GENERAL FOREIGN NEWS.

The Monroe Doctrine Not to be Recognized.

NEW YORK, May 19.—The Herald has the following from Managua: It is learned that Admiral Stephenson and other officers of the British squadron which invested Corinto, both before and after the occupation, publicly declared to a party of Americans that the Monroe doctrine was a myth which the United States would not and could not enforce, and that the British occupation of Corinto was simply a test to definitely dispose of that question.

Items of Interest.

Italy has been visited by a severe earthquake in which 3000 houses were damaged. The city of Florence was the center of the disturbance.

Admiral Kirkland has made an official report to the Washington authorities which largely discredits the Armenian atrocities.

LATE COAST NEWS.

The Australia Arrives at 2 P. M. The Income Tax Not Valid.

WASHINGTON, May 20.—The income tax law which has received so large a share of the public attention since the beginning of the regular session of the Fifty-Third Congress is a thing of the past. After being twice heard by the United States Supreme Court it was finally decided to-day by the Court to be invalid and unconstitutional.

WASHINGTON, May 20.—The President has signed the order directing Admiral Meade to be retired. The parting was made as unpleasant as possible by the President in a letter to the Admiral.

CLEVELAND, O., May 20.—One hundred and twenty-five lumber shovers are on strike in a saw mill here, and in their attempt to prevent the loading of the steamer a fight occurred. One man was severely beaten.

William Blaisdell, formerly manager of the Makee Sugar Co. returned to the islands to-day.

CHICAGO, May 17.—July wheat reached 70¢ on the Board of Trade to-day, 2 cents over the figures of last night, and closed at 70½ cents, the quotations being the highest since May, 1893.

CHICAGO, May 20.—At a meeting of Theosophists held here last night a new branch was formed. It will be called the Loyalty branch, and it is claimed by those interested that it will take the place of that section that has been known as the Chicago branch.

CHICAGO, May 17.—"Mad Henry" Manning a lunatic has been worry mothers and nursemaids in Chicago and the police are having a lively chase after him. He is credited with abducting four children within the past forty-eight hours.

SAN JOSE, Cal., May 20.—The funeral of Peter H. Burnett, first Governor of California, took place to-day.

ST. PAUL, Minn., May 20.—Gov. Clough to-day signed the death warrant for Henry Hayword, convicted of inciting and planning the murder of Catharine Ging of Minneapolis. The 21st of June is the day set for the execution.

THE JAPANESE WIN.

And Formosa is To Be Surrendered.

WASHINGTON, May 19.—The latest budget of mail received at the Japanese, Chinese and Korean Legations at Washington give much space to the changed conditions resulting from the war. Lord Li, son of Li Hung Chang, is expected to be the new Chinese Minister to Japan. The peace settlement will soon be followed by a restoration of diplomatic relations. Mr. Otori, now a member of the Japanese Privy Council, is mentioned as a probably Minister to China. He was formerly a Minister to China and knows the country thoroughly.

LONDON, May 19.—The Times tomorrow will publish a dispatch from Tien-tsin which says that Li Tien Fang, son of Li Hung Chang, has been appointed a committee to hand over the island of Formosa to Japan.

THE MIOWERA.

She is Safe and on Her Way Here.

The Australia brought the welcome news of the safety of the Miowera. The vessel met with an accident on her way up which detained her several days. She is now on her way here and if rumor says truly, she will be here to-morrow. Inquiry was made at the office of Theo. H. Davies & Co. at 3 p. m., but as that firm had not yet received its mail they had no definite news to give out.

The Empire saloon has just received a large shipment of Beck and Albion beer; also porter for half-and-half, which is now on draught.

WASHINGTON, May 19.—Secretary Gresham had a quiet restful day. Representative Hitt's condition was the best since his illness.

If you want to buy a really good clock or watch at Coast prices inspect the stock of Brown & Kubey, at No. 4, Masonic Temple; there you will find the largest variety in Honolulu at the lowest prices; clocks and watches sold on weekly and monthly payments. Official Visit to the Afflicted at Molokai---

Incidents En Route and at the Settlement--A Day's Good Work.

