that he would be able to do more good for the organization by being an individual member. He advised his audience to unite as, with union, they will be able to resist the encroachment of Oriental laborers on their own field.

Mossman's Telling Remarks.

"The Japanese belong to the plantations," said the speaker, "and not on the wharves of our city. Now they work in the hold of the ships and also on the wharves. The only work which is left for you to do is the running of the donkeys and the handling of the tripping lines and hooks. In a few months they will also capture those places, and then the native Hawaiian will not be able to find work in his own country."

"Supposing that they work for the same wages that we do, of what interest are they to the community? They live on almost nothing, a sack of rice will be their means of existence for several weeks; the balance of their money they send to Japan. We work for higher wages. It is true, but with what we earn we support our families; and in a small way we are doing our share towards the support of our institutions and the welfare of the community."

Mr. Mossman's remarks called forth much applause. His words were translated into Hawaiian by John Wise.

Committee on Constitution.

A committee composed of Herbert Mossman, chairman, John Wise, Fred Kauahi, Wm. Allpau, Captain Hoff, Paul K. Hipsa and Captain Nabors Hipsa was appointed by the president to draft a constitution and by-laws and report at the next meeting. The committee will meet on the Pacific Mail dock next Saturday at noon.

The Next Regular Meeting of the Union Will Be Held on Wednesday, January 22, at 7:30 in the evening, at the Drill Shed.

Y. M. C. A. Outing.

The Y. M. C. A. is making plans for a Saturday outing to Waikiki. Members who would like to participate are asked to communicate with Secretary Brown.

NEW TRIAL WANTED BY UNCLE SAM

In the Matter of the Suit Against Honolulu Plantation.

JURY IRREGULARITIES ALLEGED

NEWLY DISCOVERED EVIDENCE IS ALSO GIVEN AS A REASON.

Misconduct of the Jury—Excessive Compensation Attempted to be Awarded by Verdict—Juror Kohn Did Not View Pearl Harbor Lands—Supreme Court Cases.

The United States Government, through United States District Attorney J. J. Danne, yesterday filed in the United States District Court a notice and motion for a new trial in the recently decided case of the Government against the Honolulu Plantation Company, in which a jury the other day awarded \$105,072 damages for the leasehold interest of the sugar company in certain lands at Pearl Harbor required by the Government for naval station purposes, and for alleged improvements on said lands.

The notice and motion for a new trial are accompanied by the affidavits of L. L. McCandless and Captain Charles F. Pond, U. S. N., and others.

Reasons for New Trial.

The reasons for asking for a new trial are summed up as follows:

1. Irregularity in the proceedings of said court and the adverse parties by which said plaintiff and petitioner (the United States) was prevented from having a fair trial.

2. Accident and surprise, which ordinary prudence could not have guarded against.

3. Newly discovered evidence, material for said plaintiff and petitioner, which it could not with reasonable diligence have discovered and produced at the trial.

4. Insufficiency of the evidence to justify said verdict.

5. Errors in law occurring at the trial and excepted to by said plaintiff and petitioner.

6. Irregularities in the proceedings of the jury.

7. Misconduct of the jury.

8. Excessive and unreasonable and inconsistent compensation or damages, attempted to be awarded by said verdict.

Sworn Officer Not in Charge.

The notice and motion for a new trial allege that the members of the trial jury sitting in the case of the Government against the Honolulu Plantation Company did not visit the lands sought to be condemned for naval station purposes in charge and under the direction of a sworn officer of the Government.

It is also alleged that there was an irregularity as far as the trial jury was concerned in that Juror M. M. Kohn who took the place of Juror L. F. Prescott in the middle of the proceedings, on account of the sickness of Juror Prescott, was not a member of the trial jury when the said jury visited the lands sought to be condemned by the Government for naval station purposes.

Did Not View Lands.

Captain Charles F. Pond, of the United States Navy, makes affidavit to the effect that Juror M. M. Kohn was not a member of the jury when the jury visited the Pearl Harbor lands for the purpose of inspecting them and that the new juror did not visit the lands at any time afterward for the purpose of inspection. This alleged irregularity is dwelt upon to some extent.

It will be remembered that, on account of the illness of Juror Prescott, a new juror had to be drawn from a special venire and that M. M. Kohn was the man drawn. When the case proceeded with Kohn on the jury instead of Prescott, all the testimony taken before the coming of Kohn on the jury was read over for the benefit of the new juror. This was after the jury had visited Pearl Harbor and

Kohn had not been one of those to inspect the lands.

Kohn, therefore, although he had listened to all previous testimony, had not the advantage of the rest of the jury who had been over the lands involved in the case.

L. L. McCandless makes affidavit to the effect that he is a well borer and that he sunk an artesian well on the lands involved in the suit. He also declares that the attempts to grow rice on the lands in question proved a failure.

Federal Court Notes.

In the matter of the objection of the Bishop Estate to the order of possession of Pearl Harbor lands, no further move was made in the United States District Court yesterday. Chief Clerk Maling, however, still holds a draft on the Secretary of the Navy, payable to Captain Merry and endorsed over by him to the Bishop Estate, trustees, for the amount of judgment on the verdict of \$52,737.50.

Attorney Thomas Fitch demanded and was refused a jury trial for the appeal of H. Hamano from the Board of General Appraisers in the matter of Oriental shoes. United States Judge Estee set the case for hearing at 10 o'clock this morning.

Kamalo Sugar Case.

Counsel for plaintiffs in the case of the Kamalo Sugar Company equity suit have given notice that they will move today that the cause be forthwith set for hearing.

In the Supreme Court.

The case of Jonathan Shaw against C. W. Booth, exceptions from First Circuit Court, was argued and submitted before the Supreme Court yesterday as was also the case of Asi Brown against Andrew Bannister. This morning the case of C. Brown, administrator, against the Equitable Life Assurance Society, exceptions from the First Circuit Court, will be taken up.

Suit Against Tramways.

George W. Hayselden has filed a suit against the Hawaiian Tramways Company for \$5,000 damages, on account of an accident which occurred on Christmas Day. Hayselden alleges that he was thrown from his buggy and injured by reason of the Tramways Company's action in obstructing the roadway by a pile of dirt on King street, near Victoria.

Suit in Ejectment.

The Enterprise Mill Company has brought suit in ejectment against Emmet May and W. H. G. Arneemann for real estate on the Waikiki side of Alakea, between Queen and Halekula streets, containing 1890 square feet. Damages for \$1,900 are also claimed.

CHANGE OF PROGRAM.

Orpheum Will Have Nearly a New Bill For Tonight.

There will be several complete changes in the program of the World's Entertainers to-night, not merely a step here and there with perhaps a new song, but a change that practically constitutes a new program.

Professor Powell has sent his attendants out fishing to Waikiki and the resultant gold carp will be utilized in his star mystification which consists in hooking two gold fish from the midst of the astonished audience.

Flatt and Sutherland completely change their musical comedy sketch, the Deltorellis trio, and the Three Castles will introduce entirely new business, the Ferraris will present new steps and dances. Hope Hadden has new songs and more dainty dresses. Mlle. Irma de Monza will vary her repertoire and Bunth and Rudd will produce another series of casualties.

A "bargain" matinee on Saturday afternoon at popular half prices should give a banner afternoon house. There is much in the program that should prove irresistibly funny to the little ones.

The performance went as well as ever last night to a crowded house.

Balzac Degenerating.

Yesterday noon, Mr. J. F. Morgan, while selling off some of Mr. P. A. Perry's collection of paintings and books knocked down a forty-two volume set of Balzac, full Persian Levant binding, with watercolor illustrations, valued at \$420 for \$85. This should make that ancient and honorable author turn in his grave. Today at 10 o'clock the remaining books and pictures will be sold, and from all indications some fine snags will be picked up. Mr. Perry has his salesroom in the ground floor of the Stangenwald building at present. He will leave for the Coast on the 20th inst.

LONG DISCUSSION ON BANK ELECTION

Proxies Need Not be Stamped

Minority Stockholders Can Transact Business

Cooper Sees Macfarlane at Waikiki. National Laws Quoted.

Colonel George Macfarlane was seen at the Hawaiian hotel last evening in regard to the First National Bank stockholders' meeting affair.

"The impression which seems to have been current to a great extent, that I was planning to have Mr. J. F. Morgan become the president of the First National Bank," said Colonel Macfarlane, "is a wrong one. I will tell you how it was that Mr. Morgan's name came to be mentioned for the presidency of the bank.

"When I was in San Francisco, Mr. Steinhart, the senior manager in the Anglo-California Bank of San Francisco and London, sent for me to say that Mr. Morgan had arrived and that he had brought with him a letter from Mr. Cooper, cashier of the First National Bank of Hawaii. The letter was full of praise for Mr. Morgan and referred to his standing in the community and his general knowledge of valuations in Hawaii. The letter also referred to the existence of strained relations, in the First National, between Mr. Cooper and Mr. Brown, the president.

Friction of Bank Officers.

"Mr. Morgan simply confirmed the report of the strained relations in the Honolulu bank, saying that there had been considerable friction between President Brown and Cashier Cooper. This friction was well understood in Honolulu and had become almost a public scandal.

