Caroline, England, mindful of her rejection of Spain's claim in 1875, will claim equal rights with Germany.

PARIS, Sept. 14.—Gen. de Courcy, commanding the French troops in Anam, telegraphs to-day to the Minister of War that Channong had been proclaimed new King of Anam, and entered the Royal Palace to-day. A salute of twenty-one guns was fired in honor of the event, and the Anamite flag has been hoisted over the palace and various public buildings. Channong will be crowned on the 19th inst. There is much mortality among the natives owing to the prevalence of cholera.

BERLIN, Sept. 14.—The German cruising squadron, which has returned to Kiel, is under orders to refit for the north Atlantic, under Commodore Stenka and Prince Henry of Prussia. The Admiralty has postponed the usual discharge of the naval reserves. There are also other signs of activity in the navy. The squadron will take supplies for six months and be ready for immediate use. All the ironclads on foreign stations have been ordered to prepare for an emergency. Germany's squadron at Zanzibar has been ordered to get ready to sail for the Mediterranean.

MADRID, Sept. 14.—Reports of the cholera for the week ending last night show that the disease is stationary in the province of Santandre, and in all the infected provinces there has been a steady decrease. A fair showing in the latter assertion is taken from the province of Granada. Yesterday there were only 72 cases of cholera and 25 deaths reported in that province, while on Sunday there were 334 new cases and 42 deaths reported. The Deums were generally sung in the churches throughout Spain yesterday. The official number of deaths reported yesterday for the whole of Spain was 387.

NEW YORK, September 14.—The Herald's early morning dispatches aver that military, naval and popular tranquility continue in Spain, despite vague rumors to the contrary; that the reported disturbances in Eastern India and the Afghan frontier have been exaggerated; that France has acquired, by cession from the Sultan of Morocco, a new slice of African territory; that none of the Ashburnham manuscripts of the Italian Government are missing; that Austria is not discomposured by the resignation of Keily, as announced yesterday in Vienna; that the Italian Cabinet Council to-day will take measures to allay the cholera panic and will adopt important sanitary measures; that indubitable cholera cases have appeared near Lyons; that the Emperor of Austria in Slavonia, yesterday, promised to protect equally the Jews as well as the Christians, the Greeks as well as the Catholics, in the exercise of their religion; that the attack on the sentry at the Woolwich Powder magazine was not a Fenian outrage, but a piece of private revenge; that Von Schlosser, the German Minister at the Vatican, is on his way thither with an autograph letter from the Kaiser to the Pope, pressing religious peace between the two potentates, and that it is announced from Madrid that Spain will reopen commercial negotiations between England and the United States as soon as new representatives from these Powers arrive in Madrid.

MARSEILLES, Sept. 15.—There were seven deaths from cholera reported in this city yesterday. Thirty patients remain under treatment in the Pharo hospital. No more bulletins will be issued here.

PARIS, Sept. 15.—The cholera is spreading in the south of France. At Manosque there have been eighty deaths within three weeks. Many deaths have occurred in other towns. At Aubagne twenty-five persons died from the disease within a few days. The epidemic is increasing at Salon.

ROME, Sept. 15.—The Government has been issuing cholera bulletins. The first show that from the 6th to the 13th inst., 146 cases and eighty-six deaths were reported in the infected districts of Italy. Yesterday there were reported four new cases and four deaths at Palermo, and fifteen new cases and four deaths at Parina.

LONDON, Sept. 15.—Lessor, Chief of the Russian branch of the Afghan Boundary Commission, was interviewed before leaving London. He said the Zulfikar Pass was of no strategic importance. The eastern mouth of the pass remains in Russia's possession. The Afghans might erect fortworks if they pleased. There was no great desire among the Russians to attack Herat through Zulfikar Pass.

