## THE DAY WE CELEBRATE!

### The 76th Anniversary of the Birth of Britain's Queen---Appropriate Observation of the Day.

Victoria Alexandrina, Queen of Great Britain and Ireland, only child of the late Duke of Kent and the Princess Louisa Victoria of Saxe-Coburg, was born a Kensington Palace seventy-six years ago today. Until within a few weeks of her elevation to the throne upon the death of her uncle, William IV., June 20, 1837, her life was spent in comparative retirement. She succeeded him as Victoria I., and her coronation was celebrated in Westminster Abbey, June 28, 1838. Her Majesty was married, February 10, 1840, to his late Royal Highness Prince Albert of Saxe-Coburg Gotha.

By virtue of the power conferred by an Act of parliament passed in the previous session her majesty was, on January 1, 1877, proclaimed Empress of India by the Governor General at the camp of Delhi. As a child Princess Victoria was

lower rooms, where they seemed forgotten by everybody. They rang the bell, and desired that the attendant of the Princess Victoria might be sent to inform her royal highness that they requested an audience on business of importance. After another delay, and another ringing to inquire the cause, the attendant was summoned, who stated that the princess was in such a sweet sleep that she could not venture to disturb her. Then they said: "We come on business of state to the queen, and even her sleep must give way to that." It did; and to prove that she had not kept them waiting, in a few minutes she came into the room in a loose white night gown and shawl, her nightcap thrown off, and her hair falling upon her shoulders, her feet in slippers, tears in her eyes, but perfectly collected and dignified." The Prime Minister,

Victoria Alexandrina, Queen of England and Ireland, and Empress of India.

trained for intelligence and goodness, and it is said that when notified that her uncle was dead and she was then Queen of England, she showed remarkable self-possession. There is a pretty description given by Miss Wynn of the manner in which the young sovereign received the news of her succession that has often been written but always bears repetition on the anniversary of Queen Victoria's birthday.

The Archbishop of Canterbury, Dr. Howley and the Lord Chamberlain, the Marquis of Conyngham, left Windsor for Kensington Palace, where the Princess Victoria had been residing, to inform her of the king's death. It was two hours after midnight when they started, and they did not reach Kensington until 5 o'clock in the morning. "They knocked, they rang, they thumped for a considerable time before they could rouse the porter at the gate; they were again kept waiting in the courtyard, then turned into one of the

ter, Lord Melbourne, was presently sent for, and a meeting of the privy council summoned for eleven o'clock, when the lord chancellor administered the usual oaths of allegiance to the queen, and her majesty received in return the oaths of the cabinet ministers and other privy councillors present.

During her reign of nearly sixty years Her Majesty has shown herself to be a remarkable woman, evincing at all times a decided interest in the welfare of her people administering to their wants in a quiet and unostentatious manner. During the last few years Her Majesty's health has failed, though even at her advanced age, her faculties are phenomenally bright.

If you want to buy a really good clock or watch at Coast prices inspect the stock of Brown & Kubey, at No. 4, Masonic Temple; there you will find the largest variety in Honolulu at the lowest prices; clocks and watches sold on weekly and monthly payments. Brown & Kubey make a specialty of rubber stamps.

## RHEUMATISM

AND PILES CURED BY

### AYER'S SARSAPARILLA.

Mr. W. JENNINGS, Adelaide, S. A., formerly of Hawthorn, near Melbourne, Vic., writes:

"For the past 3 or 4 years, I have been a great sufferer from rheumatism and piles. I tried all sorts of medicines, but derived no good from them. I chanced to read one of your books and thought I would give your Sarsaparilla a trial. I did so, and after

taking one bottle I felt better, and after taking 4 bottles I was a new man. I was sorry I never took it before, for it would have saved me very much pain."

Last Night's Concert Drew Out a Big Crowd.

A visitor at the grounds of the Hawaiian Hotel last night would have been reminded of old times if he had been here in the days of old.

The concert was delayed about ten minutes in order to give the electric light people time enough to show what they could do.

The concert was all that could be desired, even from the well-known ability of Professor Berger and his band.

The management of the hotel is to be congratulated on the efforts it is making to please its patrons and the public generally.

## National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

Mr. John A. Scott, Manager of the Hilo Sugar Company, gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop just harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 125 hours grinding with an output of 3000 tons. This is fully 10 percent more than the best work of former years.

"The three roller mill being 26 in. by 54 in. and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company.