At 8 o'clock last Friday night, May 24th, the revenue cutter *Lehua*, Captain Macauley, left her moorings at the Oceanic wharf and proceeded on a voyage to the Settlement at Kalaupapa, Molokai. The vessel had been placed, for the time being, in charge of the Board of Health, for the purpose of affording President Smith and members, opportunity to make the second of the proposed semi-annual visits of inspection to the homes of the afflicted at Molokai. On this occasion the passengers by the steamer consisted of President W. O. Smith, and Messrs. Lansing, Waterhouse and Reynolds, lay members of the Board of Health; Doctors Wood, Howard, Lindley, Russel, Alvarez, Meyer, Surmann, Wayson, Bresse and Surgeon Hessler (Flagship Philadelphia); Marshal E. G. Hitchcock, Rt. Rev. Bishop Willis, Rev. Father Leonor, Rev. D. P. Birnie, Captain Cochrane (U. S. M. C. Flagship Philadelphia), Prof. H. Berger, Deputy Sheriff "Rex" Hitchcock, Messrs. W. W. Hall, C. A. Brown, Warwick Hunt, Fred. Lyman, J. F. Eckhardt and a correspondent of the BULLETIN. There was quite a crowd of onlookers at the departure of the vessel on her mission of mercy, and there was much speculation on the fate of advertised filibusters should any such be encountered en route.

EN ROUTE.

Both wind and weather presaged a very pleasant passage, yet even the reticent Captain Macauley had to say "yes" when asked if the outward voyage would be a "long one" and advanced as a reason the use of the mainsail as an awning instead of a propelling power. Beneath this temporary awning mattresses were laid for the accommodation of guests and the space allotted was quickly peopled by voyagers who dread *mal de mer* and who deemed a recumbent position a preventative to the unpleasant sickness. Marshal Hitchcock with an eye as usual to all the possibilities quietly pre-empted a freight boat and with the aid and assistance of willing hands turned the structure into an airy and comfortable bedroom enrolling three other voyagers as boatmates. From the Marshal's headquarters, thus established, there were sounds of revelry the livelong night; in the morning one, B., was named as the cause; that gentleman denied that he had dreamt that he had fallen overboard and had attempted to swim out, but—he ate no breakfast. After Molokai light was raised, (about 1:30 a. m.), it was weary watching to see it passed and sleep fell alike upon the sick and the well. At daybreak only the point of Kalaokailio had been reached, beneath the shadows of whose beetling cliffs lies the wreck of the ill-fated bark *G. N. Wilcox*. Further along Marshal Hitchcock points out the spot where, on July 10, 1889, the bark *J. B. Lancaster*, Captain Small, laden with quicksilver and sundries, ran ashore, after being abandoned, and was successfully "wrecked" by him and native divers. And now the younger Hitchcock, Deputy-Sheriff of Molokai, (a much traveled Molokaian), points out a curiosity, plainly apparent, in a

sandrift that rises from the beach, at Moomoo, and is carried over four miles inland. "Over there, says he, "is a plain, on which, even to this day, are hundreds of skulls." Caves which yielded treasure to the busy sheriff, of ill-gotten goods from the Wilcox, were shown and a picturesque description given of the pre-Adamite footsteps of various sizes, which are visible on the plains of Kahuia.

ARRIVAL AND FIRST VISITS.

The longest voyage has, however, an ending and at 7:10 a. m., after very kind treatment by the elements and a constant plodding onward for eleven hours, the anchor of the *Lehua* was dropped in seven fathoms of water about 200 yards from the Kalaupapa beach. Breakfast was hastily partaken of and soon the party of visitors were embarked in boats and bound shoreward. Happily there was but little swell on for, if otherwise, the occupants of the first boat (containing all the dignitaries) would, at the least, have received a thorough drenching, through the boat grounding before reaching a safe haven. Help from shore, however, relieved the party from threatened discomfort and all were landed dry and safely. The music of the Settlement band was given to the visitors as a greeting, "Hawaii Pono," "Aloha Oe," and a spirited march being played during the journey to the "Visitor's House," where Assistant Superintendent Ambrose Hutchinson welcomed the travelers. After a short rest President Smith, members of the Board of Health and the medical gentlemen paid a visit of inspection to the home for girls founded by Hon. C. R. Bishop, and known as "Bishop's Home." Sister Superior Marieanne and Sister Albina showed the various rooms and the inmates (about 100 in number) to the officials, the verdict being, as usual after inspection, "Well done, thou good and faithful servants." Bandmaster Berger, who was in the party, gave the afflicted girls a pleasurable quarter of an hour by playing several selections on a piano winding up with "Sweet Marie" and the irrepressible "Pono." The Board of Examining Physicians consisting of Drs. Wood, Howard, Meyer, Mouritz and Oliver, inspected five cases which claimed attention and will present written reports thereon to the Board of Health. Return was had to headquarters for horses preliminary to a visit to Kalawao.