"Mr. Steinhart asked Mr. Morgan what suggestions he had to offer in regard to solving the friction problem.

"It was thought that either Mr. Cooper or Mr. Brown ought to resign. It was believed that, as Mr. Morgan was one of the board and had been introduced by a very friendly letter from Mr. Cooper and as Mr. Cooper was the business man of the bank, it would be best for all parties concerned for Mr. Brown to resign as president. This was practically the conclusion which was arrived at between Mr. Steinhart and Mr. Morgan.

"Just which one of these gentlemen the suggestion came from I don't know.

MORGAN SEEMED LOGICAL CANDIDATE

"It appeared that Mr. Morgan was the logical candidate to take the place of Mr. Brown and was perfectly familiar with all bank matters and was friendly with Mr. Cooper, who was the business man of the institution.

"Mr. Steinhart informed Mr. Morgan that if Mr. Morgan thought it advisable, he would write a letter to President Brown. If Mr. Morgan would take the position of president himself, being friendly to both parties, Mr. Brown could resign in favor of Mr. Morgan.

"It was at about this stage of the discussion that Mr. Steinhart sent for me, and my recollection is that Mr. Morgan said that he was certain that on his return to Honolulu he could induce Mr. Brown to resign and allow him (Mr. Morgan) to succeed Mr. Brown.

Matter Leaks Out.

"Mr. Morgan advised Mr. Steinhart not to write to Mr. Brown, intimating that such a change would not be objected to, and fearing that Mr. Brown would resist the idea if the suggestion should come from anyone but himself.

"All I had to do in the matter was simply to acquiesce in the proposal put forward, which I did.

"But, it appears that in some way the talk that Mr. Morgan was to return to Honolulu to try to secure for himself the position of president.

"However, Mr. Brown, having been informed in some manner that Mr. Morgan was to become his successor, immediately accused the Anglo-California Bank of forming a conspiracy to throw him out of office. The Anglo-California Bank was entirely innocent of any such plot.

"I will state as an absolute fact, as far as I am concerned, that I have not seen Mr. Morgan since my arrival here, nor have I any instructions from the Anglo-California Bank to try to secure the presidency for Mr. Morgan.

TRY TO UNDERMINE THE PARENT BANK

"It was rumored that Cashier Cooper and President Brown made up their differences and immediately commenced to undermine the parent bank, which had created the First National Bank here, with Mr. James Campbell, by securing for the corporation its charter from Washington.

"At the meeting of stockholders the other day I could not call to mind whether the tax on proxies to vote had been repealed or not. I knew that a sweeping change had been made since last July but did not remember if these changes applied to proxies.

"I rested perfectly at ease, however, after I got in my protest and was fully convinced that the Anglo-California Bank, which had sent me the proxies in a sealed envelope, would not have sent them to me in an imperfect condition, as such institutions are perfectly familiar with all such conditions of business and do not make mistakes.

Tax on Proxies Repealed.

"This morning I immediately set to work to look up the Amended War Revenue Tax and learned that the tax on proxies, ten cents, had been repealed.

"I at once decided to commence mandamus proceedings in the Federal Court and saw Attorney J. J. Dunne who is now engaged in drawing up the necessary papers. The suit will be begun as soon as possible. Attorney J. A. Magoon is also engaged in the proceedings.

"The matter resolves itself into a case between the interests of the stockholders of the Mainland and the Territorial organization.

"The matter must of necessity be brought up in the United States District Court as it is a national bank affair and the interests of those who are not local people are at stake.

"Attorney J. A. Magoon represents interest in the Atong Estate whose proxies were ruled out by Mr. Brown."

MORGAN NEED NOT BE NEXT PRESIDENT

"If the mandamus proceedings should result in the Federal Court declaring the stockholders' meeting of the First National Bank to be void, would a new meeting result in Mr. Morgan becoming president?" was asked.

"No! Not necessarily. I shall not force anyone on the local stockholders who is not an acceptable candidate, but I shall ask for an adjournment of thirty days out of respect to the wishes of Mrs. Campbell. I shall bring about a discussion among all the stockholders, that there may result a unity of feeling for some candidate for the position of president.

"If Mr. Brown should resign and no local gentleman should be available for the position of president, someone will be selected from New York who is thoroughly familiar with the national banking system."

Persona Non Grata.

"Will Mr. Brown's action in the matter of the proxies cause a breach between himself and the Anglo-California Bank?" was asked.

"As the representative of the Anglo-California Bank, that is hardly

(Continued on Eighth Page.)

MOANA AND ALAMEDA LEFT YESTERDAY FOR COAST PORTS

Captain Carey Reports Meeting Strange Currents

Captain Pond Sails on the Alameda—Has a Good Word for People of Honolulu—Hawaiian Band Plays Steamer Off. Native Put Back Ashore.

Two Ocean Steamers left Honolulu yesterday for the Coast. The Royal Mail Steamer Moana sailed at noon for Victoria, B. C. with the following passengers from Honolulu: Mrs. E. Smith, J. H. Katton, James Murray, H. C. Harrison, Mrs. H. C. Harrison, Fred Smith, C. H. Hechler, J. J. Noll, Mr. and Mrs. Charles Duval and child, Mr. and Mrs. E. L. Newman, Mrs. M. Judge, Miss M. Cooley, Miss L. M. Parker, H. D. Clarke, Mrs. J. F. Mallet and A. J. Proper.

New Current Discovered.

Captain Carey has made a report which he will forward to the proper officials at Ottawa on his arrival at Victoria, reporting the discovery of a new current in Southern waters. The current is from west to southwest and was experienced fully six or seven degrees further south than has ever been known before. The equatorial currents extend from 10 degrees North to 2 degrees South. When the Moana was about 9 degrees south it was not-

iced that she did not keep on her course. The officers were at a loss to determine the cause of the deviation as there had not been any wind to exert any unusual influence on the vessel. Observations in the water being made it was noticed that a current was running to the southward.

Alameda Sails at Four O'clock.

The Alameda was booked to sail at 3 o'clock, but it was fully four when she got away. A very large crowd of people were on the wharf to see her off.

Just as the quartermasters were going to pull the gangway up, a woman arrived escorted by a native man and both were under the influence of liquor. The woman had to be carried on board, and as soon as she reached the deck she had an attack of hysterics. She cried and moaned till she put the band out of existence. An investigation being made by the officers of the vessel it was discovered that her companion had no ticket and

he was promptly put ashore.

Captain Pond's Last Aloha.

Captain and Mrs. C. F. Pond were among the passengers to the Coast, and were visibly affected at the thoughts of leaving behind so many devoted friends. To a Republican reporter, Captain Pond, with tears in his eyes, dictated the following words: "Please tell the people of Honolulu, that I carry away with me, sweet and dear remembrances of my three years' residence in your lovely city. I leave behind nothing but friends and pleasant memories, and my dearest wish is to return once more to the Paradise of the Pacific. To the Republican and to the people of Honolulu I say, Au revoir but not good-bye. Aloha to all."

From two until four o'clock the Territorial band was in attendance on the wharf, and, with its most lively airs, helped to make the departure of the Alameda pleasant and joyful instead of sad and pathetic.

BUSTLE AND HURRY ALONG THE FRONT

COAL AND COAST SHIPS ARRIVE

Golden Shore Makes Fast Trip From Newcastle—Alta and Newsboy Come From Same Port—Tillie E. Starbuck From Coast.

BENJAMIN SEWALL HAS MORE TROUBLE

HALF CREW DESERTS THE SHIP

Sailors Claim Vessel is Short of Provisions and in No Condition to Sail—More Men Are Premised For This Morning.

GERMAN SHIP AGNES ARRIVES FROM HAMBURG

WAS SIX MONTHS ON HER WAY

First Mate Dies at Sea and His Body is Consigned to the Deep—Agnes Brings a Full Cargo—Sad Incident of the Voyage.

Yesterday was a banner day along the waterfront and there was a continual bustle on the wharves until long after 5 o'clock. The two tug boats had their hands full towing ships in and out of the harbor, and many people were thankful that the tug Eleu was out helping the ship line to go undelayed.

Early yesterday morning and long before the sun had risen above the horizon, the Chilean barkentine Alta appeared off the harbor. She had made a good voyage of 61 days from Newcastle, and was towed to an anchorage in the stream by the Fearless.

Shortly after the Alta had arrived the American barkentine Newsboy, also 61 days from the same port, arrived and the tug Elen went out to her and brought her to the Allen's wharf where she was made fast.

About 1 o'clock the four-masted schooner Golden Shore was sighted off Diamond Head and came in about 2 o'clock ending a magnificent passage of 48 days from Newcastle.

Shortly afterwards Diamond Head Charlie had his eye attracted by something on the far away horizon and spotted the Tillie E. Starbuck. The big square rigged ship so familiar to the Honolulu waterfront was towed in by the Fearless and docked at Brewer's wharf shortly after 5 o'clock.

