### A HORSE WHIPPING.

#### Detective Allen Gets a Trouncing - Mrs. Gauld Wields the Whip.

Mrs. Gauld, agent for the Viavi remedies here learning that Detective Allen had been using her name in a rather loose manner, applied a horse whip to that individual yesterday evening about 6 o'clock.

The attack was made on King street near Alakea, and was witnessed by a large number of persons whose sympathies were evidently on the side of Mrs. Gauld. Allen received several cuts across his face before he managed to get away from the infuriated woman.

In an interview with the lady she stated to a reporter for the BULLETIN that she had occasion, while Allen roomed at her house, to take him to task for speaking disrespectfully of her in the presence of her friends, and for which he apologized and promised not to repeat. After this Allen left her house taking a room in some other part of the city. Lately she has been told of remarks he has made reflecting upon her character and she decided to call him down in a manner which would at least convince him of her earnestness in the matter.

Accordingly at half-past five she armed herself with a short cowhide which she fastened around her right wrist and started after Allen whom she found emerging from Jun Hee's restaurant on King street. Mrs. Gauld stepped before him and slashed him across the face three or four times with the whip. Allen then made a pass at her but, she says, did not strike her, he then grabbed her whip hand and held on. Mrs. Gauld then struck him twice with her left hand when Officer Cordes, who was with Allen, interfered, and threatened to arrest Mrs. Gauld. This angered some of the by-standers and one of them struck Allen in the face. On finding the sympathies of the crowd were against him Allen retreated and Mrs. Gauld rode off on her bicycle.

A friend of Allen called at the BULLETIN office to say that Allen would probably prosecute Mrs. Gauld in the Police Court, and she says if he does she will convince Mr. Allen that the "new woman" has arrived and does not need the assistance of the law in asserting her rights.

A penal summons was issued from the Marshal's Office this morning, on complaint of Allen, charging Mrs. Gauld with assault and battery. A penal summons does not carry with it a warrant of arrest but simply notifies the defendant to appear before the court upon demand.

### About Two Exiles.

Volney V. Ashford is still quite sick and scarcely able to leave his room. He was to leave for the southern part of California a few days after the Australia left.

Fred Harrison is in San Francisco and attending strictly to business. A letter received by the last mail states that he is making money. He is acting as purchasing agent for building material for a number of firms there, in addition to his other business.

### The Late Edward Mrs Ward.

The decease of this gentleman awakes many memories among those who, like him early in life, cast their fates and fortunes in Australasia.

He had long and varied experience. Was a valued, honored, and trusted servant of the crown, both in Australia and New Zealand, for many years. He brought to all his duties, whether that of magistrate, counsel, judge in bankruptcy or registrar of the Supreme Court, a geniality and a kindliness of purpose, together with a singleness of aim which won admiration from Bench and Bar.

During his thirteen years' residence here, he was very unobtrusive and of retiring disposition, and none but his intimates knew the wealth of soul, goodness of heart, and before all his sterling uncompromising integrity.

Born in 1830 in Lancashire, England, he early chose law his profession, and was admitted in 1851. For four years he was a commissioned officer of the 5th Royal Lancashire Militia, only sending in his papers when he with many more embarked for the then El Dorado of the world. Prior to that time he had married Elizabeth, daughter of Donald Mackay of Drumnadrochit Inverness, Scotland, and he leaves issue two sons and an accomplished daughter living in Christchurch, N. Z.

He was a member of the English Victorian, New South Wales, New Zealand, California, and Hawaiian Bars. Here he rarely practised.

Mr. Livesay DeLeyland Ward, so well-known here in social and boating circles, is his youngest son. Mrs. Ward survives her husband, and the BULLETIN extends to her and the family hearty sympathy. The funeral will take place tomorrow at 10 a. m. from the family residence, Nuuanu street.

### The Native Company.

Last night Major Potter enrolled 64 Hawaiians desirous of serving in the military department of the Government and declared Company G duly organized. Officers were elected as follows: Captain, Henry Kaia; First Lieutenant, John M. Kea; Second Lieutenant, Charles Wilcox.