### AMERICAN.

CHICAGO, September 10.—A Daily News special from Regina says: "Over a thousand of Riel's sympathizers, embracing the half-breeds and French Canadians for twenty miles around, held a mass-meeting last night at St. Boniface. Speeches were made by Riel's counsel and prominent French residents. During the addresses there was intense excitement among the

listeners, a number of whom shouted that they would fight before they would see Riel hanged. John Carey, a lawyer, said that if Riel was hanged the confederation was at an end. Canada wanted no more of it."

NEW YORK, Sept. 14.—Jeff Davis writes to the Herald denying the multitude of stories about his capture in 1865. He adds nothing to the stock of knowledge on the subject.

WASHINGTON, Sept. 14.—A. M. Gibson has written and A. M. Gottsberger of New York will publish, October 1st, under the title of "A Political Crime," a history of the alleged frauds of 1876.

WASHINGTON, Sept. 14.—The Controller of the Currency has declared the fifth dividend of 10 per cent. in favor of the creditors of the First National Bank of New York, Ill., making 90 per cent. paid the creditors.

WASHINGTON, Sept. 14.—Among the political rumors in circulation here is one that Blaine desires to receive the Republican nomination for Governor of Maine this fall, and that he already has put the political machine in that State in operation to attain his end. Blaine's principal object in being a candidate is to keep in the political field and to prove that he can carry his own State.

NEW YORK, September 14.—The Post's Washington special says: The policy of the Treasury has been to show the uselessness of the silver dollar. Its experiments are rapidly showing that it is an impracticable coin. Every effort is apparently directed, so far as policy is concerned, to sustaining by clearest proof, every argument advanced in the President's silver letter. The opposition to the silver dollar never has been so general. The officers of the Government have done a great deal toward bringing this about. The tendency of affairs is now to drive the silver men to more and more favorable terms.

PANAMA, Sept. 14.—The latest advices from Lima give the details of the battle at Canta on the 15th ult. On the morning of that day a detachment of Government troops occupying the town of Canta, sixty miles from Lima, in a valley running parallel to that of Rimac, was surprised by a division of General Caceres' army, and after a sharp action of several hours was forced to fly in disorder. On Saturday at 7 A. M. the hills enclosing Canta were occupied by the enemy, apparently 1,500 or 2,000 strong, and with about 200 cavalry. The latter was stationed at the outlets of the valley leading toward the coast and the interior, so that from the first the Government forces were effectually corralled. Caceres' artillery, four small field pieces, opened fire from the hill at Hayachullani at half-past seven, and in a few moments the firing became general. The enemy descended from the hills and attempted to enter the town, but were repeatedly driven back. At 2 o'clock a desperate attempt was made to drive the rebels from the town, which they had then entered at the point of the bayonet. This failed, and the defeat was accomplished. The fight was hand to hand in the streets, no quarter being given, and most dreadful scenes of carnage occurred. The houses where some of the defeated soldiers had taken refuge were broken open, and all found within murdered without distinction of age, sex or character, and then were burned. A few of the most determined of the Government cavalrymen, headed by Colonel Pachas, cut their way through their opponents and made their escape.

NEW YORK, Sept. 14.—A Times Washington special says: The policy recently adopted by Manning of adhering strictly to the law in relation to the issue of standard silver dollars and silver certificates is provoking much criticism in New York and other commercial centers. Under previous Secretaries, silver certificates were issued and forwarded to the South and West in exchange for gold or United States notes, deposited in New York, the cost of transportation being borne by the Treasury. In this manner a large amount was exchanged, but the effect was ultimately to impair the stock of Government gold. At the same time, the stock of silver steadily increased. Silver coin and silver certificates shipped at Government expense to New Orleans and other distant points were returned to the Treasury, while the gold for which it was exchanged was paid out in New York in settlement of Clearing House balances. The silver coin and silver certificates thus forwarded to the South and West at an average expense of \$165 for each \$15,000 was called back to the Treasury in payment for customs, while the gold for which it was exchanged was passed over to the Clearing House Association at New York in settlement of debts or balances. Manning holds that the Treasury cannot be administered as an ordinary banking institution and cannot issue bills of exchange for the convenience and profit of individuals. The practice, therefore, of issuing silver certificates in exchange for other forms of money, and conveying them long distances at the public expense, is not likely to be resumed, unless Congress otherwise directs it by enactment.