The Starbuck brought but little freight for Honolulu and no passengers. Captain Curtis reports a good passage down the Coast with fine weather and fair winds. She was 15 days on her trip.

Captain Curtis has not much faith in the fumigating operations now going on at Honolulu. Before sailing for the Coast, a few weeks ago, his ship was thoroughly fumigated by the Territorial authorities, but without success. Not a single dead rat was found on board, but hundreds of live ones could be seen two days after leaving Honolulu.

When the Starbuck left San Francisco the British sloop of war Condor had not been heard from there. She is now 44 days out from Victoria for Honolulu.

At 5 o'clock the Globe steamer Eureka sailed for Kahului where she will discharge the rest of her cargo and take in a load of sugar. She will then return to Seattle and load again for Honolulu.

An attempt will be made to have the ship Benjamin Sewall get away for Freemantle, Australia, sometime today. She was ready to go to sea yesterday, but at the last moment half of her crew deserted her, claiming that the vessel is short of provisions and in no condition to sail.

Sailors are scarce in Honolulu just now, especially for a ship like the Benjamin Sewall. Most of the men ashore are union men or coasters and expect to ship at union wages which are \$35 a month. A deep water ship pays \$25 a month only, and sailors claim that on such vessels they will be paid off and wages there are only \$20 a month.

Turk and Lewis have promised the captain that he shall have a complete crew tomorrow morning.

The repairs made to the Benjamin Sewall are satisfactory to the insurers, and the action of the sailors is looked upon as only what was to be expected from them.

Honora Pour on Schley.

"I am glad that Schley has received a warrant for prize money," remarked a sympathetic mermaid.

"The way things are coming for Schley these merry Christmas days," replied Neptune, "he is lucky that his warrant wasn't a warrant of arrest for malicious destruction of Spanish property on the high seas."

"The way things are coming for Schley," chimed in Davy Jones, "I believe it is the intention of his brothers in arms to present him with a brick house—a brick at a time."

The German ship Agnes, Captain Hemke, ended a long voyage of 151 days from Hamburg, Germany, when she made fast to the Irmgard wharf last evening.

Like many other vessels that have become acquainted with Cape Horn, the German ship Agnes brought a story to this port, a story of hard times, rough weather and contrary winds, culminating with the death of the mate.

The Agnes sailed from Hamburg 162 days ago. On August 6 she went ashore on the river Elba and was floated on August 8th. On August 14 she passed Duageness, North Germany, and on August 15 her voyage had fairly begun.

Across the English channel and the Atlantic ocean she had fine weather and fair winds, although occasional squalls were encountered. When she arrived off Cape Horn it was winter. For two months the Agnes fought the elements and ploughed her way slowly along. The cold was intense and the crew suffered greatly. The mate took sick and died. On the 8th day of December he expired and was buried at sea. The consignment of his body to its watery grave was the saddest incident of the voyage. The crew, composed of old sea dogs, gathered after by the gangway where the body, sewed in canvas, was lying on a table.

The captain, a venerable old gentleman, took his place in front of the table facing the ocean. The sails were set aback and then the captain read the prayers for the dead according to the ritual of the German Lutheran officer, and while the flag was wrapped up around the dead body sailors tenderly lifted the dead body of the officer, and while the flag flying at the peak was being lowered as a sign of respect, they consigned the body to the blue waters of the Pacific.

The Agnes is a full rigged ship and has a general cargo for Honolulu.

Shipping News and Notes

The steamer Iwalani, Captain Greene, which arrived yesterday from Eleele and way ports, brought 4,100 bags sugar, and 32 packages of sundries.

The Tillie E. Starbuck, which ar-

Neptune's X Raise.

"By the way, dear," said Neptune to an attractive mermaid, "We have cause for congratulation, as I have just received notice of an unexpected increase of \$10 per month in my wages."

"You dear old, sweet Neptune," replied the mermaid, "How perfectly charming you are under the influence of the X raise."

Caustic.

Minnick—I sent some verses to that magazine, but I don't think the editor read them at all.

Sinick—Ah! they were accepted were they?

Roche, Mr. Kaiser, W. L. Howard, S. Drake, F. A. Bowman, S. H. Harrison.

A CONFIDENTIAL QUERY.

Did you never buy a gold brick?
Honest? Cross your heart?
Was you ever "up against it" with no friend to take your part?
O, you joke about the farmer with his whiskers an' his way
Of lettin' people do him up because he's such a jay.
But was you never vanquished by some fellow critter's art?
Did you never buy a gold brick?
Honest? Cross your heart?
Did you never give your money to some man that put on airs?
An' find that all he left you was certificates of shares?
Did you never place your hopes upon some promise very dear,
An' watch yer hopes all vanish as you waited, year by year?
Did you folly never lead you up to disappointments smart?
Did you never buy a gold brick?
Honest? Cross your heart?
—Washington Star.

BOARD OF HEALTH HEARS REPORTS

(Continued from Page One.)

who asked that a competing drug firm be denied the privilege of inspecting the figures made to the Board of Health for supplying certain drugs, which bids were presented and acted upon several months ago.

The body was a unit in declaring that the figures submitted on such cases should always be open to the public after bids are opened. "It is a good plan to let in the light on all public matters," declared Attorney General Dole. "It is important that all who make tenders for public supplies should stand on an equality."

Mr. Mott-Smith did not believe that an exception should be made in the case of the Benson, Smith Drug Co. He too favored an open inspection of all interested. The motion made by Mr. Mott-Smith, and seconded by Attorney General Dole, that the request of the local drug firm be denied was carried unanimously.

Affairs at the Settlement. The report of Dr. Richard Oliver, resident physician at the Leper Settlement, for the month of December showed that there had been 14 deaths at the Settlement during the month, 12 lepers, one kokua and one infant.

The epidemic of chicken pox has passed away. The epidemic of malarial fever and erysipelas has also disappeared, in that we have had no new cases for several weeks, but a number of convalescents are still under treatment.

The report further stated that 231 patients were treated during the month; 111 were relieved and 106 cured.

Insane Asylum Report. In the report of Dr. R. M. Malster, resident physician at the Insane Asylum, he stated the total number of inmates was 161, of whom 124 were males and 37 females. During the month 16 males and 3 females were received.

The sanitary officer at Hilo reported that he had obtained permission from the Electric Light and Power Co. to regulate their old water supply which flows through the town in four ditches. He says that the people are much satisfied with the new arrangement. During the month he made 642 inspections.

Lepers Disinfect Substitute. The proposition of a local firm to supply a preparation to act as a substitute to pol, and intended for the Leper Settlement, received considerable informal discussion. While no definite action was taken in the premises it was deemed best that several hundred pounds of the preparation known as "Taroena" be sent to the Settlement to be used on such occasions as the supply of pol becomes exhausted.

According to the information given by Superintendent Reynolds the residents at the Settlement do not take kindly to the preparation. The preparation will only be used when the Settlement is placed on flour rations.

There is a difference of 35 cents in thirty pound lots between the palal and the preparation, which is in favor of the palal. The substitute is considered too expensive.

SLOW PROGRESS MADE IN SEWER CONNECTIONS

NUISANCES ARE BEING ABATED. Plumbing Inspector Keene Reports Busy Year in Looking After Many Unhealthy Localities—Hope for Compliance With Board's Orders.

Included in the report of Plumbing Inspector Keene, filed with the Board of Health yesterday, it was stated that during the year 1901, the average number of inspections for each working day was 12.60, and the average sewer connections made each working day was 1.66.

The approximate number of people using the sewer, up to January 1, 1902, was 12,500. Mr. Keene further reported:

Many Connections to be Made. "When it is remembered that there are still 3,000 sewer connections to be made, it can very readily be seen that if they are not made with more rapidity in the future than they have been in the past, that it will be a long while before we get rid of the cesspools.

"As that part of the city Ewa of Smith street, is very generally connected with the sewer, I would suggest that the balance of the city be required to do so as rapidly as possible, as I find in most cases people are only waiting the orders of your honorable board to connect, as is instanced by the order to residents along the line of King and Young streets, where a nuisance was quickly abated by cheerful compliance to said order.

Pumping More Costly. "It should not be a very difficult

matter for people to figure out that it is cheaper (from a monetary, to say nothing of a sanitary point of view) to pay the small fee demanded by the government to connect with the sewer, than it is to maintain a cesspool, for cesspools must be pumped out and for this the government must be paid, and I venture to assert that more money is paid out annually for pumping out cesspools than would be charged for twice that many connections."

BOARD OF HEALTH TENDERS SYMPATHY TO DR. J. B. PRATT

Members of the Board of Health took occasion yesterday to draft and pass upon suitable resolutions to be tendered to Dr. J. S. B. Pratt, the Territorial Health Officer, in his hour of bereavement occasioned by the recent death of his wife.

Attorney General Dole, appointed as a committee of one to draw up a set of resolutions, submitted the following, which was afterward adopted and signed by every member of the Board.

Whereas, our esteemed and faithful co-laborer, Dr. J. S. B. Pratt, has been bereaved of a noble wife, and his children of a wise and affectionate mother;

NOW THEREFORE, It is resolved that we, the members of the Board of Health, tender to him and to his family our sincere and heartfelt sympathy in this great affliction.