"And by its use the extraction has been increased from 3 percent to 5 percent on all kinds of cane, and in some cases 80 percent has been reached, the average being 75 to 78 percent, according to quality.

"I continue to find the megass from shredded cane better fuel than from whole cane.

"The shredder has been working day and night for seven months and has given me entire satisfaction, having shredded during that time about seventy thousand tons of cane, and a large part of it being hard ratoons.

"The shredder and engine require very little care or attention."

Plans and specifications of these Shredders may be seen at the office of

### SURPRISE PARTY.

Mrs. J. N. Wright is Called On by Her Numerous Friends.

To-day is Mrs. J. N. Wright's forty-sixth birthday, and her numerous friends gave her a pleasant surprise last evening, at Independence park. The committee of arrangements were Mrs. Thompson, Mrs. Dowsett, Miss McGuire and Miss Wundenberg. These ladies, together with a large number of Honolulu's society people, met there at 8 o'clock last evening, Mr. and Mrs. Wright were ushered in, the band playing an appropriate march and Mrs. Wright's many friends were given a chance to congratulate her. After everybody in the hall had shaken hands with everybody else, the dance programs were given out and all started in to have a good time. The reception and floor committees tried to make everyone feel at home, and succeeded admirably. At 12 o'clock a light lunch was served, consisting of ice cream, cake and coffee and other fixings. The program of fifteen numbers was finished at 1 o'clock, everybody again shook hands with Mrs. Wright and the crowd squeezed into carriages and the party was at an end. FRIDAY, MAY 24, 1895.

Several times during the month efforts were made by members of the Legislature to create a municipal government for Honolulu and thus separate its affairs from those of the general government. In the opinion of a great many people on the islands the step would be a beneficial one in many respects and the passage of such an act by the first Legislature in the history of the Republic might be the means of conciliating the dissatisfied ones.

The death of *Mons. Henri Leon Verleye*, representing the French Republic in Hawaii, removes from our midst a man thoroughly respected for his qualities as a man and for his ability as a diplomat. After *Mons. Verleye's* arrival here he quickly established himself among the members of the diplomatic corps as a man of no mean ability. His opinions during the political troubles of Hawaii were often courted by those who had spent long years in the service. As a husband and a father he was devoted to a degree that attracted the attention of all who had the honor of coming in contact with him. The sympathies of the *EVENING BULLETIN* are extended to *Madam Verleye* in her deep loss.

Some men who learn to ride horseback believe that it is essential for them to have the horse go at top speed believing they have control enough over it to stop it in case ladies and children should get in the way or, that the streets belong to them to be used in whatever manner they please. It is not uncommon to see these riders, even in the city limits, going at a dangerous pace and with no interference from the police. On the outskirts, however, it is an every-day affair, and was he unto the luckless wight who gets in their way. With a mounted patrol such as we have there seems to be no valid reason why this should not be stopped by the arrest of the offenders. There is a law against it and it should be put into execution.

If the selection of *Mr. Thurston* as orator of the day by the G. A. R. is objectionable to the people who will attend, his name should be withdrawn. So far as the objection to *Mr. Thurston* on the score of nationality goes, the matter is briefly the most that can be said is he has a bad standing with the government at Washington and having it should not be brought face to face on occasions like Memorial Day with men who fought to preserve the country. As has been said many times, the people here who insult *Mr. Cleveland* by scurrilous remarks, do not hurt him but they insult Americans generally, no matter what their opinions may be. *Mr. Thurston* is not liked by the Administration nor does he like *Mr. Gresham*, such being the case there is seemingly no reason why he should have been selected to deliver the oration when there are so many Americans here equally well qualified to speak. It is not too late to make a change and *Mr. Thurston* can make other arrangements for spending the day.

Honolulu is blessed with the best hack service of any city its size in the world, and it is astonishing that Hackmen carts have not been put in operation; they are comfortable and safe and quite as pleasant to ride in as a four-wheeler.

"Music Bath Charms."

EDITOR BULLETIN:

It is an old saying: "Music bath charms." True. But there are times when it becomes a nuisance. When *Colonel McLean* arrived in Honolulu he was received with open arms and good will. Since his arrival he has caused many beneficial changes in the army, for which we are truly thankful. On the other hand, if he is the cause of the nuisance of which I am about to complain, there are many persons in the neighborhood of the "drill shed" who wish he had never come to Honolulu. I am one of the persons that have to earn my living by nightwork, and sleep from about 3 a. m. to 12 m. "To sleep, per chance to dream," is very refreshing indeed, but if a nuisance is permitted to exist near you which prevents either of these luxuries, what then? Why, seek to have it removed.