It is reported here that parties in need of silver certificates in New York threaten to deposit gold in exchange for silver, then exchange silver for certificates. Having obtained silver certificates in exchange for gold coin in United States notes, the holder must transport them to New Orleans or elsewhere at his individual expense and risk. The effect of such a procedure, so far as the stock of the Government is concerned, might be the same as that which attended former practices.

WASHINGTON, September 15.—The President to-day appointed the following Collectors of Customs: John S. Hagar, for the District of San Francisco; John Flagan, for the Southern District of Oregon.

### PACIFIC COAST.

ST. LOUIS, September 10.—The Globe-Democrat has advices from several towns in Northern Mexico stating that there is a much disturbed condition of political affairs in that section. This is particularly the case in the State of Coahuila, where an election is to be held next month. Falconia is the gubernatorial candidate of the State Rights party, which opposes the Diaz administration, while the Maria Golan is backed by the Federal patronage and represents the present administration. The rival factions, headed by their respective leaders, are said to have formed regular camps and are recruiting soldiers as fast as they can secure them. They are well armed and said to have plenty of money and provisions. The situation is conceded by the most dispassionate observers to be of a very grave nature. The people are becoming more and more excited every day. Circulars calling on them to arise and throw off the bondage of a centralized Government are circulated everywhere. It is believed in many quarters, and there is good ground for the belief, that whichever way the scale turns in the coming election there will be a flare of revolution, if nothing more serious.

SAN DIEGO, Sept. 13.—A large and enthusiastic meeting of representative citizens of San Diego County was held in this city yesterday afternoon, when the permanent organization of an Immigration Association was effected.

SALT LAKE, September 13.—Mormon vengeance was vented last night on United States Commissioner McKay, who has been prominent in the hearing of the cases against polygamists. Two glass jars full of a vile compound were thrown into his parlor. One burst, ruining the contents of the room. Two were thrown at the window of United States Attorney Dickson, being directed toward his bed, but they broke on the outer casing of the window. If the aim had been true the result might have been fatal. Two jars were also thrown in the house of United States Assistant Attorney Varian, while Mrs. Varian was alone with a sick child, and damaged the room to a great extent. There is great indignation among the American citizens over the outrages. Many think it is a pre-concerted movement.

The Mormon Church organ to-night holds that the stink-pot outrage was committed by Gentiles to throw odium on the Mormon people, because the act would be a mistake on the part of Mormons and against their political interests.

DEMING (N. M.), September 13.—A band of Indians crossed the railroad seven mile east of here this morning, going north. It is not known whether they are Indian scouts following the renegades, or another band of hostiles which the troops have run out of Mexico, but it is generally believed that they are hostiles, who are following the route of those who passed north last week and did the killing near Lake Valley. From appearance of signal-fires in the mountains, the hostiles evidently have scouts in advance, and find no trouble in evading the troops and passing safely from one section of the country to another.

PANAMA, September 14th.—The Star and Herald says: We shall see in the month of October the first section of the Panama Canal opened in its full length, breadth and depth. The first section will comprise the water-way from Colon to near Tiger Hill, a distance of 12 kilometers.

PANAMA, September 14.—Benjamin Ruiz, Charles Abrahams and another of Prestan's Lieutenants have been captured and placed in prison here. An extra number of the Official Gazette has been published by order of General Manteyca, announcing the complete subjection of the rebels and the restoration of peace throughout the Republic.

SALT LAKE, Sept. 14.—The Grand Jury for the term was impeached to-day by Judge Zane, who gave pointed instructions regarding polygamy, unlawful cohabitation and the fifth-throwing outrage on Saturday night. In examination on *voir dire*, Clayton, a Mormon, swore that he didn't believe the Church ever received a polygamy revelation, and that he would help to bring to justice all violators of the Edmunds law, high or low. Three other Mormons swore they would indict for polygamy, and all four were accepted.