Italy is again excited over the sensational charges against Signor Crispi.

The Cuban insurrection is still on and there are conflicting reports of losses on both sides.

The Spanish Government has completed its final answer to the United States in regard to the firing upon the American steamer Allanca by the Spanish warship Conde de Venaditto off Cape Maysi.

The reply is couched in cordial and friendly terms, and will be entirely agreeable to the requests made upon Spain by Gresham, the American Secretary of State, for a full and satisfactory answer.

In the answer the evidence received by the Spanish Government is repeated, and it is understood that Spain disavows the action of the officer of the warship in firing upon the American merchantman. It is also understood that Spain admits she has no rights over foreign vessels where the firing took place.

**MR. THURSTON'S SUCCESSOR.**

The Promotion of Mr. Hastings Would be Satisfactory to the Administration.

A Statement as to the Feeling About Thurston by a State Department Official.

Acting Secretary Uhl has received telegraphic advices from Minister Willis at Honolulu, mainly corroborative of the press dispatches published, says the Washington Star, except that they contain no reference to the probable appointment of Mr. Hastings to succeed Mr. Thurston as Hawaiian Minister to the United States. The official dispatches were taken to the White House by Mr. Uhl, and were considered at to-day's cabinet meeting. With what result, however, has not yet transpired.

**AN OFFICIAL STATEMENT.**

The following statement in regard to the demand for Mr. Thurston's recall emanates from the State Department and therefore may be accepted as the official view of the subject:

A prominent official of the State Department, after reading the press dispatches from Honolulu last evening, said:

"It is not true that the Hawaiian Minister's recall was based upon the mere fact that that official gave to the press information relative to occurrences at Honolulu. The truth is, Mr. Thurston has inspired, during the last year and a half, newspaper criticism of the administration's action in Hawaiian affairs. The President and Secretary of State put up with this, but Minister Thurston exhausted the patience of Mr. Cleveland and Mr. Gresham when he inspired the newspaper assault on United States Minister Willis for the action of that officer, under explicit instructions of the department, in looking after the interests of American citizens charged before the military tribunal at Honolulu with complicity in the alleged insurrection. "In other words, Mr. Thurston's recall was demanded because he attempted to discredit Mr. Willis before the American people for doing his duty to American citizens charged with a capital offense in Honolulu."

But Mr. Thurston's friends have a different story to tell, one which agrees in a measure with the first accounts published. It seems that among the ex-minister's friends was one who was closely connected with a news syndicate. His intimacy with Mr. Thurston was marked and he was envied in his position of obtaining Hawaiian news from first hands. Upon one occasion, just after Mr. Thurston had received his foreign mail and really before he had time to give it his close attention, his friend of the press called for news. While Thurston was reading a letter he referred the correspondent to a lot of letters spread out upon his desk and told him to "look them through." They were mostly, if not all, from private correspondents and could in no way be considered official. It seems that some special matters caught the eye of the correspondent and rising from his chair bade the minister good-bye and hid himself immediately to his other friend, Gresham, and told him of his knowledge obtained through his

reading Thurston's private correspondence. It was then that Gresham, and the administration generally, grew angry and the unpleasant episode in Mr. Thurston's career followed.

MR. HASTING'S PROMOTION SATISFACTORY.

It is also semi-officially stated that the promotion of Mr. Hastings, as Hawaiian minister, would be particularly acceptable to the State Department, where he is well known and very popular. Before entering the service of Hawaii, Mr. Hastings served the United States very creditably in a diplomatic capacity for many years.

He has arranged to leave Washington in a few weeks and the legation will be closed until next fall, unless an extra session of Congress should bring him back. There is said to be no significance in this, as most of the diplomats take summer vacations. Recent events in Honolulu, however, may necessitate a change in Mr. Hastings' plans, and he may be obliged to remain in the city longer than he had anticipated.

J. T. STACKER, EDITOR.

TUESDAY, MAY 28, 1895.