Dated this 15th day of January, 1902.

(Signed) H. C. SLOGGETT, CHAS. B. COOPER, E. P. DOLE, E. A. MOTT-SMITH, F. C. SMITH, WILLIAM AULD, WM. L. MOORE.

WAR AGAINST IMPURE FOODS STILL WAGED

BEER AND ITS ADULTERATIONS. Food Commissioner Shorey Reports on Examination of Coffee—No Adulteration Found in Brandy, Cocoa or Currant Jelly.

The usual number of milk tests were made by Food Commissioner Dr. E. C. Shorey, according to the report for December, which was filed with the Board of Health yesterday. The product of 47 different dairies was subjected to a microscopic examination to ascertain the percentage of adulterations as well as butter fats. One private complaint was recorded, while the samples of milk taken from the dairies of J. Mattos and M. Abreu were found to be below the standard. Dr. Shorey states:

"Opium Below Standard. "Four samples of tincture of opium were examined and all found to be below standard; two of them, however, very little. In January last three samples of this drug were examined, and I give below the results obtained in both cases. The U. S. Pharmacopoeia requires that tincture of opium shall contain not less than 1.2 nor more than 1.5 grams of morphine per 100 c. c. The amounts of morphine contained in 100 of the samples were as follows: January, 1901, Hobron Drug Co., 0.53 gram; December, 1901, 1.21 grams; Benson, Smith & Co., Jan., 1901, 1.15 gram; December, 1901, 1.20 grams; Hollister Drug Co., January, 1901, 0.98 grams; December, 1901, 0.93 grams; Honolulu Drug Co., no sample, December, 1901, 0.91 grams.

Beer Samples Examined. Six samples of beer, including the brands sold in most of the saloons, was examined and nothing which can be considered an adulteration was found. The amount of alcohol contained varies from 3.5 per cent to 4.5 per cent, and the amount of extract from 4 per cent to 6 per cent. Five of the six samples contained some preservative, either benzoic acid or a fluoride, but as these substances are not injurious they cannot be considered an adulteration as the law here now reads.

Two samples of coffee found on sale on examination were found to contain chicory and roasted cereal. These samples were obtained from Jose Monis, Punchbowl street. Good Brandy, Cocoa and Jelly. One sample of brandy, cocoa, and currant jelly were examined and no adulteration found. Below is a brief summary of the work for the year ending December 31, 1901. Milk samples taken on the street, 1,083; milk samples taken at dairies, 27; milk taken from private parties, 20; total number of milk samples examined, 1,130; food samples examined, 172; drug samples examined, miscellaneous samples, 40; prosecutions for sale of adulterated milk, 11; convictions for sale of ad-

ulterated milk, 2; prosecutions for sale of adulterated food, 3; convictions for sale of adulterated food, 3.

FITZSIMMONS INVITED TO STAY AT HOME

PRESENCE NOT AT ALL HELPFUL Good Intentions Seriously Questioned by Wife—Board of Health Notified to Keep Sympathetic Husband Outside the Settlement.

There is at least one woman confined at the Leper Settlement at Molokai who positively declines to accept the friendly administrations or sympathetic kindness of her lawful husband and partner of her joys and woes. Having received a hint that her spouse was about to apply for admission to Molokai settlements, Mrs. V. M. Fitzsimmons forwarded the following letter to the Health department. The communication was considered one to which no reply was deemed necessary.

The letter reads as follows: Kalaupapa, Jan. 9th, 1902. Dr. H. C. Sloggett, President of the Board of Health.

Dear sir—I understand that my husband V. M. Fitzsimmons is about to send again an application to the Board of Health to be allowed to come into the Leper Settlement as a "kokua" or helper to me. If such an application be sent into the Board I wish to say to you that I do not want him to be sent in here as my "helper" as I am quite able to do for

(Continued on Seventh Page.)

A Little Boy's Life Saved. I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodwin, S. D., U. S. A., and when I got home with the poor baby could hardly breathe. I gave the medicine as directed every ten minutes until he "threw up" and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth today.—Joel Demont, Inwood, Iowa.

THE ADVERTISER'S FRIEND... THE advertiser's best friend is the medium through which he obtains the biggest returns for his money. One medium which is used by advertisers to a great extent is the circular or booklet. The circular or booklet is always ineffective, unless it is very handsome—handsome enough to attract the eye of the man to whom it is sent, no matter how busy he may be. A booklet handsome enough to do this almost always costs from three to four cents apiece. There is the malling to count in (two cents a copy, of course); there is the trouble in getting a list of names, and in addressing. Altogether the cost will figure up to about seven cents a copy for a good booklet. Two thousand circulation in a booklet is very large. Two thousand circulation at seven cents is \$140. I propose to show that you can invest \$140 in newspaper space and get returns five fold of what you would get through a booklet.

Newspaper Space Is Valuable In the first place, there is the cost. For \$140 you can get a good-sized space in a newspaper of good circulation for quite a long time. You know your newspaper rates; you can figure it out to suit your own instance much better than I can. So much for cost.

Now for Effectiveness You must tell your customers how much your goods are going to cost. An advertisement without a price is like meat without salt—it will do you no good. How can you put prices in a booklet when you are doing a strictly retail business? You have competitors; you have to change your prices constantly to meet theirs, and to meet other exigencies. The first change of a price will kill the effectiveness of a booklet, and where are you? Your advertisement in a newspaper may be changed as many times as you desire. You are constantly up-to-date.

The Newspaper Is Effective Any kind of a newspaper has more circulation than you can obtain through a booklet for \$140. Newspapers reach the heart of the home. Every one reads them, and they are far more certain to obtain close attention than any printed matter which you would send. If you sent printed matter of your own accord to persons who do not know you, you would be putting yourself face to face with them without a guarantee. They have nothing to judge the quality of your goods by, and they can only take what you say on our own paper and in your own way. Anybody can say as much as they please.

Good Paper Adds Dignity When your matter appears in a newspaper of good circulation and good standing, the newspaper is a guarantee for what you say. Newspapers are always particular as to whom their advertisers are. (I speak of good newspapers always.) Your ads will gain a value besides their inherent one. They will be vouched for, and this is not to be despised. You have a certain fluctuating trade, which is always valuable, and which needs some sort of an introduction to your store. This introduction the newspaper gives you.

HONOLULU, H. T., JAN. 16, 1902

SECRETARY COOPER'S WORK.

Announcement is made that an official handbook of Hawaii is soon to be issued by the Territory for distribution among the various States and Territories of the United States, and that Secretary Cooper is to be its author.

We should like to ask who will supply the money necessary to defray the expenses of the work. For months the Territorial government has been pleading poverty, a shortage of funds, no money available for needed work at Kewalo, or for other public improvements that are of far more importance to Hawaii than the publication of any handbook of the Territory can be, even though edited by Secretary Cooper.

We should like to inquire, before the public money is finally committed to this government publication, where Secretary Cooper gained the newspaper and editorial experience that alone can qualify him for the very important task that he has undertaken.

Japanese Labor. Island Empire Decides to keep its Surplus of United States. From the Chicago Chronicle. Japan, seeking the good will of the United States, will henceforth, for as many years as may be necessary, discourage emigration to this country.

This policy recently decided on by the mikado's government, has just been manifested by the Japanese ambassador at Washington, who has asked the owners of a large trans-Pacific steamship line not to import several thousand laborers from Japan to work in southern rice fields. The company will consequently refuse a liberal offer made it by southern planters and will likewise refuse similar contracts in the future.

Mr. Shiraiski, general manager of the Toyo Kisen Kaisha, or Oriental Steamship Company, is at the Annex. He has just come from Washington, where he consulted with the Japanese ambassador, who informed him of the desire of high government officials at Tokyo regarding the restriction of emigration.

Mr. Shiraiski says Japan, unlike China, is willing to keep its surplus laborers at home rather than risk an interruption of its friendly relations with the United States.

The Japanese officials take the view that their country owes, in large measure, its progress along modern lines to the inspiration and help of the United States. Commodore Perry's landing on Japanese shores marked the commencement of the renaissance in the land and ever since that day the American government has aided the empire in its growth.

"As our company has business relations with the home government, we are quite willing to accede to the government's wishes in this matter," said Mr. Shiraiski. "We know the sentiment of your people against oriental labor and do not wish to run counter to that sentiment. Perhaps after the people of the United States have become better acquainted with the Japanese they will not feel hostile toward them as they do toward the Chinese."

Nothing Serious. A Test Case. "What is this case you've got to dispose of today?" inquired the stranger.

No More Walking. Towne—I suppose after a while the man who hasn't an automobile will be the exception.

Thick and Thin. "Miss Porkpack's portly. I would not be that."

Secretary Cooper to delve into the latest census statistics and then furnish material from which Editor Cooper can prepare lucid and instructive data as to the availability of sites for factories, such as the one at Kewalo, the abundance of water power, and supply of raw material, the lightness of our taxes, details of the illegal income tax and such other data as the capitalist always noses into before he decides to move his factory from the Mainland to the Territory, or to venture on pastures new and verdant.