SANITARY CONDITION OF HONOLULU.

Yesterday we showed, or tried to show, from the writings of men, who have made such matters a life-long study the absolute need of cleanliness in our daily surroundings—the absolute certainty that those who violate Nature's law in this regard, sooner or later must pay the penalty for every infraction of her beneficent laws, and in this matter ignorance of the rules serves not for an excuse.

Starting out on our first tour of observation, under the leadership of an experienced guide, we went first to the Fish Market, and from there went westerly into the district known by the natives as Puukolu.

To the right of a narrow pathway we first come to a nest of Chinese poi factories. The buildings front on Maunakea street and at the back are in close proximity to a most crowded native quarter.

With all this filth left to decay for years in a position which leaves it so that the sea can carry away only a small portion of the lighter parts of this decaying mass, imagination may possibly convey a slight idea of matters as they stand.

From this spot we found our way through an alley 26 inches wide, in places widening out to 3 feet, through such a maze and labyrinth as we had not the slightest idea could possibly be in a place no larger than Honolulu.

a pen above them just large enough to turn round in. In the hot stifling rooms of these courts are crowded large numbers of women and children and herds of Chinese. To expect that human beings can even exist in a healthy condition, let alone to develop lives of usefulness in the midst of such surroundings is simply utter folly.

Turning back towards King street bridge, our guide led us by a narrow alley, mauka, through an even more complicated labyrinth than we had before passed, by crowded courts and filthy passage ways, until we finally emerged into Maunakea street opposite the American Lodging House.

On the mauka side of Beretania street at the river we found one of the filthiest spots in all our journey. A Chinese poi factory dumps all its refuse there and the smell is extremely offensive. More than a hundred of children must pass and repass this place daily on their way to and from St. Louis College.

Back of the Chinese Church on Fort street and adjoining the palatial residence built by the late Princess Ruth and not more than fifty feet from the beautiful house on Beretania street, which faces Garden Lane, is another of these ambushes of Death.

What their sanitary surroundings are we have in this article in a feeble way tried to show.

This well-known Trotting Stallion is now standing at the corner of Punchbowl and Queen streets, 1st breeders, horsemen and stock-owners should take advantage of the opportunity to obtain his blood while they have the chance. He is now looking and feeling, nearly as well as he ever did in his life, and moves as lively and his eye is as bright and he is as vigorous as a four-year-old horse.

It does not require a long time for a horseman to discover great points of excellence in VENTURE. The ordinary citizen, upon beholding him, will be impressed immediately with his grand make, his magnificent length, and his elegant form. He is the most greatest horse that ever came to this country, he is the one of the greatest, as a turf performer, he towers on far above them all as he does above a sucking colt.

A great deal of importance has lately been attached to the value of a horse that is being kept for stock purposes, whether he is standard or not, and the President of the National Assn. of Trotting Horse Breeders in America strongly advises people not to purchase standard horses that are not standard bred, and he also advises them to select one not only standard bred, but if possible one that is bred by his own performance, which is a public record of 2:30, or better, and even more than this by the performance of his get also. Now, if this was rightly applied it would exclude all such great horses as Elector and the sire of Maud S. and Jay by Sea, etc., for while they have become greatly renowned by the performance of their get, they never were self performers themselves.

Now, we will see, for curiosity, how near VENTURE comes to possessing these three qualifications, namely: breeding, performance and performance of his get.

As to breeding, he is the peer of any horse on earth, and I don't except the great Herby, who is the one popular stallion in England, and whose service fee is \$500, he being the sire of three Derby winners.

As to his own performance, he meets the requirements, having a public record of 2:30, being the standard of admission.

His get are now just beginning to be appreciated in California, one of which (Vengeance) was a good as quite lately in Sacramento, in straight heats, making a record of 2:24, and is said to be able to trot close to 10 miles when called upon to do so.