FROM KALAUPAPA TO KALAWAO.

As several important matters were to be considered a division of labor was in order and President Smith placed the "medicos" under the guardianship and guidship of Drs. Mouritz and Oliver, they to take cognizance of the condition and personal needs of the many "sick" people, while sanitary and other proposed works of improvement were looked after by the President and Executive Officer Reynolds. The medical gentlemen made a rapid transit to the pleasant plains of Kalawao to inspect the inmates of the hospital and the noble gift by (ex) Noble H. P. Baldwin, while, with slower pace, President Smith, accompanied by

Mr. Reynolds, Marshal Hitchcock, Warwick Hunt and the BULLETIN correspondent visited the Waihonou valley the object being to ascertain the possibility of utilizing the water which is apparent in spots in the river bed. After inspection return was had to the place where the lately built reservoirs are in position at the highest point in the road between Kalaupapa and Kalawao. The reservoirs are two in number, circular in shape, one fifty and the other thirty, feet in diameter and each, ten feet in depth. The supply, which comes through a line of pipe (originally laid under the supervision of Mr. Charles B. Wilson, during Hon. L. A. Thurston's administration as Minister of Interior in 1888), extending from a fountain head in Waikolu valley, four miles distant, is plentiful and constant, and is a great blessing to the dwellers in the formerly arid district of Kalaupapa. Start was now made, by the President's party, for Kalawao, passing en route the old hospital, Mormon, Congregational and Catholic (Father Damiens) churches and the graveyard where sleeps most of the Settlement's dead. Halt was made at the Baldwin Home for Boys, where the party were greeted by good Brother Dutton.

THE BALDWIN HOME FOR BOYS.

To the stranger visitor the sights that meet his view when he passes through the gates of the Baldwin Home on an inspection day is not the most beautiful and entrancing, for that which first attracts his attention is the never-to-be forgotten lineaments of many countenances of most advanced cases, and whose condition would seemingly warrant the presentation of Dante's well-known inscription over the portals of Hades, "Who enters here leaves hope behind." Hon. H. P. Baldwin considered that something should be done to better the condition of these "hopeless" cases, and being a practical "missionary" planter (to the fore always in improved machinery) he without any hope of fee or reward sent a *carte blanc* order to erect buildings, to clear and plant grounds, to furnish and equip with all the necessary belongings, and he did not murmur at a bill of \$5000. About four acres of ground are contained in the enclosure, and it is a beautiful spot in this wilderness of rocks and uncleared lands. The dormitories are six in number and are most cleanly kept. School rooms are placed in suitable locations and all is under the care of three Sisters of St. Anthony of Syracuse, N. Y., members of the like sisterhood having charge of the Bishop Home at Kalaupapa. An honest, good man, educated and apt, genius and mechanic, is present in Joseph Dutton, a co-laborer in this national pest house with Father Damien and who still aids in dressing the sores and ulcers of the one hundred patients who are benefitted by the noble charity of Hon. H. P. Baldwin.

ON PLEASURE BENT.