If it can be proven that there are people here, in or out of the police department, engaged in the questionable practice of building war rumors for towns along the Pacific Coast it might be advantageous to the Government and the people generally if the men were given their passports.

The credit for these revolutionary rumors has generally been given to men who are associated with foreign newspapers as correspondents, but the latest seem to be inspired by an entirely different class.

Reports of revolutions and uprisings have been in the air for two months past but they have been wafted here on the trade winds that blow down from the Coast and then again largely magnified by people here who should know better.

It should be remembered that there are in Honolulu lines of business which require a certain amount of credit abroad; without this credit it would be almost an impossibility for these business men to succeed. But the merchant of the United States declines to take unlimited chances with his foreign customer, some of them will give no credit at all, and if these war rumors—and they are mere idle rumors—continue there will be a general shutting down of credit.

Revolutions have been a factor in keeping back the advancement of the islands in the past, and the rumors of impending danger to the Government at this time may be the means of keeping in the background enterprises that would benefit the entire population of the islands. Let these scribblers occupy their time at something that will do the islands some good rather than that which, if can only result in harm to the community.

The editors of newspapers feel easier now that the income tax law is declared invalid.

If horsewhipping for scandal-mongers should become the national pastime of Hawaii, a good many people would take part.

It seems from recent dispatches that the Hawaiian Legation at Washington is closed for the summer. In that case there will be no immediate necessity for making any appointment to the place vacant by the retirement of Mr. Thurston.

"Honor to Whom Honor."

EDITOR BULLETIN:—

Permit me on behalf of the Anglican Church (to which in your leader last evening you give an honor which is not our due) to disclaim any participation in the honor of contributing to the Settlement on Molokai any of those who are devoting their lives to the service of the lepers. The Fathers Wendelin at Kalaupapa and Conrardy at Kalawao, the Sisters in charge of the Bishop and Baldwin Homes, and Brother Joseph Dutton are all of the Roman Catholic Church, while the Rev. Kealoha belongs to the Congregationalist body.

ALFRED WILLIS,

Bishop of the Anglican Church.  
May 28, 1895.

[The fault lies entirely with the editor of the EVENING BULLETIN. The interest which Bishop Willis has always shown in affairs at

Molokai led him to believe that the Anglican Church was entitled to a portion of the credit for the condition of affairs at the Settlement.—EDITOR BULLETIN.]

## Business Talks

May 27, 1895.

If the business in any one line was controlled by one individual, what would be the result? If there was a demand for his wares he would be richer than Croesus at the end of a year and you would have to pay through the nose for what you bought of him. In the United States competition has brought the price of necessities down to a stage where people may have them and not be looked upon as extravagant. If you will look around among our stock you will find that it is made up largely of articles for which you have every day use. We have luxuries as well, but, to-day we tell you of things needful about the house. Agate ware for instance!

There's been a scarcity in Coffee Biggins in town, but we have a stock of them That will interest everyone.

We get our goods in agate ware from La Lance and Grosjean, the makers, and they have the reputation of making the best goods in their particular lines in the United States. We can get "seconds" from them, but the first quality is the best because the enamel will not chip off.

Water coolers, handsomely painted outside and enamel lined inside, Small ones for a family or large ones for a foundry.

Japanned ware includes cake tins, trays, crumb pans, cuspidors and lots of other things. The prettiest and probably the most useful article in the lot is a toilet stand, very neat as to decorations and complete as to detail in the matter of articles that go with them.

The one that will strike your fancy Has a water tank that will Hold sufficient water for the day.

The price of these articles is not in proportion to the value of the goods. You get more for your money than you are used to, but then—competition has fixed that in the United States—we buy cheap and follow the same rule in selling, you understand the Golden Rule.

Retinned Glue Pots and Slop Bowls Are a new thing with us; Bright and pretty, like a silver dollar.

And you can get them at a price that will amaze you. You should have one of these because they are useful and serviceable.

This is a fish-eating community because the fish are fresh and of an exquisite flavor. All people do not know how to cook them so as to get the substance.