With these facts before us, VENTURE looms up as one of the greatest horses, not only in this but in any other country, and the day is past when men will breed anything but the very best; and while the death of two such great horses as Herby and Herby is greatly deplored by all true horsemen, still it is a great consolation that there is so good a horse as VENTURE to fill their place.

VENTURE is an aged horse, but he is one year younger than Dictator, who was sold only last year in Kentucky for \$25,000, on the strength of his being the sire of Jay Eye See. His stud fee is \$500. He is ten years younger than Volunteer (sire of St. Julien), whose fee is \$500. All things taken into consideration, I cannot see why VENTURE is not as desirable a horse to breed from as any of them, or why he is not a worthy of the patronage of the public. Below I will give his pedigree, of which I invite a comparison with that of any other horse in the country:

VENTURE, chestnut horse, 16 hands, foaled in 1864; sired by Belmont, he by American Boy, he by Gull, he by Imp. Expedition.

1st dam, Miss Mosby, by American ad dam, by Kenton's Gray Mare; 2d dam, imp. Lady Mosby, by Tom 2d dam, by Whisker; 3d dam, Helen, by Hambletonian; 4th dam, Sonny, by Overton; 5th dam, by Druse; 6th dam, by Old England; 7th dam, by Cullen Arabian; 8th dam, Miss Cade, by Cade; 9th dam, Miss Maudslayi, by son of Greybe; 10th dam, by Partner; 11th dam, Miss Dora, dam by Woodcock; 12th dam, Miss Dora, dam by Woodcock; 13th dam, by Brimmer; 14th dam, by Dickey Person; 15th dam, Huron Barb. Mare

Some of the Chinese citizens of Honolulu celebrated the festival of the Autumn moon last night.

They are having "beauty shows" in America—the proper thing for Honolulu would be a Wahine show.

Captain Morse brought the Alameda back yesterday. It was rumored that he would resign his position this last trip.

Messrs. J. M. Oat, Jr. & Co. kept their store open last night until after ten o'clock on account of the two-weeks mail.

The streets were full of serenaders last night and some of the serenaders were fatter than the streets or the moon—gin full in fact.

Mr. Frank Gertz, Jr. is having his shoe store on Fort Street refurbished and handsomely adorned with the aid of a bucket of paint.

Mr. and Mrs. Melvin Staples returned to Honolulu by the steamer Planter and are again living in their home on Adams Lane.

There was a young maiden from Frisco Came down on the Alameda; She flirted up Fort street so brisk, O It made the young fellows ha! ha!

The booming of guns early yesterday morning announced the arrival of the Italian man-of-war Christopher Columbus from Japan.

Jim Dodd's goat breakfasted on a hat yesterday morning; the native who owned the hat wears Jim has got to pay for it or give him a "little brown jug" for consolation.

Dr. Rodgers and others interested in the Honolulu Library have been lately overhauling the books and putting them in ship-shape. Many of them have been re-labeled.

The H. R. boys held bayonet drill last night. There was a fine attendance and the boys pointed their guns with creditable accuracy. Captain Aldrich was in command.

The Japanese women brought here are learning the ways of civilization "a right smart." Last evening some young fellows were having a "picnic" with some of them on the street.

It is reported that Hon. Paul Neumann was out on the streets of the day before the Alameda left San Francisco and that he will probably be down by the next steamer for the Colonies.

How much is to be made of our Italian visitors? Already they are to be seen on our streets in their smart light dress. Is the light fantastic to be brought into play or is the youth of Honolulu asleep?

Mr. C. Afong has contracted for forty of the Chinese laborers who arrived by the Alameda and will probably send them to Pepeecko by the Hala-hala which is expected to arrive here tomorrow or the next day.

A secret police expedition was out on the bay last night—probably looking for opium from the Alameda—they started from the boat stairs near the Honolulu Boat House. They all got wet in the rain but they didn't catch the half-pound tin.

Yesterday afternoon a Chinaman who lives on the Palama road was endeavoring to explore the intricacies of an old revolver and succeeded in demonstrating that a bullet with 40 grains of powder behind it will amputate a finger quicker 'n Dr. Webb.

