HAWAIIAN SPORTS.

There is, perhaps, no other out of the way place the size of Honolulu where so much general interest is taken in sporting matters without the entailment of the usual abuses which accompany sporting matters in the larger cities of Europe and America.

David Dudley Field and Henry George have been discussing the relations supposed to exist between the Christian religion or Christianity per se and human labor.

The consideration of the labor question seems to be one of the greatest importance for Hawaii just at present, and before any definite action is taken in the matter our whole labor system as well as the solution of the difficulties attending it, should be calmly and carefully gone over and discussed by all concerned.

THE BI-METALLIC THEORY.

Many of our citizens who are still trying to find their way out of the intricacies of our currency muddle will find arguments, logic, and facts in the following comprehensive summary of the subject involved.

THE UNIT OF PECUNIARY VALUE.

The unit of pecuniary value is simply a specified quantity, by weight, or of a given fineness, of gold or silver, as the case may be, whether it be called a dollar, a pound, or franc.

All the other coins authorized to be struck are graded to and regulated by this unit. The gold twenty-dollar piece, for example, contains twenty times as much gold as the gold dollar piece.

The difficulty on this subject arises when, and only when, governments establish two units of pecuniary value, the one of gold, and the other of silver, and undertake to adjust the coinage of the one to that of the other.

The proper answer to this question is, that it should be the commercial ratio existing in the market of the world at the time of the coinage.

The North American Review.

This standard American magazine for the month of September is certainly an entertaining and instructive number.

LOCAL NEWS The Press acknowledges the receipt of some very toothsome wedding cake from Mr. and Mrs. Charles Nicoll.

The Government Schools, Oahu College and Punahou Preparatory School open this morning at nine o'clock.

Mr. A. T. Geering formerly connected with the Y. M. C. A. of Honolulu is down from Hawaii on a two weeks visit.

At a meeting of the Honolulu Yacht and Boat Club held last Saturday at noon the initiation fee was reduced from \$25 to \$5.

There was a clean record in the Police Court last Saturday, but it would be safe to wager that there will be a black list to-day—yesterday was Sunday.

Yesterday morning as carriage No. 78 was turning from Hotel into Fort street it was run into by an express coming up Fort street, and had one of its wheels broken.

The police were out again last Friday night hunting for that supposed box of opium which was dropped overboard from the Mariposa when she was coming into the harbor.

Everybody growled yesterday because it rained. If nature growled as much as the people, the country would soon go to the old Harry, crops sugar, people and all.

Mrs. Merrill, wife of the American Minister Resident, is the guest of Mrs. Hastings at Henry Macfarlane's cottage at Waikiki. Mrs. Merrill will remain at Waikiki about two weeks.

On Saturday last as Puxer Guard and Captain Drew were turning into Beretania street with a buggy coming from the base ball grounds, the buggy was upset and had two wheels broken. Nobody hurt.

Last Saturday morning after the publication of our notice that the firm had gone into liquidation, Messrs. Bishop & Co. made an attachment, on a chattel mortgage, upon the stock of S. J. Levey & Co. and closed them up.

The Kawaihāo Seminary managers will pull down one of the old buildings probably next week. The building is one of the oldest on the Islands, and the first printing on the Islands was done in it by the late Mr. E. O. Hall for the American Board of Missions.

A fine looking bay horse which was being broken by Dr. Baker, the horse trainer, ran away yesterday shortly after noon and was seen scudding out Beretania street with nothing attached but the harness, portions of which were being dragged through the mud.

Word was brought down by the steamer last Saturday that Mrs. Cruzan fell from a horse at Olinda last week. Dr. Bull of Makawao was going to see her when he wrote the letter which brought word of the accident to Honolulu. The extent of her injuries is at present unknown.

The firm of Lyons & Levey dissolved partnership last Saturday, as per announcement in our advertising columns. Messrs. L. J. Levey and L. L. Cohen have entered into co-partnership to-day and will continue the business of auctioneers and commission merchants at the old stand on the corner of Fort and Queen streets.

Mr. Lewis J. Levey, late partner of the firm of Lyons & Levey, will open an auctioneer and commission house, as announced in our advertising columns, in the store formerly occupied by Mr. S. Nott, on Fort street, next to G. W. Macfarlane & Co.'s. Mr. Levey will occupy this store until he can obtain a more spacious premises.