With one of our Agate Steamers you Can steam or boil your fish And not lose the flavor.

These fish kettles vary in size from the mullet to the ulua, and the price goes according to the size.

Farmers' Boilers are not used in every household, but there is scarcely a plantation on the islands but what requires one; they are not to be found in every store in the city, but we have a few of them to accommodate the people who want them.

Among other useful articles let us call your attention to agate and tin basting spoons, tea and coffee caddies, egg poachers, chopping bowls, dish pans, dairy pans and wooden potato slicers.

What is better with your chop In the morning than a few Saratogo Chips? You can get them By using one of these slicers.

Our stock is complete in detail—nothing old or shop-worn.

## Havana Flats

is the latest novelty in cigars. This is a perfectly flat cigar. The filler is Havana of a very high grade and laid in, like the sheets of a book, in the same way as cigars that cost \$150.00 per thousand. The outside appearance of the cigar conforms to the filler, and is perfectly flat. Those of our cigar customers who have sampled them pronounce the Havana Flats of excellent quality and of unique and attractive shape.

## Havana Cigars

by reason of their superior quality and name are usually sold at high prices. We have an excellent line of these cigars direct from Havana. While the quality of these cigars is at the top-notch our prices have been scaled down to bring these popular cigars within the reach of all.

## Manila Cigars

need very little said in their praise, for they are well known here to every smoker. It would be difficult to get a better cigar for the price at which Manilas are sold. We allow no one to undersell us in this line. We compete with any nationality. Remember that when looking for Manila Cigars.

Any one who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J. A. Stumm, 220 Boyle Heights, Los Angeles, over his fortunate escape from a siege of that distressing ailment. Mr. Stumm is foreman of Merriam's confectionery establishment. Some months ago, on leaving the heated work room to run across the street on an errand, he was caught out in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed in front of a good fire and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all rheumatic pains. He now takes especial pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle of it in the house. For sale by all dealers, Benson, Smith & Co., agents for the Hawaiian Islands.

**ALL ABOUT A DOG.**

**Occupies Nearly Two Days' Session of the Police Court.**

A friend remarked to a BULLETIN reporter this morning, "You ought to go up to the Police Court and hear the eloquence that is being wasted on the desert air." As he had already been there and knew that Lawrence Kip was talking and that he could do so by the hour or yard, he gathered up a few items in the meantime.

The first case called this morning by Judge Perry was that of the Republic of Hawaii vs. Thomas E. Krouse, for the crime of malicious injury committed on the 19th day of the present month by wilfully and maliciously killing a certain dog, the property of B. Berger, the said dog being valued at fifty dollars in coin of the Republic; the case came on yesterday and the defendant promptly pleaded not guilty and J. A. Magoon appeared as his counsel. The magnitude of the case required the employment of additional counsel to represent the Republic of Hawaii, and Leonard Kip appeared as assisting the prosecution. As Mr. Kip did the whole business, and did it well, it is a question whom he assisted.

Ah Hing testified that he was about the grounds of the Arlington hotel and saw a dog there. He afterwards heard the report of a gun in the hands of the defendant and the next thing he heard was the dog's crying. He next saw the dog lying on the floor of the hotel and it died about two hours after. He buried the dog but took off its collar first. Recognized the collar produced in Court as the one taken from the dog.

B. Berger testified that the dog was his and that it was a valuable trained hunting dog and worth \$50. W. M. Graham, C. J. Whitney, C. L. Brown, W. H. Drummond and W. M. Cunningham, all testified as to the value and other matters connected with the dog and the prosecution rested.

The defense moved for a discharge and the Court denied the motion, and continued the case until this morning, when L. S. Augst, G. H. Ruttman, H. G. Wooten, Unda and A.R. Rowat testified for the defendant. The latter in his own behalf testified that he shot the dog because it was a common nuisance about the place.

After hearing arguments lasting about an hour, the Court found the defendant not guilty and discharged him.