Now for the nuisance. From morning till night peaceable persons are forcibly compelled to listen to those fellows in the drill shed learning to blow the bugle. Now, sir, if the "powers that be" require a competent bugler, it is very desirable they should engage one as soon as possible and get rid of those learners, or else have a place erected on top or centre of Punch-bowl for learners of this desirable instrument. The poor sick invalids in the hospital, I am sure, will agree with me in this proposition. I require more rest and sleep, and I trust this nuisance will be soon abated. I remain, sir, yours sorrowfully.

ALEX. BOLSTER.

While in Stockton, Cal., some time ago, *Thos. F. Langan*, of Los Banos, that state, was taken very severely with cramps and diarrhoea. He chanced to meet *Mr. C. M. Carter*, who was similarly afflicted. He says: "I told him of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and we went to the Holden Drug Store and procured a bottle of it. It gave *Mr. Carter* prompt relief and I can vouch for its having cured me." For sale by all dealers. *Benson, Smith & Co.*, agents for the Hawaiian Islands.

Business Talks

May 24, 1895.

If the business in any one line was controlled by one individual, what would be the result? If there was a demand for his wares he would be richer than *Croesus* at the end of a year and you would have to pay through the nose for what you bought of him. In the United States competition has brought the price of necessities down to a stage where people may have them and not be looked upon as extravagant. If you will look around among our stock you will find that it is made up largely of articles for which you have every day use. We have luxuries as well, but, to-day we tell you of things needful about the house. Agate ware for instance!

There's been a scarcity in Coffee Biggins in town, but we have a stock of them That will interest everyone.

We get our goods in agate ware from *La Lance* and *Grosjean*, the makers, and they have the reputation of making the best goods in their particular lines in the United States. We can get "seconds" from them, but the first quality is the best because the enamel will not chip off.

Water coolers, handsomely painted outside and enamel lined inside, Small ones for a family or large Ones for a foundry.

Japanned ware includes cake tins, trays, crumb pans, cuspidors and lots of other things. The prettiest and probably the most useful article in the lot is a toilet stand, very neat as to decorations and complete as to detail in the matter of articles that go with them.

The one that will strike your fancy Has a water tank that will Hold sufficient water for the day.

The price of these articles is not in proportion to the value of the goods. You get more for your money than you are used to, but then—competition has fixed that in the United States—we buy cheap and follow the same rule in selling, you understand the Golden Rule.

Retinned Glue Pots and Slop Bowls Are a new thing with us: Bright and pretty, like a silver dollar.

And you can get them at a price that will amaze you. You should have one of these because they are useful and serviceable.

This is a fish-eating community because the fish are fresh and of an exquisite flavor. All people do not know how to cook them so as to get the substance.

With one of our Agate Steamers you Can steam or boil your fish And not lose the flavor.

These fish kettles vary in size from the mullet to the *uluu*, and the price goes according to the size.

Farmers' Boilers are not used in every household, but there is scarcely a plantation on the islands but what requires one; they are not to be found in every store in the city, but we have a few of them to accommodate the people who want them.

Among other useful articles let us call your attention to agate and tin basting spoons, tea and coffee caddies, egg poachers, chopping bowls, dish pans, dairy pans and wooden potato slicers.

What is better with your chop In the morning than a few Saratogo Chips? You can get them By using one of these slicers.

Our stock is complete in detail—nothing old or shop-worn.

THE PACIFIC HARDWARE Co. Cummins' Block.

IT PROVED . .

to me that good goods and low prices are still appreciated in Honolulu. I therefore intend to give my customers and the public in general another opportunity. I beg to call attention to the special bargains in our line of

Wool Goods, Cashmere, Flannelettes & Flannels.

Sale will commence MONDAY, April 22d.

Havana Flats

is the latest novelty in cigars. This is a perfectly flat cigar. The filler is Havana of a very high grade and laid in, like the sheets of a book, in the same way as cigars that cost \$150.00 per thousand. The outside appearance of the cigar conforms to the filler, and is perfectly flat. Those of our cigar customers who have sampled them pronounce the Havana Flats of excellent quality and of unique and attractive shape.

Havana Cigars

by reason of their superior quality and name are usually sold at high prices. We have an excellent line of these cigars direct from Havana. While the quality of these cigars is at the top-notch our prices have been scaled down to bring these popular cigars within the reach of all.