Mr. C. Afong who returned for his Pepeekeo plantation last Saturday reports that he will stop grinding this week. Mr. Afong has finished planting 300 acres of cane. The rains have injured the cane at Pepeekeo to some extent. There is but little of any snow to be seen from the plantation on Mauna Kea, a thing almost unknown at this season of the year.

The Mechanics' Union has elected the following officers for the ensuing year: T. R. Lucas, President; J. F. Eckardt, vice-President; William Auld, Secretary; John F. Colburn, Treasurer. Executive Committee: Charles Lucas, George Norton and M. Colburn. Trustees: T. R. Lucas, John F. Colburn and M. Colburn. The reports of the Union show that about \$600 was disbursed last year for benefits and that there is now about Treasury.

The two ice companies have consolidated and the business will hereafter be carried on by the People's Ice and Refrigerator Co. This company has bought out the Honolulu Ice Works Co. paying therefore sixty per cent. of the par value.

The man who plays the cornet in the vicinity of Fort and Hotel streets at all hours of the day and night is kindly warned that various threats have been made against his life by sojourners within hearing of his music. If he wishes to continue his lease of life and play his little horn at the same time it would be advisable for him to build an iron tank and get into it. Otherwise—K! K! K! K!!!

The Band boys will play this evening at the Royal Hawaiian Hotel as follows: 1.—March—"Defiler".....Faust 2.—Overture—"Titus".....Mozart 3.—Ballad—"Morning".....Beethoven 4.—Selection—"Marco Visconti".....Petrella "Fill Asao Me Mahina Malamalama." 5.—Selection—"Patience".....Sullivan 6.—Gavotte—"The Stars".....Eaton 7.—Waltz—"Summer Evening".....Waldteufel 8.—Polka—"Sonian".....Wardrop Hawaii Ponoi.

The James I. Dewsett brought the news of a storm which occurred on the island of Molokai Saturday before last. The new church lately dedicated by Dr. Hyde was moved from its foundation and so badly wrenched that it will probably have to be pulled down and rebuilt. At Waialua much damage was done to the timber, and along the mountain side there is hardly a tree left standing. The whirlwind, which it undoubtedly was, was local in its extent and lasted only about an hour.

Musical Mr. Berger has been busy during his vacation writing new music for the Band boys. The public will soon have the pleasure of hearing these new pieces which are twelve in number as follows: March, "Kale Keo Pu;" Lancers, "Mother Goose;" March, "Honolulu Rifles;" Waltz, "Akiki Aukake;" Lancers, "Melica Juka;" March, "Hawaii;" March, "Maui;" Lancers, "Makiki;" March, "Oahu;" March, "Kauai;" Waltz, "Waialae;" Waltz, "Waialupe."

Last Saturday evening about seven o'clock two of the Custom House officials arrested P. M. Lucas, the second steward of the Mariposa, coming off the steamer with four tins of opium in his coat pockets. Search was immediately made and seventeen more tins were found in his state room. The seventeen tins were in a large tin receiver. Two empty tin receivers were also found in the state room. It is more than likely they contained opium which had already been disposed of by the enterprising steward. Mr. Lucas is now languishing in cell, No. 1, at the Police Station.

Last Saturday afternoon about one o'clock the Hotel Baggage Express wagon was run away by a horse that is up to such tricks, and a severe accident was narrowly avoided. The horse started from in front of W. L. Hopper's planing mill on Fort street and dashed up town without a driver, striking the hind wheel of a carriage standing in front of the Pacific Hardware Co.'s building. Continuing up Fort street the horse was grabbed by the bit by Scotty the champion catcher, who, until the animal was checked, guided him clear of a carriage standing at Waterhouse's store, and most probably avoided a catastrophe.

The base ball game between the Benedicts and the Oceanics played last Saturday at the Makiki diamond was decided at the end of the first half of the eighth inning in favor of the Benedicts, with the score standing 14 to 12. The game was not played out owing to the darkness and rain. The Oceanics wished to play it but the Benedicts objected and under section 4 of league rule 43 the game was decided in favor of the Benedicts. The Benedicts played a good game throughout scoring five runs in the first inning; the Oceanics did not "catch on" until it was too late, although it is generally conceded that they are the stronger team. Johnnie Ott umpired the first part of the game and there was a good deal of fun seeing him jump out of the ball's way, and watching him as he tried to keep track of the "strikes" and "balls." Hay Wodchouse, of the Honolulu, umpired after the first two or three innings. In one inning Hay got an ugly fall trying to get out of the way of a swift ball, which struck him on the feet bringing him to the ground "ker-chuck." The next and last game of the league series will be played next Saturday between the Honolulu and the Oceanics.