There is one factory, however, that may be of untold benefit to Hawaii before very long, and that factory is a sugar refinery which may soon become a necessary adjunct to our plantation interests. If Secretary Cooper can feel the pulse of planters' agents on this subject and start the ball rolling to erect a good refinery in Honolulu, if needed, he may accomplish far more beneficial results than can be achieved through the circulation of his official handbook, even though prepared and ever so widely circulated by its editor.

The government nuisance on Merchant street began its periodical outflow on Monday, ready for steamer day when everybody was flocking to the Postoffice yesterday. The pumping out process began again last night, and the cesspool's next overflow will be due to arrive with the next steamer from the Coast on Saturday.

Yesterday was the Board of Health's busy day. There were twenty-four separate subjects for consideration, and this large number alone prevented the hearing of a report from the committee on Kewalo which it is understood will be a victorious one. The Board of Health might also direct attention to the public laundries, the condition of which is touched upon in today's Republican.

JAPANESE LABOR.

Island Empire Decides to keep its Surplus of United States. From the Chicago Chronicle. Japan, seeking the good will of the United States, will henceforth, for as many years as may be necessary, discourage emigration to this country.

This policy recently decided on by the mikado's government, has just been manifested by the Japanese ambassador at Washington, who has asked the owners of a large trans-Pacific steamship line not to import several thousand laborers from Japan to work in southern rice fields. The company will consequently refuse a liberal offer made it by southern planters and will likewise refuse similar contracts in the future.

Mr. Shiraiski, general manager of the Toyo Kisen Kaisha, or Oriental Steamship Company, is at the Annex. He has just come from Washington, where he consulted with the Japanese ambassador, who informed him of the desire of high government officials at Tokyo regarding the restriction of emigration.

Mr. Shiraiski says Japan, unlike China, is willing to keep its surplus laborers at home rather than risk an interruption of its friendly relations with the United States.

The Japanese officials take the view that their country owes, in large measure, its progress along modern lines to the inspiration and help of the United States. Commodore Perry's landing on Japanese shores marked the commencement of the renaissance in the land and ever since that day the American government has aided the empire in its growth.

Nothing Serious. A Test Case. "What is this case you've got to dispose of today?" inquired the stranger.

No More Walking. Towne—I suppose after a while the man who hasn't an automobile will be the exception.

Thick and Thin. "Miss Porkpack's portly. I would not be that."

While mine is too sylphily soelte."

PUBLIC LAUNDRY A PUBLIC PEST

CHINESE RUN THE PROPERTY Sweet Drying Ground, for Purifying Cothes of the People, Supplied by Government.

Ditch of Green Stagnant Water a Receptacle for All the Rubbish, Dirty Water and Filth That Ordinarily Can Accumulate—Not Washed Away by the Tide.

Situated at the extreme end of Iwilei, right makai of the notorious stockade, is the government public laundry, an institution the like of which is seldom seen. It consists of two long buildings between which is a large yard where the clothes are dried.

Each house contains washrooms in the lower floor and sleeping quarters on the upper floor, each washroom having a sleeping room of its own. Here Johnnie Chinaman reigns supreme with long sticks of bar soap and with water from faucets and jets all around him. The floors in the washing rooms are cemented and the water runs off to some extent but the heathen Chinese often accumulates a pile of rubbish, harness, horse-feed and other material, so that his inmate taste for artistic disorder is satisfied.

John Keeps His Comforts.

He is unable to create his favorite high perfumes in the washrooms on account of the avalanches of water which daily pass through these places, but he takes good care that the water does not touch his sleeping quarters where he can store up gimcracks, dirt and all other material necessary to a Chinese coolie's well-being. He evidently never has time to wash his own bed clothes and mosquito nets, the latter especially being so dirty that they often resemble a thin mud wall more than a piece of gauze.

No regular dump pile graces the premises of the public laundry. Rubbish is thrown anywhere. On the Ewa side of the houses a long row of old tins, paper and numerous odds and ends of Chinese rubbish, which only an expert could classify, exists all along the buildings.

Healthy Drying Grounds.

The drying yard is a sight. How the Pake keeps his washing clean is a wonder. The planking is rotten and broken all over, and bits of paper with odds and ends of rubbish of all kinds fill the holes and cracks.

The worst filth is right outside the houses, however. On the Waikiki side a ditch filled with green stagnant water serves as a receptacle for rubbish, the ditch runs down to the mud flats which form the terminus of the washing establishment, but as it does not seem to empty anywhere the water remains stagnant.

Fifth of the Mud Flats.

The mud flats into which is drained all the water from the wash houses, are the worst place of all. They are filled with rubbish and unspeakable filth of all kinds. The smells which reign supreme there are overpowering. There is practically no outlet for all this. The tide comes in and covers the flats but the water comes in and sinks away so slowly that it only lifts up some of the rubbish to deposit it at the same place where it lay before, when the tide runs out. The toilets are also situated here being built on piles with a bridge running out to them. There has been no attempt to make even a cesspool and the sight and smell of the place, especially at low tide when there is no water whatever over the mud, can hardly be imagined.

Chinese Run the Property.

The government's public laundry is run exactly in the same manner as it would be run by the Chinese themselves. The laundrymen enjoy their liberty and the place is very popular, only a very few shops being unattended, but that the place is not in better condition is surprising, as anyone who visits the place can see at a glance that many improvements are needed especially with regard to the draining of the wash water and filth from the mud flats.

In the wash houses the constant splashing of water in which the clothes are washed into the wooden partitions has so soaked and saturated them that they are almost rotten in many places.

And this is where the soiled linen of most of the people of Honolulu is supposed to be made clean.

REFLECTIONS OF A BACHELOR.

From the New York Press. Two rounds never made a fight. The liver has as much to do with soulfulness as with other kinds. Company manners always wear out if the company stays too long. It takes women to support foreign missions, reading societies, and dade actors.

When a bachelor thinks of his mother he wants to get married; when he thinks of his sisters he wants to wait awhile.

About Men and Women

Lady Barnett recently presented to Queen Alexandra a Pomeranian dog, which weighs only a pound and a half, and is valued at \$5000.

Lord Kinnaird, the English nobleman is not only an acknowledged authority on football but is an ordained minister of the Established Church.

The Crown Prince of Siam, who is being educated in Europe, has just corrected the last proofs of a little book he has written on the wars of the Polish succession.

Max Heart, the Harlem millionaire, was once a bootblack, and he still preserves in his handsome home the original bootblackening outfit with which he began his business career.

Cecil Rhodes will erect a monument, to cost him \$100,000, in Mashonaland, South Africa, in commemoration of Major Wilson's last stand against Lobengula, on December 4, 1893.

Ladislaus Madarasz, who was Secretary of State in Hungary for thirty years, and Francis Argo, Judge Advocate General under Kossuth, are at present living in Leon, Decatur County, Iowa.

George Gould has converted an ugly spot on the grounds of his Lakewood, N. J., home into a beautiful sunken garden. It is Oriental in idea, and said to be the only sunken garden in America.

Mrs. Humphrey Ward is a mistress of Spanish, French, Italian and German. Her knowledge of Spanish literature is such that when only 18 she was asked to adjudicate in a Spanish essay competition.

Prof. William E. D. Scott, curator of ornithology at Princeton University, has been devoting considerable time of late to find out how various kinds of birds have acquired distinctive songs that characterize different species.

Hamilton MacCarthy, of Ottawa, Canada, has made the model for the bronze statue, thirteen feet high, which is being cast in New York, to be erected next Spring in Halifax, Nova Scotia, to commemorate the deeds of the Nova Scotians who fell in the Boer war.

Mrs. C. N. Whitman, of Denver, owns the largest ranch of any woman in the world. It is located in Texas, near Tascosa, and is called the L. S. Ranch, from Lucien Scott, the first owner. The ranch is thirty miles square, and hundreds of cowboys are employed upon it.

Governor Miguel A. Otero, of New Mexico, is about to move in the direction of stopping the vandals who have been dismantling the homes of the cliff dwellers, monuments of a civilization older than the pyramids.

Mrs. Henry Wells Terry, a resident of Babylon, L. I., has one of the most complete and valuable collections of birds in America, which she inherited from her father, J. C. Knoess, an ornithologist, known all over the world for his knowledge on this subject.

CHING AKINA, Lessee.

NOTICE.

Notice is hereby given that I will not be responsible for any debts contracted in the name of Mrs. S. C. Bertelmann or Mrs. I. H. Kahilina. (Signed) MRS. I. H. KAHLINA, Honolulu, January 13th, 1902.

NOTICE OF MEETING.

A meeting of the stockholders of the Robert Grieve Publishing Company, Limited, is hereby called at the office of the Treasurer, J. H. Fisher, for SATURDAY, JANUARY 18th, 1902, at 3 o'clock p. m. Said meeting being for the purpose of discussing the general business affairs of the Company. EDWIN S. GILL, Secretary.

Honolulu, Jan. 10th, 1902.