Yesterday morning a native mule-mauler tried to eat up an Italian hackman as it were. They fought and they fought in front of Lucas' planing mill on Fort street. The mule, it ran and it ran, and is reported to have been stopped with nothing broken but its whiffletree. Poor mule! how it must have suffered.

There was almost a runaway yesterday afternoon on Beretania street caused by a native boy with a sack over his head. A lady was driving a carriage when the boy started across the street and frightened the horse, which a hackman fortunately caught before it ran away.

Speaking of the Mechanics Fair in San Francisco the S. F. Bulletin says that crowds are constantly being the Kilauea pictures and adds: "Tavernier's picture of Kilauea continue to attract much attention. The realism of these portrayals seems to astonish and impress all."

A hackman tried yesterday to solve the problem that twice two fares are fifty cents within the ten-cent bounds, but his passengers convinced him that twice two are twenty cents and he was prevailed upon to take Hawaiian gold to the amount of two bits and depart without any back talk.

Mr. Jimmie Williams will be offered for sale, as soon as they are toned down, the pictures he took last Saturday of the Honolulu and Oceanic base ball nines. Jimmie says the girls will all buy 'em and declares that he will give the sporting editor of the Press one, provided he can "catch on."

A gay party of ice cream eaters were following Mr. Henry Hart increase his banking business last night. While they ingested Mr. Hart's sweet coolness they were serenaded from an adjoining room by a young man who wined his cheek in imitation of a bag-pipe. "Jack where art thou?"

The residents on the mauka side of King street, between Maunakea and the bridge are waiting anxiously as they have done for several months, for heavy rains to do their scavenging work. The gentle zephyrs waft, the and stronger breezes swirl the dust and filth into the gutter where it is to be found rotting and reeking forth a hateful odor.

Mr. Berger's boys blew horns-full of merry notes for the pretty girls last night at the Central Park skating rink. Some of the boys got real jealous and declared that if the band boys didn't quit entertaining the girls so muchly that they would have to slide out. Some of them did—on skates, swinging the poetical Venuses with them. Mr. D. P. Smith was there wearing a bright smile and a new suit of clothes.

The public duly appreciate the building of the new side-walk in front of Williams & Co.'s on Fort Street. "Ho, these many months we have turned our ankles and have grumbled not; yet notwithstanding our heavy grievances we have murmured not, when, in justice, we should have risen in our might and swept the pedan nuisance from the face of Hawaiian earth. O, most worthy property owner! thou hast won our single regard and thy former laches are forgotten.

They say: that Fisking will soon enlarge his store by taking down the partition; that Paul Neumann will be in at the Hawaiian political finish; that Sam McKeague sometimes sits down unceremoniously; that Jimmy Boyd knows why he does it; that the advance in the price of sugar won't affect the tea trade; that the Puritan will be beaten if she sails with a spanking breeze; that the banks sent per cent. after the \$; that the poor can testify that per cent. got the \$; that the younger boat clubs ought to get out and practice; that the Government is right and that the Hilo planters ought to have read the immigration law before they committed themselves on paper; that some of them wish they had; that the gay boys who sing the loud can't always read their notes; that the "little tailor" says the Islands are not big enough; that he will not return because he cannot "cut out" a fortune and keep it dry; that the baseball boys will strike out a new line of conduct; that the wise man prompts the miller; that the miller brings the grist to the mill; that fun is fun—sometimes.