After inspection of the Baldwin Home the two parties, which had now become one, re-divided into smaller groups and took up different lines of employment. The medical gentlemen, with the exception of Surgeon Hessler, returned towards Kalaupapa with a view of taking in the sunken crater of Kahukoo en route. Others went farther along the plain and towards the high cliffs that stop the inroad of the Pacific. Captain Cochrane and Surgeon Hessler joined forces and took various photographic views, the most interesting of which were, probably, an interior of the Damien church, a view of the famed priest's grave and monument (in which latter is taken

Brother Joseph) and a view of the last resting place of the once well-known "Bill" Ragsdale. Mr. Warwick Hunt, nephew of British Commissioner Hawes and a special guest of President Smith, went with the BULLETIN correspondent across the perilous road that leads to the wilds of the Waikolu valley. En route the spot was shown where, less than half an hour in time, the then young Thurston escaped being gathered to his fathers. The votive stones, to which it is said the ex-Queen Liliuokalani had contributed, which natives place in clefts to propitiate the deity of the precipices and prevent an unlucky contact with falling rocks. Last but not least the clear, cool, dashing Waikolu river with the long vista of greenery that lines the sides of its 4000 feet precipices and the well-cultivated taro patches which border the banks. The various groups again met together at 2 p. m., at the bountiful spread which was placed at their disposal in the Visitors' Home at Kalaupapa.

A PLEASANT PERFORMANCE.

The lunch had been ended, cigars were being smoked when a call from President Smith brought the members of the Settlement band to the front. It was noticed that in their hands were new instruments which Professor Berger had been instructing them in the use of and the first air on which had the honor of being the Hawaiian yodel "Wailuku." President Smith now invited Captain Cochrane to the front introduced him to the boys as the very active agent in obtaining the assistance of the people of Honolulu to contribute towards the purchasing of the instruments. Captain Cochrane said:

"Some months ago I was here in this country on a vessel of war, the U. S. S. Philadelphia, but I did not then know how I could be of any use to you. The man-of-war Philadelphia went to San Francisco and remained there several months and then came back to Honolulu. In March last I saw in the papers a notice that the band here at the Settlement needed new instruments. I waited several days then I went to the office of the Advertiser and asked if they had obtained any answers to their call. I was told that they had about \$20. I said we must try to do something to get more. And I said, if you print the tickets and advertise the matter we will have some illustrated lectures. They agreed. I then spoke to President Dole for the use of the drill shed, and to Professor Berger for assistance of band. They agreed. I asked Mrs. Dole for help and President Smith for approval and they said, yes. And everybody I asked said, yes. So you see you have a good many friends in Honolulu. Well, I kept on asking; I asked for the Philadelphia band, the cadets of the Kamehameha school, the young men of the Young Hawaiians' Institute, and they all helped; well, we had the lectures, had many beautiful pictures from all parts of the world, did not forget Molokai, showed Kalaupapa and Kalawao and also the Band (laughter and applause.) From what people saw the band had poor instruments, some of the brass instruments were all mashed up, the bass drum had a hole in it, (laughter.) All said you must have new instruments. Young ladies on Nuuanu street sold \$100 worth of tickets and Mr. Smith's daughter helped sell tickets and we got money and more money; more than we wanted for instruments, so we intend to buy other things that you need, also something for Beretania Hall and Y. M. C. A. Hall. I hope that you will take good care of these instruments. The Board of Health and

the citizens of Honolulu take a great deal of interest in this Settlement. I notice that the Settlement is much improved, the houses look cleaner, the people better. I hope that bye and bye the doctors will find some medicine that will make everybody well, (applause.) These instruments were sent to you from friends in Honolulu, and they will be grateful to know that you appreciate their kindness by taking good care of them. I wish you all aloha." (Cheers.)

Assistant Superintendent Hutchinson responded for the members of the Band and promised that the best of care would be taken of the instruments. "To-day we see for sure that we have friends in Honolulu, we did not know this before. We are surprised to see before us a man with a different skin to ours, and who belongs to another nation, but who is helping us in our wants. For the whole Settlement I tender you and all an aloha and hope God will help you all to prosperity." The band then struck up "Aloha Oe," followed soon after by the "Skirt Dance" and the always popular "Wailuku."

PROCLAMATION OF PEACE.