AUCTION SALE IN BANKRUPTCY. On Thursday, January 23rd, at 10 o'clock a. m., at my salesroom, 65 Queen street, Honolulu, I will sell at

Public Auction, by order of Mr. H. G. Middleitch, trustee in the estate of J. H. Taylor & Co., bankrupts, the following partially described merchandise, the complete list of which can be seen at my office: Anvils, Tire Upsetter, Coal Bites, Hammers, Clamps, Mallets, Bolts, Shovels, Calipers, Tire Bender, Round and Flat Bar Iron, Bar Tool Steel, Wrenches, Drill Press, Flatters, Swager, Punches, Pinchers, Wrenches, Desk, Scales, Buggy Wheels, Rims, Oak and Spruce Lumber, Drawing Knife, Bevel, etc., etc. Together with a fifteen years' lease of the property situated on the corner of Queen and Milinani streets, and the corrugated iron covered building situated thereon. JAMES F. MORGAN, Auctioneer. Honolulu, Jan. 9, 1902.

IN THE CIRCUIT COURT, FIRST CIRCUIT OF THE TERRITORY OF HAWAII.

IN PROBATE.—AT CHAMBERS. In the Matter of the Estate of Henry Gustave Biart, late of Honolulu, Oahu, deceased, intestate.

Petition having been filed by Mrs. Keimahi Biart, widow of said intestate, praying that Letters of Administration upon said estate be issued to C. R. Hemenway, notice is hereby given that Friday, the 31st day of January, A. D. 1902, at 10 o'clock a. m., in the Judiciary Building, Honolulu, Oahu, is appointed the time and place for hearing said petition when and where all persons concerned may appear and show cause, if any they have, why said Petition should not be granted.

Honolulu, December 23, 1901. By the Court: P. D. KELLETT, JR., Clerk.

ATRINSON & JUDD, Attorneys for petitioner. 4ts. Dec. 23-Jan. 23-16.

MORTGAGEE'S NOTICE OF INTENTION OF FORECLOSURE AND OF SALE.

Notice is hereby given that pursuant to the powers of sale contained in that certain mortgage dated October 30th, 1899, made by Cecelia N. Arnold of Honolulu, Island of Oahu, Territory of Hawaii, as mortgagor, to C. Bosse, formerly of Honolulu, aforesaid, but now of San Francisco, State of California, as mortgagee, and recorded in the Registry of Conveyances in said Honolulu, in Liber 196, on pages 263 and 264, the mortgagee intends to foreclose the said mortgage for condition broken, to wit: the non-payment of the interest on the sum of Twenty-five Hundred Dollars (\$2500) the principal sum secured by said mortgage when due.

Notice is likewise given that the property conveyed by the said mortgage will be sold at Public Auction at the auction rooms of James F. Morgan, Auctioneer, Queen St., Honolulu, on SATURDAY, the 18th day of January, 1902, at 12 o'clock noon.

The property covered by said mortgage consists of all that piece or parcel of land situated on the Waikiki side of Makiki Street near Wilder Avenue, Honolulu, aforesaid, and comprising: All that piece or parcel of land containing an area of forty-two hundredths (42/100) of an acre situate at Makiki, Honolulu, aforesaid, and being the piece or parcel of land described in Royal Patent 3690, Land Commission Award 1918 to Wahine.

Together with all buildings, improvements, rights, easements, privileges and appurtenances thereunto belonging. Terms—Cash, United States Gold coin; deeds at expense of purchaser. For further particulars apply to HOLMES & STANLEY, Attorneys for Mortgagee. Dated Honolulu, December 23, 1901. C. BOSSE, By his attorney in fact, J. M. DOWSETT.

A Cup of Good Coffee

To get a real good cup of Coffee you'll have to start back of the actual making. You'll have to look to the roasting and grinding.

LEWIS' CELEBRATED COFFEE. Is a high grade blend, but moderately priced.

30c. the pound. Roasted three times a week and ground three times a day from good old Kona coffee. Always pure and fresh.

IS IT WHEN CHEEK MEETS CHEEK THEN--

HAS ENCOUNTER WITH BURGLAR

Masked Man Enters His Place in Early Morning—After That Duel With Rocks—Robber Makes Good His Escape.

Mr. M. A. Cheek of the Bank of Hawaii, who lives on the corner of Spencer and Magazine streets, has added his name to the long list of people who have had encounters with burglars. Yesterday morning at 3 o'clock he was awakened. He heard someone walking on the gravel in his garden. He got up and went into the parlor. Here he found a burglar in a most professional disguise. The burglar chased Cheek with a long dirk.

Cheek retired rapidly but in order. The burglar then tried to make a modest exit but Cheek followed him to Magazine street. Here Cheek picked up some rocks and for a while he and the burglar benefited much from the commendable early morning exercise of throwing rocks at each other. This contest lasted for over five minutes, both sides failing to score. By the end of this time the burglar managed to effect his retreat.

Cheek has invested in an arsenal of deadly weapons and will hereafter be ready for any burglar who comes his way.

VAGRANCY AMONG THE PORTO RICANS

SIXTEEN TRIED, SIX SENTENCED.

Charge of Murder in the First Degree Preferred Against George Rosa, and His Case is Continued Until Saturday—But Few Drunks.

Porto Ricans were out in force and figured conspicuously in the proceedings at the police court yesterday. Sixteen individuals, hailing from "Our New Possessions" in the Atlantic, were lined upon the commonplace charge of vagrancy. The men were brought to Hawaii in connection with a host of plantation laborers who were distributed throughout the various cane growing districts in the Islands.

The contingent brought before Judge Wilcox included those who, tired of the arduous duties attendant to rickling the soil surrounding the succulent cane to promote its growth, sought a life of ease in the metropolis. They have been making life a burden to the community at large, and at a recent round up of the unemployed Porto Ricans infesting the city many were gathered into the fold by the police.

Six out of the bunch were sentenced to three months at the reef. Juan Ottis was discharged. The remaining members of the band were allowed to have their respective cases continued over until today.

A charge of murder in the first degree was preferred against George Rosa, who is accused by the police of having caused the death of his brother Joe Rosa, during a fight last Saturday night. The defendant was represented by Judge Kaulouko and A. G. M. Robertson. The case was continued until Saturday morning, on motion of Mr. Robertson.

Messrs McKenzie, Retello and John Thomas represented the total results of cases of drunkenness gathered in by the police department during the past twenty four hours.

TEMPERANCE CONVENTION.

Address Will Be Given By Prominent Men of This City.

The Anti-Saloon League is making preparations for a temperance convention which will take place on January 30. At 4 p. m. a business men's meeting will be held at the Chamber of Commerce room in Castle & Cooke's building. Addresses will be delivered by Governor S. R. Dole, Warden Wm. Henry, W. A. Bowen and others. The League intends to investigate what position the business men here are taking with regard to its work.

In the evening there will be a session at the Y. M. C. A. where an address will be given by W. R. Castle and others.

BAND CONCERTS.

The band will not play at the Moana Hotel today as it will play at Mrs. Theresa Wilcox's luau this evening. Tomorrow morning at 9 o'clock the band will play in the Capitol grounds, and in the evening at the Moana Hotel.

LEPER CONCERT ATTRACTIONS.

Several Musical Clubs and Two Chorus Give Selections.

Among the attractions of the Leper benefit concert to be held in the Opera House on Saturday, will be the

Amateur Orchestra, the Kawaihāho Club and the Symphony Club which is led by Ernest Kaai.

A chorus of thirty girls from Kamehameha School will sing "The Lost Cord," while a chorus of seventy-five boys will sing "The Soldiers' Chorus." "Faust." "Hawaii Pono" will be sung by both choruses in concert.

MASQUERADE BALL AT LUSITANA HALL

SOCIAL DANCE BY 1902 CLUB

Two Popular Organizations Will Have Good Time To-night—Concordia Society Ball and Dancing, Music and Singing at Elk's Hall.

A Masquerade Ball will be given to-night by the Concordia Society at the Lusitana hall on Alapai street. The floor is to be reserved until 9 o'clock for those in Masquerade costume only, after which time it will be thrown open to the general public. Two prizes will be given during the evening; the first to the best imitation character, and the second for the most comical.

The first social and dance of the 1902 Club will be held this evening at Elk's hall, corner of Beretania and Miller streets. Elaborate arrangements have been made and a large attendance is expected. It is an exclusively invitation affair. Professor Ames' orchestra will furnish the music, and between dances, members of the club will render vocal and instrumental selections. Oliver Bainbridge, the globe trotter, will give a short talk.

The secretary will keep open house to accommodate those who desire to become members of the club.

PRAYER MEETING AT THE CENTRAL UNION

ADDRESS BY REV. W. M. KINCAID

Speaks on "The Work of the Holy Spirit"—To-night Subject Will be "Breathing of Spirit"—Meetings Well Attended.

The prayer meeting at Central Union Church was very largely attended last evening. The meetings have gradually grown in interest and attendance until every seat is now occupied and the influence of these prayer meetings is wide spread.