After an absence of seven months Mrs. J. H. Reist returned from the Coast yesterday. She was warmly welcomed by many of her friends at the wharf. According to previous arrangements made by her husband, the general Mr. Harry Reist of the Interior Department, Mrs. Reist was greeted with a happy surprise when she reached her home at Aala, on the Palama road and found that the house was chock full of friends and luau. After a Kona of congratulations the entire company met in the dining hall below and proceeded to express their good will by eating up all they could of the beautiful repast provided. Yum, yum it was awful good and there was only a shade of disappointment would pass over Jimmie Boyd's face when he reached the bottom of his glass—until it was filled again. Mr. Harry Reist was so perfectly happy that he could hardly eat for smiling and he seemed to have forgotten all the lights and shades of his summer life. The "feed" was beautifully laid out upon the floor in the form of an X and the company feasted and laughed and talked until everybody was filled to the neck, as the saying goes. Captain Mehrtens toasted the re-united couple in a few appropriate remarks, which were followed by some characteristic words uttered by Mr. Sam McKeague—words of advice and counsel—before he finally reached for the floor and sat down mighty hard. Somebody had removed the chair. The good time lasted all the afternoon. Mrs. Reist looks younger than ever, and although she is in love with the Coast climate she says she is glad to get back to her Island home. Among the guests pre-

sent were the following: Captains Mehrtens and Fehleber, Messrs. W. H. Cummings, Charles Hopkins, Sam McKeague, George Beckley, Henry Hart, Oliver Stillman, Mr. Mossman, William Hall and George Smithies. Mesdames, Holt, Joye, Fehleber, O. Holt, J. Holt, Webb, H. Hart, Wilson, Rhoads, Hopkins, Stillman, Apai, Raupp, Miss Julia English and others.

Frank Davis, remanded from the 5th inst. on a charge of stealing liquor from the Commercial Hotel, was discharged on a nol. pros.

Williams, Diamond & Co.'s Circular.

SAN FRANCISCO, Sept. 15, 1885.

DEAR SIR: Our last circular was dated Sept. 10, per steamer Mariposa.

SUGAR—We have to note considerable of a change in the prices of refined in our local market. The California Sugar Refinery having advanced its prices to-day 2 cents per pound on all grades.

EASTERN AND FOREIGN MARKETS—The situation has greatly improved, and raws have steadily advanced. The statistical position also continues to improve in all respects.

Our latest mail advices from New York state that market for both raws and refined has ruled active and strong at prices that show a further advance.

Refiners have shown a disposition to supply their wants steadily from spot stock and the increasing demand for refined as well as the hardening tendency of the London market has strengthened the confidence of buyers as well as sellers, and resulted in higher prices being paid. The general condition of all the sugar markets of the world is healthy and prices are tending upward.

Our latest telegraphic advices state that the improvement continues as noted above. The present crop is estimated by M. Licht at 2,070,000 tons, other estimates being smaller in wood.

Cuba Centrifugals 95 per cent test 6 1/2-10 cents.

London Beets 88 per cent, test 16 cents.

The Manila basis advanced on the 9th inst. to 5.60 and again on the 14th to 5.70 for 91 per cent.

RISE—The new crop of Carolina is very abundant and is being forced on the Eastern market. Prices are very low, and it can be laid down here at 5 cents and 5 1/4 cents.

The Island article has declined the last week, all holders showing a disposition to sell.

We quote price at 5 1/4 @ 5 1/2 cents.

CHARTERS—Few transactions have taken place since our last, at unchanged prices. English advices for several days past have shown more firmness, owing to bad weather there, and some enquiry has existed.

Last charter, an iron ship 275, 6d. Liverpool, and at the close 30s. Cork U. K. is bid for same class without result, 32s. 6d. being the asking rate. Nothing done in wood.

Exchange London 60 days \$4.83, U. S. sight 1/2 per cent.

FLOUR—G. G. extra family \$4.50. El Dorado \$3.35.

AMERICA KEEPS THE CUP!

The Puritan Beats the Genesta

By Sixteen Minutes and Nineteen Seconds Corrected Time.

New York, September 14th.—At last the representative yachts of England and America, the center-board sloop Puritan, and the keel cutter Genesta, have met and fought one round in the marine battle which is to decide another ownership of that precious trophy, the American cup.

The course was from an imaginary line between Buoy 18, off Owl's Head, Staten Island, and the committee boat, anchored an eighth of a mile to the westward, and around buoys 10 and 18 1/2 in the lower bay; and thence to and around Sandy Hook lightship and return to the finish off buoy 15, an eighth of a mile south of Fort Wadsworth.