Manila Cigars

need very little said in their praise, for they are well known here to every smoker. It would be difficult to get a better cigar for the price at which Manilas are sold. We allow no one to undersell us in this line. We compete with any nationality. Remember that when looking for Manila Cigars.

**SUDDEN DEATH.**

**Mons. Verleye, the Commissioner from France, Dies from Heart Failure—The Body to be Taken to France.**

Henri Leon Verleye, Commissioner of the Republic of France to Hawaii, died suddenly at his residence on Beretania street near Punchbowl at eleven o'clock last night. The immediate cause of his death was heart failure.

Mons. Verleye came here a little more than a year ago, succeeding M. D'Anglade, who had returned to France. His arrival caused considerable talk in private as well as diplomatic circles from the fact that he was accredited to the monarchy instead of the Provisional Government. Mons. Vizzavona was then acting Commissioner of the French, and on his retirement

Henri Leon Verleye, late French Commissioner to the Republic of Hawaii.

he introduced Mons. Verleye to the Government as the person who would take charge of the consulate during his absence. Later his credentials arrived properly directed to the Government.

Mons. Verleye was of a genial disposition, and during his short career here made many friends, by whom his society was much enjoyed. With his estimable wife he entertained them in an unostentatious way but with a cordiality of manner that made him much sought after. Among the few French people on the islands he was most popular for the reason that he seemed always to have their interests at heart. By such friends and acquaintances here he will be sorely missed.

Mons. Verleye was probably fifty years of age; light complexioned and with long light beard. He was quite portly and of a build that indicated a tendency to apoplexy. His family consists of a widow and one child, the baby having been born here a few months ago.

Mrs. Verleye, while in a strange land, is being carefully attended by the many kind friends she has made since her arrival in Honolulu. She was exceedingly devoted to her husband and the shock at his death was so severe that physicians are in attendance.

The BULLETIN is informed by Mr. W. M. Giffard, acting chancellor of the legation, that arrangements for the funeral have not been completed. The body will be embalmed and will probably be sent to Mons. Verleye's home in France.

**Common Nuisance.**

Apana, a native woman, while walking on Union street near No. 2 engine yesterday, was struck by a stone thrown by one of a half-dozen men in the neighborhood who find amusement in teaching a dog to "fetch and carry." When remonstrated with by passers-by the man naturally denied knowing anything about the matter. Use a little care, boys, and your pleasures will not interfere with anyone.

**Popular Topics of the Day.**

May 24, 1895.

If it had not been for the excellent quality of coffee produced in Kona, it is not likely that foreigners would have been induced to invest their capital in lands in that district nor would the building of a telephone line, such as the new company proposes to construct, have had an existence even on paper. It's the fact that the locality produced in a small way and in the most primitive manner an article which caught the fancy of "canoosers" in the matter of coffee; they wanted more and they were willing to pay a good price, but there were no means of getting it. Investigation demonstrated that the land would produce an unlimited quantity, but the people in the vicinity had not given the proper attention to the cultivation, you all know the result, foreign capital came in and is coming every day, and before another decade the production of coffee will be a leading industry of the islands and the machinery used in pulping, cleaning and putting it through the various processes necessary to make it marketable will come through us. And why? Because we are interested in the coffee business; we know what is wanted and we secure the very latest improvements in coffee machinery. What is good enough for one man may not be good enough for another, but our stock of implements for the coffee business is good enough for all. The industry is still in its infancy and the growers do not know themselves just what they require, but if they will communicate with us, we can give them the necessary information.

The Helen Brewer brought us what charcoal irons will be needed during the next few months and the price is just what the condition of affairs here warrants. There was a time, not many years ago, where a single charcoal iron cost \$5.00. In those days it was a luxury to own one, now it is a necessity and the low price we charge for them enables every one to have one.

We've never done much in the way of Refrigerators because the town seemed to be well supplied, but the prospects for a reduction in the price of ice warrant our carrying a few to accommodate people who want a really superior article—something they may depend upon to keep their meats and vegetables in during the day and over night without spoiling. It took an Eastern man to devise something a little better than any other inventor could produce—and we sell them.

For people who live out of town and wish to maintain their own telephone lines we wish to recommend our Long Distance Telephone and Chicago Magneto bells. With these instruments a conversation may be carried on between parties at almost an unlimited distance from each other. We have all the necessary articles used in the construction of private and public lines of telephones and can supply them at the lowest rates.