**Popular Topics of the Day.**

May 27, 1895.

If it had not been for the excellent quality of coffee produced in Kona, it is not likely that foreigners would have been induced to invest their capital in lands in that district nor would the building of a telephone line, such as the new company proposes to construct, have had an existence even on paper. It's the fact that the locality produced in a small way and in the most primitive manner an article which caught the fancy of "canoozers" in the matter of coffee; they wanted more and they were willing to pay a good price, but there were no means of getting it. Investigation demonstrated that the land would produce an unlimited quantity, but the people in the vicinity had not given the proper attention to the cultivation, you all know the result, foreign capital came in and is coming every day, and before another decade the production of coffee will be a leading industry of the islands and the machinery used in pulping, cleaning and putting it through the various processes necessary to make it marketable will come through us. And why? Because we are interested in the coffee business; we know what is wanted and we secure the very latest improvements in coffee machinery. What is good enough for one man may not be good enough for another, but our stock of implements for the coffee business is good enough for all. The industry is still in its infancy and the growers do not know themselves just what they require, but if they will communicate with us, we can give them the necessary information.

The Helen Brewer brought us what charcoal irons will be needed during the next few months and the price is just what the condition of affairs here warrants. There was a time, not many years ago, where a single charcoal iron cost \$5.00. In those days it was a luxury to own one, now it is a necessity and the low price we charge for them enables every one to have one.

We've never done much in the way of Refrigerators because the town seemed to be well supplied, but the prospects for a reduction in the price of ice warrant our carrying a few to accommodate people who want a really superior article—something they may depend upon to keep their meats and vegetables in during the day and over night without spoiling. It took an Eastern man to devise something a little better than any other inventor could produce—and we sell them.

For people who live out of town and wish to maintain their own telephone lines we wish to recommend our Long Distance Telephone and Chicago Magneto bells. With these instruments a conversation may be carried on between parties at almost an unlimited distance from each other. We have all the necessary articles used in the construction of private and public lines of telephones and can supply them at the lowest rates.

Among the articles received by the Helen Brewer are Brass Pipe Fittings—Galvanized Pipe and fittings—and Genuine New Bedford Cordage. If you are interested in galvanized pipe get a quotation from us.

### A Deserter.

EDITOR BULLETIN:—

The sensational article in last night's issue of the Star may be amusing and it would be good if true. The Star prints an article having for its caption "Sheath Knife Drawn" and "pulling off pistol" prevents its use.

There is not one word of truth in the Star's statements. I had previously been advised that certain sailors, all belonging to one ship, were looking for me, and a superior officer notified me of the fact and gave me the following instructions. "If intimidated and crowded by numbers use your club freely." I did not even do that. It was not necessary. No knife was drawn nor pistol. It should be stated that a warrant was out for the deserter hours before the alleged trouble. If there is a man in our small community who is competent to translate the Russian-Finland language, I shall have a witness proving in undeniable terms my entire innocence of any attempt to make money from an ignorant foreigner, and Captain Mahany will bear me out when I state that I acted as a peace officer should—under the circumstances which arose from pretty nearly nothing. Specials are supposed to be a bad lot, I shall always endeavor to raise and elevate their character.

Gentlemen:—I was very much run down, had no appetite at all, was very nervous, had no sleep night or day; to sum it all up, I was perfectly wretched. But thanks to Paine's Celery Compound I can now eat and sleep and work just as well as I could before I was taken sick. When I commenced taking the Compound I weighed 136 pounds; I now weigh 158 pounds and do all the work for my family of five. I have recommended the Compound to three families already and they are very much pleased with it. I am now taking my fifth bottle, and would recommend it to all who are suffering with stomach trouble or nervous trouble.

**The Hesper Tragedy.**

A late Coast exchange says that Herman Sparf, under sentence of death, has been acquitted on his second trial and the chances are that Hans Hansen and Thomas St. Clair, the men convicted on joint trial with him of the murder of Mate M. Fitzgerald of the bark Hesper, will either get a commutation of their sentence or a new trial.