A controversy had been engaged in for sometime back, between different cliques, relative to the right of occupancy of the Y. M. C. A. hall. The battle had waxed hotter until it became necessary for the trustees of the institution, the Hawaiian Board, to interfere in an effort to quiet the disturbance and to this end Mr. W. W. Hall, accompanied by Mr. Smith, visited the hall and had a plain open powwow with all parties, in open meeting, and succeeded in restoring harmony, for the time being at least. Before leaving the hall, Rev. Mr. Birnie addressed an audience of such people as he never did before, but his words were earnest and feelingly delivered, Mr. Hall acting as interpreter. While the Y. M. C. A. talk was on, Deputy Sheriff Hitchcock showed his superior officer to the jail, on arrival they could not get in, the jailor being inside, locked in, and his wife away with the keys. Deputy Hitchcock climbed on the outside of the wall and finding a prisoner within, who knew where the jailer's wife was, permitted him to escape over the wall, get the keys and let them in. The jail contains eight cells and has about sixteen prisoners at present. It is neat, airy and clean.

HOME AGAIN.

The last good-byes were said, the poor band boys showed that they were weary, and everybody seemed willing to take a rest from the day's labors when the order was given to re-embark on the saucy, but slow Lehua. All reached the floating home safely, amongst the added passengers for Honolulu being Sister Superior Marianne and Rev. Kealoa and wife. Mr. C. A. Brown remained behind intending to stay a week with Mr. Meyer at Kalae. At 5:40 the Lehua was underway for Honolulu and the faces of the passengers presented a pleased expression as they viewed the new moon over their left shoulders and blessed the good luck of a well filled sail and a flowing sea, which gave promise of a less than an 11 hours run for home. En voyage, the officials on being interviewed, expressed themselves as well satisfied with the conduct of affairs and the steady improvement shown since their last visit and even to a stranger the view of the Kalaupapa of to-day would present, from the sea, only a pleasant prospect of the sealed village occupied by the Wards of the Nation. The Lehua arrived back in port here at midnight exactly on Saturday, making the home run in 6 hours 20 minutes.

When Others Fail

Hood's Sarsaparilla builds up the shattered system by giving vigorous action to the digestive organs, creating an appetite and purifying the blood. It is prepared by modern methods, possesses the greatest curative powers, and has the most wonderful record of actual cures of any medicine in existence. Take only Hood's.

Hood's Pills are purely vegetable, and do not purge, pain or gripe. 25c.

A chance to get a

PAIR OF SHOES

— FOR —

Ten Minutes' Work!

The question among the business men of Honolulu is:

DOES ADVERTISING PAY?

To solve the problem as well as to ascertain whether advertisements attract the attention of newspaper readers, we offer a pair of our best \$5.00 shoes (\$6.50 anywhere else) to the person who sends us, under the head of "Wanted," the cleverest advertisement of our shoes. It must be original, concise, and to the point. It must not be longer than any ordinary want ad. found in the daily papers.

Advertisement to be written on one side of white paper and signed by the competitor's full name and address. State the name of the paper in which you saw this notice and enclose your effort in an envelope marked:

McInerny's Shoe Store.

Honolulu.

Ad. Competition.

The attention of out-of-town subscribers is particularly called to this competition—We want your ad.

Honolulu competitors may drop their envelopes in the box just inside the store door.

Competition Closes at Noon,
June 15, 1895.

Competent judges will decide who is entitled to the prize.

The Evening Bulletin.

Issued every Afternoon Except Sunday, from 609 King Street.

J. T. STACKER, EDITOR.

MONDAY, MAY 27, 1895.

The Observer in the Independent in this morning says "If the BULLETIN is to be believed," etc. Why "if?" It has been street talk for more than eighteen months that there are differences in the cabinet, and, if the EVENING BULLETIN made the statement, it published what is merely a reflex of opinion ventilated by people in Honolulu.

It is not strange that there should be differences. This government was established by a handful of citizens whose judgment and nerve were not equally divided. When possession of the buildings and the archives were obtained and while the arm of a stronger nation was shielding it, "popular government," "will of the people," etc., were heralded in the shrillest blasts of the bugle. The three tailors of Tooley street were not in it, compared with "we the people of Hawaii" at that time. It was a case of the majority ruling the minority, but under conditions which even the supporters of the government dislike to discuss. The majority that ruled then, rules today, and while its ostensible supporters are growing in numbers, and the form of government increasing in popularity there is no evidence discernible that the personnel is any closer to the hearts of the masses than the form of government was on the last day that the monarchy reigned. The EVENING BULLETIN does not believe we can have harmony or popular government until there are two or possibly three parties in the political arena; with but one, as is now the case, every supporter who wants a position believes he is entitled to it, and growls if he is not appointed. These marks of disapproval on the part of one man are shared by his friends, and the pinhead of discord on the horizon grows to monumental proportions. And it exists among a class of men which the officials of the government have relied upon to keep them in power until their term of office expires.