Among the articles received by the Helen Brewer are Brass Pipe Fittings—Galvanized Pipe and fittings—and Genuine New Bedford Cordage. If you are interested in galvanized pipe get a quotation from us.

MRS. AUG. DARROW.

WELLS, RICHARDSON & Co.,

Gentlemen:—I was very much run down, had no appetite at all, was very nervous, had no sleep night or day; to sum it all up, I was perfectly wretched. But thanks to Paine's Celery Compound I can now eat and sleep and work just as well as I could before I was taken sick. When I commenced taking the Compound I weighed 136 pounds; I now weigh 158 pounds and do all the work for my family of five. I have recommended the Compound to three families already and they are very much pleased with it. I am now taking my fifth bottle, and would recommend it to all who are suffering with stomach trouble or nervous trouble.

Yours respectfully,

**Consular Courtesies.**

Consul-General Mills, representing in Hawaii the United States of America, was the only foreign consul to lower his flag to the memory of the French Commissioner. He kept the American flag at half mast until nine o'clock this morning, as a token of respect to his confrere, and then ran it up to the top in honor of Queen Victoria.

J. T. Lecker had an experience with a balky horse which he will not be apt to forget. Contrary to most horses which go forward, Mr. Lecker's horse went backwards and when the reporter left the corner of Merchant and Bethel streets it was still doing it.

Any one who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J. A. Stumm, 220 Boyle Heights, Los Angeles, over his fortunate escape from a siege of that distressing ailment. Mr. Stumm is foreman of Merriam's confectionery establishment. Some months ago, on leaving the heated work room to run across the street on an errand, he was caught out in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed in front of a good fire and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all rheumatic pains. He now takes especial pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle of it in the house. For sale by all dealers, Benson, Smith & Co., agents for the Hawaiian Islands.

Seven Pounds in One Week

Not every man who is thin would thank you for fattening him. He doesn't want to be fat and for every good reason. Unnecessary fat is a load to carry about; it interferes with a man's power to work, shortens his wind, and dulls his wits.

Yet, on the other hand, a certain amount of flesh is needed for health and comfort. For example; A man five feet high should weigh about 120lbs.; and man five feet six inches, 145lbs.; a man six feet, 178 lbs. It is a regular ascending scale. The insurance companies allow a variation of 7 percent above or below it, and beyond those limits charge an extra premium. One shouldn't be much over or under his proper weight if he wants to be sound and hearty—and we all do want that.

Now we will tell you how Mr. Thomas Crosby, being under weight, gained seven pounds in a week. He had lost 1 1/2 stone, which is too much off for a man who was never fleshier than he naturally ought to be.

It was this way. He was right enough up to May, 1891. At that time he began to feel ill and out of sorts. He had a nasty taste in his mouth—like rotten eggs, he says—and a thick, slimy stuff came on his gums and teeth. His appetite failed, and what he did eat was, as you might say under compulsion; and right afterwards he would have great pain in his stomach and chest. Plainly, something was amiss with him in that region. He was often dizzy, and cold chills ran over him as though he were threatened with fever. Of course we should expect a man who is handled in this way to lose strength. Mr. Crosby lost strength. In fact, he he got so weak and nervous that he shook all over, and his hands trembled as if a current of electricity were running through him.

To use his own word: "I rapidly lost flesh, was 1 1/2 stone lighter, and could hardly walk about. Once my parents thought I was dying, and sent in haste for the doctor. I saw two doctors in Epworth and one at Haxey, but they were not able to help me. Our vicar, Rev. Mr. Overton, recommended me to the Lincoln Infirmary, where I attended for eight weeks as an outdoor patient, without benefit.

"Soon afterwards Mr. Sharp, a chemist, at Epworth, spoke to me of the virtues of a medicine known as Mother Siegel's Curative Syrup. Being interested in what he said, I left off trying other things and began taking this Syrup. In a few days I felt better, and presently I gained seven pounds in a week. At that rate I soon got back to my work, and have had the best of health ever since. I tell these facts to everybody, and am perfectly willing they should be published. Yours truly (Signed), Tom Crosby, Ferry Road, Epworth, via Doncaster, December 23rd, 1892."