A short musical program preceded the address by the pastor, Rev. William Morris Kincaid, who had for his text "The Work of the Holy Spirit." Mr. Kincaid gave an admirable exposition of his text and said before we can receive the Holy Spirit, though we may earnestly desire and pray for the same, we must be convicted of sin, see and know our particular sin that is displeasing God and cast it away. Then and not until then can promises of Christ be fulfilled and the Spirit of the Holy Ghost enter our hearts.

The subject of the meeting tonight will be "Breathing of the Spirit."

COMMENT ABOUT SCHLEY.

Chicago Tribune: General Miles, it seems, has been called upon by Secretary Root to explain the remarks he made concerning the Schley verdict. They don't need any explanation. They are perfectly plain, eminently truthful, and highly creditable to him.

Indianapolis Journal: The proposition to make Sampson, Schley and Captain Clark of the Oregon Vice-Admiral's might furnish a happy compromise solution of a most unfortunate controversy, and the promotion of the gallant captain of the Oregon would be popular.

Baltimore American: It is very well for the opponents of Admiral Schley to be willing to "let the whole matter drop," now that they have had their way. But, as a matter of fact, injustice is a thing which will not down. The more trouble it makes the surer it is to float conspicuously on top of them.

Detroit Free Press: The great mass of American opinion is overwhelmingly against the majority verdict, and Schley has as many supporters today as he had, when the Maclay libel appeared. If the case is closed for the Navy Department it is closed also for the American people, and if the verdicts clash, the worse for the department.

New York Times: It is vain that congratulations are offered to the Senate and House on their having packed the naval committee against Schley. It is evident that the Schley case will not "down." It ought not to "down" until the eternal laws of justice have been successfully invoked for the defense of a brave and capable officer against the most infamous and malignant assaults ever made upon any warrior on sea or land by his comrades in arms.

Indianapolis News: What a thousand pities that the Sampson-Schley controversy ever arose! There was glory enough for all in that great battle, and all who participated in it did their duty grandly. Why could it not

LABOR IN HAWAII.

Chicago Record-Herald.

The labor problem has become a very serious one in Hawaii owing to the exclusion of the Chinese, who are by far the best field hands that ever worked upon the sugar plantations. Japanese substitutes have not proved anything like as desirable, the Porto Ricans who were imported recently were a dismal failure and the natives have neither the thrift nor the energy to make good workmen.

Though it may be inadvisable to pass exceptional legislation for Hawaii the facts are too plain to be disguised and they may be described briefly as follows: There is practically no American farm labor in Hawaii and there are no inducements for its immigration. The country is going more and more to large sugar plantations, capital is almost completely absorbed in them. Consequently there is no small farming worth mentioning, nor is there likely to be in the future. For the tendency toward sugar is a perfectly natural one which is determined by the question of profits. That explains why some recent attempts at establishing coffee growing by small proprietors have been abandoned. The sugar planters needed to increase their acreage and were able to pay for land good price which the coffee growers were glad to get. Add that the whole territory, including cultivable and uncultivable land, is only about one-eighth the size of Illinois and that white men will not work as plantation hands in the tropics and it will be seen that it is a waste of sympathy to shed tears on their account.

As for the Hawaiians, if they had been industrious they could have kept the orientals out. But they will work only under immediate compulsion and are eager to knock off the moment they have a little ahead.

PREPAYING SEAMEN IS ILLEGAL.

From the Manila-American.

The recent decision of a Delaware court on the illegality of prepaying seamen's wages, is much to be commended. In this particular case a sailor had agreed to ship for "one shilling for the first twenty days and \$30 a month thereafter," the \$20 that would naturally have come to him for the first twenty days being paid as commission to an agent who had secured the man's services for the British steamer Restor. By American admiralty law the prepayment of wages to any but the seaman himself is illegal, since it makes possible the perpetuation of fraud upon ignorant men. The court held in this case that the consideration of a shilling for the first twenty days was an evident attempt to evade the law, and, as such, should be held void. Especially to be commended is that part of the decision which repudiates the defense offered that the complainant was a British citizen, and hence not subject to American law. If such a claim should be admitted, a wide door to fraudulent invasion of the statute would have been opened. The law was meant, not merely for American seamen on foreign vessels and foreign seamen on American vessels, but also for foreign seamen shipping on foreign vessels in American ports. Any other interpretation would have rendered this valuable piece of protective legislation practically void.

POINTED PARAGRAPHS.

From the Chicago News.

There is no cement that will repair broken promises.

Some people would rather be consistent than be right.

Flirtation, like polishing powder, brightens up the spoons.

Too much pleasure is apt to be the direct cause of a man's troubles.

You may close your eyes to your faults, but your neighbors will not.

The egotist thinks he is the 1 in a 1,000 and the other 999 are the ciphers.

Many a poor man has made the discovery too late that marriage is a government contract.

Some men pay cash for everything they buy because they want to and others because they have to.

Many a man has a good appetite and nothing to eat, while others have plenty to eat but no appetite.

If a young man owns real estate in a large city, it is an easy matter for him to find a girl willing to share his lot.

Where one lawyer in a small village would starve two can make a good living. There is a great big moral concealed in this.

have gone for that. Sampson did all that he found to do, and with real and judgment. It was his misfortune that in the line of his duty he happened to be away when the Spanish fleet sought to escape. All that he can be fairly criticized afterward for was his lack of generosity toward the men who did the actual fighting. It is too bad that one of the greatest events in our naval history should lead to endless crimination and recrimination, rather than to gratulation and congratulation.

Second Great Clearance Sale

This week we shall throw our entire stock of

LADIES' WASHABLE SKIRTS

on our counters, to be sold at cost or less. We do not believe that any lady who visited our Maslin Underwear Sale last week was disappointed in the bargains offered, or can say that the Sale did not carry out the promises made in our advertisements. We give you our word that the values offered this week will be equally as great, and that this is an opportunity not to be missed by.

These Skirts are cut by skilled men tailors and well made and trimmed. They are of Crash, Khaki, Denim, Duck, Linen and Plique, and are both white and colored. They are sold so cheaply that we cannot afford to make alterations on Skirts bought during this Sale, but there is a great variety of sizes and lengths, and almost everyone can be fitted.

Prices begin at 25 cents and go to \$3.00, with all prices between; the greatest bargains, however, being between \$1.00 and \$2.00.

SILK PETTICOATS.

We shall put in with this Sale a few beautiful Pure Silk Colored Petticoats, which we have marked at exact cost. There are only a limited number of them and they will probably all be sold on the first day of the Sale—hence better be quick.

WHITNEY & MARSH, LTD.

MEETING OF TWO GUILDS

REV. S. HOOKER DELIVERS ADDRESS

SPEAKS OF THE ORGANIZATIONS IN THE CHURCHES OF UNITED STATES.

Brotherhood of St. Andrews and Ladies' Guild Meet—Visiting Clergyman Encourages Founding of Religious Organizations Which Might Work Well in This City.

A meeting of the Brotherhood of St. Andrews and the Ladies' Guild of St. Andrew's congregation was held last night at 7:30 in the Sunday school room of the Cathedral. The meeting began with a prayer whereafter Rev. Alex. Mackintosh in a brief speech gave an outline of the work which had been done by the Brotherhood of St. Andrews and by the Ladies' Guild. He then introduced Rev. Sidney Hooker, of Dillon, Montana, who delivered an address, saying in part:

Why Guilds Exist.

"I am glad to bring a greeting from the church in Montana to the church in Honolulu. Why we have guilds, I will tell you. When the spirit of Christ comes into our hearts we want to show our love of Christ and the church. We know what Christ did and we want to do as he did. When we become members of the church we want to do something to show that we want to be useful members of the church, for by their works shall you know them. Religion is not sentiment, it is a thing of doing. When we become church members we want to show our Christianity by deeds.

"Now to accomplish anything we must organize, just as we must organize if we work for political or business ends, and therefore we have our guilds. One man can do work alone, but when men work together they can accomplish things much greater. It was this feeling that made five men meet together to organize the Brotherhood of St. Andrews, which is a great organization and a grand expression of this feeling of desire to do work for the church.

Daughters of the King.

"The Daughters of the King is another expression of the same feeling. We have neither of these at my home in Dillon, Montana, but we will soon start to organize the Daughters of the King. In other parishes in Montana we have both these organizations and they are doing splendid work. Thus in Butte there were 63 candidates for confirmation last year which large number was for a great part the result of the work of these organizations.

"We also have missionary guilds. These used to have the same trouble as there seems to be here, that while at times the attendance was large, at other times it was very small. We got over that about three years ago by organizing on different lines. We all want to help the rector to do the Lord's work, and to do this it is an important thing to have people friendly towards one another and making strangers feel at home with us. Our guilds succeeded in doing this splendidly by having social meetings every week. They met at different houses at different times and the lady of the house provided the refreshments so that this was only a small burden. Then it was customary for every member to bring a small offering at every meeting. This plan worked surprisingly well. The attendance became larger, greater interest was shown and more money was collected. A great number of strangers were also drawn to the church in this manner. This plan

might work exceedingly well here in Honolulu.

Woman's Auxiliary.