The wind at the start was light from south by west, which made a dead heat to the first mark; from there to the lightship the wind freshened and permitted the yachts to start sheets at intervals; from the outer mark back to buoy 5, off Sandy Hook, the wind was about four points free.

A long blast from the whistle, at 10:25, on the judges' boat, echoing among the heights of Staten Island, was the preparatory signal. At that time Jay Gould's steam yacht Atlanta, the Corsair, Stranger, Radha, Viola, Magnolia, Utowana, Vision, Electra, Wanda and Sentinel, with all the above-named passengers and about fifty tugs, had gathered to the north and east of the starting line.

Yuma County produces and ships \$5,000 worth of gold dust monthly, all got out by the dry wash process. The hop-growers of Yuba who are using white labor in the place of Chinese are much pleased with the change.

There are over 200 cottages, worth from \$600 to \$2,500 apiece, in course of construction in Los Angeles and suburbs. Besides this a number of costly residences and various improvements in street opening, grading, etc., give employment to a large force of men.

An important discovery has just been made on the Colorado desert in finding and relocating the famous "Lost Wilson" mine, which was discovered four years ago by one Wilson, who was obliged to leave it and go for water. It is a mine of horn silver, very rich, and assays from \$15,000 to \$16,000 per ton.

There seems to be a prospect of every available cattle ranch in Arizona being secured by some of the cattlemen expelled from the Indian Territory. A dozen ranches in Southern Arizona have recently changed hands, and agents of stockmen are quietly hunting good ranges with unfailing water supply.

The ebb tide in a light breeze. The Genesta's spinnaker was sent out to port in one minute and a half after rounding the buoy. The Puritan's spinnaker boom was lowered but the sail was not set. She crossed the finish amid the wildest enthusiasm, the steamers, that fairly blockaded the channel for miles to the southward, closing up around and making a veritable pandemonium with their steam-whistles for fully five minutes.

Mr. Tams, of the Committee, in an interview after the race, said: "I am satisfied that the Puritan has fairly out-sailed the Genesta, but I think that when they meet in a good breeze it will be nip and tuck." Mr. Forbes, Gen. Paine and Mr. Burgess are all satisfied with the result, and are ready to try it again on Wednesday, when the outside course will be sailed, the breaking of the Genesta's main cap preventing a race to-morrow.

The following table gives the actual result of the race:

Table with columns: Yachts, Start, Finish, Elapsed Time, Corrected Time. Rows for Puritan and Genesta.

Captain Joe Ellsworth said to-night: "The Englishman is a mighty smooth boat, and may win yet. We have sailed our best race in smooth water."

A LONDON NEWSPAPER ON THE RACE.

LONDON, September 14th.—The Daily News, referring to the Genesta's heavy bowsprit, says: "Such things are among the chances of war and must be accepted. The good humor of the losers, though, may fairly temper the exultation of the winners."

Pacific Coast Jottings.

Peace prevails on the Isthmus of Panama. There are 484 men employed in the Mare Island Navy Yard. Oil springs have been discovered in the mountains of Kern County.

The Petaluma Packing Company suspended operations for the present season. A natural gas well has been opened on the Orphans' Home premises, Los Angeles. Yuma County produces and ships \$5,000 worth of gold dust monthly, all got out by the dry wash process.

The charge brought against Dr. W. Hitchcock of the Union Pacific was dismissed by the arbitrators of the association, on account of failure to prove the charge. There are over 200 cottages, worth from \$600 to \$2,500 apiece, in course of construction in Los Angeles and suburbs.

There are ten more new ostriches at the Fall Brook ostrich ranch, Los Angeles County, which makes a flock of twenty-three chicks at the place. Now that the ostriches are breeding so rapidly at Fall Brook and at the ranch near Norwalk, it is likely that it will not be necessary to send to South Africa or Paraguay for any more.