Then comes the dissatisfaction that exists among the supporters of a different class, the financial set, to which the Government looks for aid of an entirely different, but none the less substantial, character. It exists there, through the fact that the Government is run upon lines too extravagant, or perhaps expensive for its income. The rich man kicks harder at increased taxation than the poor one, and, if he sees the probability of a rise in his tax bill his objections will be as strong as the one who seeks Government favor, believing he is entitled to it and does not get it. It is reasonable to suppose that both of these classes have their friends in the cabinet, each pressing the claims of their embryo constituents. On the one side a cabinet officer claims that the Government is conducted at too heavy an expense; on the other that the claims of this or that man have not received the recognition they deserve. Such being the case it appears that harmony would be an unknown quantity. The people realize it and the officials of the Government know it to be the situation. The BULLETIN believes that these rumors of dissatisfaction are at times distorted into shapes which, on touching foreign shores, are taken up as an indication that the masses prefer a monarchical form

of government. With the present constitution it might be the case, but with one that was liberal, or even fair, to the "outs" as well as the "ins" a republican form of government would be as satisfactory as any other. We contend that ours of to-day is republican only in name. Some of the men who assisted in framing the constitution will tell you so with the addenda that when the present Government is out of power it will say that "the document as it now stands is as unfair as anything ever perpetrated on the public." One member of the convention who had been asked to stand for the legislature declined for personal reasons but to his friends he remarked that the laws were manifestly unjust and he declined to be elected under them. Accepting these statements as true, can there be any question as to the lack of harmony among the Government and its supporters, or even in the Government itself.

Members of the medical profession who made their first visit to Molokai on Saturday, saw evidences of the care and attention bestowed by the Government on the unfortunate beings with a disease that compels their segregation. But the credit does not all belong to the Government; there's a vast deal of it rightfully bestowed upon the noble people connected with the Anglican and Roman Catholic churches who have given up all that is dear to them in earth that they may devote their lives in administering to the spiritual and physical needs of the unfortunate ones on Molokai. People abroad, and even those here at home who have never visited the settlements, have not the slightest conception of the nature of this self-imposed task, but there has never been a visitor there who has not been impressed with the value of the services.

As noted in the local columns four of the leading Japanese firms contemplate closing up their affairs here and removing to Formosa. With the large trade the Japanese appear to be doing here, and the increasing population in that nationality it seems hardly creditable that the departure of any leading business firm can be leaving here an account of dullness of trade and yet we have it upon the best authority that such is really the case. These people claim that the Japanese do not patronize the storekeepers to the extent that the numbers in population would warrant, that their dealings are largely with the white merchants. But worse than that is the fact that a majority of the Japanese residents are taking advantage of the low rate of exchange and sending their money home.

Any one who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J. A. Stumm, 220 Boyle Heights, Los Angeles, over his fortunate escape from a siege of that distressing ailment. Mr. Stumm is foreman of Merriam's confectionery establishment. Some months ago, on leaving the heated work room to run across the street on an errand, he was caught out in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed in front of a good fire and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all rheumatic pains. He now takes especial pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle of it in the house. For sale by all dealers, Benson, Smith & Co., agents for the Hawaiian Islands.

Business Talks

May 27, 1895.

If the business in any one line was controlled by one individual, what would be the result? If there was a demand for his wares he would be richer than Croesus at the end of a year and you would have to pay through the nose for what you bought of him. In the United States competition has brought the price of necessities down to a stage where people may have them and not be looked upon as extravagant. If you will look around among our stock you will find that it is made up largely of articles for which you have every day use. We have luxuries as well, but, to-day we tell you of things needful about the house. Agate ware for instance!