After reading Mr. Crosby's story we scarcely need to ask why he lost flesh. The minute he stopped eating and digesting his usual allowance of food he began to fall away. Trees, they say, grow as much from the air by means of their leaves, as they do from the soil. But men don't. They've got to be built up through their stomachs. Indigestion and dyspepsia (Mr. Crosby's complaint) stops this process and poisons those who have it, besides. That accounts for all the painful and dangerous symptoms our friend speaks of. The doctors do what they can, but, unluckily, they don't possess the medicine that goes to the bottom of this disease and cures it. The remedy is Mother Siegel's Curative Syrup, and nothing else, so far as we know. It restores digestion, and digestion covers the bones with fat enough for health and good looks.

Truly Marvelous

A Cure Seldom Equalled in Medical History

Mrs. Mary E. Freeby.

Long Beach, Cal.

Over all diseases caused by or arising from impure blood, Hood's Sarsaparilla seems to have almost magical control. Even where all kinds of treatment utterly fail, Hood's Sarsaparilla accomplishes the most remarkable cures. In illustration of this, please read the following frank letter of Mr. Freeby, voluntarily endorsed by the Postmaster and Druggist of the town: "My wife sprained her ankle ten years ago. It apparently got well to all outward appearance, it being a little larger than the other ankle, but in a few months

the first sore. The doctors said they would not amount to anything, but in a few days they turned out to be more ulcers, and in a short time they had eaten into the original sore and made a large wound. The surgeon next decided that an

Operation Must Be Performed. My wife would not consent to this. I was about discouraged and decided to have her try a bottle of Hood's Sarsaparilla. Besides giving her this medicine we bandaged her foot in steeped leaves and roots and continued this treatment for five months. At the end of that time she had taken eleven bottles of Hood's Sarsaparilla, the sores were all healed and she is perfectly well.

Hood's Sarsaparilla Cures

three sores broke out on her knee, her ankle, and foot. They became Large Running Ulcers

and the doctor could not do anything to help. I then took my wife to the hospital and the surgeons scraped all the flesh round the sores, and said they would get well. They almost healed up, but soon two little specks came, one on each side of

My wife is 52 years old and is in the best of health." JOSEPH C. FREEBY, Long Beach, California.

Postmaster Holman of Long Beach, Cal., says he knows Mr. Freeby to be a man of his word, and he believes his statement to be strictly true. Hood's Pills are purely vegetable, and carefully prepared from the best ingredients.

THE POLICE COURT.

Judge Perry Makes Business Lively as Usual.

According to the statement of the Police Court records as shown on pages 60, 61 and 62, of volume 20 of the Police Court reports, W. Fernandez, accused of wrongfully appropriating the large amount of three dollars, gets until May 29th to determine the matter between him and the government.

Fernandez is accused by his brother-in-law with having kept the three dollars that had been handed him to pay for repairs done to a watch. The accused denies that he ever received the money and says the charge is brought against him through spite. The evidence will no doubt tell whether or not he is guilty.

C. Alapai is a truant who evidently does not know whether school keeps or not. To punish him for his gross ignorance Judge Perry quietly awarded him two years in the Reformatory school and never "smiled a smile" while doing it.

Ah Sang is a hard case according to his own testimony. He is, or rather was, accused by the Republic of Hawaii of having opium in his possession. His testimony in his own behalf was somewhat remarkable. In Judge Perry's handwriting it reads thusly: "I am in the habit of smoking opium all along. I could not do without it. Poi (meaning police) opened the door and robbed me of \$20 and returned the small change."

On cross-examination Mr. Sang admitted that the witness he ate on the occasion was of the third quality and that he had been convicted before for opium smoking.

Judge Perry could not see where the extenuation of his offense come in, however, and gave him two months at hard labor, with a dollar and forty cents thrown in for the costs.

"Mendoza" is an awful man according to the Attorney-General's side of the case. A mounted policeman actually found him on Tuesday last, at 2 o'clock p. m., asleep on Wilder avenue. The aforesaid policeman woke him up and the poor innocent said he was not drunk but only momentarily affected with a slight sickness. He also worked on the policeman's feelings by stating that he needed a rest and so forth to the extent that the marshal's representative let him lie until about 4 o'clock. Returning at that time and finding Mr. Mendoza still dozing his case was brought to the attention of the court and was convicted.

A native lady and gentleman whose names are too long to publish, severally individually and collectively "plead" guilty to selling liquor without a license, away up in Nuuanu Valley, not many days since. At the request of the prosecution sentence was suspended until moved on; probably with the idea of catching some other offenders in the same locality, whose whereabouts might be ascertained by a little quiet investigating by the police.