Sparf's case was tried with great patience, and his attorneys, C. W. M. Smith and J. J. Kierce, made a most able defense. In fact although the charge of the Judge was decidedly in favor of the prisoner, still the verdict of "Not guilty" was surprise to those who had followed the case. Smith made a masterly closing speech on behalf of the prisoner and all that United States District Attorney Foote could say on his side of the case could not shake the opinion of the jurors.

Messrs. Kierce and Smith have defended the prisoners without fee and the expenses of the various trials have been paid out of their own pockets. Now that Sparf has been acquitted they expect a nolle prosequi in the case of Hansen and a commutation in that of St. Clair.

**National Cane Shredder**

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

Mr. John A. Scott, Manager of the Hilo Sugar Company, gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop last harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 125 hours grinding with an output of 3694 tons. This is fully 10 percent more than the best work of former years.

"The three roller mill being 26 in. by 54 in. and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company.

"And by its use the extraction has been increased from 3 percent to 5 percent on all kinds of cane, and in some cases 80 percent has been reached; the average being 75 to 78 percent, according to quality.

"I continue to find the megass from shredded cane better fuel than from whole cane.

"The shredder has been working day and night for seven months and has given me entire satisfaction, having shredded during that time about seventy thousand tons of cane, and a large part of it being hard ratoons.

"The shredder and engine require very little care or attention."

Plans and specifications of these Shredders may be seen at the office of

Seven Pounds in One Week

Not every man who is thin would thank you for fattening him. He doesn't want to be fat and for every good reason. Unnecessary fat is a load to carry about; it interferes with a man's power to work, shortens his wind, and dulls his wits.

Yet, on the other hand, a certain amount of flesh is needed for health and comfort. For example; A man five feet high should weigh about 120lbs.; and man five feet six inches, 145lbs.; a man six feet, 178 lbs. It is a regular ascending scale. The insurance companies allow a variation of 7 percent above or below it, and beyond those limits charge an extra premium.

Now we will tell you how Mr. Thomas Crosby, being under weight, gained seven pounds in a week. He had lost 1 1/2 stone, which is too much off for a man who was never fleshier than he naturally ought to be.

To use his own word: "I rapidly lost flesh, was 1 1/2 stone lighter, and could hardly walk about. Once my parents thought I was dying, and sent in haste for the doctor. I saw two doctors in Epworth and one at Haxey, but they were not able to help me. Our vicar, Rev. Mr. Overton, recommended me to the Lincoln Infirmary, where I attended for eight weeks as an outdoor patient, without benefit.

"Soon afterwards Mr. Sharp, a chemist, at Epworth, spoke to me of the virtues of a medicine known as Mother Siegel's Curative Syrup. Being interested in what he said, I left off trying other things and began taking this Syrup. In a few days I felt better, and presently I gained seven pounds in a week. At that rate I soon got back to my work, and have had the best of health ever since. I tell these facts to everybody, and am perfectly willing they should be published.

After reading Mr. Crosby's story we scarcely need to ask why he lost flesh. The minute he stopped eating and digesting his usual allowance of food he began to fall away. Trees, they say, grow as much from the air by means of their leaves, as they do from the soil. But men don't. They've got to be built up through their stomachs. Indigestion and dyspepsia (Mr. Crosby's complaint) stops this process and poisons those who have it, besides. That accounts for all the painful and dangerous symptoms our friend speaks of. The doctors do what they can, but, unluckily, they don't possess the medicine that goes to the bottom of this disease and cures it. The remedy is Mother Siegel's Curative Syrup, and nothing else, so far as we know. It restores digestion, and digestion covers the bones with fat enough for health and good looks.

The restoring and invigorating properties of Hood's Sarsaparilla, combined with its power to vitalize and enrich the blood, render it peculiarly adapted for all troubles peculiar to women, that tired feeling, or debility, caused by change of season, climate or life. Many weak women have found in Hood's Sarsaparilla just the blood purifying and vitalizing properties so much needed at the critical time of life.