In the greater number of railway stations in England there is a small box on legs, painted crimson, which may be called an automatic post-office. It is divided in two compartments. On the top are apertures admitting a penny, one being for postal cards and the other for envelopes. You drop a penny through the slot and open a little the drawer beneath, and presto, you find a postal card. Drop two pennies in the right hand slot, open a corresponding drawer, and you find a stamped envelope containing a dainty sheet of note paper. These little conveniences are the property of a private company. The profit is very small, and only on the envelope and sheets of note paper. You can't get the best of it by dropping it a bad penny, as if not full weight it refuses to deliver and keeps your short coin, confiscating that as a punishment for your attempt to cheat. It has a golden rule that works only one way.

VENTURE. This well-known Trotting Stallion is now standing at the corner of Punchbowl and Queen streets, and breeders, horsemen and stock-owners should take advantage of the opportunity to obtain his blood while they have the chance. He is now looking and feeling nearly as well as he ever did in his life, and moves as lively and his eye is as bright and he is as vigorous as a four-year-old horse.

It does not require a great horseman to discover great points of excellence in VENTURE. The ordinary citizen, upon beholding him, will be impressed immediately with his grand make-up, magnificent length, and elegant finish. If he is not the greatest horse that ever came to this country, he is surely one of the greatest, and as a turf performer, he towers far above them all as he does above a sucking colt in stature.

A great deal of importance has lately been attached to the value of a horse that is being kept for stock purposes, whether he is standard or not, and the President of the National Association of Trotting Horse Breeders in America strongly advises people not to purchase stallions that are not standard bred, and he also advises them to select one not only standard bred, but if possible one that is standard by his own performance, which is a public record of 2:30, or better, and even more than this by the performance of his get also. Now, if this rule was rigidly applied it would exclude all such great horses as Electioneer and the sire of Grand Sir, and Jay Eye See, etc., for while they have been greatly renowned by the performance of their get, they never were turf performers themselves.

Now, we will see, for curiosity, how near VENTURE comes to possessing these three qualifications, namely: 1. Breeding, performance and performance of his get. As to breeding, he is the peer of any horse on earth, and I don't except the great Hermit, who is the most popular stallion in England, and whose service fee is £500, he being the sire of three Derby winners.

As to his own performance, he meets the requirements, having a public record of 2:17 1/2—2:10 being the standard of admission. His get are now just beginning to be appreciated in California, one of which (Venturo) won a good race lately in Sacramento, in straight heats, making a record of 2:24, and is said to be able to trot close to 2:00, when called upon to do so.

With these facts before us, VENTURE looms up as one of the greatest horses, not only in this but in any other country, and the day is past when people will be buying him but the very best; and while the death of two such great horses as Rowell and Bazar is greatly deplored by all very horsemen, still it is a great consolation that there is so good a horse as VENTURE to fill their place.

VENTURE is an aged horse, but he is one year younger than Dictator, who was sold only last year in Kentucky for \$25,000, on the strength of his being the sire of Jay Eye See. His net loss is \$300. He is also ten years younger than Volunteer (sire of St. Julien), whose fee is \$500. All things taken into consideration, I cannot see why VENTURE is not as desirable a horse to breed from as any of them, or why he is not as worthy of the patronage of the public. Below I will give his pedigree, of which I invite a comparison with that of any other horse in the country:

VENTURE, chestnut horse, 16 hands, foaled in 1854; sired by Belmont, he by American Boy, he by Sea Gull, he by Imp. Expedition

MIDSUMMER NIGHT.

How the Miserable Sleep in the City During the Hot Season.

Conditions of Caloric Utterly Unbearable—Asleep in the Gutter—New York Mud—How Children Suffer.

[New York Herald.] Listen to the story of the gutter, a story utterly foreign to the understanding of people who live in comfortable homes...

They can not go to the roof, it is already occupied; so they swarm upon the streets. First come first served is their motto.

A walk through one of these streets at 11 o'clock of a bright September night would do much to allay the discontented fever which eats the very hearts of so many of New York's well-to-do people.

During the late days of excessive heat, with no let up of any consequence at night, the gutters of New York's meanest districts presented a sad and doleful sight.

There was no air stirring anywhere those nights, save on the roofs of some very palatial warehouses. It was a terrible night for people who could go to the seashore...

For years we have waited, in hope and in gloom, watching the billows, scanning the sea...