There's been a scarcity in Coffee Biggins in town, but we have a stock of them That will interest everyone.

We get our goods in agate ware from La Lance and Grosjean, the makers, and they have the reputation of making the best goods in their particular lines in the United States. We can get "seconds" from them, but the first quality is the best because the enamel will not chip off.

Water coolers, handsomely painted outside and enamel lined inside, Small ones for a family or large Ones for a laundry.

Japanned ware includes cake tins, trays, crumb pans, cuspidors and lots of other things. The prettiest and probably the most useful article in the lot is a toilet stand, very neat as to decorations and complete as to detail in the matter of articles that go with them.

The one that will strike your fancy Has a water tank that will Hold sufficient water for the day.

The price of these articles is not in proportion to the value of the goods. You get more for your money than you are used to, but then—competition has fixed that in the United States—we buy cheap and follow the same rule in selling, you understand the Golden Rule.

Retained Glue Pots and Slop Bowls Are a new thing with us: Bright and pretty, like a silver dollar.

And you can get them at a price that will amaze you. You should have one of these because they are useful and serviceable.

This is a fish-eating community because the fish are fresh and of an exquisite flavor. All people do not know how to cook them so as to get the substance.

With one of our Agate Steamers you Can steam or boil your fish And not lose the flavor.

These fish kettles vary in size from the mullet to the ulua, and the price goes according to the size.

Farmers' Boilers are not used in every household, but there is scarcely a plantation on the islands but what requires one; they are not to be found in every store in the city, but we have a few of them to accommodate the people who want them.

Among other useful articles let us call your attention to agate and tin basting spoons, tea and coffee caddies, egg poachers, chopping bowls, dish pans, dairy pans and wooden potato slicers.

What is better with your chop In the morning than a few Saratoga Chips? You can get them By using one of these slicers.

Our stock is complete in detail—nothing old or shop-worn.

Havana Flats

is the latest novelty in cigars. This is a perfectly flat cigar. The filler is Havana of a very high grade and laid in, like the sheets of a book, in the same way as cigars that cost \$150.00 per thousand. The outside appearance of the cigar conforms to the filler, and is perfectly flat. Those of our cigar customers who have sampled them pronounce the Havana Flats of excellent quality and of unique and attractive shape.

Havana Cigars

by reason of their superior quality and name are usually sold at high prices. We have an excellent line of these cigars direct from Havana. While the quality of these cigars is at the top-notch our prices have been scaled down to bring these popular cigars within the reach of all.

Manila Cigars

need very little said in their praise, for they are well known here to every smoker. It would be difficult to get a better cigar for the price at which Manilas are sold. We allow no one to undersell us in this line. We compete with any nationality. Remember that when looking for Manila Cigars.

Popular Topics of the Day.

May 27, 1895.

If it had not been for the excellent quality of coffee produced in Kona, it is not likely that foreigners would have been induced to invest their capital in lands in that district nor would the building of a telephone line, such as the new company proposes to construct, have had an existence even on paper. It's the fact that the locality produced in a small way and in the most primitive manner an article which caught the fancy of "canoosers" in the matter of coffee; they wanted more and they were willing to pay a good price, but there were no means of getting it. Investigation demonstrated that the land would produce an unlimited quantity, but the people in the vicinity had not given the proper attention to the cultivation, you all know the result, foreign capital came in and is coming every day, and before another decade the production of coffee will be a leading industry of the islands and the machinery used in pulping, cleaning and putting it through the various processes necessary to make it marketable will come through us. And why? Because we are interested in the coffee business; we know what is wanted and we secure the very latest improvements in coffee machinery. What is good enough for one man may not be good enough for another, but our stock of implements for the coffee business is good enough for all. The industry is still in its infancy and the growers do not know themselves just what they require, but if they will communicate with us, we can give them the necessary information.

The Helen Brewer brought us what charcoal irons will be needed during the next few months and the price is just what the condition of affairs here warrants. There was a time, not many years ago, where a single charcoal iron cost \$5.00. In those days it was a luxury to own one, now it is a necessity and the low price we charge for them enables every one to have one.