"Another organization is the Woman's Auxiliary which is very thoroughly organized, there being a branch of it in every diocese of Montana. The work done is especially missionary work and every baptized woman of the church is considered a member. Meetings are held once a month, the main feature being the reading of papers which tell what is being done in the missionary field. This makes these meetings interesting. When we know what is being done and see the splendid results of the missionary work we become interested and will give more for these purposes. Every year this organization pledges itself to give a certain amount to the Board of Missions and all the Sunday schools give offerings for the same purpose during Lent.

"Last year the children of Montana gave more than was given in any place in the United States. When these children grow up they will preserve interest in this work. You should have a branch here of this organization which does such splendid work throughout the world by helping missionary work. Work together with these organizations in the United States and send a delegate to their conventions. You could also send your contributions such as are received from many other distant parts such as Alaska, Japan, China and many other places. If you want to form such an organization Mrs. Hooker, who is the secretary of one of these organizations, will give you any information you might want."

A prayer was then offered by Mr. Hooker and Rev. Alex. Mackintosh made a few remarks upon the address of Mr. Hooker. A vote of thanks was then offered to Mr. Hooker and the meeting adjourned.

A Reliable Remedy for Bowel Troubles.

Rev. J. M. Yingling, pastor of the Bedford St. M. E. Church, Cumberland, Ind., U. S. A., says: "It affords me great pleasure to recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used it and know others who have never known it to fail." For sale by all dealers and druggists. Benson, Smith & Co., agents for Hawaii.

ART LEAGUE COMPETITION.

Selections from Best Manuscripts to be Read at "At Home."

The judges of the manuscripts which have been handed in for the Kiloana Art League literary competition have been looking through the manuscripts individually during the past week. They will meet in the Art League rooms in the Progress block, on Friday, January 17th, to render a final decision.

The judges are: Mrs. Mary Dillingham Frear, Mrs. W. W. Hall, Miss Burbank, Walter G. Smith, Prof. M. M. Scott and Walter Dillingham. Mrs. S. S. Kinney has withdrawn from the list of judges as she became unavoidably acquainted with some of the contributions.

A selection from the best poems, stories and essays will be read at the Art League "At Home" on Saturday, January 25th, which this time, by request, will be given in the evening instead of in the afternoon.

Hartman Co. Stockholders Meet.

A meeting of the stockholders of the liquor firm of Joseph Hartman, Ltd., took place yesterday morning, at 10 o'clock. It will be remembered that Joseph Hartmann, the promoter, and later on the manager, of the company, left all his friends, who thought he had gone to Manila. The books of the company have been examined by Major Camara, but no information concerning what was done at the meeting of the stockholders yesterday could be had.

To Hold Joint Reception.

Arrangements are being made by the Y. W. C. A. to give a joint reception to the two associations at the Y. M. C. A. hall, on January 24th. There will be a musical program, in which the Amateur Orchestra will take a leading part.

THE DENTAL SPECIALISTS.

No More Dread of the Dental Chair.

Teeth extracted and filled absolutely without pain by our late scientific methods. No sleep-producing agents or cocaine. These are the only dental parlors in Honolulu that have the patent appliances and ingredients to extract, fill and apply gold crowns and porcelain crowns, undetectable from natural teeth, and warranted for ten years, without the least particle of pain. Gold crowns and teeth without plates, gold fillings, and all other dental work done painlessly and by specialists.

Gold crowns, \$5; full set teeth, \$5; bridge work, \$5; gold filling, \$1 up; silver fillings, 50c.

Any work that should not prove satisfactory will be attended to free of charge any time within 5 years.

We are making a specialty of gold crowns and bridge work; the most beautiful, painless and durable of all dental work known to the profession. Our name alone will be a guarantee that your work will be of the best. We have a specialist in each department. Best operators, best gold workmen and extractors of teeth; in fact, all the staff are inventors of modern dentistry. We will tell you in advance exactly what your work will cost by free examination. Give us a call and you will find we do exactly as we advertise.

TEMPERANCE

ALL TEACHERS MUST STUDY IT

SUBJECT TO BE CONSIDERED LIKE OTHER BRANCHES OF SCHOOL STUDY.

Board of Education Gives Notice That Certificates Will Not Be Granted to Teachers Unless They Pass Satisfactory Examination in Physiology and Hygiene.

The attention of teachers and other persons interested is called to the following Act of Congress, the provisions of which apply to this Territory.

TEMPERANCE EDUCATION LAW FOR TERRITORIES.

(Passed by U. S. Congress May 20, 1886, and extended to Hawaii by Act of Congress, January, 1909.) Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

Section 1. That the nature of alcoholic drinks and narcotics, and special instruction as to their effect upon the human system, in connection with the several divisions of the subject of physiology and hygiene, shall be included in the branches of study taught in the common or public schools, and in the military and naval schools, and shall be studied and taught as thoroughly and in the same manner as other like required branches are in said schools by the use of text books in the hands of pupils where other branches are thus studied in said schools, and by all pupils in all said schools throughout THE TERRITORIES, in the military and naval academies, in the United States, and in the District of Columbia, and in all Indian and colored schools in the Territories of the United States.

To Enforce Provisions.

Sec. 2. That it shall be the duty of the proper officers in control of any school described in the foregoing section to enforce the provisions of this act; and any such officer, school director, committee, superintendent, or teacher who shall refuse or neglect to comply with the requirements of this act, or shall neglect or fail to make proper provisions for the instruction required and in the manner specified by the first section of this act for all pupils in each and every school under his jurisdiction, shall be removed from office, and the vacancy filled as in other cases.

Sec. 3. That no certificates shall be granted to any person to teach in the public schools of the District of Columbia or Territories, after the first of January, Anno Domini eighteen hundred and eighty-eight, who has not passed a satisfactory examination in physiology and hygiene, with special reference to the nature and the effects of alcoholic drinks and other narcotics upon the human system.

Approved May 20, 1886.

Examinations to be Held.

At the next examination for Teachers' Certificates, and at all such examinations subsequent thereto, candidates will be examined in accordance with the requirements of Section 3 of the foregoing Act. The work on "Elementary Physiology and Hygiene," otherwise known as "The Human Body and its Health," by William T. Smith, M. D., has been adopted as the text book on physiology in the schools under this Department, and the examinations will be based upon what is contained and taught therein.

By order of the Department of Public Instruction.

C. T. RODGERS, Secretary.

BOARDS OF HEALTH HEARS REPORTS

(Continued from Page Three.)

myself and do not need any help from him at present. He has also written to me that he will take some kind of medicine and present him to you to be examined as a leper. I write you this letter because his intentions of coming here is not good. For if he really sent here I am afraid he will do me some unknown injuries.

I remain yours very truly,
MRS. V. M. FITZSIMMONS

HONOLULU IS RECEIVING A GENERAL CLEANING

SANITARY INSPECTOR'S WORK.

City Sanitary Officer Tracy stated before the Board of Health yesterday that last month had been spent in clearing and cleaning up the city, and tons of rubbish had been removed from under and around buildings and loose lumber piled so as to prevent rats from making their nests underneath. The inspectors have also been finishing up back orders to close up the year, which accounts for more nuisances being abated during the month than were reported.

Building Applications.

Included in the report for December, submitted by that official, it was stated the number of building applications received, 21; approved, 12; disapproved, 0; applications of previous month approved, 10; applications withdrawn, 2; applications held, 6; held by survey department, 12. Two of the six applications held violate sanitary regulations, three have not filed sufficient plans and one is held until the grade of the lot is raised.

Sanitary Regulation Work.

Cesspools located during the month, 9; buildings altered or moved so as to conform to the sanitary regulations, 15; examinations before, during and at completion of building, 124; inspections other than of new buildings, 362; certificates for lodging house, restaurant or hotel licenses applied for, 18. All of these were issued. Certificates issued on applications previous to December 5; certificates held for sanitary work to be finished, 9; number of adults who can be lawfully lodged in these buildings licensed, 2,084.

Three formal complaints have been filed and the nuisances investigated and abated. Twenty-four, 48 hour notices have been served and in 22 cases the recipient proceeded to abate the nuisance. In two cases the nuisances are being abated. Twenty-five notices to connect premises to the public sewer system have been served. Three builders without permits have been notified to obtain permits and have done so.

ADVERTISED LETTERS.

It Pays to Get the Best

No matter what you are buying it always pays to get the best. This rule holds good in other things as well. It pays to patronize the best laundry as it will always give you the most for your money. In this case it is the most satisfaction and the least wear to your clothes. You are saving money as surely when you buy good laundry work as in any other commodity.

GENERAL SATISFACTION

The efficiency, brilliancy, penetrating power and general satisfaction which our new enclosed type of ARC LIGHTS are giving recommend them to the merchant as the best light for store use.

Mr. C. C. Eakin, of the Imperial Cigar Store, has been using the new arc light for some time, and says: "I find this new light gives absolute satisfaction in every respect, and I would have no other."

We have many such opinions as this, but the light is the greatest recommendation. Can be seen at Manufacturing Shoe Co., W. W. Dimond's, Globe Clothing Store and others. For further information address