We've never done much in the way of Refrigerators because the town seemed to be well supplied, but the prospects for a reduction in the price of ice warrant our carrying a few to accommodate people who want a really superior article—something they may depend upon to keep their meats and vegetables in during the day and over night without spoiling. It took an Eastern man to devise something a little better than any other inventor could produce—and we sell them.

For people who live out of town and wish to maintain their own telephone lines we wish to recommend our Long Distance Telephone and Chicago Magneto bells. With these instruments a conversation may be carried on between parties at almost an unlimited distance from each other. We have all the necessary articles used in the construction of private and public lines of telephones and can supply them at the lowest rates.

Among the articles received by the Helen Brewer are Brass Pipe Fittings—Galvanized Pipe and fittings—and Genuine New Bedford Cordage. If you are interested in galvanized pipe get a quotation from us.

HIRES' ROOT BEER?

"That's What I Like."

Everybody likes HIRES' ROOT BEER because it gives everybody health as well as pleasure. It's the purest beverage that human skill can compound from the purest ingredients of nature. There is not one drop of anything in this delicious temperance drink but what promotes good health and happiness. It's delicious flavor is acquired by the skillful blending of the most wholesome herbs, roots, barks and berries, and not by essential oils and flavoring extracts, of which the many counterfeit 'Root Beer' are composed. A package of the Genuine

Hires' Root Beer

makes five gallons of good, pure, health-giving Root Beer.

Ask your storekeeper for it. Made only by the CHARLES E. HIRES CO., Philadelphia, U. S. A.

The Cricket Match.

It is not often we find a cricket eleven on board an American man-of-war, but on Saturday a very good eleven from the U. S. S. Philadelphia met the Honolulu team at Makiki for a contest. The Honolulu team went in first and had Wardell and Hopkins bowling against them, both of whom proved to be good bowlers. The batting of Mackintosh helped largely towards winning the game, as did also the bowling of Piianaia. Williams of the Philadelphia made a splendid hit for four. The score is as follows,

Perfectly Wretched!

PAINE'S CELERY COMPOUND RESTORED MRS. DARROW TO HEALTH AND HAPPINESS.

This is the Medicine That Makes People Well!

MRS. AUG. DARROW.

WELLS, RICHARDSON & Co.,

Gentlemen:—I was very much run down, had no appetite at all, was very nervous, had no sleep night or day; to sum it all up, I was perfectly wretched. But thanks to Paine's Celery Compound I can now eat and sleep and work just as well as I could before I was taken sick. When I commenced taking the Compound I weighed 136 pounds; I now weigh 158 pounds and do all the work for my family of five. I have recommended the Compound to three families already and they are very much pleased with it. I am now taking my fifth bottle, and would recommend it to all who are suffering with stomach trouble or nervous trouble.

Yours respectfully,
MRS. AUG. DARROW.

Some Coal Oil.

The ship Helen Brewer has finished discharging, with the exception of 10,000 cases of coal oil. This was originally destined for the Philippines where the ship will proceed if she does not secure a charter to carry sugar from here to New York, as to which definite news is expected by the Australia.

Shipping Notes.

The bark Consuelo arrived at Kahului an hour before the Claudine sailed. She had a number of passengers on board, among them two ladies. As the bark had to wait outside for the Claudine to pass through the channel the names of the passengers could not be ascertained. This is another fast round trip added to the Consuelo's record, as Captain Cameron towed her to sea from Kahului on the 13th of April. She made the round trip, however, this time last year in four days less.

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

Mr. John A. Scott, Manager of the Hilo Sugar Company, gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop just harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 125 hours grinding with an output of 3000 tons. This is fully 10 percent more than the best work of former years.

"The three roller mill being 26 in. by 54 in. and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company.

"And by its use the extraction has been increased from 3 percent to 5 percent on all kinds of cane, and in some cases 80 percent has been reached; the average being 75 to 78 percent, according to quality.

"I continue to find the megass from shredded cane better fuel than from whole cane.

"The shredder has been working day and night for seven months and has given me entire satisfaction, having shredded during that time about seventy thousand tons of cane, and a large part of it being hard ratoons.

"The shredder and engine require very little care or attention."

Plans and specifications of these Shredders may be seen at the office of
